

School Loan Mentioned In Martin Study

STANTON, (SC) — The Grady school board reached out about 400 miles, to Cameron, a little East Central Texas city to get a loan of approximately \$15,000 that the Attorney General, Texas, has declared illegal, according to the final report of the three-member citizens finance committee appointed June 9, by District Judge Charlie Sullivan "to examine into the finances of Martin county."

Hurricane Hazel Hits Bahamas, Much Diminished

MIAMI, Fla. — Hurricane Hazel moved into the southeastern Bahamas today, while food and medical aid was rushed to stricken Haiti in the wake of the big tropical storm.

At 8 a. m. the Miami Weather Bureau reported the hurricane was centered near the eastern end of Great Inagua Island. A hundred miles ahead of the storm lies Mayaguana, site of a U.S. guided missile tracking station.

Mathew Town, on the west end of Inagua, has a population of about 2,000, mostly natives employed in extracting salt from sea water for the fisheries of New England, Norway, Sweden and Japan.

Also on the island is a colony of 7,000 to 8,000 flamingoes, one of the largest groups of these colorful birds in this part of the world.

Hazel's windpower had diminished after its passage through the mountains of Haiti and eastern Cuba and the highest winds now are estimated at 80 to 90 miles per hour over a small area near the center. Gales extend outward 75 miles in all directions.

Before it tangled with these mountains, the hurricane packed a 115-mile-an-hour punch. Some of this power may be regained as it passes over the Atlantic.

Now 575 miles southeast of Miami, the storm is moving on a north-northeast course pointed away from the mainland and toward open Atlantic waters.

From Haiti's southern peninsula came reports of flooded villages, with hundreds of persons homeless and livestock losses heavy.

The villages of Cazeau and Crodes Missions were reported flooded and the mayor of Aux Cayes, third largest city in the republic, said most of the homes in the area were damaged.

Eastern Cuba apparently escaped major damage.

Florida appeared safe from the hurricane but Walter R. Davis, storm forecaster in the Miami Weather Bureau, said, "We can't be certain of that yet."

three members, Jess M. Miles, Jr., V. C. Bearden and R. P. Simpson, was filed in the District Court here Tuesday.

It covers 37 pages of typewritten narrative, four score photostats of checks, vouchers and accounts as exhibits, and the statements of nine witnesses examined by the committee, and by the grand jury which returned 27 felony theft of public fund indictments against a present commissioner, a former county judge, two former county commissioners, and others.

Those named in one or more of the indictments include James McMorris, former county judge, who resigned during the investigation; Stanley Lewis and Oliver Vaughn, former county commissioners, who also resigned during the investigation; County Commissioner Joe Froman, Whit McMorris and M. H. McMorris, brothers of the former county judge, and James Herndon, a local contractor doing business as the Rocket Service Co.

Also growing out of the investigation, M. McKaskle and Otto Bearden, two members of the grand jury which returned the indictments, have caused a civil action to be filed here against Grover Springer, president of the Grady school board, seeking to have Springer return to the school treasury certain funds which McKaskle and Bearden allege in their petition were improperly expended.

The loan obtained by the school board from the Citizens' State Bank of Cameron came to light, according to the report, when the investigation disclosed that James McMorris, while county judge and ex-officio county school superintendent, caused a check in the amount of \$1,250 to be drawn against the Grady School account and then cashed this check. The committee learned that McMorris then purchased a bank money order in the amount of \$750 which he sent the Cameron bank as a payment on this debt, the committee's report says.

The report discloses that a member of the committee, together with James McMorris spent considerable time searching the records but were unable to find the other \$500. The cash was found in a file produced the following day by McMorris.

The report is very critical of the manner in which the fiscal affairs of the Grady School have been handled.

"The board of trustees borrowed approximately \$15,000 from the Citizens' National Bank of Cameron Texas, which, according to the advice we received from the Attorney-General's Office, was contrary to the statutes and Constitution of the State of Texas."

The report said that the Grady school board had involved itself in business transactions with its own members; had not rigidly followed use of vouchers for expenditures; had expended bond funds

See MARTIN Pg. 8, Col. 1

Unwanted Artesian Well

A water well rig spuds into an old artesian well on the northwest corner of the courthouse square as part of an effort to shut off the flow. Old timers say the well was drilled back in 1886 to a depth of 1,440 feet. It flowed, but was too salty for use, the hole having been put down through approximately 1,000 feet of a salt dome. The well was plugged many years ago. However, excavation work on the square loosened the old plug and the salt water started a slow flow. The rig, owned by M. M. Murdock, left, is being used to knock out the old plug. Halliburton Oil Well Cementing Company will seal the well below 50 feet when the old plug is removed. Assisting Murdock is J. C. West.

Big Profits Forecast In Dixon-Yates Pact

ST. LOUIS — The Post-Dispatch reports provisions of the long-secret Dixon-Yates contract give the private power combine "a virtually risk-free guarantee of earning 9 per cent on invested capital of \$ 1/2 million dollars."

The newspaper, in a copyrighted dispatch from Washington by Richard Dudson yesterday, said it had obtained access to a copy of the controversial contract.

"Examination of the new draft gives support to charges of its opponents that it provides a virtually risk-free proposition for the Dixon-Yates group," the Post-Dispatch said.

The newspaper said examination of an Oct. 1 draft of the proposed contract, described as the ninth

draft in three months of negotiations, disclosed these main provisions:

1. The Dixon-Yates group may figure federal income taxes into its "basic capacity charge" to the Atomic Energy Commission, including any future increase in income taxes.
2. Without consent of the AEC, the Dixon-Yates group may pledge or transfer the contract at any time to pay debts connected with construction of a \$107,250,000 steam-electric power generating plant at West Memphis, Ark.
3. The private utilities group is freed of responsibility if it ever fails to deliver electricity because of "cause beyond control of the company" — but the AEC must keep up its payments to the private group as if service had been continuous.

The Senate-House Committee on Atomic Energy was told last week by the AEC that the AEC has approved the form of a proposed contract under which the Dixon-Yates private combine would turn electric power into the public power lines of the Tennessee Valley Authority.

The joint committee has postponed until after the Nov. 2 general election its hearings on the politically hot issue of the contract.

Ultimatum Ends S. Dakota Riot

SIOUX FALLS, S.D. — Their 23-hour riot ended, inmates of the South Dakota State Penitentiary were back to their normal quiet behavior today.

The revolt stopped late yesterday, only 25 minutes after the nearly 300 milling rioters in a large cell block were ordered to release the guards they held as hostages or else "face the consequences."

The ultimatum by Gov. Sigurd Anderson and Warden G. Norton Jameson came as some 200 armed National Guardsmen, sheriff's deputies and other officers stood outside the block.

The guards said they hadn't been hurt or even seriously threatened. Gov. Anderson called the outbreak an "unnecessary riot" and said he will order an investigation into its cause.

Gov. Anderson, in announcing the riot had ended, said, "We made no concessions."

Harley Sadler in Critical Condition

STAMFORD, Tex. — State Sen. Harley Sadler, 62, Abilene, was reported in critical condition today in a hospital here.

Medical Specialist Speaker For Webb Graduation Rites

A San Antonio physician and specialist in aviation medicine, Dr. Merton M. Minter, was to be commencement speaker for the graduation of Aviation Cadet Class 55-B at Webb Air Force Base this afternoon.

Dr. Minter was to speak during ceremonies in the Base Theatre, following a big review and a demonstration of aerial proficiency by the Thunderbirds, the air force's precision jet flying team.

Open house was declared at the base for the review and other activities. It was the first time the

public has been invited to visit the base since the Armed Forces Day program last May.

A capacity turnout was due, as invitations had been extended to residents of surrounding towns and communities.

In addition to the Thunderbirds' exhibition, the 48-member Women in the Air Force Band, only organization of its kind in the armed forces, was to make an appearance.

Dr. Minter has worked frequently with the Air Force School of Aviation Medicine in an advisory capacity. He was to speak at commencement exercises starting at 3:30 p. m. Col. Fred Dean, WAFB commander, was to preside and introduce the speaker.

Illinois Governor Urges Wilson Shun Campaign

City Commission Plans Inquiry On Airport Changes

Interest in obtaining better airport facilities for Big Spring was voted in City Commission meeting last night.

Commissioners decided to inquire into Civil Aeronautics Administration requirements for construction of a municipal airport. They also discussed the possibility of improving Hamilton Field.

The discussion was sparked by Jack Guiley, airplane pilot for Corden Petroleum Corporation. Guiley pointed out that present facilities will not accommodate planes the size of Corden's.

Guiley, who said a number of oil company planes would land here if proper facilities were available, said that Hamilton Field could be made serviceable. The north-south runway should be 1,000 feet longer and the east-west runway would have to be at least 2,500 feet, he said.

Commissioners pointed out that this would entail the leasing of land both to the north and south of the present field limits, plus considerable monetary outlay for improvements. Construction of a new field might be more practical, they suggested.

Guiley, however, said that Corden probably would be willing to cooperate on the cost of improvements for runways. The oil company also intends to construct a hangar for its new plane, he said.

All commissioners indicated that they would like to see this city obtain a municipal airport which would be self supporting. Possibility of obtaining Navy gasoline contracts again was discussed, and City Mgr. H. W. Whitney

See CITY Pg. 8, Col. 3

POPULATION UP, ASK NEW SIGNS

The posting of signs claiming a population of 24,432 will be requested for the highway approaches to Big Spring.

City commissioners last night approved the new population estimate, and City Mgr. H. W. Whitney was instructed to request new signs of the Highway Department.

Signs on the outskirts of the city now claim population of 20,654. This estimate was made in 1952. The official 1950 census figure is 17,258.

Mr. Whitney based both the 1952 and the new estimate on the official 1950 census figure. This was done by drawing a ratio from the utility outlets in service during the three periods.

Secretary Upset By GOP Attack

CHICAGO — Sponsors of a Republican fund-raising dinner today stood firm in their invitation to Defense Secretary Wilson to address the meeting tonight despite the threat of Gov. William G. Stratton to boycott the rally.

Edward L. Ryerson and Fred M. Gillies, officials of GOP fund-raising organizations, issued this statement:

"We issued a cordial invitation to Secretary of Defense Charles E. Wilson to speak at our dinner tonight.

"We hope he will come and give a rousing talk. We have assured him he will be enthusiastically received."

By The Associated Press
Secretary of Defense Wilson's remark about "kennel dogs"

prompted a suggestion from Republican Gov. William G. Stratton of Illinois today that the Cabinet member stay away from a fund-raising dinner of his own party.

Stratton said Wilson's comment, in a discussion of unemployment, shows Wilson's views on the subject are so far from those of President Eisenhower that he doesn't qualify to speak for the administration. Both the governor and the secretary were listed to address the \$100-a-plate affair in Chicago tonight.

Wilson, in Detroit, told newsmen he was surprised at Stratton's statement. He said he was supposed to leave for Illinois this afternoon and would follow that plan unless there were other developments.

The latest intraparty development built up new heat in what phrase makers have begun to call the dog days of the political campaign. Labor leaders and Democrats already had taken sharp jabs at the Wilson comments and some Republican candidates had dissociated themselves from his words.

The "dogs" affair started Monday when Wilson told a news conference in Detroit he has "a lot of sympathy" for the unemployed, but always had "liked bird dogs better than kennel-dog dogs." He added: "You know, one who'll get out and hunt for food rather than sit on his fanny and yell."

This touched off a flurry of criticism from Democrats, GOP presidential hopeful Walter Reuther and AFL chief George Meany and from a few GOP candidates, who took the view that Wilson's remark was an unwarranted slap at the unemployed.

Wilson yesterday got out a statement that he meant "no invidious comparisons, nor insinuations likening people to dogs in any sense." He said his remark was intended to underscore his admiration for "spirit and initiative" in job hunting, and that "people of the adverse political party" are trying to make capital "on a misinterpretation of the full meaning of what I actually said."

White House concern over the furor became evident when Eisenhower himself came to Wilson's defense with a statement.

"I never have found him (Wilson) in the slightest degree indifferent to human misfortune," Eisenhower said from his Denver summer headquarters—and a presidential associate said further developments on the matter would be closely followed.

Democratic National Chairman Stephen A. Mitchell called Wilson's remarks "cruel and stupid." Sen. Symington (D-Mo) said the quotation was "unfortunate, especially if it expresses the philosophy of a public servant in regard to unemployed people."

2 Petitions Ask School Additions

Two petitions asking more building and rumors of a third set the Big Spring Independent School District trustees to fretting over space problems Tuesday evening.

R. R. Covington presented petitions signed by 321 persons asking for additional six classrooms for the new 12-room Airport school now under construction. Another petition signed by 32 West Ward patrons asked additional space be provided "in order that we may have full-time sessions."

Several board members said they had seen copies of a petition, now in circulation, asking some immediate action toward improving athletic stadium facilities.

There were no immediate decisions. Board President Clyde Anderson said that the district was nearing the limits of favorable debt structure. As he estimated it, the margin between present indebtedness and seven per cent of the total valuations, the limit set by the

state board of education for its bond purchases, is about \$84,000.

Some relief might be on the way if the \$198,439 promised by the federal government as aid for an influx of children whose parents are federally employed should materialize. Supt. W. C. Blankenship was authorized to submit the application for reimbursement in this amount. The district was required to show it has expended that much in building since Sept. 30, 1950; actually it has spent more than \$2 million.

Omar Jones, expressing concern over the long range implications of increasing space demands, said ultimately that broad re-evaluation might have to be undertaken. If all current building demands were met with anticipation of meeting foreseeable needs, it would cost on the order of \$400,000 Business Manager Pat Murphy estimated.

In this connection, Blankenship presented a report which showed a membership of 5,066 in Big Spring schools. By grades the picture is: first 667, second 628, third 484, fourth 425, fifth 434, sixth 474 (total white elementary 3,123, plus 203 Negro elementary); seventh 337, eighth 200, ninth 317 (junior high total 974); tenth 282, eleventh 214, twelfth 199 (senior high total 696); Lakeview junior and senior high 70; grand total 5,066. With the exception of a 42-member second grade section in East Ward, distribution of the load has been distributed in manageable bounds, said the superintendent. Again he said there had been an unprecedented spirit of cooperation by patrons.

The board adopted resolutions of

See PETITIONS Pg. 6, Col. 5

Airman Is Held In Baby's Death

FORT WORTH — A young airman told police here he killed his 2-month-old son because "I must have some sort of maladjustment."

Pvt. George Malloy of Alliquippa, Pa., was to be charged today with murder. He is being held in Tarrant County jail.

Officers reported the 22-year-old Carswell Air Force Base serviceman said, he had crushed the baby's chest "about 10 times" in the weeks leading up to the Monday night slaying.

"There must be a reason why I did it," he said.

"But I don't know what it is. I must have some sort of maladjustment," he continued.

His wife stood by him as he talked. She did not know that her young husband had killed their only child until sheriff's deputies E. N. Buie and Ed Max talked to him last night in the couple's home near Lake Worth.

The child, dead on arrival at the base hospital Monday night, had six ribs broken on one side and four broken on the other side. The autopsy revealed the lung and stomach cavities filled with blood. Bruises were on the baby's body.

The airman made a written statement to Asst. Dist. Atty. Randall C. Riley. He will be charged with murder, he said.

Drafted into service less than a year ago, the airman said he was a premedical student in Pennsylvania before entering the service but had switched to prelaw work when he entered the Air Force.

NOT HIGHWAY SECTOR

Annexation Voted Of 75-Acre Area

Only part of the area east of the municipal limits which was originally proposed for annexation will be brought into the city.

City Commissioners last night approved the first reading of an ordinance to annex land between Fourth Street and Stanford Park Addition, an area of about 75 acres which will be bounded on the east by Birdwell Lane.

This excludes the land between Second and Fourth streets which was included on the first petition asking for annexation.

Commissioners decided not to annex territory between Second and Fourth because the majority of property owners in the area opposed their land being in the city. Eleven submitted affidavits opposing annexation of the area, and there were only 19 bonafide signatures on the original requesting petition.

Consequently the commissioners dismissed the first petition. Those favoring annexation were ready for the move, however, and presented another petition asking annexation between Fourth and Stanford Park.

The petition presented last night was signed by 10 property owners, and it was accompanied by an affidavit certifying that the 10 represented the majority of property owners in the new area. An ordinance drawn on the new petition already had been prepared and was presented.

amended petition and unanimously approved the first reading of the ordinance. The ordinance must be approved at three readings before it becomes law.

The area to be annexed will be taken in as Zone A, but it will be subject to reclassification by the planning and zoning commission.

The zoning commission has already approved the plan of Ward Hall for a housing addition.

The commissioners meeting room was filled with spectators again last night, mostly people living between Second and Fourth streets who opposed annexation. Commissioner Willard Sullivan told them that he thought they were very foolish in opposing annexation and that he is of the opinion that they will be sorry in the future.

Commissioner Curtis Driver also said he thought it was a mistake in not taking the additional land into the city at this time. Those opposing the move said they did not want to pay city taxes, he said, yet they operate business property for city trade.

The 10 individuals signing the petition asking for annexation of land between Fourth and Stanford Park addition were Ethelene Bohannon, Willie Fortenberry, J. O. Coyle, Mrs. T. M. Munsell, H. E. Hooper, E. M. Hooper, Bob Russell and Mrs. Harris B. Scott.

THE WEATHER

BIG SPRING AND VICINITY: Clear to this afternoon, with light and Thursday, cooler Thursday.

High today 95, low tonight 65, tomorrow 92, next day 90.

Forty-one were present for the Special Gifts meeting. Dr. R. Gage Lloyd, First Presbyterian minister, addressed the group, pointing out that the fellowship and development work of the various youth organizations is as "charitable" a contribution to the area's social progress as is the work of the other welfare agencies.

Some 200 prospect cards were distributed to an enthusiastic group of workers.

Weather Record Tied

Yesterday's high temperature of 94 degrees tied the record for Columbus Day here which was set in 1911. The day previous a high of 93 had broken the 92 mark for that day also set in 1911.

DR. MERTON M. MINTER

13 Puerto Ricans Nationalists Are Declared Guilty

NEW YORK (AP)—Thirteen Puerto Rican members of the Nationalist party involved in two Washington shootings in recent years have been convicted of seditious conspiracy against the United States.

The 13, plus four others who pleaded guilty earlier, now face possible maximum sentences of six years in prison and a \$5,000 fine.

Federal Judge Lawrence E. Walsh fixed Oct. 26 for sentencing after the jury's verdict last night.

Four of those convicted last night are already under heavy prison sentences for shooting into the House of Representatives from its visitors gallery in Washington last March 1. Five congressmen were wounded.

Another of the convicted Nationalists is Mrs. Rosa Collazo, 43, whose husband Oscar is now serving a life sentence for an attempt to assassinate former President Truman in November 1950.

The Nationalist party seeks total independence for Puerto Rico, now a commonwealth of the United States, even though its people have turned down in referendum voting offers of full independence. Puerto Ricans are citizens of the United States.

The 13 party members were tried on charges of conspiring to bring about Puerto Rico's independence by force and violence and armed revolution.

In his summation, U.S. Atty. J. Edward Lumbard declared, "every one of these defendants has his moral fingerprints on the guns that were used in Washington, and those who participated were praised as martyrs."

Defense attorneys claimed that the Congress shooting and the attempt to assassinate Truman were actions by individual Nationalists and not a conspiracy. They said the prosecution used the congressional shooting to "inflammate the minds of the jurors."

Several defendants had testified during the trial that they had no idea when they joined the party that it intended violence or gunplay.

In his charge to the jury, Walsh said any defendant must be acquitted if the jury believed he did not know that force and violence were to be used.

The trial started Sept. 8.

The four convicted earlier for the Congress shooting were Dolores (Lolita) Lebron, 34; Rafael Cancel Miranda, 23; Irvin Flores Rodriguez, 29; and Andres Figueroa Cordero, 29.

Others convicted were Julio Pin- to Gandia, 45, who the government said was the head of the party in the United States; Juan Francisco Ortiz Medina, 39; Jose A. Otero 34; Juan Bernardo Lebron, 31; Cardelio Alvarez Roman, 45; Jorge Luis Jimenez, 34; Armando Diaz Matos, 39; and Manuel Raba- go Torres.

All are from New York except Jimenez, Matos and Torres, who lived in Chicago.

DATE DATA

When Two Girl Friends Want The Same Boy—?

Dear Miss Brandow: My girl friend and I both like the same boy. He wants to date me. I'm afraid if I accept, my girl friend will be angry with me. What should I do.

Helen

Face up to the facts. You can't have your cake and eat it, too. Think it through carefully and decide which of your friends means the most to you.

Though I wouldn't count on a miracle, still I wouldn't rule it out. Talk to your girl friend. Explain to her that you are in competition for one fellow. May the best girl win and with the congratulations of the other.

Agree that you will both try to lure him, but that you will abide by his decision without hurt feelings. Agree that after he has made it clear which girl he wants to date, the other will withdraw gracefully.

If you are both mature and your bond of friendship is strong it may work.

Dear Miss Brandow: I am very much in love with a

Cuban Terror Plot Claimed Uncovered

HAVANA, Cuba (AP)—Police Chief Rafael Salas Canizares said today his agents discovered a secret explosive factory in Havana's Chinatown. He charged it was set up as part of a terrorist plot to disrupt Cuba's Nov. 1 presidential elections.

Salas reported more than 100 suspects have been arrested in connection with the alleged plot. Although none was identified, the police chief said all are members of the National Revolutionary Movement (MNR).

Salas said police agents uncovered the factory last night, finding documents relating to the alleged plot and unspecified quantities of dynamite and other explosives.

Salas accused MNR chief Rafael Garcia Barcenaa, a University of Havana professor, of heading the plot. He said Garcia left Cuba two days ago for Miami, Fla.

Mala Powers Weds

LOS ANGELES (AP)—Movie actress Mala Powers, 22, and Monte Vanton, 36, North Hollywood real estate dealer, were married last night.

Wiley was brought here from Jeffersonville, Ind., just across the Ohio River, when doctors discovered he had one of the rarest of abnormalities at birth.

The heart, half inside and half outside the body, was enclosed in two fine gelatine-like membranes. The breast bone was only partly formed and several ribs, instead of joining the breast bone at the front, joined each other across the chest.

"In 8 or 10 hours, the membranes around the heart would have become like old parchment," said the surgeon who performed the operation. "By that time, it probably would have been too late."

He declined to be identified but said that during the one hour in surgery, the heart was forced back into its cavity while the lungs, which had filled the cavity, were pushed aside to make room.

Wiley's mother, Mrs. Palmer Chester says her new son is "doing just fine. He's gained over a pound since birth."

Atom-Engined Ships Plus Subsidies Seen

LOS ANGELES (AP)—A congressman says, "It is conceivable that in the not too far distant future our merchant marine ships will be powered with atomic engines and will be built under government subsidy."

Rep. John J. Allen (R-Calif.), acting chairman of a congressional subcommittee on shipbuilding, told reporters yesterday the shipbuilding program envisioned for the nation includes 60 new ships a year in the next three years.

Rubber Boots Blamed In Drowning Mishap

YUCAIPA, Calif. (AP)—Apparently it was Cyrus Stoneham's rubber boots that cost him his life yesterday.

Stoneham, 43, was putting a purifier in the Yucaipa Water Co.'s reservoir when his raft tipped and he fell into the water. He sank so fast when his boots filled with water that fellow workers could not rescue him.

UNCLE RAY'S CORNER

Mozart (during boyhood) and Paracelsus.

SALZBURG, Austria—In many places it is hard to obtain tickets for athletic contests. This is true of important football games in the United States and hockey matches in Canada.

It is just as hard to obtain tickets for musical performances in Salzburg! This city has a yearly festival during July and August. The tickets for concerts are sold out far in advance.

Certain persons buy up blocks of tickets and later act as "scalpers." They sell at high prices to those who are too late to get tickets at the regular rate.

The fame of Salzburg as a musical center rests in part on the fact that Wolfgang Mozart was

NEW COMMANDER MAY TAKE OVER TOP NATO DIRECTION

WASHINGTON (AP)—A new commander may take over direction of Allied Powers in Europe next summer at about the time when—according to the present schedule—those forces will be expanded through addition of German troops.

The recent visit to Washington and the summer White House at Denver of Gen. Alfred M. Gruenther, who currently holds the post, has brought renewed speculation that he may be called home to become either Army chief of staff or chairman of the Joint Chiefs of Staff.

That in turn would open the question of whether the European Allies would again ask the United States to supply a supreme commander for Western Europe or whether this country would accept the proposal. The first three Allied commanders have been Americans.

Britain or France may feel that one of their military men should have the command. Or the United States, which lost the case for the European Defense Community plan but endorsed the substitute produced at the London conference, may step away from another invitation to command.

The terms of both Gen. Matthew B. Ridgway, Army chief of staff, and Adm. Arthur Radford, chairman of the Joint Chiefs of Staff, expire next August. Either or both could be reappointed, but before Ridgway could complete a second term he would reach the statutory

Marriage Rate Up In Changing Trieste

TRIESTE (AP)—There have been many marriages in the nine years GIs have been stationed in this city of good looking girls. But the nuptial rate has really boomed since the announcement that Allied troops are leaving Trieste and Ital-

ians are taking over. Some of the GIs will send for their girls later, but it is much simpler to marry them now and take them out. Brides can accompany their husbands as military dependents.

Lt. Col. William D. Kirkpatrick of Ennis, Tex., chief chaplain of U.S. Army forces in Trieste, has 143 marriage applications pending.

Record Laundry Year

ATLANTA (AP)—Customers spent a record \$84 million dollars to get their clothes cleaned in laundries last year, says the American Institute of Laundering.

The terms of both Gen. Matthew B. Ridgway, Army chief of staff, and Adm. Arthur Radford, chairman of the Joint Chiefs of Staff, expire next August. Either or both could be reappointed, but before Ridgway could complete a second term he would reach the statutory

Now you can protect your car against both friction and acid—the two major causes of engine wear

NEW CONOCO Super MOTOR OIL

America's First Double-Duty Oil!

Protection 1
OIL-PLATING*
conquers friction wear because this exclusive discovery actually fastens a thin film of lubricant to moving engine parts for full-time protection.

Automotive engineers have long known that friction and corrosion are the two major causes of engine wear. Now, from the laboratories of Continental Oil, comes America's first Double-Duty motor oil. It combines two exclusive discoveries (Oil-Plating and Acid-Proofing)* to conquer both major causes of engine wear.

The unique Oil-Plating additive conquers friction wear by actually fastening a thin film of protective oil to engine parts. Unlike ordinary motor oil, this film won't drain down even when your engine has been stopped overnight. Thus

Protection 2
ACID-PROOFING
conquers corrosive wear because this exclusive new discovery gives Conoco Super up to twice the cleansing power of other premium oils!

you get full-time protection against damaging wear due to friction.

Exclusive Acid-Proofing additive conquers corrosive wear three ways—it neutralizes acids, prevents rust, and gobbles up tiny particles of dust, dirt, and water and seals them safely in spheres of oil until the oil is drained. ACID-PROOFING actually gives new Conoco Super twice the cleansing power of other premium oils!

New Conoco Super Motor Oil is on sale at Conoco dealers everywhere. Drive in and ask for it today!

Your Conoco dealer will recommend the right grade of new Conoco Super Motor Oil for your car, your climate, your driving conditions.

Distinguished Graduates

Honored as the "distinguished graduates" of Cadet Class 55-B at Webb Air Force Base this afternoon were, top, left, Edward W. Peters Jr. of Glenside, Pa., and Garnett E. McDonald of Eolia, Mo.; and bottom, left to right, Frank P. McCartney of St. Paul, Minn., and George C. Wren of Redding, Calif. Commencement exercises were held in the WAFB theatre following a wing review and "open house" program this afternoon.

Odessa Group To Aid With State Hospital Recreation

ODESSA — The Odessa Chapter of the State Mental Development Association voted in a general meeting Monday night to build and donate a baseball diamond to the patients of the Big Spring State Hospital. The diamond is a part of a general recreation program for the hospital patients set up by Dr. Roy Sloan, superintendent of the hospital and officials of the State Mental Hospital Development Association.

Puzzle Of Charred Body Still Unsolved

OKLAHOMA CITY (AP)—The mystery of a man whose charred body was found last weekend north of Ardmore, Okla., remained unsolved today.

Until last night there had been indications it might be the body of David Fred Hagler Jr., 36, of Fort Worth. Hagler, a vice president of the U. S. Asphalt Corp., has been reported missing after leaving Fort Worth for a trip to Dougherty, Okla.

Last night officers said that dental patterns belonging to Hagler failed to check with those of the dead man discovered Sunday along side a burned station wagon on a lonely Arbuckle Mountain road.

Training and orientation courses for volunteer workers for the hospital will begin in Odessa Monday night.

The group also voted to work on a Christmas project for the hospital patients looking forward to the possibilities of extensive changes in patient appearance and comfort and the appearance and comfort of the wards. The project has been approved as an official research project by the Board for Texas State Hospitals and Special Schools and the staff of the Big Spring State Hospital. Further details of the project will be released at a later date.

The group decided to begin study on the projects for retarded and emotionally disturbed children and a project for the aged. The baseball diamond is one of several outdoor recreation facilities needed by the hospital. Other communities within the Big Spring Hospital District will be asked to join the projects as chapters of the Association are formed.

IT HAPPENED

Expensive Feature

COLUMBUS, Ind. (AP)—Stuart Snyder, 31, news director of radio station WCST, got the feature story he went after yesterday—sooner than he expected, and at a higher price.

Prepared This Time

CHICAGO (AP)—Firemen got a call yesterday to 558 DeKoven St., a famous address in Chicago, to remove a dangerous chimney.

Takes It On The Chin

CLEVELAND (AP)—At first, Mrs. Helen Matczak didn't believe her ears. Every time she shifted gears, she heard a meow.

THE GRUB LINE

With Franklin Reynolds

Clarence Massey has a new pocket knife.

Clarence is the 12-year-old son of Mr. and Mrs. Howard Massey, northeast of Big Spring, and a student in the Coahoma School.

The new knife was the attendance prize at a meeting of dairymen at the John Davis Feed Store Monday night, and Clarence won it.

The meeting, which wasn't as well attended as it would have been if more people had known about it, was for the purpose of showing the Purina film "The Rumens Film" which was the center of attraction at the big cattle and sheep feed field day at Big Lake recently.

Among the sponsors of that field day were the First National Bank of Big Spring and the First National Bank of Stanton, and 10 other West Texas banks.

This film was made at the Purina Experiment Farms near St. Louis and includes pictures actually taken of the rumen, or first stomach of a cow. Veterinarians fitted a window, with a screw cap, in the side of a cow. Now the flesh and hide have grown tightly up around this window and the cow suffers no discomfort at all. This has been the means of solving the mystery of the rumen. This particular cow, incidentally, a Holstein has had three calves, without any aid, since she has had the window in her side.

Scientists, through this window, have inserted lights and a camera into the rumen and have taken color film of its natural functions, functioning naturally. And thus they have learned more in a short while than has ever been learned before all together about the work of the rumen.

Among other things it has explained the cud. Old-timers will remember when cows were supposed to suffer from an illness diagnosed as "losing the cud." In some such cases a greasy rag would be stuffed in the cow's mouth to give her something to chew on until a new cud could be developed. We used to have lots of queer ideas until the Purina veterinarians got this window in the side of a cow.

From this window, too, scientists are able to draw portions of the contents from the rumen for laboratory study while these contents are in various degrees of digestion. This has enabled the nutritionists to better determine the feed needs of cattle, sheep and other ruminants.

No matter how much a man may know about cattle and sheep nutrition he will have a much wider and sounder understanding of it once he has seen this picture,

which is, indeed, a great achievement.

The Grub Line has asked a return showing of this most unusual film, and Donald Marsh of Colorado City, who represents the Purina Company, has agreed to try and get the film back in about a month. It will not be released for general public showing, and the use of various groups, until some time after the first of the year. It likely be brought back to Big Spring sometime in November. At that time we hope to be able to count on the cooperation of the Howard County Junior College's Department of Agriculture; the various high school vocational agriculture classes, the 4-H clubs, the ranchers who attended the Big Lake meeting, and others to help get the cattlemen and sheepmen to come out and see it.

Better than any word that can be passed around, the film proves the great need for plenty of roughages, and plenty of water, for ruminants. Nobody who sees that drink of water hit the cow's rumen can ever again ignore the ruminant's need for great quantities of good water.

Fred Wilson, who operates a dairy farm north of Big Spring, was at that meeting.

"One of the greatest mistakes we can make," he commented, "is getting the idea that cow feed ought to be ground up real fine."

And "The Rumens Story" proves he is right. There isn't a better grinder of cow feed in the world than the rumen in the cow.

Air travelers arriving in Kansas City after next Monday night may think they're seeding a new breed of flying bull.

The big plastic and steel Hereford bull, 11 feet tall and 20 feet long has been hoisted to the top of the 90-foot pylon above the new Kansas City headquarters of the American Hereford Association and will be illuminated from within for the first time after dark Monday.

The new Hereford Association Building, which will be formally opened during the American Royal Show, is near the Municipal Airport.

A Bible Thought For Today

Spiritual treasures are beyond the reach of adversity. Only material treasures are vulnerable. We should lay up spiritual treasures. "The Lord . . . hath redeemed my soul out of all adversity." — II Sam. 4:9.

P-TA's Take Ribbing, But They Help To Serve Needs Of School

Like the "tin lizzy" of an earlier era, the P-TA takes a lot of kidding, but it keeps rolling along. Each month in a dozen schools throughout the area and nation groups of teachers and parents come together for programs and business. There usually is great enthusiasm at the outset, and splendid attendance, thanks to a crop of parents whose eldest chick has just started upon the school experience. As the year wears on, the edge tends to drop off so that by the time the second semester is over everyone is glad that there will be no more P-TA until next autumn.

from a couch of lethargy at infrequent intervals to grab the educational ball for a short sprint. Then they promptly retire to the sidelines and will not be bothered for a decade or so. In no way, the P-TA may not command a fanfare of trumpets or perform in a blaze of glory, but it is in these months in and month out pecking away at the job of forging a closer link between the home and the school. Our own system has had several thousand dollars of special equipment provided through P-TA projects. More than that, it has better plant facilities and better financing because P-TA units helped carry the burning messages from the school board and administration to the people. Every parent ought to commend the work of P-TA by a simple membership if by no other means.

Can We Refurbish Amphitheatre And Protect It From Marauders?

Our mailbag brings this note, signed anonymously "A Citizen" and hence not a candidate for our "Letters to the Editor," but worthy of note nevertheless: "Some five years ago Big Spring presented a pageant, the Centurama, as part of its Centennial celebration. It will be long remembered as one of the outstanding accomplishments of our city. It also left a mark which mars the beauty of the amphitheatre, one of the most scenic spots in Big Spring. If you will recall the arch over each entrance had to be removed in order for the old time locomotive to pass through. As yet, the arches have not been replaced and the amphitheatre has the appearance of not being complete. Of course, this should have been done by the Centennial Association before it was dissolved, but it seems to have

been overlooked. Isn't there some civic organization that would take this as a project and restore our amphitheatre to its original beauty?" Well, why not? If the arches are not replaced, there could be at least some decorative or finished pillar to provide a better appearance. And while on the subject, can the amphitheatre, dressing rooms, etc. be put in top shape and some protective steps taken to keep it that way? One of the worst hazards is a crop of anti-social nocturnal bums who think public property is provided for them to destroy. The writer is correct, the amphitheatre is an asset and an attraction and as a means of civic pride and utility, we should do all possible to keep it that way . . . and to use it more often.

These Days—George Sokolsky

There Are Two Interpretations Of The Phrase, 'Co-Existence'

I went to one of these testimonial dinners for which the price of a ticket is \$100. Let it be imagined that I have grown affluent and profligate, I explain that I was a guest. The food was good; the speeches uninspiring. I can never understand why so many speeches one listens to these days are so dreary. Do men need to speak who have nothing to say and must other men applaud who only know that the speech has ended? I did listen to Mrs. Pandit of India, the sister of Prime Minister Nehru and a very able woman in the world of international politics. She made a passionate plea for co-existence. It was garnished by many suggestions that the United States should have a better understanding of other peoples and their aspirations, but nothing was said about anybody trying to understand the United States. It would seem to me that those who are so interested in all sorts of aid, including Point Four, would have some appreciation of the character and aspirations of the people who shell out their coin with such prodigality. Mrs. Pandit made two points that are of some importance: One is that we are hysterical about communism. She could not understand our hysteria. She would ignore the evil and think only of the good, which is a noble proposition unless the evil is a cancer which cannot be dreamed away into a veil of ecstasies. For the United States, communism has produced a state of permanent war, requiring a war-time budget with all its attendant economic and social dislocations. Perhaps on Mrs. Pandit's advice, we would ignore the existence of the Soviet Universal State and give up our enlarged military establishments, our far-flung army and navy, our European military aid and for that matter, Point Four.

stands Pakistan supported by the United States? Who would guard the approaches from Tibet? What would become of Burma, Assam and Nepal? And when Thailand fell, as Indochina fell, what would India do? Why should India fear the United States more than it fears the Soviet Universal State? Mrs. Pandit's other proposition is virtuous co-existence. This is a fanciful phrase, difficult to define with any precision. Nations of varying social and political existence have always been simultaneously parts of human history. Let us take, for example, the sixth to the fourth centuries B.C. to note a period, and have a look at the world of those days. The Jews had come under Babylonian rule, and then under Persian rule, but they were not destroyed. Then Babylonians, Persians and the Jews came under the rule of Alexander the Great and Hellenism spread throughout the Asiatic world, but somehow most of the conquered countries maintained their own cultures, deeply influenced by Hellenistic tendencies. And it was during this period that Rome was beginning to rise, soon to be strong enough to fight the Punic wars, victory in which made Rome a great power. It was Rome that became the successor to Alexander's empire. It was out of India, precisely in this period, that Buddhism appeared, a religion founded by Siddhartha, of the clan of Gautama, a voice crying for peace and hope in a period of wars and conquest. China was then a comparatively small, feudal country of numerous warring states where the people suffered great privations and were often conquered by those they called barbarians, while awaiting unification under Chin, which was to come somewhat later. But it is also the period that produced Confucius and Mencius and Mo Ti and many other philosophers who fixed the Chinese social and political system up to the Sun Yat-sen revolution of 1911.

POTOMAC FEVER

WASHINGTON — Adlai Stevenson predicts a Democratic sweep in November. Democrats are hot articles with the broom. They're either sweeping the country — or under the rug. One lady says she enjoys President Eisenhower's TV campaign speeches this fall because of the suspense. She's never sure which trout stream he's broadcasting from. Winston Churchill's latest speech was delivered in his capacity as sole surviving member of Europe's exclusive "I-Like-Americans" club.

Every period in history is one of co-existence. Actually at this moment, the United States is co-existing with the Marxist-Leninist Soviet Universal State, the Franco dictatorship in Spain, various socialist states in Europe, the grouping system in India, the semi-theocratic Moslem states, etc. when the term, co-existence, is employed politically, not the historic relationship of diverse states is intended, but an acceptance of friendship of the Soviet Universal State with all its conquests and abuses. We are not called upon to accept as right what we have to accept as a fact.

Unwanted Push

DETROIT (AP)—Twenty-two-year-old Joe Gonzalez saw a car stalled on a busy Detroit street. He assumed it needed a push and started it along. Just under way, the car veered off and hit another car. Seems the driver had run out of gas and was away buying it. Gonzalez was fined \$25 and agreed to pay damages totaling \$375.

Pants Stay Home

ELGIN, Ill. (AP)—Al Stewart has one pair of pants he is not wearing. They were hanging on the line after a washing when a pair of wrens built a nest in them. Now there are three eggs in the nest and the trousers are pinned securely to the line for the duration.

This Could Be Very Interesting

The World Today — James Marlow

Wilson Has Admitted Placing His Foot In His Mouth In Public Remarks Before

WASHINGTON (AP)—Charles E. Wilson, the secretary of defense, has hunted with dogs, so if he had remembered a little more about them before mentioning them this week he might have avoided the situation he's in now. In discussing unemployment in Detroit, Wilson, former president of General Motors Corp., said: "I've got a lot of sympathy for people where a sudden change catches them, but I've always liked bird dogs better than kennel-dog dogs myself. You know, one that will get out and hunt for his food rather than sit on his fanny and yell." But bird dogs don't hunt for their food, if they're trained bird dogs. They just smell out where a bird is and, when the hunter shoots it, they retrieve it. But a trained bird dog would never eat it. Wilson's statement brought a stormy protest from union leaders—Presidents Walter Reuther of the CIO and George Meany of the AFL—and Democratic politicians. President Eisenhower quickly said he had never found the 63-year-old Wilson, a millionaire, "in the slightest degree indifferent to human misfortune." "In the last 20 months, Mr. Wilson, I believe you were criticized for not knowing very much about the arts and science of politics. Do you think you have learned anything?" Wilson, who has sometimes startled Washington by his frankness, said, "No. Not in that area." If now politicians, at least Democratic politicians, accuse him of putting his foot in his mouth with his Detroit statement, Wilson can reply it would not be the first time he had been accused of it. On Nov. 10, 1953, in a talk to the National Press Club, Wilson

told this story about himself, a United States Senator, and a General Motors official who had worked under Wilson before coming to Washington: "A senator decided his Plymouth car was getting old and out of date, and he wanted to buy a new automobile and took up the matter with one of my General Motors friends, asking which one of the GM products would be best to buy. "He said he did not want to buy a Cadillac because that might make him too conspicuous. My GM friend said they were all good and suggested that he try one with an automatic transmission. "The senator said: 'Well, maybe that would be all right, but when there is no clutch pedal, where do I put my left foot?' "My General Motors friend said: "Put it in your mouth like my former boss does." Wilson's public relations have not always been happy. He got off to a troubled start as secretary of defense in January 1953. After Eisenhower had named him for the job, Wilson balked at selling his GM stock. There is a federal law against a government official having stock in a company with which he does business, and Wilson, as secretary of defense, might have to do business with GM. The reason he balked was the loss he would suffer through taxes to be paid on stocks he sold. It was reported he had 2 1/2 million dollars worth of stock. Eventually he sold his stock. It was estimated he had to pay several hundred thousand dollars in capital gains taxes.

Notebook — Hal Boyle

Pretzels No Exception To Idea Of New Twists

NEW YORK (AP)—Everything has to have a new twist today, and the pretzel is no exception. Since this is national pretzel week, I went to a national convention of the industry and found that pretzels are flourishing like crabgrass. The hand-twisted pretzel is a slowly vanishing art form. Lady pretzel twisters are crowding out the men from the field, and new pretzel-tying machines are replacing them both. "Only about 20 per cent of our pretzels are now made by hand," said Alex V. Tisdale, executive secretary of the National Pretzel Bakers Institute. A real expert can still twist pretzels as fast as a machine can tie them—about 60 to a minute. But the machines seem to like the work better. Human pretzel twisters sometimes gets knots in their

stomach after a few years. The best pretzel twisters are usually nervous people, and the more pretzels they twist the more nervous they often become. They get the bends. The industry had a \$6 million dollar output. This year's American's 90 pretzel manufacturers expect a 60 million dollar business, next year 70 million. "That means about 18 billion pretzels, or a pound and a half for every person in the United States," said Tisdale happily. "People sometimes get the idea that pretzels are only for beer drinkers. That isn't true at all. Housewives and children are a big market. "Pretzels are fine for stuffing poultry, making crumb pie and pretzel bread, and they go well with raw oysters. "They have a relatively low calorie content—only about 16 calories in Philadelphia they even have a pretzel sundae — made of ice cream, thick chocolate sauce, and crumbled pretzels.

GRIN AND BEAR IT

Is symphony I am composing from glorious sounds of Soviet industry. Conclude composer . . . the din of hammer, the clank of machinery, the roar of engines, the groans of the proletariat.

Sparkman Reports Europe Prospering, Not Anti-American

WASHINGTON (AP)—Sen. Sparkman (D-Ala.) said today that on a 10 weeks' overseas tour he found increased prosperity in Western Europe and saw no trace of "anti-Americanism." Just back from a trip into 12 countries, Sparkman said, "It was clearly evident that Western Europe is definitely on the upside and improving economically." He said he found Europeans "just are not agitated to the same extent we are" about the possibility of a Russian attack. He said one factor may be that "they are used to a war in every generation, and just less prone to become agitated." "I saw nothing of anti-Americanism," he said. "I never saw a sign of unfriendliness, nor resentment against U.S. air bases in Europe."

Around The Rim — The Herald Staff

Celebrities Might Do Better To Follow Goldfish's Example

The opinions contained in this and other articles in this column are solely those of the writers who sign them. They are not to be interpreted as necessarily reflecting the opinions of The Herald—Editor's Note.

The idyllic romance and marriage of Joseph DiMaggio and Marilyn Monroe have ended. Their "love nest," as some silly writer put it, has been closed; she has returned to Hollywood and he has gone home to his beanery in San Francisco. Both are, reports assure us, heartbroken and practically unable to speak of the matter without tears. Maybe so, but I doubt it. Somewhere in all this there is a phony ring. We read one week how happy everyone is. We are told that there can be no clash of careers because Marilyn will leave off her acting to become a dutiful housewife and bear a brood of nine. We are further informed that the buxom lady masterfully lives in two worlds, the one of her artistry, the other her joyful homelife. And, bingo, up pops the rumor and then the story that their lives have become incompatible and that there will be divorce. Now I am a simple minded and believe in fairytales, but how can you be sincerely in love and sublimely happy one night and completely and irrevocably out of sorts the next day? Of such stuff is adolescence made. I realize that celebrities such as these two cannot live normal lives. They are not free to come and go without the papers and the curious practically spying on them. They are, in a sense, in a goldfish bowl. But I submit that they might follow the goldfish yet another while and learn the virtues of silence. It is this goldfish bowl business that

causes me to haul out the soapbox. When publicity hungry figures prattle how they have found (usually for the third or fourth time) their dream boy or girl, how utterly happy they are, and then cast the whole thing aside one day in a twinkling as though they were changing garments, you can't dismiss it as a whim of genius. The institution of marriage gets mighty bad-publicity. If you think that what people in high places do has no effect on the rank and file, you are, alas, mistaken. Consider the great crowds who besiege these frail idols, the mad bobby-soxers, the great circulation of the mush magazines, the sensual mongers of the press. In an alarming degree, the popular mind accepts the pattern of the famous as being proper. Look at the records in the district clerk's office should you require proof. The general run of petition says simply that one or the other's conduct was "harsh, cruel and tyrannical." Of course, tragic mistakes can be made in marriage. Sometimes it is wise to remove the shackles of injustice and anguish. There will be fewer instances of necessity for this if people cease taking marriage lightly. One of the things which might induce a more mature consideration of the sacredness and seriousness of vows would be for those in prominence—and hence supposedly of more than average intelligence and fibre—to set a better example. —JOE PICKLE

Austin Recollections—Raymond Brooks

Political Playback

In Texas, the land of hardy frontiersmen, of cowboys and offbeat "rough-necks," lots of people don't know that the state has had an official whose given name was lifted literally from the Greek alphabet. Not only that, all of the family of three girls and six boys had names that were combinations of Greek letters. The official was O. P. Lockhart, chairman of the State Board of Insurance Commissioners. One day a Capitol newsmen asked him what the initials stood for, and was skeptical at the reply "Omicron Pi." There was a West Texas minister and school-teacher, who read his New Testament in the original Greek. He had been saddled with the political given name of "Thomas Jefferson" Lockhart. So, when a child arrived in his family, a girl, he and Mrs. Lockhart decided on what was a different, and they thought, prophetic name. She became Alpha Omega. But the Omega connotation didn't stand up. Another girl came. They followed precedent and named her Beta Gamma. The next was a son, given the name Delta Epsilon. The next four also were boys, named

successively Zeta, Theta Iota, Lambda Mu and Omicron Pi. Then a daughter, Rho Sigma, and a final son, Upsilon Phi. Incidentally, Omicron Pi, himself a schoolteacher in his early years, started business as operator of a bakery; but he insisted that Pi didn't have anything to do with the choice. When Mrs. Miriam A. Ferguson in 1924 became the first woman Democratic nominee for governor, the Republicans figured they had a chance, for once, of winning in a Texas state race. They nominated Dr. George C. Butte, a University of Texas law professor, to oppose her. Dr. Butte made an active campaign, and I covered much of it, as a novel news episode for Texas. He made a campaign speech in Port Arthur. C. L. Rutt was the Republican postmaster at Beaumont, and was on hand. The Republican chairman at Port Arthur was somewhat overwhelmed as he stood before a really big audience. His speech was "Mr. Root will not introduce Dr. Butt."

Washington Calling—Marquis Childs

Republicans Hard-Pressed When They Drag Out Hiss Case Again

By THOMAS L. STOKES (Writing for Marquis Childs, who is on vacation.) DES MOINES — Mounting Republican anxiety over the Congressional elections leaves its clues all over. Perhaps one of the most significant, because it seemed somehow so out of character, was the way Secretary of Agriculture Benson dragged Alger Hiss, Harry Dexter White and Lee Pressman into a speech on the farm problems last week at Algona. In this state, where Republicans are admittedly hard-pressed in Senatorial and gubernatorial races. When the serious-minded Secretary of Agriculture finds it necessary — or someone in Republican headquarters finds it necessary for him — to exploit the "Red issue," then Republicans are in a quandary. The campaign is taking on a Halloween aspect a little early in the season. Hitherto the Communist issue has been left on the national level, to Vice President Nixon who is parrying over and over, as he travels up and down the land, the long exploded hoax of "thousands of subversives" being fired by the Eisenhower Administration. The Republican worry thus manifest in the hobgoblin issue is reflected also in the recent gloomy reports to President Eisenhower by a succession of official scouts about the chances of the Republicans keeping control of Congress. That information precipitated the conference of Republican Congressional leaders that the President called at Denver last Friday.

First of the bearers of bad tidings to arrive was Rep. Charles Halleck of Indiana, House Republican leader who was on his way East from California. He gave the diagnosis — "We are in a hard fight" — which was echoed by the others as the best way to phrase their dilemma — Rep. Richard Simpson of Pennsylvania, chairman of the Republican Congressional Campaign Committee, who was on his way East on a tour of the country; National Republican Chairman Leonard W. Hall and, finally, the Vice President. The President is apparently to become somewhat more active for the wind-up of the campaign; but he still refuses to stick his neck out and risk his prestige further by campaigning for hard-pressed individual Republicans. He couldn't do that, anyhow, even if so minded — there are too many of them. Rep. Halleck put his finger on a failure of a major part of Republican campaign strategy, at least as the President himself envisaged the strategy. This was emphasis on the Administration "program." Mr. Halleck complained about the difficulty of arousing interest in that "program" and he confirmed to the President what anybody who moves around the country —

Warning On Brakes

DETROIT (AP)—A vacuum brake warning device for trucks is now in production. It has an indicator, mounted above the windshield, which drops into the driver's range of vision when the vacuum reaches a low point.

Dallas Grandmother Recalls Early Colorado City Society

By TOM JAY GOSS II
COLORADO CITY — A Dallas grandmother turned back the clock this weekend as she visited friends in Colorado City, and chuckled over society functions and escapades at the turn of the century.

MRS. BROOKS BELL SR.

Episcopal Women List Committees

At a meeting of St. Mary's Episcopal Auxiliary at the Parish House recently, committees were announced for the Regional Meeting to be held here Oct. 19.

Registration, which will begin at 9:30 a.m. will be in charge of Mrs. D. M. Penn and Mrs. Mort Denton. At the same time, a coffee will be served with Mrs. John Hodges and Mrs. Jackson Friedlander in charge.

Mrs. Obie Bristow is chairman of the decoration committee and Mrs. Charles Long, Mrs. D. M. Penn and Mrs. E. L. Powell are her helpers. The house committee is composed of Mrs. C. A. Jones and Mrs. Rosalyn Craig. All women of the church are considered hostesses for the meeting.

Following registration and coffee, Holy Communion will be held at 10 a.m. Luncheon at the Settles Hotel at 1 p.m. will be followed by a business meeting and program in the afternoon.

The group also made plans for the dinner to be held on Oct. 24, honoring Bishop George Quarterman and all candidates for confirmation.

FORNSAN—Guests in the homes of Mr. and Mrs. J. D. Gilmore and Mr. and Mrs. J. W. Griffith have been their children, Mr. and Mrs. Floyd Griffith, Kathy and Jeff of Colorado City. Mr. Gilmore left Monday for Dallas, where he will receive medical care.

Beta Omicron Chapter of Beta Sigma Phi entertained its rushees with a model meeting and bingo party in the home of Mrs. Clyde Thomas Jr. Tuesday evening.

Mrs. Bill Newsom introduced the program, which was composed of talks on "What Beta Sigma Phi Means to Me" and the history and purpose of Beta Sigma Phi.

In the bingo games, prizes were won by Mrs. Perry Chandler, Mrs. Johnny Dismuke, Mrs. Newsom, Millie Balch and Avon Wilcke. Refreshments were served to 17 members and the following rushees: Mrs. Chandler, Mrs. James Brooks, Mrs. Wendell Stacey, Mrs. Bill Boykin, Mrs. Rayford Gillman and Mrs. Kelly Lee.

The next rush party will be a Preferential Tea held in the home of Mrs. Charles Race on Oct. 21.

Clear Complexion

Gaby Bruyere, a French actress soon to be seen in Hollywood pictures, talks to Lydia Lane about her secret for having a lovely complexion.

HOLLYWOOD BEAUTY

French Actress Offers Advice On Complexion

By LYDIA LANE
HOLLYWOOD—Gaby Bruyere is well known in Europe but she has to win a new audience in North America because of the eighteen pictures she made in her native France, only one has been released here.

"I love your California salads," she told me the other day as she scanned the menu trying to make up her mind.

"The French cooking is so different," she explained. "I believe we shorten our lives by eating all those rich sauces and involved recipes. In Paris it is considered very impolite to refuse to eat, what your hostess serves, but here in America one accepts the fact that most women have a dieting problem."

"For my complexion I eat raw carrots with lemon juice and a little olive oil—this is an old French secret," Gaby added.

"And I have another French secret—not for health food but for beauty," Gaby volunteered. "You clean your face with soap and

warm water and when you are sure that it is clean, pat it with cotton soaked in orange juice. If you want to clear your complexion, rub it gently with a slice of orange. Let this dry completely—it will take about ten minutes—and then wash it off with warm water.

"If you do this before going to a party, you'll get lots of compliments," Gaby promised.

We agreed on how important your good complexion is to your beauty.

"But the real skin treatment begins inside," Gaby declared. She touched her forehead and her mouth. "With what you think and

MORE COMPLEXION NEWS
One section of the new booklet "Inventory of Beauty" is on complexion. Here you'll learn how to clean, lubricate and improve your skin.

Included also are other sections on all phases of beauty. The beautifully printed booklet features autographs and photographs of many of your favorite stars.

Get your copy of "Inventory of Beauty" by sending only ten cents (10 cents) AND a self-addressed, stamped envelope to Lydia Lane, Hollywood Beauty, in care of the Big Spring Herald.

what you eat. You can injure your whole body with worry or anger and you can ruin your health by not eating properly.

"Fresh air is wonderful for the skin," Miss Bruyere said as she took a deep breath. "You have to have plenty of oxygen if you want to have a good color.

"And I believe in drinking plenty of water during each day. Our bodies lose water at a rate which makes it necessary to be replenished with at least five or six glasses a day. Try drinking more water and watch your skin pick up a new glow.

"And if you want to have a nice skin," Gaby added, "get plenty of sleep. If you are fatigued your skin will look fatigued."

Richardsons Attend Texas State Fair
FORNSAN—Mr. and Mrs. W. M. Richardson and Molly Sue have attended the State Fair in Dallas and visited in Denton and Bowie for the past few days. Mr. Richardson's parents, Mr. and Mrs. W. A. Richardson and their son of Bowie, accompanied the Forsan family here.

C-City Grand Jury Sets Indictment In Old Murder Case

COLORADO CITY — The 32nd district grand jury opened up a seven-year-old murder case, Tuesday afternoon at Colorado City when it returned an indictment on the murder of John E. (Red) Davidson, native of Colorado City and a former resident of Big Spring.

The indictment alleges that on July 17, 1947, Davidson killed Israel Lee Gardner, Colorado City Negro. Gardner was found dead from gunshot wounds on the railroad tracks near the depot in downtown Colorado City.

Eldon Mahon, district attorney, who has investigated the case, was county attorney at the time of the shooting.

A second indictment returned by the grand jury charged James Morris Barber with driving while intoxicated, second offense, on Aug. 20, 1954.

Ackerly Man Dies On Visit To Florida

ACKERLY — Charlie Flemming, 62, a resident of Ackerly for several years, died Monday while visiting in Jacksonville, Fla.

Mr. Flemming had no relatives, but had resided with Mr. and Mrs. Alvin Hogg intermittently for the past 18 years and continued since 1951. Funeral arrangements were not known here.

THE VERDICT IS BEING DELIVERED

Reports from Hydra-Matic GMC owners clinch the all-around superiority of "Hydra-Matic Hauling"

Easier handling... drives love it!... NO MAINTENANCE COSTS WHATSOEVER

HYDRA-MATIC GMC's are rounding out their first two years in service. And the experiences of owners in every field of truck use seem to leave no doubt about this: "Hydra-Matic Hauling" is obsolescing the slower, harder, more costly ways of the manual-shift truck!

HYDRA-MATIC GMC trucks are earning more for professional haulers. They are slashing deeply the costs of delivery operations. They are speeding schedules; saving time, money and trouble for owners in all kinds of businesses.

These proved economies are waiting for you in light, medium and heavy-duty GMC's. Why don't you come in and see what we can do for you?

Negro Question In Court Hands

GEORGETOWN, Del. (AP)—The question of readmitting 11 Negro children to the previously all-white high school in Milford, Del., rests with the State Court of Chancery today.

Arguments were presented yesterday in the court before Vice Chancellor William Marvel, who did not indicate when he would announce his finding.

Meanwhile, State Atty. Gen. H. Albert Young said he would issue new subpoenas today through the Court of Chancery to obtain the financial and membership records of the National Assn. for the Advancement of White People.

Bryant Bowles, national president of the NAAWP, has refused to turn them over to Young, contending that they must be subpoenaed through a court.

Bowles and the NAAWP have been in the forefront of the move for segregated schools. As a result of pressures brought by the NAAWP, Negro pupils who attended the Milford High School for the first three weeks of the fall term this year were ordered to be returned to a Negro school in Dover.

Young, in his capacity as attorney general, asked Marvel yesterday to order the return of the 11 Negro pupils. He said that the ruling he sought "will arm" Delaware officials "with the kind of decree where we can get those people who are trying to destroy our community and destroy our laws."

Joining In Harmony Show

Another group of Barber Shop singers to appear in the Roundup of Harmony show at the municipal auditorium Saturday night is this group called the Mighty Knights. Left to right, Ed Johnson, Bob Clark, Jack Wise and Gil Cook. Along with other groups—including some national title holding foursomes—they will present an evening of old-time harmony in the show that is sponsored by the local chapter of the Society for the Preservation and Encouragement of Barber Shop Singing in America. The show's proceeds will go to the Kiwanis under-privileged children's fund, and both Kiwanians and SPESSQSA members are offering tickets.

GOP Anxiously Eyes Effect Of Dog Story

By MARVIN L. ARROWSMITH
DENVER (AP)—President Eisenhower and his political lieutenants today kept a sharp eye on the stormy repercussion to Secretary of Defense Wilson's unemployment "dog" story and hoped to counteract Republican, Democratic and labor criticism.

The White House clearly is worried about what effect Wilson's remarks—which he says were distorted and are being used for political advantage by the Democrats—will have on the Nov. 2 congressional elections.

The concern at the President's vacation headquarters here became evident yesterday when Eisenhower himself came to Wilson's defense and sought to soften the impact on the hard-fought Republican campaign to keep control of Congress.

The Chief Executive acted as a critic of Wilson came from a few GOP candidates for Congress, from Democratic opponents, and from CIO President Walter Reuther and AFL chief George Meany.

In effect rejecting Reuther's demand that Wilson be ousted from the Cabinet, Eisenhower expressed confidence in his Cabinet member in these words:

"I never have found him in the slightest degree indifferent to human misfortune."

The furor the President was attempting to quiet was touched off by Wilson at a Detroit news conference Monday. He said then he has "a lot of sympathy" for the unemployed, but always had "liked bird dogs better than kennel-feds."

Then he added: "You know, one who'll get out and hunt for food rather than sit on his fanny and yell."

In the aftermath, critics contended that was an unwarranted slap at the unemployed.

Wilson, former president of General Motors Corp., fired back yesterday with a statement that he intended "no invidious comparisons, nor insinuations likening people to dogs in any sense." He added:

"I am sure that the distorted version of what I said is being used by the people of the adverse political party trying to capitalize on a misinterpretation of the full meaning of what I actually said."

The secretary said he related the "bird dog vs. kennel dogs" story to underscore that "I admired spirit and initiative" in hunting for jobs.

At Eisenhower's headquarters here the reaction on the part of his aides seemed to be to regard the Wilson episode as one of the bad "breaks" that turn up in almost every campaign.

A presidential associate who asked not to be named said it would take several days to evaluate the extent of the impact. He said the situation would be watched carefully and dealt with as its develops.

Meanwhile, Eisenhower kept busy with other political strategy aimed at attracting favorable attention to the GOP drive to maintain control of Congress.

He arranged to put in more work today on a speech he will make in Indianapolis Friday night on a major campaign issue—the administration's farm program.

The half-hour speech in Butler University fieldhouse at 8 p. m., EST, will be carried by 60 Du Mont television network stations and the time will be paid for by the Republican National Committee. The White House said plans are also being made to purchase radio time.

Star Farmer Began Running Family's Acreage When 13

KANSAS CITY (AP)—Success story, American style: A \$1,000 check went with the award.

Seven years ago Burd W. Schant's father died, placing much of the burden of operating the family farm on his son. At the time, Burd was 13.

Today the farm is a \$30,000 enterprise and young Schant, now 20, is the 1954 Star Farmer of America.

He was named Star Farmer last night at the annual Future Farmers of America convention. His selection as the outstanding youth in the 371,000-member organization culminated a long struggle.

After his father's death he and his mother decided to operate the 65-acre farm near Alburta, Pa., jointly. The farm had been devoted mainly to poultry production.

Burd decided to add dairying. He purchased a registered Holstein heifer for \$150 in 1947 as the start of a herd. Today the herd numbers 42 head, including 22 registered animals.

"Every time I'd get some money from the chickens," he said, "I'd put it into the dairy."

By working long hours in addition to finishing his schooling, Burd also converted the farm from a horse-power operation to machinery. He has two new tractors plus considerable other equipment.

This is what his vocational agriculture instructor, Raymond Heimbach, had to say about the Star Farmer award:

"He's earned it. Burd works from 5 o'clock in the morning to 8 o'clock at night most days. A \$1,000 check went with the award. What's Burd going to do with the money? 'Why, I'll reinvest it in the farm,' he said. 'That's what I've tried to do all along—grow my earnings or a good part of them back in the place. 'It's been the secret of whatever success I've had.'"

Lutheran Group Changes Control

TORONTO (AP)—The United Lutheran Convention went into its final session today after approving a record-breaking new budget and a closer-knit governing structure for their church.

The changes in the church government, bringing its scores of agencies under central control, were seen as setting a far-reaching new pattern in the running of the 2,150,000-member church.

"It will make for greater solidarity," said Dr. Franklin Clark Fry of New York, the church president. "It means the total work of the church will have more united impact."

Adoption of the revamped procedures came yesterday as the climactic event of the eight-day biennial meeting of more than 1,000 church representatives from the United States and Canada.

The church is America's largest Lutheran body.

Knowledge Serves Lost Hunter Well

ASPEN, Colo. (AP)—His knowledge of the mountains served Leonard well during the two days he was lost in the snowbound Rockies.

The former New Yorker, who owns a swimming pool in this mountain resort, was found late yesterday, "hungry but in remarkable good condition." He was hospitalized overnight for a checkup.

Thomas lost his way after leaving a hunting camp Sunday afternoon to investigate interesting rock formations with a Geiger counter. He found no uranium but saw "a lot of good elk."

On the first night in the open, he used pine boughs to build a shelter against a six-inch snowfall.

Dies In Accident

SAN DIEGO, Calif. (AP)—Richie Eugene Adams, 23, of Clarkville, Tex., was killed yesterday when a car in which he was riding crashed into a utility pole in suburban Lemon Grove near here. Two others in the car suffered minor injuries.

Texan Dies In Auto Mishap In Louisiana

OAKDALE, La. (AP)—Dogoberi Storch, 60, of Port Arthur, Tex., was killed yesterday in an automobile accident near Kinder, about 25 miles southwest of here. His wife was injured.

Mrs. Storch said she and her husband had left Port Arthur early yesterday for a vacation in Fernandina, Fla.

Funeral services for Storch, a veteran employee of the Pure Oil Co., will be in Port Arthur.

Lack Of Gasoline Hits Mexico Area

NUEVO LAREDO, Mex. (AP)—Farm and rural areas between here and Reynosa are out of gasoline because heavy rains have washed out roads and halted distribution, officials say.

Delivery of gasoline to small towns and villages has virtually halted, and this in turn has hurt business and farming.

Some gasoline may be bought at black market prices of one peso a liter, or about 32 cents U.S. a gallon. Regular price is about 18 cents U.S.

Cole Expects Charges In 'Windfall' Scandals

PHILADELPHIA (AP)—Administrator Albert M. Cole of the Federal Housing and Home Finance Agency says he knows of nothing that would call for an over-all investigation of the Federal Housing Administration.

But he said in an address here yesterday that he did expect criminal charges would be brought against a number of persons in connection with the FHA "windfall" profits investigation.

Luxurious seating for driver and passenger in deep foam rubber (but cradled in the traditional security of bucket seats).
Generous luggage room, the panoramic sweep of a deeply curved windshield, the flair of tomorrow's styling (but within the polo-pony compactness of a real road car).
The Corvette blends all this and more. For it is a driver's car . . . a low-slung torpedo with a center of gravity only 18 inches above the concrete . . . with outrigger rear springs that make it hold to the road like a stripe of paint . . . with a 16 to 1 steering ratio that puts needle-threading accuracy at your finger tips.
Frankly, the Corvette is a "limited edition," made only in small numbers. It is intended only for the man or woman to whom driving is not just transportation but an exhilarating adventure, a sparkling challenge to skill and judgment. If you are one of these, then you owe yourself an hour with a Chevrolet Corvette.
Call us now and let us set up a demonstration run . . . for in a short 60 minutes you can discover that motoring has a whole new dimension of delight.

Make a date to drive the Chevrolet Corvette
150-h.p. overhead-valve engine with three side draft carburetors • Four-leaf outrigger springs in rear • Powerglide automatic transmission • Center-point steering, 16 to 1 ratio • Form-fitting individual seats • Full instrumentation, with tachometer, oil pressure gauge, and ammeter.

Takes His Lumps

You might call Charley Johnson (above) a student in the School of Hard Knocks. As the second string quarterback of the Big Spring Steers, Charley has probably been knocked down more times by teammates than anyone else in camp. He comes up without complaint, asking for more, however. He's a fine passer and, since he's only a junior, should be first string next year.

Kansas City To Get Junior League Club

By CHARLES CHAMBERLAIN
CHICAGO (AP)—American League club owners voted unanimously last night to shift the Philadelphia Athletics to Kansas City.

The decision at the end of a hectic nine-hour meeting all but broke up the once-esteemed position in baseball of the Mack family. It signalled the finish of one vivid chapter in the national pastime that was etched by the pioneering Connie Mack and opened what should be another under Chicago financier Arnold Johnson.

It was Johnson, 47, a top man in a business that grossed 70 million dollars last year—the Automatic Canteen Co. of America—who found that money on the barrelhead speaks loudest.

THIS WEEK END

Lamesa At Home To Levelland

LAMESA, (SC)—The Lamesa Golden Tornadoes open up their home football season at Tornado Field Friday night against a dangerous newcomer to District 3-AAA, the Levelland Lobos. A crowd of some 3,000 is expected to be on hand for the opening tilt with the Tornadoes looking for their first district win of the season after losing a close 14-6 ball game to a top flight Big Spring Steers squad last weekend in Big Spring.

The game is rated a tossup in many quarters due to the fine showing of Levelland last week in beating Snyder, 13-6. The Lobos are one of the best backs in the state in versatile Mack Freeman who engineered the Lobos aerial attack. (The Tornadoes will rely on the quarterbacking of Doyle Chapman and the running of Don Echols, Conrad Alexander and Dwayne Powell in this game.)

Chapman also proved his mettle as a runner in the Big Spring encounter with several good runs with hard blocking Conrad Alexander leading the way.

Coach O. W. Follis, starting his fourth year as head mentor of the Tornadoes, brings a squad into this game that is well conditioned and with plenty of scrappiness, but lacks in weight and reserves.

Starting for Lamesa will be Ken

Bartlett and Frank Jones at the ends... Jackie Goodloe and Phil Wilson at tackles, Don Beck and Benny Lybrand at the guard spots and Wayland Reeves at center.

In the backfield, it will be Chapman at quarterback, Echols and Powell at halves and 190-pound Conrad Alexander at fullback.

John Middleton, 140-pound scabbie, is also slated to see lots of action for the Tornadoes on kick-offs and punt returns. Coach Follis also hoped for the opportunity to get his promising all sophomore "Pony backfield" into the fray for some much needed experience.

This will include Jerry Jones at quarterback, Middleton and Glen Haggard at halves and Dennis Lamphere at fullback.

To date, the Tornadoes have decisions over Seminole and El Paso and losses to Midland and Big Spring.

The aggressive line play of Reeves, Wilson, Beck, Lybrand, Bartlett, Jones and Goodloe in the Big Spring game was outstanding.

Beck at 153 and Lybrand at 160 are two of the many light boys in the regular line.

A large following of Levelland fans is expected to accompany the team to the Caprock country for the Friday night game.

The refereeing and heckling from the partisan crowd appeared to upset Larsen and immediately after the match the Californian admitted "I'm mighty unhappy."

He also complained about one decision.

But later he cooled off and tried to fend off reporters with "no comment."

"Listen," he said, "I'm satisfied. There were a lot of close calls but maybe the referee could see better than I could and I took it for granted they were right. Let's let it lay."

"If I complain, I'll be called a poor sport and maybe get in trouble with the officials back home. I've been misquoted so many times I don't want to open my mouth. The crowd was a bit noisy though."

Pressed for comment on refereeing, Larsen turned the questions over to Hugh Stewart of Los Angeles.

"I think the audience sort of pushed him at times," Stewart said, "got on his nerves. But Lamas played inspired ball and the audience helped him as much as it hurt Larsen. The referees were doing the best they could. However, I think Artie can beat Lamas four out of five times."

Lamas himself merely said: "I am most happy. It was one of my best days."

The shot Larsen continued to criticize was one that might have won a set for him. A ball rolled over the court just as Lamas pushed over what could have been an easy return for Larsen.

But Larsen didn't attempt it since in many cases the point would have been nullified and replayed. The referees, however, allowed it to stand despite heated protests from Larsen.

The major match today is the continuation of one rained out yesterday—the other singles semifinal between Tony Trabert of Cincinnati and Sven Davidson of Sweden. Trabert won the first set 9-7 when heavy rain forced a postponement.

In the men's events the Russians have four world record holders and six European champions. They actually stand a chance of taking every first place in the long program.

Britain's great Roger Bannister won't be running.

Some fans were skeptical over that rushing average. They're not now, for Graham is averaging 13.9 yards per try for the Red Raiders.

Graham plays fullback for Tech but he looks more like a halfback. He stands six feet and seems slightly built. But there's a lot of his 190 pounds in the muscles of his legs. The power of his stride enables him to shake off half-tackles.

He wears the goggles instead of contact lenses.

Some fans were skeptical over that rushing average. They're not now, for Graham is averaging 13.9 yards per try for the Red Raiders.

Graham's performances aren't surprising to Coach DeWitt Weaver. The youngster had a 14.4-yard-pertry average at Northeastern Oklahoma A&M where he was a junior college star. He's from Broken Arrow, Okla.

Some fans were skeptical over that rushing average. They're not now, for Graham is averaging 13.9 yards per try for the Red Raiders.

Graham plays fullback for Tech but he looks more like a halfback. He stands six feet and seems slightly built. But there's a lot of his 190 pounds in the muscles of his legs. The power of his stride enables him to shake off half-tackles.

He wears the goggles instead of contact lenses.

Seagraves Vies With Buffaloes Friday Night

STANTON, (SC)—The spotlight in District 4-A football this week-end will be on Stanton, where Melvin Robertson's Buffaloes entertain Seagraves in a Friday night engagement.

Stanton is favored but Seagraves will pose quite a problem. The Eagles clawed Morton in a conference bout last week, 13-0, while Stanton was sailing past O'Donnell, 33-0.

The Buffaloes are setting up a defense this week to stop Lawrence Barber, Jerry Blakley and other Eagles threats.

The Seagraves line is built around S. J. Bryan, Frank Middleton, and Buddy Harper. Sundown, the defending champion in the circuit, goes out the league this week to meet Oton. Stanton has its work cut out for it this week, since Glenn Greenlee, 205-pound tackle, got his ankle broken in a workout Monday evening.

The big senior is probably out for the season.

POWELL IS TOP PROSPECT, SAY MANY OBSERVERS

SAN FRANCISCO (AP)—Charlie Powell, the 22-year-old ring giant who was stopped here last week, is still the best prospect the heavyweight division has produced in this country since Rocky Marciano.

Who says so? Fight experts who saw Powell suffer a seventh-round technical knockout at the hands of Charley York say so.

Evaluation of the former San Francisco 49ers football player was still going on a week later.

J.J. (Moose) Tausig, whose Willie Meehan thumped out a four-round decision over Jack Dempsey in 1918, said he thought Powell had a brilliant future.

"Powell may be champion in a year or two," Tausig observed. "He's the best I've seen come along since Marciano."

Sid Flaherty, manager of middleweight champion Carl (Bobo) Olson, described Powell as a "fine prospect." Billy Newman, an old-timer in the game echoed these sentiments.

Powell showed that he could take a real clout on the jaw. He stood up under at least a dozen lefts and rights that would have felled an ox. He fought from the second round on with a dislocated finger on his right hand yet was ahead on points on all the cards at the end of the sixth.

This was Powell's 13th fight and all hands judged him a top prospect in spite of the defeat—his first.

Larsen Defeated By Mario Llamas In Mexican Play

MEXICO CITY (AP)—The 13th Pan American Tennis Tournament entered its next-to-last day today with Art Larsen reconciled to his upset loss to Mexico's flashy Mario Llamas.

The 22-year-old Mexican champion defeated the California star 1-6, 10-8, 9-7, 6-3 yesterday to become the first from his country ever to enter the finals of the tournament.

Harris Retains Scoring Lead

Though he was idle last weekend, Clyde Harris of Breckenridge retained the football scoring lead in District 1-AAA with a total of 40 points.

Big Spring's Frosty Robison, who counted one touchdown against Lamesa, moved into a tie for second place with Tommy Evans, Levelland. Each has 42 points.

Robison and Evans have each played one more game than Harris.

Red Athletes Show In London Tonight

LONDON (AP)—The Soviet Union parades its athletic might in the chill October air tonight as they actually stand a chance of taking every first place in the long program.

Britain's great Roger Bannister won't be running.

Some fans were skeptical over that rushing average. They're not now, for Graham is averaging 13.9 yards per try for the Red Raiders.

Graham's performances aren't surprising to Coach DeWitt Weaver. The youngster had a 14.4-yard-pertry average at Northeastern Oklahoma A&M where he was a junior college star. He's from Broken Arrow, Okla.

Some fans were skeptical over that rushing average. They're not now, for Graham is averaging 13.9 yards per try for the Red Raiders.

Graham plays fullback for Tech but he looks more like a halfback. He stands six feet and seems slightly built. But there's a lot of his 190 pounds in the muscles of his legs. The power of his stride enables him to shake off half-tackles.

He wears the goggles instead of contact lenses.

Some fans were skeptical over that rushing average. They're not now, for Graham is averaging 13.9 yards per try for the Red Raiders.

LOOKING 'EM OVER

With Tommy Hart

Rumors keep circulating throughout District 1-AAA that Brockton ridge—win, lose or draw this season—will not be invited to have its football thinkers sit in on the next schedule-making convulse of the conference officials.

The brass, it is told, will simply follow the example set by District 2-AAA and ask the Buckaroos to do their footballing elsewhere.

The Bucs have the irritating habit of doing too much with a little, a trait that grates on the nerves of opposing coaches and exposes football squads throughout the circuit (and even in some levels of higher grid society) to the bite of the gloom bug.

Be that as it may, the Texas Interscholastic League may take the humiliating job of telling the Bucs they're not wanted, off the hands of the conference.

The TIL may do it by reshuffling all classifications, eliminating some and increasing the membership in others. There are reports the league may go back to 16-district classes, double what each of the two top classes now have.

In that event, schools like Big Spring, Sweetwater and possibly Flatview and Snyder, will again qualify to play teams like Odessa, Abilene, Lubbock and Amarillo.

Such a development would be a blessing in disguise for Big Spring. The bigger gates the Steers would play to would help the local school pay for its ambitious athletic program.

There's only one way to compete against the big schools, and that is to start football squads down in the grades like they're doing. The program Carl Coleman installed shortly after his arrival here started paying off last year.

The Steers vanquished one of the district's toughest teams last week but they can't afford to gloat.

Vernon, next Steer foe, likes it up there at the top of the football heap, too, and is primed to ambush the locals.

The Lions are perhaps the hardest team to beat at home of any club that has appeared on the Big Spring schedule in recent years. Big Spring has never defeated the Lions in Vernon.

Robert Bailey, who plays a lot of football for Vernon as a quarterback and linebacker, is a nephew to Morris (Snaks) Bailey, an all-Southwest Conference end when he was at TCU and later a pro grid standout in Canada.

Tony Parker, who plays guard for the Lions, is the son of Ray Parker, who played center on the Vernon team years ago. Ralph and Sam Parker, uncles of Tony, are rated among Vernon's all-time football greats.

The Los Angeles Rams have averaged nearly 80,000 customers in each of four home games this season.

Eddie Crowder, one of Oklahoma University's better quarterbacks in recent times, is now playing for the Fort Hood grid team.

Rusty Russell Jr., son of the former SMU grid mentor, is now at Sheppard Air Force Base in Wichita Falls.

Pepper Martin, the local baseball man, won't start his \$20 season ticket campaign until later in the year.

He had planned to get it under way sometime this month but decided against it due to the fact that it is tax-paying time and the Community Chest drive is just a nice Christmas present for the baseball fan.

CLINKSCALE IS NAMED AP'S 'BACK OF WEEK'

By The Associated Press
Ronald Clinkscale, a tall Texan who can make plenty of speed without the help of a horse, engineered one of the major upsets in college football last week end when Texas Christian beat Southern California, 20-7, Friday night.

And by doing this Ronnie earned the designation as Associated Press "Back of the Week."

Clinkscale's one-man raid on the Trojans put him ahead of another upset producer, Navy's Joe Gattuso, and Washington's Bo Cori Olson, described Powell as a "fine prospect." Billy Newman, an old-timer in the game echoed these sentiments.

Powell showed that he could take a real clout on the jaw. He stood up under at least a dozen lefts and rights that would have felled an ox. He fought from the second round on with a dislocated finger on his right hand yet was ahead on points on all the cards at the end of the sixth.

This was Powell's 13th fight and all hands judged him a top prospect in spite of the defeat—his first.

Some fans were skeptical over that rushing average. They're not now, for Graham is averaging 13.9 yards per try for the Red Raiders.

Graham's performances aren't surprising to Coach DeWitt Weaver. The youngster had a 14.4-yard-pertry average at Northeastern Oklahoma A&M where he was a junior college star. He's from Broken Arrow, Okla.

Some fans were skeptical over that rushing average. They're not now, for Graham is averaging 13.9 yards per try for the Red Raiders.

Reserves Punish Steers In Drill

Quarterback Tommy McAdams had a "near miss" in Big Spring High School football practice Tuesday afternoon.

McAdams suffered an ankle injury in a pileup back of the line

Sabbato's Tied For 2nd Place

Frank Sabbato Insurance Company jumped to a tie for second place in Men's Classic League Monday night by trouncing Westex Oil, 3-0. Ernest Rice posted high single game and series of the evening with a 225-560. L. J. Brown posted a 544 and Crockett Hale a 514 for the victors.

Lee Hanson's held on to its four-game margin of first place by taking Cosden, 2-1. Jim Engstrom led Hanson's with a 208 and a series total of 544, with Bob Schrader posting a 522. A. A. Marchant and J. D. Robertson posted a 518 and 545 respectively for Cosden.

Pearl Beer dropped to sixth place, losing a 2-1 decision to the Men's Store.

The win enabled The Men's Store, to remain in a tie for second place. Gregory, Hoffman and E. H. Dozier, Jr. posted 500's for the victors and T. Schwan a 538 for Pearl Beer.

Conoco remained in a tie for fourth place in the standings by taking a 2-1 decision from the Big Spring Herald. T. W. Campbell paced Conoco with a 213 and 527 while John King posted an even 500 for The Herald.

Longhorn League Parley In Hobbs

Pepper Martin, owner-manager of the Big Spring Bronco, will go to Hobbs, N. M., Thursday to attend the first Longhorn League meeting of the fall season.

At that time, the 1954 season will be reviewed and plans for the 1955 campaign will be discussed.

Indications are Hobbs will field a team in the race in 1955.

Tech Ace, Lonnie Graham, Living Up To Nickname

LUBBOCK (AP)—Texas Tech's Lonnie Graham is called the Lone Ranger because of the mask-like goggles he wears while playing football, and the fellow is living up to the deeds of his radio namesake.

He has made it a habit to wipe out in a single play an opponent's touchdown drive.

Graham leads Texas Tech's unbeaten Red Raiders into action this week at Baton Rouge against Louisiana State, and the Tigers better watch out about getting ahead of the Raiders. That's where Lonnie comes in.

Last week Texas Western was leading Tech, 7-0, on a 48-yard scoring drive. On Tech's first play after the kickoff, Graham raced 65 yards for a touchdown.

The Lone Ranger had to step in again after Western had marched 77 yards to knot the score at 14-14. He carried the kickoff back 15 yards, then on the first play from scrimmage raced 66 yards for the touchdown that put the Raiders ahead for keeps.

West Texas State could have warned Western. The Buffs slipped

U.S. To Open Offshore Bids

WASHINGTON (AP)—The federal government opens bids today for the first oil and gas and sulphur leases it ever has offered for offshore submerged lands—288 tracts off Louisiana.

Originally bids were asked on 307 tracts. But, because of conflicting government and state claims on where Louisiana's seaward boundary lies in the Gulf of Mexico, the Interior Department agreed not to consider bids for oil and gas leasing of 19 tracts lying offshore between three miles and three leagues (10.35 miles).

Primary interest centered in the oil and gas leasing offers. Bids were invited on 180 tracts totaling about 701,000 acres. The 108 tracts offered for sulphur lease total about 523,000 acres. In some instances they contain areas offered also for oil and gas leasing.

Award of leases to qualified bidders may be possible in some instances by Nov. 1, Interior officials said.

Speculation in the department has been that cash bonus offers for the leases likely will run between 25 and 100 million dollars. A minimum bid of \$15 an acre is required. Those granted leases must pay an annual rental or minimum royalty of \$3 an acre for oil and gas lands and \$2 for sulphur lands. The government also will get royalties on any production.

Another sale will be held Nov. 9 for oil and gas leasing of 38 tracts lying off the coast of Texas in the Gulf.

Oslo the capital of Norway annexed 175 square miles in 1948 and thereby became a city which is almost half forest, says the National Geographic Society.

Sen. Price Daniel To Speak At Odessa Oil Show Dinner

LIBERTY (AP)—U.S. Sen. Price Daniel returned here today for the opening of the Trinity Valley Exposition after opening a 3-day tour of West Texas last night.

He planned to go to Lubbock and Midland for noon and afternoon receptions today, then speak at the Odessa Oil Show banquet tonight.

"The independent producers are the backbone of the Texas oil industry," he told an Oil Progress banquet in Wichita Falls last night. "In the interest of the state and nation, they must be protected from excessive imports of foreign oil."

"I reiterate my call upon President Eisenhower and his Cabinet committee on energy supplies and resources to study the oil imports problem and to recommend appropriate congressional action if the foreign operators themselves do not restrict their imports voluntarily."

"Excessive foreign oil imports are today's greatest threat to the Texas economy, to state revenues and to the nation's security," he warned.

Daniel said that Texas already has had to shut its wells down to 15 days production monthly partially because of excessive foreign imports.

"Continued restricted production at only one-half our capacity will eventually ruin the independent operators who own no oil in foreign lands and will throw thousands of Texans out of work, to say nothing of the serious loss in tax revenues," he said.

Daniel also said that Congress would be asked early next year to remedy "damage done" by the Supreme Court's ruling that the Federal Power Commission could set prices on natural gas transported out of the state.

Daniel planned to be in San Angelo and Abilene tomorrow and speak at a barbecue in Snyder tomorrow night.

Champ Hereford Title At Fair Goes To Roy Turner Bull

DALLAS (AP)—Breeders of Short-horn and Santa Gertrudis cattle gathered at the State Fair of Texas today for judging of the best entries in their breeds.

Also to be judged today were Rambouillet sheep and Poland China and Chester White Swine.

The champion banner of the Hereford show went yesterday to a bull owned by Roy Turner of Sulphur, Okla., former governor of Oklahoma. His entry was a senior yearling, TR Royal Zato 27.

Champion Hereford female was LS Duchess Mixer 54, a senior heifer calf shown by Roy R. Largent and Sons of Merkel, Tex.

The reserve champion bull was shown by Barret Hereford Ranch of Comanche and the reserve champion female was exhibited by J. K. Dobbs, Fort Worth.

Inka Carnation Maudlene, a 6-year-old cow owned by Joe C. Carrington of Austin, won grand champion honors in the Holstein show.

The Neale Farms of Waco showed the grand champion Holstein bull, Texas Superb Montvic President.

In the Hampshire sheep show all first places went to Mrs. Annie E. Wilson of Plano, Tex.

Duron Howard of Ryan, Okla., took all first places except one in the Southdown sheep show. Texas Tech won first in the yearling ewe class.

Ballews' Hampshire Farm of Clarendon won both grand champion boar and sow banners in the swine show.

Rotarians Have Program On Oil

The petroleum industry received some "Oil Progress Week" plugs at the Rotary Club luncheon Tuesday, with Glenn Rogers, high school debater, discussing progress due to oil.

Doyle Bynum, an oil industry representative, projected a motion picture entitled "24 Hours of Progress" and showing some of the present-day activities made possible by petroleum.

Young Rogers, president of the high school student council, declared that American has made more progress in the 98 years since the discovery of oil than in the two centuries prior to that date.

"Oil is the blood of America," he asserted, pointing out that all modern conveniences and the entire American way of life are dependent in some manner on the oil industry.

"Oil has built a firm foundation for America. Oil and progress go hand in hand. The oil industry is the American way of life," he concluded.

Rogers was introduced by Dell McComb, high school speech instructor. Program was arranged and presented by Vic Alexander.

Resignation of Dr. B. Broadrick, who is moving from Big Spring, was accepted. Dr. P. D. O'Brien asked Rotarians to assist in locating prospective members for an Optimist Club which San Angelo Optimists propose to organize here.

Lamesa Youth Wins FFA Meet Award

KANSAS CITY (AP)—Eighty-nine members of the Future Farmers of America, 15 from Texas, were given money awards here last night by the Santa Fe Railway.

Winners were selected by FFA state leaders. Those from Texas included:

Norman Tucek, Canyon; Bud Hale, Lamesa; Don Wisdom, Quanah; George Harris, Lubbock; Duane Lewis, Brownfield; Arville Newby, Springtown; David Risinger, Ferris; Huntis Black, Lometa; Thomas Alton, Richland Springs; Dannie Gansky, Schulenburg; Tommy Ellledge, Mahanki; Gary Pepper, Mount Pleasant; Kenneth Rosenberg, Nacogdoches; Kenneth Larson, Clifton, and Roy Brum-below, Rosenberg.

More Talks Set In Boilermaker Strike

GALVESTON (AP)—Another negotiation session was scheduled here today between AFL Boilermakers and the South Central Employers Assn.

A session was held yesterday but there were no reports of progress.

Federal Mediator J. W. Hubbard, who called the session, said the principal issue was a union demand for a 7 1/2 cents contribution by employers to the union welfare fund.

Hubbard said both sides had agreed on a 10 cents an hour wage increase.

About 5,000 members of the union have been on strike in five Southwest states since Sept. 25.

Legion Auxiliary Sets Comic Swap

INDIANAPOLIS (AP)—The American Legion Auxiliary announced today a nationwide "Operation Book Swap" to give children a chance to trade crime and horror comics for good books.

Mrs. Carl Zeller of Gibsonburg, Ohio, the auxiliary's national child welfare chairman, announced the program in a letter to all state departments.

Mrs. Zeller said community experiments in Canton and Sylvania, Ohio, have proved that "the millions of objectionable comic books now in the possession of the children of America can be eliminated by Operation Book Swap."
