

## Fifty-Thousand-Dollar Bulls Sold

The world's top priced bulls, \$50,000 each, were sold at the National Western Stock show, Denver, Colo. Richard C. Riggs, Cantonsville, Md., buyer of T. T. Triumphant, 29th, the Hereford at left, is shown between the two valuable bulls. E. F. Fisher, auto magnate, purchased the Hereford shown on right for his Hi-Point farm in Michigan.

# RED CROSS QUOTA IS \$3,800

## Consider Purchase Of New Fog Truck

REPORTED INJURED—Pvt. Eugene Bowers, son of Mr. and Mrs. Laurence Bowers of Texico, who is reported by the War Department to have been slightly injured in Luxembourg on January 12.

Pvt. Bowers graduated from the Texico school last May, finishing up with spectacular attainments in the sports field. Shortly after graduation he was inducted into the infantry and received his basic training in a Texas camp.

He was home on furlough last fall for a visit with his parents, and has been overseas only since November.

The telegram, received here Sunday, stated that details of his injury and the hospital address would be sent to his parents later.

TECH-SGT. LEONARD FLYE, son of Mr. and Mrs. J. R. Flye of near Texico, arrived home recently after spending 18 months in England with the Eighth Air Force.

Wearing the DFC, the Air Medal with five Oak Leaf clusters and two stars signifying special missions just prior to and after the invasion of the continent, Sgt. Flye is credited with having made 30 missions as a member of a Fortress crew on bombing runs over Germany and German-held territory. He is also privileged to wear a special Presidential Citation awarded his group.

Formerly a member of the Texico school, where he was prominent in sports activities, Sgt. Flye is visiting friends and relatives in this area on a 21-day leave, following which he expects to be enrolled as a cadet in the air forces.

A committee of businessmen and farmers will meet in the county court room in Farwell, Friday evening of this week, to discuss ways and means of providing the Texico Volunteer Fire Department with a new fog truck, the latest development in fire-fighting equipment.

Attention to this new type equipment was brought up at the last meeting of the Men's Club, which resulted in much spontaneous interest. The result was that a committee was appointed to meet with the local fire boys and discuss the matter.

At the latter meeting, Fire Chief A. C. Green said that he had given considerable study to the new fog equipment as a means of fighting fires successfully without the serious water damage that often amounts to more than the damage by fire.

### Works As Steam

Felix Monroe, who is a member of the fire department at the Clovis Army Air Base, said that water from the pressure pump when used with very high pressure forms a fog, which, because of the droplets—much smaller than rain drops—turns into a steam instantly, thus blanketing the fire so that the oxygen is cut off. Monroe said that one gallon of water used in the high pressure pump would have the effect of 2,000 gallons of water sprayed from an ordinary fire hose.

Chief Green said that the new equipment would put out fire "as fast as a man could walk through a room with the nozzle". And he laid special emphasis on the use of such equipment in handling rural fires where no water supply is available.

The plan that is under consideration is to buy the fog equipment, including a motor and pump that is capable of developing a pressure of 600 pounds and to mount this on a Chevrolet chassis, now owned by the Texico Department.

### Add Storage Tank

A storage tank, with a capacity of not less than 500 gallons of water, would also be mounted on the Chevrolet chassis.

Chief Green emphasized that such equipment would represent an outlay of approximately \$1,500. The object of the meeting on Friday night will be to go further into the details and to make some recommendations as to how to raise the money to purchase the equipment.

Already a number of local businessmen have agreed to contribute substantially to the fund, it is reported today.

Laying further stress on the need of the new equipment, Chief Green pointed out that the fire truck now in use has been laid up for repairs for the past several days.

Allied forces destroyed 2,000 Japanese ships in 1944.

RETURNED TO STATES—Major Julian Thornton, who has been overseas for some 32 months with the AAF and has completed numerous missions with the Flying Forts over Germany and occupied countries, is here for a visit with his parents, Mr. and Mrs. J. R. Thornton. His wife, who has been making her home in Albuquerque, is also here.

Last year, Major Thornton was home on a 30-day leave from the European theatre, following which he returned to his base in England. It is expected now that he will receive an assignment in the States when he returns to duty.

Parmer County has been given a quota of \$3,800 in the nation-wide drive to raise two hundred million dollars for the American Red Cross, it was announced here today by H. Y. Overstreet, who has headed up the War Fund drives in the past and who has been assigned to the same task again this year.

The drive officially opens on March 1st, Overstreet said, as he expressed complete confidence that the fund would be oversubscribed this year, as it has in the past.

The county quota for this year is slightly higher than the asking last year, which was oversubscribed by a substantial margin. Overstreet said that solicitations were already being made, and that he hoped to have at least half of the county assignment in hand the day the drive officially opens.

### Supplies Arrive

Supplies to be used in the drive have been delivered here, and the War Fund Chairman said that these would be distributed to the workers over the county during the next few days.

Last year, Overstreet said, approximately five thousand dollars was raised for this fund, and he predicted that the contributions would reach or even exceed that figure this year.

"The Red Cross is doing a great service in this war, as attested by the boys from the battlefronts, and I am sure our people will contribute generously to assist in carrying on the work."

## Farwell Raises \$70 For March of Dimes

A total of \$72.59 in donations to the annual March of Dimes, the fund used to fight infantile paralysis, was reported on Tuesday afternoon for Farwell by C. M. Henderson.

A large proportion of the collection was raised last Thursday night, when a benefit game between the Farwell boys and the "Alert" crew from the Clovis Air base was played at the local gymnasium, Henderson said. Several other substantial contributions were made by those who did not attend the game.

Rev. W. C. Wright, in charge of the Texico contributions, had no report to make as The Tribune went to press, since a definite checkup on contribution boxes had not been made in that city.

## Finley Is Top Turret Gunner, 15th AAF

15TH AAF IN ITALY—Cpl. Henry W. Finley has arrived overseas and been assigned to duty as a top turret gunner in a 15th Air Force B-24 Liberator group, commanded by Lt. Col. Brooks A. Lawhon, Tacoma, Washington.

With more than 160 combat missions to its credit, the group to which he has been assigned has made bombing attacks on vital Nazi targets throughout southern and central Europe.

Finley entered the AAF on April 27, 1943 and received training at the aircraft mechanic school at Sheppard Field, Texas, and at the aerial gunnery school at Hurlington Field, Texas. Prior to his entry in the army he worked his own farm.

His wife, Mrs. Rachel Finley, lives at Elk City, Oklahoma and his parents, Mr. and Mrs. J. M. Finley, live near Farwell.

### CHURCH SINGERS MEET

Singers from the various congregations of the Church of Christ in this area will meet at the Church of Christ in Lariat, Sunday afternoon at 3 o'clock in their regular monthly song fest. Singers from Farwell, Muleshoe, Clovis and Lazbuddy are expected to attend.

### APPLICATIONS COMPLETE

Ellis M. Mills, at the local AAA office, announced today that the large majority of applications for 1944 ACP payment had been completed at the local office, with at least 60 percent now in the hands of the state office. The few remaining here are being held for final reports on sudan threshing, which must be completed by February 15.

### WAR PLANTS PLANNED

The WPB announces that war factories costing \$200,000,000 will be built in 1945.

# Business Loans Will Be Made Veterans

The necessary machinery for processing applications by veterans of World War II for business loans under the Servicemen's Readjustment Act of 1944 (G. I. Bill of Rights) has been set up in the Dallas Loan Agency of the Reconstruction Finance Corporation, L. B. Glidden, manager, announces.

Glidden's statement followed an announcement from Washington that the Veterans Administration is to review applications to banks by veterans for the guaranty of business loans. Under the program, RFC will recommend to the appropriate office of the Administrator of Veterans' Affairs whether that office should approve or disapprove such applications.

Loans applied for may be used in purchasing any business, supplies, equipment, machinery or tools to be used in pursuing a gainful occupation. The government may guarantee repayment of such loans to the extent of 50%, but not in an amount exceeding \$2,000 as maximum guaranty. Thus, the veteran who qualifies for a business loan may obtain a guaranty of 50% for any loan up to \$4,000. He may, of course, obtain from his banker a loan of greater amount, but the guaranty is limited to \$2,000. In loans of less than \$4,000 the government guarantees half.

Glidden outlined the following essential steps: 1, the veteran should first contact his local banker; 2, if the veteran is unable to obtain a loan from local bankers he should apply to his nearest RFC loan agency.

"Banks desiring to assist veterans in this program may obtain the necessary regulations and loan application blanks from the local regional office of the Veterans' Administration," Glidden said.

"The requirements of the law are that the veteran must be found qualified by training or experience to engage in the type of business for which he seeks a loan, the property sought to be acquired is reasonable in price and suited to its intended purpose, and that the venture is likely to succeed.

"Since the act does not provide for loans to run businesses, the lender will want to know whether the veteran has sufficient funds for this purpose as well as ability, dependability, business experience, and business character to assume a rea-

sonable likelihood that the contemplated operations will be successful. The lender will also want to know whether the veteran has been in such business before entering the service and the nature of his service experience and training.

"Veterans are well advised to be on guard against fraudulent or absurd propositions and careful of exploiters. With the aid of the banker, who is schooled in such matters, veterans should investigate very carefully all propositions presented to them. There are many pitfalls, difficulties and hard work in operating one's own business."

### INDUCTION CALLS NOT HEAVY FOR FEBRUARY

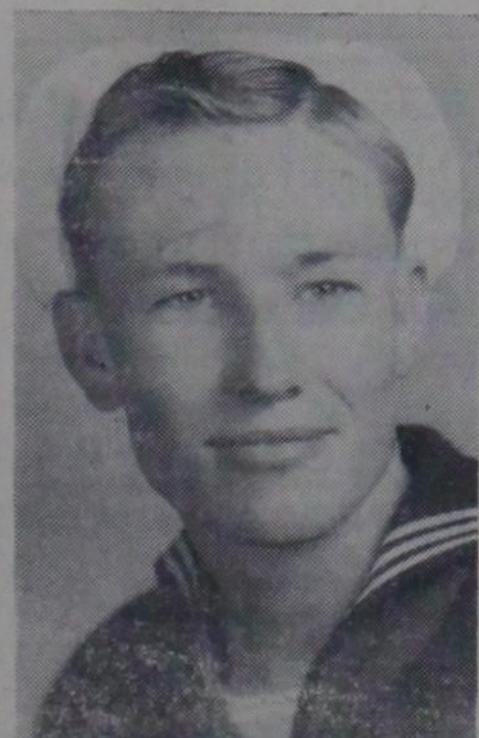

Contrary to all indications, the induction call and the pre-induction physical examination calls for the month of February are not as heavy in Parmer County as had been expected.

It was announced at the office of the local board today that the February calls were just about half as heavy as those for the month of January.

The pre-induction physical selections were forwarded from here this (Wednesday) morning and those who are being inducted into the service will follow tomorrow. Selective Service regulations do not permit listing the number of men being used in the calls.

### HAS OPERATION

Mrs. Morgan Billington underwent an operation for appendicitis last Friday. She is reported to be getting along nicely in a Clovis hospital. Mrs. G. F. Hicks is assisting at the Farwell postoffice during her absence.

DANIEL E. BOONE, S1-c, son of Mr. and Mrs. R. A. Boone of Texico, who is stationed in Gulfport, Miss., attending an electrician's school.

## Achievement Day Will Be Observed Feb. 14

Achievement Day for the boys of Parmer County's 4-H clubs will be observed on Wednesday, February 14th, it was announced today by County Agent Lee McElroy.

The program will be presented at the high school auditorium in Bovina, McElroy added, and will deal particularly with the outstanding work done by 4-H clubbers during the 1944 club year.

Three team demonstrations by members have been planned as special features for the evening's program. They include demonstrations on Johnson grass eradication, feeding of dairy cattle and eradication of cattle grub, according to present plans.

A number of special prizes will be presented to the boys in recognition of work done in 1944, McElroy said.

The complete program will be carried in the next issue of The Tribune.

## Ten Tires Are Lost In Bovina Burglary

W. E. (Buck) McCuan, operator of a service station on Highway 60 in the northern part of Bovina, lost at least ten new tires and an undetermined number of gasoline ration stamps in a burglary on Wednesday night of last week.

Entrance to the building was made by breaking out a window in the station. McCuan said that he had just received a shipment of tires in the afternoon before the station was burglarized, and had all of the consignment chained together and padlocked. The chain was broken, he added.

Sheriff Earl Booth stated today that no arrests had yet been made in the case.

## Chaplain Abbott In Missouri Hospital

Chaplain John Abbott, son of Mr. and Mrs. Press Abbott, who was injured some weeks ago on the Philippine Islands, has been moved to Oriley Hospital at Springfield, Mo., his father has been advised.

According to the meager information received here Chaplain Abbott was shell shocked during the Leyte invasion, and was removed to New Guinea for hospitalization, later landing on the West Coast. He was removed to Springfield last week.

His father announced plans to visit the wounded chaplain in the near future.

## Dairy Show Directors In Meeting Tonight

Directors of the Parmer County Dairy Association are meeting tonight (Wednesday) at Oklahoma Lane, for the purpose of discussing plans for the county dairy show, held annually in the spring.

County Agent Lee McElroy said today it had been hoped that the show could be held prior to the annual dairy events at Plainview, usually entered by local owners, but thus far no definite plans had been made.

## Pvt. Ruckman Wounded In Germany, Jan. 16th

Mr. and Mrs. Theo. C. Ruckman, who live on a farm about eight northwest of Texico on route one, have been advised by the War Department that their son, Pvt. Jeff Ruckman, was "seriously wounded in action" on January 16th.

No other details were revealed, except that the young soldier sustained his injuries in Germany.

His wife, the former Miss Lillian Reeves, a former Texico girl, now lives in Clovis, where she is employed.

### HAS HAND INJURY

Mervin Hamrick, local man who has been employed at the Clovis Army Air Base for the past several months, suffered a hand injury recently in which he lost the first joint from the fore finger of his right hand and lacerations on the middle finger.

Hamrick says he was working on heavy automotive equipment and had taken hold of the fan belt when an assistant stepped on the starter, catching his hand between the V-belt and the pulley.

### SALE DATE SET

H. D. Bradshaw and T. A. McCuiston have set Tuesday, January 13, as the date of their joint sale to be held at the Bradshaw farm 7 miles southeast of Farwell. Thirty head of cattle, one Farmall tractor and other implements, and some furniture items will be offered. Col. Dick Doshier will be in charge of the sale, which will get underway at 11 o'clock a. m.

### 2,000,000 STARVING

More than two million civilians in Budapest are starving.

### TO OUT-OF-TOWN SUBSCRIBERS

Under new policy, a charge of 10c is made for change of address. Please include this when you notify us of such change. Otherwise, The Tribune will not be forwarded to new addresses.

**OUR PLEDGE**

We pledge allegiance to the Flag of the United States, and to the Republic for which it stands; One Nation, indivisible, with Liberty and Justice for all.

**PLEASANT HILL**

Mr. and Mrs. Dick O'Neal, Betty and Lynn and Mrs. Hightower took Elton O'Neal to Amarillo, Friday night, where he caught the train for Denver, to report at the Merchant Marine station. From there he will be assigned for training.

Mr. and Mrs. Mack Goodman have received word that George is in North Carolina in a hospital and will have a 15-day furlough in a short time.

Joe Jarrell has been quite ill for the past week, but is some improved at present.

The local ball clubs will play the Rosedale teams here Friday night. The public is urged to attend.

The Pleasant Hill district will have an election for school directors on February 6.

Misses Evelyn Singleterry and Nell Durham left Sunday for Amarillo, where they will be employed by the telephone company.

**OKLAHOMA LANE**

Mr. and Mrs. Edgar Hardage and Gene of Farwell, Mrs. Fannie Hardage, Mr. and Mrs. Howard Billingsley and daughters spent Sunday in the Bill Hubbell home, with Mr. and Mrs. Tom Lindop and children visiting in the afternoon.

Melvin Sudderth had his appendix removed in a Clovis hospital the past week. He is doing nicely.

Mr. and Mrs. James Roach and Judy and Mrs. Jack Roach returned home Sunday from visiting relatives in Oklahoma City and other points.

Mr. and Mrs. J. F. Foster of Clovis spent Sunday with Mr. and Mrs. L. M. Grissom.

Mr. and Mrs. Charlie Hromas had as guests Sunday Mr. and Mrs. Arnold Hromas and daughter of Bovina, Mr. and Mrs. Hugh Tucker and family of Farwell, Mr. and Mrs. Joe McWilliams of Lariat, Mrs. Joe Donaldson, Mr. and Mrs. Harold Carpenter and son, Bro. and Mrs. Jess Terry and family.

Mr. and Mrs. Bill Hubbell and Beverly, Mr. and Mrs. James Roach and Judy spent Tuesday in Clovis with Mr. and Mrs. Ernest Foster.

Mrs. Earl Cole has received word that her husband, Pfc. Earl Cole, has arrived safely in Italy. She is the former Mary Margarette Foster.

Mr. and Mrs. Bill Hanna have sold their farming equipment and are moving to Clovis.

**Camphor May Be Produced in Texas**

AUSTIN—Texas has possibilities for producing camphor in quantities large enough to be of commercial value, Dr. C. C. Albers, University of Texas associate professor of pharmacognosy, believes.

Dr. Albers is now engaged in research on the leaves of the Mexican cedar, so abundant in Texas, trying to determine the percentage of oil and the amount of camphor in the leaves. He is doing his research at the request of an Austin business man interested in the project.

Camphor is a vital material for the manufacture of explosives and plasticizers, Dr. Albers says. He hopes to build a miniature plant which will determine the possibilities for research with the cedar leaf.

At the present time Formosa is the largest camphor-producing area, the pharmacist said.

**"SMALL" BUDGET**

A 1946 budget of \$83,000,000,000 smallest in three years, was proposed by President Roosevelt in a speech to Congress. The figure compared with a \$100,000,000,000 budget in 1945 and \$93,000,000,000 in 1945.

The student Cooperative Association at the University of Texas handled \$158,000 worth of business in 1944, according to its annual financial report. Purpose of the association is to serve sororities, fraternities, coop houses, and boarding houses on the campus, particularly in regard to food rationing and household supplies.

**Mulvihill Named As RR Livestock Agent**

The appointment of James M. Mulvihill as livestock agent at Amarillo, with jurisdiction over a portion of the P&SF Railway and the Pecos division of the AT&SF Railway in New Mexico, was announced today by H. C. Vincent, traffic manager.

Mulvihill was born in Kansas City July 28, 1900, and has had continuous Santa Fe service in the livestock department since August 1, 1918. In March, 1942, he came from Kansas City to Amarillo as head claim clerk, which position he held until his advancement to livestock agent. He succeeds to the post made vacant by the retirement of W. S. Carter.

Carter, who had more than 36 years of loyal Santa Fe service to his credit, was truly at home on the range, as his first employment was on a ranch at the age of 11. Subsequently he was connected with many of the famous early day ranches, until August 15, 1903 when he entered the service of the Santa Fe. He was appointed livestock agent Jan. 1, 1910, which position he held until his voluntary retirement. He was honoree at a buffet supper attended by a host of friends, representing practically every department of the railroad. Mr. and Mrs. Carter will continue their residence in Amarillo.

**FAVOR ORGANIZATION**

AUSTIN—Ex-servicemen attending the University of Texas favor a national veterans' organization to aid the returning veteran, according to a compilation of a campus poll made by a journalism class in Public Relations.

The poll showed that 61.3 per cent of the ex-servicemen favor a national organization, and 55.7 per cent want such an organization to be a nation-wide influence on the social, political and economic structure of the United States.

An organization of World War II veterans only was favored by 37.7 per cent, one of veterans of World Wars I and II was favored by 34.7 per cent, while 27.6 per cent favored two separate organizations for veterans of each war.

**EMPLOYMENT GOES DOWN**

AUSTIN—Employment in Texas fell off 6.4 per cent during 1944, a report from the University of Texas Bureau of Business Research indicates.

Payrolls during the 12-month period also decreased, by 1.4 per cent, the Bureau reports.

Manufacturing industries showed a 2.4 per cent change from December 1943 to December 1944, and payroll changes in the industries were 11.1 per cent gain from December to December.

**253,256 PLANES BUILT**

From July 1, 1940, to Dec. 31, 1944, American factories produced 253,256 planes of all types.

**Yanks Check Up on Jap Pillbox**

Cautiously, troopers check a Japanese pillbox facing the road to the town of Manao, on Luzon island in the Philippines. Little opposition was met with from the pillboxes or other Japanese fortifications captured by the Americans after their landing on Luzon. Navy big guns had done their share in softening up landing areas.

**SQUARE MILK BOTTLES?**

COLLEGE STATION — Many homemakers have complained for years that round milk bottles waste space in home refrigerators. Now, something is being done to remedy this situation, reports Mrs. Bernice Claytor, specialist in home improvement for the Extension Service.

One large dairy products company is experimenting with square bottles in its fluid milk plants. If these tests prove successful, the change-over is expected to be made as soon as practical.

**LABOR GAINS MEMBERS**

The nation's organized labor groups had 14,500,000 members on January 1, 1945 an increase of a million members since January 1, 1944.

**NEW COLLEGE BUILDINGS**

President Franklin B. Snyder of Northwestern University has announced the institution will erect buildings costing \$17,000,000 after the war.

**RATION CALENDAR**

Sugar: Stamp No. 34, good for 5 lbs., expires February 28. No. 35 will become valid February 1.

Processed foods: Book 4, blue stamps X5 through G2, good for 10 points each. H2 through M2 valid on Feb. 1. X5 through B2 expire on March 31.

Meats and Fats: Book 4, red stamps Q5 through D2, good for 10 points each. Q5 through S5 expire March 31.

Shoes: Book 3, airplane stamps 1, 2, and 3, one pair each.

Gas: A coupons, 4 gals. each, No 14 expires March 21.

**ATTEND MEET**

County Agent Lee McElroy and Mrs. Bessie Lee Henneman, clerk of the local draft board, were in Littlefield this (Wednesday) morning, attending a regional meeting with representatives of the War Manpower Commission.

Don't tolerate loafng hens with feed prices lke they are. Bring them in and we'll give you cash for them!

**FORD PRODUCE COMPANY**

Fresh vegetables should be the housewife's answer to rationing, Dr. Jet C. Winters, University of Texas chairman of the State Nutrition Council, says. For instance, she points out that a half-cup of cooked greens will supply enough calcium for one day for an adult. Cabbage is a plentiful source for Vitamin C—that valuable vitamin which keeps the body functioning normally and builds cells.

**FARM PRODUCTION UP**

Farm production increased 21 per cent from 1921 to 1944.

and supplies to cess pool. Taking applications for cast iron bath tubs. See us if interested in a pre-war bath tub.

**ELECTRICAL Material**

Including 1/4, 1-3, and 1/2 hp motors. Complete line of lighting fixtures. Automatic well pump systems, pump pipe and cylinders. All sizes of pipe and pipe fittings. Challenge 12 ft. windmill, with steel tower, good as new.

**WE'LL CONTRACT**

Your plumbing. See us if interested in propane tank.

**C. R. Elliott Company**

Bovina, Texas.

**Health Notes**

By Texas Department of Health

AUSTIN—National Social Hygiene Day will be observed on Wednesday February 7, and in Texas according to Dr. Geo. W. Cox, State Health Officer, all local health agencies are planning to participate.

Throughout the past year the Texas State Department of Health has carried on a large-scale persistent and effective campaign against syphilis and gonorrhea, the venereal disease enemies of national health.

These campaigns, Dr. Cox declared, have helped to keep venereal disease infections from spreading and have played a major part in aiding servicemen and civilian industrial workers to stay on the job. In fact man-days lost through such infections, in the armed forces and in industry, have been brought to an all-time low and Texas can list this gratifying result among its contributions to the nation's military and industrial achievements.

"Even though medical science has produced new drugs and medical research has found new methods to combat these diseases" Dr. Cox stated, "they are still formidable enemies. Fortunately, we now have facilities available for diagnosis and treatment of venereal diseases for all citizens of Texas who cannot afford private care."

Through new awareness among community and health leaders and law enforcement authorities, there has been tremendous progress made

in the control of venereal diseases in Texas, but it must be remembered that in our democracy a community will have no better control of venereal diseases and the repression of prostitution, than the citizens of that community want and are willing to support.

"Let us make Wednesday, February 7, V-day in the war on venereal diseases" Dr. Cox urged. "It can be done if we want it done badly enough."

**PLANTS AND VEGETATION PRESERVED AT TEXAS U.**

AUSTIN—Permanently preserved, identified and classified in the University of Texas herbarium are literally thousands of Texas plants and vegetables, according to Dr. Fred A. Barkley, assistant in the herbarium.

"This herbarium is of great economic value," Dr. Barkley says, "because when information is needed about vegetation of Texas, in particular, we are able to tell where the vegetation is found, in what quantities, and many other pertinent facts."

The materials are also used in comparison, knowledge about distribution of plants, and the pharmaceutical and industrial uses.

In the University herbarium are approximately 100,000 "sheets" of the native vegetation. Not only wil science, but also the state, industry agriculture and commerce benefit from the herbarium, the professor believes.

One of several herbariums in the state the University's collection was begun in 1890.

**NEW TYPE FENCE POST MAY COME INTO BEING**

COLLEGE STATION—A combination cedar-mesquite fence post designed as an experiment by C. W. Simmons of the Extension Service should, if put into general use, expand the practical utility of these two woods which grow abundantly in Texas.

The idea, says Simmons, is to suggest a method of fence building which offers durability and at least some economy of time in replacements. But as yet, he explains, it has not been determined whether this type of construction would be less, or more expensive than a full length, naturally durable or preservative-treated fence post.

Construction would require a stub of short-stem mesquite about three feet long, six inches or more in diameter, and having a large proportion of durable heartwood for the permanent base of the combination post. The upper end, extending about one foot above ground, would have a tapering hole about eight inches deep and three inches diameter at the top and two at the bottom with a moisture drain at the base. A slender post of cedar or of another species having good heartwood could be shaped with an axe to fit snugly into the hole. The stub could be toe-nailed to the post to hold it firmly. If the thin sapwood were treated to resist borers Simmons believes the stub might last 50 years. Moreover, it should be more grass-fire proof than cedar used alone.

The major difficulty in this set-up would be cutting the hole in the mesquite base, Simmons says. He suggests, however, that a power-turned bit—perhaps fastened to the rear wheel stud bolts of an automobile—would do the job.

This type of post probably would require the use of smooth wire running through holes in the post in-

stead of barbed wire and stapling in order to permit easy adjustment and avoid strain where the two pieces join.

Small cedar and mesquite are available in unlimited quantities for the combination, Simmons says. On the other hand cedars of good post size having a high proportion of heartwood are less abundant, and mesquite is ordinarily too twisted to make good full length fence posts.

**NEW BULLETIN ISSUED**

COLLEGE STATION—A new bulletin on the construction of outdoor barbecue ovens and utility furnaces has been released by the Extension Service, and copies are available from county home demonstration agents.

Miss Sadie Hatfield, Extension specialist in landscape gardening, is author of the new publication which is entitled "Barbecue and Utility Furnaces". Several kinds, including those suitable for both urban and rural homes, are pictured in the bulletin. Some can be used as trash incinerators and others for heating water on wash days.

Various materials, such as native sandstone, river rocks and bricks are discussed, and pointers given on locating the furnaces and on suitable landscaping for their protection. Blueprints on constructing home and commercial-size barbecue pits are also available from the Extension Service.

It is now revealed that the cocktail the major drank in England, which caused him to give the tip-off on D-day, was a "radio special." Three drinks and you start broadcasting.

The first book printed by movable type was the Gutenberg Bible. Only 41 copies are in existence today, and each is valued at 100,000 dollars.

**GAS-FIRED FURNACE**

Helps Clippers Keep Busy Schedules

In the new maintenance shops of Pan American World Airways at La Guardia Field, New York, aluminum parts are heat treated with Gas in a large salt bath. This interesting installation is another tribute to the speed, flexibility, economy and precision control of this modern industrial fuel.

Using radiant heat, the furnace operates between 650°F. for annealing and 920°F. for solution heat treating. Since the furnace is used intermittently, time required for heating up is very important; also, in bringing the salt bath to operating temperature, and maintaining it there, exact control of temperature and uniformity of heating are demanded; Gas was selected as the fuel because it alone met these requirements.

Besides economy in operation and upkeep, this Gas

furnace, by speeding turn-around time of the giant Clippers in the shops, helps reduce revenue hours lost from their world girdling schedules.

Discuss your heat treating processes with the Industrial Engineer of your Gas company. He has much helpful data at his command.

**RANGE AND LIVESTOCK CONDITIONS RATE HIGHER**

**COLLEGE STATION**—The conditions of Texas livestock and range feed rated uniformly higher at the end of 1944 than at the corresponding time 12 months earlier.

The January 7 report of the Bureau of Agricultural Economics, Austin, shows that cattle continued in good flesh. The reported condition of 81 per cent was five points higher than one year previously, but the same as the 20-year average. Cold, wet weather had caused some shrinkage especially in cattle grazing wheat pastures. But grain and roughage supplies were considered adequate in most areas if the remainder of the winter is not unusually severe.

The report gives sheep and lambs an even higher rating. They were in good condition and reported at 84 percent at the year end. This compared with 79 per cent the preceding year, and 83 per cent for the 20-year average. Moisture conditions were reported favorable in most of the sheep country and, although cold weather in December retarded growth of winter weeds and grass, early spring range prospects were promising. More ewes than usual have been bred to lamb in February.

Prepared by V. C. Childs and F. E. Finley, the report defines range feed conditions as continuing above average at the close of the year despite a "more than seasonal" decline during December. While most areas have good range feed and adequate supplies of grain and roughage, it explains, winter weeds and grass were making rather slow growth as a result of continued cold weather. At the same time, there was a scarcity of green feed in most districts, and small grain pastures were becoming depleted in parts of the Panhandle and curtailed generally by freeze damage.

Regardless, the outlook was bright. Moisture conditions were very favorable and only a short period of warm weather was needed to promote good growth of winter weeds, grass and small grains.

"I have a dog that growls, a parrot that swears, a fireplace that smokes, and a cat that stays out all night. Why should I want a husband?" the spinster says.

One of the most sensitive explosives is nitrogen iodine. It will explode if touched lightly with a feather.

**SPENDING INCREASED**

**AUSTIN**—Texans spent more money in 1944 than they did in 1943 in the merchandise field, a report from the University of Texas Bureau of Business Research shows.

In spite of certain wartime shortages, 14.6 per cent more money was spent last year than in the year before, and women's specialty shops showed the largest percentage gain in dollar sales, with 17.1 per cent increase.

One tenth of the world's crops are destroyed by insects annually.

**Improved Garden Insecticides for '45**

**COLLEGE STATION**—Texas gardeners will be able to wage a more successful fight upon destructive insects in 1945 because no restrictions will be placed upon the permissible rotenone content of insecticides for the coming agricultural season.

Removal of restrictions, which were in effect last year, is intended to enable manufacturers to offer finished insecticides having a rotenone content which they find necessary to obtain adequate crop protection, says Paul Gregg, entomologist from the Extension Service.

Last year manufacturers were prohibited from making a garden dust containing more than five-tenths of one per cent of rotenone. Experiment Station records show, Gregg says, that rotenone garden dusts should contain at least seventy-five hundredths of one per cent of this insect-killing agent to give satisfactory control. These records show further that the addition of an activator to the rotenone dust does not increase its effectiveness

in controlling garden insects.

It is pointed out by WPB and WFA that removal of the restrictions in no way implies that greater quantities of rotenone-containing material will be available for agricultural use this year. Owing to heavy insect infestation late in the 1944 growing season, inventories in the hands of distributors and dealers are low as compared with those at the corresponding period in 1943.

Victory gardeners are cautioned to read carefully the label on the containers and select, if possible, a garden dust containing at least .05 per cent rotenone for best control of garden insects. Gregg suggests that buying the rotenone garden dust early will permit manufacturers to do a better job of distributing their insecticides and also economize storage or space to take care of needs later in the season.

**ROUNDUP DATES SET**

Dates for the annual University of Texas Round-Up have been set for April 6 and 7, John A. McCurdy, executive secretary of the Ex-Students Association, has announced.

**the NEWS**

brought to you by . . .

As so many of us wait with anxious hearts, we are grateful for our radios, that help to pierce the wall of silence between the fighting fronts and home.

Most of us could never hear the war's historic broadcasts were it not for dependable electric service that brings our radios to life at the snap of a switch. The same electric service makes the broadcasts possible—for it supplies the power by which your local station flings signals into space from its transmitter.

When seeing the news while you hear it becomes a commonplace, along with many another new appliance, you will be more thankful than ever for dependable electric service. Be sure that your home can take full advantage of it. Plan now for adequate wiring. Have your contractor see that wiring will handle the electrical load which the many new appliances and lighting will demand.

## Edna Mae Caldwell To Represent Texico High

Miss Edna Mae Caldwell, senior student at the Texico High School, has been named as the local representative in the New Mexico "Good Citizenship" contest for high school seniors, the contest being sponsored by the New Mexico DAR each year.

Balloting on the local representative was held by faculty members on Monday afternoon. The DAR outlined four points for consideration: dependability, leadership, service, and patriotism.

Entries in the contest from over the state will fill out special questionnaires before county superintendents, after which their papers will be judged and the state winner announced. The student chosen will receive a \$100 war bond. Miss Caldwell is to take her examination on February 17th, it was announced.

## Post-Nuptial Shower Given Mrs. Wellman

Mrs. Verne Wellman, the former Miss Helyn Kay Blair, was honored the past Friday afternoon, when a post-nuptial shower was given in the home of Mrs. Rupert Paul, with Miss Twila Strickland and Miss Wanda Boss as co-hostesses.

Following the social hour, a lovely refreshment plate was served to Mesdames Roy B. Ezell, W. H. Graham, Tom Randol, P. M. Owens, Ralph Humble, Riley Boss, Reece Bennett, Bart Osborne, Edward Engram, M. Janasko, E. G. Blair, the honoree and the hostesses.

Regrets were sent from Mesdames W. J. Matthews, Monte Hamilton, W. E. Martin, Murray White, W. F. Martin, Jack White, Anne H. Overstreet, J. E. Bingham, Wayne Bivins, J. R. Thornton, David Harrison, Helyn Bowers and J. O. Landon; Misses Pearl and Freida Martin, Iris and Dorothy Thornton.

## Married January 20

Announcement has been made here of the marriage of Miss Betty Jones, of Vaughn, to Marvir Key, formerly of Friona. The double ring ceremony was performed in Clovis on January 20th. Key is now connected with the Santa Fe railroad and the couple is at home in Vaughn.

## Return From Laredo

Mr. and Mrs. Mose Glasscock, Mrs. Roy Bobst and Miss Natoma Hodges returned last week from Laredo, Texas, where Mrs. Glasscock and Mrs. Bobst were called in connection with a robbery case involving the local ration office. Miss Hodges visited relatives in San Angelo.

Tribune job printing is best.

## In Cain Home

Mrs. Ida Gallagher, mother of Mrs. Loyd Cain, and Mrs. Eddie Morris, sister of Mrs. Cain, are here from Los Angeles, California, for a visit of several days in the home of the local people.

## To Arkansas On Visit

Mr. and Mrs. B. N. Graham left the past Friday for Little Rock, Arkansas, to spend several days visiting their son, Pvt. Muggins Graham, who is stationed at Camp Robinson, and other relatives in that area.

## Licenses Issued

Two marriage licenses were issued Saturday, January 27, by County Clerk D.K. Roberts to out-of-town couples. One was to Miss Patsy Ann Floyd and Edd Vandiver, and the other to Miss Ozelma Lee Vandiver and Paul M. Sanderson.

Miss Carol Lee Porter, of Clovis, spent Sunday visiting with friends in Farwell.

Mrs. Tom Williams and Mrs. Dick Carrol of Las Vegas, N. M., spent Thursday and Friday with Mr. and Mrs. Stacy Queen. They have some cattle on wheat pastures near Dimmitt and were here seeing after the interests.

Lawrence Overstreet left Sunday for his home in Oklahoma City, after spending a week in the home of his mother, Mrs. Anne Overstreet.

Mr. and Mrs. Joe Dubiel have moved to the Jersig ranch north of Bovina, where he is employed. Joe says he will be in Farwell on Saturdays to look after his nursery stock.

H. Y. Overstreet was in Amarillo, Monday, attending a meeting of Red Cross workers, where plans were laid for the annual Red Cross War Fund drive.

Mrs. Roy Bobst left last Thursday night for her home in Yakima, Washington, after spending several days here visiting with friends. She was formerly employed at the local ration office.

Victory is Everybody's Job.

## NEWS FROM OUR BOYS IN CAMPS

### HERE ON FURLOUGH

Pfc. and Mrs. Dick Crume, of Muskogee, Oklahoma, departed on Tuesday morning, after spending a few days here with his father, C. E. Crume, and other relatives and friends. Dick is with an MP squad in Muskogee.

### IN PHILIPPINE ISLANDS

Sgt. Woodrow Lovelace has advised his wife that he is now located in the Philippine Islands. Lovelace has been overseas for more than two years, stationed until recently at an air base in Australia.

### BACK TO CALIFORNIA

"Smokey" Gast, S1-c, left the past Saturday for California, to return to naval duty. He had been here for some two weeks visiting his parents, Mr. and Mrs. Karl Gast.

### TWO GET APO ADDRESSES

Two local soldiers have recently received APO addresses, according to relatives here. Mrs. Gabe Anderson reports that her son, Pvt. Bobby, has been listed with an APO out of New York City, while Pvt. W. T. North has gone the other way, drawing an overseas address out of San Francisco, Mrs. North said.

### CARBINE SAVES LIFE

Pvt. Jess Herbert Pipkin, serving in the Belgian area with the paratroops, writes his mother that his carbine saved his life recently. "A mortar shell hit near me and fragments flew every way—just happened to have my carbine right in front of me and a piece of shell hit it and split it completely in two. Guess the fragment would have split me if it hadn't been for the gun." Pipkin first saw overseas duty with the airborne infantry in Italy.

### IN ITALY NOW

Pvt. Ivan "Rusty" Jones notifies The Tribune office that he is now in Italy, and adds, "It's not bad but I wouldn't mind seeing the good old USA". Rusty formerly worked at The Tribune office. He is the son of W. H. Jones, of Clovis.

### WALLING ON VISIT

Pfc. Clark Walling, who is stationed at Sherman, Texas, arrived last week to spend a furlough visit with friends in Farwell, Clovis and Amarillo.

My poultry house usually looks clean, but germs don't show, so I disinfect it often. It's really no trouble with Dr. Salisbury's PAR-O-SAN, because PAR-O-SAN is a powerful, but pleasant disinfectant, free of "dippy" odors. It's effective against common poultry disease germs and won't harm the birds, even if I disinfect while they are in the house.

DO YOU HAVE POULTRY PROBLEMS? LET'S TALK IT OVER

MALONE ICE & PRODUCE CO.  
Farwell, Texas

### GETS EXTENSION ON LEAVE

Clarence Meeks, son of Mr. and Mrs. Edd Meeks, has received a telegram granting him an extension on his furlough. He arrived here on Christmas Day after serving overseas for two years. Clarence expects to return to the Hawaiian Islands when his furlough expires.

### LEAVES WEDNESDAY

MM3-c Edwin Foster will leave today (Wednesday) for Camp Parks, California, after visiting relatives at Oklahoma Lane and in Clovis for the past 30 days.

### GRAHAM BEING MOVED

Sgt. and Mrs. John Graham are here from Lubbock for a visit in the home of his parents, Mr. and Mrs. B. N. Graham. John is on overseas orders, and will leave here Feb. 6 for Kearns, Utah, after which he expects to see duty in the Pacific. He has been stationed in SPAAF, Lubbock, for more than a year.

### Invalidation Dates To Be Decided on Stamps

A new policy of definite invalidation dates for food ration stamps, with each series good for about four months, has been established, according to Opal L. Wood, district OPA food rationing officer.

Continuing the present policy, a new series of red stamps for meat and dairy products and blue stamps for processed foods will be validated each month. Instead of being good indefinitely, however, they will expire after about 16 weeks.

The same policy applies to expiration of sugar stamps. No. 34, now valid will expire February 23. No. 35 becomes valid tomorrow (Thursday) for five pounds.

Red stamps Q5 through S5, that became valid December 3, will expire March 31. Blue stamps X5, Y5 and Z5, A2 and B2 became valid December 1 and will expire March 31.

## Dramatics Class Takes To Greasepaint, 6th

The Dramatics Class of the Farwell High School, under the direction of Miss Dottie Dell Quickel, will don greasepaint and costumes next Tuesday night, February 6th, to present the three-act comedy, "June Mad".

One of the most elaborate stage productions that has been attempted here in some years "June Mad" carries out its title in the theme "in the spring a young man's fancy..." in an hilarious recounting of the lives and loves (mostly) of the Woods family and their friends.

Featuring triangle love-affairs which range from "puppy" cases to the "real McCoy" the comedy takes place principally in the Woods home with Dr. and Mrs. Woods the more or less happy recipients of the assorted tales-of-woe.

Members of the cast are this week preparing special stage settings for the play. Miss Quickel said and rehearsals showed practically every character letter-perfect.

The play is scheduled to begin at 8:30, and attendants are asked to be prompt, as the presentation runs over two hours and of necessity must begin on time. Admission is 25 and 35 cents.

### \$1,500,000,000 FOR ROADS

Congress has authorized a \$1,500,000,000 post-war project for rehabilitation of the nation's highway system and \$100,000,000 has already been released for the purpose of making surveys to determine actual needs in each state.

### QUICK RELIEF FROM Symptoms of Distress Arising from STOMACH ULCERS DUE TO EXCESS ACID

## Sikes Motor Company

FORD and MERCURY FORD TRACTOR  
FARWELL, TEXAS

### Muleshoe, Farwell Girls Play Tie Game

The best girls game of the current season was played on the local court Tuesday night, when the Muleshoe and Farwell players ended four quarters with a 15-15 tie and in the extra three-minute period, Witte sank a goal for Muleshoe to win 17-15.

Playing by both teams was rather ragged during the opening quarters but teamwork smoothed out in the second half and the score was exceptionally close throughout. With two minutes to go, Farwell led, 13-14. Muleshoe sneaked in a goal and in a few seconds Ford stepped up to the free shot line and bagged one for the locals to tie up the game.

Booth of Farwell and McAdams of Muleshoe were tied with 9 points each for high, while Ford and Witte were at second place with 6 each. The guards on both sides—Randol, Moore and Tipton for Farwell, Eliot, Adams and Tarter for Muleshoe—turned in excellent games.

The Farwell boys stepped back on the winning side by defeating the visitors 14-29, in a game marked by heavy fouling on the part of St. Clair and Lowrey, of Muleshoe.

Play in the first few seconds was close, but Phillips then hit three fast ones from almost center-court, and from that time on, Farwell continued to score frequently.

A decided improvement in playing was noted in the Farwell team, which last Thursday night had turned in a very poor game.

Robertson and Phillips had eight each for Farwell, Renfrow led Muleshoe with 5, while Ford also had 5 for the Steers.

#### SUDDERTH LOCATED

Billy Sudderth, 28-year-old farmer, who was reported missing last week, has been located in El Paso, it is reported here.

A search for Sudderth was instigated the first of last week after the young farmer had failed to report to his home after an absence of five days.

### Texico Beats Portales, Loses Game to Melrose

Playing only boys' games during the weekend, the Texico teams came out with two wins at Portales on Friday night, and two losses to the visiting Melrose aggregations, Saturday night.

A big fourth-quarter rally put the first-stringers over the top on Friday night, when they came from behind to defeat the Rams 25-14, after trailing 7-10 at half-time.

The Wolverines pushed into a 13-12 lead at the end of the third period, and wound up the ball game by hitting the bucket from all sides to take a decisive victory over the surprised Rams. Roop and White paced the winners with 10 and 8 respectively, while scoring was split on the Portales side of the ledger, with Sikes having a total of 4 as high man.

The second string also took its game from Portales, but the score was not available today.

**Lose Two to Melrose**  
In a game which saw more fouling than ball playing, the locals fell far behind in the second half Saturday night, to lose to the Melrose Buffaloes 52-21, after holding them down to a reasonably close score in the first two quarters.

Had it not been for Roop, Texico probably would not have been in the ball game. The short Texico player hustled the ball out of the hands of the opposition time after time, but his basket shots went awry, and he managed only 5 points.

Clayton really hit his stride for the visitors in the last two periods, and emerged with a total of 19 points during the game, while Thomas, stellar player, hit the hoop for 13 and Davis came in with 10. Johnson led the Texico scoring with 6.

A hotly-contested second-string game went to Melrose in the closing minutes, 28-22, despite efforts of the Texico squad. Gant of Melrose led the scoring parade with 11 and Baldock of Texico ran him a close second with 10.

Tribune job printing is best.

### 'I Shall Return' Pledge Kept

Landings on Philippines, (1) at Leyte, (2) Mindoro, (3) Marinduque, and (4) Luzon, most important of all the islands. Just two years, eight months and four days after the fall of Corregidor, American troops are back to retake the entire island.

### 'Alert' Crew Tumbles Hapless Farwell Team

The "Alert" basketball team from the Clovis Army Air Base lived up to its name the past Thursday night, when it capitalized on the fumbles of the Farwell Steers to down the locals, 27-33, in a benefit game staged at Farwell for the March of Dimes fund.

Without doubt, it was the poorest game of the season so far as the Steers were concerned. The first string, opening the game, missed passes, dropped the ball, failed to sink easy basket shots, and in general, fell far below the standard of play which previously they had exhibited.

Opening the second half the second stringers took the court for Farwell, and with Summers and Hines doing most of the hustling, staged a rally which netted three baskets and held the Clovis team down slightly. Heartened by these efforts, the main string returned to the game and scored enough points to keep them in the ball game but the spectacular one-hand corner shooting of Gray, unchecked by local guards pushed the Alert crew on up the line.

Adding eight points in the last few minutes to four already taken, Gray stepped out in front for scoring honors, with 12, being ably assisted by Tucker, who bagged eight. Williams came through with 10 for Farwell.

All proceeds at the door, over \$50, went into the March of Dimes fund from Farwell, and the referee, Jack Williams, donated his services for the evening.

### Ranchvale Teams To Play on Texico Court

Friday night will see two games on the local court, between the Texico and Ranchvale teams, according to Coaches C. E. Sanders and Viola Rodewald.

Smarting from a stinging defeat at the hands of the high-stepping Melrose Buffaloes the past weekend, the Texico Wolverines are going about practice a bit grimly this week. Earlier in the season, on the Ranchvale court, the teams split games—Texico's boys winning, and the girls being dropped by the strong opposition.

Coach Rodewald reported that her girls were upset by the tall Friona sextet, 21-39, the past Wednesday night, when the squads met at Friona.

The first game will be called Friday night at 8 o'clock, Texas time.

#### SIX NEW REGISTRANTS

Six Parmer county boys registered with the local board during the month of January, it was revealed today by Mrs. Bessie Lee Henne-man, clerk of the board. They are: Herbert Levi Silvertooth, James Benton Glaze, R. L. Clark, Hugh Edward Moseley, Romauldo Gonzales, Wm. Ernest Kalbas.

#### SANTA FE CARLOADINGS

The Santa Fe System carloadings for week ending January 27 were 24,080 compared with 22,495 for same week in 1944. Cars received from connections totaled 14,892 compared with 13,786 for same week in 1944. Total cars moved were 38,972 compared with 36,281 for same week in 1942. Santa Fe handled a total of 38,254 cars in the preceding week of this year.

### Farwell Teams Play Springlake on Friday

Renewing conference play against strong opposition, the Farwell cagers have scheduled two games for Friday night of this week on the home court, inviting Springlake to participate in the evening's activities.

Shortly before the Christmas holidays, the Farwell boys and girls took both matches from the Springlake aggregation when the teams met on that court, and Springlake's boys have already served notice on the Farwellites that they will be out to avenge that defeat this weekend. Last weekend, Springlake toppled the strong Friona Chiefs who two weeks before had humbled the Steers in a last-quarter rally, and Coach J. T. Carter has no illusions about the strength of the team his boys will meet on Friday.

The visiting girls will also be out after the scalps of the Farwell players, and Coach Dottie Dell Quicker was putting her team through its paces today in hopes of stopping the expected Springlake attack.

The girls will take the floor at 8 o'clock Friday night, followed by the boys.

### 'Odd Lot' Shoes Will Go Ration-Free Soon

OPA has authorized a ration-free "odd lot" sale of men's and women's shoes, beginning February 19 and ending March 3.

The temporary ration holiday, OPA said, is to give consumers the benefit of extra shoe mileage that otherwise might remain on dealers' shelves, and to help dealers clear their stocks of the normal accumulation of odds and ends and broken sizes. Before rationing, such shoes were customarily disposed of in seasonal clearance sales, but under the ration program it has been found that this odd lot merchandise does not sell for stamps, even at reduced prices. Therefore, it has been OPA's policy to declare stamp-free periods from time to time.

The sale price for shoes from a retailer's stocks must be at least 25 percent below the regular price. The retailer's mark-up on shoes purchased from another dealer must not exceed 33 1-3 percent.

#### 360,000 SEE BOWL GAMES

Ten bowl games on New Year's Day attracted 360,000 football fans.
