Of this amount \$1,000 a month, or a total of \$6,000 was subscribed at the meeting Sunday.

The floor is to be laid in the auditorium at once, making it available for services within two or three weeks. The other interior work will be continued until the auditorium is not only the largest but the most beautiful in this section.

ACTION ON SHIP SUBSIDY, DEMAND OF PRESIDENT

WASHINGTON, June 13.—President Harding has notified Chairman Campbell of the house rules committee that unless the ship subsidy bill is passed prior to adjournment, he would feel obligated to call a special session solely for its consideration.

Harding said so much was involved and such a difficult situation would follow if congress fails to sanction the merchant marine bill that "I should feel myself obligated to call congress immediately in extraordinary session to especially consider it, if it went over through any neglect or delay beyond the present term."

LABOR CONVENTION STRONG AGAINST SHIP SUBSIDY BILL

CINCINNATI, June 13.—The ship subsidy bill now pending in congress was condemned today in a resolution adopted by the American Federation of Labor convention as inimical to public interest and destructive to the nation's hope of sea power.

Andrew Furuseth, president of the International Seamen's union, said that the bill would today or tomorrow be reported in both houses with recommendations for its enactment into a law.

On Furuseth's motion the convention voted to wire congressional leaders in protest against its passage.

DALLAS SUICIDE IS FOURTH VIOLENT DEATH IN LAST FOUR DAYS

Grief over the death of a brother last March and continued illness are believed by his family to have caused despondency.

Jackson was a guard at White Rock reservoir for several years. He killed Brownie Shelby several years ago when Shelby resisted arrest.

Oscar Nix declared that he saw Jackson pull the gun and kill himself. This was the fourth violent death in Dallas in four days.

Perkins, of Dallas, attorney for the Cotton Belt road, that the railroads in Texas were ready to reduce the freight rates on shipments within the state from 35 to 21.5 per cent under the permission granted by the interstate commerce commission. The increase of 35 per cent was granted the roads on Aug. 26, 1920, and the roads are now allowed to decrease the rate to an increase of 21.5 per cent of the rate in effect prior to Aug. 26, 1920.

Plugging Job Ruined!

Mason-Ardizzone Well on Hagaman, Shot Several Days Ago, Found With Oil in Hole as Preparations are Made to Plug.

Owners of the Mason-Ardizzone well on the Hagaman tract, who were preparing to plug the hole after failing to get production several days ago, following a shot, this morning found several hundred feet of oil in the hole and are now confident of getting a 90 or 100-barrel producer. It is planned to shoot the well again instead of drilling any deeper.

The well of O'Donnell et al, in the same vicinity, is now making approximately 100 barrels following a shot yesterday. The production is coming from around 3,210 feet.

FOUR KILLED BY AMMONIA BLAST, PACKERY BURNS

Big Detroit Plant Consumed By Flames That Followed Terrific Explosion.

DETROIT, June 13.—Four men were killed by an ammonia tank explosion at the Parker-Webb packing plant today. Fire followed the explosion and spread rapidly through the buildings. The explosion wrecked the engine and refrigerator rooms and spread ammonia gas through the entire plant.

Firemen wearing gas masks attempted to force their way into the gasfilled rooms in search of workers but were driven back by the flames. The conflagration gained despite many streams of water and shortly after noon the destruction of several main buildings seemed certain. The mangled bodies of the four men were found in a tunnel running from the ammonia tank room to the refrigerating room.

Border Agents See Effort to Discredit and Bring About Downfall of Obregon Government in Laredo Kidnaping Case

SAN ANTONIO, June 13.—According to word received from Laredo today, arrests in the \$50,000 kidnaping and murder plot that resulted in the death of General Lucio Blanco and Colonel Aurelio Martinez at the border last Wednesday are expected momentarily. The United States border agents announce that they are gradually closing in on five Americans who they assert received \$10,000 each for carrying out an oil company's orders. It is pointed out that Minister of the Treasury De La Huerta is attempting to secure a Mexican loan from New York bankers and the kidnaping and murders on the border tend to throw discredit on the Obregon regime, which cannot continue without additional financing.

Oil interests are desirous of reinstating the constitution of 1857, which gives foreign capital every opportunity in the southern republic. At present the 1917 constitution—the child of the late President Carranza, stands for "Mexico for the Mexicans." To carry out plans bringing discredit on the Obregon regime, it is claimed Americans have been employed to foment as much trouble as possible. It also is claimed that the same men who took part in the kidnaping and slaying of Blanco and Martinez attempted to kidnap General Francisco Murguia from his ranch near here about three months ago. Their plans were frustrated at that time because of a quarrel regarding the split to be made in the reward.

TARIFF BEFORE BONUS IS PRESIDENT'S WISH

WASHINGTON, June 13.—President Harding, it was said today at the White House, hopes and expects that the tariff will be passed before the proposed soldier bonus legislation. FERGUSON GETS NAME ON TICKET IN HARD FIGHT

Neff's Opponent Also Allowed to Run; Democrats Must Vote Straight Ticket.

AUSTIN, June 13.—Former Governor James E. Ferguson will be received by Texas democrats as a candidate for the democratic nomination for United States senator, following the action of the state democratic executive committee here yesterday in permitting his name to go on the ballot.

The Vote Was 12 to 11. Those opposed to placing Ferguson's name on the ticket held that he was ineligible in view of the fact that he had voted the American party ticket at the last election. Luther Nickles, who represented Ferguson before the committee, argued that Ferguson could no longer be affiliated with the American party, as that party was a thing of the past. The name of Mrs. Ferguson was certified as a candidate for the senate but Ferguson stated that in as much as his name had been certified, Mrs. Ferguson would withdraw.

No Candidate Barred. The only other candidates whose eligibility was questioned were Harry P. Warner, for Governor, and E. W. Cole of Austin, candidate for congressman at large. The committee agreed that both should have a place on the ballot.

The committee added an additional requirement for Democratic voters, providing that in future primary elections only those persons who voted straight Democratic tickets in the next preceding election would be qualified to vote.

With only one dissenting vote, the committee rejected the petition of Ferguson asking that a light wine and beer amendment to the Volstead act be submitted to the voters.

The next meeting of the committee will be held in San Antonio and Dallas was chosen as the meeting place for August 7, when the vote will be canvassed.

COUNTY WARNS AGAINST CUTS IN PAVED ROADS

Oil companies and drilling contractors have been warned in a formal statement from County Judge C. R. Starnes that no ditches can be cut through the macadam or hard surface roads of the county for any purpose, unless a permit has been obtained from the county commissioner in the precinct affected. The indiscriminate digging of such roads damages the surface, and failure to comply with the order will not be overlooked, the county judge states in warning that violations will result in civil suits.

PEACHES TEST MENTALITY?

Peaches in town! 'Tis true, there are peaches every year. But just the same, their arrival is always an event, spurring the cows to renewed production of cream, giving the children a chance to romp more vigorously and get themselves and clothes more dirty, while mother hies herself to the kitchen and indulges in the well known domestic art termed "preserving."

That makes of this arrival an event that must be commemorated. On this account, the moralizing and the recommending which the average editor must indulge in can well be laid aside for a day, and in its stead substituted an abstract mental problem, which might be of great value if one could only know the philosophy of it.

It is a problem based on peaches—fuzzy peaches. And here it is: Choose the easiest chair and the coolest spot, so that mundane affairs may not distract the attention.

Now imagine yourself taking that fuzzy peach in hand. Imagine yourself conveying that peach to your mouth—

Ah, cold shivers run through you? No?

Well if they do, imagine yourself rubbing the fuzz off that peach and eating it, without a shiver.

Can you do it? If not, it doesn't make any difference.

PUT TARIFF ON HOT AIR AND SANTA CLAUS, DEMOCRAT TELLS SENATORS

WASHINGTON, June 13.—Protest against what was described as a policy of retaliation against Canada contained in the pending tariff bill, was made in the senate by Senator Augustus O. Stanley, of Kentucky, Democrat.

"This attempt to build a tariff wall along the Canadian border," he said, "is the smallest piece of politics ever played by intelligent legislators.

Senator Stanley was opposing a provision of the bill under which building brick imported from Canada would be subjected to the same amount of duty as that imposed by Canada.

Fighting also the proposed duty of 25 per cent ad valorem on fire brick, Senator Stanley said this duty was written into the bill to "placate" Senator Frank R. Gooding, of Idaho, chairman of the republican agricultural bloc.

"Shirt Tail Full of Brick" "In order to protect a shirt-tail full of brick in Idaho," the senator said, "it is proposed to place this incubus on a basic industry. It is incomprehensible stupidity in playing peanut politics when the great iron and steel industry of the country is at stake.

"Should some constituent write a congressman asserting that there was need of protection on the American Santa Claus, there would be a duty placed on that amiable gentleman."

Senator Stanley said the official figures showed that the fire brick industry in Idaho produced only \$3,000 worth of this brick a year, or less than one brick kiln in his state produced in a single day.

Asserting that railroad rates were so high that brick could not be shipped more than 100 miles, the Kentucky senator declared there was only one "bigger fool thing than a tariff on brick and that would be a tariff on hot air."

Replying to Senator Stanley, Senator Gooding shouted that it was "unAmerican" to oppose a duty on a product of any industry in the United States that needed protection, no matter how small that industry might be.

He charged that the democrats

These packages the honoree was required to tell what use she would put the contents to, and to guess the nature of each and every one before unwrapping them.

After all the packages had been unwrapped, Miss Carpenter was blindfolded and then a very pleasant social hour followed, during which the bride-elect was showered with congratulations and best wishes for her coming marriage to Mr. George Lemma.

The prize for the "tackiest one" went to Mrs. Nova Little.

Old-fashioned games, such as "fruit basket" were played, and chewing gum and red stick candy suggested the simple "goodies" of by-gone days. There were about fifty guests present, and during the afternoon a picture was made of the assembly. The only modern touch was the serving of orange sherbet and cake as a grand finale.

"THE BIRTH OF A NATION"

"MILLIONS NOW LIVING WILL NEVER DIE" —Judge Rutherford

There is special significance in the troublous days through which the world has passed since 1914.

Out of these events will come greater developments, involving all nations and peoples. The Bible accurately foretold present conditions.

Its prophecies regarding the future will be fulfilled with equal exactness.

The outstanding hope held forth in the Scriptures is the hope of eternal life, and the realization of this hope is now at hand. It will be accompanied by all that the heart has longed for—health, peace, and happiness.

God's purpose in giving a revelation of His Plan was that mankind should use it, understand it, and appreciate the principles it sets forth.

An understanding of the Bible broadens one's view and inspires cheerfulness and optimism.

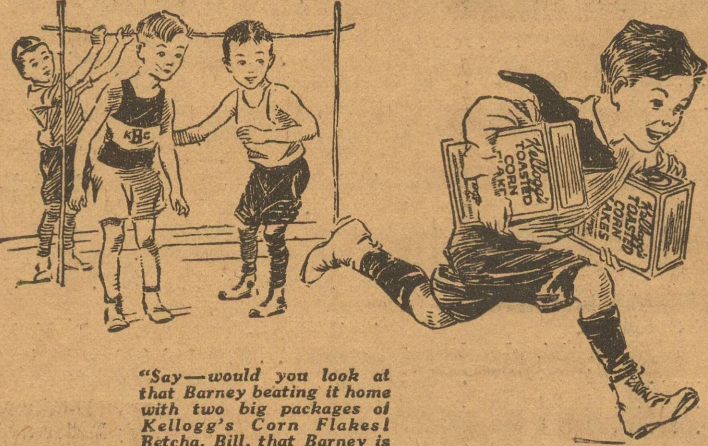

Prophets of old have described with glowing tongue the glories of the bright day that is now dawning.

Hear the subject discussed at length by Oscar Magnuson, of Brooklyn, N. Y.

This lecture has comforted multitudes bereaved by the World war, epidemics, and attending sorrows. So great has been the demand that it has been amplified and published in book form, including 500 Scriptural proof texts. Those unable to hear the lecture may have a copy by sending 25c to H. L. Ice, Ranger, Texas, Box 963.

NITRO BACKERS MUST PAY THEIR DUES RIGHT NOW

The Nitros will be home from the road trip on the morning of Friday, July 16. When they arrive, according to the rules of baseball, their paychecks must be waiting for them. To have the checks ready the money must be in the bank. To have the money in the bank, subscribers to the "endowment fund" pledged last month must kick in pronto.

Although an improved attendance marked the last stay at home, and one payday was met, the receipts were not enough to pay salaries while the team was on the road, therefore the call is made for the monthly subscription pledged to meet deficit.

The directors of the ball club have been relying upon these pledges. But several of the largest contributors have gone away since last month, and this renders 100 per cent collections from the others vitally necessary. Others of the subscribers are in and out of town and cannot be located promptly.

That, then, leaves it up to everyone to see President J. C. Smith at once, or mail a check for the amount pledged. Mr. Smith and others are giving much of their own time and money in support of this community enterprise. All they ask is that those who think baseball is worth while shall contribute a small amount each month toward its support.

That support is expected, and necessary. If Ranger as a whole expects a few men to support the club, then there will be no baseball. But with everybody doing a little bit, the club will be easily put over.

Those who are not on the "endowment fund" are urged to pay monthly \$5, \$10, \$25 or any other amount which their means and their interest will dictate, to insure the club will finish the season. There is less than three months more. Those who have already subscribed are urged to remit now.

NITROS REGAIN BATTING EYES, POUND WETZEL

Clovis Infield Blows Up and Ranger Wins Another, 13 to 6.

CLOVIS, June 13.—Ranger took the last game of the series here yesterday, 13 to 6, by pounding Wetzel heavily and taking advantage of numerous Clovis errors. Crawford also was touched freely but was given almost faultless support and the Nitros led from the third inning on.

Three men essayed to play short for the Buzzers during the matinee, and the hard hit drives that rang from Ranger bats caused five errors at that position alone. Four others were scattered over the field and altogether, the Clovis misplays allowed five of Ranger's runs. Tucker somewhat evened it up, however, by taking two line drives at his shoestrings and robbing Nitro bingers of that many hits and several additional scores.

WEST TEXAS GAMES

BRONC RALLY FAILS. SWEETWATER, June 13.—A ninth-inning rally by the Broncs came near spilling the beans for Fleharty yesterday, after he had pitched good ball all the way. The Broncs lead which they held until the sixth, when the Swatters got to Badger in the first of a series of rallies that gave them six runs—barely enough to stave off the Bronc rampaging in the ninth. It was Fleharty's ninth victory of the season.

KEISLER STOPS LUBBOCK. LUBBOCK, June 13.—Keisler held Lubbock to six hits yesterday and Abilene took the odd game of the series, 5 to 2. He also broke a tie by hitting a homer with one on and two out in the sixth. Green was driven from the box in the seventh, after the Eagles had scored two more runs. Speegle's triple in the seventh drove in the Hubber's final score.

GASSERS WIN EARLY. AMARILLO, June 13.—The Gassers pounded Morton in the first and third innings yesterday, and though he steadied for the rest of the game, made enough runs to beat Stamford, 4 to 3. Stamford threatened only in the eighth.

MOCCASINS AND TARANTULAS VISIT IN WHITESBORO. WHITESBORO, June 13.—Water moccasins are leaving water pools and creeks and seems to have an incentive to want to work their way into houses. Two were killed at the Texas & Pacific station today. One had gotten inside the telegraph office. The other was entering the waiting room when it was intercepted. Several other snakes had been killed on the streets and in the alleys.

There is a migration of tarantulas, of the large Honduras type, that usually infest banana fields. It is believed that a few of these escaped from a banana car which was partly unloaded here a few days ago.
