

## 'Welcoming Committee' on Guadalcanal

Manning a 75 mm. gun amidst a tropical setting on Guadalcanal island in the Solomons, this crew of U. S. marines and many others like it poured shells into the lines of the Japanese invaders. The Japs lost heavily in men and equipment as they tried desperately to dent the U. S. lines around the vital Henderson airfield, in an effort to regain it. Meanwhile U. S. warships shelled the enemy's positions on the strategic island.

## October Bond Sales Only Slightly Under

### Sold Trailer Too Soon

If there is any complaint Joe W. Bell, Pleasant Hill farmer, would make about results of want ads in The Tribune, it would be that the results come too fast.

Bell advertised a four-wheel trailer recently with the view of having plenty of time to complete his harvesting work before a buyer could be found. But "I sold it before I was through with it," he jokingly complained.

### Laggards Urged To Get Ration Books

"Just in case you are one of the very few people who had excess sugar on hand at the time of registration for the No. 1 ration book, or if for some other reason you have failed to register and receive such a book, you had better make application for such immediately," John R. Armstrong, Farmer County ration board chairman, said today.

Armstrong pointed out that coupons in the current sugar ration book will also be used for purchase of coffee during the latter part of the year. "If you fail to have the No. 1 book you certainly won't be issued a No. 2 book (which probably will apply to more foods than sugar and coffee) the first of the year," he said.

With meat, coffee, dairy products, and other foods being hinted for rationing, it is a certainty that every person will want to have his coupon book in order "just in case," the chairman went on.

### Coffee Freeze Nov. 21

According to latest information at the ration office, sales of coffee will be halted at midnight, Nov. 20 and rationing of this product is expected to be underway by Nov. 29. "However," Armstrong added, "this is subject to change."

No information as to when meat rationing might be expected to begin has been received here, officials state, adding that the public is being urged to voluntarily keep consumption within 2 1/2 lbs. per person per week.

"This sounds bad," Armstrong concluded, "but statistics show that the great majority of families in the United States do not use more than this amount in normal times."

### HERE FROM OREGON

Mrs. O. P. Van Horn was here the latter part of last week visiting with relatives and friends. She was accompanied by Miss Lelah Payne, who was en route to Ada, Okla., for a visit with relatives. Mrs. Van Horn was formerly Miss Adria Eason of Texico, and is well known here. She is now employed by Montgomery Ward & Company at OReburg, Oregon.

The total sales of War Bonds and Stamps in Farmer county for the month of October came within a few hundred dollars of reaching the monthly quota, G. D. Anderson, chairman of the War Bond Sales Committee, announced here today after final tabulations had been made.

Figures compiled by him reveal that total sales for the month amounted to \$14,755. The quota was \$15,400. Anderson said that sales in Friona during October were above expectations, which brought the total figure near the quota.

This is the first time since the sale of War Bonds and Stamps was inaugurated that Farmer county has fallen below its quota, Anderson said, adding that the quota had been exceeded in every other monthly period. "We would be far over our quota for the year to date," he said, "if we were allowed credit for over-subscriptions."

The War Bond Chairman predicted that little difficulty would be experienced in raising the November quota, basing his prediction on the turn of the war on the other side of the world. "People get more enthused when our forces are really making a showing," he added. The November quota has been set at the same figure for recent months—\$15,400.00.

### Aldridge Winner Of Tribune Radio Prize

John Aldridge, local attorney, was the first to telephone in the correct answer to the question asked over radio station KGNC in Amarillo, Sunday, featuring a program of local characters and sponsored by this newspaper.

Quite a number of calls came through, but only two of the listeners had the correct answer. W. J. Mathews, Texico mayor and business man, telephoned in the only other correct answer.

The question, which has been the subject of much local discussion since the program was put on the air Sunday morning, was: "How many traps does it take to catch a gopher, and why?" The correct answer is "Two", for the reason that the traps must be set while the gopher is in his burrow and since he digs two openings to his bed, a trap must be set in each entrance.

### NEW PREACHER HERE

Rev. Paul H. Tripp, newly named pastor of the local Methodist church, and his wife, arrived here Friday of last week, and he was in charge of services at both the morning and evening hours. Rev. Tripp comes here from Toyah, Texas, where he served on the Toyah-Balmorhea circuit the past two years. He expressed himself as being well pleased in his new field of work.

Tribune Job Printing Is Best

# Parmer Boy Wins State Recognition

## Town Council Votes Meter Assessment

The problem of financing the Texico Fire Department to the extent of actual operating expenses moved nearer a solution last week when the Texico Town Council, in regular session, voted unanimously to place a ten-cent assessment on each water meter in Texico, the money to go to the credit of the fire department.

The action was taken, it is understood, on the condition that the board of directors of the Texico-Farwell Waterworks take like action with reference to water users in Farwell. To date no such action has been taken with reference to the Farwell consumers.

G. D. Anderson, chairman of the board of directors, stated Monday that he felt there would be no opposition to the move in Farwell, giving it as his opinion the water board would take action on the matter before the close of the present week.

It has been estimated that a ten-cent meter assessment would raise between \$25 and \$30 per month, and the money will be used to pay the actual operating expenses of the Texico Fire Department, which furnishes fire protection to both Texico and Farwell.

Lack of funds and shortage of men has threatened the complete abandonment of the fire department during recent weeks, and this means of financing the department is looked upon as a solution to that particular problem. However, there is still a need for additional fire fighters, according to Chief Ira Sellman.

### Turkey Market Opens At High Quotations

The annual Thanksgiving turkey market opened here the first of the week with local buyers offering 22 and 24 cents for No. 1 birds on foot, which is the highest figure in recent years.

A price of 24 cents was posted for No. 1 hens and 22 cents for No. 1 toms. Hens grading No. 1 must be free from flaws and weigh 8 pounds or better; toms must top the scales at 1 pounds. Old toms are quoted at No. 2 prices, which, generally, is half-price.

Local buyers predicted that there would be only a limited number of birds ready for the Thanksgiving market, with the rush expected for the Christmas season. The number of turkeys, they believe, is about up to normal, but farmers are too busy with crop harvesting to get them to market at this time.

Buyers expressed the opinion that prices for Christmas birds would be equally as good or even better, and will give the local crop time to put on additional flesh.

### Palmateer Auction Set For Nov. 17th

Setting forth that he is "going to the Army", R. H. (Ralph) Palmateer is advertising a general close-out auction of all his goods and farm land at his farm 18 miles north of Farwell on Tuesday, Nov. 17.

Featured in the auction will be 55 head of good cattle, a number of excellent farming implements, feed, household goods and other items.

The sale is scheduled to get underway at 10:30 a. m., under the direction of Col. T. E. Harrison, Clovis auctioneer. The ladies of the Rhea community will serve lunch at noon.

A complete list of the items to be offered will be found in this issue of The Tribune.

### IN WAR WORK

Mrs. Blanche McDaniel left here on Wednesday for Denver, where she will go into war industry in the radio corps. Her son, Lee, is now engaged in the same type work in Las Vegas, N. M. Both recently completed special courses for this work.

### GETS RED CROSS CARD

Miss Anna Hastings of Bovina has been authorized to teach Red Cross Nutrition and Canteen Classes, according to Mrs. Lillian J. Smith, of the Midwestern Area of the Red Cross. Miss Hastings received her card the first of the week.

We have no idea whether or not this war will be followed by another depression, but we think it's a good idea to plan your affairs that way.

## Drafting of Farmers Eased Up By Order

New Selective Service regulations received here this week by the local board gives rise to the belief that in the future drafting of farmers will be eased up in this county.

Farmers who are engaged in the production of dairy products, live-stock and poultry on a large scale are to be given special consideration, it was revealed in a new bulletin.

Producers of feeds whose products are used for the primary purpose of feeding stock and poultry on the farm where it is produced are also favored in the new regulations.

However, one board member pointed out, the registrant must show that he "contributes in a large measure" to the national food supply in order to be considered for deferment.

### Furloughs Shortened

A new regulation also shortens the regular two-week furlough to one week for men who have been accepted at the examining station in Lubbock.

No Parmer county men will be sent for induction during the month of November, it was announced through local Selective Service officials.

### 16 Registrants Take First Physical Exams

Sixteen registrants—12 of them Parmer county boys and four from other boards—took their first physical examinations the first of this week as the initial step in determining their acceptance as members of the armed forces.

Seven local boys, and four transfers to this board were examined by Dr. V. Scott Johnson on Monday, while five Parmer county selectees were transferred to other boards for their first exams.

Those to be examined here Monday include James Weldon Barnett, Wm. Morgan Billington, Fred Gus Langer, Harry Morgan Mead, Ian Murry Hendrickson, Chas. Richard Bobst, John Garner Hartwell, Neal Hardin Emmons, Harley Bryan Payne, Frank Edward Barker, Billie Mac Castleberry.

Parmer county transfers to other boards were Jess Gordon Mooney, Charley Arley Stone, Leon David Sudderth, Bazzie Woodrow Gilbert, Bennis Wc. Mann.

Transferred here from other boards.

Don't tell us there is a shortage of textiles after the way the ladies have been saving material on dresses all these years!

# Gas Rationing Postponed Week

A last-minute change in the dates set for gasoline rationing registration gives motorists another week to drive as much as they can afford, with the latest official announcement putting registration dates on Thursday, Friday and Saturday, Nov. 19, 20 and 21.

Actual rationing of gas is now scheduled to begin December 1.

John R. Armstrong, chairman of the Parmer office, gave it as his opinion that the postponement was necessary because complete forms are not yet available to local boards.

Teachers of the county have been charged with the responsibility of seeing that application forms are filled out correctly, and registration will be conducted at the schools.

Passenger car operators have been asked to obtain application forms at a tire inspection station (practically any filling station in the county) and have the necessary information on these forms before appearing to register, in order that such registration may be speeded up.

### Serial Numbers Required

On the application forms, registrants are asked to note serial numbers of the five tires allowed per car, and if an operator has idle tires serial numbers for these must also be given.

However, motorists are given un-

DONALD WATKINS, 4-H club boy of Oklahoma Lane, who has been awarded a trip to the National 4-H Congress in Chicago.

### Texico School Closes For Harvest Work

With attendance having dropped considerably due to the current cotton and harvest rush, the Texico board of education voted to dismiss school for the current week, at a meeting last Thursday night.

School children of practically every age are busy in the fields this week, since the shortage of labor has put farmers in the position of taking what they can get, and the majority of operators express themselves as pleased with the work of the 'teen-age and younger children.

Both Farwell and Texico will resume classes on Monday, 16th. The Farwell school has been out since October 30.

### Grading Work Complete For Railroad Trackage

The preliminary grading work for the double-tracking program of the Santa Fe railroad between here and Clovis was completed the first of the week and heavy machinery used in the work was shipped out of here Tuesday.

Local railroad officials had no announcement to make as to when laying of steel would be expected to start, except to say that it ought to get under way shortly. The W. B. Crow buildings were being removed from their location this week.

Eighteen-year-old Donald Watkins, son of Mr. and Mrs. G. T. Watkins of the Oklahoma Lane community, hung up another laurel in his 4-H club work this week by winning a trip to the National 4-H Club Congress in Chicago.

Watkins entered the Westinghouse Rural Electrification contest open to 4-H club boys, according to the agent, Carlton A. Harper, and received the award for Texas. Only one boy was named in the state, Harper pointed out.

In the contest, the lad, who has done six years of 4-H club work, entered record books and his own story on the use of rural electricity at his farm home, Harper stated. During the six years Donald has been a 4-H clubber he has carried pig, crop, bull calf and Shorthorn heifer demonstrations.

### Wins At Plainview

The last four years his project has been on Shorthorn heifers, which he entered in open class at the Plainview shows, taking second, fourth and fifth places for his various entries.

Prior to receiving this honor, Watkins had received a medal last year on keeping whole farm records and was a member of the Parmer County dairy judging team which placed first in the district and second in the state just recently. He is carrying on a tradition of the family established by his older brother, Gilbert, who likewise won a trip to Chicago, along with other awards.

No definite dates for the Congress were available here, but the letter from L. L. Johnson, state agent, announcing the award, indicated that the Parmer boy would "leave Texas about November 29th" for Chicago, to join 4-H clubbers from over the nation in the annual Congress.

### HOME FROM VACATION

Mr. and Mrs. O. C. Sikes of the Sikes Motor Company returned to Farwell Thursday of last week after an absence of three and one-half months, during which time they visited from the West Coast to the Atlantic seaboard.

They went from here to San Diego, Calif., and back across the continent to New York City, visiting places of interest en route. They are making preparations to reopen their place of business at an early date.

### RETURNS FROM CONVENTION

County Judge and Mrs. Lee Thompson and County Commissioner E. W. McGuire returned home Saturday from Mineral Wells, Tex., where they attended the annual meeting of the County Judges and Commissioners Association of Texas, in session there Nov. 4, 5 and 6.

Judge Thompson said that the attendance this year was not up to normal, but gave it as his opinion that the convention was the most profitable he had ever attended.

You don't have to be a fisherman to miss a good catch because of a weak line.

### Farwell

Regular inspection of tires on cars is required, with the first checkup "before Jan. 31, 1943". Thereafter, "A" card holders must have inspection of tires every four months, while operators having "B" and "C" books must have tire inspection every two months.

### War Certificates Necessary

Operators of trucks, busses and taxis must have certificates of war necessity before applying for gas ration books. Each certificate states the number of miles the vehicle will be allowed to travel during a three-month period, and also gives the amount of gasoline needed to cover such driving.

### Tire Situation Reviewed

A brief resume of the tire eligibility list under the reallocation plan was also given by the chairman, which differs very little from that now in effect.

Eligibility classifications will remain about the same, Armstrong said, with the issuance of new, retread and recap tires being determined on the amount of driving allowed per car. For instance "A" ration books entitle eligible applicants only to retreads or recaps, while "C" book holders may draw new tires of various grades.

## PLEASANT HILL

Mr. and Mrs. Dick Martin visited her mother, Mrs. A. J. Moorman, and her sisters.

Mrs. L. L. Trichel and children of Clovis, were visitors with Grandma Melugin and Mrs. Joe Singleterry.

Mr. and Mrs. Service, from Amarillo, visited her parents, Mr. and Mrs. Phillip Kays, Sunday.

There were about 15 ladies present at the club, which met with Mrs. Heinz last Thursday. Next club meeting will be with Mrs. Maurine Horton, on Nov. 19, with a Christmas party to be held.

Mr. and Mrs. W. W. Williams of Deinsmoir, Calif., came in for a short visit with her parents, Mr. and Mrs. J. M. Langford.

Mrs. Mamie Hightower returned from San Antonio, Tex., Monday.

Mrs. Lucy Barnes, who has been in California the past few months, has returned and is at Mrs. Curtis' place now.

Miss Jo Odrienne Bailey was married Sunday to Bud Tice of Clovis.

The report is out that Monk Horton is an expert on car repairs. He dragged a school bus, which has stopped six miles north of the school, clear into Clovis last week, only to discover that it was out of gas.

Mr. and Mrs. Carl Hartzog are leaving Thursday for Clarendon, to visit their daughter.

Mr. and Mrs. Bob Rutledge visited Mr. and Mrs. Joe Singleterry, Sunday.

Miss Shirley Spearman is giving a bridal shower for Jo Adrienne Tice, today (Wednesday).

### TIRE BOARD REPORT

The Parmer County Ration Board, in session Nov. 4, authorized the purchase of the following tires, tubes and retreads:

F. C. Wagon, one truck tire.  
L. W. Smith, one truck tire, one tube.

Mrs. Marvin Reed, two retread passenger tires.

T. A. O'Brian, one pickup tire, one tube.

J. H. Birchfield, two retread passenger tires.

Euell Hart, one retread passenger tire.

J. F. McCutchan, two retread passenger tires.

L. R. Hand, two retread passenger tires.

Gail Haney, two retread passenger tires.

Roscoe Ivie, one retread passenger tire.

Finis Jennings, one retread passenger tire.

P. M. Helmke, one retread passenger tire.

Melvin Sachs, one retread passenger tire.

C. C. Veazey, two retread passenger tires.

Mrs. R. A. Hamlin, five retread truck tires.

B. K. Greeson, two truck tires, one tube.

G. B. Buske, two retread truck tires.

Mrs. Mae E. Abbott, one retread passenger tire.

C. M. Splawn, two obsolete tractor tires, two tubes.

Nelson Foster, one pickup tire, one tube.

J. P. Tate, one obsolete trailer tire, one tube.

Herbert Potts, two obsolete passenger tires.

R. E. Everett, one retread truck tire.

Willis Parker, one obsolete passenger tire.

F. E. Kepley, one pickup tire, one tube.

C. E. Briscoe, two obsolete trailer tires.

### Bufs Feature Brother Acts In Basketball

CANYON—Brother acts will be featured this year by the "World's Tallest Basketball Team" of West Texas State in a schedule which will include a tussle with Long Island University in Madison Square Garden on January 28.

Of these pairs, the most sensational are Charles and Clark Johnson guard and forward, in pre-season scrimmage directed by Captain Bill Stockman, these skyscraping Texans have held the lead in scoring. Clark Johnson, nicknamed "Deacon" because he is studying for the ministry, has shown an uncanny ability to hit the basket from a few feet inside the foul line. On the floor he is a jack-in-the-box, with a nervous prancing which many fans find highly amusing. Charles Johnson, called "Chat" by teammates, specializes in the longer, set shot. Captain Stockman is the other starting guard.

Working at center is 6 foot 9 inch Ray Ellefson of Minneapolis, who appears to be a worthy successor to Charles Halbert, 6 foot 10 inch center who was lost by graduation. Another forward is Ledru Jacobs, giant wheat farm youth, and successor to All-American Price Brookfield.

The varsity squad has only with difficulty been beating the now eligible freshman squad, which includes Boyce and Cloyce Box, 6 foot 4 inch brothers from Jonesboro, Tex. The squad has consistently beaten last year's ineligible in workouts.

Last season the Bufs won 28 out of 30 games, and the Border Conference title.

### Foreign News Report

"Car of the Future" from MECHANIX ILLUSTRATED Magazine, by Marial & Scull, N. Y.

## what will your new car be like?

GREAT CHANGES in automobiles are certain after the war. What will they be?

Will your post-war car be teardrop in shape? ... Will it have sealed plastic windows to preserve air-conditioned interior temperature? ... Have "shiftless" transmission? ... Longer-lasting synthetic rubber tires? ... A smaller engine using higher octane gasoline to deliver greatly increased horsepower per pound of weight?

The answer to the first of these questions is still uncertain. But to the two final queries, synthetic tires and engine power, Phillips Petroleum Company can suggest affirmative replies.

Phillips is prepared for the coming great improvements in personal transportation, because long

before Pearl Harbor, Phillips scientists were engaged in never-ending study, research, experiment, exploring the limitless possibilities of petroleum chemistry.

Slowly but surely, there emerged new processes, new products, new benefits. Even before the war, much of this purposeful knowledge was channeled into the national defense effort. Now, all of it has been "enlisted" for the duration.

Phillips vast resources of raw materials and Phillips knowledge have made the company one of the largest suppliers of 100 octane aviation gasoline to the Army Air Corps, the Navy, and the United Nations' air forces; have made the company an important participant in the U. S. synthetic rubber program.

As a user of Phillips 66 Poly Gas and Phillips 66 Motor Oil, you surely share with us the pride that comes of knowing that Phillips is doing its part in the Nation's victory effort.

### Phill-up with Phillips for Instant Starting

GOING TO THE ARMY!

## R. H. PALMATEER'S FARM SALE

Tuesday, Nov. 17

STARTING AT 10:30 A. M.

At my place 18 miles North of Farwell, Texas, and 1/2 mile East of the State Line

### 55 CATTLE

- 12—good Milking Shorthorn cows, ages 2 to 5 years.
- 8—Whiteface cows, ages 2 to 5.
- 1—Jersey cow, fresh in two weeks.
- 1—Jersey heifer, fresh in two weeks.
- 1—Jersey cow with calf.
- 2—springer Jersey heifers.
- 1—Shorthorn bull.
- 3—Shorthorn bull calves, 9 months old.
- 3—Steel calves.
- 3—Shorthorn heifers, fresh in 30 days.
- 4—Durham coming 2-year-old heifers, fresh about April 1st.
- 1—Durham heifer with young calf.
- 4—half Whiteface and half Durham heifers.
- 8—Durham heifers. These heifers are from extra-good cows.
- 1—Whiteface heifer.
- 1—Holstein cow.
- 1—Holstein heifer.

### 1—Shetland Pony

### 40 CHICKENS

About 30 Game Hens and about about 10 Game Roosters. These are mixed between the Warhorse and the Trailer Games.

### FARM MACHINERY and EQUIPMENT

- 1—J. I. Case tractor, Model DC, with rubber tires.
- 1—3-foot Sanders one-way.
- 1—Dempster wheat drill.
- 1—6-wheel trailer, with 20-foot feed rack.
- 1—2-wheel stock trailer.
- 1—1941 Super Deluxe Ford automobile.
- 1—Allis-Chalmers combine.

- 1—Baldwin combine.
- 1—Cream separator.
- 3—Sled attachments for lister.
- 1—Windmill tower, with 3-inch pipe, casing and sucker rod.
- 1—House, 14 ft. x 28 ft.
- 1—Barn, 30 ft. x 30 ft.
- 1—Trailer house, 14 ft. x 20 ft., on iron wheels.
- 2—Miles wire and posts.
- 3000—Pounds of Tolar sand.
- 1—Steel stock tank.

### FEED

- 20—Tons of ear corn.
- 20,000—Bundles of cane, in stack, with good grain.
- 1,500—Bundles of African Millet in the stack, with good grain.

### HOUSEHOLD GOODS

- 1—Superfex Refrigerator, 8-ft. size.
- 1—Butane gas stove (Tappan).
- 1—50 BTU floor furnace.
- 1—500-gallon Butane tank.
- 1—Public address machine, with loud-speakers.
- 75—Phonograph records.
- 1—Radio.
- 1—Violin.

### LAND

- 80—acres of deeded land, well improved, all in native grass.
- 160—acres of grass land, leased for a period of years. This adjoins the 80 acres above.
- 300—acres of wheat which is on leased land, and the rent has been paid. This place can be bought on terms as above.

SALE WILL BE HELD RAIN OR SHINE!

TERMS CASH—No checks accepted for less than \$20. On land—half cash, balance terms; on wheat half cash, balance terms.

FREE COFFEE—Bring your cups. Club ladies of Rhea community will serve lunch

# 4-H Club Achievement Week

## AGENTS ANSWER QUERY ON 4-H CLUB WORK

Since this week Nov. 8 through Nov. 14 is designated as Achievement Week for 4-H clubbers, the Parmer agents, Miss Elsie Cunningham and Garlon A. Harper, have submitted some pertinent facts concerning the 4-H clubs.

In answer to the question: "What is 4-H club work?" the agents reply:

Four-H club work is that part of the agricultural Extension Service which deals with rural youth. Young people between the ages of 16 and 12 in a community organize themselves into a club with their own officers and own local program with the guidance of an adult leader, who serves voluntarily. Each member has an individual demonstration or individual goals centering around real live problems of the home or farm.

They raise livestock, crops, make clothing, prepare food, etc. They serve as officers and on committees of their club. They have camps, plays, games, songs, exhibits, tours, hikes and social meetings. They work and play together. They learn to cooperate by cooperating.

Organizers in the county are the Extension agents assisted by volunteer adult leaders who help with the supervision.

## OFFICIALS NAMED FOR BOYS 4-H CLUBS

Each year the boys in the different clubs over the county elect their officials for the year. It is the duty and responsibility of the boys elected to see that their club makes a "go" of the work during the year. These boys consider it an honor to be elected as an official of their local club. The boys are getting a lot of good experience in handling meetings and learning to talk before an audience.

The following is a list of the officials of each club in the county:

Midway: Floyd Templar, president; George Jesko, vice president; Danny Koelzer, secretary.

Bovina: Sam Johnson, president; Laurence Rhodes, vice president; Jimmie Charles, secretary.

Farwell: Warlick Thomas, president; R. A. Cassidy, vice president; Cary Joe Magness, secretary.

Friena: A. V. Warren, president;

## GOALS ARRANGED FOR PARMER COUNTY CLUBBERS

"The program for every loyal American in 1943 is victory," said Miss Elsie Cunningham, demonstration agent today, "and Parmer county 4-H girls are in the fight to win the war and join 1,500,000 other 4-H clubbers in carrying out the 'Seven Point Victory Program' for 4-H clubs."

Stated briefly, the 1943 goals for girls 4-H clubs are:

1. Produce and conserve needed foods.
2. Take good care of everything, waste nothing.
3. Buy war bonds and stamps. Take part in all war activities.
4. Develop own health and that of the community.
5. Work hard to relieve the labor shortage.
6. Acquire useful skills to meet wartime needs.
7. Build family, community and national life worth defending.

## MEETINGS ANNOUNCED

Elsie Cunningham and Garlon A. Harper, Parmer County Extension Agents, announce that meetings with 4-H clubs are scheduled in November on the following dates:

- Bovina, Nov. 30, 10:00-11:00.
- Farwell, Nov. 23, 3:30-4:15.
- Friena, Nov. 24, 4:00-5:00.
- Lazbuddy, Nov. 25, 10:30-11:30.
- Midway, Nov. 25, 9:00-10:00.
- Oklahoma Lane, Nov. 23, 10:00-11:00.

Rhea: C. L. Calaway, Jr., president; Glenn Harrington, vice president; Keith Brady, secretary.

Oklahoma Lane: Donald Watkins, president; Scott Gober, vice president; Leon Grissom, secretary.

These boys are the club officials for 1943 and will preside over the 135 club boys who are enrolled in the county for next year.

Mills for grinding wheat and corn were established by the first white settlers of Texas. Manufacture of lumber also began at an early date.

## BOYS 4-H CLUB WORK IN PARMER COUNTY

The week of November 7-14 has been designated as National 4-H Club Achievement Week. This naturally makes anyone who is closely connected with 4-H club work wonder just what has been achieved by 4-H club boys in Parmer County. When such a thinking process is set in motion we can find many worthwhile things which have been accomplished by these boys.

However, before we begin to name some of these achievements let's think for just a while what 4-H club work for boys is, and what it can do when the organization works well.

The motto of the 4-H Club is: "To make the best better". That phrase pretty well covers the field. The 4-H Club is an organization of rural young people who are interested in learning more about how to improve living conditions, how to make better American citizens, and how to make more money in agriculture as a profession. Now, many times we fail to get all these aims and accomplishments across to all boys with whom we work, but you will find it very difficult to find a boy who has been in 4-H club work who has not learned a part of one of these items from his work.

Now for some of the accomplishments of these boys in Parmer County during 1942.

First, we had approximately 130 boys who were enrolled in the 4-H Club and who selected special demonstrations such as beef cattle, swine, dairy cattle, poultry, crops, etc. Each of these boys studied bulletins and discussed in their meetings better ways of producing these animals and foods. They talked with their adult leaders and their county agricultural agent about their demonstrations and actually put into practice some of the better ways of handling their demonstrations and improved on the manner in which their fathers had handled livestock and crops.

Second, the boys learned to organize in a democratic manner with club officials elected by them and who served them. The boys learned a lot in this way about how to get up and talk before an audience. They learned a lot about putting everything they had into getting the group to accept their personal ideas, and then learned to fall in line and accept the decision of the majority whether it was in line with their idea or not.

Some of the more outstanding examples of what was done by individual 4-H club boys during the year gives a clear picture of the work which is being attempted in the county. Two boys, Donald Watkins and Leon Grissom, prepared and demonstrated a talk on the production of clean milk. These boys entered a contest and placed first in the district and second in the state. From their demonstration they learned more about the job themselves, as well as showing others the better ways of handling milk.

Donald Watkins completed six years of 4-H club work and entered his records in a national contest, where he was awarded a trip to the National 4-H Club Congress in Chicago. Donald says that he has learned a lot and has made quite a bit of money from his livestock demonstrations but that this trip will be worth all the trouble he has had even if he

## 4-H GIRLS NAME OFFICERS FOR COMING YEAR'S WORK

In addition to developing desirable standards and ideas for homemaking and family life 4-H club girls learn citizenship and leadership through participation in regular club work, according to Miss Elsie Cunningham demonstration agent.

By such work the club girl learns the meaning of the "rule of the majority" through settling questions which arise in the organization, she learns to appraise individual ability by helping to select club officers and has an opportunity to verify her judgment by watching them at their work, the agent points out. In addition, the girls learn parliamentary procedure, cooperation, leadership and responsibility by holding office and serving on club communities.

Each of the seven organized 4-H girls' clubs in Parmer County met last month and elected officers. These leaders have already begun their training and received individual help from the agent.

Officers in the various clubs are: Bovina: President, Camilla McSpadden; vice president, Shelby Ann Jeris; secretary-treasurer, Rosa Lee Denney; reporter, Inell Elliott; parliamentary, Nancy Lou Wilson; song leader, Delores Wilson; sponsor, Mrs. G. W. Williams.

Farwell: president, Barbara Ann Bobst; vice president, Bobby Lou Ford; secretary-treasurer, Rosamond Booth; reporter, Vera Lee Morgan; parliamentary, Marcia Ann Johnson; song leader, Ella Juanice Bradshaw; game leader, Joan Allison; sponsor, Mrs. Effie Johnson.

Friena: president, Betty Lou Talkington; vice president, Tomilou Urner; secretary-treasurer, Jackie Walker; reporter, Gladys Roberts; parliamentary, Camille Elmore; song leader, Janice McFarland; sponsor, Mrs. H. H. Elmore.

Lazbuddy: president, Laura Seaton; vice president, Maxine Eubanks; secretary-treasurer, Betty Jo Tarter; reporter, Wenonah Thorn; parliamentary, Joy Elaine Daniels; song leader, Clara Treider; sponsor, Mrs. Glenn Dunn.

Midway: president, Jackie Mae

had not been paid in any other manner. Other awards which were won by the boys in 1942 include a gold medal awarded to C. L. Calaway for outstanding work in meat animal production, a medal awarded to A. V. Warren for outstanding 4-H club work, and a medal awarded to C. L. Calaway for home beautification.

We think our boys have had a very successful year, but they aren't satisfied. But then, who could be completely satisfied with a motto like the 4-H club boys have—"To make the best better."

Lawler; vice president, Agnes Jesko; secretary-treasurer, Jean Horner; reporter, Mariana Wiley; parliamentary, Juanita Hill; song leader, Dorothy Koelzer; sponsor, Mrs. Joe Jesko.

Oklahoma Lane: president, Barbara Foster; vice president, Vernell Berry; secretary-treasurer, Billie

Jean Roach; reporter, June Christian; parliamentary, Jo Veta Billingsley; song leader, Joan House; game leader, Billie Corine Christian.

Rhea: president, Lydia Marie Drager; vice president, Janie Bell Taylor; secretary-treasurer, Lucille Hoffman; reporter, Irene Schueler; sponsor, Miss Vergie Crowell.

## Smart Styles in TOPCOATS For Fall

ALL SIZES

Why not get the Topcoat you want this year, and save money besides?

When you buy a JACK HOLT topcoat you're sure of getting the best that money can buy and you are sure of longer than ordinary wear. It's money in your pocket to buy the topcoat you know will give you longer and better service. You'll find just the coat you want at JACK HOLT'S!

We now have available a limited stock of 1942 ALL-METAL I.E.S. Floor Lamps. As far as we can tell, these are the last ALL-METAL Floor Lamps we will be able to offer to you for the duration. Take advantage of this last opportunity. Come in today and make your selection.

These lamps are made in attractive styles in finishes of Ivory and Gold, Bronze and Silver. Shades in matching colors made of parchment, cloth on parchment, and all silk. For the convenience of our customers, terms may be arranged.

Southwestern PUBLIC SERVICE Company

# "A Phoney Penguin...if I ever saw one!"

**IT'S FUN** but it's a phoney, says this skeptical young student of Spheniscidae (penguins, to you). With one poke of his inquiring finger, he established the fact beyond question.

Now that cars must last for the duration, many a motorist wishes that he could with as little doubt and effort pick a quality oil.

You can! Phillips, one of the leading independent petroleum organizations, makes a frank and simple statement which does away with doubt. If you want our best oil, remember we tell you frankly that Phillips 66 Motor Oil is our finest quality... the highest grade and greatest value... among all the oils we offer to car-owners like yourself.

Don't forget that the easy way to spot the genuine article is to look for the name, Phillips 66 Motor Oil. Do that whenever you make either the seasonal or regular 1,000-mile oil change.

**IT'S PHILLIPS FINEST QUALITY**

## THE FOOD OUTLOOK

**COLLEGE STATION**—What farm families can produce for themselves will largely determine what kind of diets they will have in 1943, Louise Bryant, specialist in home manage-

ment, recently told the headquarters staff of the A. & M. College Extension Service on her return from the Annual Outlook Conference in Washington, D. C.

The outlook conference is sponsored annually by the U. S. Department of Agriculture to give research and educational workers a preview of "what's ahead" for agriculture and home economics.

Shortage of containers, labor and transportation mean consumers will use more fresh fruits and vegetables next year, the specialist added. The armed services and lend lease beneficiaries will get the bulk of the country's fruit and vegetable pack plus a large portion of commercially dehydrated fruits and vegetables, she explained. The supply of frozen foods available to civilians also will be limited, although ice cream factories and fur storage houses likely will be converted to sharp freeze and storage plants.

"We're going to buy foods in bulk, too," Miss Bryant reported. For instance, since no canned soups will be

available homemakers will either prepare their own or "buy it at the nearest grocery store and take it home in their own glass jars".

Miss Bryant added that rationing will affect the higher income groups more than the lower. She predicted establishment of a point system of rationing which would allow purchases according to food groups, such as proteins, for example. Marked increases in food costs are not possible, the specialist said, since 90 percent of the nation's food prices already are under control.

## SAVE LEAVES FOR COMPOST

**COLLEGE STATION**—Fallen leaves, dead grass and other vegetation about the place is Nature's plant food in the making. Don't burn it, says J. F. Rosborough, horticulturist of the A. & M. College Extension Service. Save all vegetation and make it into a compost. Composted vegetation improves the texture of the soil and prevents it from becoming hard and crusty. The more compost added to the soil the better. It is especially helpful in maintaining high quality in growing vegetables, Rosborough says.

In making compost, prepare a simple frame enclosure, then put down a layer of lawn trimmings, weeds, or other vegetative matter and cover with a thin layer of dirt.

Add water if the material is dry. Let the pile remain for about 10 days or two weeks, then fork it so that the portion at the bottom will be on the top. After two or three spadings the heat will have disappeared and the material then is ready for use. The decaying process will destroy the fertility of weed seeds.

Compost has sufficient nitrogen, especially if a little barnyard manure is mixed with it. But it likely will be deficient in phosphorus and potash. In order to supply adequate plant food, Rosborough suggests mixing the phosphorus with the compost and plowing or spading it six or eight inches into the soil. Additional nitrogen and potash can be applied just prior to sowing the seed. For growing carrots, beets and cabbage in winter gardens, compost is a valuable addition to the soil, the horticulturist says.

## ACHIEVEMENT WEEK IS NOTED

**COLLEGE STATION**—Texas 4-H Club girls have collected enough scrap rubber for seven battleships, 72 28-ton tanks, with a tire for a bomber thrown in, Onah Jacks, state girls' club agent of the A. & M. Extension Service, announced in a radio broadcast which opened National 4-H Achievement Week on November 7.

In addition, 4-H members salvaged enough steel for 738 light tanks and enough waste paper to make more than 391,000 cartons for anti-aircraft shells. "With bonds and stamps you've bought, Uncle Sam can buy more than 700 machine guns with 10 rounds of ammunition each," Miss Jacks said in her radio talk addressed to nearly 38,000 club girls. The state girls' club leader said that 4-H girls comprise a land army over 26,000 strong, and they are "on the job today—plowing, gathering crops, caring for chickens or livestock, or doing other extra farm work." In their ranks also are about eight and a half thousand fire fighters and 600 air raid wardens and plane spotters.

Besides growing food for home use all through the year, 4-H Club girls have preserved enough food to feed 1,700 soldiers for a whole year. And there are enough 4-H club girls who have studied first aid and home nursing to supply each of those soldiers with two nurses each... "and there would be more than 400 nurses left over," Miss Jacks said.

Concerning the national observance she said, "This 4-H Achievement Week is...

## FIGHTING FOOD WASTE ON THE HOME FRONT

Mary Elizabeth Stanford  
Nutrition Committee Member  
One slice of bread molds, one carrot shrivels—small loss, isn't it?

But multiply that loss by our nation's 34 million homes. Thirty-four million slices of bread, 34 million fresh vegetables can help nourish many families and fighting men. Little everyday waste also makes big yearly losses in your own family funds.

Help America—Help yourself by fighting food waste on the home kitchen front. Here are some suggestions for getting your money's worth:

1. Buy only perishable products which you can use in the next few days.
2. Prepare only enough food for your family to eat in one day. Too much re-heating of foods destroys food value.
3. Learn proper places to store food to keep it from spoiling.
4. Meats—Keep fresh and cooked meat in coldest part of refrigerator. Keep clean, cool, and covered. Cured meat that is uncooked should be placed in dark, cool, dry, airy place. Leave wrappings on until ready to serve. Fish spoils in a few hours at room temperature. Cook immediately or keep very cold until ready for use.
5. Milk—Keep clean, cool and covered as you do meat. Put away first after each meal. Keep foods with strong odors away from milk. Use suds, sun and scald milk vessels often. Observe the same rules for milk products—cream pies, custards, cheese, etc. Use milk in quantities.
6. Eggs—Wipe soiled spots with dry cloth, do not wash. Keep in cool place. Washing destroys the protective coating which keeps out air and odors.
7. Vegetables—The fresher a vegetable is, the better it tastes, the less waste and more vitamins in it. Keep cool and do not bruise.
8. Fresh fruit—To pinch, bruise and break the skin will let the enemy rot come in. Wash just before using and keep cool.
9. Stop spoilage by: Storing bread...

ment Week is intended to give you and others an opportunity to look over your work—see where it's good and make it better. This week is time... to reset your sights and to go at it again to do a finer job for your country and yourself than you've ever done before."

cake and cookies in ventilated box To keep from molding in hot weather place in refrigerator.

Buy sparingly of flour and cereals during hot months. At all times store in tight containers.

Mold and weevils spread, so keep containers clean.

10. Frozen foods begin to spoil rapidly when thawed. Keep frozen until ready for immediate use. Do not re-freeze.

11. Save every drop and crumb—fats, vegetable juices for soups, fruit juices for cold drinks, bread and cracker crumbs for dressing and scalloped dishes. Thoroughly dried crumbs can be kept in a tight container for a long time.

## Health Notes

By Texas Department of Health

**AUSTIN**—In discussing seasonal health hazards for young children today, Dr. Geo. W. Cox, State Health Officer, stated that babies and young children need as careful protection now against winter complaints as they do in hot summer weather against "summer complaint".

Influenza, tonsillitis, pneumonia, bronchitis, and asthma are included among those diseases which may be dangerous winter illnesses among young children, since they affect the respiratory or breathing system. Such diseases as pneumonia may develop from a neglected cold, they may follow as an after-effect of measles or whooping cough, or they may occur suddenly and with very little warning. These diseases of the respiratory system are more prevalent in winter than in summer and are much more difficult to combat than digestive ailments such as summer complaint.

"These winter diseases are particularly dangerous to babies and young children," Dr. Cox stated. Nearly all of them are spread through the secretions from the nose and mouth. Children not in vigorous health are naturally more susceptible to these complaints and the first line of defense," Dr. Cox cautioned, "is to strengthen the powers of resistance against diseases; the second is to keep them under medical supervision and the third is to make sure they avoid contact with others who have coughs, colds, or fevers."

Most of the people who tell others not to read the Bible haven't read it.

## Battleship Turrets... baked like a Cake... with Gas!

You, and 85,000,000 Americans, know the speed Gas gives to cooking... But think what it means when whole battleship turrets are cooked at one time in Gas ovens as big as a 5-room house!

You know the economy of Gas... But think of the millions of dollars it's saving the country in heat-treating metal for tanks, guns, planes, ships!

You know how much easier Gas heat is to control... But think of steel for shells heated to such a fine point it is forced through molding holes like spaghetti dough!

You know the greater dependability of Gas... But think what it means today when every minute counts... when furnaces must not grow cold... when uninterrupted production is necessary for Victory!

Buy U. S. War Bonds and Stamps

TO THE WOMEN: Gas saves time, money and food in every cooking operation. It assures a supply of hot water, economically, instantly. And it helps conserve food safely in silent Gas refrigerators! But remember the importance of Gas for war production. Use what you need—use it wisely—don't waste it!

## 4-H Clubbers Presented Awards By Council

A list of Parmer County 4-H club girls who have completed their goals for the year and will be given club pins by the Parmer County Demonstration Council, was announced this week by Mrs. Joe Jesko, chairman of the Sponsors Committee.

Mrs. Jesko pointed out that 4-H girls have produced and canned food, learned to make and care for their clothes, purchased war stamps and bonds, salvaged rubber, iron, steel and other scrap, helped with farm labor shortage, learned first aid and done many other things to aid in the war effort this past year.

An increase in enrollment in girls' clubs was noted during the year at 11% over that of 1941. At present 160 girls are members of the seven clubs in the county.

The following girls will be honored for completion of goals at the meetings of the various 4-H clubs during the month:

Bovina: Inell Elliott, Earline Wilkerson, Catherine Wilkerson, Gladys Hopingardner, Nettie Jean Paul, Nelda Jane Nittler, Rosa Lee Denney, Helen Meshew.

Farwell: Margaret Bobst, Barbara Ann Bobst, Rosamond Booth, Ella Juanice Bradshaw, Theda Branscum, Bobby Lou Ford, Marcia Ann Johnson, Mary Ann Blake.

Friona: Camille Elmore, Dorothy Nell Guinn, Betty Ruth Houlette, Gladys Roberts, Betty Jean Turner, June Moody, Betty Lou Talkington, Lazbuddy: Naomi Cantrell Joy Elaine Daniel, Laura Seaton Billie Jo Welch Joy Welch.

Midway: Evelyn Crim, Ruth Joe Holding, Jean Horner, Agnes Jesko, Evelyn Koelzer, Dorothy Koelzer, Jackie Lawler, Wanita Long, Juanita Hill.

Oklahoma Lane: Wilma Atchley, June Christian, Wilma Doshier, Barbara Foster, Bonnie Foster, Bobby Jo Hammonds, Gloria Kepley, Billy Jean Roach, Sue Roberson Juanita Rundall.

## Club Meeting Is Held Tuesday, Nov. 10

Mrs. Mose Glasscock was hostess to the Texico-Farwell Woman's Club on Tuesday, when a business and executive meeting took up the principal part of the afternoon.

Some vacancies in the executive body were filled, including the election of Mrs. Garlon Harper as assistant treasurer and finance chairman; appointment of a war service committee, composed of Mrs. W. H. Graham, Mrs. F. E. Kepley and Mrs. Sam Rundell; and naming of Mrs. A. D. Smith as recreation leader.

The club discussed what it could contribute to war service, and plans were laid to make investigations on this project. Discussion of disbanding the club following the Nov. 24 meeting was also held, and final decision will be made at that time.

Cake and coffee were served to Mesdames Clyde Magness, W. H. Graham, Earl Booth, Johnnie Williams, Garlon A. Harper and the hostess, Mrs. Glasscock.

## Miss Hammonds Bride Of H. H. Henson, Jr.

Miss Frankie Hammonds, daughter of Mrs. R. G. Hammonds of Farwell, became the bride of H. H. Henson, Jr., of Lubbock, son of Mr. and Mrs. H. H. Henson of the Oklahoma Lane community, on Sunday, Nov. 8 at 8:30 a. m., in a quiet and impressive ceremony, with Minister Ebb Randol of the Church of Christ using the single ring ceremony.

They were attended by James E. McGuire and Miss Mary Dee Christian, both of the Oklahoma Lane community.

Mrs. Henson wore a street dress of black with black and white accessories, and for her corsage she wore a gardenia mounted in white carnations.

Mrs. Hammonds and Mrs. Henson, mother of the groom, wore corsages of pink carnations.

Mr. and Mrs. Henson are both attending Texas Tech and plan to continue with their studies.

Attendants at the ceremony were Mrs. R. G. Hammonds, Mrs. H. H. Henson, James E. McGuire, Misses Mary Dee Christian, Gracie Le and Wanda Trice, and Mrs. Ebb Randol.

## Shower Tendered For Mrs. Billingsley, 30th

Mrs. Turner Paine entertained Friday, October 30, in the home of Mrs. Fred Kepley with a pink and blue shower for Mrs. Leon Billingsley.

Guests at the social affair were Mesdames Bill Hanna, Sterling Donaldson, Alta Roberson, Ed McGuire, H. H. Henson, Charlie Summers, Fred Paine, Keith Pigg, Roy Finley, J. T. Hanna, John West, Milton Henson, Billie Sudderth; Mesdames Lee Thompson, Tom Lindop, Clyde Magness, Garlon A. Harper, Sam Sides, Scotty Barry, J. I. Guber, Oscar Hubbel, George Lindop, Sam Rundell, Jim Billingsley, Earl Billingsley, Billie Billingsley, M. V. McGee, Bob Henson, George Atcnley and F. E. Kepley.

Sending regrets were: Mesdames Joe Donaldson, A. B. Wilkinson, Clyde Perkins, Joe McWilliams, Lee Sudderth, Harold Carpenter, L. L. Jennings, Charlie Hromas, C. E. Foster, Arnold Hromas, John Porter, R. G. Hammonds, Howard Billingsley, Everett Christian;

Mesdames A. L. Tandy, Clarence Christian, L. M. Grissom, Jack Roach, L. C. Moore, James Roach, Thad Watkins, J. R. Caldwell, Walter Verner, Sam Billingsley, Robert Rundell J. W. Bradshaw, John Niell Thalia, Charles Robertson;

Misses Hazel Anglin, Velma Kube, Francis Sudderth and Gracie Lee.

## Thompson-Saunders Rites Oct. 25th

Announcement has been made of marriage of Miss Melba Saunders, daughter of Mr. and Mrs. Luther Saunders of Portales, to Frank Thompson, son of Judge and Mrs. Thompson, on Sunday, October 25.

The ring service was read in Portales by the Baptist minister, in the presence of the bride's parents.

Mrs. Thompson is a former Oklahoma Lane girl and is well known in that community. Mr. Thompson is also a resident of Oklahoma Lane having graduated from that school the past spring.

They are making their home near Farwell, where the groom is engaged in farming.

Mr. and Mrs. Earl L. Fine and family were Lubbock visitors over the weekend, attending homecoming at Texas Tech on Saturday.

## Turkey Talk

Come in within the next few days and let's "talk turkey" if you have some birds that will be ready for the Thanksgiving market.

We have a ready market for all the turkeys we can get at the highest prices in recent years.

Always a ready market for your Cream, Poultry, Eggs.

## Marcus Ice & Produce

## PTA Thanksgiving Social, Thursday

The annual Thanksgiving supper and social of the Farwell Parent-Teacher Association will be held on Thursday evening at 8 o'clock, at the school building.

Mrs. O. B. Pipkin heads the committee in charge of arrangements.

Rev. W. C. Wright will open the program with a prayer, with the fourth and fifth grades to present special numbers.

Supt. B. A. Rogers of the Texico school has been invited to appear as the guest speaker of the evening. Theme of the meeting is "Education—Bedrock of Democracy".

## Nuptial Shower Held At Oklahoma Lane

Mrs. J. C. Boone of Clovis and Mrs. Hugh Tucker were co-hostesses in the home of Mrs. Joe Donaldson recently with a wedding compliment honoring Mrs. Clinton H. Skaggs, the former Miss Evelyn Hromas of the Oklahoma Lane community.

An enjoyable social afternoon was spent and many lovely gifts received by the honoree.

Attendees were Mesdames Sam Sides, Billie Sudderth, John West, C. C. Christian, E. A. Walker, Milton Henson, Jack Roach, Joe Womack C. G. Hromas, Sterling Donaldson, L. M. Grissom;

Mesdames Bill Foster, Thad Watkins, Joe Donaldson, Frank Pesch, Lewis Pesch, Clifford Leake, Arnold Hromas, Ed McGuire, Knox, Jimmie Bolton, George Lindop, G. W. Atchley, Clyde Sparks Harold Carpenter, Joe Hromas, J. I. Guber E. A. Hromas, Tom Lindop, Joe Hanna, J. B. Ginnings C. T. Summers, Joe McWilliams and J. R. Caldwell.

Regrets were received from Mesdames E. A. Berry, Fred Paine, L. C. Moore, R. L. Henson, Frank Guber, Frank Edwards, A. B. Wilkinson, Jes Terry, W. D. Carpenter Lady Gaines, Sam Billingsley Robert Rundell;

Mesdames Sam Stites, W. T. Hughs, W. E. Lovell, James Roach, Clyde Perkins, Lee Sudderth C. E. Foster, Lee Osborn, Clifford McGuire, Lee Thompson, F. E. Kepley and Jean, Jim Billington, Verner, Alta Roberson; Misses Lillymae Kaltwasser and Gracie Lee.

## Named For Play

ABILENE—Rex Kyker, son of Mr. and Mrs. Bob Kyker of Farwell, has been selected to play the part of Edward Barrett in "The Barretts of Wimpole Street" to be presented late this month at ACC. A senior, Rex is an active member of the Melpomenean Players, dramatic arts club.

## Return From Trip

Mr. and Mrs. G. D. Anderson and family returned home the latter part of last week from an overland trip to East Texas, where they visited with their son, Bobbie, a student at Texas A. & M. College and also in the home of Mr. Anderson's mother, who lives at Tyler.

## To Have Party

Members of the Pleasant Hill ladies club will meet November 19 in the home of Mrs. Sherman Horton, at which time the group will hold its Christmas party. The date has been stepped up to avoid gasoline rationing, which begins Nov. 22nd.

## To California

Mrs. W. A. Kessie departed on Monday morning for San Fernando, California, where she will spend the next ten days visiting her husband, stationed there with the Army.

## Guild To Meet

Wesleyan Guild members will hold their regular meeting at the Methodist Church parlors on Wednesday evening of next week, November 18, according to Miss Hazel Anglin.

## Married Here

Judge Lee Thompson was the officiating justice on Saturday afternoon, Nov. 7, when a marriage service was performed in the office of the county clerk. Miss Dorothy Tribbie of Clovis, became the bride of Robert Elee Furlough of Oklahoma at that time.

## Notice Of Service

Announcement has been made that a special service will be held on Thursday night, Nov. 12 at the Fundamental Baptist Church at Pleasant Hill, at which time Rev. Ben D. Johnson will speak.

Mrs. Gladys Tabor arrived here the first of the week from Gruver, Texas to visit her mother, Mrs. Nora Coltharp in Texico. The two ladies visited in Ricardo, N. M., with Mr. and Mrs. Andy Fletcher and family on Tuesday.

Mrs. Mattie Purselley, who has spent the past two months in Long Beach, Calif., returned to her home the past Thursday.

Miss Oleta Thompson of Texas Tech at Lubbock, spent the weekend here with her parents, Mr. and Mrs. Lee Thompson.

## NEWS FROM OUR BOYS IN CAMPS

## HALEY IN NAVAL AIR FORCE

Arthur Charles Haley, Jr., graduate of West Texas State Teachers College and former Farwell boy, is a member of the latest class of aviation cadets to finish primary flying instruction at the Naval Reserve Aviation Base near Dallas.

Cadet Haley has been ordered to the Naval Air Station at Corpus Christi.

He graduated in business administration from West Texas State and was employed as an accountant when he entered the Naval Reserve last summer as a V-5 cadet. Like most members of his class, he is an athlete, playing basketball and tennis.

His official residence is listed as Seligman, Ariz.

## IN OKLAHOMA

Pvt. Barney Dean Crume, more commonly known as "Dick", writes that he is stationed at Camp Gruber, Okla., near Muskogee. "Dick" reports that his trousers are plenty long, as well as plenty wide around the waist, and "my fatigue pants looks like knickers".

## BACK TO CAMP

Cpl. Orville London, who has been home on furlough, plans to return to Camp Edwards, Mass., on Thursday of this week. He will be accompanied by his wife, the former Miss Helen Newton.

## VISITS HOME FOLKS

Ensign Eric Rushing was home the past week visiting his family, who live near Portales. He returned to his duties at Boston the first of this week. Ensign Rushing is a son of E. V. Rushing, former county clerk of Parmer County.

## Gold Star Girl To Be Selected Saturday

Saturday, November 28, has been set as the date when the judging committee will visit the candidates for the 1942 Gold Star award, the most cherished of 4-H medals for girl club members.

Three candidates have been submitted by their respective clubs, according to Miss Elsie Cunningham, demonstration agent, who adds "the race looks like a close one".

The Friona Club selected its vice-president, Tomilou Turner, as a candidate. She is the daughter of Mr. and Mrs. O. G. Turner and has been active in club work for three years.

Barbara Foster was selected by the Oklahoma Lane Club as its entry. Daughter of Mr. and Mrs. W. N. Foster, Barbara Lou is entering her fourth year in 4-H work. She is president of the Oklahoma Lane club.

Laura Seaton, daughter of Mr. and Mrs. A. M. Seaton of the Lazbuddy community was selected by that club as candidate for the award. Laura is beginning her sixth year in the Lazbuddy Club and was honored this year by being elected president.

All three candidates have been clothing demonstrators for their respective clubs this past year.

## ST. JOHN'S EV. LUTHERAN CHURCH

Lariat, Texas  
Rudolph Weiser, Pastor  
Twenty-fourth Sunday after Trinity  
Sunday School and Bible class at 10:45 a. m.

Divine Service at 11:30 a. m.  
Instruction class meets at 2:30 p. m.

Walther League educational meeting at home of George Dannheim topic will be "Your Work".

Sunday school teachers meeting at the home of J. A. Kaltwasser on Thursday night.

This is the church of the Lutheran Hour. Tune in over station KICA at 4:00-4:30 p. m., every Sunday (T).

Mr. and Mrs. L. M. Middick, parents of Mrs. Bessie Lee Henneman and a sister, Mrs. Clyde Corey, all of Amarillo, were guests in the Henneman home Sunday.

## Old Age Worker Now Located In Farwell

Mrs. A. L. Redin, an Old Age Assistance worker with the State Department of Public Welfare, has opened an office in the Farwell courthouse for the benefit of OAA recipients.

All OAA clients will be notified as to times of appearance at the local office, Mrs. Redin states, adding "Names will be chosen in the order of their last reinvestigation."

"If there is an urgent reason why you need to see me before being notified, feel free to call any time," she went on. If Mrs. Redin is busy at time applicants call, a definite appointment will be made for the earliest possible time.

The office is located in the jury room at the rear of the county court room. Mrs. Redin expects to be here as long as is necessary for the work to be completed, "possibly three months", she said.

Mrs. Vane Petree and baby of Santa Fe, spent several days last week with relatives in Farwell. They returned to Santa Fe on Sunday.

Mrs. Woodrow Lovelace spent the weekend in Friona visiting her parents.

Capt. and Mrs. Harry White of Roswell visited his cousin, Jack White and family, Sunday.

Mr. and Mrs. Richard Anderson of Three Rivers, Texas, visited her parents, Mr. and Mrs. Carl McGuire Monday. She is the former D'Esta McGuire.

Jack Dunn, Jr., who is a student at NMMI, Roswell, is here for a visit with his parents and friends.

A. E. Kerr an insurance man of Albuquerque, N. M., was here attending business matters the first of the week.

Mr. and Mrs. Morgan Billington have returned from a vacation trip to various Oklahoma points.

Miss Dama Anglin of Lubbock, was in Farwell over the weekend as the guest of her sister, Miss Hazel Anglin.

Roscoe Snider of San Gabriel, Calif., and Junior Snider, of Los Angeles, left on Friday for California after having spent several days here with relatives. The former also visited relatives in Oklahoma.

## BOXED STATIONERY

We have a complete line of boxed stationery, in a wide range of prices that will fill most demands. Come in now and make your selections while the stock is complete.

**STARRING KRAUT**

By **Elsie Cunningham**  
Home Demo. Agent

Texas A. & M. Extension Service

Many requests have come in lately for instructions on how to make sauerkraut and sauerbrun.

Sauerkraut, you know, is made from shredded cabbage fermented in its own brine, while sauerbrun is manufactured in the same way from shredded turnips.

I shall be as brief as possible on this matter and therefore suggest that any one having any special difficulty drop in my office to discuss this matter or write me for a bulletin.

**How To Make Sauerkraut**

Select only sound heads of cabbage. Remove all damaged or dirty leaves, wash, drain and quarter heads and slice off the core portion. Shred the cabbage either with a knife or a slaw cutter with blades set to cut shreds about the thickness of a dime.

Weigh out 5 lbs. cabbage and 2 oz. PURE salt. Shred this cabbage directly into the jar or keg without exposing it to air, for exposing it at any time reduces the amount of Vitamin C in fermented product and causes loss of color, texture and flavor. Sprinkle cabbage with 2 oz. of salt.

Prepare another 5 lbs. of cabbage, add another 2 oz. salt and etc. until the desired amount is reached in container. Place uneven pieces of cabbage and a few large leaves on top. Cover kraut with clean cloth, a plate and a heavy weight.

**Making Sauerruben**

Wash turnips and rinse in cold water. Remove all green part from top, do not peel. Shred as for cabbage sauerkraut; do not slice.

Shred 5 lbs. turnips, sprinkle with three scant tablespoons PURE salt. Shred another 5 lbs. of turnips, add salt and continue forming these layers until desired amount is reached. Cover with cloth, plate, and weigh down.

**Care During Fermentation**

Put kraut container in warm place where fermentation may begin at once. A temperature of 70 to 75 F is usually used, in which case fermentation is completed in from 14 days to three weeks, depending on temperature.

Fermentation will begin within a day after packing as will be shown by the rise in the level of the brine and possibly by the formation of gas bubbles at the surface. A scum usually forms on the surface of the brine within a few days. Remove scum every few days and wash and

scald cloth frequently, replacing it and the cover with weight on top. Cover container with another cloth to keep out dust. Do not permit scum to accumulate uncleaned, as it slows fermentation, engenders spoilage and results in an inferior product.

When fermentation is complete, bubbles cease to rise to top of the liquid and liquid settles. The sauerkraut should then be canned. Canning is simple and assures a good supply throughout the year.

**A Few Tips**

Use a pure salt in making kraut. Cheese or dairy salt will do.

A tightly sealed glass jug or jar filled with water or wet sand makes a good weight to use to keep shredded cabbage or turnips down in the brine. Never use iron or lime rocks for this purpose.

One pound of salt is required for 40 pounds of cabbage.

The late cabbage varieties, preferably flat dutch or ball head, are recommended for sauerkraut.

The shogoin and purple top turnip are good ones to use for sauerbrun.

**Demonstration Club Notes**

By Special Staff Reporters

**Victory Club**

The Victory Club met Nov. 6 with Mrs. M. W. Moody. Miss Cunningham gave a very informative demonstration on nutrition of whole grain cereals and bread. This was election day, and the following were named for the ensuing year: Mrs. Hyde, president; Mrs. Vestal, vice president; Doris Bogges, secretary; Mrs. Moseley, council representative, Mrs. Moody, reporter.

Next meeting will be with Mrs. Doris Bogges on Nov. 11, and a Christmas party will be held. Every member is urged to be present and bring a gift.

After the business session we had a social. The Parmerton Club was invited, but due to such busy times only part of the club was present. Mrs. Moseley assisted the hostess in serving apple sauce cake topped with whipped cream, spiced tea and popcorn balls.

The year 1901 marked the beginning of large-scale industries of meat packing and cotton manufacturing in Texas.

**Red Cross Gives Dual Service to Armed Men**

Overseas and at home the American Red Cross is meeting a dual responsibility to the men in service, W. H. Graham, chairman of the Farmer County Chapter, said recently. The first responsibility, he stated, is to provide the traditional service imposed by Congressional charter obligation "to act in matters of voluntary relief and as a medium of communication between the people of the United States and their Army and Navy". The other is to provide an expanded program of recreation set up to meet a definite need of the armed forces in the field of morale.

"At home and overseas the first responsibility is met in the same manner," Graham said, "but on the second point the overseas service is distinctly different. At home recreational service by the Red Cross is confined to the camp or base.

"As American troops arrived on foreign soil early in the year, however, it quickly became evident that not only must the Red Cross play its customary role of recreation host to hospitalized men but must serve the social needs of able-bodied men as well. In several locations where troops are based abroad the Red Cross has established recreation centers. Regularly now, thousands of dollars worth of furnishings and recreation and athletic equipment either accompanies the task forces or follows soon after," Graham said.

"Red Cross service clubs, such as the much publicized Washington Red Cross club in London, have converted hotels and other off-reservation buildings into homelike places of relaxation and refreshment for men on leave in foreign lands. On Sept. 1 there were 15 of them in operation in Iceland, England, Scotland, Northern Ireland, Australia and even in far-off New Caledonia where home seems more distant. Others are being arranged for as the need arises.

"There is no conflict or duplication between the work of the Red Cross overseas or at home and the work of the United Service Organization," he stated.

Last March 2 the American Red Cross and the USO issued a joint statement defining the services which each organization renders to the nation's armed forces.

The statement declared that the Red Cross is responsible for welfare service to units of the armed forces in garrison, or on active duty in the field, or proceeding in transit as members of an organized body under orders. The Red Cross, it is agreed, also is responsible for social service and recreational programs in military and naval hospitals. The Red Cross function as a recreational agency for service men abroad developed after the agreement was reached.

The primary responsibility of the USO, in its present program is to serve members of the armed forces wherever they may be, off duty, or on leave. Its services, on all fronts, is of a religious, social and recreational character.

**Little Change in '43 Cotton Allotments**

Approximately 90 per cent of all Texas cotton farms will receive the same allotment in 1943 as they did in 1942.

According to B. F. Vance, administrative officer of the AAA in Texas, allotments will be available to individual growers by Nov. 20.

Under the present law, allotments can be changed from last year's quota only under two circumstances, the AAA official explained.

Citing the reasons for changes, Vance said that some individual allotments would be increased or decreased if the 1942 measured cropland increased or decreased over the 1942 measured acreage, or if the 1942 planted acreage was materially increased over the acreage planted to cotton during the three-year period, 1939-41.

He said that the majority of individual cotton allotments could not be changed unless the Agricultural Adjustment Act of 1938 was also changed.

Producers who do not receive regular 1943 cotton allotments may request a 1943 new grower allotment by contacting their county AAA committees by Feb. 1, 1943. Farms on which cotton is planted in 1943 for the first time since Jan. 1, 1940, are eligible for new grower allotments.

The date, approximately 31,000 cotton farm allotments under next year's AAA program have been calculated for 26 counties. Texas' cotton allotment under the 1942 AAA program was approximately 9,947,819 acres and the same acreage is expected under the 1943 program.

**Migratory Laborers Should List Trucks With County Agents**

Migratory farm workers who use trucks in traveling from job to job and who are away from home are required to contact the district office of the OBT on the proper procedure to procure their certificates of war necessity.

There are many such workers in this district who are planning to leave their jobs and return home in the fear that they will be unable to operate their trucks after Nov. 15.

Everything possible will be done to expedite the handling of these applications so that trucks used by migratory workers will not be forced off the road. It will not be necessary for these workers to leave their jobs and return home in order to obtain a certificate. This would only be a waste of time and rubber and would probably delay rather than expedite issuance of the certificates.

Any migratory worker who has not received his application should contact either the county agent in the county in which he is at present living, or the district office at 623 Lubbock National Bldg., Lubbock, for detailed information.

**New Class Opened At Training School**

The vocational education department of the Clovis high school has started a new class in aircraft sheet metal and riveting from 7 to 11 p. m. This class will run five nights per week, four hours nightly, Monday through Friday.

Interested persons who have not already signed up are requested to report as soon as possible to the Clovis Training Center at 8th and Pile, to fill out application for acceptance in this training. Class is open to both men and women willing to go into war work. No cost is made the trainee.

There are other courses of four and eight hour classes in machine tool operations and electric arc welding and application may also be made for these to fill the vacancies of those who are finished. Jobs are open as soon as courses are completed and the trainee has been issued the certificate which is recognized by war industry and the War Department. It is urged that women take advantage of this and prepare for such jobs as the nation is in dire need of workers of this type.

Further information can be secured by contacting Carl A. Miller, director, Training War Production Workers, or Miss Alice Brady, 720 Pile, telephone 878-M, Clovis.

**Pricing Of Goods Is Explained In Detail**

Pricing of fall and winter seasonal commodities and of new lines of women's, girls' and children's outerwear is explained in pamphlets now available at the office of the Farmer County War Price & Rationing Board, according to John Armstrong, chairman of the board.

"Every merchant who handles clothing should obtain one of these pamphlets as soon as possible," he advised. "They explain clearly what the merchant should do in pricing such clothing articles in order to comply with the price control law."

The pamphlet for retailers and wholesalers explains the pricing of fall and winter seasonal commodities as coats, jackets, vests, pants, shirts, sweaters, woolen hosiery, most types gloves, some types boots, and shoes, robes, gowns, nightwear, knitted underwear and sleeping garments, mufflers and scarves, certain kinds of toys and sporting goods.

The pamphlet dealing with ceiling prices for new lines of women's, girls' and children's outerwear covered by the regulation applies only to new lines of cloth garments in specified categories, such as coats, suits, jackets, skirts, dresses and blouses, snow suits, leggings and ski pants.
