

Paralysis Healer at the White House

President Roosevelt meets a famous Australian nurse, Sister Kenny, who has developed a new method of treating infantile paralysis. Pictured above are President Roosevelt, Basil O'Connor, head of the National Paralysis Foundation, and Sister Kenny. She was a luncheon guest at the White House.

Black Hull Wheat May Hurt Market, Co. Agent Warns

County Agent Carlton A. Harper this week warned farmers of Parmer county that the market rating of this county would be seriously impaired if anticipated 1944 plantings of Early Blackhull wheat are carried out.

For years, the agent went on, the county has stood high with millers for the top quality wheat produced for baking, and Early Blackhull definitely gets the "thumbs down" signal from bakers.

The wheat has two characteristics which have recently been encouraged, Harper points out. (1) It ripens early, which farmers believe will lead to simplification of the labor problem, in that they will have a "staggered" harvest, and (2) that it turns out a good yield for early wheat.

However, as the majority of wheat is sold to millers and Early Blackhull will not produce a quality loaf, there would be a definite injury sustained by the county rating if the number of farmers contemplating making partial plantings of such wheat carry of their plans.

"Planting just a little" of this type wheat for next year to help the labor situation will endanger our excellent market rating," Harper stressed, adding, "at present 94% of the wheat grown in this county is acceptable by millers, and if we injure this market it will take years to receive a high rating again."

The agent urged that farmers continue planting the acceptable Tenmarq, Turkey, or Standard Blackhull.

May War Bond Quota Tripled in Parmer Co.

Figures released today through G. D. Anderson, chairman of the War Savings Committee, revealed that war bond purchases in Parmer County during May amounted to three times the quota for the month.

This despite the heavy record month of April, when \$380,961.00 in bonds and stamps was sold in this county. Chairman Anderson had previously predicted that there would be a material drop in sales, following the high attainment of April.

The county quota for the month of May was \$15,200.00, and the actual sales amounted to \$45,712.50, Anderson's report shows.

"We are well on our way on the June quota, too," he said, predicting it would be exceeded by a substantial amount. He said that the June quota called for \$17,200.00 and sales reported to date already stand at \$9,168.75.

OFFER REWARD FOR LOST LADS

Failing in their attempts to uncover any tangible clue that might lead to the recovery of two Army flyers, Bedford and Charles Caldwell returned to this city last week after posting a cash reward of \$250 in the American National Bank at Silver City.

The lost flyers sought are Lt. J. R. Caldwell, Jr., son of Mr. and Mrs. J. R. Caldwell of four miles south of Bovina, and his cousin, S-Sgt. Maxwell M. Caldwell, son of Mrs. L. L. Jones of San Antonio, Texas. They have been missing since taking off from the field at Roswell, N. M., on the morning of Dec. 26, on a return flight to the base at Williams Field, Ariz., after spending Christmas Day near Bovina in the Caldwell home.

Thought Lost Near Mogollon

Belief was expressed by the brothers of the Parmer county flyer that the plane went down in the Mogollon Range along the New Mexico-Arizona border. At least four persons were contacted who remembered hearing a plane in the cloud-shrouded mountains on the morning the flyers disappeared.

Col. Murphy of the Deming Air Base said that he would keep up the search by air from his field.

"The best clue was picked up from a cowboy at Pleasanton, N. M.," Bedford Caldwell reported on his return here. This cowboy was the only person encountered who actually saw the plane and described it as a silver-colored, twin-engine ship. The time and course was checked, and it was agreed that the plane seen by the Pleasanton cowboy carried the Caldwell flyers.

Before returning here, names of ranchers, trappers and cowboys living in the Mogollon Range were obtained and letters offering the reward were mailed out of here the latter part of last week.

Encountered Storm

It has been definitely established that the boys encountered a storm in the Black and Mogollon Ranges, despite the fact that they obtained an "all clear" weather report before clearing the Roswell field the morning they disappeared. A number of persons in the mountains attested to the fact that a storm raged across the ranges on that particular day. One army captain at Williams Field said that he hit the storm near Albuquerque and "it was about about the roughest weather I've ever been in."

Hopes of finding the flyers alive was abandoned early in January after scouting planes had flown over the course repeatedly.

CAFE OPENS

Mr. and Mrs. Bill Caldwell have opened a cafe in the Texico Hotel building and will operate under the name of Bill's Cafe. Mr. Caldwell is employed at the Texico Port of Entry. They will serve regular meals and short orders, Mrs. Caldwell said.

TO ERECT ELEVATOR

A small loading elevator for loading cars at the Farwell Bonded Warehouse is being erected this week. Workmen have just completed the installation of platform scales, and made other improvements for the unloading of wheat at the warehouse.

Texico Lad Jap Victim

Official announcement of the death of Sgt. Harry O. Williams, prisoner of the Japanese in the Philippines, has been made by the International Red Cross to his parents, Mr. and Mrs. Abe Williams of Clovis. Sergeant Williams is reported to have died on June 16.

He was a member of New Mexico's famous 200th, the majority of whom were taken prisoners with the final fall of Corregidor, and is the fourth Clovis soldier to be reported as dead in the past few weeks.

Sgt. Williams made his home in Texico for a number of years, where the family formerly resided, and was a graduate of the local high school.

Survivors include his wife, Mrs. Letha Goodman Williams of Clovis, his parents and three brothers, Duncan, Felix and Hollis, all of Los Angeles.

Showers Visit Parts Of County, Some Hail

Local showers, varying all the way from a mere trace to better than a full inch, fell over a large part of Parmer County Saturday night.

Some hail accompanied the rain, and some damage to young crops has been reported, but the damage is not considered large.

In some limited localities, the rain is believed sufficient to bring up crops, and in such areas, farmers who had not planted previously are seeding their fields. Up until this week it had been estimated that not more than 25% of the spring planting in the county had been done due to continued dry weather.

The Lariat section is believed to be the best advanced in crops in this section, despite the fact that it is estimated that only half the crops have been planted there.

Many farmers of the county who have contended with dry weather before maintain that feed crops planted as late as July 4 have been known to mature with abundant harvest. But while this is an accepted fact, it is also agreed that extremely favorable conditions must prevail on plantings made that late.

WAVES Learn to Rule Waves

The historic Charles river in Cambridge, Mass., where Harvard masculine crews practiced and raced for many decades, is now the scene of a training headquarters for WAVES. A group is shown carrying their shell from the boathouse. They learn to row, handle a small boat, and other water lore.

A positive location has been selected for Parmer County's most recent wildcat test for oil, and some of the equipment was moved to the location the first of the week, it was learned here Tuesday.

The site selected for the test is on the J. A. Jarrell farm, about six miles northwest of Bovina, being on the NE 1/4 of section 19, Syndicate Block B.

The test is being made by Stanolind Oil and Gas Company on leases recently acquired in that area. Actual drilling operations are scheduled to begin before the close of the present month.

Drill Water Well

Machinery to be used in sinking a water well and opening up a slush pit were moved on the grounds the first of the week, and it is understood that steel for the derrick is being placed on the ground.

Two scouts, representing major oil companies were in Farwell the first of the week in company with N. D. Bartlett, oil editor of the Amarillo Globe-News. They gave out no comment for publication except to say "our companies are watching this test with a great deal of interest".

Severely Burned By Gasoline Explosion

Two young men were burned, one of them seriously, Tuesday morning, when a container of gasoline exploded in the hands of one.

Johnnie Vestal, son of Mr. and Mrs. Jeff Vestal of Bovina, is in a hospital with serious burns, and his brother-in-law, Herman Hall, son of Mr. and Mrs. T. E. Hall of Texico, is suffering with lesser burns.

The explosion occurred when Vestal was attempting to refuel a gasoline engine while the machine was running. The gasoline splashed from the funnel and was ignited from the exhaust pipe. The fire quickly spread to Vestal's clothing, and he made a frantic effort to extinguish the flames, employing the use of rolling on the ground and wrapping himself in a blanket.

It was not until Hall came to his relief, however, that the fire was put out with water. In so doing Hall suffered burns about the arms and face.

Vestal's body was badly burned from the waist down, as were his arms and face. The accident happened in the Pleasant Hill neighborhood, where the men were engaged in drilling a water well.

Texas Cattle Brands To Be Re-Registered

Beginning October 1, all cattle brands in Texas must be re-registered, according to information sent County Clerk D. K. Roberts, who stated that such registration for this county would be conducted in his office.

At present, the state records are cluttered up by brands which have not been used for years by the registrants, Roberts said, and the re-registration will just "start all over" as far as official records of brands in the state are concerned.

The majority of cattlemen, Roberts added, are expressing approval of the move, since it will afford a number of them an opportunity to change brands.

Carter Gives Book Review At Meeting

Supt. J. T. Carter of the Farwell school came up to all expectations last Thursday evening when he gave a review of Wendell Willkie's recent book, "One World", as the entertainment feature of the regular meeting of the local Men's Club.

Following a covered dish luncheon, served in the basement of the Methodist Church, the attendants assembled in the main auditorium for the book review. The meeting had been announced as "open house" and quite a few visitors were in attendance.

In opening his review, Mr. Carter made it plain that he was "not trying to uphold or denounce" any of the author's statements nor opinions, and from that point launched into the contents of the book.

The review required about 45 minutes and Carter held his audience at attention throughout.

American submarines damaged in distant waters often receive repair parts by airplane to enable them to return to service within a few days.

Shortage of railroad cars with which to move the county's wheat crop, as predicted by Santa Fe officials a week ago, became a reality here the first of the week when it was revealed that all elevators were practically filled, coupled with the announcement from W. W. Vinyard, local Santa Fe agent, that "I haven't a car in the yards".

Managers at the three local elevators were contacted Tuesday and all agreed that their storage space was practically taken. Each said that a full day's run of wheat would fill all available bins.

A similar condition was reported at Bovina and Lariat, with the most acute shortage of storage space prevailing at Bovina, where harvesting has been underway for more than a week.

Surplus at Warehouse

A checkup here on Tuesday showed that the only surplus storage space in Texico-Farwell was at the Farwell Bonded Warehouse, where Stanley Hillhouse estimated that he could accommodate 150,000 bushels.

Only eight carloads of wheat have been shipped out of Texico-Farwell the present season, and it does not appear likely that many carloads will go out of here in the near future due to the car shortage.

Little Relief in Sight

Santa Fe Agent Vinyard gave no promise of relief in the immediate future. He said his opinion was that early harvest here was partially responsible for the car shortage, explaining that as a general rule the movement of wheat in this area did not conflict with other large wheat-producing sections of the southwest.

Elevator men appealed to wheat farmers to hold the grain in storage on the farms, where at all possible. Otherwise, they predicted, many thousands of bushels would have to be piled out on the ground.

Yield Holds Up

Reports gathered through elevator men at Texico-Farwell, Lariat and Bovina, gave further confirmation of estimates made last week that yields were turning out much better than had been anticipated. Practically all yields reported thus far have been running around 15-20 bushels to the acre.

Boone Allison of the Lariat Elevator, said that hail had damaged most of the best wheat in that section, but even then the yield was running from ten bushels upwards. Sam Rundell, he said, had the best wheat in that section, with an average of 17 bushels.

In the Bovina area, a number of fields are running as high as 20 bushels—and even better in some cases. Some fields in the Pleasant Hill neighborhood are turning out as high as 25 bushels. The majority of best yields in the Texico-Farwell area center around the 12-16 bushel average.

Loans Are Available

Ellis M. Mills, at the county AAA office, announced that loans were available on wheat, the basic rate for the county being set at \$1.20 for No. 1 wheat. Farm storage, he added, is allowed 7c per bushel more.

Already some loans have been issued, and the machinery for taking care of such applications has been set up here. However, he added, the local clerks and supervisor will be in Plainview Monday, June 28, attending a special grain loan meeting, and applications will not be taken at the Parmer county office that day.

Information from national headquarters, Mills went on, is to the effect that a substantial raise will be made in the 1944 wheat quota, and it was expected that the Texas allotment would soon be announced.

No Forms Available On 'A' Book Renewal

Although Tuesday, June 22, was the date set for operators to begin filling out application forms for renewal of A gasoline books, Mrs. Roy Bobst, at the ration office, said no forms for such applications had arrived in this county.

The current books expire July 21 and it is hoped that forms will arrive early enough to have all renewals accomplished by the deadline.

As soon as the forms arrive, they will be issued to filling stations, where operators may pick them up.

There are five bicycles for every 12 inhabitants in Sweden.

Mrs. Otis White left Thursday for San Antonio to join her husband, who is in the army.

Mrs. Byron Turner and children of Clovis visited her parents, Mr. and Mrs. Frank Ayres, Wednesday.

Mrs. Worth Weir, mother of Mrs. Shelby Jersig, is here to visit a few days.

Mrs. Edna Scott left Saturday for San Diego to visit her sons, who are in service there.

Mr. and Mrs. Lester Rhinehart and daughter of Amarillo, are here to spend a week visiting.

Mr. and Mrs. Dick Free and child of Dumas are visiting in the Hinton block home.

Cpl. R. T. Harbor, stationed at Hereford, visited friends here the past weekend.

Mrs. George Trimble and daughter made a business trip to Hereford, Saturday.

Mrs. Jerry Lindsey and child of Midland are visiting her parents, Mr. and Mrs. Bill Venable.

Mrs. Frank Miller is now operating the telephone office.

Sgt. and Mrs. David Carson are visiting in the Fred Carson home.

Sgt. and Mrs. Tollie Caldwell of San Angelo, are visiting his parents, Mr. and Mrs. E. T. Caldwell, on his 15-day leave.

Mrs. George Cervantez and Marte left Thursday for Lawton, Okla., to join Mr. Cervantez, who is in the army there.

Pvt. and Mrs. Barney Ross of Clovis, visited in the G. C. Danner home Monday.

Mrs. Lawrence Starr, who underwent a major operation Thursday, is reported improving.

"The Presido" is an army air base in San Francisco.

PLEASANT HILL

Mrs. Ballow, of Clovis, visited her mother, Mrs. Minnie Curtis, Saturday.

Mrs. Buchanan's sister from Illinois spent the early part of the week here, leaving on Tuesday.

Ensign Forrest Bell and wife stopped for a week's visit with his parents, Mr. and Mrs. Joe Bell. He is enroute to the West Coast, to take up duty there.

Mr. and Mrs. Alvis Bell of Clovis spent Sunday with his mother, Mrs. Maggie Bell.

Mrs. Venable has been on the sick list.

Mrs. Willie Cox became quite ill Monday and taken to Clovis for medical care. She returned that evening.

Miss Flossie Terry has been ill this week.

Health Notes

By Texas Department of Health

AUSTIN.—Over half the citizens of Texas have full-time public health protection according to the figures just released by Dr. Geo. W. Cox, State Health Officer. This is accomplished by service rendered by county health units covering 59 counties and the four largest cities. The personnel which a county health unit employs depends upon the local need for service. The minimum staff of a unit consists of a physician, nurse, sanitarian and clerk.

A review of the work done during the past year shows that 94,455 persons were protected against smallpox, 88,832 against diphtheria and 120,375 against typhoid fever. Over a half-million persons were visited in their homes and received either preventive medicine or nursing service. Also 780,613 treatments for venereal disease were administered and 10,878 persons were X-rayed for tuberculosis.

Sanitation in water, food, and milk supplies were rigidly enforced, sewage facilities expanded and campaigns conducted to prevent malaria and typhus fever.

These, the State Health Officer asserted, are but a few of the many services that were rendered to the population living in the area with full-time health services during the past year.

The units are financed by cooper-

Of Interest to Farmers

Domestic Mechanical Refrigerators

Many communications are being received by the State USDA war board regarding the availability of domestic mechanical refrigerators for farm use.

The most recent information received from the Washington office on such refrigerators is that the War Production Board has recently authorized the manufacture of 20,000 for sale exclusively to bonafide farmers and a war board memorandum can be expected soon in which details of the methods of distribution will be included.

Preference Rating Given
WPB extended an AA-2 preference rating for delivery to farmers of 500,000,000 board feet of lumber during the June-September period, available on purchase certificates. The lumber is for repair and construction, except farm dwellings.

Birds have 10 distinct methods of catching fish.

Washington News

By EUGENE WORLEY

From time to time it has been requested that word from Washington on various matters of current interest might be of aid to the people whom it is my honor to represent. It will not be possible to maintain a regular column due to the press of work, but I trust the things I do write will be of helpful assistance. If this column appears in your local paper thanks are due to your editor.

Farm labor is scarce and in an effort to more help for the farmers in making crops I asked the War Department if it was not possible to release men for this work without injuring the war effort. I was officially informed as follows:

"Military personnel are not granted furloughs for the purpose of farm work. However, commanding officers of all posts, camps, stations, divisions, and lower separate units have authority to permit soldiers to engage in farm work in nearby communities during normal off-duty periods or to grant passes for this purpose if, in the opinion of the

commander concerned, a state of emergency exists in a nearby farm community due to the shortage of available farm labor; the soldier concerned desires permission or a pass; such action will not interfere with the customary employment and regular engagement in farm work of local civilians, will not interfere seriously with training, and no expense to the Government is involved. Pay for service rendered by the individual soldier and his farm employer so far as the Army is concerned."

Farmers in need of help in harvesting crops are asked to refer the

matter to their County Agent, who is authorized to give them the best available information about securing needed workers. Some localities have established regular headquarters where those seeking agriculture work and farmers needing help may register. In any case your County Agent will know the best course of action.

Aviation production in the U. S. in 1943 will cost about one-seventh of the estimated national income.

War Work of a Santa Fe Wheat Car

This statement explains why many Santa Fe box cars, built to move wheat during harvest season, are many miles away doing other war jobs.

★ This year an estimated 75,000,000 bushels of wheat must be moved by the Santa Fe from the wheat states it serves.

It will take about 50,000 carloads to handle Santa Fe's big share of this vital job!

To move wheat and other grains, Santa Fe has specially built weatherproof box cars—but today, many of these cars are far from the wheat belt. Where are they? What are they doing? The map above will give you an idea—it shows the movement of a wheat car for the past four months.

A Wheat Car Gets Around
Starting at Hutchinson, Kansas, with a load of flour for Boston, this wheat car has been kept rolling with vital war cargoes, including Army shoes, Army clothing, aluminum, lumber, machinery, and has just delivered a warload at San Francisco . . . far from

the wheat belt where it is needed now.

In four months this car has covered 1,439 miles on Santa Fe rails, and 9,749 miles on the other railroads. No rest for a war worker these days, but a fellow sure gets around!

Every Car in Action

Every Santa Fe box car, as well as box cars of all other railroads, is in action today. Some of these cars are too far away to be able to return to the wheat belt in time for use.

But guided by the wise direction of the Association of American Railroads, the Office of Defense Transportation, and the Interstate Commerce Commission's Bureau of Service, plus the friendly cooperation of the Army and Navy and war freight shippers, Santa Fe is making every effort to secure as many cars as can be spared from war movements to handle this year's wheat harvest.

HEADQUARTERS

for **100 OCTANE 66** Aviation Gasoline

Boeing Flying Fortress

Research begins... not in a test tube... but in the mind of a man.

Since Phillips Petroleum Company has the world's largest proven gas reserves, it was natural that the minds of hundreds of Phillips research men should early turn to the problem of new and better things from petroleum gases as well as from petroleum.

The resulting development, in the early 1930's, of *POLYMERIZATION* enabled the use of light petroleum hydrocarbons (gases) which until then had been regarded as by-products of little value. Soon, several years before

Pearl Harbor, they became feed stock for 100 octane gasoline.

Still other Phillips pioneering processes, *alkylation*, *HF alkylation*, and *cycloversion* permitted the production of 100-plus octane aviation gasoline, a significant contribution to airplane horsepower.

Phillips was one of the first, and remains one of the largest manufacturers of high octane aviation fuels. Thus we see how the peacetime study and work of Phillips scientists is of great value in our all-out war on the Axis. Similarly, when victory comes, today's accelerated Phillips wartime research program should bring to the American motorist new and greater gasolines for his post-war car.

FOR VICTORY... Buy U. S. War Bonds and Stamps.

Texas Will Rank As Top Synthetic Rubber Producer

DALLAS—Texas, which for years has provided three basic ingredients of manufactured rubber—cotton, carbon black and sulphur—this summer is coming into its own as the biggest single factor in the nation's huge war-born program for producing the main raw material itself—man-made rubber.

How the Lone Star State, whose matchless human and material resources have played key roles from

the beginning of the war, would in the next few months assume leadership in "helping the country lick this toughest of all wartime supply problems", was explained to a meeting of Texas business and industrial leaders this week by James J. Newman, vice president of the B. F. Goodrich company.

Government-financed plants for the production of a total of 255,000 tons annually—more than a third of

the total "GRS" production scheduled under the national program—will be in production in this state, according to present estimates, within the next 90 days, Newman said.

This total capacity, he said, will be made up of the following plants—all of them "polymerization" units in which butadiene and styrene, produced from Texas petroleum and natural gas, are combined to make butadiene-type synthetic rubber:

A 120,000-ton plant—largest in the national program—at Fort Worth, built by Goodrich, and with 60,000 tons of its capacity to be operated by that company and the other half by Firestone; a 30,000-ton plant at Baytown built by Goodyear to be operated by General Tire and Rubber Co. and General Latex and Chemical Co.; a 45,000-ton plant at Borger built and operated by Goodrich, and a 60,000-ton unit at Houston, built and operated by Goodyear.

The "made-in-Texas" butadiene from these factories will come from plants at Baytown, operated by Humble; at Borger, by Phillips; at Houston by Sinclair and at Port Neches, by the Neches Butane products company, whose constituent companies are Gulf, Texas, Pure Oil, Atlantic and Magnolia. The styrene also will be "home grown", Newman said, produced in plants operated by Monsanto Chemical company and Dow Chemical company at Texas City and Velasco, respectively.

Newman looked beyond the immediate problem of producing enough synthetic rubber to keep the United Nations rolling toward victory on the battlefronts and sustaining essential civilian transportation and saw "no reason why the role of Texas in this war-born industry should not always be an outstanding one".

Not only is the state a tremendous producer of the raw materials basic to the industry, he pointed out, but its potentialities as a market for rubber goods—of which there may be many new types after the war—are unsurpassed. He cited pre-war market statistics on sales of auto tires in illustration and said that Texas' probable leadership in "personalized aviation" after the war would further widen the rubber market here.

As for the question of the "survival" of synthetic rubber industry after the war, Newman said "it seems inevitable that the American people—regardless of price differential between synthetic and natural rubber—will insist on continuing at least stand-by operations of these plants, just as they will make sure of retaining air bases and battle-ships".

"I feel that those responsible for the nation's defense after the war is won will want to continue to specify synthetic rubber's use in national defense equipment in sufficient amounts to assure continuing operation," he said. This would assure the nation of adequate production capacity for use in an emergency, as well as afford reasonable protection against high prices of natural rubber. He warned that it is only by continuing research and actual volume production that cost of making synthetic could be made to approach more nearly the cost of natural rubber.

On the question of general-purpose synthetic's ultimately being able to compete with natural rubber in price, Newman said that estimates of all-around economic potentialities of synthetic rubber are being constantly readjusted in the light of technical advances. He indicated that progress has "run well ahead of expectations, both as to indicated capacities of given plants and in adaptation of material to necessary uses". He predicted the post-war world would be able to absorb a combined natural and synthetic production capacity of two million tons annually, twice as much as in the biggest pre-war years.

He recalled that it was just three years ago this month that his company introduced, at a meeting in New York, the first automobile tires made with synthetic and offered for general sale in this country. The scope of progress made since then was emphasized by a display of a large array of war goods in whose manufacture his company used synthetic rubber in greater or less proportion—including airplane, military and tractor tires, conveyor belts, airplane fuel cells, carburetor diaphragms, endless-band tracks and other essential articles.

A tribute to the adaptability and skill of Texans as war workers was paid by Newman in commenting on

Hundreds Offer Home to Soldier's Waifs

Their father is in the army and their mother is ill in the South, so the four bright-eyed brothers pictured at top were waiting at the Children's Aid society in New York for someone to give them a home until their parents can come back. Hundreds responded to their plea expressed via a newspaper. Among them was William G. Helis, millionaire oil man shown at bottom. Helis is a Greek-American who has contributed over \$1,000,000 to Greek war relief.

the experience of his company in operating for the government one of the nation's largest bomb and shell loading plants at Texarkana. The plant recently received the Army-Navy "E" award, which was in large part a tribute, he said, to the residents of that area who "came from the regular peacetime activities of their communities and worked efficiently and faithfully in an industry which was completely strange to them because it had no peacetime counterpart".

Don't let insects sabotage your Victory Garden. Here are some of the insects which may be bothering your garden. Clip these out of your paper and save them in order that you may know what to do when they attack your vegetables.

Is This Pest Bothering Your Victory Garden?

VEGETABLE WEEVIL—Color: Brownish weevil with white V on wings. Feeds on foliage. Weevil grub feeds on roots, leaves, and stems just above the ground. Poison bait for adults: 1/4 lb. cryolite, 2 lbs. finely chopped carrots or turnips, 4 lbs. bran, enough water to make bait moist. For grubs use pyrethrin dust (2% pyrethrins). For further information see your County Extension Service Agent.

Is This Pest Bothering Your Victory Garden?

STINK BUG—Color: Young, blackish to yellowish green with black markings. Adults, green or brown. Suck sap or juices from tomatoes, peas, beans, etc. Dust plants thoroughly with pyrethrin dust; or a 3% nicotine sulfate dust when young bugs first appear. Young bugs found principally on peas and beans, occasionally on other crops. Repeat applications as above. For further information see your County Extension Service Agents.

CITATION BY PUBLICATION THE STATE OF TEXAS

No. 1139

TO THE SHERIFF OR ANY CONSTABLE OF PARMER COUNTY—GREETING:

YOU ARE HEREBY COMMANDED to summon T. J. Dresser, J. E. Rhea, and Unknown owner or owners, and the unknown heirs of the said T. J. Dresser, and the unknown heirs of the said J. E. Rhea, and the unknown heirs of the said unknown owner or owners, of the hereinafter described land by making publication of this citation once in each week for two consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in a newspaper in an adjoining county, to appear at the next regular term of the District Court, 69 Judicial District of Parmer County, to be held at the court house thereof, in the Town of Farwell, Texas, on the Second Monday in July, A. D. 1943, then and there to appear and defend the suit filed in said court on the 12 day of June 1943, in cause numbered 1138, wherein the State of Texas and the County of Parmer, of said State, are plaintiffs and H. Hilderbrand, and the unknown owner or owners, and the unknown heirs of the said H. Hilderbrand, and of the said unknown owner or owners of the hereinafter described land are defendants, and said plaintiffs have implemented THE FARWELL INDEPENDENT SCHOOL DISTRICT taxing unit in said State, to appear in said cause and for each to file its claim for delinquent taxes against the property, or any part thereof, described in the petition of said plaintiff. The cause of action being alleged as follows:

Court, 69 Judicial District of Parmer County, to be held at the court house thereof, in the town of Farwell, Texas, on the Second Monday in July, A. D. 1943, then and there to appear and defend the suit filed in said court on the 12 day of June 1943, in cause numbered 1138, wherein the State of Texas and the County of Parmer, of said State, are plaintiffs and H. Hilderbrand, and the unknown owner or owners, and the unknown heirs of the said H. Hilderbrand, and of the said unknown owner or owners of the hereinafter described land are defendants, and said plaintiffs have implemented THE FARWELL INDEPENDENT SCHOOL DISTRICT taxing unit in said State, to appear in said cause and for each to file its claim for delinquent taxes against the property, or any part thereof, described in the petition of said plaintiff. The cause of action being alleged as follows:

That suit has been brought by the plaintiffs for the collection of delinquent taxes for the years 1931, 1934, 1935, 1936, 1937, 1938, 1939, 1940, 1941, 1942 for the following amounts, exclusive of interest, penalties and costs, to-wit: \$33.10 for State taxes and \$135.36 for County and District taxes, together with interest, penalties and costs allowed by law.

Said taxes are due upon the following described lands/or lots: All of Lots 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, and 38 of Block Number Fourteen (14) of the Hamlin Heights Addition to the town of Farwell, Parmer County, Texas, as shown by plat of said Addition of record in the Deed Records of Parmer County, Texas. Plaintiffs allege a prior and constitutional lien upon said land for said taxes, interest, penalties and all costs allowed by law, and pray for the foreclosure of said lien and sale of said lands for the satisfaction of the same.

Each party to said suit shall take notice of, and plead and answer to, all claims and pleadings now on file and hereafter filed in said cause by all other parties therein. HEREIN FAIL NOT, but have you before said court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Given under my hand and seal of said court in the town of Farwell, Texas, this the 12 day of June, A. D. 1943.

D. K. ROBERTS, Clerk of the District Court Parmer County, Texas.

Issued this the 12 day of June, A. D. 1943. D. K. ROBERTS, Clerk of the District Court Parmer County, Texas.

(SEAL) CITATION BY PUBLICATION THE STATE OF TEXAS No. 1136

TO THE SHERIFF OR ANY CONSTABLE OF PARMER COUNTY—GREETING:

YOU ARE HEREBY COMMANDED to summon Mrs. Ella Porter, a widow, George Eads, Trustee, Texas State Bank of Farwell, C. P. Wirth, C. M. Presley, Fred Porter, C. W. Hill & Son, a partnership composed of C. W. Hill and W. B. Hill, and unknown owner or owners, and the unknown heirs of the above described parties and of the said unknown owner or owners of the hereinafter described land by making publication of this citation once in each week for two consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in a newspaper in an adjoining county, to appear at the next regular term of the District Court, 69 Judicial District of Parmer County, to be held at the court house thereof, in the town of Farwell, Texas, on the Second Monday in July, A. D. 1943, then and there to appear and defend the suit filed in said court on the 12th day of June, 1943, in cause numbered 1136, wherein the State of Texas and the County of Parmer, of said State, are plaintiffs and Mrs. Ella Porter, a widow, George Eads, Trustee, Texas State Bank of Farwell, C. P. Wirth, C. M. Presley, Fred Porter, C. W. Hill & Son, a partnership composed of C. W. Hill and W. B. Hill, and unknown owner or owners, and the unknown heirs of the above described parties and of the said unknown owner or owners of the

hereinafter described land are defendants, and said plaintiffs have implemented THE FARWELL INDEPENDENT SCHOOL DISTRICT, said School District being within the boundaries of Parmer County, Texas, taxing units in said State, to appear in said cause and for each to file its claim for delinquent taxes against the property, or any part thereof, described in the petition of said plaintiff. The cause of action being alleged as follows:

That suit has been brought by the plaintiffs for the collection of delinquent taxes for the years 1933-1942 inclusive for the following amounts, exclusive of interest, penalties and costs, to-wit: \$38.48 for State taxes and \$154.07 for County and District taxes, together with interest, penalties and costs allowed by law.

Said taxes are due upon the following described lands/or lots: All of Lots 17, 18, 19 and 20, of Block Number 20, of the Original Town of Farwell, Parmer County, Texas, as shown by plat of said Town of Farwell in the Deed Records of Parmer County, Texas.

Plaintiffs allege a prior and constitutional lien upon said land for said taxes, interest, penalties and all costs allowed by law, and pray for the foreclosure of said lien and sale of said lands for the satisfaction of the same.

Each party to said suit shall take notice of, and plead and answer to, all claims and pleadings now on file and hereafter filed in said cause by all other parties therein.

HEREIN FAIL NOT, but have you before said court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said court in the Town of Farwell, Texas, this the 12 day of June, A. D. 1943.

D. K. ROBERTS, Clerk of the District Court Parmer County, Texas.

Issued this the 12 day of June, A. D. 1943. D. K. ROBERTS, Clerk of the District Court Parmer County, Texas.

(SEAL) CITATION BY PUBLICATION THE STATE OF TEXAS No. 1137

TO THE SHERIFF OR ANY CONSTABLE OF PARMER COUNTY—GREETING:

YOU ARE HEREBY COMMANDED to summon C. A. Hetrick, and Unknown Owner or Owners, and the Unknown heirs of the said C. A. Hetrick and of the said unknown owner or owners of the hereinafter described land by making publication of this Citation once in each week for two consecutive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in a newspaper in an adjoining county, to appear at the next regular term of the District Court, 69 Judicial District of Parmer County, to be held at the court house thereof, in the town of Farwell, Texas, on the Second Monday in July, A. D. 1943, then and there to appear and defend the suit filed in said court on the 12 day of June 1943, in cause numbered 1137, wherein the State of Texas and the County of Parmer, of said State, are plaintiffs and C. A. Hetrick, and unknown owner or owners, and the unknown heirs of the said C. A. Hetrick, and of the said unknown owner or owners of the hereinafter described land are defendants, and said plaintiffs have implemented THE FARWELL INDEPENDENT SCHOOL DISTRICT, situated within the boundaries of Parmer County, Texas, taxing units in said State, to appear in said cause and for each to file its claim for delinquent taxes against the property, or any part thereof, described in the petition of said plaintiff. The cause of action being alleged as follows:

That suit has been brought by the plaintiffs for the collection of delinquent taxes for the years 1924, 1925, 1926, 1927, 1929, 1930, 1931, 1932, 1933, 1934, 1935, 1937-1942 inclusive for the following amounts exclusive of interest, penalties and costs, to-wit: \$58.26 for State taxes and \$243.84 for County and District taxes, together with interest, penalties and costs allowed by law.

Said taxes are due upon the following lands/or lots: All of the NE 1/4 of the NW 1/4 of Section 8, Township 16 South, Range 1 East, of a Capitol Syndicate Subdivision of Parmer County, Texas. (Lot No. 3 of said Section No. 8).

Plaintiffs allege a prior and constitutional lien upon said land for

said taxes, interest, penalties and all costs allowed by law, and pray for the foreclosure of said lien and sale of said lands for the satisfaction of the same.

Each party to said suit shall take notice of, and plead and answer to, all claims and pleadings now on file and hereafter filed in said cause by all other parties therein.

HEREIN FAIL NOT, but have you before said court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said court in the town of Farwell, Texas, this the 21 day of June, A. D. 1943.

D. K. ROBERTS, Clerk of the District Court, Parmer County, Texas.

Issued this the 21 day of June, A. D. 1943. D. K. ROBERTS, Clerk of the District Court, Parmer County, Texas.

(SEAL) CITATION BY PUBLICATION THE STATE OF TEXAS

TO: H. E. DAVISON And each and all other proper persons, including all record lien holders, all unknown owners, and the heirs, administrators, and legal representatives of all such unknown owners, owning and claiming any interest in the property hereinafter described;

YOU ARE HEREBY NOTIFIED AND COMMANDED to appear at the next regular term of the 69th District Court of Parmer County, Texas, to be held at the Court House thereof in the city of Farwell on the 2nd Monday in July, A. D. 1943, the same being the 12 day of July, A. D. 1943, then and there to answer a petition in a delinquent tax suit filed by the BOVINA INDEPENDENT SCHOOL DISTRICT, suing in its own behalf, and also in behalf OF THE STATE OF TEXAS AND PARMER COUNTY, Texas, and all political subdivisions of said county whose taxes are assessed and collected by the Assessor and Collector of Taxes of said County, in said court on the 21 day of June, A. D. 1943, in a suit numbered 1140 on the docket of said court, wherein the said Bovina Independent School District is plaintiff and H. E. DAVISON and THE STATE OF TEXAS AND COUNTY OF PARMER are defendants. Said suit is a suit to collect

taxes, interest, penalties and costs on the following described real estate located, at the time said taxes were assessed, within the boundaries of said county and each political subdivision in whose behalf this suit is brought and described as follows, to-wit:

One and one-half (1 1/2) acres of land together with improvements thereon situated and known as part of Section No. 15, Township No. 7, South Range Two (2) East, and a part of League No. 521, and being described by metes and bounds in the petition filed, and situated in Parmer County, Texas. This is the property upon which the gin at Bovina, Texas, was constructed, and also that property upon which are located residence houses

said taxes in said petition, are alleged to be delinquent, justly due, owing and unpaid for the respective years and in the respective amounts as follows, to-wit:

Table with 3 columns: Years, To Whom Assessed (if unknown, state Delq.), Amt. Rows include years 1938-1942 and amounts ranging from \$13.90 to \$30.70.

together with interest, penalties, costs, charges, and expenses of suit, which have accrued and which may legally accrue thereon, and in said suit.

Each party to this suit and all parties summoned by this writ to appear and answer this cause, shall take notice of, and plead and answer to, all claims and pleadings then and there now on file and that may be hereafter and thereafter filed in said cause, by all other parties therein, who have and may file pleadings in said cause.

Plaintiff and/or interveners also seek the establishment and foreclosure of the lien securing payment of such taxes as provided by law.

The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates hereof, and make due return as the law directs.

Witness my hand and official seal at my office in Farwell, Texas, this 21 day of June, A. D. 1943.

D. K. ROBERTS, Clerk of the District Court Parmer County, Texas.

Local Happenings

Dorothy Shaw Is Bride Of S-Sgt. McGinniss

On Saturday evening, June 19, at 9 p. m. Miss Dorothy Shaw of Farwell and Staff-Sergeant Linwood H. McGinniss were married at Camp William C. Reid, Clovis, the first military wedding to be performed at the camp. Chaplain Allan R. Freidine officiated at the single ring ceremony.

A guard of honor accompanied the bride, who was given in marriage by Lt. Col. Carl D. Love, to the altar. Lohengrin's traditional wedding march was used for the entrance of the bridal party with Mrs. A. C. Atchison of Clovis at the piano.

Decorations at the recreation hall included many bouquets of garden flowers and featured an altar composed of lilies and gladiolas, with burning tapers on either side.

Musical numbers included solos by Sergeant James R. Milner, who sang "I Love You Truly" and "Because", and violin solos, "O Promise Me" and "At Dawning" by Sergeant Harry Messner.

As a wedding ensemble the bride wore a street dress of powder blue with a white picture hat. Her shoulder corsage was of Talisman roses, and she carried a white Bible, festooned with satin ribbon streamers.

The matron-of-honor, Mrs. Frank Seale of Lubbock, wore an outfit of sea-green with accessories of beige, and the maid-of-honor, Miss Wilma Louise Snider of Farwell, wore a dress of soft rose with white accessories. Both attendants had corsages of gardenias.

Master-Sergeant Marion T. Daily of New Orleans, La., acted as best man, and Master-Sergeant Edward M. Zaepfel of Louisville, Ky., was groomsmen.

The guard of honor, which preceded the couple out of the recreation hall, formed an arch of raised pistols under which Sergeant and Mrs. McGinniss passed.

Reception Held
Mrs. Helen Tracy and Mrs. Carl D. Love presided at the reception which was held following the ceremony. A beautiful white-tiered wedding cake was cut by the bride.

Daughter of Mr. and Mrs. Clyde Holloway of Dallas, Mrs. McGinniss has served as homemaking instructor in the Farwell school for the past two years. She has attended East Texas Teachers' College, Baylor University and T. S. C. W.

Sgt. McGinniss, son of Mr. and Mrs. A. H. McGinniss of Index, Va., graduated from that high school and was employed by the Pennsylvania Railroad in Washington, D. C., until his army induction.

The couple is residing in Farwell.

McCuan-Caffey Rites Are Read In Clovis

Marriage rites for Miss Mabel Gordon McCuan, daughter of Gordon McCuan of Farwell, and Claude Caffey, son of Mrs. Mary E. Caffey of Amarillo, were read in the Central Baptist Church in Clovis, Sunday afternoon at 4 o'clock by Rev. A. L. Aulick. The single ring ceremony was used.

The bride, dressed in a white crepe street dress with accessories of white and navy blue, had a shoulder corsage of gardenias. Her bridesmaid, Miss Hazel Anglin of Farwell, dressed in white with black and white accessories and had a shoulder corsage of Talisman roses.

For "something borrowed" the bride carried a white Eastern Star Bible belonging to Mrs. John Porter.

Attendant to the groom was Homer Cowdrey of Farwell. Other witnesses were Mr. and Mrs. Dale McCuan.

Mrs. Caffey is well known here, having made her home in Farwell for a number of years. Recently she has been employed at the AAA office. Mr. Caffey is an employee of the Santa Fe railroad, currently here with a signal maintaining crew. They are residing in Farwell.

Bible Quiz Held For Walther Leaguers

The Walther League of St. John's Lutheran Church met Sunday evening in the home of Mr. and Mrs. E. Kube for a social meeting.

A Bible quiz was arranged, led by Wilbert Kalbas, after which the group sang a number of songs.

Thirteen members and two guests attended. The next meeting will be at the home of Miss Velma Kube on July 4th.

Mrs. John Aldridge and children left last week for Moberly, Mo., where they will spend several weeks visiting with friends and relatives. Mrs. Aldridge writes that they had "an extensive tour" of Kansas, due to flood conditions in that state.

Home From Three Months Vacation

Mrs. Jerry Brand returned the past week from New Orleans, La., where she had spent the past three months with her husband, stationed there with the army.

Speaking of her trip, Mrs. Brand recounted that she went down via Lubbock, Fort Worth, Shreveport and Baton Rouge, adding "the many war factories in the cities all lighted up at night is really a beautiful sight".

In New Orleans, she said, she visited many beautiful homes, especially in the old French Quarters. "The old brick mansions and plantations show that people were very wealthy in that neighborhood at one time. The churches with the stained glass windows, tall steeples and bells seem to invite you in".

In March, Mrs. Brand said, the dogwood was blooming everywhere, then came April with the azalias and Easter lilies, followed by profusions of wisteria in May. June brought out the tall oleanders and huge bushes of hydrangeas. Cardinals, bluejays and yellow breasts are always seen in the trees, she added.

While there, she and her husband visited the famous Adubon park, where grow trees hundreds of years old. Another highlight of the trip was the visit to the Huey Long bridge, which spans the Father of Waters near the city.

Rooms or apartments being almost impossible to find, many other soldiers wives, "like myself", just gave up and came on back home. Mrs. Brand stated, adding "when I saw the sand rolling along the highway the other side of Amarillo, I said, 'Good old Texas'".

Parmer County Council Meets On Saturday

The Parmer County Council of Home Demonstration Clubs met at the Methodist Church in Friona on Saturday, June 19, with Mrs. Joe Jesko presiding. Mrs. A. H. Boatman was appointed as secretary pro tem in the absence of the regular officer.

Aside from routine business, final plans were devoted for completing and selling two quilts done in a patriotic motif. Lakeview and Hub Clubs accepted the responsibility of setting the quilts together.

Outstanding club activities reported for the month included a "scavenger" hunt for the young people of the Lakeview community; making dress forms in the Hub club; donation of a copy of "Random Harvest" by the Parmerton ladies to the library at the Clovis Army air base; and upholstering of a divan and chairs for the community club room by the Bovina club.

Home demonstration clubs will not hold regular meetings in July due to the fact that much time must be devoted to canning, gardening, and preparing meals for harvest hands. However, each club plans a celebration to which all families of the community will be invited when harvest is completed.

The election of delegates to the State convention at Dallas was postponed until Saturday, July 10, when all candidates can be present.

Oklahoma Lane Club To Encamp June 29

Camp for the 4-H Club girls of the Oklahoma Lane community will be opened at the J. I. Gober farm in that community next Tuesday morning, June 29, at 10:30, with the adjournment set for 8 o'clock Wednesday evening.

The camp site was chosen and is being arranged by Vernell Berry, Doris Marie Gober, Bonnie June Hughs, June Christian and Billie Jean Roach, assisted by Mrs. Olan Hughs and Mrs. J. I. Gober.

Recreation and entertainment is to be directed by Barbara Foster, Louise Rundell and Bonnie and Betty Foster, assisted by Mrs. Tom Foster. The girls have planned various handicraft work, a hayride and swimming as activities.

One feature of the entertainment will be a picnic honoring the parents on Wednesday evening, to begin at 8 o'clock at the lake on the Sutherland farm. All parents are urged to attend, as the camp will be disbanded following the social.

Chaperones and sponsors for the girls are Mr. and Mrs. Olan Hughs, Mrs. C. C. Christian, Mrs. J. I. Gober and Bill Hanna.

Camp-O-Ree Held By Farwell Scouts

The Boy Scout Troop 21 of Farwell enjoyed four days of the district Camp-O-Ree at the Hill Crest Park in Clovis during last week under the leadership of Bob Batton and Russell Moore, assisted by Fred Henry.

Boys attending were Gilbert Blake, Elton Young, Junior Harding, Donald Summers, Samuel Hines, JeDon Porter, Max Ford, Earl Maxwell, T. A. Gilson, and one visitor from the Muleshoe troop. Transportation was furnished by Roberts Seed Company and Henderson Grain Co.

Jimmie Norris of Lamesa, is here visiting relatives and friends.

NEWS FROM OUR BOYS IN CAMPS

BERT McCLURE HOME

Pfc. Bert McClure, brother of Mrs. O. B. Pipkin of this city, arrived in Farwell Monday night from Camp Shanks, N. Y., where he has been stationed the past four months with a military police detachment. McClure plans to visit his mother at Floydada a few days, after which he will go to work on a farm. He has been released from active duty and transferred to the enlisted reserve.

GETS DISCHARGE

Dee Brown, who has been stationed at Camp Gruber, Okla., came in last week, having been discharged from the army. Dee has returned to his farm southeast of here.

TO SEA SOON

Raymond Hall, son of Mr. and Mrs. W. W. Hall of this city, writes his folks that he expects to be seeing duty at sea before long. He has a rating of second-class hospital apprentice, and has been stationed at Seattle, Wash., for the past several months.

GETS FIRST STRIPE

Vance (Kater) Crume, stationed at Fort Lewis, Wash., writes home that he received his initial stripe the past week and now holds a Pfc. rating. He has been in basic infantry training since induction three months ago, but has now been assigned as a bookkeeper in the personnel department at Fort Lewis.

SOLDIERS VISIT

Sgt. Armond Ammiato of the Clovis Army air base, and four band members, were guests over the weekend in the home of Earl Roberts, near Farwell.

TIPTON IN OREGON

Pvt. Ewell Tipton writes his mother that he is now stationed at Camp Abbott, Oregon, and is liking army life fine.

ARRIVED WHERE?

Pvt. Elmo Tipton "has landed safely at his new destination", the war department has notified his father here.

IN OFFICE WORK

Paul Roberson, Farwell graduate who recently volunteered into the Navy, writes from the west coast that he has been assigned to office work, "mainly because of the typing and Morse code classes I had in school last year". The code was introduced in the local school during the past semester, and was one of the school's most popular classes.

RHODES BROTHERS ARE WIDELY SEPARATED

Information comes from Bovina that Lee E., Irvin Lilvus and Nolan C. and Lawrence G. Rhodes, are at widely separated points on duty.

It's now Warrant Officer Lee E. Rhodes, and currently he is stationed at Biggs Field, El Paso, while Cpl. Irvin Lilvus Rhodes is an instructor at Fort Bragg, N. C.

Third-class petty officer Nolan C. Rhodes is in the Navy and serving somewhere in the Pacific. He says in a recent letter to his mother Mrs. A. G. White of Bovina that with all the rationing back here in the USA some may be hungry, but "we have plenty of good cats".

Lawrence L. Rhodes now in the navy, is at a training station in San Diego.

TO PHILADELPHIA

Lee McDaniel, who has just completed a radar course at Lubbock, has been assigned to Philadelphia for additional schooling, according to his grandparents, Mr. and Mrs. E. E. Booth.

Junior Choir Has Social Wednesday Evening

The Junior Choir of the Methodist Church held a social, Wednesday evening at the home of Dr. and Mrs. V. Scott Johnson.

After games were played, refreshments were served to some 14 young people.

Father's Day Dinner Given On Sunday

Ebb Randol was honored with a Father's Day dinner, Sunday, when members of the immediate family and friends gathered in the Randol home in Farwell.

Those attending were Mr. and Mrs. Carl G. Davis and daughter, Mr. and Mrs. Hugh Edwards and son of Clovis, Miss Madaline Randol, and Mr. and Mrs. Bob Richards and Mrs. Beasley all of Dora, N. M.

Mrs. Kirt Crume, of Albuquerque, visited briefly with friends and relatives in this city, Sunday.

Mrs. Frank Seale, of Lubbock, visited the latter part of the week in Farwell. She was formerly Miss Velna Sheriff, local faculty member.

Mrs. G. W. Lambert, of Houston, arrived the past week to visit with her daughter, Mrs. Aubrey Sprawls, in Farwell for some time.

Mrs. Ned Wilde and son, of Miami, Fla., are here to visit her mother, Mrs. J. H. Nabors, and sister, Mrs. Ernest Lokey.

E. F. Lokey and daughter, Jane, who is attending summer school in Canyon, were Amarillo visitors on Saturday.

Mrs. B. N. Graham and daughter, Eunice, and son, Muggins, visited in Lamesa, during the weekend. Little Earlene Cox, who had been visiting here, returned to her home in Lamesa.

Mrs. Percy Tipton will return to Lubbock this week for medical attention, having undergone major surgery there some four weeks ago.

F. C. Tipton has returned from Hobbs, N. M., where he spent last week with his daughter, Mrs. H. R. Orr.

Mrs. Clyde Magness and children, Cary Joe and Phyllis Ann, are visiting for a few days with an aunt of Mrs. Magness in Bovina.

Mrs. Raymond Haynes and children visited the past Saturday with relatives in Muleshoe.

Cherry Anne and Bedford Forrest, who had spent several days visiting young friends here, returned to their home in Hereford, Friday.

Mrs. Elton Malone and children returned home the past Wednesday night from Rock Springs, where they had spent several days with relatives.

Mrs. J. Henry Norris of Lamesa is visiting in the John Bingham home west of Texico.

Mrs. E. O. Underhill of Las Vegas, Nev., has been here visiting her sister, Mrs. G. D. Anderson, while her husband was attending business matters in Chicago.

Safe Methods of Preservation:
This past month I have been discussing with you the necessity for using the pressure cooker in preserving non-acid vegetables and meats. Many of you now realize that there is a possibility of botulism poisoning from improperly canned foods, in the oven, hot water bath, and open kettle.

Let me also, call your attention to the fact that preserving powders are not recommended. They are harmful to the body. You will be interested in knowing that the Texas food and drug laws forbid their uses because of their harm. The law states that "no person shall manufacture, sell, offer, or expose for sale or exchange any article of food to which has been added salicylic acid, benzoic acid, boric acid, sulphuric acid, formaldehyde, cocaine, etc."

I realize that negative psychology is bad but I am sure your parents will agree that it is at times, necessary to say "don't". Well so much for the don'ts. Now for the do. If you do not have a pressure cooker to use in preserving non-acid vegetables, use other safe methods such as drying, freezing, brining, pick-

ling, or curing.

I have information to give you on all the above methods of preservation. Come in or write for it.

Already seven demonstrations this month in various communities on methods to use when you don't have a pressure cooker. I am giving two more demonstrations this month. Why don't you come to one of the meetings? There will be a demonstration on drying on Thursday, June 24 at the Chamber of Commerce room in Bovina at 3:00 p. m. and another on Friday, June 25 at 3:00 p.m. in the home of Mrs. Jim Stovall at the hub.

Drying is an old method of preservation. It does not require a lot of expensive equipment, in fact, it is now recommended as it does not call for sugar, metal, or rubber which are scarce in war time.

Drying may be done in racks hung over your cook stove or in the oven. Sun drying has long been done, however, it is not recommended too highly for Pharrmer County because of our high winds and dust. If you want to build an electric dryer, this can be done easily. The one used in these demonstrations was made from three apple boxes. I have blue prints for home made driers if you want them.

Vegetables best for drying are sweet corn, mature beans and peas, and sweet potatoes. Others which are more difficult to dry are green snap beans, green peas, greens, okra, asparagus, celery, cauliflower, and squash.

NEW STAMPS FOR USERS OF COMMERCIAL CARS

In an effort to eliminate all waste commercial mileage and strike a blow at black market operations, new gasoline coupons carrying a "TT" instead of a single "T" will become effective for commercial motor vehicles on July 1, Howard Gholson, district OPA director, said today.

New stamps are being mailed to operators according to mileage allotment on each operator's certificate of war necessity issued by ODT and the old stamps will become void July 1.

He Made Salt Water Drinkable

"Water, water, everywhere, and not a drop to drink." This cry of the shipwrecked sailor is no longer true. Lieut. Clare R. Spelman, USN (left), has discovered a simple process to make sea water drinkable which can be carried out in a few minutes by a shipwrecked sailor. He is shown being congratulated by Capt. William L. Mann.

Farming Talk

By GARLON A. HARPER

Texas A. & M. Extension Service

I am quite disturbed by the talk of several wheat growers in this county. These men have heard of the early maturity and good yields of Early Blackhull wheat and have just about come to the conclusion it would be wise to plant at least a part of next year's wheat average to Early Blackhull. NOTHING COULD BE FARTHER FROM THE TRUTH. About the most unwise thing a wheat farmer in this county can do is start planting some of the varieties of wheat that produce poor baking flour. We have been extremely lucky in this county in having the great majority of our wheat seeded to varieties which make good bread. Let's not change our luck by planting other varieties which we know the millers do not want.

Just so long as you are planting Tenmarq, Turkey or Standard Blackhull you are going to have a market for good wheat. The minute you start planting a substantial acreage of Early Blackhull, Chiefkan, and other poor milling wheats you are going to ruin your wheat market. It is true that one farmer or just a very few farmers planting a poor milling wheat will not materially affect the market. But, if a few farmers plant these poor milling wheats this year and make a good yield then MANY farmers are going to plant that variety next year. When the mills get some wheat from this county which does a poor job in their ovens they are going to discriminate against the wheat from this county. It is easy to tear down a market but difficult to build one up once it has a bad name.

You see, the idea is that when wheat goes into bread it must bake out a good loaf of bread. If you had ever seen a baking test on different wheats then you would be convinced. A loaf of bread baked from poor milling wheat is about half the size of one baked from excellent milling wheat. The bread made from the poor milling wheat is heavy and does not have the desired light and fluffy appearance. You farmers who are talking about planting that kind of wheat simply would not eat the kind of bread that wheat would make. Let's NOT FOOL OURSELVES. LET'S STICK TO WHAT WE KNOW IS GOOD!

Misuse of Stamps Is Charged by OPA

LUBBOCK—Misuse of ration stamps from ration books and gasoline coupon books is due either to ignorance or a complete disregard for regulations, OPA officials over the Lubbock district have found. There is no excuse for ignorance, they pointed out, since a calendar is run in most newspapers and may be clipped before the customer goes to the store to make his purchase.

"Worst offenders are persons who have a complete disregard for regulations, punishable by law," OPA officials declared. A "gift" of unused ration stamps to a friend or retailer is a serious black market offense that jeopardizes the rationing program.

"Some people seem still unaware that we cannot waste food or give people more than their fair share. They do not seem to realize that vast quantities of foods must go to the armed forces at home and abroad, smaller amounts to our Lend-Lease allies, and some to the liberated people of occupied regions," the statement said.

CALLED TO CALIFORNIA

Mr. and Mrs. E. M. Deaton and family and Brent Deaton left Sunday for California, in response to a message that Mr. Deaton's mother was seriously ill, following an operation.

4H Club Boys Guests At Lubbock Air Base

More than 100 West Texas 4-H club boys—including four from Parmer County—were guests at the South Plains Army Air Field, Lubbock, the past weekend. The boys were winners in farm production projects in their home clubs, and their visit emphasized the importance of food in the all out war production program.

During the day the boys heard an address by Capt. Walter F. Dix, field range officer, on the use of small arms, had a "GI" dinner and spent the afternoon visiting various units on the field.

They attended a review of the troops by Brig. Gen. Aubrey Hornsby, ran the obstacle course and saw much of the operation of the field—gliders lifting above the slipstream of the twin-engine tow ships and coming in alone for landings after carrying out specified flight patterns, long lines of light two-place trainers, jeeps and peeps, command cars and tractors, barracks, hospitals, fire control quarters and instruction rooms.

Attending from Parmer County were Merrill Rundell, C. L. Calaway Jr., Ernest Foster, Jr., Frankie Foster and County Agent Garlon A. Harper.

Skilled Workmen Get Extra Gasoline

An interpretation of the preferred mileage regulations of the OPA which will give extra gasoline rations to skilled repairmen of farm implement companies and to persons engaged in adjusting hail insurance losses was announced today by the District OPA office.

Both types of service were classified as highly skilled and necessary to the operation or functioning of agricultural establishments essential to the war effort.

The ruling affecting representatives of farm implement companies said that "specialists trained in the care and repair of farm machinery may qualify for preferred mileage for travel to dealer outlets, when they travel for the purpose of insuring a functional distribution of replacement parts, instructing dealers and farmers in the care and repair of farm machinery and themselves making certain repairs".

Hail losses require that inspection be made promptly after the damage is suffered and the skill and experience of highly trained persons is needed in most instances to decide the extent of loss, the possibility of salvage and the steps which should be taken to restore the productive capacity of the injured area, the OPA said.

William Henry Dines, honorary Fellow of the Royal Aeronautical Society, and most notable exponent of the exploration of the upper air in England recently died.

Classifications Issued By Local Draft Board

The following classifications were issued this week to Parmer County registrants, following a meeting of the local draft board:

III-C

M. D. Brown, S. D. Rule, Dennis F. White, Ralph B. Miller, Arthur J. Moorman.

III-C(H)

George W. Skates.

II-C

Leslie R. Corbies.

IV-F

Fred J. Thomas, Ross Ward.

IV-A

John R. Carney, James Mears.

I-A(H)

Harry M. Meade, George L. Tarter.

Pending Physical

Robert L. Douglas, Jr.

Sale Of Feed Wheat Is Resumed by CCC

The Commodity Credit Corporation has been authorized to sell fifty million bushels of stored wheat for feed under the same terms and conditions: as those used recently, when a large amount of the grain was released, the local AAA office reported today.

Persons in this county who are interested in securing feed wheat now held on storage by the CCC are invited to make their applications at the local office. Price for the month of June is \$1.05.

SPEAKS HERE SUNDAY

Prof. H. Grady Moore of the Eastern New Mexico College, Portales, will speak at the Methodist Church Sunday evening, using as his subject "America Singing".

B. N. Graham, local preacher, will fill the pulpit at the morning services, it has been announced.
