

## Veterans at New Secret Base

Sergt. G. S. McCall of Augusta, Ga., meets two young Russian women soldiers at one of the new secret air bases in Russia being used by U. S. planes for shuttle bombing. Both women are 21 years old and veterans of the battles of Leningrad and Stalingrad. Several of these bases are now being operated by U. S. air forces in Russia.

## Parmer Dairy Show Booked for August

Classes and prize lists were in the making this week for the annual Parmer County Dairy Show, which will be held August 24-25-26 in Bovina, County Agent Garlon A. Harper reported today.

The show, which is limited to entries of registered dairy stock, is expected to draw a good interest in the county, officials believed today, adding that there were more than 100 head of registered stuff in the county, "and a large majority of it will likely be shown in Bovina".

Two breeds will be entered in the show, Agent Harper said, with classes set up for Jerseys and Milking Shorthorns. In addition to open class contests, 4H club boys will participate in a class of their own, with ribbons going to the winners. Cash prizes of \$5, \$3, and \$2 will be given in all open classes, he added.

The milk production contest, which is a new feature of the show, also has two classes—cows over 4 years, and those under four. Entries in this department must be at the show barn on the evening of August 23, Harper stressed. Other entries at the show must be made by 9 o'clock August 24.

A dairy program is being planned for the opening night of the exhibit, to be held at the show barn. Dairy demonstrations will be given by teams of 4-H club boys, and it is hoped that E. R. Eudaly, from College Station, can be secured to speak to the farmers on dairy work.

A banquet for all participants and others interested will be held on Friday night, Agent Harper stated, adding that details for this part of the weekend show were not complete today.

Judging will be on Friday. Frank Ford is being contacted to judge the Shorthorn entries, while officials are attempting to secure the services of Eudaly for Jersey placements.

## Scouts Plan Trip To Philmont Ranch

At least five Boy Scouts of the Farwell troop plan to leave here in August to attend the annual encampment of Boy Scouts at Philmont Ranch, in the Cimarron Canyon of New Mexico.

Scoutmaster Bob Barton said today that the five boys listed to go are: A. C. Henneman, Ernest Lokey, Bobby Poteet, and Hollis and Glenn Hughes. They will leave here on August 6th to be gone a week.

## LAST DAY FOR TRANSFERS

County Judge Lee Thompson today called attention to the final date for making school transfers, which comes on July 31. Notice of intention to transfer school students from one district to another for the ensuing school term must be filed at the office of the county superintendent on or before that date.

A dreamer is a man who can sit around reading travel folders after his vacation.

REV. T. G. NANNEY, who will conduct a revival series at the Bovina Baptist Church, July 30 through August 13.

Definite steps to provide entertainment and recreation for the youth of Texico-Farwell and the local communities, as a means of curbing juvenile delinquency, were launched at the regular meeting of the local Men's Club on last Thursday evening.

Following an inspiring address by Dr. C. B. Wivel of the Eastern New Mexico College at Portales, round table discussion led to the appointment of a committee to begin immediate steps to work out plans for providing wholesome entertainment and recreation for the youth of the community.

J. T. Carter was named chairman of the committee, to serve with Rev. W. C. Wright, Judge Lee Thompson, Olen Schleuter and Bob Barton.

No definite plan was agreed upon as to what steps will be taken in the movement, but being left to the committee. But it was pretty well agreed that Dr. Wivel's recommendation of using school houses for entertainment centers was a wise one with great possibilities.

Tennis Courts Planned  
It was announced at the meeting that the local Woman's Club had already instigated a movement looking to the erection of tennis courts and similar outdoor recreational centers. Definite plans to this end on the part of the Woman's Club are expected to be announced at an early date.

At the suggestion of Mayor M. C. Roberts of Texico, who also offered to contribute \$100 to local projects, it was decided to invite Mayor Mavel Lujan of Santa Fe, to address the Club at its next regular meeting, to be held on August 24th. Mayor Lujan has dealt successfully with the youth problem in Santa Fe, and it was felt that his ideas would be worth while to local people.

Urges Paid Personnel  
Dr. Wivel said that he had studied the youth problem for a number of years and it was his firm conviction that in order to have properly supervised youth activities, they must be directed by paid personnel. He urged that the proper facilities be provided for the young people and that ALL children of the community be included.

Reviewing the problems of youth from a national standpoint, Dr. Wivel observed that "it is regrettable, but none-the-less true, that today we find most delinquency among our girls."

Warning that "we cannot live in a world and say that 'it does not involve me,'" he stressed the importance of recognizing the responsibility of the entire populace to the youth problem.

## Dealers Continue to Get Tires Without Certificates, July 31

Dealers may continue to receive new passenger tires from manufacturers without giving tire ration certificates until midnight, July 31, the district OPA announces today.

Officials pointed out that this in no way changes the present method through which a motorist obtains a tire certificate from his local board. The action, designed to facilitate the shipment of new passenger tires from manufacturers to dealers to bring about better distribution, was originally scheduled for the period from June 1 to July 15, but has been extended to July 31.

The Bible is the world's best selling book.

Parmer County will have two new names on the political roster after January 1st, 1945, it was decided by the voters of the county last Saturday, in the first Democratic primary election.

In one of the quietest elections ever held in the county, which saw less than half the voters taking time out to cast their ballots, the voters renominated all present county-wide office holders and named Bill Flippin to succeed Dave Moseley as county commissioner of precinct 1, and W. S. Menefee to represent precinct 4 as county commissioner.

In precinct 3, where Jim Miller sought to unseat T. E. Levy as county commissioner, his efforts proved unsuccessful and Levy was renominated by a substantial vote.

Flippin and J. D. Robards staged a rather close race in precinct 1, Flippin polling 130 and Robards coming through with 96.

In precinct 2 the vote was more decisive, with Levy outdistancing Miller a total of 81 votes, the ballot being: Levy 167, Miller 86. Miller carried his home box at Oklahoma Lane, but Levy polled a heavy vote in Farwell to give him the nomination.

Out in precinct 4, W. S. Menefee, former commissioner, staged a real comeback to defeat O. M. Jennings, present incumbent, by a vote of 75 to 43.

Other office-seeks of Parmer County, all of whom were seeking re-election, were unopposed and were renominated.

Jennings Carries Parmer  
Although reports from over the district indicate that Tom Deen was re-nominated for state representative, Joe Jennings, Floyd county farmer, carried Parmer by a vote of 259 to 183. It was understood here that Deen's plurality over the district was around 300 votes.

Congressman Eugene Worley was renominated over Le Marr Bailey by a good majority over the entire district.

Second Primary a Question  
County Democratic Chairman G. D. Anderson stated today that the holding of a second primary in Parmer County was as yet undecided. He added that he saw little or no use of the second primary since none of the candidates in the county or district were involved, but this is a matter to be decided by the County Central Committee when it meets here on Saturday.

## Bean Gathering Begun In West Camp Region

Farmers of the West Camp community, along the irrigated section of the Black Water Valley, began gathering their green beans the first of the week, with a good yield being reported.

Most of the bean picking is being done by school children and Mexican labor that is being transported here from Clovis, and first reports said that fairly good crews were to be found in the fields. Seventy-five pickers showed up at the Johnnie Williams farm on Monday, to be increased to 90 the following day.

Williams said today that picking operations would continue for several days. "Just as soon as we go over the first time, the fields will be ready for the second picking," he stated.

The beans are being trucked to Muleshoe, where they are being processed by a cannery located there.

## ONE NEW REGISTRANT

Only one new registrant has filed with the local board during the month of July, it was announced today by Mrs. Bessie Lee Henneman, clerk. He is Howard Ernest Graham, Farwell.

# Processing of Young Farmers Begun Here

The processing of young farmers and others who are under 26 years of age, in order to make them available for induction calls to fill future Selective Service quotas was begun here last Saturday when the Parmer County draft board was in session.

This action was taken in accordance with recommendations of the State Director to fill army and navy calls from the ranks of young men on future calls. At the same time, it was pointed out by draft officials that insufficient numbers of registrants under 26 years now in 1-A to meet the August call, and the local board was compelled to obtain most of its August quota from groups above the 26-year age limit.

Hereafter, all Parmer county selectees will be sent to Oklahoma City for pre-induction physical examinations and induction. The Lubbock induction center has been closed. Three days will be required for men to leave this county and go to Oklahoma City for their examinations.

Classification Given  
Reclassification of registrants now in 2-C was the principal task of the board at its Saturday session, with the following classifications announced by Mrs. Bessie Lee Henneman, clerk of the board:

1-A  
Theodore R. Huber, Melvin A. Snider, Jr., Albert E. Helms, Paul Helmke, Cecil B. Winegeart, Carlton B. Howard, Arthur J. Moorman, Eugene S. Morris, Frank L. Brown, Nelson J. Foster, Harva R. White, John D. Lovelace, Graham G. Thornton, Alva J. Hudson, Joe W. Hromas, Floyd L. Thompson.

1-A(H)  
Ollie L. McLain, Thomas W. Gould, John T. Whitehurst, Lee O. Doshier.

2-A  
Charles K. Crumes.

2-A(F)  
William C. Hastings, Virgil L. Elms, J. D. Cox, Leon Hall, George B. Baker, Edward L. Lang, Glen T. Williams, L. J. Whiteside, Ross Terry, Charley A. Stone, Maurice J. Danner, Elmer L. Venable, Earl A. Blish, James R. Smart, Ralph L. Wiley.

4-A  
Henry G. White, Bose B. Abrams.

2-B  
Harold L. Settle.

2-B(H)  
Roy L. Karr.

BOVINA NEWS

Mr. and Mrs. Kerby Davis of Canyon and Mr. and Mrs. Omer Cramer of Caddo, Texas, were visitors Sunday in the home of Mr. and Mrs. W. L. Venable.

Mrs. C. N. Pipes, sister of Mrs. Tom Lloyd, who has spent some time visiting in Bovina, left Tuesday for Fort Worth, where she will visit before returning to her home in Birmingham, Alabama.

Mrs. Albert Turner and daughter, of Portales, have been visiting in the Bud Queen home.

Mrs. Nat Reed and children were Clovis visitors on Friday.

Miss Jean Danner, of Clovis, was in town this week visiting friends.

Miss Mary Leatrice Cherry, who has been attending school in Canyon, returned to her home Friday.

Miss Inell Elliott returned home the last of the week from Canyon, where she attended summer school.

Miss Eris Norton has just returned from Canyon, and will spend the rest of the summer with her parents, Mr. and Mrs. W. M. Norton. Miss Norton has been employed as a faculty member in the Raton school for the coming year.

The Methodist Women's Society, after their regular meeting Wednesday, staged a clean-up of the church lawn. Following the weed cutting they were invited to the parsonage lawn and served punch and cake by Mrs. Trostle.

Judge Lee Thompson and wife were Bovina visitors, Saturday.

Mrs. Maude Trimble and Mrs. Emmett Tabor are visiting in Mobeetie, Texas.

Mr. and Mrs. Bob Blalock and baby were weekend visitors in the home of T. J. Hopingardner.

Mrs. Lady Barbee, Mrs. J. S. Gaines, Mrs. Giles Williams and Mr. and Mrs. Clarence Smith were visitors in Portales, Sunday night, to hear Gypsy Smith preach. Rev. Fred Stump, local pastor, was the singer.

Mrs. Herman Jones, who had been receiving medical attention in Clovis, returned to her home Monday.

Misses Dessa Fern King, Glennis Barron, Willie Ellen Williams and

Health Notes

By Texas Department of Health

AUSTIN—"Vacation time is likely to be typhoid fever time," according to Dr. Geo. W. Cox, State Health Officer. "The summer months when swimming, camping, and picnics are at their height, are usually accompanied by the year's highest incidence of this disease."

Dr. Cox strongly recommended immunization against typhoid fever for persons of all ages who want to enjoy warm weather activities secure from the threat of the disease. Protection is achieved by three inoculations, usually given one week apart. The treatment should be repeated every third year, because the immunity conferred does not ordinarily last longer than three years. If you have not been vaccinated against this disease since 1941, inoculations are in order.

"Improved sanitation, it is true, has gone far to lower the incidence of typhoid in recent years," Dr. Cox said. "It is known that every case develops as a result of consuming milk, food, or water contaminated with human excreta containing the disease-producing germs. Sometimes such discharges come from a patient ill with typhoid and sometimes from

Portable Kitchen for Nazis on Eastern Front

This picture, received through a neutral source, shows members of a German anti-aircraft gun crew snatching a few moments from Russian air attack to grab a bite to eat, somewhere on the Russian front. The food which they seem to be eating with great relish, apparently was prepared on a portable stove.

a carrier, an apparently healthy person who has had the disease and, after recovery, continues to discharge its germs.

"In spite of these community safeguards, personal immunization should not be neglected," Dr. Cox warned. "However careful you and the health authorities may try to be,

there is the possibility of infection from some unsuspected source, particularly during the summer when people are often lured into remote places, away from approved water supplies, pasteurized milk and safe raw foods. By all means, go to your doctor for vaccination against typhoid fever."

The proudest title in the Army

IT CONSISTS of two simple words.

Yet every soldier who's worth his salt covets it.

This title is simply:

"Good Soldier."

It isn't just happenstance that so many women in the WAC have earned this title—the proudest in the Army.

For wherever Wacs are working, both here and overseas, there you find a job well done. And done with a spirit so gallant and fine that high Army officers everywhere say of the WAC...

"They're soldiers. Good soldiers!"

Good soldiers...

**Popular Raisin Pies**

A popularity poll on pies would reveal strong regional favorites. Down east they like the deep-dish apple cobbler. The Pennsylvania dutchman hankers for his crusty shoe-fly pie. A great favorite in the southland is a caramelized pecan pastry.

But the raisin pie is an easy national winner. For the raisin was an early pioneer. It travelled to these shores with Virginia planters, who brought memories of raisin cookery from England with them. It was these grower-merchants who took care to keep a good-sized stock on hand, by stowing raisins in the holds of their homeward-bound tobacco boats.

Gradually, in shoulder bags, by packhorse train, keel boats, and Conestoga wagons, the raisin made its way to the settlements and cross-road stores that sprang up through the Middle West. And there, in Indiana, Illinois, and Southern Michigan, the favorite place for raisins was in a pie shell. "Funeral pie" they called it in that country. Because it was the dish most often sent in by the neighbors when their friends and kindreds needed comfort. And indeed, a rich and spicy raisin sauce, simmering under a flaky blanket of crust, was a warm and heartening and downright friendly gesture.

On the West Coast the goodness of the raisin was discovered later. For the planters there, growing for the vintage business, forgot the art of making raisins. But one season in the seventies, when a torrid sun sizzled the muscats on the vine, they unexpectedly found a bumper crop of raisins on their hands. New consumer demand was created by a clever grocer who sold them as delicacies from Peru. And the raisin has been a popular native product ever since.

Such pies as these have long been American favorites.

**Raisin Party Pie**

Combine—  
¼ cup sugar  
1 teaspoon cinnamon.  
Beat in—  
3 egg yolks, well beaten.  
Add—  
1 tablespoon melted butter or margarine  
1½ teaspoons cider vinegar  
2 cups seedless raisins  
½ cup chopped walnuts.

Combine, beating until stiff, but not dry—

½ teaspoon salt  
3 egg whites.  
Gradually beat in—  
½ cup sugar.

Fold egg whites into raisin mixture. Pour into pastry-lined pan, bake in a very hot oven (450°F.) for 10 minutes, then reduce heat to a moderate oven (350°F.) and bake for 25 to 35 minutes longer, or until filling is firm. Cool. Filling puffs up during baking, shrinks somewhat while cooling. Serves 6 or 7.

**Raisin Custard Pie**

Combine—  
1 cup seedless raisins  
1 cup water.

Bring to boil and boil 5 minutes.

Cool.

Add gradually—

2 tablespoons flour.

Cook, stirring constantly, until thickened.

Add—

2 teaspoons lemon juice  
½ teaspoon ground cloves  
½ teaspoon ground cinnamon.

Cool.

Line pie plate with—

Pastry for 9-inch pie crust.

Spread bottom with raisin sauce.

Beat lightly—

3 eggs.

Add, stirring until sugar is dissolved—

¾ cup sugar

1½ cups milk

1 teaspoon vanilla.

Four custard over the raisin sauce. Place in a hot oven (400°F.) then immediately turn thermostat to a moderate oven (350°F.) and bake for 1½ hours or until custard is set.

**Growing Period Care Is Vital For Pullets**

COLLEGE STATION—The care a pullet receives during the growing period largely determines her productive ability, says S. A. Moore, poultry husbandman. Chicks should not be turned out on the range to hustle for themselves after preliminary care and balanced feeding in the brooder house. Good feed is as important to pullets on summer range as to chicks in the brooder house or to laying hens. Strong pullets can take a lot of punishment on the range and live, but mismanagement will lower their ability to produce eggs, Moore believes.

Pullets can get much of their livelihood in the form of green feed, which is an important element in raising them for layers. But they will not make maximum development unless they also have a constant supply of balanced feed. If abundant succulent green feed is available the cost of growing pullets may be reduced materially and their health improved. As tough, woody grass has little feed value the range should be mowed frequently so that young, tender green stuff is available.

The summer range may be used more effectively if the roosting quarters and other equipment are moved often. By doing so pullets are encouraged to graze all parts of it and not exhaust vegetation immediately surrounding the shelters, feeders and waterers.

Birds placed on clean range which is kept clean by frequently moving of shelters and equipment may be grown to maturity free of disease and parasites. However, fowl pox may attack pullets regardless of sanitation, but it may be prevented by vaccinating the chicks when eight to 12 weeks old. In any case, Moore says, pullets should be vaccinated before they come into

production. Ample, cool, fresh water; shade and systematic culling are other necessary elements of good management. Pullets should consume large quantities of water in the hot summer months, but they will not drink enough if forced to go far from the feeders for it. Shade should be provided for the birds while they are inactive at mid-day, and culling should be practiced continuously during the growing period. All undersized, offcolor, off-type or unthrifty birds should be removed when the pullets are moved to the range.

**SAVE FOOD FROM WEEVILS**

COLLEGE STATION—This is the time of year when weevils invade cereals and other foods on the pantry shelves, but Extension Service folks say this trouble can be prevented.

Cereal products, or dried peas and beans, as the case may be, should be heated to about 140 degrees F. for about 20 minutes. Then they should be stored in hot dry cans or jars. Mrs. Winifred J. Leverenz, specialist in food preservation, adds that friction-top cans similar to syrup buckets are excellent for storing foods commonly attacked by weevils.

If the grains, peas, or beans are to be saved for seed as well as eating, it is better to use highlife, rotenone dust or lime. Complete directions may be found in a pamphlet MS-547 which can be obtained from county demonstration and agricultural agents.

AUSTIN—A large collection of letters and documents of Anson Jones, last president of the Republic of Texas, a number of museum pieces, and \$2,873 in research funds were accepted by the University of Texas Board of Regents here recently for the Main University and Medical school.

**BUDGET IS SET**

AUSTIN—An operating budget of \$234,020 has been approved for the College of Mines and Metallurgy at El Paso, a branch of the University of Texas, by the University Board of Regents, Leo C. Haynes, secretary to the Board, has announced.

**Bread Pudding Is Traditional**

Bread pudding, that Saturday's child of the dessert repertoire, is no plebeian after all. Instead it is a true aristocrat, with a lineage as ancient as it is distinguished.

It seems our present-day bread pudding, studded with raisins and held together with a kind of custard filling, is descended from an antique feast-dish known as "white pot."

In England, back in druid days, springtime meant a special festival. And important to these rites was a ceremony in which everyone partook of "white pot."

At first, before bake ovens were invented, "white pot" was a kind of clotted cream, or a sort of custard made of milk and honey. But later British farmers, who clung to this ancient springtime custom, enriched the recipe until it became buttered bread and raisins mixed with milk and eggs and sugar.

Just such a dish we give you here, streamlined to suit our modern methods, but still as traditional as "white pot". Serve it tonight and celebrate:

**Raisin Bread Pudding**

- Pour—**  
2 cups milk, scalded  
**over—**  
2 cups dry bread broken into small pieces.  
*Let stand until bread is soft.*  
**Add—**  
1 egg, beaten  
2 tablespoons sugar  
1/4 teaspoon salt

1/2 cup seedless raisins.  
Pour into a greased baking dish and bake in a moderately slow oven (325°F.) for 45 minutes or until lightly browned. Serves 4 to 6.

**Cereal Story**

Your everyday bowl of breakfast cereal is an old-timer, too. Did you know it stems from another English feast dish—this one served at autumn harvest time. Frumenty it was once called. And the Britons must have learned this custom from the Roman army that occupied their island. For the word frumenty comes from the Latin "frumentum", meaning wheat.

After the grain had been gathered, the farmer's family and their helpers formed a long procession and sang as they set off to do the reaping. When this chore was done, they gathered at the farmhouse for a feast. And frumenty was always served as a symbol at this meal.

In its simplest form this frumenty was cracked wheat cooked in milk, or a kind of wheat mush mixed with cream. And it was nearly always trimmed with raisins or currants, and spice and sugar. Here it is, in a breakfast style, but still frumenty for all its modern frills:

**Breakfast Wheat Mush With Raisins**

- Pour—**  
1 cup breakfast wheat  
*gradually into—*  
3 cups boiling salted water.  
*Cook for 15 minutes in a double boiler.*  
**Add—**  
1/2 cup seedless raisins.  
Serve hot with sugar, milk, and cream. Or, pack into a greased loaf pan. Allow to cool and set (overnight when possible). Cut into slices, brown in melted fat and serve hot with sausages or bacon. Serve 6 to 8.

**FOR SALE—**1/2 section; 6 3-4 mi. W. 1 1/2 N. Bovina, improved, 70 acres grass, rest cultivation. \$40 per acre. See or write Mrs. R. Snodderly, Rt. 2, Texico, N. M. 37-tfc

194,000 head. This would represent a 40 per cent decrease from farrowings in the similar period one year ago.

The War Food Administration asked the producers of the nation for not less than 95,000,000 hogs this year. If production is below this figure the quotas for the combined needs of the armed forces, lend-lease

and home consumption will not be reached. Regenbrecht believes that the feed outlook is sufficiently encouraging to make unnecessary further drastic reduction of hog production.

He recommends that each farmer survey his available feed supplies and the facilities he has for efficient hog production, then plan to produce as many hogs as he can feed and care for properly within those limitations.

**FSA Families Help In Drive for Farm Safety**

Faced with the fact that last year six times as many Americans died in accidents on the farms as were killed on invasion day in France, agricultural leaders are out to do something about it. This, July 23-29, is National Farm Safety Week, and a concerted effort is being launched in every community, according to W. B. LeVeque, FSA supervisor.

"Agriculture employed 16 percent of the nation's workers in 1943, but had 24 percent of all fatal accidents, the largest of six major industries," LeVeque pointed out. "The loss of time as a result of farm accidents meant the loss of 4 1/2 days' food supply for every person in this country."

National Safety Council records show 20,000 farm people killed and two million injured in accidents

during 1943. Money loss is estimated at a billion dollars.

"FSA families in Parmer County are taking the lead in working to eliminate the chief causes of accidents, both on their own places, and in their community," LeVeque said.

Two-fifths of the accidents to farm residents occurred in the home. Chief causes, in the order of their frequency, were falls, burns, firearms, and poisons.

Careless handling of farm machinery topped the list of farm work accidents. Twenty-eight percent of all such accidents fell in this category. Only slightly below this, with 26 percent of the total number, came accidents due to careless handling of livestock. Falls, excessive heat and lightning were other causes of deaths and injuries.

Only through safety measures can this trend, which saw 500 more deaths from farm accidents in 1943 than in 1942, be checked.

"Let's make 'Home, Sweet Home' become 'Home, Safe Home,'" suggests LeVeque. "Mend those steps, do not work with equipment while it is in motion, repair ladders, keep gasoline away from the house, be

careful when around any type farm livestock," he is advising FSA families. To this he adds: "Well known last words are 'I've done it all my life and nothing ever happened!'"

**Texas Graduate Study Gets Commendation**

AUSTIN—The high-ranking opportunities in graduate study at the Texas University have received international recognition, Graduate Dean A. P. Brogan has announced.

Under a plan proposed by the Institute of International Education and sanctioned by the Board of Regents, the University will set up a post-war exchange fellowship with Leeds University, "one of the better ranking regional universities" in England, Dean Brogan said.

Leeds is noted for its work in textile engineering, and Dean Brogan pointed out that by exchanging students each year the University will be able to broaden its educational benefits for students, both culturally and industrially.

Victory is Everybody's Job.

**THANKS**

I want the voters of precinct 3 to know that I am deeply grateful to them for the vote they gave me in Saturday's primary election, and at the same time I want to take this opportunity to renew my pledge to serve the entire district to the best of my ability as your county commissioner.

I will be out of town for the next few days, during which time any matters pertaining to my official duties should be referred to Judge Lee Thompson.

**T. E. LEVY**

**WE TRY TO PLEASE YOU . . .**

We're on the job six days a week doing our dead level best to please our customers.

If at any time we fail to come up to your expectations we'll appreciate your friendly suggestions.

**Texas 1944 Spring Pig Crop Goes Down**

COLLEGE STATION—The Texas spring pig crop, representing the period December 1, 1943 to June 1, 1944, nose-dived from the high total of 1943. As forecast by the Bureau of Agricultural Economics, USDA, Austin, it is 35 per cent less than the record number in the corresponding period one year ago.

Specifically, the Texas spring crop is estimated at 1,392,000 head compared to 2,148,000 in the preceding year, yet is 22 per cent greater than the 10-year average. The crop was from an estimated 240,000 sows farrowing, with an average of 5.8 pigs saved per litter. Comparatively, the record number of 364,000 sows farrowing in the preceding spring saved 5.9 pigs per litter.

This heavy reduction suggests to E. M. Regenbrecht, swine specialist, that many growers were stampeded into reducing the 1944 production far below the goals asked by the government. A further reduction is foreshadowed, according to the crop reporting board of the USDA. The number of sows to farrow in Texas during the fall period was indicated by breeding intention reports at

**PAMPER Your Car!**

And it will serve you well, perhaps until you can buy a new one. The best way to prevent serious trouble is to do it before it is too late. Let us help you keep it rolling by correcting minor ailments before they become serious.

**KARL'S AUTO CLINIC**

**We Are Thankful . . .**

During the rush of the wheat harvest, we were too busy to write advertisements, but now that the big rush is about over, we want to express to the farmers our profound thanks for a very liberal patronage. The crop was wonderful in quality and the prices good. Everybody entered this harvest with some nervousness and fears that we would not have sufficient labor to do the job, but we did it and we haven't heard of a bushel of wheat that has been lost on account of weather. Therefore, let's all be thankful for the bountiful harvest . . . although it did require real work on the part of all of us to save it!

Thanks to everybody.

### Safety Observance Planned For Texas

COLLEGE STATION—Cooperation of rural groups in Texas' observance of National Farm Safety Week, July 23-29, is being sought by Prof. E. R. Alexander of the A. & M. College faculty, who is serving as state chairman of farm safety. He emphasizes that the week's observance will be only the kick-off of a general farm safety program for Texas in the months ahead.

A special broadcast on farm home safety has been scheduled on the Texas Farm and Home Program at 6 a. m., July 28, and both newspapers and radio stations are forwarding the safety program, Alexander says. County agricultural and home demonstration workers of the Extension Service will cooperate by

distributing educational information no farm fire prevention and other phases of farm safety.

Every year 20,000 farm people in this country lose their lives as a result of farm accidents, and an additional two million are injured. Fires alone take a big toll, for 250 Texans lose their lives in rural fires every year. Annual fire loss of homes, household goods, barns, feed, machinery, and livestock in Texas is set at 6½ million dollars, and the Texas A & M Forest Service estimates the yearly loss due to forest fires another 1½ million.

Specifically, individual farm families are urged to participate in the observance by applying safety tests to their farms. Here are typical questions for property inspection: Do you keep bulls, boars and rams securely penned? Do you avoid over exposure to the sun and avoid heat collapse by drinking plenty of wat-

# I'm a terrible SHERLOCK HOLMES

**PLEASE HELP ME!**

**I'M AN EXPERT**, when it comes to checking tires for inflation, cuts and bruises, and re-capping . . . and I'm even more of an expert at lubricating cars, of any age and make, right from front bumper to tail-light.

But when it comes to catching counterfeit gasoline ration coupons, I'm a washout! Believe me, every service station man in the country tries, because it is his patriotic duty. We know that oceans of oil are needed to win the war, and we know that unless the black market in gasoline is broken, there may not be enough to go 'round.

So, help me and help yourself and your Uncle Sam, by endorsing the face of every coupon in your possession.

Don't take any gasoline coupons from anyone as a gift! Don't accept gasoline at any price without giving up coupons! And use the legal gasoline you buy for essential driving only!

I have asked you to help me; in return, I'll be glad to help you. Bring your car in any time for the many *Tire-Saving* and *Car-Saving* services I offer. Some are free, and some carry a small charge for materials and labor. But they are a big aid in making your car and your tires last longer and go further.

You'll find me at the Orange and Black 66 Shield, the famous sign of Phillips 66 Gasoline and Phillips 66 Motor Oil.

Your Phillips 66 Service Man

CARE FOR YOUR CAR—  
FOR YOUR COUNTRY

### FOR VICTORY... Buy U. S. War Bonds and Stamps

The cowponches applied, for a policy and the insurance agent was quizzing him in the usual manner.

"Have you ever met with any accidents?"

"No," said the cowboy, but added in an effort to give some helpful in-

formation. "A bronc kicked two of my ribs in last summer and a rattlesnake bit me in the ankle a couple of years ago."

"My word!" faintly expostulated the insurance agent, "don't you call those accidents?"

"Naw," said the king of the brand- ing iron, "they done it on purpose."

The time to make friends is before you need them.

Victory is Everybody's Job.

# Warning

NO COAL FOR CIVILIAN  
USE WILL BE SHIPPED  
DURING SEPTEMBER,  
OCTOBER, NOVEMBER,  
DECEMBER, JANUARY,  
AND FEBRUARY

The United States Government has notified all coal dealers and all mine operators that the Government will need the entire output of the coal mines of this country from September through February.

During these months the coal will be required to keep the war plants booming, the supply trains rolling and for the men in camps and on the battlefields.

With fewer miners and less transportation this promises to be the most critical year so far as the coal supply for civilian use is concerned.

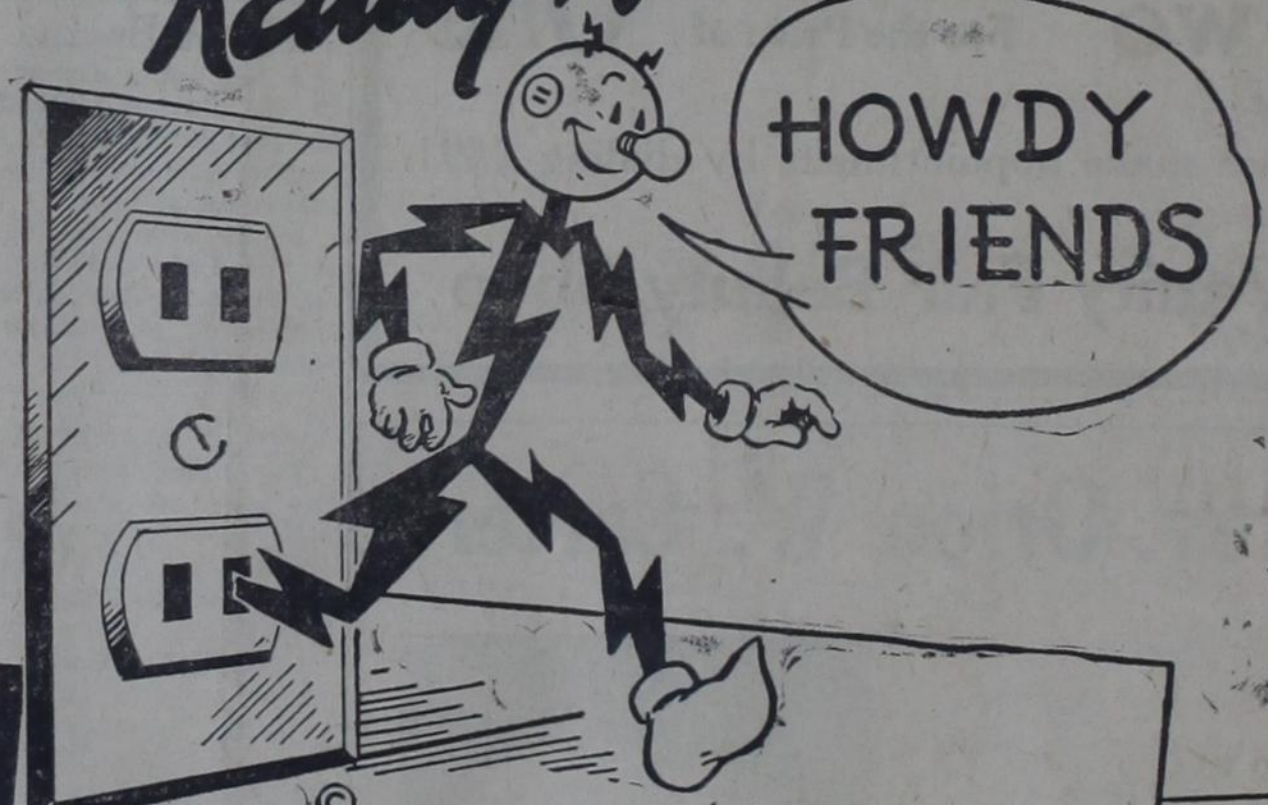

## Order Your Coal Now!

July and August are the only two months remaining in which reasonably prompt deliveries can be made . . . so all who use coal are urged to store it now. It is the only way you can be sure of having coal next winter!

Six-year-old Gordon Gaynor is shown enjoying an ice cream cone as his companion, a "honey bear," enjoys a cone of his own. Right: When the mercury jumped to 88 degrees in Chicago, Jimmy Fiala, two, and his pup, jumped for the water at the beach.

Turkeys For Soldiers Thanksgiving Meals

COLLEGE STATION—Texas farmers and those in 23 other states have been requested by the WFA to set aside their marketable turkeys to provide Thanksgiving, Christmas and New Year's dinners for the fighting forces at home and abroad.

Under an order which became effective July 17, 100 percent of the turkeys marketed and processed in Texas are required to be set aside for purchase by the Quartermaster Corps. This means that until the full requirement of the armed forces is met, Texas producers can sell only to authorized processors or to dealers buying for processors. The birds must be slaughtered by authorized processors and held for sale and delivery to the Quartermaster Corps either directly, or through wholesalers, or from cold storage.

"Generally speaking," said Ted Martin, poultryman, "this means marketing turkeys through many of the outlets the producers are in the habit of using. The all-important thing, however, is to market them as early as possible so they can be delivered abroad in time to serve Thanksgiving dinners to the men on the fighting fronts on land and sea."

Where there are no authorized processors or turkey buyers purchasing under the order in a given locality, producers who wish to market turkeys may obtain the name of processors from either the officer in charge, Quartermaster Market Center, attention poultry section, Produce Terminal Building, 1201 Jones St., Fort Worth, 2, or to a similar source at 409 Milam Bldg. 115 W. Travis St., San Antonio, 5.

The actual quantity required for holiday dinners for all of the armed forces is not disclosed, but the WFA estimated it is likely to exceed the 35,000,000 pounds obtained under a set-aside order last year. While the

1944 Texas turkey crop is large, Martin said that it was not possible now to approximate the percentage which might be finished for the holiday dinner pool. The contribution last year was substantial, and already spring laying hen turkeys had been marketed under a preliminary set-aside order which was recently terminated.

Deadline for Market, Classification News

COLLEGE STATION—Texas farmers growing one-variety cotton were reminded this week to file applications immediately for free classification and market news service for the 1944 crop. Since the state is divided into early-panting and late-planting areas, applications for most counties in the state must be filed by August 1, while the deadline date for counties lying west of the 100th meridian are to be filed by Aug. 15.

Texas farmers have four offices at which applications may be filed—1701 Ave. H, Lubbock; 1104 South Ervay, Dallas; 701 Post Office Bldg., Galveston; and PO Box 1140, Austin. Cotton classed for improvement groups under the Smith-Doxey act has shown steady increase throughout the cotton producing state since it first became effective in 1938.

Starting with 55 improvement groups representing 1,754 Texas farmers and 89,433 acres in 1938, there were 1,147 improvement groups last year composed of 107,164 farmers who planted approximately 5,877,393 acres. Improvement groups in the state during the 1943-44 crop year handled 1,474,779 bales or about 55 percent of the total Texas crop of 2,701,195 classed under the one-variety program.

Free cotton classing and market news service provides farmers and ginners with the grade and staple of each bale classed.

Better cooking and baking results today and tomorrow...

through Gas Research

Not everyone realizes the fundamental researches which are constantly under way in the American Gas Association's Testing Laboratories and those of equipment manufacturers . . . research which is bound to be to your benefit when you get new equipment.

Right now most of the work of the Laboratories in Cleveland and Los Angeles is of a secret military nature. When that story can be told, it will be a dramatic one. But in the meantime, basic researches are going on to improve the efficiency of Gas cooking and baking. From those great clearing-houses are coming important improvements and refinements which will make post-war Gas ranges and many specialized appliances even better. Among these advantages will be greater speed, fuel economy and convenience.

The A. G. A. seal of approval, stamped on a gas-burning appliance, is your assurance that the appliance

meets the nationally recognized standards of the American Gas Association as to SAFETY, RELIABILITY, ECONOMY and EFFICIENT HEATING PERFORMANCE. The American Gas Association is an independent national organization devoted to improving the quality and performance of all kinds of gas-burning appliances. To gain its seal of approval, equipment must undergo the most searching and rigid tests.

### SANTA FE CARLOADINGS

Santa Fe System carloadings for week ending July 22, were 30,223 compared with 22,698 for same week in 1943. Cars received from connections totaled 12,892 compared with 11,939 for same week in 1943. Total cars moved were 43,115 compared with 34,637 for same week in 1943. Santa Fe handled total of 43,002 cars the preceding week this year.

### Saipan New Hub in Pacific War

As the biggest naval task force in history battles for the island of Saipan (1) in the Marianas group and for Saipan's fine airfields, the importance of this particular spot—some 1465 miles from Tokyo and 1470 miles from the Philippines—becomes increasingly evident. Quite outside its proximity to the Bonins, located about 600 miles from Japan, which have just been attacked by a big carrier task force, Saipan is reported to have flat areas made to order for big land air bases.

Some already are envisioning the giant Superfortresses radiating from Saipan (as arrows show), as well as from China (2) to blast Nippon's big manufacturing areas and slam at the Philippines. Presence of great naval forces there, plus other forces battering at the Bonins, indicate that the big smash is on. It is pointed out that the recent capture of Biak (3) off New Guinea provides bases for cracking at areas indicated by arrows.

### Specialized Inspection Truck Tires Asked

Better inspection of truck tires to make sure that no tire goes out of service before it has given its last mile of wear was announced today by the OPA in an action restricting authority for inspections to stations having facilities and personnel capable of doing a thorough, specialized job.

Effective July 25, this provision became necessary because the truck tire situation is extremely critical and becoming more so, district officials said. Tires now in use must be given every care, including expert inspection and servicing, and replacements can be permitted only when absolutely necessary, it was reported.

Officials from the district office have been inspecting stations to see which are eligible as qualified inspection stations under the provision. By this new action, two types of tire inspections—official truck and passenger tire stations and official passenger stations—will be designated. The district office must be satisfied that the premises are operated by a person who will comply with instructions for making proper inspections. Stations must have qualified persons experienced in servicing the tires inspected, the necessary tools and equipment, and in the case of official truck and passenger tire inspection stations, space to store tires for a 30-day period.

Official passenger tire stations will inspect only tires of relatively small sizes, including those for farm tractors and wagons, and implements, passenger automobiles and passenger tires used on equipment.

Official truck and passenger tire stations will inspect all types of tires for replacements. In addition, they will make periodic inspections of commercial motor vehicles and trucks required by ODT.

### Revival To Begin At Bovina, Sunday

A series of special evangelistic services will begin at the First Baptist Church in Bovina on Sunday, July 30. Rev. T. G. Nanney, long-time pastor of the First Baptist Church at Wewoka, Okla., will be the evangelist, and Rev. Fred Stumpp, the pastor, will lead the singing.

Rev. Nanney has just closed a meeting with one of the Baptist churches in Oklahoma City, and will arrive in Bovina on Monday, July 31. Rev. Stumpp has just closed a city-wide meeting in Portales as singer.

Services will be held twice daily, except on Monday morning, of each week, the revival to conclude on August 13. Morning services will be conducted at 10:30, and evening services will begin at 9:00.

A very cordial invitation is extended to friends in the surrounding territories by the pastor and congregation of the Bovina church.

### GOOD RAINS IN OKLA.

Mr. and Mrs. S. J. Bozeman and Mrs. Roxey V. Cook returned home the first of the week from a business and pleasure trip to Tipton, Okla. They reported good rains and excellent crop conditions in the Tipton area on their return.

### Office Hours Given Local Ration Board

In the future, office hours for clients at the Farmer County Ration Office, located in the courthouse in Farwell, will be 9:30 in the morning until 12 noon, and from 1:00 to 4:00 p. m., members of the board have announced.

This arrangement, it was revealed, will give office personnel a little more than two hours a day to "keep up" with the issuance of certificates, etc., and is expected to facilitate the work of the office.

Board members stressed the fact that it was not necessary for persons who have in applications for gasoline and tire ration certificates to call at the office adding, "they will be mailed out as rapidly as possible after they have been approved".

In the past, a large majority of applicants have called at the office on Thursday morning, immediately following the meeting of the board on Wednesday night, and have, as one member put it ruefully, "taken up time that could have been used to issue the ration certificates."

Persons wishing application forms of any type, or information, are asked to observe the office hours, as the doors will be closed until 9:30 and after 4 o'clock, beginning August 1.

### FURLOUGH GAS HIKED

Members of the armed services on leave or furlough for a period of three days or more will be entitled to one gallon of gasoline for each day of such leave or furlough up to a maximum of 30 gallons, the district OPA has announced.

Designed to eliminate the unfairness of the existing regulation that granted a flat five gallons to service men regardless of the length of leave or furlough, it was worked out by OPA in conjunction with representatives of the Army and Navy.

No ration will be granted for passes to Army personnel or liberties to Navy personnel, or for leaves or furloughs of less than three days.

To receive this ration, the service man should apply to the ration board having jurisdiction over the automobile he expects to drive and present proper leave or furlough papers.

### It's Too Late When the Fabric Shows

### Farmers Catching Up Over Parmer County

With wheat harvesting virtually completed all over Parmer county, and row crop cultivation at a standstill until rains come, farmers of this county began to see a breathing spell during the early part of this week.

Except for a few scattered fields, all combining was reported to have been completed over the past week-end, and the only remaining task for the farmers concerning the record wheat crop is to complete hauling it to the elevators. Due to lack of shipping and storage facilities, many thousands of bushels of new wheat were piled on the ground during the rush harvest season.

The grain is now being gathered up and moved to market centers. On the row crop side of the picture, practically all farmers have pulled out of their fields and will not return to cultivation activities until rains are received.

Reports from over the county are to the effect that practically all row crops are needing rain. Showers have been falling over most of West Texas the past ten days, but the moisture received here in Parmer County has been exceedingly light, and farmers are wishing for a good, general downpour.

### Rural Electric Co-op Plans Line Expansion

Oliver Kimbrough, manager of Farmers' Electric Cooperative, Inc., announced today that the Cooperative is accepting applications for membership and electric service at their office at 521 Main, Clovis.

It has long been the aim of the Co-op to supply electric energy to every possible farm in this area but the scarcity of material has greatly delayed this program. It is expected that the construction of electric lines to unserved farms will be one of the methods used to prevent unemployment after the war is over and it is hoped that a service can be extended to an additional five or six hundred farm families in Curry and Quay counties within two years after the end of the war.

Kimbrough pointed out that in accepting applications at this time the Cooperative does not expect to expand until after the war, but is making definite plans now in an effort to save time when the emergency is over.

Ash thrown out by great volcanic action sometimes remains suspended in the atmosphere for years, drifting to all parts of the world and sometimes causing a peculiar "red glow" seen at sunset.
