Wide Variety Of Programs Are Held By Local Church Circles Monday

The Rev. Jordan Grooms, pastor, installed new general officers when all circles of the First Methodist WSCS met at the church Monday afternoon.

The officers include Mrs. H.H. Stephens, president; Mrs. Walter White, vice president; Mrs. Frank Powell, recording secretary; Mrs. W.A. Lawless, promotional secretary; Mrs. Clyde Johnson, treasurer; Mrs. Winston Kilpatrick, secretary of missionary education; Mrs. Orion W. Carter, secretary of spiritual life; Mrs. Clyde Thomas Sr., secretary of Christian Social Relations; Lucille Hester, secretary of student work; Mrs. Hayes Stripling, secretary of status of women; Mrs. W.A. Hunt, secretary of youth work; Mrs. John B. Knox, secretary of children's work; Mrs. Robert Dunbar, literature and publications; Mrs. Ted McLaughlin, publicity; Mrs. H.M. Fitzhugh, membership; Mrs. T.J. Walker and Mrs. Charles Stagg, fellowship.

Circles leaders are Mrs. Lee Warren, Mrs. A. C. Bass, Mrs. L. B. Mauldin and Mrs. Charles Pruitt.

A school of instruction, conducted by Mrs. H.G. Keaton, followed in the installation service.

It was announced that the school of Missions will be held in Lubbock July 27-31. The executive committee will have its quarterly luncheon Wednesday at 12 noon at the parsonage. Incoming and retiring officers of the general society will attend.

Attending Monday were about 25.

The annual birthday party of the Women of First Presbyterian Church Monday afternoon raised money to help build homes for Presbyterian missionaries on furlough.

Mrs. Johnny Johansen spoke on "Negro Work in Texas" and Mrs. G.A. Barrett on "Furlough Homes for Missionaries."

Extending facilities for missionaries is the nation-wide objective of the Women of the Presbyterian Church. The goal is \$200,000. Homes are located at Austin, Louisville, Ky.; Richmond, Va.; and Decatur, Ga.

Mrs. Charlotte Sullivan sang "Waiting for the Sunrise" and "Blue Skies." Mrs. Lucian Jones, vice president, opened the meeting. Mrs. Tommy Jordan gave the devotion from Hebrews 13: 13 and a prayer.

Hostesses were Mrs. Perry Jones, Mrs. W. G. Hehley, Mrs. Steva Tamitt and Mrs. Grady McCrary.

The church-parlor was decorated with vari-colored flowers. The refreshment table was laid with a hand crocheted ecru cloth. Thirty three members attended.

The circles of the E. 4th Baptist Church met separately Monday afternoon for studies of officers' duties and mission work.

The Kate Morrison Circle met in the home of Mrs. Leroy Minchew Monday afternoon. Mrs. Ruth Davidson and Mrs. Edna Perkins led prayers. Mrs. O.B. Warren, WMU president, gave a report on the first chapter from the WMU manual, describing officers' duties. Six attended.

The Mollie Phillips Circle met in the home of Mrs. E.G. Rainey, 1018 E. 20th, for mission study. Mrs. O.O. Oliver led the study. M.H. Reeves and Mrs. Troy Harrell led prayers. Eight attended.

The Willing Workers Circle met in the home of Mrs. O.R. Smith. Mrs. Denver Yates led the mission study.

Mrs. Leon Cain and Mrs. A.L. Leonard gave prayers. Five members attended.

The Lucy Belle Circle met in the home of Mrs. I.L. Reddell. Mr. H.F. Trent gave the mission study and Mrs. Reddell offered a prayer.

Mrs. Holly Bird was welcomed as a new member. Eight members attended.

The Mary Martha Circle met at the church with Mrs. George Smith giving the mission study. Prayers were offered by Mrs. O.O. Brown and Mrs. J. D. Kendrick.

Prior to the regular meeting, Mrs. Marvin Fisher, wife of the pastor, entertained the executive committee of the Wesley Memorial WSCS, with a 1 p.m. luncheon in her home Monday.

Committee members made out reports and a social hour followed. Mrs. Fisher presented each guest with an apron.

Mrs. J.W. Bryant was in charge of the circle program, Christian Social Relations. Mrs. W.D. Lovelace gave the devotional topic, "Ambassadors for Christ," and a review of the year's work was given.

Reports on each circle's work for the year were also given during the meeting. On the program were Mrs. Arthur Pickle, Mrs. Cecil Nabors and Mrs. Bryant.

The Mary Willis Circle of the First Baptist Church met in the home of Mrs. O.B. Hull Monday morning for a study brought by Mrs. J. E. Hardesty.

Mrs. Della K. Agnell, who has just returned from an extended visit in Washington, S.C., led the opening prayer.

Mrs. Hardesty spoke on "Women of the Bible" and Mrs. J. L. Hayes reported on the talk given by the missionary to France recently. Mrs. W.B. Buchanan led the closing prayer. Refreshments were served to eight.

Circle 2 of St. Paul Presbyterian Women of the Church met in the home of Mrs. Lee Edge.

Mrs. Ralph McKenzie opened the meeting with prayer. Mrs. L.B. Edwards gave the Bible study from Mark. Mrs. Joe Knight led the survey article, entitled "Enlarging Fields of Negro Work." Eight members attended. Mrs. L. B. Edwards, member of Circle 1, was a guest.

Speakers Open P-TA Convention Monday

OKLAHOMA CITY 68 — Hard-hitting speakers at the 57th annual convention of the National Congress of Parents and Teachers declared yesterday the nation's schools were:

1. Shackled with outmoded concepts.
2. Assuming too many of the responsibilities of parents.
3. Not opposed to congressional investigation for subversion provided no smear tactics are used.

Local delegates attending the convention include Mrs. W. N. Norred, president of District 16, Mrs. Alton Underwood, local P-TA Council president; Mrs. A. C. Klover, East Ward's president; Mrs. Clyde Thomas Jr., president of Junior High's unit; and Mrs. Elvita McCrary, district correspondence secretary.

Albert Sydney Raubenhimer, educational vice president of the University of Southern California, told more than 3,000 delegates to the convention that obsolete teaching methods were still being employed.

"Our methods of teaching," he said, "almost universally reflect an acceptance of the idea that a child is merely a blank tablet that has to be impressed and inscribed with facts and preconceived ideas."

Raubenhimer asserted the testing of children on contents of textbooks tends to restrain all possible

development of interest and imagination.

G. F. Bruce of Edmonton, Canada, president of the Canadian Home and School and Parent-Teacher Federation, said teachers are asked to accept too much of a burden in many phases of activity not directly connected with school work.

"I ask you," he said, "is it fair for us to expect any teacher, who has, perhaps, not more than 11 years of schooling, plus as little as seven months of teacher training, to train, teach, counsel and advise all the children he or she instructs?"

He contended, "We are asking them to do far too much if we want any part of the job to be done."

Meanwhile, at a press conference, Lawrence G. Derrhick, superintendent of schools at Chattanooga, Tenn., was asked if congressional probes of subversion among educators constitute a threat to local control of public education.

He replied it "depends largely upon the manner in which the investigating committees function."

"They will render useful service if they report evidence of subversive activities." But he said charges that cannot be substantiated would damage teaching methods through fear.

2725
SIZES
14 1/2 - 24 1/2

Proportioned, especially for the shorter, fuller figure is this two-piece suit-dress. Yours with short or three-quarter cuffed sleeve choice in tie-silk, cottons, or make it your favorite "silk" suit-dress.

FORSAN (Sp1) — Mrs. Glen Whittenberg showed a motion picture, "Flight to England," at the Forsan Study Club meeting recently.

Mary Lou McElrath will be awarded the Currier Bar, highest Girl Scout honor. Sunday afternoon in Big Spring, Mrs. Dan Furst reported. She also announced that new books had been added to the Scout library.

The club voted to give \$100 to the lighting of the tennis courts. Members discussed the drive they sponsored during the week for aid to be sent tornado victims in San Angelo.

Mrs. L. D. English presided. Mrs. Lois Smith and Mrs. Whittenberg were hostesses. Fifteen members attended.

Mr. and Mrs. H. G. Starr entertained Mr. and Mrs. Bill Greer of Dallas and Mr. and Mrs. Dixie Davill and Gloria of Fort Worth recently.

Mrs. Roy G. Klahr is a patient in Medical Arts Hospital.

Mr. and Mrs. C. C. Brunton and Paul are entertaining her father, P. H. McGuire of Homestead, Pa.

Mr. and Mrs. J. W. Griffith, Gay and Sandra visited Mr. and Mrs. Floyd Griffith and children in Colorado City Friday.

Mrs. L. M. Duffer and John Butler have been released from hospital in Big Spring.

Mr. and Mrs. Bill Good of Plains visited Mr. and Mrs. Glen Whittenberg and Glenda recently.

Mrs. L. A. Pitcock has been hospitalized as a pneumonia patient in a Big Spring hospital.

Mr. and Mrs. Henry Park and Mr. and Mrs. R. E. Peacock visited in San Angelo recently.

Mrs. Miller Gives Decorating Talk

Mrs. J. Emmette Miller spoke on "Interior Decorating" at the meeting of the Nu Zeta Chapter of Beta Sigma Phi sorority Monday evening in the home of Mrs. R. L. Nall, 1305 Scurry.

A question and answer period followed Mrs. Miller's talk. Special guests at the meeting were the mothers of members. Mrs. Shreve, Mrs. J. P. Doge, Mrs. J. R. Leyath.

It was announced that Ward Hall had donated the truck and driver which had taken the clothing, members collected, to San Angelo. Ten members attended.

THIS IS GOOD EATING

SPRING TIME GREEN PEA SOUP
Ingredients: 1 package frozen green peas, 4 scallions, 1 chicken bouillon cube, 2 tablespoons butter or margarine, 2 tablespoons flour, 1 cup light cream, salt and pepper.
Method: Put peas in a saucepan. Wash and clean scallions leaving most of green tops on; freeze, including tops; add to peas. Use the amount of boiling water suggested on package and cook peas and scallions together until very tender. Drain; add enough hot water to the peas liquid to make 1 cup; dissolve bouillon cube in this. Force peas through a fine sieve to purée. Melt butter in a saucepan; blend in flour. Add bouillon and cream all at one time. Cook and stir constantly over low heat until slightly thickened. Add pea purée; stir and heat, but do not boil, adding salt to taste. If soup is not entirely smooth strain through cheesecloth-lined strainer before reheating. Makes 3 servings. This goes well with the menu below.

Springtime Green Pea Soup
Broiled Steak
Mashed Potatoes
French-fried Onion Rings
Buttered Carrots
Fresh Pineapple Beverage

(Clip this for future use. It may conveniently be pasted on a recipe file card.)

Wives' Club Bowling Season Opens With Session Monday

Members of the Officers' Wives Club Summer Bowling League began the season Monday night at 8 p.m. when they bowled at the West Texas Bowling Center.

Those interested in participating in the league are asked to call Mrs. F. D. Edwards, 3877-W-1.

Outstanding players on the Officers' Wives Bowling League for the spring season were awarded trophies at the Spring Bowling Luncheon in the Officers' Dining Hall for their achievements.

Winning trophies were Mrs. L. M. Deschard for high game of 178; Mrs. J. C. Alexander, high average, 131; Mrs. F. D. Edwards, high series, 458; Mrs. B. W. Terhune, high series with handicap, 532; Mrs. A. P. Goodkin, high game with handicap, 302.

Team 3 was the winning team. Members were Mrs. W. Whalin, Mrs. M. B. Charlson, Mrs. M. J. Adams, Mrs. J. A. Thomas Sr., Mrs. W. I. Mattson and Mrs. F. D. Edwards.

Team 4 won the consolation prize for being runner-up. Members are Mrs. R. Meeker, Mrs. F. L. Moore, Mrs. B. Q. Baize, Mrs. M. Kelly, Mrs. R. Workmeister and Mrs. E. J. Connors.

Mrs. O. Green won the floral centerpiece at the luncheon.

Winning trophies were Mrs. L. M. Deschard for high game of 178; Mrs. J. C. Alexander, high average, 131; Mrs. F. D. Edwards, high series, 458; Mrs. B. W. Terhune, high series with handicap, 532; Mrs. A. P. Goodkin, high game with handicap, 302.

Team 3 was the winning team. Members were Mrs. W. Whalin, Mrs. Floyd Mays was elected president of the Big Spring Federation of Women's Clubs at a meeting Monday in the home of Mrs. Elmo Wason.

Other new officers are Mrs. Wason, vice president; Mrs. C. D. Wiley, secretary; Neil Brown, treasurer.

Mrs. J. Gordon Bristow gave a report on the Big Spring Concert Association and announced that the Dallas Symphony would be presented by the group next season. At least two other programs will be scheduled.

In the treasurer's annual report, it was announced that there is \$4,500 in the building fund at the present time. Mrs. Hayes Stripling, retiring president, gave a report. Edith Gay, executive secretary of the Servicemen's Center, expressed her appreciation to the Federation for their help in getting the Center started and for serving as hostesses.

Committee chairmen also gave reports during the meeting.

Secretaries Set To Note 'Week' Over The Nation

By SAM DAWSON
NEW YORK (AP)—The nation's secretaries are whooping it up again. Theme: There ought to be some appreciation around here.

After the boss learns what they think of him and his faults, maybe he will or won't agree. And after the girls hear what some office personnel directors think are their chief faults, maybe they'll have a protest or two.

Mostly, though, everybody's going to love them next week, which is national secretaries week. It has the blessing of Sinclair Weeks, a secretary himself, who heads up the Department of Commerce.

The week has the enthusiastic endorsement of a number of merchants such as florists, apparel and gift shop-keepers, makers of office furniture, greeting cards, confectionery, and restaurant owners—and especially, makers of office machines, who have an eye out naturally for a little honest propaganda for their products.

The national secretaries' association, with some 300 chapters and 13,000 members around the country, is running the show.

You'll perhaps be least surprised to hear that the survey also found that the average secretary does eight letters daily when taking shorthand and 18 daily when transcribing from a machine.

Do secretaries have faults? Well, not next week, anyway. But the personnel directors did mention a few little ones: Some lack initiative and willingness to learn; some lack interest and concentration; and some aren't so hot at spelling and grammar.

More than half of the directors, however, pointed out that today's secretaries are more efficient than those before the war. They credit: Better school training; better business training; and, to the survey sponsor's delight, modern equipment.

Three-fourths of the more than 3,200 secretaries interviewed said they disliked nothing about their work.

Half said their bosses are faultless. The others listed a few notes in the boss' eye. Among them: Keeping a secretary working after hours; poor enunciation in dictating; insufficient explanation about work; inability to make up his mind; and poor memory.

One secretary, however, as might be expected, wouldn't stand hunched for the quiz. "My boss' faults?" she wrote. "Far too numerous to mention."

Nose Up

Seared and twisted the nose of the fatal Delta DC-3 that crashed near Marshall, Texas, sticks in the air in the heavily wooded section on the Texas-Louisiana border near Marshall, Texas. Only one of the 20 persons aboard the Dallas to Shreveport flight survived the crash. (AP Wirephoto.)

No Cutbacks Due In A-Weapon Output

By RUSSELL BRINE
WASHINGTON (AP)—Eisenhower administration economies in the atomic energy program will postpone construction of nuclear-powered aircraft and ships, and will delay development of peacetime atomic power.

But there will be no cutbacks in atomic weapons or power plants for atomic submarines, Rep. W. Sterling Cole (R-NY) said yesterday in announcing that the budget for the year beginning July 1 will carry cuts "on the order of 30 per cent" under the \$1,600,000,000 recommended by former President Truman.

Cole is chairman of the Senate-House Atomic Energy Committee, which keeps watch of the nation's atomic program.

Despite his assurances that the administration will ask sufficient funds to carry on the weapons phase of the program without any curtailment, the decision seemed certain to stir up the same kind of congressional criticism which followed the announcement that new Air Force funds would be cut by five billion dollars.

Cole announced few details. The Atomic Energy Commission (AEC) budget was scheduled for presentation, behind closed doors, to the House Appropriations Committee today.

Cole's committee yesterday heard AEC officials outline cuts under the Truman budget figures aggregating about 480 million dollars. Cole said he believed the figures had been reviewed by the National Security Council, the nation's top strategic planning group headed by President Eisenhower.

Cole told newsmen the reductions would mean:

1. Postponement of the construction of reactors—the power plants—for atom-powered aircraft and aircraft carriers. Research and development on these projects will continue "pretty much as planned," he added.
2. "Some curtailment in the studies and work" on development of a reactor for industrial use, which Cole said is directly related

to the development of power for surface ships.

3. No curtailment or elimination of the AEC's big new billion-dollar plant at Portsmouth, O., and no change in the construction of two submarine power plants now proceeding at "full tilt."

"This is a very minimum program and any further cuts would materially affect the program," Cole said.

Oil Production Is Up During Week

TULSA (AP)—Although only seven states showed gains, the United States' daily average crude oil and condensate production increased 1,900 barrels during the week ended May 16, the Oil and Gas Journal said today.

The week's total daily average, the Journal said, was 6,330,750 barrels, bringing 1953's cumulative production to 874,657,425 barrels compared to 849,984,800 a year ago.

Oklahoma production was up 2,400 barrels to 532,600. New Mexico was up 200 to 190,025.

Production was unchanged in Texas at 2,717,050.

Job Economics Class Set For Employes Of Cabot Carbon Firm

A class in "Job Economics" will be organized this evening for supervisory personnel of the Cabot Carbon Company plant here.

Foremen and other supervisory workers are to meet at 7:30 p.m. with Horace Prince, Pampa, instructor, to organize the class and set up schedules.

Instruction will be offered three nights a week for three weeks, probably on Mondays, Tuesdays and Wednesdays, at the Settles Hotel. The initial session is set for 7:30 p.m. today.

RICHARD DEATS

Richard Deats Is Due Degree

ABILENE — Richard Deats of Big Spring will be one of 72 McMurry College seniors to receive his degree, May 26, at commencement exercises. Baccalaureate is set for May 24.

Deats, the son of Dr. and Mrs. C. W. Deats, 400 Virginia Street, Big Spring, majored in biology.

While at McMurry he was a member of Religious Council, Who's Who, Science Club, Christian Foundation, Sigma Tau Delta, Alpha Chi, Band, Ko Sarf, and Forum.

He held the following offices: Chairman, Religious Council; president, senior class; vice president, Science Club; vice president and president of Christian Foundation; marshal, Sigma Tau Delta.

Swimming Pool Gets A New Paint Job

The swimming pool at City Park is being given a new paint job in preparation for its opening.

The pool probably will be opened for the summer on Sunday, May 31. City Manager H. W. Whitney said opening date and schedule for operation probably will be discussed by city commissioners at their meeting this afternoon.

Traditional opening date for the municipal pool is the first Sunday after public schools close.

Girl Slightly Hurt In Auto Collision

Ann O'dell, 16, of 908 BeM, received treatment at Cowper Hospital Monday evening for bruises and abrasions suffered in a traffic mishap at Fourth and Presidio, police reported. She was not hospitalized, however.

Patrolman Alvin Hillbrunner said she was injured in a collision involving cars driven by Jack Rogee Hall, 1800 Seury, and Billy Gerald Sanderson, 702 Bell. Both cars were badly damaged, the officer reported.

The mishap occurred about 7 p.m. Monday.

Mrs. J. W. Conley Funeral In Abilene

Funeral services were to be held at the Highland Church of Christ in Abilene today for Mrs. J. W. Conley, who died at 8 a.m. in Fort Worth Monday.

Mrs. Conley was the mother of Dan Conley, Big Spring. Other survivors include her husband and a daughter, Mrs. Carl Ekdahl of Stamford.

Church Groups Donate Money To Relief Fund

The congregation of the First Church of God donated \$112 for San Angelo tornado victims at the Sunday evening service. The Rev. John E. Kolar is pastor. The Brotherhood donated an additional \$15.

Howard County Equalization Board To Meet

Board of Equalization for Howard County will meet in session Monday, June 8, to determine value of property for tax purposes.

The board will consult with T. J. Pritchard during the meeting. Pritchard is a valuation engineer with the firm of Pritchard and Abbott of Odessa. The firm handles valuation estimates of numerous counties.

County Judge R. H. Weaver said today that the public is invited to attend the meeting. "If there is any question as to property valuation, the meeting is the time to straighten it out," he said.

The Board of Equalization, formed May 11, is made up of Judge Weaver and Commissioners Earl Hull, Ralph Proctor, Pete Thomas and Arthur Stallings.

Meeting is slated for 9 a.m. in the Commissioners Courtroom.

Pritchard visited the commissioners during regular session Monday and indicated that valuation of property in the county will rise some two billion dollars. The rise results from additional oil wells, a new gasoline refining plant and other additions during the year.

Last year property valuation was about \$2 1/2 billion dollars, Judge Weaver stated it is expected to be around \$3.5 billion this year.

Theft Charges Filed Against Pair In FW

Charges of burglary and felony theft were filed Monday by Police Chief E. W. York against Dan Hayward and Harvey Melton Tripp.

York said they are accused of entering Dibrell's Sporting Goods Store here Mar. 18, 1952. Both are now in Tarrant County Jail, Fort Worth.

Police said the two men had in their possession a pistol bearing the same serial number as one stolen from Dibrell's store. C. C. Axon, city detective, was in Fort Worth today to question the men, who are charged in justice court here.

Department Store Is Burned Out By Fire

ALBUQUERQUE (AP)—A million dollar fire, which started late last night and blazed out of control until early today, burned out the Sears Roebuck and Co. department store in downtown Albuquerque.

L. E. Walvoord, manager, estimated damage would "easily run more than a million dollars." The modern building in the middle of the city was a total loss.

A young girl about 13 was held for investigation in connection with the fire.

Two hours after the fire started, it appeared it might be under control. But flames suddenly burst through the roof.

Beer License Is Granted Monday

An on-premises beer license was issued to Henry Douglas yesterday for the Blue Moon Cafe, 509 NW 3rd Street.

County Judge R. H. Weaver has set two more license hearings Thursday. At that time applications made by Janie Robertson for Tommy's Drive-In, 709 West 3rd, and by Claudine Terrazas for Warehouse Cut Rate Liquor Store No. 3 will be considered.

Ad Manager Dies

BONHAM (AP)—William G. Forgy, 53, Bonham Daily Favorite advertising manager for the past 10 years, died yesterday after a heart attack.

Church Groups Donate Money To Relief Fund

The congregation of the First Church of God donated \$112 for San Angelo tornado victims at the Sunday evening service. The Rev. John E. Kolar is pastor. The Brotherhood donated an additional \$15.

Lend-Lease Pact With Russia Is Sought By U.S.

By JOHN SCALI
WASHINGTON (AP)—The United States is about ready to fire another note to Moscow demanding the Russians settle at least part of their "eight-year-old" lend-lease account.

The new note will provide another test whether the Soviet regime, under its new head, Georgi Malenkov, intends to cooperate with the American government in solving problems that strain U. S.-Russian relations.

While Premier Stalin was alive, the Russians stalled on U. S. demands that they return some of the material provided them during World War II and pay for other items they retained. They did not return some return some frigates and icebreakers.

The forthcoming American note, it was learned, will call on the Russians to "live up to a pledge made last June by giving back 186 small lend-lease ships."

The State Department already has sent along two polite diplomatic reminders, one in November and the other last March, a few days after Stalin's death.

The U. S. has taken this position that these ships must be returned before it will consider Russia's offer to write "closed" to its lend-lease account with a payment of 300 million dollars.

The 300 million bid by the Soviets is still far short of the 800 million dollars the U. S. insists that Russia pay. The payment would give Russia legal title to lend-lease items of peacetime value, which remained with the Soviet Union after the end of the war.

Altogether, Russia received nearly 11 billion dollars in lend-lease goods, including thousands of tanks, guns, planes, food and complete factories and oil refineries, electrical equipment and machinery with definite peacetime value.

HOSPITAL NOTES

BIG SPRING HOSPITAL
Admissions — Mrs. Bertha Bell, 511 Edwards Circle; Mrs. Ollie Puckett, 1604 Owens; Leo McCullister, Stanton; Mrs. Bonnie Pike, Forsan; Mrs. Betty Ross, 803 Sycamore; Mrs. Jessie Griffith, Rt. 1; Mrs. Mallie Brandon, 1408 Sycamore; Johnny and Jerry Tibbets, 2104 Seury; Jerry Newsom, Stanton, Rt. 1.

Dismissals — Mrs. Zelta Darnell, Rt. 1; Mrs. Etta Bradley, Sterling City Rt.; Mrs. Kay Ramsey, Forsan; G. D. Worley, Fort Worth; H. R. McKenzie, 605 McEwen; Myrick Kilgore, City; Nonna Falk, 1704 S. Monticello; William Bell, 514 Edwards Circle; Mrs. Tessie Harper, 2206 Johnson; Mrs. Ollie Puckett, Rt. 1; Mrs. Mary Moore, Rt. 1.

British AF Student Crash Lands T-28 Plane Successfully

Pilot Officer Michael St. John Line, British Royal Air Force student pilot at Webb AFB, made a successful emergency landing Monday afternoon following a power failure during a take-off in his T-28 training plane.

Line climbed out of the training plane without injury.

The plane first touched the ground inside the base and then skipped across US 80, finally coming to a stop about 25 yards inside a wheat field.

Line was asking off toward the north when the accident occurred. He had been practicing landings and take-offs in the T-28 propeller type aircraft.

Small Claims Court Bill To Pass 'Soon'

HOUSTON (AP)—Rep. Wagner-Carr of Lubbock said today the Legislature is expected to pass the small claims court bill "any day now."

Carr, speaking to the Retail Merchants' Association of Texas convention, said the bill will help collection departments collect small claims faster, easier and at less expense.

He said the bill has passed the House and has been approved by a Senate committee.

Riots Take 43 Lives

LAGOS, Nigeria (AP)—The death toll in three days of rioting over Nigerian independence mounted to 43 today with more than 200 injured.

Truce Talks Are Recessed 6 Days

By OLEN CLEMENTS
TOKYO (AP)—The Korean truce talks were recessed for another six days today and an informed U. S. Command source said if negotiations collapse the Allies probably will free 34,000 North Korean prisoners, who refuse to return to Communist rule.

There were reports in Tokyo the Allies were preparing a revised armistice plan that might set a time limit on the peace talks.

The U. S. Command asked an extension until next Monday of the three-day recess that was due to end tomorrow. The Reds agreed at a liaison meeting at Panmunjom.

A source close to Gen. Mark Clark's headquarters said the U. S. Command is considering turning loose as civilians, balky North Koreans.

The ultimate disposition of these and 14,500 Chinese captives who also have renounced communism is the last major block to a truce.

The source said a precedent for freeing captives already had been set by the Reds.

"They say they freed 'at the front' 50,000 Allied prisoners they grabbed early in the Korean War," said the source, whose name cannot be revealed.

"There is no reason to keep holding these North Korean prisoners. They have renounced communism and will go back to it under any circumstances.

"They are anxious to get back to their wives and families and are assimilated in South Korea among people of their own nationality who also are opposed to communism."

"The 14,500 Chinese prisoners held by the U. N. Command are another thing. They do not want to return to communism either."

Ike Gets Young Girl Excused From School

RICHMOND, Va. (AP)—St. Catherine's school officials told Isabel Ware she would get 18 demerits for playing hooky Friday.

Isabel, 14, admitted she played hooky. She'd gone with her father, Mr. Hudson Ware, to the College of William and Mary where President Eisenhower spoke.

Isabel got to meet the President too. "Very natural and kind," she said. And Mrs. Eisenhower—"she's awfully attractive."

Isabel won't have to take the 18 demerits because the President volunteered to help out.

Isabel handed this hastily written excuse to school officials:

"Could we not excuse the absence today of Isabel Ware? She was at a ceremony I attended." Dwight D. Eisenhower.

Small Claims Court Bill To Pass 'Soon'

HOUSTON (AP)—Rep. Wagner-Carr of Lubbock said today the Legislature is expected to pass the small claims court bill "any day now."

Carr, speaking to the Retail Merchants' Association of Texas convention, said the bill will help collection departments collect small claims faster, easier and at less expense.

He said the bill has passed the House and has been approved by a Senate committee.

Dawson County Venture Flows 285 Barrels New Oil On Test

Stanford No. 2 Classen, Dawson County venture in the Mungerville Pennsylvania area, flowed 285 barrels of new oil today on a drillstem test.

Also some 2,000 feet of oil along with muddy wash water was swabbed from Sohio No. 3, Yarrow, venture in central-east Mitchell County. Six new locations were reported—four in Dawson and two in Howard.

Borden

Stanford No. 2 Jordan, C. NE NW, 579-97-H&TC survey, look at drillstem test from 8,295 to 8,370 feet with the tool open 90 minutes. There was a weak flow from 15 minutes and then it died. Recovery was 120 feet of mud with no shows of oil, water or gas. Flowing pressure was 45 pounds. Operator is now drilling at 8,388 feet in lime and chert.

Hermitical and Payne No. 3, Deward, 330 from north and west of lines, 10-32-56-T&P survey, is down to 8,193 feet in lime and shale.

Gulf No. 1 Canon, C SW NW, 29-33-56-T&P survey, is waiting on rotary before commencing.

Jim Lee No. 1 Standard-Griffin, C SW SE, 61-25-H&TC survey, reached 6,630 feet in lime and shale. Superior No. 3-518, Jones, C NE NW, 518-97-H&TC survey, is drilling below 5,087 feet in lime. Robinson No. 1 Conrad, 330 from south and west of lines, 79-20-L Vaca survey, was plugged and abandoned at total depth of 4,325 feet.

Texas Company No. 1 Cannings

C SW NE, 221-97-H&TC survey, is drilling at 1,050 feet in redbeds.

Dawson

Stanford No. 2 Classen, 330 from south and 990 from east of lines, northeast quarter, section 95, block M, EL&RR survey, flowed 285 barrels of new oil in 24 hours today on a drillstem test from a plugged back depth of 8,075 feet. Flow was through a 15-64 inch choke. Operator is still testing. Actual total depth before plugging back was 8,995 feet.

Magnolia No. 1 Elland, C NE NE, 33-27-Glasscock, CSL, reached 7,410 feet in lime.

Vega No. 1 Fowler, C SW SW, 111-M-EL&RR survey, has been taken over by Brown and Wheeler of Fort Worth. The new firm will test the San Andres at a plugged back total depth of 5,300 feet with the 5 1/4 inch liner at 4,940 feet. The well had some slight shows on a drillstem test in the San Andres. Drilling has gone down to a total depth of 8,515 feet in reef lime where there was only water in the formation.

Tobe Foster No. 4 Lillian Seanlan, C SW SW, 87-M-EL&RR survey, is a new location in the Welch field. It will go down to 5,100 feet by rotary at once. Elevation is 3,185 feet. Location is four miles west of Welch.

Toby Foster No. 3 Lillian Seanlan, 660 from south and 330 from east of lines, southwest quarter, section 137, block 29, W&NW survey, is a Howard-Glasscock 1,400-foot rotary location one mile east of Forsan. Drilling will begin at once.

Cosden No. 1 Crawford, C SW SW, 47-32-IN-T&P survey, is today drilling at 4,614 feet in lime and shale.

Martin

Gulf No. 4-B Glass, C SW NW, 20-23-IN-T&P survey, is going deeper at 11,100 feet in lime and shale.

Phillips No. 1-C Schar, 1,320 from south and 790 from west of lease lines, section 324, LaSalle, CSL, swabbed 12 barrels of sulphur water per hour from a plugged back depth of 12,994 feet in the Fusselman. Operator will plug back to the Devonian and perforate again.

F&P-American No. 6 Breedlove, 450 from south and 660 from east of lines, league 238, Britton, CSL, is waiting on cement at 12,180.

Texas Company No. 1 A.H. Star, C SE SE, northeast quarter, 12-7-University survey, has a total depth of 4,622 feet where operator is waiting on cement for 9 1/2 inch casing.

Mitchell

Humble No. 1 Trulock, C NW NW, 6-25-T&P survey, has a total depth of 3,107 feet where operator swabbed 125 barrels of oil in 24 hours. Reparatons are now being made to put pump on well.

Sohio No. 3 Yarrow, C NW SE, 67-25-T&P survey, swabbed out oil and muddy wash water with strong sulphur odor between 6,000 and 7,500 feet. The top 2,000 feet was oil, and operator is now bailing sulphur water with a rain-bow show of oil.

Humble No. 1 Farmer, C NE NE, 14-29-15-T&P survey, is reported at 6,729 feet in redbeds.

Sun No. 3 McCabe, C NW SE, 225-IA-H&TC survey, is shut-in.

Sun No. 4 McCabe, C SE NE, 225-IA-H&TC survey, is drilling at 2,285 feet in shale and anhydrite.

Sun No. 2-A Anderson, 1,209 from north and 660 from east of lines, section 230, block 1A-H&TC survey, reached 5,685 feet in shale.

Home Again

Associated Press Correspondent William Oatis puts his arm around his wife as they face radio mikes at the International Airport in New York after the released American newsmen flew from Europe. Oatis was released Saturday from a Czech prison after serving two years of a ten-year prison sentence for alleged espionage work against the Red power. (AP Wirephoto).

Wife Wanted For TV Sensation, Wally Cox

By DOROTHY ROE
AP Women's Editor

Wanted: young woman who can conduct intelligent conversation; to meet one of America's most eligible bachelors. Object, matrimony.

Wally Cox, the mild-mannered phenomenon who has skyrocketed to fame and fortune as TV's "Mr. Peepers," is 27, quiet, appealing, rich, successful—and lonely.

He is eager to get married, loves children, wants a home, is prepared to support a wife in a manner to which few modern girls are accustomed—but he can't find the girl.

Each week night he dates a different girl; and on Sundays he tries to meet several new ones in a group. Result—disappointment.

But does Wally give up? Gracious no. With each wrong guess his search grows more determined. If isn't that he doesn't know any rich, successful—and lonely.

He is eager to get married, loves children, wants a home, is prepared to support a wife in a manner to which few modern girls are accustomed—but he can't find the girl.

Here are Wally's specifications for a wife:

1. She has to be able to talk his language. This is the biggest hurdle requiring mental effort, human sympathy and a knowledge of philosophy and psychology.
2. She must be calm. He doesn't like filibertizbbets. When he specifies conversation he means quiet conversation.
3. She must be healthy. That means mentally too, he hastens to add. No psychopathic cases need apply.
4. She must want to have children. Wally isn't sure how he's going to find out about this since he never has summoned up courage to ask a girl her feelings on this subject.
5. Her looks don't matter, only her expression, which, of course, reflects her inner character. If she has the right expression she'll look beautiful to Wally even with a mole on the end of her nose.
6. Social position doesn't matter. She may live in a tenement or a mansion. Wally doesn't care.
7. She must have a sense of humor—but not the obvious sort. Wally likes 'em subtle.
8. She must be unencumbered by family ties. Wally has no use for the parents of any of the girls he has met. He doesn't want an orphan because he feels orphans usually are psychologically maladjusted.
9. She must be able to converse about human relations. You figure that one out. It's what he said.
10. She must have somebody he can "get along with." He does not feel that this means he must be in love with her. Love, Wally believes, too often is confused with infatuation. In fact, he's not sure what love is, but he thinks it grows after long association.

Wally quit his original occupation of silvermith to go into the electrical work mainly so he could meet more girls. He had noticed that most of his theatrical friends had lots of girls and were much admired. His instant success has been as much a surprise to him as to his friends, though he admits people always have laughed at him even when he wasn't trying to be funny.

He is highly methodical in this search for wife material. He doesn't waste time on poor prospects. He says:

"I can call in five minutes conversation if it's worth pursuing the subject. So far it never has been."

Wally is still hopeful, however. He feels that there are millions of girls he has not yet met.

Texas Couple Found Dead In Colorado Springs

Colorado Springs, Tex., couple, Mr. and Mrs. Ernest Cunningham, were found dead in a resort cabin near here yesterday.

An inquest verdict said they died of carbon monoxide poisoning. Corner William Joss said three heaters in the cabin were "going full blast" and doors and windows were closed against the cold weather.

Joss estimated they died soon after returning from Colorado Springs about midnight Friday to the cabin at Chipita Park, a resort community in Ute Pass west of here.

They had been living in a friend's cabin while they worked on their own cabin nearby.

Cunningham and two brothers were in the drug business at Gainesville and McAllen where they had extensive citrus fruit farming interests.

Cunningham was a native of Columbus, Ky., and Mrs. Cunningham had been married about 45 years.

The cabin in which they were living while theirs was being remodeled belonged to E. W. McCune of Dallas.

Writer's Wife Wins Uncontested Divorce

LOS ANGELES (AP)—Writer Richard Tregaskis' long absence from home broke up their marriage, his wife Marian testified in winning an uncontested divorce on grounds of cruelty yesterday.

Mrs. Tregaskis said she became so lonely she had to buy two cats "because I didn't have anybody to talk to." Tregaskis, author of "Guadalcanal Diary," once said he was taking a three-month trip and didn't return for 11 months, she said.

Earth Shock Noted

NEW YORK (AP)—The Fordham University seismograph recorded two "fairly sharp" earth shocks last night about 5,200 miles from New York. The direction was undetermined.

Nominated By Ike

WASHINGTON (AP)—President Eisenhower nominated Owen Clarke of Yakima, Wash., today to be a member of the Interstate Commerce Commission. Clarke would succeed William Patterson.

Measles Deaths Noted

TEHUACA, Mex. (AP)—Eight to ten children are dying here daily of measles, health officials said today.

690 from north and east of lines, southeast quarter, section 86, block M, EL&RR survey, is a 5,000-foot rotary location in the Welch field. It is three miles west of Welch, and drilling will begin at once. Elevation is 3,129.

Regulations For Tideland Oil Area Proposed

WASHINGTON (AP)—A Texas official who handles oil production regulations said today that clean-cut conservation regulations should be prepared for the expected development of resources in submerged lands of the outer continental shelf.

Testifying before the Senate Interior Committee, William Murray, a member of Texas Railroad Commission recommended a program of application of the conservation regulations of states to their offshore areas.

The program proposed:

There should be a body of conservation laws from the beginning, and preferably set forth in statutes rather than by a regulatory body. The agency which leases submerged lands to provide individuals and concerns for development should not be responsible for enforcement of conservation laws.

State conservation laws should be extended to the outer continental shelf so long as they are not in conflict with federal laws or regulations of federal agencies.

State enforcement agencies should be given the job of enforcing the state laws, because of their long experience in the field of preventing waste and promoting more efficient recovery of oil and gas.

Murray emphasized it was because of experience on the part of state officials that he believes they should be authorized to enforce their own statutes.

"We in Texas have learned by trial and error over a quarter of a century," he said.

"We have made a lot of costly mistakes. We've been sorry for them. But that is the way we have learned, and we are hoping that our experiences can be helpful to other states and to the federal government."

16-Month-Old Baby Dies In Houston

Body of 16-month-old Lennie Gandy, who died at the New Methodist Hospital in Houston this morning, is being returned to the Eberly-River Funeral Home here. Services are pending.

Parents of the deceased, Mr. and Mrs. G. W. Gandy, are former residents of Big Spring. Other survivors include a brother, Ronnie, and grandparents, Mr. and Mrs. Joe Howell of Eastland and Mrs. Lee Gandy, Blanchard, Okla.

Betty Grable Is On Suspension Again

HOLLYWOOD (AP)—Betty Grable is on suspension today for the third time in two years.

Her studio, 20th Century-Fox, says she refused to report for a loanout assignment yesterday at Columbia Pictures. Miss Grable was not available for comment.

IKE WANTS

(Continued From Page One)

be built up to about 93 wings in six months, an increase, he said, of about 20 wings over the present strength.

"This administration is striving for security without bankruptcy," Short declared.

Sen. Taft, the Senate Republican leader, had indicated earlier he expected a hurry-up program for the Air Force to be among the matters Eisenhower would discuss in his radio address.

Taft said "It is far better to have a 100-wing Air Force in six months than 143 wings in three years."

Several hours after the White House session, Secretary of Defense Wilson faces anticipated stiff senatorial questioning about arms fund reductions.

He was almost certain to be asked, also, about what Rep. W. Sterling Cole (R-NY) said was an administration decision to wobble about 30 per cent off the closely related atomic energy program. Cole, chairman of the Senate-House Atomic Energy Committee, said the cut would not curtail weapons development, but would slow up work on atomic power for ships, planes and peacetime uses.

Even before Wilson's appearance at a public session of a Senate appropriations subcommittee, several members voiced vigorous criticism of his action in lopping five billion dollars off the total in new Air Force money requested of Congress by former President Truman.

Wilson has said the reduced funds will give the Air Force 114 "substantially well-equipped wings" by June 30, 1954 with a goal of 120 wings by about mid-1955. Wilson called that an "interim" goal, but indicated there had been no decision to shoot for a higher one later.

The Truman administration had set a goal of 143 wings of which 125 would have been combat groups. There are now 103 wings, varying in size from 30 to 75 planes, but not all of them are at combat strength.

These lowered sights didn't please Sen. Young (R-ND), who said in an interview: "I don't think we should slow down expenditures until we know we have the most powerful Air Force in the world."

Sen. Maybank (D-SC) said: "What's the use of having atomic bombs if you haven't got the strategic Air Force to deliver them? I'm going to offer an amendment 'to keep the goal at 143 wings.'"

Taft, long an advocate of a big Air Force, said he thinks it is much more important to get the existing Air Force fully equipped and in fighting trim than to discuss goals to be reached three years in the future.

"The new program doesn't mean any cut in immediate spending on the Air Force," Taft said. "The five billion dollars that Wilson has cut off wouldn't be spent for two or three years and we will have time to decide, after the new chiefs of staff look over the military situation, what to do about it."

Wilson's proposal to reduce Air Force personnel by about 100,000 to 875,000 drew fire from Maybank.

"I think waste and extravagance ought to be cut and I'm not complaining about their action in closing up bases," Maybank said. "But we will make a terrible mistake if we fail to train the pilots we need and fully man the Air Force."

Sen. Hill (D-La) said he will resist cutbacks "because the Air Force is the only means we have of carrying the war to the enemy and our primary defense against attack."

"We made a terrible mistake before the Korean War and we cannot afford another of that kind," Hill said.

Next Time Hubby Will Know Better

LOUISVILLE, Ky (AP)—Mrs. Wilbur Resler's humor was as scint as the panties she found in her husband's pocket.

He thought it would be a good joke to let her find them there but had to admit in court yesterday "It didn't turn out like I thought."

The soldier, stationed at Ft. Belvoir, Va., paid a \$100 fine for disorderly conduct amended from assault and battery.

Mrs. Resler, who obtained the warrant, also showed up with a black eye, explaining she had dropped the panties on the floor in front of her husband without a word.

"Then, he got mad and started to beat me."

Two Monahan's Youths Returned To Homes

Two run-away lads from Monahan who were arrested here by city police are back home today. They were turned back-over to their parents by Juvenile Officer A. E. Long Monday.

The lads were picked up here by police as they were hitch-hiking through town. Their parents came after them when called. One was 13 and the other 15.

Man Is Being Held For Wichita Falls

A man arrested by city police Monday is being held for Wichita Falls authorities who say he is charged with forgery. Local officers said he also is suspected of having stolen an automobile from the Salvation Army in Wichita Falls.

He was arrested at the Salvation Army facility here Monday, afternoon after L.J. Robert Hall reported the man may have stolen the Wichita Falls "carry-all."

Frank Really Red

FRANKFORT, Ind. (AP)—Frankfort's favorite robbi is a red, red robin about once a minute, day and night.

The bird built her nest and laid her eggs in the cylindrical shade of the red light on a traffic signal.

Clerk Is Indicted

FORT WORTH (AP)—James Bowen Jr., clerk for Braniff Airways, was indicted today on eight counts of embezzlement. Assistant District Attorney Stan Harrell said Bowen was accused of taking at least \$496 from Braniff through juggling of the firm's books.

Senate Votes Down Plan For Freeze Powers

WASHINGTON (AP)—The Senate voted down today, 45 to 41, a proposal to give the President power to freeze wages, prices and rents for 90 days in the event of a grave national emergency.

The stand-by "freeze" authority, bitterly contested by Sen. Taft (R-Ohio) who said President Eisenhower didn't want it, was sponsored by Sen. Capewhart (R-Ind.), chairman of the banking committee.

It was the first vote taken by the Senate on a bill to extend the defense production act in curtailed form.

The vote was on an amendment by Sen. Byrd (D-Va.) to limit the President's freeze authority to an actual declaration of war or after a concurrent resolution by Congress. In effect, this means the President could not freeze the economy without congressional action.

The Byrd amendment was adopted by the roll call vote.

Taft had said in debate that the Capewhart proposal was "absolutely contrary to the whole theory of a free economy."

Pounding his desk, Taft shouted to the Senate that approval of the freeze provision would mean accepting "the philosophy of the Truman administration and of the socialists."

ALLOWABLE

(Continued From Page One)

daily, an increase of 41,015 over May. The Bureau of Mines forecast for June demand for Texas crude was 2,780,000 barrels daily, a decrease of 20,000.

June allowables by district will be announced later in the week.

The new June state-wide total represents an increase of 58,684 barrels daily over Saturday. New allowables normally are compared with state-wide figures of the Saturday preceding the commission's hearing. The commission made the comparison with allowables May 9.

The hearing lasted less than a half hour.

Ralph Dieler, chairman of Standalone, said he believes crude and product stocks still are "wastefully high."

In calling for a 19-day schedule in June, Dieler asked the commission "to stay on the low side until stocks are down."

"We need substantially less crude," he said.

Rex Baker said Humble's 20-day nominations "represent firm market demand."

H. P. Nichols of Tyler, representing the East Texas Oil and Gas Association, called for a 19-day schedule in the East Texas field.

He said bottomhole pressure had increased 1.80 pounds per square inch since January. He agreed with a commission report that the pressure dropped 1.68 pounds in April.

J. H. Tucker advised the commission El Paso Natural Gas Company is receiving 100 million cubic feet of gas daily from the West Texas Spraberry field and hopes to increase the figure to 200 million by Jan. 1.

Only commissioners Ernest Thompson and Olin Culbertson attended the Houston hearing. William Murray is in Washington.

The next state-wide hearing will be held June 17 in Austin.

SHIVERS

(Continued From Page One)

fare ceiling from 35 to 42 million dollars yearly revived the possibility of its final approval in the House.

Rep. W. R. Chambers persuaded the House to suspend all rules to allow transfer of the measure from the committee which held it to a committee considered more likely to recommend its adoption.

The vote transferring the proposal was 103-21. Chambers said the chance to vote on the constitutional amendment before the session ends.

The House passed on second reading another of the water bills recommended by the governor's water committee. It requires all political bodies, including the federal government, to apply to the State Board of Water Engineers for a permit to appropriate public waters.

Rep. George Berry of Lubbock said he feared the measure would block construction of a dam on the Candian River to provide water for 12 towns. Rep. Fred Meredith of Terrell, sponsor of the measure, said he did not think this was so.

The bill lacked sufficient support for final passage, a vote on that question being delayed until a later day.

Three Men Fined On Theft Counts

Three men were fined \$50 each in Howard County Court today on charges of stealing \$40 from the purse of Billy Shelton 804 Runnels, early Monday morning.

They were Billy Joe Digby, Lincoln Brummett and Billy Joe Montgomery.

All three men pleaded not guilty to charges Monday afternoon on arraignment before County Judge R.H. Weaver. Montgomery and Brummett changed their pleas to guilty this morning. Weaver fined each of the men, and court costs made each have to pay \$75.85.

The theft was reported about 1:30 a.m. Monday. Police found the \$40 in the men's car shortly afterwards.

Home Again

Associated Press Correspondent William Oatis puts his arm around his wife as they face radio mikes at the International Airport in New York after the released American newsmen flew from Europe. Oatis was released Saturday from a Czech prison after serving two years of a ten-year prison sentence for alleged espionage work against the Red power. (AP Wirephoto).

FLOODS

75 at Brownsville to 42 at Dalhart. Within 10 days, the violence of the elements in Texas has killed or contributed to the death of nearly 150 persons.

A construction worker was killed Monday when high winds that raked Galveston ripped a "work-shack apart and blew it from the seawall. Waco and San Angelo for no reason killed 123 persons, 113 at Waco alone last week. A plane, knocked from the air by a vicious thunderstorm, crashed and killed 19 persons Sunday east of Marshall.

While the tornado-like winds of hurricane force were pounding Galveston and some other Gulf Coast areas Monday, tornadoes were reported sighted in the air at Terrell, Beeville and Waxahatchie.

In Southeast Texas, the treacherous Sabine River, again on a rise out of its rain-gorged bed, threatened Deweyville anew.

In the House area, Willow Creek was out of its banks and flooding local roads. Spring Creek and the San Jacinto River were rising rapidly. Water entered a few Houston homes and business houses Monday but drained away rapidly.

Waterpouits formed in Galveston Bay during the 30-minute storm which killed Arthur Allen, a Negro construction worker. Eldridge Robinson, also a Negro, was critically injured.

The other person injured at Galveston was John Sterling, like the others a worker on the Galveston seawall extension. He was hurt when the car in which he sought refuge was blown from the seawall.

Lightning struck three homes in rain-soaked Houston but there were no injuries. Houston has had 3.72 inches of rain in less than a week.

An eight-inch cloudburst drenched the Sabine watershed Sunday night and heavy rains Monday sent the river toward what could be a record crest, a

Roswell And Broncos Launch Set Tonight

Locals Home For 6 Days

Nursing their longest winning streak of the 1953 season, the Big Spring Broncos return home tonight to open a six-game stand. The Millers have now won three straight.

Roswell's Rockets, boasting numerous players who formerly wore Big Spring jerseys plus a manager (Pat Stacey), who's not exactly a stranger to these parts, put in for three games.

After the Rockets depart town, the Lamesa Lobos invade the local precincts for three games.

To date, the Steeds have shown a remarkable ability to win on the road and lose at home.

Manager Jack Arndt hopes to get them straightened out in the latter problem without disturbing the road trend. In 12 home starts, the Steeds have emerged victorious only three times. Still, they boast a record of 12 wins in 24 starts, which means they have played 750 ball on the road.

Chances are Andy Alonso will get the mound assignment against Roswell tonight. Alonso has now won one and lost three.

There's a possibility Roswell's sensational rookie hurler, Rolando Barard, will toil against Alonso tonight.

Among ex-Big Spring players who are now wearing Roswell uniforms are Al Costa, traded only recently to the Rockets; Bert Estrada, Armando Arcebia, Ossie Alvarez and Rick Gonzales.

Manager Jack Arndt hopes to get them straightened out in the latter problem without disturbing the road trend.

LOOKING 'EM OVER

With Tommy Hart

Who are you to believe? Jimmy Cannon, gloomy sports writer of the New York Post, wrote this about baseball recently:

"There is room for argument when you match one generation against another in sports and arts. There is no doubt about baseball. Skills are diminishing. There are fewer great players than ever before. . . . It is the age of mediocrity in baseball. . . . Baseball is a sport that is losing its appeal. . . . The big leagues are slower. Neither the old St. Louis Browns nor the Phils when Gerry Nugent owned them as bad as today's Pittsburgh Pirates. . . ."

"Baseball is a game falling apart, breaking into pieces, slowly, slowly."

About the same time Cannon was sounding the death knell of the game, Stan Hack, a great player himself in the major leagues and now manager of the Los Angeles Angels, uttered these remarks:

"When I was a kid, I vowed I'd never repeat what the old timers were saying. 'They don't play ball like they used to in my day.' . . ."

"And yet, every so often I find myself saying the same thing. When I think back to Ossie Bluege, I say there was the greatest all-around player of them all. Then I think forward to Stan Musial and I can't help considering him the greatest. Modern ball players aren't so much these days, that perhaps we overlook their capabilities."

"For instance, in the old days it was common for a sandlotter to go directly to Coast League ball. Nowadays the kids are seasoned in smaller leagues for several years. Maybe they all play better ball now than they ever did, but we just don't recognize it."

LITTLE-USED RULE INVOKED BY UMPIRE

Fans who attended the Carlsbad-Big Spring double header here the other night were left in the dark as to why Pitcher Gene Wolf of the visitors was deducted in favor of Lefty Marshall Epperson, just when it appeared Manager Pat McLaughlin was going to leave him in.

McLaughlin had no choice. The rules dictated it. Baseball law says, if a manager makes more than two trips to the mound in any one inning to talk to his pitcher, the hurler must be excused from duty. Umpire Bill Valentine called Pat's attention to the regulation the third time McLaughlin started for the hill.

Longhorn League teams are required to carry only three rookies but the Midland Indians, who seem to be able to get material when they need it, are carrying seven first year men now.

Roman Soto, who beat the Big Spring Broncos with a classy mound performance recently, is a freeman in organized baseball. He had been carried as a limited service player but his status was clarified by George Trautman's office.

Nip gesture, that of Jackie Price, the baseball comic. Price was paid \$200 for staging his act in San Angelo last week and donated all of it toward a fund for San Angelo tornado victims.

Cold weather kept the crowd down to 432.

A staggering amount of work must be done on the Big Spring High School football field between now and September, if it is to be suitable for playing. A bald spot extends from goal post to goal post down the middle of the field.

Carlsbad Raps Midland, 17-4

The first-place Carlsbad club kept their one-game lead healthy by blating out a 17-4 K. O. over Midland. Four Midland hurlers threw up 18 hits to the Potashers who used simple, brute force to win.

San Angelo used virtually the same tactics, winning 14-3 from Roswell. The Colts were evened up matters after dropping two straight to Roswell.

The fighting, struggling Lamesa club put up another noble effort, driving Big Spring to the 11th inning before bowing, 9-6.

Hermione Reyes, in an Artesia suit for the first time, pitched himself to a 9-3 debut win. Reyes pitched six-hit ball, striking out six.

Ben Hogan Has 71 In Practice Test

FORT WORTH (AP)—The best defending champion Ben Hogan could do over Colonial Country Club's 7,035-yard layout yesterday was a 71, six strokes off the course record Hogan set in the 1946 Colonial National Invitational.

Hogan was one of the early testers, fast getting in top shape for the opening of the 1953 Colonial \$25,000 Tournament beginning Thursday.

Diaz's 11th Inning Blow Gives Cayuses 8-6 Win

LAMESA — Mandy Diaz's two-run, two-run double enabled the Big Spring Broncos to defeat the Lamesa Lobos, 8-6, in an 11-inning thriller here Monday night.

The Steeds swept the series with the Lobos.

Manager's owner Harold Webb wasn't here to see the spectacle. He is still out hunting ball players for the cellar-dwelling Lobos, threatened with a franchise, loves if attendance doesn't pick up.

Jon Miller and Larry White homered to send in two runs each for the losers with Joe Riney also getting a homer for the winners. Riney's round-tripper was his of the season.

Lampsa took a short lived 6-5 lead in the fifth with four runs. Armando Sanchez singled off winning pitcher Fran Perga's shins and

an error by the center fielder sent him to third and Herb Nauret to second. Both crossed the plate when Cliff Jackson singled.

Jackson scored in front of Miller's blast that cleared the center-field fence 372 feet away from home plate and just to the left of a double deck section.

Big Spring started off with a single run in the first on a walk, an error and a single, by Riney, then picked up two more in the second on two bases on balls, an error and a single by Jess Jacinto.

After the Lobos came back with two in the second, the Broncs dented the plate with two more in the third on a double by Riney, a single by Diaz and a double by Curtis Borrett.

With one out in the ninth the winners tied it up by hitting a four-bagger over that double deck fence in centerfield by Riney and in the 11th Wally Hanna doubled down the right field foul line. Riney was given an intentional pass and Diaz doubled in the winning runs.

Pancho Perez, whose job depended on the game, went all the way on the mound for Big Spring to pick up his third win.

HACK FINED BY SAYLES

Manager Hack Miller of the Big Spring baseball club has been fined \$50 for cursing an umpire without hearing of the fans and for attempting to assault the umpire.

The incident, called "conduct detrimental to baseball," occurred Friday night during the Carlsbad-Big Spring game. The fine was assessed yesterday.

Rocky-Walcott Episode Ended, Say Officials

CHICAGO (AP)—Unless Felix Boechicchio goes to court to prove somebody that pictures his Rocky Marciano-Jersey Joe Walcott episode is closed.

Boechicchio, Walcott's manager, was among those present yesterday for a special showing of three dimension films of Friday night's heavyweight championship bout.

The moving pictures showed definitively that Walcott received a full count of 10 after his first-round decking by Champion Marciano.

Boechicchio and Walcott had claimed. Referee Frank Sikora dashed out a fast count. The wash-Boechicchio maintained, even after the evidence of the films was submitted, that he still thought the count was fast.

His lawyer, Angelo Malandra, declared the pictures were "edited and did not depict the actual action."

However, Chairman Livingston Osborne and members Lou Radzienda and Johnny Behr of the Illinois Athletic Commission were swayed by what Radzienda called "this kind of nonsense."

At an IAC meeting following the movies, the commission disallowed all five points of Boechicchio's protest that the result be set aside.

The commission said the KO at 2:25 of the first round "stands as official."

Furthermore, Osborne said, he was disappointed in Jersey Joe's showing and added firmly: "He should retire."

"I think Walcott was through when he went into the ring," he said.

Besides a charge of a fast count Boechicchio and Malandra based their protest on four other arguments: Marciano was not in a neutral corner when the count started; Sikora was escorting Marciano to Walcott's corner when the timekeeper started the count; Walcott actually was up before the count of 10, and the ring was not regulation size and too heavily padded.

Cook's Records Pair Of Wins

Cook's Appliance Company, preparing for its game in Colorado City with Sun Oil Company, defeated Western Auto in a softball doubleheader at the City Park Monday evening, 7-3 and 4-0.

The second game went only three innings. Western Auto was "limited to only one hit by Cotton Mize, a triple by Barr in the second.

Pete Cook paced the attack for Cook's in the first game, smashing for three hits. James Watts hit a home run and single for the winners.

Western Auto got its three runs in the third with the aid of two hits, a base on balls and a fielder's choice.

Burt and Kelly managed the only hits off Mize in the first game.

Pony Leaguers Clash Tonight

Pony League action will be resumed at the Little League Park at 8 o'clock this evening, with the Cubs battling with the Devils in the first game, and the Cargo Kings opposing the Reporters in the after-noon.

It's still anyone's race for first place in the Pony loop, though tonight's games might clarify the skirmishing somewhat.

In a Little League game last night, the Oilers thrashed the Legion, 3-0, behind the superlative one-hit hurling of Chubby Moser.

A hit by Bobby McAdams in the fifth robbed Moser of a no-hitter. Moser struck out 15 in the six-inning game.

Thomas and Appleton scored for the Oilers in the third and Daniels in the sixth.

The Oilers collected seven hits off Subia, Legion hurler.

Thomas and Parkhill each got two hits. Daniels, Moser and Anderson had one each.

The Engineers battered the Eagles, 13-2, in the evening's first game. Correa, Engineer hurler, struck out 12 of the opposition. James Stevens paced the winners with the stick, bashing four hits.

Track Is Closed For Miller Rites

INDIANAPOLIS (AP)—The roar of cars tuning up for the 500-mile race May 30 died down for half an hour today.

The track was closed during the funeral of Chet Miller, 50-year-old veteran from Glendale, Calif., who was killed on a practice run last Friday.

George Conner of Los Angeles had a brush with death in the crashup of a Hoosier Racing Team Special Monday.

Conner escaped unharmed after the car spun one and a half times and the tail snapped into the wall on the northwest turn.

Ex-Parachute Jumper Now A Winner For Milwaukee

Parachute jumping isn't included in the normal course of instruction on how to become a winning major league pitcher but young

hurlers may consider it when they study the amazing development of Blasing Bob Buhl.

The 25-year-old right-hander from Saginaw, Mich., is one of the newest seasons for the surprising success of the Milwaukee Braves. Last night in his biggest test so far, Buhl whipped the hard-hitting Philadelphia Phillies 4-0, and pulled the Braves into a first-place tie with the Phils in the National League.

The ex-GI paratrooper scattered seven hits and has now worked 17 scoreless innings out of a possible 18 as a starting pitcher.

Two years in the Army—much of it in Korea—worked a big change in Buhl. Although he admits he didn't have time to do much pitching he somehow developed a pretty good curve and a beautiful change of pace to go with his good fast ball.

"The improvement in the kid is amazing," declared his manager, Charlie Grimm. "Bob pitched for me when I managed Dallas in 1950. He was a wild youngster then. He had a pretty good fast ball but his curve was a mere wrinkle. He's still a bit wild, but just enough to keep those batters honest."

Buhl came back to baseball this spring after 19 battie jumps in Korea. Since his last pitching was at Dallas where he had a mediocre 8-14 record, Buhl figured to be fagged out. But he caught fire in spring training and won a job.

A skin rash slowed him down for a while and he lost a game in relief to Cincinnati the first week of the season. He didn't get into another game until last week, when he was a last-minute choice to face the New York Giants. The Giants got two bloop hits and Buhl was in business.

Last night's victory, which included a home run by Del Crandall gave the Braves an even split in their first home series with the Phils.

Both teams gained ground over the third-place Brooklyn Dodgers, who lost again last night to the Cincinnati Reds, 2-1, in 10 innings. It was the Dodgers' fifth loss in six games. New York rallied to defeat St. Louis, 8-6, in the only other National League game.

In the American League, Detroit split a double-header with Boston, taking the first game 5-2, and losing the second, 8-5. Washington cooled off the Chicago White Sox, 3-0, and the other clubs weren't scheduled.

Ted Kuszewski homered with one out in the 10th and final inning for the Cincinnati triumph as the Dodgers equaled a modern-major league record by leaving 18 baserunners stranded in the first nine innings.

The crushing blow came off Preacher Roe, who also threw a home run ball to Andy Seminick in the fifth inning. Red Podbielan pitched an amazing game for the Redlegs. He walked 13 men in the first nine innings—one short of the modern National League record—gave up six hits and saw one man get aboard on an error. Yet he was scored on only once, in the first inning when Jackie Robinson followed two walks with a double.

The Giants put together five straight hits after two were out in the seventh at St. Louis to whip the Cardinals. The big blow was

Xente Irvin's home run with two on base, which broke a 5-5 tie.

Old Connie Marrero, believed in some quarters to be almost as ancient as Satchel Paige, had the White Sox fanning the night air trying to hit his "mutha" balls for Washington. He struck out nine and allowed only five hits.

Washington got all of its runs in the sixth off Joe Dobson on singles by Wayne Terwilliger and Clyde Volmer, a double by Mickey Vernon and a pair of Chicago errors.

Detroit jumped away to a three-run lead in the first inning of its first game at Boston when Fred Hatfield and Steven Souchock doubled and Johnny Pesky and Walt Droz singled. Ned Garver checked the Red Sox on five hits for his third victory.

Boston came up with six runs in the first inning of the second game. Mel Parnell scored his fifth straight victory but he needed help in the seventh from Ellis Kinder as the Tigers rallied.

CRANDALL

Coahoma Trounces Cuthbert, 3 To 2

COLORADO CITY — Coahoma took the lead in Colorado City Jaycee Softball League play by defeating Cuthbert, 3-2, here Monday night.

Jim Watt of the Coahomans and Cuthbert's Raymond Uzzle each gave up four hits.

Coahoma scored the winning run in the seventh when Rube Baker punched out a single to plate J.B. Murphree. Murphree had singled with one out, gone to second on a

put-out and waited around while Pinch Hitter Bill Brown was walked.

Shelds blasted out a home run for Cuthbert in the fourth.

COAHOMA, 101 000 1-3-4

Ponies And Steers Are Co-Champions

Texas and SMU tied for the Southwest Conference baseball championship and the conference is voting on which it wants to represent the circuit in the NCAA playoffs.

Texas created the tie Monday by sweeping a double-header from Texas A&M, 1-0 and 4-1.

Sports And Cats Maintain Pace

Tough Shreveport and the Fort Worth Cats both won their Texas League games Monday night.

The clubs are two games apart at the present time. Both gained ground on other first division clubs, however, as Houston was weathered out and Tulsa lost to Dallas.

The Shreveports were extended by San Antonio before they won, 6-5. The game was in doubt until the last out.

Fort Worth, in winning from Oklahoma City, 5-2, took their sixth straight. They had to knock out Oklahoma City's Bill Gresson to win. Rogelio Dag Stupor took the credit.

Dallas got back into the first division, and back to 300 ball, when they topped 13 hits, dropping Tulsa, 8-7. Jim Suchek hit a two-bitter working into the ninth inning when he flopped and was lifted, with Tulsa scoring five times and all but winning the game.

Royal Bay Gem Will Bear Watching In Prearkness

BALTIMORE (AP)—Dark Star and Jockey Henry Moreno are going to have to keep nervous eyes looking back over both shoulders in Saturday's Prearkness.

They had a warning yesterday they're liable to be run over by Royal Bay Gem as well as Native Dancer.

The Dark Star-Moreno team learned about Native Dancer in the Kentucky Derby May 2 when the Alfred G. Vanderbilt entry just missed passing them at the finish.

Royal Bay Gem did go by them in the Prearkness Prep at Pimlico yesterday.

Native Dancer, Royal Bay Gem and perhaps half a dozen others will be out to try to stop Dark Star from taking the second leg of the triple crown Saturday.

The \$100,000 Prearkness will be 2 mile and three-sixteenths at even weight, 126 pounds. The Prep was an eighth of a mile shorter for only \$7,500 and Dark Star had to carry four pounds more than his conqueror's 118.

For that reason, it was noticeable that Jockey Moreno laid off the whip and used only his feet and hands to urge Dark Star. It wasn't

Seven Player Transactions Are Completed By Broncos

Seven player transactions were completed by Bill Frank, general manager of the Big Spring Broncos, Monday.

Frank returned Gerald Fetrow, limited service infielder, to Mattoon of the MOY League; optioned Tommy Azinger, rookie hurler, to Berger of the WT-NM League; signed Herman (Red) Cowley to a contract; placed Manager Hack Miller on the disabled list to make room for Cowley on the roster; and signed Carl Harris and Ralph Atchison to contracts.

Fetrow had been purchased conditionally from Mattoon and had been tried both at third and in right field. His hitting proved adequate but his defensive work was below par.

Frank said he felt Azinger needed only seasoning to become a winner. At Berger, he will work under Lloyd Brown, ex-major league hurler.

Cowley opened spring training with the Steeds but more recently has been working in the front office of the Cayuses. He's a classy fielder, one of the best in the minors.

Perez was to be given a "final chance" last night and apparently came through with flying colors. He gave up 11 hits but, outside of the fifth inning, when he gave up four unearned runs, he was in complete command of the situation.

Frank also dispatched a telegram to Pampa, protesting in the strongest language possible over the failure of the Oilers to send Manny Temes here.

Temes was optioned to Big Spring at the same time the Broncos optioned Pitcher Ray Machado to Pampa. However, the papers were never sent through and Frank accused the Oilers of "stalling."

Machado made his first mound start for the Pampans last night and registered a win.

Frank informed Pampa he expected Temes to be sent here immediately.

Four Top Golfers Will Skip Meet

NEW YORK (AP)—You can expect some official dust to be kicked up over failure of a group of top-name pros to play in the Western Open Golf Tournament at St. Louis, May 28

City Buys New Ford Tractor

This new Ford Golden Jubilee tractor, equipped with Dearborn hydraulic industrial loader on the front and Danuser blade on the rear, has just been delivered to the City of Big Spring by the Big Spring Tractor Co. and will be used by the city in street maintenance work.

Hong Kong Police Find 2 Kidnapped Teen-Age Youths

New Summer Cottons Now On Hand At Brown's Shop

A new shipment of summer cottons has been received at Brown's Fabric Shop, 201 E. 2nd. And Mrs. H. A. Brown, owner and manager, states cottons are selling as fast as any other material right now.

Housewives are making clothing now. "And a number of women are making shirts now, too," she said. One of her customers just made a fancy rodeo shirt out of the chambray material.

Rains In The South Force 2,000 Families From Homes

NEW-ORLEANS (AP)—Heavy rains and swollen streams have forced almost 2,000 families from their homes in Louisiana and Western Mississippi.

Three persons drowned in Louisiana. Two others were missing after a landslide in Natchez, Miss., as water covered thousands of acres.

Livestock losses were reported at many points as cattlemen began driving stock to higher ground. The rice crop in Southwest Louisiana may be lost and cotton in other sections was ruined.

Officials estimate that losses could run into the millions of dollars in property and crop damages. Rain and windstorms struck most of the state yesterday and over the week end. And more rain was expected today.

Gov. Robert Kennon made National Guard equipment available for emergency use in the stricken areas.

The tornadoes and floods left communications lines down and halted traffic on many main highways.

Highest hit was the area around Natchitoches in Northwest Louisiana, where the Red Cross said 250 families were evacuated through yesterday and another 100 would leave their homes today.

Two children drowned at Lakeau trying to cross a water-filled ditch, and a 24-year-old Negro drowned while rounding up cattle in a bayou near flooded Red River.

More than 11 inches of rain fell in the 36-hour week-end period.

Judge Rice To Hear Binion Case In Dallas

DALLAS (AP)—Federal Judge Ben Rice will hear the Henry Binion case if and when the former Dallas gambler comes to Texas for trial, the Dallas News said today.

Binion is charged with evasion of income taxes. He is also wanted in Texas on state gambling charges and would be arrested on those charges were he to come to this state to answer the federal charges.

Midwestern Appeals Ruling On Negroes

WICHITA FALLS (AP)—Immediate appeal to the Supreme Court of a ruling admitting Negroes to Hardin Junior College has been authorized by the board of Midwestern University.

The Fifth Circuit Court of Appeals at New Orleans Friday upheld a lower court ruling admitting Negro students to Hardin, a branch of Midwestern.

Midwestern's attorney, Guy Rogers, said yesterday he would make immediate application for a writ of certiorari, a plea to submit the issue to the Supreme Court.

Godfrey Spends A Comfortable Night

BOSTON (AP)—TV and radio star Arthur Godfrey had "a very good night," a hospital bulletin said today.

Godfrey, recuperating from the first of two hip operations intended to correct a painful condition resulting from auto-accident injuries many years ago.

Atomic Energy Aids In Search For Oil

BY ALTON L. BLAKESLEE
TULSA (AP)—Atomic energy is the new magic wand of oil industry.

Radioactive atoms are doing dozens of ingenious jobs, from finding oil to transporting and refining. They do some jobs never possible before.

Some uses are shown at the International Petroleum Exposition here. Already, the oil industry is the biggest industrial user of radioisotopes, reports Travelab Inc., a main supplier of atomic instruments and packaged atoms.

The Bureau of Mines is putting radio-iodine into water, injected down wells to push oil through rocks to a nearby producing well.

By measuring the "hot" iodine which comes up with the oil, it tells how fast the water is moving through rock formations, and where it is going. With that knowledge, the water injections can be made more efficient.

Geiger and other counters are helping find more oil.

Lowered down wells, the atomic detectors report the natural radioactivity of rock strata, to find types which usually hold oil. The counters can detect rock formations with relatively high hydrogen content, a harbinger of oil.

The radio-atom can find holes in well casings in the black depths. Dowell Inc., of Tulsa pours water containing radio-iodine down the well. The water is pumped out, and a Geiger counter lowered down. If there was a hole, lots of water seeped out the hole, and the rock there has lots of radio-activity, making the Geiger counter bounce.

X-rays spraying out from radio-cobalt-60 are used to see through pipes or pipe welds, and detect any flaws in a pipeline as it is laid.

Different products or grades of oil can be pinpointed along the same pipeline, moving like a train of fluid boxes. But at the destination, you must know when you've gotten all of one product, and are starting to get another.

By injecting radioactive anti-mony into the line—just as a change of fluid is made, Geiger counters will give advance warning of the change, so the products can be pumped out separately.

Cobalt-60 also is used to "tag" go-devils or scrapers which may get stuck in pipelines. Atomic ray counters moved over the pipe tell you exactly where the scraper is lodged.

Radio-atoms are measuring the density of the all-important mud used in drilling wells. They promise to help detect leaks in pipe lines. They're telling how fast piston rings or rubber tires wear down.

In catalytic cracking or refining, radioactive zirconium measures the flow of pellets of a catalyst being blown around by air blast. Some beads are made radioactive. As they pass Geiger counters spaced at intervals, the Geiger counters pulse. The time it takes for beads to pass two points tells the speed of flow.

Radium rays are felling how much liquid there is in sealed tanks containing hydrofluoric acid, a dangerously reactive and corrosive chemical used as a catalyst in making one blending agent for aviation gasoline.

Atomic energy cannot yet supply power to operate drills or other oil machinery. That might come some day, but not for many years.

Big Spring (Texas) Herald, Tues., May 19, 1953

Locked In

Kathleen Nelson, 1-year-old, of Long Beach, Calif., gears quickly from the family auto while frantic mother, Mrs. R. L. Nelson, and police officer L. W. Hyatt try to open the doors, locked from inside. Hyatt finally smashed window with butt of revolver to free Kathleen. Mrs. Nelson closed the doors with keys inside. (AP Wirephoto).

Retired General To Take State Hospitals Post

AUSTIN (AP)—A retired major general will take over direction of the state's hospitals and special schools June 1 and will be responsible for putting a reorganization plan into effect.

The new executive director, Dr. James Bethea, was appointed by the Hospital Board yesterday.

Bethea, 65, is assistant dean of the University of Texas Post-graduate School of Medicine at San Antonio.

He has been commanding officer of McCombs General Hospital at Temple and commanding general of Brooke Army Medical Center at San Antonio. He was chief surgeon under Gen. Douglas MacArthur in the Pacific Area.

Board Chairman James Windham said Bethea will cut into effect a reorganization calling for five divisions. The plan is to eliminate the conflict in authority which has existed between the executive director and medical director.

James Giddings, acting executive director since Larry Cox resigned April 1, will become head of the administrative division.

Dr. Sam Hoerster Jr., acting medical director since February, will head the medical division; Raymond Powell, special schools; Walter Moore, design and construction. No one has been secured to direct the tuberculosis division.

Controls Will End

WASHINGTON (AP)—The Office of Rent Stabilization said yesterday rent control will end tomorrow in the Florence-Killeen, Tex., area.

Human Cells Theory Upset By VA Medic

By RENNIE TAYLOR
Associated Press Science Reporter
LOS ANGELES (AP)—An experiment indicating that the cells which make up the bodies of humans and animals may be colonies of invisible virus-like organisms was reported today by the American Tuberculosis Association.

This startling theory, which it established would upset the long-accepted belief that the cell is the smallest unit of animal life, was presented by Dr. Oscar Kanner, pathologist of the Veterans Administration Hospital at Oteen, N. C.

For more than 100 years the cell has been considered the basic, indivisible particle of living matter. Dr. Kanner's findings open the way for speculation that a single cell can be divided into millions or even billions of parts which can live and multiply.

The tests demonstrated directly. Dr. Kanner said, that invisible parts of cells taken from healthy guinea pigs, can be injected into other healthy guinea pigs to produce a virus-like disease.

Other experimenters long ago demonstrated that they could take tiny bits of cells from tuberculous animals, inject them into other animals and produce disease.

These researchers assumed, Dr. Kanner said, that the disease was caused by some miniature form of the germ.

Using finely ground parts of guinea pig organs that were free of tuberculosis, Dr. Kanner made a solution which he injected into other healthy guinea pigs and caused not only disease but death.

The length of time it took the disease to develop was evidence that the injected substance contained living organisms. Animals did not get sick until three to six months after injection.

If the substance had been a toxin or poison which sometimes is extracted from cells, the disease would have developed quickly. The long interval between injection and illness thus must have been the time required for the injected or-

ganisms to multiply and cause trouble.

Many years ago the experimenters who used tubercular cell material to produce this same effect concluded that the disease was "virus tuberculosis." Duplication of the disease with healthy cell parts demonstrates, Dr. Kanner reported, that there is no such thing as "virus tuberculosis."

The tests further show, he added, that the invisible particles are not disease-organisms so long as they remain in the cells of the animal which produced them. It is only when they are transferred to another environment in another animal that they become dangerous.

A parallel in human disease also has been found, Dr. Kanner said. This is called serum hepatitis, a liver disorder attributed to injections of blood serum from healthy people to other healthy ones as a vaccine against yellow fever.

In the blood stream of the donors this serum particle caused no disease. But in the body of the vaccinated person it produced illness, sometimes serious.

Dr. Kanner's experiments point toward a whole new field of cell theory which may have to consider in a new light the old saying about one man's meat being another man's poison.

John J. Moser, 16, Dies At Colo. City

COLORADO CITY — John Joseph Moser, 16-year-old Colorado City student, died in the Root Memorial Hospital Monday morning, after a long illness.

He was born May 17, 1937 at Hamlin and had lived in Colorado City for seven years.

He is survived by his parents, Mr. and Mrs. Joe Moser, a brother Robert and sister Selwyn, and his paternal grandparents, Mr. and Mrs. J. J. Moser, of Colorado City.

Funeral services were set at the First Methodist Church at 4 p.m. today with the Rev. Herschel Thurston, pastor, officiating. The Rev. Paul Fulkerton, pastor of the First Christian Church, was to assist.

Burial was to be in the Colorado City cemetery under the direction of Kiefer and Son.

Palbearers were to be Hollis Gainey, Vaughan Grantland, Terry Thomas, Ronnie Salmon, Arlis Parkhurst, J. H. Padgett, Billy Bridgford and Billy Williams, all fellow students. The football and track team were to be honorary palbearers.

Transport Crippled

PARIS (AP)—The Paris transport system, subway and buses, was crippled again today by a 24-hour strike. Transport workers are seeking a general wage boost and immediate payment of 4,000 francs (\$1.40) monthly.

Re-Elected Chairman

LUBBOCK (AP)—Charles Thompson of Colorado City was re-elected chairman of Texas Tech board for the 11th straight year yesterday.

Soviets Free Yank Soldiers

BERLIN (AP)—The Russians returned today two American soldiers who had been held 279 days. The soldiers, are Pvt. Raymond Michalowski, of Perry Amboy, N. J., and Pvt. (Reservist) Night, Los Angeles. Both were members of the military police battalion here. They were seized on the border

of the Russian zone and the American sector Nov. 26, 1952. The Army said the Russians informed Maj. Gen. Thomas Timberman "the investigation into the circumstances of their apprehension has been completed and there is no further need for their detention." The Army added that both men were in good health, but that they would not be available to give an accounting of their experiences until U. S. authorities have completed an interrogation.

Thunderstorms Belt Wide Areas Of U. S.

Thunderstorms today continued to range the rain-soaked and wind-pummelled Gulf states where four persons died Monday in fornicative winds and floods. The rain pattern over the nation was little changed. Precipitation was general from the South to New England; there were light showers and thunderstorms in the Ohio Valley and in the Central Rocky Mountains and Great Plains, and heavier falls in the Pacific Northwest. Midwest Canadian border states and the Southwest had fair weather.

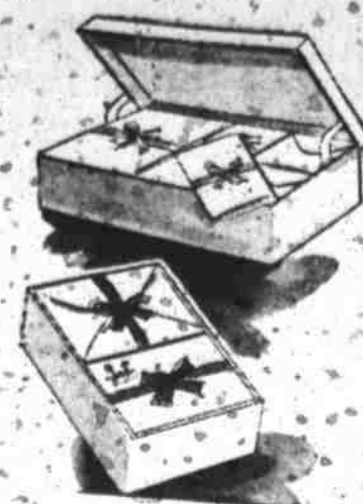

Floods in Louisiana, some parts of which have had 12 inches of rain over the week end, have driven almost 2,000 families from their homes. Three small communities are virtually isolated by overflow waters. The Calcasieu River is expected to rise seven feet over flood stage. The floods menaced the rice crop.

Soviet Chess Squad To Be In The U.S.

NEW YORK (AP)—A 16-man squad of top Russian chess players, who claim to be better than anyone else, has accepted an American invitation for a match here this summer. The U. S. Chess Federation said yesterday it has received word of the acceptance of its invitation, sent last January. Harold M. Phillips, president of the American group, said the Russians want to play June 10-18 but that he is trying to get the starting date set for July 27. Phillips said there is also a problem of getting visas for the Russians. Efforts for a chess tilt between the two nations have been under way since 1946. The current negotiations are being conducted through Folke Rogard, Stockholm, president of the International Chess Federation. During the Olympics at Helsinki last summer, four-man teams from the United States and Russia played a 2-2 standoff in the finals. However, the U. S. group wound up fifth in the over-all standings among 18 nations. Russia was first.

Gifts for the Graduates

WIFE SEEKS BIG ALIMONY John Wayne Moans His Expenses High

By GENE HANDSAKER
LOS ANGELES (AP)—Rugged John Wayne, whose wife says he grossed \$502,891 last year, told an alimony hearing that during his marriage "we have spent everything I made."
The 44-year-old movie box-office favorite returns to the witness stand today to dispute his estranged mate's demand for \$13,001 a month pending trial of the separate maintenance suit.
His wife, Esperanza Bauer, 30, former actress in Mexican films, claims that's how much she and Wayne spent, on the average, every month of their six-year marriage.
But Wayne declared yesterday his net was only \$59,366 last year and Mrs. Wayne should be able to get along on \$900 monthly pending the trial.
Dapper in a dark gray suit with checked gray tie, Wayne testified calmly for the most part, crinkling his forehead thoughtfully as his wife's lawyer quizzed him about contracts, travel expenses, loans, medical expenses, rent, etc.
But he showed resentment when he boomed at the lawyer: "You say you're suspicious of my method of earning money that might come to Mrs. Wayne."
Superior Judge William R. McKay commented, during the detailing of Wayne's expenses, that a star of his stature would have to tip a barber \$2—"for you and I know what would be said."
The remark was apt—Wayne badly needs a haircut. He explained he's letting his hair grow for a role in which he'll play an old-time cavalry scout.
Mrs. Wayne's attorney, Jerome Rosenthal, told the judge he was trying to show "a vague kind of dealing" with community property. He said he would show "a difference between what is reported to be his income and his actual income."
Wayne testified in answer to questions: "He received \$150,000 for his work in the picture 'Big Jim McLain' and \$175,000 each for 'C Trouble Along the Way' and 'Island in the Sky.' His travel in 1952 included trips to Mexico, Honolulu and South America. When a movie is completed, he usually presents gifts to members of the crew."
Herbert J. Yates, head of Republic Studio, gave him 5,000 shares of company stock.
"Mr. Yates told me it was a gift," Wayne said. "I accepted it as I would a wristwatch or anything else."
"Didn't it appear on your books of account?" the lawyer asked.
"I don't think so."
Asked if he had borrowed on his life insurance, Wayne said: "I believe money was borrowed to pay my income taxes." He said his business managers "can give you the details."
Atty. Rosenthal told the judge that Mrs. Wayne is entitled to, besides support, "a little war chest with which to properly present the evidence" at the separate maintenance trial.

AP Newsmen Being Expelled From Tehran

TEHRAN, Iran (AP)—The government said today it is expelling Marc Purdie, Associated Press correspondent, for sending abroad what it called "false and provocative news against the interests of Iran."
Hossein Fatemi, foreign minister, said Purdie has received notice to leave Iran within three days. He gave no details of the government's charge.
Purdie is the latest of a number of foreign correspondents expelled from Iran since the government took over the Anglo-Iranian Oil Co. He has been in this country since September.
Purdie has been a member of the AP's foreign staff since the war. He formerly worked for the press association as a correspondent in Southeast Asia and as chief of bureau for India.
Purdie's predecessor as AP correspondent here Phil Clarke, left Iran after Fatemi's newspaper demanded that he be put on trial. It accused Clarke of "intriguing against the government and security of the country." Previous to that, in a nine-month period, the regime of Premier Mohammed Mossadegh expelled four correspondents, including representatives of the New York Times, Reuters and the London Daily Express.

Winds Up To 84 MPH Hit At Galveston

GALVESTON, Tex. (AP)—Wind winds, blowing in gusts up to 84 miles per hour, raked this island city yesterday and left one dead and at least two injured.
Killed was Arthur Allen, 35-year-old Negro construction worker. Allen's head was crushed when the high wind toppled a small construction shack from a sea wall extension project.
Eldridge Robinson, 24, was hospitalized from injuries received when the shack was ripped apart.
The other injured, J. H. Sterling, 25, had sought refuge from the driving rain in an automobile that was blown from the 30-foot high sea wall.
Elsewhere in Texas, tornadoes were reported sighted in the air at Terrell, 30 miles east of Dallas; Waxahachie, 30 miles south of Dallas; and at Beville, about 60 miles northwest of Corpus Christi. Heavy winds and rain struck the Freeport area, on the Gulf Coast, and floods threatened near the mouths of the Sabine, Neches and Brazos Rivers.

House Panel Okays Land Sale To States For Texoma Parks

WASHINGTON (AP)—Bills authorizing the sale of land along Lake Texoma to Texas and Oklahoma for park use were approved yesterday by a House Public Works subcommittee.
One would permit the sale of 160 acres near Denison, the birthplace of President Eisenhower. The park would be named Eisenhower Park. It was plans to spend a million dollars in developing the park.
The other would authorize the Army to sell 70 acres to Oklahoma, which also plans to make a large investment in park improvements.

Airliner Is Returned To Czechs By The U.S.

BERLIN (AP)—The United States today gave Czechoslovakia back the airliner in which four freedom-seeking Czechs fled to the West two months ago.
Four Czech crewmen took off at midnight for Prague in the twin-engine DC3.
Negotiations for return of the plane had been under way for several weeks. U. S. High Commission officials said the return of the plane had no connection with the Czech government's release of Associated Press Correspondent William N. Oatis Saturday.

Chlorine Condenser Rupture Injures 3

CORPUS CHRISTI (AP)—Rupture of a chlorine condenser at a chemical plant here gassed three men slightly and forced crews of two tankers to leave their ships yesterday.

Lad Has Hard Head

DENVER (AP)—A 3-year-old boy fell three stories yesterday and landed on his head.
Harold Brown was rushed from his home, where he fell, to a hospital. Doctors examined him and sent him home again. He wasn't hurt.

Carnival And Parade Slated By Cub Scouts

Cub Scouts from Big Spring will hold a parade and a carnival here Saturday. The parade, which will be sparked by the Tinker Air Force Band, is slated for 10 a. m. The Tinker band is from Oklahoma City and will stop here for the parade while traveling to El Paso for a performance there. Also in the Cub Scout parade will be a team callope.

The carnival, which is actually the main event of the day so far as the Cub Scouts are concerned, will be held at the County Fair Building at 6 p. m.

J. C. Morgan, who is chairman of the day's activities, extends an invitation to all people in Big Spring to attend the carnival.

The Cub Scout carnival will be just like professional touring shows. It will consist of a variety of freaks, specialty acts, peep shows, games of chance, and concession stands.

An "Archa Show" has been set for 7:30 p. m. after various side shows and concession stands (snow cones and ice cream) have shut down. The main attraction will be strong men, tight-rope artists, Indian acts, and sword swallowers.

Special "money" has been printed by the Cub Scouts for use in their carnival. Approximately 100 to 150 Cub Scouts are expected to participate in the activities, and any profits will be turned over to various needs about the city.

Morgan stated that the show has resulted as the result of Den Mothers' activities and the Cub Scouts hard work.

Parade will begin at 4th and Nolan Streets, continue west on 10th, turn north on Main, and stop at the T&P station.

French-Laotian Troops Pursue Reds From Laos

By LARRY ALLEN

HANOI, Indochina.—The last Communist invader of Laos was reported on their way out of the little mountain Indochinese kingdom today. French-Laotian forces were said to be in pursuit, but apparently with no great prospects of catching them.

French officials said the Communist-led Vietminh's crack 304th Division was moving east and southeast, presumably heading for the coast of Annam and territory long held by rebel chief Ho Chi Minh's forces.

This was the route over which the division, commanded by Red China-trained Gen. Hoang Minh Tao, knifed into Laos more than a month ago in support of three other rebel divisions driving into the kingdom from North Viet Nam.

Vietminh forces advanced to within sight of the royal Laotian residence city of Luang Prabang—and then withdrew without a battle. More than a week ago, the other three rebel divisions quit Laos, pulling back over the kingdom's northern frontier into the Black River district of Northwest Indochina.

French sources seeking reasons for the surprising withdrawal have speculated that the invasion may have been called off on orders from the Soviet Union and Red China as a part of the Communist "peace drive."

Other explanations advanced have been the start of the monsoon rains, with their crippling effect on military operations, or a breakdown in the long Vietminh supply chain of thousands of coolies packing supplies on their backs over mountain and jungle trails.

Salvation Army Brings Furniture To Angelo Victims

A large amount of furniture was taken from here to San Angelo Monday evening by personnel of the Big Spring Salvation Army Headquarters.

Lt. Robert Hall, commander, said that people here made a "marvelous response" to his appeal for furniture. Tables, chairs, stoves, beds and even some dishes were contributed, he said.

One furniture store here gave a truck load of goods. Hall stated Saturday before leaving for San Angelo that several trips will have to be made to take all the furniture to disaster victims.

Trips will continue as long as donations come in, he said. Everything is needed except clothing, it was pointed out.

Leaving for San Angelo again Monday were Lt. and Mrs. Hall, Walter Miles and Jimmy Moore. Mrs. Hall took the Girl Guards to help sort clothing, and they returned last night. Mrs. Hall left again today and expects to be there through Wednesday.

Nurse Group To Talk Polio At Meet Today

Polio discussions will dominate the meeting of the Big Spring Registered Nurses Study Club this evening.

Jewel Barton, public health nurse for the Big Spring-Howard County Health Unit, will report on the 10-day polio workshop she attended recently at Santa Rosa Hospital, San Antonio. All nurses who are interested in polio and its treatment are being urged to attend.

The meeting will start at 8 p. m. in the nurses' home at VA Hospital.

Knott Honor Students

Wanda Jean Roman, left, daughter of Mr. and Mrs. E. L. Roman, is valedictorian for the Knott senior class. Her grade average for four years is 95.02. Salutatorian is Leona Lancaster, center, daughter of Mr. and Mrs. O. N. Lancaster, with an average of 91.64, while highest ranking boy in the class is David Airhart, right, son of Mr. and Mrs. Johnny Airhart, with an average of 92.3. The 17 members of the class will receive their diplomas in commencement exercises Wednesday evening.

AS U.S. BEGAN ACQUIRING LAND

Land Policy Nearly Forgotten In 1930 Centralization Rush

By PRICE DANIEL

U. S. Senator from Texas

(Second of a Series)

WASHINGTON — Since 1933, more and more power has been taken from the States and exercised by the Federal Government.

Through a depression and world war, the nation has come to look to Washington for leadership, for planning, for assistance, and the role of the States has grown steadily more insignificant and obscure.

In 1928, for example, the American people paid to all levels of government—\$14.3 billion in taxes. Sixty-four per cent of those taxes went to State and local governments; 36 per cent went to Washington. This year the American people will pay approximately \$30 billion in taxes. Only 22 per cent will go to State and local governments, and 78 per cent—more than three-fourths—will go to the Federal Government. Much of the Federal share is for uses other than defense and foreign aid.

keep its lands when it entered the Union and was to assume and pay off the debts of the Republic. Texas was the only State required to pay its former indebtedness.

Significantly, the acreage given by the Federal Government to the States for common school purposes is more than 5 times greater than the 17,000,000 acres of offshore submerged lands within the boundaries of all the 21 coastal States combined.

This traditional American policy was sound and wise. Under monarchies of old, feudal barons and kings held sway as despots over the people because the national sovereign owned the land. It was to avoid such a tyranny that our forefathers pursued a course

If the rush of the 1930's toward centralization, however, our historical land policy was virtually abandoned. The Government in Washington began acquiring land. Today it is the nation's largest landlord, owning 24 per cent of all the land within the continental limits of the United States, including

more than half the area of many Western States.

Actually, the States have managed their lands far better—with far more profit to the people—than the Federal Government. The whole effort to wrest the submerged lands from the States was instigated by speculators who wanted to get to the rich lands off our coast under the "cheap" terms of Federal leasing rather than the high costs of State leases. Not one witness could point out an instance of State mismanagement, official misconduct, or favoritism to private interests.

The doctrine of "paramount rights" by which the Federal Government seized without compensation the offshore submerged lands of Texas, Louisiana, and California—opened the door to virtually unlimited acquisition and ownership of land by the Federal Government. That is why officials from 47 States supported the State ownership of submerged lands legislation which has been passed by Congress.

Report U.S. Modifies One Provision On POW Issue

NEW YORK (AP)—The New York Times reported today that the U.S. has decided to modify one provision of the last Allied Korean prisoner proposal to bring it more in line with the United Nations resolution on the stalemate peace talks.

In a dispatch from U. N. headquarters, Times Correspondent Thomas J. Hamilton said reliable sources indicated the Americans might go so far as to agree to a political conference to take up the disposition of prisoners unwilling to accept repatriation, provided some sort of time limit was set for the conference to reach agreement.

Such a change would bring the U. N. Command's proposal considerably closer to the last Communist offer, which proposed that a political conference take over the POWs who finally refused to go home. The Red plan, however, said nothing about any time limit for the conference.

The U. N. Command's last proposals submitted to the Reds suggested the immediate release of North Korean prisoners who refuse to return home and the release after 60 days of any Chinese prisoners opposing repatriation.

The U. N. resolution, approved

felt that certain provisions were not in accord with the U. N. resolution.

These nations, according to the Times, included Britain, France, Australia, Canada, New Zealand and South Africa.

overwhelmingly by the General Assembly last December, said that the fate of the prisoners unwilling to return home should be decided at a political conference to be held within three months after an armistice.

If the conference were unable to reach an agreement on the issue within 10 days, the resolution provided, the responsibility for the disposition of the prisoners would be transferred to the United Nations.

The decision to modify the U. N. proposal of last week was reached, the Times said, after week-end conferences had convinced the State Department that some of the other nations with armed forces in Korea

Yank Injured During Riots In Tehran

TEHRAN, Iran (AP)—U. S. military headquarters here announced today that an American sergeant suffered a head wound yesterday when a mob of Communist partisans stoned him and another soldier.

The injured sergeant, Thomas Quirk of Brooklyn, N.Y., was riding in an Army vehicle with Sgt. Frank W. Corpe of Akron, O., when the mob rushed the car, shouting "Yankee go home." The Communist sympathizers spat at the sergeants and struck them with their fists.

The announcement from the American military mission to Iran said the sergeants—both in uniform—reported a policeman forced them to drive toward the crowd, which had gathered around the Justice Ministry. Another policeman directing traffic halted them at the peak of the attack but made no move to interfere with the mob, they said.

The sergeants escaped by pulling out and speeding around the halted traffic.

Hearst Chain Editor W. Baskerville, Dies

BALTIMORE (AP)—William Malone Baskerville, 65-year-old veteran editor and publisher and one of the directors of the Hearst newspaper empire, died last night after a brief illness.

Baskerville, managing editor of the Baltimore News-Post and Sunday American since 1926 and publisher of the two Hearst papers since 1947, was taken ill in Florida two months ago. Death came in Union Memorial Hospital, where he had been a patient for two weeks.

Nurses Still Needed For Bloodmobile Tour

Several nurses still are needed to assist with operation of the Red Cross Bloodmobile when it comes to Big Spring next Monday and Tuesday.

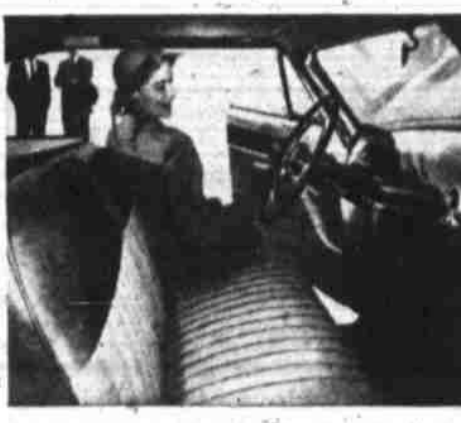

All nurses who have not been contacted are requested to call Jewel Barton, nurse for the city-county health unit, if they can help with the program. Nurses' services are needed even if the various individuals can work only an hour or two at a time, Miss Barton said.

General Bradley Well Aware Of The Cost Of Keeping The Peace

Omar Bradley, who retires as chairman of the Joint Chiefs of Staff this summer, discussed with the Women's National Press Club in Washington the other day "the long range cost of keeping the peace so long as military power is needed to keep it."

Modernize the forces that they could throw against the free world. "We believe that their atomic capability is rapidly improving. I know of no intelligence which reveals any change of attitude on the part of the Soviet Union or which would give us any reason to diminish our preparedness effort. The risk continues to be great. The possibility of war is still with us."

The Kremlin Gets Its Finger In The Amnesty Of William Oatis

The circumstances surrounding the amnesty of William Oatis from a ten-year prison sentence in Czechoslovakia indicate that the Kremlin wasn't above taking what credit it could for the Associated Press correspondent's release from an imprisonment the U. S. State Department had called "a travesty of justice."

The article went on to say that a plea for clemency written by Oatis' wife and relayed to Prague by the Czech embassy in Washington was the basis of the issuance of amnesty. The text of the Czech announcement was very stiff and formal, which could mean that the action was taken because of pressure from Moscow.

Business Outlook — J. A. Livingston

Ike May Cut Budget, But US Is Due To Remain A Garrison State

You don't have to be a deep thinker, a member of the State Department, or a Wall Street seer to know what Panmunjom stands for. It's "No change."

This Humphrey's view is not very different from that of Secretary of Defense Charles E. Wilson, who said he didn't see how the budget could be balanced before two years.

So, when President Eisenhower and Secretary Humphrey finally come forth with a budget for Congress, expenditures for fiscal 1954 will probably not be far from the current annual rate of about \$73,000,000,000. That's lower than the Truman estimate of \$79 billion. Yet it's still big.

To Burgess, the "economy's as strong as a bull pup." Workers are putting in overtime, and weekly earnings are at an all-time high. As he sees it, the objective is to keep credit tight—like a rubber band—but not so tight that the rubber band will break.

New Joint Chiefs Won't Be Rubber Stamp, May Thus Be Disappointment

WASHINGTON (AP)—The present Joint Chiefs of Staff, long-time companions in arms of President Eisenhower, stated their positions clearly enough but, in all, they have been fairly mild and quiet men.

I would deplore seeing that reduction made. He told the committee air power is still the weakest link in Europe's defenses. "Despite the substantial gains in numbers of aircraft and trained pilots deriving from the United States' mutual defense assistance program, our air forces today are still inadequate to carry out their assigned tasks."

Business Outlook — J. A. Livingston

Ike May Cut Budget, But US Is Due To Remain A Garrison State

This Humphrey's view is not very different from that of Secretary of Defense Charles E. Wilson, who said he didn't see how the budget could be balanced before two years.

Many Problems May Arise When High Court Rules On Segregation

The opinions contained in this and other articles in this column are solely those of the writers who sign them. They are not to be interpreted as necessarily reflecting the opinions of The Herald—Editor's Note.

Today we present in this space an editorial from the Richmond Times-Dispatch. The subject is of as much concern to Texans as to Virginians.

Armistead M. Doble, former dean of the University of Virginia Law School, held that the regional school in Montgomery County, Va., is unconstitutional because some of the Negro children have to travel longer distances to it than white children in the area have to travel to their local high schools.

At best, the court will hold segregation to be legal, where school facilities are equal, or are made so within a reasonable time. At worst, it will hold that all segregated education is ipso facto contrary to the Constitution.

There is the possibility, needless to say, that the Supreme Court will outlaw all segregation in the public schools at a single stroke. Virginians should not put this possibility altogether out of their minds.

Even if equalization is recognized by the court, there will remain the problem in various Shenandoah Valley and Southwest Virginia counties of what will, and can, be done in areas where the Negro population constitutes an almost infinitesimal part of the whole.

But even if the court does take this extreme position, and plunge Virginia and the rest of the South into a situation for which the region is far from ready, it will be no time for hysteria. Then, if ever, we must view the problem calmly and try to work out proper solutions.

These Days — George Sokolosky

British Empire Shrinks And Red Imperialism Threatening Asia

The peoples of Asia, after World War I, determined no longer to be colonial or semi-colonial nations. Japan had set, an example for all Asiatic countries, namely, that it had succeeded in changing from a semi-colonial country to independence and to becoming the fourth power on earth (1919).

The Netherlands built and held the lush islands of the land now known as Indonesia, consisting of Sumatra, Java, Borneo, Celebes, Netherlands New Guinea, and a large number of islands, including the beautiful Bali. This area centered economically on the British city of Singapore.

Even in The Philippines, the independence movement developed strength under the leadership of Manuel Quezon, who once told me that he preferred common status to independence. However, independence came and ended American imperialism in Asia.

The British have lost India, their influence in Afghanistan, their economic power in China, their oil in Iran (Persia), and their persuasive influence in the Arabic countries. They hold the Malay peninsula, source of tin and rubber; they are influential in Burma, and they possess Hong Kong in China, India and Pakistan, which British Commonwealth of Nations, Tibet, which Britain dominated, is now part of the Soviet Empire.

Uncle Ray's Corner

Torch Provides Terrific Heat

One day, years ago, a friend told me about an accident which had taken the life of his uncle. "My uncle was driving along a highway," he said, "when his car swerved toward the middle of the road, or else the oncoming car swerved to the middle. The two cars, each going about 65 miles an hour, crashed head-on. Both drivers were killed. The impact was so great that the cars became congealed, holding them fast together. An acetylene torch was brought to the scene to cut them apart."

Workers sometimes must cut sheets of iron to size. A century ago the problems could not be met in many cases. The task was hard even when the metal was only a quarter of an inch thick. Today the oxy-acetylene torch can cut armor plate an inch thick almost as easily as a knife passes through butter. To cut armor plate six or eight inches thick is a slower process, but it can be done with the terrific heat of this torch.

Riding THE GRUB LINE
With Franklin Reynolds

Virgilio Walker, stock farmer south of Champion in Mitchell County, has recently converted 50 acres of cropland to Blue Panic grass, making the planting in 40-inch rows with a seed drill owned by the Mitchell SCD. Walker had a clean, firm seed bed and used two pounds of seed to the acre. He plans to seed another field to Blue Panic next year.

He says he will use the grass for summer grazing and through its use will defer his native pasture. He chiseled 50 acres of native pasture this spring. This chiseled area was free of timber and was contributing too heavily to surface run-off. The grass turf was described as being in a low state of vigor and cover. He chiseled this area about five or six inches deep with a narrow two-inch-wide chisel on 40-inch spacing. Guide lines were run so that the chiseling would be done on the contour. In time this area will be seeded to adapted grasses.

The supervisors of the Martin-Howard SCD have decided to station the new grass drill and range pitting machine at the home of their chairman, Morris Patterson, five miles south of Big Spring.

Any farmer or rancher wishing to use either of these machines, or other equipment owned by the district, may arrange to do so through any of the supervisors or at any office of the SCS. A small rental fee is charged to cover maintenance costs.

It is not too late, according to H. J. Matelajewsky of the ablen Cotton Classing Office, for farmers who have not yet planted their cotton to join a Cotton Improvement Group and application forms can be obtained at almost any gin or at the office of any county agent.

GLORIA SANDERS - RON RANDALL
PLUS: SELECTED SHORT SUBJECTS

Royce Mahon, who farms north of Lorraine has recently harvested his 14-acre alfalfa crop for hay. This was cut, raked and baled with haying machinery owned by the Mitchell SCD. This was the first cutting and the yield was near one ton to the acre. He also harvested about five acres of oats for hay. These oats were about two and one-half feet high and in the dough stage of growth. He has another five acres of oats which he is keeping for seed.

Engineers with the Lamesa unit of the SCS have been asked to assist in laying out borders for level irrigation on the Everett Turner farm in the Welch Community and on the L. B. Vaughn farm one-half mile east of Midway.

These level borders on both these farms will be planted to an alfalfa-grass mixture this fall, with an annual crop to be grown between now and fall.

The conservationists say that level borders should be planted to an annual crop before permanent grasses are planted because the borders will settle a little when irrigated. They also explain that these borders should be touched up a little after the annual crop has been removed and before the permanent grass-alfalfa mixture is planted.

Oscar Furlow of the Harmony Community in Dawson County has asked the SCS engineers to stake out a windmill near the tank and pump water into it to assure an adequate supply at all times.

D. L. Adcock Jr., has over 90 acres in level borders built this year with his own equipment. He says he watered the entire 90 acres in the same amount of time that was required to water five acres with a sprinkler system. He said the soil on both areas is the same type and that while he got four feet of penetration in the borders he received only two and one-half feet of penetration where he sprinkled.

The well he used in watering the borders has a capacity of 1,100 gpm, while the sprinkler well has a capacity of 700 gpm. He also comments that it took one gallon per hour more fuel on the sprinkler as compared to the well on the level borders.

T. J. Geigler, farming in the Rogers School Community in Mitchell County, has recently planted the channel of his new diversion terrace to Blue Panic grass. This was planted at the rate of four pounds of seed to the acre. The terrace connects to a tank spillway and diverts about 25 acres of overhead drainage from his lower lying field to a waterway.

O. A. Ruffin, locker plant operator in Colorado City who farms four miles north of Itan, has recently planted 28 acres to King Ranch Bluestem. He planted on a firm, flat seed bed at the rate of three and one-half pounds to the acre, using a regular cotton planter since it was equipped with a picker wheel attachment which operates efficiently in planting light trashy seed. This seed was covered very lightly with soil. Ruffin has several fields which he plans to get back to grass during the next few years. He will use these improved pastures in rotation with his native pastures.

Men In Service

TIMOTEO G. SALAZAR

Timoteo G. Salazar, son of Mrs. Isabel G. Salazar of Big Spring, has just completed eight weeks of infantry training with the 1st Armored Division at North Fort Hood near Temple.

He has become proficient with the M-1 Rifle, Carbine, 30 and 50 caliber machine guns, mortars, BAR rifles, mines, booby traps and rocket launchers.

Salazar attended Kate Morrison School and was active in baseball. He is a private.

Bobby L. Hanson, son of Lee Hanson, Route 1, Ackerly, recently completed a course in chemical warfare at the Eta Jima specialist school in Japan.

Hanson has been in Japan since March. He entered the Army in October and was previously stationed at Fort Hood. A farmer in civilian life, he was a student at Texas Tech.

The course he completed prepared him in the defenses against chemical, bacteriological and radiological warfare.
