

Tank Corner in 'Arsenal of Democracy'

This is a view of the Chrysler plant in Detroit turning out land battle-ships by the hundred. Imposing as it is, this is just a cog in the mighty machine now in high gear turning out the sinews of war to defeat the Axis. Production has now hit its stride and the tanks roll off, night and day, in a steady stream.

Storage for Wheat Still Acute Here

Heavy Rains Fall in Parts of County

Men With Families Not Exempt to Army

Contrary to early interpretations of the amended Selective Service Act, members of the Local Board today revealed that men with dependents would still be subject to military service under the new law passed by Congress.

The Local Board received a telegram from state headquarters last week ordering all married men deferred temporarily, and as a result of this information three married registrants who were scheduled to be inducted from Parmer county in the July call were set aside and others called in their places.

Information received at the Local Board this week plainly states that men with dependents will still continue to be drafted. All men eligible for military service who have dependents, will be classified in four categories. Those listed in category No. 1 will be the first to be called, regardless of order numbers.

Board members said this week that the single young men listed in the third registration would probably be exhausted before the men with dependents would be called up.

In a telegram from state headquarters received Monday, the Local Board was instructed to fill all calls regardless of the dependency status, taking those listed in category No. 1 first.

Reclassification of all men listed at present in 3-A will be taken up this week by the Local Board, with the view of placing all registrants in this class in their proper categories.

Retailers Must Have Price List For Board

All retailers in Parmer county must, by July 3rd, have turned in to the local Rationing Board their list of prices on all living commodities which were affected by the recent price ceiling act, chairman John Armstrong has been advised.

This information came from Mark McGee, state director of the Office of Price Administration, and was received at the local office last weekend. Miss Irene Sachs, clerk of the board, reports.

Miss Sachs stated that the letter asked all retailers to report to the board "by July 1st" which is today (Wednesday).

She emphasized the fact that all Parmer retailers, big or little, who handle any of the commodities affected by the price ceiling act—and that includes foodstuffs, tires, oil, and other innumerable articles—should make their report to the office of the board in Farwell as soon as possible.

Martin Comes Here As Head of Triple A

John Martin, formerly of Kent county, has been named as administrator of the Parmer County Agricultural Adjustment Administration, succeeding Keltz Garrison, who left on Tuesday for the same position in the Crosby county office.

Having been connected with the Triple A for the past three years, and being a native of the Texas Plains country, Martin comes to the local office highly recommended.

He moved his family here on Tuesday and this (Wednesday) morning took over his duties in the county office.

Garrison, tendered his resignation some two weeks ago, and moved his family to Crosbyton on Tuesday. He had served as administrator in Parmer county for a little more than a year.

FIRE THREATENS

A trash fire spread to a vacant storeroom at the rear of the Newton Cafe location Thursday afternoon, setting fire to the building. It was discovered before it gained much headway and soon extinguished by the Texico fire department.

Action in Black Sea

Colonel Harry A. Halverson, left, commander of the B-24's which were reported in action in the Black Sea area, shown discussing last minute details with another officer before taking off from an air force base in the United States.

Heart Attack Brings Death to Texico Man

J. A. Jones, age 56, for a number of years a citizen of Texico where he has been associated with his sons in the operation of the State Line Wrecking Yard, died of a heart attack in the family home shortly before noon on Wednesday of last week.

After a forenoon of active duty about the place, he complained of not feeling well and went home to lie down. Death came unexpectedly less than an hour after he went to his home.

Funeral services were held at the Church of Christ Friday afternoon, conducted by Minister L. C. Cox and burial took place in the Texico cemetery under the direction of the Steed Mortuary.

He is survived by his widow, two sons and five daughters. Both sons, Frank and Silas, live in Texico, and the daughters are: Mrs. Lena Burnett Friona; Mrs. Pearl Goforth, Black; Mrs. John Hudson, Farwell; Mrs. Nora Sharp, Clovis; and Mrs. Cora Burnett, Farwell.

Inductees For July 17 Listed By Clerk

Mrs. Bessie Lee Henneman, clerk of the Parmer County Selective Service Board, today released the names of the selectees from this county who will be used to fill a call on July 17. She said that five of the registrants listed below will be transferred to other boards for final type examination before actually being inducted.

Those scheduled to fill the July 17 call were announced as follows:

William Jefferson Banks, Marvin Elbert Key, Milton Walling, Joseph Milford Alexander, Thomas L. Whaley, Floyd Lee Spring, Chester Green Butler, S. V. Chitwood, James Clovis Griffin, Charles Victor Peach, George Brooks Landrum, John Robertus Carney, William Bruce Whitley, Donald Dean Hastings, James Ramond Runnels, Jr., Leroy August Dennis, Rupert Charles Arrington, Ernest Duane Justice, Lowell Purvis Henington, Joseph William Veazey, James Joshua Griffith and Cecil Lee Vestal, Jr.

Transferred to other boards for induction.

"Are you sure it will shrink?" asked a sweet young thing of the saleslady while examining a skimpy swim suit.

Present indications are that many thousands of bushels of the Parmer county 1942 wheat crop—the best in years—will be piled on the ground before the harvest is complete.

This conclusion was reached here this week after a check-up with local elevator and storage men. None of the local elevators are able to secure storage, they reported, and the large wheat storage warehouse opened here last week by E. M. Deaton and associates ceased taking grain on Monday.

Deaton said that an unloading dump was being installed at the warehouse and when installation is complete, he estimates that he will be able to accommodate an additional 50,000 bushels.

Farm Storage Scanty
Private storage on the farms is very limited, it is agreed. More than 100 pre-fabricated grain bins being offered by the Commodity Credit Corporation are expected to relieve some of the storage problems. But it was pointed out that these bins would not likely be erected until the rush of harvest is over, during which time much of the wheat will necessarily be piled in the open.

Grain men here today warned farmers against bringing in moist grain, since the rains of early this week. "We cannot handle wheat under any consideration that shows a moisture content of more than 14%," E. M. Deaton said, adding that the farmer would be required to take the grain back home if the moisture content shows to be in excess of that amount.

High Yield For Crop
Reports of abundant yields began to come to the surface this week as the harvest struck its full stride over the weekend. Practically all yields are yielding as high as 20 bushels to the acre, with many showing a yield of around 30 bushels. In some cases the output is reported as high as 40 to 42 bushels to the acre.

Millers, who usually afford a good outlet for local wheat, are reported by local grain buyers to be out of the market for the present and storage facilities in the large grain terminals of the southwest have been reported filled to overflowing for several days.

C. M. Henderson, local grain man, predicted that it would be several weeks before the congested condition of moving the wheat would be cleared up. It was his opinion that farmers would be compelled to begin piling their grain on the ground when combining is resumed after the shut-down occasioned by the rains of this week.

"I've spent \$200 on telephone and telegraph bills trying to locate storage—to no avail," Henderson said.

More Storage In Prospect
Meanwhile, Deaton has applied for permission to remove 800 bales of cotton from a large cotton warehouse in Farwell to make room for wheat storage. He gave it as his opinion that permission would be granted, and said that if so it would make room for at least another 100,000 bushels of grain.

MOTOR VEHICLE STAMPS

The new Federal motor vehicle stamps are now on sale at both local postoffices.

These new stamps cost \$5.00 for all types of motor vehicles and must be properly displayed on and after July 1st.

Sparing the steering rod never spoiled any child.

'Hopper Poisoning Slows for Harvest

County Agent Garlon A. Harper stated this week that the grasshopper poisoning program, launched in this county two weeks ago, had slowed down during the past few days due to the push of wheat harvest activities.

In talking over the hopper situation Harper said that the type of pests found in this county is known as the "Little Mexicana" and warned that they produce two crops of eggs during the year, rather than laying only in the late fall for spring hatching.

With this in mind, the county agent stressed the importance of getting after the hoppers as soon as possible in order that they may be eradicated—or at least minimized—before they can lay their summer crop of eggs. These eggs he added, will if not prevented, result in another invasion on the fall wheat fields of the county.

Harper bluntly predicted that the current crop would soon move on row young rows and unless halted, "serious damage will result both to those crops and fall wheat". At present, he said, some damage has been noted on the ripe wheat but not an alarming amount.

Persons wishing to obtain the poison mash may do so by contacting the distribution plant at Bovina, at a cost of 20c per hundred pounds. Officials again warned that the poison should be put out late in the evening or very early in the morning, since the pests will not "take" to the mash unless it is moist.

Some Stores Will Close On Fourth

A checkup the first of the week revealed that some local business firms will be closed on July 4th, while others, in deference to the current harvest rush, will remain open for the day.

Both the Texico and Farwell postoffices—for the first time, so far as is known locally—will be open all day, although rural carriers will not make their regular runs. The local AAA office force may also be kept at work during the day, officials indicated on Tuesday.

On the other hand, the Security State Bank, local produce houses, beauty parlors and offices in the county courthouse will observe Independence Day by closing their doors.

FOUR CARS DERAILED

Four empty flats and a boxcar were derailed in the local yards of the Santa Fe tracks Saturday night, delaying traffic until early Sunday.

One of the derailed cars sideswiped the water crane in the local yards and broke it off, with the result that the Santa Fe water tower was soon emptied.

This is the second derailment that has occurred in the local yards in recent weeks. The other wreck happened three weeks ago when eight boxcars jumped the rails on a sidetrack.

Premium Reduction for Small Loss

COLLEGE STATION—Some Texas wheat farmers will pay less for wheat insurance on their 1943 crop. Under a new reduction plan, announced by Federal Crop Insurance Corporation, individuals' premiums will be cut as much as 50 percent provided premiums paid during un-

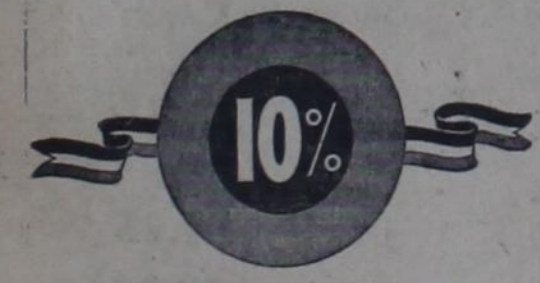

broken series of crop years, less indemnities, equal or exceed insured production for 1943, E. R. Duke, state wheat insurance supervisor, explained.

Only those wheat farmers who have insured wheat crops for an unbroken series of crop years up to the present, with few or no losses, can qualify for lower premiums. Maximum reduction in premium rates, which is 50 percent will be given farmers only in those years when no losses occur.

If premiums which have been paid during unbroken series of crop years are slightly less than 1943 insured production, premium cost for 1943 crop year will be counted toward the premium balance and a proportionately lower cost will be given.

In no case will farmers be granted the lower rate simply because they have built up a premium balance from large operations and shifted to lower operations. If operators have materially reduced acreages or lowered insured production for any other reason, adjustments will be made.

Purpose of reduced plan is to distribute cost of insurance more equitably by recognizing smaller risk on farms where few or no losses have occurred, Duke said.

Are you entitled to wear a target lapel button?

You can ONLY if you are investing at least ten percent of your income in War Bonds to do your part on the home front toward winning the War.

The target lapel button is a badge of patriotism, a badge of honor. You should feel proud to display it. The buttons are obtainable at your plant management, at the office of your local War Bond chairman, or at your Payroll Savings Window where you authorize your ten percent payroll deductions.

Enlist in the ten percent War Bond army and do your part to win the War.

Bins Still Available for Storage on Farm

There are still plenty of pre-fabricated bins available from the Commodity Credit Corporation for use in farm-storing wheat, officials at the local AAA office said today.

Pointing out that practically every elevator in this area was "full to running over" at present, with wheat harvest just now hitting full stride, officials advised that farmers who had not made other arrangements for storing their crop and planned to make application for one of the bins do so immediately in order that they will be on hand in the near future.

The bins come in two sizes, holding 1643 and 1892 bushels and selling at \$225 and \$270 respectively, freight prepaid to county shipping points. They are made of wood, and come ready to set up on the farm, com-

plete with nails, hinges, hasps, and paint. The farmer will be out the expense of laying a foundation in addition to quoted cost of the bin, and arrangements may be made for buying the bin via a note to the Corporation.

Last weekend, some twenty bins arrived in Friona, and have been set up ready for use, it is reported here. Additional shipments are expected to bring in more of the 100 bins ordered within the next few days.

At present, the government loan rate on farm-stored wheat is about 30 cents above the market price, officials pointed out, giving another incentive to storing the crop on the farm.

Applications should be made at the AAA office in Farwell.

Bovina Happenings

Mr. and Mrs. Clarence Day and son, of Friona, were business visitors here Tuesday.

Lester Rhinehart who is employed in Amarillo visited his family over the weekend.

Mr. and Mrs. Sherman Kelly of Dumas, Okla., visited in the Aubrey Rhodes home Monday.

Miss Rose Mary Plumlee of Amarillo is spending the week with Miss Martha Williams.

L. P. Starr of Amarillo spent the past weekend visiting his family.

Mrs. J. T. Swim and baby of Roaring Springs, are visiting here this week.

Mrs. W. A. Hampton of Paradise, Texas, visited her brother W. E. Williams the past week.

Miss Donalita Hastings returned Thursday from visiting her sister, Mrs. J. T. Swim.

Corp. Elmo Scott, who has been in training in Southern California, has been spending this week with his mother. Elmo is being transferred to Camp Barkeley at Abilene, where he will work in the medical detachment.

Jack Carr of Amarillo, is here harvesting his wheat crop.

John Aldridge of Farwell visited friends here Sunday.

Married On Sunday

A. G. White and Lillie Rhodes were quietly married on Sunday, June 21 by Rev. Joe Banks of Canyon and spent the following week in Ruidoso, N. M. They are now at home on the farm near Bovina.

LAZBUDDY

Mrs. J. E. Vaughan and Mrs. Willie Steinbock left for St. James, Mo., last Wednesday. Mrs. Vaughan was called to the bedside of her mother, who is very ill.

Miss Lillian Treider spent the past two weeks at Clovis visiting her sister, Mrs. Roy Cheyenne.

Mrs. Alma Steinbock will be hostess

Lost Your Social Security Number? Go To Postoffice

"Some workers are under the mistaken impression that when a social security account number card is lost a duplicate may be obtained by writing a letter or sending a telegram to the Social Security Board field office from which the number was secured," said Dewey Reed, manager of the Amarillo office this week.

He explained that if a worker wishes a duplicate account number, Form SS-5, which may be secured from a post office or a Social Security board office should be completed exactly as the original application with an additional statement that a duplicate number is desired.

Reed's statement was made because of requests, particularly telegrams, which have been coming into the office from persons needing duplicate account numbers.

The Form SS-5 is easily completed and need not be mailed to the office from which the number was originally secured since any Social Security Board field office will take the proper steps for securing the duplicate. It is necessary to have the same information as originally given in order that the worker's account number will not be confused with those of others having the same or similar names.

Secretary Wickard To Visit Texas College

COLLEGE STATION—Secretary of Agriculture Claude R. Wickard will spend 24 hours on the Texas A. & M. College campus, from noon July 3 to noon July 4.

According to Director H. H. Williamson of the Extension Service of the college, the secretary accepted an institutional invitation from President T. O. Walton to be the guest of the college, and agreed to address a mass meeting in Kyle Stadium at 8 p. m. on July 3. He will dine with the cadets in the mess hall at 6 p. m.

Secretary Wickard will be the third man holding his cabinet office to visit the college campus in its 67 year history. Others were James Wilson, who was here nearly 40 years ago, and Henry C. Wallace, father of the vice president, who visited the college about 20 years ago.

The secretary will tour the campus and inspect the college buildings on the morning of July 4. It is expected that he also will hold information conferences with various farming and livestock groups as well as with representatives of all the governmental agencies operating under direction of his department.

Since Mr. Wickard's visit will be of an official nature, the usual military ceremonies accorded a cabinet member will be observed in his honor.

New York State was the scene of 92 of the military engagements fought during the Revolutionary War.

Dairy Report Given for Tri-County Assn.

A detailed report on the Tri-County Dairy Herd Improvement Association for the month of May was released this week by County Agent Garlon A. Harper. The report came from Walter C. Baldock Jr., official tester for the association, and is as follows:

Herd's averaging over 31.0 lbs. butterfat: Holstein herd owned by D. J. Brown Texico, 39.4; Shorthorn herd owned by K. M. Wilterding, Muleshoe, 40.1; Jersey and Holstein herd owned by J. A. Wallace Jr., Clovis, 35.1.

Champion Butterfat Producers: a Guernsey owned by Leslie Pattison, Clovis, 72.2; Jersey owned by C. W. Smith, St. Vrain, 69.4; Jersey owned by J. H. Breshears, Portales, 66.0; Jersey owned by Dean Pattison, Clovis, 58.7; Jersey owned by D. Pattison, 56.3; Holstein owned by D. J. Brown, Texico, 65.3.

Champion milk producers: Holstein owned by W. E. Martin, Texico, 1426; Shorthorn owned by Wilterding, 1414; Holstein owned by Martin, 1355; Jersey owned by Brown, 1345.

Jerseys Producing over 50 lbs. butterfat: "Gladys" owned by Smith, 69.4; "Shorty" owned by Breshears, 66.0; "Lady" owned by D. Pattison, 58.7; "Beauty" owned by D. Pattison, 56.3; "Lorain" owned by Tom Haislip, Rogers, 55.9; "Spic" owned by Smith, 55.1; "Yellow" owned by B. E. Brumley, Hereford, 55.0; "Flossie" owned by Brumley, 54.4; "Goody" owned by Martin, 54.0; "White Tail" owned by L. Pattison, 53.7; "Brownie" owned by T. R. Davis, Hart, 53.4; "Edith" owned by D. Pattison, 52.2; "Beauty" owned by Brumley, 50.9.

Milking Shorthorns producing over 40 lbs. butterfat: "Maggie" owned by Wilterding, 50.9; "Vera" owned by Wilterding, 42.9; "Juliet" owned by John R. Hadley, Texico, 40.7.

Holsteins producing over 50 lbs. butterfat: "Tippie" owned by Brown, 56.3; "Whitey" owned by Martin, 56.0; "June" owned by Brown, 55.1; "Dot" owned by Martin, 51.4; "Lady" owned by Wallace, 50.9.

Four Gallon or better Holsteins: "Tippie" owned by Brown, 1481; "Pet" owned by Martin, 1426; "Dot" owned by Martin, 1355; "June" owned by Brown, 1345; "Whitey" owned by Martin, 1274.

"Lady" owned by Wallace, 1274; "Buttercup" owned by Kraus & Bohannan, Clovis, 1184; "Polly" owned by Brown, 1144; "Carnation" owned by Kraus & Bohannan, 1128; "Beauty" owned by Brown, 1085; "Muley" owned by Kraus & Bohannan, 1066.

Four gallon or better Jerseys: "Brownie" owned by Davis, 1336; "Scrapper" owned by Brumley, 1247; "Beauty" owned by Brumley, 1184; "Silvia" owned by L. H. Cooper, Portales, 1182; "Black Bob" owned by J. R. Schlenker, Portales, 163; "White Tail" owned by L. Pattison, 1144; "Slim" owned by Schlenker, 1122; "Lady" owned by D. Pattison, 1109; "Horney" owned by Wallace, 1094; "Beauty" owned by Schlenker, 1088; "Mag" owned by Cooper, 1986; "Daisy" owned by Cooper, 1083; "Spic" owned by Smith, 1082.

Four gallon or better Milking Shorthorn: "Maggie" owned by Wilterding, 1414; "Vera" owned by Wilterding, 1342; "Ruth" owned by Wilterding, 1113; "Helen" owned by Templar Bros., Muleshoe, 1079; "Juliet" owned by Hadley, 1072.

SANTA FE CARLOADINGS

The Santa Fe System carloadings for the week ending June 27, 1942, were 25,894 compared with 27,348 for the same week in 1941. Received from connections were 10,638 compared with 7,789 for the same week in 1941. The total cars moved were 36,532 compared with 35,137 for the same week in 1941. The Santa Fe handled a total of 34,934 cars during the preceding week of this year.

We're all Telephone Neighbors

...Uniting the Country in Spirit and Speed

For the duration, it will be necessary to share the telephone equipment now available so that vital materials like copper, zinc, rubber and others can go into war production. A "good neighbor" policy gives better service to all persons using the telephone. You can help by remembering the following:

- 1 Hold the line only as long as reasonable. Long conversations may needlessly delay urgent messages. Telephone lines to war industries, army camps, government offices, and to your home are all part of one great interconnecting system.
- 2 Answer as promptly as possible.
- 3 Be sure of the number before you call.

Your cooperation helps speed up the biggest job the country has ever faced

Canadian Flyers To Finish At Lubbock

LUBBOCK—Don't be surprised if you should suddenly see on the street some new uniforms, the pewter blue of the Royal Canadian Air Force complete with white bands on the caps and white propellers on the shoulders.

At the large Lubbock Army Flying School five re-patriated American youths have reported to finish training for their wings and commissions. The fliers—J. E. Williams of Highland Park, Mich., A. J. Reynolds of Camas, Wash., A. C. Way of Madison, Wis., R. P. Dresp of North Hollywood, Calif., and J. B. Elliott of Grand Rapids, Mich.—have been training with the RCAF for the last few months and under a new agreement have returned to their native country to fly with other Americans.

Keen as these cadets are on Canada and their training there, they were eager to get back to the United States and qualify for their commissions here. In fact, all five of them turned down ten-day leaves they might have asked for in order to come direct to Lubbock from Winnipeg.

One high point of their months in Canada was the dress review of their squadron before the Duke of York, brother of the King of England, who was traveling through Canada at the time. The Duke of York singled out the fliers from the United States and seemed particularly interested in talking with them about comparisons and contrasts between flight training in the two sister American countries.

"Canadian fliers are more American than British," the boys report. "That pip-pip, stout-fellow stuff that the Hollywood producers dream up as the typical Canadian flier is purely a groundless myth. They just don't exist."

Flying in weather when the temperature dipped as low as 58 degrees below zero at Manitoba, the boys found the whole training period one of toughening and rigorous adjustment.

During the past few months the Canadian flying forces have developed into virtually an international squadron. Besides the many United States volunteers in the period before Pearl Harbor, aviators from such sister republics as Argentina and Mexico are now flying with the RCAF, as well as a generous sprinkling of Hollywood glamour boys.

BATTLE THE GARDEN PESTS

By Elsie Cunningham
Home Demonstration Agent

Many people have been coming into the office these past few days asking for help on insect control. As you know the insects and diseases that may infest gardens are so numerous that it is impractical to cover them in a column of this kind except in a very general way, but perhaps this will help.

There are two main classes of insects—The chewing or biting insects and the sucking insects. As their names indicate, they are classified according to their manner of taking food.

Caterpillar, beetles, grasshoppers and grubs have biting mouth parts and feed by biting off, chewing up and swallowing the substance of the plant. Calcium arsenate, or arsenate

A SOUP SUPPER is Easy Meal to prepare on warm day —yet it provides Hot Nourishing Food

says Dorothy Greig

Cream of Chicken Soup, Summer — a satisfying soup around which to build supper on a warm day.

Of course, any meal tastes better, and is better, if it includes some hot food to keep digestions happy.

So, on a warm day, when you don't want to spend a lot of time fussing in the kitchen, why not build supper around a hot and savory soup. It tastes good, nourishes and warms, stimulates digestion—and perhaps the world's easiest hot dish to prepare. Just open the can, add an equal quantity of milk or water—heat and serve. That plus salad or sandwiches and fruit is a meal.

Hot soup, too, is first aid in a very real sense if you must whisk together quick meals at odd hours for a man on war production. It is quickly energizing, helps put heart, spirit and endurance into a man.

Soup is delicious simply served according to the directions on the can. But, on a day that you're feeling adventurous, you might do something like this:

Cream of Chicken Soup, Summer Style

- 1/2 cup butter
 - 2/3 cup flour
 - 1 c. milk
 - 1 can condensed chicken soup
 - 3 tablespoons corn
 - 3 tablespoons fresh tomato, chopped
- Melt the butter in a saucepan, add the flour and cook until frothy. Then add milk and cook until thickened. To this add the chicken soup, corn and chopped fresh tomatoes. Heat several minutes to blend the flavors. Serves 3-4.

For this next one combine two favorites:

Purée Mongole

- 1 can condensed pea soup
 - 1 can condensed tomato soup
 - 1/4 cups fresh milk or light cream
 - 2 tablespoons sherry (optional)
- Empty pea soup into saucepan and stir until smooth. Add the tomato soup, a little at a time, stirring constantly. Add cold milk or cream to mixture. Then heat, stirring constantly. Do not let boil. Remove soup from fire, add the sherry and mix well. Serves 4-5.

of lead, or cyrolite, when dusted over the surface of the plants will control many of the plant eating insects. When mixed with water at the rate of 10 level teaspoonfuls of calcium arsenate to one gallon of water and used as a spray good results will be obtained. Poison applied to vegetables at this rate does not make them unfit for table use.

The mouth part of plant lice, thrips, leafhoppers, and plant bugs form a tubular beak through which the juices from within the plant are sucked up and swallowed. Because of the manner in which they feed they are not affected by stomach poisons that may be applied to the surface of the plant. They are controlled by contact poisons such as nicotine sulphate or pyrethrum which actually touch the insect.

To control sucking insects, spray the plants thoroughly with one and one-half teaspoonfuls nicotine sulphate mixed into one gallon of water. In mixing the spray should always be poured into the container of water and stirred thoroughly before it

is applied. Directions for use accompany the nicotine sulphate.

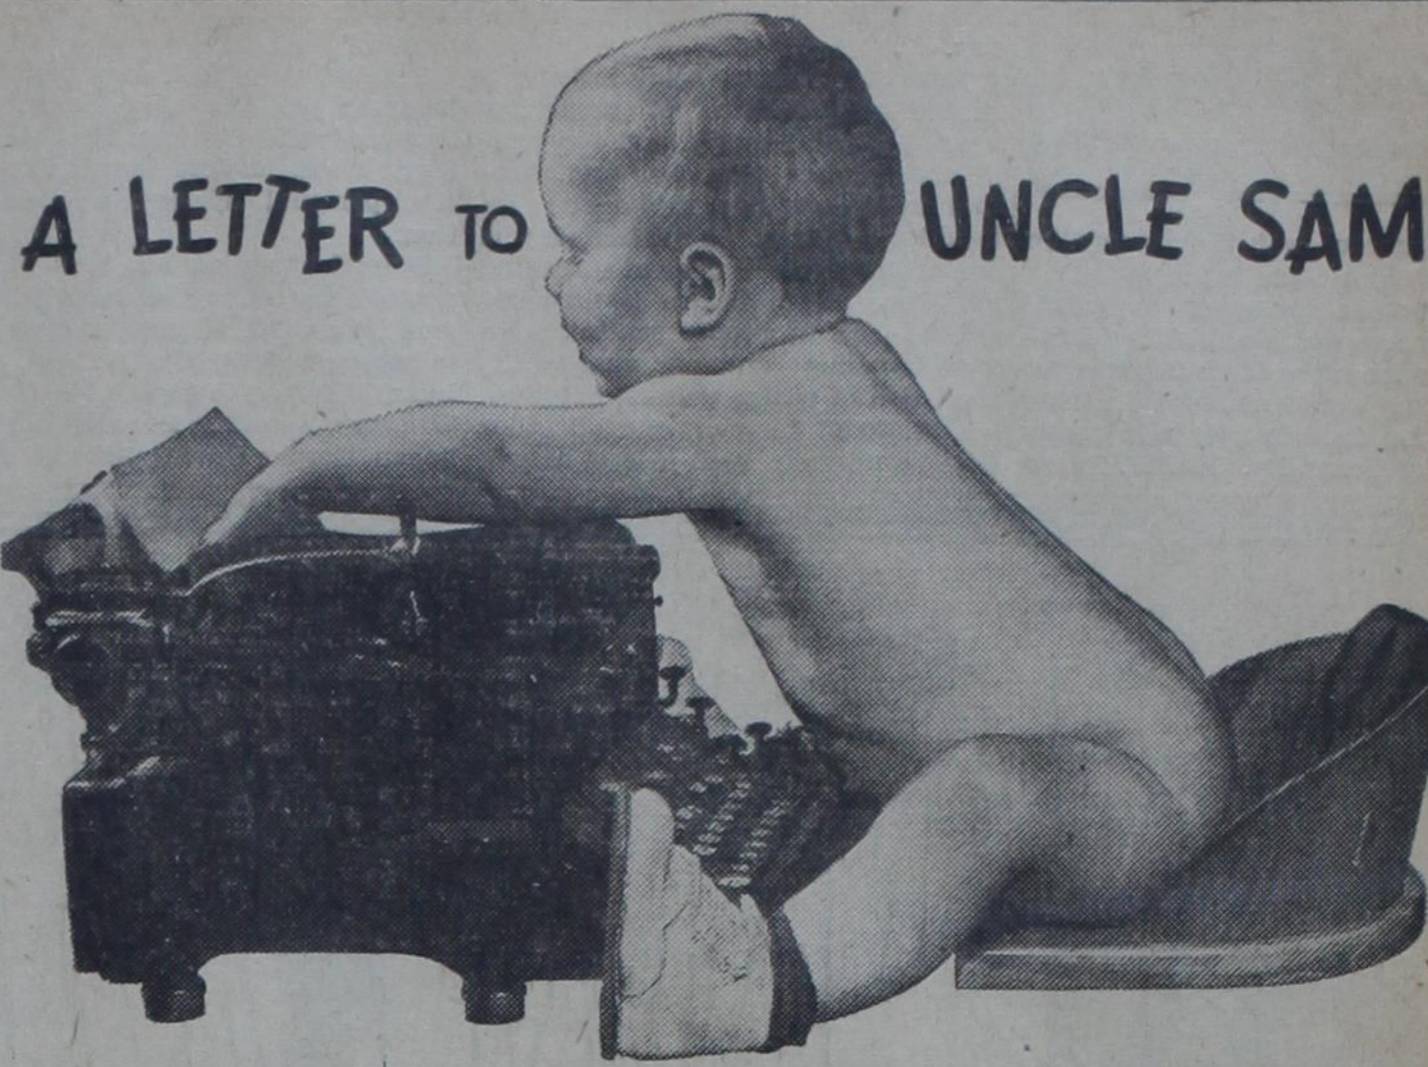

Insecticides mentioned above may be purchased at your local drug store or seed stores.

The poison bait being mixed at Bovina for grasshopper control is also effective for cutworms. It is handled in a similar manner in both cases in order to be effective.

To control the garden insects one must constantly be on the alert. The best results are obtained by a systematic spraying schedule—beginning when the garden plants are small and repeating regularly every seven or eight days thru the garden season.

Much to the chagrin of the gardeners, when certain garden insects such as the tomato hornworm, the Colorado potato beetle, the harlequin bug and cutworms reach the adult stage, they are not phased by sprays. The best method of eradication is the back-breaking job of hand-picking.

For a detailed guide for controlling vegetable insects write the

Dear Unc,

The priorities around this house are simply terrific. What a time I had getting at the typewriter to make up this letter of thanks.

You see, it's this way. Every Sunday, and after dinner weekdays, Dad used to take Mother and me for a ride. And did we dread it!

Mom said Dad used to drive like a maniac... no regard for my tender feelings and stomach. He'd honk and fight his way through traffic, missing fenders by an eyelash, at a speed that made my heart bump my tonsils.

Now, boyohboy what a relief!... Dad heard a Phillips news broadcast say that Uncle Sam wants every motorist to Care for his car—For his country. Then he saw a Phillips ad which said that any Phillips Service Station man would be glad to show him how to do it. Well, to make a long story not too long,

the Phillips man whispered the magic words to him: *DRIVE UNDER 40.*

You'd never think anything so simple could change my whole life. But it did. Dad now drives like a human being. He has found out that he not only saves rubber, but also gas and oil... and saves his nerves, too. Mom swears that Dad is a different man ever since he started getting gas, oil, and car-care at the Phillips Service Station... you know, the ones that have the big Orange and Black 66 Shield.

I guess lots and lots of other folks are going there, too, because I sure hear plenty of talk about Phillips 66 Gasoline and Phillips 66 Motor Oil.

I even hear that you're using some of it yourself.

Respectfully,
Your Grateful Nephew

Phill-up with Phillips for Greater Mileage

HARVEST TIME IS HERE AGAIN

AND THE BIG QUESTION OF THE SEASON IS... WILL THERE BE

Ample Storage Space for the New Wheat Crop?

It is a well known fact that the storage in elevator space will make it necessary for a large percentage of the wheat to be stored on the farms this season.

But the Farwell Elevator Co. has connections which will permit us to handle our share of the new crop.

You can count on us putting forth every effort to take care of our farmer friends during this emergency.

WE ARE HERE TO SERVE YOU WITH OUR FAST SERVICE AND TOP MARKET PRICE

Plus Our Usual Friendly, Courteous Treatment

Farwell Elevator Co.

Farwell, Texas.

All kinds of **PRINTING**

DONE BY EXPERTS AT LOW PRICES

GOOD PRINTING is an essential to most business men and to many private individuals. The State Line Tribune, equipped with modern printing machinery managed by experienced printers, is in a position to offer good printing at unusually low prices. You'll find printing done to the most exacting standards when it's done in our job department... and you'll find also that it's done economically!

State Line Tribune

Health Notes

By Texas Department of Health

In a vigorous war time campaign to elevate the State health level by preventing the spread of communicable diseases which might be transmitted by foods the State Department of Health is conducting training schools for food handlers in many sections of Texas, Dr. Geo. W. Heard

State Health Officer, announced today. "Food handlers are being instructed in sanitary methods of preparing, handling, and serving food for public consumption," Dr. Cox said. "Actual experience has shown that an insanitary eating establishment is one of the surest sources of spreading infection. Public health is menaced by the lack of proper sanitation in food handling and our goal is the education of cooks, waiters, butchers, bakers, fountain men, and all other food handlers to such a level as will

insure an elimination of this health hazard." The training schools consist of elementary courses in bacteriology, communicable diseases, medical zoology, foods, disinfectants, sterilization personal hygiene, and sanitation. Special attention has been paid to requests for schools in defense areas, and classes have already been held in Mineral Wells, Weatherford, Anahuac, Liberty, Vitoria, El Campo, Wharton, Bay City, Brownsville, Harlingen, Corpus Christi, Miland, Odes-

sa, Gainesville, Georgetown and Taylor. **PEN THE ROOSTERS** COLLEGE STATION—After the hatching season ends, pen up the roosters, or sell them, or can them. Otherwise, says George P. McCarthy, poultry husbandman of the A. & M. College Extension Service, a \$15,000,000 loss may result from production of fertile eggs during the summer. That sum would buy a lot of machineguns or cannon but even more se-

rious is the loss of food stocks is represents. Realizing this, County Agricultural Agent John Moosberg arranged a "Rooster Day" through the Shelby county USDA war board, and Mayor J. W. Rogers of Center made it official with a proclamation which requested that: "There shall not be heard a cock's crow within the corporate limits of the City of Center during the 150 day period beginning the morning of May 9, 1942, except such cock bird be confined in a pen or yard

This war is costing a tremendous sum, isn't it? But at any monetary cost, it is a cheap price to pay for victory, isn't it? . . . A cheap price, indeed, to guarantee the perpetuation of our Democratic way of life . . . A cheap price to guarantee that our privilege of doing whatever we please whenever we please will not be lost. Freedom, our freedom, cannot be measured in dollars and cents. It has more, much more, than monetary value. But it takes money, huge sums of money, to make our nation secure against our attackers.

Last year's total income in the United States exceeded \$90,000,000,000. How much of this sum do you think the individuals earning it would be permitted to keep, and to enjoy, if we lost this war and we were ruled by our conquerors? In the countries defeated by the Axis powers, and now occupied by them, the subjects have been stripped of everything. Even food sufficient to sustain healthful living has been denied these unfortunate people. The wealth that they had spent their lives accumulating has gone to the victors.

Draw your own conclusions of the fate of this nation should our armed forces fail to repeal our enemies.

YOU and YOU and YOU . . . Every loyal American is needed onw to buy War Stamps and Bonds with all the resources at his command . . . to work more diligently than ever before to produce all the things required—food, clothing, guns, ships, tanks, planes, ammunition—to keep our fighting forces fed better, and armed better than the enemy, for the key of victory is held by the nation or group of nations with the ability to equip, supply and sustain its fighting forces best on the battlefield. Your clear-cut duty is to help accomplish that end.

Uncle Sam desires that the wholesale and retail merchants, the service institutions, and the professional men of our nation carry on as normally as possible, considering that we are at war. Locally, the people who man and manage the firms and institutions which serve you are doing all they can to serve you the best they can. If war has forced certain restrictions or made limiation of certain services mantatory, accept the changes with gracious understanding and remember one fact . . . It is their wish and their responsibility to adopt those business practices designed to lend greatest help in the battle to insure victory and the survival of our American way of life.

Curry County Political Announcements

In asking for your support for the office of Sheriff of Curry County, I want to say that I have been a resident of the county since 1907, I am qualified for the position, and will appreciate your support. H. W. (POP) JENNINGS.

When you support R. N. (BOB) WHITLEY for the office of Sheriff of Curry county, you are voting for a man who has been a local resident for 36 years. He is a veteran of World War I, served on President Wilson's bodyguard at Paris Peace Conference. He is entitled to government compensation, but has never drawn any money of this kind.

R. C. (BOB) VINYARD solicits your vote and influence for the office of Sheriff of Curry County. He has been a resident of the county for 36 years. He was a graduate of the Texico High School in 1909. If elected, he will give his best efforts to making an efficient officer.

individually, or with one or more of his kind, and that the owner of the birds so confined should not permit the entry of the female of the species that may or may not be producing eggs which may reach the kitchens and pantries of our city.

"But why stop with the roosters?" McCarthy asks. "Pen the broody hens. They break eggs and reduce the quality of eggs. A small pen without a nest or roost soon discourages broodiness."

Clean litter, especially in nests, helps to decrease the number of soiled eggs. If possible have at least one nest for every five hens. Gather eggs at least twice a day in a wire basket, which allows air to circulate around them and reduces the internal temperature. Many farm families have built an iceless refrigerator for holding eggs to check evaporation and reduce internal temperature. Eggs kept in this refrigerator, plans for which may be obtained from county extension agents, suffer little, if any, deterioration in quality when marketed twice weekly.

KEEP THEM IN RUNNING ORDER
And the only way to do that is to keep your tractor in good mechanical condition. Bring it to us for minor troubles or a complete overhaul.

Local Happenings

Annual Fourth Picnic At Oklahoma Lane

The annual Fourth of July picnic at Oklahoma Lane will be in full swing by Saturday of this week. County Judge Lee Thompson stated today.

An informal program has been planned for the day according to Thompson, who is chairman of the program committee including appropriate talks and songs interspersed in the afternoon with various recreational entertainment.

The morning program will begin at 10 o'clock in the Methodist church and all people of the community are asked to bring a basket lunch, which will be spread on the schoolhouse grounds at noon.

Ruth Class Enjoys Social, Shower

The Ruth Sunday School class of the Baptist church met at the home of Mrs. Clyde Magnus on Tuesday afternoon, to enjoy a social and honor Mrs. John Hadley with a miscellaneous shower.

During the afternoon, names of "Sunshine" friends were revealed and at the conclusion of the social the group enjoyed refreshments.

Attending the affair were Mesdames Buck Birchfield, Vernie Towns, Bill Bradshaw, Buck Bradshaw, T. A. McCusiston, Otis Branscum, John Hadley, John Lockhart, Jim Moss, J. E. Stone, W. T. North, Truman Loyd, Alvenia Sharpe and the hostess, Mrs. Clyde Magnus, all members; and two guests, Mrs. Mose Glasscock and Mrs. J. H. Birchfield. Regrets were received from Mrs. C. A. Cassidy, Mrs. Carl McGuire, Mrs. Ed Eason and Mrs. Morgan Billing-ton.

National Assembly Reviewed at Meet

Mrs. Perry Keith of Clovis was one of the principal speakers at the regular zone meeting for women of the Clovis District Methodist churches, held in Clovis Tuesday, giving a review of the recent national assembly which she attended as a representative of the New Mexico Conference.

Women from all over the nation, along with some 500 missionaries and foreign representatives, were in attendance at the National Assembly for the Woman's Society of Christian Service, which was held in Columbus, Ohio, Mrs. Keith reported and gave a number of highlights of the program.

During the morning program of the zone meeting, Howard Gore, Clovis lawyer, was a guest speaker and had as his subject "The Challenge of Evangelism". The theme of the day was "The Challenge of Jesus", and was very ably handled by those listed for appearance.

The Portales organization was awarded the banner for best attendance and a good crowd was on hand, taking into consideration the busy season and the tire shortage.

Delegates from Texico-Farwell included Mrs. W. W. Hill, Mrs. G. W. Atchley, Mrs. Ralph Humble, Mrs. Roy B. Ezell, Mrs. B. N. Graham, Mrs. E. J. Sloan and Mrs. W. H. Graham.

Here From California

Mrs. Frank Thompson and Mrs. Duncan Williams, who now live in Lynnwood, Calif., were here over the weekend, visiting relatives and attending business matters. They departed for California on Monday.

Home From Outing

Mr. and Mrs. B. N. Graham and sons, John and Muggins, returned to their home in Farwell on Monday evening from Ruidoso, New Mexico, where they had spent several days enjoying a vacation in the mountains. John, who has been here on furlough from Brooks Field, expects to leave for duty the last of the week.

Mrs. M. O. Lemons and children, of Buena Park, California, visited the past Thursday and Friday with Mrs. Lemons' sister, Mrs. Fay Maxey, and family in Texico.

Chief of WAAC

Mrs. Oveta Hobby of Houston, Texas, who has been appointed director of the Women's Army Auxiliary Corps by Secretary of War Stimson. She is the wife of Former Gov. William Hobby of Texas.

Nutrition Committee Is Named For Parmer

County Judge Lee Thompson last week announced the appointment of members of the Parmer County Nutrition Committee, with Mrs. Edna P. Elms, FSA home supervisor being named as chairman of the group.

This list includes operators of stores, cafes, school lunch rooms, school officials, doctors, home economists members of the Farm Security Administration and members of the county extension offices.

Principal purpose of the program it was revealed, is to make a study of public health conditions influenced by diet and then launch an education purpose for the purpose of helping citizens in the ways of good nutrition.

Mrs. Elms and Miss Elsie Cunningham, county demonstrator, recently were certified to handle lay nutrition classes through attendance at a special study course in Portales, it was stated and there is a possibility of starting such classes in the future.

Other than Mrs. Elms, the committee includes Dr. V. Scott Johnson, Dr. J. M. McCuan, Dr. R. J. McReynolds, Garlon A. Harper, Elsie Cunningham, Lola Goodwine, Earl Fine, Judge Lee Thompson, Dorothy Shaw, Mrs. C. R. Lovelady, Mary E. Stanford, Irene Hughes, T. A. McCusiston, B. E. Gregory, J. T. Gee, Rex Faulkner, Mrs. J. H. Stone, Mrs. G. C. Danner, Mrs. Raymond Jones, Mrs. Dave Moseley, Mrs. Mose Glasscock, Mrs. Glenn Dunn, Mrs. Floyd Schlenker, Mrs. Frank Spring, Fred Barker, Olan Schleuter, Mrs. Will Nittler, W. H. Graham, Fred Henry, Frank Spring, W. L. Edelman, Smiley Fulks, Mrs. Stanley Hillhouse, Mrs. P. Dobbs, T. J. Crawford, John Porter, W. W. Hall and Sam Stites.

Grandchildren Here

Guests of their grandparents, Mr. and Mrs. Roy B. Ezell, this week are Patsy and Caroline Parker of Amarillo, Larry Ezell of Bovina, and J. R. Ellison, of Cheyenne, Wyoming.

Shop To Close

Miss Hazel Anglin, operator and owner of the Vanity Fair Beauty Shop announces that her shop will be closed on Saturday, July 4th, throughout the day. Miss Anglin is planning to spend the double holiday with her parents in Tahoka, Texas.

Visits Mother

Ludwig Kube visited in the home of his mother, Mrs. Wm. Kube, over the weekend. Kube is working for the Phillips 66 Company at Phillips, Tex.

A. C. Henneman, who has been visiting his grandparents near Amarillo for a month, returned to his home in Farwell last weekend.

Miss Joan Booth spent the weekend visiting in Hereford with Miss Cherry Anne Forrest.

Mr. and Mrs. Roy B. Ezell, accompanied by Miss Twila Mae Strickland, visited relatives in Amarillo during the past weekend.

Mr. and Mrs. Chas. Bieler returned the latter part of last week from Hot Springs, N. M., where they had been vacationing for a couple of weeks.

S. B. Lovett, who has been working on a defense job at Alamogordo the past several weeks, is here attending business matters.

John Nobles, of Midland, Texas, visited during the weekend with his parents, Mr. and Mrs. B. E. Nobles, in Farwell.

Bertram Jack, who was here from a camp in Arkansas visiting with friends and relatives over Parmer county, departed on Monday afternoon.

Mrs. Claude Rose left the first of the week for Dallas to do some buying for the Fox Drug Store. She is expected to return home Wednesday.

NEWS FROM OUR BOYS IN CAMPS

RUSHING TO BOSTON

Ensign Eric Rushing, son of Mr. and Mrs. E. V. Rushing of near Portales, was a visitor in Farwell the past weekend enjoying a brief furlough with relatives and friends before going to Boston where he has been assigned for duty. Eric has been stationed at Corpus Christi since his enlistment a few months ago.

MAFFETT IS MADE STAFF SERGEANT

"Bud" Maffett, former Santa Fe linesman, has received his Staff-Sergeant ranking it was revealed this week. A letter from Bud, stationed at the Will Rogers Field in Oklahoma City, stated that "Uncle slipped the other day and gave me a rating. My sleeve has so many stripes it looks like a zebra's leg but the old-timers say it is easy to make a jack-ass out of a zebra . . . just take off a few stripes".

He adds that he is "looking for a move soon and hope it is on to Tokio by way of Berlin—would like to spend a few hours in both places".

DANIEL MANN LOCATED IN FORT LEWIS

Pvt. Daniel L. Mann, who is located at Fort Lewis, Wash., recently wrote the Bovina Chamber of Commerce an interesting letter, which was handed to The Tribune by Aubrey Brock, of that organization.

Mann writes that "We are all O. K. We cannot get passes, but we don't care. We are here close to Puget Sound . . . are on the alert . . . and ready for anything that comes . . . Charlie Owens, another Bovina boy, and I are only 250 miles apart . . . we haven't seen each other yet but may get to some day." Further, he writes that he wishes "we could all get the Farwell and Friona papers sent to us, for they would be lots of help. We could see what is going on at home".

He concludes with "we are here to whip the Japs and we are going to do it, and when we do they will regret what they did at Pearl Harbor. That is one place they will wish they had never heard of. My Dad and a lot more of you were in the First World War and you did your job well and we are going to do ours the same as you did . . . Some day we may see each other again, so be good and keep your shoulders to the wheel".

BOVINA C. OF C. WRITES TO LOCAL SERVICE MEN

Initiating a new service along the theme of "keeping the boys in touch" with home the Bovina Chamber of Commerce last month sent out letters to all boys who were on duty in any phase of the service, who had gone from that area, giving general news items of the "home front".

In addition, the group is sending the county papers to boys who have sent their addresses to the organization, according to Aubrey Brock, member.

OFF FOR CAMP

"Euster" Crume, "Bud" Hodges and "Bill" Moss, all local boys who were given ten-day leaves after being accepted at the Lubbock induction center recently, departed the past Friday for Fort Sill, Okla., from where they will be assigned to camp.

ALDRIDGE IN VIRGINIA

Sam Aldridge, former local lawyer who volunteered for service a few months ago, is taking his basic training at Quantico, Virginia. Reared on the Plains, Sam isn't too crazy about the lower Southland, and writes that if it "weren't for having Hitler as a neighbor, they could take all this country east of the Mississippi".

Karl W. Keller, Pastor

Mrs. H. D. Nifong of Mansfield, Texas, visited with her daughter, Mrs. Hamlin Overstreet, and other relatives in this city the past weekend. She was accompanied here by Mrs. Overstreet's small daughter, Jane Claire, who had visited a week with her grandparents.

Bob Kyker left Sunday night for California, where he was called to attend some business matters.

— puffs up high
— puffs up light
— tastes wonderful

by Dorothy Greig

If you have always been afraid to tackle a soufflé, here's the point to change to happy confidence. There's just nothing to the making of this soufflé. Follow directions exactly and it will huff up proudly.

The flavor is delicious—a combination of cheese, spinach and mushrooms. (We get the mushroom flavor by using condensed cream of mushroom soup.)

With it serve a salad and crusty rolls. Follow with dessert and coffee.

3 cups seasoned cooked spinach (about 2 pounds fresh)
1 can condensed cream of mushroom soup
4 ounces pimiento cheese
4 eggs, separated

Empty the cream of mushroom soup into a saucepan and mix well. Heat and add the pimiento cheese, then stir until the cheese has melted. Add the egg yolks one at a time and stir after each one is added. Continue heating until mixture is slightly thickened, then cool and add the seasoned cooked spinach. Beat the egg whites until stiff and fold into the mixture. Pour into a casserole dish, place casserole in a pan of hot water and bake in a moderate (350°) oven for one hour or until firm. Serves 6.

Coffee Rationing In Effect on Santa Fe

A privation which the traveling public is enduring with forbearance these days is the limiting of patrons on trains to one cup of coffee at each meal. Rationing does not apply to members of the armed forces in uniform.

The reason for this situation is an increase in dining car patronage, coupled with the current coffee shortage which resulted in the War Production Board's order limiting the quota of wholesale coffee receivers (in excess of 2,000 pounds) to 75 per cent of the coffee they accepted in the corresponding month last year.

As an example of the difficulties which the various railroads are having in getting sufficient coffee for their patrons, Santa Fe Railway passenger officials pointed out that, in the face of a 59 per cent increase in number of meals served train patrons during the month of May, Fred Harvey, who handles Santa Fe dining cars, had their coffee supply reduced to 75 per cent of the amount they used in the same month a year ago.

The national rationing program has thus far only applied to receivers of coffee in excess of 2,000 pounds but it is rumored the control may be extended soon to all coffee purchasers.

Demonstration Club Notes

By Special Staff Reporters

Oklahoma Lane Club

Club met in regular session June 19. After the business meeting Mrs. R. L. Henson gave a well prepared discussion on the club pledge. Mrs. Ed McGuire demonstrated "preparing a tray for an invalid" and "learning to spell" was given by Mrs. J. R. Caldwell.

Miss Cunningham led the discussion of ways of saving sugar and use of sugar substitutes, demonstrating foods that require very little, if any, sugar. Serving sweet sugarless sandwiches were taken up, and ideas and recipes exchanged by the following members: Mesdames J. R. Caldwell, Clyde Perkins, Walter Verner, R. L. Henson, Scottie Barry, F. E. Kopley and Ed McGuire.

The next regular meeting will be on July 17. All members are urged to be present.

Families Increase Net Income, Double Their Home Food Production

Texas' low-income farm families have increased their annual net income by 103 percent and have more than doubled food production for their own use since receiving rehabilitation loans from the U. S. Department of Agriculture, according to information received here by Earl L. Fine, Farm Security Administration supervisor in Parmer County.

The gains registered by Texas' farm families were above the national increases of more than one-quarter million FSA borrower families.

Mr. Fine's information came to him in a report by C. B. Baldwin, Farm Security administrator, which was prepared for Secretary of Agriculture Claude R. Wickard.

Pointing out that these increases are particularly significant as a contribution to Food for Freedom, the FSA administrator told Secretary Wickard these gains "support in a striking manner your recent statement that on all these small farms with their supply of home labor lies a real opportunity today for a higher percentage increase in wartime production".

"This family progress report," said

Mr. Fine, "shows greater increases than in any previous year of FSA operation. This proves the willingness and ability of low-income farm people, when properly assisted, to do their share toward meeting the nation's food goals."

The Texas phase of the national report shows that the annual value of home-used production per family has increased from \$166 to \$378, or 128 percent since farmers in this state first received help.

Texas FSA borrower-families increased their annual net incomes an average of 103 percent, from \$470 to \$953, during the time they received assistance. They increased the amount of fruits and vegetables canned by 127 percent, from 121 quarts in the year before they got loans to 275 quarts per family in 1941. They increased milk production for home use from 347 to 545 gallons, or 57 percent. They increased meat production for home use from 233 to 457 pounds, or 96 percent. Last year, in addition, they had 18 bushels per family in fruits and vegetables and produced and used 143 doz. eggs and 11 gallons of lard for the average family.

Since Pearl Harbor even greater emphasis has been put on food production and loan requirements have been broadened by the FSA to enable a large number of eligible farm families to contribute to the food production goals.

Mr. Fine said the administrator has instructed Texas Farm Security officials to expand the community and cooperative services program to enable small farmers to make maximum use of available machinery tools and also to develop facilities through which their increased food production can flow readily to centers of distribution.

Warren Kelly Named To Defense Council

The appointment of Warren W. Kelly, general purchasing agent of the position of associate director of the Santa Fe System at Chicago, to the Office of Defense Transportation's Section of Materials and Equipment aroused widespread commendation among his legion of friends.

Kelly, who for many years headquartered in Amarillo, Tex., created an outstanding record as chief engineer of the Santa Fe Western Lines which position he held from September, 1929 to July, 1938, when he was made general purchasing agent for the entire System.

CUE TO BARBECUE

Max O. Cullen, nationally-famous barbecue expert, shows Muriel Barr, young M-G-M. starlet, how simple it is to barbecue meat. Pete Smith, producer of short subjects bearing his name, looks on as Cullen illustrates the correct method for turning a steak during the filming of "Barbee-Cues."

Backyard Barbecue Solves War's Entertainment Problem

With the entire nation seeking simpler means of entertainment because of war time requirements, the old-fashioned barbecue is rapidly growing in popularity. Backyard barbecues are becoming quite the style from California to Maine.

Old timers at this business of barbecuing have developed it into a fine culinary art, and in this connection Max O. Cullen, nationally known barbecue and carving expert, has brought out some new wrinkles for the handling of those old stand-bys, hamburgers and frankfurters.

Why does a frankfurter curl? Well, that's a problem that has bothered many a host, but if you're having a barbecue party and you want your franks to lie slim and straight as they nicely brown, try Cullen's little trick, as taken from the M-G-M. Pete Smith specialty, "Barbee-Cues."

First, slice the frank lengthwise

down one side without cutting entirely through the casing, turn it over and slice parallel to the first slice. Then it opens up like an accordion and will not curl and fall through your grill.

Anybody can barbecue meat, Cullen points out, if they will only remember these pointers: live coals, not a flame, should be used as a source of heat—charcoal briquettes are good.

Steaks and chops should run an inch or more in thickness, and need be turned only once in cooking. Surplus fat should be trimmed away so it will not drip into the coals and flame up.

If you'd like a hamburger barbecue, take another hint from Cullen's repertoire and satisfy everybody's taste. Make your hamburger into a ball and barbecue it slowly until the outside is well done. Then, slice it into three parts and you have two well-done pieces for those who like it that way, and one rare piece—the center—for those who like their meat rare. Cullen personally guarantees that barbecue fans will go for hamburgers prepared this way.

Absentee Voting To Begin Next Monday

County Democratic Chairman G. D. Anderson today announced that everything would be in readiness for absentee voting to begin in this county on schedule time next Monday.

A complete list of the candidates for state offices was received here the first of the week and the ballots have been turned over to the printer. Delivery of the printed ballots is expected to be made before the close of the present week.

Voters who are now away or expect to be away from their home voting box, may apply to County Clerk D. K. Roberts and cast an absentee vote any time between next Monday and July 20.

The first Democratic primary election will be held on July 25.

HAIL AT SPRING LAKE

Dave Cranfill was here last week from Spring Lake. He reports two severe hailstorms in that locality during the past week which did considerable damage to young crops.
