

PULL NAVY PLANES FROM SEA

Navy planes shot down over the ocean, may be raised to fly and fight again under a plan worked out by Navy engineers. Each balloon will lift three tons and as many as five or six of them may be attached to the heavier type planes. The balloon pictured above will lift five times the weight of the girls shown holding it up.

All-Purpose Committee Named to Assist FSA

Four Farmer County farmers have been recently notified of their appointment to a new all-purpose county FSA committee which has been established to adapt the Farm Security program to the needs and to bring the resources of family-type farms into full, wartime production.

According to Wilbur B. LeVeque, supervisor, the new committee consists of three full members and one alternate who will serve from one to three years. Its duties will be both administrative and advisory. Members must be farmers, residents of the county, and familiar with local agricultural conditions.

Those appointed to serve in Farmer County are: Olan N. Schleuter, three years; Roy White, two years; W. H. Gammon, one year; and Ralph G. Wilson, alternate.

"The single committee will handle all advisory duties formerly handled by several committees," LeVeque said. "Selected on the basis of their knowledge of local farming problems, these men will review and pass on the eligibility of applicants for FSA loans and assistance. In counties where loans are made to qualified tenants to purchase farms of their own, under the Bankhead-Jones Farm Tenant Act, the committee will review and pass on the eligibility of loan applicants, the purchase price of the farm and the amount of money involved in the entire transaction."

LeVeque further emphasized that the single committee constitutes a new development in localizing FSA administration. Committee members will serve in an advisory capacity to the local FSA staff on all phases of the program, thus fitting the operation details of the program to the local situation.

Under the new set-up, all FSA cases in the county will be subject to a yearly review.

An Alabama towns wants Sunday golf stopped. What's the use? They'll lie about something else.

In Case Of Fire

Residents of Texico-Farwell are reminded to keep these telephone numbers in mind in case of a fire alarm. Dial 2341 or 3701 during the daytime, and call 3331 at night.

Asst. Chief Rodney Ford explains that no one is on duty at the fire station during the day, but most of the fireboys are employed at the Roberts Seed Co. and the Farmers Supply Co., and can be contacted by calling either of the first two numbers. The last number given is the fire station and all calls after 6 p. m. should be made to 3331.

EYESIGHT IMPAIRED

G. T. Watkins, prominent farmer of the Oklahoma Lane community, came near losing the sight of his left eye several days ago while repairing a fence, when a staple flew up and struck the eyeball. He is under treatment of an Amarillo specialist, who has expressed the belief that very little vision will be retained in the injured eye.

Muleshoe Pastor Is Speaker at Mens Club

Dr. W. R. Hornburg, former president of Howard Paine College at Brownwood, and now pastor of the Baptist Church at Muleshoe, was the guest speaker at the regular monthly meeting of the local Men's Club on Thursday evening of last week.

The speaker was introduced by Rev. W. C. Wright, local Baptist pastor.

Dr. Hornburg centered his theme around one word—"Together"—to bring Club members one of the most inspiring talks that they had enjoyed in recent sessions. After citing that in the very early stages of creation, God said "let us make men together", the speaker observed that the word was as old as creation, yet as modern as the present second. He pointed out that "together" simply meant living with others, and from that point he went on to stress the importance of man learning the vital lesson of "living together."

In the beginning, there was only one man, then a family, then a tribe, then a nation, then more nations, he observed. "As nations progressed, living became more complex," and he cited the examples of history to illustrate his point, concluding with the frank admission that nations have yet to learn the lesson of how to share the earth.

"The question of another war centers around the question of whether or not we are going to be willing to let our enemies have their just share of the earth," he declared. In conclusion he cited three principles that must dominate "if we are ever to learn the important lesson of living together. (1) We must have a common aim; (2) Individual benefit must be lost to the common good; (3) The spirit of service must come to dominate men and nations."

Dr. Hornburg was preceded by Dr. R. W. Ross, who spoke briefly in the interest of the campaign for funds for McMurry College at Abilene, Texas, that is being conducted in Northwest Texas and New Mexico during the month of November.

The first practical seeding machine was patented in the United States in 1840.

Recover Bodies of Two Army Flyers

County and Community Heads Selected

Elections held on Friday and Saturday of last week by eligible farmers of Farmer County have listed new community and county committeemen, who will administer the Agricultural Adjustment Administration program for the coming year, taking office on Dec. 1.

Ellis M. Mills reported today that a good turnout was recorded at the election of community committee members, held on Friday in the various divisions of the county. At this time delegates were also named to elect the county committee, with such men meeting Saturday at the AAA office.

With broadened powers being given the Triple A county committee, particularly along the line of farm tires and gasoline, more interest was shown in the election this year than in several years, officials report.

Ford Welch has been named as chairman of the county committee, with W. M. Sherley as vice chairman and Wilbur Charles as regular member. Alternates are J. W. Baxter and W. H. Gammon.

Community Members Listed

Community committeemen are:
A—Rhea—Vernon Estes, chairman; T. E. Taylor, vice chairman, Robert Calaway, regular member; C. V. Potts, Melvin Sachs, alternates.
B—North Friona—Willis Parker, chairman; Ralph G. Wilson, vice chairman; F. E. Gaines, regular member; Charlie Baxter, Roscoe Ivy, alternates.

C—Black—James E. Black, chairman; Charles Nolan, vice chairman; B. E. Roberson, regular member; Clyde Hays, Frank W. Lookingbill, alternates.

D—Bovina—Charles A. Ross, chairman; I. W. Quickel, vice chairman; J. C. Denny, regular member; J. W. Bell, N. E. Bonds, alternates.

E—Oklahoma Lane—Levi Johnson, chairman; Fred Paine, vice chairman; A. B. Wilkinson, regular member; Otis Hubbell, Clifford McGuire, alternates.

F—Farwell—Ed Eason, chairman; Joe Magness, vice chairman; Lester Norton, regular member; Frank Phillips, J. O. Ford, alternates.

G—Midway—R. C. Wiley, chairman; T. A. Bewley, vice chairman; Joe Jesko, regular member; L. C. Woltman, J. W. Crim, alternates.

H—South Friona—Russell O'Brien, chairman; G. L. Mings, vice chairman; Joe Pitman, regular member; S. L. McLellan, Otis Massey, alternates.

The Lazbuddy community election had not been reported to the local office at the time The Tribune went to press.

Deadline Announced For Subsidy Payments

The deadline for applications for subsidy payments on October sales of dairy products is November 30, Ellis M. Mills, at the AAA office, reminded today.

Mills urged that producers eligible for the payments come to the local office immediately and file applications. If the proper data is presented, a draft will be issued when the producer fills out the forms.

To date, 125 Farmer county producers have drawn \$1015.90 in subsidy payments for October.

Payments for the November and December sales will be made in January.

ACCEPTED FOR ARMY

James Edwin Hughes, the only Farmer county registrant to be sent to the induction station at Lubbock on Nov. 19, was accepted for general service and will depart for the reception center at Fort Sill, Okla., on Dec. 10, it was announced through the office of the local board today.

FARM SALE BOOKED

H. P. Bishop has booked a general farm clean-up sale to be held at his farm 5½ miles north and one mile east of Bovina on Monday, Dec. 6.

Livestock, farming implements and household goods will be featured in the auction. A complete list of the items to be offered will appear in The Tribune next week.

The bullet proof tanks of a Flying Fortress need more than half a ton of rubber.

Farwell Navigator Safe After Bombing Mission

Another local soldier is reported "back on active duty" after having been previously listed as "missing in action" by the War Department.

Mr. and Mrs. F. W. McElroy of this city, received a message from the War Department late Monday afternoon stating that their son, Lt. James D. McElroy, had returned to his base in England, after having been reported as missing.

Lt. McElroy is a navigator and was based in England. He is presumed to have gone down while on a bombing mission out over enemy territory. A telegram announcing that he was missing in action was received here on Oct. 20.

No details of his flight and rescue are available here, but members of the family are prone to believe that his ship went down while on a raid to Duren, Germany, and that he came to earth in Holland, from where he made his return to his base in England.

\$3500.00 In Bonds Sold at Okla. Lane

The bond rally staged at the Oklahoma Lane school house on Friday evening of last week, sponsored by the American Legion, resulted in the sale of \$3500 (maturity value) in bonds, G. D. Anderson, county War Bond chairman, announced today.

Marion Doshier acted as auctioneer and sold the pies to the bidders during the evening.

Chairman Anderson said that the November quota of \$20,400 in war bonds and stamps was lagging at "about half way" at this time. He expressed the opinion that "right now people are too busy with harvest" to think much of buying bonds and added the hope that Farmer county sales would pick up when farm work lets up a little.

Stockmen Face Crisis In Roy, N. M., Section

Mrs. Tom Grady was here the first of the week from Roy, N. M., where her husband is employed as cattle inspector. She said that cattlemen of that section were facing a real crisis with their herds of livestock due to the continued dry weather and inability to obtain protein feeds for their stock.

Most stockmen, Mrs. Grady reported, were being forced to ship their cattle to the already gorged markets of the east. She said the grass on the range was depleted and no wheat pasturage is available due to dry weather.

Deputy Collector Coming to Muleshoe

The Treasury Department has advised that Deputy Collector Burt Bedford will be at the city hall in Muleshoe on Saturday, Dec. 1, to assist taxpayers in this district with the preparation of income tax returns.

This will be the only visit scheduled for this section prior to Dec. 15, the last day on which the current estimated income tax returns may be filed.

About 1,800 letters converted into V-mail are not much larger than a package of cigarettes.

FOUND—Lt. James R. Caldwell, who with his cousin, S-Sgt. Maxwell M. Caldwell, had been missing since Dec. 26, 1942, was located in the Mogollon Mountains of New Mexico, where the two were killed when their plane crashed.

Bovina Oil Test Down To 7,500 Foot Level

Reports reaching here from the Jarrell No. 1 oil test, located 7 miles northwest of Bovina, are to the effect that the drill has reached below 7500 feet—and is still going down.

The last several hundred feet have been drilled through lime, reports say. Last week a "soft spot" of about 20 feet in thickness was encountered and from that formation lime was again struck, with drilling being continued.

The test is being made on the A. J. Jarrell farm and the contract calls for the test to be sunk to oil or granite.

Farmer Boy Will Go To 4-H Club Congress

Leon Grissom, who recently was announced as a winner of the Santa Fe trip to the National 4-H Club Congress, held annually in Chicago, is slated to leave Amarillo this weekend to attend the convention.

County Agent Gailon A. Harper said that a number of trip winners would travel in a group to Chicago, leaving Amarillo on November 26, and due back home on December 2.

Grissom was slated to receive his certificate of award at the Oklahoma Lane school Monday, with presentation being made by L. J. Casper of the Santa Fe. However, Grissom, enrolled at Texas Tech, could not be here on Monday and the special service was cancelled.

The young winner is the son of Mr. and Mrs. L. M. Grissom of the Oklahoma Lane community, and has been prominent in club work for a number of years.

OUT FOR THANKSGIVING

Both the Texico and Farwell schools will close their doors this (Wednesday) afternoon for the traditional Thanksgiving weekend holidays.

Offices at the courthouse will be closed on Thanksgiving Day only, as will the bank and the majority of local businessmen have announced that they will "vacate" on Thursday.

The mountain fastness of western New Mexico yielded up the secret of the mysterious disappearance of two army flyers late last Wednesday afternoon after eleven months had passed, during which time every known effort had been made to locate the bodies and the plane in which they disappeared.

The bodies of Lt. James R. Caldwell, Jr., and S-Sgt. Maxwell M. Caldwell—cousins—were discovered by a 15-year-old deer hunter high in the rugged area of the Mogollon Mountains, only a short distance from the New Mexico-Arizona state line, on the afternoon of Nov. 17, where they had lain since their plane crashed on the afternoon of Dec. 26, 1942.

BURIAL AT BOVINA

Definite plans for the funeral services of Lt. Caldwell were completed here Tuesday, with the announcement that services would be conducted at the Baptist Church in Bovina Thursday afternoon of this week at 3 o'clock. Minister S. C. Wall of the Church of Christ of Dora, N. M., will officiate, and will be assisted by the Methodist and Baptist pastors at Bovina. Burial will take place in the Bovina cemetery. The body, enclosed in a sealed casket, is scheduled to arrive at the Steed Mortuary in Clovis early Thursday morning. Pallbearers will be J. I. Gober, G. T. Watkins, Sam Sides, Aubrey Brock, Clarence Christian and A. B. Wilkerson.

Lt. Caldwell and Sgt. Caldwell crashed in a twin-motored army training plane last Dec. 26, while en route to their base at Williams Field, Arizona, after spending Christmas Day in the home of Lt. Caldwell's parents, Mr. and Mrs. J. R. Caldwell, five miles south of Bovina.

Lt. Caldwell's remains will be escorted here by Lt. Herbert F. Bunting of Williams Field, who received his wings in the same class with the ill-fated local lad. Major Hendert and Warrant Officer Litehiser of the Deming Air Base at Deming, N. M., took charge of the bodies at the scene of the crash and had them removed to Deming for shipment home.

The body of Sgt. Maxwell Caldwell is being forwarded to Dallas, where it will be interred at the side of his father. His mother now resides in San Antonio.

Killed Instantly
Aubrey Brock and Bedford Caldwell returned here Monday night from the scene of the accident, after identifying the bodies and making arrangements to have them shipped out.

Investigations disclosed beyond doubt that both young flyers were killed instantly when the ship went down. Lt. Caldwell's body was lying about fifty yards out in front of the badly wrecked plane face upwards. Sgt. Caldwell's body was found amid the wreckage of the plane.

Army flyers who investigated the wreck gave it as their opinion that the plane came down in a spin, caused by one of the motors being out, in all probability. The plane struck the ground nose down a short distance from a large pine tree, after ripping the top out of the tree.

Reward Offered
Last summer the Caldwell family posted a cash reward of \$300 for the first information leading to the recovery of the bodies. The reward has been claimed by Bob Talley of Albuquerque, 15-year-old deer hunter, and Earl Gilson, rancher and guide of the hunting party.

The bodies were found at the base of Lillie Mountain, on an elevation of about 8000 feet, some 50 miles east of the little village of Mogollon, N. M.

(Continued on Back Page)

Pork Slaughter Restrictions Lifted

COMMISSIONERS MEET

The Farmer County Commissioners Court was in session here Monday. Aside from the usual business of paying current bills and other routine matters, the commissioners agreed to appropriate \$20 per month toward the expense account of Harry Whitley, cattle inspector, the order retroactive to include September, October and November of this year.

All restrictions covering farm slaughter of hogs has been suspended for 90 days, the Food Distribution Administration announced on Friday, when markets throughout the country were glutted with shipments of hogs to slaughter houses.

Producers will not be required to have a license or permit of any kind during this period, and may kill for their own use or for sale or transfer to others all the hogs they are able to handle.

Along this same line, producers

were notified that the 400-pound limitation previously imposed had been lifted for an identical period, and farmers urged to speed marketing of the record pig crop to prevent overloading of marketing and slaughtering facilities.

Points are Dropped
With an overabundance of pork on the market, the OPA likewise announced over the weekend that all pork cuts had been given a two-point cut per pound, which means that pork will probably outrank beef cuts in market sales.

Farming Talk

By **GARLON A. HARPER**
County Agricultural Agent

Texas A. & M. Extension Service

Many farmers feel that insofar as meat production is concerned we are facing, at best, a marginal enterprise in a financial way. This may be perfectly true. With pasture scarce, grains high, proteins scarce and farm labor almost unobtainable, you are going to have to think fast and figure all the angles to make a profit. This is no time to overlook any of the small details in the business. One of these details is the control of the cattle grub.

Is the cattle grub costing you money? You may not know it, but it is probable the answer is "yes". Out of the 2,000,000 head of cattle slaughtered in Texas annually 843,000 are grubby. These grubby animals are discounted an average of \$3.86 per head. Enough meat is lost from these cattle to feed 4,600 soldiers a year. Enough leather is lost each year from these cattle to make 1,000,000 pairs of shoes. Grubby milk cows lose production amounting to about 25%. It is estimated that the total loss to Texas farmers because of grubby cows is \$5,000,000 annually.

If this loss could not be overcome then we could very well just take it like a man and not worry over it. HOWEVER, IT CAN BE OVERCOME, AND CAN BE OVERCOME IN ONE YEAR WITH THE PROPER COOPERATION FROM FARMERS AND RANCHERS. There is a very simple and effective treatment for cattle grubs which costs very little per animal treated. This treatment is rotenone and sulphur, applied either as a dust, wash, spray or dip. One of these forms of treatment will fit any size herd and the percentage of kill of grubs runs very high with any of the methods. Treatments should start when the grubs first start making a hole in the animal's hide, on the back. This will usually be in December. Treatments should be made every 30 days until all grubs are killed out. Usually three applications are sufficient.

For small herds the dust treatment is excellent. For example, a dairy herd can be treated by sprinkling the dust over the back of the

animal after milking, while the cow is still in the stanchion. The treatment means only a few cents for materials and takes about half a minute to dust the mixture on, but it means a lot of difference in the amount of milk that cow is going to give in the future.

How about deciding to treat your cows for grubs now? Come by the office or write for specific directions.

OKLAHOMA LANE

Mr. and Mrs. Lester Vincent are spending a few days in Dallas.

The Parmer County Singing Convention was held at the Baptist Church Sunday with a large attendance. New officers are Harold Carpenter, president; Lester Kelly, vice president; Lee Thompson, secretary-treasurer. The next meeting will be held at Friona the third Sunday in February.

Mr. and Mrs. Truman Chandler of Broadview visited in the Lee Thompson home, Sunday.

Mr. and Mrs. Jim Brown and son visited relatives here Sunday. Mrs. Brown is a niece of Frank Foster.

Mrs. Billy Sudderth has been quite ill the past 10 days.

Mr. and Mrs. J. B. Ginnings left Monday for Portales, to spend a few days with his mother, who is seriously ill.

Miss Verna Ginnings has resigned as teacher in the Oklahoma Lane school to be with her mother.

PLEASANT HILL

The play Friday night was a big success.

Clarence McBride is spending this week in Kansas.

Mrs. Maggie Bell and Crump Melugin were quietly married Saturday.

A baby boy was born to the Glen Singleterrys last Monday night.

Rev. Powers preached at the Fundamental Church Wednesday.

Betty Jo Moormon spent Monday night with Miss Martha Williams of Bovina.

The next club meeting will be with Mrs. Spencer Jarrell, in the afternoon.

On not getting the Most Money out of your Cotton?

We have plenty of storage space in our own Bonded Warehouse for all cotton ginned on any one of our gins now in operation and it will be in the Government loan as fast as it can be classed, weighed in at the warehouse and the necessary papers issued.

Be assured of getting the most for your cotton by ginning at the Lariat Gin, Lariat, Texas, the Friona Gin, Friona, Texas, or the Springlake Gin, Springlake, Texas.

Local managers and bookkeepers at each gin will be glad to assist farmers in getting their cotton in the loan.

Brooks-Deaton Gins and Warehouse

GENERAL OFFICE: FARWELL, TEXAS.

Health Notes

By Texas Department of Health

AUSTIN—The first Thanksgiving Day in America was proclaimed for the purpose of expressing thanks for the colonists' sturdy health that had allowed them to survive the hardships and exposure of the first rigorous year in America. Dr. Geo. W. Cox, State Health Officer, is appealing to every citizen of Texas to give serious thought to the preservation of his own health and that of his community in the national crisis now existing.

"We can certainly be thankful that our health level has remained high despite the sacrifices and deprivations of war," Dr. Cox said. "Our people have retained their health to a remarkable degree and even under war conditions Texas has continued to show a decline in maternal and infant deaths."

Dr. Cox stated that within the last fifty years, health departments have been established throughout the country for the purpose of preventing disease. While their activities have been hampered by the lack of sufficient funds, nevertheless a great improvement in the nation's general health has resulted. Among the other benefits derived from the public health program is the fact that during this period the life span of the average person has been increased more than 15 years.

"The State of Texas has much to be thankful for in the steadily increasing interest and cooperation being shown in matters pertaining to sanitation and control of communicable diseases," said Dr. Cox. "Responsibility for the success and advancement of the public health program lies not with the health department primarily but with the people who support and encourage the community effort put forth and who apply in their own individual lives the knowledge which they have acquired."

WILLKIE TO SPEAK IN DALLAS ON FRIDAY

DALLAS—Plans are complete for Wendell Willkie's address here Nov. 26, when he will greet a state-wide audience of conservative Texans, many of whom will disregard party lines to hear the 1940 GOP standard-bearer as he climaxes a five-day tour of Texas.

Mr. Willkie's visit to Texas, Nov. 23-26, was planned to afford conferences with party leaders and other supporters in Houston, San Antonio, Fort Worth and Dallas, where he will deliver his only public address of the tour.

The address will be widely broadcast, pickups having been arranged by Dallas stations of the three major networks, WFAA-WBAP of National, KRLD of Columbia and WRR of Mutual. Other Texas stations scheduling the speech include WCAI of San Antonio, KPRC of Houston and KGNC of Amarillo.

Sixteen graduate nurses are enrolled at the University of Texas, working toward a degree in nursing education which will qualify them for positions as nursing instructors in other schools or as head nurses and supervisors in hospitals.

A "new deal" that occurred in the seventh century B. C. is analyzed in a book released by the University of Texas press. "Modern Problems in an Ancient World" was written by the late Dr. F. B. Marsh, professor of history.

Science has found that toads are more intelligent than frogs.

Fluid milk was first included in army rations in 1933.

THE OLD American Virtue of Thrift

STILL LIVES ON!

BACK in the days when Thanksgiving was new, thrift was the first law and the abiding rule.

The happiness and health of the earliest Americans—yes, even their very existence—depended upon their frugal, saving ways.

And today, with Americans putting big percentages of their incomes into War Bonds, thrift has come into its own again.

We must all sacrifice and skimp and save to help win this hardest of all wars!

Please join in this pledge: "I won't buy anything—anything at all—that I don't really need."

And for the things you simply can't get along without, come to Penney's!

Penney's specializes in thrift and savings.

Penney's way of doing business keeps operating expenses very low. The result is savings for Penney's and these savings are passed on to our customers—as they always have been—in the form of lower prices.

Shopping at Penney's is so important today—when dollars must stretch further than ever!

Scorn Overweight Motor Oil this Winter of War

"The Lighter the oil the better"... Discover how very light, by changing to Winter OIL-PLATING

Have you ever been a new papa? Have you ever had to enlarge the hole in the nipple of baby's bottle? The hot milk, just about as fluid as anything, barely comes through. Far "skinnier" than small holes in nipples are many of the oil spaces in your car's engine. That's still true after it is middle-aged or beyond. Any oil...any oil...has a hard enough time coming through and spreading all around. Overweight oil—easily thickened by cold—is far worse. The lightest oil your engine can use this season is rightest. And you can know that light oil will more than stand the gaff when it

includes the ability to give your engine internal OIL-PLATING.

Because a Winter change to Conoco Nth motor oil adds OIL-PLATING to engine parts, you can go your car's limit on lightness. Any good plating is a protective surface, and so is OIL-PLATING—attached all over your engine's insides, as if strongly "magnetized" there by a synthetic that's part of patented Conoco Nth. Now every moving part enveloped in its close-fastened OIL-PLATING must slide upon the rupture-resistant fluid film of Conoco Nth. Safety is multiplied!—though your economical Conoco Nth is so light that your battery, too, has every chance to outlive the Winter, and the War. OIL-PLATE at Your Conoco Mileage Merchant's—today. Continental Oil Co.

Dread Engine Acid Fought by OIL-PLATING

Normal combustion always leaves acids inside of your engine when it stops.

Formerly it seldom stood idle long. Soon mileage and speed heated your engine enough to oust acids.

But nowadays rationing may force long rests, while corrosive acids gnaw. To combat corrosion, metals are plated. You combat acid corrosion with your engine OIL-PLATED.

How many miles older is your car this week?

"Every mile you drive makes it more important than ever to Care for your Car for your Country"

IF TIRE AND GASOLINE RATIONING were removed tomorrow, no victory-minded American would permit himself one single mile of unnecessary automobile driving!

Let the truth of this fact sink in. Even if gasoline and tires were plentiful, cars are not. There will be no new cars for the duration. And every mile you drive, today and tomorrow and the day after, is an irreplaceable withdrawal from the Nation's bank of total transportation miles.

That is why your Uncle Sam is talking like a Dutch uncle when he tells you to care for your car for your country. You must protect and even pamper your car to coax every last bit of mileage from its aging engine and chassis.

Phillips 66 Service Wardens are pledged to do their utmost to perform all services which will improve the efficiency of your car and lengthen its life. Remember, the car which is driven this winter with tires unchecked . . . with battery uninspected . . . with friction points unlubricated . . . may literally be running at the expense of the Nation's war effort.

The Phillips 66 Service Warden is waiting at every Phillips 66 Service Station, ready and anxious to do his part to help you "Guard America's Mileage." Drive in soon for complete Service-Warden Service at the Orange and Black 66 Shield . . . sign of famous Phillips 66 Gasoline and Phillips 66 Motor Oil.

FOR VICTORY... Buy U.S. War Bonds and Stamps

SLAUGHTER PAYMENTS UNDERGO ALTERATIONS

COLLEGE STATION—A directive designed to "afford relief to non-processing slaughterers" by rector, Fred M. Vinson, Washington means of a special additional pay-

ment of 80 cents per hundred, live weight, has been put into effect, according to information from the office of Economic Stabilization Director, Fred M. Vinson, Washington. The new order makes an im-

portant change in the plan under which payments of \$1.10 per hundredweight on all grades are made by the Defense Supplies Corporation to slaughterers of live cattle.

It is explained that the special

payment will be in addition to this amount, and will not involve any increase in the original estimates for financing the slaughter payment program.

The modification has three objectives: (1) to enable slaughterers not engaged in processing of beef—a group made up principally of small enterprises whose margins have been adversely affected under existing regulations—to continue in business; (2) to maintain prices of live cattle within a stated range approximating the present price levels, thus affecting support price to livestock producers and at the same time discouraging unwarranted advances in the live market; (3), to provide a more economical and effective allocation of present payments to all slaughterers by increasing the amount paid for certain grades of live cattle and reducing them for others.

It is explained further that the directive, while avoiding the disadvantages of a formal price regulation or support price program seeks to achieve the purpose of both price ceilings and support prices for live cattle. This is done by requiring deductions from subsidy payments in the case of any slaughterer whose monthly payments are either above or below the range of prices provided for in the directive.

IMPROVING QUALITY OF TEXAS COUNTRY BUTTER

COLLEGE STATION—Although Texas leads the nation in production of country butter it doesn't rate that high in quality, says O. W. Thompson, dairyman for the A&M Extension Service.

Among several defects is a sour, curdy flavor and aroma caused by the cream becoming excessively sour before churning or by leaving too much milk or curd in the butter. This also may be caused by churning too long or, more frequently, by insufficient washing of the butter. This may be prevented by allowing the cream to ripen just long enough to get the desired flavor, and churning stopped when the butter granules are about the size of wheat grains. The butter should then be washed sufficiently with clean, fresh water to remove excess milk or curd.

Feed and weed flavors are transferred to the milk from grazing, and the especially objectionable, like garlic and wild onion, can be prevented only by eradication or keeping cows from pastures where they grow. Turnips and similar vegetables should be fed only immedi-

ately after milking.

Animal and stable flavors are caused by contamination from soiled bodies and udders of cows, by letting milk or cream sit in the barn or by putting hot milk or cream in a tightly covered container. Remove the causes and the ill flavors will go, too, Thompson says.

Although objectionable flavors are mostly noticeable in eating the butter, defects in body and structure also are objectionable and hurt the appearance of the butter. These

defects are weak, greasy, salty, crumbly, and mealy bodied butter. Some of the causes of these faults are inadequate cooling of cream and excessive working of butter; working excessively while soft, too high churning temperature, or allowing the butter to get warm before working; over-working while the butter is firm, especially if worked without water; and churning sour cream which has been held at high temperature.

There's a "Sweeping" Big Job to Be Done!

Don't let the condition of your electric vacuum cleaner go from bad to worse . . . you won't be able to get a new one for the duration! Don't let sharp things be picked up to cut the rubber belt. Empty the bag often. When repairs are needed, let your Electric Repairman make them at once!

Southwestern PUBLIC SERVICE Company

"...and I'd clap my hands and dinner would be ready..."

WOULDN'T it be wonderful if cooking were as easy as that? Haven't you wished it a thousand times?

Wishes almost as fabulous are coming true . . . tomorrow! For in the laboratories of the Gas industry, engineers are developing plans to make your own home as wondrous as a magic castle . . .

There'll be amazing Certified Performance Gas ranges that "do everything but put dinner on the table" . . . Gas refrigerators and water heaters that perform a hundred miracles to make life easier, more enjoyable . . . house heating and air conditioning that make your home as cool as the mountains in summer, as balmy as the tropics in winter . . . without a lick of work from you.

Today, the tiny, blue Gas flame that will make all this possible is working to speed Victory. Use it wisely.

But tomorrow this same blue flame will transform your home—be it large or small—into a happier, healthier, more economical place to live.

Isn't this something worth saving for—with every War Bond you can buy?

THE FLAME THAT WILL BRIGHTEN YOUR FUTURE

NOTICE!

DUE TO THE SHORTAGE of manpower and automotive equipment, unavoidable congestion in mailing facilities, as well as uncertainty in train schedules, it becomes necessary to change our method of billing. With this new type of billing, the following changes appear in your billing dates:

Heretofore, meters have been read in Texico and Farwell on or about the 14th of each month. During November, however, meters were read on or about the 17th. Bills will be mailed on December 5th and will become delinquent on December 15th. This new schedule will prevail until further notice.

The date on which meters were read, and the delinquent date are specified on the face of each month's bill.

Local Happenings

Wedding Performed In Las Cruces, Nov. 13

Announcement has been made here of the marriage of Miss Juno Glasscock, daughter of Mr. and Mrs. J. S. Glasscock of near Muleshoe, to Charlie Dotson, son of Mr. and Mrs. C. E. Dotson of Tucson, Ariz.

The nuptials were read in Las Cruces, New Mexico, on Saturday, November 13.

Mrs. Dotson attended the Farwell high school and later received her degree from Texas Tech, in Lubbock. For the past two years she has been a member of the Hereford school faculty.

Mr. Dotson was a resident of this community for a number of years, being engaged in farming activities. He was recently discharged from the army and is now employed in construction work in Tucson, where the couple will reside.

Bazaar Crowd Exhausts Handcraft Offerings

More customers than could be accommodated was the story at the annual bazaar, held Saturday in the Methodist Church by women of the Women's Society for Christian Service and the Wesleyan Guild.

The bazaar opened at 1 o'clock in the afternoon with a large display of handwork, including aprons, pot lifters, pillow slips, table spreads in crocheted designs—all articles which are practically impossible to find in stores, and by the middle of the afternoon the counters were practically stripped.

A six o'clock supper was also served at the church, with patrons offered waffles, pie, chili and coffee.

Sponsors of the affair report that over \$100 was cleared, and take this means of expressing their appreciation to those who contributed in any way toward the success of the bazaar.

Pioneer Visits Here

Mrs. Pearl B. Grady, former Texico postmaster and one of the old time settlers of this region, who is now making her home with her son, Tom Grady, at Roy, N. M., was here the first of the week. She is improving slowly from a broken arm sustained in a car accident some months ago.

Nuptial Dates Revealed At Shower, Monday

A combined announcement party and shower was given Monday evening in Big Spring, Texas, announcing the approaching marriage of Miss Elizabeth McCrary, of Big Spring and Cpl. Lorenz Gast, of Farwell.

The party was held in the Settles Hotel in Big Spring, where Cpl. Gast was employed before induction into the services.

The wedding will be performed at the air base chapel at Big Spring on Dec. 18, and the couple will reside there. Miss McCrary is employed as a telephone operator at the base, and Cpl. Gast is stationed there.

Cpl. Gast is the son of Mr. and Mrs. Karl Gast of Farwell, and Mrs. Gast attended the announcement party in Big Spring.

Venison Dinner Given In Johnson Home

A venison dinner was enjoyed by a number of friends, Tuesday evening, when Dr. and Mrs. V. Scott Johnson entertained in their home.

Guests at the affair included Lt. and Mrs. Reynolds, Mr. and Mrs. J. T. Carter, Mr. and Mrs. Jack Dunn, Rev. and Mrs. Paul Tripp, Mr. and Mrs. W. H. Graham, Mr. and Mrs. D. K. Roberts and Mr. and Mrs. C. M. Henderson.

Recital Will be Given Monday Evening

Summer pupils of Mrs. Florence M. Vinyard will be presented in a piano recital at the local Methodist Church, Monday night, Nov. 29.

Assisting the young pianists will be the choral groups from both the Texico and Farwell schools, Mrs. Vinyard announces.

The program will begin at 8 p. m. and the public is invited.

Home From California

Mrs. Karl Gast, who has spent the past several weeks visiting relatives in California, returned the past weekend. She was accompanied home by her daughter, Bertha, who had been in California since last spring.

Home Ec Students to Give Assembly Play

A new way of displaying dresses which they have made during the current school term will be used by the Texico home economics group on Friday, December 3, when they present a playlet at the assembly of the school.

The short play will present a family group, with narrators placing the actresses in "living pictures" where their ensembles will be shown, according to Miss Maude Pearson, instructor of the group.

Miss Pearson added that advanced students have made wool date dresses, while the first-year girls have spent their sewing periods on cotton frocks.

The girls are also laying plans now for their Christmas party, which will be held in the home-making rooms on December 22, with mothers of class members as honor guests.

Social Held in Roberts Home, Saturday

An old-time sing song and Bible quiz was enjoyed in the home of Earl Roberts, of the Oklahoma Lane community, the past Saturday night, when a number of friends gathered for the evening.

Refreshments were served to Staff Sergeant and Mrs. Edward Skoglund, Sergeant and Mrs. Joseph W. Anderson, Corporal and Mrs. Nathan Jameson and Corporal John Kezele, all of the Clovis air base; Mr. and Mrs. W. A. Doshier, Mr. and Mrs. E. W. McGuire and Mr. and Mrs. F. E. Kopley and Gloria.

Baptists Will Have Fellowship Meet

Members and friends of the Baptist Church will meet in the basement of the church on Thanksgiving evening for a fellowship meet and supper, Rev. W. C. Wright, pastor, announced today.

A brief, informal program will be rendered, after which supper, in the nature of a covered dish spread, will be served.

Thanksgiving Dance Sponsored by Fireboys

A Thanksgiving dance will be held at the Gus Priboth place near Muleshoe, Thursday night, sponsored by the Texico-Farwell Fire Department, it has been announced.

Admission will be \$1.10 per couple, with the affair to begin at 8 o'clock, Texas war time. Part of the proceeds will go to the local department, and the public is invited.

Shop To Be Closed

The Vanity Fair Beauty Shop, operated by Miss Hazel Anglin, will close this (Wednesday) afternoon for the entire Thanksgiving weekend. Miss Anglin announces that she will be back in her place of business on Monday, Nov. 29.

J. C. Boone left Monday for El Paso, to enter the army.

NEWS FROM OUR BOYS IN CAMPS

OVERSTREET PROMOTED

Mrs. Anne Overstreet has been informed that her son has recently been given a promotion, and is now First Lieutenant James Overstreet. "Jimmie", as he is commonly known here, is now stationed at San Antonio, being moved there just recently.

RATING IS HIKED

Jim Cleve Dixon, serving in the medical corps with the marines, has written his mother, Mrs. Ruby Dixon, from "somewhere in the Pacific" that he is now a pharmacist's mate first class.

TROPICS NOT BAD

Capt. Shelby Jersig, with the Marine Corps, writes that "the tropics are not nearly as bad as I had pictured them, as it is cool at night and you can sleep like a log". To the draft board chairman he adds, "So don't hesitate to send us plenty of good replacements via your draft board."

DINNER GUESTS

M-Sgt. Wm. Greenwood of Mayfield, Vt. and Pfc. Frank Burke of Philadelphia, Pa., were dinner guests of Mr. and Mrs. Arnold Hromas, at Bovina, Saturday evening.

RETURNS TO KANSAS

Sgt. Clinton H. Skaggs has returned to Garden City, Kansas, after spending an emergency furlough with his wife.

VISIT HROMAS HOME

Sgt. Emil Stremmel of the Clovis air base, and his family, of Stamford, Tex., spent Wednesday and Thursday in the E. A. Hromas home.

CARD OF THANKS

We take this means of publicly expressing our deep gratitude to the many dear friends and relatives who came with acts of kindness and beautiful floral offerings to express their sympathy for us in our sorrow and bereavement in the loss of our beloved baby.

Sgt. and Mrs. Clinton Skaggs, Mr. and Mrs. E. A. Hromas.

Miss Hazel Anglin spent the weekend visiting in Tahoka with her parents and family.

Jimmie Leftwich, of Las Vegas, is here visiting his mother, Mrs. Minnie Leftwich.

Library Fund Swelled Through Play, Friday

The library fund of the Farwell school was swelled approximately \$75 the past Friday night, when a large crowd attended a mystery play presented by students of the school, under the direction of Miss Bertha Mae Thomas and Miss Edith Neill.

Entitled "Lights Out", the play lived up to its name by giving the audience enough gasps and chuckles to last for some time.

All characters were well cast, but highlights of the play were the roles carried by Muggins Graham, as a real estate salesman, and Duane Sprawls and Joan Booth as the comedy team, the farm hand and maid.

Between-the-acts numbers included songs by the girls' chorus of the school and vocal solos by Nancy and Marcia Anne Johnson.

Some Jams, Jellies Are Ration-Free

If you can find tiny jars or cans of jams and jellies which don't exceed a 5 1/2 oz. capacity, you can buy them ration-free, the OPA announces. Likewise, citrus marmalades do not require surrender of points.

Jams and preserves of the non-citrus variety, from 5 1/2 oz. to 8 oz. size, take 3 points; jelly requires 2, and fruit butters, 2.

HOME FROM HOSPITAL

B. E. (Uncle Benny) Nobles was returned to his home in this city Tuesday from an Amarillo hospital, where he had been receiving treatment for a ruptured blood vessel in the bladder.

5 WARTIME HINTS ON CARING FOR Your TELEPHONE

REPAIR PARTS are scarce and materials for new equipment have gone to war. So we ask that you guard your present telephone with extra care. Listed below are five most common causes of damage:

1 A telephone on a narrow shelf or stand is in danger. Keep it on a wide, firm table or desk.

2 When painting, protect your telephone with cloth or paper. When washing floors or woodwork protect the cord and wire from getting wet.

3 Do not let the cord loop over drawer handles or knobs—opening may pull telephone over—closing may damage cord.

4 Keep kinks out of your telephone cord. Twisting may injure the wire and necessitate replacement.

5 Replace the receiver carefully—banging it down may injure delicate mechanism. Be sure it is placed on support carefully to avoid causing busy signal.

Texico Defeats Grady In Fast Cage Game

In a game which for speed would have done credit to late-season matches, the Texico boys took the Grady team by a close 27-30 count the past Friday night while spectators screamed their lungs out as the count see-sawed throughout the contest.

Texico took the jump on the visitors in the opening quarter, running up a 12-4 score, but in the second period the spin of the wheel favored Grady. At half time the teams were neck and neck, and when only three minutes remained in the game the count was 23-20 in favor of the locals.

With both teams playing at a furious pace, a total of 14 points was racked in during that interval. Both teams finished up with a majority of second-string players, their first-stringers having left the game on fouls charged directly to speed.

Grady failed completely to bottle up Bowers, tall center of the Texico team, and in the final checkup he had accounted for 19 local points, eight of them coming via the free toss route. Denzil Williams, starring player for Grady, tossed in 11 points for his team.

Girls Game Close

The opening game of the evening, when the Texico and Grady girls were featured, was also exceptionally close, ending 15-13 for Grady. Mayfield proved the sparkplug for the visitors, with Peggy Flye leading the basket shooting for the locals. Scores were close throughout the game.

Play Clovis Here

The locals are now pointing to December 3, when the first and second teams from Clovis will meet the Texico boys here.

This will be the season's opener for the Clovis aggregation, and their possibilities remain in the guess-what column. It is understood that the majority of the Clovis senior team is made up of newcomers, but rivalry between the two schools will bring forth the best that all players have to offer.

The dominion of Canada has one telephone and one automobile for every nine persons.

Nutrition Committee Has State Election

COLLEGE STATION—Miss Mildred Horton, vice director and state home demonstration agent of the A. & M. Extension Service, was re-elected chairman of the Texas State Nutrition Committee at its recent meeting in Austin. Miss Horton has been chairman of the committee since its appointment by Dr. T. O. Walton, A&M president, three years ago.

Other officers elected included Dr. Ercel S. Eppright, director of the department of home economics, Texas State College for Women, vice chairman; and Miss Lucile Langham, junior nutritionist for the State Department of Health, secretary.

In observance of November's "Food Fights for Freedom" campaign, the committee directed its attention to production, conservation and sharing of food.

Committee members, expressing a concern over food wastes, learned that last year one railroad paid eight million dollars for lettuce which spoiled in transit. Much of this loss could be prevented by the establishment of farmers' markets, one speaker pointed out. Shoppers who are inclined to handle tomatoes and other fresh fruits and vegetables on the grocers' counters were asked to consider the advertising of a Dallas fruit stand owner who placed a sign over a basket of coconuts: "Pinch these all you want to."

While American homemakers long have prided themselves on fluffy mashed potatoes, from now on they should serve them with the jackets to conserve nutritive values, conferees in one sectional meeting decided. Another group recommended that seed dealers package adapted varieties of seed to meet the needs of backyard gardeners.

Members agreed to promote the government's food program with mechanics already existing, believing there are "too many organized communities and too few mobilized ones".

RAINING AT PRESS TIME

Overcast skies and a drizzling rain brought renewed hopes to this area Wednesday morning as The Tribune was preparing to go to press.

KEEP ON

Backing the Attack! WITH WAR BONDS

Bodies Recovered

(Continued from Page 1)

Residents of the section recalled that a low-hanging bank of ice and snow-laden clouds was raging the day the flyers were attempting to make their base. The storm seemed to center in the high elevations of the Mogollon range, as it was clear at Roswell and at Williams Field. The plane was on the beam of the course and would have emerged from the high elevations in another 50 miles.

The plane in which the young flyers met their fate was completely demolished, even beyond salvage, and Army officers from Deming ordered the wreckage burned on the spot.

Identification of the bodies and the plane was established by numbers on the plane, the personal effects of the flyers, and identification marks on their clothing. The head- phone set of Lt. Caldwell, bearing his name, was found near his body.

After spending Christmas Day here, the two boys had returned to Lubbock, where their plane had been stored. They flew to Roswell, refueled and got an all-clear weather report, and vanished after taking off. Their fate remained a mystery until the young lad stumbled upon the wreckage while hunting deer in company with his father, Ike Tally, and other hunters from Albuquerque.

Besides his parents, Mr. and Mrs. J. R. Caldwell, Lt. Caldwell is survived by five brothers, three of whom are in the armed services,

and one sister Cpl. Robert E. Caldwell, San Marcos, Tex.; Charles B. Caldwell, Ardmore, Okla.; Pfc. Ralph T. Caldwell, Sioux Falls, S. D.; Lt. Thomas M. Caldwell, a prisoner in Germany; E. Bedford Caldwell, Farwell, and Miss Bessie Ruth Caldwell, Farwell.

MAIL SERVICE TO BE FEATURED ON PROGRAM

Arrangements have just been completed with Granville Dickey, radio producer for the War Food Administration, for a coast-to-coast radio program dealing with the nation's mail service, to be presented over NBC on Saturday, Nov. 27, at 11:15 a. m.

The 15-minute broadcast will be on the program known as "Consumer Time", regular Saturday NBC feature. It will deal principally with the "Mail Now For Christmas" idea and will feature the appearance of a high-ranking Post Office Department official.

A preview of the script reveals that the show will be presented in an interesting manner, with valuable information provided in a setting of drama and good listening.

Nelson, C. Smith, local carrier, urges that local people tune in on some NBC station, say KGNC, Amarillo. "If you like the program, please let us know," Smith said.

"If you have questions to ask in regard to mail service please do not hesitate in sending them to your rural carrier—if he cannot answer them he will be glad to submit them to an authority who can," Smith stated today.

Cliff Henderson, Mgr.

We, Too, Are... THANKFUL

Beautiful South Pacific Islands, steaming jungles, European cities, hot sandy deserts, and towns and plains of Asia have been washed in the blood of conquering and defending armies alike. Have we Americans had to search through the smoldering ruins of what was once our home?

American towns have never been subject to such barbarism . . . and for this we are grateful! Yes . . . but we must show our gratitude concretely. It is not enough to give thanks for our blessings in wartime. We must back up the war effort actively. We must buy War Bonds and work harder and further our national unity in every way. That is the only way to show our gratitude.

BUY AN EXTRA BOND ON THANKSGIVING DAY!
