BONES ARE BROKEN LIKE STRAWS BY FALL

Francisco Villa Is Killed

BATTLE RAGING AMONG MEN OF FORMER BANDIT

Death of Leader Starts Factions
to Fight and Many Report-
ed Killed.

By Associated Press
CHIHUAHUA CITY, Mexico, July 20.—Francisco Villa, commander of rebel armies in Mexico for 10 years, and at one time known as the "butcher of Mexico," was shot and instantly killed at 8:30 o'clock last night on his ranch in the state of Durango by Miguel Trillo, his secretary.

In the battle which followed Trillo was killed by men loyal to their slain chieftain, and according to advisers received here, general fighting between the two rival forces that sprung up quickly is in progress. Over 100 casualties are reported.

The secretary is said to have become incensed at the former bandit leader and to have fired quickly. The bullet entered Villa's heart and he died almost immediately. Trillo was fired on by a group of men nearby.

Villa had 800 men on the ranch and all of them trained in the use of firearms, having followed their chieftain in various rebellions against the government prior to his laying down his arms and signing a truce.

The movement headed by Trillo is said to have been the accumulation of ill feeling against Villa, due to the delay in paying his men and the failure of crops because of the lack of rain.

By United Press
MEXICO CITY, July 20.—Pancho Villa, foremost Mexican bandit, is reported to have been slain by his own men on his Mexican ranch. The report was received at the government offices here from a telegraph clerk at Parral, who said that Villa had been shot to death in a row at his ranch last night.

SLAYER OF VILLA WAS HIS PERSONAL BODY GUARD

By Associated Press
EL PASO, July 20.—Miguel Trillo, secretary to Pancho Villa, and who is credited with having fired the death shot, held the rank of colonel in Villa's army before his disbandment. Trillo commanded the so-called Golden Guards, that acted as a personal body guard for Villa.

He was formerly an auto driver and joined the rebel chief when he was at Chihuahua City in 1916.

PROPERTY VALUATIONS IN TEXAS MUCH LOWER ASSESSMENTS SHOW

By United Press
AUSTON, Texas, July 20.—The state automobile tax board, composed of the governor, comptroller and treasurer, met today and reassessed the maximum state ad valorem tax rate as was in effect last year, 35 cents on the \$100 valuation.

The assessment rolls this year show total valuations of \$3,367,941,904 with 19 counties yet to be heard from. This is a decrease of approximately \$12,000,000 under the total assessment of last year.

INSANITY STAYS EXECUTION OF DEATH SENTENCE

By Associated Press
DALLAS, July 20.—District Attorney Dan Moody on his return from Georgetown today said that he had instructed the sheriff of Williamson county to have Manuel Sagu, slayer of W. Wofford, declared insane yesterday by alienists, placed in the state hospital for the insane. Should Sagu recover his sanity, his sentence of death will be carried out.

RACING FORMS ARE BARRED FROM CANADA

OTTAWA, Canada, July 20.—Newspapers publishing racing forms and all other American forms of horse racing, whether the races be in the United States or Canada, will be seized if brought into Canada, it is announced here. Already some newspapers, including the Chicago News racing form, have been seized to comply with the new law, which was enacted to stamp out racing books.

Port Arthur May Escape I. W. W. Influx

Poultry Raising Hints

Change Color of Bird's Feathers by Varying the Diet, Transform the White Fowls into Salmon Pink or Chrome Yellow, or Camouflage Them.

BERLIN, July 20.—Aesthetic poultry raisers in the future may give prize birds any color they choose by varying their diet, according to Dr. Ehrenreich, an investigator who has been studying the coloring of the feathers of the living birds. Hereafter white Wyandottes may be converted into salmon pink, or chrome yellow fowls, according to the whim of the owners, the doctor asserts. It will be possible to fool watchful hawks by giving feathered flocks the color of their surroundings and camouflaging them after methods adopted in the World War.

Dr. Ehrenreich says he has discovered that red and green parrots turn yellow if given certain

food. Ten days of this experimentation have shown a change from a cayenne pepper tint into a yellowish red, while many other tests have demonstrated that a bird's plumage depends largely on dyestuffs contained in food. Feathers of old hens cannot be materially doctored in color, but dyestuffs put into their food affect the hue of the egg yolks to a noticeable degree.

Experiments made with caterpillars have shown that those fed on walnut foliage become dark butterflies.

Indians have long understood the art of changing the color of living birds but it has not been studied extensively by modern science until recently.

Order for Members to Mobilize and Prepare to Eat Port Arthur's Larder Clean Said to Have Been Cancelled But Chief of Police There Has Doubts and Continues Pre- paredness.

By United Press
PORT ARTHUR, Texas, July 20.—The I. W. W. invasion has been called off. Orders for mobilization of the I. W. W. forces in half dozen states for an immediate descent on Port Arthur have been cancelled and those already on the way have been ordered back to their posts.

The change in orders is because of a general strike that has been ordered, according to Sidney Perry, I. W. W. organizer, awaiting trial here with three companions on charges of vagrancy. Perry said that a general strike of the International Marine Transport workers had been ordered as a protest against the arrest and conviction of 27 members of the order at Los Angeles recently.

News of the I. W. W. change in plans are being accepted with reservations by the police. "There has been a lot of loud mouthing over this situation," said W. W. Covington, chief of police. "The next few days will indicate if the invasion really has been called off."

POLICE SEARCHING FOR YOUNG MAN WHO IS KNOWN AS "JACK"

By United Press
HOUSTON, July 20.—Police here are trying to determine the identity of "Jack," to determine his responsibility in connection with the finding of Miss Jeannette Bowers, 16, in an unconscious condition on a sidewalk in a residential section of the city last night. The girl was found by Ellis Chapman and taken to a hospital.

When the girl had recovered consciousness she said she was on the way to a country dance with a young man she knew as "Jack," but whose last name she did not know. "Jack" gave her a drink of liquor, after which she lost consciousness and could not say what had happened afterward. She knew nothing more until she awakened in the hospital.

TWO AVIATORS KILLED WHEN AIRPLANE FALLS

By United Press
RANTOUL, Ill., July 20.—Lieut. Edward Kinney and Lieut. Harold McNad were killed at the Ranroul flying field today, their airplane falling just as they were seeking a landing place.

Elks Offer to Aid Splicing of Young Man and Best Girl

Want to get married? Well, here's a fine chance for some young fellow with the right girl. The big Elks Jubilee is anxious to secure a local couple to be married at the Jubilee. The committee in charge promises them some valuable wedding presents. It will be the largest attended wedding ever held in this part of the country. It will be a real wedding and just as solemn as it should be. After the wedding the young couple will be treated as the honor guests of the evening.

Any young man with the girl who is interested should get in touch with one of the committee right away.

Elks to Stir Pool

Jubilee and Automobile Show in August, With Dancing Minstrel Performance, Parade and Other Events Calculated to Bring Many Visitors to City for Lively Week.

The big Elks Jubilee and Automobile show to be held in Ranger next month under the auspices of the Elks club, promises to be one of the biggest events of its kind ever held in Eastland county, according to those having charge of the arrangements.

The Community Hall and the lot adjoining will be used. The lot will be fenced in with a ten-foot fence. The west side of the hall will be removed to afford more ventilation. Various stunts are to be pulled each night by members of the Elks. The committee is anxious to secure a couple to be married on the opening night. Many valuable gifts will be given to the couple who are married at the Jubilee.

One of the big features of the Jubilee will be the Automobile

Show and a big street parade on the opening day. Prizes will be offered for the best decorated car from Eastland county. Also a prize for the most ramshackle looking car. The committee in charge promises one week of fun and frolic. Dancing will be a nightly feature.

It is expected that 20,000 or 30,000 people will visit Ranger during the week as the event will be advertised all over the county.

The most popular girl in Ranger will be chosen Queen of the affair. The judges are having some trouble in determining who is the most popular girl.

An amateur minstrel act entitled "The Initiation of the Sons and Daughters of I Shall Arise" order promises to be the funniest minstrel act ever seen in this section.

Gasoline Price In Dallas Falls to 11 Cents a Gallon

By United Press
DALLAS, Texas, July 20.—The retail price of gasoline was cut today to 11 cents a gallon by several independent companies here, following reduction to 13 cents announced by the Magnolia Petroleum company late Thursday.

This is the lowest price at which gasoline has sold in Dallas for many years, it is said.

WET AND DRY FORCES MIXED UP IN CHARGES AGAINST DRY LEADER

NEW YORK, July 20.—William H. Anderson, superintendent of the New York State Anti-Saloon League, was indicted today by the grand jury on three counts, two of them being for grand larceny. Anderson, who was in court with former Governor Chas. Whitman, his attorney, pleaded not guilty. His bond was fixed at \$5,000 and he was given a week to demur. The case has aroused tremendous controversy in New York.

The indictment arose out of charges by a former employee of the anti-saloon league that Anderson had misappropriated funds of the league amounting to about \$25,000. Anderson claims that behind the charges is a conspiracy to ruin him and has made a bitter attack on district attorney Banton, who preferred the charges. Many ministers and others have testified in his behalf.

COMMISSION ORDERS LOWER GRAIN RATES

WASHINGTON, July 20.—The railroads today were ordered by the Interstate Commerce commission to make, by October 10, reductions on corn, oats, sorghums and other coarse grains moving from Texas producing points to all the gulf states.

As a guide for the reduction, the commission fixed the rate from such production points to Vicksburg at 28 cents per 100 pounds, the schedules to points further east to contain the proportionate increases over the Vicksburg level.

POLICE ON TRAIL OF STOLEN LICENSE PLATES

Police were given information of stolen license plates that had been removed, it was alleged, from one auto and placed on another car, a roadster. The latter car was afterwards sold, the complaint said. The number and the name of the person alleged to have stolen the plates were furnished to the police.

WORKMAN SLIPS FROM TANK TOP, 50-FOOT DROP

John Fitzpatrick of DeLeon Meets With Accident at Chestnut & Smith's.

John Fitzpatrick died at 12:45 p. m. at the General hospital. It was announced by physicians attending the injured man that his death was due to internal injuries.

Falling a distance of 50 feet from the top of a half million gallon gasoline tank at plant No. 101 of the Chestnut & Smith corporation, John Fitzpatrick sustained broken right and left arms, broken ribs and broken right leg above the knee this morning.

He was removed to the General hospital in the Jones-Cox ambulance, where an examination revealed a simple fracture close to the right shoulder, a compound fracture of the right wrist and a fractured right elbow. He also suffered a gash on his right hip.

The man was working on the roof of a new tank and was using a bar to do some prying. His foot slipped, it was said, and he fell on a metal bottom inside the tank.

He is 49 years old. He lives at DeLeon and his wife was sent for immediately after the accident.

The injured man was employed by J. H. Malone, contractor, who has a contract for erecting six 500,000-gallon tanks at plant No. 101.

British Cabinet Fails to Agree on Reparations Note

By United Press
LONDON, July 20.—The British cabinet last night proved unable to agree on the final terms of the reparations note that is to be sent to Germany and further consideration was again under way today while the allies and the late enemy waited.

THIRD PARTY WILL DEPEND ON LEADER SAYS VANDERLIP

By United Press
CHICAGO, July 20.—Former President Vanderlip of the National City Bank of New York, said today that a third political party in 1924 might be possible if the right man was found to lead it. He would not name such a man.

"Although the people undeniably are reckless, the business situation is good," Vanderlip declared. "Blame for it must be placed on political leaders in Washington. Farmers should be able to get a good price for their wheat, but for the government to buy the grain would be able to work out. The farmer will be able to work out his salvation, inasmuch as the nation is prosperous."

PLEDGES FOR BALL TEAM CONTINUE COMING IN

Several hundred dollars more was pledged the baseball committee this morning by firms and individuals. A total of \$260.50 was subscribed to the Ranger Snapper baseball management as the result of personal calls made this morning by J. C. Smith, F. A. Brown and Gus Coleman, the three men delegated to the work by the Chamber of Commerce.

A total of \$664.73 was pledged last Thursday and with today's total, the sum of \$871.23 has been subscribed. This is still short of the figure the committee desired. A few persons were out when the committee called.

NEW RAILROAD IS PROPOSED IN OKLAHOMA

WASHINGTON, July 20.—Ponca Oil Fields railroad company today asked the railroad commission for authority to issue \$600,000 in common stock, with which to build 27 miles of railroad from Ponca City to Billings in Oklahoma.

ABILENE.—The Roby & Northern railroad between Roby and North Roby, has been acquired by the West Texas Utilities company and will be electrified. New equipment has been ordered.

BIBLE THOUGHT.
HAVE ALL GOOD.—The young lions do lack, and suffer hunger; but they that seek the Lord shall not want any good thing.—Psalm 34:10.

PERFECTING THE WIRELESS.
 (By the Associated Press)
 Another great step in the development of wireless telegraphic transmission has been realized, said Senator Marconi, upon his return to London after a two-months' experimental cruise in his yacht "Electra." A system has been evolved by the Italian inventor whereby wireless messages are transmitted with a minimum of electrical power, and at very low cost.

"We have transmitted messages up to a distance of 2,250 miles, not only with a very much smaller amount of energy, but faster and more cheaply than with the ordinary system of long distance wireless," said Senator Marconi. "When the new system is adopted it will mean that a power station for long distance work can be erected at much less cost than at present. I have telegraphed on this system from Cape Verde Islands, off the African coast, to London. To send messages clearly and more rapidly over those 2,500 miles took less power than a message from London to Paris by the ordinary methods."

Senator Marconi explained that these advantages were gained by the utilization of waves that have not before been used. Given the necessary mechanical element, he said, messages could be sent clearly seven times faster than the present rate, and that the public and the newspapers would ultimately have the benefit of much cheaper commercial charges. His opinion is that wireless is only in its infancy, and that the future has in store greater marvels than have been revealed in the past.

Commenting on recent experiments conducted by American inventors, looking to privacy in wireless telephonic conversation, Senator Marconi said he was afraid such an achievement was still far off. "I do not say that wireless telegraphy will ever be an absolutely private means of transmission, but I will say that in future it will be possible to make it much more difficult for anyone to get messages not intended for them."

Senator Marconi proposes to go on another experimental trip in a few weeks' time, and later try the new system of long distance wireless from the coast of the United States to Europe, it was announced.

The weakness of that Ford straw vote is best explained by the vast majority who haven't expressed their sentiments.—Indianapolis News.

RETURNS LIKE KING

James J. Davis

Forty-two years ago a little Welsh immigrant came out of the steerage of a ship from England and peered at New York harbor. Penniless he came ashore and got a job. Today James J. Davis, the once penniless immigrant, now secretary of labor in President Harding's cabinet, occupies the one time suite of ex-Kaiser Wilhelm on the S. S. Leviathan, formerly the Vaterland, on her maiden trip across the Atlantic as a passenger carrying liner under the American flag. He goes to study immigration methods.

Words of Praise For the Main Drag With Nomination

To the Editor of The Times:
 I never was so surprised in my life as I was this morning when I sauntered into that cold brick emporium that bounds the Lamb theatre on the east, and got accused by the Apostle Paul, of Main Drag fame, of writing that article signed XXXXX in yesterday's paper. I thought I was thinking of a woman who wrote that X has always stood for the unknown equation, which is not typical of any woman. She is the known and makes you know, don't you know?

Well, at any rate, I wouldn't expect the author of Main Drag to write about the stars, it's not the Milky Way he is writing about, but something a heap more earthy, so how could he write about the stars with his feet on the earth—and why write about stars, they are good advertisers, as they are out every night, just like Ranger folks. I started out to make this a tribute to the promising author. I surely do like his stuff. In fact, I read it first now when I get my paper, while heretofore I have always read the Want Ads first. His stories are clever and I am predicting that we will see him among the big league writers some day.

Say, why not nominate him right now to write "Sid Sums" since the author of those chummy little stories is no more. One Rangerite nominates a president and another one a successor for Suddall—some little nominators we are. Personally I like the idea of parks and benches—there is an awful lure about them when you are tired or in love, as the author XXXX must have been, otherwise he wouldn't have mixed the stars up in it.

I don't mind telling the public how much I like Main Drag, but personally I tell myself that I am going to keep my porch swing in order, and all my personal idiosyncrasies to myself or else I might get written up in the Drag Net—and he knows me too well to take any chances.

Kick of Horse Breaks Man's Jaw; May Prove Fatal

W. E. Wood, teamster, living on the Caddo highway, just outside of the city, was found lying unconscious on the floor of the stable on his property between 6 and 7 o'clock last night by his young son. The boy ran and told his mother. She found her husband's head in a pool of blood.

He was removed to the house and later to the Clinical hospital, where physicians found that he had his lower jaw broken in three places. Hospital surgeons up to 2:20 o'clock this afternoon had not been able to reset the bones. His condition was said by his wife to be critical. The attending doctors had hopes for his recovery, she said.

During his conscious moments this morning, Wood said that he was feeling the hip of one of the horses when suddenly he was knocked down. He isn't sure which of the two horses in the stable knocked him down.

Postal authorities have purchased 16 electric trucks for use in different large cities, and believe that this move in the beginning of the elimination of gas cars. Over two years ago it was estimated that an annual saving of more than a million dollars would accrue to the post office if gas trucks were replaced by electric.

PRODUCTION OF TEXAS CRUDE IS MUCH CURTAILED

North and Central West Texas districts are showing a decline in crude oil production, according to figures compiled by pipe line companies. These districts show a decline of 3,000 barrels daily this week. A still greater decline will be noticed next week with the Texas company curtailment policy in full effect.

There is "wide-open" production in the Corsicana-Powell field and a 5,000-barrel increase over the previous week in the Mexia-Currie district.

The Ranger-Eastland production shows an increase of 285 barrels. The total is 10,895.

Here are the figures:

Pool	This Wk	Last Wk
Electra	25,500	25,600
Burkburnett	25,850	27,600
Iowa Park	2,375	2,400
Archer County	18,580	18,000
Clay County	510	450
Young County	6,350	6,850
Jack County	30	30
Palo Pinto County	1,080	1,150
Stephens County	29,900	31,600
Shackelford County	4,840	5,200
Ranger-Eastland	10,985	10,700
Brown County	650	690
Coleman County	100	120
Eastland-Comanche	7,940	7,300
Mitchell County	320	320

Total North and Central West Texas	135,005	138,000
Decrease	2,995	
East Central Texas		
Mexia-Currie	60,000	55,000
Corsicana-Powell	71,000	71,000

Total East Central Texas	131,000	126,000
Increase	5,000	
Total North Tex.	266,005	264,000
Increase	2,005	

TEXAS, THE LONE STAR OF GREAT MAGNITUDE

Being the biggest member of the national family, Texas has always felt that much was expected of her so she early sought leadership in many lines. Unquestionable is her success. Last season her cotton crop was three times that of the second cotton state. The total farm crop ranks first as do her cattle, mules, wool and mohair. Texas leads in sulphur and is second in petroleum and natural gas. The annual industrial output is practically a billion dollars.—Bank of the Manhattan Company, New York.

MAN CHARGED WITH SWINDLING ARRESTED BUT MAKES GET AWAY

Acting on a warrant issued by Justice of the Peace McFatter charging swindling, a special officer arrested Sam Roch in Ranger several days ago and took him to Eastland, placing him in the custody of Sheriff Barton. It is alleged that Roch gave checks on banks in Ranger and in Electra which were returned endorsed "no account."

The sheriff released Roch on the latter's personal recognizance and told him to come to Ranger and stand trial. Roch came to Ranger, but did not linger long nor did he visit Justice McFatter's office. He went from here to Desdemona. Another warrant for him was issued and sent to Desdemona, but when it arrived there Roch had gone. He has not since been located.

Sheriff Barton has not explained, as far as known, why he turned Roch loose without first obtaining from him an adequate bond.

TOWNFOLKS

B. F. Bennett, secretary of the Ranger Chamber of Commerce, is attending the sessions of the Texas Commercial Executives' association in Fort Worth. He will return to Ranger Sunday.

Rev. A. L. Leake returned Friday noon from the Central West Texas Baptist encampment at Leuters near Stamford where he was one of the speakers of the encampment and was also elected vice president. He will fill his pulpit as usual on Sunday.

CORSICANA.—Use of electric power in the oil fields here is being extended to many operations through the construction of transmission lines of the Texas Power & Light company. In the Eastland and Stephens county fields electric power has been demonstrated to be economical and reliable.

Electrification of railroads is making marked progress in Sweden. The projected Ofot line will run from the Arctic Ocean to the Swedish border where it joins the Swedish line on the Gulf of Bothnia, thus giving all electric transportation from the Arctic to the North Baltic.

STAMFORD.—The Stamford water system which has been operated by oil engines is arranging to install electrically-driven pumps with energy from the West Texas Utilities Co. plant. A new electric pump will give Haskell water users a supply up to 500 gallons a minute.

TEXAS LEGENDS TO BE GATHERED INTO VOLUME

(Continued from page 1.)

and in the forthcoming volume there will be 'way-bills,' maps and charts sufficient to set forth many a native treasure-seeker on the blithest of all quests.

Social Record of State.

"These legends," he continued, "are a part of the social record of our state and the preservation of them is as important as the preservation of the main historic facts. Historians tell us that Travis never drew the line across the floor of the Alamo and called for those who would fight to the death to cross over; they tell us that the whole story is a legend. But even as a legend it is likely to exist as long as a stone of the Alamo stands and to fire as many imaginations as the best authenticated fact in all the history of Texas. Economically, the semi-legendary 'Bowie mine' is not nearly so important as the valuable Chisos mines of the Big Bend; but to humanity it is more important; it has entered more into the imagination and lives of our people than all of the actual mines of the state put together.

"In these Texas legends, as in the cowboy songs, we have a realization of native imagination. In collecting and preserving them we are trying to do for them what Mr. John A. Lomax did so well for the cowboy songs. But these legends can not be found, except sparsely, in libraries. They are in the minds and mouths of the people many of whom delight in and transmit them for the very reason that they have no library to depend upon for amusement.

Contributions Sought.

"No individual or small group of individuals can 'cover' the numerous and widely scattered folk of the State of Texas who know and tell legends. If this collection of Texas legends is to be both representative and complete, it must have the support of many people over the state who are interested in their own record. To such people this is a plea for them to send in to the secretary of the Texas Folk-Lore society the legends of their own neighborhood." The funds for the 1924 Texas legends number of the society are in

sight, Mr. Dobie stated. The society has 150 more members than it had this time last year. It has also just been voted a subsidy of \$100 by the board of regents of the university to carry on this work of publication, though the society is in no way a University of Texas scion.

C. C. POWERS, PIONEER RANGER CITIZEN, DIES

C. C. Powers, 74, who settled 40 years ago on a claim six miles north of Ranger, died at 10:20 a. m., Thursday. He is survived by two sisters, Mrs. Julia Russell of Adair, Okla., and Mrs. Ella Gaswick of Snyder, Texas, and five children, Will of Koko, Texas, L. M. Powers of Ranger, Mrs. Mollie Chisholm of Addington, Okla., Mrs. Frank Veale of Luscasa and Mrs. Tom Ridling of Ranger.

Burial will be at the Veale cemetery at 2 p. m. today with services at the grave by Rev. W. H. Johnson of Ranger. Funeral arrangements in charge of the Milford Funeral home.

EXPERTS ASSERT LIGHTNING RODS PREVENT FIRES

NEW YORK, July 19.—Property owners throughout the country are urged to equip their buildings with lightning rods by the National Board of Fire Underwriters, which today declared that 99 per cent of the fires caused by lightning could thus be avoided. The losses by fire caused by lightning total \$30,000,000 annually.

A widespread indifference to this form of protection exists, however, due to the swindling methods employed by lightning rod dealers in the past, and the fact that it is highly difficult to obtain an expert who can determine whether or not installation has been correctly done.

Careful research by electrical authorities including Dr. Charles P. Steinmetz of the General Electric company, and Thomas A. Edison, have proven conclusively the efficiency of the lightning rod as a safety device, the underwriters declare.

To guarantee property owners that their lightning rods have been properly installed and are a protection instead of a menace, the board of underwriters has adopted a plan whereby a representative of their organization inspects all installations in his district, and affixes a "master label" to the work if it proves worthy.

Karo Is Splendid For All Delicate Breakfast Breads

Few housekeepers are there who do not appreciate the value of a delicate flavor for their special dishes, and everyone knows that Parker house rolls are one of the most popular of these delicious foods. Recipes for these popular rolls and also for muffins are attached so that thrifty housekeepers may know what Karo, as made by the Corn Products company, will do for them in this way.

Parker House Rolls.
Eight cups sifted bread flour, 1 teaspoon salt, 1-2 cup Karo (red label), 2 tablespoons sugar, 1 yeast cake, 1-4 cup lukewarm water, 2 cups sweet milk, 2 tablespoons Mazola.

Scaud milk and cool to lukewarm. Add yeast dissolved in 1-4 cup lukewarm water, add half the flour and beat five minutes. Cover and let rise in a warm place for one and one-half hours. To the sponge add Mazola, salt and the remainder of the flour and knead well for ten minutes. Let rise and double in bulk. Toss onto lightly floured board. Roll out to one-fourth inch thickness. Oil surface and cut with a medium sized biscuit cutter. Fold over handle of silver knife, press edges together, let rise until double in bulk, and bake in hot oven 20 minutes. This makes approximately 36 rolls.

Muffins.
Two cups sifted pastry flour, 3 teaspoons baking powder, 1 teaspoon salt, 1 tablespoon sugar, 1 tablespoon Karo (blue label), 2 tablespoons Mazola, 2 eggs, 1 cup milk.

Sift together all dry ingredients. Add Mazola, Karo, eggs unbeaten, and milk. Stir until well mixed. Bake in muffin tins in a hot oven about 20 to 30 minutes. Makes 12 medium sized muffins.

DALLAS.—J. C. Wells, field director of the Colorado-Gulf highway, was in Dallas recently superintending the sign marking of the highway. He reported the highway was marked from Brownsville to Dalhart, and it is expected that the entire distance to Denver will be marked within a short time.

YOAKUM.—J. D. Henderson of Munday, was elected president of the Texas Farmers' union at the annual convention here. A. L. Baker of Yoakum, was re-elected state secretary-treasurer. State headquarters will remain at Yoakum, it was announced.

When It Doesn't Rain It Doesn't Leak

A LEAKING roof doesn't cause much trouble while the sun shines.

An inferior valve cup can't do much harm in the supply house store room.

Actual oil pumping is the only true test of a valve cup, just as a rainstorm proves the value of a roof. And oil men, old in the field, know that Darcova Valve Cups stand up strongest where service is most severe. That's why you'll find "Darcovas" wherever oil is pumped in greater quantities, at lower cost.

Look for the name. Be sure you get the genuine.

PETITION ASKING RECEIVER FOR DAVIS PROPERTY FILED

EASTLAND, July 20.—The Dorothy Oil Co., of Eastland, has filed a petition in the 88th District Court, asking for receivership of the C. E. Davis G. S. Davis and C. W. Davis property in Eastland county.

The Dorothy Company is an association composed of F. E. Day and others and it is alleged that the company was a partner with the defendants in the drilling of oil wells and securing of leases.

The Dorothy Company claims a one-third interest in the leases and sup-

CITATION BY PUBLICATION. THE STATE OF TEXAS.

To the Sheriff or any Constable of Eastland County—Greeting:

You are hereby commanded to summon Bishop M. Horn by making publication of this citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, and Ninety-first judicial district, to appear at the next regular term of the Ninety-first district court of Eastland county, to be held at the court house thereof, in Eastland, on the first Monday in August, A. D. 1923, the same being the 6th day of August, A. D. 1923, then and there to answer a petition filed in said court on the 7th day of July, A. D. 1923, in a suit numbered on the docket of said court as No. 10,195, where in Beatrice Horn is plaintiff, and Bishop M. Horn is defendant, and said petition alleging that plaintiff and defendant were lawfully married on January 31st, 1919, in Lamar county, Texas; that they continued to live together as husband and wife until about the 25th day of December, 1921, when, by reason of the cruel and harsh treatment and improper conduct of defendant toward plaintiff, she was forced and compelled to permanently abandon him; that defendant applied the most opprobrious and vilest epithets and abused this plaintiff and that just prior to their separation struck her with his fist; that said marriage relations still exist and that their further living together is insupportable, the premises considered. Plaintiff prays that said marriage be declared null and void and for her maiden name restored to that of Beatrice Smith, and for costs of suit.

Herein fail not, and have before said court, at its aforesaid next regular term, this writ with your return thereon, show how you have executed the same.

Given under my hand and the seal of said court, at office in Eastland this 7th day of July, A. D. 1923, (seal)

ROY NUNNALLY,
Clerk, District Court, Eastland County.

DAYS OF GUARANTEE PURSES ARE OVER, SAYS BIG FIGHT PROMOTER

BY PAUL R. MALLON
(United Press Staff Correspondent)
NEW YORK, July 20.—Fight promoters are beginning to talk more sense and less money these days.

Tex Rickard, the premier, says the day of \$300,000 purses passed with the wiasco out in Shelby, Mont., remembered by some as the scene of some bout or other between one Jack Dempsey and Mr. Tommy Gibbons.

He hastens to add, however, in the next breath, that "around New York" there may be some dare-devil promoter who will try to offer somebody that much, but he expresses doubt as to whether it will ever be paid.

The 90,000 crowd at the Dempsey-Carpenter affair, which stirred up more interest in this country than any previous sporting event, will also remain the peak in attendance for some time to come, Rickard believes.

The Shelby affair seemed to awaken everyone in the fight game to the fact that fighters were getting too much money.

Dempsey is the only one who pulled out of the fight with enough money to wad a shotgun. Everyone else lost. Jack got \$220,000, and the consensus of opinion is that was plenty.

Rickard shawed his genius for promotion when he got Firpo and Willard into the ring for a percentage of the gate. He is not talking figures to anyone nowadays, without knowing what he is talking about.

The \$220,000 Dempsey received would keep an ordinary man in luxury for a lifetime.

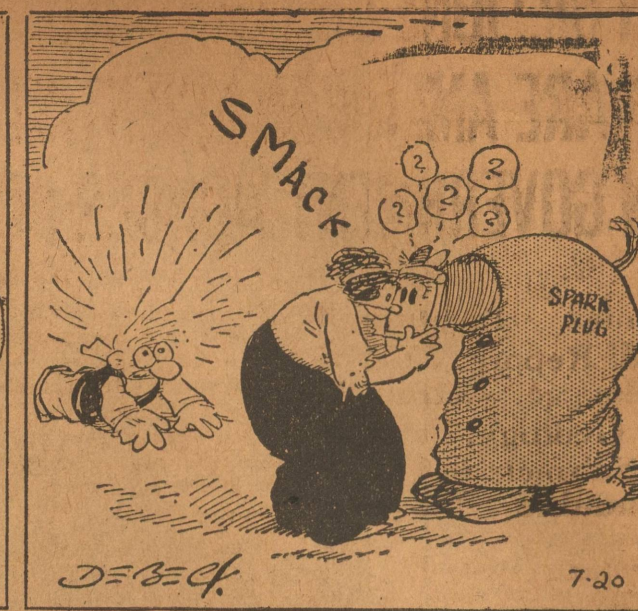

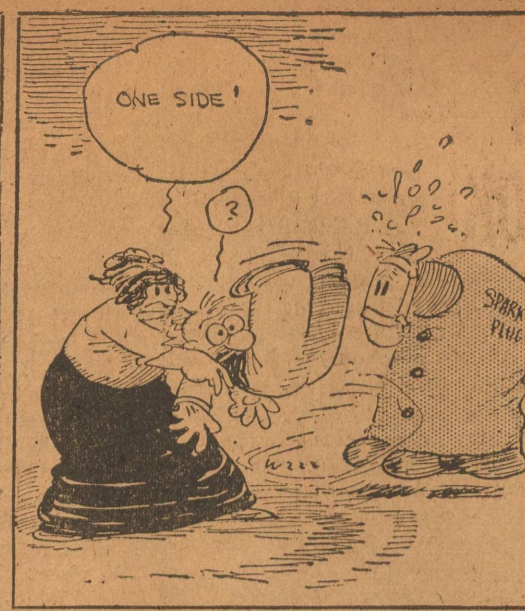

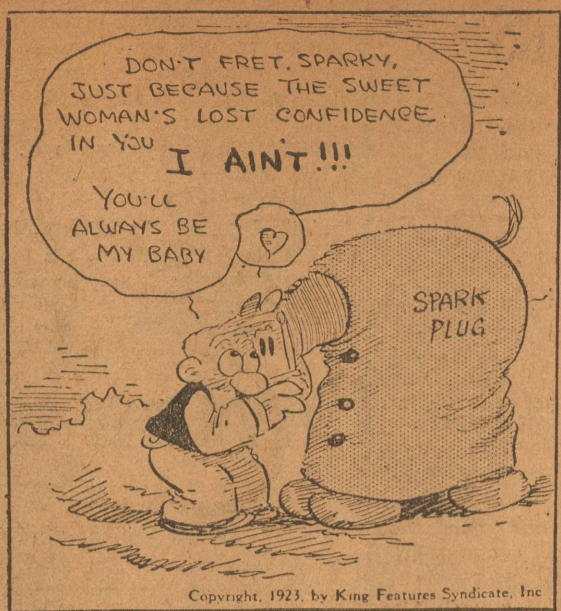

There have been arranged what the fighters call "benefit bouts" all over the country, for one charitable cause or another. The only thing that charity gets out of these fights is what is left over after the fighters get their purses.

Of course, no one is going to say that a fighter should not make a living. Bricklayers are making \$12 a day, and they may be worth it. Some fighters are getting purses in six figures and they may be worth it—probably not.

But somehow or another, Eugene Criqui, the featherweight champion of the world, who never cashed any of these big purses, is finding time enough to go to France and fight for the disabled soldiers and he is not taking a centime.

PORT ARTHUR.—Five thousand slices were cut from Port Arthur's quarter centennial birthday cake at the celebration of this event recently. The cake was ten feet high and was lighted with twenty-five large electric globes.

FIRST STEPS TAKEN TO ORGANIZE BUILDING AND LOAN ASSOCIATION

The first individual session of the Home Ownership committee of the Chamber of Commerce was held this morning at a seven o'clock breakfast at the Ghoslin hotel. Although ninety had given personal promises to the chairman that they would be there, only a small number attended. Tables were arranged for sixty plates.

Following a statement by the chairman, J. W. Sanders, of the purpose of the committee, it was agreed that a building and loan association be organized in Ranger with local capital, and that the company be capitalized for \$25,000.

The chairman appointed a committee of three, Judge Ove E. Overson, chairman, John W. Thurman and Frank A. Brown, to investigate various contracts, select the one best adapted to Ranger, and solicit subscriptions.

The meeting was then adjourned until the next regular meeting of the Chamber of Commerce on Wednesday morning.

Those in attendance were: Ove E. Overson, Dr. L. C. G. Buchanan, Joe Rayburn, Walter Murray, R. C. Guthrie, J. T. Killingsworth, F. A. Brown, T. J. Holmsley and Mrs. Holmsley, John W. Thurman and Mrs. Thurman, A. Joseph, Karl E. Jones, W. W. Bourdeau, J. W. Sanders, Mrs. Charles G. Norton.

The screen divides the Europeans from the natives in Java, where the audience views the pictures from both sides.

Main Drag Stuff

BY P. G. T.

Dear X. X. X. Z.:

We is mighty gratified to the person who writ that air letter of complimentary to the Ed. of the Ranger times for us and think who ever wrote it is a swell guy, only maybe it ain't a guy but some dame but what ever it is it's a swell it just the same. We got a kinda hunch that this it wich wrote the salubrious letter aint no ordinary letter writer but some person almost as hi classed as us.

Please, kind sir, or siress, we don't want no competition, becuz from the way you have written your letter us are afraid that the publik might like on better nor they due us, even if we are better nor you are and we have the self confidants to think so. Yore suggestion on hi brow junk is well taken an we mean to have a article on Houghjeniks right soon.

Appreciatin yore kindness in givin the Ed. a boost thru us and knowin you air a good it and wont take no offents at nothin we have written we are now sleepy an will cast ourselves into the arms of Morpheus, Hopsein you air the same,

P. G. T.

P. S. That air last phaze is hi brow, aint it?

P. S. (agin) We air goin to ask the street comish to put the stars and stripes on the top of the city hall. That aint the street but maybe he can do it up air same as if it wuz. P. G. T.

The Wichita Falls, Ranger and Fort Worth R. R. has three trains now where it had but two before.

When a Ranger motorist drives out

FOR CONSTIPATION

Black-Draught Recommended by an Arkansas Farmer Who Has Used It, When Needed, for 25 Years.

Hatfield, Ark.—Mr. G. W. Parsons, a well-known farmer on Route 1, this place, says: "I keep Black-Draught in my home all the time. It is the best all-around medicine I have ever found for the liver and for constipation. We began using it 25 or more years ago and have used it whenever needed since. I have never found any other medicine as good for constipation, and that was what I suffered with till I began using Black-Draught. Black-Draught corrected this condition, and now we use it for the liver and for indigestion—a light and sluggish feeling after meals, for bad taste in the mouth and sour stomach.

"My wife uses it for headache and biliousness. It sets on our shelf and we don't let it get out. It has been a great help to us. I believe a great deal of sickness is caused by hurried eating and constipation, and Black-Draught, if taken right, will correct this condition."

Get *Theodor's*, the original and only genuine Black-Draught powdered liver medicine. Sold everywhere. NC-150

the Caddo road now he'll have to look out for trains at the crossing three times instead of twice.

We read in the Fort Worth paper recently of a train that was sideswiped by an auto and the swipec wrecked the engine and several coaches.

It will behoove the engineer to take "safety first" to heart and watch the Caddo road crossing as carefully as the autist.

It would be a great calamity to the W. F. R. & Ft. W. passenger agent and also the train riding public if those nice new coaches would be wrecked by some rickety auto and get all scarred up in the ditch. However those who have new autos usually are very careful of them and we suppose railroads that have new coaches are careful of them, too, at least until the newness wears off.

What makes things doubly dangerous for trains and autos at this crossing is that so many drivers who used to be good two-handed drivers are getting to be good one-handed drivers they don't spark any more but advance the spark in two places and drive merrily on.

An El Paso paper says that highways leading from El Paso are littered with large headed tacks thrown there by bootleggers to puncture the tire of revenue officers.

Bootleggers don't have to pay tax

"my Rheumatism is gone"

"THERE are thousands of you men and women, just like I once was—slaves to rheumatism, muscle pains, joint pains, and horrible stiffness. I had the wrong idea about rheumatism for years. I didn't realize that increasing blood-cells had the effect of completely knocking out rheumatic impurities from the system. That is why I began using S. S. S. Today I have the strength I used to have years ago! I don't use my crutches any more." S. S. S. makes people talk about themselves the way it builds up their strength. Start S. S. S. today for that rheumatism. You'll feel the difference shortly.

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

HOT BARBECUE BRING A BUCKET THE JAMESONS

ROBS CALOMEL OF NAUSEA AND DANGER

Medicinal Virtues Retained and Improved—Dangerous and Sickening Qualities Removed. Perfected New Tablet Called "Calotabs."

The latest triumph of modern science is a "de-nauseated" calomel tablet known as the drug trade as "Calotabs." Calomel, the most generally useful of all medicines thus enters upon a wider field of popularity, purified and refined from those objectionable qualities which have heretofore limited its use.

In biliousness, constipation, headaches and indigestion, and in a great variety of liver, stomach and kidney troubles calomel was the most successful remedy, but its use was often neglected on account of its sickening qualities. Now it is the easiest and most pleasant of medicines to take. One Calotab at bedtime with a swallow of water—that's all. No taste, no griping, no nausea, no salts. A good night's sleep and the next morning you are feeling fine, with a clean liver, a purified system and a big appetite. Eat what you please. No danger.

Calotabs are sold only in original, sealed packages, price thirty-five cents for the large, family package; ten cents for the small, trial-size. Your druggist is authorized to refund the price as a guarantee that you will be thoroughly delighted with Calotabs.—Advertisement.

MEXIA COMPLAINS OF DISCRIMINATION BY CRUDE OIL BUYERS

MEXIA, July 20.—Discrimination is complained of on crude oil prices in a communication sent to Attorney General Keeling by the Mexia chamber of commerce, and an investigation is asked for regarding prices paid for Mexia, Currie and Powell crude petroleum as compared with postings in other Texas fields for the same gravity of oil.

The communication alleges that Mexia gravity oil sells for \$1 per barrel, whereas in other fields of the state practically the same product brings \$1.60. Twenty-one gravity oil in the coastal fields brings \$1.25 in certain fields, according to recent information regarding postings. Cur-

TERRELL—A concrete spillway, 70 feet wide and 500 feet long, will be constructed by the city commission at Lake Terrell. It is estimated the new spillway will cost \$10,000. The new structure will be built as a precaution against washing away of the embankment.

rie 40 and better gravity brings \$1 per barrel, it is asserted. Elsewhere that grade of oil sells for from \$2 up. The Powell crude is practically the same as Mexia with high gas content, selling for 75 cents and \$1.

EARTH BILLIONS OF YEARS OLD DECLARE AMERICAN SCIENTISTS IN GOVERNMENT WONDER BOOK

Smithsonian Institute Annual Report Tells Progress in Astronomy, Geology, and Other Subjects in Under- standable Language.

By WILLIAM J. LOSCH,
United Press Staff Correspondent.
WASHINGTON, July 18.—"A Book of Wonders" of the scientific world has just come off the government printing presses.

It is the annual report of the Smithsonian institution, in which the newest lore of the laboratories, the observatories, and the fields is compressed between two covers for the non-technical reader.

Convinced that the common reader misses much of the great achievements of science, because it is too much hidden behind a specialized terminology, the institution, once a year, puts out his report "in language which can readily be understood by the general reader."

The present volume covers astronomy, geology, evolution, zoology, botany, entomology and anthropology.

Among the more significant contributions is an article from the pen of Dr. W. W. Campbell, director of the Lick observatory, of California, on the "Daily Influence of Astronomy."

What, if anything, does the stargazer do of everyday practical importance? is the question Dr. Campbell poses, and answers it thus:

He supplies all nations with accurate time by daily observations of the stars.

He furnishes the astronomical determinations of latitudes and longitudes which permit accurate maps to be made.

He permits ships to sail the boundless oceans by means of observations which determine position;

He fixes international boundary lines by means of the stars;

He foretells the ideas from the moon and stars.

Value of Astronomy.
The value to mankind of pure astronomy is emphasized by Campbell, who declares: "The remarkable advance in civilization in recent centuries has been due more to the influence of the scientific spirit than to any other element. Those nations which possess it are forging ahead by leaps and bounds, and those which do not are dropping out of the race."

Another astronomical paper describes the measurement of the diameters of the stars, in which American astronomers have become pre-eminent, notably through efforts of Prof. A. A. Michelson of the University of Chicago.

Michelson invented the interferometer, by which star diameters are

measured by causing two bundles of light to interfere, the sharpness of the fringes being observed. By moving two mirrors of the apparatus, the fringes are obliterated. The distance apart of the mirrors when the fringes disappear furnishes an index to the diameter of the star which is calculated mathematically.

Age of the Earth.
In an article by Lord Rayleigh and others, the age of the earth is discussed. Lord Rayleigh, basing his belief on a study of the rate of decomposition of radio-elements, boosts all previous estimates to billions of years. The earth's crust, Rayleigh observes, has been suitable for human habitation for from two to three billion years.

Rayleigh's remarkable conclusions are widely at variance with those of geologists, whose outside limit of the earth's age has hitherto been one hundred million years. Commenting on this, institution authorities say "it has been found that for various reasons this should be multiplied 10 or 20 times, so that from the geological point of view the age of two to three billion years is reasonable."

One of the interesting studies made by soldiers on the dull days of war has been brought to light by the institution and is set forth in the report. This concerns studies of the speed of flight by birds made by officers and soldiers of the anti-aircraft batteries in France.

Speed of Birds.
Many of the birds were sighted by means of theodolites at two anti-aircraft stations. Others were timed between two points of known distance with stop-watches, while others were "paced" by airplanes, the speeds being read on the air-speed indicators.

The following speeds for some of the familiar birds were determined, in miles per hour: Crows, 32-29; starlings, 43-49; swallows, 37; swifts, over 68; pelicans, 51; geese, 55; ducks, 42-59; and lapwings, 40-45.

It was found that birds have two speeds, one a normal rate, used for everyday purposes and also for migration, and an accelerated speed, which is used for protection or pursuit and which, in some cases, nearly doubles the rate of normal speed.

Among the most interesting papers is one by Dr. Ales Hrdlicka, of the United States National museum, on the color of eyes, hair and skin among old American families in which there

has been no admixture of foreign blood for three generations or more. The observations were made on nearly 2,000 individuals, male and female, from north and south and of varying ages.

Blondes in Minority.
Among the conclusions reached by Hrdlicka are the following:

Two-thirds of the males and three-fourths of the females showed skin that may be classed as medium. In only 5 per thousand in males, but 52 per thousand in females, was the skin plainly lighter than medium;

Only one among 16 males and one among 14 females has real blonde hair. In approximately 1 per cent in males and but little more in females, the hair was full black. In 2 per hundred of males and 5 per hundred of females the hair is red or near red.

Approximately one-third of the eyes of the males and one-fourth of the eyes of the females of the old Americans were pure lights. One-sixth of the males and one-fifth of the females showed eyes of iris of which was pure brown.

Hrdlicka is conducting studies to establish whether there is anything that can be called a real American type.

BROWNSVILLE.—The honor of producing the first bale of cotton of the season has not been a new thing for the Rio Grande valley. An article has been discovered which appeared in a Chicago newspaper in 1873, 50 years ago, announcing that the first bale for that year was produced at Santa Maria.

A new canal recently built in Holland, about 42 miles long, eight feet deep and a surface width of 71 feet, at a cost of approximately \$10,000,000, connects Zuid-Willems canal with Geertruidenberg.

HOW TO LIVE 100 YEARS

Marry Young, Says Insurance Man, Refrain From Dancing and Athletics, From Drink and Strain, and Be Neither Rich Nor Poor.

By Associated Press
CHICAGO, July 11.—One who desires to live 100 years should marry early, refrain from indoor dancing, should not be a college athlete and be neither rich nor poor, according to an address made here tonight by Albert M. Johnson, president of the National Life Insurance company, before several hundred boy scouts. Mr. Johnson said these maxims were reached by his company following statistical computation of results from a survey on longevity under modern conditions.

The long list of "don'ts" which Mr. Johnson said the survey suggested in order to attain this age contained a few "do's", chief among which was "religion in a true way." Mild exercise daily and a "straight neck" in walking, were others.

"Our statistics show, when compiled and averaged, that to reach five score years one should marry early, be neither rich nor poor, should not be a professional or college athlete or an actor, should refrain from indoor dancing and never drink intoxicating liquors," Mr. Johnson said. "Husbands, we find, live longer than bachelors because of their more regular habits. Stage people are handicapped by long and hard hours. Heart strain is too common in the athlete.

"Persons earning between \$2,000 and \$6,000 a year live longer. This probably is due to the fact that moderate incomes do not give a person enough for dissipation but are adequate for comfort and sensible living. "Be religious in a true way. Religious people are happier as a rule

and going to church tends to make them regular in their habits. Do not drink liquor and do not smoke, if you must, until you are beyond 21 years of age. One of the most emphatic results of our survey was the evidence that the practices cannot be indulged in temperately by enough people to give you much of a chance to win. "Stretch your neck up. Short-necked people are better subjects of apoplexy. Stretching your neck gives the blood vessels there less chance to clog. Take mild exercise daily, regularly, and not intermittently or savagely."

MRS. HEALER'S CLASS GIVES COMPLIMENTARY PARTY

The young ladies of Mrs. May Healer's class of the Central Baptist church entertained at the home of Mr. and Mrs. J. A. Sendeford in the Tee Pee camp with an evening party complimentary to the young men of Mrs. White's class. The colors used in decoration were a combination of the pink and white class colors of the girls and the purple and white class colors of the young men. Many Japanese lanterns and quantities of porch garden flowers converted the porch into a veritable bower. Games of every kind and numerous jokes were heartily enjoyed, and not a dull moment was spent during the evening. Refreshments of brick ice cream and cake in pink and white were served. Favors of parasols and golf sticks were presented.

Those who enjoyed the evening in the hospitable Sendeford home were: Misses Lois Walker, Ruby Cook, Vida Bruce, Anna Lee Smith, Rose McEever, Mabel Knight, Alice Dreby, Bernice Hill, Erma Pate, Nellie Apperson, Ruth Erwin, Allie Walker, Decker, McCorkle, Hempstead; Messrs. T. L. Akers, Lewis Harger, F. S. Pearsall, W. G. Adams, Vamoh Hopkins, Bill Robinson, John Tibble, Dewey Jones, Willet, Honey; Messrs. and Mrs. Steadham, Cross, Wagner, Sandeford, J. M. White, Healer, and A. L. Leake.

CHEERFUL WORKERS TO HAVE BAKE SALE SATURDAY

The Cheerful Workers of the Christian church will have a bake sale Saturday beginning at 10 o'clock at the Phillips drug store.

FIRST BAPTIST CHURCH HAS FINE PICNIC PARTY

Probably two hundred members and friends of the First Baptist church enjoyed the splendid picnic and supper provided for them at Russell creek Thursday evening. The children enjoyed swimming in the creek, and a few races were staged. It being the birthday of the pastor, Rev. W. H. Johnson, he was presented with a handsome camping kit by the children of J. W. Sanders. A special birthday cake in his honor was also presented. The bountiful supper was thoroughly enjoyed and all who attended pronounced it a most delightful occasion.

T. E. L. SOCIAL AT THE TEE PEE ANNEX SUCCESSFUL

The T. E. L. class, of which Mrs. McNeil is the capable teacher and Mrs. Nicholson the president, gave a silver tea in the open at the T. and P. service building last evening from eight to ten o'clock.

A very unique and entertaining program was rendered by the Timothy's or children of the members of this class. Special mention should be made of the little Thranert girl for her wonderful talent in acrobatic stunts which border on the impossible, also for her reading ability. Others appearing on the program were: Solo, Miss Luella Smith. Duet, Misses Mary McNeil and Olga Mitchell.

Is the shortening pure?

"MRS. TUCKER'S looks good enough to eat just that way, doesn't it? It's so perfectly clean!" That is a remark we have heard made about Mrs. Tucker's time and again. And that is just the way you will feel the first time you open a can of Mrs. Tucker's and see its creaminess and snowy whiteness. Mrs. Tucker's Shortening is clean and an absolutely pure vegetable shortening. It has all the richness of butter, yet is no more expensive than ordinary shortening. And it comes to you always fresh, for Mrs. Tucker's is made right here in the South.

Be sure to get the blue pail with Mrs. Tucker's picture on it.

Mrs. Tucker's Shortening

Made exclusively of choice Cotton Seed Oil. The South's own cooking fat.

Duet, Leon Nicholson and Frances McNeil.

Reading, Mary McNeil. Solo, Mrs. A. L. Leake. And last but not least, the charming niece of Mrs. T. B. Russell gave two choice readings accompanied by her friend Miss Jones. They were heartily encored and responded graciously.

Refreshments consisting of sandwiches, tea and tea-cakes, were daintily served by the young daughters of the class members. They wore caps and aprons of the class colors, green and white. Decorations were also in the class colors. Ropes of green and white were used for the enclosure. Potted plants with beautiful baskets of wild flowers were abundant in display upon the stage. The Timothy's, mothers and grandmothers were distinguished by the pennants they wore. Souvenirs were a silver "T" tied with green and white ribbons.

Nearly one hundred and fifty heard this delightful program and a neat sum was realized by the silver free will offering.

PERSONALS

Mr. and Mrs. J. M. Ralston and little son, Jimmie, have returned from a ten-days visit in Oklahoma.

Mr. and Mrs. Saunders Gregg and sons left Thursday for Kerrville, where they will spend the remainder of the summer at the Presbyterian encampment.

Mrs. George H. Bohning and family will leave Saturday in their car for Fort Davis where they will spend several weeks. Their house guest, Miss Esther Rice of New Haven, Conn., will accompany them.

HOPKI INDIAN BUILDINGS TRACED BACK TO 1620

FLAGSTAFF, Ariz., July 19.—Scientists have determined that the Hopki Indian buildings of many of the villages of the tribe northeast of Flagstaff date back to about 1620 when the Hopis revolted against the Spanish priests and tore down missions built by the Spaniards, using many timbers from the missions in constructing their own houses.

A party including Dr. A. E. Douglas of the University of Arizona and Dr. J. A. Jeancon of the Colorado state museum, returned recently from the Hopki pueblo villages, where they made a study of the wooden beams in the ancient structures.

More people suffer broken legs and arms than any other injury in accidents in New York.

BRING A BUCKET
THE JAMESONS

Fashions Looking At Early Models of The Fall Season

By HEDDA HOYT

Fashion Editor of the United Press
NEW YORK, N. Y., July 19.—The poke hat continues its reign in Paris, although several millinery designers are sponsoring the new "scuttle" hat, which differs slightly from the poke. Its crown is higher than the crown of the average poke and its brim is very narrow. All hats continue to keep short back effect. Panne and Lyonvelvet are the favorite fabrics used for early fall models and brown and green are the leading hat shades. There is a shade of deep wine that is also used a great deal.

Feathers of all sorts from barnyard fowl to ostrich will be used this coming season and it is predicted that the ostrich in all its variations will be seen on sports hats as well as on dress hats. Vari-colored feathers and fancies spotted with metal are shown in quantities. Pompoms, wheel effects, and tassels of burnt ostrich trim many tailored shapes. Ribbon still holds its popularity as a trimming.

Metal-cloth blouses lavishly worked in beads are seen in great numbers in the Parisian shops. Metal, by the way, is stressed as one of the leading fabrics for fall for formal gowns, blouses, hats, etc.

Just now the Parisians are wearing little straight-lined suits with short pin-tucked jackets.

Choker necklaces, so popular with the Parisians, are matched by earrings, bracelets and accessories of like color. Cornelian and crystal are

the most popular of the semi-precious stones used. Glass beads in such color as ruby red, onyx blue, sapphire and jade green are quite as popular as the more costly stones.

Colored voile handkerchiefs are more popular than those of silk or linen in Paris at present. It is said that voile is less crushable than either linen or silk and that it washes well and is extremely soft. Monograms in cut-out and embroidered effects are the favorite trimming. Printed effects on handkerchiefs are no longer seen.

Matching the undergarments with the outer garments is the latest vogue of the Parisian. Frocks of navy have slips and two-piece sets to match them. The undergarment, however, need not match exactly the shade of the frock, providing it belongs to the same color family. A brown frock may have lingerie or tan, cinnamon or any cousin of the brown family.

Just a Little Different
So she tries to be just a little different from the run of women who fill the subways and offices—women who spend a large sum for dress and wear it until it is completely worn out before buying another. She buys clothes that are on sale because they are not exactly what women are wearing—just a trifle off the mode. Then she alters them so that they will be becoming to her particular style, always adding some little touch that is decidedly new. She is a perpetual remodeler. Her gowns undergo many changes before they are cast aside.

Her husband never knows when he leaves her in the morning what she will be wearing at night. She has a hat for every day in the week—old hats that have been refreshed with new bows, ribbons and dyes.

I once heard a gentleman say that a wife was a bride as long as she kept fresh ribbons in her garments

and I believe there is some sense to this theory. "Men may not chase after street cars after they have caught them" but it keeps a woman running nowadays to hold her husband's attention.

GALVESTON.—Construction of a new \$1,000,000 twelve-story bank and office building on the southwest corner of Twenty-Second street and Avenue D, is expected to begin within a few days. The Texas Bank and Trust company is financing the project and will occupy the first three floors.

A combination electric light, heater and fan, called the "Miami Lamp," has recently been invented and much is claimed for it by its backers. A triple duty electric appliance such as this has many advantages and if it lives up to its reputation, it should soon become popular. In design it is not unlike the modish table lamp so much in vogue. This lamp is both practical and ornamental, the fan, heating elements and four bulbs being concealed behind an attractive blue and gold silk shade.

BUY IT IN RANGER

VOLUME PRODUCTION IN FORD MOTOR CO. PLANT

DETROIT, July 19.—A total of 1,050,135 automotive products were built by the various divisions of the Ford Motor company during the first six months of the present year, according to figures just compiled. The output for the half year was as follows: Ford cars and trucks, domestic and foreign, 941,245; Canada, 467,871; Fordson tractors, 58,557; and Lincoln cars 3,512.

A new monthly record for production was established by the domestic assembly plants in June with a total of 175,040 Ford cars and trucks, exceeding the output of May by nearly 5,000.

New production marks have been set almost daily since January, but there hasn't been a time when manufacture even approximated the demand. With production increasing in an endeavor to meet the demand, it is expected that the company will finish the year with a total of approximately 1,800,000 Ford cars and trucks for domestic use alone. This is the opinion expressed by officials in view of the present prosperous conditions, the increasing number of orders and the outlook for even better times prevailing during the coming months.

GALVESTON.—A total of 786,710 bags of raw sugar was imported into the ports of Galveston and Texas City during the fiscal year ending June 30.

A plan is being perfected for the improving of the street lighting system in Washington. When carried out this plan will result in the entire elimination of street lighting by gas, replacing the latter by electricity. It has also been suggested that street lighting posts be made taller and more ornamental, on the main thoroughfares at least, and this will tend to make the national capital distinctive in its street lighting equipment.

When Columbus discovered America there had been no marked immigration in the world for over 700 years, but it began toward this country not long afterward.
