WON'T WORKERS MOVING ON PORT ARTHUR

Flier Racing Fast Across the Country Threaten to Force City to Feed Them; Promise of Work

MUST ARRIVE IN SAN FRANCISCO AHEAD OF DARK

Lieutenant Russell Maughan Is Making Valiant Effort to Win Cross Country Flight.

ST. JOSEPH, Mo., July 19.—Carrying a bundle of New York newspapers, which he hopes to sell in San Francisco, Lieut. Russell Maughan landed at St. Joseph at 11:25 central standard time, completing the second leg of his transcontinental flight from dawn to dusk.

Maughan flew from Dayton, 560 miles away, in three hours and 32 minutes, only 12 minutes longer than the schedule allowed. Lieutenant Maughan maintained a stride of 160 miles an hour in his jump from Dayton to this city.

The aviator showed no signs of weariness. The machine was in fine shape, mechanics said, after a hasty examination. Maughan declared that he had experienced no trouble of any kind and is confident that he can make up time.

Maughan departed for Cheyenne, the third leg of his flight, at 12:03 o'clock.

HOPS OFF AT DAWN.
MITCHELL FIELD, Mineola, Long Island, July 19.—Lieutenant Russell L. Maughan took off here at 4:08 a. m., eastern standard time, on the first leg of his second attempt to fly from coast to coast between dawn and dark. The weather was declared almost ideal for flying conditions.

M'COOK FIELD, DAYTON, Ohio, July 19.—Lieutenant Maughan arrived here at 8:35 a. m., eastern standard time, on the first leg of his flight from New York to San Francisco, covering the distance of 550 miles from New York in 4 hours and 27 minutes. He left for Jefferson, Mo., at 8:53, eastern standard time.

INDIANAPOLIS, Ind., July 19.—Lieutenant Maughan, on his western dawn-to-dark flight, passed over this city at 8:34 o'clock a. m., central time, today.

MAUGHAN SEEN IN NEBRASKA
OMAHA, Neb., Lieutenant Russell Maughan passed over Kearney, Neb., at 1:30 p. m., according to a telephone message received from a telephone operator at Kearney. He was flying at an approximate altitude of 2,000 feet.

NEW CITY HALL BUILDING TO BE DELIVERED SOON
Removal of the stock of the Republic Supply company, oil well supply house, from the building bought by the City of Ranger for use as a city hall, began today. Some of the stock will be removed to Corsicana and part of it to Breckenridge, the majority of it going to the latter place.

R. G. Miller, local manager, said the building will be entirely vacant by Aug. 1, except the second floor, which is given over to hotel rooms. The city has asked for occupancy by the first. Miller, when he has completed his work here, will go to Breckenridge.

ADMIRAL SIGSBEE DIES AFTER DONG ILLNESS
NEW YORK, July 19.—Rear Admiral Charles Dwight Sigsbee, U. S. N., retired, captain of the ill-fated Battleship Maine, blown up in the Havana harbor, died suddenly at his home here today. He had been in poor health for two years, and death was due to heart trouble. Burial will be in Arlington Cemetery at Washington next Monday.

Call for Golfers

Ranger Players Urged to Enter Golf Tournament to Be Held in Eastland and to Begin Next Monday; President Fouke of Ranger Country Club Issues Call.

Since Floyd Boone has been coaching Ranger golfers, who play every afternoon at the Country club grounds, there has been a marked improvement in play, according to W. H. Fouke, president of the club and one of the most enthusiastic golfers, who forecasts that if some of the Ranger players will enter the tournament that opens at Eastland next Monday they will make a good showing.

Mr. Fouke, an entry from Ranger in last year's tournament in fact the lone entry—will be in the contest again this year and wants some company from Ranger. He thinks at least eight or ten or twelve Ranger golfers should enter the tournament and is very desirous that Ranger be well represented.

U. S. Leads Europe In Law Violation, Statistics Show

Are we a nation of lawbreakers? An appalling array of figures, statistics and comparisons with the crimes of other nations of the world is cited by C. P. Connolly in McClure's Magazine for July as proof that we are. And the causes for this situation, he finds, are lack of respect for law on the part of officials and the public; ineffective administration of law due to lack of trained and untrammelled judges and lawyers and an outworn and antiquated judicial system. The truth, he adds, "is hidden behind a barricade of technicalities."

"The widespread defiance of prohibition laws has brought us face to face with an acute phase of a chronic national ailment. There are those who insist that the present crime wave is solely due to prohibition, while others, like ex-Governor Miller of New York and Senator-elect Edwards of New Jersey, insist that prohibition is responsible for a part at least of our contemporary lawlessness."

"But the record will show that we have always been a lawless nation. During the Boer war, England lost 22,000 soldiers on the battle fields or by disease in South Africa. During exactly the same period of time we lost through homicide 31,000, or 9,000 more than were killed on the English side during that war."

Other comparisons cited by Mr. Connolly in support of his statements, include these: In 1903, Germany, with a population of 50 millions, reported 322 homicides. In the same year, the homicides in the United States, with a population of 80 millions, numbered 9,000. More significant still, in that year the convictions for murder in Germany were 95 per cent of the total, while in the United States the convictions were only a little over 1 per cent.

It has been estimated that in the administration of justice in the United States the odds in favor of the murderer increased from about 17 to 1 in 1885, to about 680 to 1, in 1920. With a population of seven millions and a quarter, London, in 1916 had nine premeditated murders. During the same year, Chicago, one-third the size of London, had 105 premeditated murders, nearly 12 times London's total. In that year Chicago, with its two and a half millions of people, had 20 more murders than all of England and Wales, with their 38,000,000 people. The Chicago murders were one more than London had during the period from 1910 to 1914, inclusive.

The United States holds the record for lynchings, while England, Scotland, Ireland and all the British possessions have not had a single lynching for more than 75 years.

CHILDRESS.—Construction of the electric transmission line from the local electric light and power plant to the machine shops of the Fort Worth & Denver railway is under way and the shops will be operated with electric power.

Belief in Ranger and City's Future Urges Investment

"I've been in Ranger for practically four years," said City Judge L. H. Flewelling to a Times reporter when asked to state his reasons for investing in Ranger real estate. "I never built a substantial home until I could convince myself that the town had a substantial future."

"I've seen the ups and downs of Ranger. I've seen Ranger overcome financial backsets, which few towns could overcome. I'm now convinced that Ranger will always be a good business town. I base this statement on its oil industry, which, judging by new discoveries all over the country, shows that there is a world of development to be done. Ranger, I am convinced, will be an oil center for years to come. I also base its future on its agricultural promise."

"Property has reached its lowest ebb and is bound to rise in the future. I'm of the opinion that no one will be able to buy property in the future here as cheap as it is now."

Judge Flewelling added significantly: "I've already been offered the money back on my home."

SPHINX RIDDLE SOLVED, FRENCH SCIENTIST SAYS

NEW YORK, July 19.—In a copy-righted dispatch from Paris, France, the New York World quotes French scientists as saying that sun spots affect the health and cause wars and the nervous system reacts to solar disturbances. It is asserted also that the sphinx riddle has been solved. The New York World says:

The ancients were right. There is a direct relation between the sun and the nervous system. At least this is the theory expounded by Daniel Berthelot before the French Academy of Sciences.

Berthelot, however, goes further than the wise men of antiquity. He says human beings feel immediately the effects of every solar perturbation, and that not only is there an analogy between electric and nervous phenomena but nervous perturbations can be transmitted through space by waves akin to those of the wireless at a speed of a little less than 200,000 miles a second.

Abbe Moreux, astronomer, supports this theory. He says the periods of maximum solar activity always have coincided with war epochs. It is but a step—and French scientists have taken it—to the theory that human psychology depends upon and is influenced by solar caprices.

Dr. Sardou of Nice and Dr. Faure of Lamalou, working independently over a period of 267 days, discovered after comparing notes that the condition of a selected number of their patients suffering from chronic diseases varied according to the activity of the sun and the intensity of sun spots.

Abbe Moreux also claims to have confirmed the wisdom of antiquity in another way. He says he has learned the hidden significance of the pyramids and solved the riddle of the Sphinx.

He suggests there is a hidden meaning in every measurement of the Great Pyramid and that the whole structure was meant to indicate the great sum of knowledge attained by the priests. The Abbe explains that the four faces of the Great Pyramid are oriented to the four points of the compass with an astronomical error of only five minutes.

He also cites many mathematical truths exemplified by this structure. The highest of the pyramid multiplied 1,000,000,000 times represents the approximate distance between the earth and the sun. The inch, the smallest unit of measurement employed by the architects of the pyramid, multiplied by 100,000,000 is the exact distance traveled by the earth upon its orbit in 24 hours.

BRITISH NOTE ON REPARATION ALMOST READY

Fear Felt in Some Quarters It May Cause Serious Break in the Entente.

LONDON, July 19.—The British cabinet met today and made a final revision of the all-important note to Germany, the document that may be the signal for a final break of the entente over reparations. A letter that is to accompany the note and explain the document also was being discussed and completed.

The note with its accompanying document is to be delivered Friday. The view expressed by some that it is intended as an ultimatum on the question of reparations is not shared by the British or Continental press nor by the general public. Generally it is said the note may hold a possibility of a break with France over reparations.

Although the contents of the note are closely guarded and are subject to eleventh-hour changes, it is understood that the British, in the covering letter, explain the British idea of reparations as in conformity with the Versailles treaty. French statements have insisted that the British would disregard the treaty.

State's General Revenue Deficit Is Gaining Steadily

AUSTIN, July 19.—The deficit in the general revenue fund of the state has reached \$2,608,615 and the state treasurer states that he believes this amount will be increased to \$4,000,000 by September 1.

WEEKS WANTS REPORTS RELATIVE TO OFFICIAL ROW IN PHILIPPINES

WASHINGTON, July 19.—Secretary of War Weeks today called on Governor General Wood of the Philippines, and Manuel L. Quezon, president of the Filipino senate who headed the wholesale resignations of the Filipino members of the cabinet and Council of State to present their reports relative to the crisis which has arisen in the islands.

HOME OWNERSHIP COMMITTEE MEETS TOMORROW MORNING

J. W. Sanders, chairman of the Chamber of Commerce Home Ownership committee, has called the committee to meet at 7 o'clock tomorrow morning in the Gholson hotel. Breakfast will be served and all those promising to attend have been asked to telephone the Gholson hotel for reservations.

GIRL CONFESSES TO HITTING STEP-MOTHER WITH MAPLE CLUB

WAUSAUKEE, Wis., July 19.—Miss Mary Lawandow, 21, has confessed that she attacked her step-mother with a club before fleeing into a swamp where she eluded capture for eight days, District Attorney Lippard said today.

Mrs. Edna Lowandaw was attacked and severely injured while asleep following a family dispute. Authorities believed her assailant had used an ax, but the girl, who is in a feeble condition at the hospital here, has stated that she used a maple club and struck more than 20 blows.

DALLAS, July 19.—Two men have been arrested here in connection with the robbery of two safes at Waxahachie Tuesday, when about \$400 was obtained. When arrested last night both men are said to have had a quantity of money in their possession.

Army of Unemployed Expected to Offer "Passive Resistance" and Bankrupt Port Arthur to Feed and Care for Them, Say I. W. W. Officials.

NEW YORK, July 29.—A vast army of unemployed descending upon Port Arthur, Texas, will force that town into bankruptcy in the effort to care for and feed the visitors, I. W. W. leaders said today.

Members of the organization have been ordered to "defend by oratory" the principles of the I. W. W., according to John Shuskie, secretary of the I. W. W. branch of the Marine Transport Workers union, who said the advance on Port Arthur had been ordered in reprisal for the whipping of three I. W. W.'s and that thousands of men would join the onward march.

The policy of attack will be somewhat on the line of the German "passive resistance" in the Ruhr. "The I. W. W. will descend upon Port Arthur from all quarters," said Shuskie. "They will carry no weapons and will not argue the merits of the question they are called on to defend. They will just eat and sleep, most of the time, probably in prison, for a few of them will be provided with funds. They will force the town to feed them."

The secretary estimated that forty thousand "wobblies" are now on their way to Port Arthur, some riding the "blind," others humming automobile rides along the highways and many just trudging along on their feet and begging "hand-outs" as they go. Several hundred of the weary willies are said to have left New York and two hundred are said to have started from Houston. The order for the advance was issued from the I. W. W. national headquarters in San Francisco about a week ago and the first vanguard started at once. Some of them are said to have had money with which to buy railroad tickets.

"Police officials in Port Arthur are trying to scare us away from there," said Shuskie, "but we won't be scared—we are going to protect our national rights."

FOOTLOOSE "WEARIES" FLOCKING SOUTHWARD TOWARD PORT ARTHUR

CHICAGO, July 19.—Footloose members of the Industrial Workers of the World from the far west and eastern sections of the country are reported to be traveling southward to Port Arthur, with the object in view of protecting the rights of three members, who are alleged to have been mistreated by a mob.

Reports from Los Angeles state that a small group of men started on freight cars last night and that more of them are expected to leave today. John Shuski, secretary-treasurer of the organization in New York City, stated the movement had begun all over the country but Harry Clark, secretary-treasurer in Chicago, stated that no orders had been received here relating to their going to Port Arthur.

Reports from Port Arthur state that everything is calm in that city and that all I. W. W.'s who put in an appearance will be put to work as there is much work to be done on the county roads.

Announcement has been made that all persons without visible means of support will be arrested and if convicted of vagrancy will probably be assigned to the road improvement projects. Port Arthur officials say they have not asked the governor for assistance.

MAJOR DAUGHERTY FOUND WORKING IN CHICAGO

CHICAGO, July 19.—Major Draper Daugherty, son of the attorney general of the United States, today was found working as a salesman for a coal company here. He recently left Stamford, Conn., where he had been under care in a sanitarium, and his whereabouts were unknown. Daugherty says he likes Chicago and will continue to live here.

HOUSTON.—Contracts have been executed for operation of the Houston-Seabrook electric railway and construction is to be started Oct. 1.

Plenty of Work and Water for Bathing, While Beans and Rice are Cheap Feed for Uninvited Visitors, Is Report of Port Arthur Police.

PORT ARTHUR, July 19.—No steps have been taken by the Port Arthur police authorities to cope with the I. W. W. invasion, according to a statement by Chief of Police W. W. Covington today, but he declared there was plenty of work for all to do, that beans and rice were cheap and healthful foods and that water for bathing is plentiful, so he had no fears that Port Arthur could not properly entertain all the visitors, whether they came provided with money or not. If they have money and refuse to obey the laws, then the city will exercise its constitutional right to take the money away from them to help pay the cost of their feeding.

The invasion of Port Arthur is the result of the flogging of two or three members of the I. W. W. here recently. The vanguard of the invaders has not yet arrived although one man was arrested yesterday on a charge of vagrancy and was due to be put to work on the streets today.

RANGERS MAY BE SENT TO PORT ARTHUR TO KEEP WATCHFUL EYE

AUSTIN, July 19.—State officials have adopted a "watchful waiting" policy in connection with the reported influx of I. W. W. members to Port Arthur to emphasize a protest against the alleged flogging of several of its members recently.

Although reports state there are upwards of 20,000 I. W. W. members marching on Port Arthur, state officials say they are not unduly alarmed. Rangers may be sent to Port Arthur in the near future to watch developments, it is stated, but none has been requested as yet.

RANGER BOY SCOUTS SCHEDULED TO BREAK CAMP NEXT MONDAY

SAN ANTONIO, July 19.—Ranger Boy Scouts are studying hard for the test scheduled to be held Friday at Camp Breckenridge, where the boys have been camping for more than a week.

The Scouts are enjoying themselves immensely. The health and morale are excellent, Scoutmaster W. R. Pettett said today. Two slight cases of tonsillitis have been reported.

The boys witnessed a sham battle at Camp Bullis Wednesday afternoon. Their only worry now is that they must break camp next Monday. The homeward journey will start Monday. The trucks and autos bearing the 32 Scouts are due to arrive in Ranger Wednesday afternoon.

PROTESTANTS UNITE IN HOUSE OF WORSHIP

EL PASO, July 19.—Valley residents about 12 miles from here succeeded in an enterprise new in this part of the country. Protestants of various churches have banded together and erected a church building and community center. Service will be held at the church each Sunday by the Rev. W. H. Eling, a Congregational minister or by a preacher of some other faith obtainable.

MEXIA KILLED AT MEXIA

MEXIA, July 19.—Richard T. Bidde, 29, was instantly killed here early today while working on a gasoline engine.

BIBLE THOUGHT.
 ALL ARE INVITED—Come ye, and let us go up into the mountain of the Lord, to the house of the God of Jacob; and he will teach us of his ways, and we will walk in his paths.—Isaiah 2:3.

FIND THE MORAL
 There is a moral in the following comment on bonding that is clipped from the Hockenbury Hotel Financialist:

The writer of this article was once a small boy. And like most youngsters, was slow to take advice. There is nothing unusual about this, however. But what called this particular incident to mind is the news of a fine modern hotel in a mid-western city which this week "goes under the hammer."

As a youngster the writer was particularly fond of skating. One fine brisk morning after the first freeze of the season he wanted to go skating down on the old mill pond. Dad cautioned him that the ice was still unsafe and he'd better wait a day or so. But the kid knew better. So he went skating and the inevitable happened. Fortunately or unfortunately, the water wasn't deep and the worst result was a close approach to pneumonia and a doctor's bill that Dad had to pay.

Which brings us back to the hotel. About two years ago a hotel committee in that particular town consulted the Hockenbury System, Inc., for advice and counsel as to how best to finance their needed hotel. The committee was told to "sell ALL of their stock; to bond to the absolute minimum."

Then along came a smooth talker from the Big City and said to the hotel committee: "Why bother selling all this stock? Sell a few thousand and we will mortgage for the balance! We like your town!"

The new hotel, and it's a mighty fine hotel at that, has been in operation for less than a year but the current hotel magazines carry the story of its failure to meet its bonded indebtedness!

And what about the stockholders, all of whom live in the town? They have lost their money—and the interest represented by the smooth talker have the hotel.

Bonding and mortgaging hotels is all right when the financing is properly conceived and followed out, but this is merely another case of letting "Dad pay the doctor's bills."

"People Do Less Singing Since Nation Went Dry." One of the best arguments for prohibition we've ever heard.—Nashville Tennessean.

Germany wants to sell Uncle Sam her Berlin-to-Bagdad railway. Why doesn't Uncle Sam buy it and give it to Senator Brookhart to sell?—Kansas City Star.

Mr. Hoover moves that prosperity be made permanent. All in favor say "Aye." It is carried unanimously.—Philadelphia Record.

It appears that Doc Cook was even farther away from oil than the North Pole.—Indianapolis Star.

Between prohibition and pasteurized milk the strict individualist has a terrible time.—Chicago News.

New York's repeal of its dry statute is only another of those gestures.—Houston Post.

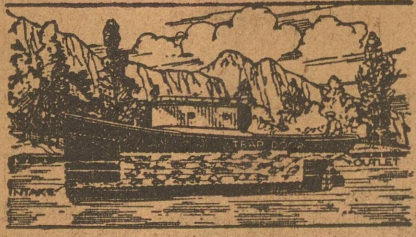

According to a home economics expert it takes the average woman 260 steps to bake a pie, which is exactly 224 steps too many. With the aid of electrical appliances 18 steps are sufficient to do one's baking, it is claimed.

What the World Is Doing

AS SEEN BY POPULAR MECHANICS MAGAZINE

Unique Fish-Propagation Boat

An unusual method of carrying live fish long distances for propagation purposes without bruising or injuring them has been adopted by the Ohio Fish and Game

Commission. Instead of tanks or barrels, a boat is used for this purpose, which has two built-in tanks running lengthwise of the vessel, for the most part below the water line. Each of the tanks is provided with an intake at the bow; below the water level, and with an outlet at the stern, above it. This arrangement assures the fish a continuously fresh supply of water.

Fossils Prove Asia Once Part of America

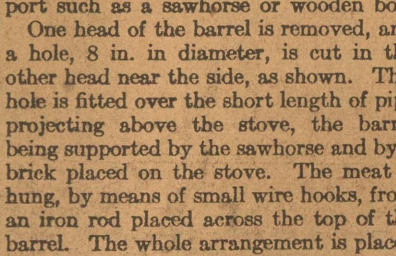

Fossils unearthed by the Third Asiatic Expedition, working in Mongolia, prove that a broad land connection once existed between North America and Asia. Part of the remains has been identified as that of the "titanothere," which roamed over Utah and Montana several million years ago. Perhaps the most important find is the skull of a "baluchitherium," a giant rhinoceros and one of the largest land

mammals that ever lived. This animal is estimated to have measured at least 12 feet high and about 24 feet long. The illustration shows the comparative sizes of a man, an African rhinoceros and the giant baluchitherium.

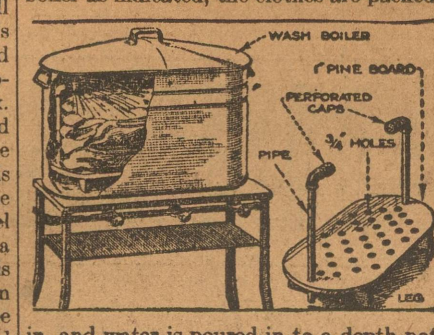

An Improvised Smokehouse

When it is necessary to smoke small quantities of meat, and no smokehouse is available, one can readily be improvised from a laundry stove, a barrel, and a support such as a sawhorse or wooden box.

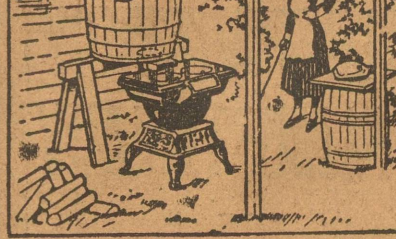

One head of the barrel is removed, and a hole, 8 in. in diameter, is cut in the other head near the side, as shown. This hole is fitted over the short length of pipe projecting above the stove, the barrel being supported by the sawhorse and by a brick placed on the stove. The meat is hung, by means of small wire hooks, from an iron rod placed across the top of the barrel. The whole arrangement is placed

In use, the arrangement is fitted in the boiler as indicated, the clothes are packed

indoors in a place sheltered from the wind. Wood or corncobs may be used for fuel.

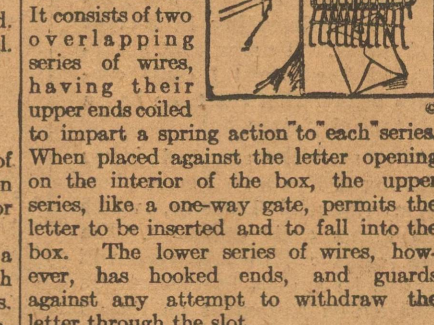

A simple but efficient clothes washer of the type shown in the drawing has been used successfully for a number of years for cleaning clothes that will stand boiling.

It consists of a wash boiler, fitted with a 1-in. pine board that is perforated with 3/4-in. holes and mounted on wooden legs. A larger hole at each end permits the insertion of two lengths of 1-in. pipe, 14 in. long, which are fitted at the upper end with an elbow, nipple, and cap, the cap being perforated with numerous small holes. The pipe should fit snugly in the holes in the board, and the lower ends, which are open, must be only a slight distance above the bottom of the boiler.

Thwarts Mail-box Thieves

The activities of mail-box thieves, who can easily take letters from the ordinary box, are rendered fruitless by the attachment of a simple hook appliance shown in the illustration.

It consists of two overlapping series of wires, having their upper ends coiled to impart a spring action to each series. When placed against the letter opening on the interior of the box, the upper series, like a one-way gate, permits the letter to be inserted and to fall into the box. The lower series of wires, however, has hooked ends, and guards against any attempt to withdraw the letter through the slot.

DR. GILBERT USES FERRASAL

"I am using Ferrasal for indigestion and acid stomach and it is the best remedy I have ever taken. I also recommend it in my practice for pyorrhea and acid condition of the mouth and am getting excellent results. I know others will appreciate Ferrasal as much as I do if you will bring it to their attention."—Dr. J. M. Gilbert, 1313 1-2 Elm St., Dallas, Texas. 50c. at Oil City Pharmacy.

TIFFIN

The ice cream supper at Tiffin was well attended, most of the crowd having arrived by 8 o'clock in the evening. The little fellows were most interested in the "fishing pond," conducted by Mrs. Jameson, which was soon fished dry.

The young people were served with ice cream and cake at tables placed under the trees on the school ground. The prize for the best cake baking by the young girls was won by Wilmina Jarvis. The prize was \$1.75—25 cents donated by R. H. MacFarland, 25 cents by W. Cooper, 25 cents by W. R. Jarvis and \$1.00 by C. Miller.

In two hours time the receipts of sales of ice cream, soda pop, etc., amounted to \$32, which is sufficient to pay all expenses and for electric lights in the school building and song books.

MAN DYING, MAY NEVER TELL SECRET OF WIFE'S MURDER

PITTSBURGH, July 19.—Hovering between life and death, Patrick Coyne 36, lay in a stupor in a hospital today with the secret of the brutal murder of his girl bride hidden behind his unconscious lips. Officers were waiting outside the hospital room in which he lay with both legs cut off, not to prevent his escape, but to question him at the first opportunity regarding his movements Tuesday and his knowledge of the crime.

CONVICTED MURDERER ESCAPES BUT RETURNS TO TEXAS AND RETAKEN

SAN ANTONIO, July 19.—Newt DeSilva, convicted murderer of C. Abramson of Port Arthur, arrived here today in custody of a deputy sheriff from Laredo.

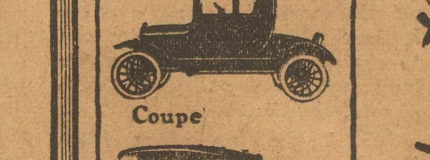

He is being returned to Jefferson county, where he is sentenced to die, after a sensational escape in a jail delivery at Beaumont. DeSilva fled to Mexico in an airplane. For nine months he lived in Mexico, where, according to Deputy Sheriff Kennedy he killed two men.

He was captured by J. A. Combren, sheriff of Webb county, Tuesday morning, shortly after crossing the international bridge at Laredo. He was financially stranded and was on his way to a telegraph office to wire friends to send him money when captured.

SPORTS HEART BREAKING GAME TO LOSE, BUT WHY WEEP?

Snyder Takes 14 Inning Tilt From Snappers; Watson and Cobb Invincible.

By HOWARD BARMAN. "Sparkplug" O'Keefe thrilled Ranger baseball fans yesterday. Not that he was the only one to provide thrills in a game that lasted 14 innings and was chock full of exciting moments that "Sparkplug" had a thrill up his sleeves every time he went into action. If there had been two "Sparkplugs" yesterday it would have been Ranger's game and not Snyder's. It was a heart-breaking 4 to 2 loss.

Every single Snapper played his "dead level" best and the same can be said of Snyder. There were close decisions. It kept the fans gasping for breath. Not until the dust cleared away and the umpire indicated his decision was there relief.

Watson Has Everything. Watson of Waxahachie came over and twirled 13 innings of beautiful baseball. When he gave way to Nugent at the beginning of the fourteenth, it was 2 to 2. Watson has a pretty out drop. He varied this with a slow ball and an in drop.

He Is Experienced. He is about 20 years old and takes his game seriously. This was the second overtime game for the young pitcher in three days. He twirled a 14-inning game Sunday at Waxahachie. It was a scoreless game and was called by common consent.

Cobb for the visitors pitched a great game. Like Watson, he was at his best when a score threatened. Both men showed their "stuff" with runners on second and third and only one or two men down.

It was a scoreless game until the eighth. Ranger threatened to score in the second but Cobb showed himself invincible. McElrath walked. McKay cracked a hot roller through second. The two "Macs" put their heads together and when it was all over McElrath was perching on third. McKay got off pretty far from first and Gribble threw to first and got him. Hill, the first baseman, started after McKay. McElrath seeing the difficulty his teammate was in started hard for third. His lead was such that he was safe. Davis got a free pass but Watson fanned, leaving three men on base.

Two Men Die on Bases. Ranger got two men on base in the third. O'Keefe cracked the ball over short. Dinsmore fumbled a roller from Adams' bat and was safe. But these two men were the only ones to get on base.

Scroggins binged to left field in the eighth. Ragsdale cracked the ball along the third base line, scoring Scroggins, the first score made by either side. Hill ended the frame by fanning.

In Ranger's half of the eighth came a dispute over a ball decision by Umpire Neil that threatened for a few minutes to end the game. McKay was at the bat and Cobb threw an in ball that to Neil, appeared to be a ball. He called it such and Catcher Jimmy Gribble of Snyder, formerly with the Snappers, immediately tore off his mask and began protesting. Manager Dinsmore of Snyder, playing short, came tearing over the diamond and he injected himself into the wordy argument. The men carried the squabble to Skipper Snapp. Dinsmore passed the ultimatum that he wouldn't keep his team on the field if Neil continued. Neil tore off his breast protector and knee guards. Snapp, not desiring to see the game broken up, picked Ned Smith to finish umpiring. Play was resumed after a delay of 15 minutes.

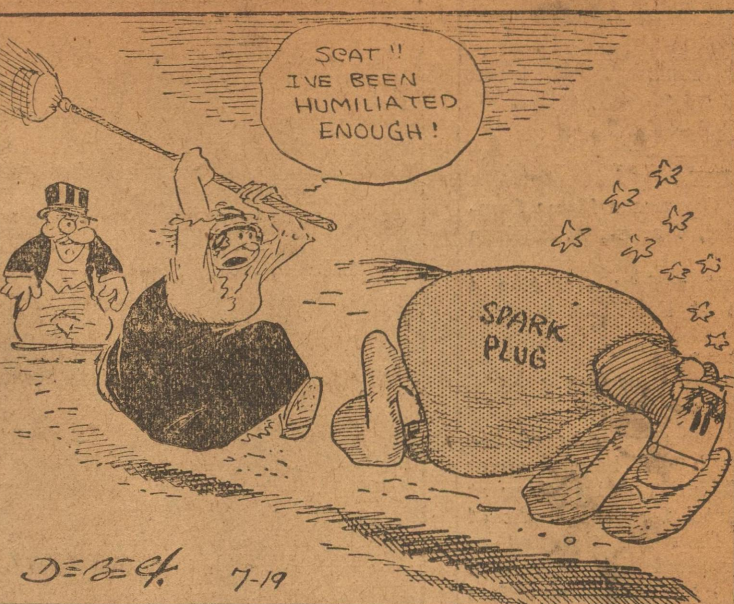

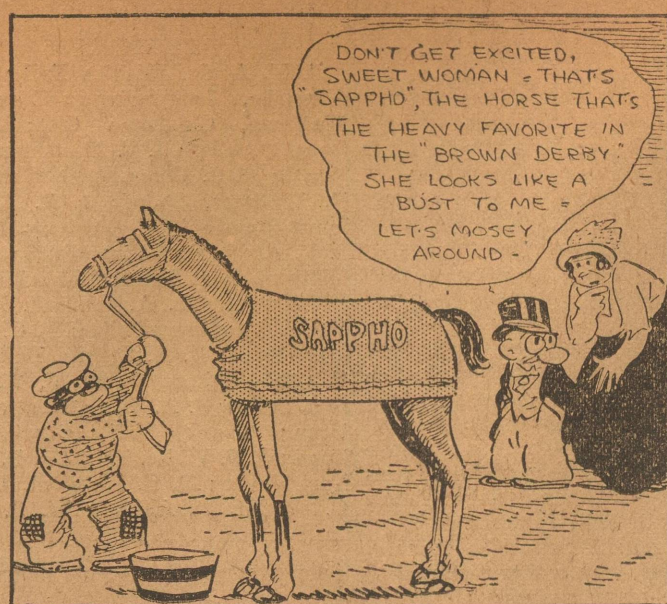

O'Keefe Waved Out. O'Keefe, who got four hits and one base on balls in the 14 innings, slammed the ball to left centerfield. It rolled from a point halfway from the outfield to the fence. O'Keefe tore around the diamond and with the ball sailing towards home when he passed the third. The little outfielder slid into the home plate a moment after Gribble received the ball and was waved out. It was a game attempt on O'Keefe's part to win the game. Criticism would be unjust.

Snyder tallied in the thirteenth. Ragsdale flew to Whitley, who made some handed catch, a few feet from the fence. Hill singled. Ridings hit in the direction of Adams, who had a little tussle with the ball. He took second on an imperfect throw. Adams struck out. Gribble and Cobb walked, forcing in a runner. Lorey was out. Cope to McKay.

Raner tied the game in its half. Cope was out on a fly to Hill. Davis singled. He took second on Ridings' misplay at second. Watson got his second hit in the game. O'Keefe scored Davis. Copeland flew to Ridings. Dinsmore beat out an infield hit. Scroggins doubled. Dinsmore scored on a passed ball. Ragsdale poked the ball to left field and Scroggins scored. Ragsdale was out at third on a throw from Whitley to Adams to Nugent. Hill flew to Whitley and Ridings to Adams.

Adams got a walk, stole second and

TIMES WANT ADS PAY,

CRIGUI FIGHTS FOR NOTING IN AID OF CHARITY

BY PAUL E. MALLON (United Press Staff Correspondent) NEW YORK, July 19.—Eugene Criqui is a real champion.

The little featherweight war hero is going to return to Paris Aug. 2, no matter what the outcome of his bout with Johnny Dundee, scheduled for the Polo Grounds, July 26. He is going back to appear FOR NOTHING against the best featherweight in France. The funds derived from admission will be used to aid disabled war veterans.

It is quite a novel experience for a prize fighter to do anything for nothing. Jess Willard, Luis Firpo, Jack McAuliffe and Floyd Johnson recently staged a benefit for the Milk Fund of New York, and the cash they received would support a million babies a month.

Jack Dempsey only got \$220,000 for boxing 15 rounds with Tommy Gibbons in what his manager, Jack Kearns called "a good workout for Dempsey." He was to have received \$300,000 for the show, and it was only at the last minute that he showed himself "a good sport" and decided to take a chance on his last \$100,000.

If Kearns is a "good sport" what kind of a sport would you call Criqui who, in this advanced day of financial frenzy, is going to fight FOR NOTHING for the disabled soldier of France?

The University of Washington crew seems likely to maintain its championship standard for the next year at least.

The East will have a hard pull to develop anything better than the next Washington crew, which will have six left over from this year and a big husky freshman crew to pick from.

Out of the boat which beat the Navy, Columbia, Syracuse, Pennsylvania and Cornell in the "varsity" race of the recent Poughkeepsie regatta, there will be only three men lost.

Tidmarsh, the bow oar; Dunn, who rowed No. 3, and Captain Shaw at No. 6, are the only ones to leave. Remaining there are Dow Walling, the star stroke, who is only a sophomore, Luft, France, Spuhn, Dutton, and Grant, coxswain, who has been elected captain.

The crew of 1923 was the first western crew ever to win in the big Eastern regatta, but with this formidable material the crew of 1924 should prove still stronger.

It is even doubtful whether some of the regular "varsity" will be able to hold their places against the competition of those in the freshman boat, all of whom approximate the build of Jess Willard and the strength of modern Goliaths.

EL PASO CONNECTED WITH CHIHUAHUA BY PHONE

EL PASO, June 19.—Telephone service has been established between Chihuahua City, capital of the state of Chihuahua, Mexico, and Juarez, across the Rio Grande from here. The distance between the two places is 220 miles. A one-mile wire has been established. There is an intervening station, at Villa Ahumada. From Chihuahua City several connections are possible with nearby towns.

Arrangements are under way but which will not be completed for several months, to have the system connected with telephone service in El Paso. El Paso's service is furnished by the Mountain States Telegraph and Telephone company, whose lines also cross into Juarez. No charge is made for telephoning from El Paso to Juarez, since apparatus used in both places is operated by the same company.

TEAM FROM BRECKENRIDGE TO PLAY HERE SUNDAY

A fast Breckenridge team, Snowden and McSweeney Gasoline company club, will be the Sunday opponents of the Snappers at the city park. These two clubs played on June 17 here. The Snappers won 3 to 2.

CORSICANA.—Increased express business of the Texas Interurban railway here have made additional express depot facilities necessary and construction is to begin at once,

Wonders Worked By the Know-It-All Commuter

There was once a commuter. A commuter is a train catcher, a handy man around the house, a snow shoveler and many other things. This one in particular knew all about carpentry, electric wiring, home broom, washing dishes, and everything. He was Johnny on the spot at fixing electric irons, washing machines, push buttons, hair curlers, and all such do-funnies that drink the mysterious juice called electricity that trickles through a little wire and carries as much kick as the forbidden ready-to-swallow stuff.

When this commuter bought his house in the refined, redistricted, residential section, where everything was restricted by the mud and the hootch it was wired (the house was), but not enough. So the commuter did many weird and wired stunts all over the place.

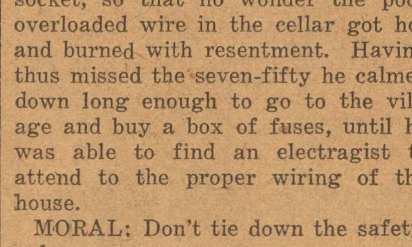

First thing a fuse blew out. This is what fuses are for. Then you don't have any spectacular fires. Neither do you have any light. But our commuter was not phased. He borrowed the other hairpin of the light-of-his-life and taking his pocket daylight torch descended to the nether regions.

Locating a cozy corner where the fuses have their nest he ingeniously stuck the curl folder into the anatomy of the suffering fuse and behold there was light.

Next morning while assembling his outer appearance and assimilating his inner reinforcement all at the same time, according to time-honored custom among commuters when trying to catch the seven fifty to town, he smelled something burning and it did not smell nice. The smoke was coming up the cellar stairs and it wasn't cigar smoke either. Descending hurriedly he discovered a wire tacked to the beams burning right merrily and that this wire came from the doctored fuse. He had sense enough to pull the main switch before he took the hair pin from the fuse and coming up again he found also that fair wife had cluttered all her appliances, such as toaster, percolator and grill, on one circuit by means of a triple socket, so that no wonder the poor overloaded wire in the cellar got hot and burned with resentment. Having thus missed the seven-fifty he calmed down long enough to go to the village and buy a box of fuses, until he was able to find an electrician to attend to the proper wiring of the house.

MORAL: Don't tie down the safety valve.

HEREFORD—Extensive equipment and cable lines are being installed in the local telephone plant and the entire system will soon be completed into a modern plant.

Main Drag Stuff BY P. G. T.

O. O. M., writer of the column, "New York Day by Day," discovered recently that "sophisticated crevice" was Bostonese for "wise crack." Wonder if the Bostonians say "heated canine," when they mean "hot dog," "chilled ocalution," instead of "cold store" and perhaps Boston "cake eaters" are "pastry masticators."

The bench in the city park in front of our street commissioner's confectionery is becoming badly dilapidated and there ought to be something done about a new bench. The old one is getting so rickety it is almost unsafe to sleep on. Just as a suggestion, why not make the new bench long enough to accommodate more people, (the old one is often overcrowded) pad it comfortably with a spring seat preferably, and upholster it with a tasty neat pattern of cretonne. This would give the whittlers a different material to whittle on and the sleepers a better place to sleep on and we think the sitters would enjoy burning holes in the stuff with cigarette butts and, last but not least, a pretty girl might sit on it some day.

According to a front page story in yesterday's Ranger Times, J. B. McGinnis, D. D. S., has nominated Mr. John W. Davis of Virginia for president. Now, McGinnis, D. D. S., who is oddly though affectionately called "Doc" by his friends, don't fit in with the cartoons of politicians we have seen. He is a ninety-pounder, and very short; so small, in fact, that he has to put lead in his hip pockets to hold him down when he pulls a tooth with long roots. All the pictures

and cartoons of politicians we ever saw were big men weighing at least a hundred pounds more than Doc. Presumably they grew on pork, for so near as we can discover that is the main diet of a successful politician.

If Doc McGinnis, who is at least a head shorter than the Main Drag, can nominate a president we think the Main Drag should be able to nominate one, too. Doc nominated his man all in one big job. He didn't say, "We'll think this guy over," or "We'll look this one up." He merely said, "John W. Davis for president." Well, Main Drag is going to take his time and consider candidates carefully.

According to Collier's straw vote, Henry Ford is the logical candidate and the way he topped 'em in the straw vote proves that there is absolutely no need for an election, but we believe there are other candidates than Henry.

One of the reasons given for Henry's popularity is that he is one of the common people and eats pie with a knife. We don't care much about a juggler candidate that can only eat a pie with a knife. If a juggler must be president give us one who can eat peas with a knife, that is something to be proud of.

Then, again, a sword swallower is always in danger. Suppose some anarchist would have a traitorous crook sharpen Henry's pie knife. Unless he is a better sword swallower than we think he is he'd cut his throat and another president would be assassinated. It might put him on a plane with Abe Lincoln, who was also of the common people, but we'd hate to have a ruler of the nation who would be such a temptation to an assassin.

The "Hope Diamond" was purchased by Mrs. Edward B. McLean of Washington, D. C., in 1909 for \$180,000.

PARKS CAMP PLAYS THURSDAY ON SUNDAY THURBER, July 19.—Teaco Stars of Park camp will play the third game of the series here Sunday. It will be the last home game for two weeks. There will be no Saturday game.

FRIDAY EVENTS

Chamber of Commerce Home Ownership breakfast, 7 a. m., at Gholson hotel.

Belle Bennett society reception 4 to 6 and 8 to 10 o'clock at Gholson hotel.

BELLE BENNETT SOCIETY TO GIVE SILVER TEA

The Belle Bennett society of the Methodist church will have a silver tea Friday afternoon and evening at the Gholson hotel for the benefit of the building fund for the pastor's home. Five hundred invitations have been sent out by mail and an effort made to reach everyone, but in case some have not been received the ladies say it is because of wrong address and invitation is extended to everyone.

The program for the afternoon will be:

- Piano solo, Miss Nell Tibbles.
- Reading, Mrs. Peters.
- Vocal solo, Mrs. Luke.
- Reading, Mrs. George Bryant.
- Duet, Mmes. Luke and Klinger.
- Reading, Mrs. E. L. Chaney.
- Vocal solo, Mrs. D. E. Klinger.
- Reading, Miss Blanche Nivers.
- Evening program:
- Piano solo, Mrs. Luke.
- Reading, Mrs. Blanche Nivers.
- Solo, Mrs. Peters.
- Reading, Mrs. Sanford Terrell.
- Piano solo, Miss Nell Tibbles.
- Duet, Mmes. Luke and Klinger.
- Reading, Mrs. E. L. Chaney.
- Solo, Mrs. D. E. Klinger.

MRS. POWELL HOSTESS TO BRIDGE CLUB

Mrs. Gray Powell entertained her bridge club Tuesday afternoon at the Gholson hotel, high score being won by Mrs. Harry Pearson and consolation by Mrs. M. L. Holland. A rose basket filled with bouquets and a rosebud were favors at each place. Following the game several additional friends came in for refreshments, a delicious salad course being served. Among those present were Mmes. A. G. Jury, T. J. Holmsley, Harry Pearson, J. B. Haden, H. Homer, Harold Whitbeck, J. R. Tolland, A. E. Ernst, F. D. Farquhar, L. R. Taylor, Baylus Cade, M. L. Holland, and John Bell of Cisco.

COLUMBIA STUDY CLUB TO HAVE EXTRA MEETING

The Columbia Study club met Wednesday morning with Mrs. O. L. Phillips and discussed "The Goose Man" by Wassermann. An extra meeting will be held next Wednesday morning at 10 o'clock with Mrs. L. L. Reeder.

FIRST BAPTIST CHURCH PICNIC ARRANGEMENTS

If the weather remains fair this evening the picnic of the First Baptist church will be held at Russell Creek at 6 o'clock as previously arranged. Cars will be at the church at 5:30 to carry all those who have no conveyance. Should it rain everyone is asked to bring their baskets to the church and eat dinner there.

PERSONALS

Mrs. C. T. Ware and son, C. T. Jr., left today for Fort Worth where they will remain until Tuesday.

Mrs. J. M. Ralston writes from Oklahoma that she is having a lovely visit in Mullah and will stop in Fort Sill before coming home.

Miss Katherine Shea who has been quite ill for 10 days is reported much better.

Mayor Hodges left Wednesday night for Abilene to attend the funeral of his brother's wife, Mrs. Homer D. Hodges, who died suddenly on Wednesday.

T. E. L. SOCIAL TONIGHT AT TEE PEE ANNEX.

Members of the T. E. L. class of the Central Baptist church will give a "Timothy" program and social evening at the Tee Pee annex this evening at 8 o'clock. All members and friends are invited to attend.

MRS. HOMER D. HODGES DIES IN ABILENE

Mrs. Homer D. Hodges, sister-in-law of Mayor Bob Hodges, died suddenly in Abilene Wednesday night from heart failure. Mrs. Hodges underwent a serious operation about 10 days ago, but was thought to be recovering nicely and members of her family had left Abilene and gone to their ranch near there.

Mayor Hodges left at once for Abilene as soon as he received the news. Funeral arrangements will be made as soon as other members of the family who are in South Texas can be communicated with.

Besides her husband Mrs. Hodges leaves five children, Helen, Harriet, Jeardin, Lida and Charles W. Burial will take place in Abilene.

GALVESTON.—D. A. Hegarty, manager of the Brush Electric company here, discussed tax-exempt securities and their bad effect on industrial expansion before the Doherty Men's fraternity here. He referred to capital invested in these securities as being "pensioned."

DALLAS—Improvements of the street railway tracks in Highland Park are now under way as well as extensions and betterments in various parts of this city.

CAN BEAUTY BE CONVICTED?

Is it true that handsome, young, attractive, well-dressed women who kill can go free and that women who are old, poorly dressed and ugly are convicted of murder in Chicago? Aside from Mrs. Nitti-Crudelle, who occupies a cell in the Cook county jail, the first woman ever to be sentenced to die on the gallows, there are five names which will be remembered by the public as leading figures in celebrated murder trials. Mrs. Verna Trepagnier was old and was convicted and sent to prison for one year for killing a man who defrauded her in a business deal. Mrs. Tillie Klimek, middle-aged, squat and ugly, was sent to prison for life for murder. Mrs. Cora Isabelle Ortwein, handsome and young, was acquitted in 1921, of the murder of Herbert Zeigler. Miss Ruby Dean, beautiful cabaret singer, was acquitted in 1917, of the murder of Dr. Leon Quilman. Miss Pauline Plotka, pretty and winsome fashion designer, shot and killed Antonio K. Jindra, a hospital interne, in 1917, and went free. Above, left to right, Mrs. Ortwein, Miss Plotka, Miss Dean and Mrs. Trepagnier. Below, left to right, Mrs. Sabelle Nitti-Crudelle and Mrs. Tillie Klimek.

Electric Industry Grows In Few Years To Mighty Power

The relation of public utilities to the increase of population is brought out in statistics recently published by the bureau of census in Washington.

In 1880 the population of the United States was 50,000,000; in 1920, four decades later, it was 105,000,000, an increase of 110 per cent. In 1,880, the entire capital invested in the electric light and power industry was less than one million dollars; it is now approximately \$5,000,000,000, an increase of 500,000 per cent. The annual gross return upon the investment is about \$1,000,000,000, and \$1,750,000 persons own the securities of the industry.

It is estimated that 8,500,000 homes in this country, out of a total of 22,500,000 are wired for electrical service, and that this service is at present available to 5,000,000 additional homes. In 1922, approximately 1,000,000 new homes were wired and equipped for the use of electrical energy, and it is expected that 4,000,000 additional homes will be wired within the next five years.

There are at present in the United States 287 cities of 25,000 or more each, with a combined population of 37,000,000, forty years ago it was 8,500,000.

This unparalleled growth was possible only because of the ability of the utilities to keep ahead of the growing demands upon them, says the bulletin of the New York state committee on public utility information reporting the figures. To house this increasing population towns and cities had to expand and build suburbs. Suburbs cannot exist without adequate transportation and telephone service. Houses are not habitable without electric wires and gas pipes; thus the electric railway, the electric light and power industry and the gas industry served the growing communities by anticipating and preparing themselves for demands for service in advance of the need of it.

This demand upon public utility service to keep ahead of the community it serves, together with the increasing per capita use of gas, electric light and power, telephone and other utilities, has necessitated a constant inflow of capital for new plants and equipment.

WACO.—Telephone men from cities in Central Texas held a meeting here July 18. This is the first of the group meetings of the Texas Independent Telephone association for this year. The object of these meetings is to develop plans for improving the telephone service.

ABILENE—Almost 10,000 visitors registered at the electrical home built by the West Texas Utilities company and sponsored by that company and the Abilene Reporter. The number of visitors is equal to about three fourths of the number of customers of the company in West Texas.

BALLINGER—Installation of a light and power plant is under way at Bronte. C. C. Holder is building the plant.

DELINQUENT GROUPS IN COLLEGES TOO MUCH GIVEN TO "EASY LIFE," THEY HAVE LEARNED TO WORK

EVANSTON, Ill., July 15.—Too little sleep, too much play, not enough study, too much leisure; fast eating and diversified thinking are factors that devitalize students and are responsible for the "delinquent groups" found in every university, according to a report made public by Professor Delton Thomas Howard of Northwestern University.

In Northwestern alone, out of 1,635 students in the college of liberal arts; Professor Howard has found a "delinquent group" of 265 composed of 166 men and 99 women. In other words, he points out, 16 out of every 100 students do not "pass." But delinquency does not necessarily imply lack of intelligence, the professor found.

"No result of our study," the Northwestern professor writes, "is more significant and interesting than the discovery that the average intelligence of the so-called delinquent group is quite as high as that of the general student body."

Students found to be delinquent are put on probation at Northwestern and have to make good or be dropped from the roster.

"The probationers," the investigator reports, "devote more time, as a whole, by their own confession, to athletics, social activities, outside work, leisure, than do the freshmen; less time to sleep, campus activities, meals, classes and studies."

Among the total group of men interviewed, 15 were thought to be handicapped by "mental immaturity." Commenting on this Professor Howard remarked:

"These are boys who have, for the most part, been reared under easy circumstances and who have never been required to view life seriously. Such students have a distinctly childish attitude towards their classroom work, have no intellectual interests, no definite ambitions, no sense of responsibility. In most of these cases as might be expected, high school preparation has been superficial and inadequate."

Illness, family troubles and financial worries are among other causes leading to students being put on probation.

Professor Howard drew attention to the comparatively high percentage of delinquent students, using his figures to illustrate the serious situation in American university life today.

LOCKHART.—Extensive improvements have been made to the plant of the Citizens Light & Water company here to keep up with the new growth of the city. Ed A. Masur has been elected president of the company.

Child-birth

Here is a wonderful message to all expectant mothers!

When the Little One arrives, you can have that moment more free from anxiety than you have before. An eminent physician, expert in obstetrics, has shown you how. It was he who first showed the great benefit of "Mother's Friend" to Mrs. C. J. Hartman, German, on Feb. 22, 1922.

"With my first two children I had a doctor and a nurse and then they had to use instruments. But with my last two children I used Mother's Friend and had no trouble. I was very sick—slept about ten or fifteen minutes. The 'Mother's Friend' as our neighbors and friends call it, is a wonderful medicine. It is sold by all drug stores—everywhere."
