

Sign of the Times in Southwest Pacific

Two entertainers and their chauffeur read a prediction by President Roosevelt on this huge sign posted along one of our invasion routes in New Guinea. Reading the message are Ray Belger, atop the rear seat, "Little Jack Little," left, and Col. C. S. Meyers. The entertainers have been putting on shows for the Allied troops in the Southwest Pacific.

Elect AAA Committeemen Nov. 19

Dissolution of School District Sought

Acting on a petition signed by 23 qualified voters of the Texas-New Mexico school district, located up the state line north of this city, the Parmer County Commissioners Court has called a special election for the purpose of ascertaining whether or not the consolidation will be dissolved.

County Judge Lee Thompson issued the election order, setting the date of the election on Saturday, Nov. 27, 1943. A voting booth, probably an enclosed truck, will be set up at the site of the old State Line school house. The polls will open at 7 a. m. and close at 7 p. m.

Clarence Jones has been named presiding judge of the election and Elmer Langford and Pearl Singletery will act as clerks of the election.

Some few years ago what was the old State Line district consolidated with the Pleasant Hill district on the New Mexico side of the line. Of late, some dissatisfaction has arisen over the arrangement and the forthcoming election is an attempt on the part of those living on the Texas side of the line to dissolve the consolidation.

Majority Required
Judge Thompson has ruled that a majority of the voters on the Texas side of the line would be sufficient to bring about the dissolution. Only those living in the original State Line district will participate in the election, he stated.

Just what will become of the State Line district, should the election carry, is a matter of speculation at this time. A common school district could be re-established by a majority vote of the voters, or the voters could decide to consolidate with some adjoining district. The latter seems likely to be the course that will be pursued with the State Line district becoming attached to either the Bovina or the Farwell district.

Cotton Gin Burned To Ground, Friday

A four-stand cotton gin, belonging to the Brooks-Deaton interests, owners of the Farwell and Lariat gins, and located 6 miles south of Littlefield, burned to the ground last Friday afternoon.

Mr. Deaton said that the fire started in a cotton house, where unginned cotton was being unloaded, and spread quickly to all the gin structure. In addition to the loss of the plant, 70 bales of cotton, stored on the yards, and 22 tons of seed were a complete loss.

He said that the building was a mass of flames within 15 minutes after the fire started. Insurance in the amount of \$17,500 was carried on the gin property, Deaton said.

Vacation Dates Set For Texico School

Dates for Thanksgiving and Christmas holidays at the Texico school have been set, and were announced today by Supt. B. A. Rogers.

Thanksgiving will draw a two-day pass for the students, with the school being dismissed on Wednesday afternoon, Nov. 24, and reconvening the following Monday, Nov. 29.

Dismissal will be made on the afternoon of Dec. 22 for Christmas, and classes will not be called back until January 3.

FIRE DESTROYS PICKUP

Odus Thompson of the West Camp community sustained a loss Friday, when fire destroyed his pickup on the streets of Farwell. Fire broke out in the rear of the machine and quickly spread to a barrel of gasoline. Firemen were called, but stood helpless, in view of the fact that water sprayed on the fire would cause the gas barrel to burst. The car was a complete loss.

ATTENDS MEETING

H. Y. Overstreet returned home the first of the week from Abilene, Texas, where he attended an executive meeting of the directors of the West Texas Chamber of Commerce. Overstreet was elected third vice president of the organization.

Tribune Job Printing Is Best

Sgt. Osborne Funeral Held Here Sunday

And Now We Wonder DO Tribune Ads Bring Home The Bacon?

For the past 18 years The Tribune has consistently claimed that our want ads "bring home the bacon".

Now, we are in a position to put that claim to a REAL test . . . and no foolin'. The editor's wife has lost three of her ration books, Nos. 1, 3 and 4, which means that bacon is soon to disappear from the family table.

If the finder will return these books to the proper owner it may relieve us of the temptation to engage in a little black market activity, providing we can find a farmer with a surplus of sow bacon.

War Fund Exceeds Quota For County

With two communities yet to be heard from, the Parmer County War Fund drive has already exceeded the county quota by nearly \$1,000, according to figures released here today by H. Y. Overstreet, chairman of the War Fund drive.

Overstreet said that Friona and Lazbuddy workers had not as yet made their final reports, which will swell the total collections as reported up to Tuesday noon. Tabulations by the War Fund Chairman up to that time showed a total of \$912.25 in excess of the county quota of \$2,5890.00.

Overstreet expressed the belief that when the final reports of all workers are filed, the quota will be oversubscribed at least \$1,200.

BOND SALE AT OKLA. LANE, NOVEMBER 19

The American Legion of Parmer County is sponsoring a combination pie supper and bond sale on Friday night, November 19, to be held at the Oklahoma Lane school.

Officials who made the announcement stated that a guest speaker would likely be on hand, probably the commander of the 18th district of the Legion, and a capable auctioneer will be available to cry the sales.

The affair will begin at 8 o'clock, and sponsors are urging a liberal patronage.

ATTEND JERSEY JUDGING

Sterling Donaldson, Sam Sides, Harold Carpenter, Wendol Christian and County Agent Garlon A. Harper spent Sunday in Swisher county, observing the judging of Jersey dairy stock, being conducted by Joe Ridgeway of San Antonio, one of the outstanding Jersey judges in the nation. Harper reported that the trip was of much informational value to local dairy men.

DRAFT BOARD TO MEET

Mrs. Bessie Lee Henneman, clerk, today announced a meeting of the Parmer county draft board to be held on Saturday afternoon of this week, beginning at 2 o'clock.

A crowd that taxed the little church to overflowing gathered at the Church of Christ in this city Sunday afternoon to pay its respects at the first soldier funeral of the present war to be held locally when rites were conducted by Minister Lewis C. Cox for Sgt. Maj. Randol T. (Snooks) Osborne, 27, son of Mr. and Mrs. W. Bart Osborne, Texico residents.

A military escort from Camp Wm. R. Reid at Clovis, fired a salute, and a bugler sounded taps at the open grave in the Texico cemetery, where the body was laid to rest.

Pall bearers were LeRoy Faville, Joe Crume, Perry Owens, Joe Blair, Preston Martin and Claude Rose.

Sgt. Osborne lost his life in an accident on Sunday night, Nov. 7. Returning in a weapons carrier truck to his camp at Papago Park from Phoenix, Ariz., Osborne was killed when the machine failed to negotiate a curve in the road and overturned into an irrigation canal, pinning him under the truck. He was driving the machine, and two other soldier companions were thrown clear of the crash and escaped with slight injuries.

Enlisted in 1940

He enlisted in the Army in July, 1940 and was sent to Fort Douglas, Ariz. From there he was sent to Fort Sam Houston, then to Camp Wolters, where he received his sergeant's rating. Later he was transferred to Camp Robinson, Ark., and received technical training. He requested active duty and was sent to Fort Lewis, Wash. During the three-year period he was in the Army he saw service in Alaska, the Aleutian Islands and on the Bering Sea. He made a number of trips to Russia with lease-lend convoys.

It was while he was stationed in a tent at Prince Rupert, Canada, that he met Sgt. J. R. Williams, who accompanied his body here from Arizona for burial.

Sgt. Osborne came to Texico at the age of two years with his parents from Grandbury, Texas. He grew to manhood here and was a graduate of the Texico high school.

Besides his parents, he is survived by one brother, Wesley T. Osborne of South Gate, Calif.; and one sister, Mrs. Duncan Williams of Lynne-wood, Calif., both of whom were here for the services. Other survivors include his grandfather and grandmother, Mr. and Mrs. J. T. Randol, and a number of aunts, uncles and other relatives.

WITHERS DIES IN WICHITA

Friends here have been advised of the death of S. H. Withers, owner of considerable real estate in and around Texico-Farwell. He died of a heart attack at his home in Wichita, Kansas, on the afternoon of Oct. 17, advises here state.

ATTEND BROTHER'S FUNERAL

Ed and Frank Eason of this city, drove overland to Paris, Texas, the first of last week to attend the funeral of their brother, Jack Eason, age 68, who died following a paralytic stroke.

Mrs. Jersig Buried At Bovina Thursday

Funeral services for Mrs. Anne Shelby Jersig, 70, were held at the Methodist church in Bovina last Thursday afternoon, conducted by Rev. W. M. Pierce, district superintendent of Amarillo. A crowd that overtaxed the little church came to pay tribute to one of Parmer County's outstanding pioneer women.

Mrs. Jersig, a resident of Parmer County for the past 35 years, and a successful ranch operator in her own right, died at an Amarillo hospital Thursday morning of last week after an illness of two weeks.

Burial was made in the Bovina cemetery.

She was owner of the 69 Ranch, northwest of Bovina, and had operated it personally for the past 15 years. It was not an unusual sight to see her on her favorite cow horse out riding the range and looking after her stock.

Mrs. Jersig was the only daughter of Gen. Joseph O. Shelby of the Confederate Army, who refused to surrender and led his troops into Old Mexico at the close of the Civil War.

She was married in 1897 to Frederick Wm. Jersig, of Kansas City, and moved to Parmer County with her husband in 1908, settling northwest of Bovina, where one of the best improved ranches in the Panhandle was established. Her husband, a well-known cattle man, died in April, 1942.

Mrs. Jersig was a member of the Methodist Church and the United Daughters of the Confederacy.

She is survived by one son, Capt. J. Shelby Jersig, of the U. S. Marines, who is stationed in the Solomon Islands; and one daughter, Mrs. Ben Monning of Amarillo. A number of grandchildren survive.

LEAVES HOSPITAL

R. N. (Bob) Williams, who suffered a badly lacerated and broken hand a few days ago when he was caught in a combine, was permitted to leave the hospital last Friday and is reported to be slowly improving at the home of Mr. and Mrs. J. O. Landon, southwest of Texico.

X-ray examinations reveal that he sustained 17 fractures in his fingers and the back of his hand.

JOE MENEFEFEE HAVING SALE

Joe S. Menefee, who lives 6 miles southeast of Friona, has billed a general farm clean-up sale at his place on Monday, Nov. 22. Joe is making preparations to move to an irrigated farm the first of the year, and is disposing of his surplus livestock, farming equipment and other items before making the move. The sale will be in charge of Col. W. R. Wanzor of Muleshoe, and will get underway at 11 a. m.

A pound of cheese requires 4.65 quarts of milk.

Pistol Packing Mama Is Just A Piker

Pistol Packing Mama was "put in the shade" on the Mayfield farm near Friona early one morning last week.

Mrs. Mayfield, hearing a commotion in her chicken house, grabbed up a scantling, summoned the dog, drove the car up to have some light, and went to investigate. She maneuvered to the rear of the building and clad in her night clothing, climbed atop the rail and awaited developments.

Suddenly out came a well-known little animal, whose unpleasant odor is quite familiar to people of this region. The alert housewife whacked him over the head and the dog "finished him off".

While all this was taking place, friend husband snored peacefully. But his slumbers were disturbed when his bedmate returned to the room. After getting one good whiff, he sat up and demanded, "Where in the world have you been?"

Ross Ford To Stage Farm Sale Tuesday

Ross Ford, who lives on the old Hassell place, two miles north and two miles east of Farwell, is staging a general farm clean-up sale on Tuesday, Nov. 16.

Sixteen head of cattle, 150 chickens and an extra good list of farming machinery make up the principle items to go to the highest bidder for cash. Quite an array of household goods and some canned fruit and vegetables will also be included. A complete list will be found in this issue of The Tribune.

The sale will be in charge of Col. W. D. Wanzor of Muleshoe, and Pat R. Bobo will act as clerk. The sale will get under way at 11 o'clock, war time and the ladies of Oklahoma Lane will serve lunch.

Farmers Catching Up With Harvest Work

Despite the critical manpower shortage, farmers generally over this section, are catching up with their fall harvest operations earlier than usual this year, with indications that all crops, with the exception of cotton, will be harvested by the end of the present month.

Practically all feed crops have been combined this year, which has speeded up work to a considerable degree. About the only threshing to be done is in sudan fields and these are rapidly being worked out. Cotton will be the biggest job, but very little has been produced in this immediate section, except around Lariat, where the gathering seems to be getting along with little delay.

Public Sale

As I have bought an irrigated place, I will sell at public auction the following described articles, located 6 miles south east of Friona, or 3 miles east and 4 north of Hub, or 2 miles west and 4 north of the Syndicate hotel, on

Monday, Nov. 22

Beginning at 11:00 A. M. War Time

Livestock

- 1—Brindle cow, coming 4 yrs., fresh in 30 days, 3 1/2 gal. when fresh.
- 1—Spotted cow, coming 4, been fresh two weeks, giving 3 1/2 gal.
- 1—Roan cow, 8 years, fresh in 60 days, 5 gal. when fresh.
- 4—Black Holstein heifers, heavy springers.
- 2—Roan heifers, heavy springers.
- 1—Whiteface heifer, fresh 2 or 3 weeks.
- 1—Roan Durham bull, coming 3.
- 1—Hereford bull, 13 months old.
- 1—Spotted bull, 10 months old.
- 14—Mixed feeder calves.
- 1—Saddle pony, smooth mouth.
- 1—Old saddle.
- 2—Feed troughs, 18 feet long.
- 1—Brown Jersey cow, 7 yrs., fresh in Feb., giving 4 gal. now.
- 1—3-year Whiteface cow with calf, extra good.
- 1—Whiteface heifer, 1 yr., a nice one.
- 1—Red steer, 500 lbs.
- 1—Blue Jersey, dry, 5 gal. when fresh in December.
- 1—Faun Jersey, 10 yrs., 4 gal. when fresh in January.
- 1—White Jersey, 5 yrs., milking 3 gal now, fresh in February.
- 1—White Jersey, 8 yrs., fresh 10 days, 4 gal.
- 1—Spotted Jersey, 8 yrs., heavy springer, 4 gal. when fresh.
- 1—Yellow Jersey, 6 yrs., fresh 30 days, 4 gal. when fresh.
- 1—Brown Jersey, 4 yrs., fresh soon, 4 gal. when fresh.

Farm Machinery

- 1—K. T. Twin City tractor. This tractor has been completely overhauled, has new rubber and is in A-1 shape.
- 1—New Graham-Hoeme plow, 13-ft. rubber tires.
- 1—Almost new portable elevator.
- 1—3-horsepower International stationary motor, good condition.

- 1—John Deere 9-ft. oneway, new boxing, good condition.
- 1—I. H. C. 20-hole wheat drill, good condition.
- 1—J. I. Case row binder.
- 1—2-row knife sled, a good one.
- 1—2-row P. & O. team lister.
- 1—3-row drag lister.
- 1—2-row cultivator.
- 1—Iron wheel wagon.
- 1—Wooden wheel wagon with grain box.
- 1—I. H. C. 1-row drill.
- 1—Furrow guide for F-30.
- 1—10-ft. John Deere power binder, good canvas and on rubber, in good condition.
- 1—Pile scrap iron.
- 3—28-inch sweeps, good ones.
- 2—Scoops.
- 4—Heavy chisels for lister foot pieces.
- Forks, grease guns, oil cans, repairs and many other items too numerous to mention.

Household Goods

- 1—Good kitchen cabinet.
- 1—Library table.
- 1—Old dresser.
- 1—Wash stand.
- 2—Rocking chairs.
- 1—Battery radio, Airline.
- 1—Gasoline motor for Maytag washer.
- 1—Kitchen cabinet.
- 1—Library table.
- 1—Wash stand.
- 1—Round dining table.
- 1—5-burner oil cook stove.
- 1—Dresser.

At Private Sale

- 1—1937 Gleaner-Baldwin combine, rubber tires and rubber drive belts, good condition.
- 1—1935 V-8 truck, has six excellent tires and a 1941 95-horsepower motor, good condition.
- 1—F-30 International tractor, 4-row tool bar and planter attachment. Good condition. I want to take in a late model 2-row tractor on this one.

Congratulations » »

RECOGNIZING the organization of the Future Farmers of America as the outstanding stepping stone to improved agricultural methods in our nation, the J. C. Penney Company hastens to congratulate the F. F. A. members of Farmer County for their outstanding achievements during the year of 1943.

May your achievements of this year be an inspiration to do bigger and better things in the years to come.

Not unlike your organization, the J. C. Penney Company too is an organization in which thrift and industry has been the motivating influences of our success.

BOYS' 4-H CLUB ACHIEVEMENTS

For Better Farming and Victory

C. L. Calaway, Jr., with his war bonds and new saddle he paid for by raising hogs and calves to make meat for the boys in the service.

By GARLON A. HARPER
County Agricultural Agent
Texas A. & M. Extension Service
(Reprinted from The Farmer-Stockman, Sept. 1943)

You may often wonder what our fighting men on the sea, in the fox-holes of Sicily and New Guinea, and on bombing missions over Europe think about the farmers back home are doing to help win this war and build a secure future.

You would not have any misgivings about what they would think if each of them could hear the story of C. L. Calaway Jr., 13-year-old 4-H club boy of Parmer County, Texas. C. L. is producing food, buying bonds, collecting scrap, and learning better farming methods with such vigor and vitality as would make any adult farmer green with envy.

He Makes Beef Steak
If you were to ask C. L. what he is doing to help out the war effort he would probably say, "Well, I dunno. They won't let 13-year-old boys in the air corps so I guess I am just depending on them to do the job."

Yes, he's depending on them but he is also backing them up all along the line.

For instance, our fighting men probably all like good beef steaks. C. L. fed out five Herford steers this year to a total of 5,000 pounds. Those steers were the five fattest Herford steers in the Plainview 4-H club Fat Stock show and won second place in the five class. That will furnish a lot of fighting men with good old time American beef.

Pork, Too
Maybe some of the fighting men prefer pork. C. L. has been fighting in that department too.

During the last 12 months he has kept from two to three brood sows and sold 30 top hogs that weighed a total of approximately 7000 pounds.

That means a lot of bacon and ham for some hard fighting men when "chow" is signaled all over the battlefronts of the world.

The food department is not the only place in which C. L. has done credit to Uncle Sam's farmers. He has invested most of his profits in war bonds. In fact, he has war bonds which will have maturity value of \$1,000.

He may not be able to build tanks, airplanes, and ships but he sure is furnishing some of the money it takes to build them.

He is looking forward to the day when he can attend agricultural college. Those bonds are going to come in mighty handy then.

When the call went out for scrap iron and rubber collection he sold every bit of scrap iron and rubber on the farm—and bought a bond.

He Makes a Hand
You would think a boy with accomplishments of this kind would have been busy on farm work all the time but not so with C. L. He drives his father's tractor, helps milk, works the garden, helps care for the chickens and even finds time to take the tractor or combine over his brother's farm and work there when they cannot find a regular hand to do the extra farm work.

The family victory garden is the pride of C. L. and his mother. Last year it was such a good garden that C. L.'s mother was able to can over 1000 quarts from that garden besides vegetables for fresh use and dividing with the neighbors.

All Fight Together
His help in doing farm work is good but so are his preparations for building a secure future. In his 4-H club work he has always look-

Parmer County 4-H Winners For 1943

Parmer County 4-H Club boys have just completed one of their best years in 4-H Club work. Their winnings for 1943 include a trip to the National 4-H Club Congress in Chicago, three \$25.00 War Bonds, a registered gilt, and five gold medals. Parmer County 4-H Club boys won more places in state contests than any other county.

One of the most outstanding all around 4-H Club boys of the county is young C. L. Calaway, Jr. of the Rhea Community. Although C. L. is only 13 years of age he has a record in 4-H club work which would be the envy of any boy who might be completing 10 years of 4-H Club work. The story of C. L. and his accomplishments is reprinted on this page from a feature story which appeared in the FARMER-STOCKMEN which is a farm magazine published in Oklahoma City. This year C. L. has won a \$25.00 War Bond in the National Victory Achievement Contest. There were four of these awards made in Texas and for a 13 year old boy to win one of the four is a great honor for Parmer County. C. L. has also won the registered gilt which is offered for the best 11 around 4-H Club boy in Parmer County this year.

Another outstanding winner this year is Leon Grissom of the Oklahoma Lane Community. Leon completed his work in the 4-H Club this year after being a member for seven years. He is now enrolled in Texas Tech College. Leon is the fourth boy from Parmer County to win this award in the last five years. Leon has also won a \$25.00 War Bond in the National 4-H Club Dairy-Production Contest. For all of his seven years in 4-H Club work Leon has been interested in and has worked with dairy cattle. During 1942 Leon was a member of the Parmer County Dairy Production Team with Donald Watkins and in that contest they won first in this district and second in the state-wide contest, being nosed out by a narrow margin of one point. Had they won that contest the two boys would have been awarded a trip to the national 4-H Club Congress in Chicago during 1942. It was announced that Donald, Leon's partner in the team demonstration, had won a trip to the Club Congress as state winner in the REA Contest. Leon felt just a little "left out" since his partner was getting to make the trip and he was being left at home. However, Leon went to work again on another year of Club work and now he is getting a trip to Chicago. Leon will also get a gold medal in

National 4-H Club Dairy Production Contest.

And now we come to Wendol Christian of the Oklahoma Lane Community. Now it looks as if the same old story of the trip to Chicago with Donald and Leon will be repeated. This year Wendol was Leon's partner and both of them were pointing to the trip to Chicago in the National Dairy Production Contest. Wendol is, however, winning a \$25.00 War Bond in the contest. But Wendol is one of those boys who works who works hard and who is ready to do more work to reach his goal. So, if I don't miss my guess Wendol is going back home and really bring out a record next year which will assure him of the trip to Chicago in 1944. Yes, Wendol is an outstanding 4-H Club boy. He did a wonderful job on his dairy production work this year and he is all set for a wonderful job next year. He is the boy to watch for 1944.

Next we have Anthony Jesko out in the Midway Community. This is Anthony's last year in 4-H Club work and when you look back over his accomplishments in swine work you will find a lot there to be proud of. Anthony's best work started back in 1938 when he bought a registered bred Hampshire gilt from the Sand Springs Farm in Oklahoma. Since that time he has done an outstanding job of producing both market hogs and registered breeding hogs. 1943 saw one of his best jobs of feeding when he sent 15 hogs to market at 240 lbs. in four months and 15 days from birth. That is a record which will be very hard for any old and experienced hog feeder to equal. Anthony entered the Wilson Meat animal contest and has won a gold medal in the contest.

Another winner for Parmer County is a boy who has been a veteran in winning contests and who is completing his last year in 4-H Club work. This boy is Donald Watkins of the Oklahoma Lane Community. Donald is winning a gold medal in the National Safety Contest. Donald won the State award in the REA Contest in 1942 and thereby became ineligible for the trip to Chicago this year. Donald's record was good enough this year to take a trip to Chicago but since they ruled him out this year, he said, "Let it go on to some other boy who has not won the contest before. I've had mine and am well satisfied with my 4-H Club record."

Well, there they are. The winners and outstanding 4-H Club boys for the year. A fine group of boys who will make wonderful farmers.

GILBERT WATKINS
Santa Fe Trip Winner, 1939

NELSON FOSTER
Santa Fe Trip Winner, 1941

DONALD WATKINS
REA State Trip Winner, 1942

LEON GRISSOM
Santa Fe Trip Winner, 1943

After 4-H Club Training... What?

Boys of Parmer County have had an opportunity to do 4-H Club work for a good many years now and every year from 100 to 200 of the boys between the ages of 10 and 20 years, have taken advantage of this offer and have enrolled in 4-H Clubs over the county. Probably the big question in the minds of most people is, "What has this training done for boys. What are they doing now?"

What a boy gets from 4-H Club work depends to a large degree on three people. These people are the boy himself, the parents of the boy, and the leader or the agricultural agent. In many cases all three have cooperated beautifully and much has been accomplished. In other cases one or more of the three have in some way fallen down on the job and the actual good has been less.

The most outstanding award which has ever been given Parmer County 4-H Club boys is the trip to National 4-H Club Congress in Chicago. During the last five years four Parmer County boys have won this award. Let's look into the lives of these four boys who are the cream of the crop of 4-H Club boys in the county and see just what they are doing now that results from agricultural training needed so badly in this national crisis. Let's just go down the line of these four boys as they have won and take them up one by one and see if they are making a contribution to our national and local well being.

First is Gilbert Watkins, of Oklahoma Lane, who won the Santa Fe trip to Chicago in 1939. After completing his 4-H Club work Gilbert worked with his father for a while on their well operated farm and then last September (1942) he went into the armed forces of the country as a Coast Guardsman. He is now Aviation Mechanic, 3rd Class Coast Guard, Port Angeles, Washington. Who could ask for a greater contribution than Gilbert is making?

Next is Nelson Foster who won the Santa Fe trip to Chicago in 1941. At the time Nelson won this trip he was already farming a quarter

section of land on which he has 100 acres of wheat, 60 acres of cotton, 442 acres of grain sorghums, 35 head of cattle and 50 head of hogs. Here's a real contribution to the National War Effort. It is said that an army moves on its stomach. If that is true then Nelson is keeping them moving.

Then in 1942 a brother of Gilbert Watkins came into the limelight with a trip to Chicago as the state winner in the REA contest. Donald is just this year finishing up his 4-H Club work but is already doing a man's job on the farm in producing food for our people at home and our fighting men. He makes a full time hand on his father's farm and, in fact, helps to do a lot of the managing of the farm. This is a 1209 acre farm. This year they produced a good crop, and fed 175 cattle for market, kept 13 cows for milk, kept 200 laying hens, and fed out 40 hogs. Yes, sir, that's a big job, too.

Now, we have the youngest of the winners, Leon Grissom of the Oklahoma Lane Community who is only 17 years of age. Leon has just enrolled in the Texas Tech College and plans to get just as good a start as he can before service in the armed forces.

That is a sidelight on some things the outstanding 4-H Club members have done since their 4-H Club training was completed. There are others, many others, who have done and are doing equally as important work. Many of them are in the armed forces. Others are in vital war production plants and others are on the farm working day and night to produce the food we must have to win this war. We are proud of them and we hope and believe that the training they got as 4-H Club boys has helped them and will continue to help them take their part as they see and do their best when it is needed most.

A century-old plantation-woven coverlet, brought to Texas from Pennsylvania soon after the war between the states, is the latest gift to the Texas Memorial Museum at the University of Texas.

Want to Join 4-H Club?

Boys, you have read on this page the achievements of other boys in Parmer County in 4-H Club work. Probably you are already a 4-H club member and you are learning to "MAKE THE BEST BETTER" by studying better agricultural practices and putting them to work on your farm. If you are then here's more power to you. If you follow this you will be a winner somewhere down the line.

On the other hand, if you are one of those boys who have never had the opportunity to join a 4-H Club or if you never thought before that it was quite worth the effort here's your opportunity to join a 4-H Club. Just clip out the enrollment blank below and mail it in to your county agent. He will be talking to you soon to give you any advice and information you may need in your 4-H Club work.

those steers but I'll take a 'rain check' on it until after the war because I know that our fighting men need that steak more than I do."

NATIONAL 4-H ACHIEVEMENTS	
Victory garden, bu.	5,000,000
Poultry, birds	9,000,000
Dairy cattle, head	90,000
Livestock, head	600,000
Peanuts, soybeans, other legumes, lbs.	12,000,000
Jars Canned	15,000,000
Scrap collected, lbs.	300,000,000
War bonds or stamps bought or sold	\$20,000,000

The first electrically propelled ship of the U. S. Navy was the Langley.

PARMER 4-H ACHIEVEMENTS	
Victory garden, bu.	500
Poultry, birds	629
Dairy cattle, head	24
Livestock, head	204
Grain crops, acres	500
Scrap Collected, lbs.	20,000
Bonds, stamps bought	\$6,000
Total amount of food produced equivalent to that required to feed 200 fighting men for 1 year.	

Latest publication of the Texas Folklore Society, "Backwoods to Border," was edited by Dr. Mody C. Boatright of the University of Texas and Donald Day, of S. M. U. The book has just been released, and is a collection of fact and fiction about Texas.

4-H ENROLLMENT CARD

In order to do my part for victory I hereby enroll as a 4-H member.

I will have as my demonstration _____ and will do my best to feed and clothe a soldier and myself.

I will try to be a good 4-H member, to follow my best information on agriculture and homemaking and to help my family and others. In order "to make the best better" I will keep records of my work.

THE MAVERICK

Issued by Students of Farwell High School

FOURTH AND FIFTH

We are glad to see Jill Dunn is back from her trip to Austin and San Antonio.

—FHS—

SECOND AND THIRD

The third grade has almost completed "Winter Comes and Goes". The second grade is doing excellent work in their reading and number work.

—FHS—

FIRST GRADE

The room mothers of the first grade entertained us with a Hal-lowe'en party. Games were played, and popples, cookies and cocoa served. Two new members attended. Peggy Joan Hardage and Dyal-thia Lee Bradshaw have been absent the past week, both undergoing tonsilectomies.

—FHS—

FLUFF 'n' FEATHERS

Wish we had a picture of the stage as it was for the coronation at the carnival. It was really pretty with all the flowers, grass and everything, don't you think? Pretty nice setting for the queen and her court, too.

It looks like winter has got us now, and everyone is either taking out last year's coat or sporting new ones. We've seen a lot of cuties, too, on the fairer sex at Farwell High.

—FHS—

SCANDAL!

What makes the sophomore girls so interested in senior boys?

Seems as though Verna Lee has taken "somebody's" place. What about that?

Tommie seems to be SO happy now. Wonder why?

We wonder why Clarence wasn't at the carnival? What is so important at Pleasant Hill, Clarence?

Who was the soldier at the carni-

val, Marilyn? Never mind, I think we already know!

We wonder why Glenn wasn't with Peggy Ann Friday night, also Saturday night! Is Jack Knowles the answer?

What makes Betty Jo so cold-hearted? Bobby Hart has been trying to find out.

Say, Mary, that certainly was a nice-looking soldier at the carnival.

One of our school boys, Kenneth Hughes, registered for the Army, Nov. 4.

—FHS—

JUNIOR NEWS

The carnival is over and we can all breathe a sigh of relief. Speaking financially, the carnival was a howling success. And of course we are so proud to say our nominees won the queen's race. Bob and Joan did make a good-looking king and queen, don'tcha think?

We wish to welcome a new member, Russe!! Baily, of Tucumcari.

—FHS—

WHO'S WHO

Well, have all your brains figured out our last Who's Who? If you have or if you haven't, they were Peggy Ann Schleuter and Bert Williams. Here are two more to work on:

She is a "ducky" little blond, about 5 feet 3, blue eyed, weighs about 105 lbs., and here are some of her favorites:

- Food: Chocolate pie.
- Sport: Baseball.
- Book: Magnificent Obsession.
- Actress: Ann Sheridan.
- Actor: Alan Ladd.
- Hobby: Collecting pictures.
- Song: "Paper Doll".
- P. S., She is also a Senior!

Now here's a senior boy we all know. He is 5 feet 8, weighs 140 lbs., has brown hair and eyes, and here are some of his favorites:

- Food: Fish.
- Sport: Tennis.
- Book: Wuthering Heights.
- Actress: Joan Fontaine.
- Actor: George Sanders.

—FHS—

FHT NEWS

The FHT girls were very proud of the success of the cake walk at the carnival. The proceeds were placed in the treasury and we hope to have a Mother-Daughter banquet later.

—FHS—

SIXTH AND SEVENTH

Tom and Agnes Hicks from Holland were driving a Ford car to London and it suddenly went dead. The man had been driving a Maxwell Brand car. As he left the car to hunt a telephone booth, his wife asked him to get a can of Johnson's glo-coat if he happened to go to a drug store. He finally found a Temple-man drug on Petree street. Crossing the street, he Tipton (tripped on, get it?) a banana peel and Curtis (hurt his) knee on a Bradshaw, he said. Meissner (my eyes 'er my nose) are not doing any good. While he was Neil in the street a run-away horse came Norton right at him. His only thought was to get it back to the Barne(s). Hen-neman (hemming him in) was a great job, but he did it. The man, Thom-as he returned to his car had to jump a Kriegel (creek) across the road. When he got back to the car, he saw that his wife had fixed it.

"Well M'Agnes," he said "you are a good mechanic." They got back in the car and it Randol right. Maybe the car needed new Geries.

(Maybe you think this is kind of silly, but All-ison worked on it, and we hope it won't throw us out in the Cole. We had to introduce the members of our room somehow. See if you can't find them.)

For obvious reasons, this illustration is merely an artist's imaginative composition of the many thousands of pipes, valves, and gauges, in the 90,000,000 pound Butadiene Plant operated by Phillips Petroleum Company

1943 RUBBER TREE

CARE FOR YOUR CAR—FOR YOUR COUNTRY

YESTERDAY'S RUBBER TREES

were 10,000 miles away in Far Eastern plantations. Today's rubber trees are right in our own front yard.

Only a punctuation mark here separates the two simple sentences above. Actually between them are more than a decade of intensive research, hundreds of millions of dollars, and an almost unbelievable plant-construction program to meet our relentless wartime needs for rubber.

Because Phillips and other American scientists devoted themselves to the problem, the Nation is today, in its hour of need, harvesting a multi-million-ton crop of home-grown rubber!

The butadiene (basic ingredient of synthetic rubber) which Phillips produces is a synthetic chemical. So likewise is Phillips 100 octane gasoline. From petroleum chemicals, too, come explosives, plastics, medicines and anesthetics. The list is almost endless because petroleum and petroleum gases are an overflowing storehouse of hydrocarbons, the chemical raw materials for making an almost limitless number of products.

That is why we say: Every time you see the Phillips 66 Shield, let it remind you that Phillips refineries in addition to producing gasoline, lubricants, and fuel oils, are also gigantic chemical plants, pouring out weapons for victory.

PHILLIPS PETROLEUM COMPANY
Bartlesville, Okla.

FOR VICTORY... Buy U. S. War Bonds and Stamps

Auction Auction!

As I am leaving the country, I will sell at public auction at my place 2 miles north and two miles east of Farwell, on the old Hassell place on—

Tuesday, November 16

BEGINNING AT 11:00 A. M. WAR TIME

16 Head of Cattle

- 1—Jersey cow, 8 years old, 4 gallons, fresh in December.
- 1—Jersey cow, 6 years old, fresh in December, 4 gallons when fresh.
- 2—Jersey cows, 3 years old, giving 3 gallons per day, fresh in spring.
- 2—Jersey cows, 2 years old, giving 4 gallons with first calf.
- 7—Coming 2-year-old heifers, heavy springers.
- 2—Yearling half Jersey and half Holstein heifers.
- 1—Registered Jersey bull, 5 years old.
- 1—Shetland pony, smooth mouth.

150 Chickens

- 100—Buff pullets.
- 50—Mixed chickens.

Farm Machinery

- 1—Oliver 70 tractor, lister and cultivator.
- 2—2-row knife sleds.
- 1—Big tractor trailer.
- 1—Two wheel trailer.
- 1—Hammer Mill and belts.
- 1—McCormick-Deering row binder.
- 2—Feed troughs.
- 1—Brooder house.
- 1—Chicken coop, A-type, 4x12.
- 3—Rolls chicken wire and some posts.
- 2—Rolls hog wire.
- Garden hoes and plow.
- 1—Water tank.
- Several water barrels.
- 1—Wind charger, 6 volt.

- 1—Hog feeder, 1600 lb. capacity.
- Bunch of fench pannels.
- Pitch forks, hoes, shovels, and many articles too numerous to mention.

Household Goods

- 1—Butane tank, 200 gal. capacity.
- 1—Roper range cook stove.
- 1—Severel ice box.
- 1—Dearborne circulating heater.
- 1—Butane chick brooder, 350 capacity.
- 1—Singer sewing machine.
- 1—Stewart-Warner radio, dry cell.
- 2—Kitchen cabinets.
- 1—Round dining table.
- 2—Rockers.
- 6—Dining chairs.
- 2—Platform chairs.
- 1—Divan.
- 3—Bed steads, springs and mattresses.
- 1—Feather bed.
- 2—Dressers.
- 1—Radio table.
- 1—Library table.
- 1—Wardrobe.
- 3—Linoleum rugs, 9x12.
- 1—Ironing board.
- 1—Guitar.
- 1—Shotgun.
- 1—22 rifle.
- 4—New cream cans.
- 2—Wash tubs, new ones.
- 1—Aladdin lamp.
- Mixed vegetables and fruit, 260 quarts.
- 1—Daisy churn.
- Empty fruit jars, about 200 of them.
- 1—Baltic cream separator.
- 2—Big morrows.
- Lots and dishes, cooking utensils and many other items too numerous to mention.

FARM SLAUGHTER REGULATIONS REVIEWED

COLLEGE STATION—Farm families who have been operating as a "meat circle" or "club", can continue to slaughter their own meat without obtaining a farm slaughter permit and without exchanging points among themselves.

It's necessary to keep records of the division of meat, however, says Mrs. Winifred J. Leverenz of the A. & M. Extension Service. And too, it is mandatory that one in the group had raised the animal which is killed. These families—or others who slaughter animals they raised themselves—can store this meat in freezer lockers without giving up ration points to locker operators. The same is true if their own animals are custom slaughtered or if their own meat is cured, ground, or made into sausage for use at home—no points need be given up.

Families also may consume meat without giving up ration points if they owned the livestock for a period of 60 days prior to slaughtering or if the weight of the animal increased at least 35 per cent between the time it was acquired and the time it was slaughtered. Another requirement is that the producer must have resided on the farm he operates for more than six months

ELECTRICITY ON THE FARM

COLLEGE STATION—There are in Texas 300,102 farms without central station electric service, the REA announces.

Knowing farm people's appreciation of rural electrification, C. B. Ray, extension specialist in cooperative marketing, predicts a big expansion in REA co-ops after the war. There are now about 74 in the state. Rural electrification is not exactly at a standstill, despite critical shortages of materials. Where electric service will greatly increase war food production, some extensions are being made to REA lines.

The swift can fly at a rate of 200 miles an hour.

Local Happenings

Miss Dorothy Kriegel, S-Sgt. Rimer Wed

An impressive double-ring ceremony was read by Rev. Karl Keller of Clovis in the St. John's Lutheran Church at Lariat, Sunday at four o'clock, uniting in marriage Miss Dorothy Mae Kriegel of Lariat and Staff-Sergeant Shelton J. Rimer of Salisbury, N. C.

Daughter of Mr. and Mrs. Marvin Kriegel, the bride entered to the strains of the traditional Lohengrin melody, played by Miss Lillymae Kaltwasser, with her father giving her in marriage. As a wedding costume she wore a white chiffon dress with an orange blossom crown as support of the finger-tip veil. She carried a bouquet of white carnations tied with a huge white satin bow.

Matron of honor was Mrs. A. E. Guthals, who wore a pink floor-length gown and carried a bouquet of orchid chrysanthemums. The mother of the bride was attired in navy blue with white accessories and had a corsage of gardenias. Mrs. Albert Ramm, of New Braunfels, Texas, grandmother of the bride, wore black and white and a gardenia corsage.

Fall Flowers Used

The altar was banked with beautiful bouquets of fall flowers, and six lighted tapers were arranged among the bouquets.

Agnes Kriegel, sister of the bride, served as flower girl, and Kenneth Kriegel was the ring bearer. Best man was Mr. Guthals, and the ushers were Ernest Kube and Elton Kielberg.

Following the ceremony, a reception was held at the home of Mr. and Mrs. Kriegel.

Mrs. Rimer, who has been a resi-

dent of Lariat for a number of years, received her education at the Farwell school, and is well known locally.

Sergeant Rimer has been in service for some 18 months, and is a pilot in the glider detachment of the air corps. He is now stationed at Lubbock, where the couple will reside.

Guests at the wedding were Mr. and Mrs. Albert Ramm of New Braunfels, Mr. and Mrs. Walter Ramm and family, Mr. and Mrs. Walter Schwede and family, Mr. and Mrs. Ed Ramm and family, Mr. and Mrs. Dick Gerles and family, Mr. and Mrs. Alvin Kriegel, Mr. and Mrs. E. M. Deaton and family, Mr. and Mrs. C. A. Kaltwasser and family, Mr. and Mrs. Carl Noack and family, Mr. and Mrs. A. E. Guthals and family, Mrs. Karl Keller, Miss Charlene Alexander and Miss Tommie Shelley.

Bazaar Will Be Held By M. E. WSCS

The Woman's Society for Christian Service of the Methodist church announces this week that local people will have an opportunity to select exceptional gifts for Christmas, on Nov. 20, when the ladies stage a bazaar, offering hand-made articles.

In connection with the bazaar, a supper will be served, beginning at 6 o'clock. Further particulars will be announced in the next issue.

PTA Supper Thursday

Members of the Farwell PTA are reminded that the annual Thanksgiving supper will be held at the school Thursday night of this week, at 8 o'clock. A short program will be given.

Community Supper At Lakeview

The Lakeview home demonstration club is sponsoring a community supper, Thanksgiving night, at the school house.

Everyone in the Lakeview community is invited to come and asked to bring a well-filled basket, with either coffee or cocoa.

Armistice Program

Supt. B. A. Rogers stated today that a short Armistice Day program would be held at the Texico school, Thursday afternoon at 2:30, with Rev. W. C. Wright, pastor of the Texico-Farwell Baptist Church, as guest speaker. Special music will be arranged along the patriotic line.

Leaves for California

Mrs. Allan Rogers, who had been visiting in the B. A. Rogers home, left the past Saturday for Alameda, Calif., to join her husband, Lieutenant Rogers, currently stationed on the West Coast. J. S. McBrayer, brother of Mrs. B. A. Rogers, of Berkeley, Calif., who had been here a few days, accompanied young Mrs. Rogers on the trip.

Hallowe'en Party Given Okla. Lane Seniors

Melvin and Frances Sudderth entertained recently, honoring the senior class of Oklahoma Lane high school with a Hallowe'en party, in the home of Mr. and Mrs. Lee Sudderth.

Attending were Vernell Berry, J. C. Minyard, Leonard Watkins, Eugene Verner, Alton Pruitt, Mary Foster, C. W. Grissom, Wendol Christian, Bob Sudderth, Glenn Phillips, Louise Donaldson, Bessie Caldwell, Mary Lucas, Lola Grissom, Leon Grissom, Vernon Symcox, Pete Booth, Joan Booth, Peggy Williams, Arlon Lovelace, Norma Jean Thomas, Jo Van Roach, Jr. Foster, Scott Gober, Bobbie Lou Kent, Billy Joe Foster, Billy Meeks, Mr. and Mrs. John Finley, Mr. and Mrs. Billy Sudderth, Glenden Sudderth and Sammy Axtel.

Mrs. Kendrick Green and daughter, Wanda Lee, are here from Lamesa, visiting in the home of Mr. and Mrs. D. K. Roberts. Mr. Green returned to Lamesa Sunday after spending the weekend here.

Mr. and Mrs. Paul Wurster announce the arrival of a baby boy, on Tuesday morning of this week.

Wesley Osborne, who has been here with relatives the past few days, will leave for his work in California this weekend.

Franklin Sloan, who is attending McMurry College, at Abilene, is here to visit a few days with friends. He formerly resided in Farwell.

Mr. and Mrs. Foster Harmon of Happy, were visiting in the F. W. McElroy home over the past week.

Mrs. Nell Howard of Los Angeles, was here last week visiting in the home of her parents, Mr. and Mrs. F. W. McElroy.

Sgt. John Graham, of Lubbock, was a weekend visitor here.

Mr. and Mrs. Earl Booth and family visited in Canyon and Amarillo Sunday.

Mrs. Gordon Lyons, of Canyon, is here visiting Mrs. Paul Wurster.

Mrs. Anne Overstreet, who has been visiting her son in Shreveport, La., returned to her home the first of the week.

Rex Kyker, of Ballinger, Tex., left the past Thursday, after having visited a few days in the home of his parents, Mr. and Mrs. Bob Kyker.

Mr. and Mrs. Clifford Kyker departed Sunday for their home in California. They had visited relatives in Farwell and Levelland, Texas, for several days.

NEWS FROM OUR BOYS IN CAMPS

BOBST IS MOVED
Mrs. Roy Bobst stated today that she had received word from her son, Pfc. Richard Bobst, that he had been moved from Madison, Wisconsin, to Boca Raton, Florida. Dick is believed to be training in radar.

MOORE HOME
Sgt. L. C. Moore, who is stationed at the Amarillo Army Air Base, is home on a furlough visiting his parents and friends.

HERE ON FURLOUGH
Pfc. Marion Dennis, of Friona, is on furlough from Muskogee, Okla., visiting relatives and friends in this county. He is in the quartermaster corps at Muskogee.

THOMPSON VISITING HRE
Lt. Chas. Paul Thompson, son of Judge and Mrs. Lee Thompson, is here on a brief furlough after receiving his wings at Williams Field, Arizona, on Nov. 3. He expects to leave the latter part of the week to report to San Francisco, Cal.

IN POSTAL SERVICE
Robert Hines (Shine) McFarland, son of Mr. and Mrs. J. B. McFarland, is now in the postal service in New Zealand, having been assigned to that work after sustaining a wound in his arm some time ago. Shine says he was struck with a bullet fragment when the bullet hit his gun barrel and was deflected.

VISITORS FROM CLOVIS
Sgt. and Mrs. Joseph W. Anderson, Sgt. Kenneth Birk, Sgt. John Del Monarca, Cpl. Bill Crafton and Pfc. James Campbell, all of the Clovis Air Base, visited in the Oklahoma Lane community over the weekend.

SEABEE HERE
Petty Officer 3rd Class Edwin Foster, of the Navy Seabees, is spending a 13-day furlough with his parents, Mr. and Mrs. Ernest Foster. Edwin is now stationed at Oakland, Calif.

HOME FROM W. INDIES
Coxswain Isaac W. Quickel, son of Mr. and Mrs. I. W. Quickel of near Bovina, is home on a brief leave from active duty in the West Indies, where he is attached to an anti-submarine flotilla. He enlisted in Jan. 1942, and received his training in Florida and New York. Coxswain Quickel had the unusual experience of being picked off his ship after three days out of port by plane and returned to New York, when he was enroute overseas some months ago.

Overweight Motor Oil Proved Non-Essential

See how safe and economical a surprisingly **Light** grade can be with your engine **WINTER OIL-PLATED**

A motorist who kept a record for a month averaged only 2.7 miles between stops. Maybe you average twice that. Yet the "coupon shortage" means short runs—lots of stopping and starting. That's extra bad for your oil. The first hardships of Winter will find it unfit. This year, of all years, the height of economy is to change your oil promptly.

The lightest suitable oil you can use is best for your engine—your battery—your gasoline economy...best for lengthening your car's future! You needn't risk any overweight grade...not when you have your engine **OIL-PLATED** for Winter by changing to economical Conoco Nth motor oil.

The "magnetic attraction" that seems set up by a certain synthetic in Conoco Nth oil—patented—enables it to **OIL-PLATE**. All good plating forms a staunch protective surface, and that gives you the idea of **OIL-PLATING**. Now think of any **OIL-PLATED** part in your engine facing another **OIL-PLATED** part...double **OIL-PLATING** in between—plus Conoco Nth oil's regular-type liquid film that's extra strong! You can't get more protection than that, while with

overweight oil you'd only invite needless drag and dangerous "absentee" lubrication in starting cold. Don't risk it. Consult Your Conoco Mileage Merchant for your lightest grade of Nth, and face Winter fully confident, with your engine **OIL-PLATED**. Continental Oil Co.

CONOCO
Nth
MOTOR OIL

Dread Engine Acid is Fought by OIL-PLATING

Normal combustion always leaves acids inside of your engine when it stops.

Formerly it seldom stood idle long. Soon mileage and speed heated your engine enough to oust acids.

But nowadays rationing may force long rests, while corrosive acids gnaw. To combat corrosion, metals are plated. You combat acid corrosion with your engine **OIL-PLATED**.

First Round Games, One Win, One Loss

The Texico basketball teams opened the season with a win for the boys and a loss for the girls, Friday night, tangling with the teams tangled with Ranchvale on that court.

The scorebook shows that the Texico boys lopped in 41 to Ranchvale's tally of 12, with a good number of local subs playing a large portion of the game. White and Box were top scorers, with 11 each. Bowers, usual goal plugger, was covered heavily by Ranchvale's Kemp and Bell, both over-six-foot players, but managed to count 8.

In the opening minutes of the game, Ranchvale, spread out in a zone defense, was thrown behind when Box tossed in three loopers from just inside the middle stripe. The defense then began to pull out, leaving White open under the basket, and Texico went to town. Bell was high for the losers, with 6.

The local girls, unable to halt the

rapid-fire scoring advances of the Ranchvale sextette, went down 49-23. Tate racked in 22 points for the winners.

Inexperienced players at guard proved costly to Texico, but the team showed promise, according to spectators. P. Flye was high with a count of 14.

One large plant has converted into electrical energy the power spent by airplane engines in break-in tests by hooking the engines to generators.

Culling Dairy Herds To Up Production

COLLEGE STATION—The current deficit in the supply of protein supplements makes it imperative for dairy and livestock men to get full value from every pound fed. It is false economy for a dairyman to spread a limited amount over a herd too large for each cow to receive its maximum, says O. W. Thompson, Extension dairyman. In that case the sensible and profitable thing to do is to cull the herd to fit the feed supply.

Thompson says the best way to put the finger on the low producers is to keep records or become a member of a herd improvement association. If DHIA membership isn't possible, the individual dairyman should weigh the milk and feed of each cow in his herd weekly, or at least once monthly. The findings will identify profitable and unprofitable cows, and permit him to feed according to production.

The only sound basis for culling a herd is accurate records. It has been found that some cows thought to be the best in a herd were proven by DHIA testing to be the most unprofitable. Likewise, some considered not so good proved the most profitable. A dairyman who culls by guess may make costly mistakes.

Dairy herd improvement association testing has proved that more cows do not necessarily mean more production, and certainly not more profit. It also has shown that good producing cows are profitable to the owner under favorable or unfavorable conditions. Culling of unprofitable cows will mean more efficient utilization of feed and labor in this time of shortage.

Lighting To Meet The Winter Needs

COLLEGE STATION—With days shorter and the family spending more evenings at home, it's important just now to make sure the lighting of the home meets winter needs.

Each member of the family should have a good light for study, reading, sewing, or other close work, advises Mrs. Bernice Claytor, specialist in home improvement for the A. and M. College Extension Service. She says that when your eyes have to work to make out each word, soon your whole body feels the strain.

Her first suggestion is: Use portable lamps with 100 to 150-watt bulbs for eye-tiring jobs. Don't skimp by using smaller bulbs than you really need. Next, arrange the furniture and the lights so that you can sit within three feet of the light source when you do close work. In general, the light should shine over the left shoulder of a right-handed person or the right shoulder of a left-handed person.

It's important also to avoid glare by using deep shades with broad bases which allow the light to spread over a wide area. Small shades with straight sides are "light hoarders" so they should be replaced with larger, more open types, the specialist says.

Homemakers can find they'll make a big improvement in lighting by keeping the shades clean. This means dusting not only shades but bulbs and diffusion bowls which may absorb as much as 20 per cent of the light. Finally, make sure the shade lining is light so it will reflect a maximum amount.

Much the same directions apply to other types of lighting besides electricity, Mrs. Claytor says.

Adjust Breeding Stock To Range Conditions

COLLEGE STATION—Overstocking exhausts the feed on a ranch in maintaining cows too poor for profitable calf production, and similarly with sheep and goats, wool and mohair clips are lighter in weight. It is the opinion of R. R. Lancaster of the A. and M. College Extension service staff, that conservatism requires adjusting of breeding stock to minimum range feed usually available regardless of rainfall. Save in rare, severe drought this leaves an annual surplus to be grazed by steers or wethers.

"Most conservative ranchmen," observes Lancaster who is Extension pasture specialist, "adjust breeding stock to any likely range conditions. They take up the slack with steers or wethers; buy winter feeding if necessary and buy spring grazing in favorable seasons. That maintains breeding stock in best condition and for longer service; increases number and size of offspring; maintains range condition; and produces meat with less risk and expense and with less overhead of breeding stock."

Experience bears this out. One pasture at the New Mexico Experiment Station made 75 per cent more beef with 22 per cent less cows than another. The larger number of cows on the latter, however, which was about the usual rate, were under-sized, and calves were fewer and lighter in weight. Adjustment of grazing animals to seasonal ups and downs in forage indicate use of some steers or mutton which are the most readily salable and buyable kind of stock. Yearlings may be bought or carried over to utilize surplus grass above the needs of a reduced breeding herd of flock.

Among benefits of conservative stocking and grazing management are needs of fewer sires and less equipment; lower death losses; ease of handling yearling steers; fewer forced sales on glutted markets; stable income; benefit of good breeding preserved, and a more breeding preserved, and a more permanent business and livestock industry.

Interest in Texas Schoolboy football in high this year, with 540 teams registered with the Interscholastic League of the University of Texas. There are 105 teams in AA conference football, 265 in A, and 170 in conference B.

TO NAME LIBERTY SHIP

COLLEGE STATION—4-H club members of Texas have been given the privilege of naming a liberty ship, in recognition of their remarkable war-food production record.

Members will make their nominations during this month, according to Onah Jacks and L. L. Johnson, state 4-H club agents. Boys and girls are asked to nominate a deceased person in Texas history who contributed much to improvement of country life. The name of the person receiving the most votes in a county will be submitted to state extension headquarters along with a 100-word biographical sketch. When reports are collected from over the state the names of five persons receiving the largest number of votes will be submitted to

the Maritime Commission for final selection.

SANTA FE CARLOADINGS

The Santa Fe System carloadings for week ending Nov. 6 were 24,253 compared with 23,426 for same week in 1942. Cars received from connections totaled 13,378 compared with 13,565 for same week in 1942. Total cars moved were 37,631 compared with 36,991 for same week in 1942. Santa Fe handled total of 37,823 cars in preceding week this year.

One or two hours of music played during the working day in war factories has caused production increases of from 1.3 per cent to 11.4 per cent, Dr. Archie Jones, University of Texas professor of music, has found.
