

NEW TRAIN PROPOSED HAMON-KELL LINE

Federated Farmer-Labor Party, Third Political Organization Splits While In Its Infancy

Communism and Henry Ford Declared the Rocks on Which the Party Ship's Planks are Torn; Principles Endorsed by the Majority.

CHICAGO, July 6.—The country's third political party was split today, a few hours after it had been organized, over communism and Henry Ford. Liberals in the minority, fathered by the Farmer-Labor party, forced adoption of the Workers' party plan for organization of all present political minorities.

C. E. Ruthenberg and William C. Foster led the liberal majority that fears mention of the soviet and communism. Others fought the organization plan and yet others announced they would continue the fight and also split with the liberal minority over mention of Henry Ford for president, denouncing him as a capitalist.

Members of the American Federation of Labor declared they would be expelled from that organization if affiliating in any manner with the Workers' party, which demands immediate recognition of Soviet Russia and of Mexico. The new party has adopted the following principles:

Nationalization of all public utilities, communications and transportation. The industries of the nation must be operated by the workers and the farmers. The workers and masses must be assured against destitution, unemployment and oppression. The convention also favored an eight-hour working day with prison sentence for all employers of labor violating this law. The convention also adopted a resolution demanding the release of 36 political prisoners now held by the government and opposing all war propaganda.

Arrests Promised For Murder of Lang In Burleson County

SUMMERVILLE, Texas, July 6.—"Arrests will be made immediately for the murder of Otto Lang." This was the declaration of Capt. R. W. Aldrich of the Texas rangers and Clint Lewis, sheriff of Burleson county, speaking today over long distance phone from Caldwell. They were due to arrive here this morning, Aldrich having been ordered by Acting Governor Davidson to assist local officers in running down the murderers of Otto Lang.

A new theory for the shooting has developed. It has been learned that a slight dispute had arisen in the Lang family over Lang's treatment of some of his employees. A reward of \$500 has been offered by the state for the arrest of Lang's slayers.

Another \$500 reward has been offered by the acting governor for the arrest of the party or parties who shot down Ed Thurber in the streets of Caldwell last November and no bill was returned by the grand jury. "This is the second brutal affair of this kind in Burleson county and responsible parties have gone unpunished," Acting Governor Davidson said. "If necessary I shall go myself into the county to determine the reason for such action."

RELICS OF KING TUT'S TOMB WILL BE PLACED IN CAIRO MUSEUM

CAIRO (By Mail).—The Egyptian ministry of finance has been asked for special credit amounting to about \$175,000 for the purpose of erecting an annex to the Cairo museum, the building of which has been rendered necessary by the discovery of King Tutankhamen's tomb.

The work is expected to be commenced without delay, though the exhibition of the objects discovered will not be possible for some time after the completion of the annex owing to the careful and expert treatment they will require.

"TIMID AND GOOD LOOKING" GIRL WITH DARK HAIR AND EYES, BEING SOUGHT IN RANGER BY HER DAD

Fay Simpson, 22 years old, dark haired and with dark eyes, thought by her father, C. W. Simpson of Colorado, Texas, to be in Ranger is being sought by the local police. She is described as being "good looking" and "timid" by her father in a communication to the police, in which he asks that the authorities aid him to locate her. Fay left Colorado, her father

said, because "she wanted to go out and work." He has not heard from her and has become alarmed. He didn't say when she left home.

The father thinks she may be at a hotel, boarding or rooming house.

Chief Davenport said today his men had not been able to locate her in Ranger.

"Own Your Home" Campaign Is to Be Pushed in Ranger

"Own your home" will be the slogan of a committee appointed last night at the Chamber of Commerce directors' meeting. The committee consists of two members so far, with additional members to be chosen later by O. D. Dillingham, president of the chamber. Edward R. Maher and J. W. Sanders are the two men on the committee at the present time.

The nature of the campaign to be inaugurated and the time of its inauguration will be determined after the committee's organization.

Owners of plots and also of so-called shacks have come to the chamber, inquiring if they would be able to secure capital to put real homes on the market. The chamber has not been able to promise them any assistance so far.

It has been pointed out that the absence of a building and loan company here, such as Breckenridge has and which is contributing greatly to the upbuilding of that city as a community of homes, has been in the main responsible for the absence of home building here this spring.

Oil Wells Coming, Good Production When Oil Needed

Two oil wells that came in this week in the Ranger field, north of the city, have been shut in, pending the outcome of the owners to get pipe line connections. They are the J. L. Thompson and Lester Adams well on the J. M. Williams farm, adjoining the Nannie Walker farm and the Price well on a tract adjoining the Gardenhire gas wells tract. The Price well is one mile southeast of the Thompson-Adams well.

The well, which came in last Monday, was flowing an estimated 200 barrels before being shut in at 2,072 feet. The top of the sand was reached at 2,050 feet. The Strawn sand depth is around 2,000 feet.

The well can be drilled in 75 feet deeper in the sand, according to Thompson. He believes it will be a 400 or 500-barrel well when drilled in.

The first five hours the well flowed last Monday it flowed eight separate times.

The Price well, which came in Monday, is also in the Strawn sand.

EASTLAND MAN REPORTS TO POLICE WHIPPING BY UNMASKED MEN

EASTLAND, July 6.—W. J. Jones reported today to the police that he had been seized by five or six unmasked men last night and whipped with a leather strap. Apparently he did not know any of his assailants.

LAREDO.—Extensive improvements are to be made at once to the street car system in this city. Laredo had the first electric street cars in Texas.

PRESIDENT HARDING ON WAY TO REAWAKEN ALASKAN TERRITORY

ON BOARD THE UNITED STATES TRANSPORT HENDERSON, July 6.—Alaska, land of mystery to many Americans, is to be reawakened by President Harding. The army transport Henderson, carrying the presidential party, today is steaming up the western coast of America and President Harding is outside the territorial waters of the United States for the first time since he became President.

DANIELS INSISTS THE WATERLAND WAS DAMAGED BY GERMANS PURPOSELY

NEW YORK, July 6.—"There was plenty of evidence of sabotage when the Waterland, now the Leviathan was taken over by the American government, former Secretary of Navy Josephus Daniels today informed the New York Times.

Contradicting a recent statement by Representative Madden of Illinois and F. H. Gibbs, engineer who renovated the ship, Daniels declared there had been less evidence of sabotage on the Leviathan than on other interned ships, but there had been plenty there, too.

CHAMBER OF COMMERCE DIRECTORS TO MEET ONCE EACH WEEK

Believing that more must be done to build up Ranger and that one way of doing more is meeting more frequently, the Chamber of Commerce directors last night voted to meet weekly.

The directors will gather together at 7 a. m., each Wednesday, for breakfast and before the heat of the day has set in, will take up matters that will benefit the community.

WAXAHACHIE WAGING FIGHT ON MOSQUITOS

WAXAHACHIE, July 6.—Waxahachie isn't "skeeterless" but its citizens are making good inroads on the long-stingered tribe, according to E. W. Steel, sanitary engineer of the state board of health.

Steel was here several days looking into the mosquito situation. He praised the co-operation of residents in helping rid the city of the pests but warned that unceasing vigilance alone would repel the invaders. Steel particularly urged that the drive be carried with greatest force against "wiggie-tails and adult mosquitos."

COMMISSION ANNOUNCES LUMBER RATE HEARING

WASHINGTON, July 6.—The interstate commerce commission has ordered an investigation into the production cost and import duty on logs, cedar and western hemlock, it was announced today. The commission has set Aug. 3 as the date for a preliminary hearing on the rate question. Commission members have declined to disclose the source of complaint.

RAILROAD WILLING IMPROVE SERVICE

Agreement Conditioned Upon Withdrawal If Added Operation Is Unprofitable.

Conditional upon chamber of commerce organizations (Ranger, Breckenridge and Eastland) agreeing to petition, jointly with the railroad, that in the event the new train service does not pay, they will ask the state railroad commission for its removal, the Wichita Falls, Ranger and Fort Worth railroad will put on a new train between Ranger and Breckenridge.

This information was contained in a letter received from J. W. Mitchell, receiver of the road, with offices in Fort Worth, on June 21. The Ranger chamber at a board meeting last night voted to accept the proposition of the railroad company and in a letter sent to Mitchell today said the chamber would not oppose the removal of the new train if it proved "unremunerative."

What action the two other chambers have taken was not known at either the local chamber offices or the general offices of the railroad today.

J. R. Toeling, acting general manager of the road, said that the date of beginning the new schedule will depend upon the response of the chambers. Eastland, he said, is interested in the change, because of train connections made at Jimkurn by the Ringling road for Eastland, which would be changed.

The Wichita Falls road has bought new rolling equipment, Toeling said. A new passenger coach and a combination mail, express and passenger accommodation will be used for service in the new train. A Frisco locomotive will probably be used to haul it.

The tentative schedule, which hinges upon the general approval of the commercial organizations affected, not to oppose the railroad in the event the company finds the service a burden, was announced today by Toeling. One may go to and return from Breckenridge on the same day on the new schedule.

Lv. Ranger at 5:40 a. m.
Ar. Breckenridge, 7:05 a. m.
Lv. Breckenridge, 7:40 a. m.
Ar. Ranger, 9:05 a. m.
Ar. Dublin, 10:50 a. m.
Lv. Dublin, 1:05 p. m.
Ar. Ranger, 2:53 p. m.
Ar. Breckenridge, 4:15 p. m.
Lv. Breckenridge, 4:50 p. m.
Ar. Ranger, 6:15 p. m.

MAIL CARRIERS NEED NOT RUN RISK OF BEING DOG BITTEN

SAN ANTONIO, July 6.—Owners of vicious or too playful dogs will be required to call at the postoffice for their mail unless the canines are kept well tied, according to an announcement by the local postmaster.

"Dogs have been giving our carriers a lot of trouble recently and the carriers are not required to put up with them," Postmaster P. G. Lucas declared. "Unless people keep their dogs tied up they will have to come to town and get their own mail."

Postal regulations specifically state that carriers are not required to deliver mail at residences where vicious dogs are permitted to run at large, Lucas pointed out.

Lone Star Gas Co. To Build 3 Plants In Ranger Area

The Lone Star Gas company will erect three gas plants in the Ranger gas area and one in the Gorman area, it was said at the Chamber of Commerce offices today. Construction will start shortly.

Field offices of the company will be maintained here after completion of the plants. A warehouse will also be built here, it was said.

U. S. Reciprocal Offer to Foreign Nations Likely to Find Some Acceptances

WHEN GOSSIPING NEIGHBORS INTERFERE AND LAW IS BLIND—PERHAPS O. HENRY WAS RIGHT

SYRACUSE, July 6.—George Shaw, a backwoods farmer, swapped a horse, two calves, some clothing and a little cash for his neighbor's three children, and all were perfectly satisfied with the trade until the law stepped in and broke up the arrangement.

Shaw has a farm near Chenango and his neighbor, Lark Thornton, rents some poor, worn-out land nearby. But the Thorntons have three children, Jessie, 23; Belle, 15, and Howard, 8. Shaw wanted them to work for him, so after some talk this was arranged:

Thorington got the horse, calves, a shirt, overalls and shoes; his wife got a new dress and \$1.36 in cash; each of the children got new shoes, Jessie was given a \$3 dress and Howard 7 cents.

That made everybody happy. The Thorntons had more worldly goods than they ever had had before; the children had a better home and worked no harder, and Shaw had workers who demanded no wage. They told officers they were not abused and Shaw always brought them simple but to them delightful pres-

ents when he went to town. Thornton was glad to get the burden of caring for them off his hands.

But into this rustic paradise stepped the neighbors. They thought it was shocking, so they complained to the authorities.

Shaw was thrown into jail at Truxton, held for the grand jury with no one to go his bail. Jessie and Belle are in the matron's care at the Cortland county jail. The elder will probably be handled by the poor department, the younger arraigned in children's court. Howard has been sent back to his parents, to their and his regret.

Agents sent out to investigate the complaints obtained a ready admission of the bargain from Thornton. Then they went to Shaw's house and the sisters also admitted it, but added they liked it.

Shaw himself denies the charge that he practically purchased the three as slaves. He says there was simply a verbal agreement that they live at his home and work for him in return for the "gifts" he made their parents.

GIRL APPEALS TO CHIEF DAVENPORT IN HOUSEHOLD DILEMMA

Chief O. V. Davenport relates the following story:

A young girl came to the police station recently, saying that her mother was visiting out of town. All of the burdens of housekeeping fell on her as a result.

"Chief," she said, "I couldn't get my brothers up to straighten out the house this morning. They're up now, and they won't get out to let me clean the house. I told them I was going over to the police station and tell the chief. I want you to help me."

"We have funny calls like this all the time," was the chief's comment. How the girl-housekeeper finally fared, the chief didn't say.

BREWSTER COUNTY HAS VAST UNDEVELOPED MINERAL WEALTH

ALPINE, July 6.—Brewster county has mineral possibilities probably equal to those of any other county in the state, according to officials here. It is said that scores of mineral deposits exist within the county's borders.

Quicksilver deposits of the county are said to equal those of any county in the state. Output of the local field ranks among the highest of any field in the nation, it is claimed. In marble deposits, the Jourdan marble mountain has an inexhaustible supply of this material. Oil possibilities also are reported favorable.

Other mineral deposits claimed to be found within the county are: Copper, coal, silver, iron, sulphur, potash, lead, opal, topaz, zinc and some gold.

THREE RANGERS NOW AT SOMERVILLE ON INQUIRY

AUSTIN, July 6.—Ranger Captain C. B. Chester left Austin today for Somerville to assist Captain Aldrich in investigating the Lang killing. Sergeant Hamer will also join the party, it was stated.

J. J. McCain, a former justice of the peace at Somerville, has compiled a list of outrages by men in that vicinity which he is to turn over to the rangers, it is stated. McCain said he had received threatening letters from anonymous sources.

Snappers Enlist Support of Ranger For Baseball Here

Needing \$1,500 approximately to get new players and put the club on a sound financial basis, a Chamber of Commerce committee will begin sending out appeals to Ranger fans to assist the management of the Ranger Snappers financially. Letters will be sent out probably tomorrow, J. C. Smith, chairman of the committee, said today. This move will be followed by a personal canvass of the city.

Presenting the baseball situation to the directors last night, a committee consisting of F. G. Yonkers, Frank B. Crane, John Shannon Jr., Carl Snapp and Boyd Davenport of the Chestnut & Smith corporation, told the directors that the team represented Ranger in the baseball field and the advertising that resulted benefitted Ranger and not particularly Chestnut & Smith.

With that understanding, they declared the club should have the support of the city as a whole. A sum of money is needed, they said, to bring more players here and to operate the club for the remainder of July, August and September.

The directors, after listening to the committee, voted unanimously to appoint a committee to work towards raising the amount said to be needed.

The Snappers, as they are called after the clubs' manager, Carl Snapp, have been financed by the Chestnut & Smith corporation, the uniforms and the cost of conditioning the playing grounds at the city park being borne by the gasoline company. The company also has given nearly all of the players work at their various plants around Ranger.

FIVE MEN AND MANY COWS KILLED IN WRECK OF CATTLE TRAIN

FREEPORT, Ill., July 6.—Five men were killed and a dozen injured in a night wreck of a cattle train of the Chicago, Milwaukee and St. Paul railroad at Fairdale last night.

All of the killed and several of the injured are negroes. The men were in the center of the train and were railroad employes taking care of the cattle, and harvest hands "riding on the rods."

Several were trampled to death by the stampeding of the cattle. Many cattle were killed when a score of heavily loaded cars turned over.

A broken journal caused the accident. The train was en route from Omaha to Chicago.

Rejection of Plan by Great Britain Does Not Mean It Objectionable to Others and Rum-Running Smugglers May Be Given a Jolt.

NEW YORK, July 6.—The possibility that some powers other than Great Britain might look favorably on the suggested plan of Secretary of State Hughes for an agreement covering ship liquor stores on foreign vessels in United States waters and the suppression of rum smuggling, was suggested today when it became known that acceptance of the proposal was being considered by several of the powers that had been approached.

No information could be obtained from the state department on this point. It appears, however, there has been suggestion of acceptance of the principle by some of the parties concerned. The proposed treaty plan calls for a separate agreement with each nation accepting the arrangement. Should some powers be willing to accept the 12-mile agreement, there would be nothing to prevent a two-power treaty covering the subject, which would not only permit ships of that nation carrying sealed ship stores of liquor to move in American waters unmolested, but would also provide for bringing in certain stores under bond for shipment over American railways to points beyond the international boundary.

TEN MILLION BAPTISTS WILL BE REPRESENTED AT STOCKHOLM CONGRESS

LONDON (By Mail).—Britain's delegates to the forthcoming Baptist World congress at Stockholm will number 583. They will sail the latter part of July on the liner Marloch, which will be their home or hotel during the conference.

"A large number of delegates have been appointed for Russia," Rev. J. H. Shakespeare, secretary of the Baptist Alliance, said recently, "but we don't know if the soviet government will allow them to attend the congress. Altogether we have registered 2,500 delegates from all countries, excluding Russia, and the congress will be the largest ever held. The delegates will represent 10,000,000 Baptists."

SHERMAN NEGRO STARTS INQUIRY BY IMBIBING

SHERMAN, July 6.—Ernest Cooper, negro, when full of choc beer is a "rootin', tootin' son of a gun," according to local police.

Ernest started something here when he started quaffing a few quaffs of the potent beverage. Having "choked" himself up to the right notch, Ernest, police charge, chased a negro girl into, through and out of a negro church full of worshippers.

He was finally nabbed by police and locked up. Officers then started searching for Ernest's source of supply. While looking around in a barn in which they thought the beer might be located, they stumbled on a crate of eight window sashes, said to have been stolen from a local lumber yard a year ago.

As they were leaving the barn, the officers spied Milt Jones, another negro, carrying three jugs. Investigation revealed the jugs contained choc and Jones was arrested.

Police agree that Ernest is one of the leading self-starters.

FRENCH OFFICER DIES

PARIS, July 6.—Vice Admiral Ferdinand Debbon, 62, chief of the French naval general staff, died at his home here today. He was head of the French advisory board at the Washington peace conference.

MUSICAL SCALE WILL AID THE PERFUME MAKERS

Must Harmonize In This Scale to Obtain Perfect Blending, Is Claim.

An attempt has been made to arrange perfumes in an order corresponding to the musical scale, says the New York Times. The heavy odors, such as vanilla, represent the lower notes. The higher notes are peppermint and citronella. The scale is called the "odophone." It is said by the sponsors of this method that perfumes cannot be properly blended unless they harmonize according to this scale. A harmonious blend, for instance, would be the chord C.

The odophone suggests many possibilities in the selection of perfumes. The scheme originally was intended to guide manufacturers in blending various odors. It is perhaps not generally known that perfumers recognize only six elementary odors. The countless number of perfumes and scents are made by combining these six ingredients in various proportions. The six odors are the spicy, flowery, fruity, resinous, foul and scorched. Spicy odors are found in pepper, cloves and nutmegs. Flowery odors, as the name suggests, are those of flowers, such as heliotrope or rose. Fruity odors come from apples, oranges and other fruits. By resinous odors are meant those in turpentine or pine needles. A foul odor is found in hydrogen sulphide. The scorched odors are found in tarry substances.

TWELVE-HOUR DAY OF STEEL INDUSTRY GETS FIRST STIFF JOLT

NEW YORK, July 6.—Entrance into the United States of labor from Mexico, the Philippines, Canada and a few European countries soon will make possible abolishment of the 12-hour working day in the steel industry, Chairman Elbert Gary of the United States Steel corporation, said today.

This statement followed action by President Harding in making public yesterday correspondence passing between him and Judge Gary relative to abolishing the 12-hour day when a sufficient labor supply was assured. It was said to be possible the 12-hour day would be abolished within a reasonable length of time.

DEPUTY STATE BANK COMMISSIONER RESIGNS

AUSTIN, July 6.—The resignation of T. P. Priddy Jr. as deputy state bank commissioner, effective immediately, today was announced by Bank Commissioner Chapman. Priddy will become an officer of a bank in Houston.

BALLOONS IN RACE BEING HEARD FROM; TWO NOT REPORTED

ST. LOUIS, July 6.—H. E. Honeywell, pilot of the St. Louis in the national balloon race that started at Indianapolis, Wednesday, landed last night two miles north of Rochester, N. Y., having traveled a distance of 510 miles. This is believed to be the longest distance traveled by any of the balloons.

INDIANAPOLIS, July 6.—The army balloon piloted by L. C. Miller is reported to have landed yesterday at Ford City, Pa., having traveled 375 miles. Fifteen balloons started in the race and 11 are reported to have landed.

MISSOURI MAN SHOTS AND KILLS WIFE AND HIMSELF

SPRINGFIELD, Mo., July 6.—Eugene McClannahan, 44, today shot and killed his wife, Nora, 21, at the home of her mother, Mrs. U. G. Leroy, east of this city. McClannahan then ended his own life. Jealousy is said to have been the cause of the tragedy.

FILMS SHOWING SCENERY ABOUT FIGHT INSPECTED

CHICAGO, July 6.—Motion picture films showing scenes around Shelby preceding the Dempsey-Gibbons fight, July 4, but not showing the actual fighting between the two boxers were submitted to federal authorities here today for inspection. It was said the government authorities probably would permit the pictures to be exhibited.

GASOLINE TAX LAW BEING TESTED IN COURT

AUSTIN, July 6.—Briefs were submitted today by the attorney general in the Travis county district court in the gasoline tax suit. It is being brought to determine the validity of the law passed at the regular session of the legislature.

A number of oil companies have refused to pay the tax, which under the provisions of the gasoline bill, later amended at a special session calls for the payment of a tax of 1 cent per gallon of gasoline.

THE HIGH COST OF CHEAP MONEY

Widows and Orphans Among Chief Losers From Unsound Currency.

E. E. AGGER CITES EXPERIENCE

Speculators Rather Than Investors and Producers Win From Currency Depreciation.

The losses and costs borne by the government and the people of the United States from unsound money experiments, from colonial times down, doubtless total more than our staggering World War appropriations, it is declared by E. E. Agger, an authority on economics, in the Journal of the American Bankers' Association. "Cheap money," he says, is very costly, since frenzied finance, speculation and business disaster have invariably followed in the wake of unsound currency. He cites historical experience showing that widows and orphans were among the chief sufferers.

"New generations of adults, like children, have to learn over and over again that, when playing with fire, one runs the risk of being burned," Mr. Agger says. "Indulging currency heresies constitutes such an adult playing-with-fire. A glance over our own historical experience would demonstrate this to the most ardent 'easy money' advocate, but such advocates are usually those to whom history is 'bunk.'

Soft Money Advocates Seek Profit. "Unfortunately those who are willing to kindle the kind of conflagration involved in 'soft-money' experimentation are not the only ones hurt. Indeed, they may extort an advantage for themselves. But the record is all too clear concerning the mass of people. Heavy losses, injustice, disorganized production and numerous other evils are inevitable.

"Unsound money projects impose heavy costs on the government itself. The first effect of cheap money is to raise prices. Mounting prices mean that, to meet its needs, the government must appropriate always larger sums. Again, dallying with unsound money weakens the government's credit. Prospective bond buyers become hesitant when currency depreciation is threatened, because there is

ANTHRACITE MINERS WANT NEW AGREEMENT

ATLANTIC CITY, July 6.—Anthracite miners today laid down their ultimatum to the coal operators with 11 specific demands, including a call for a 20 per cent wage increase. Representatives of the mine workers went into conference with mine operators in an effort to avoid a strike. The miners demand that their specifications be embodied in the new working agreement, which is to go into effect on Sept. 1, on which date the present agreement expires.

PERSONALS

Mr. and Mrs. Saunders Gregg returned Friday morning from a 10 days vacation trip. Mrs. R. B. Leonard, 345 Wayland road, is ill with typhoid. Although ailing for the last two weeks, she has only been confined to her bed for a day as the doctors pronounced her illness typhoid on Thursday.

Dyeing plants of England shut down all Saturday, the employees working nine and one-half hours the other five days of the week.

OUR MOTTO: QUICK SALES AND SMALL PROFITS

danger of agitation toward the payment of government obligations in the cheaper money rather than in specie. Any such weakening of government credit means lower prices received for bonds, consequently greater burdens on the Treasury. Assuming that, in the end, sound principles triumph, the indulgences of the unsound currency days leave further costs to be met. If paper money has been issued it must be redeemed. If a government is unwilling to stoop to repudiation it must raise much more in taxes to pay for the paper money than it received at the time of issue.

The total effect of paper issues in increasing the cost of the Civil War is estimated at about \$600,000,000, Mr. Agger says, continuing:

"Much more serious than the costs of unsound currency to the government are the heavy direct and indirect costs imposed upon the people. Our productive system is controlled through prices, and the upset of prices, caused by a depreciating currency, interferes with the proper harmonizing of the different lines of production. Price changes are not instantaneously or uniformly effected throughout the whole system. The result of an inflationary movement is a stimulation of speculation and over-investment in some lines, with inadequate development in other lines. The period of speculation seems a period of prosperity, but how false and unsound is such prosperity is disclosed in the stress and agony of the inevitable period of liquidation which, Nemesis-like, follows on the heels of the boom."

Wealth Unfairly Re-distributed. Mr. Agger then describes "the distressing effects of an unsound money on the distribution of wealth among classes and individuals. Cheapening money through inflationary expedients is a gigantic fraud upon the creditor classes as against debtors. All those dependent on fixed incomes, or receiving specified sums in terms of money, are penalized when the purchasing power of money is depressed. In like manner the stockholder profits at the expense of the bondholder—a fact which implies a reward to the more speculatively inclined at the expense of the conservative.

"Advancing prices cause discontent and give rise to agitation and unrest among those whose incomes cannot promptly be adjusted to meet higher living costs. Strikes are fomented and production is curtailed. Every body shares in these burdens. Lack of stability in money also undermines and weakens habits of thrift. A corrosion of the moral integrity of the people is inevitable. Dishonesty is stimulated and a desire to gain by speculation rather than to earn a livelihood by productive and useful labor causes a marked deterioration in popular habits and character."

L. W. W. OFFICIAL IN NEW YORK WORRIES FOR ORGANIZER'S SAFETY

AUSTIN, July 6.—James Holland, organizer for the marine transportation division of the L. W. W. and two other L. W. W. workers were arrested by Port Arthur police, beaten and then turned over to a mob and are believed to have been murdered, says a message received today by the governor's office from John Shuskie of New York, secretary of the transportation workers. No action has been taken on the request, but Acting Governor Davidson will ask for a report from the officers at Port Arthur.

RANGERS WRECK PARTY OF BORDER BOOTLEGGERS

AUSTIN, July 6.—One negro was killed, another captured and four horses and a small quantity of liquor taken in a raid at Bracketville by state rangers last night, according to a message received today by the adjutant general. Two Mexicans are said to have escaped across the Rio Grande, from whence they had come.

SPORTS

SPORT BRINGS BIG RETURNS IN COIN OF REALM

By PAUL R. MALLON, United Press Staff Correspondent.
NEW YORK, July 6.—An analysis of the gate receipts of football, baseball, boxing, tennis, racing and minor sport events show that they are outdrawing the United States Steel corporation or the Standard Oil.

Harry F. Sinclair, oil magnate, went into horse racing for sport. But he has made more money out of it than he will get out of Teapot Dome—more money than anyone else during the season.

A tabulated result recently showed earnings of \$194,000 for the Rancocas stable, of which he is owner. The amount is being swelled by new winnings every day.

Zev, the king of three-year-olds, contributed the largest amount, winning five first places—up to the time of this tabulation—for a total of \$144,966. Grey Lag won four first places and one second for \$26,900. Mad Hatter contributed \$8,200, Little Chief \$7,700 and Tester, Flying Cloud, Outline, Whirlwind, Knobble, Alladin, Bud Lerner and Sheridan turned in purses from \$5,000 down to \$1,500. Total \$194,000.

Add to this the winnings of the other stable owners, the gate receipts at the various parks, the amount taken in at the hundred or more professional baseball games every afternoon of the season, the paid admission at the Yale, Harvard, Princeton and other football games, the big fight crowds and the amount paid to witness other athletic events and you have a figure that reaches hundreds of millions for the year.

The prestige of American woman in international tennis competition is rapidly being swamped.

Molla Mallory, the American champion, has bowed to the superiority of Miss Suzanne Lenglen, French star, who specializes in poodle dogs and flashy photographic poses when she is not proving she is the best woman tennis player in the world.

Miss Bancroft, second ranking player, was recently beaten in France by an unknown native.

Miss Mary Elizabeth Ryan, while proving herself among the best in Britain can no longer be considered an American, because her residence is established in London even though she came originally from California.

The experts who are getting quite worried over the failure of American women to measure up to the international tennis standard believe too few women are playing in this country today. In England almost every woman, rich and poor, plays the game. More tournaments are held in England and on the continent, arousing greater interest.

Then, during the winter months, the best players find ideal indoor courts in London, something of which the United States cannot brag.

Cisco Oilers and Ranger Snappers Play Here Sunday

Cisco Oilers, who forced the Breckenridge Dynamos to go 14 innings to beat them on Independence day, will be here Sunday to face the Ranger Snappers. The Independence day score was 7 to 6, and according to Breckenridge reports a special train with several hundred fans came over for the afternoon game.

The Oilers did not make a flashy showing at the start of the season and the fans didn't get overly excited. Early in June the Oilers began to make the other teams "sit up" and take notice. And the fans are now with them.

The powers that be in Cisco don't want baseball in town on Sunday but the club management, backed by the baseball fans, are getting around that by erecting stands and putting in a diamond outside the city limits.

The Sunday game was to have been played at Cisco but late yesterday afternoon the Cisco management notified John Shannon Jr., business manager of the Snappers, that the Cisco park wouldn't be ready for the Sunday game and asked to have it played off here. Shannon readily acceded.

Baseball crowds here have been improving which, if anything, shows that fans will have confidence in an industrial team if decent ball is played.

Parks camp defeated the strong Dynamos in the morning game on the Fourth, 6 to 3. Parks camp took the Sunday contest here, 10 to 6.

GLENROSE FAST NINE TO PLAY IN THURSDAY

Special to the Times
THURSDAY, July 6.—Glenrose, said to be the leading club east of Thursday, will be here Saturday and Sunday for two games. Glenrose has won 25 games, lost four and tied one. Glenrose has defeated practically all of the fast clubs in Fort Worth.

COLLEGE STARS WARY OF BEING PROFESSIONALS

Baseball Players Turning Down Good Offers to Play in League.

By PAUL R. MALLON, United Press Staff Correspondent.
NEW YORK, July 6.—Collegiate baseball, which supplied the major leagues with the greatest stars of the last five years, is suddenly abandoning the cause.

Eastern colleges have just closed what is considered the most successful season in years in the point of development of prospects. But the young grads won't listen to the offers of the magnates. They think they can cash in on their education to a better personal advantage in some other profession.

The Pittsburg Nationals were willing to pay \$10,000 to Owen Carroll, of the Holy Cross, the big outstanding star of the year. He is a great right handed pitcher and the Pirates wanted him to finish the season with them.

But Carroll disdained the offer. It is understood he intends entering the priesthood. Right behind Carroll in the east there are Bob Carney, the Princeton left hander; Walter Huntzinger of Pennsylvania, Jim Kelly of Boston College and Pauly Kinney of Colgate. Huntzinger has signed with the New York Giants.

The others who have shown in competition and who must be included in the first flight of pitchers are: Caldwell of Princeton, Seaman of Lafayette, McCaffrey of Providence College, Pond of Yale, Thorpe of New York University, Young of Harvard and Swetonic of Pittsburgh. McCaffrey is joining the Rochester International league club.

Out of all those premier pitchers only one is even going to the major league for a trial. And, remember, that the colleges sent Frank Frisch, Eddie Collins, Coombs, Plank and many other stars of their calibre up to the big league limelight.

COLUMBUS BOY NATIONAL MARBLES CHAMPION

E.E. Cook and Harlan McCoy
Harlan McCoy, of Columbus, Ohio, was the winner of the National Marble Shooting contest, held in Atlantic City, N. J., and participated in by boys from all parts of the country. He is shown receiving the first prize from E. E. Cook, of Columbus.

FOOTBALL SCHEDULE THIS YEAR FOR TEXAS AGGIES

COLLEGE STATION, Texas, July 6.—The Texas Aggies football schedule for the coming season has been completed, according to announcement from athletic headquarters. Nine games are included in the farmers' program, including several teams of stellar strength. The schedule follows:
Sept. 22—Sam Houston Normal at College Station.
Sept. 28—Howard Payne at College Station.
Oct. 5—Southwestern University at College Station.
Oct. 13—Sewanee at Dallas.
Oct. 20—Louisiana State University at Baton Rouge.
Oct. 26—Southern Methodist University at College Station.
Nov. 3—Baylor University at Waco.
Nov. 17—Rice Institute at Houston.
Nov. 29—(Thanksgiving Day)—Texas University at College Station.
Gold Hill, highest point along the Panama Canal, is 540 feet.

Help me put Texas on our map!
Texas sales of Kellogg's Corn Flakes do not compare with their overwhelming leadership everywhere else throughout the nation!
I find after investigation that it is because Texas folks, imagining they are buying Kellogg's Corn Flakes, are getting something else because—
THEY DO NOT ASK CLEARLY for Kellogg's Corn Flakes!
DO THIS:—Say "KELLOGG'S CORN FLAKES"—not "Kellogg's"; not "Corn Flakes"! If you ask for Kellogg's Corn Flakes you'll get KELLOGG'S CORN FLAKES. I guarantee you will find Kellogg's Corn Flakes in the red and green package the best ever. Your grocer will refund your money if you don't agree.
We also make Kellogg's Bran, cooked and kibble-d, and Kellogg's Whole-wheat Krumbles!

BIBLE THOUGHT.

WAIT PATIENTLY—Wait on the Lord: be of good courage, and he shall strengthen thine heart: wait, I say, on the Lord.—Psalm 27:14.

FOOD VALUES DESTROYED.

That multitudes of people have stopped eating meat, that multitudes more are eating less and less each year, no one acquainted with the facts, we think, can deny. As housewives and cooks learn how to prepare, as it may be prepared, an attractive vegetable diet, many more will turn to it and away from animal flesh.

True it is that vegetarianism, as usually practiced, is a semi-starvation diet. Vegetables are destroyed in the cooking—boiled rather than steamed—the water which has absorbed the valuable salts is cast away leaving the starchy pulp to be served on the consumers' table.

Food stuffs, we are told, not only lose their food value, but become actual poisons in proportion to their loss of mineral bodies. In our garden vegetables are found these precious indispensable minerals—such as sodium, calcium, magnesium, silicon, iron, potassium, manganese, chlorine, fluorine, iodine.—Our Dumb Animals.

THE BIBLE IN A NEWSPAPER.

The Topeka State Journal of Topeka, Kan., is publishing the Bible in serial form, at the suggestion of Dr. Charles M. Sheldon, author of that widely discussed book of 20 years or so ago, "In His Steps."

The "Four Gospels" will be published in weekly installments of about 3,000 words each. The first installment has a slightly journalistic title: "The Good News as Recorded by Mark."

It is doubtful whether this is a tribute to the spirituality of the Kansas public that they want the Bible in this form, or an unkind imputation that they have not a copy of the Bible at home.

The American Bible society has been selling and distributing Bibles for nearly 90 years—millions of copies. Where have they gone?—San Francisco Examiner.

While Conan Doyle is holding the line of communication with the spirit world he might call up John Barleycorn and ask him how prohibition enforcement is getting on.—Springfield Union.

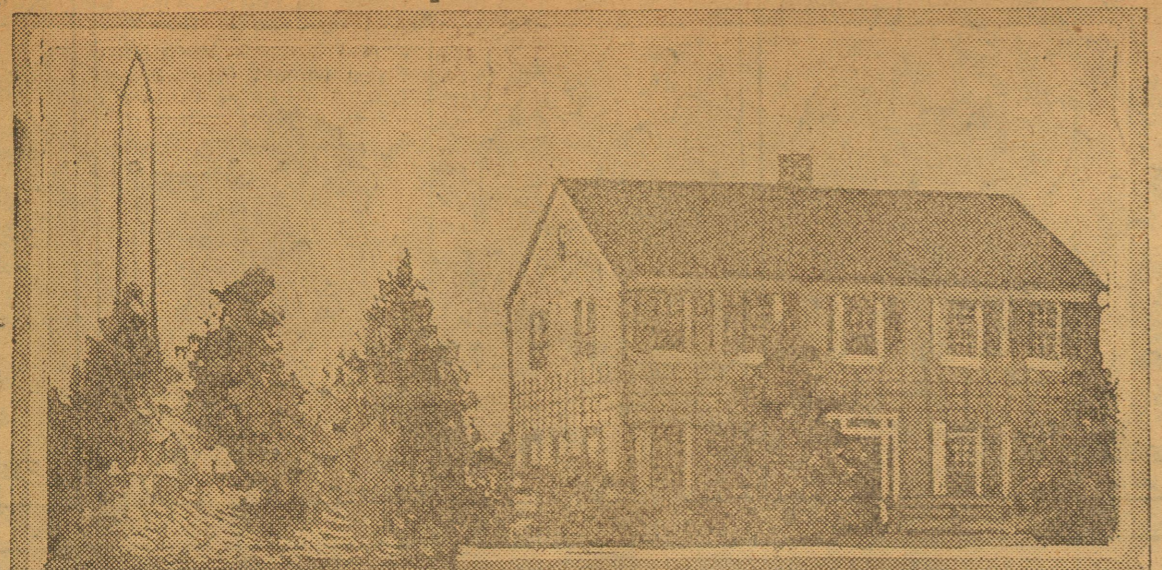

Senator Borah, in his broad-minded way, says he believes the people have the right to vote on anything. This, of course, would include a referendum on the weather.—Toledo Blade.

It is reported that young Mr. Edison can have a job with his father, but whether he can answer one of those questionnaires is quite another question.—Boston Transcript.

It's a lucky break for some of these European premiers that they are not obliged to ask the world for a vote of confidence.

The President's trip to Alaska is to escape from an invitation from the allies to fix the amount of the German indemnity.—Philadelphia Record.

'House Permanent' Gift to Women
As Inspiration for Better Homes

"HOME SWEET HOME"
© NATIONAL PHOTO

THERE is a new house in Washington, D. C., just erected and dedicated by President Harding, that is of more interest to women all over the nation than any other structure that was ever built. It is called "Home Sweet Home" and pictures a new phase of the movement for creating better homes in America.

The thought behind this home is this: The earning power of the average American has increased rapidly in the past few years. He and his family are better fed, better clothed and (with the auto, and radio and movie) better entertained. But they are not better housed.

The standard of living has increased but the standard of housing has not kept pace. He still builds houses that have to be constantly renewed. He has not learned in house building the lesson of good materials that his wife learned long ago in the buying of clothes and foods.

PRESIDENT HARDING DEDICATES HOUSE TO NATIONS WOMEN
© NATIONAL PHOTO

is to use it to install only the most durable materials. Rust insurance, which is provided by the use of copper and brass, is quite as necessary as fire insurance. The lesson taught by "Home Sweet Home" is that better buildings mean better materials. The women of America deserve the best and at the same time the most economical construction to house that most vital element in future Americanism, the home.

Man and Wife Devote Years to Passion Play

OBERRAMMERSGAU, July 6.—Jakob and Mathilde Rutz have just celebrated their golden wedding anniversary, one more milestone in two lives which have been devoted to the Passion Play for 70 years. Rutz was the village smithy of Oberammergau until age pulled him away from the forge, and is the father-in-law of Anton Lang, the renowned portrayer of the life of Christ.

In 1850, as a babe of three, Rutz took his original part in Oberammergau's famous play. He was then cast as Adam's son in one of the Old Testament tableaux which feature the performance. Ten years later he appeared as an alto soloist and in 1970 was chief assistant to the Passion Play prologist and choir leader, Johannes Diemer.

For centuries the Diemer family has furnished the choir leader, Rutz being the only person ever to break in on this otherwise uninterrupted succession.

In 1870, when the Passion Play season was interrupted, Rutz was called to the colors for the Franco-Prussian war an ironical co-incidence that he was billeted during the hostilities with a French family which had once been his guests at Oberammergau while attending the play.

Mother Rutz's devotion to the Passion Play has expressed itself principally in hospitably caring for many of the thousands of tourists who trek this way every 10 years. One of her two sons lives here and took a prominent part in last year's play; the other lives in Munich and is therefore not eligible to the cast.

Rutz continues active in public life, as a member of the village government and one of the Passion Play executive committeemen.

NAVARRO COUNTY OIL WELL FIRE YET BURNING

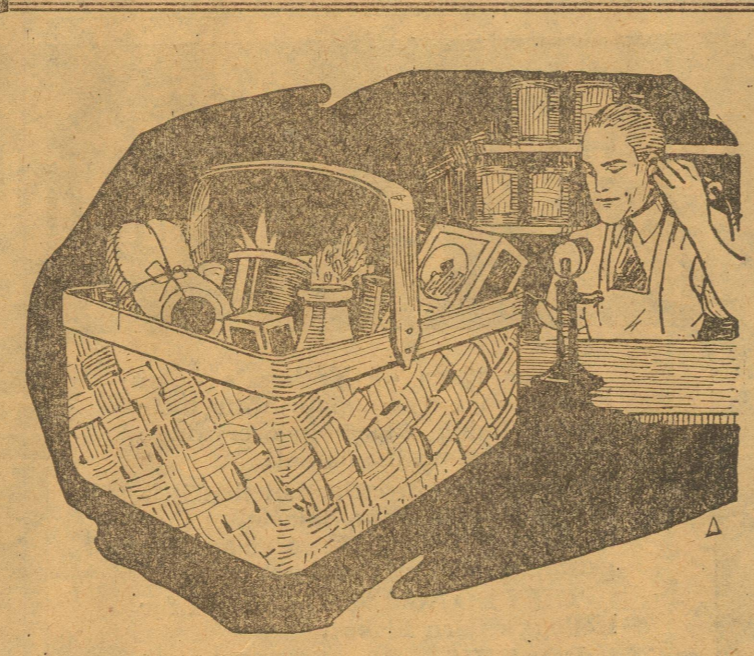

CORSICANA, July 6.—Efforts to extinguish the fire in the Seay-Cranville-Mitchell-Jones oil well here were unsuccessful up to noon today. A machine gun, operated by the Texas National Guard, shot a number of regulation steel bullets into the pipe in the hope of breaking the connection, but it was unsuccessful.

DALLAS.—Bids for the surfacing the Seyone road and the paving of Beckley road, between West Dallas and Oak Cliff, have been let by the commissioners' court. Between 10,000 and 63,000 square yards of the Seyone road will be surfaced at a cost of \$1 per square yard; paving on the Beckley road will be done for \$6,314.

Karo Is Excellent Sugar Substitute In Making Breads

The most delicious bread you ever ate can be made with Karo as a substitute for sugar. The Corn Products company, manufacturers of the housekeeper's friend, Karo, have published a recipe book from which are taken the following recipes:

WHITE BREAD. Twelve cups sifted bread flour, 1 yeast cake, 1-4 cup lukewarm water, 2 tablespoons Karo (red label), 1 tablespoon salt, 3 tablespoons Mazola, 4 cups lukewarm liquor (milk or water). Add Karo and yeast to one-fourth cup lukewarm water and stir

ADAMS & CO.
PHONE 164
219 South Rusk Street

until yeast is dissolved. Add to the four cups liquid and six cups flour. Beat until light and bubbly. Cover and set in a warm place (80 degrees) for one and one-half hours. Add Mazola to sponge, sift salt with remaining six cups of flour and add to sponge. Knead for 10 minutes. Cover and let rise until double in bulk. Mould lightly into four loaves, oil lightly with Mazola, let rise until doubled in bulk. In baking, the oven should be hot the first 10 minutes, then reduce heat to moderate temperature, and bake 45 to 50 minutes. Bread should be a golden brown all over when baked.

GRAHAM OR WHOLE WHEAT BREAD.

Eight cups Graham flour, unsifted, 2 cups sifted bread flour, 2 teaspoons salt, 1-4 cup brown sugar, 1-2 cup Karo (blue label), 1 yeast cake, 2 cups lukewarm water, 2 cups milk, scalded and cooled, 2 tablespoons Mazola. Dissolve yeast, sugar and Karo in lukewarm water. Add Mazola, then flour and salt gradually. Knead very thoroughly and set in warm place to rise until double in bulk. This requires about two hours. Turn dough onto kneading board and mould into three loaves. Cover and let rise about one hour. Bake one hour in slower oven than used for white bread.

TESTIMONY ADVERSE TO WHIPPING BOSS

LAKE CITY, Fla., July 6.—J. E. Johnson, former employe for the Putnam Lumber company and a brother-in-law of Dr. T. C. Jones, former camp physician, testified today at the trial of Thomas Higginbotham for the murder of Martin Tabert that Dr. Jones said to him: "Higginbotham beat Tabert to death."

ORIENTALS ARE WORRYING EACH OTHER PERTLY

Japan Annoyed by Chinese Boycott and Bandits, But Biding Her Time.

By CLARENCE DUROSE
(United Press Staff Correspondent.)

TOKYO, July 6.—Chinese bandits, plus the Chinese boycott of Japanese goods, are making big breaks in Japanese business.

Anti-Japanese feeling in China has grown much more bitter in recent months.

The Japanese have increased the number of their gunboats patrolling the upper Yangtze. There have been had a dozen fights between Japanese and Chinese in towns along this river during the last few weeks. Tokyo authorities fear serious trouble may result.

Various Chinese "patriotic societies" and "Young Student" organizations launched a movement to boycott Japanese goods a few months ago in retaliation for Japan's refusal to abrogate the treaties made under the "Twenty-one Demands" and to return to China the Kwantung and South Manchurian leased territories.

Results From Boycott.

This boycott, at first a fizzle, is now getting results. Current commerce reports show a heavy slump in Japanese exports to China. Japanese merchants in China and the Chinese merchants who have Japanese-made goods on their shelves, are shunned by the purchasing public. Some of them are going broke, and abandoning business—or dumping the Japanese goods and re-stocking with Chinese stuff.

On top of this bandits have so demoralized traffic, communications, business and life in general, that Japanese business in the interior of China and up the Yangtze and other rivers has been generally hurt and in some sections entirely ruined.

Chinese mobs, composed both of bandits and boycotters of Japanese goods, have run all the Japanese out of several river towns along the upper Yangtze. During one of these attacks of Chinese upon Japanese at an upper Yangtze port, a Japanese gunboat fired into the mob and killed several Chinese.

Japs Merely Waiting.

The Japanese government, while indignant and convinced that the situation is serious, has so far done nothing, except put more gunboats into the rivers that form the main arteries of transportation in interior China. There is no responsible Chinese government, or authority in these, or, for that matter, any other section of China. "Protests" to the Chinese "authorities" would accomplish nothing.

Meanwhile the land bandits, the river pirates and the sea-coast buccaners of China are having everything their own way and Japan is merely sitting tight. But she is fighting. Tokyo wonders what her next move will be.

ENSIGN GEORGE OF SALVATION ARMY GOES TO DENISON

Ensign and Mrs. W. T. George of Ranger have been assigned to Denison and Captain and Mrs. J. W. Batson are leaving Corsicana to come here in the change of Salvation Army heads, instead of George going to Corsicana as it was stated in the Times yesterday.

HILLIS ENJOYING VACATION.

J. R. Toeling is acting general manager of the Wichita Falls, Ranger & Fort Worth railroad, and is directing operations during the absence of J. A. Hillis, who is in Columbia, S. C., where he is spending his vacation with his son.

Hillis left Saturday. He gave his assistants no particular date as to when he would return.

COLLEGE STATION—Work is under way on the new steel grandstand which will be constructed on Kyle Field for the Texas Aggies. The new stands will accommodate 10,000 persons when completed. They will be similar to the present stands.

Sweet Dreams Double Strength

This Great Mosquito Remedy Made Extra Strong to Do Work Thoroughly.

Mosquito remedies like other commodities can be weakened to sell for a price rather than strengthened to fulfill their requirements. A cheap price is invariably the sequel of a cheap product.

Sweet Dreams is a double strength mosquito remedy—every drop in every bottle is mosquito remedy and it keeps mosquitoes off all night long.

Simply sprinkle Sweet Dreams on your bed linen before retiring. Never stains, never fails. So it isn't a wonder why a million people say it's fine.

Liberal red-top bottles only 35c— at all drug stores. For sale by Phillips Drug store and all other druggists.—Advertisement.

Man Wanted for Hard Work; Rapid Promotion Sure

Wanted—A man for hard work and rapid promotion—a man who can find things to be done without the help of the manager and three assistants.

A man who gets to work on time in the morning and does not imperil the lives of others in an attempt to be first out of the office at night.

A man who is neat in appearance and does not sulk for an hour's overtime in emergencies.

A man who listens carefully when he is spoken to and asks only enough questions to insure the accurate carrying out of instructions.

A man who moves quickly and makes as little noise as possible about it.

A man who looks you straight in the eye and tells the truth every time.

A man who does not pity himself for having to work.

A man who is cheerful, courteous to everyone and determined to "make good."

This man is wanted everywhere. Age or lack of experience do not count. There isn't any limit, except his own ambition, to the number or size of the jobs he can get. He is wanted in every big business.

And this applies to women also.

TEXAS POLICE CHIEFS TO HOLD THEIR ANNUAL MEETING IN GALVESTON

GALVESTON, June 6.—Arrangements have been completed for the annual convention of Texas Police Chiefs' and City Marshals association to be held here July 10, 11 and 12, according to Henry F. Weisrodt, chief of police of Galveston. Peace officers from all parts of the state are expected to be present.

Entertainment numbers will be one of the principal features of the program. A trip on the gulf, fish dinner, bathing and other amusements have been arranged. One of the principal questions to be discussed is the proposed legislation for free transportation for peace officers when traveling on official duty. The proposed officers' and firemen's pension bill will be discussed also.

The Texas Sheriffs' association will be in convention simultaneously with the police officials although the program will not be joint. Approximately 200 sheriffs from over the state are expected to attend. Sheriff R. E. Kirk of Galveston county is in charge of plans for the sheriffs' convention.

FRENCH WAR HERO VISITS AMERICA

Gen. Gouraud + Gen. Bullard 1917.

General Henri Joseph Eugene Gouraud, who lost his arm in the Gallipoli campaign, and who commanded the French Second Army (rainbow) division when that organization upset his whole plan of battle on July 15, 1918, by refusing to retreat before the assault of the Germans, is shown here greeted, in New York, by Major General R. L. Bullard, commander of the First Corps area. General Gouraud comes to be the guest of the Rainbow division at its Indianapolis convention. General H. J. Reilly, of the Rainbow division, is shown in the rear.

SHERMAN GIRL HONORED BY I. C. A. ASSOCIATION

By Associated Press

DENTON, July 6.—Miss Dorothy Scott of Sherman has been elected president of the Students' Christian association of the College of Industrial Arts. Miss Scott is a sophomore in the household arts department.

Miss Ada Runyon, of Polytechnic, has been elected secretary of the students' organization. Miss Elizabeth Craven of Whitesboro is chairman of the social committee and Miss Catherine Cartwright, of Van Alstyne, was made chairman of the meeting committee.

The Original Food-Drink for All Ages. Quick Lunch at Home, Office, Pountains. Rich Milk, Malted Grain Extract in Powders, Tablets, Forms. Nourishing—No cooking. Avoid Imitations and Substitutes.

Boils

THERE is a reason for everything that happens. Common-sense kills misery. Common-sense also stops boils! S. S. S. is the common-sense remedy for boils, because it is built on reason. Scientific authorities admit its power! S. S. S. builds blood-power, it builds red-

blood-cells. That is what makes fighting-blood. Fighting-blood destroys impurities. It fights boils. It fights pimples! It fights skin eruptions! It always wins! Mr. V. D. Schaff, 557 15th street, Washington, D. C., writes: "I tried for years to get relief from a bad case of boils. Everything failed until I took S. S. S. I am now absolutely cured, and it was S. S. S. that did it."

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

S.S.S. The World's Best Blood Medicine

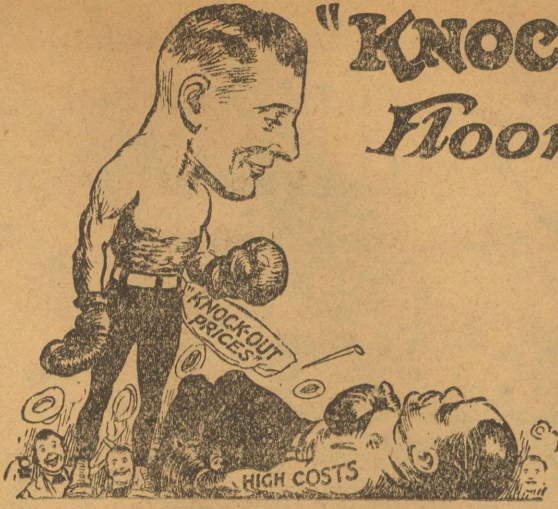

ROB'S CALOMEL OF NAUSEA AND DANGER

Medicinal Virtues Retained and Improved—Dangerous and Sickening Qualities Removed. Perfected New Tablet Called "Calotabs."

The latest triumph of modern science is a "de-nauseated" calomel tablet known as the drug trade as "Calotabs." Calomel, the most generally useful of all medicines thus enters upon a wider field of popularity—purified and refined from those objectionable qualities which have heretofore limited its use.

In biliousness, constipation, headaches and indigestion, and in a great variety of liver, stomach and kidney troubles calomel was the most successful remedy, but its use was often neglected on account of its sickening qualities. Now it is the easiest and most pleasant of medicines to take. One Calotab at bedtime with a swallow of water,—that's all. No taste, no griping, no nausea, no salts. A good night's sleep and the next morning you are feeling fine, with a clean liver, a purified system and a big appetite. Eat what you please. No danger.

Calotabs are sold only in original, sealed packages, price thirty-five cents for the large, family package; ten cents for the small, trial size. Your druggist is authorized to refund the price as a guarantee that you will be thoroughly delighted with Calotabs.—Advertisement.

PERSONALS

Mr. and Mrs. R. C. Bland and little daughter, Marybelle, of Sentinel, Okla., arrived Thursday to visit Mrs. Bland's sister, Mrs. D. L. Jameson. They expect to remain several days. Mr. Bland is connected with the Sentinel Leader.

Miss Mavis Douglas, former teacher in the Ranger High school, who has been in Dallas the last year, is staying with Mrs. Arner at the C. O. Terrell home.

Mrs. Campbell Haines of Dallas, who spent a few days of the week in Ranger at the Gholson, returned Thursday to her home.

COOMER ACCEPTS PLACE ON C. OF C. COMMITTEE

H. A. Coomer, passenger and freight agent of Wichita Falls, Ranger & Fort Worth railroad, has been made a member of the transportation committee of the Chamber of Commerce, B. F. Bennett, secretary, announced today. He has consented to serve.

Officials of the Wichita Falls road, including J. A. Hillis, J. R. Toeling, assistant general manager, and Coomer are easily doing their share in building up Ranger, Bennett said today.

WOMAN KILLS SISTER-IN-LAW IN DISPUTE OVER WELL

SHREVEPORT, La., July 6.—Mrs. Minard Terry was shot and killed Tuesday in a pistol battle with her sister-in-law, Mrs. Norman Terry in a small settlement in Cass county, 10 miles from here in the state of Texas, according to reports reaching here, as a result of a dispute over a well. No charges have been filed against Mrs. Norman Terry.

COMPLAINING GAMSTER FAILS TO MAKE APPEARANCE

Complaining that he had been swindled in a poker game, a man came to the police station last evening and left the names of two men whom he alleged took advantage of him. Sergeant Ted Hamilton took the two men into custody and they gave bond until an investigation could be completed.

The complainant, however, had not shown up at the police station late this morning, and the chief indicated he would release the two men.

AUSTIN WOULD BAR LEFT TURNS ON BUSY STREET

AUSTIN, July 6.—Local traffic officials are considering instituting regulations prohibiting left hand turns on Congress avenue. Although Congress avenue is said to be one of the widest streets in America, much traffic congestion occurs at busy corners due to left hand turns being allowed, officials state.

Are you using the best shortening?

ARE you satisfied that it is absolutely pure, clean and the best of its kind you can buy? Mrs. Tucker's Shortening is proving its superior qualities to thousands of women. It is a pure vegetable shortening, rich and creamy, but with none of the indigestible greasiness of lard. Mrs. Tucker's Shortening imparts a buttery richness to baking and cooking. Yet it costs no more than ordinary shortening and goes much further. Ask your grocer for a pail. Notice its wholesome snowy whiteness. Then try it in making hot muffins or biscuits. You will be delighted with the difference it will make. Mrs. Tucker's Shortening is made right here in the South.

Be sure to get the blue pail with Mrs. Tucker's picture on it.

Mrs. Tucker's Shortening

Made exclusively of choice Cotton Seed Oil. The South's own cooking fat.

THOUSANDS FLEE FROM MOUNT ETNA'S WRATH

Fleeing from Mt. Etna.

Here is the first photograph of a sad sight in one of the little towns at the base of Mount Etna, in Italy, with the inhabitants in precipitate from their homes before the streams of lava buried them.

AUTOMOBILE HITS TEAM, POLICE ARE NOTIFIED

Dr. H. H. Johnson, veterinarian, who lives on the Strawn road, notified the police that his team was hit by an automobile, and that the car did not stop. He thought the driver was under the influence of liquor.

The notation of the accident at the police station didn't say what damage was inflicted as a result of the team being hit by the auto.

EVIDENTLY GUILTY

A country school board was visiting a school, and the principal was putting his pupils through their paces. "Who signed Magna Charta, Robert?" he asked, turning to one boy. "Please, sir, 'twasn't me," whimpered the youngster. The teacher, in disgust, told him to take his seat, but an old tobacco-chewing countryman on the board was not satisfied, so, after a well directed aim at the culprit, he said: "Call that there boy back. I don't like his manner. I believe he did do it."—The Marion Line.

Practically all taxicab calls in Europe are by persons hailing machines from the curb, in the United States 90 per cent are by telephone.

CHUCK WAGON LUNCHEON REMINDS OLD-TIMERS OF FORMER OCCASIONS

DEL RIO, Texas, July 6.—The chuck-wagon luncheon tendered members of the Texas Sheep and Goat Raisers' association by local civic organizations recently near the Mexican town of Villa Acuna on Las Vacas creek, recalled to many who attended it the early ranch days, especially round-up occasions. The old-time chuck-wagon was present with plenty of fresh meat broiled on spits over coals, corn bread and coffee.

More gaiety, talking and laughter prevailed at the late affair than at such occasions 30 years ago, those who have experienced the early gatherings declared.

The pack mule was the historical predecessor of the chuck wagon in the system of economy as developed on the ranch. The mule could go where the wagon could not. He carried meal, salt and coffee and when these gave out another supply was brought from the ranch commissary. The chuck wagon made its advent in this section about 1887, according

to early ranchmen. It was considered a distinct advancement in ranch life although the pack mule continued in use in some localities. The annual round-up also saw the use of the chuck wagon, with ranchmen gathered from miles about.

The recent gathering was declared to be of historical interest to many in this section.

COURT SHOWS SYMPATHY FOR PIPELESS HUSBAND

MALLESTER, Okla., July 6.—"I assess a fine equal to the value of the pipe you knocked out of your husband's mouth and instruct you to buy him another pipe," Judge Wesley Farmer told Mrs. I. P. Wooden in domestic court here.

YOAKUM.—A South Texas convention of the Farmers union is scheduled to be held here July 10. Delegates from a number of Southern counties are expected. The convention will be attended by A. L. Baker, state secretary of the organization, and J. C. Webb, president.

Bad lighting is the principal source of fatigue among workers, according to engineers who have made a survey of mechanical processes in industry.

SKYSCRAPERS DECLARED AN ECONOMIC FAILURE

CLEVELAND, July 6.—Branding the skyscraper as an economic and financial blunder, Lawrence Veiller, secretary of the National Housing association, New York, urged the cessation of construction of this type of buildings in the future, when addressing the second general session of the sixteenth annual convention of the National Association of Real Estate boards on "Mistakes to Avoid in Zoning."

WOMEN SMOKING CIGARS.

PRAGUE, Czecho-Slovakia.—Czecho social leaders have frowned upon cigarette smoking and smart men and women are turning to cigars. It was decided that cigarettes were becoming vulgar, as they had been "too widely adopted by Americans and bank clerks."

NEWEST TOWN IN TEXAS.

SAN ANGELO.—Kemper is probably the newest town in Texas today. The village was born recently in the oil field territory of Reagan county as a result of the strike at the Santa Rita oil well. The town is located seven miles east of Santa Rita well and is 79 miles west of San Angelo. It was named in honor of W. T. Kemper, Kansas City, Mo., receiver of the Kansas-Oklahoma division of the Orient railroad. If the oil field in this territory is proven, it is expected to be of untold value to the University of Texas on the lands of which the Santa Rita well is located and the Orient railroad.

LAWN.—A local chamber of commerce has been organized. Forty-five members have been registered. Ben Allen is president of the new organization.

UNALASKA REPORTS EXTRAORDINARY TIDES

UNALASKA, Aleutian Islands.—This port was the scene of an interesting tidal phenomenon April 13 when, between 11 a. m. and 3 p. m., the tide changed every 15 minutes, instead of twice during the day as usual, with a range of about five feet each change.

The effect was similar to that of a heavy storm, although the sea was calm. The tide flooded, receded, and then flooded again with heavy rollers. Coast guard officers aboard the cutter Haida, which arrived here recently, said the phenomenon was undoubtedly of volcanic origin, although no disturbances were reported in this vicinity that day.

Diamonds made by scientists are no larger than pin heads.
