I made a lot of mistakes in that fight just as I had made them in other professional fights, but the difference was that they counted more professional fights, but the difference was that they counted more igainst me in the Delaney fight than they did in the others. I'll never make the same mistakes again, and I have enough confidence in myself to feel that I'm going to get a long ways in the ring when I have had the chance to acquire the instinct of conowing what to do and what not to lo?
