Aren't you glad you live on the Golden Spread? We are. Last week we attended a press convention in El Paso and were happy to return to our small corner of the great Southwest. We presume that age and general decripitude is creeping upon us, because the jillions of people and yillions of cars madly thrashing along the huge freeways were almost more than we could cope with.

There has been spectacular growth in the El Paso area but, almost unnoticed, our Twin Cities and the surrounding communities also have enjoyed a steady growth. All the indications are that we will continue this economic expansion in the years ahead.

One of the factors in our areawide growth has been an abundant supply of power, both electric and petroleum. All the information that comes to our attention indicates that our power or energy sources will continue to favor us in the decades ahead. We cannot say the same for other sections of the country for several reasons. One reason is that our people have not raised the legal and ecological barriers against the development of energy sources that have been raised elsewhere.

For example, Southwestern Public Service Company recently announced that they were going into a program that may put a nuclear plant in the Amarillo area in the future. Ourside of a mild complaint by a professor at West Texas we have heard nothing but good comments concerning this pro-

While we are not expecting huge industrial plants to locate here, we must remember that farming and all related agricultural industries have prospered because of ample and cheap energy available to them over the years.

Even though our electric bill has risen lately, we apparently are not in near the bind that our Eastern seaboard distant cousins are in this respect. We attribute this directly to the forward planning of SWP's management in looking ahead over the years and in cooperation with the local people in keeping ahead of our demand for electricity.

This company is planning for our welfare 20 to 25 years hence. The people in the area must plan with them.

Let's keep our "cool" now so we can keep our heat later.

We came across this anonomous bit of lyrical wisdom recently and will pass it along as

some food for thought. SAINTS AND SINNERS

Leaders in the 16th Annual Area Merchants Football Contest showed signs of "thinning out' this week as only six persons wound up scoring from 49 to 51 points for the first three places in the overall contest.

Sam Gonzales of Muleshoe once again pinpointed the ten weekly winners to take this week's first prize money of \$5. Gonzales took the weekly first place slot two weeks ago and came back for a repeat performance.

And, Doris Ford once again pinpointed nine weekly winners to take her second second place win, almost. She was tied with Becky Taylor for the second and third place slots with each calling nine correct games and both were only one point off on the tie-breaker score. Each was awarded \$2 for her efforts.

Seven other pigskin prognosticators looped nine winners but were off from two to 20 points on the tie-breaker to slip from the winners' circle. Those with nine correct predictions were Henry Haseloff, Frances Birchfield, Travis Bibbs, David

# Rain And Cool Weather Play Havoc With Harvest

Fog and drizzle and heavy rain Tuesday evening and Wednesday morning have for all practical purposes stopped the harvest in the area. Wet and muddy conditions are playing havoc with farmers, crops and the fall harvest which has been progressing on an intermittent basis during brief dry spells.

Approximately 35 to 40 percent of the corn has been harvested in Parmer County, according to Mack Heald, Parmer County Agent. Eight to nine percent of the milo has been harvested and approximately 50 percent of the sugar beet crop is in.

However, with the extremely wet conditions, the harest is stymied at present "With so much cool wet

weather, the cotton harvest will not be as good as could be," Heald stated. "The cotton harvest will be down, even October 31 at 5 p.m. is the though the recent frost did not last day to vote absentee in kill a lot of the cotton foliage,"

#### **City Commission To Meet Monday**

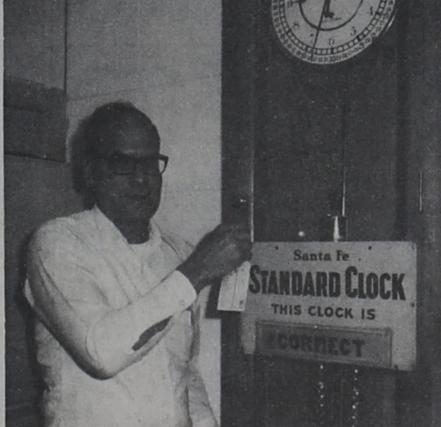

The Farwell City Commission will meet Monday, Oct. 28, at 5 p.m. at the Farwell City Hall, according to City Clerk Janie Bowery.

Items to be discussed on the agenda include work on the equipment van, a discussion of the heart defibrillator machine and the retirement system for city employees.

Committees will be appointed at the Monday meeting and a date will be set for a meeting with Mark McConathy, urban regional planner with the Pan-Commission, regarding a comprehensive planning and zoning plan for Farwell.

GOODNESS GRACIOUS, GOBLINS!! What mischievous tricks will the powers of black magic impress on the minds of hobgoblins, witches and all the other strange creatures which will be roaming the street seeking "goodies" for their potions when the eve of Allhallows rolls around Thursday, Oct. 31? These youngsters, like other area trick or treaters, will be celebrating Halloween in the customary manner of going from door-to-door trick or treating residents. As this eve of All Saints' Day is being celebrated, everyone is urged to use extreme care in traveling the streets. No one wants our yearly spooks to become a diminishing species.

SPRING FORWARD, FALL BACK - The country will officially go off Daylight Savings Time and return to Standard Time at 2 a.m. Sunday. Clocks should be turned back one hour to mark the time change. Glenn Hirksey, manager-wire chief for Santa Fe Railway, says it's easy to remember how to change your clocks if you think: "Spring forward, fall back." He prepares to change the official time for Santa Fe Railway at the Clovis wire office. Texico will revert to Mountain Standard Time and Farwell will go back to Central Standard Time - remember, it's official at 2 a.m. Sunday. # Bovina Mustangs Stampeded By Steers, 13-6

by David Hargrove

The whole thing got moving at the Pep Rally Friday afternoon with Coach Jerry Owen revving up the old spirit like it hasn't been in years. Coach Owen had everyone at the Pep Rally involved in boosting the Steers, ending with the whole varsity squad going through a double line of fans, all the way around the gymnasium and being encouraged by each person there. It was something else! The boys couldn't have lost any way except by just not showing up to host the Bovina led by seven points. Mustangs last Friday.

Farwell again put together a fine offense, controlling the ball for three first downs. After the buzzer sounded to start the fourth quarter, Woods took the pigskin for about a 40-yard touchdown run. The score was in Farwell's favor, 13-6. To cinch a win, the Steers tried a run for two extra points but the attempt failed. Still Farwell

Farwell's advantage during action was the speed of the Steers. "It was a real good offensive game," said Jennings, continuing, "Our offensive line blocked better than ever and this blocking contributed a lot to what our backs did.'

Statistically, running efforts of the Steers showed Mike Woods with 15 carries for 96 yards, George Garza had five paring team statistics, Farwell Stadium.

> In summing up his reaction about last Friday's game Jennings commented, "Our boys played an extremely good defensive ball game. They really wanted to win, even more than Bovina, who had a well-coached team. We are getting a 120% effort from our boys in every ball game and expect this effort to continue until the season's end. Our senior leadership is outstanding with the seniors doing a real good job. We don't want to lose and we have a great attitude. The win over Bovina, the first in three years, has really done a lot for our outlook and spirit."

## Steers To Tackle **Kangaroos Tonight**

The Steers of Farwell High School will be hosting the Kress Kangaroos tonight (Friday) with game time set for 8 p.m. CDT in Steer Stadium. Following their first district win over the Bovina Mustangs last Friday, the Steers will be making their bid for their second district win to keep a no-loss record thus far in district competition.

According to Farwell Head Coach Eugene Jennings, "Kress has a real quick club with a lot of pursuit. Teamabout the same size. But, on an individual player basis, Kress cancelled. is a bit larger than we are".

# "Our whole team effort was outstanding against the Bovina Mustangs. When you have an effort like that you can't single out individuals as outstanding and you can't even make any honorable mentions. Because it was the entire Steer team who won last Friday's game, I am

selecting every Steer as 'Steer of the Week'," stated Farwell Head Coach Eugene Jennings. According to Jennings, the honor was awarded the entire team for the outstanding offensive and defensive effort displayed by all the Steers. "We ran, executed and blocked like we should have and on defense our boys did just what was asked of them. We managed to stop Bovina time after time.

#### Sheriff's Report

Between 3,000 and 4,000 pounds of yellow corn were stolen the night of Oct. 17 from a combine located on the Dalton Coffey farm, five miles east of Bovina. A hired hand on the Coffey farm, Prentice Pruitt, reported the theft to the office of Parmer County Sheriff Charles Lovelace.

Sunday night a pickup truck belonging to Ted Engram was stolen from his home on First Street. The thieves apparently used the truck and then returned it to the Engram home. The truck had been damaged, according to Sheriff Lovelace, with approximately \$300 in damages. Items taken from the truck's glove compartment included a skinning knife and scabbard.

Also reported to the Sheriff's three different pickup trucks, spondent, GREETING: which were parked in front of the owners' homes.

TWO MINUTES

THE BIBLE

All through the Old Testament the cross is but dimly seen. Though a hundred historical characters, and a hundred more Levitical sacrifices and rituals were typical of Christ and His finished work, not once does the Old Testament specify this. The silence is profound. The clearest Old Testament prophecy of Christ's death, Isaiah 53, does not even specify who the Sufferer would be.

It was the same during our Lord's stay on earth, for only toward the close of His ministry do we read: "FROM THAT TIME FORTH JESUS BEGAN to show unto His disciples how that He must go unto Jerusalem and suffer . . . and be killed . . ." (Mt. 16:21). And what was their response? "Then Peter took Him and began to rebuke Him" (Ver. 22). Luke 18:34 states three times that they did not have the slightest idea He would even die, much less did they understand all that the cross would accomplish. Even at Pentecost Peter blamed his hearers for the death of Christ and called upon them to "repent and be baptized every one . . . for the remission of | sins" (Acts 2:38). The twelve were preaching "the gospel of the Kingdom" and knew little about the cross and its purpose. Not until the Apostle Paul,

THAT OTHER APOSTLE, do we have what is properly called "THE PREACHING OF THE CROSS", i.e., as good news. And in Paul's great message our Lord is no longer seen as the Victim, but as the Victor, not merely after death, or over death, but IN death. His death itself is seen as His greatest triumph. In Hebrews 10:12,14 we read: "AFTER HE HAD OFFERED ONE SACRIFICE FOR SINS FOR EVER, (HE) SAT DOWN ... FOR

BY ONE OFFERING HE HATH PERFECTED FOR EVER THEM THAT ARE SANCTIFIED." And in Colossians 2:14,15 Paul describes Christ at Calvary, nailing the Law to the cross and utterly defeating Satan and all his hosts, "TRIUMPHING OVER THEM IN IT (i.e., in the cross)." Little wonder the Apostle exclaimed: "GOD FORBID THAT I SHOULD BOAST, SAVE IN THE CROSS OF OUR LORD JESUS CHRIST ..." (Gal. 6:14).

#### Water Erosion Causes Loss Of Valuable Soil

If you can see signs of ing raindrops will actually are probably losing soil at the splash action with no runoff at rate of more than 14 tons per

"A loss this high shows that the land is inadequately protected," Herb Evans, Soil Conservation Service District Conservationist says. "Generally losses much higher than this occur when rain or wind can strike bare cropland. Very steep unprotected land can lose more than 300 tons of soil per acre per year.

"It is not particularly important that the farmer is able to tell how many tons of soil is lost," Evans continued, "The important thing is that if the farmer can see erosion-something needs to be done fast.

"A common misconception is to blame all visible water erosion on running water, which we call 'runoff," Evans said. "Runoff does cut ditches Farwell Study Club met Oct. wards, Sal Vincent, Hattie and rills, but is generally a sign of advanced problems, which actually start with raindrops striking bare soil. erosion on cultivated land, you erode the surface of the soil by all. On the other hand, if you cover the box of soil with clippings, or plant thickly in grass, no measurable splash erosion will occur. What this tells us is that a cover on the cultivated land-either vegetation or a mulch is the best soil protection.

'There are several things farmers and gardeners can do about erosion," Evans said. "First, practices can be used that keep a cover on the land. Believe it or not, this can be done even in fields of sorghum, cotton, corn, or soybeans with a practice called minimum tillage.

"For the farmer, reduction of erosion starts with wise land use planning," Evans said. "A conservation plan utilizing upto-date conservation methods is the farmer's best bet for full production and income over the long term with the smallest loss of his basic soil resource."

The Muleshoe, Jaycees have scheduled their 12th Annual Sandhill Crane Hunt to be held Oct. 26, 27, Nov. 2, 3, and Nov.

The Muleshoe Jaycees have arranged again for land adjacent to the Muleshoe National Wildlife Refuge. This refuge is the oldest in the State of Texas, and during the winter months, there are as many as 100,000 sandhill cranes wintering away from their Artic breeding grounds. The Muleshoe population represents the

species in the United States. The Jaycees will also provide transportation to and from the hunting area. Shells and licenses will be available and the guides will leave the XIT Steak House, which is hunt headquarters, one and one-half hours before sunrise each day.

This year, to give each hunter better hunting conditions and service, the Jaycees will conduct the hunt on a reservation basis only. Costs for the hunt are \$7.00 per day, \$10.00 per week end or \$20.00 for all three weekends. Deadline for reservations is Thursday prior to each weekend of

# Portraying Area Homemakers

by Faye Parr

Our Homemaker this week, Mrs. "Pudge" (Pat), Rose says she grew up here, there, and yonder, as her family moved around a lot. She finished high school in Kentucky, then the family moved to Oklahoma City, where she attended Draughon's Business

Pat was working as a private secretary for an advertising firm when she met Pudge. He was a senior student at Oklahoma University, working toward a degree in math and physics, and was dating Pat's cousin when they met. They became acquainted through double dates. One day Pat's boss gave her four tickets to a football game, which was to be at the University. She gave two of them away, but could find no one who wanted the others, so decided to use them herself. although she is not a football

She set out alone for the football game, and when she arrived in Norman, Okla., it suddenly occurred to her that she didn't even know where the stadium was. However, she did know where her cousin's boyfriend lived, so she went by there to ask him how to find the stadium. To make a long story short, Pudge ended up using the extra ticket, and they were married a year later.

When Pudge was in the service, he and Pat lived in Ansback, Germany, for almost three years. Their son, Jack, was born there. Charlie almost was. Pat came home about a month before he was born and stayed with her parents in Oklahoma City until Pudge came home. After his release from the service, Pudge decided to go to Pharmacy school in Weatherford, Okla. There he earned his degree in Pharmacy, and they moved to Lubbock in 1965, then to Farwell in

The Roses now have three children...Jack, 13, Charlie, 11, and Teresa, 5. The family belongs to St. John's Lutheran Church at Lariat, where Pat sings in the choir and helps with the secretarial work.

On Friday mornings, Pat is one of the teacher's helpers at Farwell Kindergarten class, where Teresa is a student. Each Friday afternoon she tells the children a story, and she has become affectionately known as "The Story Lady" by the students.

Pat's hobbies are painting, both oils and pastels (and she's good enough that her paintings SELL!), sewing and gardening. She says she didn't know much about gardening until they moved into their present home. They bought some books on gardening and just started in, hoping for the best. They have discovered that their son Jack, has a green thumb, so if there is something they want to grow especially well, Jack gets to plant it.

Both Pat and Pudge thoroughly enjoy reading, and

and gardening

have "wormed" their way bread. Add 1 medium onion, through many thick volumes chopped fine. Add 1 lb. together.

Pudge and the boys enjoy hunting and fishing, and Pudge is teaching Pat to shoot so that she can go hunting with them. Although Pat would be the last to "toot her own horn," she is an excellent cook, and really enjoys cooking. Many of her recipes are for cooking wild game, so if any of you readers are hunters' wives and would like some recipes of this type, call Pat. She has the address of where to order a cookbook that has a whole section devoted to wild game.

Pat says that of all the wives of the men Pudge hunts with. she is the only wife who enjoys cooking the things the men bring home--so she cooks enough for everyone, and they enjoy big dinners together. She has graciously offered to share three of these man-pleasing recipes with us.
