

Russians Carry Out 'Scorched Earth' Policy

Two German soldiers dash madly for safety as a terrific blast sets an oil dump afire behind their lines. Russians who remained behind to make sure that the "scorched earth" policy was effectively carried out blew up the oil wells at Krasnodar, even after the Germans had moved in. This photo, which reached here via London, came from an enemy source.

Sunshine Welcome After Week's Rain

Farmers of this section welcomed the return of clear sunshine and balmy days this week after a week of rain and cloudy weather that had seriously disrupted all farming operations since the first of last week. Most farmers indicated that they would be able to resume their harvesting operations by Thursday if the weather continued favorable. Some work, including feed shocking, was resumed Tuesday. But for the most part work that demands the use of heavy machinery is still at a standstill.

Last week's rains dumped a total of 5.11 inches of unwelcome moisture over this section, and fields have been waterlogged since the past Tuesday.

Harvest Just Started

The rains came at a time when the fall harvesting was just getting underway in most localities. Feed crops, which are the best of recent years, are barely touched and cotton gathering has scarcely begun.

Farmers are hard pressed for sufficient help to gather their crops before frost can be expected, which always means additional work in that fields of grain will fall down after a killing frost.

Great Aid to Wheat

While the rains have been a serious detriment to row crop farmers, it is agreed that the moisture will be of great value to wheat fields. Most fields are already up to a prolific stand and will afford abundant grazing for livestock throughout the winter months, thus saving heavy feeding bills to stockmen.

Rev. Sloan Returned Here For Fifth Year

Rev. E. J. Sloan, pastor of the Hamlin Memorial Methodist Church will begin his fifth year here next Sunday morning.

He was returned to the local work last Thursday when the appointments were announced at the conclusion of the Annual Conference at El Paso, Tex.

Rev. Sloan stated on his return that he was very happy in being assigned to this field another year. "I had opportunities to go to other work but I didn't want to accept any of them," he stated.

Those making up the party from here to attend the El Paso conference were Rev. and Mrs. Sloan, Mr. and Mrs. W. J. Matthews, and Mrs. Anne Overstreet.

TO CANADA ON VISIT

Joe Chernick, who has been employed by H. C. Wells of Friona for the past 14 years, left this week for Regina, Sask., Canada, where he will visit a few days before returning here to be inducted into the Army.

WAR STRIKES HER HOME

Mrs. W. W. Bomar and daughter, Miss Dorothy, are here this week visiting in the home of D. K. and Paul Roberts. She is a sister of the local townsmen.

Mrs. Bomar plans to visit in Fort Worth and other Texas points before returning to her home in Los Angeles, where she will be employed by the Lockwood company.

Mrs. Bomar certainly knows the horrors of war. Her son was taken prisoner at Guam and later died in a Japanese prison camp. Two weeks later her husband, who was in failing health, died in California.

Panhandle Shorthorns In Fort Worth Auction

G. T. Watkins of this city, who secretary of the Texas Milk Shorthorn Breeders Association, today announced that a number of Panhandle breeders were consigning cattle to the auction of the Milking Shorthorn Association sale to be held in Fort Worth on October 26.

Twenty-two of the Shorthorns to be sold at Fort Worth are being sent in from Panhandle breeders, Watkins said. He is consigning 14 head to the sale, which includes 10 cows and two heifer calves.

Other Panhandle breeders to be represented in the sale include Miles Millbourn, Wildorado; Morgan Dennis, Hereford; V. M. Peterman, Amherst; L. R. Vaughn & Son, Plainview; Marion Bruce, Amarillo.

Watkins said the stock to be sent from the Panhandle will represent the best animals in this section. "The breeders have selected their very best stock for consignment to the sale," he said.

The sale will be conducted at the Fort Worth livestock arena, he stated.

Selectees Leave For Fort Sill Saturday

A consignment of 22 Parmer county selectees will leave here Saturday morning by bus for Fort Sill, Okla., where they will report to the reception center for induction.

The boys making up the group, whose names were published last week, will be in charge of "Dick" Crume. Due to a slight change in the bus schedule, Mrs. Bessie Lee Henneman, clerk of the local board, has advised all boys to report at the office of the board in Farwell not later than nine o'clock a. m. The bus is scheduled to depart under the new schedule at 9:19.

DRAFT BOARD TO MEET

The Parmer County Selective Service Board will be in session next Sunday afternoon, it was announced today. The session will open at 2 p. m.

Fire Department Gets Support of Club

Trucks and Pickups Require Certificates

Parmer Collects 252 Tons Scrap for Japs

Parmer County has contributed 252 tons of scrap metal to the national scrap pile that will eventually find its way to Jap concentration centers, it was revealed here this week by figures gathered by The Tribune from scrap iron dealers of the county.

O. C. Jones, Friona dealer, was way out in front with collections, reporting 170 tons taken in during this year, 162 of which have already been shipped out.

Ernest Englant of Bovina has collected 75 tons and 20 tons of that amount have been shipped by him.

The remainder of the county scrap collection was handled by the State Line Wrecking Yard in Texico. Very little Parmer county junk has been left at Texico, with most of the collection there coming from New Mexico contributors. Ail told, the Texico buyers estimate they have shipped more than 100 tons.

The drive for scrap has not ceased but will continue until every piece of metal that can be converted into war material finds its way to the junk yards of the nation. Thus far, Parmer county has made an excellent showing but there are yet thousands of pounds of metal to be moved, in the opinion of scrap iron collectors.

FSA Meeting Called Outstanding Success

"An unqualified success" was the phrase applied by Earl L. Fine, local Farm Security Administration supervisor, to the FSA meeting held the past week in Goodwell, Okla., at the Panhandle A. & M. College.

The entire program, Fine reports, was exceedingly well planned and educational, with the county supervisors carrying out demonstrations which specialists offered advice.

The first day was spent in touring the college farm in charge of President Morrison, Warren McMillan, head of the A. H. department, and Clay Terry, head of the agronomy department.

"I was especially impressed," Fine says, "with the livestock housing and equipment used on the college farm. The entire farm is operated from a very practical standpoint and is comparable to almost any family-sized farm in the Panhandle. Those fellows there have certainly demonstrated the ability of a farm to pay good dividends under good management."

The supervisors inspected and discussed farm equipment which would assist in efficient wartime food production.

"Items of great interest to me were hog houses, poultry houses and sheep feeders. The construction was good but required a minimum of expense. I expect," he added, "to have plans of some of these constructions in my office in a few days."

Otherwise, the group took up judging various classes of livestock and poultry, butchering and dressing the carcasses and judging the quality of meats, as well as observing and discussing various experiments in field and garden crops. President Morrison wound up the three-day session with a discussion on "The Art of Being a Good Tenant."

"It is regrettable that every county cannot have a college of this sort where farmers might have access to the facilities and information made available by such an institution," Fine concluded.

IT'S THE LAW!

New road signs setting the legal speed limit at 35 miles per hour have been posted along the two state highways leading into Farwell during the past week.

The new speed regulations are being posted in conformity with a nation-wide speed limit of 35 miles per hour as a means of conserving rubber.

It may be creeping, but it beats walking!

Tribune Job Printing Is Best

The Lord Giveth And Taketh Away

G. W. Paul was doubtless reminded of a statement credited to Job in Holy Writ last week.

On Monday a Holstein cow brought twin calves, and the Texico farmer was elated over the unexpected increase. He made it a point to tell his neighbors about his good fortune.

However, on the following day he discovered "the best white-faced cow I had" dead and stiff in a pasture near the house. She had been killed by a bolt of lightning.

September Sales Top Record, October Lags

With September sales of War Bonds and Stamps in Parmer county topping all previous records, it became increasingly apparent that the October sales will fall far short of the quota unless upped considerably during the next two weeks.

This was the opinion of G. D. Anderson, chairman of the War Bond Committee in this county today. Anderson said that the September sales amounted to a grand total of \$23,300, which is slightly less than \$8,000 over the quota for that month.

He has no accurate figures on the October sales up to date, but said that reports available at present indicate that the sales are lagging generally over the county. The quota for the month is \$15,400, Anderson said, and gave it as his opinion that only a fraction of that amount had been sold up to this time.

Recalling that up to now Parmer county has never failed to sell its quota of bonds and stamps in any given month, Anderson issued an earnest plea that the people of this county maintain their reputation by subscribing the full quota for the month.

Bonds are offered at the Security State Bank in Farwell and the Friona State Bank in Friona. Stamps can be obtained from any postoffice in the county.

Parmer May Miss Call For November Quota

Selective Service officials today said there was a prospect that Parmer county will not have to draft any men during the month of November.

This opinion was based on the fact that to date no quota has been assigned this county for the month and officials pointed out that generally calls are received from four to six weeks in advance.

"We could still be required to send a quota of men in November, a member of the local board stated, but indications are that we will draw a bye for the month," he added.

Cupid may be a good shot, but he makes some awful Mrs.

Under a recent Office of Defense Transportation ruling, all operators of trucks and pickups which carry produce and/or essential supplies to and from farms (passenger cars definitely not included) must have on hand not later than Nov. 15 a certificate of "war necessity", enabling them to purchase gas, tires, tubes, and repair parts.

County Agent Garlon A. Harper, in explaining the new ODT order, stated that these certificates did not mean that operators would be allowed more gas, tires, etc., but simply were required before operators could make purchases for which they are eligible under the rating system.

Owners or operators of such vehicles have been mailed out application forms by the ODT, Harper continued, and a Parmer county board has been set up to assist in filing out applications and forwarding them for required certificates.

J. G. McFarland heads the committee, known as the Farm Transportation Committee. John Gammon represents the ranchers, Ford Welch is the farm member, J. B. Buske is listed as a trucker member, and Howard Morris the implement dealer representative.

Dates Are Set

On October 22, 23 and 24, a representative of this committee will be on hand at Farwell, Friona and Lazbudd for the purpose of assisting in the filing out of application forms, and this caution was added, the operators themselves (who have been mailed these forms by ODT) must bring them along, as none are issued the committee.

At Farwell, applicants will contact a representative of the committee at the small office just east of the Triple-A headquarters; in Friona, the Buchanan Implement company will be headquarters, and in Lazbudd, operators will go to the store.

Harper stressed that applications could be filled out at any of these points on all three dates. In case any Parmer operator has not received his application form through the mail, he should make request for same to the district ODT office, in Lubbock.

Reports on Lubbock Meeting

John Martin, of the Triple A office, who attended a special meeting for discussion of the new ruling in Lubbock Monday, reports "it's going to be a job to get all the information required on the application forms."

For instance, he specified, operators of vehicles under the ruling will be asked to fill in quarterly reports of mileage driven on essential business and miscellaneous trips thus far during 1942, as well as making an estimate on the probable driving which will be necessary during 1942. It is also required that a report of mileage driven on each tire in possession of the operator be given.

Asked as to just what would happen to the application forms after they are filled out and left in the hands of the local board, Martin said frankly, "I just don't know yet." There are three possibilities: (1) that the local board will have the final say; (2) that the board will make recommendations to gas and tire rationing boards, leaving the decision up to them; or (3) the ODT itself may give the final ruling.

(Continued on Last Page)

The plight of the Texico Fire Department and the Boy Scout movement in Texico-Farwell came in for much discussion and definite action at the regular meeting of the Men's Club, held Thursday evening in the basement of the Methodist Church.

Rev. W. C. Wright, local Baptist minister, laid before the meeting the predicament facing the fire department in the lack of men and funds with which to operate, which resulted in action being taken at once.

A committee was appointed to confer with the Waterworks Board with the recommendation that a meter assessment of 10 cents per month be levied on each water consumer in the twin cities to provide an operating expense account for the department. Rev. Wright, E. M. Deaton and Carl Davis were named to this committee.

The manpower problem for the department was given encouragement with the announcement of M. C. Roberts and E. M. Deaton that each would enlist their employees to join the department and pay them for their practice work.

Assessment Idea Approved
It had been previously estimated

SEVEN JOIN DEPARTMENT

Seven new members were added to the Texico Fire Department Tuesday night and put in training at once. Those enlisting as fire fighters were Charley Howard, Elbert Landrum, Carl McCully, G. C. Houston, Herschel Morgan, Jack Houston and Leonard Lewis.

The new crew members were given their first lesson on the operation of the new pumper truck after being accepted.

that a meter assessment of ten cents per month on every water user in Texico-Farwell would yield from \$25 to \$30 per month. Fire Chief Ira Selman has stated that at least this amount is needed each month to pay the actual operating expenses of the department.

A vote was taken at the Club meeting and every man present approved the idea of the assessment. It was brought out at the meeting that since Farwell is not incorporated it would be the responsibility of the Waterworks Board to place the levy on the Farwell users, while the Town Council would have such authority in Texico.

It was the unanimous opinion of the men present that immediate steps must be taken to preserve the continuance of the fire department. An immediate hike in insurance rates was forecast should the Twin Cities neglect the important item of proper fire protection.

Boy Scouts Endorsed

The Boy Scout movement and the organization of a permanent troop was also endorsed by the Club. A fund of \$19.00 was subscribed to start the ball rolling and B. A. Rogers, T. A. McCuiston and J. T. Carter were selected as a committee to further the cause of the Scout movement.

TAKE T-P LOAN APPLICATIONS

Earl L. Fine, supervisor of the Parmer FSA office, announces that his agency will continue taking applications for Tenant-Purchase loans until Oct. 31st. "It is possible that a few farms will be purchased in Parmer County if improved farms can be secured at a reasonable price," Fine states.

Interested applicants are asked to contact Mr. Fine at the local office.

Soy Bean Situation Still a Muddle

Just exactly what disposal may be made of the soy bean crop in this county remained a good deal of a mystery this week, despite the fact that a special meeting was called the past week for the purpose of ironing out restrictions on sale of the crop.

John Martin, AAA administrator reports that there are two avenues through which the crop may leave the farm.

First, it may be sold to the Commodity Credit Corporation with farmers being issued sight drafts that could be converted into cash within a short time; or second, the crop may be sold to a dealer who has signed a contract with the CCC or with a processing plant, or both.

Elucidating a little farther Martin explained that Commodity Credit had first issued the statement that dealers would be ordered to

ship beans to processing plants shortly. However, now the Corporation has informed Martin that no shipments will be made for lack of storage space, which brings up the problem of storage at home.

Eins May Be Erected

Martin stated that he planned to have a number of the pre-fabricated CCC bins now on hand erected this week for use in storing the beans which are sold to the Corporation, with no charge being made the farmer for storage.

The only drawback to this situation, he said, is that producers will not be paid on individual quality of their crop. The beans will all be dumped together, with each producer holding a weight receipt showing how much return he is entitled to when the beans are sold to a processing plant.

At present, Martin said, all pro-

cessing mills in this area are busy with cottonseed crushing, which means that it may be spring before the soy beans can be shipped to processing plants. One bright spot in the whole outlook is the report that a crushing mill may be opened at Lubbock, but information as to when such an operation might be expected to begin was definitely lacking.

Dealers may purchase the beans under a contract with either the Commodity Credit Corporation or by designation as a sub-agency of a processing plant, but they will have to provide storage until they receive word to ship the crop.

Martin this week urged that farmers make plans to place their crop either with a dealer or with the Corporation, as it is a valuable crop and should not be destroyed.

Bovina Happenings

Mr. and Mrs. Frank Crook and son left Saturday for a short visit to Kansas to visit relatives.

Mr. and Mrs. Lester Rhinehart and daughter, Sandra, of Amarillo, visited Miss Oleta Harrison Sunday.

Mrs. Bill McDonald and daughter of Clovis visited in the Charlie Jefferson home, Monday.

Fletcher Hester is now living with Mr. and Mrs. J. T. Hamonds and attending school in Bovina.

George Robert Caldwell, of Abilene visited his parents, Mr. and Mrs. E. T. Caldwell during the past week. He left Monday for Lubbock to volunteer into the army.

Tollie Caldwell of San Angelo, visited here also. He is in the air corps.

Miss Fraw Schubert of Canyon, visited in the E. T. Caldwell home the past weekend.

George Trimble, who underwent a major operation two weeks ago, is able to be up and around again. He came home from Amarillo Sunday. Congratulations to Mr. and Mrs. Chester Venable on the birth of a son, Friday, Oct. 16.

Pfc. and Mrs. Clyde Blalock left Wednesday for Fort Bliss, after spending a ten-day furlough here with friends and relatives.

Miss Oleta Harrison was a business visitor in Clovis, Saturday.

Junior Barbee received dental attention in Clovis, Tuesday.

Ovy Sisk made a business trip to Hoover, Tex., the past weekend.

Aubrey Rhodes made a business trip to Farwell, Tuesday morning.

PLEASANT HILL

Rev. and Mrs. Pierce are moving to Carlsbad this week where he expects to build up a church.

Mrs. Joe Singletery returned home from the hospital at Clovis, Sunday.

Mrs. and Mrs. Floyd Bocox returned home yesterday.

Mr. and Mrs. Gordon Smith and children, who have been away the past six weeks, returned last Tuesday.

Bobby Finley is starting to Pleasant Hill school this week. He has attended Farwell before.

Mr. Jarrell makes an unusual report this week. He says while it was pouring down rain, lightning struck a shock of his cane and it burned until the shock collapsed. Neighbors felt the shock of the bolt a mile away.

OKLAHOMA LANE

Miss Paula Jenkins of Hereford is visiting her parents here.

Mrs. C. L. Evans of Butler, Okla., arrived Thursday to meet her husband Cpl. C. L. Evans. He has received a transfer from Camp Roberts, Calif., to Fort Sill, Okla., and is now on furlough.

School was dismissed two days last week due to bad roads.

Mrs. E. M. Reed left Tuesday for her home in Elk City, Okla., after having visited in the C. E. Foster home for the past several weeks.

Congratulations to Mr. and Mrs. Elby Best on the birth of a daughter, Friday.

Mr. and Mrs. David Carson visited in the J. I. Gober home Sunday.

Dee Brown, who is stationed at Camp Cooke, Calif., visited here over the weekend with his wife, a teacher in the Oklahoma Lane schools.

Mr. and Mrs. Ralph Caldwell of Lubbock spent the weekend in the J. R. Caldwell home.

Those visiting in the A. B. Wilkinson home over the weekend were their daughter, Reta of Lubbock, Miss Claire Trissler of Canyon and a sister of Mrs. Wilkinson from the Rio Grande valley.

TIRE BOARD REPORT

Tire, tube and retread certificates issued by the Farmer Ration Board on Oct. 14 were as follows:

A. J. Moorman, one trailer tube. Joe Wilson, one passenger tire.

L. J. Johnston, two retread passenger tires.

E. B. Brannon, two retread passenger tires.

C. H. White, two retread passenger tires.

James B. Wingo, two retread passenger tires.

Otey Hinds, one obsolete trailer tire.

Roy Hawkins, one obsolete plow tire.

A. C. Graham, two obsolete passenger tires.

C. E. Foster, one pickup tube.

ENT SAVING AMENDMENT ON NOVEMBER 3 BALLOT

An economy measure for Texas to stop the state's paying out over \$100,000 a year for office rent in Austin, will be before the voters in the Nov. 3 general election, it was pointed out in a joint statement of Sen. George Moffett of Chillicothe and Rep. Herbert F. Brawner of Joshua.

Adoption of a constitutional amendment to apply the present rent payments to construction of state office building, and permanently ending this huge outlay for rent, will achieve this purpose, the legislators declared.

Sen. Moffett and Rep. Brawner are co-authors of the amendment that appears on the general election ballot as amendment No. 5. They pointed out that both the house and the senate gave it virtually unanimous approval in submitting it for a vote of the people.

The proposed state office building will not be started, they stressed, until after the war, when building materials are available without interfering with the war effort.

The amendment permits the state to pay for the building entirely out of money it is now spending on rent. Further, it makes the short-term bond issue to finance the building eligible for investment of the state permanent school fund, which that the state would pay itself all the interest on the bond issue. The measure is favored by the state educational authorities who have charge of safely investing the permanent school fund.

When the amendment has been adopted, its sponsors outlined, and when war conditions permit, the legislature will pass an enabling act to carry out its purposes. This will direct the board of control to erect a suitable structure. It would authorize the board of education to invest permanent school funds in the bond issue—which is limited to \$2,000,000—and it will provide that the present state appropriations for rent be put into the fund for paying off the short-term bonds. Then, when the bonds are paid off, the state will own the structure, and the payment

of the huge annual rent costs will be ended permanently.

The state now rent office space in Austin in more than a dozen office and business buildings. It also rents a considerable number of old residences, and even an abandoned funeral parlor. It is now trying to work the basement of the capitol for work of some of its departments with a serious loss in efficiency.

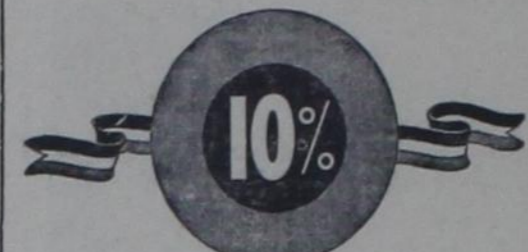

The supreme court and court of criminal appeals are now in the capitol. Many of their archives and records are stored, with other important state documents, in the capitol basement, which has been pointed out by every recent legislature as a serious fire hazard. For several years, the Texas Bar Association and the Texas State Bar have labored continuously to secure adequate and suitable housing for the appellate courts. The bar now has a committee cooperating with state authorities, in the effort to work out housing of state courts, departments and agencies, so that the courts will have better facilities for their work.

The state already has dedicated a vacant half-block of land adjoining the capitol grounds as the site for a building. This was done when the legislature tried to secure construction of a small building merely to house the courts, but the plan was expanded by the legislature also to provide for the departments now paying rent and to save the enormous outlay of money paid out as

rent. No purchase of land for a site is involved.

No objection so far has been heard from any source to this economy measure, its sponsors reported. They urged that Texas voters be familiar with the benefits which will arise from adoption of the state office building amendment, and not permit indifference to defeat the proposal.

Mrs. Kennedy Speaker For H. D. Meeting

Mrs. W. H. Kennedy, president of the Texas Home Demonstration Association will be the feature speaker, Saturday, when the Parmer County Home-Demonstration Council and Clubs hold an annual meeting at the Congregational Church in Friona from 2:30 to 5:00 p. m.

Mrs. Will Nittler, council chairman, will be in charge of the program, it is announced.

Annual reports will be given by all club presidents, council officers and committee chairman, and special music for the program is being prepared by Mrs. Vernon Estes, Mrs. W. O. Cherry, Nelda Jane Nittler and Mrs. Alice Bewley.

The principal business on the agenda of the day is the selection of officers for 1943, after which the group will enjoy a reception, with Mrs. David Moseley, Mrs. Eugene Eggess and Mrs. Giles Cobb as the committee in charge of the social hour, at which the Hallowe'en motif is expected to predominate.

With at least 100 rural club women taking part in the program arrangements, the whole event promises to be a gala affair, with progress of the year being reviewed.

In view of the tire situation, home demonstration club women are urged by officials to pool their cars and bring a load from respective communities.

It is explained that this annual meeting will possibly take the place of the county-wide reception usually held in December.

Stunt Night Program At Texico Friday

Sponsored by the senior class, the annual stunt night program of the Texico school will be held in the auditorium on Friday evening of this week.

A feature of the evening will be the designation of "Miss Texico 1943", the contest being held by the various classes and grades of the school, who have listed candidates.

Representing the first grade is Katherine Bell; the third graders have Ruth Maxey up for nomination; Barbara Allred is the fourth grade choice; Merle Kleeman is candidate of the fifth grade; the sixth graders are running Mary Jewel Wassom; Margie Nell Murphy carries the seventh grade banner; Claudine Curry is in for the eighth; and the high school classes have in the race Peggy Flye, freshman, Jeanne Glover, sophomore; Lena Bell Williams, junior; and Pearl Martin, senior.

Any club or organization in town is invited to enter a stunt at the festival, Mrs. H. Arnold, sponsor, said. Admission for the affair is 10c. Time, 8:30.

Eastern Star Celebrates Seventh Birthday, 15th

The seventh birthday of the Bovina Order of Eastern Star was observed the past Thursday evening when a special program was held to commemorate the event.

Honoring past matrons and past patrons, the program was built around the theme of ascension on a ladder of poetry, with Mrs. J. C. Denny, worthy matron, in charge.

Appropriate gifts were presented to Mesdames Lilly Norton, Aubrey Brock, Geo. Trimble, Chas. Ross, Clyde Perkins, Reagan Looney and John Kimbrow, and Chas. Ross, W. O. Cherry and Charley Bainum, as past matrons and patrons, respectively.

At the conclusion of the presentation, Mrs. W. H. Graham sang the appreciation song of the order.

A tiered birthday cake, topped with seven candles, was the festive centerpiece of the serving table flanked by white tapers and bouquets of bright dahlias. Mrs. Denny presided at the table.

North-Williams Rites Read In September

Rev. and Mrs. W. T. North of Peacock, Tex., former Texico residents, are this week announcing the marriage of their daughter, Mary Jo, to Harold Williams of Oakland, Calif.

The nuptial vows were read by the Rev. Maurice Jackson in the Tenth Avenue Baptist Church in Oakland, on September 12 with Mr. and Mrs. Claude Owen as the only attendants.

The bride wore a black street dress with accessories of white and her corsage was of gardenias. She is a graduate of the Texico high school and was a local resident for a number of years.

The groom, son of Rev. and Mrs. E. E. Williams of Haskell, Texas, is now employed at Richmond shipyards, and the couple will reside in Oakland.

Homemaking Girls To Conduct Survey

Taking into consideration the fact that during an emergency people are apt to go hungry, homemaking girls of the Farwell school are taking a long-range view of the current situation this week by making a survey of all quantity cooking vessels in Farwell which might be commandeered for use.

This survey will include the listing of all available large cookers, pressure cookers, etc., Miss Dorothy Shaw, supervisor of the department, stated today. "With this done, should it ever become necessary to have a number of quantity cooking utensils of hand for an emergency, we would know where to find them," she said. The girls will also list those experienced in quantity cookery, as well as listing recipes.

Party Held Saturday

Seven-year-old Paula Sue Arnold celebrated her birthday at the home of her parents, Mr. and Mrs. H. Arnold, Saturday, at which time Gloria Jean Sanders, Eldon and Patsy Belver, Nansy and "Bug" Johnson, Norma Ruth and Ross Carroll Wright, Harry Lee Billingsley Wallace Haynes, Eva Ann and Nita Nell Paul joined her in an afternoon of games and refreshments.

Pvt. Glenn Williams, who was inducted here recently, has been assigned to Camp Gober, Muskogee, Okla.

As Expected, Some Food Ceilings Will Be Hiked

New ceiling prices to be allowed by the OPA in pricing "eleven groups of foods where present mark-ups may be abnormally low" became effective on October 15, John Armstrong, chairman of the county ration board, said today.

Grocers and all merchants handling food at retail may now obtain a printed bulletin explaining how to apply the new OPA formula for determining new legal ceiling prices at the ration board office, he said.

He added that the period for making adjustments under the new formula expires at midnight, Dec. 31. Merchants may obtain copies of the Food Retailers' Bulletin No. 2 to acquaint themselves with its provisions.

It is optional to apply the new formula to breakfast cereals, rice, coffee, sugar, canned vegetables, canned fish, cooking and salad oils, hydrogenated shortening and other shortenings. However, it is mandatory to figure the new ceilings on lard and dried fruits.

Auxiliary Meets On 15th

The Girls Auxiliary of the Baptist Church met in the home of Mrs. John Lockhart, Oct. 15.

There was a regular meeting and afterward the girls took a covered basket to Mrs. Parks of Texico.

Those present were Opal Williams, Peggy Schleuter, Harriet Baker, Minnie Smotherman, Ella Juarez Bradshaw, Rada Morgan, Dot McGahan and Mrs. Lockhart.

Birthday Observed

Nancy Caroline Johnson, daughter of Dr. and Mrs. V. Scott Johnson, celebrated her sixth birthday Sunday with a party at her home. Games were played by the children, after which candy, pop and hot dogs were served to Paula Sue Arnold, Darlene Kay Sprawls, Jane Claire Overstreet and Nancy Ann Aldridge.

Mrs. Woodrow Lovelace returned the first of the week from Chickasha, Okla., where she had spent the weekend visiting her husband, who is an Air Cadet at the field near there.

Melvin Snider, Jr., who is employed in defense work in California, arrived here on Sunday to spend several days visiting his parents and other relatives and friends.

Miss Dorothy Shaw and Mrs. M. A. Snider spent the weekend in Lubbock attending the Tech-Baylor football game and visiting with relatives and friends.

Mr. and Mrs. Matthew Hulsey and daughter of Lamesa, visited over the weekend with his mother, Mrs. J. T. Hulsey in Farwell, and Mrs. Hulsey returned home with her son to spend a few days in Lamesa.

Mr. and Mrs. B. N. Graham, accompanied by Mrs. Raymond Ross and daughter of Morton were weekend in San Antonio, where they visited with their son, John, who is in the ground crew at Brooks Field.

Rev. E. J. Sloan has gone to Dallas this week to visit his son, who is attending Southern Methodist University and to look after business matters.

Mike Hill has returned home from a trip of several days, during which he visited relatives in Glenrose, Texas, and made an excursion into Old Mexico.

Mr. and Mrs. Marty Ezell and daughter spent Sunday visiting Mr. and Mrs. Eugene Ezell and family in Bovina.

Kenneth Miller, who is doing apprentice operator work in the Santa Fe office in Belen, was home a visit with relatives over the weekend.

New Sugar Stamp Is Valid on November 1

Attaches in the office of the Parmer County Ration Board pointed out to housewives today that there were only a few more days remaining during which they could use the No. 8 sugar stamp for purchase of the staple.

At midnight, Oct. 31, the stamp becomes strictly "n.g.," they warn.

In addition Miss Irene Sachs clerk, announced that the No. 9 stamp would become valid on Nov. 1 and might be used anytime up through Dec. 15. In line with the customary half-pound per week allotment, the No. 9 stamp will be good for three pounds of sugar, she stated.

NEWS FROM OUR BOYS IN CAMPS

HAM VISITS HERE

Tech. Corp. Lawrence Ham of this city left for his camp at Fort Bragg, Ky., this week after a very brief furlough with his parents, Mr. and Mrs. R. V. Ham. He was granted a 15-day furlough when he left camp but a telegram overtook him at Amarillo, advising him to report back by Wednesday of this week.

ON FURLOUGH

Corp. Curtis L. Evans, former superintendent of the Oklahoma Lane schools, stopped off here this week to visit his wife. He has been taking his basic training in California and is being transferred to Fort Sill Okla., for special Field Artillery training. He enlisted in the V. O. C. last summer. Corp. Evans was wearing a sharpshooter badge, awarded him for rifle accuracy. Upon completion of his training course, he will be commissioned a second lieutenant.

OUT OF STATES

Ed Meeks reports his son, Cpl. Clarence Meeks is with an armored division "somewhere in the Southwest Pacific".

T/Sgt. Conrad Bigham is now with the U. S. forces on the British Isles, his father, W. W. Bigham, reports. He is in the Air Corps.

SITED HERE

Dee Brown, who is in the Signal Corps and has been stationed in California, was here this week visiting home folks. He was en route to Waco, Tex., where he is being transferred.

AERIAL GUNNER

Tolley Caldwell, formerly of Bovina, is stationed at Goodfellow Field, San Angelo, Texas, where he has been assigned to aerial gunnery.

OVERSTREET TO FT. WORTH

Second Lt. James D. (Jimmie) Overstreet, son of Mrs. Anne Overstreet of this city, has completed 1 officer training at Camp Lee, Va. and has been assigned to the Supply Depot at Fort Worth, Tex. Jimmie says he could not have been more pleased over his assignment if he had selected it himself.

ROGERS IS LT.

It's now Lt. Allan Rogers. Allan, son of Mr. and Mrs. B. A. Rogers of Texico, writes his parents that he

Demonstration Club Notes

By Special Staff Reporters

Bovina Club

The Bovina Home Demonstration Club will meet Thursday, Oct. 22, with Mrs. Fred Henry at the Bovina Hotel for an all-day session. A comfort will be made for the welfare department. Bring your thimbles and a covered dish. The meeting will begin at 10:30.

Parmerton Club

The meeting of the Parmerton Club will be Wednesday, Oct. 28, at the home of Mrs. Wilmot Crow at 3 o'clock. All club members are urged to be present as we have some important business on the docket.

TWO ACCEPTED AT LUBBOCK

Out of three selectees sent to Lubbock last Friday, two of them were accepted and are now on their usual 14-day furlough. Those accepted were Woodroe W. Finley and Joe Chernick. They will leave here the latter part of this month for Fort Sill, Okla., for induction.

Exempt Foods Now Under OPA Control

"Temporary Maximum Price Regulation No. 22" covering additional foods brought under price control on Oct. 5 is now explained in a pamphlet available to wholesale and retail merchants.

This regulation, John Armstrong, Farmer War Board chairman said, was issued by Administrator Leon Henderson to spread emergency price ceilings over virtually all food items that had previously been exempt from control. By this move OPA's control over the average family's food budget came up to a full 90 per cent.

The 60-day emergency food ceilings effective the fifth of the month put into effect a "freeze" on the prices of these foods at the level of the 5-day period from Sept. 28 thru Oct. 2.

Only important foodstuffs now exempt are fresh fruits and vegetables (except potatoes, dry onions and citrus fruits) and fresh fish and peanuts.

Copies of the pamphlet which will aid the merchant in complying with the regulations are available at the local office.

Mr. and Mrs. J. W. McMillian visited Sunday with relatives in Friona.

NEWS from

YOUR
COUNTY EXTENSION AGENTS
TEXAS EXTENSION SERVICE

By GARLON A. HARPER
County Agent
Texas A. & M. Extension Service

Many of the farmers of the county heard E. R. Eudaly, Texas A. & M. Extension Service Dairy Specialist, recently at the Victory Harvest Show, discuss the proper feeding of dairy cattle. For the benefit of those who did not hear that talk and for those who might want to review his discussion we are giving some of the points of his work on feeding dairy cattle.

Mr. Eudaly has worked out a system of balancing dairy rations which is so simple that even the busiest farmer can take time to properly balance the ration of his cows. Mr. Eudaly has found that dairy cows in production need 27% protein in the ration so he has taken the figure 27 as a basis on which to work. According to his feeding method the cow is given all the roughage she will eat. The amount of protein in that roughage is subtracted from the figure 27. Then the remainder is the amount of protein the cow must receive in the grain mixture. Then he takes the amount of protein contained in the grain he will feed and balances it with the amount of protein in his protein-rich feeds to obtain the correct proportion of cottonseed meal to be fed with the grain.

Let's take an example and see how it works. We will say that we plan to feed hegari bundles, kafir grain and cottonseed meal. First we take the protein content of the hegari bundles from the figure 27. Since the protein content of hegari bundles is 7% that will leave 20% of the protein to come from the concentrate mixture. Now kafir grain is 10% protein and cottonseed meal is 43% protein. Let's try 200 pounds of grain and 100 pounds of cottonseed meal. From the 200 pounds of grain we will get 20 pounds of protein and from the 100 pounds of cottonseed meal we will get 43 pounds of protein. Now we have a 300 pounds mixture which contains 63 pounds of protein, or 21%. That is just about close enough to the 20% protein which we wanted.

A bulletin which Mr. Eudaly has written explains all this material and gives a lot of other good information on dairy cattle feeding. Come by the office and call for "Feeding and Care of the Dairy Herd", bulletin No. B-69. It will help you in your dairy work.

Industry In Dire Need Of Skilled Workers

War industry is in dire need of workers for production and maintenance of the implements and facilities of war. The Clovis High School Vocational Education Department Training for War Production is helping to supply the demand for these men and women.

At present, there are vacancies for both men and women in all courses of aircraft sheet metal and riveting, machine tool operations, and electric arc welding. There is no charge to the trainee, due to the fact that this training is sponsored by the federal government through the U. S. Office of Education, and has provided the Clovis high school with facilities and materials which are adequate to give the best training possible in the short time the trainee is required to prepare for a position in industry. Upon completion of the course each trainee is given a certificate which is recognized by war industry and the armed forces.

Those willing to take this training to help out in the war effort are requested to make application at 720, Pile, Clovis, and call for Miss Alice Brady, local secretary, or Carl A. Miller, local director immediately to take the place of groups who have completed courses and gone into industry. Application may also be made at the Clovis U. S. Unemployment Service to be referred to the Clovis Training Center.

Pamphlets Available For Merchant's Use

Merchants who sell clothing were advised today by John Armstrong, chairman of the Parmer County Ration Board that the local office now has a quantity of pamphlets explaining how to set ceiling prices for men's and boys' tailored garments and staple work clothing.

It is important that every merchant in the county have one of these pamphlets for reference, Armstrong said, explaining that they might secure the booklet at the local office, wherein the "pricing of these articles of clothing is explained in a very clear manner".

USE PEANUTS AS FOOD

By Elsie Cunningham
Home Demo. Agent
Extension Service, Texas A. & M.

With food prices on the rise and certain foods on the hard-to-get list Parmer County homemakers can help keep their families healthy and at the same time serve their pocket-books by using some of the home grown whole grain foods—especially wheat, corn, and peanuts.

This week I want to talk with you about ways of using peanuts as a food. The peanut—as you may already know—is an excellent source of protein, phosphorus, calcium, iron and also furnishes the important vitamins B and G. They contain carbohydrates and fat, too. Many food products are made from peanuts—for instance, a breakfast food, high protein flour, vegetable milk, ice cream powders to say little of the more common things like peanut butter, candy, etc.

Now that peanut butter is on the hard-to-get list of foods and our grocer is telling us there will be no more after this supply is used up—it might be wise for us to brush up a bit and see what we can do about it. Many of you saw the homemade peanut butter on exhibit at the Victory Harvest Show at Bovina on October 10. Mrs. M. W. Moody assisted me in making up that exhibit, so those of you who live near Mrs. Moody and need help may call on her. Here is the recipe we followed:

Peanut Butter

Grind 4 cups roasted peanuts with skins removed. (Use meat knife of food chopper for the fine grind, and vegetable knife for the coarse.) Mix 1 1/4 teaspoons salt and 8 tablespoons fresh vegetable oil with the ground peanuts and grind twice again, so as to have salt well distributed through peanuts. Pack in small jars, pressing the butter in on the bottom first and filling so as to remove all air bubbles as packing is done. Store in a cool place.

If you do not have vegetable oil use butter or cream. Oil mixture stays fresh longer, though.

Miss Beatrice McCurdy, Lamb county demonstration agent, showed us some interesting ways she had found for using peanuts. Here are a few of the recipes.

Peanut Custard Milk Shake

Beat 2 eggs, add 1-8 teaspoon salt, 8 tablespoons sugar, 1/4 teaspoon nutmeg to 1 cup scalded milk to which 1/4 cup peanut butter has been added. Beat. Pour over crushed ice. Top with dash of nutmeg and cinnamon.

Peanut Stuffed Apples

Wash and core 8 apples. Scoop pulp out and add 1/4 cup butter, 1 egg, 1/2 cup milk, 1 cup sugar, 1 cup coarsely ground roasted peanuts. Cook mixture until tender and stiff. Add 1 teaspoon lemon juice. Fill apple shells with mixture. Place a marshmallow on top each apple. Bake with a small amount of water until tender.

Peanut Butter Apple Crumb

Cream 6 tablespoons butter, 2 tablespoons peanut butter and 1 cup brown sugar. Add 1/2 cup flour and 1/4 teaspoon salt. Peel, cut rind, and place in baking dish 4 apples.

TAKE THE LONG LOOK . . .

Cotton Farm Storage Loans Are Offered

The AAA office in Farwell is now taking applications for 1942-43 farm storage cotton loans, administrator John Martin said today, urging that all farmers consider this possibility of storing their crop.

A service fee of \$1 will be charged and the loan will be complete after a sample has been submitted and grade and staple determined. Farmers will be allowed 10c per bale storage for home-stored cotton, he added.

SANTA FE CARLOADINGS

The Santa Fe System carloadings for the week ending Oct. 17, 1942, were 25,434 compared with 25,090 for the same week in 1941. Cars received from connections totaled 14,173 compared with 9,528 for the same week in 1941. The total cars moved were 39,516 compared with 34,168 for the same week in 1941. The Santa Fe handled a total of 39,142 cars in the preceding week of this year.
