Health Notes

By Texas Department of Health

AUSTIN—Because of the economic losses they cause to industry and commerce, and the annoyance they create in homes, rats have been considered a serious menace to mankind since long before their role as vectors of disease was understood. Today at least six diseases which are transmitted to man from the rat are known to medical science, according to Dr. Geo. W. Cox, State Health Officer. These diseases include the dread plague, typhus, trichinosis, a form of jaundice, tape worm, and food poisoning. The whole history of the role rats play in the transmission of disease remains as yet unknown.

"It is necessary to public health," Dr. Cox said, "that a continuous rat control program be maintained in every urban and rural area throughout Texas. This is of especial importance on farms where rats may flourish by feeding on grain and other farm products."

The doctor pointed out that rats, like other living things, require food and shelter if they are to propagate and increase in number. Destroying their shelter and breeding places includes the employing of ratproof design in buildings, the use of ratproof materials in construction, employing ratproof methods of construction and installation, and providing for periodic inspection of buildings to insure permanent safety. This program will force the rat out into the open where its destruction may be accomplished.

Of equal importance as a control measure is the elimination of all food supplies. This consists of storing all foods in ratproof buildings or in ratproof containers, the proper storage and disposal of garbage, and careful feeding of stock to prevent waste feed from being picked up by the rats.

By observing these control measures, the community will benefit not only in the eradication of a nuisance and economic menace, but in improved health conditions and the prevention of rat-borne diseases.

Bargain Hunting In Cow Feed Popular

COLLEGE STATION.—Feeds bargains for dairy cows still are available and most of them can and should be home grown. This statement comes from G. G. Gibson, dairyman for the A. and M. College Extension Service, who advises that now is the time to lay in ample roughage supplies to fall back on when pastures play out.

Digestible nutrients are the part of the feeds that the cows uses to maintain her body and to make milk. The common ones can be grouped as proteins, fats, and nitrogen free extract (mainly sugar and starch). Minerals and vitamins are important but are not included under digestible nutrients.

Every feed contains digestible nutrients. The job of feeding dairy cows is to supply the right kind and amount as well as low cost nutrients. Analysis of the pounds of digestible nutrients that can be furnished

for one dollar at average prices from dairy feed, hay, silage and pasture shows that pasture is by far the cheapest with 150 pounds total digestible nutrients for one dollar. Silage is the second less expensive with 60 pounds digestible nutrients per dollar and hay follows closely with 50. Dairy feed brings only 21 lbs. total digestible nutrients per dollar.

The feeds that the cow was built to handle furnish the nutrients at lowest cost. The successful dairyman does just as much as possible of the job of feeding with cheap nutrients keeping in mind that each of the above mentioned feeds has an important place in any feeding program.

EXPECT INJURIES

On the basis of present figures it is estimated that one out of every 14 persons in the United States will be injured in accidents in 1947, with a monetary loss of \$5,000,000,000, or about the amount required to service the national debt.

"It's a buy!—with an OIL-PLATED engine!"

You want an eyeful of 1946 style. . . . And you're taking in many an earful on chassis features. . . . And you can have an OIL-PLATED engine—a wear-fighter!—by simply saying a mouthful. Just say you want Conoco Nth motor oil—because you want minimum carbon and sludge, plus fat mileage. Those gains depend largely on wear-resistance, and that's exactly what OIL-PLATING is for. Here is how it works . . .

In any make of new car—or equally well in your old car—OIL-PLATING will make an addition to inner engine surfaces. That's where it's fastened durably—across the path of wear—by Conoco Nth oil's magnet-like action. This power to OIL-PLATE and protect comes from the added Conoco Nth ingredient. It will add to the safety of your new car investment. . . . It will add to your veteran car's chances! . . . And the cost it adds is a few cents! Get Conoco Nth oil—from Your Conoco Mileage Merchant. Compensation Claims Filed At VA Office

Since the opening of the Veterans Administration regional office in Lubbock, June 1, the adjudication division has received 4,488 claims for compensation or pension. Of this number 3,042 have been acted upon to date, Benjamin O. Murph, chief of adjudication, announces.

This means that 3,042 West Texas veterans, or their beneficiaries, will soon know whether or not they are going to receive a pension or compensation check from the VA. About two-thirds of the claims pending adjudication are awaiting additional information from the veteran, physical examination, or service records.

One out of every four veterans of World War II has filed a claim with the VA for disability pension, records show. More than 250,000 living in Texas, Louisiana, and Mississippi have filed pension claims, of which 118,752 were awarded and 121,638 had claims disallowed.

During the past three months the VA, on a nation-wide basis, has been adjudicating about 365,000 disability claims per month. Over 2,225,000 claims are expected this year. The VA has already paid out over \$500,000,000 to disabled vets of World War II. Disability pensions range from \$11.50 a month for 10 percent disability to \$115 a month for total disability.

VA urges vets who believe they are entitled to a disability pension to file claim within one year from date of discharge. Payments on claims filed within the one-year period begin from the date of the discharge. Payments on claims filed after that period start from the date the claim is filed.

High ROP Average For Turkey Flock

COLLEGE STATION,—A south Texas flock of turkeys this year turned in an R. O. P. laying average of 70 eggs with a hatchability of 85 per cent.

The flock, containing 32 birds, is owned by Dr. J. E. Bauer of Refugio County. According to County Agricultural Agent L. A. Weiss, Jr., Dr. Bauer is one of less than a dozen Record of Production turkey breeders in Texas, cooperating with the National Turkey Improvement Plan sponsored by the Bureau of Animal Industry.

United States R. O. P. females are required to lay 40 or more eggs each in 13 consecutive weeks in order to qualify. Further, the eggs must have an average minimum weight of 30 ounces to the dozen, and eggs must hatch 70 per cent or more. Twenty-three of Dr. Bauer's flock qualified for U. S. R. O. P. by averaging 70 eggs each, and the 921 selected for hatching produced 778 poults.

County Agent Weiss says that Dr.

Bauer has three pens of birds under the Turkey Improvement Plan this year and plans to have four pens next year. They are released from the houses only for occasional exercise and green feed.

PEELING TRICK

To peel grapefruit, use a sharp knife, cut a thick layer of the top and bottom of the fruit, then cut around the fruit deep enough to remove all white membrane and expose the meat. Grapefruit will also peel easier if allowed to stand in hot water for 5 or 10 minutes, then cool and peel.

ELECT
Floyd H. Richards
District Attorney

69th Judicial District

So the People of Parmer County May Know:

FLOYD H. RICHARDS was elected County Attorney of Dallam County, Texas, in 1940. He served in that capacity until he was called to the U. S. Army.

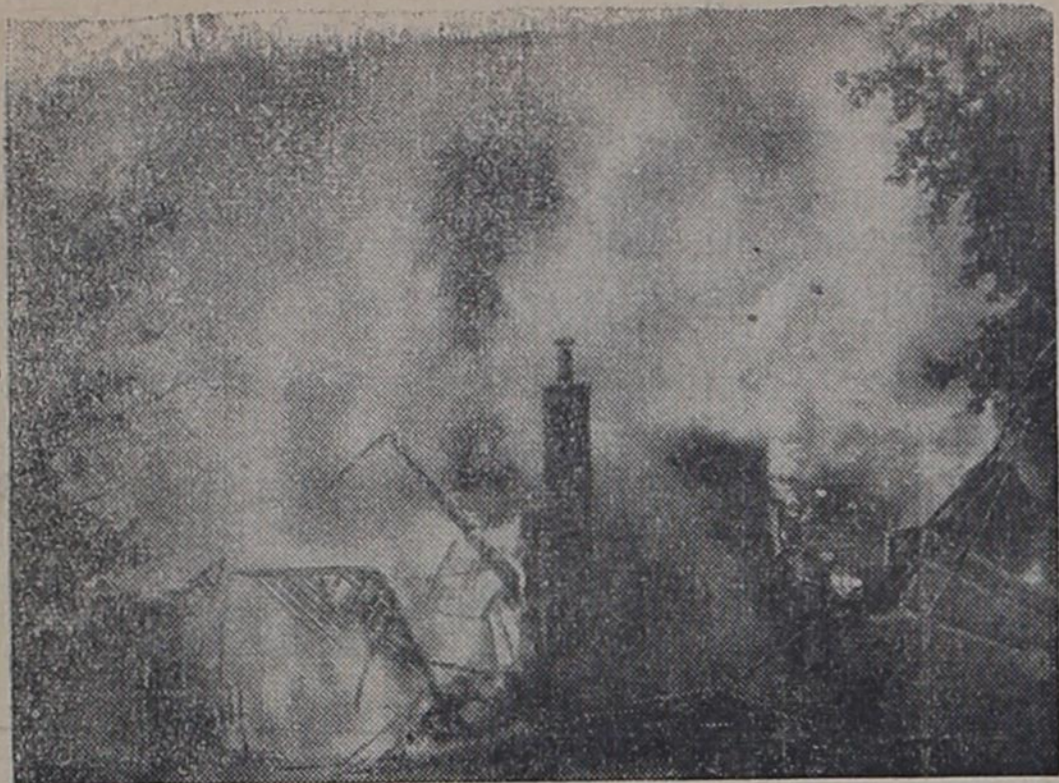

For the next four and one-half years he was in the Army; first as a bombardier, where he flew forty combat missions in the European Theatre of Operations, and later he was appointed Trial Judge Advocate (Prosecuting Attorney) at Midland Army Air Field.

He has now returned from the Army, opened a law office in Dalhart and announced as a candidate for District Attorney of this District.

We believe he has earned the promotion he asks. His experience as County Attorney and Trial Judge Advocate has qualified him for the advancement.

More Living Quarters For GI's At WTSC

CANYON—Two hundred additional ex-servicemen will find comfortable living quarters on the campus of West Texas State College as a result of action of the Federal Public Housing Authority this week in granting to the college the buildings from the Prison of War Camp at Hereford.

The buildings will provide 25 units for four three-room apartments, each which will furnish living quarters for 100 married servicemen and their families.

A barracks style dormitory will be made from another building, to accommodate an additional 100 single ex-servicemen.

These emergency housing units will be placed on the college campus at points where service lines are easily accessible. According to President Hill, they will be used as long as the housing emergency continues, and ex-servicemen will have priority in their use for the entire time.

Conner Hall, another dormitory for GI's, will be ready for occupancy this fall. It will accommodate 100 single men.

Review of Texas Exports Is Made By University

AUSTIN—Exports from Texas cities in April totaled 807,683,688 pounds, a decline of about 33 per cent from March, according to the Bureau of Business Research, University of Texas, in their first post-war release on exports.

Of this total, Galveston shipped 490,188,476 pounds, Texas City 120,683,055, and Houston 196,817,157. Texas City gained 30 per cent from March to April, while Galveston decreased 36 per cent and Houston 43 per cent for the same period.

Shipments of wheat were 165,460-540 pounds in April, compared with 553,385,920 for March for the three ports. Rice shipped from Galveston and Houston amounted to 29,518,341 pounds in April, which was little more than half the total exported in March.

Lubricating oils, carbon black, sulphur and scrap iron are among the most important commodities shipped from Texas ports. Exports of lubricating oil increased from 5,764,168 in March to 18,692,762 in April, all shipments being made from Galveston and Houston.

Machinery Output Is Expected to Increase

July production of farm machinery is expected to exceed the production peak set in January, the Civilian Production Administration reports. A recently established self-certification program providing priorities on steel for farm machinery became effective this month.

May farm machinery output increased to almost \$58.5 million, a 20 percent gain over April, due largely to the settlement of the International Harvester Company strike. Production is still handicapped by continuation of labor-management disputes at the J. I. Case Company (in effect more than 6 months) and the Allis-Chalmers Manufacturing Company (closed down since early May).

Production of wheel tractors gained sharply in May, reaching 20,934 units in May compared with 11,825 in April and 16,972 in May 1945. May output also showed a 49 percent increase in harvesting machinery, a 38 percent gain in machinery for preparing crops, and a 14 percent gain in cultivators and weeders.

Prior to World War II, Stalin was Secretary of the Communist Party.

ALLAN SHIVERS IS FULLY QUALIFIED

Senator Allan Shivers is the only candidate for lieutenant governor who has the experience and qualifications that are so badly needed to preside over the Texas Senate, the lieutenant governor's chief function. Allan Shivers gained this experience through 12 years of service as a senator, interrupted only by two years overseas duty with the Army. He is also the only war veteran seeking the lieutenant governor's office. (Adv.)

Big Peach Crop Hits Markets In Texas

COLLEGE STATION.—The Texas peach crop is estimated at 2,613,000 bushels despite June hails in some areas which cut down the yield.

The estimated yield in the early peach producing areas is 39 million bushels and the U. S. Crop is expected to total 81,065,000 bushels, only one percent under the all-time high set to market in 1945.

B. F. Vance, state director of the USDA Production Marketing Administration, said steady movement of fresh peaches from trees to kitchens was necessary if the big crop to be put to best use.

He urged housewives to take full advantage of supplies now on the market and to can, dry and quick-freeze for use later. Commercially canned fruits will not meet consumers demand for the coming year, he said.

Potatoes, tomatoes and onions are also plentiful on the market at the present time.

The legal name for the Soviet people is the Union of Soviet Socialist Republics.

LOANS SHOW DECREASE

AUSTIN.—Postwar loans of Federal Reserve banks in Texas, according to an analysis by the University of Texas Bureau of Business Research of Federal Reserve System complications, have shown an increase of 68 per cent since May, 1945, although there was a slight decrease from April to May, 1946.

U. S. bonds held by the reporting banks have increased 18 per cent over a year ago but dropped approximately one per cent from April to May of this year. Other securities increased 37 per cent.

HOUSE JOINT RESOLUTION NO. 10

Proposing an Amendment to Article 16 of the Constitution of the State of Texas, by adding thereto Section 62 providing a Retirement, Disability and Death Compensation Fund; for the appointive officers and employees of the State; limiting the amount contributed by the State to such Fund; providing for investment of Fund with certain exceptions; prohibiting recipients of benefits hereunder from receiving other direct aid from the State; authorizing counties to provide and administer such a Fund for appointive county officers and employees after favorable vote in a county election for such purpose; limiting the amount contributed by the coun-

ty to such Fund; providing for investment of Fund with certain exceptions; prohibiting recipients of benefits from said Fund from receiving other direct aid from the State; and providing for an election, necessary form of ballot, and publication on the question of adoption of this Amendment.
BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:
 Section 1. That article 16 of the Constitution of the State of Texas be amended by adding thereto Section 62, which shall read as follows:
 Section 62 (A). The Legislature shall have the right to levy taxes to provide a Retirement, Disability and Death Compensation Fund for

the appointive officers and employees of the State; provided that the amount contributed by the State to such Fund shall equal the amount paid for the same purpose from the income of each such person, and shall not exceed at any time five per cent (5%) of the compensation paid to each person by the State, and shall in no one year exceed the sum of One hundred and Eighty Dollars (\$180) for any such person.

"All funds provided from the compensation of such person, or by the State of Texas, for such Retirement, Disability and Death Compensation Fund, as are received by the Treasury of the State of Texas, shall be invested in bonds of the United States, the State of Texas, or counties or cities of this State, or in bonds issued by any agency of the United States Government, the payment of the principal or any interest on which is guaranteed by the United States, provided that a sufficient amount of said funds shall be kept on hand to meet the immediate payment of the amount likely to become due each year out of said funds, such amounts of funds to be kept on hand to be determined by the agency which may be provided by law to administer said Fund; and provided that the recipients of benefits from said Fund shall not be eligible for any other pension retirement funds or direct aid from the State of Texas, unless the Fund, the creation of which is provided herein, contributed by the county, is released to the State of Texas as a condition to receiving such other pension aid."

"(b). Each county shall have the right to provide for and administer a Retirement, Disability and Death Compensation Fund for the Appointive officers and employees of the county; provided same is authorized by a majority vote of the qualified voters of such county and after such election has been advertised by being published in at least one newspaper of general circulation in said county once each week for four consecutive weeks; provided that the amount contributed by the county to such fund shall equal the amount paid for the same purpose from the income of each such person, and shall not exceed at any time five per centum (5%) of the compensation paid to each such person by the county, and shall in no one year exceed the sum of One Hundred and Eighty Dollars (\$180) for any such person."

"All funds provided from the compensation of each such person, or by the county, for such Retirement, Disability and Death Compensation Fund, as are received by the county, shall be invested in bonds of the United States, the State of Texas, or in bonds issued by any agency of the United States Government, the payment of the principal of and interest on which is guaranteed by the United States, provided that a sufficient amount

of said funds shall be kept on hand to meet the immediate payment of the amount likely to become due each year out of said Fund, such amount of funds to be kept on hand to be determined by the agency which may be provided by law to administer said Fund; and provided that the recipients of benefits from said Fund shall not be eligible for any other pension retirement funds or direct aid from the State of Texas, unless the Fund, the creation of which is provided herein, contributed by the county, is released to the State of Texas as a condition to receiving such other pension aid."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified voters of this State at an election to be held throughout the State in November, 1946, (being the 5th day thereof) at which all ballots shall have printed thereon:

"FOR the Constitutional Amendment authorizing the Legislature to provide a Retirement, Disability and Death Compensation System for the officers and employees of the State of Texas and authorizing counties to provide such system for the appointive officers and employees of the counties of the State of Texas," and

"AGAINST the Constitutional

Amendment authorizing the Legislature to provide a Retirement, Disability and Death Compensation System for the officers and employees of the State of Texas and authorizing counties to provide such system for the appointive officers and employees of the counties of the State of Texas."

Lady Nearly Choked While Lying in Bed Due To Stomach Gas

One lady said a few days ago that she used to be afraid to go to bed at night. She was swollen with stomach gas, which always got worse when she went to bed, and the gas would rise up in her throat after she lay down and would nearly choke her. She couldn't lie flat. Had to prop herself up on pillows. Recently this lady got INNER-AID and now says gas is gone, stomach feels fine, bowels are regular and she can go to bed and sleep soundly.

INNER-AID contains 12 Great Herbs; they cleanse bowels, clear gas from stomach, act on sluggish liver and kidneys. Miserable people soon feel different all over. So don't go on suffering! Get INNER-AID. Sold by all drug stores here in Parmer County.

To the Voters of Commissioner's Precinct No. 3, Parmer County:

I am taking this method of informing you that I am still in the race for County Commissioner, despite any impressions to the contrary.

Due to a misunderstanding of filing requirements, my name will not appear on the ballot of July 27, 1946. The way to cast a vote for me will be to draw a line through the names of the candidates appearing on the ballot and write in my name.

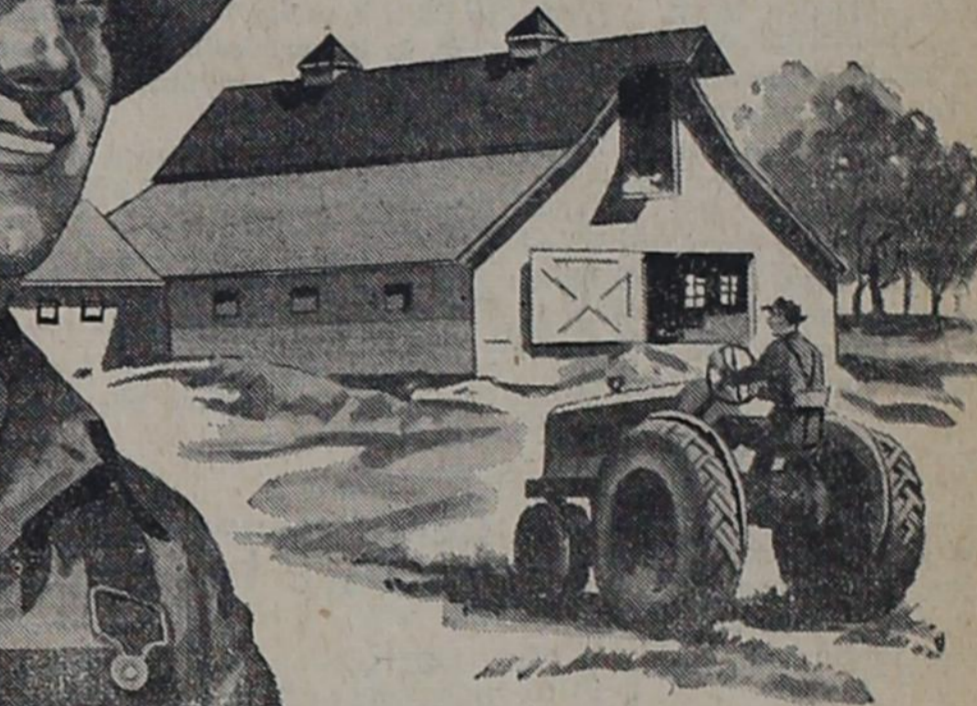

I am making the race as a "write-in candidate" at the insistence of many of the voters of this precinct, and I shall be truly grateful if you will mark your ballot in the manner mentioned.

If nominated and elected I assure you that I will, to the best of my ability, discharge the duties of the office in such a manner that the interests of the county shall be protected at all times.

I respectfully solicit your support in my behalf.

GI's Ask Questions Of Vet Administration

Q. Last year I attended school under the GI Bill and received subsistence payments of \$75 a month for me and my family. The amended GI bill, passed in 1945, increased the amount to \$90 a month? Am I entitled to retroactive payments for the increase?

A. No. Payment of increased subsistence allowances for vets with dependents went into effect Jan. 1, 1946. It provides specifically that the increased amount is payable as of the first day of the first calendar month immediately following enactment of the amended legislation. Date of enactment was Dec. 28, 1945.

Q. I am 23 years old and would like to know what my premium will be on a 20-payment NSLI policy?

A. The monthly premium on such policies at your age is \$2.05 a month per \$1,000.

Q. How long do I have before I have to convert my term insurance to a permanent form?

A. You can keep your term insurance for eight years from the time it was taken out, if taken out before January 1, 1946, or five years if it was taken out on or after that date.

Q. I have let my NSLI term policy lapse since my discharge. I have been out of the army more than six months. Can my policy be reinstated?

A. To reinstate your NSLI term policy, irrespective of the date of lapse, you are required to pay only two monthly premiums and submit a signed statement that you are in as good health as at the time of the lapse. You have until Jan. 1, 1947, to do this under the regulations.

Q. Is it permissible for a veteran to reduce the amount of his insurance policy?

A. Yes. The amount continued must be in multiples of \$500, but not less than \$1,000.

Q. Are there any restrictions for NSLI policy holders?

A. The insurance is free from restrictions as to residence, travel, occupation, or military or naval service.

Camp Houses Serve For Vets' Families

DENTON—Approximately 170 furnished and unfurnished homes at Camp Howze have been made available to North Texas State College veteran students and their families by the City of Gainesville, according to President W. J. McConnell, who announced that a possibility of more houses would be made available to the students in the fall.

Transportation problems are being worked out this week by college and Gainesville officials and members of the GIX, ex-servicemen's organization on the campus. The camp is 38 miles from the campus, and officials hope the reasonable rents charged by the City of Gainesville will enable veterans to commute to class and live as cheaply in Gainesville as in Denton.

Health Notes
by Texas Department of Health

AUSTIN—Dr. Geo. W. Cox, State health officer, is appealing to young women high school graduates to seriously consider the public health nursing profession as a career, when re-entering school this fall.

"Public health nursing offers young women opportunities for lifetime careers which are highly useful and satisfactory. Demands for professional nurses now exceed the supply in public health and other fields of work," Dr. Cox said. "Possibilities of travel, varied experience, income, and other features of the profession compare very favorably with those open to women in other careers."

Education for nursing is available in 37 schools in Texas and enrollment is now under way for fall classes, which open about September 1. All schools still have vacancies. Applicants should be graduates of high school or have some college credit, with a record of good scholastic standing, be in good physical condition, and of high moral character. An interest in people and their problems, also ability to work well with one's hands is necessary.

Prerequisite training in public health nursing includes a 36-month course including vacations. Medical, surgical, obstetric, pediatric, psychiatric and communicable disease nursing are studied. Completion of courses entitles the individual to the diploma of the school and to take State Board Examinations leading to the R. N. Certificate.

Details regarding nursing education can be secured from hospitals, physicians, nurses' organizations, and local health departments, as well as the Texas State Department of Health.

Dobbin Finally To Get Army Release

Dobbin is being mustered out of the army.

Surplus to the needs of the U. S. Cavalry, 70 gentle riding horses will be sold at auction July 25, 26, and 17 by Ross Bros. Horse & Mule Co., 124 E. Exchange, Ft. Worth, for WAA.

The horses—some race horses and some gaited—are from four to 12 years old. The majority of them are thoroughbreds of half thoroughbreds. They may be inspected in the ring at the auction.

Bidding will start at 9 a. m., July 25, when representatives of federal agencies will have first priority until 12 noon. Vets of World War II may bid for any of 50 horses plus those not purchased by federal agencies between 1 and 5 p. m., the same day. They must bring Form 63.

Representatives of RFC buying for small businesses may purchase between 9 a. m. and 12 noon, July 26. Bidding by representatives of states, political subdivisions, instrumentalities or non-profit institutions will be between 1 and 5 p. m. of the 26th. The general public is invited to attend and bid between 1 and 5 p. m., July 27.

HIGH SCHOOL CLASS

DENTON—More than 100 high school students from Texas and Oklahoma have been registered for the annual High School Vacation Band School at NTSC, to be conducted by Maurice McAdow of the NTSC School of Music, July 28 thru Aug. 10. The school, an annual affair until the war, will feature regular band rehearsals, theory and technique classes, and a recreation program of swimming and games.

"Stanky" Has Hard Job Getting Home

DENTON—Ten eviction notices in one day.

A North Texas State College resident probably holds the record for home evictions, and he's not even a war veteran.

Named "Stanky" when he moved into his first ten homes at the college, his name today has been changed to "Stinky". Sleek, black-haired, glamorous—but most unpopular, the soft, cuddly three-weeks-old child was picked up on

the Denton highway and brought to Vet Village at the college. Ten evictions followed until, at his 11th home, he was deodorized. "Stanky" is a skunk.

Miss Lois Jean Inness, Joe W. Hromsa Marry

Miss Lois Jean Inness and Joe Wesley Hromas were united in marriage at the Bovina Methodist parsonage last Sunday morning, July 21, at 9 o'clock, with Rev. Roscoe Trostle performing the impressive ceremony.

Mrs. Hromas has been the Bovina beauty operator, and has made many friends in that city. The groom comes from the Oklahoma Lane community.

After a wedding trip this week, the young couple will be in Bovina, in residence in their new home.

Surprise Birthday Social At Bovina

A lovely surprise birthday party was given at the Bovina Methodist parsonage, last Tuesday evening, for Miss Christine Cazzell.

This was in honor of her 16th birthday, and many gifts were received. Games were played on the lawn and the party was climaxed with refreshments of cake and punch.

The following were present: J. C. Buchanan, Arlo Ferrell, Bonnie and Betty Foster, June and Donald Christian, Caryetta and C. W. Grissom, La Vell Pounds, Mrs. Tom Foster, and the honoree, Christine Cazzell, and the host and hostess, Rev. and Mrs. Roscoe Trostle.

Regrets were received from Billy Derrick, Harold Lee and Kenneth Joe Lowrie, and their cousin from Collingsworth County, Alice Fay Lowrie.

Guests Of Kerseys

Mr. and Mrs. Olan Kersey, of Portland, Ore., have been here the past 10 days visiting his parents, Mr. and Mrs. A. T. Kersey, of Oklahoma Lane. The group left Sunday to visit relatives in Hobbs, N. M., going on Monday to Carlsbad, where they attended the wedding of Troy Kersey and Miss Nancy Hopkins, of Albuquerque, and also visited Mr. and Mrs. Lloyd King, also down from Albuquerque.

Home From Trip

Minister and Mrs. Lewis C. Cox and daughter, Janie, returned last week from a trip which took them to Memphis, Tenn., and points in Arkansas. Mr. and Mrs. Lewis Cox, Jr., and baby, who had been visiting here, accompanied them to Memphis and continued to Washington, D. C.

Mr. and Mrs. John Martin and family moved last weekend to Belton, Tex., to make their home. He recently resigned as head of the local AAA office.

Today's Kitchen Is Attractive and Efficient

Plaids for eye-appeal, cupboards for convenience keynote this compact kitchen. The cabinets come in a variety of styles and may be installed independently. Wooden cabinets are easily painted any color after installation.

BECAUSE the kitchen is not only the homemaker's principal workroom but the heart of the home as well, it must not only be efficient but attractive as well, the Rural Home editor of nationally-circulated Capper's Farmer points out.

Appliances—the supporting cast to the homemaker's star role—have been vastly improved, she writes. They make work easier, cleaner and save time. Ranges, refrigerators and sinks have been precision-built. They include automatic features that take over much tedious responsibility and give improved results.

"Much of our modern equipment in kitchens is being installed rather

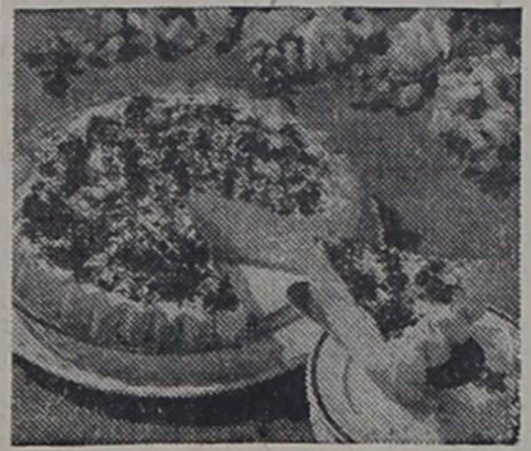

than built in," she declares. "Some manufacturers of ranges and refrigerators now have kitchen units complete with various types of cabinets and base units. These may be installed or removed independently of other pieces in the same room. When an entire kitchen cannot be purchased outright, it may be gotten a piece at a time. These units may be grouped in almost any number of arrangements, depending on size of family, the kitchen and the pocketbook."

A workable kitchen must have each piece of equipment placed in relation to other pieces, she adds. Then work moves smoothly and easily with a minimum of wasted effort.

Let's Have Another Piece of Pie!

"Let's have another piece of pie" is a family theme song, when it's Nesselrode Pie on the dessert menu, writes Marjorie Griffin, Rural Home editor of nationally-circulated Capper's Farmer.

A luscious concoction, Nesselrode Pie has a mellow flavored custard filling, she points out.

NESSELRODE PIE

1 tbs. unflavored gelatin
2 tbs. cold water
1/2 c. milk
1/4 cup sirup
1/4 tsp. nutmeg
1/4 tsp. salt
3 egg yolks, beaten

1 tsp. vanilla
3 egg whites
3 tbs. light corn sirup
1 9-inch baked pie shell
3/4 c. whipping cream
1 tbs. light corn sirup

Soften gelatin in water. Combine milk, 1/2 cup sirup, nutmeg, salt, and egg yolks in top of double boiler; cook over boiling water until thickened, stirring occasionally. Remove from heat and add vanilla and softened gelatin; stir until gelatin is dissolved. Chill until starting to become rather firm; beat with rotary beater and fold in egg whites beaten very stiff with the 3 tablespoons sirup. Turn into pie shell and chill until firm. Whip cream with remaining sirup; spread over pie. Sprinkle with grated chocolate.

Since

Last Summer

• More long distance calls are being handled at our switchboards this summer than ever before in history. The great surges of traffic which seemed so abnormal on VE day and VJ day are being far exceeded every business day now.

• Some delays are inevitable. We are bending every effort to relieve this situation as rapidly as possible, but serious shortages of facilities delay the needed circuit additions.

• Until we can provide adequate facilities we ask your cooperation in avoiding unnecessary long distance calls and in keeping necessary calls as brief as possible.

HOUSE JOINT RESOLUTION NO. 49

Proposing an amendment to Article VIII of the Constitution of the State of Texas by adding thereto a new section to be known as "Section 7-A"; providing that subject to legislative appropriation, allocation and direction all net revenues derived from the taxes, except gross production and ad valorem taxes, levied on motor fuels and lubricants and motor vehicle registration fees shall be used for the sole purpose of acquiring right-of-way for and constructing and maintaining public roadways; for the administration of laws pertaining to traffic and safety; and for the payment of principal and interest on county and road district bonds or warrants voted or issued prior to January 2, 1939, and declared eligible for debt service prior to January 2, 1945; providing that one-fourth (1/4) of net revenue from the motor fuel tax shall be allocated to the Available School Fund; providing that each county shall never derive less revenue from motor registration fees than the maximum amounts and percentages of such fees allowed to be retained by each county under the laws in effect on January 1, 1945; negating any interpretation of this amendment as authorizing the pledging of the State's credit for any purpose; providing for the submission of this amendment to the voters of this State; prescribing the form of ballot; and providing for the proclamation of the election and the publication thereof.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article VIII of the Constitution of the State of Texas be amended by adding thereto a new Section to be known as 7-A and to read as follows:

"Section 7-A. Subject to legislative appropriation, allocation and direction, all net revenues remaining after payment of all refunds allowed by law and expenses of collection derived from motor vehicle registration fees, and all taxes, except gross production and ad valorem taxes, on motor fuels and lubricants used to propel motor vehicles over public roadways, shall be used for the sole purpose of acquiring right-of-way, constructing, maintaining, and policing such public roads, and for the administration of such laws as may be prescribed by the Legislature pertaining to the supervision of traffic and safety on such roads; and for the payment of the principal and interest on county and road district bonds or warrants voted or issued prior to January 2, 1939, and declared eligible prior to January 2, 1945, for payment out of the County and Road District Highway Fund under existing law; provided, however, that one-fourth (1/4) of such net revenue from the motor fuel tax shall be allocated to the Available School Fund; and provided, however, that the net revenue derived by counties from the motor vehicle registration fees shall never be less than the maximum amounts allowed to be retained by each County under the laws in effect on January 1, 1945. Nothing contained herein shall be construed as authorizing the pledging of the State's credit for any purpose."

Section 2. The foregoing Amendment to the Constitution shall be submitted to a vote of the qualified electors of this State at the General Election held in November, 1946, at which election each ballot shall have printed thereon the following words:

"FOR the Amendment to the Constitution of the State providing that subject to legislative appropriation, allocation and direction all net revenues derived from taxes, except gross production and ad valorem taxes, levied on motor fuels and lubricants and motor vehicle registration fees shall be used for the sole purpose of acquiring right-of-way for and constructing and maintaining public roadways; for the administration of laws pertaining to traffic and safety; and for the payment of principal and interest on county and road district bonds or warrants voted or issued prior to January 2, 1939, and declared eligible for debt service prior to January 2, 1945; providing that one-fourth (1/4) of such net revenue from the motor fuel tax shall be allocated to the Available School Fund; providing and insuring that each county shall never derive less revenue from motor registration fees than the maximum amounts and percentages of such fees allowed to be retained by each county under the laws in effect January 1, 1945; and negating any interpretation of this amendment as authorizing the pledging of the State's credit for any purpose."

"AGAINST the Amendment to the Constitution of the State of Texas providing that subject to legislative appropriation, allocation and direction all net revenues derived from taxes, except gross production and ad valorem taxes, levied on motor fuels and lubricants and motor vehicle registration fees shall be used for the sole purposes of acquiring rights-of-way for and constructing and maintaining public roadways; for the administration of laws pertaining to traffic and safety; and for the payment of principal and interest on county and road district bonds or warrants voted or issued prior to January 2, 1939, and declared eligible for debt service prior to January 2, 1945; providing that one-fourth (1/4) of such net revenue from the motor fuel tax shall be allocated to the Available School Fund; providing and insuring that each county shall never derive less revenue from motor registration fees than the maximum amounts and percentages of such fees allowed to be retained by each county under the laws in effect on January 1, 1945; and negating any interpretation of this amendment as authorizing the pledging of the State's credit for any purpose."

"Each voter shall strike out with pen or pencil the clause which he

desires to vote against so as to indicate whether he is voting FOR or AGAINST said proposed amendment."

Section 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for said election and to have same published as required by the Constitution for Amendments thereto.

Shivers Predicts No Run-Off In Primary

There will be no run-off in the nomination of the lieutenant governor, says Allan Shivers, Candidate for that office.

Shivers said that during the past week he became convinced that he would receive a majority vote on primary day because "the people are insisting that political offices be filled by qualified and competent men." Shivers has been a member of the Texas Senate for 12 years, and says he is qualified by experience to become its presiding officer.

During the past week Shivers, dean of the Texas Senate, urged a program of state economy and refused to enter into a controversy being conducted by two opponents over which has and can do the most for the veterans of Texas. Shivers is the only war veteran in the race. This was in addition to his platform of long public service, experience, and his past record, which is open to public inspection at all times.

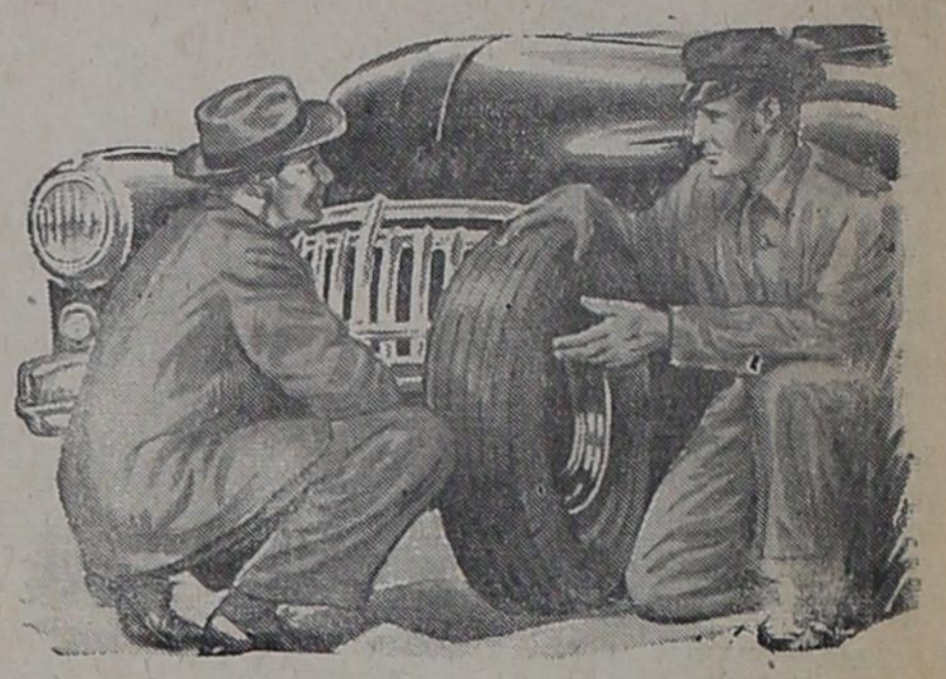

Last week's campaigning took Senator Shivers to all parts of the state. The coming week's itinerary will take him into North Texas, where he is scheduled to make 46 speeches in as many towns, and also to make five radio broadcasts.

Farm Scrap Needed by Steel Mills

Farmers can help themselves to get steel—whether it be a new piece of farm machinery, an automobile, a keg of nails, a roll of fencing or other products—by promptly taking their accumulated scrap to the nearest scrap dealer, the Committee on Iron and Steel Scrap of the American Iron and Steel Institute said today.

A grave shortage of scrap threatens to thwart the steel industry's attempts to make up the 19 million tons of steel that it has lost since V-J Day as a result of strikes and work stoppages. The scarcity of scrap is due largely to the fact that industries which usually generate scrap in large quantities have not been operating at all or operating at low levels since V-J Day.

Farms have always been a good source of scrap and during the war when drives were conducted, agricultural areas yielded large tonnage of scrap to help win the conflict.

In view of the current scrap shortage which threatens the full use of steel-making facilities, farmers are asked to take their scrap now to town and sell it to scrap dealers. If the scrap is unusually bulky, preventing its easy transportation by the farmer, the scrap dealer can be called or arrangements can be made through the local farm agent to get it to the dealer.

The steel which weeks ago should have gone through the processing and fabricating channel, is far behind schedule and, therefore, the American Iron and Steel Institute's Committee on Scrap has warned that a complete return to normal in the flow of scrap cannot occur until the supply of new steel approximates the demand.

In the ten months from August 1945 through May 1946, production of ingots and steel for castings was 22,036,000 tons lower than output over the same period of 1944-1945. Presumably, better operating conditions would have enabled at least 19,000,000 tons of that total to have been made. The 19,000,000 tons would have supplied the steel for 1,000,000 small dwellings, plus the steel for 1,700,000 automobiles, plus all the bale ties made for farmers over the last nine years, plus 50,000,000 one-quart tin cans, plus a washing machine and a stove for every one of the 1,000,000 homes mentioned above—and still there would remain 7,500,000 tons of steel for other purposes, including much needed farm machinery and equipment.

The requirements for all goods, whether for the home, the farm, transportation, etc., will be fulfilled in direct proportion to the receipt by the steel mills of scrap.

Weekly Magazine Is Planned For State

AUSTIN—For the first time in its journalistic history, Texas will have its own weekly newsmagazine when "Texas Week", published here, makes its initial appearance on the newsstands throughout the state, August 9.

Editor and publisher of the new publication is Raymond Holbrook, Plainview, a University of Texas alumnus, class of 1936, who, prior to his enlistment in the Marines in 1942, was state editor of the Amarillo Globe News. Bruce Collier, also of Plainview, and a college classmate of Holbrook, is the advertising manager. Business manager is Harry Seeligson of Dallas, where he will be in charge of one of the magazine's branch business offices.

Early this year, Holbrook, Collier and Seeligson banded together a group of veteran Texas newspapermen who, like themselves, were all vets of World War II, and formed a closed corporation. They then leased an old residence in Austin, equipped it with the best available furniture and typewriters and set up shop. Holbrook tells the story: "It seems we had all been nursing the same newspaperman's dream for a long, long time—a weekly newsmagazine for Texas. We agreed that what Texas needed was a newsmagazine of its own to record its own activities in its own way, and each of us felt that Texas was probably the only State in the Union that required, and could and would support such a publication. So, we pitched in the savings we couldn't spend on South Pacific atolls, on beachheads and in foxholes—and the result is "Texas Week".

In size and format, Holbrook said, the new magazine "will resemble 'Time' but will be more profusely illustrated with the week's outstanding news photographs, and like everything else Texas produces, it will have a unique character all its own."

Holbrook emphasized "Texas Week" is an "economically and politically independent publication, owned by the men who publish and edit it, and that its news presentation will be objective and impartial—a magazine written and edited by Texans, for Texans and dedicated to the welfare of every inch of Texas expanse."

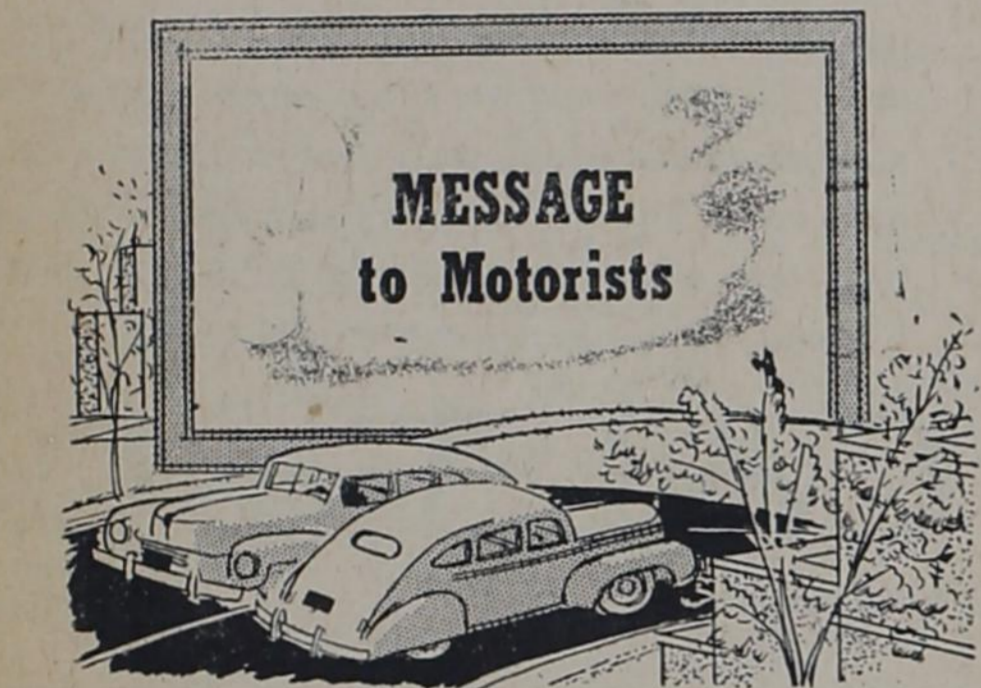

JUICE CONSUMPTION UP

AUSTIN.—Texas electric consumption rose nearly five per cent from April to May, 1946, but declined 11 per cent from consumption in May, 1945, the University of Texas Bureau of Business Research has reported.

FARM INCOME DOWN

AUSTIN—Farm cash income in Texas for the month of May was 8.6 percent smaller than that for April of this year, according to the University of Texas Bureau of Business Research.

The income for May, 1946, was almost 14 per cent below that reported for May last year. District 4, the black or grand prairie area, is the only one reporting an increase from April to May this year. This district comprises 21 counties and includes the cities of Dallas, Fort Worth and Waco.

Texas' Oldest Voter

Senator Allan Shivers, candidate for Lieutenant Governor, of Port Arthur, Jefferson County, Texas, receiving a check for his filing fee from Capt. Roderick Donald Steele, Texas' oldest voter. In presenting the check, Captain Steele, representing the citizens of Port Arthur, expressed the voters' appreciation for his 12 years faithful service to the district and reminded him that he was the youngest senator to take the oath of office when first elected to the Senate. (Shivers is now dean of the Senate).

Captain Steele for many years has refused to tell his age, but old-timers say that he is now 106. He still works daily as a marine surveyor, climbing over ships to inspect their cargoes.

A JOINT RESOLUTION S. J. R. NO. 5

Proposing an amendment to the Constitution of the State of Texas authorizing the Legislature to appropriate Seventy-Five Thousand (\$75,000.00) Dollars, or so much thereof as may be necessary, to pay claims incurred by John Tarleton Agricultural College for the construction of a building on the campus of such college pursuant to deficiency authorization of the Governor of Texas on August 31, 1937.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That the Constitution of the State of Texas be amended by adding a new section as follows:

"The Legislature is authorized to appropriate so much money as may be necessary, not to exceed Seventy-five Thousand (\$75,000.00) Dollars, to pay claims incurred by John Tarleton Agricultural College for the construction of a building on the campus of such college pursuant to deficiency authorization by the Governor of Texas on August 31, 1937."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at the next general election to be held on the first Tuesday after the first Monday in November, A. D., 1946, at which all ballots shall have printed thereon:

"FOR THE CONSTITUTIONAL AMENDMENT AUTHORIZING THE LEGISLATURE TO PAY FOR BUILDING CONSTRUCTED FOR JOHN TARLETON AGRICULTURAL COLLEGE," and

"AGAINST THE CONSTITUTIONAL AMENDMENT AUTHORIZING THE LEGISLATURE TO PAY FOR BUILDING CONSTRUCTED FOR JOHN TARLETON AGRICULTURAL COLLEGE."

Each voter shall mark out one of said clauses on the ballot, leaving the one expressing his vote on the proposed amendment.

Section 3. The Governor shall issue the necessary proclamation for said election and have the same published as required by the Constitution and laws of this State.

Section 4. The sum of Five Thousand (\$5,000.00) Dollars, or so much thereof as may be necessary, is hereby appropriated out of any funds in the treasury of the state, not otherwise appropriated, to pay the expenses of such publication and election.

PREVENT LUMPING

A good way to prevent starch from lumping is to add the starch, after it has been mixed with cold water to a paste, then to boiling water, instead of the other way around.

FARWELL, TEXAS

Locals Meet First Real Contenders

The local softball club, coached by Seth Rollins and sponsored by the Henderson Grain & Seed Co., met its first real competition, Monday night, when they went up against the strong Railways Ice Company aggregation of Clovis.

Keeping their record clear, however, the locals nosed the ice boys out by a score of 12-10 in a full seven-inning contest. Facing the Railways crack hurler, Blaylock, Coach Rollins boys failed to even so much as hit a foul ball during the first two innings of play, and things definitely didn't look so good for the locals during the first stages of the game.

Finally, however, the Henderson sluggers got to Blaylock and eked out another victory.

W. T. Meeks pitched and Travis Rundell caught the entire game.

Blaylock also helped the cause of the ice makers in slamming out a triple. All local players finally got at least one hit with Pipkin heading the list with a triple and a single to drive in several scores.

Last Friday night the Texico-Farwell lads met and defeated the 20-30 Club of Clovis by a handy margin of 7-17 in a five-inning contest.

On Friday night of this week, the local sluggers will meet the Herford All Stars at Clovis, in what promises to be a good match. The game will be called at 8:30, Texas time, on Wildcat Field in Clovis.

TWO ARE ACCEPTABLE

Mrs. Bess Henneman, clerk of the local draft board, reported today that Floyd Rector, Farmer selectee, was found acceptable for general military service, and Woodie McDermitt, transfer from Curry county, was acceptable for limited military service, following their pre-induction physicals at Oklahoma City, the past week.

DR. JOSEPH COHEN, who opens a revival at the Bovina Baptist Church on Sunday, July 28.

Revival Opens Sunday At Bovina Church

Rev. Fred Stumpp, pastor of the Bovina Baptist Church, extends a cordial invitation to everyone to hear Dr. Joseph Cohen, noted Christian Jew, speak in a series of special services beginning Sunday, July 28.

Dr. Cohen has traveled extensively. He was in Paris the night France fell, in Russia when Europe was being laid waste by the war, and in Palestine but recently. He is an eyewitness to much that has transpired in Europe the past 15 years, having made five trips during this period.

Cohen has been in evangelistic work for over 25 years, and Rev. Stumpp says the Bovina Baptist Church is especially fortunate in securing his services.

Royce Curtis, former Navy chaplain's assistant will direct the congregational singing and special music. Curtis spent several years overseas, directing a splendid choir that became nationally famous. At present he is directing a music school at the Bovina church, holding sessions for juniors and intermediates in the afternoon at 2:30, and sessions for young people and adults each evening at 8:30.

Revival services will be held twice daily, beginning Tuesday, July 30, at 10:30 a. m. and 8:30 p. m.

Irrigation Practices To Draw ACP Checks

Recognizing the fact that Parmer County is slowly edging away from strictly dry-land farming, two irrigation practices have been approved for ACP payment in this county, Harold Carpenter, of the AAA office, has been notified.

The supervisor added that the county office some time ago requested approval of irrigation practices to be included in conservation payment to farmers.

The first practice, he said, is leveling of land for irrigation purposes, which will pay \$1 per acre. The other is reorganization of irrigation systems, applicable only to old setups, he pointed out. This practice includes construction of ditches, culverts, drop-boxes, etc., with each subdivision drawing certain pay.

As with other ACP practices, the two new ones must have prior approval of the county committee before they are eligible for payment.

License Plate Sales Exceed Last Year

A checkup made by Mrs. Bess Mansfield, deputy tax collector, revealed on Monday that a total of 1183 passenger car license plates for 1946 had been issued to Parmer County drivers.

In comparison, Mrs. Mansfield pointed out that the registration at the same time last year totaled 1129, showing a climb of 66 this year. She added that an ordinary year would see "about 1100" licensed passenger cars in this county, which indicates that the 1946 may be the highest of all time.

Farm tag registrations show a drop, with 524 being issued for 1946, as against 576 for the same date in 1945. The commercial plates are out ahead this year with a total of five, with 140, compared to 135 for 1945.

Wheat Insurance Plan Is Outlined By AAA

Federal crop insurance on wheat will be available again this year to producers, Harold Carpenter, head of the local AAA office, reported today, adding that no definite date for taking applications has yet been announced.

Carpenter did, however outline the program, which this year has special provisions for producers on irrigated land, and for those who summer fallow.

The crop can be insured for either 50 or 75 percent coverage, based on the average yield for 1932-42, which figures are on file at the AAA office.

On year-around farms, cost of insurance is 1.7 bushels wheat for 75% coverage, and .9 bushels for 50% coverage. On irrigated land, the rate is the same, but the yield is adjusted upward, the supervisor said, while the same rate also applies to summer fallowed land, but the average yield is increased by two bushels per acre.

Child Falls Under Car, Receives Injuries

Little Tommie Vaughn, son of Mr. and Mrs. L. E. Vaughn of Rt. 2, Clovis, and nephew of Mrs. Sam Randol of Texico, sustained a fractured hip and possible internal injuries, Sunday, when he fell from a car and was run over.

The child, 2½ years old, was in the back seat of a car driven by H. W. Harmon, of CAAF, along with Harmon's son. Harmon was backing the car when Tommie tumbled out and rolled behind the wheels. The child is confined in a Clovis hospital for treatment.

Church Of Christ Will Open Revival, Aug. 2

A protracted revival meeting will begin at the local Church of Christ on Friday, August 2nd, continuing through Sunday, August 11th, it has been announced. Minister Hershel Dyer, who was here in a meeting two years ago, will be the evangelist, and the local minister, Lewis C. Cox, will have charge of the music.

Services are to be held twice daily, at 10 a. m. and 8:30 p. m., Texas time, and the public is extended a cordial welcome to attend.

DEATH REPORTED HERE

The death of Mrs. Will M. Thompson was reported to friends here the first of the week. She died at the family home in Bryan, Texas, on July 20 and the body was carried to Okmulgee, Okla., where funeral services are scheduled for Thursday of this week. She was the wife of Minister Will M. Thompson, Church of Christ minister, who was well known in Parmer county, having conducted a number of revival meetings in this county during the past several years.

All Work, No Money Is No Fun, She Says

The hired hand had a new car. The boss had an extra new tire. After considerable argument, she persuaded him to sell her the tire for a spare, as the new car didn't have one.

While she was gone to get the tire mounted, the boss figured up her check for the week. So much for withholding, social security; so much for the tire, plus some more for a new shirt and the tax thereon (for her husband) . . . and when the final showdown came, she owed the boss 66c for the week's work.

1947 Program To Be Adapted To Needs

County Agricultural Conservation Committees are being given increased responsibility for adapting the 1947 conservation program to local needs, committeemen have been informed.

"Under next year's program, our county agricultural conservation committees will be authorized to choose a sound water and soil conservation practice which meets a definite local need but is not included in the national conservation outline," C. V. Hemphill, New Mexico director of the PMA, explains.

The increased responsibility for farmer-committeemen and farm and ranch operators to shape the 1947 ACP to fit local needs should help county producers to make some needed shifts from farming practices necessary for quick wartime production, to those of greater long-term value.
