

**SIGHTSEEING**—Cpl. Earl DeOliviera, Farwell GI, visits the Pyramids in Egypt on a sightseeing trip. He is shown atop the back of a camel on the extreme right. In the background the Sphinx can be seen.

## Farwell GI Completes Trip Around World

Home from 49 months of service of the armed forces, twenty-seven of which were spent overseas, Cpl. Earl DeOliviera, somewhat gaunt and tanned from his experiences, was here last weekend visiting with old friends.

Cpl. DeOliviera, a son of Mr. and Mrs. J. J. DeOliviera, who formerly lived here, is back home with his parents at 718 Wallace Street in Clovis, after having been discharged with a credit of 86 points.

"I went completely around the world," he revealed, as he recalled the foreign lands he visited while in the armed services, adding, "but the most wonderful trip I had was to the Holy Land, where I spent three days of a purely sight-seeing tour."

In April of 1943 he had the extreme pleasure of visiting such historical points as Jerusalem, Bethlehem and Palestine.

In Egypt, he made a trip on camelback with a group of GIs to the Pyramids, where the party posed for a picture.

Asked about his combat experiences, Cpl. DeOliviera said that he was not actually engaged in any battles during his four years in the armed service, explaining that he was assigned to supply detachments at the rear of the lines. "I spent 20 months in Italy with the 5th Air Force, and we were strafed a few times, but the Germans hardly ever got down that far."

Recounting his journeys, Cpl. DeOliviera said that he had sailed from the West coast, going to New Zealand, thence to Melbourne, Australia, and then on to Bombay, India, finally winding up in Egypt and from there to Italy, where he spent most of his 27 months overseas. He came home by boat from Italy and landed on the New Jersey coast on May 20 after nine days at sea. He was discharged from El Paso Texas, on May 28.

"I never saw a familiar face in all my journeys," he said when asked if he met anybody from home during his far-flung trips.

He was in the Rome-Arno campaign and also participated in the Naples-Foggia campaign, receiving battle stars for those campaigns. After the capitulation of Italy, he made a number of trips to Rome and Naples, and on one occasion he said that the Pope greeted a group of Americans when they visited St. Peter's Cathedral in Rome. Also visited by the former Farwell lad was the famous Coliseum in Rome.

Cpl. DeOliviera in recounting his 49 months in the armed services, said that he enlisted before Pearl Harbor and was stationed on the West Coast with the 45 Infantry Division. When men over 28 years of age became eligible for discharge, he was released, only to be called back when the age limit was hiked a few months later. Then he went into the Air Corps and was assigned as a mail and supply clerk. Serving as such, he escaped the fighting engage-

### TO OUT-OF-TOWN SUBSCRIBERS

Under new policy, a charge of 10c is made for change of address. Please include this when you notify us of such change. Otherwise, The Tribune will not be forwarded to new addresses.

### DIES IN CALIFORNIA

Mrs. Vera Ruth Taylor, age 51, wife of Ernest H. Taylor, who formerly lived here, died in a Burbank (Calif.) hospital on June 9th and was buried in the Oakwood cemetery there on June 15th.

She is survived by her husband and seven children: Gerald L. Taylor, U. S. Army, Tacoma, Wash.; Mrs. Violet Willard, Redesa Calif.; Mansell E. Taylor, U. S. Navy at sea; Jack Taylor, U. S. Air Corps, Louisiana; Ernest T. Taylor, Jr., U. S. Navy, San Francisco; Lois Iona Taylor and Frances Elizabeth Taylor, at home.

### Receptions Planned For Returning War Vets

Plans were going forward early this week for two receptions to be held honoring the service men from Texico-Farwell and surrounding communities who are home on furloughs.

The first reception will be on Thursday night at the Methodist Church, when the local Mens' Club will be host to the returned soldier lads as well as those who recently doffed their uniforms. On the following evening, Mrs. M. C. Roberts and Mrs. Claude Rose will hold "open house" for the lads in the latter's home in Farwell.

Supt. J. T. Carter will act as master of ceremonies at the Mens' Club meeting, and the program will be entirely informal, with each of the returning servicemen being given an opportunity to relate some of the highlights of his experiences. Written invitations are being mailed to all boys who are known to be home but in the event that some of the lads should be inadvertently overlooked, all returned servicemen are urged to be present for both occasions, it was stated.

Refreshments will be served at both functions and those in charge of the arrangements are making plans to give the boys a real welcome home.

C. M. Henderson, chairman of the Mens' Club, reminded local members to bring the usual supply of pies and sandwiches for the lunch.

### Bovina Firm Puts New Feeds On Market

The Consumers Fuel Association, general merchandise and fuel dealer of Bovina, is putting a new commercial feed on the market this week which will be sold under the trade name of "Consumers Special".

The first output of the new feed was made this week, with three formulas—starter, grower and laying mash—being offered. W. D. Eberting, manager of the firm, said plans were underway for a more extensive line of commercial feeds by the Bovina concern, adding that a complete line of dairy feeds was to be added as soon as possible.

For the present, the new feeds are being ground and mixed at the Farmers' Supply Company in Texico, but Eberting said that if the demand justified, a grinding and mixing mill would be installed at Bovina to handle the new products. Until recently, the firm handled El Rancho products, made at Clovis, but a destructive fire put that firm out of business.

# Wheat Yield Is Exceeding Estimates

## Bovina First To Reach E Bond Quota

### Old Home Town Looks Good To Capt. Gabe Anderson, Jr.

"It looks wonderful—better than it ever did," Capt. "Penny" Anderson grinned broadly at friends over town this week, while enjoying his first relief from duty in 37 months, during which time he was stationed in Ireland, North Africa and Italy.

"I didn't know how bad I did want to come home until I almost missed the trip after being told we were to leave," he told a Tribune reporter, adding that he came in via plane. Leaving Pisa, Italy, the group went to Casablanca in a B-17, from which point the ATC took over and brought the boys in home by way of Bermuda, landing at Miami, Florida.

Leaving here in 1942, Capt. Anderson went on the Queen Mary with his battalion of the 1st Armored Division to Ireland, spending five months there. Before leaving for North Africa, the group spent "about a month" in England, getting things ready to go, and then "we wandered around in the ocean making contact with other ships for about a month on our way to the invasion," he said.

Anderson's group hit the shores of Africa on November 8th and left there almost a year later, in September of 1943, for the Salerno, Italy, fighting. The Tunisian campaign was listed among the worst of the lot by the local boy, who explained, "We were so damn' green . . . thought we'd take a town and go sailing down, the streets with our division insignia out and our flags waving—the Jerries knocked that out of us in a hurry."

"We lost everything we had near Medjez-el-Bab," Anderson recounted, "in fact, we had to walk out." His outfit, an armored battalion, serves with the tanks, moving principally on half-tracks, and also carries a complement of armored infantry.

### New Masonic Hall At Bovina Is Completed

The new Masonic Hall, which has been under construction at Bovina for the past several weeks, was completed and announced as ready for occupancy last week, with the Order of the Eastern Star being privileged to initiate the new meeting place.

Erected at a cost of approximately \$8,000, George Trimble, secretary of the Lodge, said "about \$5,000" of that amount had already been subscribed to the building fund, and expressed the opinion that the remainder would be raised shortly.

Chartered under the name of Farwell Lodge A. F. & A. M. No. 977 in 1908, the meeting place of the Lodge was moved from Farwell to Bovina in 1934, but the name of the Lodge and the original number were retained.

J. A. Stegall was worshipful master of the Lodge at the time the charter was granted, and E. E. Nobles was senior warden, with H. O. Allen junior warden.

The first move toward permanent quarters of the Lodge was started last year in the purchase of a brick building from Jack Carr with the view of adding a second story to the one-story structure. The work, with a few minor exceptions, was completed last week, and the hall is now ready for use. The second floor will be used exclusively for a meeting place of the Masons and the Eastern Star, while the ground floor will be devoted to use as a community meeting house, where arrangements have been made to hold banquets and similar affairs.

Excellent lighting effects have been installed in the hall and the floor is hardwood throughout. Waiting rooms and closets for regalia and equipment have been arranged at the west end of the hall. The use of the old fixtures is the only thing that mars the otherwise neat appearance of the hall in general, and officials said plans were already afoot to add new fixtures for the stations above the lodge room.

"I believe it is the nicest hall to be found anywhere in this area in a small town," Trimble said.

### Car Situation Slightly Improved Locally

The car shortage situation that threatened to develop into a serious bottleneck in the movement of wheat to markets, was showing a marked improvement the first of the week, a checkup revealed.

W. W. Vinyard, local Santa Fe agent, reported that 16 cars were set out here on Sunday, and at the time he was interviewed Tuesday afternoon, less than half that number had been billed out for shipment.

The Henderson elevator was reported by C. M. Henderson to be filled almost to capacity with row crop grains, and M. C. Roberts said that he had a limited amount of dumping space for incoming wheat. The Farwell Elevator was reported to be "pretty well cleaned out" of stored grain and ample room to handle wheat.

At Bovina, last Saturday, a checkup revealed that the three elevators there had ridged their bins pretty well of stored fall grains, and 31 cars were awaiting loading. "But that number won't last but a few days," one grain dealer commented.

Santa Fe officials in Amarillo said Tuesday that every effort was being made to keep plenty of cars moving to handle the wheat crop, but warned grain shippers not to expect the impossible. "It's just as much our interest as it is the grain men's to provide plenty of cars," L. L. Cassell, of the Amarillo office said, "but the wheat crop, coupled with the tremendous movement of war supplies and shortage of trained men has created a serious problem for us that we are doing our very best to cope with."

### Seriously Wounded In Islands Campaign

Mrs. B. L. Johnson, who lives in Texico, has received a letter from her husband, Pfc. Buddy Lee Johnson, stating that he is recovering slowly from wounds received in the fighting on Luzon on March 23rd.

Pvt. Johnson writes his wife that he was wounded in the hip and has been in the hospital since that time. She expressed the opinion that he would be home in the near future.

He was inducted at Carlsbad, N. M., in April of 1944. Mrs. Johnson is the daughter of Mr. and Mrs. R. T. Wiley of Texico.

Registration for summer term at the University of Texas will take place July 5th, and classes will begin July 6th, according to an announcement from the Registrar. The term will close August 30.

# Red Cross Saved American Prisoners

(Ed's Note: This is the second of a series of articles.)

By Congressman Eugene Worley

In my last report last week I mentioned some of the horrors of the Nazi atrocity camps. Most of the inmates in these camps were political prisoners of various nationalities, including anti-Nazi Germans. Apparently, when anyone disagreed with Hitler or opposed him or his policies in any fashion, he or she, and generally with their children, would suddenly disappear from the scene. The Gestapo seemed to work very well indeed in Germany. Everyone in Germany was bound to have known of the existence of these atrocity camps because they discussed them furtively over the backyard fence or in secluded spots. Whether all German people approved of their existence seems to be the subject of debate but certainly the entire nation is not free from blame in permitting or sanctioning the existence of a government which would stoop to such barbaric depths.

The most notorious atrocity camps were at Buchenwald, Dachau, Bel-

In one mighty spurt over the past week, Bovina topped its E war bond quota of \$25,000 and became the first community in Parmer county to attain its full assignment.

Farwell, trailing closely behind Bovina, also had reached its quota in the sale of E bonds, War Finance Chairman G. D. Anderson reported today.

Figures filed with the War Finance Chairman up to noon Tuesday showed that Bovina had sold a total of \$25,688.75, and the Farwell sales had amounted to \$50,756.25. The Farwell assignment was \$50,000, while Bovina was asked for \$25,000.

Chairman Anderson said that he had received no report from Rhea, Friona and Lazbuddy this week, but said he felt safe in predicting that the full quotas in those communities would be attained. Friona had a quota of \$50,000 and last week's tabulations showed that little more than \$3,000 was necessary to reach that figure. In Rhea and Lazbuddy, the sales, according to last week's report, were lagging, but Anderson expressed conviction that both communities would come through with their assignments.

### Total Sales Given

Total E Bond sales reported in the county up to noon Tuesday swelled to \$130,218.75 on a county-wide quota of \$155,000. Men in the armed service, stationed all over the world, have bought more than \$40,000 in E bonds to the Parmer county credit during the Seventh War Loan, Anderson reported.

In addition to the E bond quota, Parmer County has a quota of \$95,000 in other series. Anderson said today that better than \$51,000 of this amount has been sold, and expressed confidence that the remainder would be sold without difficulty. "I'm not worried about these bonds," he added.

### Jack Williams Chosen As School Principal

In a special meeting of the Farwell school board, held last Friday, Jack Williams, of the West Camp community, was chosen as principal of the local school for the ensuing school term.

In addition to his duties as principal, Williams will serve as athletic coach, as well as a member of the teaching force. He is recognized as one of the best coaches in this section and was formerly a member of the faculty in the Muleshoe school. He has been engaged in farming the past two years, and will remain on his farm while connected with the school.

E. M. Deaton, president of the board, expressed the opinion that the local school was indeed fortunate in securing the services of Mr. Williams. "He is well known here, one of our neighbors and friends, and fully competent to do us a good service," Deaton said.

With some fields still being described as "too green" for combining, wheat harvest in this area got off to a fairly good start early this week. The peak of the harvest season is calculated to arrive by the close of the present week.

A survey of the Bovina section, made last Saturday, revealed that most of the farmers in that area expected to invade their fields early this week. Some few farmers cut a few rounds over the weekend, "just tuning up their machines," Lee Thompson, manager of the Bovina Wheat Growers, said.

If the first wheat received at Bovina is to be an indication of the average yield throughout that section, the 1945 crop is destined to surpass all early estimates. Paul Jones brought the first load to the Bovina Wheat Growers on Wednesday of last week, and the yield was running between 12 and 15 bushels to the acre, with the test holding around 60 and upwards. Jones contends, it was learned, that he has some wheat that will yield around 30 bushels to the acre.

Practically all the wheat that is worth cutting this year has been produced on summer fallowed ground. There are a few exceptions to this rule, but not many, grain men state.

J. P. Macon of the Macon Elevator at Bovina, said that the wheat he had been receiving over the past weekend had been yielding 8 to 10 bushels. He also said that some fields gave every promise of yielding from 15 to as high as 25 bushels. All tests, he reported, have been running from 60 to 63.

Most fields in the Pleasant Hill neighborhood are running around 18 to 20 bushels, Macon added.

In the Texico-Farwell area, reports indicated that the yield was showing a wide variation, with turn-outs ranging from 4 to 18 bushels—most of it in the 12-16 bushel class. Local grain men said that all yields were exceeding early estimates, which a few weeks ago characterized the local crop as next to a complete failure due to continued dry weather.

County Agent Lee McElroy has estimated that at least 75% of the original 150,000 seeded acres will be cut this year, and also gives it as his opinion that the average county-wide yield will be near 8 bushels to the acre. The best wheat in the county is to be found along the eastern and northeastern edge of the county, where most fields are expected to harvest from 16 bushels upwards.

### HOME FROM HOT SPRINGS

Mr. and Mrs. Floyd Francis returned home last Wednesday from Hot Springs, N. M., where they had been spending the past three weeks. They confirm earlier reports that it is next to impossible to obtain land and shortening in that city. Other foods seem to be plentiful they said—"if you have the points".

than prisoners of other nationalities, especially the Russians. There was ample evidence that the Russians and the Germans have a deep seated and most bitter hatred for one another. Consequently the Russian prisoners of war had a tougher time than the American and British. One officer told me a few instances where German civilians tried to kill some of the flyers who had been shot down over Germany, but he also said the Nazi Army tried to prevent such killings. I personally have no idea as yet of how many of our men were killed by the German civilians during the war. (The Army is at the present time investigating that angle.)

One boy with whom I talked had spent 19 months as a prisoner of the Nazis. He stated that the only food provided by the Nazis for several months was one loaf of bread daily to be divided among seven men, and a bowl of very weak potato soup.

All of our men agreed had it not been for the Red Cross packages which the Swiss Red Cross delivered (Continued on Back Page)

**FOR SALE**—40,000 lbs. early combine hegar, \$3 cwt. Dee Brown, 10 miles east Lariat or 10 north Muleshoe. 32-1tp

**FOR SALE**—Two young Jersey milk cows with 3-months-old heifer calves. C. M. Crow, Farwell. 1tp

**Wheat Loan Rate Will Be Higher For 1945**

Belief that the loan rate for wheat consigned to the Commodity Credit Corporation would be higher this year was expressed today by Ellis M. Mills of the local AAA office, following receipt of a memorandum from state headquarters.

According to the data received here, the loan rate will be 90% of parity, or show a national average of \$1.38 per bushel, Mills said. "Our county loan rate a year ago was \$1.35, which was also the national average, and it seems likely that the rate here this year will be \$1.38 per bushel—a 3c increase," he added.

The memorandum quotes terminal rate at Galveston at \$1.62, "and since we have a differential of 24c, the county rate should be \$1.38," Mills explained further.

One change has already been announced in the program, in regard to payment for farm storage. This year, no storage will be made in advance at the time of the farm loan, but rather, 7c per bushel will be paid for storage earned if the crop is delivered to Commodity by maturity of the loan.

Applications for loan may be made at the local office through December.

Have you bought that bond?

**Abbott Named Field Man For Labor Coop.**

Press Abbott, of Bovina, has been named to serve as field man out of the Extension office in coordinating labor demands during the harvest season, County Agent Lee McElroy announced today.

Abbott served in a similar capacity last year, McElroy added.

Farmers will be contacted by Abbott in regard to their needs along the combine, truck, and labor line in the current wheat harvest, which appeared to be getting in swing over the county the first of the week.

At present, McElroy said, "it appears that we will have plenty of combines and trucks to handle the harvest in this county, however, it may be that tractor drivers and other labor will be short." On file at the local agents' office now are ten combines and trucks, with crews, for harvest work.

Due to the short crop this year, occasioned by continued dry weather, it is not considered likely that the demand for help will be large.

**Good Crop in North**

Paul Jones, who farms north of here up the state line, was reported having some 20-bushel wheat in early cuttings the first of the week, McElroy said. Jones has an acreage of 1200, which is estimated to yield from 12 to 30 bushels in spots. Ed Ross and several other farmers of the northern area are also reported as having a likely-looking stand of wheat, the agent said.

**50,000 Baby Chicks Are Sold Locally**

People of the Texico-Farwell are not to be denied plenty of meat during the coming months, if a check-up here this week means anything.

Not less than 50,000 baby chicks have been sold through local dealers to people of this section, it was disclosed. One dealer, the Goldsmith Produce Company, reports the sale of 30,000, and this does not take into account the many thousands that have been shipped in direct from the numerous hatcheries over the country, or handled by other dealers.

Despite this apparently enormous supply of baby chicks, local produce dealers reported a scarcity of fryers on the local market. One dealer gave it as his opinion the scarcity was due to most of the fryers going into freezer lockers for consumption during the winter months. Another dealer suspected that "black market" operation might be blamed.

**Don't Worry About Us!**  
*We'll do it!*

THEY tell us that the fat salvage problem has got to be licked in the small cities, the towns and on the farms.

Our country has to have one hundred million more pounds of used fats this year over last. And we're the people who must save it.

We've rolled up our sleeves! We'll save every drop and bit it is possible to scrape—and keep on doing it till the last Jap is licked.

**HOW TO DO IT:** Save all used fats in a tin can. Keep it handy to the stove. Scrape your broilers and roasting pans, skim soups and gravies, for every drop counts. Keep solid pieces of fat, such as meat trimmings and table scraps, in a bowl. Melt down when your oven's going, add the liquid fat to the salvage can. Take the can to your butcher as soon as it's full. He will give you four cents and two red points for every pound. Your County Agent or Home Demonstration Agent can give you full particulars.

**100,000,000 More Pounds of Used Fats Are Needed This Year!**

**Sacramento Scene Of Scout Encampment**

Boy Scouts from Farwell are high in the mountains of New Mexico this week, enjoying their annual encampment at Sacramento, which is scheduled to break up on Friday of this week, with the campers returning home on Saturday.

Accompanied by Rev. Charles S. Walker, E. F. Lokey and Ray Ford, the nine Scouts departed Saturday morning. Ford returned here the first of the week, but the other two sponsors are remaining for the duration of the encampment.

Representing the Farwell troop

are Ernest Lokey, Carey Joe Magness, A. C. Henneman, Leon Meeks, Bobby Poteet, Jerry Pool, Don Ford, D. C. Haynes and Glennis Hughes.

**IN REVIVAL AT PORTALES**

Rev. W. C. Wright, local Baptist pastor, is engaged in a revival meeting at the West Side Baptist Church in Portales. He said today that the meeting was drawing good interest, with large crowds attending the services. The revival will close on Friday night of this week. Rev. Clarence Moore is pastor of the West Side church, where the meeting is being held.

**DRAFT BOARD MEETS**

In order to make men available to meet the July calls for induction and pre-induction physical examinations, the Parmer county draft board held a brief meeting Monday morning, and announced the following classifications:

1-A Raymond G. Treider, Jr., Guy R. Tandy.

4-A Loyd D. Taylor.

1-C (Inducted) Robert R. Percival.

2-C(F) Clarence E. Dixon.

2-C Beula L. Cox.

2-C Beula L. Cox.

War Crimes Conference in Session

Here is a view of the scene in the law court of London as the United Nations War Crimes conference opened. Great Britain's Justice Wright (standing in center background) is addressing the assembled United Nations delegates to the conference.

Use Of Left Hand Is Normal For Some

AUSTIN—"So what?" is often the modern reply to queries a parent may receive if his child is left-handed. Social custom is responsible for the preference of right-handedness in our children, say psychologists of the University of Texas, and except for the person's convenience, the use of the left hand can be as normal to some people as the use of the right to others.

"We still place emphasis on being right-handed," Dr. C. T. Gray, professor of educational psychology, says. "If a child is left-handed, he will be dubbed 'Lefty', or a 'south-paw', by his playmates. Fortunately, with most children, it makes no difference. But to those with emotional difficulties, it may be a serious problem," he said.

The use of the hands is related to language, Dr. Gray pointed out,

and for that reason, nervous or highly-strung children, if changed from using the left hand to the right hand, may stutter, or develop other speech difficulties.

"Psychologists report that the ratio of left-handedness among United States school children varies from 2 to 4 to 6 per cent," Dr. Gary said. "However, those who have made a study of the problem report that probably 25 percent would have been left-handed if they had not been changed."

Some universities and high schools are now putting left-handed desks in class rooms; teachers know how to have the left-handed child slant his paper toward the left and in the business world some banks are putting out left-handed check books. All these things, say the psychologists, are normal acceptance of a normal use of the left hand.

Nothing but an echo can get the word from the wife.

Surplus Commodities Under Price Control

Commodities declared surplus by the government are subject to price control, the District OPA price division announced today, and cautioned buyers against paying exorbitant prices for these items.

"The buying of these surpluses is rapidly becoming big business and the public should know that they are subject to price control when sold by the government and its agencies or by private persons." The price division pointed out, also, that a separate ceiling is usually set for sales to dealers and sales to purchasers.

As each commodity is declared surplus by the government, the OPA sets specific ceiling prices to prevent them from getting out of line with commodities sold through regular trade channels. For example, a retail price of \$1.50 has been set for new Navy fuel tanks, described as 14 1/2 inches high 12 1/2 inches wide and 10 1/2 inches deep, with metal screw top, olive drab finish, outside soldered seams. The ceiling for the cans when recoditioned is 95 cents.

With meat so scarce we no longer get excited when invited out for steak dinner, until we learn how many guests there will be.

It Completes The Picture!

ROPER, a fine name in gas ranges for over 60 years, will move into a prominent place in this "after-victory" picture of the New Freedom Gas Kitchen. This practical "dream room" of tomorrow calls for each unit to be designed to fit perfectly with every other. Each will be the most modern in features that American ingenuity can devise.

When you first see the smart new Roper, you'll want to have it for your very own. After watching it perform just once, you'll readily agree there'll be no more continuing then, with the range that war time requirements now make necessary. But if you have no range at present or if your range is beyond repair, there's a Roper gas range for you now. Stop in and learn how you can qualify for its purchase.

**Popular Raisin Pies**

When the snow-blanket covers the earth, and ice-crusts limbs glisten like a diamond necklace in the pale rays of winter sun, that's the time folks like their eating hale and hearty. Stout food that will encase the ribs with warmth and comfort—savory food that gives lip-smacking satisfaction, and leaves a trail of mellow flavor as it descends to stroke the inner man.

Days like this, it's time to serve a real, old-fashioned raisin pie: A flaky pan of golden crust bearing within its tender walls the fragrant raisin filling. A pie like that is manna to the heart and soul of man. And it refurbishes his flesh as well. A mouth-melting crust, as fragile as a breath of air... the honeyed juices of the raisin cooked down to amber nectar... the fruits themselves, swelled tenderly to plump proportions, make puff-balls of sweet pleasure that burst between adventurous teeth and tongue.

Bake these pies yourself, and see:

**Economical Raisin Pie**

Combine, then boil for 5 minutes—  
2 cups water  
2 cups seedless raisins.  
Mix, then add at one time to boiling raisins—  
½ cup brown sugar, firmly packed  
2 tablespoons cornstarch  
¼ teaspoon cinnamon  
¼ teaspoon salt.  
Cook, stirring until clear.  
Remove from heat and add—  
1 tablespoon cider vinegar  
1 tablespoon butter or margarine.

**Line pie plate with—**

Pastry for 9-inch pie crust.  
Pour in raisin filling. Cover with top crust or crisscross strips of pastry, and bake in hot oven (425°F.) for 30 to 35 minutes, or until crust is nicely browned. Serves 6.

**Raisin Nut Pie**

Combine, then let simmer until ¼ cup liquid remains—  
¾ cup water  
2 cups seeded or seedless raisins.

**Add—**

1 tablespoon cider vinegar  
1 tablespoon butter or margarine  
½ cup chopped walnuts.  
Cool slightly.

Mix, then stir into raisin-walnut mixture—

¾ cup sugar  
1 tablespoon flour  
¼ teaspoon salt.

**Line pie plate with—**

Pastry for 8-inch pie crust.  
Fill pastry-lined pie pan with raisin mixture, cover with top crust or lattice strips. Bake pie in a very hot oven (450°F.) for 10 minutes, then lower heat to a moderately hot oven (375°F.) and bake 25 minutes longer. Serve slightly warm.

**Oregon Chess Pie**

Cream, until light and fluffy—  
½ cup shortening  
1 cup sugar.

**Add—**

¼ teaspoon salt.  
Add, one at a time, beating well after each addition—  
3 eggs.

**Stir in—**

1 cup nuts, coarsely chopped  
1 cup seedless raisins.

**Add—**

½ teaspoon vanilla.  
Pour into pie shell. Bake in a moderate oven (350°F.) for 40 minutes. Serve cool or cold.

**Veterans Funds Speed State Building Plans**

Anticipating a 1946 demand of over nine million square feet of tile for veterans' hospitals, the Tile Council of America today called attention to what the \$2,607,187,500 proposed Veterans Administration appropriation bill will mean to the state of Texas.

Out of the \$84,500,000 requested for hospital and domiciliary facilities for the Vets Administration, \$6,700,291 is slated for Texas institutions.

Figuring that 6.1 per cent of the building materials used in hospital construction goes into tile and ceramics, industry members estimated that approximately \$2,783,430 will be expended on tile. "A similar market will exist for all other industries in the building fields," the Tile Council predicted.

According to a recent survey of the Modern Hospita Publishing Co., Inc., 5 per cent of the building materials used in hospital construction goes into structural steel; 7.2 per cent into heating equipment; 5.92 per cent, electrical equipment; 1.33 per cent, roofing.

"With 94 veterans' homes and hospitals located in 45 of the 48 states, every locality—as well as every business—should see the results of this construction," the Council reported. Plans have been submitted for a 2500-bed general medical-surgical hospital in western Texas, which will call for \$1,940,262 of the veterans' hospital funds. An addition of 500 general medical-surgical beds has been recommended for the Dallas hospital and an addition of 400 beds for Legion Service alterations and expansions, amounting to \$100,000, have been suggested for hospitals in Waco and Legion.

Veterans' hospitals in Texas are located at Amarillo, Dallas, Legion and Waco. With the addition of 1,150 beds, as recommended in the 1946 appropriations bill, Texas institutions will have a 3,364 bed capacity.

Veterans Administration construction in Texas during the 1944 fiscal year totaled \$109,441; total disbursements for the state during 1944 were \$27,810,425.

**Use Milk Surplus For Cottage Cheese**

COLLEGE STATION—During the season when milk surpluses are high some homemakers are inclined to allow large quantities of skim milk go to waste. Cottage cheese is easily made, and Mrs. Gladys Martin, home dairy specialist of the A. and M. College Extension Service, recommends this method of using surplus milk, and suggests an excellent recipe for making this delicious product at home.

Take one gallon of fresh, clean separated milk, and adjust it to the temperature of 75 degrees by placing the container of skim milk in a large vessel of water. Keep at this temperature until a good curd forms, about 30 hours, depending on the temperature. (To hasten coagulation, ½ cup clabber free from gas holes and off-flavors can be added. To make this type of clabber, take a milk bottle and boil it; then cool it. Milk directly into the milk bottle. As soon as the bottle is filled, put on the lid. Keep this milk at 70 to 80 degrees F., allowing it to sour naturally. As soon as the milk has soured, put it in the refrigerator, and this can be kept for about a week to be used as a starter for making curd.) Cultured buttermilk can also be used as a starter with good results.

Cut the curd when it is sufficiently firm. Insert a thermometer into the curd and lift gently. When the curd makes a clean break, the cheese is ready to cut. Cut the curd into one inch cubes with a horizontal curd knife and allow the whey to escape. Allow cheese to set undisturbed for ten minutes before stirring and applying heat.

Add one quart to a ½ gallon of water at 110 to 120 degrees F., directly to the cheese. Place the pan containing the cubed cheese in a bath of warm water and heat slowly 110 to 120 degrees F. Stir cheese very carefully while heating. To test the curd for sufficient heating, place a few of the curds in cold water. If the cubes are firm, hold their shape, and contain little whey, the cooking is complete. Drain in a colander, sieve or cheese rack until all excess water is removed.

Salt to taste, using one teaspoon to a pound of cheese. Add cream of medium thickness, enough to make the cheese fairly moist.

An international scholarship named for the first dean of women at The University of Texas—Mrs. Helen Marr Kirby—has been awarded by the American Association of University women to a Frenchwoman, teacher of literature. She will do research in Oxford and Paris. The scholarship fund was set up by the Texas Branch of the Association and named for Mrs. Kirby.

Have you bought that bond?

**Health Notes**

By Texas Department of Health

AUSTIN—This is the season when dysentery, diarrhea and "summer complaint" are most prevalent throughout the State, and Dr. Geo. W. Cox, State Health Officer, has issued a warning to parents of young children regarding the prevention of these diseases.

"The chief cause of these intestinal disease are impure milk, water and food; allowing a child to become overheated; using too much sugar or cream in the diet; and under- or over-feeding," Dr. Cox said. "For the young infant, mother's milk is usually the safest food; however, if other milk must be used, the supply should be clean and pure. Water should be free of impurities, and is safest when boiled and cooled before drinking. All foods should be fresh and clean, and left-overs should be promptly refrigerated to prevent spoilage."

Dr. Cox said definitely that when a feeding formula for infants is used, it should be prescribed by a physician and then prepared with extreme care, especially in regard to cleanliness and refrigeration. Babies should be fed at regular intervals and on a definite schedule. Their stomach and bowels can become easily upset if they are fed haphazardly whenever they happen to be fretful or restless.

"If diarrhea develops, consult a physician at once" Dr. Cox advised. "This so-called 'summer complaint' can become a very serious menace to your baby's health, if not an actual threat to his life."

You won't have a thing to worry about when you bring us your country produce. We'll take compete charge, give you honest weights and accurate tests on every transaction.

**FORD PRODUCE COMPANY**

The State Health Officer declared that with dysentery, as with many other diseases, the fly is an agent of transmission, and every home should be well screened and free of flies.

**Check on Wage Credits With Social Security**

Employees desiring to check up on their social security credits can do so by securing a self-addressed post card at any office of the Social Security Board, completing the form on the opposite side, and mailing it.

A statement will be received within a short period of time, said James L. Farmer, manager of the Amarillo office.

In case the wage statement fails to conform to the worker's own records, he may call this discrepancy to the attention of the Board and immediate efforts will be made to adjust the matter.

**TINY TUBE DOES BIG JOB**

An electronic tube so sensitive that it makes possible accurate measurement of the electricity in the light of a star more than five quintillion miles away has been developed by the Westinghouse Lamp Division. Smaller than 25-watt incandescent light bulb, this tube is simplifying the detection of impurities in high explosive compounds and is speeding electro-chemical analyses of steel.

**PROTECT YOUR ROOFS FROM WIND AND RAIN**

Summer storms often leave traces of destruction in their wake. We can put your farm building roofs in condition to withstand the assaults of nature. Our shingles are ideally suited for war-time repairs and re-roofing. They can be applied directly over old leaky roofs as well as old sidewall shingles.

**Cottonseed Support Price \$55 Per Ton**

Basic support price on cottonseed to Texas farmers this year has been announced at \$55 per ton.

Actual returns to growers will vary by producing areas, quality of seed marketed, prices paid by mills and ginners' margin at the time of marketing, according to E. C. Munro acting district representative, WFA's office of supply.

Similar to the 1944 program, support price this year will be carried out through an open offer by Commodity Credit to support the market for cottonseed products.

Cottonseed crushing mills accepting the offer agree to pay not less than the specified minimum support price, fob, shipping point, basis U. S. standard grade, for all cottonseed purchased in lots of five tons or more between August 1, 1945 and July 31, 1946. The offer also is subject to rules, regulations and standard methods covering the handling, sampling and analysis of cottonseed for grading purposes established by WFA, Munro said.

For oil mills accepting the offer, CCC will support prices for cottonseed products through July 31, 1946 by three methods. Included are purchasing cottonseed oil at 1-8 cent per pound below ceiling, purchas-

ing bulk cottonseed meal, 41 percent protein minimum at \$45 ton throughout the state, and purchasing chemical grade linters at ceiling price.

**University Professor Receives Award**

AUSTIN — Thirty-year-old Dr. Esmond E. Snell, University of Texas bacteriologist, has received a \$1,000 award and bronze medal from the Eli Lilly Company as the outstanding bacteriologist under 35 years of age.

The awards were made to Dr. Snell for his research work with lactic acid bacteria in the University's Clayton Biochemical Institute.

Dr. Snell participated in the discovery of folic acid, new vitamin known as B6, and discovered pyridoxa and pyridoxamine, two new members of the B6 group.

At the present time he is doing work in the study of proteins which will be of special importance, and in the fields of immunology and enzyme chemistry.

Texas leads the nation in the production of natural gas, producing more than 40 per cent of the nation's supply. Louisiana is second, California is third and Oklahoma is fourth.

**BE READY WHEN THE SAND STARTS BLOWING**

—BUY A—

**GRAHAM-HOEME PLOW**

Now Available Not Rationed

Blowing has already started in many sections. We have the plows. Get them while the getting is good.

Only the Graham-Hoeme has self-sharpening points; no side drafts; lasts a lifetime; plows all types of land without adjustments. Conserves the moisture by by-passing the moisture through the top soil.

BOVINA, TEXAS

**Now that the War in Europe is over**

What about travel?

Now, you may naturally ask, "Won't it be a little easier to get accommodations?" ... "Won't it be a little more comfortable to travel?"

We of the Santa Fe would like to hold out some hope to our friends who have good reasons for taking a trip, but who find it difficult to do so.

We would like to give those who do travel all the little niceties of service that are part of the Santa Fe tradition.

**Bigger Traffic Loads**

The stubborn facts are that the traffic to our Pacific ports of war is stepping up instead of letting down!

This means, in the war days to come, there will be more passenger and freight

traffic—new loads and greater loads and less space for civilian travelers than ever on Santa Fe rails.

**In The Meantime**

Santa Fe facilities have been enormously increased—bigger yards; more freight Diesels; centralized traffic control at key points; and improved shop tools and practices which keep our locomotives rolling.

In peacetime these increased facilities will enable us to provide better service than ever. But in the meantime, the staff needed to lick Japan is top priority.

So—again we ask, "Unless your trip is essential, can't you put it off until we have a little better opportunity to serve you in the traditional Santa Fe manner?"

## Miss Flora Lee Williams Bride of Capt. Anderson

Miss Flora Lee Williams, daughter of Mr. and Mrs. Johnnie Williams of the West Camp community, and Capt. Gabe Anderson, Jr., son of Mr. and Mrs. G. D. Anderson of Farwell, were quietly married on Saturday, June 9, in San Antonio.

Dr. Patrick B. Miller, pastor of the First Presbyterian Church in San Antonio, read the double ring ceremony in his study at 9 o'clock, with the young couple attended by Mayor and Mrs. Gus B. Mauermann of San Antonio.

The bride wore an aqua wedding suit with white accessories and a single white orchid on her shoulder. Mrs. Mauermann was attired in a navy blue suit with white accessories, and had a shoulder corsage of rosebuds.

Both Capt. and Mrs. Anderson are graduates of the Farwell high school, following which he received his degree from Texas A. & M. at College Station and she completed advanced schooling at Texas Technological College in Lubbock.

Mrs. Anderson was employed as Democratic party hostess in Washington, D. C., for two years, spending several months in New York last year during the election campaign. She resigned that work the first of the year and has been acting as hostess to the Governor of Oklahoma for the past few months.

Capt. Anderson entered the Army several years ago, and returned two weeks ago from Italy, having served overseas for 37 months.

They will leave the middle of July for Miami, Florida, where Capt. Anderson will draw his reassignment orders.

## Khiva Temple Birthday Will Be Celebrated

On Monday, June 25, Khiva Temple will be twenty-five years old, and the occasion will be celebrated with a full form ceremonial, said Lee Thompson, Potentate's Aide in Parmer County. A large class of candidates have already petitioned, and Nobles from all over Khiva Temple's jurisdiction will be in attendance.

Special attention will be paid the Charter members, who 25 years ago signed the application for a charter, Thompson said.

The committee on Masonic bond sales will make a report on the bond purchases of members of Khiva Temple during the 7th War Loan drive, which are well over a million to date, he added.

## Charles-Kaminski Rites Read on June 17th

The home of Mr. and Mrs. Wilbur Charles was the scene of a marriage ceremony on Sunday morning, June 16 at 9 o'clock, when their daughter, Miss Mary Elizabeth, became the bride of Jack Norman Kaminski.

Rev. Roscoe Trostle, pastor of the Bovina Methodist Church, performed the lovely double-ring ceremony in the presence of intimates of the couple.

Pfc. Kaminski is from San Francisco, and has been recently stationed at the Clovis Base. He has been moved to Sheppard Field, Wichita Falls, and the couple will reside in that city.

## Here For Visit

Mrs. William Thornton, Mrs. Wilfred Quickel and Mrs. Julian Thornton arrived here last weekend for a visit with Mr. and Mrs. B. N. Graham and Mr. and Mrs. Roy Thornton, in Farwell, and Mr. and Mrs. I. W. Quickel in Bovina.

Lt. (jg) William Thornton, with the Naval Air Force, has been assigned out of the States. Mrs. Thornton has been in New York with him the past year. Quickel, BM2c, arrived the first of the week for a short furlough with his wife and parents. Mrs. Quickel had also been in New York for some time. Mrs. Julian Thornton is from Sioux City, Iowa, where Major Thornton is stationed.

## Returns Home

Mrs. Mose Glasscock returned the last of the week from Springfield, Missouri, where she had spent ten days visiting relatives and friends. She reported much rain in that area, stating that no crops had been planted due to excess moisture.

## Here From Oregon

Mr. and Mrs. Curtis Danner and family, from Portland, Oregon, arrived the first of the week to visit in the homes of Mr. and Mrs. Bob Kyker, in Farwell, and Mr. and Mrs. G. C. Danner in Clovis. They are former Farwell residents.

## Visiting in Georgia

Mr. and Mrs. S. C. Hunter departed several days ago for Georgia, to visit with Mr. and Mrs. Vernon Hunter and son, Kim.

## To Washington, D. C.

Mr. and Mrs. B. S. Triplett left the first of the week for Washington, D. C., for a visit with their son, Lt. Baylor Triplett, and family. Lt. Triplett is with the executive force of the Navy stationed in Washington.

Mrs. Therese Hancock, of Lubbock, visited during the weekend in Farwell with her parents, Mr. and Mrs. G. D. Anderson, and other relatives and friends.

Mrs. Jean Blackburn, of Friona, visited the past Friday in Farwell with her sister, Mrs. Dorothy Lovelace.

Mrs. Azleet Roberts returned Sunday from Amarillo, where she had spent two days attending a beauty operators' clinic.

Judge J. D. Hamlin departed last week for Santa Fe, to spend the summer months. He was accompanied by Mrs. Hamlin Overstreet, who will visit friends there for a few weeks.

Little Miss Jane Claire Overstreet is visiting in Mansfield, Texas, with her grandparents, Mr. and Mrs. H. D. Nifong.

Mrs. Juanita Symcox, who had spent a week in Farwell, returned to her home in Plainview, Sunday morning.

## NEWS FROM OUR BOYS IN UNIFORM

Open house will be held Friday evening, June 22, from 9 till 11 o'clock at the home of Mrs. Claude Rose in Farwell for all servicemen and their wives, who are home from overseas. You are cordially invited to attend.  
**MRS. M. C. ROBERTS,  
MRS. CLAUDE ROSE**

## MOVES TO ARKANSAS

Cpl. Andy Marcus notifies The Tribune of a new address, stating that he is now located at the arsenal in Pine Bluff, Arkansas. Andy had been stationed in Edgewood, Maryland, for the past several months.

## LOCAL BOYS LEAVE

Pharmacist Mate Raymond Hall and Cpl. Bill Banks are both slated to return to duty this week, reporting to the West Coast.

Banks left the fore part of the week after a visit in the home of his parents, apparently headed back to Hawaii where he serves with the Air Corps. Hall, a navy medic, will leave Thursday to report for reassignment following overseas service.

## FINDS PICTURE OF HUSBAND

Excitement ran high in the Hop Graham family, Sunday night, when Hop discovered a picture of GI's in which Staff Sergeant Kater Crume, husband of daughter Abbie, was plainly recognizable. Kater was pictured with a group of the 44th Division on the shores of a lake near Lanbeck, Austria, where the boys had just enjoyed a swim.

## MAY COME IN

C. E. Crume reported Monday that hopes were being entertained that Staff Sergeant Kirt Crume, in Germany with the 80th, might be released via the point system. His wife and small son are now in California, but plan to return here soon. Kirt has been in service almost four years, overseas since last summer.

## GETS NAVY DISCHARGE

Information has been received here to the effect that Sterlyn Billington has been discharged from the Navy, and that he and his family will return to Farwell around the first of July. Billington has been stationed at Mare Island in California for some months, and Mrs. Billington and the children have made their home near him.

## "LEAVE IT UP TO WIVES"

Sergeant Woodrow Lovelace has written from the Philippines that he doesn't have sufficient points to rate a discharge, but adds, "If they'd

leave the adding up to the wives a bunch of us would be home soon." Woody, with the Air Corps, has been overseas for over two years, spending most of that time in Australia. He was moved to the Philippine area a few months ago.

## ON LEAVE

S2-c Harry J. Charles, son of Mr. and Mrs. Wilbur Charles, who is stationed at San Diego, Calif., is here on a brief furlough and plans to return on Thursday of this week. His wife and daughter are with him and will accompany him back to California. He is scheduled to enter school for training as a 'corpsman on his return.

## SUBS NEED RENEWING

Subscriptions to Helen Richey, Sarah Barnes and Myrtle Nichols are due for renewal and should be paid up within ten days.

## METHODIST CHURCH NEWS Bovina and Oklahoma Lane

The Methodist Church at Oklahoma Lane closed a very successful Vacation Church School. With a good corps of teachers, working with Mrs. Lee Jones as general director, the school did some good work. The attendance reached a total of 56 with a very high average.

Untold benefits are derived from a school like this, where the boys and girls are taught many facts about the Bible, the value of the church, the precious things in the life of Jesus, and are lead into a conscious knowledge of His presence.

The Bovina Methodist Church turned out on Monday evening almost 100% for a Sunday School picnic at the Roadside park west of town. Some lively games were played, lovely refreshments were served, and everyone seemed to have an enjoyable time.

The last two weeks, Bro. Trostle has been over on the Cita Canyon at the Methodist Camp Ground. Last week he was accompanied by Mrs. Trostle, Mrs. T. L. Kent, and Mrs. L. M. Grissom from Oklahoma Lane, who chaperoned the intermediates that attended the Amarillo district camp.

Those going from Bovina were: Gladys Marie Hopingardner, Louise Moody, Jerry Jones, and J. R. Ellison. From Oklahoma Lane: Caryetta Grissom, Doris Kent, June Christian and Jovita Billingsley.

Mr. Grissom and Lola Jean, Mr. and Mrs. C. C. Christian and Troy Lynn visited the camp Wednesday evening.

Last Sunday at 10 o'clock Sgt. Frank Wilson, Jr., who has served some time in the Pacific, spoke to the Bovina Sunday school. His message was very interesting, helpful and impressive. Harry J. Charles, home from navy training for a few days, also spoke a few words. At the 11 o'clock hour, Miss Lillie Hester, daughter of the former pastor, Rev.

J. N. Hester, brought a message. This was her first time to preach after receiving a local preacher's license last month.

Miss Hester also spoke at Oklahoma Lane at the evening hour after the young people who attended the Cita Canyon camp gave a report on their trip.

"We are thankful for fine young people who yield their lives to special service in the kingdom of God. May we continue to have strong Christian homes and active Christian churches where we can cultivate and develop more consecrated Christian young people who will go out to work for Christ with his love in their hearts," the pastor said today.

## CARD OF THANKS

To all my friends for the nice flowers, gifts, cards and letters I received while in the hospital, I take this means of expressing my appreciation. I particularly want to thank the Rhea singing class and the Bovina roping club. Your kindnesses will ever be remembered.  
**Mrs. T. G. Hudson, Jr.**

Mr. and Mrs. D. K. Roberts returned Friday from a visit with De-

Farwell, Texas.

### FARWELL GI—

(Continued from Page one)  
ements, but recalled that he was hospitalized for sickness on four different occasions while overseas. "You rarely ever see an automobile in Egypt," he recalled, "except in Cairo. Camels and donkeys are the only mode of travel, and when you see an improved farm it belongs to a Britisher."  
He has no plans for the immediate future, merely wanting to "rest up and forget war for awhile before I make any plans for the future."

### RED COSS SAVED—

(Continued from Page 1)  
Following the cleanup of Rommel's Africa Korps, the 1st Armored was sent to Rabaut, or near there, and stationed in a cork forest for training and checkups. Anderson ed to the Americans that our men would probably have died of starvation, or at best, would have been so weakened from malnutrition they would have died from disease. While in Germany, I also heard of the Nazi excuses for the shortage of food in the prisoner of war camps, namely, that food was short all over Germany. At the time I was there however, which was in April, I saw no evidence of extreme hunger or food shortage among the civilian population. It seems to me that had the Nazis been fully interested in complying with the Geneva convention, at least some of the food apportioned to the civilian population could have and should have been diverted to the Allied prisoners

of war.  
I have been through both camps over here in America in which were confined Germans and Italians our forces had captured in Europe. There is no question in my mind but what this nation fully complied with the Geneva convention—in fact, many people have the opinion we complied much too well. The Army followed this policy in the hope the enemy would treat our own American captives fully as well.

As pointed out, the above opinions seemed to be rather general among the American men with whom I talked. I am informed that the Army is interviewing others, and conducting a survey to determine as nearly as humanly possible exactly how all of our men were treated during German captivity, which information I hope will be available soon.  
Needless to say, I've never seen a happier bunch of fellows in my life than our boys were when our forces rolled in and set them free. They know, far better than anyone else, the full meaning and blessings of freedom.

### CAFE CHANGES

The Farwell Cafe changed hands this week Mrs. M. H. Poteet selling the business to A. P. Watkins of Portales. Watkins said he would be open for business today (Wednesday).  
The Poteet family has moved to Hale Center, where he will be manager of a cotton gin for the coming season.

### OLD HOME TOWN—

(Continued from Page one)  
said. "That was about the worst time of the whole thing," he said, adding that reaction from heavy combat to a lull—with no prospect of a trip home—sent morale among the men to the very bottom. "We could give passes only once every three days, and then for only a few hours a day—before we left practically every man in the outfit had been reprimanded."

### On Anzio Beachhead

Moving into Italy, Anderson was with American forces who went through the bloody campaign for the Anzio beachhead, and then went on up into Italy "as fast as we could over the terrain". The fighting in that sector, he said, was hard and slow. "The Germans were dug in on the top of every hill, of course, and when we'd finally force them it was easy for them to retreat—they'd have Dagoes build positions back up the line and just fall back, while we had to start all over."

His command was shifted from group to group, he added, stating that they served with the 36th and 45th divisions, both of whom have received considerable fame during the war. "We'd always hate it when we got an assignment with the 36th, because we knew they drew the roughest ones of the bunch," he said. "That outfit must have had a jinx—I believe they have lost more men than any other division during the war."

But compared to the early part of the long-drawn out war in Italy, the closing phase was a breeze. "That was the most fun I had—if you can call it fun," Penny laughed. "When we were moving so fast in the Po Valley, having broken the Germans up into little pockets, we went through a bunch of little towns and all the people would rush out and throw flowers and bring out their best 'vino'. We got a partisan doctor and put him in the jeep to direct us as the maps weren't very good, and he'd make pantomime gestures for everybody to clap and yell. Nearly like a picnic."

Comparing the rate of advance in the Po Valley to that of the "toe" of Italy, Anderson said, "Near Como we moved 186 miles in two days." At the time he was relieved for his trip home, the local boy was practically at the Swiss border, following the capitulation of the entire German army.  
"They were giving passes to France and other places, except Germany, and our colonel, who had spent three years in France, had it all figured out how we'd go and really see that country—but when I got my chance to come home it was all off."

Speaking of the destruction wrought by war in Italy, Anderson reported that most towns in southern Italy were practically destroyed, particularly the small towns which the Germans defended to the last stone. Florence and Naples were both hurt by bombings, but not beyond repair, as was Rome. Turin and Milan did not fare too badly during the war, and the large portion of small towns along the Po Valley showed few scars of war.

Capt. Anderson wears the ETO ribbon with six campaign stars, as well as the colors signifying the award of the Silver Star, which he received for action in Africa.

He is to report to Miami on July 17th for reassignment, and will be accompanied there by his wife, the former Flora Lee Williams. While in Farwell they are guests in the G. D. Anderson and Johnnie Williams homes.

### Returning Servicemen Run Reporters Ragged

The Tribune apologizes today for not being able to contact all local servicemen who have arrived within the last few days, for interviews in this week's issue.

To be perfectly frank, they are coming in faster than the small staff of this paper can handle—and still manage to get other news, too.  
R. L. Houston, sailor, and Ernest Vigil, soldier, are both in from overseas, and The Tribune has hopes of presenting their experiences next week. Possibly by that time, also, there will be others whom the reporters will try to contact.

Please don't feel neglected if a reporter isn't banging on your door the day after you arrive home. We hope to see all returning servicemen as quickly as possible, but help shortage may delay our visit for a few days.

In fact, we'd appreciate it more than you can imagine if you'd just drop around and let us in on your personal war story. Don't feel hesitant about coming—nobody will think you are trying to push yourself into the limelight, for after all, everybody is interested in where you've been and what you've done.

The Lubbock sub-station of the Agricultural Experiment Station used cyanamid dust as a cotton defoliant last fall with good results. Application was at the rate of 30 to 35 pounds per acre.

### Bowers Home After Stay In Hospital

Pvt. Eugene Bowers, wearing the patch of the famous old T&O (Texas-Oklahoma) 90th Division, is home visiting relatives and friends this week, after spending the past three months in an Army hospital in England.

Lasting only a month as a combat man, Bowers was one of the targets of a German machine gunner in the Luxembourg campaign and was shortly thereafter returned to England for medical care. Currently he is assigned to Torney General Hospital in Palm Springs, California, where he will return following his 30 days with home folks.

After leaving the States the latter part of last October, Bowers first went into action as a member of the 42nd (Rainbow) Division from Oklahoma, with the Seventh Army in France, and was then shifted to the 90th Division in the Third Army.

Questioned about his injuries, Bowers reported that he and five other men were riding up a hill in a jeep when a machine gun at the side of the road opened up on them. "He got me in my right leg as we went by, and broke it, and right across the lower part of my back—actually my 'fanny'—as we passed him. Two of the fellows were killed. I've still got a bullet lodged in the muscles in the pit of my stomach, which the doctors aren't sure what to do about—operate or let it go for the time being."

He has been in service only a little over a year, having entered basic infantry training at a Texas camp shortly after graduation from the Texico high school last year. Bowers wears the ETO ribbon with two campaign stars, the Purple Heart, and the combat infantryman's badge.

### Brother Discharged

Elbert Bowers, brother of Eugene, recently received 1/3 discharge papers after four years in the Army with the transportation division of the Quartermaster Corps.

He went overseas last fall, and when serving in France, sustained an injury to his back, which put him in a hospital in England at the same time his younger brother was being treated. Although the two only "met" over the telephone while overseas, both are now home with their parents, Mr. and Mrs. W. L. Bowers of Texico.

### Three More Dischargees For Parmer County

The records of the county clerk reveal that two more Parmer county servicemen have recently received discharges from the Army. T-5 Orville Whitefield, of Friona, was released on June 12th, while Cpl. Theon D. Vaughan received his papers on May 19th.

Whitefield served overseas with the medical detachment of the 13th tank battalion, his service record reveals. He went into North Africa with the early invasion forces, and moved into Italy following the end of the Tunisian campaign. Whitefield is entitled to four campaign stars: Algeria, Rome, Tunisia and Naples, and a unit citation ribbon. His discharge came from the army separation center at Fort Bliss.

Cpl. Vaughan was overseas only a short time, going out last November, and serving with a field artillery outfit as a machine gunner. He holds the European-African campaign colors with one star. Discharge came from Bushnell General Hospital at Brigham City, Utah.

### Third One in Tuesday

Deputy Clerk Dorothy Lovelace reported on Wednesday that another set of discharge papers had been filed in the local office.

Pfc. Joe Bolton, of Farwell, has been discharged from the separation center at Fort Bliss, following a little more than three years in service. He was stationed in the Aleutian area for approximately a year, and holds the Asiatic-Pacific campaign ribbon with one star.

His papers show that he was released from duty on June 12th.

### WOUNDED SOLDIER HOME FROM EUROPEAN AREA

Sgt. Ernest Hillock, son of B. L. Hillock of Lariat, and brother of Mrs. Ed Eason of this city, arrived here for a 30-day furlough Monday from Torney Hospital at Palm Springs, Calif., where he is receiving treatment for wounds suffered in March of this year.

Sgt. Hillock said that a sniper got him in the leg as the 44th Division was "peeking over the Seigfried line". Both bones of the lower left leg were broken by rifle fire.

He will be here for 30 days, after which he will report back to Palm Springs for further observation and treatment.

Manufacturing industries in Texas showed a decline of 1.6 per cent in employment, and an increase of 2.1 per cent in payrolls in April over March, 1945, the University of Texas Bureau of Business Research reports.
