

VIRGINIA SHUMWAY was for three years head "stuntman" at the MGM studios in Hollywood before she joined the Hell Drivers and Globe of Death show, one of the feature attractions on the Beckmann and Gerety shows mile-long midway that will be at the Panhandle South Plains Fair, October 6 to 11. Virginia performs many sensational feats of daring and her nerves of steel never fail her in the most dangerous spots.

## Large Crowd Attends "Food-Feed" Meet

A crowd of approximately one hundred persons, including visiting specialists and persons from Bailey, Castro, Briscoe, Swisher and Parmer counties gathered in the Oklahoma Lane community, the past Thursday, to hear discussions on "Food and Feed in National Defense."

The district supervisors, Miss Lida Cooper and K. J. Edwards, appeared first, outlining the program, and were followed by E. R. Eudaly, dairyman from College Station, who spoke on feed preservation and dairy products.

Geo. McCarthy, specialist, appeared in a discussion on production and handling of poultry and products, with A. L. Smith, animal husbandman, then taking up beef cattle production. Jason O. Gordon continued by outlining the county plan for improvement in this line.

Ensilage feeding of sheep was considered by J. O. Ford and Roy Daniel, with Garvin Thorn and John Gemmon discussing beef cattle work. Mrs. W. O. Cherry spoke on raising poultry via the battery method, while Mrs. Frank Hastings demonstrated the making of culture buttermilk.

Miss Elsie Cunningham, Parmer county demonstrator, Miss Lillie Gentry, Lamb county, and the Oklahoma Lane club women were responsible for the demonstration of foodstuffs given during the day, in connection with the program.

One of the most interesting points of the day to visitors, however, was the display of a Shorthorn yearling calf, belonging to John Armstrong, which had been marked with white paint, outlining the various cuts of meats, as given in specifications by Armour & Co. Ermon Miller, of the FSA office, did the demonstration work in pointing out the different cuts.

### FARWELL BOY IN BAND

E. J. Sloan Jr., son of Rev. and Mrs. E. J. Sloan of this city, has been awarded a place in the college band at McMurry College in Abilene, Texas, where he is a freshman this year. His many friends here will be glad to learn of his recognition.

A shoe factory in India is using 100,000 square feet of leather monthly.

### HURT BY COW

B. N. Graham, local insurance man, is crippling about this week, the result of having been struck on the calf of the right leg by one of his milk cows. Mr. Graham explained he was leading the cow to a staking post when the animal struck him from the rear with her head.

### Rains Great Benefit To Growing Wheat

While row crop farmers of this section are bemoaning the extremely wet weather, the wheat farmers are reaping benefits from the excessive moisture.

Practically all wheat fields sown during August, are now up and affording good grazing for livestock. This is particularly true in the Pleasant Hill neighborhood, where several herds have already been turned in on the growing wheat.

Farmers agree that this is the earliest grazing of wheat fields that has been experienced in this county in recent years.

### New Supervisor For FSA Work Named

Miss Eona Petit, who has been Home Management Supervisor with the Farm Security Administration at Wellington, Texas, is being transferred to Parmer county in the same capacity, taking over the office today (Wednesday).

Miss Petit has been connected with the Farm Security for the past three years, it is understood locally, and comes to this county with good recommendations.

She will succeed Miss Wynona Swepton, who for the past three years has been home supervisor in Parmer county. Miss Swepton will continue her work with the FSA, and announced that she would remain in Parmer county with Miss Petit until Oct. 20th.

### OPENS PICK-UP STATION

The Barnes Cleaners of Clovis has opened a pick-up station in the building formerly occupied by the office of the Texas Utilities company in Farwell.

## Farwell Booth Places First at Amarillo

### Heavy Rains Hinder Crop Harvesting Steers Lose by 1 Point

Old Man Weather delivered another striking blow to the chin of the farmers of this entire region the first of this week, with a deluge of rain that is calculated to do much damage to the crops of this area.

Nearly two inches—1.87 to be exact—of rain was recorded here during Sunday and that night, in a steady downpour that lasted for many hours.

Harvesting operations, which had just gotten underway after a 3.13 inch fall last week, were put at a standstill again, and many farmers believe it will be several days before operations can be resumed in the water-soaked fields.

Sunday's rain was accompanied by the coldest snap of the season with the mercury standing just a few points above the freezing point throughout that day and night. The cold spell is calculated to halt the growth of feedstuffs, much of which is still immature.

Sudan fields are believed to have suffered most from the unseasonal rain, which was ushered in by a brisk wind. Many fields are still unharvested, while others are on the ground, where they must remain till the weather clears.

The rain of this week continues to add to the already record-breaking precipitation received here during the year, with 37.43 inches now recorded, as compared to an average rainfall of 18 to 20 inches. In recent years, however, the average has been much lower, with records showing around 12 to 16 inches during a full 12-months period.

### White Resigns As Draft Board Clerk

Tulon G. White, who has been clerk of the Parmer County Selective Service Board since its organization a year ago, this week tendered his resignation, effective when a successor could be obtained.

White stated that he would like to sever his connections not later than Oct. 17, thus rounding out a full year as clerk of the Local Board.

He had no definite announcement to make regarding his plans for the future, except to say that he had been offered a better-paying position.

Draft Board members stated today that Mr. White's resignation had been presented to the State Selective Headquarters, and until some information is forthcoming from that office, no move will be made to fill the vacancy.

White has made a very efficient clerk, and Board members today expressed their regret in losing his services.

### FATHER SERIOUSLY ILL

Mr. and Mrs. Jason Gordon and daughter and Mr. and Mrs. John Armstrong and family were called to Sweetwater, Texas, Saturday, by the serious illness of C. F. Elliott, father of the two local ladies. Mr. Elliott was stricken with acute appendicitis late last week, and for several days his condition was extremely grave. Mr. Gordon, Mr. Armstrong and Robert Franklin returned Monday and reported Mr. Elliott considerably improved, but stated that Mrs. Gordon and Mrs. Armstrong would remain there for several days.

Damascus claims to be the oldest city in the world.

### RAINS HALT WORK

Construction work on the enlargement of the Lariat Elevator and the elevator at the Roberts Seed Company, in Texico, was suspended the first of the week, on account of wet weather. Work is expected to be renewed just as soon as weather conditions will permit, it was stated.

### Sikes Motor Company Starts Improvements

A series of improvements in the building occupied by the Sikes Motor Company, local Ford dealers, got underway this week with the refinishing of the interior of their office and showrooms.

O. C. Sikes, general manager of the firm, stated that a contract had been let for other improvements on the building. The entire outside of the structure will be refinished, new signs painted, and a Neon sign erected at the rear of the building over the entrance of the service department.

Workmen have been busy this week repairing the walls along the west side of the building and erecting iron pipe barriers to keep cars from plunging into the walls.

### Farwell Ginner Says Estimate Too High

Parmer county will not produce as much cotton this year as it did in the year of 1940, in the opinion of E. M. Deaton, manager of the Farwell and Lariat cotton gins.

In his opinion, the county production this year will amount to very little more than half the amount ginned in this county last year. Deaton ridiculed the prediction made two weeks ago by Volney T. Jennings, Lubbock cotton man, who estimated the Parmer county production at 11,000 this year.

Deaton admitted that there was sufficient fruit on the stalk to exceed last year's production of 5610 bales, but added that practically all of the cotton was too late to expect the fruit to mature.

"We ginne 3150 bales at Lariat and Farwell last season, and I'll be tickled to death if we get 2000 bales this year," Deaton said.

Deaton also said that heavy rains in the late spring caused many farmers to abandon cotton this year after their crops had been washed out from two to three times. This, he added, will reduce the cotton acreage considerably. He declined to give an estimate on the production to be expected this year, merely observing, "It all depends upon the weather conditions from here out."

American motion pictures will supplant French films in New Caledonia.

The Farwell FFA booth, set up at the Amarillo Tri-State Fair this week, won the blue banner and \$36 prize money on Monday, when it was rated tops in a group of fourteen exhibits by judges at the Fair.

The theme of the exhibit was "Soil Conservation," which was carried out by the use of two miniature farms, the first showing how wind and water erosion had been left unchecked and done great damage to the soil, while on the other, the proper methods of control were demonstrated, showing how such erosion could be held at a minimum.

Second place honors in the booth exhibit went to Miami, with the remaining twelve teams placing as follows: Dimmitt, Clarendon, Shamrock, White Deer, Groom, Tulla, Canyon, Mobeetie, Paducah, Panhandle, Childress and Quail.

The Farwell department is under the supervision of T. A. McCuiston. This is the first time in a number of years that Farwell has placed in the top ranks of FFA exhibits at fairs in this section.

### Contract Entered For New Courthouse Roof

The County Commissioners have let a contract with the New Mexico Roofing company, of Clovis, for a completely new roof on the Parmer county courthouse, County Judge Lee Thompson announced here Tuesday.

Work is expected to get underway at an early date.

The contract calls for a John Manville roofing job, and will carry a bonded guarantee of 15 years.

Judge Thompson said that the roof of the county courthouse had been the object of a great deal of expenditure during the past few years.

### New County Agent Takes Over Office

H. F. McElroy, who succeeds Jason O. Gordon as county agent in Parmer county, is scheduled to arrive here today (Wednesday) and assume charge of the office vacated by Gordon's resignation.

Mr. McElroy is a graduate of the Texas Tech College at Lubbock, and for the past three years has been assistant county agent of Lubbock county. He is married, but there are no children in the family, it is understood here.

Mr. Gordon tendered his resignation a week ago to accept the position as county agent of Floyd county. He assumed his duties on Oct. 1.

### HUNT CALLED OFF

A large party of Parmer county hunters who had made plans to go to Colorado early this month on a big game expedition, definitely announced cancellation of their plans this week. A number of the men who were planning on the trip are farmers, and lateness in getting their crops gathered was assigned as the main reason for calling off the trip. Some members of the party indicated they would likely go to New Mexico early in November.

## Lease of School Land Would Give County School Fund Hike

"If we are successful in closing a deal we now have pending, the available school funds of Parmer county will be hiked better than five dollars per scholastic for every school in the county," County Judge Lee Thompson stated on his return from Midland, where he and other members of the Commissioners Court have been looking after the school land interests of this county.

Parmer county owns 13,000 acres of school land in Gaines and Andrews counties. Recently, the Commissioners received an offer to lease the land for oil purposes. The county dads took the position that it would be unwise to enter into a lease con-

tract without first making an investigation.

As the result of such an investigation, made in Midland last week, the Commissioners now have three companies who are "dickering" for the lease.

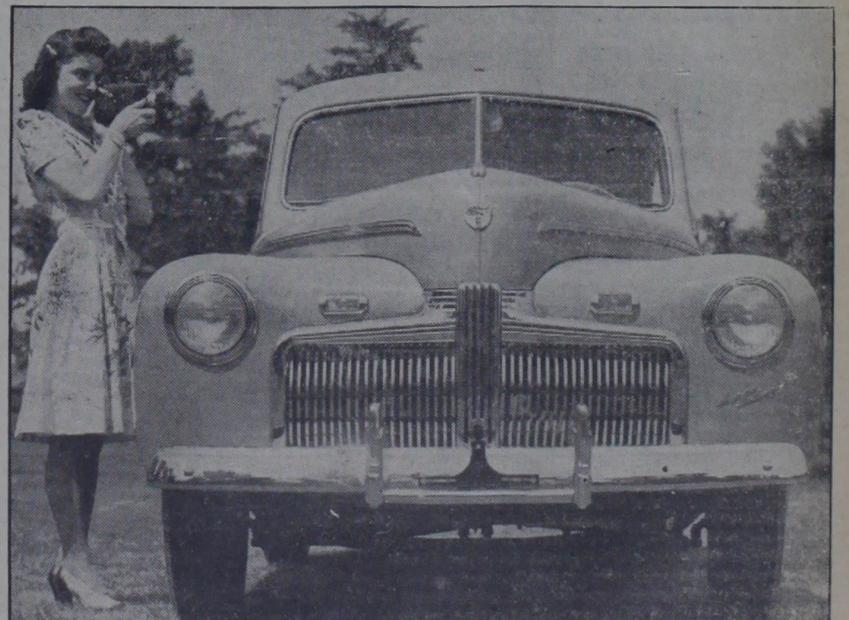

"We have been offered 50 cents per acre for the lease for a ten-year period, combined with a rental of 50 cents per acre per year," Judge Thompson explained, "but we believe we can get more," he added.

He said that a representative of one of the major oil companies was scheduled to be in Farwell before the close of the present week to continue

negotiations with the county officials.

At present, the school land is bringing the schools of this county \$1,650.00 annually from grass lease fees.

Judge Thompson said that if the Commissioners succeeded in getting their price for the oil lease, it would mean an income of \$13,000.00 in one lump sum for the ten-year lease, and \$7,500.00 annually thereafter for nine years. This money, he explained, would be divided out among the schools of the county on an enrollment basis, amounting to better than \$5.00 per scholastic annually.

THE NEW FORD FOR 1942, shown above, which will go on display at the Sikes Motor Co. in Farwell on Friday of this week. You are invited to visit the showrooms of the local dealer and see this new model.

WEEKLY NEWS ANALYSIS

By Edward C. Wayne

Enactment of Price Fixing Measure And Repeal of U. S. Neutrality Act Are Chief Congressional Problems; Soviet Situation Grave, Say British

(EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.) (Released by Western Newspaper Union.)

Bernard M. Baruch, who headed the War Industries Board during World War I, is pictured as he urged congress "to put a ceiling over the whole price structure including wages, rents, and farm prices." Baruch, who appeared before the House Banking and Currency committee, advocated a much more drastic price control bill than that planned by the administration. Photo shows, left to right: Representative Gore of Tennessee, Rep. Paul Brown of Georgia, Rep. Brent Spence of Kentucky, Rep. Clyde Williams of Missouri, Chairman of the Committee Rep. Henry B. Steagall of Alabama, and Bernard Baruch.

KIEV:

Two Versions

The Germans had claimed the complete capture of Kiev, the entering of the whole city, the "mopping up" of small bodies of "die-hard" troops, and the fleeing of Russian commanders.

On the same day the Russians, admitting the German entry into the Kiev suburbs, had pictured a "battle to the death," and a defense of the city which was costing the Nazis 150,000 men and vast quantities of material.

Odessa, in the south, was finding the "pressure relieved," the Reds had reported.

In these diametrically opposing statements, perhaps the only light was coming from British sources, presumably getting information from mission observers on the scene, but the British reports had been entirely gloomy.

The British had reported that an "apparent" cutoff of the Crimean peninsula had occurred, and though they scouted the German report of having trapped 400,000 to 500,000 Russian troops in an encirclement near Kiev, they saw the Russian situation as grave indeed.

From out of all this it was evident that the fall of Kiev seemed inevitable and finally even the Russians admitted its fall, after what was termed "fierce fighting."

BULGARIA:

On Nazi Side

Britain had admitted the decision of King Boris of Bulgaria to throw his nation, final Balkan question-mark, in on the side of Hitler.

In this was seen a more general picture of the German effort, which undoubtedly was to be a threatening move toward Turkey, and the establishment of sea-borne invasion points to go after Rostov and the oil fields.

All this was tied up indissolubly with the Russian crisis, as it was plain Turkey would view with alarm the Russian weakness and her own resistance to Nazi advances would be tempered by the strength or weak character of Soviet military power.

Also the effort of the British to bring her own and United States' material to the Russian fields through the Persian gulf was largely to stand or fall as a result of the success or failure of this southern German drive.

Hence it was that W. Averell Harriman, head of the American mission to the Soviet, had stressed the immediate and vital necessity of rushing all possible material to Russia.

JAPAN:

Gets Tougher

Nippon, in the meantime, had been taking a stiffer attitude toward the United States, and in particular had turned her ire upon Russia, sensing that in the wounded "bear's" distress lay her opportunity of hitting out at her old rival.

Charging that the Russians had cut loose floating mines in the Japanese sea, in violation of international law and friendly behavior between nations, Japan made the strongest representations.

At the same time she was rebuffing efforts of the United States toward a peaceful settlement in the Pacific, and was issuing propaganda charging that the Chinese would demand equality with the white races, and a right to enter the U. S.

The government of Thailand, faced further with the request from Vichy that America, in settling peace in the Pacific, see that the Japanese were expelled from Indo-China, and realizing the critical times in the Orient, informed its people that war for Thailand was near at hand.

PRICES:

And Baruch

Bernard Baruch, World war war-time industries head, threw a bombshell into the price-fixing bill discussion when he postulated that no price fixing would work without fixing costs of merchandise, including wages and rentals.

That his pronouncement had a profound effect had been immediately evident in the acceptance of his views by at least two influential members of the committee, and it was considered more than possible that the final form of the bill would carry an amendment to fix wage ceilings.

Also there was more than an undercurrent evident hitting out at Leon Henderson, price control administration by executive appointment in the committee's feeling that the bill should be administered by a board, not an individual.

POLICY:

Gains Support

Faced with the grimmer picture of European war, and a realization through Russia's crisis that American aid would have to be considerable if the Axis were finally to be defeated, and the democracies win the victory, one notable change in Washington sentiment was a growing support for the White House foreign policy.

It was evident in the pre-action discussion of the repeal of the Neutrality act, President Roosevelt's latest request anent his policy.

Even from circles most strongly isolationist, and most vigorously opposed to the President it was conceded that the act would be repealed, perhaps within two months.

The cohesion of foes of the President's policy was becoming less firm. Senator LaFollette, for instance, had urged all isolationists, non-interventionists to gird for the battle of ballots this fall, and to make the foreign policy their issue.

Senator Taft, at the same time, had urged campaigners and voters in the congressional primaries to leave the foreign policy out of the picture. He said:

"Congressional votes on the question have cut across party lines, and there is no reason for the party to make an issue of foreign policy."

Wendell Willkie, storm center of both of these statements, saw the first as an acceptance of his challenge to the isolationists to meet interventionist candidates he would put in the field, and the second as an unwillingness on the part of a Republican leader to meet the issue.

DUTCH:

In Rebellion

Sabotage, theft and anti-Nazi rebellions were occurring on an increasing tempo in Holland, it had been reported in London through a Dutch news agency.

The Rotterdam public prosecutor stated that the city was unsafe, and that the forces of law and order were unable to cope with the wave of crime.

While not giving actual instances of anti-Nazi demonstrations, the censored dispatches had spoken of "rowdism, burglary, petty thefts and other outrages." In Utrecht special guards were appointed to aid the police.

HOSTAGES:

The Germans in Paris, under General Stuelpnagel, executed 12 French hostages to pay for the death of one German non-commissioned officer, shot in the back on a Paris street as he walked to his home.

The shots came from a passing auto. The assassins were not arrested. Summarily taken out and shot had been seven Communists, one Jew and two persons accused of having been in the possession of weapons, and three who had been charged with attacking soldiers.

Too Young

TORONTO, CANADA.—Bruce King (above) of Teaneck, New Jersey, U. S. A., managed to fool enlistment officers in Canada about his age when he joined the Royal Canadian Air Force after running away from home. But his parents sent proof that Bruce is only 14 years old, so he'll be sent back to Teaneck and when he grows up Bruce King can emulate King Bruce and "try, try again."

SHIPS:

Seized by U. S.

The Maritime commission, faced with a seamen's union strike which had immobilized some 16 ships in six major ports, all of them vital to the defense drive, seized two freighters of the Alcoa corporation in New York, and sailed them off to Bermuda and the West Indies with supplies for naval and air bases.

The unions had complained to President Roosevelt that this action robbed them of the right to collective bargaining. The President had not replied, but the ships were taken over, the Maritime commission recruited crews and off they went.

The commission indicated that it would act similarly if other cases among the remainder of the ships developed.

The negotiation between the men and the ship owners was over the question of bonuses for doing dangerous work.

THREE:

Plane Strikes

The national mediation board was hard at work trying to settle three strikes that had threatened important airplane factories, one of which had three-quarters of a billion dollars in orders.

At the Consolidated plant in San Diego it was the A. F. of L. machinists who had voted to reject a company offer of a 5-cent hourly blanket wage increase, and stood pat on its own percentage demands. The workers were insisting that the company meet a 10-cent increase given by other large airplane plants in southern California.

It was at Buffalo, N. Y., Curtiss-Wright dual plants that the workers had threatened a strike unless the NLRB ruled within 10 days on the employees' demand for a labor election.

And at Bendix, N. J., the U.A.W. of the C.I.O. had authorized a strike at the accessories plant of Air Associates, Inc., listing eight charges against the company.

SPIES:

Plane Secrets

That Nazi Germany was highly interested in American secrets of plane production was seen in the evidence in the spy trial in New York that many of the 16 persons on trial were ordered by Berlin to get airplane information.

The testimony had been that Edmund C. Heine, former employee of two large automobile plants, had collected and prepared for transmission to Berlin technical information on U. S. plane manufacture.

Included in his data were details of the construction of Bell Airacobra planes, the chief U. S. fighter; the Consolidated B-24 bomber; the Martin bombers, and the Fairchild trainers.

MISCELLANY:

Berlin: The German radio claimed that 3,480 "enemy planes" had been destroyed by German anti-aircraft artillery since the start of the war.

London: Five Belgians, using a 90-foot dinghy, managed to get across the British channel and escape to England. They were four men and a woman. The trip took three days and nights.

London: Aided by the aurora borealis, or northern lights, British bombers made some of their greatest night raids of the war, the lights giving them almost a daytime view of their objectives.

Chungking: A total eclipse of the sun, visible for the first time since 1856 in Chinese territory, was seen in eight provinces.

Buenos Aires: Strong representations from Berlin against anti-Nazi demonstrations in Argentina might be followed by a breaking off of diplomatic relations, it had been stated.

Easy Lessons in Guitar Playing

Simple Charts Are Used

GRAND times you never forget! And, strummin' that ol' guitar, you're not forgotten either! Do you long to learn how to

play? You can teach yourself, following simple directions.

In accompanying a song you can just play chords on your guitar and in popular music you'll find diagrams for these chords.

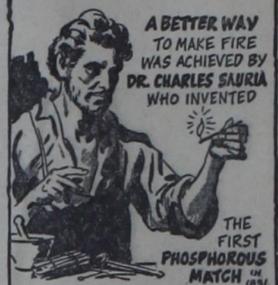

With the directions and diagrams in our 32-page booklet you soon master the guitar. Explains the fingerboard, right fingering and technique. Gives chords, seven favorite airs. Send your order to:

Waters of the Earth

Almost 72 per cent of the earth's surface is covered by water. The superficial area of the earth includes approximately 139,440,000 square miles of ocean and 57,510,000 square miles of land, on which there are approximately a million square miles of lake and river surface. It is estimated that the oceans of the earth contain 323,000,000 cubic miles of water. The deepest place is the Milwaukee Depth north of Puerto Rico, 30,246 feet. The average depth of the ocean below sea level is 12,450 feet, or about five times the average height of land above sea level.

WE FOUND A BETTER WAY

A BETTER WAY TO MAKE FIRE WAS ACHIEVED BY DR. CHARLES SAURIA WHO INVENTED THE FIRST PHOSPHOROUS MATCH IN 1891.

THE BETTER WAY TO TREAT CONSTIPATION DUE TO LACK OF PROPER "BULK" IN THE DIET IS TO CORRECT THE CAUSE OF THE TROUBLE WITH A DELICIOUS CEREAL, KELLOGG'S ALL-BRAN... EAT IT EVERY DAY AND DRINK PLenty OF WATER.

Deceptive Speakers

Men of great conversational powers almost universally practice a sort of lively sophistry and exaggeration which deceives for the moment both themselves and their auditors.—Macaulay.

# Farm Land Speculation Is Threat to Agriculture

Government Warns Against Fever of Land Buying That Would Start Another 'Unhappy' Economic Cycle for U. S.

By BAUKHAGE

National Farm and Home Hour Commentator.

WNU Service, 1343 H. Street, N. W. Washington, D. C.

Farm income—cash income—will be nearly \$11,000,000,000 this year. That is two billions greater than last year.

Money to burn!

And the burning question in Washington is how to stop the conflagration before it starts. The chief danger is another prairie fire of farm land speculation such as started out in Iowa in World War I. First there were wash sales. They were publicized. Real sales began which sent farm prices up to the blue skies and which ended by making a farm mortgage the cheapest form of wall paper.

Two years after that World war started, the prices of farm land rose 5 per cent. Not much later they leaped a hundred per cent and more. The eventual collapse was forerunner of the depression.

Today, two years after the present war started, farm land prices are up 1 per cent. That isn't so bad but the government is already worried enough to consider it worth while trying to start a back fire in the hope of preventing a recurrence of the unhappy cycle which began 25 years ago.

When Governor Black of the Farm Credit administration called in the farm mortgage bankers, the insurance people, farm organization representatives and others in the rural real estate field he simply reminded them that when the government loaned the farmers the money to bail them (the mortgagors) out last time, it was done on appraisals based on normal values. Now it is up to the real estate people to make their appraisals on normal values, too. That means on figures based on the relationship between farm products prices and other prices established for the years of 1914-1918.

A million farmers who were loaned money by the Farm Credit administration during the depression have repaid their mortgages. Those farmers are keenly aware of the danger to agriculture and to the whole economy if a fever of mad land-buying starts again. They will help stop it, if they can. The government will do all in its power in the way of education—meetings will be held—the house organ of the Farm Credit administration which has a million circulation will carry the warning. The real estate operators have indicated that they will cooperate.

Whether money to burn will burn the farmer is still uncertain. In the end, stopping another drunken orgy of land speculation and the terrible headache afterward depends on the word-of-mouth message of the individual. The burned child fears the fire but there is always someone to urge him to risk a blister for the delicious chestnut he sees roasting on the coals.

Policy—Orders—Action—Silence—

"As Commander in Chief of the Army and Navy I order the following policy carried out at once: our patrolling vessels and planes will protect all merchant ships—not only American ships but ships of any flag—engaged in commerce in waters which we deem necessary for our defense. American naval vessels and American planes will strike the first blow against Axis submarines or Axis raiders on the surface of the sea."

This communication in substance was transmitted to the office of the secretary of the navy from the White House a few weeks ago.

There it was immediately translated, first into naval language and then into code. Over land wires to the wireless towers near Annapolis it was flashed to ships of the United States navy on the seven seas.

It is early morning. A thin steely light spreads across the horizon as the U. S. destroyer "Blank," a part of the Atlantic patrol, rides the easy swells. On board, the smooth routine goes on with its clock-work monotony. But there is the ghost of a grim smile exchanged between the captain and the executive officer—they have both read the coded message recorded by the wireless operator a little while before.

Three minutes later the ship is galvanized from galley to crow's-nest.

A strident gong has sounded. The bos'n's whistle is trilling high above the wash of the waves and the whirr of the engines for the word has come down from the lookout: "Torpedo track sighted. Starboard bow. —4-0!"

The gong sounds—that might mean any emergency but before there is time to wonder the order rings out—

"All hands to general quarters." Before the gun crews have ripped off the site covers, the executive officer has reported to the captain: "Battle stations manned, sir."

The "torpedo track," a ribbon of white moves forward toward the destroyer at the rate of 1,000 yards a minute. But the tube of high explosive itself, which is sending up the tell-tale "track" of bubbles is 40 yards ahead of the nearest one that shows—it takes some time before those bubbles can reach the surface.

The bearing of the torpedo is verified and the destroyer swings and leaps "full-speed-ahead" to meet it. Not because the captain wants to contact the whirring death-bolt head-on, but because there is less chance of a hit if the ship shows its beam instead of the length of its hull as a target. And the objective of the destroyer is a spot as nearly over the point where the submarine is submerged as it is possible to estimate it. That point is reached for the torpedo has missed its mark while ears are glued to the sound-detector straining for the noise of the sub's engines.

"Release depth charges." Down go the "ash-cans," one after another; mounds of water rise; the sound detector is deafened. The destroyer, turning sharply, returns to the spot and releases another series of charges.

The roar dies in the detectors. There is silence.

And that is the end of the story. Perhaps it is the end of the submarine. It is quite possible that no one will ever know what happened until after the war—perhaps not then. And even if some tell-tale piece of equipment is blown from the inside of the sub and reaches the surface, that does not mean that the public will know. At least not for a long time.

Seasonal Glory

In National Capital

Washington is standing on the threshold of its seasonal glory—"October's bright blue weather," the month of beauty in the capital.

Already the early morning sun comes down in soft blue bars and August's heavy carpet of shadow on pavement and lawn is thinned to a lacework pattern as the leaves shrivel and drop.

Gardens have faded but there is one hardy bush (Rose of Sharon?) which blooms before the more modest doorways. A cross between a hollyhock and a morning glory it is harder than either.

The city wakes with a new vigor now that the tropic days are over. Women government workers are out with a brisk step for a last stroll with dogs or babies, whichever they possess, before they go off to the "office." Landladies straggle homeward cheerfully with their bags and parcels. But trolley cars still lag and jerk, packed to the doors with the new thousands who crowd the sagging city with the clerks of Mars.

Suez Canal Symbol Of British Power

Symbols are often more powerful than facts or things in influencing the public. The Suez canal has always been considered Britain's life-line. It is the symbol of Britain's sea-power, of the bonds that hold the Empire together, of British achievement.

And yet the canal is as much French as British, both in construction and control. What is more, months ago it became of highly questionable value because for weeks at a time it has had to be closed as a result of attacks from the air.

Long ago shrewd Britons realized that they must prepare for the eventuality of the loss of the Suez. At least five years ago a book was published pointing out that in case of war Britain must be prepared to protect ship routes around Africa.

JUST DOING

Double Up  
"The best way to get the most out of life is to fall in love with a great problem or a beautiful woman!"

"Why not choose the latter and get both?"

Man, they say, is made of dust. Some women think it is gold.

Too Tough!  
Policeman (producing notebook)—Name, please.

Motorist (caught speeding)—Aloysius Sebastian Syprian.

Policeman (putting book away)—Well, don't let me catch you again.

Definite  
"Afraid you're going to have insomnia? What are the symptoms?"

Misunderstood  
She had visited every department in the big shop and worried the salesman, without buying anything. At last one weary assistant thought a protest was due.

"Pardon me, madam," he said, "are you shopping here?"

"Certainly," she snapped.

"What else should I be doing?"

"Well, madam," he replied meekly, "I thought you were taking an inventory."

That Nagging Backache

May Warn of Disordered Kidney Action  
Modern life with its hurry and worry, irregular habits, improper eating and drinking—the risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.  
You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.  
Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

'Untouchable' Jurors

Because the jury at the first trial of Boss Tweed in New York city in 1873 disagreed on a verdict, the prosecution at the second trial made certain that it had 12 "untouchable" jurors by assigning 12 officers to watch them, 12 watchers to watch the officers and 12 other watchers to watch the watchers, all 36 of whom had to make a daily report.

Modern streamlined war may have changed the arms and methods of Uncle Sam's soldiers, but it hasn't changed the Army man's smoking preference. For more than 20 years Camels have been the Army man's favorite cigarette. Today, actual sales records show Camels not only are the favorite with men in the Army, but with men in the Navy, Marine Corps and Coast Guard as well. With men in the service giving cigarettes first place in the gift line-up, it's natural that local tobacconists are featuring "Send a Carton of Camels" as the ideal gift for the service men from the folks back home.—Adv.

TODAY'S pattern is a new one-piece style which has every feature the fashion-wise school girls of today crave. The longer top, middie shaped, with the smart

Dad Expected Memorial To Be a Speaking Likeness

Mrs. Woop had died, and Dad wanted to put up some sort of memorial to her. A stained-glass window in the local church being suggested, Dad agreed, and left all arrangements with the minister.

At length the window arrived. Dad, unusually excited, set out to view it.

The minister escorted the old chap into the church and, with a flourish, indicated the window, which depicted an angel.

"How do you like it?" said he. Dad gazed at it thoughtfully.

"No good," he grunted.

"Why, what's your objection?"

"Tain't a bit like my old woman."

Bovina Happenings

C. H. Ervin, who has been ill for the past few days, is up and about again.

Mr. and Mrs. Bob Hartness, who has been employed at Englant's garage, recently moved to Clovis, where he is working.

Mr. and Mrs. J. W. Wilkerson, of Hereford, spent the past weekend in the D. H. Wilkerson home.

Roland Farmer is now employed at the Englant garage.

Ralph Hickman returned here after visiting his parents in California.

W. E. Williams is on the sick list.

Mrs. Joe Wilson, Mrs. Giles Williams and Nancy visited in Lubbock with friends, Sunday.

Mrs. Bill Venable and Mrs. Norman Wilson made a business trip to Clovis, Monday.

Mr. and Mrs. John Byler, who have been visiting Mrs. Norman Wilson the past week, left Friday for Wichita Falls, Texas, where he will be employed.

Mrs. Shelby Jersig and daughter spent Sunday with her parents in Friona.

Mrs. Jerry Lindsey, of Midland, Texas, and Miss Grace Wells, of Odessa, Tex., visited Mr. and Mrs. Bill Venable, last week.

Billie Best, of the Oklahoma Lane community, visited Billie Ward, on Sunday.

Mr. and Mrs. Cherry made a business trip to Clovis, Monday.

R. G. Whitlow made a business trip to Farwell, Tuesday.

Jack Carr, of Amarillo, visited here Tuesday.

Misses Nina Jo Brock and June Hart, who are attending business school in Amarillo, visited their parents here, last weekend.

Mr. and Mrs. Loyd Bolin, of Kennan, N. M., spent the past weekend in the Will Parker home.

Music Club Entertained

With masses of beautiful fall flowers creating the setting for a meeting of the Music Club, Mrs. E. T. Caldwell was hostess in her home to club members and their mothers, Monday afternoon. The welcome to the mothers was given by Barbara Jean Davidson. Others participating in the program were Shelby Ann Jersig, Nancy Wilson, Nelda Jane Nittler, and Martha Ellen Williams.

Mothers enjoying the delightful affair were: Mesdames W. E. Williams, J. W. Kimbrow, Joe Wilson and W. P. Nittler. A delicious salad plate was served.

Miscellaneous Bridal Shower

A bridal shower was given for Mrs. Robert Blalock by Mrs. John Wilson.

THE FEDERAL GOVERNMENT'S MONTHLY PAYROLL, EXCLUDING SOLDIERS AND SAILORS, HAS BECOME ALMOST AS LARGE AS THE WEEKLY PAYROLL OF ALL THE MANUFACTURING INDUSTRIES IN AMERICA.

THE ENTIRE WORKING POPULATION OF THE UNITED STATES WOULD HAVE TO SPEND ALL ITS TIME AT SPINNING WHEELS AND LOOMS TO PRODUCE, BY COLONIAL METHODS, THE CLOTH NOW USED IN AMERICA

Mrs. Wilbur Charles, Mrs. I. W. Quickel, in the home of Mrs. Frank Hastings, Friday afternoon.

Many lovely and useful gifts were tendered the honoree. Those present: Mesdames John Wilson, I. W. Quickel, Wilbur Charles, Troy Fuller, L. H. Pesch, Harry Charles, T. J. Hopingardner and Willis, O. L. Floya and Billie, Vernon Estes, Mable Newberry, Loren Jefferson, J. G. Charles and C. F. Hastings. A number of gifts were sent by those unable to attend.

Delicious refreshments were served by the hostesses.

Defense School

The Bovina defense school is well underway and has recently undergone first inspection by the area supervisor, who made favorable comments on all work being done, with some helpful suggestions being given. The school has changed its schedule. For the next two weeks they will meet on Tuesdays and Thursdays only, alternating with the Highway Department's safety school, as most of the boys are interested in both courses. All out of school men and boys are urged to attend the safety school on Monday, Wednesday and Friday nights, and the defense school on Tuesday and Thursday nights.

Car Accident

Vernon Estes, of Bovina, and Mr. and Mrs. Paul Hagar of Hereford, collided Sunday afternoon at a road crossing. Estes was going north and the Hagar car was traveling west. Mr. Estes ran into the other car, turning it completely around and headed toward Hereford. The Hagar car was torn up at the front. Only one person was injured, Mrs. Hagar receiving minor cuts and bruises on her legs.

Mustangs Lose Opener to Adrian

A fighting but inexperienced squad of Mustangs lost the first

football game in Bovina history to Adrian, last Friday, by a 21-7 score.

The Adrian team was more experienced and had a number of veterans in the lineup, although the play of the Bovina boys was unquestionably good for the first game. The boys were nervous and excited but came to life the last half and scored. They were on the 15-yard line at the end of the game.

With more confidence, the boys face Happy on about even terms, Friday, at Bovina. The boys are ready to go, and several changes will be made in the line-up.

LAZBUDDY

(Too Late For Last Week)

Mr. and Mrs. Edgar Vaughan and son, Eddie Wayne, of Frederick, Okla., visited in the homes of Mr. and Mrs. J. E. Vaughan, Mr. and Mrs. Raymond Treider, and Mr. and Mrs. Willie Steinbock, last week.

Mrs. C. E. Merriott and son, Clyde, of Plainview, visited in the O. Treider home last week.

Mrs. Cecil Vaughan, of Madison, Kans., and sons, and Mrs. Don Keene and son of San Angelo, visited Mrs. Raymond Treider, last week.

Mrs. J. L. Shuping, of Sunray, is visiting in the home of her parents, Mr. and Mrs. J. E. Vaughan, this week.

J. E. Gammon, who is in Hot Springs, N. M., taking a course of mineral water baths, is much improved at this writing.

Mr. and Mrs. Freddie Wagon and Mrs. Ernest Nowell and children visited in East Texas, last week.

Mr. and Mrs. W. M. Sherley and daughter visited in Anna, last week.

Mrs. Harvey Seaton and daughter, of Friona, visited her mother, Mrs. John Lilly, Monday.

Sgt. Theron Vaughan, of Fort Sill, Okla., arrived on a ten-day furlough to visit his parents and other relatives. A mistake was made some time back, stating he was a corporal. He was promoted to sergeant last February.

PLEASANT HILL

Elvis Bell was on the sick list last week.

The junior baseball games were very interesting Friday. Ranchvale girls finally had a streak of luck which brought their score to the high mark of 23 to 14. The boys were very close, Pleasant Hill winning by a 15-14 count.

The lunchroom is nearing completion, just awaiting a few details that take time to finish.

Mr. and Mrs. Long and son moved into the Baptist parsonage last Friday.

Mr. and Mrs. Carl Mann are visiting her mother, Mrs. Bell.

There aren't so many smiles over the rain this week as last week. The ground is so soft, and the high winds are blowing row crops down.

Mr. Cone, who moved to Clovis about a year ago, was stricken Saturday with a heart attack that might have proven fatal, had he not been near a physician.

Miss Erma Mobley, of Claud, who attends school here, was stricken with appendicitis last week.

Miss Beatrice Cox, Lewis Patterson, Denzil Pulliam and alternate Hershel Horton returned from Albuquerque, Tuesday of last week, where they had attended the 4-H livestock contest. They won first and a trip to Denver to take part in the national contest. We are very proud of these youngsters, and wish them good luck at Denver.

(Too Late For Last Week)

Mrs. Ida Bell is here visiting her brother, Joe Bell, and Mrs. Maggie Bell.

The community met Friday and decided to serve hot lunches to the school children this winter. A committee of three was selected to get the necessary equipment ready. A charge of \$1 per family will be made the first month in order to get the room ready, and the committee will appreciate your seeing them as soon as you can. Mrs. Pauline Horton is chairman, Mrs. Irene Donahey and Monk Horton are the other members.

Grady won both the ball games Friday, but we are hoping the score will change when we return the games.

It will be news to the friends of Fred Kays to know he is the father of a 6-lb. boy. They reside in Oklahoma.

Mr. Hopper came home from Amarillo to spend the weekend.

**FARM PROGRAM SUPPORTS PARITY COTTON PRICE**

COLLEGE STATION—Near parity prices being received by farmers for their cotton are a result of the over-all farm program, Fred Rennels, assistant AAA administrative officer in Texas, pointed out this week.

"The cotton picture still isn't all rosy," the AAA official said. "We have a tremendous carry-over of cotton, a year's supply over and above this year's production. Most of our foreign markets still are cut off by the war. Exports in the year just ended didn't amount to much more than a million bales, and prospects for the current year are not much better."

Since the government has guaranteed a minimum price for cotton this year with the 85 percent of parity loan, the Texas cotton farmer knows when he takes his bale to market approximately what he will receive, and he knows the price will be fair, Rennels said.

"I hesitate to think what the price of cotton would be without the loan," he continued. "I know the cotton farmer realizes that the price he is

getting for his cotton is based on the loan, and I know he realizes, also, that without the full operations of the farm program, the loan would be impossible."

Rennels pointed out that cotton farmers this year probably would be asked again to vote upon cotton marketing quotas as a means of adjusting the cotton supply to demand. Government loans cannot be offered in any crop year in which quotas are rejected by the growers.

Rennels cited a recent speech by I. W. Duggan, director of the Southern division of the AAA, in which the director pointed out that because of a large carry-over of American cotton in this country and the large stocks of cotton in the outside world, the price of American cotton would be exceedingly low in the absence of the AAA program.

**Health Notes**

By Texas Department of Health

AUSTIN—"The soft tissues of the mouth require as careful watching as the teeth, to keep them in healthy condition," according to Dr. Geo. W. Cox, State Health Officer.

"One of the more common diseases to which these soft tissues are subject is a germ disease known as 'Vincent's infection' also called 'trench mouth' from the fact that it was very prevalent among soldiers in crowded camps and trenches during the World War. These two names are given to the disease when it affects the gums and supporting structures of the teeth; sometimes it affects the throat and tonsils, in which case it is called 'Vincent's angina'.

"One peculiarity of the germs that cause 'trench mouth' and 'Vincent's enter the mouth and become fixed between the teeth, under the gum angina' is that they may live and thrive in the absence of oxygen. They margin and beneath the margins of

fillings and crowns. They grow in and about decayed teeth. They are more likely to be active and cause the disease to develop in mouths that are not kept clean and well cared for than in clean, healthy mouths.

"The infection may be picked up through the use of common drinking cups, dishes or cooking utensils that have not been thoroughly cleaned, through drinking from insanitary fountains and in other ways. It can be spread to others, just as colds are, through coughing and sneezing.

"The disease is highly contagious and spreads very easily from person to person. It is characterized by bleeding and sore gums, and finally by ulcers in the soft tissues. In acute form the disease is painful and causes great discomfort. In extreme cases the infection may spread through the entire system with serious results.

"Of course, not all bleeding or sore gums or bad breath are due to 'trench mouth', but at the first indication of such symptoms—no matter what the cause—a doctor or dentist should be consulted promptly and his advice and instructions should be followed with utmost care. Those who develop the disease must also take every precaution to keep from passing the infection on to others."

**SANTA FE CARLOADINGS**

The Santa Fe Railway System carloadings for the week ending Sept. 27, 1941, were 23,117 compared with 21,183 for the same week in 1940. Received from connections were 9,524 compared with 6,808 for the same week in 1940. The total cars moved were 32,641 compared with 27,991 for the same week in 1940. The Santa Fe handled a total of 31,877 cars during the preceding week of this year.

**STATEMENT**

**AAA TO GET NEW BUILDING**

Construction work has started on a new three-story building to house the Agricultural Adjustment Administration State Office on the campus

of Texas A. and M. College. Pictured above is the architect's conception of the new building which will be completed in about six months.

**OVER AGE SELECTEES MUST KEEP IN TOUCH WITH LOCAL BOARDS**

Although deferred by law from actual military training, Selective Service registrants who are now more than 28 years old must conform to orders from their local boards or be liable to penalties prescribed for delinquents, General J. Watt Page, State Selective Service Director, cautioned them today.

While the amendment to the Selective Training and Service Act of 1940 recently adopted by Congress precludes induction of men who were 28 years of age or older on July 1, 1941, these registrants must still live up to the obligations imposed upon them by the Act, General Page said. They must keep their registration certificates with them at all times, and keep their local boards advised of any change of address.

Although registrants who were 28 years of age or older on July 1, 1941, must fill out questionnaires, General Page explained, when it becomes evident that they are deferred because of age, they will be placed in the proper deferred classification by their local boards.

It is intended, he said, that hereafter registrants who are deferred by reason of age will continue to be

classified in the same manner as other registrants, except that they will be given no physical examination, and except that those of such registrants who are being classified for the first time and who are not classified in Class I-C, Class IV, Class III, or Class II will be placed in Class I-H. Those of such registrants who are classified into Class I or Class IV-E before becoming entitled to deferment by reason of age, will be placed in Class I-H and Class IV-E-H respectively upon becoming entitled to deferment by reason of age, General Page pointed out.

The Netherlands Indies government is starting its \$5,300,000 development of fundamentally necessary industries.

**PHILLIPS 66 MOTOR OIL**

### MUSIC-DRAMATIC CLUB

The dramatic class has progressed fairly well with their play, "The Mystery of The Masked Girl." It is fairly clouded with mystery when two young college girls try to solve the murder of Walter Eanes, the scientist. The two girls are Judith Atkins, played by Helen Blair, and Ann Bradley, played by Edna Earle Thompson. This play also has plenty of laughs, supplied by Hulda, the maid, by Dorothy Paul.

The play will be given free to the public in about two or three weeks.

### SOCIAL NEWS

Mescal Richards returned home from Weed, N. M., where she has been visiting in the home of her parents.

Mr. and Mrs. Virgil Martin, of Halle Center, Texas, visited in the home of Mr. and Mrs. W. E. Martin, Sunday. Freida Martin accompanied them home.

Miss Bettie Lee Williams visited in the home of Mr. and Mrs. Audie Barker, of Clovis, Saturday.

Mr. and Mrs. Loyd Tharp, of Clovis, visited in the home of Mr. and Mrs. J. R. Flye.

Miss Helen Blair entertained a group of her friends with a waffle supper, Friday night. Those present were Lila and Wanda Boss, Dorothy Paul, Edna Earle and Billie Nell Thompson and the hostess, Helen Blair.

### COMMERCE

The typing I class is ready to take its first speed test. The national tests have not arrived yet, but should be here any day. Some in the class are working on letters. The centering problem of these letters proves difficult. All work is done individually, allowing each student to progress as rapidly as he is able.

The bookkeeping class has learned to journalize, post, and make final reports, including the work sheet, the profit and loss statement, and the balance sheet. The class is small but makes up for quantity in quality. The class is composed of Edna Earle Thompson, Wanda Boss, Dorothy Paul, Bettye Lee Williams, Pearl Martin and Marjorie Sellman, who are running close to straight "A" for the first month of school.

### SENIOR REVIEW

Wanda Boss was born May 26, 1925 at Texico. She began her school life at Texico school, to which she is now going. Wanda won second place in a story telling contest when she was in the third grade, and in the fourth grade was grade school princess. She had an active part in the junior play last year and is in the dramatic club play this year. She is vice president of the class, and a member of the FHA.

### GOSSIP

What is it that Dorothy Paul has that the other girls in high school don't have? Anyway, Billy Bob knows what it is!

What draws the trade at the candy store? Is it the girls or the candy? What about it Pearl?

Wesley must be living up to the adage of the dependent husband. It seems that his wife had to lend him 60c the other night to buy a pie.

Someone really is taking the penalties in because now they are matching candy. Is it cheaper, or what?

Billie Nell and Lila surely do fuss in physics. It's a pity they don't talk loud enough for others to listen in!

Just why does Bill type the third period???

What is it about that little red-headed 8th grade girl that the little freshman boy likes so much? Billy seemed to take up all of Alice Ruth's skating time the other night.

Has the flame gone out of that freshman-sophomore romance? For a while it seemd that Eugene had it pretty bad, but now?

Mr. Macon and Mr. Martin were playing Mr. Thompson and Mr. McDonald at the 42 party the other Friday night. Mr. Thompson and Mr. Mac seemed to be losing out, when they decided to buy a pie, as Mr. Macon and Mr. Martin had bought one some minutes before. From then on they won out. It must have been the pie that changed the luck.

Wonder why Wanda's so interested in those P. Hill boys?

Mac didn't carry out his threat to beat the girls half to death this week 'cause they won the game, 17-3.

Does James Box have a new flame now, or is he still that way about a certain senior girl?

The saying is that the sophomore boys have their way in anything. Is it because there isn't any other boys or because they are good looking?

Why is it that the boys like to skate

with Edna Earle? Is it because of her skating ability?

### FFA TRIP

On Saturday morning, Sept. 19, Mr. Richards and two of his FFA boys left for Albuquerque, where they were to have a booth. They worked on it Saturday night, in order to have it up by 9:00 Sunday morning.

Sunday morning we went back to the fair grounds and put our signs up and had everything ready. After we finished the booth, we went home to rest awhile. While we were there, we saw the grand champion white face. They judged all day Tuesday.

This trip was enjoyed by all three of us and we hope that we get to return next year. We had a lot of fun and wish that all of the boys could have been with us.

Ernest Vigil, Secretary.

### SENIOR CLASS NEWS

The senior class met Monday and selected two sample plays, one of which will be chosen for our annual presentation. Work will begin on it soon.

Representing the seniors on the softball teams are Edna Earle Thompson, Lila Boss, Dan Gonzales and Duane Howard. All senior girls are in the Home Economics Club, with Lila Boss acting as president and Edna Earle Thompson as vice president. The majority of the dramatic play cast is of senior girls: Ann Bradley, Edna Earle Thompson; Moria Moss, Lila Boss; Mrs. Moss, Ruby Doolittle; Rose Lawn, Wanda Boss; Hulda, Dorothy Paul. Ruby Doolittle is also very active in the trio. Edna Earle Thompson, Lila Boss and Ruby Doolittle serve as librarians.

### FIRST GRADE

September is almost gone. How quickly the month flew by! But I am sure we are all glad to be so busy.

### School For Me!

Now I can go to school at last!

(Who ever said that time goes

fast?)

I thought time must be playing tricks

And that I never would be six. But now I'm twice as old as three. And that makes six! So school for me!

These pupils have added fifty words to their very small vocabulary and are now reading the pre-primer, "We Look and See"; Norma Ruth Wright, Jean Kleeman, Paula Sue Arnold, Jim Duran, Virginia Fields, Eva Ann Paul, Anita Powers, Harry Lee Billingsley. We will all soon be reading in "We Look and See".

Miss Pierson: You have oeanutiful hair, Virginia. Did you get it from your mother?

Virginia: No, I got it from Daddy. Anyway, his hair is all gone!

Mrs. Brown visited our room Wednesday. We are all planning to buy Defense Savings Stamps. Some have started their books.

### SECOND AND THIRD

This brings us to the close of one month of school and everybody is down to work.

We were sorry to see De Aubrey Alewine go from us, but hope she likes her new home in California.

The class bought a large flag for the room. We are very proud to show our American flag.

Ruth Maxey and Betty June Lewis started buying stamps for a defense bond.

We were thrilled over the program at Farwell. The stories were the ones we love to hear and Mrs. Seton's costumes were so pretty.

"Let us have faith that right makes might; and in that faith let us to the end dare to do our duty as we understand it." Abraham Lincoln.

### FOURTH AND FIFTH

We are really getting down to work now. Our schuele is quite full and we realize that vacation time is past and school work must go on.

The fifth grade received new books this week for New Mexico his-

tory and are finding them very interesting. The story of our own state has a peculiar romance about it.

The fifth grade also received new text books for National Defense but will not begin the study of them until health books are completed.

The fourth grade is having a contest on multiplication tables. Roy Wayne Thompson is ahead this week.

We were very sorry that Hettyc Nann Randol broke her arm when she fell from the see-saw, and hope she returns to school soon. Ina Mae Thornton has also been missed from our number because of illness.

A number of pupils from our room attended the program in Farwell given by Mr. Seaton. They enjoyed it very much.

### SIXTH AND SEVENTH

Our class has been enjoying school very much.

We have been having a grand time playing baseball and had an interesting game Friday. We had been looking forward to skating, Thursday night, and everyone reported a good time.

Our class is having science and we like it the best of all our classes.

### EIGHTH GRADE NEWS

The eighth grade is beginning school by telling jokes on the teachers. Here is a good one on Mr. Powers:

One day Mr. Powers was going to leave home and his mother told him not to tell anybody his name or where he lived. With this in mind, he went to the station to get his ticket, the man asked him his name and where he was going. Mr. Powers said he wasn't going to tell him, because his mother had told him not to tell anyone where he was going or what his name was.

He finally reached the place he was going, and went to the post office. The Postmaster asked him what his name was, Mr. Powers said "never mind my name, but go get the letter that was for me." He knew one was there.

Several tests have been given since school started and the class is doing very well so far. Several students have been absent since school began. We hope this condition will improve.

### SOPHOMORE NEWS

The sophomore class gave the

freshman their choice of giving them a party or being initiated. The freshmen, always ready for some fun, chose initiation. 'Tis rumored that it is really going to be tough on them.

### FRESHMAN NEWS

The freshmen in the last two weeks have gained two boys, Wendell Howard and Hershel Watkins.

The following students have been absent for sickness or other reasons: Jack Houston, Harvey Shepherd and Mary Lee Moss. We hope to have them back later on.

### DAWN

Dawn comes on with another day, Straying breezes round us play, The growing light takes shape and form, And the sky shows signs of the coming morn.

The skies are crimson, rose and blue, Though the earth be covered with dew, Bright above, gray beneath, Like a gay colored flower wreath.

With the gray for the base, Like it were a flower vase; When the dawn covers the earth, It is a time for freedom, joy, and mirth.

The sun comes up, big and round, Casting brilliance on the ground, The gray of dawn is now in the past, The sun having risen in the East at last.

The dawn with its fragrant air, That seems not to have a care, Is gone as though it lost the race, The mightier sun having taken its place.

Troy Knighten.

## STEED Mortuary

"Serving Clovis Territory Since Clovis Becan"

PHONE 14

CLOVIS, N. M.

For 1942—a Beautiful New

# FORD

"6" OR "8"

IN THESE UNUSUAL TIMES we invite you to inspect an unusual new car—new in its beauty, its comfort, its choice of two fine 90 horsepower engines, 6 cylinders or 8.

See it and you sense at once that here is new style that will stay good for years. On a lower, wider chassis, we have designed new long, low, wide and modern lines.

Interior treatment is entirely fresh, distinctive, pleasing. The beauty of this Ford will more than hold its own in any company.

Inside, the car is big—wide across the seats, generous in knee-room, leg-room, elbow-room.

On the road this year you find the "new Ford ride" still further advanced in its softness, quietness, steadiness and all-round comfort.

At the wheel, you will find driving easier than ever. Steering, gear-shifting, action of the big and sure hydraulic brakes have all been made smoother and easier.

In quality, the car is sound to the last detail. Defense requirements have all been met without a single reduction in the basic and lasting goodness of the Ford mechanically. Some new materials have replaced old ones, usually at a greater cost to us, but in every case the new is equal to or better than the old.

If your family needs a new car, go see and drive this Ford. For what it is today and for what it will be through the years ahead, we believe that you will find in it more and better transportation for your money than you have ever found before.

## Installation Rites Held For FHT Officers

Services for the installation of new officers of the Farwell Homemaking club were held at the school building the past Thursday evening, with around thirty mothers as special guests of the girls, witnessing the rites.

Receiving the oaths of office were Theda White, president; Jane Lokey, vice president; Jean Ann Hart, secretary-treasurer; Johnnie Hillhouse reporter; and Onealya Cole, program chairman.

The program included a vocal solo by Twila Strickland; prayer by Juanita Billington; introduction and welcome of new president by Lenora Birchfield, retiring president; talk Theda White; and welcome of freshmen girls.

Afterward, the group enjoyed games in the school auditorium, with Jane Lokey in charge, and as a finale for the evening, tea was served in the homemaking department.

A cluster of orange marigolds and purple petunias was arranged in a low bowl in the center of the lace-covered table, with a crystal punch bowl at one end and tall silver tapers guarding the other end of the table. Theda White presided over the serving, assist by Lenora Birchfield, Margaret Bigham and Jewel Dean Francis.

## Music Recital Held At Farwell School

A piano recital of considered interest was held at the Farwell auditorium last Friday evening, when Mrs. Florence Millwee Vinyard presented a number of her pupils.

Tap dance pupils of Jimmie Allman, of Clovis, assisted in the program. Dancers were Gloria Kepley, Joan Williams, and Bob Stallings.

Students of Mrs. Vinyard presenting solo and ensemble numbers included: Rosemond Sherley, Betty Hillhouse, Morris Caldwell, Sarah Virginia Carter, Joan Williams, Julian Keeter, Jill Dun, Gloria Kepley, Jarrel McDaniel, Charlene King, Carolyn Bain, Clara Treider, Dessa Fern King, Eudell Houston, Rosemond Booth, Wanda and Jackie Jennings, O. L. Thompson Jr., Emma Jean Rogers, Mrs. Sylvia Couch, Tommy Rancol, Peggy June Rogers, Norma Jean Thomas, and Joan Booth.

## Meeting Postponed

The various ladies missionary groups and study classes of the various churches in Texico-Farwell were scheduled to meet at the local Baptist church, Monday afternoon, to perfect a federated society, but the meeting was cancelled due to inclement weather. Another date will be set later, it was announced.

## ICE PRICES ADVANCE

On and after Oct. 1st, ice prices will be advanced to the following prices:

12½ lbs.	10c
25 lbs.	15c
50 lbs.	30c
75 lbs.	45c
100 lbs.	60c
500 lb. Ice Books	\$3.00

These prices for either dock or delivery.

## Benefit Tourney Gets Fair Attendance

A fair crowd attended the benefit game tournament, staged the past Friday evening in the Texico gymnasium, with the proceeds going to aid the hot lunch program for the Texico schools.

Games of 42 and bridge were enjoyed throughout the evening, which was climaxed with refreshments of pie, coffee and cocoa. A number of the remaining pies were auctioned to the highest bidder.

## Mrs. Bagley Hostess To Woman's Club

"Good Neighbor Tour" was the theme taken up by the Texico-Farwell Woman's Club, last week, when the group convened in the home of Mrs. D. W. Bagley.

Mrs. J. T. Carter served as chairman for the program, with Mrs. Earl Booth and Mrs. Loyd A. Cain discussing South American countries customs, and other pertinent facts.

The hostess served pie and coffee to the following: Mesdames Loyd A. Cain, Claude Rose, E. G. Williams, Johnnie Williams, John Porter, C. M. Henderson, Earl Booth, Mose Glascock, Marty Ezell, V. Scott Johnson, J. T. Carter and Clyde Magness.

## Crowd Hears Seton At Farwell School

A good representation was on hand to hear Ernest Thompson Seton, noted Indian lecturer, when he, his wife and small daughter appeared at the Farwell auditorium on Thursday afternoon of last week.

Seton took up Indian customs and animal lore, while Mrs. Seton sang a number of Indian songs, and their young daughter gave dance numbers, all in costume.

The program was sponsored locally by the Texico-Farwell Woman's Club.

## Are Married Here

Saturday evening, Sept. 27, Edward T. Harrison, of Anton, Texas, and Miss Mildred Carter, of Muleshoe, were united in marriage, with Minister Ebb Randol, of this city, in charge.

## Visitors Return Home

Mr. and Mrs. I. C. Bell, of Kilgore, Texas, and Mrs. W. D. Heck, of Wichita Falls, who had spent a week in the home of Mr. and Mrs. W. H. Graham, returned to Wichita Falls, last Friday. They were taken to that city by Mrs. Graham and son, who visited with relatives there and in Lawton, Okla., before returning here Sunday afternoon.

## Visit Gulf Coast

Mrs. Aubrey Sprawls and daughter, Darlene Kay, returned home the first of this week from a ten-day stay in Houston and Galveston, where they were caught in the midst of the tropical storm that lashed the Gulf Coast recently. They made the trip to visit Mrs. Sprawls' mother, Mrs. G. W. Lambert, and sister, Mrs. J. C. Nicholson.

## Married Sept. 17th

Paul G. Parks and Miss Ella Oneta Bellar, both of Muleshoe, were united in marriage, here, on Wednesday, September 17th, by Minister Ebb Randol.

Miss Eunice Graham and Miss Johnnie Short, of Olton, Texas, both teachers in the school there, spent the weekend here with the former's parents, Mr. and Mrs. B. N. Graham.

Rev. and Mrs. E. J. Sloan and son, Franklin, visited during the past weekend with E. J. Jr., who is attending McMurry college, in Abilene, Texas.

## TOMATO JUICE...

a glassful is your Vitamin C for the day  
Dorothy Greig

THE other day in glancing over an article that mentioned condensed soup, tomatoes and vitamins, I stopped to enjoy a little laugh.

The thought suddenly came to me that my great-grandmother, reading the same article, would have been completely bewildered and probably disturbed.

Poor dear, in her day there were no condensed soups. She had never heard of vitamins. And as for tomatoes—well, they were poisonous, weren't they?

And now look at tomatoes—tops as a healthful, zestful food, recognized as one of our richest sources of Vitamin C.

Vitamin C is essential to the well being of bones and teeth and to help maintain a high level of health. It is one vitamin we must get every single day of our lives since it cannot be stored in the body. So you see how important tomatoes and tomato juice are in our diet.

Getting enough Vitamin C is simple. One glassful of tomato juice supplies sufficient Vitamin C for the day. And a good time to enjoy it is breakfast time because a glassful of chilled tomato juice is a fine rousing start on the day.

In buying tomato juice select a brand that offers the real taste of fresh tomatoes. Fresh tomato flavor is achieved by using only tomatoes that are fully ripe and luscious and taking just the juice that comes from a first light squeeze. Nothing is added but a pinch of salt. Canned this way the juice is true in flavor, a lively red in color and of the same consistency from the top of the can to the bottom.

For breakfast, tomato juice is best served plain, with maybe a wedge of lemon on the side or, for a change, you might occasionally try this simple variation:

**Tomato Juice with Lime**  
1 can (14 oz.) tomato juice  
½ teaspoon salt  
1 tablespoon fresh lime juice  
Add the salt and fresh lime juice to the tomato juice. Chill and serve.

Dr. H. K. Speed Jr. and family visited with Dr. and Mrs. V. Scott Johnson in Farwell, last week. Dr. Speed, formerly of Clovis, is now with the Army medical corps, and has been stationed in San Antonio for the past several months. They departed Friday for Denver, where he has been transferred for duty.

Supt. J. T. Carter was in Amarillo, Friday last week, conferring with Deputy Superintendent Carl G. Clifft, on school matters.

D. J. Brown, accompanied by his sister-in-law, Miss Bonnie Fields, attended the Tri-State Fair in Amarillo, Tuesday.

Mrs. Gladys Tabor and children, of Shattuck, Okla., spent last weekend here visiting in the home of her mother, Mrs. J. B. Coltharp.

Mr. and Mrs. Bud Hodges attended the Roosevelt County Fair at Fortales, last Saturday.

D. J. Brown, S. S. Supt.  
T. A. McCuiston, B. T. U. Director  
Mrs. E. G. Williams, W. M. S. Pres.  
Sunday School, 10 a. m.  
Preaching Hour, 11 a. m.  
B. T. U. hour, 7:30 p. m.  
Preaching Hour, 8:30 p. m.  
W. M. S. meets each Monday at 4 p. m., at the church.  
Prayer services each Wed. at 8 p. m., with Wednesday night following each first Sunday as regular conference and business meeting of the church.

There were 91 on time for Sunday school.

The W. M. S. brought an interesting mission program to a good crowd at the preaching hour. The evening service was light in attendance due to bad weather. There were several visitors at the morning service. We welcome them back again.

Next Sunday, Oct. 5, is to be a day of special significance to the church. We observe Promotion Day in the Sunday School, and hold annual election of officers, including S. S. teachers and Training Union sponsors. The finance committee will recommend the church budget for the coming year. At the preaching hour the pastor will bring a special message on "Missions" with an offering being taken for this cause.

We have as our goal 25c for each member for state missions this month. Our church will have to give \$56.50 to reach our goal. Surely we will exceed this amount. Let each person bring an offering worthy of Mission Sunday.

The Lord's Supper will be observed by the church at the evening preaching service, due to a full schedule for the morning service. Every church member is urged to be present for this important occasion.

Text for the week: "Except the Lord build the house they labour in vain that build it; Except the Lord keep the city, the watchman waketh but in vain." Ps. 127:1.

Mr. and Mrs. Paul Wurster were among the local visitors in attendance at the Tri-State Fair in Amarillo on Tuesday.

Mrs. Geneva Wilcoxson and daughter, Shirley, Miss Jessie Corbin and Miss Lovilla Clay visited in Dalhart, Texas, the past weekend.

Herbert Williams, who is attending college in Canyon, was home over the weekend with his parents, Mr. and Mrs. E. G. Williams.

## Cotton Goods Will Be Shown At Fair

Featuring cotton work clothes for both men and women, under the title "Putting Cotton To Work" home demonstration club ladies have prepared a booth to be exhibited at the Panhandle South Plains Fair, in Lubbock, the dates of which are Oct. 6-11.

Women's clothes will include dresses, aprons, sun bonnets and hats, work gloves and cotton hose, while in the men's division will be shown jumpers, shirts, pants, shorts, etc. Miss Cunningham announced. Patriotic colors will be carried out in the decoration of the booth.

Mrs. Vivian Talbot, Mrs. E. W. McGuire and Mrs. O. W. Rhinehart will accompany Miss Cunningham to Lubbock on Friday, for the purpose of arranging the booth for exhibit.

## District Agent Is Changed For H. D.

A change in district supervisors for the home demonstration organizations in District 2 has been announced by the State office, with Miss Lida Cooper being succeeded by Miss Kate Adele Hill.

Miss Cooper has acted as district supervisor in this area since 1934, and is well known in Parmer county, where she is a frequent visitor. She and Miss Hill are exchanging districts in the work, the release here revealed.

Miss Hill comes to District 2 from Northeast Texas (District 5), where she has been in the work since 1937.

## EXHIBIT AT CLOVIS

Lee Richards, head of the Texico FFA department, stated that the chapter would prepare and enter a booth at the Bi-State Fair, in Clovis, which opens on Oct. 15 and closes Oct. 18. Richards added that it was likely that the trench silo exhibit, shown at the State Fair in Albuquerque, would be used in Clovis, but this had not been definitely settled this week.

## OFFICIATE AT FAIR

Miss Elsie Cunningham, Parmer county demonstrator, will act as general superintendent of the girls' 4-H club exhibits at the Bi-State Fair, in Clovis, Oct. 15-18. Miss Wynona Swebston, Parmer county FSA home supervisor, will also assist at the fair, being head of the needlework division in the domestic arts exhibits.

## Get a Ringside Seat at the World's Series

With your radio in good working condition, you can have a ring-side seat at the world's series ball games, now in progress.

Bring your tubes in and let us check them now for defects, replacing un-servicable tubes.

## CARD OF THANKS

To all those who so generously donated food and help in preparing the supper that was served to the 18th Dist. of the American Legion on Wednesday evening, Sept. 24, thanks to you. We trust everyone there enjoyed the musical program that was arranged for your entertainment by Harley Bulls, musical director of the Friona school; Mrs. Hines' march that was so beautifully rendered; the Rury sisters with their good harmony; and the little Deaton boy of Black community, with his novelty numbers. And we would not forget that wonderful address given by Dr. Wallace P. Martin of Clovis, "What America Should Mean To Us." I trust each one present went out with more determination for a better "America First". Thanks again to you all.

The Friona Legion and Auxiliary.

## SENIORS HAVE RINGS

Members of the Farwell senior class are now sporting their graduating rings. They are in yellow gold with a high mounting around a blue stone, which bears a mounted "F" emblem, with the words "High School" inscribed below. On one side are the numerals "19", while "42" is shown on the other side.

Invest in America by buying defense bonds and stamps.

# The Lamp in the Valley

BY ARTHUR STRINGER

W. N. U. Service

Three women love Sione Lander, Alaska mining engineer. He is engaged to Barbara Trumbull, whose rich father is contesting the mining claim of Klondike Coburn, now dead. Because of Carol Coburn, teacher at Matanuska, Lander breaks with Trumbull.

Salaria Bryson, a big out-door girl, also loves Lander. She disappears. Lander finds Salaria. She had injured her leg while hunting. Barbara misinterprets the rescue and flings away her engagement ring.

At last the air begins to clear up in Carol's and Sione's romance. Lander and Carol decide to fly to Chaktana, scene of her father's claim. But they seem unable to charter a plane. Trumbull's hand is seen in this.

THE STORY SO FAR

It was the incompetents, of course, who'd caused the most trouble, the incompetents like the prolific and indolent Betsy Sebeck and her unkempt brood of offspring. But even in their sloth they remained instruments of destiny. For it was the mountainous Betsy's two-year-old daughter Azalea who tried her best to swallow an open safety pin, while playing about a littered tent floor, the safety pin already alluded to. The pin stuck in the child's throat, and the mother, thinking it was choking to death, ran out screaming for help. It wasn't long before Katie and her Black Maria arrived on the scene. She failed to find the pin and suspected it had slipped down to the child's esophagus. But as she was without either X-ray machine or bronchoscopic instruments, she decided the case was serious and took matters in her own hands. In the absence of her Ruddy she radioed for a plane to carry her patient down to a properly equipped hospital.

The answer came, three hours later, when we heard the drone of a motor through the hills. The courier of the sky, in this case, proved to be Slim Downey, the Cordova pilot, who had picked up the summons when he stopped to refuel at Fairbanks, on his way south from the upper Porcupine. He swung down between a furry colony of mountain clouds and was quickly surrounded by an army of rapt-eyed watchers.

But while the colony children pawed about the knees of that helmeted Viking and fingered and patted his plane struts, Katie did an odd and altogether unexpected thing. When she noticed her little patient in greater distress and giving every evidence of a choking fit, Katie took the child by the heels, and, holding her upside down in those muscular big hands of hers, abruptly cracked-the-whip with that limp and unprotesting little body. She swung and jerked it as a busy housewife shakes a floor rug to rid it of dust. It seemed like sudden madness. But an equally sudden shout went up from the watchers.

For there, in plain view, they saw a safety pin fall out between their feet.

"I guess that puts a kink in my mercy flight," observed Slim Downey as Lander pushed through to his side.

I saw the two men standing there, talking together. And I saw a quick and affirmative nod of Slim's helmeted head. But it wasn't until Lander shouldered his way through to my side that I realized the import of their hurried conference.

"We've got our break," he said with an exultant light in his eye. "Slim's to fly us in to the Chaktana."

It was while Lander was stowing away our duffel, half an hour later, and I was waiting to climb into the cabin, that the culminating touch came to that drama of speed.

It came in the person of Salaria, mounted bareback on one of her father's horses.

She swung off her horse and came straight to my side. Then she caught at my arm, as though to hold me back from climbing up into the cabin.

"Kin I come?" she said. She said it roughly yet almost imploringly.

"What for?" I asked, at a loss for words before such impetuosity.

"To swing in, if there's any fight-in," she announced. "I kin be a two-legged wildcat when there's call for it."

I had to tell her, of course, that there'd be no call for it. But I noticed that Salaria's dusky eyes continued to hold a look of desperation.

"You've got Sid Lander," she said with a shoulder-movement of comprehension touched with abnegation. "I'm as dumb as a fool hen in a snowdrift," she dolorously confessed. "I never savvied."

"Savvied what?" I questioned. "I never savvied until that silk-skinned Trumbull cat put me wise," was Salaria's embittered reply. "But I sure gave her an earful when I had the chance. I may not git him. But she won't."

CHAPTER XXI

The valley, which had once seemed so big to me, became a narrow shadow between clustering peaks, peaks as white as wolf teeth, that lost their sharpness as we climbed.

"Why do you call this ship the Snowball Baby?" Lander inquired of the singularly silent man at the stick.

Slim Downey laughed. "That's what they christened her back at Bear Lake," he answered. "Up at Eskimo Point they used to call her the Igloo Queen."

Still again I heard Lander's voice. "Why aren't you carrying radio equipment?"

Slim laughed for the second time. "I'm a bush pilot. What good is two-way radio to us when we're belly-dragging through a thousand miles of wilderness?"

"You know the Chaktana, of course?"

"Sure," answered Slim. "I was grounded and frozen in there two winters ago. Since then we've kept a gas cache at Carcajou Lake." He scanned the welter of peaks and valleys over which we were arrowing. "You'll be seeing it in half an hour, if the fog holds off."

But the fog didn't hold off. A new uneasiness crept through me as we went higher, to climb into the clear. Our pilot seemed to be watching the valley bottom over which we were winging. He dropped lower as the cloud floor fell away under us. He gave me the impression that he was peering about for familiar landmarks.

Then I saw him stiffen and cry out, at the same time that Lander leaped to his feet.

"What's that?" was the latter's sharp demand.

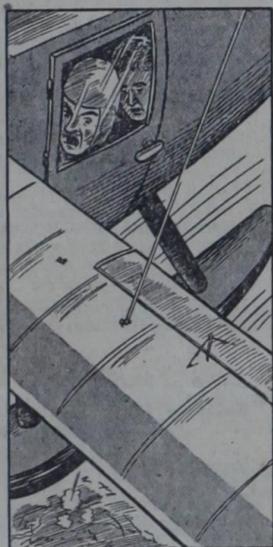

Slim Downey didn't turn as he shouted back. But there was indignation in his voice.

"It's rifle shots. There's some fool shooting at us."

"Turn back," I heard Lander's voice call out.

"And go down like a duck?" was Slim's sharp-noted reply. "Not on your life!"

Then I saw the helmeted head stoop closer to the instrument board. This was followed by a series of hand movements that were meaningless to me. But even before I

"It's rifle shots. There's some fool shooting at us."

heard the stutter of the engine I could read alarm in that forward-bent figure.

"They got my fuel tank," Slim suddenly shouted over his shoulder. "That's Blackwater Lake on our left there. I think I can make it. I've got to make it."

We veered a little as we slid down an invisible stairway that was nothing but crystal-clear air whistling through our struts. I could see the earth coming up to meet us. And I could feel Lander's hand groping for mine as we catapulted over ragged cliffs with little patches of snow between them. Then the valley widened again and between the lightly wooded slopes beneath us I could see a dark-surfaced pool of water that became much more than a pool as we drew down on it.

I heard Slim's throaty shout of gratitude and felt Lander's hand tighten on mine. But we merely sat there, in silence, as we taxied to a stop.

"What do we do now?" asked Lander with what I recognized as purely achieved casualness.

Slim took out a cigarette and sat down on a rock. Then he mopped his face.

"We've got to get gas," he announced, "from our Carcajou cache. But it's no good to me, of course, until I've plugged that hole in my tank."

"Can you do it?" I rather tremulously inquired.

Slim laughed at my woebegone look.

"It'd surprise you what a bush-hawk can do when he has to. When I was iced down on Cranberry Lake last winter, with a dead battery and no starting crank, I was blacksmith enough to turn an oil-screen wrench into a hand crank. There's always a way, young lady."

Lander placed his cosoling big hand on my shoulder and said: "It's all right. We're not licked yet."

"I know it," I said with a foolish little surge of faith.

"We've grub for two weeks," he pointed out, "whatever happens. We've fuel, all the fuel we need. And a chance for snowshoe rabbit or caribou if we need it. You'll sleep in the plane cabin tonight and Slim and I'll camp on shore here."

"And then what?" I asked, trying to keep the desolation out of my voice.

"Then in the morning, when Slim's

working on his ship and packing in the gas, you and I will start overland for Big Squaw Creek. We should do it in a day. And every day counts."

It was easy enough to say. But out on the trail, ten hours later, I realized there was little romance in mushing over the broken terrain of the Alaskan hinterland. There was no path through the spruce groves and no foothold on the hillside rubble. Twice we worked our way up rough traverses that came to a dead end and compelled us to retrace our steps. Our shoulder packs trimmed down as they were to essentials, seemed to grow in weight with the growing hours. I even came to resent the tugging burden of Sock-Eye's old six-gun swinging from my belt holster. But I could see that my own burden, compared to Lander's, was trivial. For my trail mate carried a belt ax and rifle and grub bag and blankets. Sometimes he had to use the ax to cut a way through the undergrowth.

We were two plodding animals, swallowed up by the wilderness, fighting our way through from one peril to another. And when we slept out that night, with a campfire between us and the aurora borealis brushing the blue-white peaks of the mountains above us, I lay stunned with a slowly widening sense of solitude touched with unreality.

It was the far-off howl of a wolf that brought a final cry of protest from my lips.

"I'm not much good to you, am I?" Lander quietly announced.

I detected a new timbre in his voice. And it was both a joy and a peril to me.

"You're a good fighter," I told him.

"But that isn't everything," he suggested.

"No, it isn't everything," I agreed. His gaze went, for a moment, down the dark valley, and then returned to my face.

"I know what you mean," he said in that overdisturbing low voice of his. "But our fight isn't won yet."

"But aren't we letting something better slip through our fingers?" I was foolish enough to cry out.

Lander sat considering this. "You call me a good fighter," he finally said. "But any fighting I've done for you is easily explained."

"How?" I asked. And again, somewhere between the blue-white peaks, I could hear the far-off wolf howl.

"Because I've always loved you," he said with his face a little closer to mine.

Then he stooped still lower, and pressed his cheek against my cheek. His face was rough and unshaven. But in its very roughness I found something infinitely soothing.

CHAPTER XXII

When we broke camp the next morning Sidney Lander seemed surer of himself. Through his binoculars he examined the wide and twisting valley country and announced that we'd have to climb up into higher territory.

"I begin to know these hills," he told me. "We're at last getting somewhere."

He pointed into the distance. "That's the Chaktana," he called down to me. I detected a note of excitement in his voice. "And in an hour we ought to be spotting the Big Squaw."

So we pushed on again. But my trail mate's rise in spirits was not an enduring one.

"I don't like this loss of time," he said as he glanced at the sun. "It's three days now. And we may be too late."

"Too late for what?" I questioned. "We'll know that when we get there," he said with a curtness which I wrote down to overtensioned nerves.

So still again we went forward. We went clambering over mammillated rock ridges and dipping down into blue-shadowed canyons.

"It's great country," Lander called back over his shoulder.

I couldn't agree with him. It seemed wild and torn and empty, the outpost of the world, a scarred battlefield where titanic forces had clashed and enmities older than man had left desolation in the wake of tumult and warfare.

I was glad when Lander came to a stop, at the end of a traverse that led to a wide rock ledge overlooking the westerly running valley. The valley itself widened out, with a cleft or two in the hill ranges where a series of canyons and smaller valleys radiated out from the lower wide bowl, with gravel beds and groves of stunted spruce interspersed along its broken slopes.

"We've made it," I heard Lander say.

I stood watching him as he moved forward and mounted a glacial hard-head that had all the appearance of a pagan throne carved out of granite. He had a little trouble, because of his heavy pack, in getting to the top of it. Then with his glasses he scanned the valley.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

By HAROLD L. LUNDQUIST, D. D. Dean of The Moody Bible Institute of Chicago. (Released by Western Newspaper Union.)

Lesson for October 5

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

GOD OUR HEAVENLY FATHER

LESSON TEXT—Genesis 1:26-28; Matthew 6:24-33. GOLDEN TEXT—Our Father which art in heaven, Hallowed be thy name.—Matthew 6:9.

Without God man has no hope in this world. This is the teaching of Scripture, which is confirmed by experience and admitted by the philosophies of men. "Having no hope and without God in the world," says Paul (Eph. 2:12), and every godless philosophy paints the same dark picture. Says one, "It cannot be doubted that the theistic belief is a comfort to those that hold it and that the loss of it is a very painful loss. We have seen the spring sun shine out of an empty heaven to light up a soulless earth; we have felt with utter loneliness that the Great Companion is dead" (Clifford).

That desolate and despairing conclusion need not be the lot of any man, for we have in God's own Word a clear revelation of Himself as our Creator and our loving Father. Why not accept it?

I. God Our Creator (Gen. 1:26-28). Both of our Scripture passages tell us much about man, but in doing so they reveal God.

1. How He Made Man (vv. 26, 27). "God created man in his own image" (v. 27). This does not refer to any physical likeness, although it is abundantly evident that man's body is far above the animal level and perfectly adapted to be the dwelling place of the soul and the instrument of its activity in a physical world. Even the Son of God took upon Himself the body of a man and, in its glorified state, still bears that body in heaven. This means that man's body is worthy of honor and considerate care and use.

The real image of God in man is a moral and spiritual likeness. Man is a moral being, knowing the difference between right and wrong. He has all the characteristics of personality, self-consciousness, intelligence, feeling and will. That image has been marred and defaced by sin, but it is still there. Even in the lowest man or woman it is capable of being reached and transformed by the grace of God.

2. How He Blessed Man (v. 28). He gave man "a help meet for him" (Gen. 2:18); that is, a completely suitable companion and helper. He gave him dominion over the entire earth, and his restless, pioneering spirit still presses toward the complete realization of that promise. He provided for every need of man, not only physical and social, but also spiritual, for we read that He walked with him "in the cool of the day" (Gen. 3:8), until man by his own sin broke that fellowship. God's love toward His creation is shown by His provision for man's complete joy and full usefulness.

II. God Our Heavenly Father (Matt. 6:24-33).

Two things harass the mind and heart of man—anxiety for today and fear for tomorrow. He must have what he and his family needs for today, and it is a constant struggle for most men to meet that need. Then, as though that were not enough, there is always the morrow's new and possibly greater needs. Even those who have all they need today live in dread (and well they may if they do not trust God) that tomorrow or next week or next year they too may be in need. Our text meets both problems, for it tells us

1. Why We Need Not Be Anxious Today (vv. 24-31). The answer is simple—look at the birds. They cannot work, they are not even able to pray, yet God feeds them. Consider the glory of the flowers. Even a king cannot dress in such beauty—God provided it for them. "Are ye not much better than they?" (v. 26).

No bird ever worried because it did not have a meal laid by for tomorrow, and no flower has fretted itself lest its blossom failed to come forth in its accustomed beauty. Why should we be anxious?

Intelligent forethought is good and proper, but anxiety about our daily needs is always dishonoring to God. He is ready and able to meet our daily need.

2. Why We Need Not Fear Tomorrow (vv. 32, 33). "Your heavenly Father knoweth that ye have need" (v. 32). Does not that settle the whole future? It is in God's hands, and even if it were in our hands, what could we do about it? Tomorrow with its joys and sorrows is not yet here, and when it does come God will be here as a loving Father to graciously provide for every moment of it.

What then shall we do? Verse 33 tells us, "Seek ye first the kingdom of God and his righteousness." Give God first place in your life and He will see that all "these things" are added. Simple, isn't it? and blessedly true. Let's trust Him!

FIRST-AID to the AILING HOUSE

By ROGER B. WHITMAN

(© Roger B. Whitman—WNU Service.)

Heat Pipe Underground QUESTION: My property consists of two parts, front and rear. Oil burner has to furnish heat for the two. Heating plant is in front and connected to rear by two pipes, two inches in diameter. The pipes are sunk 3 1/2 feet deep and run 24 feet to the rear. These pipes were insulated with plain asbestos covering when they were laid four years ago. I was told if I insulated the underground pipe correctly there would be less oil consumption. How can I do this correctly?

Answer: Ordinary asbestos pipe covering should not be used for underground work unless it is placed in a waterproof box, or covered with a heavy asphalt-saturated felt, over which a heavy coat of liquid tar or asphalt is applied. Most of the well-known manufacturers of insulating pipe covering make one that is suitable for underground work. Your local heating contractor should be able to get information for you on this type of covering.

Cold House QUESTION: My six-room house is heated with warm air. I get no heat in the upstairs rooms; can barely feel heat coming out of the register with my hand. Other rooms are no better. Furnace is in good condition, and I always run a good fire. What is wrong?

Answer: Warm air cannot flow into a room unless the cool air ahead of it is permitted to escape. There should be means by which cool air from the rooms can get back to the furnace for re-heating. Cool air intake of the furnace jacket should be connected to a large register in the floor of the downstairs hall, or some other central location, so that the furnace is supplied with air from the house instead of cold outdoor air. Any good heating contractor can do what is necessary. There should be at least an inch of space under all inside doors through which room air can flow out and back to the furnace.

Damp Walls QUESTION: My sun-porch was built last summer with bricks on cinder block and plastered inside. It was finished with wallpaper. These walls are always wet. Can you help me out?

Answer: The moisture on the walls is from condensation. If you will put your hands on those walls you will find that they are very cold, compared to the inside walls of the sun porch. Condensation takes place when the damp house air is cooled by contact with them. The only remedy is to cover the walls with something that will not be cold; insulating board, for example, or plaster on lath on furring strips. Condensation will continue as long as those walls remain cold.

Noisy Oil Burner QUESTION: How can I lessen the noise made by my oil burner? The cellar floor is concrete.

Answer: Your first move should be to have the burner examined by the people who installed it to locate the cause of the noise, which may be worn and loose parts, or something that is set in vibration when the burner is in action. Rubber or cork supports under the burner may reduce the noise. In some cases stiff insulating board on the cellar ceiling will absorb the sound. But this can be determined only when you have learned where the noise originates.

Cold Rooms QUESTION: Last summer I replaced my furnace with a larger one, but a large hall and an upstairs room are still cold. Heat begins to come when we open the living-room door downstairs. What can you suggest?

Answer: It may be that the cold air return to the furnace is in the living-room, and does not act when the living-room door is closed. You should have the installation inspected by the company that put in the furnace, for it is evident that something is wrong with the layout of the piping. If the company cannot figure out what is wrong get someone who is more expert.

Sticking Zipper QUESTION: The zippers on my arctic stick so badly that I can hardly move them. Is there any way to loosen them up so that they will run easily? S.O.S!

Answer: You can loosen up those zippers with graphite. I rubbed powdered graphite on mine, and now they work almost with one finger. If you have no graphite, rub the zippers with the lead of a soft pencil.

Dust-Cloth QUESTION: How can I make a dust-less dust-cloth?

Answer: Soak flannel or thick flannelette in a mixture of 2 parts paraffine oil and 1 part turpentine; wring out, and hang up to dry.

NASHVILLE, TENN.—This is the story of one of the greatest pitchers—and one of the oddest ball players—that ever wore a spike or threw a curve ball.

He started his pitching career here at Sulphur Dell well over 40 years ago—and he is still working out every day at Redland field, Cincinnati.

His name is Noodles Hahn. Noodles Hahn, a slender left hander, set a record of 16 strikeouts for the revised National league. This was back in 1901 with the Reds. He floated his dinky-dinks by hostile bats year after year, back in the forgotten days.

But last fall I saw him working out before the first World series game in Cincinnati between Reds and Tigers.

"I haven't missed a day's work-out for 40 years," Hahn told me. This means that Hahn, out of baseball for at least 25 years—still puts on the old uniform and takes over the day's warm up with the Reds. "I haven't missed a work out in this same park since 1915," he said again. That's some sort of a record, whatever it means. For 1899 wasn't yesterday. And you'll still find Noodles Hahn working out with Bucky Walters, Paul Derringer and other Red pitchers who were born long after Hahn set his 16 strike-outs mark.

Lefty Grove was a left hander who belonged to the Herb Pennock, Eddie Plank school. He lacked the blazing speed of a Grove or a Rube Waddell, but he could tie up batters into more knots than 10 sailors could untie in a week. And you could see the seams on the ball as it came floating up.

Great Left Handers

Who are the greatest left handers baseball has ever known? Rube Waddell and Noodles Hahn, perfect opposites, were two of the best, dating back to 1900. Each held a strike out record of 16.

To this pair, covering the last 40 years, you can add Eddie Plank, Nap Rucker, Rube Marquard, Doc White (the left hander who always baffled Ty Cobb), Herb Pennock, the star of the stylists, Carl Hubbell and Robert Moses Grove.

From this list Rube Waddell and Lefty Grove undoubtedly had the big edge in physical stuff—which largely consists in speed. Speed—and a fast curve. Waddell had the fastest breaking curve ever thrown.

On the right handed side this distinction belonged to Dazzy Vance. Waddell and Vance could start a fast curve for your Adams' apple and have it kick up dust in front of the plate.

So could Nap Rucker—minus the speed. I happened to swing a few bats against Nap Rucker around 1903—swinging shoulder high—only to see the catcher take the pitch ankle high.

Toad Ramsey, one of the greatest, goes on back beyond the 40-year span. Toad had a curve ball you couldn't hit with two planks. His record was phenomenal. But that was too far away and too long ago.

How They Rank

Here's the left handed ranking I'll give you since 1900—all in order—

1. Lefty Grove; 2. Eddie Plank; 3. Rube Waddell; 4. Herb Pennock; 5. Carl Hubbell; 6. Nap Rucker. And Hubbell might be moved up into third place. A great pitcher.

From this list Grove and Waddell had the physical stuff. Waddell was the greatest genius of the lot—but too much on the erratic side. The Rube would rather fish or act as bartender than pitch a World series game.

Grove and Plank, both under Connie Mack's direction, were the two greatest combinations of brilliancy and consistency.

They won the most games—which is a big part of the answer.

More than a few have ranked Herb Pennock as the top left hander of the long parade—for brains, control, style and the rest of it. Pennock was Bill Hanna's nomination—and Bill Hanna knew his share of baseball.

We'll still string with Grove, Plank, Waddell, Pennock, and Hubbell, in that order. Grove, at his greatest physical peak, was still learning how to pitch. I've seen him strike out six of the first nine Yankees and be hammered from the box two innings later. When Grove got to be canny and cunning he was almost unbeatable. For example 1931—when he won 31 and lost 4. That's what you might call pitching. Compare this to any 1941 record—I mean Feller or any of the others.

Carl Hubbell

Carl Hubbell

Washington, D. C.

**WINTER PLANS**

As far as can be ascertained, the most important point under discussion between Hitler and Mussolini during their recent visit to the Russian battle lines was a plan by which Italian troops would hold down a sizeable portion of the German front during the Russian winter stalemate.

Naturally, no one outside the Fascist-Nazi high command really knows the details of what happened. However, Mussolini squawked so loudly over Hitler's demands, that their general nature leaked out in Rome—where a lot of army leaders are none too friendly to the Axis.

Hitler's theory, bluntly put, was that the Italians were no good as fighters; so during the winter months when there was no fighting to be done, they could move into the trenches and protect the German lines.

Then Hitler could ship his troops down to Africa, and could clean up the whole of North Africa before spring and good fighting weather returned to Russia. Hitler figured that during the winter he could take over all of French North Africa, Egypt and the Suez canal, then penetrate to Dakar—from which he would have a base against South America.

It has long been known that Hitler realizes he has to move fast in Africa and the South Atlantic, or the United States will be strong enough to block him.

Mussolini's reaction to this plan was anything but enthusiastic. Aside from the ignominy of withdrawing from Italy's proposed field of conquest—Africa—Il Duce argued that Italian troops could not stand Russian winters. They would die of pneumonia in such a rigorous climate.

Whether Mussolini finally agreed is not known.

Note: The Nazi plan apparently is to put 250,000 Hungarian troops in the Russian trenches during the winter; plus 200,000 Rumanians; plus about 50,000 Slovaks and about 500,000 Italians. The German army during the winter would be reduced to a mere skeleton of about 100,000 men.

**NEW IMPRESSIONS**

Washington newsmen, after seeing Roosevelt twice a week for eight years, have only dull impressions when they walk into a press conference. A fresh impression comes from Jack Moffitt, ace Hollywood reporter, who saw the President the other day for the first time.

"There was charm in the setting," Moffitt said. "The mementoes on his desk indicate a man of imagination who can extract pleasant memories from past experiences. He costumes well. Hoover's choker collar became a symbol of Tory America. Coolidge dressed like a small town banker. Roosevelt avoids the foppish, but hits a certain suburban ease in his dress which sells quickly to the public."

"He was impressive in handling himself. There was ease and frankness, and a quickness in response to questions. He was at all times master of the interview."

"I was struck by his paleness and the lines in his face, contradicting the smirk I've seen in a thousand cartoons. If I were a casting director, looking for an actor for this part, I'd cast him as a man who is working hard under great strain."

**UNDER WAR SECRETARY**

Newsman sat three deep around a long polished table in the new war department building. They fired questions at the man with a sun-tanned face sitting at the head of the table. He was the under secretary of war.

What's a T-6 tank like? . . . Are M-3 tanks available for the maneuverers? . . . Did the French find the 75 mm. tank gun effective? . . . What is the altitude range of the 90 mm. anti-aircraft gun? . . . Is the army in Iceland? . . . What do you think about the Russian resistance?

He ducked the last two questions, but answered all the technical questions with the assurance of a soldier trained all his life in ordnance.

But he isn't a life-long soldier. He is a lawyer, an ex-circuit court judge, who scarcely a year ago was concerned with such non-military subjects as the reorganization of the New York subway.

This was a press conference with the under secretary of war, Robert P. Patterson. A judge in 1940, he is a soldier in 1941, with a complete grasp of the technical information of his job.

**CAPITAL CHAFF**

The President is wearing a black four-in-hand tie these days, as well as the black armband.

Latest addition to Roosevelt's trinket-laden desk is a white porcelain figure of Churchill with a cigar in his mouth.

OPM has a defense job waiting for movie star Marlene Dietrich as soon as her broken ankle is mended. They want to use her glamorous gams (legs) to publicize cotton stockings for women, made necessary by the shutting off of Japanese silk.

**RAZOR BLADES**

ASK YOUR DEALER FOR THE OUTSTANDING BLADE VALUE

"TAKING THE COUNTRY BY STORM" KNOWN FROM COAST TO COAST

CUPPLES COMPANY ST. LOUIS, MO.

**Naturally Human**

A man is simple when his chief care is the wish to be what he ought to be, that is honestly and naturally human.—Charles Wagner.

**Coal Was Used in the Bronze Age**

The popular legend is that coal was discovered by Joseph of Arimathea who, near Glastonbury in A. D. 67, found a black lump and took it to the monastery where it was thought to be a stone and thrown on the fire. It became known as "seacoals," and was first used generally as fuel in 1228. It is now established that coal was used in Great Britain much

earlier. Sir Cyril Fox, director of the National Museum of Wales, while excavating in the neighborhood of Bridgend, England, came across two cairns, both of the Bronze age. One had buried in it two adults and a child, and fragments of coal found with each set of remains show that coal was used in these cremation burials. It was also established that the burials took place about 1600 B. C.

# An Important Statement About Rubber in National Defense

## AND WHAT YOU AS A CAR OWNER AND A LOYAL AMERICAN CAN DO ABOUT IT

Among the strategic raw materials so vital to national defense, rubber is one of the most indispensable.

Airplanes, scout cars, tanks and trucks — as well as thousands of vehicles necessary for transportation in defense industries — require tires, tubes, and hundreds of other products made from rubber.

And while no other nation in the world has such vast natural resources as the United States, all of our rubber must be imported across thousands of miles of ocean.

Map showing routes that rubber travels to the U. S.

With world conditions as they are today, we must face the growing possibility that this country may be cut off from its principal sources of rubber supply.

Realizing the dangers of a single source of supply, Harvey S. Firestone began years ago the development of a huge million-acre tract of land in Liberia for growing rubber. Today, an ever-increasing amount of highest-quality rubber is being shipped to Firestone from these plantations.

At present, this country has on hand or in transit only enough crude rubber and finished products to last 13 months at present rate of consumption.

Comparison of rubber supply on hand and amount needed for one year at present rate of consumption.

Every month part of the rubber imported is used by the government to build up a reserve. The remainder is allotted to the rubber companies who must FIRST manufacture products needed for defense. They then use the rest to make the thousands of rubber products needed by automobile and other manufacturers and by the public.

New Firestone synthetic rubber factory

Fully aware of these serious conditions, Firestone has taken many steps to conserve and increase America's supply of rubber. In cooperation with the government, Firestone is now building another factory for the manufacture of synthetic rubber. This will greatly increase present capacity.

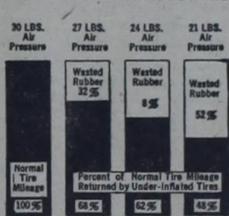

As a further step in conserving rubber, Firestone scientists and engineers recently developed the new wear-resisting Vitamic rubber compound, which enables car owners to get much greater mileage from their tires and thus save more rubber.

**HOW EVERY CAR OWNER CAN HELP CONSERVE RUBBER**

Today's conditions stand as a challenge to the loyalty and patriotism of American motorists. Here are a few common-sense rules of tire care which will save millions of pounds of rubber annually for your country — and save money for you.

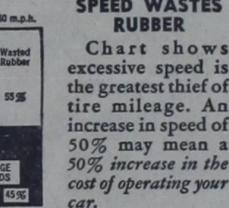

**UNDERINFLATED TIRES WASTE RUBBER**

Look at this chart — if a tire with 30 pounds of recommended air pressure is run at 25 pounds, 32% of normal mileage is sacrificed! Save money and save rubber by having your tires checked every week.

**SPEED WASTES RUBBER**

Chart shows excessive speed is the greatest thief of tire mileage. An increase in speed of 50% may mean a 50% increase in the cost of operating your car.

**QUICK STARTS AND SUDDEN STOPS ARE COSTLY**

In quick getaways, wheels spin against the pavement, wasting rubber. Sudden stops cause your wheels to slide. Save rubber by starting and stopping slowly.

**CHECK WHEEL ALIGNMENT AND HAVE BRAKES BALANCED**

A wheel only 1/8-inch out of line is dragged sideways 87 feet per mile, scraping off tread rubber. Unbalanced brakes are equally wasteful of tire mileage. Save rubber by having your wheel alignment and brakes checked regularly.

**CHANGE TIRES FROM WHEEL TO WHEEL EVERY 5,000 MILES**

The diagram at the right shows how the tires on your car should be changed from one wheel to another every 5,000 miles. This plan of inter-changing tires saves rubber by eliminating uneven tire wear.

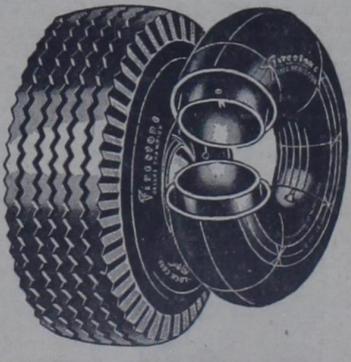

**WHEN YOU NEED NEW TIRES . . . IT'S ALWAYS GOOD JUDGMENT TO BUY THE BEST**

One of the most effective ways to save rubber — and at the same time save money and save precious human lives — is to equip your present tires with Firestone Life Protectors, the new-type tubes that out-wear three sets of ordinary tubes.

With Firestone Life Protectors on your car you can drive your present tires safely thousands of extra miles without fear of blowouts, because these tubes make a blowout as harmless as a slow leak.

And after your present tires are worn out, replace them with the safest, longest-wearing tires that money can buy — the new Safi-Sured Firestone DeLuxe Champion Tires — the only tires made that are safety-proved on the speedway for your protection on the highway.

You are invited to listen to the Voice of Firestone with Richard Crooks, Margaret Speaks and the Firestone Symphony Orchestra, under the direction of Alfred Wallenstein, Monday evenings, over N. B. C. Red Network

**Goodness—only a dime!**

**Van Camp's PORK and BEANS**

**Feast-for-the-Least**

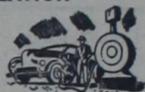

**SAVES YOUR TIRES . . . SAVES YOUR CAR SAVES YOUR MONEY!**

In every community there is a Firestone Dealer or Store that will gladly perform these services without one cent of cost to you.

**INSPECT YOUR TIRES AND CHECK THEM FOR CORRECT INFLATION**

Your tires will be properly inflated free at any time. Nails, glass or other objects are removed from the tread. Breaks in the tire body are located so that they may be repaired before damage occurs. These simple precautions increase tire mileage.

**TEST YOUR BRAKES WITH THE MOST ACCURATE MACHINES**

Balanced brakes prolong tire life. Firestone electric brake machines scientifically balance each wheel. Your Firestone Dealer or Store will gladly test your brakes free.

**CHECK YOUR WHEEL ALIGNMENT WITH MOST MODERN EQUIPMENT**

Pigeon-toed wheels that waste so much rubber and gasoline can be quickly aligned. Your car should be checked regularly for alignment — another free Firestone Service.

**INSPECT AND TEST YOUR BATTERY**

Your Firestone Dealer or Store will gladly test the battery free upon request. And their efficient equipment will tell the exact condition of each cell so that you may avoid annoying road delays.

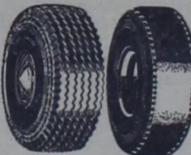

**TEST YOUR SPARK PLUGS**

Unless your spark plugs have full firing power they waste gasoline. Your motor will fire unevenly and cause increased wear on running parts. Have your Firestone Dealer or Store test your plugs every 4,000 miles. There is no charge!

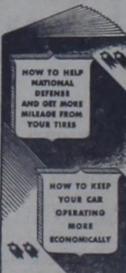

**SAVE RUBBER BY RETREADING YOUR SMOOTH, WORN TIRES**

If your smooth tire has a safe body, a rugged, tough, long-wearing, non-skid Firestone New-Tread can be applied at amazingly low cost, which will give up to 80% of the mileage built into the original tread. This is one of the best ways to save rubber.

**GET THIS BOOK FREE**

It will help save rubber for defense and money for you

### Demonstration Club Notes

By Special Staff Reporters

#### Council Has Meeting

Mrs. Joe Jesko, Mrs. E. L. Fairchild and Mrs. V. E. Adams were named as a nominating committee for the Farmer county home demonstration council, at a meeting held last Saturday.

The council discussed and voted to contribute to a fund to buy canning equipment for Great Britain, the drive being sponsored by the home demonstration association. The recreation committee reported that the Bovina auditorium had been secured for achievement day, November 15th.

#### Organize in October

Miss Elsie Cunningham, home demonstration agent, has announced that she will meet with all clubs in Farmer county this month on the second regular meeting, rather than the first, her usual time. In addition, she reported, October is "organization month" for 4-H and home demonstration clubs, with new officers to be named and installed.

#### Club Sponsors Program

The Midway H. D. club is sponsoring a "Stuttering Sam" program at the Midway school house, Thursday, October 2nd. The public is urged to attend. Admission is 10c and 25c.

### WT Buffaloes Will Meet Arizona State

CANYON—West Texas State's rambling remnants, who Saturday night produced a startling upset victory over Fresno State College in California, 7-6, are seeing sights on the Coast for a few days before departing for their next engagement in Tempe, Arizona.

The light but fiery West Texans, mostly sophomores, beat a much heavier Fresno outfit to the punch last week, sneaking over the winning touchdown and conversion early in the final period after the Californians had taken a 6-0 lead in the third quarter. The first half was scoreless with the West Texas Buffaloes pressing.

Coaches Jack Curtice and Leslie Van Meter of West Texas State, with only six veterans available, made much use of the liberalized substitution rule. The Buff squad, boasting only remnants of last year's Alamo Conference championship team, entered the Border Conference this season with small hopes after losing twenty letter men by graduation, the draft, and other causes. But the Buffs do like to play football.

The Arizona State Bulldogs of Tempe will be hopping made after their 31-7 loss to Texas A. & I. last week. Coach Dixie Howell's men had beaten Gonzaga 6-0 the week before. Arizona State defeated the Buffs in 1939 by a 19-0 score and repeated last season, 19 to 12. Their meeting this week is a Border Conference contest. The Bulldogs of Tempe won the Border Conference title last year.

Fresno State had 16 veterans, Arizona State lost seven or eight good men, but has a big, fast team this season. Paper prognostications point to the Tempe men as the victors after a terrific struggle.

#### REFINISHING HOME

The home of Mr. and Mrs. John Porter, in Farwell, formerly the Madaux property, is being an exterior coat of white stucco this week, which adds no little bit to the appearance of the building.

#### Opens Station

Cecil Rundell has announced that his service station at Lariat is now open and ready for business. In connection with the station, Rundell will operate a small cafe, with will be opened in a day or so.

### Ranchvale Visits On Local Softball Court

Ranchvale softball teams appeared against Texico on the local diamond, with the doubleheader turning into a 50-50 deal for the participating teams.

Egged on by remarks that they couldn't win a single ball game, the Texico girls went into the fray waving a "V" expression and literally mowed the Ranchvale squad down, leading them to three runs. Count for the game stood 17-3.

The boys' match was draggy at the beginning, but along about the sixth and seventh innings both the groups picked up steam and showed some good work. The locals made an attempt to come from behind in the sixth and seventh and brought in four runs. The game, however, ended 7-5 in Ranchvale's favor.

The locals are now planning revenge Friday, when they meet Field on the Texico diamond—providing the weather permits.

### Two Softball Matches Arranged For Texico

Games with Oklahoma Lane and Field are slated for the Texico softball teams on Friday and Monday of next week, respectively. Coach A. D. McDonald stated on Tuesday

The Field aggregation was previously slated to appear here this Friday, but at present school has been dismissed in that area for broomcorn harvest, and officials agreed to hold the game on Monday. Consequently, the Oklahoma Lane teams have been invited in for scrimmage matches on Friday, and have accepted.

Texico has lost to Field already this season, when the boys and girls were defeated on that diamond, and hope that next week will see the tide turn. Information on the Oklahoma Lane teams was not available here.

### Little Progress Made On School Lunch Plan

Supt. L. A. Hartley, head of the Texico school, stated this week that he had "little to report" concerning the progress being made toward the establishment of a hot lunch project in the school, adding that he had received little information from the State WPA headquarters, which is to assist in launching the project.

Early this week Hartley received notification that a cook and assistants had been approved for the proposed project, to be paid by the WPA, but further information on when the plant might be expected to open was not forthcoming.

The tentative arrangement for the lunch room, he went on to state, is that the WPA will pay for a cook and helpers, and that some food will be secured from the Surplus Commodity Corporation. The remaining expense will be taken care of by the families of children eating at the lunch room.

A ratio was set up for families in this connection on a graduated scale according to the number of children being served, Hartley said. This, unless changed, would run \$1 per month per family having one child; \$1.75 for two; \$2.25 for three; and \$2.50 for four children, he added.

As soon as all details are ironed out, it is hoped that the lunch room will actually be put in operation.

#### TO CONVENTION

Mr. and Mrs. M. C. Roberts, of the Roberts Seed company, expect to depart today (Wednesday) for San Antonio, where they will attend the annual meeting of the Texas Seed dealers, being held at the Gunter Hotel in that city this weekend.

### Basic Points Of FSA Outlined By Seale

Frank Seale, head of the local Farm Security Administration, this week took time out to review the basic points which the agency stresses in dealing with low-income families, stating "our hope and aim is to improve all living conditions of our clients."

Seale stated that this year the FSA was laying particular stress on the production and conservation of dairy, meat, and poultry animals and products on the farm to give all family members an adequate diet, in addition to the conserving of feedstuffs to be used in caring for the livestock on the farm.

"Actual statistics show," Seale stated, "that the farmers of the South, particularly the cotton belt, are the poorest fed and have the worst health of any families in the nation, and we are looking forward to improving this condition."

"The above statement is true due to the fact that the families specialize in producing crops which have a cash value, while neglecting such important items as vegetable and fruit growing, which would be of inestimable value when the cash crop fails to turn out as expected—leaving producers with little or no money to buy foods necessary for a well-balanced diet."

Urged by Miss Wynona Swepston, home supervisor, ladies operating under the FSA have canned and otherwise stored huge quantities of fruits, vegetables and meats this year, with the first two being especially prominent, owing to the excellent growing season.

Other points the agency is stressing include the development of a medical cooperative, whereby lower-income families may have sufficient medical care; encouragement of an improved livestock program, and likewise, encourage of improved soil tilling methods.

#### MONDAY DESIGNATED AS FARWELL DAY, LUBBOCK

Monday, October 6, has been designated as Farwell Day at the Panhandle South Plains Fair, which opens in Lubbock on that date for a six-day showing.

Information from the exposition headquarters early this week indicated that this year's fair promises to exceed all other showings and a grand array of entertainment has been provided for the thousands of visitors who are expected to be in attendance.

Hundreds of Farmer county visitors attend the Lubbock showing annually and the 1941 crowd from this county will likely set a new record.

### YES, ACCIDENTS WILL HAPPEN . .

and there is little you can do about it except to remember that we can take out those body dents, repair smashed fenders, and make your car look like new with a fresh coat of paint.

### Cows Rated First In Butterfat Production

Holstein milk cows belonging to D. J. Brown, who lives out from Texico in the edge of Roosevelt county, walked off with production honors at the Roosevelt County Fair, held in Portales last week.

In the division of cows over three years of age, Brown's animals placed first, second and third. The cow rated first gave 64.2 pounds of milk which yielded 2.3168 pounds of butterfat in the day's contest.

Another cow from the Brown dairy herd took first in the "under three years" division. Brown's cow gave 46.1 pounds of milk, containing 1.4184 pounds butterfat, while a cow belonging to Claude Elder placed second, giving 20.1 pounds milk with 1.181 pounds butterfat.

Mentioned in Magazine

Brown's Holsteins have recently received recognition in the "Holstein-Friesian World", a magazine devoted to herds and owners of that type animal, with the magazine noting that cows belonging to Brown lead the association for both milk and fat production, and also show the highest profit over feed costs.

Brown's entire herd is pure bred, although only one of the animals is registered. He has been using registered herd sires since 1928.

Mrs. Nat Hancock and baby, of El Paso, are spending this week with her parents, Mr. and Mrs. G. D. Anderson.
