

WAR BRIDES IN PEACE BONNETS . . . Three of the British war brides who arrived in a contingent aboard the "Henry Gibbons" show varying taste in hats. Left to right are Mrs. William Williams, Sharon, Miss.; Mrs. Everett Cline, Waverly, W. Va., and Mrs. Russell Helton, St. Louis. Their bonnets have but one thing in common-all are smart, but war brides are anxious to don American-made clothes as soon as they arrive while their American sisters adopt their former styles.

Farwell Wins First Game of Season

Taking their first win of the sea- Butterfat Hits High son the Farwell Steers downed the Price In Twin Cities Oklahoma Lane Cowboys in the rain here last Friday, as a dripping but enthusiastic crowd saw the lo- highest price ever offered for cals emerging on the long end of a butterfat was posted the first of 40-13 count.

utes old, Bobby Hart broke loose for No. 1 butterfat. Steer touchdown, and only a few that the price might go even at the noon hour. minutes later, Sheets took the ball higher before the close of the preand went sailing down from midfield to cross into paydirt. M. Ford booted the placement, and the count

After the two teams had scrambled around in midfield early in the second quarter, the Steers hit the end zone again, with M. Ford carrying it over and then adding the Attending Conference placement for two more points. Receiving the ball, the Cowboys were unable to penetrate the Farwell defense, and the soggy pigskin went back to the Steers in midfield, where the half ended.

Getting possession on the 30 shortly after the third period got under way, the Steers drove right on down the field, with Hart and M Ford doing the carrying to the 5, where Ford took it and went over for his third touchdown of the day. The try for placement went awry, and the score was 28-0. And then Oklahoma Lane pulled its big play opposition to cross into the end zone standing up. Sheets blocked Cowboys trailed, 28-6. Ford's fourth Carrell's return. score came about five plays later, after Farwell had made a first down on the 14 with Herington, shifted from center to back for a few plays, making a nice 10-yard gain.

Little Bobbie Smith, substitute, Bovina Methodists got the thrill of a lifetime in the third period, when he scored for Farwell from the 15-playing the first football of his life. The score soggy field on the 14.

The Cowboys racked up the only their extra point.

tried much aerial stuff, although stated. during the last touchdown drive, Grissom heaved a beauty to short Rundell, who managed to snag it on the 15, as he was surrounded by a bunch of Steers. Surprisingly, neith-(Continued on last page)

4.62 Rain Dumped Here Past Week

Dairy Show Opens Here October 17th Ushered in by a relatively heavy storm that did some property dam-

With dairy herd owners from Parmer and Bailey counties joining forcas, the annual Parmer county dairy show has been turned into a twocounty affair this year, and will be held in Farwell, beginning next Thursday, October 17, and concluding on Saturday, October 19.

Departmental superintendents are as follows: butterfat production contest, Billy Joe Foster; Jersey department, Sterling Donaldson; Milking Shorthorn department, Virgil Teague; Holstein-Freisian, W. E. Martin; Guernsey, Martin Fulcher, and 4-H Club, Leon Grissom.

The program reveals that the show barn will be open on October 16 to receive entries—all of which, incidentally, must be listed with the show manager not later than October 11-and in addition, the preliminary milking for cows entered in the production contest will be held that evening from 6 to 9 o'clock.

All entries must be on hand at the old cotton warehouse building in southeast Farwell by 6 o'clock on the opening day of the show, the 17th, with first, and final tests for butterfat production being held between 6 and 9 a. m.

ful swing, with the program outilning the hours as: Milking Shorthorn, 9 o'clock; Holstein-Freisian. With the game only a few min- er paying \$1.00 per pound for 11 o'clock; Jersey, 1 o'clock; and Guernsey, 4 o'clock. Also, a free bara 25-yard run that netted the first The prediction was also made becue for all visitors will be served

> show, is expected to draw the largest number of visitors, who are reminded, however, that animals may be taken from the barn by 4 o'clock. Only Registered Cattle

Entries are open to all registered cattle of the dairy breeds, but no animal will be accepted unless the owner presents certification of Bang's disease tests. A stall fee of 50c per head must be paid at the time the animal is brought to the barn, and in cases where fees are paid in advance and the animal is not shown, stall fees will be returned. All exhibitors must pay annual club dues of \$1.

In the butterfat production contest, any registered cow that has been fresh for at least six days prior to the preliminary milking is eligible, and all such cows must be in the barn not later than 6 p. m. on Wednesday, October 16. Two classes are set up, for cows four years old and over, and for cows under four years. Prizes are the same, \$10 for first, \$7.50 for second, \$5 for third and \$3 for fourth placings, Class champions will receive a ban-

In the Jersey, Milking Shorthorn, Holstein-Freisian and Guenrsey departments, classes to take care of various ages for both cows and bulls champions to be named.

age and inflicted considerable injury on growing crops, this section has been deluged with heavy rains since Thursday night of last week, terminating Monday morning.

Records kept here reveal that 4.62 inches of moisture was received during the three days and nights, with Saturday's moisture topping the list-totaling 2.14 inches.

A gentle rain began falling here Thirsday night and continued most of Friday. On Friday night the rain was accompanied by a rather severe southwest wind that leveled many fields and did damage to buildings. Southwest of town, the wind damaged the farm home of Mr. and Mrs. Sam Randol, leveled a chicken house on the Jim Harding farm, upset another chicken house on the Barney Harding farm, and also hit a chicken house on the Frank Phillips farm.

A barn at the John Hadley farm was damaged, and the roof blown from a barn at Charley Gray's farm, south of Bovina.

Wind Lays Feed Crops

Damage to near-mature feed crops is also being reported. On the N. L. Tharp irrigated farm, north of here, where feed crops had attained considerable height, fields were leveled by the wind, and badly matted by the wind, which The W. C. Darley Company of will make harvest difficut, if not

"THEY LIKE MY STORE BETTER ... because of Better Lighting"

Better lighting does help business.

Folks like to shop in a store that's attractive, a store where they can see what they're buying. Now, with electric power cheaper than ever before, modern stores are using better lighting to serve you better.

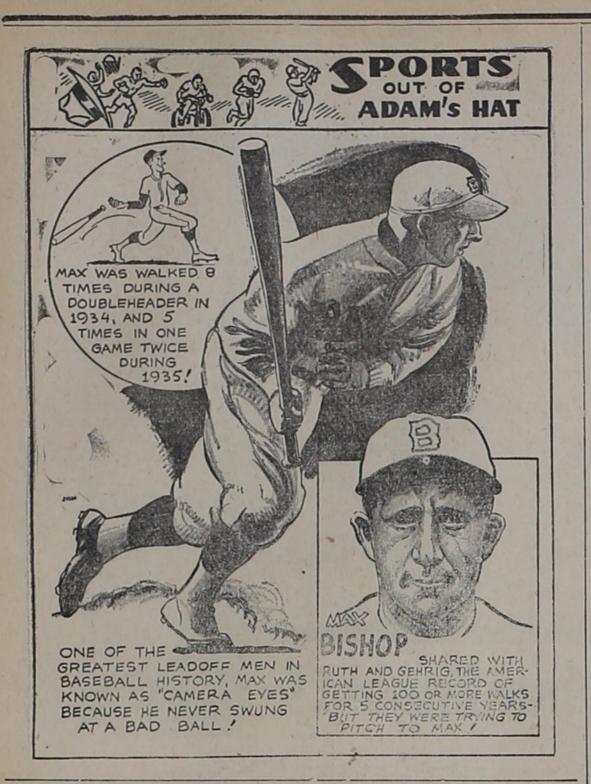

Your Public Service Company, 22 years old, is happy that its electric power is bringing prosperity to businessmen in the Panhandle-Plains Pecos Valley Area and improved working conditions for their employees.

A pioneer in building ahead for the future, we're bringing the advantages of low cost electric power to everyone as fast as we can.

Another in a series of advertisements designed to help build this fast-growing territory in which we serve.

They say you get 3 chances...

hen the rules of swimming are broken . . . or the distance is too far . . . they say you get three chances. The third time, you go down to Davey Jones' Locker for keeps.

Swimming is one of man's greatest pleasures. Yet, if the rules of safety are ignored ... pleasure turns into tragedy.

Natural Gas is one of man's greatest yearround pleasures. Yet, if the rules of safety are ignored ... the chances for tragedy on the "third" time are not in the book.

Yes, they say a swimmer comes up three times . . . but there is no set rule for the man or woman who flouts the rules of safety with Natural Gas. You might have one or a hundred or more chances if your rubber hose connection starts to leak.

Enjoy the benefits of Natural Gas to the fullest . . . house heating, water heating, cooking, refrigeration and air-conditioning ... but observe the simple rules of safety.

Replace your rubber hose connections TODAY with METAL TUBING, Don't take chances . . . you might not have that "3rd" chance.

Union Gas Southern

Few foods have greater suppertime appeal than a tomato aspic salad. It's so cool and caressing to the tongue, so refreshing in its garden fragrance, its mildly pungent flavor. And when the aspic has a can of condensed cream of tomato soup for the base, it takes on filling value, too.

Cottage cheese, heaped in the center of an aspic ring, adds fur-ther to this salad's fillability, its food value, and its savor. For cream cheese contains the same kind of body-building protein as meat. It has satisfying heft. And when its creaminess is punctuated by fresh vegetables it acquires texture interest of its own.

Time-saving, taste-assuring trick practiced here is the omission of a separate salad dressing. Instead, the dairy blandness is offset by pre-pared yellow mustard, real Worcestershire, and a stinger of distilled white vinegar, worked into the curds of the cottage cheese.

Tomato Aspic Ring with Cottage Cheese Salad Center

Combine, then heat for 10 minutes-1 11-oz. can condensed cream of

- tomato soup, undiluted cup grated celery
- tablespoon grated onion
- 11/4 teaspoons sugar 11/4 teaspoons salt
- teaspoon celery salt Dash red pepper cup water
- bay leaf.

Add, to above hot liquid, stirring until dissolved-

4 teaspoons unflavored gelatin (softened in 1/2 cup cold water for 10 minutes).

Addtablespoons distilled white vinegar.

Pour into ring mold which has been oiled or rinsed in cold water. Chill. Unmold when firm. Fill center with Cottage Cheese Salad (recipe below) just before serving. Garnish top with chopped green pepper if desired. Serves 6.

Cottage Cheese Salad

Combine, mixing we!!-

- pint cottage cheese tablespoon chopped green
- pepper tablespoon chopped green onion
- cup grated carrot teaspoon salt
- teaspoon prepared yellow mustard
- teaspoon Worcestershire sauce tablespoon distilled white

Students Still Being Accepted, McMurry

ABILENE-In spite of an enrollment figure that doubles any previous year in the history of McMurry College, present facilities are still available for late enrollees, according to Dean W. B. McDaniel.

"It is probable that many who want to enroll this semester are under the impession that no more students are being accepted at this time," continued McDaniel, "but actually enrollment is still going on. If a would-be student has a place to stay, there is nothing to prevent his enrollment at McMurry this late hour. As a matter of fact, there are still a number of housing facilities in Abilene available in the immediate vicinity of the campus, for both single and married students," he concluded.

As of October 1 the enrollment figure totaled 582. To care for this large increase over previous years, 15 additional faculty members have been added to the staff.

Mr. and Mrs. Sam Aldridge spent the past weekend at Albuquerque, where they attended the New Mexico State Fair.

Mr. and Mrs. Claude White were in Roswell the past weekend, visiting with their daughter and family.

Attractive Home For Farm Or Suburb

Calling for a small cash outlay? within the means of the average young veteran and his family, and also, well within the \$10,000 price ceiling set by NHA on new one-family houses, the accom-panying house plan is a model of compactness and practicality in planning aimed at cutting building costs to the bone.

A colorful roof of green asphalt shingles, contrasting with white sidewalls, lends eye-appeal to the house and protects the home from fire caused by chimney sparks and wind-blown embers.

The basic unit is a five room house, without the garage and the second bedroom, shown at the right lower corner of the plan. These may be included in the original home if desired or they may be added later. The plans call also for the heating plant in an ample utility and storage room on the main floor, but a basement may be provided if wanted.

Large Living Room

A seventeen foot living room, in the center of the house, overlooks a spacious screened porch at one end, and a rear garden area at the other. A bank of windows flanks either end of the room, "bringing the outdoors in," but doors to replace the center windows are optional.

The corner windows in both

Glass spans the front end of the dining area, a room that may be cut off from the kitchen by movable panels, if desired. The kitchen contains ample cabinets and a handy counter top, while the adjoining utility and store room has space for a laundry, workshop, and general storage, in addition to heating equipment.

(Note: For further information about the above house, send clipning and inquiry to Rider & Keis

SOVIET RUSSIA'S Post-War Aims And Long-Range Planning

(Condensed from St. Louis Post-Dispatch)

HE attitude of the top men in Russia's diplomatic circles toward the conciliatory efforts of the Western powers has been hard to understand. It has often seemed needlessly aggressive and the overall planning somewhat lacking in cohesion and longrange intelligence.

To explain even partially the current Soviet attitude it is necessary to remember that the men who lead Russia's international corps today are semi-Orientals who not only have had little to do with the Western world but have been actively discouraged from having anything to do with it.

They have been reared in an atmosphere of distrust for what they have been taught is a heretical system of selfish exploitation. They believe that there can be no good in a capitalistic nation because such nation is founded on a fallacious principle of government.

The attitude of the fanatical Soviet statesmen to the run-of-the mill Democracy is similar to that of an ancient Mohammedan zealot toward the Christian nations.

Russia's Aims

In view of this fanaticism it is important for us to ask what Russia's aims are in the post-war world.

The pattern is becoming increasingly clear and it is obvious that the overall plan was made many years ago. It is not an improvised pattern, but a carefully considered one.

Russia wants, first of all, to maintain an iron hand both from a military and a political point of view in her adjacent satellite nations. She has twice been attacked through neighbor territory within the last thirty years and she does not want this to happen again. Therefore, she insists on having either friends or slaves along her borders. That is why she insists on Poland, Austria, Romania, Bulgaria, Czechoslovakia and Yugoslavia following her or-

She wants to fortify the Dardanelles and to obtain navigation rights along the Danube so she can have a full share the peace according to her own strategy in the control of the Mediterranean. She fears British dominance in the Mediterranean and in other areas of Europe, Asia and Africa.

Russia insists on "protecting" her people from what she claims is capitalistic propaganda in much the same way that the Christian churches seek to protect their communicants from heresy.

She is accomplishing this by developing the nationalistic spirit to a high degree and by constantly pointing out the alleged weaknesses in democratic pro-

In short, Russia wishes to gain everything she can short of war. She does not want war now, but is trying to win

PREMIER JOSEPH STALIN Stalin said recently he does not believe there is danger of a new war.

and way of thinking.

Fear of Encirclement

The Russians have often stated that they are in constant fear of "encirclement," by the Western powers, although in a recent statement Stalin said this could not be done.

It is obvious that Russia intends to

build up an ideological hedge of buffer States between herself and the rest of the world. She intends to maintain the famous "iron curtain" indefinitely and will emerge from behind it only to negotiate or, perhaps, threaten to make

This insistence on buffer states is responsible for some of the weirdest political mix-ups taking place today in the Russian zone of Germany. The Soviets have complained loudly about the slowness of our de-Nazification of the American zone of Germany, but they themselves are accomplishing that objective by the simple expedient of enrolling all the known Nazis they can lay their hands on into the Communist party.

Perhaps the most notorious case of this is that of Erwin Berghaus, a former Goebbels hireling. Berghaus is the author of "U. S. S. Nackt" ("U. S. A. Naked"), an important Nazi propaganda tract during the war.

When the war ended, despite international agreements that all known Nazi propagandists would be barred from all German media of information, Berghaus had no trouble in getting a job on one of the most popular illustrated weeklies within the Russian zone.

Nazis Preferred

The Berghaus case is not unique, nor is it an accidental oversight. There are even some categories of employment for which the Soviets actually seem to prefer former Nazis. One such category is the efficient corps of German spies, propaganda agents and agents' provocateurs who have been taken over en masse by the Russian

Another category of even greater interest is the corps of leaders and organizers of the "Free German Youth." General Zhukov has incorporated this highly organized group into a Soviet imitation of the Hitler Jugend. There is the same regimentation, the same political emphasis (though from a different angle), the same arrangement of special training and indoctrination for youth leaders. The most important school in this regimented hierarchy is a huge chateau which formerly belonged to Goebbels.

These bands of Soviet youth were filled up by giving Hitler Jugend leaders a short probationary course and then putting them in business again at the same old stand.

Former Nazis who did not hold too conspicuous positions under Hitler are

allowed to purify themselves automatically by joining the Unity Party in which the Soviets have forcibly merged Socialists and Communists in their zone.

At a single meeting in Zepernick, 110 former Nazis were herded together and told that they could gain forgiveness for their former sins by joining the Communist-controlled Unity party there and then. All 110 signed up en masse. They knew from experience what would happen if they refused.

Among Scientists

The Russians are particularly eager to let bygones be bygones when dealing with top Nazi scientists. Since every scientist in Germany had to be a party member, our own industrial aims in the American zone have been hampered by our rigid de-Nazification policy.

But not so among the Soviets. While we have been throwing many of the best German scientific brains out of jobs, the Soviets are hiring them as fast as they can. And they continue to attack our slow de-Nazification processes while they do so.

The Soviet hiring is done by organized agencies. Naval construction engineers are badly wanted by the Reds, for instance. Since the Potsdam agree-

naval construction men. Among those that have been hired are the great engineers, Hartung and Geister, who took leading parts in the development of the revolutionary longrange, radar-proof submarine which the Germans completed but never got to use during the war. Geister and Hartung are now working in Russia, presumably developing this highly useful underwater vessel for the Soviets.

ments. German shipyards have been shut down tight. So the Russians have hired all the best German

Lesser scientists are being put to work in the Soviet zone of Germany. More than 1,000 are employed in one plant in the South Harz where V-A rockets are being manufactured. And this development of a Soviet war-petential on German soil is taking place everywhere behind the "iron curtain."

The Soviet aim in Germany is simple. The Hitler Jugend were trained by the top Nazis in an efficient, though perverted, school of leadership. They were trained to take over the country and the Germans were trained to accept them as future leaders. Should America, France and England withdraw from Germany the Russians will also effect a token withdrawal. But the highly trained youth leaders will infiltrate into every corner of Germany and possibly take over the political reins.

Only, now they will be working for (Continued on Page 5, column 1)

RODEO, Thrilling and Hazardous Sport

By BOOTH MOONEY

1339 Liberty Bank Bldg., Dallas, Texas. IX/ITH the war out of the way. scores of Texas communities this year turned again to the great sport of rodeo. Tens of thousands of Texans again thrill to the sight of intrepid cowhands riding rearing, bucking bronchos to a finish, sitting astride mad Brahma bulls, roping skittish calves and trick-riding recklessly and

The rodeo came back with a bang in Texas. Many annual rodeo events ing cowboy-and-cowpony shows staged that were suspended during the war in Texas during the year. Hardly a sec-

commodate visitors attending its Fat Stock Show and Rodeo in November. The "Preview Madison Square Garden Rodeo," tuning up for the big national rodeo in New York City, was held in Dublin, Erath county, last month. A highly successful rodeo was recently staged at Arlington, Tarrant county, and the 29th annual Panhandle-South Plains Fair, held in Lubbock, in the heart of West Texas, featured a

The first rodeo offered to the public as a paid entertainment feature was fifty-nine years ago.

Events of the Rodeo

The basic event of all rodeos is sad-(Continued on Page 7, column 3)

JAPAN One YEAR After Occupation

By SPECIAL CORRESPONDENT NE year after the surrender of Japan, Gen Douglas MacArthur, Supreme Commander of the Allied Powers, issued a summary of the first year of the American occupation of that country. Much has been accomplished during that year, General MacArthur said, and much remains to be done. The year, he said, has shown a sig-

nificant gain for the "forces of democracy in furtherance of a durable peace."

In issuing his report, General MacArthur recalled the principal purposes announced by the occupation authorities when they took over the country a year ago. His report showed that definite progress has been made in certain important respects.

Free Election

For one thing the Japanese, wholly unaccustomed to democratic processes, held their first free election during the year. This election enabled them to choose a government of their own and was participated in by women as well as men, thus marking a definite break from past customs of Japan.

Another important purpose of General MacArthur and his aids was to break down military caste and military worship by the Japanese people. Long strides have been made in that direction. The military is pretty well discredited, the army and navy have lost face and should never again be able Japs generally.

The Emperor of Japan, still regarded by his people as their true from the first with establishing and

tion back on its feet. Japan, it should be remembered, was ravaged by war less than Germany. The atomic bombs, terrible as they were, affected only two cities. Today the other Japanese cities that were bombed are being re-built and intensified interest in agriculture is being encouraged.

General MacArthur was concerned late the production and distribution of

CURRENT COMMENT

Cream of German Science Skimmed

XPERTS of the U. S. Office of Technical Research are carefully reading approximately 3,500,000,-000 pages of secret and confidential German scientific data in Berlin and sending the cream of it back to the United States.

Approximately 100 OTS editors, supervisors and microfilm experts and 600 German technicians, plus an undisclosed number of military personnel, are engaged in the task. Approximately three million pages of the material will reach the United States, or slightly less than ten per cent of the total mass.

The OTS authorities say that Germany was the only country in the world with any quantity of scientific data which was not available in this country. Much of the data includes first hand reports on important experiments and numerous secrets of the famous I. G. Farben munitions firm.

OTS is making many of its secrets available to American industry. Already listed are reports on the German manufacture of soap, leather, adhesives, paints, varnishes and synthetic waxes.

Auto Makers Hopeful

Although the nation's car builders expect little improvement in their production figures in the immediate future, they still hope to build as many automobiles and trucks during the remainder of the year as they turned out during the last eight months.

If this figure is reached, the aggregate production for 1946 will reach 2,300,000 passenger vehicles and 1,-000,000 commercial units. That figure will be a few thousand short of the 1939 production.

Main difficulties being encountered are shortages of parts and raw materials and of manpower.

Thunderstorm Problems Studied

"Operation Bluestreak" is a phrase that Americans will grow familiar with during the next few years.

It represents an effort by the U.S. Weather Bureau, working in close conjunction with the Army and Navy, to solve mysteries of thunderstorms. The Army Air Forces consider this attack on one of nature's most perverse and powerful mysteries so important that it has granted it a priority second only

to atomic research. It will result in the gathering of information so precise that experts will be able to predict possible eventualities arising out of any given storm. It will also enable control tower personnel to tell pilots whether they should fly around or through a storm or not fly at Mailing Dates Revealed

Christmas packages for soldiers overseas may be mailed without request slips between October 15 and November 15 this year. The dates are a month later than those prevailing during the war.

Packages for soldiers in far distant places, such as Korea, should be mailed in October, however, postal authorities warned. The smaller number of men overseas has made a later gift mailing date practicable, the announcement

Weak Reich Forecast

Lt. Gen. Lucius D. Clay, deputy military governor of the American zone in Germany, has declared that it will take "at least until 1950" to bring Germany even to the low subsistence level agreed upon by the occupation pow-

Clay said Germany no longer has any war potential of its own and, even if left completely alone, could not develop the physical necessities for making war within ten years. He said the U.S. military government could turn over its duties to a civilian agency at a moment's notice. He added, however, that the German mass mind has not moved very quickly along the paths of democracy.

A Cure for Plague

Plague, which has been the curse of almost every country of Asia and Africa at one time or another, can now be wiped from the face of the earth by

widespread application of the common drug, sulfadiazine, according to Dr. Karl F. Meyer of the University of California.

The drug is now being used in China, a perennial plague spot. It is used as a preventative and not as a cure and has cut down plague outbreaks to

Dr. Meyer said he believed the vicious plague chain of flea-to-rat-to-numan could be broken by employing sulfadiazine among humans and DDT among the rats and fleas. The cost of elminating plague comes to about 15 cents a person.

Pensions Mount

A flat 20 per cent increase has been added to all First and Second World War pensions as the result of action taken by Congress at its last session.

Pensions and compensations cost

Uncle Sam \$1,250,000,000 during the ers" will watch the world shrink. Ber-12 months ended last June 30. The cost would be greater this 12 months even without the increase. Many Second World War veterans who have applied for pensions haven't yet been awarded them. Others who haven't applied will do so soon.

The new pension legislation will cost somewhere around \$300,000,000 the first year, the Veterans' Administration estimates. Two million veterans of both world wars and 400,000 dependents of deceased veterans will profit.

The tongue-tied suitor.

U. S. All-Atomic Air Bombardment Force

The first U. S. all-atomic air bombardment force is now training at a half dozen air bases in the Southwest.

The shaping and molding of an unparalleled unit of bombardment destruction is underway, should it ever again be needed as a national or international force.

ual force of 12,000 men who will comprise this country's initial step into the atom-bombing field on a mass scale are now assigned to Brig-Gen. Roger Ramey's 58th Very Heavy Bombardment Wing.

Next spring will mark the first time these atomic bombers will maneuver on a global scale. They will operate as a completely air-borne entity and as one of the fastest moving task forces, if not the fastest in the world.

Airmen who will fly the "A-bomb-

for so much gas load at specific alti-Women to Outnumber Men

lin no longer will be 2,900 miles away,

but will be nine flying hours, allowing

The U. S. Census Bureau claims the population of the United States will reach a peak of 165,000,000 people in 1990 and that the women will continue to outnumber the men. Present population is 140,840,000.

The forecast, based on assumptions

of medium mortality and medium fertility, contends that females will maintain the 370,000 population edge they now hold over the males until the year 2,000. It also predicts that the population will fall off after 1930 at a rate of approximately 180,-000 a year.

Third Bikini Blast Put Off

President Truman has postponed indefinitely the third Bikini atom bomb test, a deep underwater explosion which had been tentatively set for March 1, 1947.

The President said the first two tests had provided enough information for the experts to make a proper evaluation of the weapon and further results would not justify the expense of the \$35,000,000 necessary to conduct the experiment. The first two Bikini blasts cost the government about \$90,-000,000.

Potatoes for Stock Feed

The North Dakota Research Foundation has reported to the American Chemical Society that a cheap method of converting potatoes into stock feed has been discovered. The report said that farmers will now be able to market inferior grades of potatoes which are usually unsalable.

The new process reduces the potatoes to a pulp and dries the pulp to the con-Only a working nucleus of the event- sistency of ground grain. It costs about one cent a pound.

Post-War Treatment of Germany

Secretary Byrnes thinks the time for a showdown on post-war treatment of Germany is now.

In order to dramatize his action, he traveled to Stuttgart in a train formerly used by Adolf Hitler. He could have delivered his speech in Paris, but he chose to go into Germany to find a spotlighted stage for his address. The American people, he knew, were looking forward to the speech for an indication of our foreign policy. The Russians, he was certain, were keenly interested, and his remarks were addressed-actually-to them.

Secretary Byrnes said the United States was in Europe to stay and that it proposed to keep a military force there until the German question was

"We intend to continue our interest in the affairs of Europe and the world," he declared. "We will not shirk our duty. As long as an occupation force is required in Germany the Army of the United States will be a part of that occupation force.'

This was serving blunt notice on the Russians that the United States does not intend to abandon Germany to Communist influences which are trying to convert the former followers of Hitler into being followers of Stalin.

Editors Urge World Freedom

The American Society of Newspaper Editors has formally asked the United Nations to adopt a covenant to establish world freedom of information and of the press.

Similar resolutions have been presented to the United Nations previously, but no definite action has ever been taken. "We believe that if the peoples of the earth are to get along together in peace there must be tolerance, good will and understanding," the editors stated in their resolution. "There is but one road leading to this imperative world estate and that is freedom of information, by which all peoples shall know and understand the problems of others. Our object is, in short, to spread the truth.'

Planes Serve Whole Nation Express and freight are taking wings

in the United States.

automobiles, are traveling through the Johnston set a mark for conventional knew it all when I was only 16 years skies. Giant planes, called flying box- type planes by averaging 373.9 miles cars, drop down on big airports with their loads of freight. Other powerful machines tow trains of gliders across the country. And packages tumble out of the skies by parachute to express and post offices in communities so P-39 for his flight. Lundquist performsmall that they are not major stopping points on the air lines.

In time, say leaders of the industry, delivery of freight and express by airHoover Explains Jugoslavia Ingratitude

An interesting footnote to the Marshal Tito incident is contributed by former President Herbert Hoover, who points out that Jugoslavia received some \$200,000,000 worth of food, clothing, and farm implements from the United States.

Instead of gratitude Tito's regime responded with violence against United States fliers.

Why should a people which we aided so generously act like our enemies instead of our friends? Mr. Hoover gives the answer to that one. He explains that the Jugoslavs know nothing about these gifts because they live in a communistic State with a completely controlled press. It never suited the purpose of their Red leaders to reveal the source of food and other supplies distributed to the people. They themselves took credit for providing these supplies, thereby seeking to increase their prestige and power over the people.

Mr. Hoover makes one other point in his discussion of Jogoslavia. Tito, he says, maintains an army of 750,000 men out of a population of 14,000,000. If these men had been home farming and helping to rehabilitate the nation, Jugoslavia would not have needed so much help from the United States.

Millions of Vets Drop Life Insurance

World War II veterans have allowed upward of 90 billion dollars in government life insurance to lapse through non-payment of premiums. More than 10,000,000 soldiers have failed to keep their policies in force after leaving the service and only 2,700,000 have kept up the premiums.

Veterans can reinstate their policies without a physical examination before February 1, 1947, by paying premiums for two months and signing a statement that their health is as good as it was when they allowed their policies to lapse.

Urges Fight On Communistic Elements

Fritz G. Lanham, retiring as Texas' district 12 Congressman after 27 years' service, sounded a call to arms against 'subversive and communistic forces,' which he charges are promoting the trend of centralized government and industrial strikes in their effort to destroy our capitalistic system and replace it with communism.

"Unless we of America awaken, they will turn us into a communistic State," he warned, adding that "in a communistic State all are government serfs and slaves except the little group doing the

Food Supply Cut

The world's food production, on a per capita basis, is about 12 per cent lower today than it was before the war.

Despite tremendous losses of life from war, the world's population is 7 per cent greater than in 1939. Meanwhile, war devastation and labor shortages have reduced the actual production of food about 5 per cent.

Vet Housing Looks Dim

Housing Expediter Wilson W. Wyatt says that there is little hope for the nation to complete 1,200,000 new homes for veterans by January 1 as previously planned.

At the end of July only 287,000 new units had been completed and a mere 194,200 of these were permanent. The rest were trailers, conversions of existing buildings or surplus war housing.

Wyatt is making a drive to stop all unnecessary non-residential building. Not only has this commercial building interfered with priorities for veterans homes but it has drained off the majority of skilled laborers in the building trades. Plumbing is one of the major shortages; many houses stand complete except for pipes and fixtures.

Heart Disease Spreads

About 4,000,000 persons in the United States have some form of heart disease and the number of cases is rapidly spreading, according to statisticians of the Metropolitan Life Insurance Co.

Main reason for the prevalence of heart disease is the much larger percentage of older people in the population of this country today, the statisticians said.

Aviation Speed Record Set

New aviation records were written into the books at the recent revival of All kinds of goods, from orchids to the National Air Races. Alvin "Tex" an hour for 300 miles, and Maj. Gus Lundquist took the jet plane trophy by averaging 518.8 mph over a 180-mile

> Johnston used a specially souped-up ed in a Lockhead P-80 Shooting Star.

The sustained flight speed prize was won by Paul Mantz, who piloted a P-51 Mustang 2,045 miles from Van Nuys. plane will equal the present air mail California, to Cleveland, Ohio, at an average speed of 435.5 miles an hour.

Grass Root Reveries

By JOE GANDY

(Copyright, 1946, by the Southwest Magazine Co.) OOD old September came through gloriously with rains that improved crops and brought cooler weather. We now go into October refreshed and ready for a full program of fall work. I have plowed and planted

grain, repaired the barn and chicken

house and fixed up the fences. Wife

says I am not as lazy as I used to be though it takes me longer to do the job. She is right. Once upon a time I had a strong back and weak mind, now I have a strong mind

and weak back.

These cool October days and nights remind us that winter is on its way in and summer on its way out. We talk a lot about summer heat, but we need heat to grow and mature crops and kill off insects. The world needs all kinds of weather and

all kinds of people. Who would care buy a good porter house steak from any to live in a world that is all winter, or all summer, or all Republican, or all Democrat, or all New Deal, or all Com-

"Them wus the good old days."

About the only happy people these meatless days are vegetarians. neat eaters are sad and worried; they miss their breakfast bacon, their juicy roasts, steaks and pork chops. Meat eaters will learn something, will learn that man can live and be healthy without meat if he eats meat substitutes, such as whole milk, cheese, butter, eggs, nuts, whole wheat bread and cereals. While meat substitutes do not appeal to many folks, they are a lot better than some meat now sold over the counter. This meat is tough, stringy, that long cooking does not make tender. The more you chew it the more it resists chewing until finally you give up in disgust and toss what is left to the cats and dogs. Takes pati-

ence, forbearance and old-time religion laundry-soap shortage will continue to cope with the meat situation.

"Women are better auto drivers than men," according to State Highway Patrolman John H. Boyd of Fort Worth. "Men drivers figure in more accidents than women drivers, are overconfident and think they know it all," Boyd said. Good auto drivers have to be alert against careless drivers who weave in and out of traffic, make left turns with-

out signaling and pass other autos on the road at high speed without sounding their horns. Many careless drivers have the physique of a man and the mentality of a child.

the horse and buggy days, but 'them wus the good old days,'" said an oldtimer to me recently. He talked on: "Yes, sir, food was plentiful and cheap — you could

butcher for 25 cents, breakfast bacon for 10c a pound, eggs 10c a dozen, butter 25c a pound, fryers 15c each, hens 25c each, turkeys \$1 each. At the store a good white shirt cost a dollar and a good suit of clothes \$15. The finest kind of food and plenty of it was served at restaurants and boarding houses for 25c a meal." This old-timer was telling the truth, "them wus the good old days," and we shall not look upon their like again.

Another factor in the soap shortage is that housewives have grown careless about saving kitchen fats. During the war housewives were conserving fats at the rate of 200,000,000 pounds a year. a great part of which went into soaps. However, with no patriotic impulses to out gobs of advice to all who would stop continue the practice, much fat is now and listen. At 35 I had some doubts going down the drain or into the gar- about knowing it all. At 40 I began to bage can, the Commerce Department have some sense, realized I was ignorant

until the end of the year. This soap shortage has hit the Gandy family. Wife is compelled to use toilet soap to wash the dishes. As a consequence, some dishes in which food is served smell of heliotrope or lavendar, depending on what brand of toilet soap was used to wash them.

More than a million United States veterans of World War II are back on the farm. Indeed on July 1, an announcement by the Bureau of Agricultural Economics shows, there were 1,-045,000 veterans employed on farms. Of these, 713,000 were either farm operators, or members of farm operators' families, while 332,000 were hired workers. This trend of veterans to farms is a hopeful sign. May more of them choose farming as a vocation. "We poke fun at coming years will prove that owning and operating a farm is one of the surest and safest investments.

> On his eighty-third birthday Henry Ford was asked what advice, if any, he had to offer young people. The aged industrialist, whose success, through hard work, is typically American, advised the youth of today to "work hard." But it's a sad fact that many youths today do not want to work hard They want an easy job and a fat salary. They dream of starting at the top instead of at the bottom as did their fathers and grandfathers. However, it doesn't work out that way. Youth must learn that hard work is essential to the winning of success and happiness.

What really counts in life are the things we learn after we know it all. I of age. I was as ignorant as a jackass at 16 but knew it all. At 20 I still knew it all, knew more than either mom or pop. At 25 I still was a very smart young man and could tell anybody how to run their business. At 30 I was still a wise guy, ready to hand estimates, and further says that the and had been a dam fool all my life. —PAGE 3—

TEXAS BRIEF NEWS --- from Over the State

16,720 IN TEXAS UNIVERSITY The University of Texas fall registration came to a close September 21 with 16,720 paid fees and a possible 50 fees yet to be paid. This number is the highest in the University's 63 years.

POOR PLACE FOR A ROBBERY

Two would-be holdup men picked the worst time and place in Dallas to rob C. C. Ross, a taxi driver. They pulled a gun on him just as Ross' cab arrived in front of the police station during a shift change. Eight police officers were on hand to stop the holdup.

RATTLESNAKE WAR WAGED

Citizens of Nolan county have killed 1,196 rattlesnakes this year and have collected 50 cents for each rattler brought in. The county pays the bounty and the skins are turned over to A. N. Prince for his museum. Prince has 11,682 rattlesnake tails in his collec-

SPANISH WAR VET GETS PAY

A Spanish War vet in Dallas, with the help of the Dallas Veterans' Service Center, recently received transportation pay of \$200, due him ever since his discharge in 1900. The soldier had paid his own way home from the West Coast and it took him 46 years to collect the railroad fare from Uncle

WANTED TO BUY A TOWN

The War Assets Administration in Dallas received an inquiry recently from a man who wanted to buy a small Texas town, "fully equipped." The prospec-tive purchaser said the town had to have a postoffice, church, store and nearby farms, and he wanted it on 40 years credit, 3 per cent interest rate. The WAA turned down the offer.

HUNT ZONE PLEA DENIED

The Department of the Interior has denied the plea of North Texas sportsmen to divide Texas into two sections for hunting purposes. The sportsmen had complained that ducks would already have migrated out of North Texas by the time the official hunting season for Texas had opened. The Department of the Interior claims it is impossible to make equal hunting opportunities for everyone.

BANK DEPOSIT GAIN

Texas registered the second largest percentage of gain in bank deposits during the war period of any State in the Union. Deposits more than doubled between 1940 and 1945. Texas bank deposits now rank fifteenth in the nation, with deposits totaling more than two and a quarter billions. The State of Washington was the only State showing greater gains than Texas in bank deposits.

LEMON DEHYDRATION PLANT

Valley lemon production received an additional shot in the arm recently when C. P. Melton, a veteran citrus grower of Mercedes, Hidalgo county, announced a plan for dehydrating lemons. He says dehydrating will not only allow the farmers to sell their low quality lemons but they will also get better prices for high grade lemons. He said his plant hoped to dehydrate 700 tons of lemons during the current

ELLINGTON FIELD REACTIVATED Ellington Field, near Houston, is back on active duty with the Army Air Forces. The field, which was placed on a temporary inactive status last April, will provide facilities for air reserve training. According to Maj. Gen. Howard M. Turner, commanding officer of the 10th Air Force, under whose jurisdiction Ellington will be operated, the field is being opened to air reservists in Houston and the surrounding territory so they can maintain the flying proficiency they built up during the war.

INVENTOR TURNS TO DOLLS

Marcus P. Exline, Dallas insurance agent, has made a profitable hobby of inventions. In his spare time over the years he invented the waxed-paper stamp container, the three-to-a-page check book and many forms of looseleaf ledgers which have become popular. Now Exline is concentrating on making life more pleasant for the shutin children of Dallas by inventing and manufacturing a new type of doll with " neatly stored. an India-rubber face. The pliable features of the doll enable the child to change the expression on its face at

NEW PLASTIC PLANT

The Monsanti Chemical Plant has announced that it will install a major plant for the production of styrene plastic at Texas City, Galveston county. The plant will use basic raw material produced in a 50,000-ton styrene monomer plant in the Houston area town which the Monsanti Company bought recently for \$9,500,000 from the War Assets Administration. The company chose Texas City because of its freight cargo shipping facilities and hopes to turn out 80 million pounds of plastic a year in its new plant.

TEACHING VACANCIES ANNOUNCED

There are 5,000 teaching vacancies in Texas, according to L. A. Woods, State Superintendent of Public Instruction. Woods advocates higher salaries to make teaching more attractive to competent persons. He also advocates a 12-month program of allround education.

TRAFFIC DEATHS KEEP GOING UP

More fatal traffic accidents are occurring in Texas this year, according to an announcement by the State Highway Patrol. For the first eight months of the year the toll was 1,185 deaths in 1,011 accidents, compared with 835 deaths in 732 accidents in the first eight months of 1945. Greatest increase was in towns of less than 2,500 population, where there were 773 per cent more fatal accidents and 70 per cent more deaths.

YOUTH TRAINING WORK

The University of Texas this year is offering a degree program new to the Southwest, one which will train men and women for jobs as executives of youth-serving organizations. The new courses are designed as an answer to the needs of such groups as the Boy Scouts, Girl Scouts, Camp Fire Girls and similar organizations. The program offers the bachelor of science degree in education.

FOOD LOCK-

ERS INCREASE There are now 402 food locker plants doing business in Texas. A survey by the Farm Credit Adm inistration shows that only six other States in the union have 400 operating locker plants. There are now 8,025 plants in the United States, while there were only 2,870 in 1940.

> NAZI LIKES TEXAS

Anton Schuler, age 21, an escaped German prisoner of war and veteran of the Afrika Korps, came to like Amarillo, Texas, so much while he was a prisoner there that he tried to return

recently. He had been transferred to a POW camp in France and grew homesick for the Lone Star State, so he stowed away on a freighter bound for Texas. He was caught and returned to

onstrations.

SAFE DRIVING PRACTICES ARE TAUGHT IN STATE SCHOOLS

A number of public schools of the State this year are offering courses in safe driving of automobiles. Most ambitious safety teaching program is that of Crozier Tech in Dallas, where an effort is being made to establish a course that will serve as a model for other schools.

HUSBAND STUDENT, WIFE TEACH-

ER AT SAN ANTONIO COLLEGE Mr. and Mrs. John R. Edwards, of San Antonio, both go every day to San Antonio Junior College. Like many other Texas war veterans and their wives, they are striving to achieve the ambitions that were postponed during the war. The unusual thing about their story is that Mr. Edwards is a freshman student in the college and Mrs. Edwards is a teacher in the same institution.

STORED LOOT IN WOODEN LEG

A one-legged suspect in a Hempstead Waller county, robbery was searched for the money he had stolen without success. Puzzled policemen could not find the money they knew he had stolen. Finally an officer requested the suspect to unscrew his wooden leg. Inside the leg the police found the loot

WAR DADS CONVENE

The Texas State Association of War Dads, meeting in Fort Worth recently, passed numerous resolutions designed to give aid to GI Joe and Jane. Resolutions included a petition to Congress to increase the allotment ceiling of married men in on-the-job training; a demand that the War Assets Administration grant veterans a top priority on household goods; a petition to Congress to create an emergency building program on the same scale as the war plant building program during the war and similar constructive suggestions. The War Dads also asked Governor Coke Stevenson to set aside an annual "Remembrance Day" on the Sunday closest to Pearl Harbor day each year.

CAMP HOWZE GOES ON SALE

The veterans' housing program got a major boost late in September when Camp Howze, near Gainesville, Cooke county, went on sale as surplus property. This was the nation's first postwar sale of an Army camp. The North Texas installation, where thousands of 3,000 acres of which were pretty well is still growing. covered with buildings.

U. T. SCHOLARSHIPS AWARDED

New fellowships and scholarships at the University of Texas, amounting to \$9,425, have been awarded by the Board of Regents. The scholastic prizes went to nine individuals and were mostly for scientific research. Highest award went to Harold Schmidt, of Austin, who received a \$2,100 fellowship given annually by the National Gasoline Association of America for research in chemistry.

PAVED STREETS WITHOUT TAXES Poth last month became the first town in Wilson county to have paved streets. A San Antonio construction company put down 38,765 square yards of paving for the little city, which at the last census showed a population of 509. This covered 20 blocks and the entire plaza at a total cost of \$31,-092.20. The total sum was paid without any tax, each property owner paying his own share.

State who are receiving their \$20 a

week as provided under the GI Bill of

Rights. Maximum time for receiving

TEXAS GETS MELON CHALLENGE

has challenged Texas to an all-out final-

decision fight regarding the size of the

watermelons prevalent in each State.

The Arkansas Governor sent Governor

Coke Stevenson what he called "a

slightly stunted melon from our 1946

crop" weighing 125 pounds and also

sent a whopping 140-pound melon to

the Dallas Morning News. The chief

executive of Arkansas challenged Texas

to send him any melon as large as one

DRINK IS DEER'S DOWNFALL

in the Fort Worth Zoo, eloped recently

with True Love, a very attractive doe.

Their break for freedom failed when

True Love was captured by zoo attend-

ants shortly after her escape. Buck

proved more elusive, however, and was

trapped by a negro maid who left cool

drinking water out for him in an en-

closed yard. The zoo authorities nipped

the illicit romance by putting the two

in separate pens with taller fences.

Buck, a handsome high jumping deer

of his entries.

Governor Ben Laney, of Arkansas,

the \$20 pension is 52 weeks.

Unemployed veterans in Texas are

TEXAN TALLEST BASKETEER

Elmore Morgenthaler, of Amarillo, Potter county, is the tallest basketball player in the nation. He stands seven feet one inch and he will lead the Boston College, Mass., team this year. In his freshman year at New Mexico School of Mines he was the second infantrymen were trained during the highest scorer in the land. Morgenthalwar, extends over 58,000 acres, about er weighs 216 pounds and believes he

PAN-AMERICAN FAIR PLANNED

The Pan-American Fair and Livestock Show, planned for Laredo, has been given the go-ahead signal by the Webb county commissioners' court. The court passed an order to authorize the Webb county judge to acquire priorities and materials for the construction of buildings, including a large, modern \$350,000 coliseum. Construction of the buildings will be financed by the issuance of time warrants.

> EXCUSE UNUSUAL, FINE SUSPENDED

Dallas City Judge Joe M. Hill suspended a traffic violation fine recently because the defendant produced an original excuse. Hart Bowman appeared in court on an overparking charge, and said a swarm of bees prevented him from moving his car in time. "When I came for the car," he said, "a swarm of bees had taken over. I was scared." The judge said he would have been, too, and suspended the fine.

> GOVERNOR TESTS RADIO-TELEPHONE

Governor Coke Stevenson and Mayor Otis Massey, of Houston, had a strange telephone conversation recently. The Governor was at his desk, but the mayor was cruising around Houston in an automobile. It was the first time the new mobile radio - telephone test had been attempted in Tex-

> AT LAST A PENSION

William Henry James, of Grand Saline, Van Zandt county, entered the Confedate Army when he was 15 years old, 82 years ago.

On Sept 1, 1946, he received his first pension check for his service. The pension will amount to \$100 a month.

MORE NEW CARS IN STATE

If it's any consolation to people with ancient automobiles, the official report is that those shining new 1946 model cars are increasing in numbers all over Texas. The University of Texas Bureau of Business Research has reported that August sales of new automobiles were 22 per cent above those of the previous month.

LICENSE RULES RELAXED

Out-of-date drivers' licenses may now be renewed without examination because the State examiners are just too busy to make sufficient tests. The respite is only temporary so that examiners can catch up on their work. Eighty examiners gave 308,488 tests during the first seven months of the year, as compared with 180,261 during the same period last year. This increase in business was handled with no increase in personnel.

TEXANS GET LEGION OF MERIT

Two Army colonels and a Women's Army Corps major from Texas have been awarded the Legion of Merit for wartime service in the United States, according to an announcement by the War Department. The two men receiving the award were Col. George D. Barnes, of El Paso, and Col. Simpson R. Stribling, of Waco. WAC major Treila M. Welch, of Houston, also was cited for her wartime work.

TEXAS VETS GET SHELTER

Nearly 50,000 Texas veterans are now living in public housing provided by the Federal Public Housing Authority, according to Marshall W. Amis, regional FPHA director. Of that number, 40,279 are quartered in war housing units; 4,366 in low-rent housing, and 4,878 in temporary housing.

BUILDING PERMITS UP

Building permits in 44 Texas cities totaled \$18,338,253 in August, 15 per cent above July values, according to a report by the Bureau of Business Research of the University of Texas. The August figure was 169 per cent above that of August, 1945.

STATE OFFICIAL ACCIDENT VICTIM

Weaver H. Baker, chairman of the State Board of Control, was killed in an automobile accident September 22. Baker was a former law partner in Junction, Kimble county, of Gov. Coke Stevenson.

TEXAS POSTAL RECEIPTS HIGH

· Postal receipts totaled \$2,254,563 in 53 Texas cities in August, the Bureau of Business Research of the University of Texas reports. Receipts were some 2 per cent below those for July but were 2 per cent above August of last

TRAIL DRIVERS HOLD REUNION

The Old Trail Drivers' Association of Texas held its 30th reunion in San Antonio October 3, 4 and 5. The ranks of original pioneer members have been thinned by time, but the association is still a leading organization of its type in the State.

GOOD REASON FOR DELAY

When 108 mothers in Sherman, Grayson county, failed to receive their regular diaper deliveries, a near crisis developed. But in the nick of time relief appeared in the person of ex-GI Leonard Abramowitz, now operating a laundry diaper service. With fresh supplies he brought an alibi: He had been pacing a hospital corridor awaiting the arrival of a son.

WHARTON COUNTY CENTENNIAL

Wharton county, in South Texas, celebrated its centennial September 25-29 with a well-attended fair. The exhibition, resuming after four years' suspension due to the war, celebrated 100 years of agricultural and industrial development.

COYOTES BECOMING SCARCER

The coyote population of Howard county is rapidly declining, and County Trapper Earl Brownrigg is hoping to maintain the trend. Brownrigg has bagged 54 coyotes since January, about half the usual total for that period of time. Scarcity of coyotes has forced the trapper to extend his lines, but he also has more time for inspection and checking.

BIG WINTER CITRUS CROP

Texas and the other three U.S. citrus States face the problem of marketing the biggest crop in history this winter, declare officials of the Texsun Citrus Exchange in the Rio Grande Valley. A total crop of 175,000,000 boxes is expected, based on increased production in Texas, California, Florida and Arizona. The Texas crop is expected to advance from last year's 28,000,000 boxes to 30,000,000 boxes, and prospects for marketing the crop are good.

SCHOOL CHILDREN DOOMED TO DIE

A total of 189 school-age children will be killed in Texas during the current school year unless traffic fatalities are drastically reduced, according to George Clarke, executive secretary of the Texas Safety Association. More than 700 other Texas kiddies are marked for death through other types of accidents, he added. "Most of the fatalities will be first-graders who do not remember pre-war traffic and have not been taught at home to obey traffic signals," Clarke said. "Fourth-graders will probably lead the State in bicycle fatalities." More than 880 kiddies were killed in all types of accidents last year and fatal accidents have shown a 45 per cent increase in Texas during the first six months of this year.

THE FLOP FAMILY

By SWAN

Ran Far Enough

The train was pulling out of the station when a young man threw his bag onto the observation platform, and swung himself up over the handrail. He stood panting but triumphant as the train gathered speed.

An elderly party on the platform observed him with some scorn. "You young fellows don't keep yourselves in condition," he snorted. "Why, when I was your age I could carry a cup of coffee in one hand, run half a mile, catch the 8:15 by the skin of my teeth, and still be fresh as a daisy."

"You don't understand, sir," puffed the young man. "I missed this train at the last station."

Jesus saith unto him, Rise, take up thy bed, and walk. John 5:8.

Let us seal your cellar against leaks. seepage, dampness with the amazing scientific surface coating-It WORKS!

For all porous masonry surfaces. Inside, outside .. above or below ground. Application cost nominal. Call us for estimate.

Contact Your Local Dealer

The Truitt Co., Inc. DISTRIBUTOR DALLAS 1, TEXAS

There was a fearful crash as the train struck the car. A few seconds later, Mr. and Mrs. Pickens crawled out of the wreckage. Mrs. Pickens started to say something but he stopped her. "Never mind talking," he snapped. "I got my end of the car across. You were driving the back seat and if you let it get hit don't blame me!"

Back Seat Wreck

Still Wants to Go Fishing

Just ahead in the supermarket a new bride was confiding to an older friend the likes and dislikes of Bill, her husband. Pausing before the shelves of canned fish, the bride picked up a can of tuna and gazed at it thoughtfully. "You bought tuna yesterday," her

companion remarked. "I know," said the bride, "I've been giving Bill tuna every evening for a week, and he still wants to go fishing!"

Fair Exchange

A very poor Chinese had his small laundry business next door to a more prosperous Chinese who ran a restaurant. Every day he would take his bowl of rice, put his chair as close as he dared to the restaurant, and sniff the appetizing odors.

One day he received a bill from the prosperous Chinese for "the smell of his food." The poor Chinese promptly went indoors and appeared with a small money box and rattled it in the ears of his "creditor" saying, "I hereby pay for the smell of your food with the sound of my money."

No Geranium

Little Johnny went to school one day; as usual, he wasn't very clean. The teacher sent Johnny home with a a note to his mother which read:

"Please see that Johnny is clean before he comes to school, he positively smells."

The mother sent back a note to the teacher which read: "Johnny is no goranium, he goes to school to be learned, not to be smelled."

Shaking Evidence

Jokes to Make

You Laugh

Sam had passed through a harrowing experience. He had seen a ghost. 'Ah jes' come out of the cowshed," he said, "an' ah had a pail o' milk in mah hand. Den ah hears a noise by de side of de road an' de ghost rushes out."

"Did you shake with fright, Sam?" asked one of his audience.

"Ah don't know what ah shook wid. Ah hain't sayin' for suttin' ah shook at all. But when ah got home ah foun' all de milk gone, and two pounds of butter in de pail."

High Style Any Season

"Now," said the saleslady in the hat shop, assuring a prospective customer, "here's a number that will never go out of style. It will just look ridiculous year after year."

Mass Production

There is the story about a family of hillbillies who lived near a camp for parachute jumpers. They had 6 boys and 7 girls.

One day about 50 paratroopers were out on maneuvers and about 10 of them bailed out over the hillbillies' shack. One of the kids saw them and ran into the house shouting: "Oh, Pa, the stork is delivering them full-grown now!"

They Came From the Country

Bob Burns speaking: "Most of my folks came from the country-as soon as they found out I was making good in the city."

The Price of Gallantry

A stout woman, wedged into a crowded streetcar, had difficulty getting her fare out of the pocket of her tightly buttoned jacket. "Madam," said the man next to her, during her fruitless struggles, "let me pay your fare."

She indignantly protested. "Please let me pay your fare," he persisted. "You have already unbuttoned my suspenders three times trying to get into your pocket."

(Condensed from American Poultry Journal)

House Only Good Pullets The use of poultry house space for low producing pullets is a poor policy, since a low producer takes just as much time and feed as a high producer in the flock. This situation can be avoided by housing only the best pullets or those that show possibilities of becoming good pullets within a reasonable period, say about three weeks-if they are of the same hatch.

In any case it will pay to put only pullets of the same stage of development together so those that are not quite so far advanced will have more of an opportunity to develop. Discard any pullets that are definitely no good, it will not pay to bother

Keep Careful Flock Records

Like any well organized business, careful records should be kept on the poultry flock to determine the cost of production and the profit being realized. A record should be kept of the amount of feed consumed and the egg production realized from each pen. In figuring the cost of production and the profit made, it is important to figure the labor spent and the amount of investment in the flock. This may seem to be a tiring job at first, but if the records are brought up to date each evening, the work will not be so tedious and should well pay for itself in profits.

Provide Enough Litter The use of built-up litter is a practice that has come into use during the past few

years and is a great labor saver for the

In the fall of the year, about 3 or 4 inches of litter is placed on the floor and to this another 3 or 4 inches is added about once a month during the winter until there is about 10 to 12 inches of litter on the floor. When this level is reached, no more floor covering is added until the poultry house is cleaned out in the spring or during the regular summer cleanup. The most important thing is to see that the litter remains dry. This may be accomplished with proper ventilation and occasionally going through the poultry house with a pitch-fork stirring up the litter.

Whatever plan is used in the poultry house be sure that the chickens have plenty of clean dry litter the entire winter.

Begin Fattening Turkeys

The fattening period for turkeys should not be too different from the way they were handled and fed during the growing season, the major change being in the ration fed. It may simply be a matter of feeding more grain or fattening pellets than they have been used to.

Thirty days is considered a long enough period to finish turkeys out for the mar-Many breeders like to wait until the birds are in top condition before selling them, thus all through the holidays they will have some birds on the way to market demanding top prices.

Also a wise precaution now is to be doubly on the alert for thieves and predatory animals; since the birds are nearly ready

Keep Out the Rats

Rats are a menace to the poul-

try raiser, not only because they eat large amounts of feed and attack baby chicks but also because they are carriers of some diseases and parasites.

Training cats and dogs to hunt them is one measure of control; the use of commercial rat traps and poisons is another. You can tear down any rat harbors that may be on your farm and any wooden floors that are undermined with rat burrows and go after them with dogs or a small

calibre gun. Limiting the feed supply by rat proofing the feed bins is another good measure of control In double walled houses where rats are located, one of the most

for market, they represent a efficient means of control is to of the known rat holes. Also heavy investment of time and wait till the house is empty and special gas for this purpose can then fumigate, stopping up all be pumped into the rat burrows.

"WHAT'S THE NEWS" with Ted Gouldy, Saturday, 12:30 Noon, Texas Quality Network.

Soviet Russia's Aims

(Continued from Page 2) the Soviets instead of for the Nazis. Now they will be "heiling" Stalin instead of Hitler, and there is little doubt that Germany will be a satellite nation of Russia unless the Western powers develop a more aggressive and a more unified attitude toward Russian domination.

Hungary Causes Trouble

The nation where Russia is having most trouble is Hungary. And, as a result of the Hungarians' loud refusal to play ball with the Soviets, Moscow has announced that the Red Army will remain in Hungary for at least six more

The Russians are not generous to those who oppose their sweep of conquest. For example, in July the United States formally protested that Russia was robbing Hungary of its food supplies and industrial materials. Russia's reparation demanded 80 to 90 per cent of all Jungary's heavy industry and much of it is being transported lock, stock and barrel into Russia. It is also reported that Russia takes 50 per cent of all the world. output of what is left of Hungary's heavy industry.

Outside the Iron Curtain

Communist activity among the Western powers has been vigorous and successful. Out of 57,455,000 votes cast in free elections outside the Communist sphere of influence, Communists have 11,202,000, an increase of several hundred per cent over their prewar vote. Even such fiercely independent nations as the Netherlands, Belgium, Denmark,

Norway and Sweden complain that the Communists have begun to throw their weight around at legislative programs.

The foregoing are some of the highlights of what Russia is doing and what she plans to do. Her aims are clear and unmistakable. She has imperialistic intentions and has been striving to become the dominant power in Europe and the far East.

Stalin's Optimistic Personal Views

Premier Josef Stalin said, September 24, he does not believe there is danger of a new war, but urged that the atom bomb be outlawed.

sonal views on relations between Russia and the Western world in a series of exceptionally frank answers to questions submitted by Alexander Werth, Moscow correspondent of the London sia in Washington there was a general Sunday Times. The exchange was agreement that Stalin had made a usebroadcast by Radio Moscow.

How you can get the most out of your home-butchered meat

In flavor, variety, keeping quality

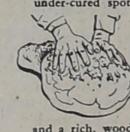

Yes Sir! There's a lot of good eating ... and plenty of variety ... in home butchered meat. There's no safer way to cure it than the two-way Morton Method. It starts the cure at the bone . . . avoids waste, bone-taint, off-flavor, and imparts a rich, old fashioned smoke flavor. Try it this year - be sure to ask for Morton's Sugar-Cure and Morton's Tender-Quick.

FIRST: Dissolve Morton's Tender-Quick in water and pump along the bones. This fast-acting curing pickle starts curing INSIDE...

at the bone area, meat's most vulnerable spot. This helps prevent bone-taint, off-flavor,

THEN: Rub with Morton's Sugar Cure which strikes in, curing from the OUTSIDE toward the center . giving you 2 thorough cure, long and a rich, wood smoke flavor. This two-way Morton Cure gives you results you can get in no other way.

Sugar-Cure

MORTONS

By GUY K. AUSTIN (Condensed from Star Weekly)

You will not find any zoos in Hollywood, but in the backyards of San Fernando Valley homes there are enough ani-mals to fill one. They are owned by the men who make their living supplying the movie studios with all kinds of

dumb animals. Each studio has a list of these men and their own particular line of training-from dogs and cats and horses to tigers, birds, monkeys and even

snakes. Today the ownertrainers of animals in Hollywood are reaping a rich harvest. But only a few years ago they had no standing in the com-munity. When a film was being made that needed a dog, the studio property department called every man or woman on the list with a dog of the required breed. The owners would be kept waiting for hours to show off their charges, with the one agreeing to the lowest price getting the job.

However, the producers have learnedthrough bitter experience that a poorly trained animal, no matter how cheaply

hired, can cost them thousands of dollars because of poor acting ability. The result is that today the studios hire dog actors solely through the Dog Owners and Handlers Association, an organization of top men in the game.

Through this association every dog used in movies is hired at set prices. For a alk-on dog for "atmosphere" on a leash, the price is \$10 a day. One that has passed an obedience test to sit, walk, lie down and follow simple directions get \$15. For any stunt, such as jumping over a fence, \$15 a day—all plus \$10 for the handler.

However, the top dog stars, like the famous Lassie, are under contract at sums ranging up to \$500 a week.

The leading trainer of horses in Holly-wood is Jack "Swede" Lindell. He bought and trained the magnificent star horses for the films "My Friend Flicka" and "Thunderbird, Son of Flicka."

Lindell, who works out his charges at his ranch, is so expert at his profession that his horses do not appear to be acting at all. With hand signals, he controls all their actions, trains them to run, whinny, stop at a mark on the ground—in fact, go through any routine the script calls for.

Another colorful character is Curly Twiford, who started in the business 14 years ago. All he owned then was a Boston Bull

Jimmy, the raven, can smoke a pipe.

and three canaries. The birds were trained to ride on a stick held in the dog's mouth. Every day Twiford put on his performance outside Paramount Studios. Finally, Twiford caught the eye of a di-

rector, who was impressed by the act and gave him his first job in movies. Today Twiford has a private zoo of 200 trained pets. Over 100 of them worked in one film alone this year.

Twiford's solid bread and butter, however, is Jimmy the raven, veteran of 100 films. Jimmy can write his name on a typewriter, unlock a padlock, smoke a pipe, obey practically every spoken command. Twiford caught Jimmy in Death Valley, California.

When an animal actor has to appear with a human, usually days beforehand the actor and the animal get acquainted. Some amusing incidents have occurred between dumb and human actors.

For instance, there was Bob Hope's experience with a big brown bear, weighing over 700 pounds, which had some important scenes in "The Road to Utopia." The bear had to enter a cabin where Bob was supposedly sleeping. It was to deposit its huge hulk in the bed beside Hope, and he in the darkness, was supposed to believe it was Dorothy Lamour wrapped in a bearskin coat. Hope wanted no part of the bear, but, never at a loss for a gag, suggested that if the owner would take out the bear's teeth he would also remove his own.

DOODLING "LETS OFF STEAM"—In nursery schools across the country tiny tots like Stephen Bobrovnikoff at Ohio Wesleyan University's pre-school are wielding a wicked brush. Many another, like Bonnie Bruce, looks on puzzled.

Small animal actors as well as the big ones earn nice money for their owners. There was a squirrel, who had a long scene with Virginia Mayo in "The Princess and the Pirate." This squirrel is known as Dapper Dan. His speciality is chatter. He chirps brightly with anyone who will chirp first, rubs noses with any human on cue and even nibbles ears. Dapper Dan earns \$35 a day when he works.

There is also a chicken actor in Hollywood. In fact, he is the one and only fowl under contract to any studio. His name is Adolph and his home is the RKO lot. He gets \$15 a day when performing, and his board and keep when not before the camera. Adolph's talents include staying exactly where he is told to stay, strutting, crowing, or both, on directions from his trainer. He was last seen with Ella Raines and John Wayne in the film "Tall in the Saddle."

The animals enjoy acting. And their work pays off for the men who own them.

HOW PEOPLE ARE LIKE TRAINS By MRS. F. J. MILLER

My younger brothers and I bickered and quarreled when we were children. Stubborn and unyielding, each of us always wanted his own way.

One day father took us to the railroad station to watch the eastbound passenger train come in. Just then we heard the whistle of the westbound freight.

"Two trains are trying to go in different directions on the same track," father announced. "What do you suppose will happen?"

Our eyes were wide with awe at the thought of the collision we would soon witness. But as we watched, the freight switched onto a siding and let the other train pass in safety.

"You see, children," father explained, "people are a lot like trains. We're all trying to go in different directions on the same track, and there are bound to be some crack-ups if we don't use the sidings. We have a lot of sidings-patience and brotherly love and tolerance and just common horse sense. Children and grownups -even nations-would get along a good deal better with each other if they'd just remember to use life's sidings more often.'

THE CROCODILE'S DENTIST

Getting an appointment with his dentist is a simple matter to the African crocodile. Practically all he needs do is "open wide." A feathered dentist, the Nile bird, is usually hovering about on the alert for this distress signal. At sight of the prominent yawn, the tiny bird, about the size of our own sparrow, enters the crocodile's cavernous mouth for a little professional work. The treatment consists of picking off the leeches and other parasites which cling to the teeth, tongue, and cavities of the huge

Rodeo

(Continued from Page 2) dle bronc riding. To qualify in this event the cowboy must stay astride his fighting, kicking, time - but it all depends on Ga. whether one is sitting in the grandstand or in the saddle! Riders must be able to ride all kinds of horses. They draw their brones by lot, and they never know when some "onery animal" is going to pull a brand new pitching stunt never before witnessed at a rodeo. No rider is permitted to ride the same horse twice.

Brahma bull riding is one rodeo event that did not grow out of the regular ranch work of the cowboys. It did grow out of their regular "fun," however. Brahma bulls are said to be the hardest bucking animals in the world, and it's no cinch for even an experienced rider to stay on one of them until the sound of the bell. The bulls have a habit of turning on a thrown rider and trampling or goring him. These belligerent animals have seriously injured many riders. They are ugly in both appearance and disposition, and it is a rare rodeo program in which at least one rider, or would-be rider, does not receive injuries in the Brahma bull riding events. The rules of the contest Inc., 7516 Harrisburg, Dept. 27, Houston one hand on the rope and the other hand in the air. And the rider gets no marking on his ride until the judges sound a call for the cowboy to ride with

Calf roping is another standard rodeo event. Texans excel event, and the cowboy has to nole, Okla. Edson Truck Co. in this fast pastime. It is a time make every split second count.

Texas and the great Southwest earth, and rodeo fans are numbred today in the millions.

ACCESSORIES BRIGHT AND COLORFUL THIS FALL

A simple pair of gloves or a bag can make or break a woman's outfit, and this fall a wider choice of such touches is offered than at any time since the war. Fine leathers and richer materials are available this year, and fashion designers are showing brighter colors than usual.

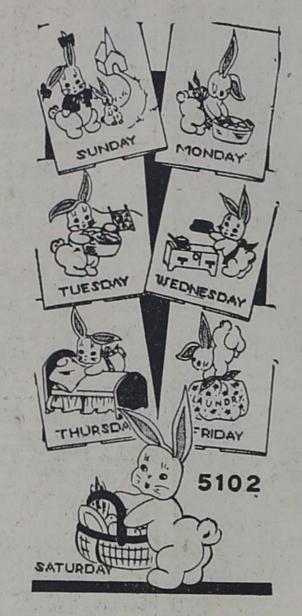

It's the style this fall to wear at least one piece of costume jewelry, and nine chances out of ten it will be white. White pearls and rhinestones mounted in pale gold settings are being shown often. The shoulder, by the way, is the favorite perch of these pieces which have moved up from a more

humble spot on the lapel.

Satin is the star of the show among the fabrics. You probably will own a pair of gloves with satin cuffs, or maybe an ascot of that shimmering queen of the dress goods world. Some of the simpler suits are appearing with satin lapels.

The big-brimmed hat, which shows off a pretty pair of eyes so well, is around a lot this season. Strangely enough, the completely brimless tam-o-'shanter is also fash-

ionable. Taffeta is another fabric making a big splash in the fashion pool. And more of-ten than not it is colorful. Most women, however, practical their ideas, have a real yen for color, and this is certainly the year cases. It is very nice with blue

to let it go. A bright green scarf, for instance, draped about a quiet gray hat, can change a woman's entire outlook-and like as not some man's, too.

Tricolor long gloves are worn a lot for church and social occasions. They go well with the new push-up sleeves and are smart when their color is repeated in a small hat. Red cobra, by the way, is the very latest color for shoes, bags, or even umbrella

HUNGER MAY BE SIGN OF REAL HEALTH

(Catherine Prosser in Denver Post) Do you like to eat? Do you look forward to the dinner hour with pleasure and anticipation? Do you love to sniff the appetizing smells that come from the kitchen? If so, you are a healthy girl, not likely to be troubled with many beauty problems. Your digestive motors are in order, your nervous system steady, says Helen Follett, New York beauty expert.

Do you have goose flesh at the thought of food? Does the sight of a pork chop put your teeth on edge? Do you sit down to the table thinking, "I have to eat, I sup- manners, a bad example to set before the pose, so here goes?" If you are that girl children. It creates emotional strain that you are not in a tiptop state of health. Some part of the physical system is out of kilter. A normal individual has a normal, healthy appetite.

Food that is not properly cooked or served daintly will destroy appetite. Cooking in America is not the fine art that it should be. Every wife and mother should en- young ones.

deavor to become a culinary expert, It should be her pride and her pleasure to offer to her family simple, nourishing

and the kids are properly fed there will be less nursing for the mamma to do, less worry about sickness. Hurried meals are a strain on the digestive organs. It was never intended that we

meals that appeal to all of them. If daddy

should gobble and run as so many people

do at breakfast time. People who argue and quarrel at the dinner table are plain crazy or ignorant. For one thing, it is a demonstration of bad interferes with digestion.

Dinner should be a pleasure, a time when every member of the family has something pleasant or interesting to offer in the way of conversation. All these matters of family habit have an effect upon the appearance of the daddy, the mamma and the

FARM WOMEN HAVE 641/2-HOUR WORK WEEK

Three household jobs-preparing meals, work because of a shortage of farm labor. house cleaning and care, and dish washing —take the major share of the housewife's working time, according to a recent study of time expenditures in homemaking. Field workers interviewed 183 representative farm housewives as to their working sched-

The findings showed that these women spent an average of 641/2 hours a week in doing housework. This amounted to 59 per cent of their waking hours and 38 per cent of the total time. A fourth of the women interviewed spent from 75 to 120 hours a week on housework, half of them spent from 55 to 74 hours, and the remaining fourth less than 54 hours. Those who spent the most time at housework had large families and young children. Those who spent the least time had hired help in their homes or the help of daughters or other women in the family. Many of these women spent less time at housework in order to do farm

Analysis of the work schedules showed that three jobs took a very large share of the time spent in housework. Food preparation took one-fourth of the total time -26 per cent; housecleaning and care almost another fourth—22 per cent; dish-washing about a sixth—15 per cent. Other household jobs took considerably less time. Care of children and the sick amounted to 9 per cent of the time; laundry, cleaning, mending and sewing together took only 9 per cent; canning and preserving, 6 per cent; and marketing and household business, 3 per cent; and other household activities, 10 per cent.

Any study of more efficient working methods in the home should start with the three jobs that appear to take up an unduly large share of the housewife's time-meal preparation, housecleaning, and dish washing. These three jobs were frequently described by the women as "most tiring" and "most disliked.

BOILING IS OUT OF DATE

"Boiled" ham is not boiled by good cooks today. Neither are "boiled" eggs boiled, nor is "boiled" fish cooked by this method. Instead, these protein foods are simmered-that is, cooked in water just below the boiling point. It has been found that the high heat of boiling toughens proteins. Greater tenderness results from cooking longer at a lower temperature.

Even "boiled" coffee is an out-dated

says. The finest flavor in coffee is achieved by having the water just below boiling, tests have shown.

The common use of "boiled" in connection with these foods is simply a case of an old term that has lagged behind modern cooking knowledge and techniques. Home economics experts suggest that if cookbooks would adopt new names as cooking methods change, this would call the attention of phrase that no longer means quite what it housewives to better ways of cooking.

TESTED RECIPES

Spanish Cream With Fruit Cocktail

1 tablespoon unflavored gelatin

1/4 cup cold water 3 cups milk

½ cup sugar 1/4 teaspoon salt 3 eggs, separated

1 teaspoon vanilla flavor 1 (No. 21/2) can fruit cocktail

Soften gelatin in cold water. Scald milk in the top of a double boiler. Place over

hot water and add the softened gelatin, sugar and salt and stir until dissolved. Pour slowly over slightly beaten egg yolks. Return to the double boiler and cook, stirring constantly until the mixture thickens (about 5 minutes). Cool and when mixture begins to set, add the vanilla flavor. Fold in the egg whites beaten until stiff but not dry. Turn into a ring mold which has been rinsed in cold water. Place in the refrigerator and chill until firm. When firm, unmold onto a plate and fill the center with drained cocktail. (Use syrup from cocktail in beverage or another dessert),

Southern Fried Chicken

Southern style of frying chicken is one that gives a crisp-crusted coating over the outside of the meat. The method is best for birds weighing from one and one-half to two pounds each. The pieces of chicken can be dipped in egg and crumbs or simply rolled in seasoned flour for frying which is done entirely without a cover. If the chicken is quite young it can be cooked tender in 20 to 30 minutes.

Season the pieces with salt and pepper, then dip in fine cracker crumbs or meal which also should be seasoned with salt and

pepper. Beat one egg and add two tablespoons of water or milk. Dip chicken in egg-milk mixture, then repeat the dipping into cracker crumbs. Have ready a hot skillet containing enough fat to generously cover the bottom. Place pieces of chicken in the hot fat, taking care that they do not overlap each other. Reduce heat under skillet and cook slowly until browned on all sides, turning them frequently.

Remove chicken to heated platter and keep in warm place while gravy is being made from the drippings in the skillet.

Peach Delight

Drain peaches; reserve peach juice. Arrange peach halves with hollow side up in shallow baking dish. Place a marshmallow in the center of each peach. Pour peach juice into baking dish. Bake in a moderately hot oven 375 degrees F. about 20 minutes, basting occasionally. Serve warm.

Stuffed Cabbage

1 medium-sized head cabbage 1 (1 lb.) can corned beef hash

3 tablespoons chili sauce 1 teaspoon onion salt

1 teaspoon Worcestershire sauce 1 tablespoon fat

3 to 4 whole cloves.

1 small onion

4 peppercorns

1 bay leaf Cut a half inch slice from the top of cabbage. Scoop out middle of cabbage and leave about half inch wall. (Reserve this cabbage for cole slaw or soup). Mix together the hash, chili sauce, onion salt and

in the cavity of the cabbage, top with slice removed from cabbage and tie on securely with a

Stick cloves in onion and tie together with peppercorns and bay leaf in a piece of cheesecloth. Place in a kettle of boiling saltbage in wedges and serve with tomato sauce.

Salmon and Egg Casserole

4 tablespoons of vitaminized margarine

3 tablespoons onion 1/4 cup chopped celery

4 tablespoons flour

2 cups milk 1/3 cup grated American

cheese 1 teaspoon salt

Dash of pepper 1 teaspoon Worcestershire sauce

1/2 teaspoon dry mustard 6 shelled, hard-cooked eggs

1/4 teaspoon salt Dash of pepper 1/2 teaspoon prepared horse-

2 tablespoons lemon juice

1 (1 lb.) can salmon Melt butter in the top of a double boiler. Add the onion and celery and cook until tender. Place over boiling water, add the flour and stir until well blended. Gradually add the milk and cook, stirring constantly until the mixture thickens. Add cheese, 1 teaspoon salt, Worcestershire sauce and mustard and stir until the cheese melts. Cut eggs in halves lengthwise. Remove yolks and reserve whites. Mash yolks and add 1/4 teaspoon salt, pepper and horse-radish. Moisten with 1/3 cup cheese sauce. Refill whites with this mixture. Arrange half of eggs in bottoms of a greased casserole. Add lemon juice to salmon and arrange in layer over eggs. Add remaining cheese sauce and top with remaining eggs. Cover and bake in a moderate oven 350 degrees F. for 25 minutes.

Lima Bean and Shrimp Curry

1 (12 oz. approximately) box

frozen lima beans 1 (12 oz. approximately) box

frozen shrimps 3 tablespoons butter or vita-

minized margarine

1/4 cup chopped onion 3 tablespoons chopped celery

3 tablespoons flour

1 tablespoon powder 1 teaspoon salt

Cook lima beans according to the directions on the package. Drain and reserve liquid for soup. Cook, peel and clean shumps as directed on the pack-Arrange lima beans and shrimps in alternate layers in a greased casserole. Melt butter in the top of a double boiler. Add onion and celery and cook until tender. Place over boiling water, add flour and curry powder and stir until well blended. Gradually add milk and cook, stirring constantly until mixture thickens. Add the salt.

GEBHARDT SEASONING

Wocestershire sauce. Cook in a beans and shrimps in casserole skillet with 1 tablespoon fat un- Cover and bake in a moderate til lightly browned. Put hot hash oven 350 degrees F. for 15 min-

ARMY PREPARES TO POLL NEXT OF KIN

Most families who lost a son in battle overseas in the ed water with the cabbage. Cov. Second World War want the er and cook until the cabbage is body returned to this countender (15-20 minutes). Cut cab- try for burial, American Legion officials predicted as the Army prepared to poll next-of-kin as to their wishes. In its questionnaire next month the War Department will offer families four choices: Burial in a permanent overseas American military cemetery; burial in a national military cemetery in the United States; burial in a private cemetery in the United States; burial in a foreign land where the deceased may have been born.

And So Economical You'll Be Amazed:

CTEP right up into the luxury Class next time you buy coffee. Just ask your grocer for Folger's.

Then, without warning, serve Folger's to your family and watch their reaction. There are very few men who don't prefer the upsurging lift of vigorous coffee-so watch the man of the house come alive with compliments for you

when you serve him Folger's. Sure, you might have to make more coffee and serve extra cups but you will love the doing-

Then when the pound of ? Folger's is all gone - especially if you have tried using 1/4 less Folger's than with lesser flavored brands -you will have discovered for yourself that Folger's Coffee is both luxury and economy.

Yes, try giving Folger luxury to your family every day and be amazed at the economy that goes with it, for "There's a mountain of flavor in every spoonful of Folger's."

Mountain Grown

THE COFFEE WITH THE FLAVOR ADVANTAGE
