

## OIL TEST FOR PARMER COUNTY ASSURED

### Death, Destruction, From Six-State Flood

Rushing water from rivers swollen by several days of incessant rain overflows onto six midwestern states. Thousands of persons in the inundated areas were left homeless by the flood, and so much planting has been ruined that food production in the area is seriously threatened. Above: Soldiers in Indiana erect a sandbag dike. Below: A Boy Scout rescues another youth.

## Shortage of 1-A Men Provokes Speculation

Shortage of 1-A men under Selective Service regulations brought forth speculation among members of the local draft board this week with the revelation that all men now in that class in Parmer County would be exhausted with the June call.

"We will be out of 1-A men when we fill our call for this month," one board member stated, adding that the quota for the month would only be partially filled.

Just where the next 1-A men are to be obtained remained a matter of pure speculation. Press dispatches from Washington indicate that fathers will be called by August 1. So far, however, local boards have been instructed not to induct fathers (pre-Pearl Harbor) until advised to do so by State Selective headquarters.

### May Reconsider Deferments

Some observers hold to the opinion that farm deferments will be reconsidered, and unless it can be shown positively that a single boy now classed as 2-C is absolutely indispensable on the farm, he will be processed for military training.

Furthermore, Washington dispatches indicate that the age limit of 18 to 38 will be extended in both directions to make way for induction of those now outside the bracket.

"We certainly cannot send men to induction centers until they have been classified 1-A, and until we get further orders from State Headquarters no move will be made locally to reclassify any of our registrants," one board member stated.

### Season Growing Late For Cotton Planting

While most farmers of Parmer County agree that there is still ample time to produce a feed crop here this year, they admit that the deadline for planting cotton is drawing near.

E. M. Deaton, local cotton ginner, remarked that "it is getting a little late" for cotton planting, yet he cited recent years as proof of the fact that cotton planted by the 10th of June has produced a fairly good yield.

Mr. Deaton also has gin properties in the Littlefield and Spring Lake sections and reported that all plantings in the Littlefield area had been delayed, while the cotton situation in the Spring Lake community was somewhat better, due to good moisture received there about three weeks ago.

Be rational towards rationing but don't ration your scrap metal. The Army needs it now!

### Canned Milk Is Put Under Rationing

Latest addition to the ration program is canned milk, which went under restrictions on Tuesday, June 1, following a previously unheralded OPA announcement.

Valuation was set at one point per pound, which means that the majority of large cans of the milk will take a one-point red stamp, heretofore confined exclusively to meats, fats, oils.

### Fruit Truck Plows Into Trebble House

A heavy truck, belonging to the Panhandle Fruit Company and driven by Jack Looney, failed to negotiate the sharp S-curve on Highway 60 in west Texico Tuesday afternoon and plowed into the residence occupied by J. K. Trebble.

The truck was traveling northeast, headed toward Amarillo, at the time of the accident, and eye witnesses said that the vehicle was traveling at an excessive rate of speed.

Mr. Trebble, who had been sitting on the front porch just a few seconds before the accident, engaged in sharpening a saw, believes that he would have been crushed to death by the onrushing truck if he had remained in his seat. "I had just quit and walked across the street when the truck came screeching across the highway," Trebble related.

The front end of the building was badly damaged, a wheel barrow, a chair and a saw horse were broken to pieces by the impact. Trebble also reported 17 baby chicks were killed in the collision.

City Marshal Jerry Spurlin is reported to have taken the driver in charge for an investigation.

### Large Group of Cows Tested At Bovina

Nearly 200 cows have been listed for Bang's disease tests, in and around Bovina, in a drive sponsored by the Bovina Chamber of Commerce.

Dr. E. E. Kraus is conducting the tests, and officials of the Chamber of Commerce report that indications are the checkup may continue over all of Parmer County.

Since Bang's disease is not only expensive to the owner in that contaminated cows lose their calves, but is also the direct cause of undulant fever in humans, a decided effort is being made to stamp out the disease in dairy herds of the county.

## RENEW SEARCH FOR LADS

With hopes of being able to renew the search for two army flyers missing since the morning of Dec. 26, last, Chas. Caldwell and Bedford Caldwell, brothers of one of the vanished men, left here Monday for points in New Mexico.

The two flyers—Lt. J. R. (June) Caldwell, Jr., and S-Sgt. Maxwell M. Caldwell—have been missing since clearing the air base at Roswell on the fateful morning, en route to their base at Williams Field, Ariz., after spending Christmas Day with the J. R. Caldwell family, 4½ miles south of Bovina.

The former is a son of the Parmer County residents and the latter a cousin of the local boy, who was a resident of San Antonio before enlisting.

### Begin Search in Hot Springs

The search will begin at Hot Springs, N. M., it was announced by Charles and Bedford Caldwell. The mother of the San Antonio lad has been in Hot Springs the past week, where, it was said, "she has picked up some clues".

"We intend to ask the commanding officer at Williams Field to make another search from the air," Bedford said as he and his brother were preparing to leave here.

The search for the missing aviators was abandoned early in January after a number of unavailing flights had been made over the high mountains from Williams Field. Hope of finding the flyers alive waned as the search progressed, and it was finally decided that little could be accomplished until the snow had melted away in the high peaks.

Reports from the region lying in the path of the flyers say that all snow now has disappeared and the brothers have gone to make an effort to get the search renewed.

### Need Air Cooperation

"Unless we can enlist the cooperation of the army flyers at Williams Field, we realize that our task is almost hopeless," Charles Caldwell stated, adding, "It would be simply a miracle if the plane or boys could be found by ground searchers".

The pair, who are now believed to have perished in the plane, were returning to the base at Williams Field when they disappeared. They cleared the Roswell field shortly after nine o'clock the morning of Dec. 26, after refueling and getting an "all clear" weather report. That is the last tract of them.

They had flown from Arizona to Lubbock, where they left the plane and proceeded to the Caldwell home near Bovina to spend Christmas Day. It was on their return that trans is the last trace of them.

Hundreds of miles of high elevations and sharp craggy peaks lie in the path from Roswell to Williams Field, and efforts to locate the plane or the fliers admittedly will be difficult.

### Heifers Are Available Through County FSA

Raleigh C. Middleton, Parmer County Farm Security supervisor, stated today that the agency has on hand eleven head of nice heifers which will be sold to producers who wish to increase their herds at reasonable prices.

This stock was shipped into the county by the FSA from other points in Texas where producers had been forced to cut the size of their herds, Middleton said, adding, "all heifers are in top-notch condition".

Persons interested in seeing the stock are invited to contact Middleton at the local office.

### GRAIN MAN HERE

Leo Potishman, president of the Transit Grain Company of Fort Worth, one of the largest grain dealers in Texas, was here the latter part of last week attending business. His company owns two elevators in Parmer County—the Farwell Elevator and the Santa Fe Grain company at Friona.

Mr. Potishman predicted that the wheat crop over Northwest Texas was going to be rather short this year, due to dry weather.

While here he purchased a building site at Lariat, and announced that with the return of normal conditions he planned the erection of an elevator at that place.

## County Quotas Lifted on Rationed Machines

### Real Tragedy Strikes As Dog Is Killed

One of the most profound tragedies in recent years for any local citizen came one day last week when a switch engine ground out the life of Bob, 7-year-old dog and constant companion of J. K. Trebble, aged local carpenter.

"Many times I have spent my last dime for something for Bob to eat and gone hungry myself," related the grieving master as he mourned the loss of his only companion.

One of Trebble's chief concerns in recent years was the probability that he might die before his beloved dog did. The two had lived alone in Texico for many years.

### Scattered Showers Fall Over Weekend

Scattered showers, varying in intensity from only light sprinkles to heavy rains estimated at from two to three inches, fell in parts of Parmer County the past weekend, to encourage planting operations in the areas visited.

Reports here say that most of the east side of the county came in for more moisture over the weekend. Good rains are also reported in the Midway community, increasing to a heavy downpour to the south. Lariat received a full inch, which extended north and northeast, while the Oklahoma Lane community reports only a shower.

Planting operations down the state line in the vicinity of the W. J. Matthews farm were delayed until Tuesday due to heavy rains on Saturday.

While the showers have reached only a small part of the county that is in desperate need of planting moisture, farmers in the sections visited by the rains are losing no time in getting their corps in the ground.

### Parmer Boys Exhibit Stock at Plainview

Nineteen fat calves were exhibited by Parmer County 4-H Club boys the past weekend at the Plainview Fat-Stock Show. County Agent Garlon A. Harper said today, the entries being made by C. L. Calaway, Jr., Frankie and Ernest Foster, Jr., and Merrill Glenn Rundell.

In the "group of five" division, young Calaway placed second. Frankie Foster won ninth rating in individual calf showing.

All local stock was consigned to a 4-H club shipment to the Kansas City markets, with Rundell making the trip to the market. It was believed here that a good price would be received on the calves shipped.

Other than the agent and the boys entering the show, Parmer County visitors at Plainview were C. L. Calaway Sr., and Mr. and Mrs. Robert Rundell.

If you ask the average little boy what he's going to the store for, he can't think of any good reason.

Cancellation of all county quotas on farm machinery affected by rationing, which became effective last week, has been announced through state and local ration boards.

This does not mean, however, that rationing has been discontinued. The simple explanation is this: State quotas will continue to be imposed. However, eligible producers may now purchase machinery from any dealer instead of being restricted to purchases in the county where farming operations are carried out.

Applications for any type machinery affected—including combines, tractors, plows, etc.—may be filed with county boards at any time, but no purchase certificate will be issued until the applicant locates the required machinery and obtains a statement from the dealer to the effect that he has such on hand.

The Parmer county board met the first of the week to act upon a number of pending applications and the applicants who received approval will be notified. They are then required to locate the machinery, present the proper papers to the board, after which purchase certificates may be issued, it was stated.

Persons who have no applications on file are advised that it may speed up matters to file both an application and dealer's certificate of machinery at the same time. Then if the application is approved, the purchase slip will be promptly issued, and a second trip to the office will be unnecessary.

Previously, machinery was tagged by counties, and could be sold only to producers of that county. Under the revision, any dealer in the state may sell to any applicant holding a purchase certificate, regardless of the buyer's county address.

### Macon Buys Elevator At Bovina Past Week

A deal was closed last week between J. P. Macon, Texico grain buyer, and Bob Stone and other Clovis parties for the purchase of the Stone Grain & Elevator Company at Bovina, Macon announced today.

The new management will take charge on June 7, after which date the business will be operated under the name of the Macon Elevator.

Macon said that Homer Martin, present manager of the business, who has operated in that capacity for the past 24 years, would remain as manager until the forthcoming wheat harvest has been completed.

The elevator has a capacity of 15,000 bushels and has been in operation at Bovina for a number of years. It is one of the best of the three elevators located in that city, and Bovina is one of the best grain shipping centers in this section of northwest Texas.

For the past several years, Macon has been engaged in the grain business at Texico. During rush harvest seasons he has maintained a loading dump at Bovina.

Ray Moore, of the Amarillo National Bank, was in Parmer county the first of the week, attending business matters in Bovina and Farwell.

Parmer County has been assured an oil test during the coming few months, it was announced here today by N. L. Tharp, Clovis resident and large land owner in this county.

Tharp said a drilling contract had been signed with the Stanolind Oil & Gas Company for a test to be drilled to a depth of "at least 7,000" feet on acreage recently leased by the company, on a block of twenty-five sections lying north and northwest of Bovina. John Aldridge, local attorney who helped to draw up the legal papers in the deal, said that the block was approximately 5 miles square, cornering one mile west of Bovina.

Aldridge said that actual drilling was scheduled to begin "during the month of June" and that the test would be sunk to a depth of 7,000 feet unless oil or gas in paying quantities was found at a lesser depth.

Tharp praised the efforts of H. Y. Overstreet and officials of the Capitol Freehold Land Trust, "who have cooperated with us one hundred percent in obtaining the leases". Tharp has five sections in the blocked acreage, and Frank Ayers has leased 800 acres in the block, it was revealed.

### Active Wildcatters

Stanolind bears the reputation of being the most active wildcat drillers now operating in this section of the country. Last year they sank a test nearly two miles deep in Lamb county, which resulted in a dry hole. Recently they have completed a mile-deep test in Quay County, N. M., which also came in as a duster.

They have spent many thousands of dollars in Parmer county in recent years in various activities, but this is the first time they have entered into a drilling contract with land owners of the county.

Officials of the company were noncommittal as to the exact location of the test, stating, "that depends on what our geologist says". They were very definite in the announcement, however, that arrangements were already going forward for moving a drill here in order that actual spudding-in could be made during the present month.

This will be the first real test for oil that has been made in Parmer County in recent years. A number of years ago a dry hole was sunk about 15 miles east of Farwell in the Midway community.

### Shortage of Repairs Delays Road Workings

T. E. Levy, county commissioner of precinct 3, today blamed the shortage of repairs for road machinery for a good part of the neglected road work in his district.

He said that repairs for road machinery had become almost unobtainable and as a result most of the county grading and maintenance machinery is inactive.

Adding further to his worries has been the shortage of bridge timbers with which to repair damaged culverts in his and other precincts of the county. He predicted that a number of drainage structures might have to be removed and fills made if material is delayed much longer.

### TO INSTALL PICKER

N. L. Goldsmith of the Goldsmith Produce company, today announced that he had purchased a chicken picker, which would be installed at an early date. He said the machine has been shipped and is due to arrive by the latter part of the present week.

Goldsmith said that his heavy demand for dressed poultry, coupled with the shortage of labor, had justified the investment.

## Wheat Ripening in Dry Sections

### NO MORE WHEAT FOR LIVESTOCK FEEDING

Sale of Commodity Credit Corporation stored loan wheat for feeding purposes was ordered discontinued this week, Ellis M. Mills, head of the Parmer County AAA office announces today.

A good deal of the loan wheat in Parmer County had been redeemed for feeding purposes, he added.

Such sales were conducted under a CCC authorization to dispose of 100-million bushels of the grain to relieve feed shortages. It was not known whether or not the practice would be reopened later.

Wheat fields in the dry areas of the county are beginning to ripen, bringing forth the prediction that some fields will be ready for harvest around the 20th of this month, at least ten days earlier than such operations usually get under way in this county.

In sections of the county, particularly the east, southeast and northeast, where rains have been falling in recent weeks, the wheat has not advanced as rapidly and harvest in these localities is not expected to begin before July 1st. Farmers point out that such a condition will prove beneficial in that labor and machinery may be shifted from

one section to the other at the height of the harvest operations.

Wheat observers are still clinging to early predictions that Parmer County will harvest about a normal crop of grain this year. They are not anticipating such an abundant yield such as was gathered here last season, when, as one grain buyer put it, "We made three years of crop in one season". Some fields are estimated to yield as high as 15 to 20 bushels, while the majority will fall down in the five-to-ten bushel average.

Records compiled at the AAA office, exclusive of last year, show that the county-wide average is a little in rise of nine bushels to the acre.

Seabees Look For Cooks And Bakers

A new call has been sent out by the U. S. Navy Construction Battalions—the Seabees—for cooks, stewards and bakers, it was announced today by Lieut.-Comdr. L. H. Ridout, Jr., officer in charge of the Dallas Naval recruiting district.

Voluntary induction is open to men between the ages of 18 and 34, inclusive, and those who qualify are definitely assured of assignment to the Seabees Men between the ages of 18 to 50 and one-half with experience as cooks and bakers are urgently needed. Those 38 and over are eligible for the Seabees through regular voluntary enlistment.

In either case, a visit to the nearest Navy recruiting station will give the applicant the complete story and allow him to determine if he is qualified for the Navy's fighting construction units. The army engineers also offer opportunities for men with experience in construction work.

Those accepted for the Seabees have an opportunity to qualify for any one of 84 construction trade jobs and the higher pay that goes with them. Not only cooks and bakers are needed, but all types of construction workers as well.

The nearest station for this area is located at Lubbock.

Truck bodies will not be changed in appearance after the war but the materials that form it will be very different. Magnesium, aluminum, high grade secondary aluminum and many other lightweight materials will cut truck weight and allow for more weight in payload.

as tuberculosis.

"Slippery floor surfaces, lack of handrails on cellar steps, absence of protective gates at the top of stairs in homes where there are small children, toys left on stairs, unanchored small rugs on polished floors, poisons in medicine cabinets accessible to children, and the careless storage of sharp tools and firearms are some of the more prominent hazards resulting in some accidents," Dr. Cox said.

"However," he added, "in the last analysis, the problem boils down to one of reasonable individual caution. We cannot view complacently the more than 30,000 deaths annually due to home accidents. These deaths, chargeable to remediable carelessness, can and should be reduced."

Dr. Cox declared that such a needless and profitless loss of life should be deplored at any time, but to permit such a condition to persist in 1943, in view of our national crisis, is a neglect that cannot be condoned, and one which can seriously cripple our war effort.

Texas petroleum production makes up 93 percent of the value of all mineral production in Texas.

There are now 21,000 protected persons in the United States and Canada.

**INSECT CONTROLS**  
—FROM—  
**VICTORY GARDENS** EXTENSION AGENTS

Don't let insects sabotage your Victory Garden. Here are some of the insects which may be bothering your garden. Clip these out of your paper and save them in order that you may know what to do when they attack your vegetables.

**Is This Pest Bothering Your Victory Garden?**

**CUT WORM**—Color: Brownish, dark colored worms. Curl in soil in daytime and cut plants off at base during night. Poison bait: 5 lbs. bran, 1 table-spoonful Paris green or cryolite, 1/2 pint cheap molasses, 1/2 gallon water. Put out late in afternoon. Spread lightly near base of plants. For further information see your County Extension Service Agents.

**Is This Pest Bothering Your Victory Garden?**

**CUCUMBER BEETLE**—Color: Greenish yellow beetles with 12 spots and yellow beetles with 3 black stripes. Feed on foliage and stems of plants. Dust with cryolite 1 part, talc 3 parts; or calcium arsenate 1 part, hydrated lime 19 parts. Beetles usually attack plants when small. Early treatment essential. Repeat applications at intervals of 5 to 7 days to keep young leaves covered with dust. For further information see your County Extension Service Agents.

**Distribution Soybean Meal Is Curtailed**

COLLEGE STATION—Distribution of emergency soybean meal through the Texas USDA War Board is being curtailed during May. In making the announcement, B. F. Vance, chairman of the board, explains that although some Texas counties still were requesting shipments, the majority did not need additional soybean meal at present. He added that because of spring rains and the new grass supply 23 counties already had cancelled orders for approximately 25 cars of soy-

bean meal. Operating under a plan whereby soybeans were moved from northern producing areas into Texas mills for crushing, the mills sold one-half of the meal through regular channels of trade, while the remaining one-half was retained by Commodity Credit Corporation for shipment into critical areas. Through this emergency operation, the Texas board routed 333 cars of CCC-owned meal during the first four months of the year into areas where the food situation was acute. Users of soybean meal, whether feeders, feed mixers or dealers, are being advised to arrange for supplies

through regular trade channels, where possible, while the supply which becomes property of CCC under the contract plan will be used for shipment into counties and for building reserves for future use.

**BROILER BREEDING STOCK**

**COLLEGE STATION**—Chicks which grow feathers fast is a good guide in selecting breeding stock to produce better broilers.

According to H. H. Weatherby, poultry husbandman for the A. & M. Extension Service, chicks which grow feathers fast are the ones that reach market as broilers free of pinfeathers. Fast feathering birds may be identified by a simple check of the number and size of the wing feather quills of day-old chicks. One with a wing showing seven well developed primary and seven well developed secondary sheaths will feather out with wing and tail feathers long before the chick with shorter quills and only a few short secondaries.

Flesh being a primary factor in broilers, the meatier birds should be selected when the fast feathering chicks are four to six weeks old. At that age they have made their best gains and it is easier to differentiate between fast and slow growing ones than it is later.

Breeding stock may be selected from the meaty, fast-feathering chicks when they are six to 12 weeks of age. This is done by the simple rule of measuring the width of each chicken's breast between the thumb and finger. Breast meat is the most valued part of a broiler, so it is important to choose breeders well provided with meat on that part of their bodies.

These steps in selection of breeding stock for broiler production apply to both male and female, although it is not necessary to choose the females as carefully.

The Great Salt Lake in Utah is six to eight times saltier than the ocean.

A Dime Out of  
Every Dollar in  
U.S. War Bonds

**Canada Training Powerful Norwegian Air Force**

Norwegian trainers (above) in flight over Canada. (At right) Armed with rifle and bayonet this young Norwegian flyer guards the Headquarters of his command. The Royal Norwegian coat of arms has been placed above the doorway.

A POWERFUL Norwegian Air Force has been mustered and trained in Canada and awaits the day of revenge. In spite of the fact that Norway was one of the first countries to come under the German heel it has now built an air force equipped and trained in Canada more powerful than it possessed before the war. The new air force is supported

largely by revenue from the Norwegian Merchant Marine which escaped the clutches of the Nazis. Camp Little Norway has been established in Ontario and here, amid rustic cabins that remind them of their home land, the traditional life of Norway is carried on by the young men and women who are training and working to wrest their country from the Nazis.

**Urge Use of All Land To Feed Livestock**

An appeal to farmers, dairymen and ranchers to utilize every effort and all available land to the production of feed in 1943 to help care for the nation's largest number of livestock in history has been received here by R. C. Middleton, rural rehabilitation supervisor for the Farm Security Administration.

With the total values of cattle, sheep and hogs at all time peaks, the problem of finding sufficient feed to care for the nation's record number of animals has increased, according to information.

"In urging farmers to utilize every possible acre for the production of livestock feed or pasture, we don't wish them to neglect their production of vital crops, especially oil crops, for the war effort," Middleton said.

"We do ask, however, that farmers put every acre of their land into production in accordance with its best use. No land should be left idle this year which is suited to cultivation," he continued.

Middleton said the Department of Agriculture is asking farmers to produce pasture crops to off-set the shortage of protein feeds on the market, because pastures are a good source of proteins and they make possible cheaper gains for livestock producers.

Discussing the utilization of grain and row crop feeds to the best advantage, the FSA supervisor advises farmers to plan now for storage facilities which should be completed before the 1943 harvest. He said credit will be made available to farmers this year with which to construct trench silos and to construct up-right storage facilities.

"If we are fortunate in producing good feed crops this year we should use every available means of storing and conserving them to meet our increased feeding demands and to carry us through next season which may not be so favorable for production," he said.

**FOOD AND FEED FORECAST**

COLLEGE STATION—Given favorable seasons and extra labor for peak requirements, Texas farm families should be able to reach most of their war food goals. C. E. Bowles, specialist in organization and cooperative marketing for the A. & M. College Extension Service, makes this observation on the basis of a forecast recently released by the state agricultural statistician for the U. S. Department of Agriculture.

According to the forecast, the inventory of beef animals now on Texas farms and ranches is above last year's record. Cattle and calves marketed in 1942 were 29 per cent above sales in 1941. Likewise, sheep and lambs went to market in record numbers in 1942, but on January 1, 1943, Texas still had more sheep and lambs than in any previous year.

Indications are that the 1943 spring pig crop is 30 per cent above last spring's record crop. The 1943 pig crop was 58 per cent above the 10 year average. Continued comparable increases cannot be expected, Bowles believes. The labor shortage is one factor, and in addition, farmers are now being squeezed between skyrocketing feed prices and ceiling prices on meat.

A record number of chickens on Texas farms is 17 per cent above a year ago and 44 per cent above the ten year average. Hens are laying more eggs than in February, 1943, and the baby chicks hatched that month were 21 per cent above the average for the past five years. He says the picture for milk is not so encouraging. While the number of cows milked on Texas farms increased 4 per cent during 1942, the production per cow declined enough to offset the increase in numbers.

In spite of reduced labor and a shortage of machinery, Texas farmers are increasing their food and feed acreage by 6 per cent over '42. The peanut acreage is 15 per cent greater and acreage of all sorghums 11 per cent above the previous year.

Tribune Job Printing Is Best

**A Few ??'s to Ask the Printing Peddler**

When the Peddler selling stationery and printing supplies solicits your business, there are a few questions which he should be willing to answer to your satisfaction.

Among them being:

- Does he pay taxes in this community?
- Does he donate space in his newspaper to the local community enterprises?
- Does he pay wages to a force of employees located in this City, County or State?
- Does his paper devote its entire space toward the betterment and upbuilding of this community?
- Does he grant you every favor that you would ordinarily ask of a local newspaper?
- Does the quality of his merchandise stand inspection—is it on quality paper stock and the printed matter attractively arranged?
- Will he submit proof of your work before finishing and mailing it to you C. O. D.?
- Does his price include postage and insurance charges?
- Can he supply your order on short notice?

If he can answer all the questions in the affirmative, he is entitled to your business.

# Local Happenings

## Dotson-Connally Rites Performed May 9th

Announcement has been received this week of the marriage of Miss Margaret Dotson, formerly of Farwell, and Lieutenant Dennis J. Connally, of New York City, which was performed on May 9 in Roswell.

Mrs. Connally chose a wedding costume of powder blue with navy accessories and a corsage of gardenias. Her matron of honor, Mrs. Clyde Brady, wore a mustard color street dress with brown accessories and a gardenia corsage.

The bride is the daughter of Mr. and Mrs. C. E. Dotson, long-time residents of Farwell but now living in Tucson, Arizona. She was a member of the 1932 graduating class of Farwell high school, later attending Texas Tech in Lubbock for two years. For the past eight months she has been assistant cashier at Montgomery Ward & Co. in Roswell.

Lieut. Connally is the son of Mrs. John J. Connally. His father; the late John J. Connally, was president of the Board of Sanitation in New York and a well known politician. Lieut. Connally is a graduate of St. John's University of New York and is now stationed at the Roswell Air Field, where he is in charge of plans and training in headquarters.

Lieut. and Mrs. Connally are making their home in the Nickson Hotel in Roswell.

## Homemaking Classes Begin Summer Work

Summer homemaking classes for Farwell girls will begin Thursday of this week, Miss Dorothy Shaw, supervisor, said today, the meetings to be held each Thursday afternoon in June at 2:30 in the home economics building of the school.

Besides group projects, which include painting, construction of cabinets and upholstering work (all to be done in the department), there will be demonstrations on the different methods of food preservation, Miss Shaw said.

The class further plans to present a program over KICA on June 8 at 8 a. m., and is contemplating staging a picnic in the Clovis park for the final meeting.

Miss Shaw stated that she expected around twenty girls to be enrolled in the summer classes.

## Soldier Honored At Social, Sunday

Pfc. Paul Evans, who is visiting his mother, Mrs. Millie Stovall, at Muleshoe, from Columbia, S. C., was honored with a social, Sunday evening, in the home of Miss Velma Kube.

Various parlor and outdoor games were arranged, after which refreshments were served from a table decorated with roses.

Those present were Mr. and Mrs. Burr Stovall of Muleshoe, Mr. and Mrs. A. E. Kube, Dorothy Schueler, Robert Leach, Carl Hoffman, Raymond and Walter Schueler, Melvin Sachs, Bernice and Ervin Schwede, Mr. and Mrs. E. Kube, Mr. and Mrs. Edd Ramm and family, Wilbert Kalbas, Reuben Meissner, Rev. and Mrs. R. Weiser, Raymond Evans, Lillymae and Gilbert Kaltwasser, Mr. and Mrs. A. Kriegel, Rudolph Kube, Mr. and Mrs. B. Kube, Cpl. Walter Knippa, the hostesses, Mrs. Stovall and Velma Kube, and the honored guest, Pfc. Evans.

## Wedding Rites Held In Alamogordo

Wedding vows for Miss Maxine Jones of Amarillo and Master Sergeant D. K. Lindop, formerly of Oklahoma Lane, were spoken in Alamogordo, New Mexico, on Tuesday, June 1, according to word received here.

Lindop, the son of Mr. and Mrs. George Lindop of Oklahoma Lane, graduated from that high school and has been in the service for some time, being currently stationed in Alamogordo. The bride has been residing in Amarillo with her aunt, Mrs. Roy Cullum.

The parents of the groom were in attendance at the nuptials.

## Wesleyan Guild Will Meet

The Wesleyan Service Guild of the Methodist Church will hold a meeting tonight (Wednesday) in the parlors of the church, with the affair to begin at 8:30.

The current Bible study will be continued, with Miss Hazel Anglin in charge. Mrs. D. K. Roberts, president of the group, urges that all members be present, and extends an invitation to visitors.

## Birthday Social Is Held Saturday

The fifth birthday of "Bug" Johnson, son of Dr. and Mrs. V. Scott Johnson, was celebrated the past Saturday when a social was held in the Johnson home.

Marcia Anne Johnson was in charge of the children's games. At the conclusion of the party the birthday cake, topped with candles, was cut and served, accompanied by bottles of soda pop.

Guests included Betty Anne Harrison, Mikala Ann Faville, Johnny and Billy Kistler, Pat Aldridge and Darlene Kay Sprawls.

## Attend Luncheon In Clovis

Mrs. W. H. Graham, a former member, and Mrs. A. D. Smith, a guest, attended the annual luncheon held by the "old" Clovis Woman's Club, the past Thursday noon, in the home of Mrs. Clyne Smith.

Clever "ration book" placecards were used, and favors were packages of odd garden seeds. The program, presented by various members, was a burlesque on rationing.

## Bible Study Class Meets Tuesday

Mrs. G. W. Atchley and Mrs. Lena Yoder were joint hostesses, Tuesday, when the Wesley Bible Class of the Methodist Church met in the home of Mrs. Atchley.

The program for the afternoon was directed by Mrs. B. N. Graham. A refreshment plate was served by the hostesses to Mesdames B. E. Nobles, Anne H. Overstreet, A. D. Smith, B. N. Graham, J. H. Barger, Albert Thomas, O. B. Pipkin, Ralph Humble, Roy B. Ezell; and Miss Fay Crow.

## Attend Graduation

Bob Kyker and Mrs. Lee Bradshaw were in Abilene the first of the week attending graduation exercises at Abilene Christian College, where Rex Kyker, son of the local man, received his degree. Rex accompanied the local people home and will visit for a few days before taking up ministerial duties.

## To Washington

Miss Iris Thornton, who teaches in Iowa Park, Texas, spent a few days here last week with her parents, Mr. and Mrs. J. R. Thornton. She left Thursday for Washington, D. C., to visit her sister, Miss Dorothy, who is employed in the capital city.

## Visiting Here

Cpl. John Geier and Herbert Rafuse, Link-trainer instructors of Camp Clovis, are spending a short furlough with Earl Roberts this week. Geier's home is in New York City, while Rafuse is from Boston.

## To Attend School

Miss Neelie Reed, who for the past several weeks has served in the capacity of secretary in the offices of the county and home demonstration agents, has resigned. She plans to attend commercial school, probably in Clovis. No successor has yet been named.

## League Meets Here

The Walther League of the Clovis Lutheran Church met in the home of Mrs. Karl Gast in Farwell, Sunday night, for a topic study on "Life and Responsibility from a Christian Viewpoint".

Refreshments were served to 11 members and seven visitors.

Smokey Gast and Paul Roberson were in Lubbock last weekend, where they considered navy enlistment. They continued on to Truscott, Tex., to spend a few days with Paul's father. They expect to return Thursday.

Mrs. Bess Moffett left Monday for her home in Dallas, after having spent several days here as the guest of Mrs. Anne Overstreet.

Bobby Hart has gone to Muleshoe to spend the summer vacation with relatives and friends.

Miss Jean Anne Hart left the last of the week for Arizona, where she will visit with relatives during the summer.

Miss Bertha Gast left Friday morning to California to visit relatives. She will see Mr. and Mrs. Buster Gast at Hermosa Beach, and intends to spend the remainder of the summer with her sister, Mrs. Joe Garcia, and family, in San Francisco.

## NEWS FROM OUR BOYS IN CAMPS

### IN NORTH AFRICA

Pfc. Claude Dyer sends his parents a V-letter from "somewhere in North Africa", recounting some of his trip overseas. "Never knew there was so much water," he relates, "but I didn't get sea-sick... the next trip might get me, though." Dyer, who is with an M. P. group, is believed to be on prison detail.

### TO FT. SILL

Mrs. Lovilla Kessie, formerly with the FSA in Farwell, writes that her husband, T-Sgt. W. A. Kessie, has been assigned to communications school at Ft. Sill, Okla., and "we are on our way back". They have been in California for the past several months. Sgt. Kessie visited here last past fall and is known by a majority of local people.

### GRISSOM COMMISSIONED

It's now Lt. Kenneth G. Grissom, according to a Marine Corps release received in Farwell. Grissom, son of Mr. and Mrs. Luther M. Grissom of the Oklahoma Lane community, has been in training for some months and has now been commissioned and assigned to active duty with a flying squadron of the leathernecks.

### DOES HIS WASHING

Cpl. Orville London, writing his wife here from "somewhere in North Africa" relates that doing his own washing in hard water is no snap. London has been overseas for several months.

### IN FLOOD AREA

Pfc. Dick Bobst, now in training at Scott Field, Ill., sends word to home folks that "It has finally stopped raining and I hear that the flood waters are receding. Lots of Scott Field boys were detailed to help fight it—my bunch filled sandbags. Some fun!"

### HOME ON FURLOUGH

Sergeant John Austin Graham, of Brooks Field, San Antonio, arrived here Monday night to spend a fifteen day furlough visiting his parents, Mr. and Mrs. B. N. Graham, and seeing other relatives and friends in and near Farwell.

### MIXES PLAY AND WORK

Mr. and Mrs. W. J. Parker of Bovina send word that their son, Billy, with the U. S. Coast Guard, is now stationed at Pompano, Fla. He writes that he is on watch on a "big bridge at Boca Raton now... I like the fishing and do quite a bit of gigging... am doing pretty good at it."

### AT NAVAL TRAINING POINT

Carl Deaton, son of Mr. and Mrs. E. M. Deaton of Lariat, is stationed at a Naval training school at San Diego, Calif. He writes his parents, admitting that for a while he was "pretty blue" but is beginning to like Navy life somewhat better.

### PROMOTED

Herman Kloepper, son of Mr. and Mrs. John Kloepper, writes his parents from Camp Gruber, Okla., that he has been promoted to the rank of corporal.

### GETS NICE SUNTAN

Lt. Gabe (Penrod) Anderson, son of Mr. and Mrs. G. D. Anderson of this city, in a letter written from North Africa, says that he is getting a nice suntan under the Tunisian sunshine. He reports that he has not slept with a roof over his head since last November, and told of finding an old iron French bed recently, ad-

ding, "it slept better than the rocks we had been using lately". He told of making reconnaissance flights over the area vacated by Rommel's retreating forces.

### FORMER FSA HEAD WRITES FRIENDS

A letter has been received here, point of origination not given, from Ensign Frank Sealé of the U. S. Navy. Excerpts follow:

"Within the past few days I have received 5 copies of the State Line Tribune. It is very nice to know what the people at home were doing a month and one-half ago. There was no part that I did not read. The advertisements, of course, did not make a customer of me, but I read them, too.

"The situation here is quite satisfactory. Most every one seems to be accepting it and keeping their high morale. The one thing they all have in common is to get this bloody business finished and get back home. The boys seem quite normal in every way except there seems to be no desire to participate in athletics like baseball. They do quite a bit of swimming. It must be that the hot weather whips the surplus energy out of us. The boys have developed an interest in beautifying their living quarters. Most of them have fixed graveled walks to their tents and bordered flower beds with larger stones selected from the gravel. They have found beautiful flowering plants growing wild in the woods and transplanted them... one cannot help but be surprised to see so many plants growing from seeds brought from the States.

"Some of that good old pork and beef produced in Farmer County would be appreciated. Some of this stuff we get must have come from California. There is not much good one can say in its behalf. The only milk we have had has been this made by soaking powdered milk in water. It does not taste very good but after a few hours of hard work it does not have to taste good for us to consume it. Even this kind of milk has been served only once in four months."

Ensign Sealé was formerly FSA supervisor here. His wife, the former Velma Sheriff, is making her home in Lubbock.

Mr. and Mrs. J. T. Carter and children have returned from Denton, Tex., where they had visited several days with relatives and friends.

Mrs. Betty Lee Mouser has accepted a position as bookkeeper with the Mauldene Builders Supply, in Clovis.

Peggy and Jean Rogers are spending a week visiting in Melrose, N. M.

## Demonstration Club Notes

By Special Staff Reporters

### Bovina Club

The club met May 27 with five members present. The demonstrator gave a lesson on saving sugar in cooking and the nutrition lesson was studied. The group will meet June 10 to upholster the club furniture.

### To Attend District Meeting, June 3 and 4

Several members of the Parmer County Triple A office will be in Plainview Thursday and Friday attending a district meeting, Ellis M. Mills, supervisor, said today.

At this time, specialists will discuss the performance program of the AAA, and the cotton insurance

program will also be taken up. Those planning to attend from here include Mills, Owen Cox, Harold Carpenter, Clyde Magness, J. G. McFarland and Mrs. Bill Moss.

### Stamps Are Required On Application Forms

Local postmasters this week reminded the general public that regular postage must be placed on ration application forms when they are filled out and returned to the postoffices, headed for OPA centers. The form is plainly marked with a place for the stamp, but apparently a good number of people think that all government mail goes free of charge, attaches reported, urging that proper postage be applied in order that forms will not be delayed.

June 10 is the deadline for mailing the forms for Ration Book No. 3.

Many a woman tells her troubles to her husband because he is it—they are him.

### Allies Walk In: Persecutions Ended

Hated Nazi badges of persecution are torn from their clothes by these Jewish boys in Kairouan, Tunisia, as British soldiers, who liberated the youths, observe one of the effects of the Allied victory there. These boys were forced to work for the Germans without pay and also were made to wear a Star of David to distinguish them from non-Jewish workers.

## Poultry Wanted

We are in need of hundreds of pounds of poultry every week to supply contracts at the Clovis Air Base . . . and you need to cull your flocks of non-producers. You likely won't find a better time to dispose of your surplus stocks than during the next few weeks.

## SAVE and SHARE..

By ELSIE CUNNINGHAM  
Home Demonstration Agent

"Food is the strength of the world,"—but, only the food that is eaten has a national importance. Every pound of food must serve in the war effort.

To help people of Parmer County save all the food that is produced, the home economists of the county are conducting food preservation demonstrations and training schools in June. These meetings will be held in the home economics laboratories at the various school buildings in the afternoon from 3:00 to 5:00. Plan to attend one of these Save and Share for Victory Schools. Meetings will be held as follows:

Bovina, June 3; Friona, June 8; Farwell, June 10.

The demonstrations to be given are canning pineapple and cherries in the hot water bath; preparation of fruit and vegetables for the freezer locker; and drying fruits and vegetables.

The home economists participating in these Save and Share for Victory Schools are: Mrs. Edna P. Elms, Farm Security home supervisor; the homemaking teachers of the above mentioned schools—Miss Anna Hastings, Bovina, Miss Dorothy Shaw, Farwell, Miss Mary Elizabeth Stanford, Friona; and the County Home Demonstration Agent.

No doubt you have noticed our new heading—Save and Share. I want to thank our editor for this nice heading. It tells you exactly what our theme is and will be until October 31. I plan to pass on ideas each week that will help you save the food in these nice victory gardens that I am finding all over Parmer County as I go about my work. Share! In event you have more than you need of anything share it with neighbors and others. That is the spirit of the victory program. Do you have more tomato, cabbage or pepper plants than needed? Are your strawberries too thick? Do you have a big shallot bed and want to do some thinning? How about a few asparagus or rhubarb roots? Tell me what you have to pass on to others and I'll be glad to make the announcement in this column.

Wanted:  
Rhubarb: Mrs. Effie Johnson of Farwell wants some rhubarb roots.  
Shallots: Mrs. Davis King and Mrs. Tom Rhodes of Bovina want a few bunches of shallots.  
Scrap iron: Uncle Sam wants all you can spare.

Mrs. C. L. Calaway in the Rhea community surely has a nice garden and is having English peas sufficient for table use and canning. She used the Early Alaska variety and canned 7 pints from her patch this past week.

Mrs. Effie Johnson, Farwell 4-H Club leader, has one of the nicest victory gardens—she says it's her first attempt at gardening—but you would think she was a veteran. She has the nicest assortment of greens—swiss chard, rafe, beet tops and mustard. Her cabbages are beginning to head—Early Jersey Wakefield is the variety she used.

Mrs. V. Scott Johnson has found a way to beat the birds to the beets.

She mixes beet seed with another vegetable which grows off quickly—such as mustard. The mustard isn't too popular with the birds and protects the beets until they get a good start.

How is your garden doing? Have any ideas to share with us? This is your column.

### Meeting Held Here By Dairy Members

The annual meeting of the Tri-County Dairy Herd Improvement Association was held at the local courthouse, Monday, with a good representation of members present.

Mr. Williamson, head of the agriculture department at Eastern New Mexico College, Portales, spoke to the group on the advantages and reliability of records kept by dairy improvement groups, and C. M. Henderson of Farwell outlined the probable cottonseed meal and high protein feed situation for the coming months.

Leroy Stewart, tester for the association, gave his report, listing the Jersey herd belonging to Dean Pattison of Clovis as the highest producing group in the association, while the Shorthorn herd of Morgan Dennis, Dimmitt, showed the cheapest production of butterfat.

Average Cost Given  
The average cost of butterfat production for the entire association was 22c per pound, Stewart said. A group of high production cows, chosen from various herds, produced butterfat at an average of 18c per pound, while a selected group of low-production animals tested showed that it cost 27c per pound for them to produce butterfat.

"In other words," said County Agent Garlon A. Harper today, "the

high producing cows showed a net income of \$164 above the cost of feed, while the low producing animals showed only a \$60 income, verifying the fact that such animals are a detriment to herd averages."

**Directors Named**  
All former officials of the group were reelected, with Pattison of Clovis as chairman; Cooper of Portales as secretary-treasurer, and Williamson of Portales, John Hadley of Texico and Virgil Teague of Parmer County as directors.

At the present time, a total of 23 herd owners are members of the association.

### Boy Scout Troop Has Meeting on Monday

One-year service pins were presented to a number of Farwell Boy Scouts, Monday night, when the regular meeting was held in the school building.

Receiving the pins were Bill Moore, T. A. Gilson, Duane Sprawls, JeDon Porter, Samuel Hines, Elton Young and Donald Summers. Several who were eligible for pins but were not present will receive the service merits at a later date.

Robert Moore, former leader of the Flying Eagle Patrol, has gone to El Paso, and Duane Sprawls was named to succeed him. JeDon Por-

ter was named to take Sprawl's former position of assistant leader, and Donald Summers was elected as scribe.

Any boy is welcome to join the Farwell Scouts, meetings being held each Monday night at the school.

### VOLUNTEERS FOR ARMY

Hubert Woodrow Harmon of Lariat, has made application through the local draft board for enlistment in the army and will be assigned to the army engineers at Screven, Ga. Harmon will probably leave here with the June induction call.

Watson Whaley of Friona has received a discharge from the Army and returned to his home the latter part of last week. He was inducted about eight months ago.
