

Bovina-Farwell Meet For Championship

The Bovina Mustangs and the Farwell Steers will meet in their final game of the six-man football season this Friday, November 8th, in the home stretch for the annual title.

This will be the final game for the Bovinaites, who have previously taken all games played with Oklahoma Lane and split two matches with Farwell. On the other hand, Farwell has yet another game to play after Friday, being slated to contact the Oklahoma Lane Cowboys for the season wind-up on November 15, but experts predict that the outcome of the game this weekend will be the clinching factor in deciding the championship.

Things looked good at the Steer workouts the early part of the week, with only Donald Ford, youngster who showed considerable promise early in the season, still being on the bench due to an injured hand. Coach Jack Williams reported Tuesday that barring unexpected mishaps in last-minute pre-game skirmishes, young Ford would be the only man not suited out for the Friday contest.

Tentative lineup puts Robertson at right end, Sheets at center, Booth or Thomas at left end, Herington or Williams at left half-back, Hart at quarterback, and Max Ford at the right half position. Naturally, if injuries are sustained, the lineup may be changed, and some substitutes will undoubtedly be made during the game.

It was understood here that Stacy Queen, Bovina centerman who received a broken collar bone in practice before the season ever got underway may be back in the lineup when the Steers and Mustangs meet this weekend, and the probable backfield list will include Looney, Bonds and Ross, who have held starting positions there during the season. Linemen will likely include Shanks and Kelly at the end slots, with either Queen or McKinney starting at center.

Questioned as to the possibility of a bi-district playoff for the local district winner, Coach Williams reported that he had exactly no information along this line, adding that the announcement would have to be forthcoming from Interscholastic League headquarters in Austin. Whether or not there is another district near here playing six-man could not be determined, and bi-district is "tops" for the small game league.

The game on Friday will begin at 2 o'clock, and a large crowd of fans from both sides of the fence is anticipated. Names of officials were not on hand here today.

Says Water Well Is Better Than Oil

Everybody to their own nation, but in the opinion of N. L. Tharp a good irrigation well is a better investment than an oil well.

Tharp, who lives just north of this city, put down an irrigation well early this year and he calculates that the water from the well will pay him dividends of \$100 per day for the time the well was in operation during the summer months. Tharp has just completed cutting 35 acres of African millet and Atlas sargo, and said that the yield averaged about 70 tons of ensilage which he put in his silo.

The returns from his grain crops will also prove satisfactory, he added.

REOPENS SHOP

Ernest Englant, who because of his health and the inability to get an experienced mechanic, was forced to close his welding and auto repair shop at Bovina some several weeks ago, stated today that he had re-opened his place of business. Kenneth Ward, and ex-GI, has been employed as mechanic, and they are ready to serve the public.

HAS HEART ATTACK

Mrs. B. E. Nobles, pioneer Farwell resident, has been confined to her bed the past several days following the effects of a heart attack last weekend, and her physician reports that it will likely be several weeks before she will be able to be up and active again. Her husband, who has been in failing health for the past several months, is able to be about only part of the time. They have a housekeeper at present.

HUNTER BACK HOME

S. C. Hunter, pioneer Texico resident, who was taken to a Clovis hospital on last Tuesday, was returned to his home here the first of this week, where he is reported as able to sit up. His son, Vernon, and family, who have been living in Virginia for some time, flew here last week from Washington, D. C., when advised of his father's illness.

Five Cars Pile Up, Local Lady Hurt

Mrs. Billie Meeks of this city miraculously escaped with only slight injuries and lacerations about the shoulder late Tuesday afternoon, when the car in which she was returning home from Clovis became involved in a five-car pile-up, that also sent two New York soldiers to the Clovis air base for treatment.

Details of the accident were not available here this (Wednesday) morning, except a report from Highway Patrolman Jimmie Clark that five automobiles were involved in the traffic pile-up, which is believed to have resulted from slippery pavement occasioned by a light snow covering that had fallen during the afternoon.

Mrs. Meeks, who was driving Lee Meeks' new Nash automobile, and was enroute home at the time of the accident, was removed to a Clovis hospital, where her injuries were treated. She is reported as not seriously injured. The car she was driving was badly damaged.

Hallowe'en Pranksters Stampede In Cowntown

Not since the early days of frequent stampedes by thundering herds of frightened cattle has the little cowntown of Bovina taken such a beating as it did on last Hallowe'en night, when the pranksters ran amuck and wrought havoc to a considerable degree.

Most of the activities of the merry-makers were confined to the main street, where signs were ripped off, plunder strewn in the street, and farming implements were piled high in front of business houses. Their pranks were capped off by placing the running gear of an old four-wheel buggy atop the post-office building.

As has been the custom for many years, outhouses were upset and doors ripped off. It was a great night for the funmakers, and business men there report that damage to property was slight, despite the cluttered-up condition of the town.

Election Notices To Be Mailed Shortly

Farmers in Parmer County will receive notices within the next few days about annual elections of community and county farmer-committees, Harold W. Carpenter, chairman of the county agricultural committee, said today.

Each of the county's nine farming communities will elect three committeemen and two alternates, as well as a delegate to the county convention, where a three-man county committee will be named.

Approximately 900 farmers are eligible to vote in the elections this year. Eligible farmers are those who are participating in the 1946 Agricultural Conservation Program, or who have a contract with the Federal Crop Insurance Corporation. This includes owners, operators, tenants, and sharecroppers on farms where a conservation program is being carried out.

In announcing the elections, Carpenter urged that all farmers who are entitled to go to the polling places in the community and vote. Since the committeemen are responsible for developing, adapting, and administering national farm programs to meet local problems and needs, it is important that the men elected really represent the choice of the majority of the farmers in the community. Elections will be held about the middle of this month in each community.

Ebb Randol returned home Tuesday night from a business trip to Colorado Springs, and reports lots of snow along the route he traveled. He came home by rail.

Democrats Winners In New Mexico

New FHA Program Effective Nov. 1st

Region Escapes Worst Lash Of Icy Blasts

With most of the country to the north and northwest of here coming in for a severe beating by high winds, snow storms and disrupted traffic, this immediate section escaped the initial icy blast of winter with only a light snow and reasonably chilly temperatures.

Snow began falling here at noon Sunday but the flurry was of brief duration and soon disappeared. Light snows fell intermittently.

Approximately an inch of snow covered all of Parmer County and other nearby areas this (Wednesday) morning, from a fall received on Tuesday night in the tag-end of Winter's first official visitation here. The brisk north wind which had swept the country for two days abated about dark Tuesday and the snow fell quietly and evenly, covering the entire landscape in a white blanket. Santa Fe temperature reading here for Tuesday night was reported at 26 degrees.

throughout most of Monday, but not in sufficient quantity to cover the ground. The weather remained cold throughout the following day an occasional flurries of snow and sleet fell on Tuesday, which also disappeared shortly.

The cold snap, coldest of the season, followed the first killing frost of the season on Friday night, some two weeks behind the usual schedule for this section.

Vehicles Are Stranded

Reports from the north part of the Texas Panhandle tell of heavy snows, stranded buses and automobiles, with similar reports coming from New Mexico and Colorado. At Cline's Corner, south of Santa Fe, N. M., 500 tourists were reported stranded on Monday and Tuesday. Drifts of four feet were reported in Santa Fe.

The snow did no more here than halt harvesting operations. Farmers say that most of the feed which was being cut by binders and bunched as a fodder crop has been disposed of, while other fields that are to be headed for grain still are untouched. It is believed that the spell will do little damage to unharvested fields.

While many fields are being cut to save the fodder crop, many farmers are following the example of Fred Kopley in leaving the immature crops in the fields, to be converted into pasturage for livestock.

Moisture from the light snow and misty rain will be of great benefit to growing wheat, farmers say.

TO MOVE OFFICE

Attorney Roy E. Cook, manager and operator of the Guaranty Abstract and Title Company, announced the first of the week that he was soon to move his office to one of the Muckelroy buildings on Main Street in Farwell. Cook said he hoped to be moved by the first of next week. Cook has operated in the J. D. Thomas location since purchasing the business some months ago.

INSTALL SPILLWAY

A concrete spillway dip has been installed on First Street just east of the Kemp Lumber yard in Farwell, on the short street that runs to the Santa Fe station.

NEW MANAGER AT LARIAT

"Shorty" Thomas has succeeded Charlie Thompson as manager of the Lariat Grain and Seed Company, effective on Nov. 1st. Thompson said that he would devote his time to his farm east of town.

MILSTEAD IMPROVING

Floyd Milstead, who has been quite ill for several days, was permitted to leave a Clovis hospital the latter part of last week, and is showing improvement at his home in Farwell.

TEST DOWN TO 5800

The Farwell oil test, located on the N. L. Tharp ranch, 4½ miles northeast of this city, was reported down to 5800 feet Tuesday and operations were continuing at a satisfactory pace.

Drillers reported that a slight showing of oil was encountered at 4800, but not in sufficient quantity to prove a paying well. The contract calls for a test of 7500 feet.

Town Lots Sell At Sheriff's Sale

With ready bidders on hand to accept the offerings of Sheriff Earl Booth, all of the Farwell town lots and most of the Friona lots that were offered at sheriff's sale on Tuesday were sold.

Three of the lot sales advertised in Friona failed to draw bids sufficient to satisfy the taxes and costs, and therefore were declared "no sale". Dan Ethridge, civic leader of Friona, announced following the sale, that additional town lots in Friona would be processed for tax sales in the near future. "We are primarily interested in getting these delinquent tax lots cleared up and back on the tax rolls," he said.

The sale here Tuesday were the result of delinquent tax suits instituted several months ago to clear up and place back on the tax list a number of town lots in Friona and Farwell that have been on the delinquent rolls for many years.

Highway 86 Will Be Surfaced Shortly

The State Highway Department at Austin has called for bids for blacktopping Highway 86 in Parmer County, from two miles east of Bovina to the Castro County line, a distance of slightly under 19 miles.

Bids will be received in Austin until 10 o'clock a. m., Wednesday, November 13, at which time they will be opened. The contract for the work will be let to the lowest suitable bidder.

W. H. Garrett, resident highway engineer of Dimmitt, was here the latter part of last week and gave it as his opinion the actual construction work would likely start soon after the contract had been awarded.

This highway improvement program will connect with Highway 86, two miles east of Bovina, and continue east to the Parmer-Castro County line, completing this particular piece of highway construction in this county. Highway 86 converges with Highway 60 at Bovina.

The grading and drainage structures along the route were constructed last Spring. With this job completed, Parmer County will boast three paved state highways traversing the county.

MEMORIAL SERVICE SUNDAY

Memorial services for First Lieutenant Walter A. Moeller, formerly of Muleshoe, will be held Sunday afternoon, Nov. 10, at 3 o'clock, in the Muleshoe school auditorium. Lt. Moeller lost his life while on duty with the Air Corps in the Pacific. First Lieutenant John D. Beadling of Clovis AAB, will be in charge, assisted by Supt. Cox of Muleshoe. Deceased is survived by his wife, the former Beulah Kistler, and a young son.

HERE FROM ILLINOIS

Paul Schmidt arrived here the first of the week from Earlsville, Ill., to spend a few days here attending business matters. Mr. and Mrs. Schmidt returned to their Illinois home last Fall after spending several months in Texico-Farwell, while he was perfecting a wire-winding device.

Georgia Tech turned down Booby Didd as a football player, and later hired him as a football coach.

The Farm Home Administration program, which combines the facilities of the old Farm Security Administration and the Feed-Seed Loan program, and will operate in the offices of the former FSA at the courthouse, went into operation last Friday, November 1st, following a change in the national set-up.

Frank Seale, former FSA supervisor, has been named supervisor of the new program on a temporary basis, while the two agencies are being combined and personnel is being trained. After the training period, FSA supervisors will be appointed on a permanent basis.

The FSA is to make production and subsistence loans to farmers for the purchase of farm equipment and for operating expenses. These loans, Seale said, will be divided into two categories.

One will be handled much as the old feed and seed loan, to be made for a period of one year, and used by borrowers who need money for feeder cattle, farming operations, purchase of equipment, etc. To receive such a loan, the borrower must either own his home or obtain a waiver from the landlord on the landlord's share of the crop to be produced.

The other type loan will be similar to the familiar FSA loan, in that it will be made for a period of up to five years. "I have not noted any important differences in this type loan and the old FSA rehabilitation loan," Seale said today.

The FSA will continue to make loans for the purchase of cooperative binders, combines, pure-bred sires and other services, and the water facility loan will be continued.

Persons interested in obtaining further information on the new program are invited to contact Seale at the Parmer County office.

Election In Parmer Is Quiet Affair

With less than one percent of the voters of Parmer County making their way to the polls on Tuesday, chief interest was centered in the proposed constitutional amendments.

Only meager reports were available Wednesday morning, indicating that practically all of the voters of this county cast their ballots for the straight Democratic ticket. Nine Republican ballots were cast in Farwell and 87 were polled in the Friona box. The remainder of the ballots were for the Democratic nominees.

On the amendments, Parmer voters favored two of the proposals and turned thumbs down on the third. Amendment No. 1, authorizing the payment of \$75,000 for a building at John Tarleton College, was approved here, while Amendment No. 2, authorizing retirement, death and disability claims for State employees, was defeated.

Amendment No. 3, which would freeze road funds, met with favor in this county, and the voters also approved the re-allocation of county funds, as submitted on a special ballot.

Spade Sale Is Booked For November 12

W. E. Spade, who lives 3 miles west and 1½ miles south of Texico, has booked a general farm clean-up sale to be held at his place on Tuesday, November 12, starting at 10:30 a. m., New Mexico time.

The principal feature of the sale will be a good collection of highly essential and useful farming implements, and a collection of shop tools, both of which are hard to obtain these days. Other offerings include three head of young Jersey cows and a large assortment of household goods.

The sale will be in charge of Col. Dick Doshier, Farwell auctioneer, and Frank Doshier and O. W. Francis will serve as clerks. Lunch will be served at noon and there will be plenty of free coffee.

A detailed list of the offerings will be found in this issue of The Tribune.

More than 127,000 wards were receiving benefits under the Veterans Administration guardship program on August 31.

Reports early Wednesday morning indicate a positive trend in favor of the entire Democratic ticket in New Mexico, with Senator Dennis Chavez pulling in the lead after trailing the former Ambassador to China, Pat Hurley, in early returns for the senatorial seat.

United Press reports early Wednesday morning gave Chavez 45180, Hurley 44709, with an estimated half of the state's vote reporting unofficially. Democratic leaders were contending that Chavez' lead would continue to mount as reports from outlying precincts, many of them temporarily snowbound, were received.

Returns also indicate that Thos. Mabry, candidate for Governor on the Democratic ticket, has won handily over Ed Safford, and that the Democrats have won the rest of the state offices, including two seats for representative in the lower house of Congress.

Although the Republicans piled up the biggest vote ever given their candidates in Curry County, the Democrats have emerged victors in the polling with safe margins. Only the offices for county commissioner were being contested in Curry County.

In the national picture, early predictions of a Republican victory in Congress seem to have been definitely fulfilled with the GOP apparently gaining control in both the upper and lower chambers. The Republicans also made substantial gains in Governors elected in Tuesday's voting.

Deer Hunters Leave For Annual Hunt

As the opening date for the big game season in New Mexico approaches, quite a number of hunters from this section are making preparations to be "all set" on the range when the morning of November 10th dawns, it was revealed today.

Scarcity of lawful firearms and ammunition is calculated to detain many nimrods who would otherwise be "taking to the hills". But reports gathered early this week indicated that Texico-Farwell and Parmer County will be fairly well represented among the hunters who make the yearly trek to the hills in quest of a buck.

The biggest local party that had been reported this week will be composed of G. D. Anderson, LeRoy Faville, Buddie Jones, Judge John Aldridge, Bill Sherry and Capt. G. D. Anderson, now stationed at Fort Sill, Okla. This party plans to leave here Friday and will pitch camp in Laguna Valley near the New Mexico-Arizona line beyond the Black Range.

Lee Osborne, Jack Crane and T. B. Allen will depart the latter part of the week to arrange their camp in the Sacramento Mountains in the Highrolls section, east of Cloudcroft.

The old reliable crew which has not failed to make the trip in recent years will be composed of A. C. Green, Claude Thomas, Jack White, Grady Pierce, Lester Norton and Mack Johnson of Portales. Their favorite stomping ground is on the south end of the Gila River, northeast of Silver City. Incidentally, this group rarely ever fails to bring in their allotment of fresh meat.

As to the others who may not be listed, they were still in the process of tentatively planning and hoping today, and it is to be expected that several more will grab their guns and take for the hills when the last analysis comes.

Weather Conditions Won't Affect Sale

Adverse weather conditions, if such should be the case, will not affect the sale of 44 registered Short-horn cattle to be offered at auction on Wednesday, November 13.

J. R. Hadley, who is consigning a large group of his stock to the sale, reminded prospective bidders today that the sale will be held in the heated pavilion of the Clovis Cattle Company, at Clovis, where all activities are carried on indoors. Besides Hadley, his son, John Hadley and John M. Taylor are consigning stock to complete the list of 44 registered Milking and Scotch Short-horns.

The sale is scheduled to get underway at 10 a. m., Clovis time.

The popular name of the B-29 war plane is "Superfortress".

Kate Smith Heads Polio Campaign

Kate Smith, famous radio star, is national chairman of the 1946 Sister Elizabeth Kenny campaign for Infantile Paralysis, which campaign will be conducted throughout the nation, November 18 through December 7.

The Texas quota has been set at \$150,000, George C. Francisco, Jr., of Houston, chairman of the Texas

Executive Committee, announced, and funds will be used to send graduate nurses to the Kenny Institute in Minneapolis for two year training as technicians, so that there will be available trained Kenny Technicians wherever polio breaks out in epidemic stage, and to eventually build Kenny clinics in the state.

Counties are being organized throughout the state. Campaign chairmen have now been appointed in more than 100 counties and committees are being organized. However, volunteers are needed throughout the state. Interested persons can contact the Kenny State Headquarters at the Driskill Hotel in Austin.

Typewriters Offered To World War Vets

FORT WORTH.—If you are a veteran of World War II and want to buy a typewriter, listen—War Assets Administration sells typewriters only to veterans—no others. A veteran must first be certified by WAA, a simple procedure of presenting an honorable discharge. This certificate will permit him to buy one typewriter.

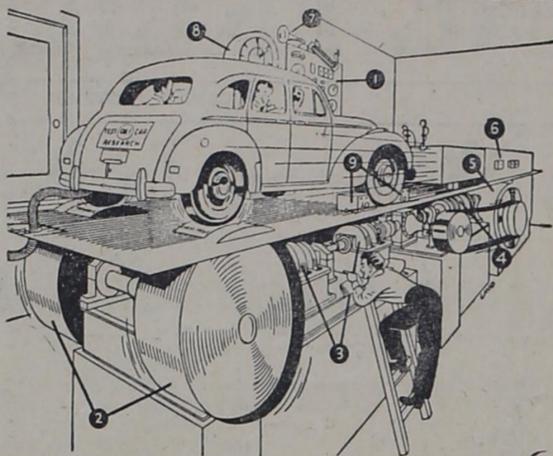

At this moment the Fort Worth regional WAA office has on hand several hundred more typewriters than there are veteran applications.

So—If you are a World War II veteran, and want to buy a surplus typewriter, apply at once to the WAA office in Fort Worth, in person or by mail, at the T & P building. WAA hasn't been issuing any certificates for typewriters since May 31—this chance to be certified is a change in policy and will last only until December 1.

Other items on the veterans set-aside list, like typewriters for exclusive sale to veterans, include office furniture, wrist watches, sleeping bags and other hard-to-get items, on which certificates now are available.

Order for sleeping bags—popular outdoor sports item—can be filled immediately, for as long as they last.

Off To Nowhere—At 70 Miles Per Hour

PITTSBURGH, PA. — This fantastic looking device resulted when scientists built a highway inside a laboratory. A motorist's dream, it artificially creates all basic driving conditions, but eliminates annoyances like traffic, chickens, slippery pavements and red lights. Better motor fuels are expected from the faster, more accurate testing of gasolines, possible with this Gulf research development.

Sketched from life, a test crew here accelerates to 70 m.p.h., the driver not bothering to watch the road. Mileage and test data are recorded on huge instrument board (1) outside car. Rear wheels rotate heavy drums (2) which gear into flywheels (3) electrically manipulated to simulate various vehicle and passenger loads. A combination electrical motor and absorbing unit (4) creates artificial uphill and downhill grades by speeding or retarding drums. A fan (5) delivers air at velocity proportionate to speed against car, and air conditioner (6) supplies artificial temperatures. Siren (7) warns of mechanical failure. Scale (8) indicates torque; chocks (9) hold front car wheels motionless.

Health Notes

by Texas Department of Health

AUSTIN.—Reports coming in from various sections of the State indicate that the number of influenza cases appears to be increasing with the advance of the fall season, and during the past week 930 cases were reported in Texas.

Commenting on this situation today, Dr. Geo. W. Cox, State Health Officer, said that most of these cases are mild and lend themselves to treatment readily. He pointed out that two cooperative factors are essential to victims of this disease: first, to call the family physician promptly when suspicious symptoms appear; and second, to take it easy for a reasonable length of time after the acute stage has subsided.

"It is essential to realize that in-

fluenza, no matter how mild the attack, calls for a period of convalescence, because serious complications can occur if this important fact is ignored," Dr. Cox said. "Influenza is not mass-controllable. However, those persons who maintain the highest possible health level at all times, increasing their resistance to communicable disease germs, will have a protective advantage over those more careless persons who continually abuse their health."

The State Health Officer declared that living by the laws of nature, getting plenty of sleep, daily exercise in the open, nourishing foods and good personal hygiene offers the best known bulwark against all respiratory diseases and added that avoiding habits of any and all kinds detrimental to maximum well being is a wise course to take in the pursuit of good health.

About 20 per cent of the world's wheat and 58 per cent of the corn is supplied by the United States.

Forces of Attraction Hold the Moon "Up" in the Sky....and OIL-PLATE Your Engine!

THE moon isn't really "up" in the sky, but it is held from flying off into space by gravitational attraction between it and the earth.

Exploring the realms of molecular attraction, Conoco chemists have been able to bring America new and better oils. In fact, the force of molecular attraction bonds a special ingredient in Conoco Nth motor oil to working surfaces of your engine. So strong is this attraction that cylinder walls and other parts are OIL-PLATED.

And because molecular attraction holds Conoco OIL-PLATING up where it belongs... prevents it from all draining down to the crankcase, even overnight, you get these benefits:

- added protection when your engine starts up
- added protection from corrosive action
- added protection from wear that leads to fouling sludge and carbon
- added smooth, silent miles

That's why to OIL-PLATE now... at Your Conoco Mileage Merchant's. Look for the red triangle. Continental Oil Co.

BETTER OIL-PLATE NOW!

Bovina Happenings

Mr. and Mrs. Charlie Wakefield of Archer City, Tex., visited with Mr. and Mrs. J. H. Steelman and family, Monday. Mr. Wakefield is a brother of Mrs. Steelman.

Mr. and Mrs. Bill Denny arrived here Wednesday from California to visit his brother's and sisters.

Mrs. C. R. Howard, Jr., and baby son have returned to their home in Borger after spending two weeks in Bovina.

Mrs. J. S. Arron of Wellington, is visiting her niece and nephew, Mr. and Mrs. Louis Pesch.

Mr. Starr from Thalia, Tex., spoke at the Church of Christ, Wednesday night.

Mrs. Maud Rury of Oklahoma City is visiting this week in the home of her niece, Mrs. Frank Ayres.

Mr. and Mrs. Hubert McKinney got their house moved to the new location Friday and will begin the new addition to it soon.

Nolan Rhodes and Inell Elliott

enjoyed a six o'clock dinner in the home of Mr. and Mrs. Bass Elliott, Saturday evening.

Betty Jo Moorman, Mrs. Arthur Moorman and daughter and Nolan Rhodes were dinner guests in the A. G. White home Sunday.

Mr. and Mrs. Jerry King are the proud parents of a baby girl, Cheryl Deane.

Enjoying a turkey dinner in the J. C. Denney home, Sunday, were Mr. and Mrs. R. W. Standerfer and Jack, Mr. and Mrs. Jack Waltman and Butch, Mr. and Mrs. Bill Denney, Mr. and Mrs. Vernon Ward and Billy and Burnett Denney.

Mrs. Nat Reid is on the sick list this week. Quite a number of Bovina residents are having severe colds and influenza.

Mr. and Mrs. John Byler and children spent the weekend with Mrs. Byler's mother, Mrs. Lucy Wilson. Mrs. Kathryn Simpson and baby are visiting her sister, Mrs. Ronald Berggren, this week.

Spending Sunday in the Lee Thompson home were Kenneth Thompson of Clovis; Albert, Preston, Freida, Pearl and Alta Faye Martin of Farwell and Sue Mize of Grier, N. M.

Mr. and Mrs. Charley Thompson are the proud parents of a baby girl, weighing 9 pounds. They named her Anna Lee.

The young folks of the Baptist In-

termediate Sunday School class enjoyed a theatre party Friday night, with 12 in the group.

The 7th and 8th grades, with Mr. Everett as sponsor, had a very spooky Hallowe'en party at the school house, Thursday night. There were several guests and a hilarious time was had by the costumed party-goers. Delicious refreshments were served.

Two Local Boys Feted With Birthday Social

Clinton Tidenberg and Billy Don Reid were honored with a party, Monday night, celebrating their 15th birthdays, in the home of Mr. and Mrs. H. L. Tidenberg.

The house was beautifully decorated throughout with varicolored bouquets and the table was lovely with two birthday cakes, bearing 15 lighted candles each, as a surprise for the boys.

Refreshments were served to Almada Huff, Janean Ellison, Patsy Ellison, Bobby Kelly, Thomas Bonds, Thomas Rhodes, James McKinney, Clarence Shanks, Sarah Marie Venable, Nancy Lou Williams, Delores Wilson, Lera Dell Cherry, Weldon and Louise Moody, Gene and Roylean Hawkins, Darrel and Robert Reid, Ella Bradshaw, Billy Ray Horton, Don Tabor, Fred Hoffer, Jamie Tidenberg, Jerry Jones, Bobby Edwards, the honorees and the hostesses, Mrs. Reid and Mrs. Tidenberg.

Hallowe'en Party Held At Buck Ellison Home

The ghosts and goblins were out in all the gruesome costumes that could be found, Thursday night, when a group gathered in the ghostly lighted barn at the home of Mr. and Mrs. Buck Ellison. Skeletons, ghosts and jack-o-lanterns peered from every nook and corner.

The guests were entertained with fortune telling, and all other kinds of games, bingo being the main entertainment. The Sew and Chatter Club acted as hostesses.

Those attending were Messrs. and Mmes. Paul Jones, Odis White, Aubrey Rhodes, Bryon Turner, Joe Wilson, Pete Davies, Robert Calaway, Ronald Berggren; Mrs. Alma Lou Vassey, Mrs. Lucy Wilson, Mrs. Johnese Means Jess Walling and Ted, Bobby Kelly and Bobby Gene Calaway, and the Ellisons.

Need letterheads? Dial 2131.

H. D. Ellison Home Is Scene Of Farewell Social, Tuesday

Mr. and Mrs. Johnston were honored at a lovely farewell party last Tuesday night, given in the home of Mr. and Mrs. H. D. Ellison, which was beautifully decorated with fall flowers in a striking array of colors.

Games of 42 were enjoyed, and as a climax the Johnstons were presented with a beautiful pair of table lamps and other gifts.

Hostesses to the lovely party were Mmes. John Wilson, Frank H. Wilson, N. E. Bonds, Reagan Looney, Ronald Berggren, Lee Thompson, Alma Lou Vassey and Katie Ellison.

Others enjoying refreshments of cookies and punch were Messrs. and Mmes. J. C. Denney, Lloyd Battey, C. O. Smith, Mel Gunn, J. W. Kimbrow, Troy Armstrong, John Wilson, Lee Thompson, W. E. Williams, Aubrey Ellison, Emmett Tabor, E. M. Ware, Wilbur Charles, W. C. Cherry, Reagan Looney, Aubrey Brock, Clarence Jones, H. L. Tidenberg, H. E. Moody, Chas. Ross, O. W. Rhinehart, Bill Eberting; Mmes. Clifford Leake, C. R. Elliott, Lucy Wilson, Mary Lou Elliott, A. G. White and Margeurite Caldwell.

The Johnstons moved to their new home in Lubbock, at 1912 22nd St., on Thursday.

At a venerable 30, the world's oldest pigeon, Kaiser, recently became a father at the Army's pigeon training center at Fort Monmouth, N. J. The bird's age is equivalent to that of a 140-year-old human.

Remedies Offered For Difficult Churning

COLLEGE STATION—Numerous letters from farm wives to the Extension Service have contained inquiries as to why they're having trouble "getting the butter to come".

Gladys Martin, acting assistant state home demonstration agent, says that failure to obtain butter after a prolonged churning period may be traced to several causes. One main cause of the trouble is that the cow is too far advanced in the period of lactation, and this can be partially remedied by adding to the churning some cream from a cow who is early in the fresh period.

Cow feed that produces hard fat is another cause of the trouble. Such feeds are cottonseed meal and timothy hay. More silage and other "juicy" feeds will help overcome the condition.

Churning conditions can also result in failure to obtain butter, says Miss Martin. The cream may be too thin, too rich, too sweet or the temperature too low. If cream contains over 30 percent butterfat, it is probably too rich for satisfactory churning. It is also sometimes necessary to raise the churning temperature to 65 or 70 degrees F. to get butter. The churn shouldn't be too full, either, Miss Martin says. It is hard to get enough concussion to make butter in a churn that is over one-third full.

Sterilizing all utensils and generally producing milk and cream under sanitary conditions is another measure that prevents the ropy fermentation of cream which causes difficult churning.

CANADIAN BEEF TO BRITAIN

Canada and Great Britain have signed a beef contract providing Britons with a minimum of 120 million pounds of Canadian beef in 1947 and a maximum of 120 million pounds in 1948. The contract is expected to cause meat rationing in Canada to continue for some time.

Cotton Farmers Face Crossroads Decision

The American cotton farmer today stands at a crossroads, with one road leading to larger cotton acreage and one-crop farming and the other road heading toward diversified farming and the hope of a higher standard of living. This is the opinion of P. K. Norris, marketing specialist of the Department of Agriculture's Office of Foreign Agricultural Relations, as set forth in a recent talk in New York.

"If farmers choose to revert to a one-crop system and plant an expanding acreage of cotton, they will be compelled to find a foreign market for an increasing part of their production," Norris said.

"A moderate volume of cotton above domestic requirements might be sold abroad but a foreign market for all of the surplus cotton this country can grow cannot be found without some form of government aid."

Norris estimated that the U. S. cotton carry-over next August 1 might be around 4,000,000 bales. While this would be below the carry-overs for recent years, it is not out of line with the carry-overs in years before our excessive production and light imports, he said.

Spuds Still Plentiful, Housewives Are Told

Congratulating New Mexico food handlers, housewives, and farmers on their part in the nation-wide drive to eat and store more potatoes, C. V. Hemphill, State Director of the PMA, said today these efforts help relieve a critical situation.

Commercial storage space was not available for the 351 million bushels of late potatoes which hit markets early in November.

Plenty of potatoes, at reasonable prices, should be available for wide use throughout the winter. At present, the PMA considers them the best fresh food on the market, and urges homemakers to buy, eat, and store potatoes as long as they are plentiful and cheap.

SEED PRICES DECONTROLLED

All legume seed—alfalfa, red clover, alsike clover and sweet clover—have been included in the growing list of farm commodities removed from price control. The OPA released the seeds on October 24.

R. L. BROWN
THE LAND MAN

110 Wall Street Muleshoe

Record Legume Seed Crop Is Predicted

A large seed harvest is good news to farmers who are hoping to put more land in legume crops next year, says C. V. Hemphill, New Mexico director of PMA. Many farmers plan to put back into grass some of the land that was plowed up during the war years for the production of intertilled crops. So, it looks as if this year's harvest of alfalfa, alsike and red clover seeds will be put to good use. USDA estimates of these legume seed crops are as follows:

Alfalfa—thirty-six percent more being harvested this year than last. This will be the biggest alfalfa seed harvest of all time.

Alsike clover—nine percent more seed than last year's production.

Red clover—six percent larger than last year's crop, the third largest crop ever harvested.

Hemphill said that per acre yields of seed this year are expected to run about the same as in 1945. Most of the increase in the seed crop is the result of a greater acreage being harvested for seed. Higher prices, plus the legume seed payments offered through the ACP, made it profitable for more farmers to cut some of their crop for seed.

ATTENTION, MOTHERS! If looking for a better remedy for Children's Chest Colds, try **Darham's Nu-Mo-Rub**, the new Guaiacol-Camphor treatment. Remember—double the purchase price refunded if you do not find this Modern Chest Rub more effective—35c and 60c at

Local Happenings

Large Crowd Attends Stunt Nite Program

With an unusually large crowd on hand, students of the Texico school presented their annual stunt night program for the entertainment of visitors, last Friday night in the auditorium of the school.

Stunts were many and varied, with the audience being treated to many hilarious performances during the course of the evening, which was climaxed by the coronation of "Miss Texico" and "Miss Grade School".

Miss Mary Harding, representing the junior class of the school, was elevated to the throne as "Miss Texico", while the honor of wearing the grade school crown went to young Miss Mikala Anne Faville.

First place award in the club stunt division was awarded to the FFA chapter representatives, who presented the "Atomic Milking Machine". In the class division, the sophomores took top rating with their version of a "Hen Party", and the third and fourth grade students presenting a "Mechanical Cow", won first in that division of the contests.

A cake walk and other features enlivened the program, and sponsors report that gate receipts were good.

Son Is Born

Announcement has been received here of the birth of Michael Don to Mr. and Mrs. Gerald B. Ross of Cambridge, Nebraska. Mrs. Ross is the former Weta Mae Danner, who made her home in Farwell several years ago and is well known in this county. Grandparents are Mr. and Mrs. G. C. Danner, now of Clovis.

Marriage Performed

Justice of the Peace Jess Newton officiated at a marriage ceremony at the local courthouse the past Tuesday, uniting in marriage Miss Bernice Browning and Alvin Harrison Falls.

John Porter left here Tuesday morning for San Diego, Cal., to visit with his son, JeDon, stationed there with the U. S. Marines. Mrs. Porter has been there the past week.

Jim Cleve Dixon, who is attending Texas Tech, was here from Lubbock for a brief visit with his mother, Mrs. Ruby Dixon, the past Wednesday night.

Mrs. Henneman Hostess To Wesleyan Guild

Mrs. Bess Henneman will be hostess to the Wesleyan Guild of the Methodist Church next Tuesday night, November 12th, when the group holds a regular monthly meeting.

The study program for the evening will be under the direction of Mrs. R. E. Walker, Guild officials reported today.

The program will begin at 7:30 and all members are urged to attend.

Have New Daughter

Dr. Wm. V. Coventry was in Lubbock over the weekend, returning on Sunday accompanied by his wife and baby daughter, who has recently put in her appearance as a member of the Coventry family.

License Issued

A wedding license was issued to Frances Wayne King and Miss Doris Vaudeen Burnett on Saturday, November 2nd, records at the office of the county clerk reveal.

Visit Near Floyd

Mr. and Mrs. Olan Schleuter, Mrs. Alvena Sharpe and Mr. and Mrs. Frank Phillips, Jr., spent last Sunday visiting with Mr. and Mrs. Jack Greatnouse on their ranch, near Floyd, N. M.

Daughter Arrives

Mr. and Mrs. Charley Thompson announce the arrival of their first-born, Miss Anna Lee, who put in her appearance in a Clovis hospital on Nov. 4th. The young lady weighed 8 pounds, 15 ounces.

Rex Kyker, of Abilene, visited with his parents and other relatives and friends in this city, the past Friday.

Mrs. Marty Ezell and children, of Muleshoe, are guests of relatives here while Ezell is on a business trip to Austin.

Mr. and Mrs. B. N. Graham visited in Morton, Sunday afternoon, with their daughter, Mrs. Raymond Ross and family. They were accompanied home by Muggins Graham, who had spent the past week there.

Miss Jo Ann Williams Is Crowned Carnival Queen, Thursday

Miss Jo Ann Williams, representing the junior class, was crowned Queen of the Carnival, last Thursday night, when coronation ceremonies with all the pomp and dignity the occasion demanded, were held at the conclusion of the annual Hal-low'e'en carnival at the Farwell school.

King of the carnival was Junior Robertson, also of the junior class, while Miss Nancy Aldridge and Darryl Norton, of the sixth and seventh grades, were crowned queen and king of the grade school, following the senior coronation proceedings.

Trainbearers for Her Royal Highness Jo Ann were young Misses Lee and Lynn McElroy, with Mike Booth serving as crownbearer. Ray Stone acted as announcer for the proceedings, and Charles Phillips was the herald.

Candidates from the various classes of the school were members of the Court of Honor, including Miss Talma Randol and Sonny Graham, of the juniors; Miss Wilda Green, Buster Herington, Bob Loe and Miss LaMoin Jones, of the seniors; Miss Alta Faye Martin, Miss Tommy Meeks, A. C. Henneman and Dwayne Curtis, of the sophomores; Miss Wanda Sheets, Don Ford, Miss Hazel Petree and Dwight Rose, of the freshmen; Miss Modelle Hammonds, Miss Nelma Branscum, Jerry Pool and Ernest Lokey, of the eighth grade.

Other representatives of the grade school taking part were Kay Roberts, Tommie Lovelace of the first grade; Carolyn Husted, Sam Pool of the second grade; Shirlene Leach and Dan Hammonds, third grade; Marilyn Morris, Don Geris, fourth; Darlene Spross and Phillip Cassidy, fifth.

With a mob on hand to patronize the various entertainment booths set up for the evening, an unofficial report from those in charge set the "take" of the carnival at approximately \$800. Some booths were unreported when this estimate was made today.

Games of chance took up the time for the majority of the younger people attending the carnival, while the oldsters were not far behind in trying their luck for the different prizes offered. Popular as ever was the pie-and-coffee set-up, where the weaker members enjoying the carnival took time out for refreshments and a breather.

NEWS FROM OUR BOYS IN UNIFORM

DISCHARGES FILED

Pfc. Grover W. Meeks, of the 32th Infantry, received his discharge at Camp Fannin last December 22. Meeks has the EAME ribbon with five stars, including Normandy, Northern France, the Ardennes, Rhineland and Central Europe; also the good conduct and victory colors, and the combat infantryman's badge. He spent 21 months in the states, 19 months overseas.

Pfc. William A. Moore received his discharge from the 273rd Infantry at Camp Beale, Cal., in September, 1945. In uniform three years and ten months, he spent 21 months overseas has the EAME ribbon with campaign stars of Northern France, Normandy, Rhineland, Ardennes and Central Europe, the American defense and good conduct colors.

JAQUESS ON FURLOUGH

Kenneth Jaquess, Pharmacist Mate, is here from his Navy station in South Carolina, visiting relatives and friends while on furlough.

LEARNING TO ICE SKATE

Jim Bob Roop, son of Mr. and Mrs. E. M. Roop of Texico, writes his mother from Fort Lewis, Washington, that he is learning to ice skate, and plans to experiment with another popular sport, skiing, in the near future.

PESCH IN GERMANY

Erlanger Air Force Station, Erlangen, Germany—Private Alvin R. Pesch, of Abilene, Tex., recently arrived in the American Zone of Occupation here. Pvt. Pesch is attached to the local Station as a flight weather observer. His duties are to plot the weather maps, so that pilots are warned of approaching storms and bad weather.

While in civilian life, Pct. Pesch was employed by the Abilene Aviation Co., as a flight instructor and mechanic. His wife, Ellen, resides in Abilene. He is the son of Mr. and Mrs. J. F. Pesch of near Texico, attended the Pleasant Hill high school and following graduation, attended Texas Tech in Lubbock.

Two 5-Room Units Made From One-Family House

Photos courtesy "The Business of Farming"

This sound, old ten-room house was speedily and economically transformed into two 5-room apartments with a relatively small amount of alteration. Today, with so many veterans and their families on the hunt for living quarters, such conversions are both patriotic and profitable particularly when, as in this instance, the appearance of the house was greatly improved.

Exterior attractiveness was assured economically in this remodeling operation by a pleasing contrast of color between the new green asphalt shingle roof and the white siding applied over the old wood. Money, labor and time were saved by placing the upper kitchen and utility room directly above their counterparts on the first floor, and setting the two baths one above the other.

As completed, each unit comprises a living room, a large (13' 6" x 17' 3") combined kitchen and dining room, two bedrooms, bath and utility room. One end of the latter room (a space about 5 x 9) can be closed off for cold storage of food. Separate entrances to each apartment are provided to assure privacy.

In many cases, conversion into two or more living units offers the solution to the problem of what to do with soundly-built older houses. Frequently parents, whose children have grown and moved away, no longer have need for all the space they required while raising a family. Cutting up such houses into two or more living units often turns a real estate liability into an asset producing income for years to come, and today can help in solving the housing shortage.

VETS TURN BOOTMAKERS, WESTERN STYLE

Two Lubbock, Texas, brothers, both veterans of World War II, soon will play an active part in "keeping 'em riding" in the Great Southwest. For Vincent and J. B. Thompson are seen here working in the boot shop of a Texas leather company where they are learning the art of making western boots under the G. I. Bill educational program.

American Indians did not refer to their future state as "the happy hunting ground." Application of the term was made by early-day writers as a result of descriptions given them by hunting tribes.

Large "Site Sale" Will Be Held At Hereford

HEREFORD.—All roads throughout the Panhandle will lead to Hereford next Wednesday November 18 as the War Assets Administration throws open the doors of the former wartime Prisoner of War Camp in a huge "site sale".

Lumber, plumbing and heating equipment and supplies; electrical equipment and fittings, all stockpiled by WAA to offer for sale to aid in alleviating the critical housing shortage for World War II veterans, will be offered November 13, 14, 15, 18 and 19 to holders of HH priorities.

For the opening five days of the sale each holder of an HH priority will be limited to buying materials not to exceed an amount sufficient to complete construction of one five-room dwelling.

It will be a case of "first come, first served" among the HH Priority holders when the doors are thrown open at 9 a. m. on the morning of November 13th, World War II veterans exercising a priority to build their own homes, contractors buying material to build a home for a veteran or contractors buying materials to construct homes for resale to veterans—all will line up according to their time of arrival at the Hereford POW Camp.

WAA officials advises veterans to take US highway 60 west of Hereford and to follow "site sale markers" over the grounds of the old POW Camp to the "site sale". Prospective purchasers are advised that no deliveries will be made on the

opening day of the sale, and purchasers will obtain purchased materials starting the morning of November 14.

A large number of the former POW Camp buildings have been demolished and the materials carefully stockpiled for this event. Should any material remain beyond the initial five day selling period, WAA announced that it will then be offered to established sellers of building material who certify to WAA at the time of purchase that all such material will be publically offered for sale to eligible priority holders. There will be no limitation on quantities which may be purchased after the opening five day period.

MORE HOSPITAL PATIENTS

Since VJ Day the number of patients in VA hospitals in the Dallas Branch Area has increased 42 per cent, according to Dr. Lee D. Cady, Branch Medical Director.

"On September 30 this year we had 7,503 patients in VA hospitals in Texas, Louisiana and Mississippi, compared with 5,296 on VJ Day," Dr. Cady reported.

THERE SIMPLY ARE NOT ENOUGH NEW CHEVROLETS TO GO AROUND

We are getting our fair share of the current production of new Chevrolet passenger cars and trucks. And as strikes and shortages decrease, as the Chevrolet plants are able to produce more and more new passenger cars and trucks, we'll get more and more of them to deliver to our customers.

Meanwhile, as long as shortages do exist, it is our purpose to apportion our share of the new Chevrolets available fairly and justly among the many customers, new and old, whose continued friendship and patronage are the keystone of our business.

So that you may have no doubt as to our method of distribution of new Chevrolet passenger cars and trucks, we make the following—

DECLARATION OF POLICY

1. **PRIORITY OF DELIVERY**—New Chevrolet cars and trucks will be apportioned on the basis of: (1) essential public services, (2) veterans' occupational requirements, (3) priority of date in placing orders.

2. **PRICES**—All new Chevrolet cars and trucks will be sold at the authorized prices current at time of delivery.

3. **TRADE-INS**—No trade-in will be required from any customer who does not have a car to dispose of at the time of the transaction. Customers who do have cars will be given allowances based on honest appraisal and fair value at the time of delivery.

4. **ACCESSORIES**—No customer will be asked to purchase accessories as a condition of securing delivery.

5. **STATUS OF ORDERS**—Customers will be informed, upon request, of the true status of their orders in our files.

6. **NEW ORDERS**—We welcome your order for a new Chevrolet at any time.

WE THANK YOU FOR YOUR PATIENCE AND LOYALTY IN AWAITING DELIVERY OF YOUR NEW CHEVROLET

This is not only our policy now but was during the war, and has been since the beginning of post-war production on all new cars and trucks we sell, as well as used cars. We want our friends and customers to know how we stand on this important matter.

Simple Solution Will Fireproof Clothing

LUBBOCK—A solution of seven ounces of borax and three ounces of boric acid in two quarts of hot water will make fabrics fire resistant and is highly recommended for treating children's clothes, drapes and upholstery, according to Robert H. Lucey, field aid representative of the American Red Cross safety service.

Lucey spoke on accident prevention work to a number of student groups at Tech College last week.

Wash fabrics may be made fire resistant by dipping them in the solution, he said, while it may be sprayed with good effect on other cloths.

The treatment has no effect on fabric appearance except to make it slightly stiffer in some instances, and is effective on all fabrics, including synthetics.

GET GRID INSTRUCTION

LUBBOCK—As an aid to feminine football fans who may not know a first down from a touch-down, the women's physical education department at Tech is sponsoring the Women's Auxiliary Quarter-back club. Members of the organization meet each week to hear Coach Dell Morgan explain technical points of Raider grid tilts.

The Liberator war plane is technically known as the B-24.

"WORLD FOOD PROBLEM"

The horseman of famine still stalks the earth, and despite bounteous harvests in many lands, in India and China the fight against hunger still goes on. The March of Time in a dramatic film, "World Food Problem," draws back the curtain on some tragedies and victories in this tense struggle. In a scene from the film, a Greek surgeon (upper left) demands payment in advance—in food—otherwise his hands tremble too much from hunger to operate... Even Elsa Miranda, radio's piquant "Chiquita Banana," has a message for Americans aiding the cause of cooperation in the food conservation campaign... (Lower left) Typifying the widely-diversified activities of UNRRA in helping hunger-ridden countries get back on their feet is this scene showing UNRRA equipment fighting a plague of locusts in Sardinia by spraying the endangered crop... (Lower right) But no really adequate food supply can be assured until primitive methods of agriculture give place to modern techniques... To this the alternative will always be starvation for some, typified by this Chinese woman who has lain down by the roadside to die.

A young schoolgirl wrote an essay on Queen Victoria which ran in part as follows: "When Queen Victoria was coronated, she took as her motto, I will be good. She followed this motto passionately throughout a long and tedious life."

A total of 66 reconized organizations now are authorized to present claims for veterans with Veterans Administration.

P-61 war planes were nicknamed the Black Widows.

It was Edmund Burke who said, "If I were an American and a foreign troop landed in my country I never would give up my arms."

Pedestrians should look first to the left, then to the right, before crossing a street. Traffic coming from the left is nearest.

Farm & Ranch Loans

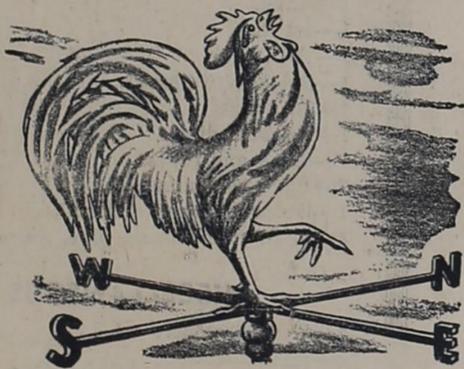

10 Advantages of Federal Land Bank Loans

1. Interest rate 4% per year on the unpaid balance.
2. Loan may be paid in full at any time.
3. Long term of repayment.
4. Freedom from renewals.
5. Principal does not come due all at one time, but in installments, no balloon payments.
6. Farm or ranch may be sold and purchaser may assume the loan without having to pay a fee.
7. No loan closing fee.
8. NO charge for examination of abstract
9. A \$15 application fee is the total charge of your Farm Loan Association for obtaining your Federal Land Bank Loan, whether it be for \$500 or \$50,000.
10. Local cooperative management by reason of owning stock in a strong financial institution.

Rain or Shine . . . Sleet or Snow

Regardless of weather conditions, there are numerous repair jobs about the home and on the farm that must always be kept up.

Materials continue to be critical, but in most cases we can help you with those minor repair jobs. We are still getting fair shipments of lumber occasionally.

Right now we have a good selection of creosoted posts in sizes from 6 ft. to large corner posts.

YOU DON'T NEED

A HORSESHOE . . .

Horseshoes as a sign of good luck are all right. Occasionally, when nailed over a door, a good old rusty horseshoe will bring unexpected happiness and fortune. BUT, "horse sense" is more practical! Especially is this true when driving an automobile... or using your Natural Gas.

Both are provided for your use and pleasure, but care should be used at all times. An automobile can give you untold hours of pleasure... if you are careful when you are using it. Natural Gas can give you all the benefits of "the perfect fuel" if you abide by the rules of safety.

With the nights getting chilly, you'll be using your Natural Gas more and more for heating. But please be careful when you put up your heaters. Be sure to check all connections and adjustments for leaks and proper burning. If your appliances aren't properly vented, have them fixed NOW. A trained serviceman is ready to help you at all times.

Enjoy life more with Natural Gas.

HELPING BUILD WEST TEXAS

THE MAVERICK

FIRST GRADE

The first grade did very good on their fishing pond at the carnival last Thursday night. They made \$40.15 from their booth. They wish to thank the room mothers for helping out.

SECOND GRADE

The Second grade wished to announce that they have two new pupils in their class, Jimmy Allison and Dary Lynn Deaton.

THIRD GRADE

The Third grade made \$45.00 on their hot dog & pop stand Thursday night. They are proud to announce that they have two new pupils in their class, the Perrin twins, Lovetta and Lonetta. Lex Huggins is ill and we are hoping he will be back soon.

FOURTH GRADE

The Fourth grade made \$50.00 on their booth, the country Store, at the carnival Thursday night.

SIXTH & SEVENTH

The sixth and seventh grade made about \$10.00 from their booth. Nancy Aldridge was elected queen.

EIGHTH GRADE

The eighth grade made \$9.70 on Rouge Rallary.

FRESHMAN NEWS

Now that the carnival's over we're sorta settled back into our ruts again. The ninth grade came in second in queen's race, and we felt very proud of ourselves. When the race was over, we had sixty-nine dollars and a little over. (Ahem!) I do believe we would

have won if we hadn't gotten beaten!

SOPHOMORE NEWS

We surely do thank everyone for their help in the Halloween Carnival.

HOMEMAKING NEWS

Did you hear about what happened last Thursday night?

It seems that one pair of nylons got stolen from our Homemaking booth. It certainly was lucky that no one came around asking about it. Our cake-walk was very successful, excluding the incident about the nylons.

SENIORS REPORT

The Seniors made \$33.00 on their booths, Bingo and the Tunnel of Love. Our queen did not win the race but we gave the optimistic Juniors some good competition. Anyway we tried. We got our Senior pictures in today, everyone is running around like a bunch of run-away cows. We surely are proud that Halloween doesn't come around but once a year.

SCANDAL

Orie Jones can't get his lessons since he met Joan Allison. Watch out Jonesie, Allison's poison.

Jerrel Byrd will have to have glasses if he keeps making eyes at Wynell Hughes.

We wonder who those Texico girls were who wanted to see the boys who worked in the Hall of Horrors, eh boys!

The tunnel of love must have been very fascinating to Tommie Meeks and Bill Green. What about it Tommie?

We wonder where James Paul was

Thursday night. What about that Iris? What have you done to him?

We didn't know we had such a good looking sophomore class until our pictures came in.

We wonder where John Lovelace has been lately, eh Annie? Tell us more dear Teacher, tell us more.

Say Iris, who is the handsome Clovis boy you had your eye on?

Whats this about Buster H. not taking Nina L. thru the Tunnel of Love. What's wrong Buster?

Say, we wonder what technique Doris Stovall uses! Did you see all those guys she took through the Tunnel of Love???

We wonder where Reba M. got that pretty pin??? Could G. L. Haynes tell us???

Valarie still has it deep for Chester, too!!!

Hazel and Dwight have pledged to be true to each other, judging by looks.

Has Talma Randol and Leon Magness broke up??? If anyone has any information, please report at once!

Joyce Doshier thinks Harry Sheets is really cute. Jr. Isn't liking it so well.

Why did Athalee send Duane C. back into the Tunnel of Love? It couldn't have anything to do with lipstick could it?

Bob Byrd had to go back in the Tunnel of Love to wipe off some lipstick. Irene didn't have anything to do with it did she Bob???

Paratroops were envisioned in 1794 by Benjamin Franklin. While Ambassador to France he wrote: "Five thousand balloons capable of raising two men each could not cost more than five ships of the line; and where is the Prince who can afford to so cover his country with troops for its defense as that 10,000 men descending from the clouds might not in many places do an infinite deal of mischief?"

Sharp Temporary Drop Seen For Farm Prices

LUBBOCK.—A sharp but temporary drop in agricultural prices within the next few months is foreseen by Prof. E. L. McBride, head of the department of agricultural economics at Texas Technological College.

This temporary break will probably last only about a year, and will rise again for several years, McBride predicted, to be followed by a real and serious economic depression.

The national income has increased about 250 per cent since 1939, he pointed out, while agricultural production has increased only 25 percent and industrial production has risen about 65 per cent. National buying power so far exceeds the number of goods available, that prices have risen entirely too high. The approaching trend back to normalcy will cause a sufficient price drop to be termed a market crash, McBride explained.

However, production cannot get back in line with demand for a long time, the professor said, predicting that six or more years will elapse from now before production exceeds demand, causing a serious depression.

CATTLE GRUB TREATMENT

COLLEGE STATION.—Although heel flies, the parents of the cattle grub, do most of their damage in the spring, the first treatment against grubs should be given in the early fall, say entomologists of the Texas A. and M. College Extension Service.

Loss of weight is the greatest damage that heel flies do to beef cattle. They lose weight by running from

the pests or by refusing to feed and standing in water to protect themselves from the flies. The grubs spend seven to eight months tunneling around in an animal's body. From 10 to 15 percent more feed is required to fatten a grubby steer than a healthy animal, and two pounds of choice meat are lost each time a grub-infested steer is slaughtered. Grubs also ruin hides which are valuable for shoe leather and other purposes.

Most farmers and ranchmen produce their own heel flies because flies do not fly over a half mile, the entomologists say. Therefore, a thorough treatment should rid a farm or

ranch of the parasites. In the early fall, when the cattle grubs are mature and ready to fall to the ground, the first treatment should be given. Rotenone is the most effective insecticide against the cattle grub, and it can be applied either as a dust for small herds, or as a spray for large herds. An effective treatment, say the entomologists, consists of spraying the backs of the cattle with a mixture of seven and a half pounds of five percent rotenone for each 100 gallons of water.

H. W. Prentis, Jr., rose from clerical assistant to president of Armstrong Cork Company.

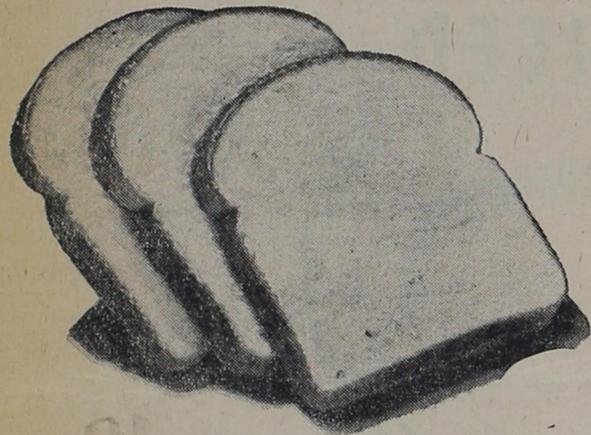

Sympathy and Sincerity

By ABNER GORDON

WHEN applying a new roof, leave the old shingles in place to provide additional insulation and structural strength.

Over-roofing results in fuel savings which often pay for the installation in a few years, while the double layer with the use of red cedar shingles, for instance, adds at least seven pounds per square foot to the strength of the roof section.

The same spacing, side lap and nailing suffices for over roofing as commonly practiced on regular solid deck installations, even though the original shingles were nailed to "shingle lath" or strips.

Saw off the old shingles just below the second course butts and trim those at the gables so that the weathered edges will not be visible. Replace these denuded areas with one inch boards flush with eave or gable, so that the new shingles will have a strong, firm base for border overlaps.

Valleys should be partially lined with timber strips nailed down before placing new flashings, while extra long zinc clad nails are essential to penetrate the old roof and at the same time assure firm anchorage with the sheathing or strip base beneath.

Due to freedom from checking and warping, combined with their light weight and unsurpassed durability, certigrade red cedar shingles are widely recommended for this work.

Q.—Does aluminum make the best primer for overcoating with white lead paint?

A.—Best painting practice questions the application of an oil vehicle paint such as pure white lead over a varnish vehicle primer such as aluminum, because paint films of varying elasticity and wearing properties do not make the most effective combination. To be on the safe side, apply a white lead priming coat under body and finish coats of white lead paint.

LEGAL NOTICES

CONTRACTORS' NOTICE OF TEXAS HIGHWAY CONSTRUCTION

Sealed proposals for constructing 18,938 miles of Flex. Base and Dbl. Asph. Surf. Treat. from 2 miles East of Bovina to Castro County line on Highway No. 86, covered by FAS 7 (7), in Parmer County, will be received at the Highway Department, Austin, until 9:00 A. M., Nov. 13, 1946.

and then publicly opened and read. This is a "Public Works" project, as defined in House Bill No. 54 of the 43rd Legislature of the State of Texas and House Bill No. 115 of the 44th Legislature of the State of Texas, and as such is subject to the provisions of said House Bills. No provisions herein are intended to be in conflict with the provisions of said Acts.

In accordance with provisions of said House Bills, the State Highway Commission has ascertained the wage rates prevailing in the locality in which this work is to be done. The Contractor shall pay not less than the prevailing wage rates shown in the proposal for Group 3 for each craft or type of "Laborer," "Workman," or "Mechanic" employed on this project.

Legal holiday work shall be paid for at the regular governing rates.

Plans and specifications available at the office of W. H. Garrett, Resident Engineer Dimmit, Texas, and Texas Highway Department, Austin. Usual rights reserved. 51-2t

CITATION BY PUBLICATION

THE STATE OF TEXAS
TO: J. Q. Burton, H. W. Scurlock, S. F. Scurlock, Harry C. Good, Emma A. Good, A. C. Kirby, Veta M. Kirby, Guy Gamble, E. E. Nolen, A. E. Elliott, Dr. E. Elliott, Audy L. King, Esther O. King and A. Reed, and the unknown heirs, assigns and legal representatives of said parties, Defendants, Greeting:

You are hereby commanded to appear before the Honorable District Court of Parmer County at the Court House thereof, in Farwell, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 2nd day of December, A. D. 1946, then and there to answer Plaintiff's Petition filed in said Court, on the 15th day of October, A. D. 1946, in this cause, numbered 1377 on the docket of said court and styled Joseph M. Handy, Plaintiff, vs. J. Q. Burton, et al, Defendants.

A brief statement of the nature of this suit is as follows to-wit:

Plaintiff brings this suit in trespass to try title alleging that he is the owner in fee simple of the South one-half (S½) of the Northwest one-quarter (NW¼) of Section thirty-two (32), Lot Fifteen (15), Township nine (9), South, Range one (1) East, in Parmer County, Texas,

and was so the owner on the first day of October A. D. 1946, and that the defendants and all of them unlawfully entered upon said land and withhold from him the possession thereof to his damage in the sum of \$100.00.

Plaintiff pleads in the alternative that he has fee simple title to said lands by reason of having fulfilled the ten year statute of limitations.

Plaintiff prays for title and possession of the above described lands, as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Farwell, Texas, this 15th day of October A. D. 1946.

Attest:
D. K. ROBERTS, Clerk,
District Court, Parmer County, Texas.
By Dorothy Lovelace, Deputy.
(SEAL) 49-4tc

CITATION BY PUBLICATION

THE STATE OF TEXAS
TO: Savilla Shipman, whose residence is unknown and the unknown heirs, assigns and legal representatives of Savilla Shipman, whose names and residences are unknown Defendants, Greeting:

You are hereby commanded to appear before the Honorable District Court of Parmer County at the Court House thereof, in Farwell, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 16th day of December A. D. 1946, then and there to answer Plaintiff's first original amended Petition filed in said Court, on the 31st day of October A. D. 1946, in this cause, numbered 1310 on the docket of said court and styled James P. Wilson Plaintiff, vs. Savilla Shipman Defendant.

A brief statement of the nature of this suit is as follows to wit:

Plaintiff brings this suit in trespass to try title, alleging that he is owner of Lots one (1) and two (2), Block fourteen (14), of the McMillen and Fergus Addition to the original town of Friona, Parmer County, Texas,

and that on the 2nd day of October A. D. 1946, the defendants and all of them unlawfully entered upon said premises and dispossessed him thereof to his damage in the sum of \$10.00. He pleads the ten year statute of limitations and prays for title and possession of said land and premises,

as is more fully shown by Plaintiff's first original amended Petition on file in this suit.

The officer executing this process

TARGET FOR TODAY . . . What they are to shoot at is graphically pointed out to visiting deer hunters by this sign posted in downtown Bend, Ore., where thousands of deer hunters pass on their way to the famed Mule deer hunting grounds of the Deschutes and Ochoco forests of central Oregon. Gunning for the object—man—at left, is strictly forbidden. Target for the season is the deer at right. Accidents have been high in previous years, hence the sign.

shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Farwell, Texas, this 31st day of October A. D. 1946.

Attest: D. K. ROBERTS Clerk,

The Armed Forces Leave Act of 1946 authorizes Veterans Administration to accept "terminal leave" bonds in lieu of cash for the payment of premiums on all forms of National Service Life Insurance.

Baptist Convention Will Be Held, Mineral Wells

The Baptist General Convention of Texas will have its annual sessions at Mineral Wells beginning at 7:15 on Tuesday night, November 11 and running through a night session of Thursday, E. D. Head of Fort Worth is president, other officers are first vice president, Forrest Feozor of Waco; second vice president, Odell Jameson of Dallas; recording secretaries, D. B. South of San Antonio and Roy L. Johnson of Canyon.

C. E. Matthews, superintendent of evangelism for Texas Baptists, will present his report Wednesday night. Emphasis is currently being placed on simultaneous evangelism.

Dr. J. Howard Williams of Dallas will climax the sessions when he brings the first annual report of his current tenure as executive secretary, Thursday night. Dr. Williams will report a year in which accomplishments have outstripped all previous years in every phase of endeavor. He will report state office receipts totaling over \$3,500,000. This figure is more than three millions above the receipts in 1935. The world emergency relief offering which has claimed recent Baptist attention has reached the staggering total of \$725,000 when Texas Baptists were asked to give only \$458,200. Preliminary reports from the churches indicate that more persons were baptized in 1946 than in 1945 which was the year of the Centennial Evangelistic Crusade.

There will be two pre-convention meetings beginning on November 11. One of these is for the men and the other is for women. It is anticipated that 10,000 messengers will attend the three meetings.

The Woman's Missionary Union will have sessions at the City Auditorium beginning at 1:30 on Monday and running through Tuesday afternoon. Mrs. B. A. Copass of Ft. Worth is president of this convention and Mrs. R. L. Mathis of Dallas is executive secretary-treasurer.

The Layman's Brotherhood Convention, of which Grover C. Cole of Ft. Worth is president and L. H. Tapscott of Dallas is state secretary, will meet at the First Baptist Church beginning Monday night and closing Tuesday afternoon.

The Mineral Wells Chamber of Commerce announces that all hotel accommodations have been reserved but that preparations have been made to take care of up to 10,000 visitors in the homes of the city.

Jeffrey Hudson, favorite dwarf at the court of Englad's Charles I, was only 18 inches high up to the age of 30.

Aluminum Lungs Are Put In Hospitals

Veterans Administration hospitals in the Southwest have been equipped with the newest type of portable, aluminum "lungs" in a move to reduce the threat of poliomyelitis.

A modern adaptation of the "iron lung", the lighter respirator can be used in an airplane, automobile or train as well as in a hospital, Dr. Lee D. Cady, VA's medical director in the Southwest, said.

Dr. Cady said a patient can sit up, lie down, or even walk about in his room while wearing the new device, which covers only the chest.

While its chief use will be for polio victims, the aluminum lung can be used for artificial respiration in several other types of medical emergencies.

Hudson river pilots in a normal year have an average income of \$150 weekly.

Notice!

We are making arrangements to install a zero locker system in connection with our business in Texico, and should have it ready for operation shortly after the first of the year.

Right now we are taking applications for lockers, in order that we may determine the size of our plant. If you want a box, see me at once.

Correction Announced On Cage Game Date

Officials at the Texico school announced that the Friona-Texico girls' cage battle, previously reported to be played in the local gym on Tuesday night of this week, would be staged here on Tuesday night, November 12th. A mixup in dates is responsible for the error.

Friona's Squaws, who have run rough-shod over practically all opposition offered in Texas during the past two years, have been playing a number of pre-season warm-up games, and have soundly trounced all squads which have come their way thus far.

For the Texico girls, the match with Friona will be the opener of the year, and it remains to be seen just how much the team was hurt by the graduation of star forward Peggie Flye and star guard Evelyn Brown, as well as other players.

No game is announced for the boys on the 12th, although there is a possibility that the team will play a quintet of outside sportsmen.

Game time next Tuesday night is 7:30, by Texas clocks.

Another game is also on the docket for the coming week, with both the Texico boys and girls playing the Pleasant Hill aggregations on Friday night, November 15th, which will be the opening gun for hostilities in Curry County during the 1946-47 cage season.

The Foundation of Soil Conservation Farming Is Proper Land Use.

Tech Is Favorite In Border Conference Game On Friday

LUBBOCK—The Texas Tech Red Raiders will be decided favorites to defeat the New Mexico Lobos when the latter team invades the Tech campus November 9 for Tech's second Border conference encounter.

Tech has won seven games in the nine previous encounters of the two grid teams and is hopeful of adding another. Tech scored easy wins in 1931, 1932, 1937, 1939 and 1942 and captured a 13-7 contest in 1944. The Lobos took the 1940 game, 19-14 and last year it was a 6-6 tie.

Both teams, apparently, will be near top shape physically for the game, each team, however, having one or two leading players handicapped by injuries.

New Mexico has not reached the strength predicted by fans prior to the season but is expected to break loose most any weekend and Tech officials are fearful November 9 may be the one.

Tickets sales have been good and indications are another packed stadium will witness the game. All reserved seats have been sold for nearly three weeks and several hundreds general admission ducats, entitling the holders to places in the end zones, already have been sold.

Added bleachers apparently will be needed for November 16 when the Oklahoma Aggies come to Tech. No reserved seats have been available for this game since the middle of September and demand for general admission tickets has been heavy. The Aggie game will conclude the Red Raiders' home season.

Flying Farmers Group Meets In Plainview

The District 2 chapter of the Texas Flying Farmers Association will be held on Friday, November 8, at the Plainview airport, one mile south of the city, it is announced here.

The program, which opens at 9:30 with registration, will include "Purposes of Flying Farmer Organizations", by Calloway Huffaker, a discussion on the business, A barbecue luncheon will be served by the Hale county home demonstration women and city officials at noon.

County Agent Lee McElroy, in reporting the coming meeting, said several farmers of this county had expressed an interest in the association, and invited them to attend the meeting this weekend.

FIELD WORKER RESIGNS

Miss Clara McBride, who has served the State Department of Public Welfare, as field worker, since January, 1945, has resigned to accept a position with North West Texas Hospital in Amarillo. No successor has been chosen. After September 1, anyone interested in applying for assistance may secure information from Judge A. D. Smith.

Over 100,000 employees of Veterans Administration were eligible for veterans' employment preference at the close of July.

Appraisal Of Buildings Is Accepted By School

Appraisal figures on the cost of two abandoned army buildings, located at the former Hereford Prisoner of War Camp, were submitted to the Texico school last week, and have been promptly accepted and returned to the War Assets Administration, Supt. B. A. Rogers said today.

However, the school head said that he had no information regarding the date when the buildings might be officially turned over to the local institution, adding, "it takes quite a while to unravel the red tape necessary to secure these buildings".

Now that the school has accepted the appraisal figures, which Supt. Rogers did not quote except to say that "the buildings won't cost us very much", the application is forwarded by the Dallas WAA office to Washington, where final decision will be made—and that may mean a matter of weeks or possibly even months.

Local officials have urged rapid consideration of the application, due to the fact that the school is operating under badly cramped conditions following the loss by fire of the agriculture building, which also housed the school cafeteria, just preceding the opening of the current term.

Scout Meeting Called For Texico, Nov. 7

A meeting of all boys in the Texico community who are interested in Scouting is being called for Thursday night of this week, November 7th, when District Supervisor Atkinson will meet with the group.

Of immediate interest will be the naming of a Scoutmaster for the group, Supt. B. A. Rogers said the first of the week, with several locals having been contacted relative to handling the work for the Texico boys.

The meeting will be held in the auditorium of the Texico school, beginning at 7:30, and the men and boys are urged to attend and form a new Scout group.

Bull Nettle Succumbs To Doses Of 2-4-D

County Agent Lee McElroy announced this week that farmers whose pastures are overrun with the highly unpopular bull nettle have seen the pest succumb to treatment of the new poison 2-4-D, and reports from various other county agents over Texas bear out the fact that the poison is very effective.

Tests have shown that after a heavy dose of the poison the roots of the nettle are either rotted or soured to a depth of over 30 inches, which in most cases means the end of the plant. Trials have been made all over the state in various types of soil and weather conditions and in practically all instances reports of the killing effects of 2-4-D have been "complete."

DEAN IS AUTHOR

DENTON—Dr. Florence I. Scouler, dean of the School of Home Economics at North Texas State College, is the author of an article, "Famine Emergency Calls for Application of Newer Nutritional Trends" which appeared in the October issue of the American Dietetic Association Journal.

Survivors Of Vets May Get Benefits

Even though the veteran never had a social security account number card, and though he may never have worked on a job covered by the Social Security Act, survivors of World War II veterans who died after discharge may be eligible now for payment under Social Security.

These payments are made possible by a recent amendment to the Act, according to information received from John R. Sanderson, of the Amarillo field office. He pointed out, however, that the amendment does not provide any payment to the vet himself, and that it does not provide payment to the survivors of men who died before discharge or release from active duty.

The new section provides for monthly benefits to qualified survivors of vets who die within three years after honorable discharge, and whose dependents are not qualified to receive compensation or pension from the VA. National Service Life Insurance payments are not considered as compensation from VA.

The measure provides for monthly benefits retroactive to the date of the veteran's death if survivors file claims with the nearest Social Security office before midnight February 10, 1947. Claims filed after that date will be retroactive for no more than the usual 3-month period.

Under those provisions, a widow with one child would receive a monthly benefit of not less than \$39 until the child was 18, while a widow with three children would receive \$63 a month or more. Lump sum payments may be made to eligible dependents if veterans had no children under 18.

As in the case of all other persons qualified for social security benefits, families of deceased veterans to

whom this new section of the law applies should come to the nearest office of the Social Security Administration to file claims as quickly as possible.

A Cappella Choir Makes Wide Tour

DENTON—Beginning their second week of a 16-day tour of Texas, Oklahoma and New Mexico, the A Cappella Choir of North Texas State College, directed by Dr. Wilfred C. Bain, dean of the School of Music, will return from New Mexico this week and begin their concerts in Texas and Oklahoma towns.

Concerts were given last week in Hobbs, Portales, Alamogordo, Artesia and Taos. Other concerts will be presented in Berger, Amarillo, Ardmore, Plainview, Texarkana, Port Arthur, Austin, Henderson, Tyler and Temple.
