

## Natives in Jap Area Help U. S. Fliers

Although they were shot down well within Japanese territory in the South Pacific, four United States fliers were cared for by natives until they were able to set out for a home base in a rubber life raft. After rowing four days they were picked up by a navy plane. They are pictured with the co-pilot of the rescue ship.

## "Too Much Red Tape" Involved in Prison Labor for Farm Use

"Too much red tape," Garlon A. Harper, county agent, said bluntly today when questioned concerning the proposition to establish a "sub-camp" for prisoners from the Hereford internment camp in this county, to be used as farm workers in Parmer.

Elucidating, Harper said that questioning had revealed that (1) a fence must be established around the camp to confine the prisoners to the area, (2) a mess hall must be provided, (3) hot and cold water systems must be provided, along with showers, and (4) a complete sanitary system would have to be constructed.

"In other words," Harper said, "the cost of establishing such a camp and the time and effort involved would make it impossible for farmers to receive any benefits from the imported labor."

"Too," he went on, "the War Manpower Commission has now taken a hand in the farming out of prisoners, and where an employer could previously get workers for a little more than a dollar a day, he is now required to pay prisoners the same amount as that paid free labor—while at the same time being limited as to the number of hours the worker may be used per day."

Quite a number of farmers in the eastern and northern portions of the county have secured workers from the camp, but with a 35-mile limit imposed by authorities, such men cannot be secured by farmers in the Oklahoma Lane and Farwell areas.

### COMMISSIONERS MEET

The Parmer County Commissioners Court was in session here Monday. The minutes reveal that aside from the regular routine business, including the payment of current bills and approving the minutes of the last meeting, the Court approved the expense account of Sheriff Earl Booth for the months of February, July and August in the amount of \$1,213.00.

### COMPLIMENTS WORK

M. C. Roberts, secretary of the Club for Constitutional Government of New Mexico, was displaying a letter from E. J. Engle, president of the Santa Fe Railway company, this week, in which Mr. Engle says, "the work you are doing is well worthwhile in principle". Mr. Engle enclosed his personal check in the amount of \$50 as a contribution to the New Mexico Club.

### LAUNDRY TO CLOSE

The Barnes Laundry announced this week that effective next Saturday, it would be closed on Saturday for the next few weeks. Mr. Barnes said that needed repairs about his place of business and to the equipment must be made. He said that the laundry would be open all other days of the week while repairs are being made.

### REPORTS GOOD MEETING

Supt. B. A. Rogers reports today that a good meeting was held by faculty members the past weekend, when they gathered in Albuquerque for the annual NMEA convention, although the crowd was smaller than in recent years. Attending from here were Supt. and Mrs. Rogers, Mr. and Mrs. C. E. Sanders, Victor Stout, Miss Viola Rodewald, Miss Mabel Davis and Mrs. Faye Groves.

### Discusses Post War Problems For Club

Minister W. L. Wharton, Jr., of the First Church of Christ of Clovis, discussed some of the post war problems at the regular meeting of the local Men's Club on Thursday evening of last week.

Juvenile delinquency is one of the main problems that faces the nation, in the opinion of Minister Wharton, who cited figures from the Federal Bureau of Investigation to show that delinquency among young people has increased more than 100% since the war began.

He said he had been interested in the many fine articles he had read in recent months, telling of "the scientific advancement we may expect in the post war period. But the question with me is not what kind of electric refrigerator I will have after the war, but what kind of a family is going to live next door to me."

Minister Wharton was introduced by J. D. Thomas, local attorney and church layman.

The speaker said he was disgusted with the attitude of people "accepting conditions as a matter of fact by merely raising the question of 'What can I do?'."

### Uneasy About Trends

He declared himself as also "uneasy about the communistic inroads we see in our country and in our government", and said that in his opinion socialistic policies were not nearly so dangerous as those of communism. At this point he observed "we are going to face some very grave problems after this war, including some very definite threats to the Christian religion".

In conclusion he reasoned that "if we cannot solve these problems by the Bible, they cannot be solved". The teaching of the Bible has been uplifting men wherever it has gone, he said, and admonished his hearers to "put your faith in God".

The attendance last Thursday was the lightest in recent months, bringing forth the observation from Chairman C. M. Henderson that "everybody is mighty busy these days". The usual feed of beans, sandwiches, pie and coffee was served.

The U. S. army buys 11,000 different cotton items ranging from gun camouflage to handkerchiefs.

# Car Shortage Stops Grain Movement

## War Chest Quota At Half Way Mark

## Take Book 3 When Registering for No. 4

### First Killing Frost Hits

The first general killing frost of the season was in evidence here Wednesday morning to greet early risers.

Previously, this section had experienced two light freezes, on the nights of Oct. 15 and 16, but Wednesday morning heralded the first frost.

The freezing weather of two weeks ago definitely stopped the growth of feedstuffs.

### Combine Accident Costs Loss of Hand

The condition of Claude A. White, prominent Farwell farmer, was reported to be satisfactory Wednesday morning, following an accident that cost him the loss of his left hand in a combine early Saturday morning.

He was rushed to a Clovis hospital immediately following the accident, where the hand was amputated a few inches above the wrist.

White was working alone when the accident happened and was combining feed on the farm of Dr. V. Scott Johnson just a half mile north of this city. He was attempting to unclog the machine, which was still in motion, when caught by the cylinder. Fortunately, he was on the south end of the field, which adjoins the highway, and hailed a passer-by, who took him to the hospital.

### Lariat Farmer Staging Public Sale Nov. 2nd

With the announcement that he is leaving the farm, Joe Roberts, who lives one mile east and ¼ mile north of Lariat, is staging a general farm clean-up sale on Tuesday, Nov. 2.

Thirteen head of cattle, five head of horses, 17 head of hogs and a good list of farming machinery are the principle items being offered. Other items include poultry, feed, and household goods.

The sale will be in charge of Col. W. D. Wanzor of Muleshoe, and Pat Bobo will act as clerk. The ladies of the Oklahoma Lane community club will serve lunch at noon, and the sale is scheduled to get underway at 11 a. m., Texas war time.

A complete list of the items to be offered at public auction will be found in this issue of The Tribune.

### Over Eight Hundred Books Issued Here

Approximately 850 residents were issued Ration Book 4 at the Farwell school the past Friday and Saturday, when registration for the new books was conducted by the local faculty, Supt. J. T. Carter reported on turning in his surplus to the ration board.

This number fell a little shy of the total expected in Farwell, Mrs. Roy Bobst, at the ration office, said today. Reports over the remainder of the county had not been received to date, but estimates were that a majority of Parmer citizens were registered.

"Those who for one reason or another did not register the past weekend can avail themselves of the opportunity of securing their books in New Mexico this week, when registration is conducted in that state," Mrs. Bobst said, adding that persons may register at any center.

Officials brought out the fact that some people still did not have Book 3, and consequently, cannot be issued Book 4. It was added that registration of those who could not secure their books at this time would probably be held in the future at the ration office, but definite information on such procedure was lacking.

Martin Van Buren, eighth president of the United States, was the first president to be born an American citizen.

"Please bring your No. 3 ration book with you." This was the plea of Supt. B. A. Rogers this week, when he reminded that registration for Book 4 would be held at the Texico school on Thursday and Friday, Oct. 28 and 29.

School will be dismissed on Wednesday afternoon in order that the teachers may handle the work.

Hours of registration will be from 9 in the morning until 6 in the afternoon, Texas war time. Supt. Rogers went on, and urged that applicants make it a point to arrive not later than 5:45, in order that the volunteer workers would not be held past the closing hour. "We are anxious that all persons come in as early as possible," he added.

Persons who registered for Book 4 in Texas last week offered a hint to applicants who will sign for entire families—know the ages of each individual. This information is not carried on Book 3, but is asked by the clerks, and having such data available may save an extra trip to the school.

Remember, it's not Book 1 or 2 you want to take, but Book 3, which you must present before the new ration books will be issued.

### Texico-Farwell Gives \$90 to Plasma Fund

The people of Texico and Farwell contributed \$90 to the blood plasma fund last Saturday, a movement sponsored by the Daughters of the American Revolution, and supervised here by Mrs. A. D. Smith.

Mrs. Smith said the children of the Farwell school contributed \$22 to the fund, with the second and third grade room going 100%. The rest of the money was derived from tag day, conducted on Saturday in the Twin Cities.

Mrs. Smith praised the work of the following young ladies who conducted tag day solicitations: Marilyn Anderson, Marcia Anne Johnson, Joan Booth, Norma Jean Thomas and Jean Ann Hart.

### Lazbuddy School to Resume on Tuesday

R. E. Everett, superintendent of the Lazbuddy school, announced Monday that school would be resumer next Tuesday, after a four-week vacation period while students were assisting in crop harvest.

He said that the lost time would be made up, the school taking only a week off for Christmas. After the first of the year, classes will be conducted six days a week, he said.

Feed crops are exceptionally good in the Lazbuddy section this year, and there is considerable cotton to be gathered, Supt. Everett reports.

### Oklahoma Lane School Out

School was dismissed at Oklahoma Lane last week, and will be closed for two weeks while the students assist with the harvesting, it was learned here today.

### TO SUPTS. MEETING

Supt. J. T. Carter expects to be in Amarillo on Saturday, attending a meeting dealing with school curricular.

"We're off to a good start with all solicitors working intensely," was the comment H. Y. Overstreet, chairman of the National War Fund, made early this week when asked about the progress of the work.

He said that complete figures were not available at that time from all solicitors in the county, but gave it as his opinion that not less than half the county's quota of \$2600 was accounted for by Monday night, the opening day of the campaign in this county.

"I am not at all uneasy about the outcome," the county chairman said. "I feel confident we will reach our quota."

The dates of the Parmer county drive have been set to coincide with the drive in Amarillo, embracing the period of Oct. 25 to Nov. 3, and Overstreet made the prediction that the local quota would be reached before the close of the present week. He said the solicitors were doing a good job, and especially praised the outstanding work of Mrs. A. H. Boatman of the Hub community and W. E. Williams of Bovina. "If we had a few workers like those two, the drive would be over now," he said.

Overstreet stressed again the urgency of contributors contacting the solicitors, rather than have the solicitors "run them down". He pointed out that every solicitor in the county is perhaps just as busy as anybody else. "But if the people of the county who actually plan to make a contribution to the War Fund wait for a solicitor to call on them, that contribution may not get in for the very simple reason that the workers do not have time to make all the contacts."

He also stressed that contributions from ten dollars upwards are going to be needed to put the county over the top. "We have already contacted most of the large donors," he said. "Now it's up to the small contributors to raise the balance."

### Crops Good in East Side of Parmer Co.

The grain crops in the eastern side of the county are exceptionally good, according to Bev Buchanan, who was here the first of the week attending a meeting of the local draft board.

Buchanan said that most farmers were harvesting from 2400 to 4000 pounds of threshed grain to the acre in his neighborhood. He further stated that practically all of the farmers in his neighborhood were up with their harvesting, "except a few fields of shocked sudan". He said that prison labor from the Hereford internment camp had helped out considerably on the labor problem this year.

### TEST BELOW 7,000 FEET

The Jarrell test, being made by the Stanolind Oil Company, seven miles northwest of Bovina, is reported to have reached a depth of "below 7000 feet" this week.

The oil test is being made on the A. J. Jarrell farm. Drillers report good drilling progress the past several weeks, but little other information has been given out.

### STATION CLOSES

The Shamrock service station in Farwell, which has been operated by Howard Lindsey and his son, Joe, for the past several months, closed up Monday evening. For the present, Joe is helping at the Texas Company.

A serious car shortage over this section has almost completely stopped the movement of grain with farmers and grain dealers alike becoming concerned over the problem in view of the fact that local Santa Fe officials saw no immediate relief in sight.

### Elevators Full

All elevator operators in Texico-Farwell, Lariat and Bovina reported their bins full to capacity early this week and grain that had been hauled to these markets was being turned down until the elevators have an opportunity to unload.

Some grain dealers have piled many truckloads out in the open to accommodate customers, but the hazards involved have caused local buyers to announce that this practice has been discontinued and no more grain will be handled until shipments can be made to relieve the congestion.

W. W. Vinyard, local Santa Fe agent, said Tuesday that he had been doing his best to get cars, but had not had a boxcar spotted in the local yards this week. "It's just simply a case of too much war material and troop movements, that take precedent over everything else," Vinyard commented when asked the reason of the car shortage.

### Weather Perfect

Perfect weather during the past three weeks has permitted farmers throughout this area to put their harvesting operations into high gear with the result that more grain than might normally be expected has been flowing to the elevators.

Another item that has figured in the heavy movement of fall grains has been the prevailing price. Most farmers are prepared to store small amounts on their farms, but as one farmer put it on Tuesday morning, "I built my storage for fifty cent grain, and don't intend to store any at the present price."

Farmers who are not prepared to store their grain on the farms are piling it out in the open, and reports reaching here say that there are literally millions of pounds of threshed grain piled out in the open between here and Lubbock.

### Turn-out Good

Despite the most severe drought in recent years, farmers are reporting that their yields are turning out far better than had been expected. Most of them estimate that their crop this year is just about half the normal production, but the price this year promises to bring local farmers more cash return for their labors than in many years.

Most grain sorghums throughout the western part of Parmer and the eastern side of Curry County, New Mexico, are reported to be averaging all the way from 800 to 1700 pounds to the acre. The average on the eastern side of Parmer county, particularly in the Lakeview and Lazbuddy sections, is said to be running from 2400 to 4000 pounds to the acre. These sections received far more rain during the growing season than was recorded farther to the west.

### TO PLAINVIEW

Ellis M. Mills, head of the local AAA office, stated today that he and a county committeeman would be in Plainview, Thursday. They are to hear discussed the details for the administration of the dairy feed subsidies.

### IS OPERATED

Rex Kyker, son of Mr. and Mrs. Bob Kyker of Farwell, underwent an emergency appendectomy the past Tuesday night, in Abilene. His father visited him during the latter part of the week and reports that he is recuperating.

# Army, Navy Exams Open Nov. 9

On November 9, men between the ages of 17 and 22 who have graduated from high school or are in their final term, will have an opportunity to try for candidacy in the Army Specialized Training Program and the Navy College Program V-12.

The tests, which will be given at high schools and colleges, will provide an opportunity for these men to qualify for training at the college level in fields of study for which the Army and Navy have vital needs. Graduates of the program will serve as specialists, technicians and officers.

Applicants who reach their 17th but not 20th birthday by March 1, 1944, who qualify, and express a preference for the navy, Marines or Coast Guard, will be asked to report to offices of naval officer procurement for a physical examination and personal interview.

Those selected for the navy program may express a preference for colleges on the navy list of contract institutions and the course of study. Assignments will ultimately be determined by the needs of the service. All students in the program

will be on active duty in uniform with pay under military discipline. The navy pays all expenses including tuition, housing, food, everything but personal items.

### To Be Held at Texico

Boys in the Texico-Farwell area who are in the eligibility list and are interested in taking the tests may appear at the Texico school any time during the day, Supt. B. A. Rogers has announced.

It was considered likely that several local young men might wish to take the exams, he added.

The exams will not be given at the Farwell school.

Farming Talk

By GARLON A. HARPER  
County Agricultural Agent

Texas A. & M. Extension Service

This week I want to talk directly to the farm boys between the ages of 9 and 20 and to their mothers and dads. The subject, of course, is 4-H club work. Our boys 4-H program for the coming year is going to be a little different than we have had in the past for many of these boys. Of all the years of 4-H club work in Parmer County, this is the year when some really good, constructive club work is needed.

The picture I have of good 4-H club work is a picture of a boy who is interested in learning to make a better rural living and who is willing to work at the job. 4-H club work is not merely an enrollment of a boy with him "claiming" a calf or pig on the farm and then forgetting about the whole job of feeding and caring for that animal. Real 4-H club work is an educational work in which farm boys study better practices of farming and actually put those practices into operation, then study the result of those better practices to evaluate the work they have done. In the past many boys who have been enrolled in 4-H club work have been content to carry on the projects they have selected in the same manner with which their fathers and grandfathers have done that kind of work. I do not mean that such work is not beneficial. The manner in which their fathers have done this work may have been the best manner of doing the job. However, so far as 4-H club work is concerned, such work is a failure because the boys have learned nothing from 4-H club work since their fathers would have taught them their ways of doing the job even if they had never been in a 4-H club.

The motto of 4-H clubs is, "To Make The Best Better". This is not just so many words. It is a principle which will work and through which we can achieve progress. So, this year I am hoping we will have a large number of boys interested in selecting a farm project, and studying new and improved practices of doing that job. I am hoping they will combine these new and improved methods with the old tried and true methods their fathers have used to make an outstanding job of feeding their livestock and poultry and growing their crops.

Therefore, if your boy is interested in 4-H club work, let him plan his work for the year and encourage him to do the job better than you have ever done it. Your experience plus his boyish interest

100 OCTANE GASOLINE

Adds 5th engine to every 4-engine bomber

ROUND-THE-CLOCK AIR RAIDS over Germany and South Pacific... Every time you read this headline in your newspaper, remember that United Nations war planes are vastly improved war weapons because their tanks are filled with 100 octane gasoline from the United States.

To say that this super-fuel is equivalent to a fifth engine in every four-engine bomber is actually understating the facts! Compared with German aviation fuel of 87 octane, it improves performance more than 25 per cent.

Long peacetime research for new and better things from petroleum gases, as well as from petroleum, prepared Phillips for an important role in wartime production, Phillips Petroleum

Company was among the first to take 100 octane gasoline... as well as butadiene for synthetic rubber... out of the laboratory and into mass production.

Twenty-four hours a day, our best efforts are devoted to the production of these and other synthetic chemicals which will bring closer that great day when once again you can say "Fill 'er up"... and the service man will crank into your tank a new and improved Phillips gasoline.

Until then, every time you see the Phillips 66 Shield, let it remind you that Phillips refineries in addition to producing gasolines, lubricants, fuel oils, are also gigantic chemical plants pouring out weapons for victory.

PHILLIPS PETROLEUM Co., Bartlesville, Okla.

**PHILLIPS REDUCES DEBT**

More than 95% of the \$7,338,000 of convertible 1-3/4% debentures of Phillips Petroleum Company, called for redemption on October 18, were converted into common stock of the Company by the time the conversion privilege expired on October 15. This final redemption, together with the two previous redemptions on June 1 and August 3, has this year reduced the long term debt of the Company by \$20,000,000. Of this total, \$19,334,000 was converted into 424,029 new shares of common stock, bringing the total shares outstanding to 4,590,007. The remaining \$666,000 was redeemed for cash. The Company's long-term debt is now lower than that reported for any year-end since 1926 with the single exception of 1936.

**Health Notes**

by Texas Department of Health

**AUSTIN**—In a statement issued this week by Dr. G. W. Cox, State Health Officer, it was disclosed that in the near future an intensified state-wide educational campaign will be instituted for the control of venereal disease.

"The venereal disease situation in Texas has been receiving the close attention of the State Health Department," Dr. Cox said, "and it has become apparent that with the heavy concentration of military forces now within the borders of this state the scope of the control program must be broadened. One of the most essential measures in this respect is the education of the public to the danger involved."

Every possible means for informing the public will be used, with emphasis placed on newspaper publicity, radio lectures, posters, pamphlets, leaflets and personal information disseminated at venereal disease clinics throughout the state. Although there are now 138 treatment centers and clinics operating in this state, Dr. Cox indicated that if additional facilities are needed for the treatment of infected persons, more clinics will be established when the need is ascertained.

Special educators, doctors, and case investigators from the State Department of Health will be available for consultation and assistance to those cities and communities in the state most urgently needing such help.

**They're calling home**

It could only happen in the United States. And it does happen every night. Thousands and thousands of boys in camp talking to home by Long Distance.

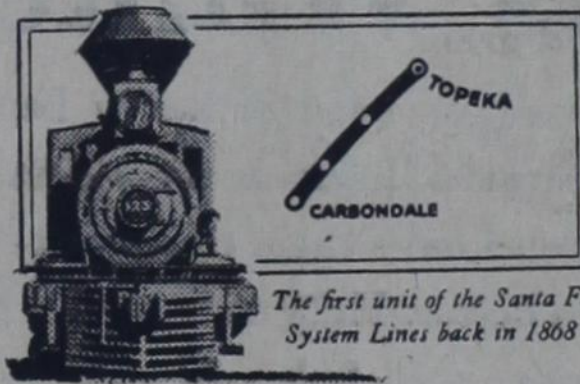

The voice with a smile at the switchboard. The thoughtful people who leave Long Distance circuits free for his use in the evening. The pleasure of the home folks when the call gets through. These are some of the things that make this a good country to live in.

Give the boys a break after 7 o'clock each night. That's about the only time the service men have to call.

The Mountain States Telephone and Telegraph Co.

*The NEW Winning of the West*

The first unit of the Santa Fe System Lines back in 1868

JUST 75 years ago this week, October 30, 1868, rail was laid on the first unit of the Santa Fe System Lines—a 17-mile stretch in Kansas from Topeka to Carbondale.

Today, Santa Fe System Lines are over 13,000 miles long, serving people and products from Illinois to California, and from Colorado to the Gulf of Mexico.

**Looking Ahead**

Farsighted men, even years back, began looking ahead to the Southwest and West not only as a land of enchantment and natural resources but as the coming theater of industrial expansion in this country.

The war has brought home the soundness of this vision—big things are happening today in the states of Santa Fe land.

**States served by the Santa Fe**

Thousands are flocking to Texas—great state of farm, factory and free enterprise—to man its booming plants, cultivate its soil, and ride its far-reaching ranges.

Kansas is becoming famous for its plane factories and munition plants, as well as its golden wheat fields.

Arizona is winning new fame in the fields of agriculture, live-stock, mining, and as an aviation center.

Oklahoma's oil is writing bright new pages in the science of war, and advances for the peace to come.

Freight cars are rolling out of New Mexico

loaded with essential copper, potash and zinc, as well as steers and sheep.

Illinois, Missouri and Iowa are saying it around the world with factory and food products.

The lead and silver and coal from Colorado's mineral-filled mountains are doing great things toward winning a war.

And in California, steel mills, shipyards, power dams, plane plants and lumber mills are working around the clock to supply more, more, and more of the sinews of war.

**Santa Fe all the way for U. S. A.!**

We of the Santa Fe are too busy "keeping 'em rolling" for Victory to take time off to celebrate the 75th anniversary of the laying of our first rail.

This is, however, an appropriate time to point out how important to the development of this New West has been the linking together of its States by Santa Fe rails. We are naturally proud to be part of this great development.

**SANTA FE SYSTEM LINES**  
ONE OF AMERICA'S RAILROADS—ALL UNITED FOR VICTORY

**NATIONAL 4-H CLUB WEEK  
DATES ARE ANNOUNCED**

COLLEGE STATION — Texas' 103,000 4-H Club members will join a million and a half fellow members in observance of National 4-H Club Achievement Week, scheduled Nov. 6-14. Club boys and girls, local leaders and sponsors, and county extension workers now are making their plans for the observance with the assistance of the three 4-H club agents of the Extension Service, L. L. Johnson, Onah Jacks and J. W. Potts.

Purpose of the national week is to help 4-H members evaluate their war-time achievements, develop plans for a greater year in 1944, and to give recognition to outstanding individuals and groups. Appropriate awards of honor are being provided by the Texas Extension Service for distribution during the week.

In Texas, thousands of 4-H members are meeting their pledge to "feed a fighter and myself in '43". They have helped produce and conserve food and feed. They buy war stamps and bonds and sell them to others. They have made outstanding contributions to the collection of scrap, state reports show. In addition to training for good citizenship, members help interpret the war program to their community, practice democratic procedures, and help guard their own health and welfare and that of the community. Extension workers agree one of the greatest 4-H contributions has been in helping solve the farm labor shortage.

**WINTER CARE OF ORCHARDS**

COLLEGE STATION—The winter months, when fruit trees are dormant, is the best season to prepare the farm orchard for next year's production, says J. F. Rosborough, horticulturist for the A & M College Extension Service.

According to dietitians, two servings of fruit daily are needed to maintain a person's health. Fruits are a free source of vitamins, and also supply iron and calcium as well as other minerals for blood, bone and body processes.

To obtain highest yields trees should be treated now for harmful pests and surface disease, like borers and scale. Gummy exudations filled with sawdust pellets at the ground line of a tree is symptomatic of borer damage. Rosborough recommends paradichloro-benzene, commonly called PDB, as most effective against borers when used from the middle of October to mid-November.

No soil preparation is necessary in administering this treatment except to break the crust for 15 to 18 inches around the tree and remove any grass or weeds. Place the PDB crystals in a circle about three inches from the trunk. For mature trees one ounce is used, and for young trees one half an ounce is enough. The crystals should be covered with dirt immediately after being applied, and firmly packed with the back of a shovel to make a cone-shaped mound. The cone should be torn down after six weeks and the remaining crystals removed.

If only a few trees are infested, the simplest treatment for scale is a wash composed of two and one half tablespoons of lye in one gallon of water. This may be applied to the affected parts with an old paint brush. More extensive scale infestation in a large orchard may be dealt with by spraying during the winter with oil emulsion or concentrated lime sulphur.

**COOKER RATIONING GIVES  
INDIVIDUALS A CHANCE**

COLLEGE STATION—Now that increased numbers of pressure cookers are on the market, it's possible for individuals to obtain them as well as groups. Rationing regulations recently have been relaxed in this respect, the War Food Administration has notified the Texas A. & M. College Extension Service.

Even though group use is not a prime requisite for eligibility to purchase, individuals who buy new cookers should be patriotic enough to share them with their neighbors, suggests Mildred Horton, Extension vice director and state agent.

She explains that while Texas has received an additional allotment, there still aren't nearly enough to go around.

Persons who need pressure cookers should apply directly to their county farm rationing committees for a certificate of eligibility or they may ask that previously filed applications be reviewed under the new ruling. On a state level, rationing of pressure cookers is handed by the Texas USDA War Board.

Applicants need no longer locate a cooker for sale before the application to purchase is approved.

Commenting on the war-time models of pressure cookers, Miss Horton cautions that these need special care, otherwise the cooker may be damaged and food may be lost. Follow the manufacturer's directions on care of these cookers.

A new synthetic cinnamon and other synthetic spices have been reported.

**BUSINESS AND INDUSTRY  
IS GROWING IN TEXAS**

AUSTIN—Business and industry of Texas were still growing in September, as employment totals ran 20 per cent higher and payrolls 35.1 per cent more than those for September of last year, the University of Texas Bureau of Business Research has reported.

Gains of 2.7 per cent in employment and 1.7 per cent in payrolls from August to September were also revealed. Manufacturing plants showed de-

clines from August, as employment dropped 4 per cent below that for August, and payrolls fell off 9.4 per cent. Both employment and payrolls were above the level of September, 1942.

Retail and wholesale trade and hotels were among the largest contributors to the statewide increases in employment and payrolls.

Round and round the coal question goes and where it will end Lewis thinks he knows.

Promptness and a better class of work is our motto. Dial 2131.

**NO EXCUSE FOR BEING DIRTY!**

COLLEGE STATION—Contrary to current rumors, there is going to be enough soap for everybody in this country during the next 12 months.

Sufficient quantities will be manufactured for each man, woman and child to have 22 pounds of toilet and household soap, according to information received by the Texas A. & M. Extension Service. That is the equivalent of 16 large packages of soap chips or flakes, or 35 bars of toilet soap, or about 94 cakes of toilet soap.

In addition, three and one-half pounds of soap per person will be available to commercial laundries, institutions, and factories. Extension workers say, however, that it's still important not to hoard soap and to use it carefully without waste.

Industrial employers with ideas about training of employees or prospective workers have been invited to submit their suggestions to the University War Training Office. Under University-U. S. Office of Education sponsorship, war training courses can be organized in any Texas industrial area at the request of an employer.

## Stork Shower Given On Friday Afternoon

A stork shower honoring Mrs. J. H. Moss was given Friday afternoon in the home of Mrs. John Lockhart with Mrs. T. A. McCuiston assisting.

Games were played and a refreshment plate, bearing small storks as favors, was served to the guests.

Attending were Mesdames Fred Barker, Fred Barker, Jr., Odom Smith, Clyde Magness, Jack White, Eugene Coffman, G. W. Atchley, Tom Lindop, Riley Boss, Mattie Purselley, Garlon A. Harper, Elmer Lanford, Donald Rowland, and the honoree.

Gifts were sent by Mary Lou Barker, Mesdames H. D. Bradshaw, T. R. Breeze, Jesse Barton, Olan Schleuter, John Porter, C. E. Sanders, W. T. North, Jr., and Edd Eason.

## Mrs. Tripp Conducts WSCS Study

The Woman's Society of Christian Service of the Methodist Church met Tuesday afternoon, with Mrs. J. H. Barger acting as hostess in her home.

The study lesson of the afternoon was conducted by Mrs. Paul H. Tripp.

A lovely luncheon plate was served by the hostess to Mesdames G. W. Atchley, Ralph Humble, A. D. Smith, Roy B. Ezell, B. N. Graham, G. E. Campbell, O. B. Pipkin, Cora Hughes, B. E. Nobles, G. W. Lambert and Tripp.

## Membership Drive For Legion Auxiliary

Mrs. Foister Rector, of the Parmer County Legion Auxiliary, has announced that this is membership month, and urges all eligible persons to turn in their membership to the Auxiliary.

Eligible are the mother, wife, sister or daughter of a Legionnaire, or a veteran who was killed in action or died from natural causes. Dues are \$1.25.

During the past year, Mrs. Rector reports, 493,999 children were helped at a cost of \$2,364,484, some 18,182 of the children being in Texas. The Auxiliary has aided 37,352 veterans and 102,819 veteran's families at a cost of \$315,808.61.

"Remember that if you become a member you will be able to help in this fine service we are rendering to those less fortunate than we," Mrs. Rector said, in urging all eligible women to join the Auxiliary.

## Lyceum Program Has Good Crowd, Friday

The lyceum program featuring the musical Bentley trio was presented to a good crowd at the Farwell school on Friday evening, and was well received, Supt. J. T. Carter reported today.

The trio gave songs and dances in color costumes, and played numbers on their large marimba-xylophone.

Benefits from the program went to the library of the school.

## Okla. Lane Carnival Is Postponed

Officials from the Oklahoma Lane school announced this week that the Hallowe'en carnival slated to be held there had been postponed indefinitely.

The reason, school has been dismissed for two weeks in order that students may assist in gathering crops.

## Picnic Held Tuesday

The Texico junior class entertained on Tuesday night, honoring the seniors with a weiner roast, held at the sandhills near town. A large number of students were in attendance, and an enjoyable evening spent.

## Farewell Party Given Lutheran Pastor

A number of friends gathered Monday evening in the home of Mr. and Mrs. E. Kalbas, to tender a farewell social to Rev. R. Weiser, pastor of St. John's Lutheran church.

Rev. Weiser is leaving Lariat to go to a pastorate at Eola, Texas.

The evening was spent in games and delicious refreshments were served the guests.

## Boy Scouts Meet at Farwell School

The regular meeting of the Farwell Boy Scout chapter was held on Monday evening at the high school.

Following the business meeting, boxing matches were enjoyed by the group.

Ribbons won at the recent water meet held in Clovis were awarded several of the boys. Elton Young received two first place ribbons, Billy James Moore was given a first and second place ribbon, and Bobby Hart awarded a second place ribbon.

## Week of Prayer Program Sunday

A special program commemorating the annual week of prayer will be presented Sunday night at the Methodist Church, in lieu of the regular worship service.

Members of the two women's divisions of the church, the WSCS and Wesleyan Guild, will be in charge.

## Walther League Meets, Sunday

The Walther League of St. John's Lutheran Church of Lariat met Sunday afternoon in the home of Mr. and Mrs. Eddie Ramm of Muleshoe.

A social hour was enjoyed and the president of the group tendered the league's thanks to Rev. R. Weiser for his work. Rev. Weiser is leaving for Eola, Tex.

Refreshments of pop corn and peanuts were served.

## Guild Meeting Date Set For Nov. 17

The Wesleyan Guild will hold its next meeting on November 17, rather than Nov. 3, Mrs. D. K. Roberts, president, announced today.

The change was made due to conflicting dates for the speaker, Rev. Paul H. Tripp, who will bring an inspirational talk on "Will A Man Rob God?"

## Here Over Weekend

Miss Genevieve Lovelace returned to her studies in nursing training at the Northwestern Hospital in Amarillo Sunday, after spending the weekend here with home folks. Her mother, Mrs. Irion Lovelace, and Mrs. Stanley Hillhouse, accompanied her to Amarillo.

## Visits Relatives

Mrs. Buster Gast and small daughter, Sherry Kae, visited the first of the week with relatives in Farwell. They reside in Hermosa Beach, Calif.

Miss Juanita Petty returned the past Thursday from California, where she had visited her brother.

No doubt your insurance needs checking to see that you have adequate protection.

## NEWS FROM OUR BOYS IN CAMPS

### EASON IN CAMP WOLTERS

Mr. and Mrs. F. M. Eason have received word from their son, Chief Warrant Officer Alton W. Eason that he has been transferred to the headquarters division of the Camp Wolters reception center, at Mineral Wells. Eason has been in the army about 12 years.

### TO SAN DIEGO

Lieutenant Alan R. Rogers, of the Navy, left last Friday for San Diego, Calif., where he is being transferred from Corpus Christi, Texas, after spending several days here with his parents, Mr. and Mrs. B. A. Rogers.

### BACK TO TYLER

Cpl. Lorenz (Shorty) Gast, returned the latter part of the week to Camp Fannin, at Tyler, Texas, after a few days spent visiting his parents, Mr. and Mrs. Karl Gast, in Farwell.

### MARCUS WRITES FRIENDS

Friends here are in receipt of a letter from Andy Marcus, former local produce man, now serving the army in the chemical warfare division. He is stationed in Alabama between jumps around the world. He writes: "back in the good old USA. Went to Australia, had a pretty nice trip, about 20,000 miles. Am on duty guarding chemical munitions and repairing them when they leak, and that is pretty often out on the high seas. . . . Hardly do a thing anymore, have traveled about 60,000 or 70,000 miles since I came in the army."

### HUGHES IN NAVY

Word comes from Mrs. J. B. Hughes of La Porte, Tex., that her grandson, Johnny Hughes, is serving with the navy. He graduated in June from the naval air technical training center at Norman, Okla., and holds a rating of Petty Officer Third Class. He has been on shore patrol duty on the west coast, and

is now somewhere in the Pacific. He recently visited relatives while on leave.

### WANTS GARDEN SEED

Capt. Shelby Jersig, who is now with the U. S. Marines in the Solomon Islands, has written his wife to send him a supply of garden seed. He explained in his letter that the only fresh vegetables they were getting were those grown at camp.

### IN ICELAND

Mrs. J. I. Gober received a letter from their son, Lt. "Buzz" Gober last week, in which he revealed that he was in Iceland. Lt. Gober is in the Air Corps and family members believe that he was en route from Iceland to England when the letter was mailed.

### DIAL IN HOSPITAL

Information received here the early part of the week stated that John Dial, former Bovina boy, who has been out in the Southwest Pacific battle area, was recently returned to San Francisco, where he is reported to be in a hospital. No other details were revealed.

### BEING MOVED

Cpl. Chas. Holland, son of Mr. and Mrs. John Holland, is here on a brief furlough. He has been in the anti-aircraft, at Camp Hulon, Texas, but is being transferred to the air corps and moved to Sheppard Field.

### McDANIEL HERE

Lee McDaniel, grandson of Mr. and Mrs. E. E. Booth, is here on a visit from Camp Wolters, Tex.

Mrs. E. G. Williams and daughter, Opal, of Amarillo, visited relatives and friends in Farwell during the latter part of the week.

## School Carnival Will Have All Trimmings

A rip-snorting Hallowe'en entertainment is promised people of this locality for Friday night, October 29, when the yearly school carnival is held in the Farwell auditorium.

Games of chance and the race for queen honors will vie for interest of the patrons. Classes and various clubs have planned all the trimmings that accompany indoor carnivals, and announced today that there would definitely be no lack of things to entice the visitor to spend his cash.

The race for queen and king honors is being promoted by the high school classes, with each group sponsoring its candidates, and constituents are canvassing the town for votes, selling at one cent each.

There will be no charge at the gate. Time, 8:30.

## Officer Openings are Available in WAVES

With the WAVES expanding at the rate of several thousand a month toward the 91,000 goal announced by the Navy, enrollment of officer candidates is lagging behind regular enlistments, Lieutenant Commander Edward C. Lawson, director of naval officer procurement announces.

While many enlisted WAVES have been promoted from the ranks, there are still vacancies on the officer rolls. Young women with college degrees and some working experience are the most likely officer candidates. Women 21 to 36 are eligible and in some cases only two years of college training are required. Women over 36 with exceptional experience in personnel supervision are also eligible.

Once on duty as full-fledged members of the naval reserve, the officers have scores of different jobs. They are in communications, operations, personnel welfare, instruction,

### Basketball Practice Started In Texico

Some 27 boys were on hand the early part of this week for the inauguration of basketball practice at the Texico school, Coach C. E. Sanders said today, adding, "It looks like we have some good players on hand—both old and new."

Five lettermen are returning to the squad, some of them with several years experience. Included in this group are Drace and Box, guards; Bowers, center or forward, and White and Johnson, forwards. Box, however, will leave for military service in January.

Expected to see action will be Baker and Roop, at either guard or forward, Paul, at center or guard, Boone at forward, and Freeman and Knox at guard positions. Likely looking newcomers are Brooks, Kyle, M. Doolittle, and Hall.

**Season Opens Nov. 5**  
The season's opening game is already scheduled, to be held with the Ranchvale quintet at their court, November 5, just one week from Friday. Other games to date have been planned as follows: Ranchvale here, Dec. 21; Melrose there, Dec. 10, and Melrose, here, Jan. 7.  
Coach Sanders went on to state that he expected to arrange sets of games with Pleasant Hill, Clovis, and probably Rosedale and Grady during the season.  
"Due to travel restrictions," the coach concluded, "we are not planning to have games long distances from home, or ask teams from a distance to visit us here."

#### WILL KEEP HIS HOGS

Fred Barker of the Lakeview community was in town last Friday observing that most farmers were getting rid of their hogs, due to the high price of feed, Barker said that he was going to stay with his hogs. "They pulled me out one time and I believe they will do it again."  
He revealed that he had about 33 head of good hogs on his farm at present.

Tribune Job Printing Is Best

A drastic egg shortage is possible in the U. S. because of the multiple demands for more eggs and poultry. You cannot have high egg production without paying close attention to the feeding of your growing pullets.

#### CLASSIFICATIONS GIVEN

The following classifications were announced by Mrs. Bess Henneman, local draft board clerk, following a meeting of the board on Sunday:

**1-A**  
Judge E. Stone, Carl R. Schlenker, Alvin R. Peach, James E. Hughes, Hop Lewis, Conrad L. Sylvester, Clyde C. Lamar, Henry L. Reynolds, Alfred H. Lea, Thomas E. Crawford, Glyn C. Griffin, Harold V. York.

**2-A**  
Roy Q. Whatley, Garlon A. Harper, Jason O. Gordon, James P. Tip-ton.

**3-A(H)**  
Emmett R. Day.

**4-A**  
Vinton D. Bolte, Eugene E. Gullery, James W. Billingsley, Samuel H. Sides.

**2-B**  
George D. Turner.

**1-C**  
Lloyd L. Thompson, Harold B. Brown, Jed Queen, John A. Wines, J. W. Butler, William B. Kimbrough, Leslie R. A. Gorbies, Kenneth F. Newman, J. T. Hammonds, John L. Collier, Lester L. Rhinehart, John A. Potts, Melvin R. G. Wiley, Emmett R. Daugherty, Bill Green.

**2-C**  
Robert L. Douglas, Jr., Albert C. Taylor.

**3-C**  
Jack L. Wallace.

**3-C(H)**  
George W. Crain.

**4-F**  
Marvin R. Landrum, Edward L. Lang, George B. Baker, Earl Richards, Ernest H. Vestal.

#### PLEASANT HILL

A. J. Moorman took his mother to Panhandle, Tex., where she will visit her daughter, Mrs. Hartzog.  
Harry Reisinger passed on Friday. Funeral services were held at Clovis.

The Ladies Club will sponsor a carnival and program, Friday night at the auditorium. Gate charge will be 5 and 10 cents, and the program will be worth more, if you consider a good laugh worthwhile. Everyone is invited.

Several from this community attended the radio program Saturday night at the Eugene Fields school.

Mrs. Snodderly visited Grandmother Melugin Sunday.

Mrs. Ware visited Mrs. Ellison last Wednesday.

Rev. and Mrs. Graham returned Sunday from Fort Worth.

Mr. and Mrs. Moorman and girls visited Mrs. Dick Martin, Sunday.

### Inspecting Bomb 'Chutes With X-Ray

In addition to providing a descending medium for men and equipment, parachutes also carry bombs. They were used against the Japs in the South Pacific with deadly success. Left: An employee of a war plant in Stoughton, Mass., uses an X-ray machine to inspect bomb parachutes. Right: Another employee holds a 23-pound bomb attached to its parachute which is in the cylindrical container.

### Student Play Will Be Given Nov. 19

Directed by Miss Edith Neil and Miss Bertha Mae Thomas, a group of Farwell high school students are working on a play, "Lights Out", to be presented in the Farwell auditorium on November 19.

The play, as indicated by the title, is a mystery in three acts, crammed full of high suspense and liberally sprinkled with laughs.

Peggy Schleuter takes the part of Agnes Harwood, owner of the late Albert Stillwell's mansion, where the action takes place, and Marilyn Anderson is cast as Doris. Mrs. Harwood's daughter.

A weekend guest in the Harwood home is Carl Emerson (Glenn Phillips), and Peggy Williams is the rich debutante, Vicki Wayne.

Pete Both and Mary Bobst act the parts of Mr. and Mrs. John Bates, guests and prospective buyers of the Stillwell estate, and Norma Jean Thomas portrays Helen Freeland, secretary of the deceased.

Bob Sudderth as Neil Parker, a writer of detective stories, aids in uncovering a secret the old mansion has kept for many years, while Muggins Graham is William Patterson Vaughn III, a real estate agent, whose weak heart and a card game called "murder" fail to mix.

Ella Tucker, Mrs. Harwood's maid, is played by Joan Booth. Benny King (Duane Sprawls) is the

handyman around the estate, who is in love with Ella and intends to marry the girl at all costs.

### 4-H Boys Will Help Control Cattle Grubs

COLLEGE STATION—Texas 4-H Club boys are going to lend a hand in the educational work incident to the cattle grub control program which will be conducted vigorously under the supervision of the Extension Service this fall.

According to J. W. Potts, assistant state agent, demonstration teams will be trained by county agents for the purpose of showing farmers and ranchmen how to carry on the control work.

Grubs, which originate with the heel fly, take a yearly toll of about \$5,000,000 from Texas farmers and ranchmen. But more alarming is the damage to hides and the amount of meat which the pest makes unfit for consumption. It is estimated that 42 per cent, or 840,000 of the 2,000,000 cattle slaughtered yearly in Texas for meat, are "grubby". An average of two pounds is trimmed from each infested carcass, or enough to furnish the meat ration for about 4,600 soldiers for one year. As a consequence this meat is lost to the nation's food stock at a time when it is most urgently needed and cannot be replaced. This loss is exclusive to the reduction in milk production due to grub infestation of dairy

The 4-H teams will put on their demonstrations at farm and other types of meetings attended by farmers. The boys will use an infested animal at demonstrations, or treat a small herd according to proved methods at a community demonstration. After training, each boy will be urged to treat all infested cattle on his home place. If he has time he will be encouraged to help his neighbors. Although the members of the teams will demonstrate mostly the hand dusting method, they will be familiar with dipping and spraying, too.  
"I'd be satisfied if we get 150,000 head properly treated," Potts said. "That would mean a saving of about \$600,000 to livestock owners."

Now in its sixth year, the College of Fine Arts at the University of Texas has grown from the smallest branch of the University to the third largest, outranked only by the College of Arts and Sciences and the College of Engineering.

### SCHOOL BASKETBALL TO BE BIG DRAWING CARD

AUSTIN—Schoolboy basketball is due to be a big drawing card again this year in Texas Interscholastic League competitions, Rodney Kidd, athletic director, has predicted.

The deadline for entering basketball teams is Nov. 15, Kidd announced.

Nearly 800 schools are eligible to enter teams this fall, with 441 schools listed in Conference B, 237 in Conference A and 104 in Conference AA.
