

Old White House Fence Goes for Scrap

The national scrap drive plays no favorites. Photo shows Harold L. Ickes, secretary of the interior, tossing part of a fence that once surrounded the White House into the interior department's scrap metal collection. The old fence was replaced in 1937 by a newer and higher fence.

Grocers Face Shortage In Merchandise Lines

What is apparently becoming a very serious problem for the small grocer and meat dealers is coming forcibly to the front this week at local foodstores.

For many weeks shortages have been showing up in various items that were formerly considered staple on any grocery store shelf. But the situation began to reach the acute stage here this week with all grocers reporting their inability to obtain a third of their orders for foods and meats.

This was particularly true with canned fruits, vegetables and meats, as well as coffee, soap chips, and shortening.

Cereals of all kinds seem to be about the only item that food dealers can order with any assurance of having their orders filled.

Fresh meats continue to be fairly plentiful in the local markets with current meats and lunch goods scarcer than the proverbial hen's teeth. Shipments far short.

One groceryman reported that for two weeks he has been trying to get a shipment of flour from Portales without results. The same merchant revealed that he placed an order last week for more than fifty dollars worth of cookies—and actually got one carton, amounting to \$2.14.

Wholesaler's stocks are also depleted, local merchants report, and there is little relief in prospect for the small-town grocermen. None of them seem to know when nor how

the situation is to be relieved.

Administration heads in Washington have repeated the assurance that there would be plenty of foodstuffs for everybody but it is becoming increasingly apparent that the long-established custom of going to the local grocery to select quickly prepared foods may soon be a thing of the past.

Does it mean that the nation soon will be compelled to go back to the old bean and hominy pots? Some observers believe that is very definitely in store.

It begins to look as though the day of the can-opener cook is drawing to a close and the old-fashioned cook who feeds her family on boiled beans one day with baked beans the next is coming back into her own.

West Camp Women To Sponsor Small Fair

Under the sponsorship of the home demonstration women of the West Camp community, a community fair is planned for Tuesday evening, Oct. 6.

The exhibition will be held at the school house and is scheduled to get underway at 8:30 p. m. In addition to the exhibits to be displayed, a short program has been arranged. The people of West Camp extend a general invitation to the public to attend.

Of Interest to Farmers

By John Martin, Administrator Parmer County AAA

Welding Rod Survey Is Made

Repair shops in Texas are due to get a breathing spell from welding rod shortage, according to B. F. Vance, chairman Texas USDA War Board.

As a result of a recent state survey, the Texas War Board has advised the War Production Board that a minimum of 500,000 lbs. of welding rods of all kinds is needed to fill agricultural needs in the state until Nov. 15.

Despite the fact that manufacture of welding rods has been stepped up more than three times normal capacity, acute shortages prevail throughout the state, Vance said and explained that many shops have been operating on a day to day or week supply basis, but that some shops are completely out and cannot get orders filled.

The WPB is considering releasing small amounts of rod for agricultural repair during the fall harvest period in the most critical areas where lack of rods will jeopardize harvesting operations.

"With the present shortage of new farm machinery, we need welding rods for making immediate repairs

because idle machinery will lessen our agricultural production," the chairman said.

Minimum needs for both electric and acetylene welding rods were included in the state survey.

Labor Problems for 1943 Studied

Looking ahead to agricultural wartime production for 1943, the Texas USDA War Board already is conducting a survey on transportation facilities for farm labor.

Cooperating with the state board, county War Boards are outlining pertinent labor problems and forwarding them to state headquarters where they will be studied by state board members.

"The last lap of the journey—getting the workers to the fields—will be the most difficult to accomplish," B. F. Vance, chairman of the board explained, "since rail, bus or transport trucks will deliver the workers in the general vicinity of farms."

Included in the state-wide transportation survey are: (1) noticeable effect of tire rationing on movement and size of crews; (2) percent of cars and trucks totally disabled because

Bovina Sisters Enlisted In WAAACS

Free Barbecue to Feature Harvest Day

Combines Used to Harvest Row Crops

The use of combines to gather the vast feed crops of this area became general this week as farmers moved into the fields to harvest the ripening grain before a killing frost causes the feed stalks to break down.

Combining of feed crops is not exactly a new practice in this area. During the past few seasons an increasing number of these machines has been used to gather row crops, but with the extreme shortage of manpower available for farm work, it appears likely that practically all fields will go through the once-over method.

Heavy Moisture Content

Grain men point out that grain harvested in this manner will contain a heavy moisture content and is therefore subject to a rather severe dockage. But farmers are apparently forced to resort to this method if their crops are to be saved.

Some farmers, who have livestock on their farms, plan to run their feed crops through the binders and leave it on the ground, untied and unshocked, for feed through the winter. They admit that quite a loss will occur through this means but when help is not available for the regular binding, shocking and threshing operations they have no other choice if they are to save their crops.

The farms of this county have been denuded of manpower until the situation is becoming critical, farmers report. While the draft has taken many of the men from the farms, it is also pointed out that a large percentage of the farm labor has been attracted to high-salaried defense jobs in this immediate section as well as other parts of the nation.

Eight Married Men in October Draft Call

Parmer county selective service officials began to dig into the married men as prospective soldiers this week when orders for induction were mailed from the office of the local board.

Eight of the men listed to fill the October call are married, it was announced. Twenty were listed as single, ten of that number being 1-B-1-ds who have been previously rejected but are being sent back under the lowered physical standards.

The contingent of 27 will depart from the office of the local board on the afternoon of Oct. 11 at 3 p. m. for Lubbock, where they will be given their final type Army examination the following day.

Those listed to make up the shipment include: John Spivey Dial, Harry Sylvester Lookingbill, Aubrey Lee Carlton, Charles Augustive Johnson, Jay Wayne Hennington, John Henry Hudson, Emsley Asberry Walker, Parham Dobbs;

Clyde Dale Norwood, Roy B. Ezell, Jr., Louie Baxter, R. V. Ivy, Ovy Allen Sisk, Gordon Cortez Billington, Clarence Milford Jasper, Merian Caption Dennis, Barney Dean Crume, Charlie William Dotson, Paul Helbrake, Andrew Henley Wilson, Travis Winston White, Marvin Eugene Weir, Claude Lorane Lillard, Ivan Levi Williams, W. T. Meeks, Rex B. Dadv, Sylvester Alexander Fangman;

Mrs. Bessie Lee Henneman, clerk of the board, explained that some of the men listed above have enlisted in other branches of the service after having been ordered to report for induction but Parmer county will receive credit for them.

FATHER OF LOCAL MAN DIES AT 88 YEARS

J. W. Stone, age 88, father of J. H. Stone of this city, passed away at Fort Cobb, Okla., on Friday of last week and was buried there the following day.

His passing is the first to break the family union. He is survived by his wife and seven children, the youngest of whom is 58 years.

Mr. and Mrs. J. H. Stone, Mr. and Mrs. J. E. Stone, local people, Mrs. Johnnie Williams of West Camp and Mrs. Robert Carmichael of Hereford were among those from this section attending the funeral.

CHURCH FINISHED

The Baptist church, which has been undergoing a series of improvements for the past two weeks, was finished this week with the application of a white coating on top of the new stucco exterior.

Many improvements have also been made on the inside of the building, including new doors and windows. The appearance of the building has been decidedly improved by the work.

Farmers Needing Labor May File Applications

Mr. Cherry of the U. S. Employment Service, Plainview office, was a visitor in the office of County Agent Garlon A. Harper, Saturday, making plans for handling additional farm labor to harvest Parmer County crops.

At this time, application forms were left at the office of Agent Harper, to be filled out by local farmers needing additional labor. The forms will be filled out in the agent's office and then forwarded to the Plainview office of the Employment Service, Harper says. Labor available would be directed to his office in Farwell and then sent on to farms where needed.

Mr. Cherry advised that local farmers wishing to take advantage of the service would need some satisfactory housing facilities for the migratory labor, and added that he believed the Employment Service will be able to provide adequate labor for the county during the rush seasons.

Harper stated that Cherry would be back in Farwell early next week, and plans will be completed for making local applications.

Progress Is Made On New Grain Storage

The new grain storage warehouse being erected by the Roberts Seed Company in Texico was making good progress the first of the week, with indications that it will be completed on schedule time.

Most of the foundation trenches are ready and pouring of concrete was expected to be completed before the end of the present week.

The structure is being erected to accommodate grain storage for at least 75,000 bushels of threshed grain. M. C. Roberts, manager of the firm, said that he planned to remove stored wheat now in his elevators to the new storage in order to make room for grain sorghums.

The new building is being erected south of the present grain elevator on land leased from the Santa Fe Railway Company, and is 50x100 feet in dimensions.

Plans for a big free barbecue were announced this week, to be sponsored by the Bovina Chamber of Commerce, as a special feature of the Parmer County Victory Harvest Day Show, scheduled for Saturday, Oct. 10, in Bovina.

Bill Eberting, George Trimble and H. T. Cardwell were named as a committee by the Bovina C. of C. to take charge of arrangements for the barbecue, according to Agent Garlon A. Harper, and plans are being made to feed between 800 to 1,000 people.

The Harvest Day Show is staged to take the place of cancelled fair which usually draw Parmer county attendance, and will combine all the best features of any gathering into a one-day show and get together.

The morning program is due to open at 10 o'clock and will consist of outside demonstrations on better agricultural and homemaking practices.

In the afternoon a program will be held inside the school building, with a wide variety of subjects, including patriotic talks, music, agricultural demonstrations and other items of local interest, being presented.

Displays of foodstuffs of all kinds grown in this county will be arranged, stock is on schedule for exhibit, and the demonstration women are working up special booths illustrating each phase of work done during the year.

Twenty Selectees Are Accepted at Lubbock

Out of a total of 25 selectees sent from Farwell on Monday of last week to the Army examining center at Lubbock, 20 were accepted and inducted into the armed forces.

Nineteen of the boys took advantage of the 14-day furlough offered and returned to their homes in this county. One selectee accepted immediate induction.

The nineteen now home on furlough have been ordered to report to the office of the local board in Farwell on the morning of Oct. 6 at 9 o'clock for shipment to Fort Sill, Okla., to begin their military training.

Those scheduled to leave by bus on that date are: Harley B. Bulls, captain of the group, Watson Whaley, William H. Tarter, Otho S. Stevick, Otis H. Wilburn, Herman J. Kloepper, Elza R. Jones, James W. Holman, Sidney T. Erwin, Sam F. Williams, Ernest G. Williams, Cecil C. Parsons, Otis G. Ramsey, James W. Herod, Charlie W. Cummins, James H. Chitwood, Henry L. Ivy, Glen W. Maxwell, Marvis F. Southward, Everett L. Silvertooth.

MOTHER DIES

Mr. and Mrs. Ralph Humble were called to Chattanooga, Okla., last Saturday by the death of Mr. Humble's mother, who passed away there on Friday at the age of 84 years. She had been an invalid for the past three years. Mr. and Mrs. Humble remained for the burial services, which were conducted at Chattanooga.

Pulling an unexpected sister act on recruiting officers, Mrs. Myrtle Nichols and Miss Katherine Vassey, formerly of Bovina, have volunteered and been accepted for the Woman's Army Auxiliary Corps.

So far as is known, they are the first sister volunteers in this section and are likewise the first Parmer County women accepted for training in the Auxiliary Corps, commonly known as the "Wacks".

Daughters of D. C. Vassey of Bovina, the two are well known over this county, having resided here a good part of their lives. For the past year they have been living in San Antonio, where they were accepted for service.

Mrs. Nichols and Miss Vassey visited with relatives in Bovina during the past week, leaving there on Tuesday afternoon for San Antonio, where they will join a group of ten recruits and continue to Des Moines on October 3.

They are slated to be sworn into the service on October 5, according to Mrs. Reagan Looney, sister of the two.

Sam Sides Quits Post On Co. Draft Board

Sam Sides, Bovina farmer, this week tendered his resignation as a member of the Parmer county draft board to State Selective Service officials.

Sides' resignation has been forwarded to Austin with the request that he be relieved at an early date. He gave as his reasons for resigning the fact that he was within the military age limit and the probabilities of his induction into the Army at a future date.

"I just don't feel that it is quite right for me to continue to pass on the classification of men in this county when I myself am liable for military service," Sides said.

At present he is classified 2-A, which rating was given him by the Bailey County board.

The Bovina Chamber of Commerce, which body nominated Sides for the position on the draft board, has been asked to make another nomination as his successor. Sides has indicated his willingness to continue to serve until his successor is named providing it can be accomplished within a reasonably short time.

Board members have expressed their desire to have a farmer replace Sides, inasmuch as a large percentage of the registrants of this county are rural and the feeling is voiced that the farmer element of the county is entitled to a major representation on the board.

LEASE CITY CAFE

Mr. and Mrs. C. B. McDonald, who recently moved here, have leased the City Cafe in Farwell and took charge the latter part of last week. Mr. McDonald is a plumber and is employed on the Clovis airport construction work. He will continue his work there, and Mrs. McDonald will be in charge of the cafe.

ADD VARIETY LINE

The State Line Grocery has added a line of variety goods to their stock. John Porter, store manager, said that the stock was purchased from Gordon McCuan and moved here from Bovina.

Rubber Rationing Hits Boots, Shoes

Are your favorite hip boots worn out at the toes? Do your galoshes have gaps?

Then brother, you'd better get busy figuring out a good reason why you must have new ones, because from now on the kind of rubber shoes you buy won't be determined by your pocketbook or what the clerk shows you—it will simply be whether or not the ration board thinks you need such items badly enough to let you have a certificate that will enable you to purchase them.

Because of the serious rubber shortage, certificate rationing of men's rubber boots and rubber work shoes has been ordered by the OPA to insure necessary supplies of this footwear for men working on jobs essential to the war effort, or the public health and safety, John Armstrong, chairman of the Parmer County War Price and Rationing Board.

The freeze period went into effect Sept. 29, and all retailers, wholesalers and manufacturers of

the rationed footwear are now required to obtain OPA inventory forms from the local board on either Thursday, Friday or Saturday of this week. Freezing will lift Oct. 5, when rationing to customers begins.

"To get a certificate for purchase of rationed items," Armstrong explained, "the applicant must fill out two copies of a form that is available at the board. They may be obtained by appearing in person, writing, or sending a representative."

And now comes the rub: In filling out the form, the applicant must establish the fact that the actual work performed is essential, and must specify the type of rationing rubber footwear needed, along with conditions making them necessary. He must have proof of identity, as selective service number, social security number, driver's license, etc. He must further establish that he has no available rubber footwear suitable for use on his job, and must agree to turn in for salvage any unserviceable rubber footwear owned. Board Decides on Applications

On receiving the application, Armstrong went on, the board will decide whether the applicant is entitled to a certificate to buy any type of rationed footwear, and if so the board will authorize him to acquire the lightest weight and shortest type that will adequately serve the purpose.

If the certificate holder buys from a local retailer he is required to present his certificate, identify himself, surrender any worn out rubber footwear, and get a retailer's signature on a specified part of the certificate as evidence that he has made the required turn-in.

In mail-order purchases, the turn-in of old footwear is made to a local collection agency designated by the board. For this reason the customer sends only two parts of his certificate to the mail order house. On the remainder he gets a signature by a representative of the salvage agency where he surrendered his footwear. Purchasers are required to retain this receipt part of the certificate (Continued on Last Page)

OKLAHOMA LANE

Mr. and Mrs. Ott Campbell and Mr. and Mrs. James Roach spent Sunday with Mr. and Mrs. Jack Roach.

Congratulations to Mr. and Mrs. Clifford McGuire on the birth of a son Vincent Edward, on Sept. 24.

The Methodist meeting that had been in progress for the past week, closed Sunday, a basket dinner being served at noon.

Mr. and Mrs. A. B. Wilkison spent Sunday with Mr. and Mrs. Ernest Foster.

Clarence Christian has been ill for the past week after having some teeth extracted.

Mary Foster visited Bessie Ruth Caldwell, Sunday.

Mrs. Bob Henson and Mrs. Oscar Hubbell visited in the Clifford McGuire home Sunday.

Mr. and Mrs. John West and Mr. and Mrs. Billy Sudderth and son visited in Clovis Thursday, with Mr. and Mrs. Loren West.

Gilbert Watkins departed Monday for Buffalo Gap, N. Y., where he will be in the Coast Guard. He is the son of Mr. and Mrs. G. T. Watkins.

Mr. and Mrs. Ed Meeks and sons, W. T. and Billy, and Miss Gracie Lee departed Thursday for California to visit Edwards Meeks, who is stationed there.

PLEASANT HILL

R. C. Porter one of the high school students, broke his arm Friday night while skating.

The County Health Nurse visited school Monday of this week.

Mr. and Mrs. Oral Palmiteer are away on a vacation trip to Washington.

Mrs. Ida Whitener left last Wednesday for Oklahoma to visit relatives.

Rev. Graham and family left Friday for Plainview in order to get the rest of their household furniture.

Miss Louise Moorman was married to Dick Martin at Portales a week ago last Thursday evening. She will continue to work at the Raton Creamery.

Sgt. James E. Barnes and wife of Jacksonville, Fla., who were here visiting his parents in Clovis, spent

Friday afternoon here with his grandmother, Mrs. R. Snodderly and his aunt, Mrs. J. A. Parker.

The Methodist meeting is in progress and everyone is invited to attend.

Mr. and Mrs. Buchanan and family visited Mr. and Mrs. Kays Sunday.

Mrs. Okey Erickson is returning this week to her home in Iowa. She has been here several weeks because of her health.

Mr. and Mrs. Leonard Trichel and children and J. N. Snodderly, all of Clovis, and Mrs. R. Snodderly and Mrs. Erickson were dinner guests in the Parker home Sunday.

Mr. and Mrs. Frank Ayres visited with Mr. and Mrs. Buck Ellison on Sunday.

Mr. and Mrs. Raymond Singleterry spent Saturday night with Mr. and Mrs. Pearl Singleterry.

Deer Hunters Take Off For Colorado

Despite war and rationing programs in effect and in prospect, a survey revealed this week that a few hunters were not going to resist the temptation to take off for the hills in the hope of bagging their allowance of deer this season.

So far as could be ascertained, all the hunters from this county will go to Colorado this year, with departure scheduled for the latter part of the week. The season opens in Colorado on Oct. 4.

Those listed among the hunters are: Buddy Jones, Farwell; Aubrey Brock, Perry and Reagan Looney Bovina; S. B. Gonser, Roy White, Garvin Thorn, Roy Daniels and Will Gammons of Lazbuddy.

"Hey, Mom...it's ALIVE!"

"HELP! HELP! I thought it was a pretty green stone, but when it stuck its neck out, I knew it was alive. It just shows you can't always judge by appearances."

That goes for motor oil, too. When you want quality oil... and who doesn't these days?... it is best to rely on facts and on the good name of the petroleum producer. That way you're sure of getting the genuine article.

You know that Phillips is one of the great independent organizations in the petroleum industry. You know that Phillips has a well earned reputation for giving greater value. So it means something when Phillips makes this simple, straightforward statement: If you want our best oil, remember we specify that Phillips 66 Motor Oil is our finest quality... the highest grade and greatest value... among all the oils we offer to car-owners like yourself.

Because quality oil means so much to car life, remember these facts when a new 1,000-mile mark clicks up on your speedometer, and when you are making the seasonal change.

IT'S PHILLIPS FINEST QUALITY

NEWS from YOUR COUNTY EXTENSION AGENTS TEXAS EXTENSION SERVICE

FOOD FOR VICTORY

By **GARLON A. HARPER**
County Agent
Texas A. & M. Extension Service

Are your cows making money for you? Most dairy farmers can answer that question in some fashion, and most dairy farmers will say, "Yes, otherwise I would not be keeping them". However, when it comes down to knowing just which cows are making money for the farmer and which cows are boarders many of our farmers cannot answer this question in an intelligent manner.

There is a way you can answer these questions and many others of equal importance about your dairy cows. That way is to join a dairy herd improvement association and have your cows tested regularly by an approved tester.

A dairy herd improvement association is a group of dairy farmers who are banded together in an association for the purpose of improving their dairy work. This group hires a tester who visits all herds in the association once each month and checks on the number of pounds of milk each cow is producing, the butterfat percentage of that milk, the feed the cow is consuming, and keeps a complete set of books on each cow in the herd. In this way the farmer can know just which cows are making a profit and which cows are losing money. There are many other services which the association offers through the tester. He will help in figuring balanced rations, help improve the quality of milk produced, and assist in any general dairy problem on the farm. The dairy farmer pays into the association according to the number of cows in the herd. The cost is exceptionally low when compared to the amount of good accomplished.

In times of labor shortage no farmer should keep cows on the farm which are not producing enough to pay expenses and make a profit. The only way of knowing whether a cow is producing profitably is by official testing. Guesswork simply must be eliminated from our dairy work. Then there is the matter of production of future cows from the herd. Certainly you want heifers from high producing cows and bulls with production records back of them. Official testing will tell you which cows to save heifers from and will tell you which bulls have added to the production of your herd.

Many farmers in Parmer County are members of a dairy herd improvement association which is serving Roosevelt Curry and Parmer counties. If you are interested in improving your dairy cattle there is no better way than to immediately investigate the value of becoming a member of an improvement association.

SANTA FE CARLOADINGS

The Santa Fe System carloadings for the week ending Sept. 26, 1942, were 25,026 compared with 23,189 for the same week in 1941. Cars received from connections totaled 12,810 compared with 9,534 for the same week in 1941. The total cars moved was 38,436 compared with 32,723 for the same week in 1941. Santa Fe handled a total of 38,056 cars in the preceding week of this year.

PER REQUEST

By **ELSIE CUNNINGHAM**
Home Demo. Agent
Texas A. & M. Extension Service

This week I shall give the space allowed me to recipes which have been requested by some of the readers.

Extra-Special Potato Salad
Sprinkle 2 cups cold potatoes cut in cubes with 2 teaspoons salt and 1-8 teaspoon pepper, add 2 tablespoons salad oil and mix thoroughly, then add 1 tablespoon vinegar, 1 teaspoon onion cut fine and 2 hard cooked eggs and 1 1/2 tablespoons finely chopped green peppers or pimiento.

String Bean Salad
To 2 cups green string beans (freshly cooked or canned) add 1 small onion finely chopped, 1 pimiento or pepper (chopped), 1 pickle chopped, and 2 cups shredded cold ham. Mix with French dressing.

Pea Salad
Mix 1 cup drained English peas, 1 cup diced or grated cheese, 2 hard cooked eggs, 1 sour pickle finely chopped. Add desired amount of salad dressing.

Sour Kraut Salad
Combine 1 cup of drained sour kraut with 1/2 cup shredded apple, 1/2 cup shredded carrots. Add nuts, green peppers or celery if available and mix with salad dressing according to individual preference.

Cranberry Relish
Grind together through the food chopper 1 lb. (1 quart) raw cranberries and one orange. Quarter the orange, remove seeds but use both pulp and skin. Sweeten this relish to taste with about 1 cup strained honey (or sugar), stirred into ground fruit, add 1/4 teaspoon of salt to bring out flavor. Put relish in covered jar in refrigerator and it will keep for 2 or 3 weeks, ready to serve with any kind of meat or poultry.

Thousand Island Dressing
To make thousand island dressing add 1 tablespoon chopped green pepper, 1 teaspoon grated onion, 1 hard-cooked egg chopped, 1 teaspoon chopped pimiento and 1-3 cup chili sauce to 1 cup mayonnaise.

Golden Pineapple Dressing
Combine 1/2 cup sugar and 2 tablespoons cornstarch, add 2 eggs well beaten. Stir in 1-3-4 cups pineapple juice and cook over boiling water stirring constantly. Remove when thick, add juice 1/2 lemon, 2 tablespoons butter or vegetable oil, 1/4 teaspoon salt. Cool. When thoroughly chilled, fold in 1/2 pint cream stiffly beaten. This is an excellent dressing for fruit salads.

A Correction
Last week there was a slight error in my column that I wish to correct or clear up. The sentence printed was "Vary sandwiches by using enriched whole wheat bread" when it should have read "vary sandwiches by using 'enriched' white bread and whole wheat bread".

"Enriched" bread or flour contains specified amounts of the vitamins thiamin and niacin and the mineral iron. These ingredients are added to white bolted flour. Enrichment is a process of restoring to flour and bread a specific amount of thiamin, niacin and iron which has been removed in the milling process. Now whole wheat flour is made by grinding the natural wheat and

it contains in natural proportions all the constituents of the cleaned wheat grain. Whole wheat contains thiamin, niacin, calcium, phosphorus, as well as iron.

There is some difference between "enriched" and "whole grain" products, as you see. We get more food values from our whole grain products—as yet, few of the "enriched" products contain all of the ingredients of our natural foods.

More than 90 per cent of all oil wells in North Texas are small pumps.

Building Material is getting scarce

We wish our customers to know that we are doing everything possible to keep them supplied with the necessary lumber and building materials for their building and repairs needs... but due to the necessities of this war, we are finding it increasingly difficult to get shipments.

We shall most likely find it necessary to curtail our wants much more than at any time heretofore.

First of all we MUST win this war. If we we shall still find our America a long way from a paradise on earth. But if the Axis win then there will be plenty of hell on earth for all of us then living.

LIBERTY will be gone... and with it all the prosperity and happiness of every individual.

We are all beginning to feel the restrictions placed upon industry, which is going to become more stringent—caused by the acts of Hitler, Mussolini and Hirohito.

Let each one of us be on the alert to do what our government wants us to do... having for our goal an Allied victory as soon as possible, remembering that TODAY, more than ever before, it is TEAM WORK that counts.

THE MAVERICK

Issued by Farwell High School

FIRST AND SECOND NEWS

In Mrs. Johnson's room every boy and girl was in school Friday. So far our attendance has been excellent. We hope it will keep up.

Since it is so cool, we are beginning to bring our pot flowers in for the winter. They make our room look cozy and also much brighter.

—FHS—

SECOND AND THIRD NEWS

Wilma Jean and Johnnie Merle Krowles have moved to Amarillo. We will miss them from our room. We have some new pot plants in our room.

Dorothy Rose Hedgecoke is a new pupil in the third grade.

—FHS—

FOURTH AND FIFTH NEWS

We believe that we have the largest enrollment of any room in school. There are 45 pupils enrolled in the fourth and fifth grades.

The fourth grade is starting a notebook in geography on "Neighborhood Stories". The fifth grade is making a notebook on the "American Indians". We are illustrating our notebooks with pictures we draw ourselves.

—FHS—

SIXTH AND SEVENTH NEWS

Billie Marie Utsman, who broke her leg a week ago, returned to school Monday. We are very glad to have her back.

Our class is getting along fine and we always welcome visitors.

—FHS—

FRESHMAN NEWS

The freshman class has elected class officers, who are:

President, Donald Ray Summers. Vice president, Verna Lee Hurst. Secretary, Tommie Randol. Treasurer, Mary Latulle Hicks. Reporter, Sybil Ham.

We are glad to welcome the following new members: Mary Latulle Hicks, Jeatonne Morris, Verna Lee Hurst, Tommie Randol, La Honda Wells, J. W. Herington, Cecil Robertson, L. C. Herington, David Cranmer.

—FHS—

SOPHOMORE NEWS

After taking a good look at the Freshman girls we, the upper classmen, are thanking our lucky stars that our day has come and gone. Though we are all looking forward to the initiation services, we feel just a bit sorry for the pledges, remembering that just a year ago we were going through the same ordeal. But after all, the upper classmen such as we are have a hand in making life miserable for the poor little 'Freshies' and we'll surely make it worthwhile.

The sophomore class is planning to present the assembly program next month. A play will be selected in the near future.

—FHS—

JUNIOR NEWS

The Juniors selected their class pins and rings last September. They hope to receive the pins in November.

Francis Tomkins, a member of the junior class, moved to Clovis last week. The class regrets the loss of Miss Tomkins.

—FHS—

SENIOR NEWS

The Senior Class of 1942 elected as home room mothers Mrs. Humble, Mrs. Bieler and Mrs. Deaton.

Who's Who
We have picked a girl from the senior class this week. She is brown

headed, green eyed, 5 ft. 2 in. tall, weighs 116 and is 16 years old. She has attended this school the four high school years.

Here are some of her likes:
Food: Roast beef and gravy.
Movie: "Footlight Serenade".
Actor: Victor Mature.

HOMEMAKING NEWS

The F. H. T. is having mock initiation for freshman. Thursday the pledges came dressed in long handles, overalls, pigtails, etc., and had to do different stunts through the day. Thursday night mock initiation was held in the homemaking building, with refreshments served afterward.

The club met Wednesday afternoon and elected as new officer: Tommie Randol, president; Lucille Krowles, vice president; Twila Mae Strickland, secretary-treasurer; Norma Jean Thomas, reporter; Mary Hicks, parliamentarian; La Honda Wells, chairman refreshment committee; and Marilyn Anderson, chairman refreshment committee.

The dues will be 25c the semester. Miss Dorothy Shaw, the home economics teacher, sent out slips to the parents asking each one to fill in the amount of fruit and vegetables they might contribute to the school cafeteria. The Home Economics girls will can the food.

—FHS—

FFA NEWS

Some of the FFA boys made a scrap iron drive Saturday, collecting approximately 11,000 pounds of iron.

The old boiler which was hauled from the pit at the watertower has not been weighed as yet.

FIRST ASSEMBLY PROGRAM IS A SUCCESS

The first assembly program was on Sept. 17 at 10:30. Every room, except the first, contributed to the program. Those on the program

were Jill Dunn, Nancy Aldridge, Rosamond Booth, Travis Poteet, La Honda Wells, Tommie Randol, Jean Ann Hart, Duane Sprawls, Marilyn Anderson, Peggy Williams and Twila Mae Strickland. Pete Booth, from the junior class, announced the program.

Health Notes

By Texas Department of Health

AUSTIN—Because of the present emergency thousands of American families will be added this autumn to the many who are accustomed to the home-preparation and storage of meats for their own use. This is the opinion of Dr. Geo. W. Cox, State Health Officer, who has issued a timely warning against carelessness that might cause illness.

Trichinosis, Dr. Cox explained, is caused by a microscopic organism called the trichina or muscle worm. This parasite develops in the human body whenever infested pork is eaten, if it has not been sufficiently cooked. The young worms, known as larvae, are found in the muscles of infested pigs. When this type of meat is eaten raw or undercooked the larvae grow in the intestines into adult worms which are carried by the lymphatic tissue and blood streams to the muscles where they become encysted. This period of invasion gives rise to the symptoms of the disease. The severity of the illness is dependent upon the number of trichinae originally consumed.

"While the adult parasites are in the human intestines they may cause acute diarrhea," Dr. Cox said, "which at first can be mistaken for typhoid fever or dysentery. This may start anywhere from the first to the fourth day after eating the infested pork and may last one to several days. Later a puffiness of the eyes may appear together with various degrees of pain in the muscles, particularly those of the calf of the leg, the upper arm, the shoulders and the jaws."

Dr. Cox declared that since no treatment is known, prevention is very important. The worms cannot be seen by the unaided eye, so inspection of pork cannot be depended upon to protect from this type of infection. The only sure safeguard is to be certain that all pork and pork products are thoroughly cooked whether processed at home or purchased. Many of the more serious and fatal cases have been traced to eating raw smoked sausage or raw pork pudding.

Since it has been estimated that approximately five per cent of all swine are infested with trichinae, it is being emphasized that the invariable rule before consuming any pork or pork product is to see that it is cooked until all natural color is gone and no evidence of blood can be detected. This is the only safe rule to follow, according to the State Health Officer.

THE TOWN THAT LET HIM DOWN

HE: Well, here's the city limits. Tomorrow I can see my customers around town. Are you tired?

SHE: Not very. Does the car need anything?

HE: Yes, it does, but the map shows no Conoco station here.

SHE: You and your Conoco Nth oil... but I don't blame you... the way this car performs.

HE: Here's the hotel, and a garage right across. Let's leave the car there, eh?

ATTENDANT: Good evening! In for the night?

HE: Yes. Fill the tank, grease her, check the oil, but don't drain.

ATTENDANT: What brand do you use?

HE: Conoco Nth.

ATTENDANT: Sorry, haven't got it... but this is the last straw, mister. You're the fifth driver this week demanding Conoco Nth. Seems like everybody knows about that Death Valley Test, when six engines were run to destruction. Conoco Nth out-mileaged the average of five other brands more than two to one. I'm going to get some in stock.

HE: Sure, your regular customers, too, will want Conoco Nth to OIL-PLATE their engine.

Conoco Nth helps keep your oil and your engine clean. It can save you repairs and many a quart. See Your Conoco Mileage Merchant today. Continental Oil Company

MOTOR OIL

OIL IS AMMUNITION... USE IT WISELY

FOR THE DURATION of your car

Don't depend on hurried stops for gasoline to have your tires and car checked. Join my ONCE-A-WEEK CLUB. Choose one day each week to bring in your car. I will properly check your tires, oil, radiator, and battery. I will report anything that appears to need attention. I will keep a careful record and remind you when greasing and oil change are needed. I help you get maximum service and car life at least possible cost and trouble.

Your Mileage Merchant

UNTHANKED

I am a member of a Rationing Board, duly appointed and sworn into the OPA. My salary is one dollar less than that of the famous Dollar-a-year men in Washington.

I supply my own tires and gas, have no expense account, have to drive ten miles each way to the County Court House. We all enjoy the same salary, and it is considered nice of us to buy the ice cream and pop for the volunteer workers.

Where is all this leading us to? Are we going to be hated by all our friends, neighbors and acquaintances in the country before we are through?

How can I say to Mr. Jones that he cannot have his tires retreaded (he cannot possibly get a new tire) when I know that his car is about barefoot, and I know he has milk and eggs to go to town, and I know he has to buy groceries, fertilizer and a thousand other things?

You know one cannot take sugar from the family cupboard without the housewife hating you.

Ours is a rural community, no center of population, and the County Court is only a crossroads place. We all have to go somewhere by car to buy or sell and we have many war-workers who have to drive to army camps for work. We expect to issue enough gas for these necessary things, but neighbor White wants to go fishing on his day off and asks for a little extra gas. Shall we give it to him? I know he will bring home some fish and I know it contributes to his livelihood.

And how about the courting? Shall we stop it or shall we just temper it by letting John go call on Molly only on Sunday?

We didn't ask for this. We had it wished on us. We don't like it—but what the Hell!

C. D. Schlemmer
Fredericksburg, Va.

Distribution of 2,467,000 pounds of poison checked the grasshopper menace to success of the Food Freedom drive in Hockley county. H. D. Pool, county agent, says few farmers failed to put out bait from one to six times with effective results.

The Texas petroleum industry now pays 44½ percent of all State business and property taxes, NOT including sales taxes such as the gasoline tax. If sales taxes are coun-

ted, petroleum and its products bear 54 percent of the State's tax income.

Farm families in Wilbarger county have delivered 66 carloads of scrap metals for delivery to war smelters. The county agents, W. W. Evans and Nannie Hill, say the "human chain system of communication" proved equally effective in the recent collection of scrap rubber.

TEAMWORK IS THE ANSWER

COLLEGE STATION—With so much more work to be done on Texas farms and fewer hands to do it family teamwork offers about the only solution to a tough problem.

Dosca Hale, specialist in parent education and child development for the A. & M. Extension Service, says teamwork will not only help get necessary chores done but will give every member of the family a feeling of importance and usefulness. Even the tiny tots should be given some assignment within their abilities, she says.

Farm women and girls are taking over the regular farm work and outside chores which enlisted men and other war workers used to do. They are adding this work to the jobs they have always done—gardening, poultry care, cooking, canning, laundry, cleaning and sewing.

If every member of the family assumes some extra duties, the load will not be so heavy on any one. To help "organize" the family, Miss Hale suggests making a list of all the work which must be done from day to day on the farm. Then an equitable division of work can be made and the plan changed to meet

new circumstances and needs. Planning for family teamwork should include some time for recreation, church and educational activities, the specialist advises. This is necessary to mental health, especially in war time. To families kept on the farm by war time travel difficulties, Miss Hale offers copies of her new leaflet, "Have Good Times At Home". They are available from county agricultural and home demonstration agents.

NOTE TO FARM TRUCK OWNERS

COLLEGE STATION—County agricultural agents in Texas are helping acquaint owners of farm trucks with the new government orders which vitally affect them, says Geo. E. Adams, vice director and state agent of the A. & M. College Extension Service.

A new regulation of the ODT requires a certificate of war necessity for the operation of farm trucks as well as other trucks, busses and taxis. The regulation becomes effective Nov. 15.

"The Extension Service is interested in helping farmers and ranchers conserve their equipment for war purposes," Adams explains.

Certificates of war necessity will govern a truck's maximum mileage or minimum loads, or both, and no operator subject to the order will be able to obtain gasoline, tires, or parts without a certificate. Enforcement officers of all states and political divisions have been authorized to report violations of the order.

Owners and operators of farm trucks and other commercial vehicles will make application for their certificates on forms supplied by field officers of the ODT. They will also be required to keep records of their operations.

DISABLED MEN MAY WORK IN AIR FORCE

The Army Air Forces can use men who cannot pass the physical examinations for general military service, according to word received by Sgt. Gist, U. S. Army Recruiting agent, Plainview.

Age limits are 18 to 50 and the applicants should have some mechanical or radio experience. Those who have been placed in the 1-B classification by their local boards are eligible for enlistment now.

Anyone mechanically inclined who has been making a livelihood through some mechanical trade, even though he has physical defects, is thus eligible for enlistment into the Air Forces where he is needed to help "Keep 'Em Flying".

Partial blindness in one eye, partial deafness, insufficient teeth, loss of a thumb, loss of as many as three fingers on one hand, defects of the foot and other physical disabilities are thus waived.

Now is the time to enlist. Recruiting sergeants at the following Army Recruiting Stations will be glad to discuss the many advantages of the service in the Air Forces with those interested. There are now family al-

U-Boat Prisoners Who Will Raid No More

A boat load of Nazi prisoners comes alongside HMCS Assiniboine after their U-boat had been blasted out of the water and then rammed by a Canadian destroyer. Some of the Nazis smoke while waiting their turn to climb aboard. Coxswain of the boat is a sub-lieutenant from HMCS Dianthus, which arrived on the scene and picked up the sub's crew.

lowances for men with families and promotions for mechanics and technicians are usually rapid.

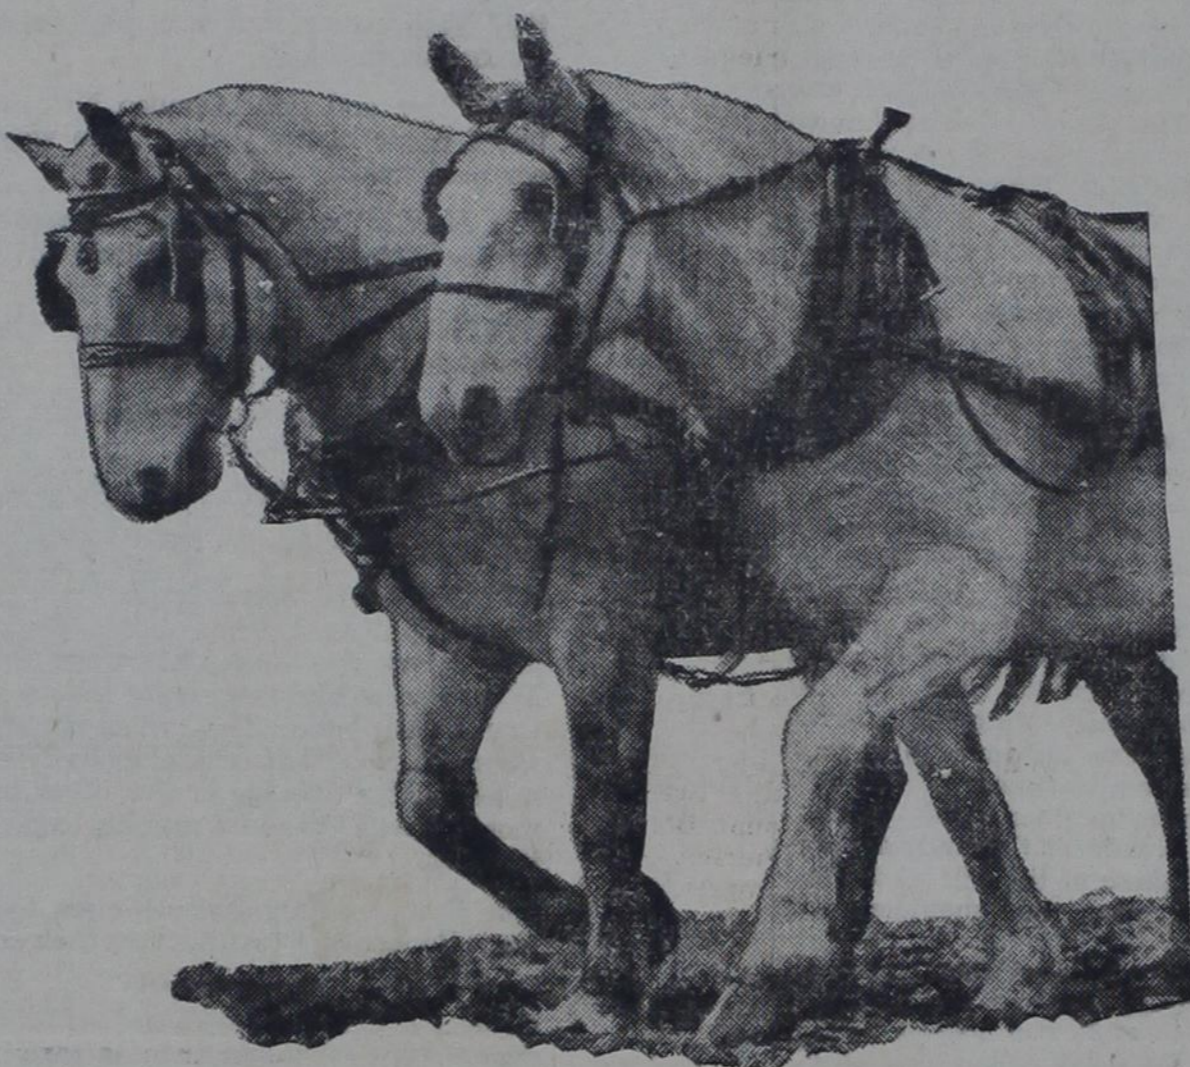

Army Recruiting Stations are located at the following cities: Odessa, Big Spring, Sweetwater, Pampa, Amarillo, Plainview, El Paso, Fort Bliss and Lubbock.

From 1870 to 1900 the population of Texas increased 273 per cent, and main line railway tracks increased from 711 miles to 9,867.

Texas farmers and landowners obtained 933,900 trees in 1940 for starting new woodlands. The trees were distributed by the U. S. Forest Service under provisions of two congressional acts.

The million and one-half men in uniform will absorb 312,000,000 lbs. of wool, or about one-third the quantity being used in the United States this year. Despite the army demand, no shortage is in sight.

Now ...
as never before
Teamwork
is needed to save our cotton crop so necessary to the war program!

We Are Ready for Wartime Service

THE cotton season is getting under way in Parmer and adjoining counties, and all of us are brought to the realization of how important this crop is in wartime. It serves literally hundreds of uses on both the fighting and the home fronts. It is both patriotic and profitable to have your cotton ginned in the most efficient manner.

For this season the Farwell and Lariat Gins have taken extra care in overhauling and repairing the gin machinery in order to provide farmers who gin here with the best sample and turn-out. As usual, we will have complete and experienced crews to operate our plants to insure you prompt and efficient service.

In the past we have ginned your cotton at all hours of the day or night . . . and will do it again when necessary. But with the Government asking for the most efficient operation by making the fullest use of labor, fuel, electricity and production itself, we would like to ask your co-operation in enabling us to obtain the maximum amount of ginning with the minimum amount of labor and expense.

Whenever possible take advantage of the early morning hours. It will mean less waiting and better service for you at the time, and it will also mean better service on our part. Let us all co-operate in this teamwork to the end that the producer and ginner alike may realize a profitable year from our labors.

Complete Service

In addition to offering ginning service that is second to none, we will be in the market for your cotton and cotton seed. And those who wish to put their cotton in the government loan are offered the facilities of our Bonded Warehouse.

Zone Meeting Draws Over 100 Tuesday

The regular fifth Tuesday zone meeting for the Clovis district of the W. S. C. S. of the Methodist Church was held in Texico-Farwell, with over 100 persons from ten representative chapters in attendance.

Mrs. Greathouse, as president of the zone, was in charge of the program, with the theme being "Looking Unto Jesus".

The morning program opened with a call to worship by Mrs. S. J. McKinney of Clovis, followed by the meditation, given by Mrs. H. E. Taylor of Portales. A short talk on the Bible was given by Mrs. Clyde Smith of Clovis, and Mrs. J. H. Askins of Melrose took up "Looking to Jesus Through Prayer".

"Looking to Jesus Through Love" was discussed by Mrs. S. H. Crockett of Grady, after which Mrs. K. I. Langley of Melrose sang "Hold Thou My Hand" and the morning sermon was delivered by Rev. C. A. Cathouan, pastor of the Wesleyan Church of Clovis, and Rev. E. J. Sloan dismissed with prayer.

Following the buffet luncheon, at which 125 people were served, Mrs. McKinney opened the afternoon session with the call to worship and the local junior choir, directed by Mrs. Marty Ezell, sang.

Mrs. Joe Wilson of Kenna was in charge of the devotional. "The Battle Hymn of the Plainsmen", composed by Florence M. Vinyard, was sung by Mrs. W. H. Graham with Mrs. Vinyard at the piano.

Feature of the afternoon was a talk on the missionary educational institute, given by Mrs. Clyde Barton of Kermit, who is missionary secretary of the conference.

Reports were given by representatives from Clovis, Clovis circuit, Kenna, Elida, Rogers-Inez, Portales, Melrose, Grady, Bellview and Texico-Farwell.

Former Bovina Girl Marries Sept. 17

Marriage rites for Von B. Bates, daughter of Rev. and Mrs. I. E. Biggs of Gruver, Texas, to Staff Sgt. James Bruce Edwards, son of Mr. and Mrs. J. S. Edwards of Amarillo, were performed on Sept. 17.

Rev. Biggs, father of the bride, performed the double-ring ceremony in the home, before an improvised altar made of dahlias and asters, with tall white tapers on either side.

The bride wore a two-piece ensemble of soldier blue with a corsage of gardenias. Her mother was attired in a black dress and had a corsage of red roses.

The Biggs family formed lived at Bovina, where Rev. Biggs was pastor of the Methodist church, and Mrs. Edwards attended school there, later graduating at Hedley, Tex. She has also attended Clarendon Junior College and West Texas State.

Sgt. Edwards was graduated from the Hedley high school and attended Wayland College at Plainview. He is now stationed at the Bainbridge Basic Flying School in Colquitt, Ga., where the couple will reside.

Mrs. Clifford Boatman of Friona, was here Saturday from Friona en route to Brownwood, Texas, where she went to visit her husband, stationed there.

Announcement Made Of Engagement

Announcement was received here this week of the engagement of Miss Rosemary Farschen, daughter of Mr. and Mrs. Orville Francis Farschon of Repressa, Calif., to Sgt. Frank E. Thompson, son of Mr. and Mrs. F. E. Thompson, formerly of Texico but now of Lynwood, Calif.

The wedding was forecast at a large tea given in the home of the bride's parents with betrothal cards in the form of tiny parchment scrolls, which bore the words "Betrothed—Rosemary and Frank".

Yellow and autumn shades made up the color scheme of decorations. The table centerpiece was a huge bronze bowl filled with flowers in the chosen colors, flanked by bronze candleholders and yellow candles.

Miss Farschon is a graduate of the Polcom, Calif. school and attended Sacramento Junior College.

Sgt. Thompson is very well known locally, having spent most of his life in Texico. He is a graduate of the local school and has been in the service for some time.

No definite date for the nuptials was made at the announcement party, according to information from Mrs. F. E. Thompson.

Luncheon, Meeting Is Held in Rogers Home

Mrs. B. A. Rogers acted as hostess in her home the past Wednesday when she entertained members of the Woman's Society for Christian Service of the Methodist church with a lovely one o'clock luncheon.

The affair, one of the "vanishing" series given by the Society members, was enjoyed by ten ladies, with a nasturtium centerpiece decorating the table.

Seated were Mesdames Anne H. Overstreet, Roy B. Ezell, A. D. Smith, B. E. Nobles, G. W. Atchley, E. J. Sloan, W. H. Graham, W. W. Vinyard, W. B. Hill and the hostess, Mrs. Rogers.

Following the luncheon, the regular program of the Society was observed, with Mrs. Roy Ezell as leader.

The theme of the afternoon was "Giving Substance to Dreams of Better Things for Youth", with Mesdames Overstreet, Smith, Nobles, Sloan, Atchley and Leno Yoder taking parts in the discussion.

The Bible study book was then reviewed by Mrs. Marty Ezell and Mrs. Fay Maxey, with Mrs. E. J. Sloan acting as leader.

Vaughan-Dotson Rites Read September 19

On September 19, Miss Dorothy Vaughan of Clovis became the bride of Bill Dotson of Farwell. The ceremony was performed in the parsonage of the First Baptist Church, with Rev. J. T. Barbee officiating.

The couple was attended by Miss Charlene Jones of Clovis and Earl Stull, Jr., of Las Cruces.

The bride, daughter of Mr. and Mrs. B. H. Vaughan of Clovis, has lived in Clovis all her life. She is a graduate of that high school and was a member of the order of Rainbow Girls.

The groom is the son of Mr. and Mrs. C. E. Dotson of Farwell and is a graduate of the local high school where he was outstanding in school activities.

Mr. and Mrs. Dotson will make their home in Clovis, where the groom is employed by the Santa Fe.

Mr. and Mrs. Jimmie Rogers returned home Sunday from a vacation trip to points in East Texas. They report a good deal of rain downstate.

Mr. and Mrs. T. J. Reese of Artesia, Calif., announce the birth of a baby girl, Carolyn Sue. Mrs. Reese is the former Nellie Park of this city.

Initiation Held On Thursday Evening

Mock initiation for ten new members of the department was held by the Farwell homemaking chapter the past Thursday evening at the home economics building.

Initiates of the evening were Ima Jean Freeman, La Honda Wells, Jeanette Morris, Mary Hicks, Tommie Randol, Sybil Ham, Bertha Cast, Ruth Birchfield, Velma Lee Hurst and Celeste Goozman.

An evening of entertainment was included with refreshments.

Formal candlelight initiation rites will be held on Friday evening of this week, with the new officers taking their places, said Miss Dorothy Shaw, sponsor.

Joyce Sheppard Given Farewell Compliment

Mr. and Mrs. Ed Eason entertained a group of young people at their home the past Tuesday evening, honoring Miss Joyce Sheppard with a farewell party.

Enjoying the evening were Jewel Casady, Virginia Hines, Harriet Baker, Minnie Smotherman, Bill White, Vance Eason, Earl Doyle, Dorothy Cassady, Billie Knowles, Lucille Knowles, Frank Ford, Peggy Schleuter, Bettie Jo Gilson, Mary Anna Blake, Juanita Hall, Retha Howard, Mr. and Mrs. Ed Eason, Mr. and Mrs. Henry Minter, and Mrs. Glen Schleuter.

The affair was a social of the B. T. U. of the local Baptist church.

Friona Couple Wed Saturday

Information has been received here of the wedding of Miss Edith Moseley and Herschel Johnson, both of Friona, which was performed on Saturday, Sept. 26th.

She is the daughter of Mr. and Mrs. David Moseley, a graduate of the Friona high school and has attended Texas Tech. Mr. Johnson is also a Friona graduate, son of "Blackie" Johnson, and has been an active farmer in the Friona community for several years.

They will make their home in Friona. Mr. Johnson has volunteered into the construction department of the Navy and is now awaiting his call to report for duty.

Home Recital Given Sunday Afternoon

Piona students of Mrs. Florence Millwee Vinyard entertained their parents on Sunday afternoon, when an informal recital was presented in the home of Mrs. Vinyard.

Both Clovis and local pupils took part in the program after which a social hour was enjoyed.

Students playing selections included Morris Caldwell, Jo Ann and Ronald Keeter, Darlene Sprawls Marcella Thomas, Jill Dunn, Betty Eillhouse, Virginia Carter, Dot McGahan, Sarah Frances Tidwell, Euell Houston, Rosamond Booth, Jean and June Rogers and Tommie Randol.

Mrs. Woodrow Lovelace spent the weekend visiting in Friona with her parents and sister, Miss Jean Mayfield, who was down from Amarillo.

Jean Ann and Bobby Hart and Marilyn Anderson spent Saturday visiting in Muleshoe.

Mrs. Lena Bonine, who had spent the past several weeks visiting her sister, Mrs. Roy B. Ezell, returned to her home in Spur on Friday.

NEWS FROM OUR BOYS IN CAMPS

AT ROBINS FIELD

Walter Kaltwasser is now serving in the medical corps of Robins Field, Ga., being a member of the hospital department of Weilton Air Depot. Walter left here for induction Sept. 9 and was sent direct to Georgia after being received at Ft. Sill. He writes that he likes army life very well and has "ten rules to learn" before he will be on guard duty.

LINDOP STAFF SERGEANT

Devere K. Lindop, son of Mr. and Mrs. Geo. Lindop of the Oklahoma Lane community, has recently received a promotion in rank. D. K. is now a staff sergeant, and is stationed at the Army Air Force Advanced Flying School at Foster Field, Tex.

HODGES WRITES HOME

"Bud" Hodges has this week written friends from Walla Walla, Wash., where he is now stationed. Bud reports that he was sent to school in Spokane for six weeks, "am supposed to be an instructor now but it seems they can't get a place to put me in a new school, so it is hard to tell what I will turn out to be."

HINER IN WASHINGTON

J. H. Hiner, son of Mr. and Mrs. Jim Hiner who formerly lived here, is now located in the state of Washington, where he expects to be sent to foreign service soon. He has been in the Army since last February, his mother reports.

AT SAM HOUSTON

Pvt. Bert McClure writes friends here from Fort Sam Houston, Tex., that he is "having a grand time" and likes Army life fine. He tells of visiting Breckenridge Park in San Antonio. Bert does not reveal what assignment he has drawn, but leaves the impression that he is serving on military police.

ST. JOHN'S EV. LUTHERAN CHURCH

Lariat, Texas.
Rudolph Weiser, Pastor
18th Sunday After Trinity
Sunday School at 10:45 a. m. No Bible class. Divine Service with Holy Communion at 11:30 a. m. Announcement for communion Saturday from 2 till 8 p. m.

Instruction Thursday. Sunday school teachers meeting and Waltham League executive board at home of Ernest Kalbas at night meeting of deacons, Friday, at parsonage. "If the son therefore shall make you free, ye shall be free indeed." John 8:36.

Mr. and Mrs. Gordon Lyons of Canyon visited briefly with friends in this city, Monday afternoon. They formerly lived in Farwell.

Mrs. Nettie Hiner of Fort Worth, former Farwell resident, visited relatives and friends here the past Thursday and Friday.

Instructions

WHAT TO DO IN CASE OF AN AIR RAID

1. As soon as the bombs start dropping, run like hell; it doesn't matter where as long as you run. Wear track shoes if possible—if the people in front of you are slow, you won't have any trouble getting over them.
2. Take advantage of opportunities afforded when air raid sirens sound the attack, for example:
 - a) If in a bakery, grab some pies, cakes, etc.
 - b) If in a tavern, grab a bottle.
 - c) If in a movie, grab a blonde.
3. If you find an unexploded bomb, always pick it up and shake it—the firing pin may be stuck.
 - a) If it doesn't work, leave it in the furnace. (The fire department will come later and take care of things.)
4. If an incendiary bomb is found in a building, throw gasoline on it. You can't put it out anyway, so you might as well have a little fun.
 - a) If no gasoline is available, throw a bucket of water on it and lie down. You're dead.
 - b) The properties of the bomb free the hydrogen from the water causing rather rapid combustion. (In fact it will explode with a helluva crash!)
5. Always get excited and holler bloody murder. It will add to the fun and confusion, and scare the little kiddies.
6. Drink heavily, eat onions, limburger cheese, etc., before entering a crowded air shelter. This will make you very unpopular with the crowd in your immediate vicinity, eliminating an unnecessary discomfort that would be more prevalent if the people crowded too closely.
7. If you should be the victim of a direct bomb hit, don't go to pieces—lie still and you won't BE NOTICED!
8. Knock the air raid wardens down if they start to tell you what to do—they always have the best seats for themselves and their friends anyway.
9. Please keep the above instructions confidential—the same are not official as yet, due to just getting organized.

Flag And Bible To Grace Court Room

At the suggestion of District Judge James W. Witherspoon, a large U. S. flag and a Holy Bible, mounted on an appropriate stand, will grace the district court room of the Farmer county court house in the near future.

County Judge Lee Thompson said this week that the flag, a large pattern of full silk mounted on a staff and base, had already arrived and the Bible would be on hand prior to the opening of the January session of the court term.

In making the suggestions, Judge Witherspoon said it was his opinion that in times past some persons had been guilty of perjury in their testimony, and it was his opinion that when a witness was sworn in with his hand upon a Bible, facing the American flag, it might have a tendency to impress upon him "the solemnity of the occasion".

Another addition to be made to the district court room will be an enlarged picture of Judge D. B. Hill, the first district judge to preside in the Farmer county court. A large picture of the late Judge Reese Tatum has graced the wall immediately behind the judge's seat in the court room for the past several years.

Lee Bradshaw, who has been visiting relatives here since his return from Alaska, was called to report at Omaha, Neb., the first of the week. "Brad" is in army construction work.

Mr. and Mrs. J. D. Thomas and family and Mr. and Mrs. John Armstrong and family spent Sunday in Floydada, Texas, visiting with relatives.

Mrs. V. Scott Johnson and daughter, Marcia Anne, were business visitors in Amarillo, Saturday.

Dr. J. M. McCuan returned home Monday from Vernon, where he was called by the illness of his daughter, Mrs. Jack Pearce, formerly of this city.

Mr. and Mrs. Irion Lovelace of Amarillo, spent the weekend here visiting friends and relatives. They returned home Monday.

Miss Billie Hall, who has spent the past several months in Amarillo, is here visiting relatives and friends.

Dick Bobst, who has been working and attending school in Lubbock for some time, is home for a visit.

Need Ammunition?

We have a fairly complete stock of 12 gage and .22 rifle ammunition . . . and a limited stock of 16 gage shells.

Indications are that all ammunition will be on the short list when the present stock is gone.

RED + PHARMACY

Canning Done For School Cafeteria

A bushel of peaches and a bushel of cucumbers have been canned for use in the Farwell school cafeteria during the winter, according to Miss Dorothy Shaw, director of the homemaking department of the school.

This food was contributed by patrons of the school with the home-making girls doing the canning, Miss Shaw said. Any contributions of vegetables, fruits, etc., will be put up for the cafeteria by the girls, she added.

Further, the sponsor asked that those wishing to make contributions bring them in before Friday, as the girls are not available for work during the weekend.

All the oil produced in Texas now pays an average tax of 9.23 cents per barrel.

To the Public:

WE wish to use this means of advising the people of Texico-Farwell and surrounding trade area that we have leased the City Cafe in Farwell, formerly operated by Mr. and Mrs. Stanley Hillhouse.

We have taken charge of the business and will operate it on the same high standard as in the past, serving regular lunches and short orders at moderate prices.

We will appreciate a continuance of your valued patronage.
**THANK YOU,
MR. and MRS. C. B. McDONALD**

Demonstration Club Notes

By Special Staff Reporters

Lazbuddy 4-H Club

The Lazbuddy 4-H club met Sept. 24 at the high school building.

All club girls were asked to give a brief summary of their club work. The reports were very interesting. Some girls showed their work which was also interesting.

Laura Seaton was chosen as the club candidate for the "Gold Star Girl" of 1942 for the county.

Those present with Miss Cunningham were Laura Seaton, Naomi Contrell, Mary Helen Hayhurst, Billie Rae Treider, Tomalene Vaughan, Betty Jo Tarter, Clara Treider, Lillys Treider, Joy Welch, Billie Jo Welch, Maxene Eubanks, Anita Steinbock, Bobbie June Treider, Wenonah Thorne, Joy Elaine Daniels, Dean Gosner and Martha Roberts.

Hub Demo. Club

The Hub club met in regular session Sept. 25 with Mrs. Mayme Adams hostess.

In the absence of the president and vice president, Mrs. R. F. Jones occupied the chair.

Miss Elsie Cunningham gave a very interesting demonstration on potato salad, green bean salad, cranberry salad and sour kraut salad, with the salads served to Mesdames A. H. Boatman, Will Jones, S. L. McLellan, Leonard Gee, R. F. Jones and two visitors, Mrs. A. N. McNutt of Mooreland, Okla., and Mrs. Harrison Gee of Bovina.

The next meeting will be October 9 with Mrs. Clarence Day and Mrs. J. W. Shultz as hostesses. On this date three boxes for boys in service, Albert Cannon, Elvin Collier and Floyd Stovall will be packed. The box for Floyd will be packed to go overseas, as he is in Australia.

Midway 4-H Club

The Midway girls 4-H club met with Miss Cunningham Sept. 24th at 8:30 a. m. She talked with us about saving paper and scrap rubber and metal. Then each girl gave a report on what goals she has finished and the things she did during the summer. Some of the girls had some of their work to show and very interesting reports were given. We named three girls who had done the most during the summer: (1) Dorothy Koelzer, (2) Jackie Lawler, (3) Ruthie Jo Holding. Two of the girls gave Miss Cunningham some of their work to exhibit at the harvest

Softball Games Are Arranged for Texico

A modified sports program was launched at the Texico school the past weekend, when boys' softball teams from Pleasant Hill, Ranchvale and Texico staged a series of games.

In the Ranchvale-Texico game, the local boys turned in some excellent playing. With Box pitching and Blain on catching duty, the game went to 12-0, in the final inning at which time Blain dropped a hot one and a runner came in to chalk up Ranchvale's only score.

All members of the team, including Bowers, first; White, second, Lewis, shortstop, Houston, third, Drace, left fielder, Spies, center fielder, Baker, right fielder and Francis floating shortstop, did excellent work in fielding the few hits that Box allowed during the game.

The Pleasant Hill-Texico game went only two innings and was called with the score standing 4-4. Coach C. E. Sanders reported that all members of the squad played in the match.

Games Friday

Games will be held at Ranchvale Friday of this week, with Texico, Field and the host team staging a round-robin series.

Field, winner of the county tournament last year, is probably one of the strongest aggregations the Texico squad will face this year, Sanders believed today.

Sanders reported that three members of the team will furnish cars, while other members of the squad will pay into the gasoline fund.

In addition to the games Friday, plans are being laid to enter both boys and girls in the county tourney at Grady, Oct. 10.

INTEREST TO FARMERS

(Continued from Front Page) of lack of tires; (3) possibility of using school buses for transporting agricultural workers in the county; and (4) possibility of renting trucks for transportation of agricultural workers locally.

Increasing pressure of transportation facilities is a result, primarily, of lack of truck replacements and a scarcity of repair parts and tires, Vance said.

Wednesday Meeting Day of Ration Board

Farmers in this county who wish to make application for machinery now on the ration list will file applications before the County Ration Board on Wednesday after noon of each week, from 2 to 5 p. m.

This meeting date was agreed upon Saturday night when the county committee, consisting of Olan N. Schleuter, chairman, J. I. Gober and Wilbur Charles, regular members, and Floyd Welch, alternating member, held a meeting.

The committee will conduct its meetings at the AAA office in Farwell, it was announced.

Applications will also be executed in the Parmer County AAA office, according to John Martin, supervisor.

Under the rationing regulations, farmers desiring to purchase any equipment listed as Group A are required to make application to the committee. If the application is approved, a purchasing certificate will be issued, permitting the dealer to sell the farmer the required equipment.

The name of the dealer who will be able to furnish restricted equipment within ten days from date of the certificate of purchase must be listed on the application form, it was announced.

Machinery in the Group A restricted list includes: beet lifters, beet loaders, combines, corn pickers, disc harrows, feed girders, fertilizer spreaders, grain drills, grain elevators, hay balers, lime spreaders, manure spreaders, milk coolers, milking machines, pickup balers, potato diggers, shredders, tractors (including garden tractors). The only machinery in this list which is not applicable to Parmer farmers is the beet lifter and loader.

The majority of other machinery and equipment can be purchased by executing certification of need with the dealer. All implement dealers in the county will be furnished immediately with the necessary forms in connection with the rationing program.

Used machinery and equipment, along with repair parts, will be purchased through regular channels and will not require the execution of any forms.

RUBBER RATIONING NOW HITS BOOTS, SHOES

for six months.

Inventories Must Be Filed

All sellers of rationed rubber footwear—retailers, wholesalers and manufacturers—are required to take inventory on OPA forms as of midnight Saturday, Oct. 3.

Specifically articles containing a high crude rubber content and affected by rationing include: (1) hip-height rubber boots including all o. hip, body and thigh heights; (2) over-the-knee rubber boots, including Storm King height; (3) all heavy short rubber boots; (4) all light-weight short boots; (5) rubber pacs and bootees 10 inches or more in height; (6) rubber pacs, bootees and work shoes less than 10 inches in height. All variations in style and design within these six road classifications are included.

As for other types of rubber footwear necessary for ordinary use, Armstrong said that they can be made mostly from reclaimed rubber and are not rationed. In this non-restricted class are men's rubber boots and rubber work shoes smaller than size six, lumbermen's overs (which are leather with rubber feet) men's arctic, gaiters work and dress rubbers, and women's and children's rubber boots, rubber work shoes, arctic, gaiters and rubbers.

"Although these types are not being rationed," Armstrong said, "the rubber conservation program depends on the cooperation of the public in not buying any more of these ordinary types than urgent necessity demands."

MOBILIZED MANPOWER IS ESSENTIAL FOR VICTORY

Full mobilization of manpower on the small farms of Parmer County for increased food production is needed to win the war, Earl L. Fine, rural rehabilitation supervisor for the Farm Security Administration, believes.

"Unless our small farm operators can produce greater quantities of food," said Mr. Fine, "our country will be compelled to ration almost all foods and there is no assurance that we can maintain nutrition needs of our civilians."

"For this reason," he continued, "the federal government has ordered the FSA to extend every possible aid to low-income and small farm and ranch operators to enable them to increase production."

The supervisor said the FSA's loan policy, collection policy, health, tenure improvement, cooperative, and farm ownership programs and all other phases of the total FSA effort is being directed and coordinated into a wartime food production program.

Urging all families in Parmer County to make the most of their opportunity now to conserve food and feed and to plan for next year's production, Fine advises that applications for operating loans are being received from farm families at his office in the county courthouse in Farwell.

"The farmer's main job now is to produce food and this will continue to be his main job until the war is won. Farm Security is anxious to help all eligible borrowers in the nation so they can exert every effort to feed the United Nations as well as themselves," Fine concluded.

Furniture Placed In Camp Lounge Room

Furniture which had been collected over all of Parmer county, Texico and the Pleasant Hill community was placed in the recreation room at the Quartermaster's Corps in Clovis the past weekend, with 10th camp officials and sponsors reporting that the room is now very well equipped.

Tables, chairs, radios, reading lamps, bookracks, books and magazines, a table tennis set and a pool table were among articles contributed by citizens for the benefit of soldiers at the camp, and arranged against a background of repainted and improved interior, the effect is even better than hoped for, according to Miss Elsie Cunningham.

A number of contributions were also received of cash, which went into a fund used for repairing furniture turned in, Miss Cunningham said, and with the surplus still on hand, consideration is being given a Thanksgiving or Christmas party for the boys.

Capt. Roberts of the camp, this week requested contributions of old school books, and of course, magazines and other reading material are always welcomed.

On Saturday night, open house was held at the new recreation room, with several Parmer county representatives on hand.

Women of the home demonstration clubs of the county sponsored the drive, and Miss Cunningham took occasion this week to make public the appreciation of the group for the cooperation received.

The present capitol of Texas at Austin was dedicated in May, 1883.

No Sugar Allowed To Can Vegetables

Members of the Parmer County Ration Board stressed this week to all homemakers that "sugar for canning any kind of vegetables just isn't allowed under the ration program."

Several applications have been made for sugar to be used in preserving vegetables, but Irene Sachs, present set-up.

Homemakers who desire to make pickles will have to cut down the family daily ration and squeeze the sweetening out of the regular allotment—or go pickle-less. Furthermore science notwithstanding, a tomato is a "vegetable" and rates no sugar for canning purposes.

One pound per every four quarts of fruit is all the sugar allowed, and those who make application for 100 pounds to put up 100 quarts and then show only 60 quarts realized, may face the possibility of canning 40 quarts sans sugar, officials said.

COMMISSIONERS MEET

The Parmer County Commissioners Court was in session here Monday with only routine matters being up for consideration.

INITIATION FRIDAY

Mock initiation for twelve greenhands of the Texico FFA chapter will be held at the ag building on Friday evening of this week, Oct. 2, according to Victor Stout, advisor of the group.
