

Poor Mary!

Mary had an allotment check
She spent it for clothes and such
And when her Johnny came marching home,
For a bankroll, she hadn't much.
She ignored the anxious War Bond drives
She spent in a lavish way,
It never entered her frivolous head
That by socking bonds away
She'd help buy bullets for Johnny to shoot
And bring him home to stay.
There are thousands of Mary's, you will say,
There's dozens that I can see,
But it might not be Mary—it might even be you,
Oh, golly, it's probably me!

Local Matters Hold Spotlight at Meeting

Matters of vital importance to the welfare of the Twin Cities kept the local Mens Club in session until midnight last Thursday evening, with stop lights, maintenance of the local fire department and eradication of Johnson grass holding the spotlight far beyond the usual adjournment period.

Opening the program, former County Agent Garlon A. Harper showed a movie of some of the work of the 4-H club members of the county, which was enjoyed. Harper made an appeal to the men present to "lend your cooperation to Mr. McFarley (present county agent) in carrying on and encouraging these boys and girls in their projects."

E. F. Lokey gave a report on the progress made in securing assistance of the State Highway Department in installing stop lights or caution lights along Highway 70 through the Main street of Farwell. Lokey gave it as his opinion the move would be met with opposition by the district highway engineer at Lubbock, adding "I believe we can still work it out if a committee will call on the highway officials."

Fire Department Considered
By far the most-discussed proposition was the matter of financial aid to the Texico Fire Department, which finally resulted in a motion being passed by the Club recommending that the present meter assessment of 10 cents be hiked to 25 cents, to be used as a maintenance fund for the department.

Fire Chief A. C. Green and his assistant, Rodney Ford, explained that the present meter assessment was bringing in "slightly less than \$20 per month", which, in their opinion, was far from meeting the actual needs of the organization.

It was brought out in the discussion that until recently the fireboys were receiving a nice little "take" from a public dance they had been sponsoring at Muleshoe, but that contract has expired and funds from that source are no longer coming in.

Chief Green emphasized that the fire department was anxious to render the best service possible at all times to the people of Texico-Farwell and at the same time stressed the need of some additional equipment to make the department more efficient.

"We are going to give you the best services possible, but it stands to reason that we can do better work with more and better equipment," he said.

Going farther, Chief Green said that so long as he was head of the department there would be no slackening of effort to render services at all times, regardless of public opinion.

REPORTED MISSING is S-Sgt. Millard Bell, top turret gunner on a B-17 who has failed to report at his base in England since November 4.

Brother Local Woman Missing Over Germany

Staff Sergeant Millard R. Bell, brother of Mrs. J. E. Randol of this city, has been reported missing in action over Germany since November 4. The announcement came from the War Department on November 17.

A top turret gunner on a B-17, Sgt. Bell was based in England and had been overseas only since last July.

His wife, Mrs. Doris Bell, resides at Portales, and his mother, Mrs. W. A. Bell lives at Ranchvale.

Sophisticated Deer Hunters Fill Bags

Six sophisticated local deer hunters returned home last week with their big game bags packed to the legal limits, which allows one buck for each hunter.

So cocky was this particular bunch of nimrods that they entered into an agreement on the eve of the opening season in New Mexico that no hunter was to be caught taking a buck that had less than six well-developed points on his antlers, and furthermore, no hunter was to get the other man's game for him—each hunter was responsible for his own kill.

And the surprising thing about the whole story is that both ambitions were realized. Lester Norton and Grady Pierce topped the list with a ten-pointer each, Claude Thomas came next with a nine-pointer, Mack Johnson followed in line with an eight, while Arch Green and Jack White had to be satisfied with a seven- and six-pointer, respectively. The six deer carried a combined point count of 50.

Mr. and Mrs. B. N. Graham were visitors in Lubbock, over the weekend.

Committee Outlines Bond Schedule

Army Calls Digging Into Essential Men

Farm Committeemen to be Chosen Soon

Farm committeemen who will have important roles in war and post-war farm problems will be named at annual AAA elections in Farmer County between December 11 and 16th, Ellis M. Mills said today, with locations and dates of the election meetings to be announced as soon as they are arranged.

Farmers will choose committeemen for each county, and delegates from these meetings will later name three county committeemen and alternates. Conservation practices for 1945 production goals, and general agricultural outlook will be among the subjects discussed at the meetings.

Committeemen represent both the neighbor farmers and the executive branch of the government in the work and responsibilities of the Agricultural Adjustment Agency, Mills pointed out. Their recommendations, based on personal knowledge and experience, help shape agricultural programs to fit the needs of their own localities and to meet the problems of farmers and consumers throughout the nation.

County and community AAA committeemen during the current year have gone to bat for the farmers of Farmer County in a number of important ways. Some of their more notable accomplishments are listed below:

They have secured allocations of more than 70 carloads of protein meal and cake for this county to relieve the shortage which began last fall. They recommended for WPB approval the construction of 21 new farm residences and additions to a dozen or two others. They distributed through AA-2 and AA-3 ratings more than 400,000 board feet of lumber for essential farm construction and repair. They were instrumental in securing 27 new trucks and pickups for county farmers. They recommended a large number of REA extensions and allotted copper wire for essential wiring. Since July they have approved 575 wheat loans totaling \$1,308,082.21. Loans on sudan seed on a basis of \$5.00 and on grain sorghum at \$1.69 are being made as fast as they can be handled. Committeemen have issued drafts for \$35,000 since last fall to help farmers and dairymen absorb the high cost of feed.

These and many other services not named are in addition to carrying on the regular work of the County Association; establishing crop goals, securing reports of conservation practices carried out, and approving applications for payment. Every farmer should have a part in the selection of committeemen whose work affects his interest so closely, especially as the critical postwar period approaches.

"The election meetings will give local farmers a chance to consider the problems and demands of the coming year," says W. M. Sherley, county AAA chairman. "A program is being arranged for a full discussion of what's ahead. Every farmer should attend the meeting in his community to take part in that discussion and vote in this election."

Says Wheat Pasture Is Failing Rapidly

Capt. Shelby Jersig, stock raiser of the Bovina section, reports that the abundant wheat pasture that was in prospect for Farmer County during the winter months, is failing rapidly where it has been stocked.

He discounted the theory that the wheat fields had been overstocked, but rather was inclined to believe that the growing wheat is now "taking root rather than growing above the ground."

JUNIOR PLAY TONITE

Just a reminder: The Texico junior class play, "High Pressure Homer", will be presented tonight (Wednesday), at the school auditorium. Time is 8 o'clock, and admission is 15 and 25 cents.

KILLED IN ACCIDENT—Horace Coffman, S2-c, who has been listed as killed in a truck accident on Nov. 4, presumably in the Philippines.

Horace Coffman Dies In South Pacific Area

Mrs. Arma Coffman, of Friona, has recently been notified that her son, Horace (Hob) Coffman, Seaman second-class, was killed in a truck accident on November 4, in the Southwest Pacific. It is believed that Coffman died in the Philippine Islands.

Memorial services for the 25-year-old seaman were conducted in the Lazbuddy Church of Christ on November 15, by Minister L. D. Thompson. Coffman was a member of the Lazbuddy church.

He entered the Navy last May 28th, and received his basic training at Camp Wallace, Texas, from where he was sent to San Diego, Cal., for additional training. He had been overseas only six weeks.

Survivors include his mother, six sisters and four brothers. They are, Onaida and Anna Jo Coffman of Friona, Cordelia of Muleshoe, Mrs. L. E. McKillip of Muleshoe, Mrs. Oley Hinds of Friona, Mrs. Woodie Glasscock of Tucson, Arizona; Clifford and W. J. Coffman, Jr., of Friona, Eugene of Amarillo, and Truett, of the Navy.

Other relatives attending the memorial services were a great uncle, J. C. Plant, of Cameron, N. M., and a cousin, Mrs. Ivy Campbell, of Ennis, Tex.

Doubles Capacity Of Elevator At Bovina

J. P. Macon announced the first of the week that he was engaged in an enlargement program at his Bovina grain elevator that would double the present capacity.

Additional storage bins were added last summer just before the what harvest, but priorities on materials held up the completion of the job until now.

BROCK TO REMAIN

Aubrey Brock, who has been manager of the Cicero Smith Lumber company at Bovina, will continue to operate that yard in the future, after announcing he was being transferred to Tahoka.

Brock is in Tahoka this week, but is expected back in Bovina by the first of next week.

Attendants at a stag party, given in Brock's honor early this month, are now wondering how to get back the \$40 hat given the once-popular lumber yard manager.

ATTENDS DIRECTORS MEET

Supt. J. T. Carter of the Farwell schools, was in Waco on Monday, attending the annual meeting of the directors of the Methodist Home in that city. He is a member of the official board of the Home. Rev. Charles Walker, local Methodist pastor, substituted for Supt. Carter at the school.

Fulfilling a prediction made several months ago by the Farmer county local board that virtually every able-bodied man under 26 years of age would have to be inducted into the armed services to meet the county's quota, the local board, in session the first of the week, reclassified a number of young men in that age group to meet future calls.

Faced with the problem of meeting the induction call for December, which is considerably heavier than had been anticipated, the local board called up all its single men under 30 and then dipped into the married men and father groups to meet the demand.

Furthermore, State Headquarters of Selective Service has advised that no relief is in sight, that actually, the induction calls after the first of the year will be increasing-ly heavier.

Takes Farm Men

A number of young registrants who had been postponed until the first of December in order to complete their fall harvesting operations, were mailed orders to report for induction early this week. Their actual induction will take place early in December.

Local board members stated they regretted to be forced to induct men whom they considered essential on the farms, pointing out that until a few months ago they were given power to grant deferments. Under the present regulations, however, local boards have no such authority. Only in extreme hardship cases is the local board authorized to grant such deferments.

Board members also pointed out that no classification (except 4-F and 4-A) was good for more than six months, and all classifications have to be reviewed at the expiration of that period. Any change of status could also result in the changing of classification, also.

82 Are Discharged

A review of the files at the office of the local board revealed that a total of 82 Farmer county registrants have been granted discharges from the armed forces, and under the new regulations all such registrants have been classified 1-C Disc. Such registrants will not be re-inducted unless in the opinion of the local board they are making no substantial contribution to the war effort in their present occupations.

"Just because a man has been granted a discharge does not necessarily mean that he will be permitted to come back home and loaf around" a member of the board stated this week, adding that he must be making a substantial contribution to the war effort if allowed to remain out of the armed forces.

Following is the list of classifications reached by the local board in its meeting the first of the week:

1-A

O. P. Webb, Jr., William H. Minter, Harry J. Charles, Walker L. Fritts, Harold W. Carpenter, Daniel R. Cheyne, Shelby D. Bishop, Joe Dubiel, Marvin W. Threlkeld, Jack J. Julian, Harvey L. Hudnall, Harold I. Stovall, Jack L. Wallace, Joe B. Jennings, James D. Roach, Cecil M. Floyd, Harvy J. Cornelius, Anthony R. Jesko, Donald V. Watkins,

(Continued on last page)

The Farmer County War Finance Committee, headed by G. D. Anderson of this city, has presented a novel and easily workable program that will insure this county's share of \$120,000 in E bonds during the Sixth War Bond Drive, now in progress.

All that remains now is for the people of this county to accept the recommendations made by the committee and buy the Bonds.

After making a careful survey of the financial ability of the residents of Farmer County, a schedule has

The Curry County War Finance Committee has given the Texico precinct a quota of \$12,000 in the Sixth War Bond campaign. Texico workers said today they felt confident their quota would be sold.

been worked out that will insure this county's quota of bonds in a short time—providing the people of the county will back this voluntary, unpaid committee by coming forth with their purchases.

Here's the Schedule

The schedule calls for 200 persons in the county to buy at least one \$25.00 war bond, and is graduated on to an estimate of 20 persons who should buy \$5,000.00 worth of the E series. The complete schedule appears in this issue of The Tribune.

"But what of the other series?" an inquiring reporter asked the War Bond chairman, remembering that Parmer's overall quota is \$245,000, leaving \$120,000 to be taken up in F, G and other series.

"I am not worried that we will be short on these sales," Anderson replied, indicating he already had received pledges that would consume the other series. "If we can sell the quota of E bonds, we need not worry about the rest," he added.

Chairman Anderson named other members of the committee who would assist in the drive, any of whom would be glad to supply bond purchasers with bonds of any denomination. They are:

W. E. Williams, Bovina; Frank Spring, Friona; Bill Sherley, Lazbuddy; Clarence Dixon, Rhea; Lee Thompson, Oklahoma Lane and H. Y. Overstreet, Farwell.

Two Farm Sales Are Billed for Next Week

Two extra large farm sales are booked for early next week, the first coming on Monday, Nov. 27, when Fred Matley and Joe Scott Menefee stage a joint sale three miles south and three miles west of Progress.

On the following day, A. M. Hart and Rush Looney are staging a joint sale at Bovina.

Cattle, hogs, chickens, turkeys, household goods and farm machinery will go under the auctioneer's hammer at the Matney & Menefee sale. Also included will be an improved 80-acre farm.

Thirty head of choice dairy cattle will be the feature of the Hart & Looney sale, but a good list of hogs, farm machinery and miscellaneous items will be included.

Col. W. D. Wanzor of Muleshoe, will have charge of both sales, which are scheduled to get underway at 10 a. m.

Mrs. R. T. Jenkins, of Lariat, and Mrs. Ebb Randol were in Clovis on Monday.

Victory Is Everybody's Job.

Christmas Comes But Once A Year . . . Oh Yeah?

It used to be that you could do your Christmas shopping once a year and be through with it, but 'ain't so any more. Nowadays, you start buying in September and continue till the last store closes on Christmas Eve to meet all the various deadlines.

First off, naturally, you got gifts all bundled and fixed up for the boys and gals overseas and after October 15, thought you could at least put off the remainder of your shopping until Christmas month, at least.

But no! Now comes the postoffice department begging that all packages for friends and relatives in the States be mailed not later than December 1, preferably in November. . . so

that brings on another orgy of shopping and pushes the season up even more. If you expect Aunt Sally to get her mittens, and Uncle Willie to get his scarf by the Joyous Day, PO officials warn, you'd better get those packages in the mail early, and by "early" they mean within the next ten days.

Of course, you can understand why the rush. If the boys overseas were to be remembered at Christmas, mail had to go out in October. And with millions of people mailing millions of packages to millions of friends and in-laws in the States, the overburdened railroads must be given time to handle the mail.

It's all well and good. It's very patriotic. But, confidentially, we'll bet that by Christmas time everybody will need a straight-jacket.

Health Notes

By Texas Department of Health

AUSTIN—Rheumatic heart disease is now the first cause of death among children aged ten to fourteen, and is second only to tuberculosis at ages 15 to 25. Despite the importance of this disease, its epidemiology is not completely established. No vaccine such as those that prevent typhoid, diphtheria, smallpox and whooping cough has yet been developed, for its prevention or control. We do know, however, some of the danger signals and with the physician's accurate diagnosis some of the damaging results of the disease may be prevented.

Dr. Geo. W. Cox, State Health Officer, points out that in general the danger signals of rheumatic fever are pain and swelling in the joints of the knees, ankles, elbows, or wrists. The pain usually is felt in one of these centers and spreads

to the others. Oftentimes a child will get irritable and cross without any visible signs of a good reason for this attitude; he may cry easily or develop habits of nervousness. A physician should be consulted at once in such a situation, for these symptoms may be the beginning of rheumatic fever.

Exposure to frequent chilling, damp or overcrowded living quarters, a poor diet, an attack of scarlet fever, a bad cold or other infection caused by certain streptococcus germs are likely to be predisposing factors in the appearance of rheumatic fever.

According to Dr. Cox the best safeguards against this disease are to have each child and adult examined at least once a year by a physician, to have the right kinds of food for an adequate diet, and to have plenty of rest. When the disease is suspected of being present, a doctor should be consulted at once.

The Hawaiian Islands were under a native monarchy until 1893, when a revolution deposed the queen and set up a provisional government. The Islands were annexed to the United States on July 7, 1898.

At 2 o'clock in the morning a lady telephoned the president of a large department store. After much ringing the mogul, answered with a sleepy and gruff "Hello!"

"This is Mrs. So-and-So," said the lady in a sirupy voice. "I just could not help calling you personally to tell you that hat I bought at your store last week is simply stunning." "That's all very nice," yawned the president, "but would you mind

WILL YOU DO YOUR PART?

The Parmer County War Bond Committee has worked out a simplified plan that will insure the sale of our quota of E bonds in a short time—providing everybody will do his and her part in assisting in this task.

With a fairly good knowledge of the financial condition of most of the residents of this county, we have prepared a schedule that we know is most reasonable and can be attained in this county.

We are not asking people of the county to buy beyond their means, neither are we expecting patriotic Americans to content themselves with the purchase of Bonds below their ability . . . this is everybody's war! If everybody will do his part in the purchase of E Bonds, nobody's going to be hurt by the following schedule—and our quota will be raised with little difficulty.

Number of Buyers	Size of Bond	Total Purchase Price
200	\$ 25.00	\$ 3,750.00
100	50.00	3,750.00
100	100.00	7,500.00
50	1,000.00	37,500.00
20	5,000.00	75,000.00
Grand Total		127,500.00

Can We Count on You to Do Your Part?

CONOCO

MOTOR OIL CONOCO

War forced closest attention to every motoring detail. And this fine habit of thoughtfulness has grown on car owners.

You'd only be testing human kindness by changing to a half-flat spare and setting out for the next air hose. Where a forgetful man actually tries it, a good Samaritan generally drives up alongside, pointing a helpful warning. America has become as thoughtful as all that toward her indispensable cars. And of all the examples of car-care the greatest single one you can follow is to have your engine OIL-PLATED. In that way—by changing to Conoco Nth motor oil for Winter—by changing to this patented oil that OIL-PLATES—you'll give your engine's insides the *n*th degree of protection from acid corrosion.

All engine combustion creates corrosive acids. They're bad enough even when "exhaled" fairly well, but from now on they won't be! Winter's extra-low mileage and cool operation mean acids at their worst. Patented Conoco Nth oil, however... thanks to costly pioneer research... brings the special ingredient whose magnet-like action OIL-PLATES the fine inner engine finish, to cope with corrosion. Attached as closely as protective chrome plating could be, the internal OIL-PLATING keeps up its steadiest possible hindrance to direct contact between acids and engine parts... Then down go the chances of corrosion, just as soon as you change to popular-priced Nth oil for Winter, at Your Mileage Merchant's Conoco station. Continental Oil Company

Leads Polish Aces

Lieut. Col. Stanislaw Skalski, who shot down 18 German planes to become Poland's leading air ace of the war, is shown upon his arrival in New York City. The 28-year-old air fighter has been in action since 1939 over Poland, Africa, Italy and France.

Postwar Prediction For Farm Electricity

COLLEGE STATION—Wiring of many farm houses likely will have to be improved as new electrical equipment is obtained by farm families after the war. This statement was made by Mrs. Bernice Claytor, A. and M. Extension Service specialist in home improvement, who spoke to members of the Texas Committee on the Relation of Electricity to Agriculture at a recent meeting on the college campus.

In many homes where there is electricity, lighting can be improved and outlets added for convenience in the post war period. When this time does arrive, the specialist said, the Extension Service will seek to aid families in selecting equipment which will meet their needs and give them the greatest satisfaction and return for cost.

She suggested to research workers that they develop additional accessories for more convenient storage of milk in electric refrigerators. Something similar to vegetable hydrators would be welcome, she said.

Since the war, the Extension Services' home improvement program has shifted emphasis from buying and adding electrical equipment to efficient operation and maintenance. Mrs. Claytor reported that schools have been held to train home demonstration agents in simple repairs, such as adding plugs and repairing and splicing electric cords. Schools have been given in seven of 12 Extension districts, and others have been sought. In conducting the schools Mrs. Claytor has had the assistance of M. R. Bentley, agricultural engineer and P. T. Montfort, research associate of the college agricultural engineering department.

In some instances, demonstration agents have helped rural women map out wiring of their homes and explained principles of the fuse box, facts every homemaker ought to know.

Debts are the only things which expand when contracted.

When you embark on the sea of matrimony you sail with the tied.

Glove Shortage Slows Cotton Boll Pulling

COLLEGE STATION—A shortage of canvas gloves for boll pullers now is hampering speedy harvest of cotton in the West Texas area.

C. Hohn, state farm labor supervisor for the A. & M. College Extension Service, said where a critical need exists, wholesalers can request additional supplies on Form WPB 574 to be routed through the WFA's Office of Labor. Washington officials of that office have pledged to help obtain approval for releasing an

additional supply. Although 40,000 pairs recently have been released in cotton areas, this number is entirely inadequate, Hohn pointed out. He explained that cotton pullers ordinarily wear out a pair of gloves in a couple of days, and a week is the maximum use that can be expected. There are

now 30,000 migratory workers in the West Texas area, in addition to the thousands of farm and town families who are helping gather the crop in that section.

MORE ABOUT AID TO VETS

COLLEGE STATION—Advisory committees of farm people and technical workers to assist returning war veterans who are interested in farming have been set up in 249 Texas counties, and their aggregate membership now numbers more than a thousand, according to Joe L. Matthews, assistant in agricultural planning.

These committees are concerned only with men who want to farm and seek assistance and probably these won't constitute more than 10 or 15 per cent of the total in uniform, Matthews explains. Several committees are contacting service men from their counties offering assistance, and in one instance 30 per cent of more than 2,000 men received questionnaires on their plans, with replies received for more than

half. In most instances, these advisory committees are sub-committees of county agricultural victory councils, and county agents serve as the secretaries as well as giving advice which comes within the province of their usual official duties, Matthews explains. Under an arrangement between the War Food Administration and Selective Service, returning veterans interested in agriculture are referred to county agents.

Matthews says he finds wives and mothers of service men alert to after-the-war adjustments, and many home demonstration councils and clubs now are studying the G. I. Bill of Rights.

B-29 TOUGH SKY BATTLER

Seventy-nine Japanese fighter planes ganged up on a single American B-29 Superfortress over Jap territory and not only failed so much as to scratch it, but had seven of their own planes shot down and two damaged by the bomber's guns, the army air forces report from China. The running fight lasted four hours during which the B-29 was first attacked by nine Jap planes, then by a squadron of ten, and finally a fleet of 60, just off the coast of China.

BE SAFE...BE SURE...WITH WAR BONDS!

NO turn in the weather can wash out your investment in War Bonds. No cut-worm or borer or other insect pest can get to them. No market fluctuation can alter their value from day to day. They're one "crop" that never fails!

We Americans pride ourselves not only on knowing how to make a penny now and then, but also on how to keep one. So we get double pleasure out of our War Bond purchases. First, we're backing our men in uniform who are fighting all over the world to keep America safe and free. Second, we are building a financial reserve to meet the inevitable emergencies of such a business as farming. And third, when those Bonds mature, we will have the cash for new equipment and machinery and buildings to help maintain the efficiency and earning power of our farms.

Yes, if you're looking for a "crop" that never fails, you'll put in an order today for more War Bonds... even if you have to go without something else to pay for them!

5 REASONS FOR INCREASING YOUR WAR BOND PURCHASES

1. The tempo of this war is hitting its highest point. Government expenditures for war are at the peak. MORE MONEY IS NEEDED... NOW!
2. In proportion to WHO HAS THE MOST MONEY, individuals are not buying their share of War Bonds. America must correct this situation.
3. War Bonds provide the farmer and rancher with the financial reserve he *must* have to survive the ordinary ups and downs of farming as a business.
4. Money will be needed urgently at a future date to replace and repair farm equipment, machinery, and buildings. War Bonds will provide it.
5. War Bonds are the safest investment in the world, return a good rate of interest, are easy and convenient to buy... from bank, post office, rural mail carrier or Production Credit Association.

For America's Future, for your Future, for your Children's Future

Keep Backing 'em Up - WITH WAR BONDS!

OKLAHOMA LANE

Mr. and Mrs. Wilbur Thrash and daughter spent the weekend in Vernon, Texas. Mrs. Lucy Baldwin, sister of Mrs. Thrash, returned with them to visit a few days.

Mr. and Mrs. Oscar Newby and son, of California, are visiting her parents, Mr. and Mrs. John Kloemper.

Mr. and Mrs. Melvin Sudderth spent Sunday with Mr. and Mrs. Bill Hubbell and Beverly Joy.

Several from this community attended the Texas Tech-NMU football game in Lubbock, Saturday.

Levi Johnson received a severe cut on one of his fingers the past Thursday when he got it caught in the cylinder of his combine.

Santa Fe Employee Is Back With Railroad

The first of the Santa Fe traffic employees to return to railway employment following honorable discharge from the Army is Capt. Harold B. "Jack" Golding, today appointed traveling freight agent at Lubbock, where he now resides.

Announcement of the appointment was made by H. C. Vincent, traffic manager, following release of Capt. Golding by the Army. Golding formerly served in Amarillo as traveling freight and passenger agent. After he left for overseas duty his family moved to Lubbock. Capt. Golding has had an outstanding service record, as did his father, John B. Golding, in World War I, after whom John B. Golding Post, VFW, Amarillo was named.

Capt. Golding was in the thick of it during the North African campaign and later when his outfit moved on Italy. While his unit was attempting a landing at Salerno the pilot of the landing boat became confused. As a result, their craft was moving in on the beach at daylight, open target for the enemy when, as he expressed it "all hell broke loose".

"They threw everything at us but somehow we got through," he added.

FOR SALE—Allis Chalmers W. C. tractor, ready to go, good rubber, with lister and planter attachments. Also 16-ft. factory-built metal boat and 5 hp. Johnson outboard motor, both in good condition. Lee Jones, 6 miles SE Farwell. 49-tfc.

MY CHRISTMAS cards are here now. Come see them while the stock is complete. Mrs. Minnie Leftwich, Farwell. 1-tfc

LOST—Hampshire boar shoot, wt. about 125, tip of one ear cropped. Please notify J. R. Thornton, Farwell. 2-1tp

Revival Planned By Local Nazarene Church

Revival services will be held in the Church of the Nazarene, in Texico, beginning November 24 and continuing through December 3, it was announced today.

Rev. R. C. Gunstream, district superintendent, will be the speaker for the series of services, with special music and singing each evening directed by Rev. and Mrs. Gunstream.

Services will be held each evening at 8:30, Texas time, and the public is cordially invited to attend.

SISTER DIES

Mr. and Mrs. C. M. Henderson returned home Tuesday from Van Alstyne, Texas, where they attended the funeral of Mr. Henderson's oldest sister, Mrs. S. D. Moore.

Mrs. Moore died at the home of a daughter in California, and the body was shipped back to Texas for burial. Her husband preceded her in death by less than a month. Both died of heart failure.

LIGHT SNOW FALLS

A light snow fell here during the early hours of Friday morning of last week. The moisture received was only a trace, but sufficient to delay combining operations during the remainder of the week.

Woman's' Federation Condemns Oil Treaty

DALLAS—Action of the executive board of the Texas Federation of Women's Clubs in condemning the Anglo-American petroleum treaty now pending before the Senate for ratification, was hailed today by Grady Vaughn, chairman of the statewide committee of oil operators opposed to ratification of the treaty, as a concrete example that the women of Texas are vitally concerned about any treaties or agreements that would throw the natural resources of Texas into a worldwide pool, dominated by foreign interests.

"When the club women of Texas learned of the provisions of the Anglo-American treaty," Vaughn said, "they lost no time in adding their protest to hundreds of others against ratification of the treaty."

The three regional chambers of commerce have voiced their opposition to the treaty. The three members of the Texas Railroad Commission have protested ratification of the treaty and the State Board of Education recently condemned the treaty as a direct threat to the school systems of the State which derive most of their revenue from taxation on oil.

Under the terms of the Anglo-American petroleum treaty, the oil resources of the United States could be thrown into a worldwide pool under the guise of world security and American production of crude oil could be regulated from foreign capitals, Vaughn said, adding, "In fact, the international commission which probably would be set up to prorate worldwide production of oil could very well shut down every American oil well on the claim that our wells were endangered by the drain of supplying the Allied armies with oil for three years and that they needed replenishment. In the meantime, foreign oil, cheaply produced, could be poured into America, even into the great East Texas oil fields. And Texas economy, which is built to a great extent on the revenue derived from crude oil, would be endangered and the State would have to look elsewhere for revenue it would lose as a result of such arbitrary proration from overseas."

TO HARLINGEN

County Attorney A. D. Smith is out of the office this week, having left today (Wednesday) for Harlingen, Texas, where he will spend several days attending business matters.

DO IT WITH WAR BONDS!

DID you ever get ready to blast a stump and wish you had Hitler and Tojo tied on top of one?

Well, you are giving this pair of varmints approximately the same treatment when you buy a War Bond. Because the money from that Bond is what enables our boys to work their way ever nearer and nearer to Berlin and Tokyo, smashing up a lot of Nazis and Japs on the way.

And here's a thing to think of: those Bonds will enable you to buy new equipment and machinery, repair and rebuild buildings, refurbish your home. For you get back all that you put in, plus substantial interest at maturity.

So let's obey that impulse to blast Tojo and Adolph to the skies . . . where we've already sent the Duce. Let's buy the Bonds that will help do it!

5 REASONS FOR INCREASING YOUR WAR BOND PURCHASES

1. The tempo of this war is hitting its highest point. Government expenditures for war are at the peak. MORE MONEY IS NEEDED . . . NOW!
2. In proportion to WHO HAS THE MOST MONEY, individuals are not buying their share of War Bonds. America must correct this situation.
3. War Bonds provide the farmer and rancher with the financial reserve he must have to survive the ordinary ups and downs of farming as a business.
4. Money will be needed urgently at a future date to replace and repair farm equipment, machinery, and buildings. War Bonds will provide it.
5. War Bonds are the safest investment in the world, return a good rate of interest, are easy and convenient to buy . . . from bank, post office, rural mail carrier or Production Credit Association.

For America's Future, for your Future, for your children's Future

Local Happenings

Family Reunion Held On November 20

Honoring Mr. and Mrs. S. E. Napier of DeMossville, Kentucky, and Mr. and Mrs. Bob Wilson and son, Joe, of Delhi, California, a big family reunion of the Lunsford family was held on Sunday, November 20. Mr. and Mrs. Napier, who formerly lived here, have not been in the Twin Cities in 20 years. She is a sister of the Lunsford boys. The Wilsons are cousins of the Lunsfords and she is the daughter of F. M. Young of Texico.

A basket lunch was spread at noon in a building in Texico, after which many pictures were taken by the group.

Those attending from out-of-town were Mr. and Mrs. C. A. Dickson of Levelland, Mrs. Sam Martin and children of Lubbock, Mr. and Mrs. J. B. Lunsford of Portales, Mr. and Mrs. D. C. Burnett and children of Friona, Mr. and Mrs. Roy Williams of Clovis, Mrs. Willis Crook and little Mike Williams of Clovis, Mr. and Mrs. Bill Lunsford and children of Aspermont, Texas; Mrs. E. V. Plaster and son of Belen, N. M.; Miss Nannie Goforth of Clovis. Local celebrants included Mr. and Mrs. S. L. Lunsford and children, Mr. and Mrs. Chas. Lunsford and children, Mr. and Mrs. Joe Crume and boys, Mr. and Mrs. Jim Young, Mr. and Mrs. J. B. Goforth and daughter, Mr. and Mrs. W. N. Goldsmith and children, Mr. and Mrs. W. J. Goldsmith and sons, Mrs. J. A. Jones, Mr. and Mrs. Frank Jones, F. M. Young, Mrs. Roscoe McBee, and Mrs. Les Means. All of the Lunsford brothers and sisters were on hand except Nelson Lunsford, who was unable to attend.

Hypnotist Will Charm If You Don't Watch Out

Interest is running high this week concerning the hypnotist, William I. Fayssoux, who will appear at the Farwell auditorium on Friday night of this week, November 24. The program is being sponsored by the Texico-Farwell Woman's Club as one of several lyceum numbers, and is scheduled to begin at 8 o'clock.

Club members are urged to dispose of their season tickets and turn in the proceeds to Mrs. Claude Rose, chairman of the ticket committee. Individual tickets at the door will be 15c for grade school students, 25c for high school, and 35c for adults.

Students Presented In Piano Recital

An interesting piano recital was presented at the local Methodist Church on Monday evening of this week, when senior students of Mrs. Florence Millwee Vinyard gave their numbers.

Pianists of the evening included Jeatonne Morris, Tommy Randol, Louise and Merrell Rundell, Melborn Jones, Jean and Peggy June Rogers, Jo Ann Williams, Gloria Kepley, Marjorie Whitener, O. L. Thompson and Beryl Brown.

Readings were given by Gloria Kepley, Jean and June Rogers, Jo Ann Williams and Marjorie Whitener. The invocation was given by Rev. Charles Walker, pastor.

Mrs. A. D. Smith has as her guest at this time her sister, Mrs. W. C. Porterfield, of Topeka, Kansas. She will spend several days here.

NEWS FROM OUR BOYS IN CAMPS

RUNDELL ON VISIT

Robert Rundell, son of Mr. and Mrs. "Coon" Rundell, left the first of the week for his Navy base near Richmond, Virginia, after having spent around ten days with his parents, and other relatives and friends.

EASON BELIEVED MOVED

Pfc. Vance Eason informs his parents, Mr. and Mrs. Frank Eason of Farwell, that he has recently received three months "back" mail, which leads to the belief that Eason has landed at a new destination. He is with the 81st infantry division.

HALL IN PHILIPPINES

Mr. and Mrs. W. W. Hall had an idea confirmed this week when they received a letter from their son, Freddie, of the Army, headed "Philippine Islands". Freddie reported that the air raids were lessening on the islands, to the relief of all concerned, and expressed a hope that the European war was going as well "as ours over here".

IN ARKANSAS

Pvt. Muggins Graham is now stationed at Camp Robinson, Arkansas, according to his father, B. N. Graham of this city, who reports that Muggins is in the "walking army".

OVERSEAS TWO YEARS

NETHERLANDS, EAST INDIES—Pfc. Alva L. Pope, of Crane, Tex., motor pool man with an Army Corps headquarters company, and son of Mr. and Mrs. O. T. Pope, Friona, has completed two years of duty overseas.

Pfc. Pope was inducted into the Army in March, 1941. He received his training at Camp Bowie, Tex.

The heavily-tanned, solidly-built soldier is a veteran of the Hollandia operation which cut off the entire Japanese 18th Army, and of Biak, which again advanced Gen. Douglas MacArthur's forces several hundred miles nearer Tokio.

THOMAS AT RANDOLPH

RANDOLPH FIELD—2nd Lt. Gomers T. Thomas, son of Mr. and Mrs. J. L. Thomas, of Muleshoe, has reported to Central Instructor school for a four-week postgraduate course in specialized aerial instruction.

Instructor-trainees are prepared here to pass on standardized flying knowledge to AAF training command cadets.

LEAVES FOR UTAH

Cpl. Willie Jones, who had been visiting with friends and relatives in Clovis, Farwell and Bovina for the past ten days, left the last of the week for Salt Lake City where he is on duty.

FURLOUGH PROSPECTS DIM

Cpl. Champ Porter, brother of John Porter of this city, writes from the Aleutians where he has been located for more than a year, that "furlough prospects between now and next May aren't very good". Porter is on Attu.

STILL IN ALEUTIANS

Charley Crume has recently had word from his son, Lt. (jg) Paul Crume, who has spent the past sixteen months in the Aleutians, that he hopes to draw a 30-day breather at the end of his 18 months in the frozen north.

IN ALAMEDA

Pharmacist mate Jim Cleve Dixon is now stationed in the dispensary unit at the Naval Air Station in Alameda, California, he writes his mother, Mrs. Ruby Dixon. Jim adds that he recently drew back pay for five months, having missed pay call while out in the Pacific, and has been "really seeing the sights".

VISITS PARENTS HERE

Aviation Student Wendol Petree and wife, spent last weekend with his parents, Mr. and Mrs. Hazel Petree. Wendol is stationed at Brady, Texas.

CHRISTMAS A'READY

Cpl. Dick Bobst writes friends from Oahu Island in the Hawaiians, that he has already received his Christmas package from Farwell. Dick adds that he likes the islands, but hopes to see Texas again soon, "probably come plowing along in the middle of a nice spring sandstorm".

VISITS MOTHER HERE

Cpl. Harold Dixon, who is stationed at the air base in Fort Sumner, only some 75 miles from here, spent Monday with his mother, Mrs. Ruby Dixon, and other relatives in Farwell.

BURGESS IN FRANCE

A letter has recently been passed on to friends in this city from Pvt. Orville Burgess, who is now stationed in Paris, France, and driving a truck for the American forces. Burgess reveals that Paris is a swell place to have fun, but he would rather be back in the States.

HERE ON LEAVE

CMI-c W. P. Smith arrived here the first of the week to spend a few days with his brother, Nelson C. Smith. He has been overseas the past several months.

CITED BY MacARTHUR

Chaplain John Abbott has been cited by General Douglas MacArthur for "distinguished services", it was learned here the first of the week. Capt. Abbott, who is the son of Mr. and Mrs. Press Abbot of Bovina, has been with the boys in the Pacific for the past several months, and is believed to be now on the Philippine Islands.

Here From Missouri

Willard Bruns, of St. James, Mo., is here visiting his sister, Mrs. J. H. Barger. Mr. Bruns and wife lived here from 1908 to 1918, and he had not been in the Plains area since. He expressed himself as greatly surprised at the changes made.

Club To Meet Next Tuesday Night

The Texico-Farwell Woman's Club will meet Tuesday night, November 28th, in the home of Mrs. Lenton Pool, with Mrs. A. D. Smith in charge of the program. "English Home Life" will be discussed during the evening, and roll call is to be answered with typical English phrases. All members of the club are urged to attend.

Here From Colorado

Mr. and Mrs. J. L. Nolan, of Denver, Colorado, visited in the home of Mr. and Mrs. Aubrey Sprawls, the past week. Mrs. Nolan is a sister of Mrs. Sprawls, and this was the first time in 11 years that the two had been together.

Guests on Sunday

Mr. and Mrs. Carl Green, of Portales, were guests Sunday of Mr. and Mrs. W. W. Vinyard in Farwell, at which time an anniversary dinner was held by the Vinyards.

Attend Passion Play

Mrs. W. H. Graham, Mrs. Vance Crume, Mrs. Bess Henneman and son, A. C., were in Lubbock, Saturday, where they attended the famed Black Hills Passion Play, depicting the life of Christ. They reported the play one of the most interesting and unusual presentations ever secured for this area.

Leaves for Home

Clifford Kyker, who had spent several days here with relatives, left Monday to join his wife in a visit with her parents at Levelland. They will also visit in Carlsbad, N. M., before returning to their home in California.

Mrs. Kendrick Green and daughter, Wanda Lee, of Belen, are visiting in the home of Mr. and Mrs. D. K. Roberts in Farwell.

Mr. and Mrs. Oscar Nubey of Dinuba, Calif., are visiting her parents, Mr. and Mrs. John Kloepper.

Mr. and Mrs. W. W. Hall visited relatives in Amarillo, on Sunday.

Renew Now

We are authorized to accept renewal subscriptions to the Amarillo Daily News, but no new subscribers.

Don't let your subscription expire if you wish to continue getting it.

We can still take subscriptions for MOST of the magazines, but not all of them.

RED + PHARMACY

Mr. and Mrs. H. Arnold and daughter plan to spend this weekend visiting with Mrs. Arnold's parents, in Sentinel, Oklahoma.

Mr. and Mrs. Ebb Randol visited her mother Mrs. W. A. Bell, of Ranchvale, Friday night.

Mrs. Howard Clump, of Muleshoe, visited her sister, Mrs. Howard Carlyle, last week.

Miss Margeurite Bigham, who is employed with Western Union in Portales, spent the weekend visiting relatives in this city.

Mr. and Mrs. Hugh Edwards and son, of Belen, N. M. visited with her parents Mr. and Mrs. Ebb Randol, and sister, Mrs. Carl Davis, over the weekend.

CARD OF THANKS

To all who assisted us in any way in our recent hour of bereavement, we wish to express our heartfelt gratitude for your kindness. We also express our appreciation for the beautiful floral offerings.

"THE BEST PLACE TO TRADE"

Income Tax Returns

FARMERS, TAKE NOTICE!

Under a new ruling, farmers will have up to January 15 to file their estimates of income and their DECLARATIONS.

But we cannot file these reports for you if you wait until after January 1. We cannot do the job in 15 days—so please come in during the month of December. Your estimate has to be only 66 2-3% correct. After filing your declaration, you will then have up to March 15 to file your final report.

J. D. THOMAS

ATTORNEY
Farwell, Texas.

But do we give them the greatest weapon of all?

IN providing our men with the wonder-weapons of all time, is our job complete? Have we given them our best?

No! Not until every free dollar in America is invested in War Bonds have we provided our men with the greatest weapon of all. For it is support from the folks at home—support that lets the soldier know we're backing him to our limit—that gives him the greatest part of his fighting strength.

Curiously enough, the farms of America need those War Bonds as urgently as our boys need the weapons and the supplies those Bonds will provide. For as those Bonds mature, they will replace machinery and equipment and provide cash to maintain those farms as profitable business enterprises.

Have any of us yet really done our best?

Let's give those boys the greatest weapon of the war—all the War Bonds we can possibly buy!

5 REASONS FOR INCREASING YOUR WAR BOND PURCHASES

1. The tempo of this war is hitting its highest point. Government expenditures for war are at the peak. MORE MONEY IS NEEDED . . . NOW!
2. In proportion to WHO HAS THE MOST MONEY, individuals are not buying their share of War Bonds. America must correct this situation.
3. War Bonds provide the farmer and rancher with the financial reserve he *must* have to survive the ordinary ups and downs of farming as a business.
4. Money will be needed urgently at a future date to replace and repair farm equipment, machinery, and buildings. War Bonds will provide it.
5. War Bonds are the safest investment in the world, return a good rate of interest, are easy and convenient to buy . . . from bank, post office, rural mail carrier or Production Credit Association.

For America's Future, for your Future, for your children's Future

Too Late for Treast

Insert shows Rudolph Wickel of Verona, N. J., as he left for Holyoke, Mass., to dig up a bonanza of \$1,000, whose location was told him as a studio guest on a quiz program. Others heard the program, and Wickel arrived to find that Jose H. Roy and his 14-year-old brother-in-law, Henry Mariell, already had the money, as shown above.

STUDENTS HAVE JOBS

AUSTIN—Full and part-time jobs for 1,816 students at the University of Texas were filled by the University of Texas Employment Service for the fiscal year ending August 31, Charles V. Dunham, director, reports.

"Aggregate income was an estimated \$298,250," Dunham said.

Jobs in business firms, tutoring, clerical work, typing and receptionist jobs were most frequently filled. However, Dunham explains, more calls come for students to work for

room and board, as filling station attendants, and as baby-tenders than for any other jobs.

TOBACCO PRICE UP

It now costs just a trifle more to chew tobacco. Ceiling prices of plug chewing tobacco have been increased by 20 percent at all sales levels, district OPA officials report. A plug of chewing tobacco which has sold at five cents now sells for six cents. The new price, it was announced, was granted because of increased production costs.

Eat Right, Live Longer
USDA Admonishes

COLLEGE STATION — If you want to add years to your life, eat right day after day.

This is the theme of a new bulletin just issued by the U. S. Department of Agriculture which points out that nutrition, along with heredity, plays a major part in determining the length and vigor of normal lives.

The science of nutrition offers extra years—perhaps seven to 10 of them. These should not be considered as "added to old age; rather, they are inserted at the prime of life, while old age is postponed," the bulletin points out.

Entitled "Principles of Nutrition and Nutritive Value of Food", the bulletin was written by Dr. Henry C. Sherman, former chief of the Bureau of Human Nutrition and Home Economics.

Dr. Sherman's statement that there is nothing mysterious about good nutrition is emphasized by Miss Edith Lawrence, food preparation specialist for the Extension Service. She says for most Americans that "extra something" that can add to the good years of life is simply a matter of getting more milk or milk products and more fruits and vegetables.

Often, even people who consider themselves well nourished can profit by adding more of these to their diet, Miss Lawrence says. Texans who want to check on themselves can obtain a copy of the Texas Food Standard, a simple guide to a good daily diet, from their home demonstration agents.

A rare form of ball-shaped lightning, called globular lightning, has been observed moving slowly thru the lower atmosphere or rolling along the ground. It usually breaks up with a mild explosion which is not very destructive or dangerous.

- 2—Good chicken coops, 8x3.
- Some good scrap lumber, fence posts and cross ties.

100 OCTANE GASOLINE won't grow wings on a car

EXPECT NO MIRACLES from your present car if the tank were filled with 100-octane gasoline.

Its motor was engineered specifically for the gasolines which were available at the time you bought your car. To secure the benefits of very high octane fuels, post-war motors will have much higher compression ratios, will be smaller and lighter, and will deliver greatly increased power and extraordinary mileage.

All this will be possible because of the super gasolines to be made available for motorists in the post-war period. And you have every reason to expect that Phillips will be among the first to offer these vastly improved motor fuels soon after victory.

Why? Because Phillips is today one of the nation's five largest

producers of 100-octane aviation gasoline. Phillips is also one of the leaders in the war production of butadiene for synthetic rubber.

These achievements are a direct result of Phillips long years of peacetime research to extend the frontiers of knowledge concerning hydrocarbon chemistry. Other accomplishments, which cannot now be told for security reasons, flow from Phillips wartime exploration of the limitless possibilities of chemical production of new and better things from petroleum gases as well as from petroleum.

This is why we say: Every time you see the Phillips 66 Shield, let it remind you that Phillips refineries, in addition to producing gasolines, lubricants, and fuel oils... are also gigantic chemical plants pouring out weapons for victory.

CARE FOR YOUR CAR—

FOR VICTORY... Buy U.S. War Bonds and Stamps

**HOW ABOUT
A BUMPER
CROP OF
WAR BONDS?**

WITH farm income higher than ever before... but with fewer and fewer things to buy, there was never a better opportunity in our history for farmers to make themselves financially strong and independent.

When the crop checks come in, put those surplus funds into War Bonds! They are the best investment ever offered the people of America. You never get less than you lend, and you get back \$4 for every \$3 at maturity.

The farm needs reserves just like our armies in the field. By buying War Bonds, you provide reserves of tanks and guns and planes for our boys today while building reserves of cash for your own use tomorrow.

With bumper crops on every hand, we owe our boys and Uncle Sam a bumper crop of War Bonds. And we owe it to ourselves to save money against the uncertainties of

the future, to re-equip our farms with new and more efficient machinery, to repair and rebuild and refurbish our homes. Best part of it is... we can do both! Let's do it!

5 REASONS FOR INCREASING YOUR
WAR BOND PURCHASES

1. The tempo of this war is hitting its highest point. Government expenditures for war are at the peak. MORE MONEY IS NEEDED... NOW!
2. In proportion to WHO HAS THE MOST MONEY, individuals are not buying their share of War Bonds. America must correct this situation.
3. War Bonds provide the farmer and rancher with the financial reserve he must have to survive the ordinary ups and downs of farming as a business.
4. Money will be needed urgently at a future date to replace and repair farm equipment, machinery, and buildings. War Bonds will provide it.
5. War Bonds are the safest investment in the world, return a good rate of interest, are easy and convenient to buy... from bank, post office, rural mail carrier or Production Credit Association.

For America's Future, for your Future, for your children's Future

Cattle Grub War Is Promoted in Texas

COLLEGE STATION — Cattle grubs each year in Texas destroy enough leather to furnish shoes for a million soldiers and enough meat to feed nearly five thousand for a 12-month period.

In view of these and other losses, the Extension Service is waging a strenuous control program which already is underway in South Texas and will continue to late December in the northeastern section. A leaflet describing control measures entitled "Are Your Cattle Grubby?" has just been issued by the Extension Service and is generally available from county agents.

Dr. H. G. Johnston, entomologist and author of the new leaflet, says in addition to causing losses of meat and leather, grubs are known to reduce milk flow approximately 25 per cent. In addition, grubby cattle require about 15 per cent more feed. Looking at grub damage as a whole, it costs Texas farmers and ranchers about five million dollars each year. Dr. Johnston believes this can be saved by simple, inexpensive treatment.

For small numbers of animals, dusting is easy and effective, since the dust is simply rubbed into the hair with the fingertips. A fruit jar with a dozen or so holes in the metal lid can be used. A mixture of 5 per cent rotenone and sulphur is preferable, but where these ingredients are unobtainable substitutions can be made.

Cubs or derris, sulfur and water also combine to make a suitable spray mixture. Dr. Johnston recommends use of a power spray producing not less than 250 pounds pressure. The backs of the animals should be wet thoroughly. When both grubs and lice are to be controlled, animals should be dipped. Two applications 17 to 21 days apart are necessary. The first should be made 10 to 14 days after the first grubs are mature, that is, a dark brown or black color.

Victory is Everybody's Job.

Used Army Vehicles Offered By Treasury

In response to inquiries from prospective purchasers of used Army vehicles, District Manager Nettles F. Nelson, of the ODT, today announced from Lubbock that he had received information from the Treasury Procurement Division as to how such vehicles may be acquired.

Used Army equipment is sold through the Treasury Procurement Division and negotiations for purchase must be handled directly with that agency. The ODT does not participate in these negotiations in any way other than to certify the eligibility of the purchaser.

If a truck is sought for farm use, the applicant should get a letter of recommendation from his local county farm transportation committee. With such a letter the prospective buyer should obtain assurance from ODT that he is eligible for a certificate of war necessity.

If the prospective buyer is seeking a truck for commercial usage, he should contact the district office of ODT for a certificate to Treasury Procurement that he is eligible for

a certificate of war necessity. If the purchaser is seeking to institute a new operation, it will be necessary for him to show it is essential to the war effort or essential civilian economy and file formal application with ODT to inaugurate the service.

According to Treasury Procurement, the purchaser then should contact a dealer and make known his needs. The dealer takes his customers with him to view available vehicles. The dealer also may buy vehicles and take a chance of selling them later. Dealers in the past have bought trucks largely by competitive bidding, but the Treasury Procurement Division regional office at Fort Worth now advises that it is making some negotiated spot sales.

Dealers are notified of the dates of sales and the number and kind of trucks available. Used Army equipment is sold at OPA ceiling prices.

Buy more War Bonds now for Future security, too!

Sapphira Ann, colored washlady, was very proud of her children, of which she had "raised eight head", as she put it, and all of them girls. When she was asked one day to give the names of her children she explained that she had chosen flower names for all of them.

Then she proceeded: "De oldest one is named Gladiola, de nex' one is Pansy, de third one is Heliotrope, de fourth one is Violet, de fifth one is Daisy, de sixth one is Daisy, de seventh one is Morning Glory an' de las' one is Artfishul."

A two-star general, returning to camp one evening, couldn't produce his identification. The rookie on guard refused to let him pass thru the gate. Finally, the exasperated general bent forward, pointed to the stars and his shoulders and bellowed: "Do you know what these mean?"

"Sure," replied the rookie guard, "you got two sons in the service."

The earth is about three million miles nearer the sun in the winter than it is in the summer.

FARM Auction SALE

Tuesday, Nov. 28th

This Will Be An All-Day Sale—Please Be Prompt

30 Choice Dairy Cattle 30

Starting promptly at 10:0 A. M., we will sell at public auction to the highest bidder on the southeast corner of the Bovina townsite, the following property and livestock:

DAIRY CATTLE

- All these cattle have had T. B. and Bang's tests.
- 1—Jersey cow, 5 years old, heavy springer, 5 gallons.
 - 1—Jersey cow, 4 years old, heavy springer, 4 gallons.
 - 1—Jersey cow, 5 years old, giving four gallons, heifer calf by side.
 - 1—Jersey cow, 6 years old, springer, good milker.
 - 1—Brown Jersey cow, 6 years old, heavy springer.
 - 1—Brown Jersey cow, 5 years old, heavy springer.
 - 1—Brown Jersey cow, 6 years old, heavy springer.
 - 1—Brindle cow, 5 years old, heavy springer.
 - 1—Blue Jersey, 4 years old, to calve in 90 days.
 - 1—Yellow Jersey cow, 6 years old, 5 gallons, calf by side.
 - 1—Yellow Jersey cow, 6 years old, heavy springer, 4½ gallons.
 - 1—Guernsey cow, heavy springer 4½ gallons.
 - 1—Brown cow, 5 years old, heavy springer, 4½ gallons.
 - 1—Jersey cow, 8 years old, heavy springer, 5 gallons.
 - 1—Brown cow, 5 years old, 3½ gal.
 - 1—Black poll heifer, fat.
 - 1—Red steer, weight 500 lbs.
 - 1—Spotted Jersey and short horn cow, heifer calf by side two weeks old, 5 gallons.

- 1—Heifer calf, weight 250 lbs.
- 1—Poll Angus bull.
- 1—Jersey cow, 4 years old, heavy springer, 4 gallons when fresh.
- 1—Jersey cow, 4 years old, fresh by date of sale, 4½ gallons.
- 1—Jersey cow, stripper, 2 gallons.
- 1—Jersey cow, 4 years old, heavy springer, 4 gallons.
- 1—Jersey cow, 7 years old, heavy springer, 4½ gallons.
- 1—Red heifer, fresh March 1st.
- 1—Jersey cow, 5 years old, 4 gallons.
- 1—Jersey cow, 4 years old, 3 gallons.
- 1—Jersey cow, 6 years old, 4 gallons.
- 1—Baby bull calf.

FARM IMPLEMENTS

- 1—Model D John Deere tractor on steel, fair shape.
- 1—Western Chief hammermill.
- 1—50-ft. endless belt.
- 1—Big wheat drill, in good shape.
- 1—9-ft. Sanders one-way, good shape.
- 1—John Deere power takeoff binder, 10 ft.
- 1—John Deere 3-row lister.
- 1—No. 12 DeLaval cream separator.
- 1—Meadow washing machine.
- 1—Wheatland MM tractor, 13.50x20 tires.
- 1—6-ft. International oneway.
- 1—Horse-drawn wheat drill.
- 1—8-ft. wheat drill.
- 1—1-row McCormick - Deering row binder on rubber with tractor hitch and tongue and eveners for horses.

- 1—1-row cultivator.
- 1—2-row sled with knives and plows.
- 1—4-wheel trailer with good rubber.
- 1—3-row sweep attachment cultivator with three new 26-in. sweeps.
- 1—Wagon with bundle rack.

HOGS

- 2—Fat hogs, weight 225.
- 1—Black sow, weight 200, with five pigs 8 weeks old at date of sale.
- 1—Black and white spotted sow, wt. 225; 4 pigs, 8 weeks old date of sale.
- 1—White sow, wt. 350; 6 pigs, 5 weeks old date of sale.
- 1—White sow, wt. 200; 6 pigs 5 weeks old date of sale.
- 1—White gilt, wt. 150.

MISCELLANEOUS

- 1—Fence charger with good 6-volt battery.
- 1—1-gallon ice cream freezer.
- 1—12-gallon crock.
- 1—Blacksmith forge and tongs.
- 1—Post drill with bits.
- 2—Pair cotton scales.
- 1—New roll 3-ft. hog wire.
- 1—New roll 4-ft. poultry wire.
- 1—Pair check lines, horse collars, oil drums, grease guns, head fork, scrap iron, hog trough, six-horse and three-horse eveners.
- 50—Pounds arsenic of lead cotton leaf poisoning.

Land Loans

One of the larger Life Insurance Companies of Texas is making approximately 80 per cent of its real estate loans in West Texas. A West Texas man is in charge of the loan and real estate department for West Texas and will make prompt inspections. He will assist you in working out a loan to meet your needs.

Interest rates of this company are as low as the lowest. Terms, five to twenty years, lenient options and reasonable release and subdivision privileges.

This company, besides making loans on real estate, will buy outright or make loans on first vendor lien notes.

If you owe money on your land, check and see if you can't get a better rate of interest and better terms.

Discuss these problems with

Games at Ranchvale Played Last Weekend

Continuing the current basketball season, teams from Texico were guests of the boys and girls squads at Ranchvale, the past Friday night. The series was split, with Texico taking the boys game, and Ranchvale winning the girls' tussle.

Final score of the girls' game stood at 10 points in favor of the Ranchvale sextette, the tally being 15-25. Coach Viola Rodewald reported that the game was close during the last half, but the local guards had allowed the Ranchvale forwards to pile up a lead in the first half which the local basketekers could not overcome.

B. Flye was high for Texico, with a count of 7, while Davis led the scoring of the Ranchvale team.

The boys' game, so rough that at times it resembled football more than the cage game was a walk-over for Texico, with Johnson going hot to lead the team to a 43-20 victory, pegging in 20 of the local points himself. White was second in the count for Texico, making a generous score of 17.

Coach C. E. Sanders reported that Roop and Miller did good work at ball hustling and "feeding" the ball to men open for shots. Davis was the mainstay of the Ranchvale team, taking 7 points of the 20 amassed.

Local Matters

(Continued From Page One)
 indifference in the Twin Cities concerning the support of the department.

Seek to Destroy Johnson Grass
 Finally, the meeting turned its attention to the subject of the proper steps to be taken to eradicate Johnson grass in Panner and Curry counties. It was the opinion of Chairman C. M. Henderson that county-wide movements looking toward the elimination of the grass be launched now, with the farmers, county commissioners and highway departments cooperating.

County Agent Lee McElroy said that as yet there has been no positive elimination method perfected to get rid of the grass and suggested that experiments being carried on now be watched before decision was made on what process would be used for elimination of the grass.

Rupert Paul, Texico farmer, gave it as his opinion that Johnson grass can be eradicated by constant summer cultivation. "Never let the growth get more than three inches high and you can kill it out in one season," Paul suggested, adding that the land could be laid out through the summer and planted to wheat that fall.

Paul expressed more concern about the "harmless-looking little bind weeds" than he did about the Johnson grass. He said that bind

weeds were literally taking some farms in Curry county, "and I don't know of any way to kill them out." He added that cattle will not even eat bind weeds, and "in my opinion it is the most serious threat we have to our farm lands". He expressed the idea that it would require at least two years of constant cultivation to kill bind weeds—"and I don't know whether that will do it or not," he added doubtfully.

In taking adjournment, Chairman Henderson expressed the hope that "we do not let this interest die" and that something be done to kill out these last good that are threatening "the growth farming section in the nation".

This Is What War Bonds Do

THEY give every American at home a personal weapon against the Axis.

They tell our boys in France and Italy, in Asia and the Pacific what these boys most want to hear . . . that we're behind them!

They make our country strong, not only for the purchase of weapons today but also to maintain and increase the productivity of our farms tomorrow.

Each Bond you buy forms a financial reserve which is indispensable to the efficient and profitable operation of your farm. Make it a rule to put into War Bonds a good percentage of every dollar you take in.

When those Bonds mature, they will be worth many times the effort it took to buy them. For they will mean new and more efficient equipment, the ability to buy advantageously, the means of financing crops, assured education for the children . . . and a means of retirement when you turn that farm over to the boys!

So, Buy Bonds . . . with every dollar you can muster! Uncle Sam needs the money now . . . you'll need it later!

5 REASONS FOR INCREASING YOUR WAR BOND PURCHASES

1. The tempo of this war is hitting its highest point. Government expenditures for war are at the peak. MORE MONEY IS NEEDED . . . NOW!
2. In proportion to WHO HAS THE MOST MONEY, individuals are not buying their share of War Bonds. America must correct this situation.
3. War Bonds provide the farmer and rancher with the financial reserve he must have to survive the ordinary ups and downs of farming as a business.
4. Money will be needed urgently at a future date to replace and repair farm equipment, machinery, and buildings. War Bonds will provide it.
5. War Bonds are the safest investment in the world, return a good rate of interest, are easy and convenient to buy . . . from bank, post office, rural mail carrier or Production Credit Association.
