

## FIVE HURT IN MULESHOE GAS EXPLOSION

### Snowstorm Blamed For Series of Highway Accidents Near Here

### Gruver Tops Farwell To Win Bi-District Championship, 37-18

Starring half-pint Bill McClellan, quarterback, the Gruver Greyhounds took the six-man bi-district championship title the past Friday, when McClellan led his team to a 37-18 victory over the hard-fighting Farwell Steers. The game was played on the local gridiron, with practically the entire town on hand to witness the clash, in addition to visitors from over the county, and followers of the Greyhounds, who made the long trek to Farwell to see their team officially declared champions of bi-districts 1 and 2.

Previously, Gruver had soundly spanked all opposition in District 1, while the Steers had stumbled and then recovered to emerge with the title of District 2 in regular season play.

Although little McClellan made no attempt to steal the show, and his teammates carried their part of the honors, it was his weaving, twisting runs and accurate passing which broke the back of the Farwell defense, and he was a dangerous man every time he laid hands on the ball.

The breaks of the day all went to the Greyhounds, who recovered Steer fumbles and used them to their own advantage. Statisticians report that this was the first time in two seasons that the Greyhound first-string squad had been scored on by any opponent. Coach Lawrence Brotherton, of the winners, also commented after the game that the Steer team offered far and away the strongest opposition experienced by Gruver in two years.

Getting down to facts of the Friday game, Gruss, right halfback, accounted for two of the Gruver touchdowns, while McClellan, Wallin, Frazier and Andrews had one each, and Bayless, left end, got the solitary extra point after touchdown. Robertson, speedy, hard-playing end of the Farwell squad, accounted for all 18 of his team's points, scoring every time on a pass.

#### Score In First Minutes

Opening the game, Gruver kicked to the Farwell 5, where Williams took the ball and spun back upfield to the 15, being met there by Vernon, who jarred him loose from the ball and Gruss recovered the pigskin for the Gruver sextette. Vernon took it for two, then added eight more, McClellan circled right end to advance to the Farwell 2-yard line, and on his second crack at center, Gruss went into the end zone. The pass from McClellan to Gruss for extra point was no good and the teams returned to midfield for the second kickoff of the day.

Taking the ball again on his 15, Williams swept end for ten, with Gruss and Bayless converging on him to stop the play. Robertson then sprinted to midfield, where Vernon brought him down. Williams drove on to the Gruver 28, being stopped by Gruss; an incomplete pass was chalked up, Williams went forward to the 14, but two tries by Hart and Robertson netted nothing. Williams then lost five and an incomplete pass put the ball back in the Greyhound's hands on their own 18-yard line.

An attempted Gruver pass from McClellan to Bayless was broken up at the last second by Williams, but on the next play McClellan squirmed, spun and twisted his way to the 35-yard marker, and then put out a beautiful aerial that connected with Gruss, who was overhauled on the Farwell 2 by Sheets. Vernon made no gain on his initial try, but the second attempt at center pushed him into paydirt and Farwell trailed 12-0 as the first quarter was ended.

#### Pass Good For Score

Holding the ball on their own 15, the Steers tried a lateral from Booth to Herington which sent them to the 30, and then Robertson drove on over the midfield marker. Herington gained three, and Booth went for a first down on the Greyhound 32. Sheets lost three, a pass went incomplete, Don Ford passed to Herington for a first down, and Max

### Monday's Snowstorm Brings Shopping Spirit

That light you noticed in the eyes of many local people the first of the week is nothing to be alarmed about—just that old "Christmas shopping" gleam which is liable to show up about this time, and particularly urged on by the Christmasy snowfall on Monday.

For several weeks storekeepers have been urging buyers to start making their selections, but it took a snowstorm to convince locals that the gift season is only a few scant weeks in the offing, and start them bustling about making lists and comparing notes on what can be obtained this year.

You can be either serious or frivolous, with more and more of the "desirables" coming back on the market. Of course, there is still a decided scarcity of new cars, iceboxes stoves and the like, so don't set your guns too high when you start making out a Christmas list. However, a little snooping can uncover electric irons, electric roasters, good reading lamps, radios, and other of the luxury items. Linens, always popular, will be even more grate-

fully received this year because of the depleted home stocks, and good towels, tablecloths, etc., are becoming fairly easy to find—and surprisingly enough, there seems to be a good choice of colors and styles.

Nobody will turn down one of the lovely blankets that can be found practically anywhere—and if you want to be really fancy you may manage to locate one of the electrically warmed blankets, although they are not easy to find. Gifts such as these, along with household utensils, will find a warm welcome from both male and female members of a family—many of such families getting into housekeeping for the first time during the past few months.

If you want to be more personal, there are warm robes and toasty bedroom slippers for every member of the family, young and old, in addition to increasing stocks of sungly pj's and nighties that will be loved for themselves alone.

For years everybody gave "that man" hankies, socks, ties, and shirts—and this is one Christmas when

### Amarillo Good Will Boosters Coming

Headed by the West Texas State College and of forty pieces, a group of Amarillo goodwill boosters will arrive here Wednesday afternoon, Dec. 4, for a 40-minute visit with the people of Texico-Farwell.

The delegation will arrive here by special train from Lubbock, where they begin the second day of their booster tour. The schedule calls for the train to arrive here at 4:20 p. m. and depart at 5 o'clock. The trippers will spend the night in Clovis and visit the Pecos Valley on Dec. 5th.

C. M. Henderson, president of the Farwell Chamber of Commerce, has promised to extend the local welcome on behalf of the people of Texico-Farwell. George S. (Pinky) Vinyard, president of the Amarillo Chamber, who heads the delegation, will respond.

### Proves Turkeys Can Be Raised In Pens

Finishing off 26 turkeys in a small pen and having them all No. 1 birds for Thanksgiving—the unusual accomplishment of Mrs. E. M. Roop, who this week said that she made some money from the experiment, despite the high cost of feed.

While admitting that she had kept no accurate account of her operations, Mrs. Roop raised 26 birds without the loss of a single one, after they had been hatched under a chicken hen. "I wasn't so much interested in making money as I was in having all the turkey I wanted for the holidays," Mrs. Roop asserted.

Besides laying aside all the dressed turkeys she wanted in a locker, she disposed of several of the birds to the local trade.

### Red Cross Quota To Be Reduced 40%

Mrs. Waunita Hutchenson, general field representative of The American Red Cross, was here from Plainview the first of the week, on routine business of the organization. Just back from a meeting of officials of the Midwestern Area at St. Louis, Mrs. Hutchenson said that all quotas in the area are to be reduced 40% in the annual membership drive next spring. The campaign will be staged during the month of March, she added.

Need letterheads? Dial 2131.

### Snow Storm Brings Light Moisture

Moisture amounting to less than a quarter of an inch resulted from a rather severe snow storm that raged through this section during the forenoon on Monday, abating in the afternoon to give way finally to bright sunshine and rising temperatures on Tuesday.

Fear was expressed during the height of the storm lest the wheat fields, which are now grazing thousands of head of cattle shipped in from other snow-covered areas, be banked in the white blanket to a depth that would necessitate feeding the stock, and stockmen were preparing to haul bundle feed to the cattle when the storm broke.

Tom Hudson, Bovina stockman, recalled the winter of 1918-19 when thousands of head of cattle perished in this section, as snow remained on the ground from Thanksgiving until the next spring. Of recent years, snowfalls have been less heavy, and have not stayed on the ground for more than two weeks or ten days, ordinarily.

### Driver Escapes When Oil Transport Burns

L. D. Rundell, son of Mr. and Mrs. W. I. (Coon) Rundell of the Oklahoma Lane community, escaped injury late last Saturday night when a large gasoline transport truck, belonging to a Muleshoe dealer, caught fire and burned on Highway 70, about 7 miles east of Farwell.

According to information gathered here, Rundell was going to Muleshoe with a load of gasoline, when the truck he was driving was sideswiped by a light car, approaching from the rear. Sparks from the impact are believed to have ignited the gasoline. Sensing danger, Rundell left the flaming truck and had retreated to a safe distance when the gasoline tank exploded.

Names of the parties occupying the light car were not made known here. There were indications that the driver may have been drunk.

### BAGS HIS DEER IN TEXAS

C. M. Henderson returned home the first of last week from the Big Bend country in southwest Texas, where he had joined 13 other men, all former Texas A. & M. students, on a big game hunt. Henderson reported that all of the group succeeded in bringing down a buck. Of the original 19 members of his class, 14 were able to be on this annual hunt.

### And He Is Still Not Satisfied

Ralph Humble is just about the unhappiest man in Farwell these days, all because the big game season has closed . . . and he failed to satisfy his hunger for fresh venison.

The season was not a complete washout for him, for he succeeded in bagging a deer in Colorado last month. But since that time he has made two attempts in New Mexico, both of them resulting in failure. Joe Blair accompanied him on the last trip, and neither of them made the contact.

### Free Barbecue Will Feature Opening Of New Legion Hall

A big, free barbecue will feature the formal opening of the newly-completed American Legion Hall at Bovina, on Saturday, December 7, it was announced this week by Post Commander Earl Richards of Bovina.

Triplet & Pringle, Bovina cattle feeders, have agreed to donate a large fat steer for the feed, and the spread, consisting of barbecue with its necessary complements, will be served at 6:30 p. m., Commander Richards stated.

In case of inclement weather, the feed will be served indoors at the new Legion Hall. Following the supper, a program will be rendered at the Hall.

Richards said that all former GI's now living in this section of the country are urged to be in attendance, and that they are requested to wear their service uniforms.

"The barbecue is open to everybody," the Commander added, "but we are especially interested in having former servicemen, and all persons who made contributions to the Legion Hall building fund, to be on hand."

The Legion Hall was built only recently by public subscription, and all bills have been paid. Some equipment yet remains to be added.

### McAlister Discusses Progress Of Radio

Frequency modulation and television in radio are still in the future for radio listeners, in the opinion of R. B. McAlister, owner-manager of station KICA, Clovis, who addressed the monthly meeting of the local Mens' Club last Thursday evening.

McAlister gave it as his opinion it would be another five years before frequency modulation would be common in this area, and set the date for television as ten years in the future.

Prospects are, he went on, that not less than a half-dozen new stations will be operating in the Plains area before long.

After discussing the expected progress of radio during the next decade at length, "Mack" opened the discussion to a question-and-answer feature, which brought forth many angles of radio from the listeners' point of view.

Rupert Paul reported that Graham Thornton had agreed to act as assistant scoutmaster to the Texico Boy Scouts, but as yet no one has been contacted who will agree to take over the duties of scoutmaster. Seventeen boys in Texico have signified their intentions of becoming Scouts, and it was pointed out that this would be sufficient for two groups. Scouting is one of the programs endorsed by the Mens' Club.

Odis Huggins said that no progress had been made on securing the new fire truck for the Texico Fire Department, and the last report was that it may be the first of the year before a new truck is received.

Three hundred new colored lights have been ordered to replace broken bulbs in Texico-Farwell's Christmas lighting effects, it was reported.

### ALL THREE GET DEER

A deer-hunting party that was overlooked last week came in with their full share of venison from the mountains of New Mexico. The party was composed of Olan Schleuter, Reuben Boone and Luther Moss. Each of them got their bucks, with a wild turkey thrown in for good measure.

A blinding snowstorm and slippery pavement was blamed for four highway accidents here early Monday morning, sending three persons to Clovis hospitals with injuries, some of them serious.

The most tragic accident happened just east of Farwell on Highway 70, near the Felix Monroe home, when a new Chevrolet skidded on the pavement and pinned W. T. Hill, 38, of Forest Hill, Calif., between the sliding car and his own Chevrolet pickup that was parked off the highway. Hill's right foot was severed at the ankle and his left leg suffered a compound fracture at the knee joint.

Hill, accompanied by his wife and six children, was enroute from California to Amity, Ark., to visit relatives, after spending three years in California.

Mrs. Joe Ledgerwood of Maysville, Okla., driver of the car that skidded into Hill, explained that she was driving east at a moderate rate of speed, due to road conditions. In front of her was another car also in motion, traveling east. As the unknown party driving the car in front of Mrs. Ledgerwood came parallel with the parked pickup, the driver applied his brakes. Fearing that the car in front of her was going to stop, Mrs. Ledgerwood also applied her brakes, and when she did her machine careened off the highway to the right and struck Hill, pinning him between the Ledgerwood machine and the pickup.

Hill explained that he was going to the rear of his pick-up to take one of the children out of the back door of the covered pick-up when he was struck.

Sheriff E. J. Booth investigated the accident and concluded that there "was no criminal liability involved" in the wreck.

Hill was removed to the Memorial hospital in Clovis, where his foot was amputated and other injuries dressed.

Mrs. Ledgerwood was traveling with her mother, Mrs. J. L. Rogers, also of Maysville, Okla., and her sister, Mrs. O. L. Ledgerwood, of Pales Valley, Okla. They were returning to their home after a trip to Roswell.

### Milk Truck Is Hit

The second accident, the result of slippery pavement, sent Mr. and Mrs. W. E. Martin, operators of a dairy east of this city, to a hospital in Clovis.

Mrs. Martin is reported to be suffering with a fractured wrist, at least four broken ribs, and possible internal injuries. Martin was dismissed from the hospital shortly after receiving treatment for minor bruises and cuts.

Mr. and Mrs. Martin were enroute to Clovis with several ten-gallon cans of milk from their dairy herd, when they were struck by a car driven by G. D. Conkle of Clovis, who only recently took over the Magnolia station in Farwell. The Conkle car, a Packard, skidded in the snow and plowed into the Martin machine, the side of Conkle's car striking the front end of the milk truck. Mr. and Mrs. Conkle were only slightly bruised by the impact.

Also charged to weather conditions was an accident that occurred when James Box, Texico ex-GI, skidded his machine off the pavement between here and Muleshoe. The car flopped over on the side and Box, who was traveling alone, escaped injury.

### School Teachers Hurt

Three school teachers from the Dora (N. M.) school, who were enroute to Albuquerque to attend the state teachers meeting, let their machine get out of control on the snow-covered pavement 4½ miles south of Clovis early Monday morning, and all of them were hospitalized in Clovis for treatment. One of the teachers was Mrs. R. E. Wall, the former Miss Irene Ginnings, a sister of J. B. Ginnings of northeast of this city. She escaped with a gash on the forehead, while Miss Audra Morrison sustained back and rib injuries. Miss Jessie L. Lott, the third member of the teacher party, remained unconscious for several hours after the accident and her injuries had not been determined. The car bearing the school teachers collided with a machine driven by Don Hofman, also of Dora.

### Postoffice Building Is Destroyed

Five persons are in the Green Clinic hospital at Muleshoe, suffering with more or less serious injuries sustained early Tuesday morning when a gas explosion completely wrecked the building occupied by the Muleshoe postoffice.

The injured include Postmaster A. J. Gardner and his wife, clerk; Gil Wollard, O. D. Troutman and Mrs. W. B. McAdams, rural carriers from the Muleshoe office.

Reports from the hospital at Muleshoe said that all patients were resting well, considering their injuries. Mrs. McAdams is reported to have received the most severe injuries, and is suffering with compound fractures of both legs above the knee and a broken ankle. The injuries of Postmaster Gardner have not been definitely determined, but it is feared that he is injured internally, with the wounds apparently in the region of his back.

Wollard sustained a broken ankle, a crushed heel and possible back injuries. Mrs. Gardner has a crushed left ankle and a broken right arm. One of Troutman's ankles was crushed and the other injured.

The explosion occurred when Wollard lighted a gas stove after arriving in the building to begin sorting the mail for his route deliveries. After lighting the stove, he flipped the match toward an open ventilator in the floor and the blast resulted. An accumulation of gas under the floor is believed to have been responsible for the explosion that completely wrecked the building.

### Blown Into Air

The five employees of the postoffice were thrown into the air by the blast, which blew the floor from the building and the roof tumbled in on the blast victims.

The impact of the explosion broke plate glass windows from all buildings within a half block of the postoffice and one building more than a block away, occupied by a beauty shop, had the windows shattered.

Wollard said that he remembers turning a complete flip in the air as he was tossed up by the explosion. Oddly enough, the falling timbers from the roof seemed to settle down over the victims without adding to their injuries already sustained.

No fire followed the blast, which is believed to be credited to Caretaker Vardeman of the gas company who rushed to the scene and turned off the gas. The fire department, directly across the street from the postoffice, was brought out and stood in readiness for action.

The postoffice occupied a brick veneer building at the rear of the English Food Store, and the property belongs to the Gupton estate, in charge of Connie Gupton.

Mr. Miller, who operates the star-mail route between Clovis and Lubbock, had repeatedly warned the employees at the Muleshoe office that there was a gas leakage about the building, and expressed no surprise when informed of the blast. Miller, who smoked cigarets almost continuously, made a practice of discarding his smoke a mile out of Muleshoe and never relighting till he was a safe distance from the building.

### Christmas Lights Will Go Up On Saturday

Unless plans go awry, sparkling string of Christmas lights will go up throughout the lengths of Texico-Farwell's main street on Saturday of this week, November 30, being lighted for the first time Saturday night, C. M. Henderson, of the local Mens' Club, reported today.

Henderson added that the stringing of the lights would be handled by Otis Huggins, of the local utilities office, and O. B. Pipkin.

### BACK TO BOVINA

Mr. and Mrs. O. L. Floyd, who have been spending the past three months at Hot Springs, N. M., have returned to Bovina. Floyd said that he planned to reopen his garage at Bovina after the first of the year.

**Santa Fe RR Presents Two New Streamliners.**

ST. LOUIS.—Sections of two Santa Fe streamliners, the Super Chief and El Capitan, with running time between here and Los Angeles less than that between Chicago and the West Coast, is one of the services the Santa Fe Railway System will offer if allowed to enter this city.

This plan was disclosed today by Fred G. Gurley, former Missourian and President of the Railroad, testifying at the Inter-State Commerce Commission hearing on the Santa Fe's application to extend its operations from Kansas City to link St. Louis with its 13,200 mile far flung rail network.

Gurley asserted the railroads now serving St. Louis are operating only three sleepers between here and Los Angeles, which he added was the same number they offered in 1939. The fastest schedule provided, he said, was 49 hours and 55 minutes and the slowest 63½ hours.

He then compared the running time of the Super Chief and El Capitan from Chicago to Los Angeles, commenting that Chicago is approximately 172 miles farther from the West Coast terminus than St. Louis. The two Santa Fe streamliners operate on a schedule of 39 hours and 45 minutes.

The Chief, another crack streamliner, runs on a 48-hour schedule, westbound, and 47 hours eastbound, daily. Gurley said that the Super Chief and El Capitan probably would go on a daily basis in February.

Gurley also said an executive officer would be assigned to St. Louis, responsible solely to the President's office in Chicago, to determine executive policy for St. Louis shippers and the public and to enable meetings here on "a high management level" unaffected by "any departmental red tape".

The Santa Fe president scored rumors the Santa Fe would "by-pass" St. Louis in its handling of freight, by flatly stating the services of the Terminal Railroad Association would be utilized for interchange of freight traffic with East St. Louis lines.

Gurley reviewed the history of Santa Fe's efforts since 1887 to establish a St. Louis gateway, each attempt having been thwarted by either war or depression.

In describing the Santa Fe's history, Gurley said, "I think we should keep in mind that if Santa Fe had succeeded in reaching St. Louis earlier no one would suggest today that it would be contrary to public interest for Santa Fe to continue to serve St. Louis". In this early step, the Santa Fe, in 1887, acquired the St. Louis, Kansas City and Colorado Railroad and the Frisco Railroad in 1890, both of which railroads the Santa Fe later relinquished control following the financial reorganization

**Museum Gets Largest Cut-Glass Bowl**

The world's largest cut-glass punch bowl, valued at more than \$25,000, is the new center of attraction at the Museum of Art, Toledo, O. Showing off his masterpiece is John Denman, master craftsman who spent almost two months making the bowl and its matching goblets for the Libbey Glass Company 42 years ago. Winner of top honors at the St. Louis Exposition in 1904, the bowl is 25 inches in diameter and 24 inches tall. It weighs over 100 pounds and holds 16 quarts. Libbey recently presented the historic hand-made set to the museum where it will be on permanent display.

of the Santa Fe in 1896.

"I think it is an impressive historic fact that Santa Fe took steps looking to the extension of its line from Kansas City to St. Louis in the same year it started building from Kansas City toward Chicago," Gurley said.

Other points salient to the Santa Fe's contention in Gurley's testimony, included the statement that much of the area properly classified as "Santa Fe" territory is not served by any of the protesting lines.

In addition to offering what he termed "top-flight" passenger service between California and St. Louis, which Gurley charged other roads had failed to provide, Santa Fe will co-ordinate its schedules to enable Eastern train connections at St. Louis, Gurley said.

If there was Santa Fe control of a shipment all the way to St. Louis, Gurley said, in the event of a delay west of Kansas City the Santa Fe, unhampered by "cut-off" time, could expedite movement of the freight to St. Louis to meet the schedule. Such delays are overcome, frequently, between Kansas City and Chicago, he added.

Effort to overcome delays "from our experience" is not done by a "connecting line whose prestige and liability is protected by a "cut-off time," Gurley declared.

**Vehicles Go On Sale**

Uncle Sam is fixing to tuck another large amount of jeeps, sedans, pickups and carryalls in the Christmas stockings of numerous West Texas veterans. WAA will conduct a sale of vehicles at Sheppard Field, Friday, Dec. 6th. Only certified vets are eligible to purchase. Inspection at several locations in West Texas where the vehicles are located can be made daily, except Sat. and Sun. from Nov. 29 through Dec. 5. A portion of the vehicles are offered at fixed prices—the remainder to go to the highest bidder.

**Pumphrey Re-elected On FCA Board of Directors**

HOUSTON.—J. B. Pumphrey of Old Glory, Texas has been unanimously reelected to the board of directors of the Farm Credit Administration of Houston, it was announced here this week upon completion of balloting among the 36 production credit associations in Texas to select their representative on this board.

Mr. Pumphrey was elected to his second 3-year term, beginning January 1, 1947. As such director he'll serve as a director of the Federal Land Bank of Houston, The Federal Intermediate Credit Bank of Houston, the Production Credit Corporation of Houston, and the Houston Bank for Cooperatives. He is a well known Stonewall County farmer and ranchman and has been president of the Stamford Production Credit Association since its organization in 1934.

Other directors of the Farm Credit Administration of Houston are: S. A. Lindsey of Tyler, B. L. Sanders of Corsicana, Jake Schwartz of Uvalde, D. B. Denney of Greenville, Charles C. Thompson of Colorado City, Ide P. Trotter of College Station.

"Down To The Last Dollar". They bet until they went broke. Then raised more cash and went broke again until, in most cases, the grave claimed them as paupers. Even those who managed to leave a bank account behind were the exceptions that proved the rule: You can't beat the horses. Read this story of the great racing gamble in The American Weekly, the magazine distributed with next Sunday's Los Angeles Examiner.

New York's subway trains are scheduled to average 25 miles an hour as expresses and 15 miles an hour as locals. Actual running speed is from 45 to 50 miles an hour.

**CONTINUED MILK SHORTAGE**

LUBBOCK.—The milk shortage will continue in West Texas for at least two years, it was predicted by Prof. K. M. Renner, head of the department of dairy manufactures at Texas Technological College.

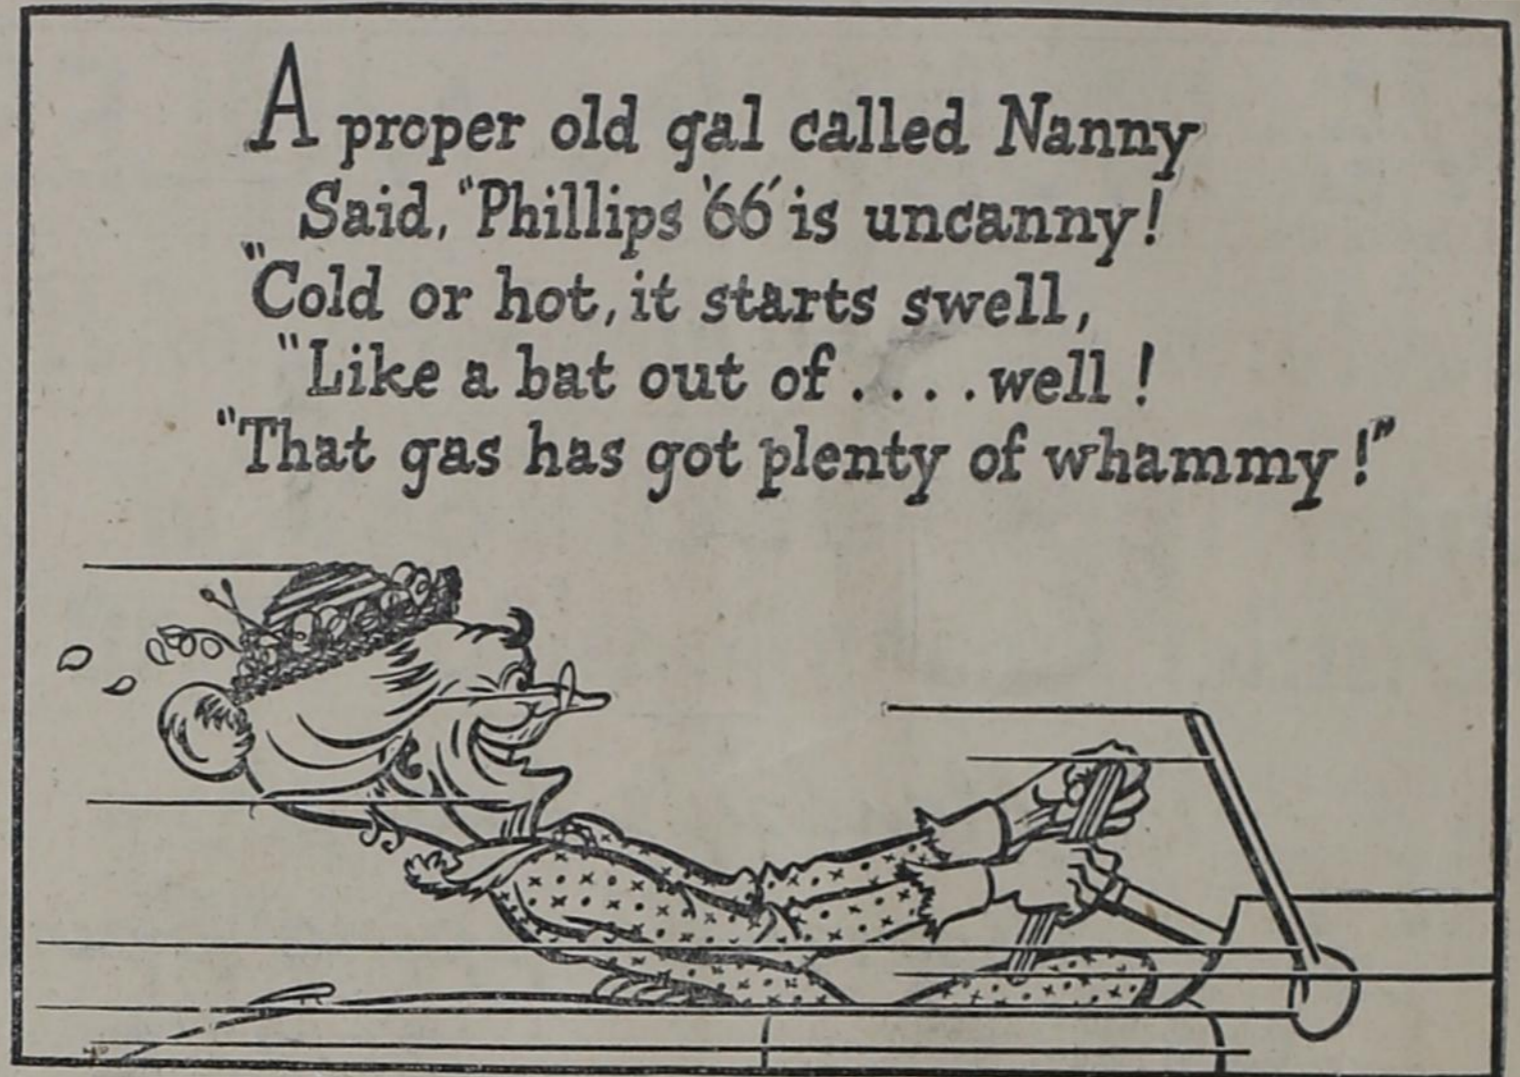

cost of feed; many dairy farmers have either sold outright or reduced their herds, and it will be at least two years before production can again be built up in this area, he said.

**REVENUE TAKE DROPS**

AUSTIN.—Federal internal revenue collections in Texas totaled \$58,-

469,532 in October, showing a decrease of 5.5 per cent from October 1945, the University of Texas Bureau of Business Research reports.

For the first four months of the present fiscal year collections amounted to \$289,479,282, a decline of 5 per cent compared with the same period last year.

A proper old gal called Nanny Said, "Phillips '66' is uncanny! "Cold or hot, it starts swell, "Like a bat out of . . . well! "That gas has got plenty of whammy!"

*For Lightning-like Starts*

**Get Phillips 66 Gasoline**

Yes, we match Phillips 66 Gasoline to your seasonal driving conditions—hot or cold!

As fall chills into winter, the high-test volatile elements from Phillips vast reserves of natural gasoline are increased. That's why Phillips 66 starts so easily.

"Controlled volatility" was developed by Phillips scientists to give you better driving, quicker starting, smoother engine performance. In the winter it means split-second starts and faster warm-up. Stop at the orange-and-black sign. Try Phillips 66 and see!

AS THE SEASONAL TEMPERATURE GOES DOWN... PHILLIPS 66 VOLATILITY GOES UP!

**State's Tractors Seen Over 200,000 By 1950**

Texas may have as many as 200,220 tractors rumbling over its farmlands by 1950 under the impetus of a vigorous nation-wide drive toward complete agricultural mechanization. This number would be the state's quota of the 3,000,000 tractors expected to be in use on all U. S. farms by 1950, according to a study by CKF Industries, Inc. This full total is dependent, however, upon

the South mechanizing to the same degree now prevailing in the Middle Atlantic states.

"The demand for farm machinery, particularly tractors, is the heaviest in history," said C. W. Moore, market analyst for the ball and roller bearing company. "Tractors are sorely needed to help the farmer offset lost manpower and increased acreage and to continue to meet high food production goals."

Texas farms had an estimated 158,066 tractors on July 1, the study disclosed. Of these, between 20,307

and 26,981 are past their normal junking period and 7,003 more are now wearing out annually.

"The farmer is in the best financial condition he has ever known," Moore said. "The demand for, and supply of, farm equipment is expected to continue a profitable relationship for some time," he added, in pointing out that the state had a record gross farm income last year of \$1,189,301,000 from crops and livestock.

Moore said tractors and other farm machinery now in production

**NO FOOLING—HE NEEDS IT . . .** Rickford Ray Schmidt, 10 days old, isn't fooling about that toothbrush he is wielding—he really needs it! Ricky was born with that tooth, and three more on the way. The doctor says that the Los Angeles baby would have a full set before most babies cut their first teeth.

**Additional Buildings To Be Moved To Tech**

LUBBOCK—Twenty-nine additional buildings will be moved to the campus of Texas Tech by the Bureau of Community Facilities, FWA, according to telegrams received by Pres. W. M. Whyburn from Sen. Tom Connally, Sen. W. Lee O'Daniel, and Cong. George Mahon.

The structures, which are surplus war installations, will be moved to Tech from Camp Bowie and Hondo AAF. Under the program, the college provides building sites and utilities and FWA moves the buildings.

Among the items approved for Tech are seven classroom buildings, space for four labs for general science, mechanical engineering and electrical engineering; three ROTC buildings, a dispensary, clinic, cafeteria, faculty office building, a building for book storage and six other storage structures, two maintenance shops, an auditorium and a veterans' guidance center.

The FWA has also made tentative assignment of some \$6000 worth of classroom and office equipment that may be made available to Tech at a 95 percent discount of cost.

**MORE HOSPITAL PATIENTS**

Since V-J Day the number of patients in VA hospitals in Texas, Louisiana and Mississippi has increased 42 per cent, VA medical service officials report.

The total on V-J Day was 5,296 compared with 7,503 on September 30th of this year.

The number of patients in VA hospitals throughout the nation has increased 29 per cent since the Japanese surrender.

To meet the mounting need for veterans' hospitalization, VA will construct nine new hospitals in the tri-state Dallas branch during the next 2½ years.

or on drafting boards would enable the farmer to stretch his income dollar.

"Not only will this equipment be lighter in weight, but it will have better resistance to wear and corrosion," he said. "It will be equipped with anti-friction bearings that require fewer repairs and less frequent lubrication, and it will be easier and less expensive to operate."

"Atomic Fission". See this vivid painting of the rainbow banded spectacle of Bikini in The American Weekly, the magazine distributed with next Sunday's Los Angeles Examiner.

The Navy estimated that the Women's Reserve replaced more than 50,000 men for sea duty in World War II enough to man a major task force.

**Hoag Foundation Gets \$7725.00 Assistance**

A grant of \$7725 has been received by the Hogg Foundation for Mental Hygiene at the University of Texas, it is announced by Dr. Robert L. Sutherland, director of the Foundation. The grant was made by the Woman's Foundation of New York. The funds will be used to establish demonstration projects over Texas to solve community problems affecting family life. Special services worth an additional \$3000 will be provided directly by the Woman's Foundation.

Texas is the first state selected by the Woman's Foundation for demonstration work. Methods developed in Texas will later be tried elsewhere in the nation.

Five communities are being selected for the projects, which will continue to Nov. 1, 1947. They will include a city with a population of more than 100,000; two cities between 50,000 and 100,000; one between 5000 and 20,000, and one community with less than 500 people.

A square jaw is not an indication of strong willpower.

**Dear Customer:**

Most of our ancestors missed the Mayflower . . .

But the boys and girls who were aboard starting a corking good custom when they set aside one autumn day for a general recap of the year's blessings.

So on Thanksgiving Day, when the last chunk of turkey is squeezed in, and we settle back in the old easy chair and watch the smoke rings from the after-dinner cigar pleasantly fade away, we will review our blessings.

And one of the first things we will sincerely be thankful for will be the privilege of doing business with you. For good customers who are patient and cooperative in these uncertain days help erase the trials and tribulations of business and truly make life worth living.

One square shooting customer like you merits a lot of Thanksgiving. That is our thought as the day approaches.

Gratefully Yours,

**Marcus Ice & Produce**

Farwell, Texas

**BEST BAKED LOAF TAKES BREAD PRIZE**

Winner of the First Premium at the New Mexico State Fair for the best baked loaf of bread, Mrs. Edith Schulmeister of Route 1, Albuquerque, New Mexico proudly displays her prize winning loaf.

As a Special Award, given by Russell W. Camfield, Grand Haven, Michigan manufacturer, Mrs. Schulmeister won an automatic electric toaster.

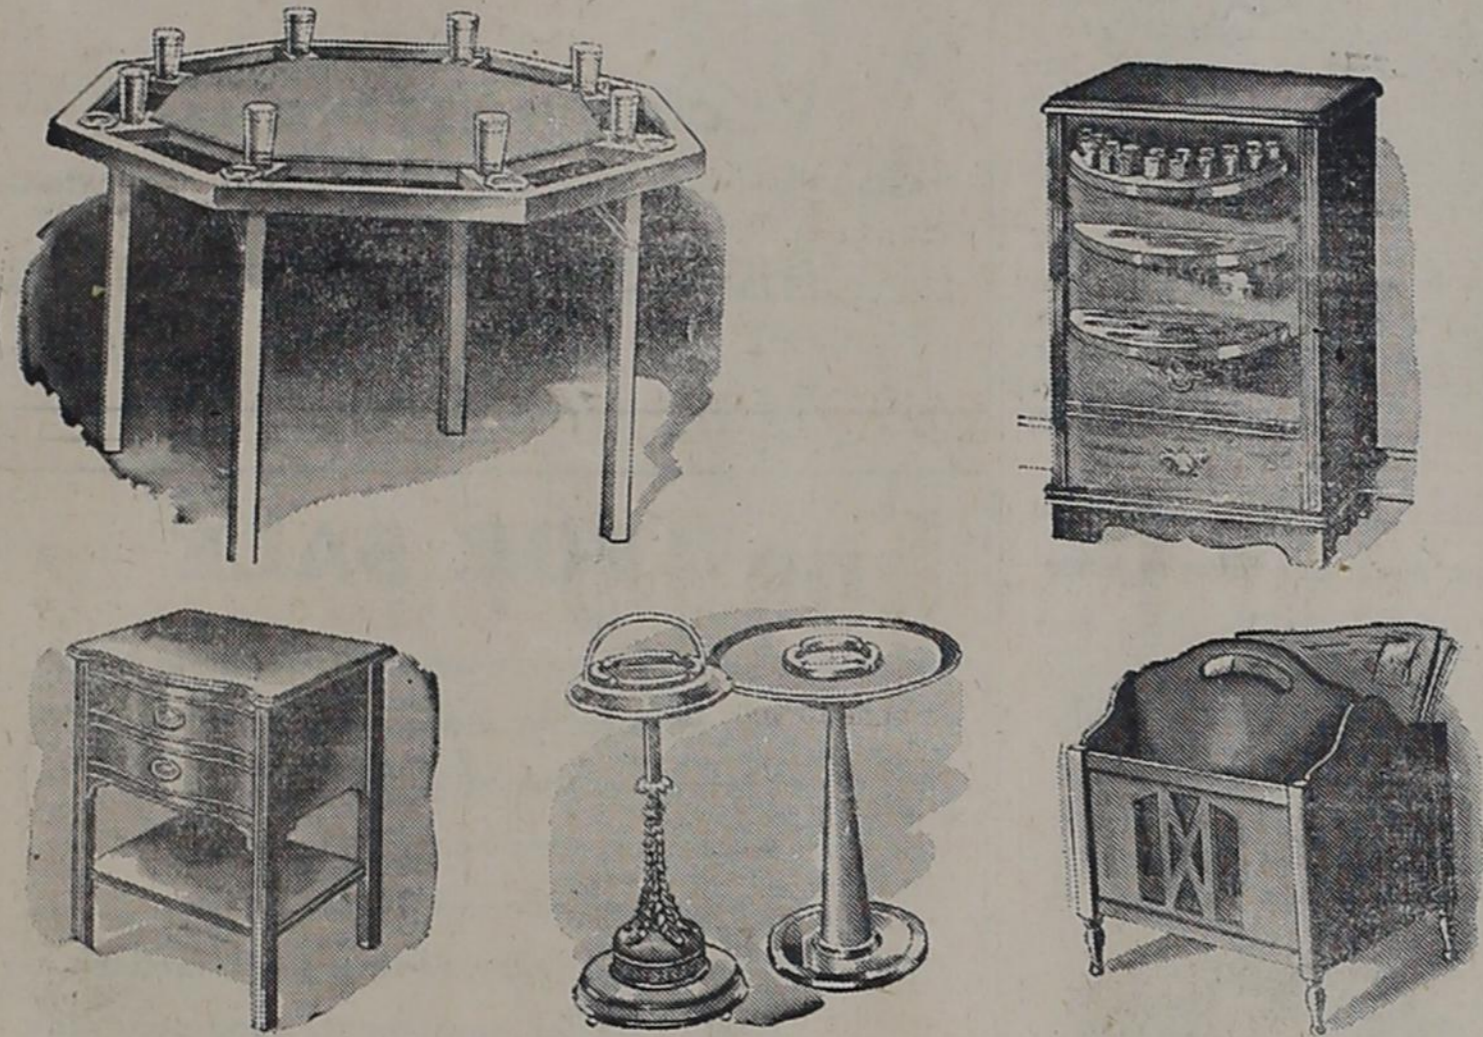

With bumper wheat crops now harvested, the threat of a European famine is averted. But American housewives are throwing away almost seven million bushels of wheat annually, it was estimated, when they discarded the end slices, or heels.

"There is nothing better than a slice of toast," Camfield declared. "Even stale bread may be used and the crusts may be conserved in this manner."

Mrs. Schulmeister said that her prize winning breads would be toasted and when they ever went stale.

"It's hard to keep my bread more than a few hours," Mrs. Schulmeister laughed. "It gets eaten up the day it's baked, but I do love toast!"

## Bovina Happenings

Recent visitors at the home of the Alfred Berggrens for a few days were Mr. and Mrs. Guy Stolker of Yakima, Wash. Mrs. Stolker is a niece of Mrs. Berggren.

Mr. and Mrs. E. V. Isham and family spent the weekend in Odessa with relatives.

Jerry Niece is now employed at the Elliott Coffee Shop, in Odessa.

Mr. and Mrs. R. L. Green and Mr. and Mrs. E. H. Moody visited in Dora, N. M., Sunday.

Mrs. Bass Elliott had her tonsils removed last weekend.

Mrs. Chester Cranfill, who has been receiving treatment at Oklahoma City, has returned home much improved.

Miss Lucille Akers left by plane from Amarillo, Sunday morning, for Memphis, Tenn., where she will be hospitalized for treatment.

The 5th and 6th graders enjoyed a skating party, Monday night.

The school cafeteria ladies are wearing broad smiles, as the PTA presented the cafeteria with a new Mixmaster and very nice large roaster.

Mr. and Mrs. E. H. Englant and Mary Alice took Mrs. Englant's mo-

ther, Mrs. C. M. Bond, to Borger, Sunday, to spend a few weeks.

Bobby Howard, of Borger, is visiting in Bovina this week.

R. L. Harden, of Lawton, Okla., visited the Jack Kesslers over the weekend.

Mr. and Mrs. Bass Elliott and Mr. and Mrs. Odie White attended the American Legion convention in Amarillo, Saturday and Sunday.

Burnett Denny and Billy Joe Eberling left Wednesday for California to spend a few days.

**GIFT SHOP**  
Opening Day, Friday, Nov. 29  
Home of Mrs. E. T. Caldwell,  
Bovina, Tex.  
A display of handmade gifts for young and old. Hand-dressed dolls, handpainted gifts and cards, many other items.

Mr. and Mrs. Jack Waltman have started remodeling their home. They will add two rooms and a bath.

Mr. and Mrs. J. I. Rury are visiting their daughter and son-in-law near Roswell this week.

Mrs. Ayres, Mrs. A. G. White and Mrs. Maude Rury spent the weekend in Roswell visiting Mr. and Mrs. Lilvus Rhodes and Lawrence Rhodes.

Mr. and Mrs. Von Bowen have a new home under construction here.

Mr. and Mrs. Frank Barnett moved to their home in town, Monday. They recently bought the place from R. S. Johnston.

N. E. Bonds has opened his service station here.

Mr. and Mrs. Gene Ezell have moved to their farm, recently purchased from Mr. Barnett.

Mr. and Mrs. W. O. Cherry attended the funeral of an old friend in Lubbock, Tuesday.

The 7th and 8th graders enjoyed a skating party, Tuesday night, sponsored by Mr. Jones. They won the party in the magazine subscription contest.

Mrs. Ayres and Mrs. Maude Rury were Muleshoe shoppers Tuesday.

A group of singers met in the Will Parker home, Tuesday night.

Mr. and Mrs. Hartwell Whitmire of Midland, visited Mr. and Mrs. C. R. Elliott over the weekend.

### Nancy Williams Feted With Party Tuesday

Nancy Williams was agreeably surprised Tuesday night, when a group of friends gathered at the home of her grandmother, Mrs. Giles Williams, to honor Nancy Lou with a birthday party.

The table was decorated with flowers and a lovely cake bearing 15 candles. Refreshments were served to Rosa Lee Denny, Kenneth Horton, Don Tabor, Billy Don Reed, Bobby Kelly, John Tabor, James McKinney, Louise Moody, Gene Hawkins, Joe Moore, Stacy Queen, Robert Reed, Patsy, Janean and Howard Ellison, Jerry Jones, Fred Hoffer, J. R. Ellison, Thomas Rhodes, Nancy Lou Williams, Mrs. Johnese Means and Judy, Lulu White, Mr. and Mrs. Paul Jones, Mr. and Mrs. Joe Wilson, Mr. and Mrs. Giles Williams.

### WMU Meets With Mrs. L. Rhinehart

The ladies of the Baptist WMU met with Mrs. Lester Rhinehart on Wednesday afternoon. Mrs. Giles gave a very interesting lesson on missionary work.

Refreshments were served to Mmes: R. N. Williford, E. H. Moody, Joe Looney, Free, Combs, Rhinehart, Vernon Ward, Jiles, and Lester Rhinehart.

### Mr. and Mrs. Green Are Party Honorees

Saturday night a group of friends and neighbors gathered in the home of Mr. and Mrs. Roy Hawkins for a farewell party honoring Mr. and Mrs. R. L. Green, who are moving to Dallas. Mrs. E. H. Moody, Mrs. Frank Pesch, Mrs. Alma Vassey and Mrs. Hawkins were hostesses. A lovely handkerchief shower was given the couple.

Games of 42 were played and refreshments served to Messrs. and Mmes. Gray and Lawrence, Reagan Looney and June Gay, E. H. Moody and children, Frank Pesch, Will Parker, Steve Calhoun, Bradshaw, Vernon Ward and Billy, Roy Hawkins and children, R. L. Green; Mmes. Alma Vassey, Bob Williford, Jiles and N. E. Bonds.

### Texas Resident Sought For \$50,000 Estate

CHICAGO—The former Velda Fisher, 46, who is reported to have married a man named W. C. Stevens when she was 19 or 20 years old, is being sought throughout Texas to claim a \$50,000 estate.

This was revealed here when Walter C. Cox, probate genealogist, Chicago, took charge of the search. Cox specializes in tracing missing relatives to settle estates.

"The Velda Fisher for whom we are looking," Cox said, "was reportedly born in about 1900 and married Stevens in Texas shortly after the first World War. If Velda is dead, then we want to contact her husband or any children that may survive her. There is no clue as to where in Texas she was married to Stevens, or where in the state the couple settled, or may be now living."

### Forty Practices Are Listed For Payment

A total of 40 practices have already been approved for Agricultural Conservation payment by cooperating farmers in 1947, and one other practice, suggested by the local ACA committee, is pending state approval.

This announcement was made today by Harold W. Carpenter, secretary of the Parmer County Triple A office, on receipt of the approval sheet from the state office. Carpenter added that the other practice requested for approval is "seeding of wheat, rye, barley or oats on unprotected crop land at right angles to prevailing winds as a protection against wind erosion."

Such a practice would require solid seeding with a grain drill, with furrows to follow a general southeast to northwest direction, and on small acres, at least two-thirds of the field drilled to right angles will qualify for payment. The rate of payment asked is 25c per acre.

Practices already approved by the state include construction of terraces for which proper outlets are provided; construction of diversion terraces; leveling for irrigation land where water is available; reorganization of a permanent farm irrigation system; construction of earthen dams or reservoirs for livestock water or for erosion control;

Digging or drilling wells for livestock water; contour furrowing non-crop pasture and range land; strip-cropping on the contour; protecting summer-fallowed acreage; contour listing or furrowed of cropland or land planted to crops in 1947; contour farming intertilled crops; contour farming drilled crops pit cultivation;

Leaving stalks or stubble of sorghums or millet on land as protection against wind erosion; establishing permanent pastures by seeding perennial pasture grasses; establishing or improving permanent pastures by seeding adapted pasture grasses, legumes or mixtures; harvesting legume and grass seed; application of potash and phosphate other than raw rock phosphate and control of bindweed.

Three sets of American Presidents have had the same last names. They are John Adams and John Quincy Adams; William Henry Harrison and Benjamin Harrison; Theodore Roosevelt and Franklin D. Roosevelt.

### Grain Sorghum Loans Are Offered By AAA

Grain sorghum loans will be made again this year through the local Triple A office, Harold W. Carpenter, secretary, announced the first of the week, with the loan rate set at \$1.66 per hundredweight.

"Since the price is down to that—or perhaps below—by now, we expect some applications for loans," Carpenter added.

Such loans mature on April 30, 1947, and draw 3% interest. Both

warehouse and farm storage loans are available, but regulations are pretty stiff as to the moisture content—13% for farm stored and 14% for warehouse stored. Carpenter added that very little grain which has been harvested here thus far will test this good.

LUBBOCK—Of 5365 students enrolled at Texas Tech, 2575 are freshmen, 1324 are sophomores, 780 are juniors, 611 are seniors and 75 are graduate students, according to figures compiled this week by the registrar's office.

**Sister Kenny Will Make Texas Visit**

AUSTIN.—Sister Elizabeth Kenny, famous Australian nurse, and an exponent of a new and quite successful method of treating infantile paralysis will pay Texas an official visit during the first week in December, according to advices received here by George C. Francisco, Jr., of Houston, chairman of the Texas Executive Committee of the Sister Elizabeth Kenny Infantile Paralysis Foundation. A state campaign is now underway to raise the Texas quota of \$150,000 in the annual campaign for funds to keep the Kenny method of treating polio on the upward path.

State Headquarters here at the Driskill Hotel announced that the tentative schedule for Sister Kenny in Texas would be Dallas, December

4; Houston, December 5; San Antonio, December 6; and Fort Worth December 7.

She will confer with county chairmen, members of the Texas Executive Committee, and workers in the campaign while she is in the state, according to State Headquarters here, at the Driskill Hotel.

It was reported here at State Headquarters that more than thirty Texas counties have already passed their quota. Mr. Francisco made a statewide appeal for funds and said that contributions could be mailed to State Headquarters.

Plans of the Texas Committee are to use funds in sending graduate nurses to Minneapolis for training as Kenny Technicians and to make the Kenny treatment of polio available to every victim in Texas.

**Rotenone Sure Death To Cattle Grubs**

COLLEGE STATION—Rotenone is proving to be a sure-fire treatment for cattle grubs in West Texas.

With 10 lbs. of rotenone-sulphur dust, F. J. Jenkins, Edwards County ranchman, got rid of practically all the grubs on 55 head of beef cattle that were badly infested last fall—at a cost of only \$7.50. Running the cattle through a chute, he brushed the dust into the loins and backs of the animals with a wire brush. Prior to the treatment, given last fall, every animal in the herd of 55 had from 40 to 50 grubs. A recent check-up showed only nine of the animals carrying grubs, and these were only slightly infested.

Jenkins is convinced that Texas ranchmen can eventually rid their cattle of grubs and heel flies by giving regular rotenone treatments each fall.

**FARM FACTS WORTH KNOWING**

**Q. Do pigs do better on coarse or fine oats?**

A. According to the Journal of Animal Science, a test was made on pigs of 50 pounds initial weight, feeding them coarse, medium, or fine-ground oats, supplemented by proteins and minerals. Those pigs fed the fine-ground oats made the fastest gains. After 60 days of feeding, pigs fed coarse, medium, and fine modulus oats reached 121, 132, and 155 pounds liveweight respectively.

**Q. How long should a cow be dry before she is due to calve?**

A. A cow should be dried off about 60 days before she is due to calve. It is therefore necessary to keep accurate breeding dates. The Ralston Purina Company, St. Louis, Mo., issues a "Time Saver" herd record card which may be obtained free of cost from any of its dealers. This handy card may be hung in the barn and has blanks where breeding and calving dates may be jotted down.

**Q. Of what value are sun porches on the front of the brooder house?**

A. Sun porches provide more room and thus permit better feathering, save labor, keep the house cleaner, help prevent accidents, and help save feed.

**Q. What is the cause of running fits in dogs?**

A. Canine hysteria or running fits may be caused by several things, such as poor quality proteins, a lack of some of the essential vitamins, or a ration too high in wheat gluten. Many cases of so-called running fits are nothing but a digestive disorder. A dog is a nervous animal and throws a fit when he is in pain. At times, internal parasites cause enough pain so that a dog goes into a fit. The best way to prevent fits of any kind is to feed your dog a well-balanced ration, regularly, and keep him free of internal parasites.

The greatest sustained demand for fuel oil was during the Okinawa campaign where for a period of one month, the daily consumption of the Pacific fleet averaged about 290,000 barrels.

**Question And Answer Column For Ex-GI's**

**Q. Does a veteran who is going to school under the GI Bill have to report money he earns through overtime work?**

A. The vet must report those wages received for the standard work period of the establishment where he is employed, including overtime customarily scheduled. It will not include occasion overtime beyond the standard work period of the establishment.

**Q. I am taking training under the GI Bill and am working at night, for which I receive the usual 10% differential. Do I have to report this differential to the VA in reporting my income?**

A. Yes. Both base pay and the 10 percent differential would be included as wages in determining the rate of subsistence allowance payable and accordingly must be reported by the vet and employer.

**Q. Can my subsistence allowance be apportioned in event my wife and I decide to separate?**

A. Yes. Subsistence allowance is subject to apportionment on the basis of 70% to the veteran and 30% for the wife. Further apportionment may be made in case of children.

**Q. Is a veteran following a course of vocational training entitled to a vacation during training?**

A. Yes. A leave of absence may be granted not to exceed 30 days in any consecutive 12 months.

**Q. Will subsistence allowance be reduced during the leave of absence or vacation of the veteran?**

A. No. The vet will be considered as pursuing his course of vocational rehabilitation while on vacation and will be paid accordingly.

### Controversy Rages On Texas Water Supply

Although not much has been said about it in this immediate area, where irrigation is in its infancy, a hot controversy is now waging over the Plains on the issue of controlling the use of the underground water supply.

Currently, according to information gathered here, several of the larger cities, whose water supply has been short during the growing pains of the past few years, are waging a strong and concerted drive to put up a pro-rata water bill before the coming session of the Texas legislature—which would definitely control use of water.

Questioned about the issue, County Agent Lee McElroy reported today that he understood farmers in Lamb, Hale and Lubbock counties, where irrigation is extensive, have already banded together in an anti-control campaign.

### No Facts Available

Actually, nobody seems to know the extent of the Plains underground water supply, where it comes from, or how much the reservoir is being depleted by irrigation. According to report, in some areas where irrigation has been in progress for 20 years, the water level did show a loss of a few inches, but the heavy rains of 1941 raised the level again—and no exact data for the past few years can be quoted.

If such a bill is introduced and passed it would mean, putting things in a nutshell, that a farmer who wished to sink a well or wells on his own land would have to secure the approval of a state board. If the board ruled that the underground supply in his particular location was not capable of handling more pumping, he would get a negative reply to his request.

Farmer residents are of the opinion that if and when a survey shows that the underground reservoir is being seriously lowered by irriga-

tion, such controlled use possibly should be adopted, but on the other hand, they maintain that until more is known about the situation, legislation is not advisable.

If the drive becomes more heated, it is quite likely that farmers of this county will join those of other areas in demanding postponement of any legislation until all the facts are known.

### Ammonia Fumes Good For Oven Cleaning

COLLEGE STATION — Dark, greasy stains that accumulate on the interior surfaces of ovens in kitchen ranges are difficult to clean. Ordinary washing or wiping will not remove them as the grease has "baked on". Scouring often is used but, unless done with care, may injure the enamel finish.

Fumes of ammonia, however, are helpful in softening this substance to make cleaning easier, according to Mrs. Bernice Claytor, specialist in home management for the Extension Service. She suggests placing a shallow bowl of household ammonia—or wadded cloth moistened with ammonia—in the oven for several hours, or overnight. The fumes given off will have time to loosen the greasy stains. A badly soiled oven may need this treatment for several successive nights.

To keep the oven clean, Mrs. Claytor advises leaving the door open after use until the oven is cool. This will "air out" many of the odors and oils from baking instead of holding them in to settle on oven surfaces. It also helps prevent rusting of metal surfaces by steam from food. Any food that boils over or spills should be wiped up at once and not allowed to burn on.

Low grade, unmarketable tobacco can now be processed into paper, soap, varnish, and fiber board.

ATTENTION, MOTHERS! If looking for a better remedy for Children's Chest Colds try Durham's Nu-Mo-Rub, the new Guaiac-Colchamphor treatment. Remember—double the purchase price refunded if you do not find this Modern Chest Rub more effective—35c and 60c at

### 225 Foreign Students Enrolled At Texas

AUSTIN.—The University of Texas has 225 foreign students enrolled this semester from 33 countries according to Joe W. Neal, foreign student advisor.

Mexico leads with 86 students; Venezuela is second with 18, China is third with 15, Nicaragua fourth with 13, and the Canal Zone is fifth with 10 students.

Other countries represented are Brazil, Chile, Guatemala, Haiti, Paraguay, India, China, Philippine Islands, Egypt, Belgium, Lebanon, Palestine, Syria, England, Argentina, Bolivia, Colombia, Costa Rica, Cuba, El Salvador, Honduras, Panama, Peru, Puerto Rico, Turkey, Netherlands West Indies, Iceland, and Arabia.

### New Paper Draperies

Even experts have been fooled by the fabric-like appearance of the inexpensive paper draperies shown above. Two years of research and tests produced the soft, flexible Trimz draperies that look and feel like cloth. The new draperies combine beauty and economy, are completely hemmed and headed, ready to be hung on an ordinary curtain rod. They are adaptable for pleats and can be hung with hooks or sewed-on rings. Dusting with a soft cloth takes care of the cleaning problem and no ironing is necessary. The young housewife, above, is shortening her draperies, cutting off an inch longer than the desired length. This takes care of the bottom hem, which can be sewn by machine or by hand. Matching tie backs are furnished with the draperies, which come two and a half yards long and twenty-eight and a half inches wide.

## Even Today... Buyers can be Choosers

In the face of the greatest demand for Hudson in history—buyers can still be choosers. And when you make your choice of a car, the man to see first is your Hudson dealer.

Consider this... The grand new Hudsons give you the choice of a Super Series and a distinguished Commodore Series. They are built in every popular body style—Business and Club Coupes, Sedans, Broughams, Convertibles. There's a choice, too, in any model, of the famous Super-Six and Super-Eight engines.

Whatever you decide upon, you will be proud and happy that you selected the car that offers so much in luxury, styling and top-notch performance.

Until you get delivery of a new Hudson, this same dealer is your wisest choice, too, to keep your present car in tip-top condition, and assure dependable transportation now, and a higher value when you trade it in.

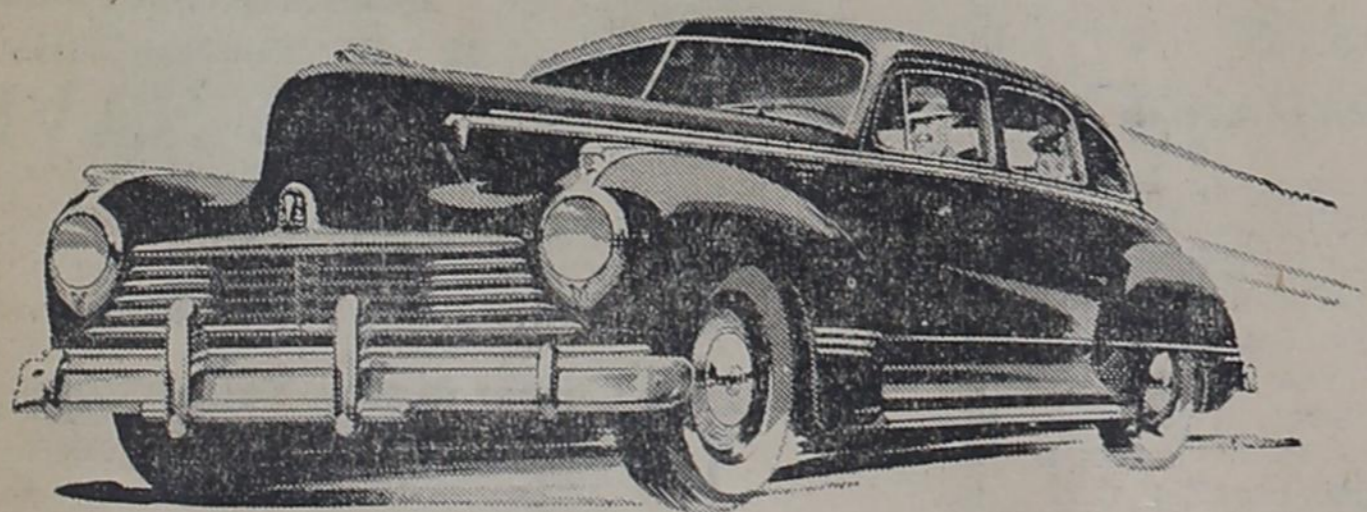

Here, you may be sure of a friendly welcome, expert workmanship, genuine Hudson parts, fair prices—prompt and courteous attention to your every need. Drive in now! Even today, buyers can be choosers with Hudson.

## Q and A

Q. Edison's search for a suitable incandescent lamp filament entailed how many experiments?

A. Six thousand—conducted over a period of eight years.

\*\*\*

Q. What famous French ruler first aided the citizens of Paris in finding their way about at night by illuminating the streets?

A. Catherine de Medici, famed queen of France in the 16th century, ordered large statues of the Virgin, with a tallow candle lamp burning in her hand, placed on every corner.

\*\*\*

Q. In the early days of the telephone industry the switchboard operators were boys, later supplanted by girls. Why?

A. Because "girls are steadier and do not drink beer," a history of the industry states.

\*\*\*

Q. How old is the jet idea?

A. The principle of jet propulsion dates back to the beginning of the Christian era. To be exact, the mechanical idea of it is 1,944 years old. The first demonstration of jet reaction was Hero's aeolipile—a hollow sphere caused to spin by steam escaping from two jets.

\*\*\*

Q. What is the world's tiniest "bedside light"?

A. The 1/25th watt indicator on the new two-control automatic electric blanket, which reminds the user to "turn off the blanket" during the day. It is too small to be bothersome at night. Should the blanket be left on, however, no harm would be done, any more than when a radio or reading lamp is left on, electrical engineers point out.

\*\*\*

Q. Who is the god of thunder?

A. "Thor," for whom Thursday was named. With a heavy iron battle hammer, he rode in a chariot drawn by goats, according to the ancient Norsemen. When they saw the lightning and heard the thunder, they said: "Thor is riding across the clouds. That flash of lightning was the gleam of his swift hammer. He is fighting against the dreadful giants who threaten to destroy men and gods alike."

## Local Teachers Plan Weekend Holidays

Taking advantage of a two-day break from school activities, plus the usual Saturday and Sunday breather, teachers of the local schools are making arrangements to do a bit of visiting and resting over this weekend, a survey revealed today.

Four of the Texico faculty members have definitely indicated that they will be out of town during the Thanksgiving holidays. Warren G. Harding will visit at San Angelo, Mrs. Elizabeth Bruce will go to Lubbock, Miss Mabel Davis will be with her parents in Mountainair, and Mrs. Frank Seale will also be a guest of her parents, in Lubbock.

Mrs. R. Neal and Mrs. Jimmie Allman, both of whom live in Clovis, announce that they plan to be at home over the holidays, as do Supt. and Mrs. B. A. Rogers, Tom Hudson and C. E. Sanders.

In Farwell, the majority of the teachers indicated today that they would spend quiet weekends at home, with S. Leach, Robert Morton, Mrs. Harry Whitley, Mrs. Lenton Pool, Mrs. C. E. Sanders, Mrs. Aubrey Sprawls, Miss Wilma Louise Snider, Mrs. Earl Booth, Mrs. Harry D. Rose and Miss Betty Rose announcing no plans other than resting at home.

Supt. H. A. Clift reported that his plans were not definite, while Coach Jack Williams has laid out a weekend of work with his basketball players. Miss Ann Nabors plans to spend Thanksgiving Day with her parents at Abernathy, and will also visit relatives at Snyder over the holidays.

## Move Into New Home

Mr. and Mrs. Sam Randol and family moved the past weekend from their farm near Texico into their home in Farwell. Their new residence is the former Jim Martin place, which has undergone extensive alterations and repairs since Randol bought it a few weeks ago.

## To Dallas On Visit

Mrs. C. M. Henderson and Mrs. Nancy Branson and daughter left this week for Dallas, where they will visit for about two weeks with friends and relatives.

Need letterheads? Dial 2131.

## Chicken Dinner Honors Grid Players Friday

Mr. and Mrs. Jim Hughes entertained in their home the past Friday afternoon, following the Farwell-Gruver football game, honoring the Steer team members, their coach and manager with a chicken dinner.

The table was cleverly arranged to feature the football motif, with the centerpiece being a large cake, on the icing of which was a simulated pigskin inscribed with the letters "FHS". The school colors of blue and white predominated.

Attending the dinner were Bobby Hart, Don Williams, Max and Don Ford, Sonny Graham, Warlick Thomas, Toby Booth, Junior Robertson, Hollis Hughes, Jackie Holland, Buster Herington, Bobby Smith, Harry Sheets, Coach Jack Williams and manager A. C. Henneman.

## Ladies' Group Enjoys Social On Tuesday

Members of the WSCS of the local Methodist Church held a combined business and social meeting, Tuesday afternoon, with Mrs. Ralph Humble being hostess to the group.

Mrs. B. N. Graham presided over the business session, during which reports were given by the ladies as to the use they had put their "talents" during a drive by the WSCS to increase its treasury fund. More than \$100 was turned in from various women and several are yet to report. Most of the group presented their reports in the form of clever poems.

Following a social hour, the hostess served a lovely sandwich plate with pumpkin pie and coffee to Mesdames O. B. Pipkin, G. W. Atchley, Harvey E. Carrell, Roy Thornton, Mary Clarey, B. N. Graham, A. D. Smith, Anne H. Overstreet, Ruby Dixon, W. H. Graham, Lena Yoder and Albert Thomas.

## Here Over Weekend

R. B. Ezell and Mrs. Eugene Parker, both of Roswell, spent the past weekend here as guests of their parents, Mr. and Mrs. Roy B. Ezell. Also visiting in the Ezell home is Mrs. Lena Bonine, of Ralls, Tex., sister of Mrs. Ezell.

Mr. and Mrs. H. A. Clift and family were business visitors in Abilene the past weekend.

## NEWS FROM OUR BOYS IN UNIFORM

### DISCHARGE FILED

Sgt. Jimmie Seaton, who served as an MP, was discharged at Fort Sam Houston on October 28th. Seaton has the A-P ribbon with one campaign star (Luzon), the Philippine liberation, good conduct, victory and army of occupation colors. He was in uniform 18 months, and spent 15 months out of the States.

### ON FURLOUGH

Cpl. Erwin W. Schwede, who is stationed at Marshall Field, Fort Riley, Kan., is here visiting his parents, Mr. and Mrs. Walter Schwede of the Lariat community.

## Speech Recital Will Be Given Tonight

Expression students of Mrs. H. A. Clift will present a recital tonight (Wednesday) in the homemaking building of the Farwell school, to which the public is invited.

Members of the group who will take part include Shirlene Leach, Marilyn Claire Austin, Jerri Allison, Jo Elaine Magness, Ysleta Brown, Lavoyda Billington, Merlyene Morris, Don Pool, Nancy Jean Clift, Claude Rose, Jr., Ann Whitley, Rex Pool, Darlene Sprawls, Robert Armstrong, Jerry Pool, Jenean Lunsford, Mary Belle Aldridge and Vera Ann Jones. Dorene Sprawls will play a piano solo, and Rosamond Booth will give a violin solo.

Calendar of services:  
Bible Classes 10 a. m. and 7 p. m. on Sunday.  
Preaching, 11 a. m. and 7:30 p. m. on Sunday.  
Mid-week Bible study, 7:30 p. m., Tuesday.

The regular first Sunday song service of Churches of Christ of this and surrounding communities will be held at the meeting house in Farwell, Sunday, Dec. 1.

A cordial invitation is extended to all to attend any or all our services.

Lewis C. Cox, Minister.  
Tel. 2907.

## THE METHODIST CHURCH

Rev. Harvey E. Carrell, Pastor  
Church School 10 a. m. C. F. Bieker, superintendent.

Morning Worship 11. Sermon subject "Making Ready". Communion. Methodist Youth Fellowship, 7 p. m.

Evening Worship, 7:30.  
Mid-week service, Wednesday, 7:30 p. m. The Bible study, "The Divine Fatherhood", is led by Bro. B. N. Graham.

A cordial invitation is extended to all.

## HERE FROM OKLAHOMA

W. A. Doshier, former local farmer, arrived here the latter part of last week from Tipton, Okla., and will remain until after Thanksgiving, visiting with relatives in this community. He said crop conditions in southwestern Oklahoma this year were far better than had been anticipated early in the year. Late rains caused the feed and cotton crops to take on an unexpected growth, he said.

Aubrey Sprawls, of this city, spent Sunday visiting with relatives in Lubbock.

Mrs. Florence Wallace and son, Max, of Clovis, visited with friends and attended the football game here Friday.

Mrs. Raymond Ross and children of Morton, Texas, visited in the B. N. Graham home on Saturday.

Mr. and Mrs. John Bingham, of Bovina, visited friends and relatives in Texico and Farwell, Sunday.

Mrs. Beulah Pumroy spent Friday visiting relatives and friends in Bovina.

## Shrine Active In Cripple Relief

The Shriners of North America are very active in their work with crippled children, said Mr. Lee Thompson. More and more cases regardless of race, creed, or color, are being treated. While the Shriners of North America are financing this most worthwhile humane activity, they feel that others may want a part; and it is now possible for anyone outside of the organization to buy a Voluntary Contributing Life Membership in the Shriners Hospitals for Crippled Children. A beautiful certificate is issued to everyone purchasing one of these memberships, said Mr. Thompson.

## Dr. Coventry Named Co. Health Officer

Dr. Vaden Coventry of this city, was named county health officer Monday, by the Parmer County Commissioners Court, after the resignation of Dr. V. Scott Johnson had been tendered and accepted. Dr. Coventry's term will carry through the years of 1947-48.

The Commissioners, in session here Monday, also took up several other matters, the minutes showing that:

The expense account of Sheriff Earl Booth, for the month of October in the amount of \$415.00, was approved.

Road and Bridge Right of Way warrants, in the amount of \$2,448.48, held by the Friona State Bank, were refinanced by issuing one warrant in that amount, payable on or before April 1st, 1950, bearing 5% interest from date.

A motion to pay the accumulated interest on the above named warrants in the amount of \$76.51 prevailed.

Chas. Turner tendered his resignation as Justice of the Peace of Precinct 2 (Friona) and J. D. Hamlin, of that city, was named to fill the unexpired term.

Mr. and Mrs. DeVere Roberts, of Portales, visited friends while attending the Farwell-Gruver football game here, Friday.

Mr. and Mrs. Rodney Ford, of Portales, visited and attended business here over the weekend.

Mrs. Lloyd Taylor, of Lubbock, visited with her parents, Mr. and Mrs. Dude White, the past weekend.

Miss Helen McDaniel, stenographer, in the local AAA office, is taking off this week for a brief vacation, to visit her aunt in Albuquerque.

Miss Hazel Dishman was a weekend guest of relatives in Littlefield.

Mrs. Carl G. Davis and young son, Carl Jr., were dismissed from a Clovis hospital the past Wednesday and have returned to their home in Farwell.

## Thanksgiving Spirit Lacking In America

Calling attention to the sheer lack of the proper Thanksgiving spirit in America, Rev. Harvey E. Carrell, pastor of the Methodist Church, called upon his audience for a return to the original spirit of the occasion, in a sermon delivered at the Baptist Church last Sunday evening.

"We are so busy in serving material things, we of America are in danger of forgetting God," the ex-chaplain declared in a Thanksgiving service sponsored by Methodist and Baptist congregations.

The speaker pointed out the danger is "forgetting God in our rush to accumulate the material things of life". Reviewing some of the havoc wrought by war in other countries, the minister averred that "other countries that are now in wreckage will not forget God, but America is growing negligent because we're too busy making money".

"This should be a sacrificial Thanksgiving, when we strip ourselves of material concepts and remember it is He who giveth us our all," Rev. Carrell concluded.

Mr. and Mrs. W. W. Vinyard spent the past weekend visiting with relatives in Lockney, Texas.

## Europe Still Needs American Food

New York, N. Y. — "Europe's population still suffers from the aftermath of years of war and hunger," Mrs. William N. Haskell, wife of Lt. General William N. Haskell, Executive Director of CARE, reported during an interview at CARE headquarters in New York. She added that the prohibitive prices of food in the black market were placing it beyond the reach of the great majority of people there.

Mrs. Haskell has just returned from Europe, where she accompanied General Haskell on his recent food-inspection trip.

lives to aid the underground during the war."

Describing the assemblage of people who were gathered to receive the U. S. Government's Medal of Freedom, Mrs. Haskell said that they had two unmistakable things in common. Their heroism, of course. And a look of hunger. But their fierce pride asked for no sympathy, she added.

"Even the children in the parade that followed huddled together in the light summer rain that had started," Mrs. Haskell said. "It was as if their stringy little bodies found the dampness

Children enjoy food from CARE sent by American Friends—Inset—Mrs. Haskell, wife of Lt. Gen. Haskell, Executive Director of CARE who has just returned from a tour of Europe.

Mrs. Haskell told of one Sunday afternoon when she and the General attended an impressive ceremony in Chartres, where a street was being named for General George Patton. The citizens of Chartres all regard General Patton as their personal liberator, Mrs. Haskell explained, because it was his men who arrived in time to save the town from the Nazis.

"The stirring singing of the 'Te Deum' by the townspeople, and the official christening of the street in General Patton's honor, was followed by still another ceremony," Mrs. Haskell said. "This was to honor the citizens of Chartres, who had risked their

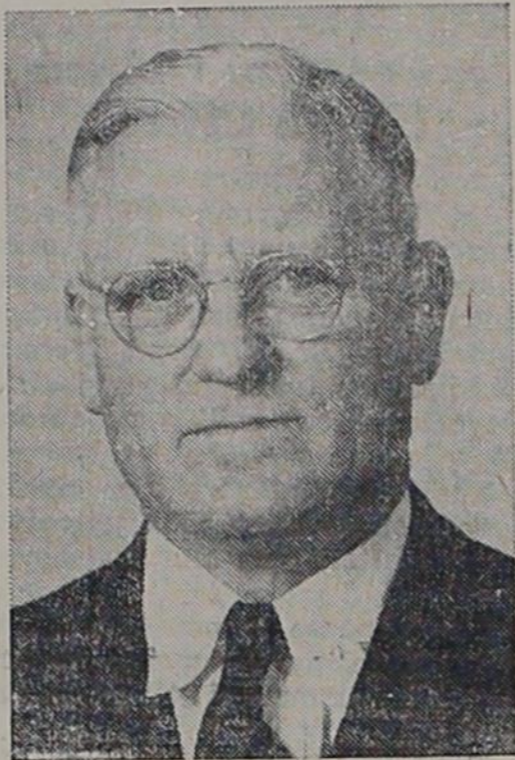

unbearable after too many years of war and meagre rationing."

"And conditions in other European areas are even worse," she said, urging Americans sending food to friends and relatives, not to forget others, "whose need made them a special kind of friend."

CARE, the Cooperative for American Remittances to Europe Inc., is the non-profit, government-approved organization through which Americans may send food packages containing 29 pounds of balanced food to people in 11 European countries. Headquarters of the organization is 50 Broad Street, New York 4, N. Y.

## Conoco Farm Program Headed By Man Who Started Future Farmers

PONCA CITY, Okla.—One of the founders of the Future Farmers of America, and for many years a vocational agricultural specialist, Ross Floyd has been appointed agricultural service manager for Continental Oil Company, it is announced by Harry J. Kennedy, vice president in charge of marketing.

Floyd will resume active charge of Continental Oil Company's agricultural program, which provides a broad service to those engaged in farm, ranch, livestock, and kindred agricultural pursuits, and which in the future will also stress the promotion of activities of farm youth.

Floyd joins Conoco after serving the War Finance Division, U. S. Treasury Dept., Washington, D. C., as western agricultural representative. For the previous eight years he had been associated with the SCS, first as regional business administrator at Salina, Kan., and later as regional administrator at Amarillo.

From headquarters at Ponca City, Floyd will direct farm service activities in all of the 44 states in which Continental Oil Company operates.

## Navy Seeks Officers For Medical Sciences Corps

NEW ORLEANS.—The Navy has asked for applications from reserve and temporary regular Navy officers to transfer to the regular Navy in a proposed Medical Allied science corps.

Applications were sought in acarology, malariology, zoology, public health (industrial hygiene), virology, public health (medical statistics), entomology, epidemiology, genetics, malacology, nutrition, parasitology, and physics, Eighth Navy District headquarters here announced.

Age and physical requirements for the proposed corps are the same as for Medical, Dental and Hospital corps officers, it was announced, and educational qualifications call for a Doctor's Degree in one of twenty fields to be included under the proposed corps.

## Requirements Relaxed For Legal Specialists

NEW ORLEANS.—Modification of requirements for transfer of legal specialists from temporary or reserve status in the Navy and Marine Corps to the regular Navy has been announced.

Eighth Naval District headquarters here said that necessity of a law degree has been eliminated provided the applicant has been admitted to practice before the bar in any state or territory or the District of Columbia. Also removed was the time limit of six months after returning to inactive duty for submission of requests for transfer.

Ex-prisoners of war in Warrant or higher commissioned ranks will be considered regardless of previously established deadlines for submission of requests, it was announced.

## TO ATTEND CONFERENCE

LUBBOCK.—Dr. W. C. Holden, graduate dean at Texas Technological College, will attend a conference of Southern graduate school deans in Memphis, Tenn. December 7 and 8, and a meeting of representatives of public institutions of higher learning in the Southern states, also in Memphis, December 11.

United States Navy Military and civilian personnel purchased a total of \$2,698,000,000 worth of savings bonds between September 1, 1941 and August 1, 1945.

FARWELL, TEXAS

From Pearl Harbor to V-J Day, the United States Navy grew from fewer than 345 to 1,300 combatant ships, from 7,800 vessels of all kinds to nearly 93,000, from 425,000 officers and men to over 4,000,000 wartime peak strength, including Marine Corps and Coast Guard personnel.

## FIXING UP the HOME

By Diane Greeter

### Hot Water is an Easy Luxury

ONE feature that the modern homemaker will certainly not ignore in planning a new home or remodeling an older one is abundant hot water. The value of hot water in protecting health, furthering comfort, and shortening hours of household work is well

understood by home economists.

The easy and obvious means of supplying the home with abundant hot water is an automatic gas water heater which will deliver water at desired temperatures and in desired quantities at the turn of a faucet. Modern methods of fuel distribution make this indispensable household tool available all over the country. In the cities, utility gas provides the perfect fuel for water heating because of its cleanliness, speed, and economy both in cost and in space required for the heating unit. In the suburban or country or farm home, liquefied petroleum gas—"bottled" or "tank" gas—give the same service and are supplied by dealers whose delivery systems blanket the nation, leaving no home more than one mile from a scheduled route.

It should always be remembered in selecting a heater, that need for hot water varies with the seasons, the number in the family, and other factors. A heater with capacity exceeding the greatest expected demand is a wise choice. It will insure uninterrupted satisfaction.

**Butterflies Aid Scientists in Drug Discovery of New Vitamin**

Dr. S. M. Hardy, Medical Director, Lederle Laboratories Division, American Cyanamid Company, points to spot on world map where macrocytic anemia is prevalent. Lederle scientists recently synthesized a new vitamin known as folic acid, which contains a "pterin" compound, and is being used in the treatment of certain anemias. Over 10 years ago scientists isolated these pterins from the wings of butterflies, but were prohibited from continuing experiments by Hitler's order.

**Cotton Insurance Offered Farmers**

COLLEGE STATION.—Federal crop insurance on the 1947 cotton crop is now being offered for sale to every cotton farmer in Texas, State Director B. F. Vance of the Production and Marketing Administration has announced. Insurance contracts will be signed in county ACA offices. Under the 1947 insurance plan, farmers are being offered a wider choice on the amount of insurance they can buy. Coverage may be made for as low as 40 percent of the average yield and as high as 75 percent Vance says. All-risk insurance, which protects the crop against any unavoidable hazards, goes into effect when cotton is planted and continues until it is ginned. The amount of insurance increases as the crop grows, because more costs have been incurred and the crop is worth more to farmers, Vance explains. "Demand for all agricultural products promises to continue at high levels and no farmer can afford a crop failure when production can be bought cheap. Crop insurance will help bridge the financial gap if losses occur," the PMA officials states.

**Cotton Insurance Offered Farmers**

The first ironclad undertaken by the U. S. Navy was the "Stevens Battery," which was begun in 1842 but never completed. Veterans Administration hospitals and homes are receiving advance prints of new Hollywood movies for showing to veteran-patients.

**PICTURE NEWS OF THE WEEK**

FRANK A. SEIBERLING, "little giant" of the rubber industry, recently passed his 87th birthday. He is founder and chairman of the company bearing his name. One in 10,000 is baby WILLIAM EUGENE FISHER, JR., Berkeley, Cal., who was born with a lower tooth. Doctors say he will probably have a full set of teeth at six months. JACK HOFFMAN, right center, 4-H Club member of Ida Grove, Iowa, is richer by \$42,000 following sale of T. O. Pride, his 1,200-pound grand champion steer, to a Kansas City meat packer. Steep decline in cotton prices was attacked by these men before the Senate Agriculture committee. TOM LINDER, left, of Atlanta, Ga., charged that one cause was "short selling by foreign interests." J. E. McDONALD, right, of Austin, Tex., told group that decline caused great resentment in his state.

**ARMY SURPLUS MATERIALS**

to help meet a rising demand for TELEPHONE SERVICE

Communications equipment manufactured for the Armed Forces was the best that telephone science could produce. Of course, most of this equipment is unsuited to peacetime use, but wherever possible we have secured surplus materials that could be fitted into the telephone system, providing some of the much needed telephone facilities in many communities of the Mountain States Area.

- 12,000,000 feet of field wire
- 1,000,000 feet of drop wire
- 3,125 miles of copper and steel strand
- 320,000 other items, such as bolts, insulators and braces

These materials supplement our regular supply and, while only a small part of the total quantity needed, they are helping us to get ahead with our job of extending telephone service to more and more families

The Mountain States Telephone & Telegraph Co.

### House Cage Team To Visit Here, Dec. 3

Continuing the cage season, the House, N. M., boys and girls will contact the Farwell cage teams on Tuesday night of next week, December 3rd, in the local gymnasium, a checkup of the local schedule revealed today.

With Thanksgiving holidays going into effect this (Wednesday) afternoon, no games are slated for this weekend, Coach Jack Williams added. The game slated to have been played here last Friday night with Threeway was also called off, due to the bi-district football skirmish, and Williams said that this match would be arranged later in the season, when the teams could get together on open dates.

As to what may be expected when House and Farwell take the court next Tuesday, the coach, like everybody else, was in the dark. No information as to the size, speed, or record of the House teams is available here, and since the local season is also just getting underway, little prediction on what the teams may or may not be able to do was offered here.

Game time will be 7:30, Texas time, with regular admission charges being made at the door.

### Christian Is Named Cattle Club Prexy

Wendol Christian was named president of the Parmer County Dairy Cattle Club for the coming fiscal year, when members and their families held a joint business and social meeting in the auditorium of the Oklahoma Lane school, last Wednesday evening.

Other officers will be Levi Johnson, vice president, and L. M. Grissom, secretary, while Bill Hubbell, Sterling Donaldson, J. T. Gee, W. E. Martin and Melvin Sudderth make up the remainder of the director's group.

Dr. E. E. Kraus, Clovis veterinarian, was a guest speaker at the Wednesday meeting, and paid high praise to dairy cattlemen in this county on progress made during the past few years, particularly complimenting them on the dairy stock show held annually.

Some 75 persons attended the meeting, and the social session was concluded with serving of ice cream and cake.

Mr. and Mrs. Woodrow Lovelace are planning to spend Thanksgiving with her parents, Mr. and Mrs. Howard Mayfield, near Friona.

### Texico Splits Matches With Ranchvalers

Winning one and losing one, the Texico cage teams continued their season on the Ranchvale court the past Friday night. Winners were the Texico boys, who ran up a top-heavy 49-13 score, while the local girls were submerged, 33-21, by the hostesses of the evening.

Spectators report that the Texico girls were apparently suffering an "off" night, and could never get started, having a particularly hard time handling Mitchell, star Ranchvale forward, who led the scoring parade.

Although they showed flashes of recovering their ability at times, the locals persistently missed shots and failed to click on offensive plays.

The Texico boys, on the other hand, were in control of the game from the opening minutes, scoring 13 points to Ranchvale's 2 during the first quarter. Coach C. E. Sanders reported today that he used some 19 players during the game, giving all his subs a chance to show their wares.

But Vought was the hot-shot of the game, scoring 24 of Texico's points, despite the fact that he played only two quarters. Baldock, at guard, turned in a score of 11 for the locals, while M. Doolittle, although doing good floor work, failed to make his shots count and tallied only six.

Daley took a total of seven for the Ranchvale team, while his running mate, Grant, was in second place with 4.

Score by quarters ran 13-2; 25-5; 31-9; and 49-13, the scorebook reveals.

**Date Is Changed**  
 Coach Sanders also announced today the changing of one date for a home game, stating that Melrose will play here on January 3 instead of February 7th, as listed on the posters put out around town.

### Stores Will Not Be Open Thursday

The majority of local storekeepers reported the first of the week that they would enjoy Thanksgiving away from their places of business, indicating that shoppers who have last-minute purchases to make had better reach the stores this (Wednesday) afternoon.

Also closed will be all court-house offices, the bank, the post-offices, and both the Farwell and Texico schools.

Tribune want ads get results.

### Invitation Tournament Opens Here Dec. 5th

The first invitation tournament of the current basketball season will open next Thursday night, December 5th, in the Farwell gymnasium, with play to be continued through Saturday, December 7th, Coach Jack Williams reported today.

Although early in the season, the tournament bids have already drawn acceptances from 18 teams of this area. The boys' squads will all come from Texas, as New Mexico rules bar those teams from participating in meets out of the state, but the New Mexico girls, not hampered by any such ruling, will come from several schools, officials said today. The remainder of girls' teams in the lineup come from the Texas side of the line.

Notable among the girls' squads will be the Friona Squaws, who last year placed second in Texas state competition, and are back in the running this year with the majority of former players.

Listed as entrants are the following boys' teams: Bula, Oklahoma Lane, Bovina, Friona, Morton, Lazbuddy and Farwell. Of the group, reports are that both Bovina and Morton will be especially strong contenders for first place.

In the girls' bracket are ten teams: Texico, Bula, Oklahoma Lane, Bovina, Friona, Grady, Pleasant Hill, Ranchvale, Lazbuddy and Farwell. Other than Friona, observers are expecting hot competition from the Grady and Ranchvale teams.

C. D. Holmes, of Friona, and Charles Fiscner, of Clovis, have been named as the official whistlers for the tourney, Coach Williams said further.

According to present plans, the first series of games will be played on Thursday night. Friday's games will fall in the afternoon and evening, and Saturday afternoon and evening sessions are slated to finish up competition.

**Time Ruling Explained**  
 To clear up something which has bothered spectators, the ruling on the "official time out" which is called in the final quarter of boys' games, was explained today.

If either team has called a time-out prior to the last four minutes of the game, then the "official time" is not used, Coach Williams said. If there has been no team time-out before the period is half over, then "as soon after four minutes as there is a dead ball (tied, outside, basket or foul), the official timer calls the breather period."

Furthermore, a player who is in the game at that period cannot be removed and return during the remainder of the quarter. And, in case that last four minutes may seem exceptionally long, it is also pointed out that during that time, the clock stops every time a ball is tied or out of bounds, in addition to regular stops for fouls, meaning that the final four minutes is actual "playing" time and not "clock" time.

Brackets for play during the three-day tournament will be drawn this week and released in the next issue of The Tribune.

### Applications For ACP Payment Received

Signing of applications for payment under the 1946 ACP is progressing at a fast clip, with over one-half of the county's producers already signed up and ready for submission to the general auditing office for payment, it was reported today by Harold W. Carpenter, secretary of the Parmer County AAA.

"Some money is going to be lost if local producers have not reported on contour seeded wheat by the deadline, November 29th," Carpenter said further.

Applications cannot be submitted until one transmittal is audited by a representative of the state office. "We are waiting on this audit before sending in any applications," the secretary concluded.

### MONDAY'S SNOWFALL BRINGS LIGHT TO SHOPPER'S EYES

(Continued from Page 1)  
 they are top favorites, what with so many of the male sex switching back into civvies and finding the going a bit rough in the clothes situation. If you know your man's size, he'll love you for a new shirt or a new pair of pants, and few are the men that will refuse handsome ties, or who have enough jackets—both dress and work styles—to make them feel well dressed.

If he's a smoker, a tasty setup of his kind of tobacco and a new pipe would be super, natch, or how about a good ash-tray stand that has room for him to put his junk around the edges while relaxing by the fire? Fountain pens and eversharp pencils are also available again, and these are popular with men and women of all ages.

The gal friend, of course, still swoons to her particular choice in cosmetics or one of the new "rave" perfumes and all the lovely and handy sets of bath soaps, scents and powders. In all probability her cuticle scissors and nail clips took a beating during the past few years, and if you can locate a really good pair, she'll be delighted. But, if you really want to get that under-the-mistletoe reception, just fill her old worn out Christmas stocking with a couple of pairs of brand-spanking new nylons, ready to grace her legs during the holiday parties.

Good, sturdy toys are making a reappearance on the shelves—trucks and trailers and such that have real wheels, as well as the fancier outfits for sports, including everything from ping-pong to the diamond. Bicycles are being shown, as are the "trikes" and other heavy-duty toys, and, of course, plenty of reading material and color books, as well as the fuzzy toys and crying dolls.

Jewelry is always a good gift, and there are now watches for both men and women on the market, as well as popular styles in rings and collar and tie clasp sets. Women love costume jewelry, the more sparkling the better—and they can be moderately priced and still handsome.

From all indications, this is going to be one of the buying-est Christmas seasons experienced in years. Checking around, it appears that only the very young are liable to be "shorted", with storekeepers reporting plenty of frivolities but few of the necessities for the newest members of the community.

### Gruver Wins—

(Continued From Page 1)  
 Ford followed up with a pass to Robertson, out from left end, for the first Steer count. Robertson scampered some 25 yards after receiving. Andrews got in the way of the Steer attempted placement, and the count was 12-6.

Farwell kicked off, with Frazier taking the ball to the 45 and McClellan adding another five, being smacked by both Hart and Herington when it appeared that he might break into the clear. Gruss went to the Steer 25, after stumbling, recovering and reversing his field to make 15 yards, and McClellan went on for another eight, being stopped by Booth. A pass from McClellan to Andrews put the ball on the Farwell 13, and Gruss gained only a yard before Williams nailed him. McClellan fumbled on the five and Booth recovered the ball in the air on the eight. A line play by Williams netted Farwell eight yards, and then Don Ford made a beautiful pass to Robertson on the Greyhound 30, but Bayless was contesting and the ball fell from the receiver's hands. Standing on his own 15, Don Ford passed again, 40 yards down the field, and this time Robertson shook off his pursuers, with Booth taking out the last possible interference, and went for the tying touchdown.

But the local's thrill was short-

lived, for on the Farwell kickoff, Vernon took the ball on his own five, made five and discovered that he was hemmed in, and lateraled back to McClellan, who outspun and outran the complete Farwell lineup for a 90 yard touchdown gallop. His kick was wide of the uprights, and at the half Gruver held an 18-12 lead.

Coming back in the opening of the third quarter, the Steers appeared headed for a sure touchdown, after Williams, Hart and Booth had pushed the ball to the Gruver five. But fans and players alike were stunned on the next play when Herington fumbled and an alert Wallin grabbed the ball in midair and took off for the other end of the field, giving his team a two-touchdown lead over the locals.

Grimly determined, and with the wind at their backs, the Steers took the kickoff on the five, with Williams reaching midfield before Gruver tacklers succeeded in stopping him. Going into the air, Max Ford tossed an incomplete pass and then connected with Robertson on the Gruver 40, and the blue-and-white racer outstepped McClellan to score again for Farwell. An attempted extra-point pass was null and void.

Farwell kicked off and on that same lateral stunt, Andrews passed the ball back to McClellan, who appeared headed for a sure score when run down by Hart on the 20. Andrews made five and then ripped over end for a touchdown, which was called back with Gruver penalized for offensive holding, putting the ball back on the 40. McClellan shot a pass to right end Frazier, with Williams knocking the ball away just as it appeared to settle in the receiver's hands. McClellan lost two, passed to Gruss on the 13, and the ball went over on insufficient yardage.

**Touchdown Drive Fails**  
 Williams made eight yards for

al touchdown of the day.
