THUDSDAY, OCTOBER 26, 1944

Most of County Gets Christian Is Richards Enters Judge Race Rain Wednesday Nite State Winner **Roberts Rites At** West Camp Farmer Is Oklahoma Lane Today

Most of Parmer County was visi- Still More Bandages ted by a gentle rain that fell throughout the night last Wednesday, which will be of great benefit to wheat fields.

THIRTY-THIRD YEAR

However good on the wheat farmers, the grain sorghum producers were not so enthusiastic about the moisture. They have been making desperate efforts to harvest their crops the past few weeks, and the rain only brought further delay.

Farmers from over the county generally are reporting trouble in, gathering their crops this fall, due to late rains in September that caused most crops to put out a New Grain Elevator -"sucker" growth that is immature. Combining operations that were begun early this month, in many cases, have been suspended awaiting a Ford, for many years Farwell profrost to kill the green grain in the sucker heads.

here in recent years, in that ample wheat, assuring abundance of winter pasturage for livestock.

On the other hand, row crop farmers are facing one of the most difting their fall crops harvested. Except in the Lariat section, where the Panhandle. after a killing frost strikes.

Green Bags Big Elk

succeeded in bagging a large elk dispatch.

The Texico-Farwell Red Cross room, in the Farwell homemaking building, will be open as usual Friday at 5 o'clock, and workers

are urgently needed, as there are several packages of bandages to be finished to meet the October quota.

Surely every woman in town can spare a few hours a week to help out in this important work. The Red Cross room is open each Monday and Friday from 5 till 10.

Under the management of Ray duce dealer, the new grain elevator of the week.

This Skeptical Gentleman represents many hundreds of thousands of automobile owners

ou mean, it's that easy?

... intelligent, patriotic drivers who are determined to give their cars the best of care, who understand the nation's need for keeping every possible car running for the duration.

They require no long-winded arguments to convince them that quality oil is the best policy. They ask only: How can I select a quality lubricant, when I am neither an engineer nor a chemist? Isn't there some simple, easy way to make sure of getting a motor oil of quality?

There is! Phillips, with an outstanding reputation in the field, makes a frank and clear statement to relieve all doubt when choosing between the various oils marketed under this good name. Phillips says, if you want our <u>best oil</u>, remember we frankly tell you that <u>Phillips 66 Motor Oil is our finest quality</u>... the highest grade and the greatest value ... among all the oils we offer to average motorists.

Cumulates dust, metal particles, and oxidation products. So it's wise, say experts, to drain every two months, under today's reduced driving conditions. Especially when you make the seasonal change, ask for the correct winter grade of Phillips 66 Motor Oil.

PROVED IN 50 BILLION MILES OF SERVICE

Provide State

Write In the Name of B. N. Richards

For 69th Judicial Judge on Nov. 7

There is no name in the Democratic column on the Nov. 7th ballot, but under the title, "For Judge 69th Judicial District" there is a blank space. A name must be written in that space if a judge for this district is elected.

ia.

48-3tp

TO THE VOTERS OF THE 69th JUDICIAL DISTRICT:

Representative citizens in all the seven counties of this 69th Judicial District have been contacted for their opinion as the most experienced and best qualified man to be elected District Judge on Nov. 7th. Since no name appears on the ballot, due to the fact that James W. Witherspoon of Hereford resigned after the Democratic nominating primary of July 22, these citizens almost unanimously have suggested B. N. Richards of Dalhart, a lawyer for 35 years, a citizen of the district since 1909, a former district attorney and a life-long Democrat. His experience has embraced some of the most notable cases in the Panhandle and has included practice before the higher courts of Texas.

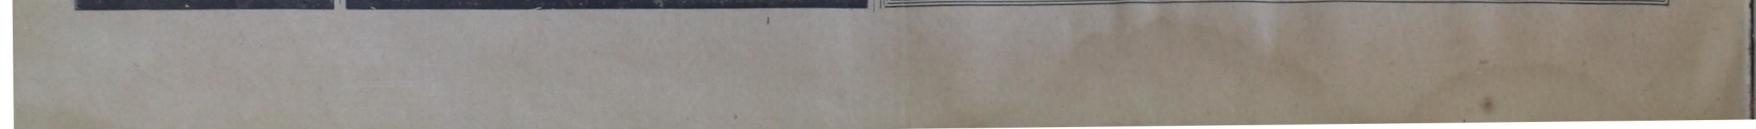

This district Richards-for-Judge Committee-chosen by the representative citizens-has asked Mr. Richards if he will accept, qualify and serve if elected to the 69th District Bench, and he has stated unequivocally that "if the people of this district see fit to elect me by writing in my name on the Nov. 7th ballot, I would not only be glad to qualify and serve, but would feel that I had been highly honored."

For reasons known to all of Mr. Richards' friends and to most voters of the 69th District, he cannot make a comprehensive campaign. Co-operation with conservation programs to speed the end of the war play a major role, and so does the scarcity of help.

We believe a vote for B. N. Richards-a 59-year-old veteran of the legal profession-is a vote for the type of experience, qualification and mature judgement so essential in a judge who is called upon to decide questions of life and death, liberty or imprisonment, as well as vital issues of property rights.

We respectfully solicit your consideration, influence and support on behalf of B. N. Richards.

Bovina, Texas.

AUSTIN-Pellagra, even though not a communicable disease, is of concern to public health officials in Texas, since many people die of pellagra in this state every year. The disease is caused by the lack of certain essential foods and since it comes on slowly may not be recogmized until the victim begins to have the more serious symptoms such as sore mouth, stomach trouble, and reddening and scaling of the skin.

"When these symptoms appear, the disease has been present for some time," says Dr. Geo. W. Cox, State Health Officer. "The longer a person has pellagra the harder it is to cure. Consequently it is well to watch for the early symptoms such as nervousness, indigestion, and burning of the hands and feet. In its advanced stages pellagra may become so severe as to seriously affect the mind."

Pellagra is not contagious, Dr. Cox pointed out, and he emphasized that it can be prevented entire-Iy by including the right kinds of foods in the daily diet. These essenfial foods include milk, fresh meat, whole wheat products, brewer's yeast, salmon, tomatoes, and other fresh fruits and vegetables. By including these foods in the daily diet, any individual can rest assured menace to his health.

SINUSITIS IN TURKEYS

COLLEGE STATION-Sinusitis, more commonly called roup of swell-head, affects turkeys of all Extension Service, the disease is highly contagious and is transmitted mainly by contact with infected or recovered carrier birds. It generally is seen after birds are over six weeks of age.

The condition usually is exhibited by swelling or enlargement of the sinus due to accumulation of a gelatinous-like fluid in the sinus. The lung form often is present with or without the swelling of the sinuses and sometimes produces more deaths. Birds so affected usually exhibit a rattling in the lungs and go off feed.

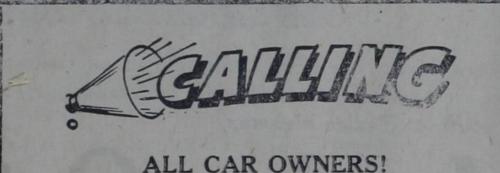

When communication lines laid across the Moselle river, France, by the signal corps battalion were broken three times, the men decided to swim the lines across the river. The signal corps work has been outstanding in this war in keeping open all lines of communication, many times under heavy fire.

that pellagra will not constitute a promising results, Moore says. To days, or until appearance of recovtreat individual birds give one 7.5 ery is observed.

Moore says that vaccines or bacterins do not provide any protection or promote any curative effects on sinusitis. But turkeys at all times should be provided with sufficient amounts of vitamin A either in the feed, or as green feed or alfalfa hay. In the swollen sinus type, good

results often are obtained by removing the fluid from the sinus with a syringe and needle (16 or 18 gauge needle) and injecting 1-2 c.c. of four per cent silver nitrate into each sinas, followed by light massage. If a syringe is not available, open the sinus, drain, and swab with four per cent silver nitrate. Make the incision large enough so it will stay open and drain. Cutting a circular hole with sharp scissors gives best results.

Lately sulfathiazole has given

Col. Myron G. Blalock.

An appeal to the Democrats of Texas not only to aid in winning an overwhelming victory for the Roosevelt-Truman ticket in Texas but to help in the election of a democratic Congress was made today by Col. Myron G. Blalock ot Marshall, Democratic Nationa. Committeeman for Texas. Colonel Blalock heads the State campaign, with headquarters in the Hote Adolphus, Dallas.

"We are seeking a million votefor the Democratic nominees and also to raise \$150,000 for the Democratic Party in Texas," Col. Bla-lock says. "If Sam Rayburn is tremain Speaker of the House and other Texas Congressmen are to head important committees, we must help elect a Democratic Congress. Funds raised in Texas, after the Texas campaign has been fi-nanced, will be sent to the Demo-eratic National Executive Committee to be used in support of Demperatic candidates for Congress in other parts of the country. The Democratic National Executive Committee is appealing to every loyal Texas Democrat to help this in the crankcase, transmission, differential. Make sure your car will be properly lubricated for winter driving. We offer you our specializ-PHILLIPS service for this most important job.

GOLDSMITH **Produce Company**

rarwen, rexas.

With the fastest and most modern grain elevator in this section, we are now ready for your grain at our new plant at Lariat.

For the time being, we are doing our weighing on the Lariat Gin scales through the courtesy of E. M. Deaton. Our new 50-foot scale will be ready by the latter part of this week.

In establishing this new business at Lariat, we are doing so in order that the farmers may have a better service, to which they are entitled. One elevator at this point has been inadequate for the past several years, and we are hoping hereafter the farmers will be served to the fullest of their demands.

We invite a share of your business on the assurance you will be given a fair deal • on every transaction.

Thank You

In retiring from my connection with the Gulf Service Station in Farwell, I want to take this opportunity of expressing my thanks for the splendid business I have enjoyed while in charge of the station. Your patronage and good will have been greatly appreciated.

H. L. DYKES
