Ferguson said if his name is placed on the ballot his wife would withdraw, but if the committee refuses to place his name on the ballot, his wife would make the race as a candidate for the United States senate.

Harry Warner of Paris, candidate for governor, whose fate is in doubt because of late arrival of his application in the office of Secretary Hale in Waco, also is here and will present his case to the committee. In this connection, it is understood that Governor Neff favors leniency in Warner's case and would like to have Warner's name on the ticket.

FEDERATION TO FIGHT COURTS FOR LABOR'S 'CONSTITUTIONAL RIGHTS'

Annual Session Pans 'Enemies' at Convention Held After Year of Strife.

CINCINNATI, June 12.—Under unusual disputations and ominous conditions, the forty-second annual convention of the American Federation of Labor met here today. With the coal miners on strike and the railroad workers voting on a strike, with wage cuts impending in several lines and a great number of union men in the army of the unemployed, organized labor is at a critical period of its history, its leaders said as the convention opened.

Action taken at the convention which opens today will determine whether labor shall go forward or be pushed back. Samuel Gompers, the federation's president, declared: "Organized labor is in no mood to reason or assumption of power, no to have its constitutional rights and privileges taken from it by any subtle matter where they originate."

"We understand them and are as ready or more ready than they are," he declared. Open shop, unemployment, wage reduction, one big union, recognition of the Russian soviet government, with other subjects were up for discussion on the opening of the American Federation of Labor convention here today.

NIGHT TRAINS ON HAMON LINE CUT OFF SUNDAY

Road Figuring on Adding Motor Car Between Breckenridge and Ranger.

Effective Sunday morning at 12:01, the Hamon road will put its new schedule into effect, cutting off the two night trains, as recently authorized by the state railroad commission. Under the new schedule, one passenger train will be operated each way daily.

While the road greatly regrets to decrease its passenger service, the business will not justify the maintenance of four trains daily at this time, J. A. Hillis, general manager, stated this morning, as there has been a loss on passenger revenue for several months. Mr. Hillis said that plans were being considered to run a motor train between Ranger and Breckenridge in addition to the regular service, and that such plans would be in all probability put into effect provided that the business would justify it.

Under the new schedule the north bound train now arriving here at 4:06 p. m., will reach Ranger at 3:05 from Dublin, and the south bound train from Breckenridge now reaching here at 8:25 a. m., has been changed to 8:35. The time between Ranger and Breckenridge is to be cut down twenty minutes, the trains leaving there a half hour later and arriving here ten minutes later under the new schedule.

DEWBERRIES BIG AS APPLES

The possibilities offered by the vicinity adjacent to Ranger as a berry country were proved this morning by an unknown visitor at the Times office, who left a box of the largest and easiest eating dewberries imaginable.

Some apples would be envious of their size. The visitor, a woman, left the box with the remark: "Here is a boost for Ranger." While an employee of the paper was gaping at the size of the berries, the donor left, without giving her name or other particulars.

A new storm is sweeping down upon New York state today. Telegraph lines were cut by the gale between Troy and Syracuse.

CONVENIENCES AND BUSINESS.

Ranger voters, as was expected,
rallied to the support of the schools
in Saturday's election.

The telephone company is extend-
ing lines into Hodges Oak Park and
probably will into Lackland addition.

Electric lines are to be extended
down Tiffin road to the ice plant, and
will serve residences in that section.

That all helps. A community which
supports its schools and which ac-
quires the conveniences of a metropo-
lis, cannot help but be a desirable
place of residence for those whose
vocation enables them to live in it.

Remuneration, of course, is the
main essential of an abiding place—
that a man's business or his position
will enable him to adequately care
for his family.

To that end, every citizen should
make himself an unofficial commit-
tee of one, to look about for oppor-
tunities by which he or someone else
can make money. If it appeals to
him as better than his present posi-
tion, let him grasp it. If not, and it
will appeal to someone else, it should
not be kept hidden. Rather, it should
be aired, in order that it may be
worth while for some other person or
persons to reside here.

That way, there will be more to
support the schools and the public
utilities, and the community burdens
will be lowered to all who are here.
There is a momentum attached to a
growing town, which adds population
without solicitation. But before that
momentum can be acquired means
must be found to interest others in
coming here.

Improvements attract population,
but population also draws conveni-
ences.

Patriotism and sentiment have not
departed entirely from our midst.

PEOPLES BANK
ADDS THREE NEW
MEN TO STAFF

To provide better service for its
patrons, the Peoples State bank has
added another man to its staff, in the
person of L. L. Nell, formerly with
the Joseph Dry Goods company. Mr.
Neal has been placed in charge of the
incoming and outgoing mail.
Guy Parker, teller on the second
window, has resigned to accept a po-
sition with the new bank at Eastland
and will be succeeded by Brady Dav-
enport. Wesley Peterson, former
bookkeeper, has been placed in charge
of statements. Two new bookkeepers
have been employed to fill the vacan-

CRAZED TAILOR
HURLS SISTER
OUT OF WINDOW

NEW YORK, June 12.—Hurling
his bedridden sister from the fifth
story of a squalid tenement house,
No. 476 East Houston street, in the
heart of Manhattan's slums, Irving
Cantor, twenty-six, a crazed tailor
out of work, yesterday rushed into
the arms of a patrolman while try-
ing to escape.

The girl, Becky Cantor, nineteen,
long an invalid, fell to the concrete
arway below. Her fall was partly
broken by a cotton clothesline.

Chance to Recover
She was taken to the Gouverneur
hospital, where an examination showed
several internal injuries and con-
cussions of the head and body. Ac-
cording to the physicians, the girl has
an excellent chance of recovery.

Yesterday afternoon Patrolman
McCabe heard cries of "murder" and
screams emanating from the Houston
street tenement. He dashed up the
narrow stairway and encountered
Cantor rushing down. Cantor admit-
ted to the patrolman, the latter
declared, he had thrown his sister
from the fire escape window.

Long Without Work
According to occupants of the tenement
dwelling, Cantor is a clothing
cutter and has been out of work for
some months. They told the police
the mother, sister and brother were
invalids and were confined to their
quarters most of the time.

Cantor was formally charged with
felonious assault and is being held
at the psychopathic ward at Belle-
vue hospital for mental observations.

MOSQUITOES SO THICK
THEY CAUSE "FIRE" CRY

CHICAGO, June 12.—Mosquitoes
flying in such thick swarms that
they were mistaken for
smoke caused two fire alarms
here.

Members of a truck company
answered a call saying that the
steeples of the St. Michael Roman
Catholic church was burning.
The firemen saw what they at
first supposed was a small cloud
of smoke, and they raised their
extension ladders.

When pipemen mounted the
ladder they encountered the
mosquitoes and were forced
back. They found no fire.

The same experience was met
by members of an engine com-
pany called to the Zion Baptist
church in another section of the
city.

Francisco is 11,500 miles.

She Killed "Perfect Lover" of Fifty Loves

Peggy Marie Beall.

Peggy Marie Beall, nurse, of
Springfield, Ill., and Dayton, O., shot
and killed Frank W. Anderson in a
Kansas City hotel and then attempted
suicide, but she will recover. She de-
clared he was to have married her,
but she found he had not been di-
voiced. Anderson was a major in the
air service during the war and met
Miss Beall, then an army nurse, in
Dayton. She called him the "perfect
lover," but said he had boasted to her
that fifty women loved him. Ander-
son was a native of Collingswood,
New Jersey.

HERE ARE SOME REAL QUESTIONS

Edison Asks What to Do With Three Eights Against Pat
Hand; What Shall Salesman Do After Seeing
Buyer With Chorus Girl.

SOUTH ORANGE, N. J., June 12.—
If you know nothing of anthropol-
ogy and the source of all known and
unknown raw materials, but know
what to do if you see a married man
out with a blonde chorus girl and
often 'sit in' on a friendly game you
have a chance to answer at least a
portion of Thomas A. Edison's latest
questions.

The list of questions issued today
is far more reaching than any con-
tained in previous questionnaires. Ap-
plicants for positions with the Edison
company must be able to define Lue-
coyotes, Menhaden, Botifer, Epige-
leelson, besides having a full knowl-
edge of poker.

Here's Edison's question on the
great indoor sport:

"You have only \$10 in the world
and are playing poker with a man
you have never seen before. On the
first deal he holds a pat hand. You
have three eights after the draw.
There is 50 cents in the pot. He bets

a quarter. What are you going to
do and why?"

If you find that question easy try
the following:

"You are a salesman making every
effort to get an order from a big
manufacturer who is married to an
unusually jealous wife. One evening
you see this prospective customer
dining in a restaurant with a pretty
chorus girl. What would you do?"

If your wife agrees with your an-
swer then try to answer some of the
wizard's latest questions, which fol-
low:

"What breed of cow is the greatest
milk producer?"

"What is grapefruit made from?"

"Of what use is a swimming blad-
der in fishes?"

"What is a Soviet?"

"Can you think of any event which
has happened since Jan. 1, that will
be reported in histories fifty years
from today?"

Near the end of the list, Mr. Edison
asks:

"Why is it necessary for us to
breathe?"

Herrick's Opponent
For Congress Would
Out-Herrick Herrick

By Associated Press.
OKLAHOMA CITY, June 12.—Nati-
onal legislation should suppress Sun-
day newspapers and exclude from the
United States mails newspapers con-
taining full-page advertisements. This
is a plank from the platform of Thom-
as Pratt Hopley of Enid who, aspir-
ing to succeed Manuel Herrick, "aerial
dare-devil" Congressman from the
Eighth Oklahoma district, filed here
as an independent candidate.

Reasoning the issue, Hopley says:
"If an advertiser can not tell the
truth about his bargains in one-fourth
of a page, he is a false witness on bar-
gains and should not be permitted the
use of the mails."

Hopley also demands a national law
prohibiting citizens from taking a ref-
erendum vote on their laws. To quote
from his printed declaration:

"The first rotten referendum vote
of history was when the Israelites
took a vote and decided to worship a
golden calf. A majority of the men
are too dumb to understand what
American laws mean and wait for the
latest guess of the supreme court."

Big cities are "grievous burdens on
the toiling masses" and therefore sky-
scrapers should be "beheaded," Hop-
ley asserts in his declaration.

All able-bodied men should be re-
quired to work eight hours a day,
Hopley says, adding that wage dis-
putes would be adjusted under "the
divine teachings forbidding covetous-
ness."

One side of the printed platform is
devoted to a denunciation of the town

of Enid, its "automobile killing ma-
chines" and its "vile motion picture
shows."

S. S. S. Fills Out
Hollow Cheeks,
Thin Limbs!

Men and women,—whether you will
ever build yourself up to your normal,
just-right weight depends on the num-
ber of blood-cells in your blood. That's
all there is to it. It's a scientific fact.
If your blood-cell factory isn't work-
ing right, you will be run-down, thin,
your blood will be in disorder, and
perhaps your face will be broken out
with pimples, blackheads and eruptions.
S. S. S. keeps your blood-cell
factory working full time. It helps
build new blood-cells. That's why
S. S. S. builds up thin, run-down peo-
ple, it puts firm flesh on your bones, it
rounds out your face, arms, neck,
limbs, the whole body. It puts the
"pink" in your cheeks. It takes the
hollowness from the eyes, and it fools
Father Time by smoothing out wrin-
kles in men and women by "plumping"
them up. S. S. S. is a remarkable
blood-purifier. While you are getting
plump, your skin eruptions, pimples,
blackheads, acne, rheumatism, rash,
tetter, blotches are being removed.
The medicinal ingredients of S. S. S.
are guaranteed purely vegetable.
S. S. S. is sold at all drug stores, in two
sizes. The larger size is the more
economical.

CONSTITUTIONAL RIGHTS

ing to meet workers in conference for
negotiation."

Turning to courts, the executive
council protested "most emphatically
against such unjust and inhumane de-
cisions" as that of the supreme court
voiding the act intended to abolish
child labor in the United States. Con-
gress "by this decision, must keep its
hands off when the health and life
and well being of the nation's children
are concerned," the report asserted,
adding that "the supreme court of to-
day is far more legalistic and less hu-
mane in its attitude and temperament
than was the supreme court of 1918."

"The year is marked particularly
with an increasing hostility of the
judiciary toward the effort of wage-
earners to prevent deterioration of
their standards of life and labor," the
report continued, "and we recom-
mend that an appeal be made to that
higher court of public judgment, and
that the public conscience be aroused
to the great and grave menace which
confronts the perpetuity of the consti-
tutional rights and liberties of all
our people and as originally conceived
by the founders of our republic."

Instances of Abuse.

Instances of "most flagrant abuses
of equity power" were declared to be
contained in Federal Judge Ander-
son's order at Indianapolis, enjoining
discontinuance of the "check-off"
system of collecting miners' union
dues, and in Federal Judge McClintic's
decision in West Virginia
against strikers of the same union in
that state. This latter decision the
report characterized as "conclusively
evidence that the injunction as used
is devoid of all sense of fairness and
decency and that our courts of equity
can be turned conveniently into in-
struments of the greatest iniquity
whenever it will best serve the inter-
ests of soulless corporations and a
mad desire for wealth."

State legislative bodies also were
taken to task in some cases, chiefly in
the matter of compulsory arbitration
laws. The Kansas industrial court
was described as "an utter failure"
and similar legislation in Colorado
was said to be "equally as absurd and
fully as dangerous."

BUENOS AIRES, June 12.—The
outlook for the diligent footpad in
Buenos Aires is not by any means a
pleasant one, the chief of police hav-
ing ruled that when arrested he must
travel over a "via dolorosa" of forty-
six stations. The plan is to give the
police of all sections an opportunity
of making the man's acquaintance
with a view to the possibility of their
meeting him again.

Twelve hours "on view" at each of
forty-six police stations, with the rest
of the time in the central station, plus
photographing, finger prints, and a
careful biographical sketch form the
program for entertaining each guest.

CLOVIS CASTOFF STARTS NITROS' WINNING RALLY

Heavy Hitting Gives Victory in Spite of Loose Fielding Behind Phillips.

Special to the Times. CLOVIS, N. M., June 12.—Bud Ammons, former Clovis third sacker, just released, signed up with Ranger and started a rally in the eighth inning by knocking the old pill over the fence with one on, Ranger coming from behind and trimming Clovis by the tune of 6 to 3. Clovis took the lead in the sixth when Bean put the agate over the fence for one of the longest hits seen on the home grounds. It was a fine day for the hot corner men.

HAIL BARRAGE PUTS AVIATOR IN GREAT PERIL

WASHINGTON, June 12.—Bombarded by the artillery of the skies with hailstones that cut and ripped like shrapnel, Major Leo G. Heffernan of the army air service, is safe at Kelly field after a flight through a violent storm as perilous as any that was made over the front, a report to the war department says.

POLE 132 YEARS OLD CLAIMS HE AIDED NAPOLEON

WARSAW, Poland June 12.—Sergt. Jan Krasanski, a pole, who says he is the only survivor of Napoleon's armies, proposes to settle down quietly for the rest of his life in the district of Posen, where land is provided by the Polish government for war veterans.

That he was able to make a safe landing in his bruised and bleeding condition is considered remarkable by fellow officers, and that his plane and propeller held together is regarded as equally surprising.

His wife died last year in Russia. She was 98. Krasanski says he was born the year after the French revolution was begun. He was 2 years old when Murdock introduced gas lighting to the world.

TOKIO, June 12.—Admiral Baron Kato Sunday accepted the premiership. His non-party cabinet comes into power with the avowed intention of carrying out the agreements of the Washington conference in spirit and in the letter.

WEBB SAYS IT'S WILSON'S PLACE TO APOLOGIZE

DALLAS, June 12.—Rev. Atticus Webb, editor of Home and State, Sunday issued the following statement concerning the article from Amarillo concerning the charges made against United States Judge James C. Wilson for the repetition of which Judge Hall apologized to Judge Wilson.
Webb's statement follows:
"If any apology is due anyone, the apology is due the editor of the Home and State from Judge James C. Wilson. Certainly no apology is due Judge Wilson from the Home and State, for the Home and State did not make the charge but simply quoted Dr. Norris. In this quoting of Dr. Norris there was not in it the element of endorsement, but rather the element of fair play. Let your readers may not have a copy of the Home and State on file we will quote:
Asks Correction.
"In an address at the city hall at Dallas on April 23, Dr. J. Frank Norris made a statement concerning Federal Judge James C. Wilson and some others that, if correct, is of serious concern to the public. Inasmuch as Dr. Norris delivered this address on invitation of the Anti-Saloon league, the Home and State is unwilling for it to go undisputed if there be any one to challenge it. So the Home and State herewith offers its columns to the correction of the statement on the part of those concerned, or their friends, if their friends can vouch for the accuracy of their knowledge." Then I give in substance the charge made, and closed with the following language: "This space will be reserved in the issue of June 1 of the Home and State for the denial of the facts above stated and we ask that friends of the parties involved see that this invitation is extended to all concerned."

ASKS CORRECTION.

"Believing that statements concerning public officials are serious questions, Home and State always stands for fair play and correct information."

"Judge R. W. Hall is my personal friend. Your news item quotes him as calling on the Home and State to make a public apology for publishing the Norris statement. If he has done so, and I will re-read the Home and State, I am sure he will withdraw his call on the Home and State, for Judge Hall always wants to do the right thing."
Sent Marked Copy.

"We sent Judge Wilson a marked copy of the issue which should have had a courteous reply from the judge as it did have from the federal attorney, Henry Zweifel. Instead of this courteous reply confirming or denying the charge of Dr. Norris, Judge Wilson waited until he got upon the bench, protected by his office, 300 miles away, and insinuated that the Home and State had lied."

Confucius, Dead 2500 Years, Gets Page One Stories

By Associated Press.
PEKING, June 12.—Almost twenty-five centuries have passed since Confucius died at Chufou, Shantung province. Yet he is today the subject of news items on the front pages of Chinese newspapers. Recently two brothers engaged in a public quarrel over the expense of the upkeep of Confucius' tomb.

K'ung Ling-shu, who is poor, receives from the government \$2,000 gold annually to guard and preserve the Chinese sage's tomb erected on the outskirts of Chufou in 479 B. C. K'ung asserts that the allowance is insufficient and that since the population of Chufou is made up almost exclusively of Confucius' descendants the family ought to provide ample funds. He has appealed especially to his younger brother, who, as the guardian of Duke K'ung, Te-cheng, reputed to be the seventy-seventh direct descendant of Confucius, is wealthy. But the younger brother maintains he is the custodian of the fortune of the 2-year-old duke and is therefore unable to assign funds. Meantime weeds are said to be growing on Confucius' tomb and the soldiers guarding it are working on half pay. The controversy in the Chinese newspapers is based on speculation as

FOLKS LOSE SLEEP UNDER WASHINGTON 'DAYLIGHT SAVING'

WASHINGTON, June 12.—Washington's voluntary daylight savings system, by which the government departments are opened and closed an hour in advance of the regular time, although the clocks remain the same, is due to be abandoned, it became known today at the White House.
When that will be, however, is in doubt, although Mr. Harding let it be known that a change will come before the public schools are reopened in the fall, so that no unnecessary hardships need be worked on mothers who in the last few weeks have had to get up an hour earlier to get their children off to classes.
But the change may come before that if official requests are made to the White House.

EARTHQUAKE RECORDED.

MILWAUKEE, June 12.—Two earthquake shocks were recorded on the Marquette university seismograph here today. The first started at 12:55 a. m. and lasted forty-five seconds. The second started at 6 a. m. and lasted eight minutes. Prof. J. J. Carroll estimated the quakes were 2,000 miles from Milwaukee in a southwesterly direction.

MOONSHINE SOOTHES BABY USED AS BALL

CINCINNATI, June 12.—Physicians in the receiving ward at the General hospital rubbed their eyes, looked a little more professional, and then shook their heads yesterday, all because a two-year-old girl meandered across the room in a delightful state of "moonshinism." Official report on the register in the receiving ward shows a diagnosis of "acute alcoholism."
The child was conveyed in the hospital ambulance from her home, where, according to the ambulance driver, a party reminiscent of pre-prohibition days was being given.
The mother of the child, according to witnesses was using the girl as a "rubber ball," as she had been dropped on the floor seven times, according to actual count.
Not caring to be used as a "ball," the child objected, and to appease her "moonshinism" was given to her several times. Neighbors finally interfered. The child was reported to be "resting nicely" last night.
A round forehead indicates insensibility.
