

**LAD HELPS TO MOW DOWN POLIO . . .** Here is little Donald Anderson, five, Prineville, Ore., the spirited youngster who is inspiring victory over infantile paralysis as he keynotes the 1946 "March of Dimes" campaign. Donald stands in front of the poster, showing him during and after his battle with the dread disease. He holds a toy gun as if he would like to meet the polio enemy in mortal combat and beat it for all other kids.

## May Set Farm Labor Rates For Parmer

If farmers of the county are willing to cooperate, wage scales for all types of agricultural workers may be made uniform in Parmer county, Agent Lee McElroy reported today.

McElroy first pointed out that few people are aware of the fact that, through the War Food Administrator, labor scales can be determined for designated areas, but added that if sufficient interest is manifested, a public meeting can be held, to set a county scale. Following such a meeting, a report would be sent to state officials and the plan would be checked for approval or disapproval.

"Principally," McElroy said, "the purpose of establishing labor ceilings would be to control migratory labor . . . in other words, have a uniform scale over the area so that migratory workers would not 'jump' one job for another that might pay more."

Specific rates for each type of farm labor would have to be determined, the agent said, as it is not practical to lump all "labor" under a common head and pay the same rates for all kinds of farm work.

A board to handle such farm planning was set up some time ago, including Wilbur Charles, J. G. McFarland, Bill Sherley, W. H. Gammon and Fred Barker, and it will be the duty of the committee to conduct a public hearing if the farmers so desire.

Looking forward to the wheat harvest, McElroy said that if wages could be made uniform, there would be no cut-throat competition or sky-high prices, protecting both the laborer and owner by establishing a flat rate for work. When labor is scarce at harvest, demand prices can be expected, he said, and on the other hand, if an over-supply of combines appear, the worker will suffer through cut prices in competition.

The plan, tried out in a number of cotton counties south of here last year, was well received and proved extremely workable, reports indicate, particularly in getting migratory workers to remain on one job.

In Parmer County, the plan actually has been used in paying for labor from the Hereford Prisoner of War camp, McElroy added.

Persons who wish to have a hearing on such a project are invited to contact either the county agent, or one of the committeemen.

### TO OUT-OF-TOWN SUBSCRIBERS

Under new policy, a charge of 10c is made for change of address. Please include this when you notify us of such change. Otherwise, The Tribune will not be forwarded to new addresses.

## Basketball Proceeds Friday Will Go To March Of Dimes

Local residents will have an opportunity to make their contribution to the March of Dimes, Friday night, and at the same time have an entertaining evening, Coach Jack Williams, of the Farwell school, reported today.

The occasion: Farwell and Vega will tangle in basketball skirmishes that night, in the Farwell gymnasium, and all proceeds of the game will be contributed to the drive for funds in the fight against infantile paralysis.

B. N. Graham, Parmer County chairman of the drive, reported that this would be an excellent chance for locals to both "give and receive" and urged that an exceptionally good turnout be on hand for the two games.

Earlier in the season, Vega spanked the Farwell teams when they invaded her home court, and Coach Williams and his boys are grimly determined to avenge themselves before a home-town crowd. In the previous game, Farwell went down by a scant three points, and improvement since that time forecasts a lively scramble for the two squads.

The Farwell girls are also hoping to get on the winning side of the ledger for a change this season, and with that in view, are undergoing strenuous workouts with their coach, H. A. Clift. All members of the team are off the sick list, and a full squad is expected Friday.

Regular admission of 20c and 30c will prevail, but sponsors advise that any contribution over the gate charge will be gladly accepted, and will go to a worthy cause. The first game will begin at 8 o'clock.

## Smith Announces For County Judge Place

The Tribune is authorized to announce the candidacy of A. D. Smith for the office of County Judge and Ex-Officio County Superintendent of Schools.

Judge Smith, who previously served as county attorney, was appointed as county judge last May, when Judge Lee Thompson resigned.

He is making the race subject to the will of the voters in the forthcoming Democratic primary and, in addition to being grateful for the favors shown his candidacy in the past, will appreciate the consideration of the voters in the July primaries.

When the wife stares at us with that far-off look in her eyes, we often wonder if she isn't thinking that perhaps she is the "early bird" they talk so much about.

## Some Rural Roads Still Snow-Blocked

### Old Clothes Drive Is Quite Successful

## Reviews Possibilities Available To Vets

D. K. Roberts, Veterans Service Officer for Parmer County, stated this week that he was receiving numerous inquiries from returning veterans regarding various phases of the G. I. Bill of Rights.

To date, Roberts said, "I believe that not less than 200 of our veterans have called at the office in Farwell regarding loans to buy farms, schooling, unemployment, and self-employment information."

Explaining that some newly returned vets might not know how to take advantage of some of the opportunities offered, Roberts outlined several phases of the G. I. Bill.

"In regard to schooling," he said, "it is not necessary that the veteran contact me or any other service officer. All he—or she—has to do is to present the original discharge, or a certified copy, at the office of the registrar where he wishes to attend school. The registrar will enroll him and file the necessary papers with the veterans' organization, so that funds will be forthcoming." Rates of government support are \$65 for unmarried students, \$90 for those veterans who are married, he added.

### No Loans Made

"So far as I know," he went on, "we have not yet had an approval of a loan to buy a farm. Land prices in this area are practically prohibitive. The loan must be made at 4% interest, which means that it will have to be handled by a government agency such as FSA . . . and FSA will not make a loan on a farm unless the price of the farm is in line with its production rate."

Numerous inquiries continue to come in regarding loans, the service officer said, but indicated that unless land prices come down, veterans can expect little help along that line.

Another of the popular programs under the Bill is subscribed by the Texas Unemployment Agency. If a veteran is self-employed (say, has purchased a filling station), and his net income—from all sources—is less than \$100 monthly, the State office will "make up" the difference to \$100 a month, Roberts explained. Application for unemployment compensation is also handled via this agency.

Veterans are advised that a representative of the State unemployment office is in Muleshoe each first and third Tuesday, at the courthouse, by 9 o'clock a. m., to interview eligibles.

One of the least-known aids offered by the G. I. Bill could be classified in layman's language as "self-employed training." Roberts explains that if a vet is taking over a business with which he is not familiar, he may obtain financial aid as a sort of training pay while learning a new trade. If he is being "backed" by an individual or individuals, both the business and the sponsor must get the approval of the State Veterans' Committee. Upon approval, a specific payment is made for a period of time. For additional information along this line, Roberts suggested that veterans contact the service officer in the county where the business is located. Headquarters for this district is in Hereford, where a representative of the State office is on hand.

Roberts urged that all veterans check up on their possible assistance through the bill, stating that many of the boys could be helped to learn a new trade, or complete their education.

### CLEARANCE SALE

The Williams Mercantile Co., at Bovina, is conducting its annual January clearance sale, starting on Jan. 24. Many items in winter merchandise are being offered at half price. Your attention is called to their advertisement on page three of this issue.

There is enough salt in Texas to give every person in the world a four-horse wagon load, and then some.

## '46 Political Calendar In Current Issue

On another page in this issue, The Tribune is printing the 1946 political calendar, giving all the dates pertaining to elections, filing campaign expenses, etc.

While this calendar is of interest to the general public, it is of particular interest to all prospective candidates and The Tribune suggests that each of them clip the calendar and keep it for his own reference.

## Cortez Billington Gets Discharge

T-5 Cortez Billington, son of Mr. and Mrs. S. G. Billington of Texico, has been granted his discharge and is strutting the streets again in cowboy boots and large hat.

Somewhat thinner than ordinary, and displaying a complexion whose hue resembles a pumpkin, Billington says that he is feeling good after two years spent in the southwest Pacific, including New Guinea, Biak Island and the Philippines.

"We spent four months on New Guinea," he said, briefly reviewing his experiences to a reporter, "and from there were sent to Biak, a small island about 300 miles north of New Guinea."

He said that he spent 17 months on Biak, where he went through his worst experiences of the war with the Nips. "For, several weeks we were without food except K rations," the ex-GI said, explaining that the Japs bombed out their depot containing all their better foods.

Asked if he was wounded in any of the encounters with the Japs, he explained that he was attached to an ordnance outfit, "and never went out in any of the jungle fighting."

Billington said that the boys on Biak were under many bombings and strafings, but added that the casualties were moderate. "They hit our supplies, but got only a few of our men, except on suicide attacks, which were plenty rough."

"There were about 60,000 Japs on Biak when we hit it," he recalled, going on to say that they were all cleaned out in about three months, with only a very few of the Nips being taken as prisoners. Only once did the Japs make an attempt to land on the island, he revealed, "but we met them about 20 miles out and sank every one of their 60 barges."

He estimated that there were at least 100 men on each barge.

"The only good news I heard all the time I was on Biak was the announcement of Japan's surrender," the local lad concluded. "And no wonder! We had been packed up about a month and were ready to sail for Japan when the announcement came."

Billington, who is a brother of Sterlyn Billington, local barber, says that he never left anything "back down there that I want to go back after." As souvenirs of his campaign, he brought home a Jap blanket and bayonet.

Asked about his plans for the future, he said that he was undecided at the present.

## Mens' Club To Meet On Thursday Night

Chairman C. M. Henderson today called attention to the regular monthly meeting of the Mens' Club, to be held in the basement of the Methodist Church on Thursday of this week. This will be the first meeting of the new year, and Henderson said that plans for projects for the year were to be discussed.

He urged a full attendance by the men of the community, reminding that it was not necessary that a man be considered a member of the organization in order to attend. "We want all men of the Texico-Farwell community to consider themselves members of the organization and be present at all our meetings," he said.

Texico-Farwell citizens responded with great enthusiasm to the call for clothing, shoes, bedding, etc., to be sent to less fortunate people all over the world, Mrs. W. H. Graham, local chairman, reported after a survey of donations the first of the week.

"There are many simply lovely garments listed for overseas relief," she said on Tuesday, adding that all collection points—the Magness Implement Company and the two local schools—had received large quantities of usable clothes.

A good supply of clothing for women and men was noticed, and the school collection points showed large numbers of garment for children of practically every age. Three large boxes completely filled with baby clothes, from stomach bands for the newborn on through the first year of clothing, were also on hand.

Shoes, too, were turned in, most of them in excellent condition not to mention some bedding, table linens and dish towels, overcoats, and other items requested in the drive.

The Texico-Farwell contributions will be taken to Clovis today (Wednesday), to be shipped to national headquarters for dispersment to various points all over the globe.

Mrs. Graham stated that, although local residents were asked to make all contributions the first of the week in order that shipment might be made with Curry County, the drive actually does not end until the last of the month. Contributions that come in here between now and the closing date will be arranged for shipping at some other point, she added.

## Local Butchers See No Meat Shortage

Consumers in this immediate section will continue to have plenty of fresh meats in the form of beef and pork, despite the strike that has all the major packing plants of the nation tied up.

This was the opinion expressed this week by local butchers, who added that it was quite likely a shortage of cured meats and lunch goods would develop if the strike continues very long.

W. W. Hall, who obtains most of his fresh meats from small packers near here, said that he had been advised that his beef and pork supplies would not be cut off, and John Porter of the State Line Market, said that most of his fresh beef and pork was butchered locally and he, too, was of the opinion that the fresh meats would continue to be plentiful.

On the other hand, both local market operators were of the opinion that a serious shortage of cured meats and lunch goods was imminent. Most of these goods, they explained, were the products of the large packers whose operations have been halted by the nation-wide strike.

The Armour truck, which usually makes Texico-Farwell the first of each week out of Amarillo, failed to make the run this week, and Hall said he didn't know when the truck would come around again.

Porter, who operates a zero locker in connection with his business, said that practically all of his farmer customers had ample meat supplies in their lockers.

## Returned Service Men Open Texico Cafe

Johnnie Bengner, ex-gob, and Claude Dyer, ex-GI who served in Europe, have formed a partnership and opened a cafe in the Texico Hotel building.

They announced today that the business would be operated as the Hotel Cafe, and would serve regular meals and short orders.

Bengner spent three years in the Navy as cook, and says that for the present all cooking will be under his supervision.

### CARSON IMPROVING

Fred Carson, prominent Bovina stockman-farmer, who has been ill with double pneumonia in a Clovis hospital the past several days, is reported by his wife to be improving satisfactorily. It will likely be a few days before he will be permitted to leave the hospital, she says.

With all highways open to travel throughout the section since the latter part of last week, travel on most of the commonly called "country" roads remains a problem as the week-old snow melts very slowly.

Farmers making their way to town early this week still report that, for the most part, east-west roads are blocked with heavy drifts of snow, making the roads impassable. Persons living in the rural areas, forced to come to town for provisions and fuel, said that they had been traveling on detour routes, with many of them taking to the open pasture lands.

Last weekend saw many farmers in town on their tractors, the heavy snow drifts making it impossible to get cars and trucks through. Tractors have also been used in opening up driveways along the country roads.

Reports say that it may be several days yet before normal travel can be resumed through the rural sections. Water from the melting snow has made a slush along unpaved routes, rendering them almost impassable except in the early morning when the ground is frozen.

Automobile gas tanks were being repaired in local service shops this week, after being damaged by dragging along high centers of ice and snow. Many farmers, caught short on fuel supplies, were forced to get to town for reinforcements.

While the snow drifted heavily, most farmers bring in the report that wheat fields retained a good coverage of snow, ranging from 4 to 8 inches deep. R. L. Douglas, living northeast, actually contends that the blowing snow settled on his wheat fields even better than on his pasture land.

With this section remaining, for the most part, under a coverage of snow, reports say that all of the snow has disappeared to the south and southwest of here. Very little snow remains on the ground beyond Portales, it is reported, and only a few traces were in evidence last Saturday southeast of Muleshoe.

### No Stock Losses

Range cattle were badly drawn by the snow and cold weather, but so far as has been reported here, there were no livestock losses of any consequence. The occasion loss of a cow that was in poor flesh is being heard.

Stockmen say that a few days of warm weather will cause the wheat to revive, affording pasturage to cattle. But they are not banking on this as a feed supply, and many carloads of hay and bundles have been moving in this week from the irrigated sections around Muleshoe.

Wheat growers claim that the snow will almost guarantee a good wheat crop this summer, and the row crop men will begin getting ready to start their plowing and schedule this spring.

## Court Reconvenes On January 30th

District Judge John Aldridge has announced that the January term of the Parmer County District Court, now in recess, will reconvene in Farwell on Wednesday, January 30th, for consideration of cases remaining on the docket.

The court was forced into a recess early last week when a heavy blanket of snow covered this section, making it impossible for persons living in the rural sections to be in attendance. The Grand Jury, which met on January 14 and completed its organization, had been called back for the morning of the 15th, but failed to report on account of weather conditions.

District Attorney King Fike has announced that the Grand Jury will be called again on January 30, to complete its labors.

Court was in recess all this week for the reason that Judge Aldridge had called court at Dalhart the past Monday to hear a criminal case, previously scheduled.

### DRAFT BOARD TO MEET

A meeting of the Parmer County Selective Service Board for Thursday afternoon of this week was announced today by Mrs. Bessie Lee Hennehan, clerk.

She said that in addition to attending regular business, processing of men to meet the February calls for induction and pre-induction physicals would come up. This will be the first time the Local Board has been in session this year.

**The State Line Tribune**

ISSUED EVERY THURSDAY

Per Year \$1.50

W. H. GRAHAM, Editor and Owner

Entered as a second class mail matter at Farwell, Texas, under the Act of March 3, 1879.

**OUR PLEDGE**

We pledge allegiance to the Flag of the United States, and to the Republic for which it stands; One Nation, indivisible, with Liberty and Justice for all.

**Privates Promoted To Pfc. After 6 Months**

The United States Army Recruiting Service today announced that all persons unless sooner promoted who enlist or have been enlisted as a private in the Regular Army on or after the first of January 1945, will on a completion of 6 months satisfactory active service be promoted to the grade of PFC. All units and installations who receive men holding PFC ratings as a result of enlistment under these provisions are authorized to carry such personnel as excess in grade until these higher ratings are absorbed by normal attrition.

This announcement was made in order that men may be assured of promotion from grade of private within a reasonable length of time, and all men who enlist at this time will be promoted in accordance with this policy.

Men interested in the advantage of enlistment at the time are located at Amarillo and Lubbock.

**OUTLOOK ON FARM PRICES GIVEN BY MORGAN**

COLLEGE STATION.—Farmers and ranchmen now planning their 1946 operations can expect farm prices to be moderately lower, but production costs should remain about the same for the year just begun.

Farm prices of fruits, vegetables, and eggs are expected to drop more than prices of other agricultural products, in the opinion of two economists for the Texas A. and M. College Extension Service. W. E. Morgan believes the net farm income for the nation will be 10 to 15 per cent under the record high of 1945.

Farmers can rely on relatively high prices for about two-thirds of the things they produce, since prices for these are supported by law at 90 per cent of parity. There are support prices on most "basic commodities" such as cotton, corn, wheat, tobacco, and rice, but products not covered include beef cattle, sheep, fresh vegetables and fruit, according to T. R. Timm.

On the bright side, farmers can expect more labor in the months ahead. Morgan says the total labor force in the country on the first anniversary of VJ Day will be about six million above what it was in August, 1945. This should bring about the only drop in farm production costs—the cost of farm labor. Production efficiency of farm workers greatly increased during the war and for a few years before, but for 1946 it is more likely to decline rather than rise, he believes.

On a long time basis Morgan says farm prices and production can remain at a high level, "if we can lick our unemployment problem by any means other than war." For the immediate future, increased population, high incomes for industrial workers, foreign purchases and UNRRA commitments should assure high consumptions of farm products.

**New Envoy to China**

General of the Army George C. Marshall, upper, who steps into the world's No. 1 postwar trouble spot, China, due to his recent appointment as ambassador, succeeding Maj. Gen. P. J. Hurley, lower, who resigned in protest against policies in China.

**Electric Fans A Help In Household Heating**

**Aid In Fuel Saving By Making Radiators More Efficient—Dispel Odors—Defrost and Liven Air**

This winter, with fuel scarce and dear, make your electric fans save you money and solve some of your heating and ventilating problems. Probably, if you have steam heat or hot water heat, your radiators are not doing nearly as much work as they could. Heated air tends to rise and stay near the ceiling, creating "warm pockets." When those pockets are broken up the warmth is carried into other portions of your home where it is more needed.

**HEATING AID**

Try placing an electric fan so that it keeps the heated air around your radiator in motion. You will find that the warm air in circulation will heat up the "cold corners" and will liven and freshen the air in the whole room. You may have to experiment a little to find the right position for the fan, but the result will be worth while.

**AIR FRESHENER**

Perhaps, you are one of those people who dislike the musty, fusty atmosphere of storage spaces and closets. Try placing an electric fan for an hour or two each week so that it gives vigorous circulation to the air in the spaces where you have stored summer clothing and draperies, or wraps, or clothing in use. It will freshen things up and discourage moths.

**WINDOW DEFROSTER**

If you are one of those fortunate folks with a big picture window, take a tip from the automobile accessory makers and use your fan for a defroster. Just set your electric fan so that it will carry warm air from your room onto the glass window surfaces and watch the cloudy frost pattern vanish.

Most business men take an annual inventory of their business, farmers should take an annual inventory of soil fertility. The nation's only woman flagpole painter is a Texan. Mrs. Eddie Mae Flanagan of Houston and Sulphur Springs.

**Resume Art Classes At West Texas**

CANYON—Prof. Derald T. Swinford of the department of art, one of West Texas State's most talented faculty members, will resume his teaching here and at the Amarillo Center of the college in the spring semester opening January 29.

One of the first faculty members to enter military service, Prof. Swinford went overseas in time to participate in the Africa and Italy campaigns. He rose to the rank of captain.

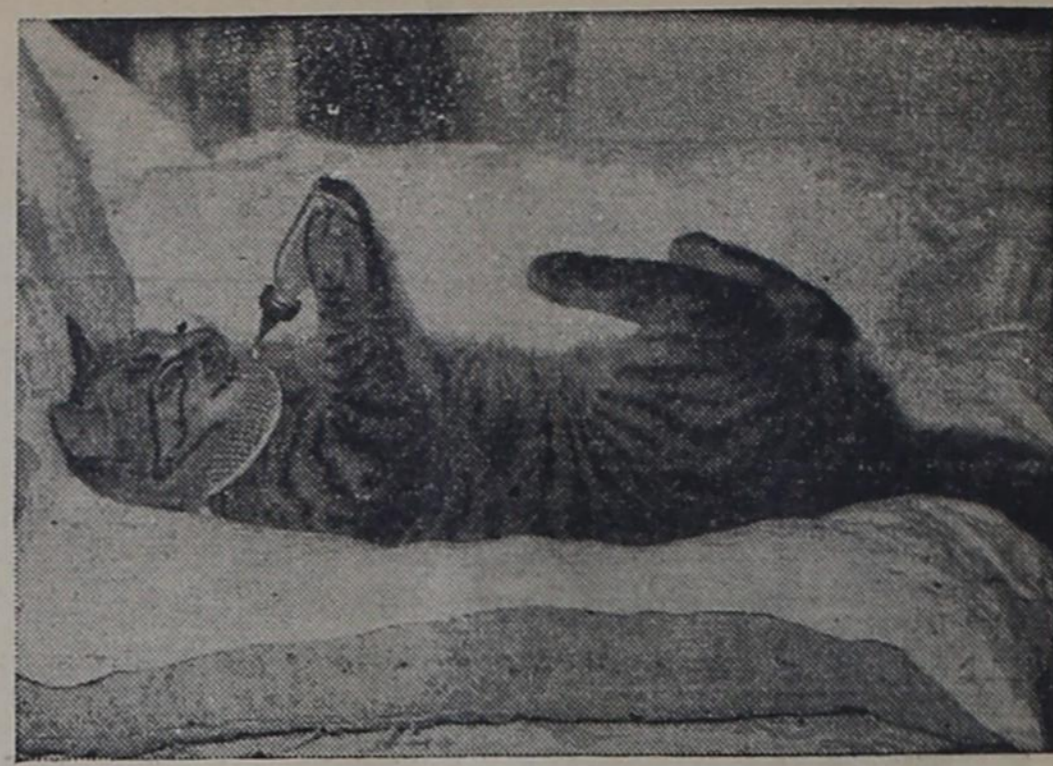

Since his discharge, Capt. Swinford has been doing research work at the University of Oklahoma. In spare time, he has done wood carving on doors of the new art building at the university. His murals in wood carving appear on many Oklahoma public buildings. He also is skilled in oil and water color painting and in pottery making, jewelry, and metal work. For a time he was commercial designer.

With his return, the department of art will restore most of its pre-war curriculum, according to Miss Isabel Robinson, head of the department. Spring offerings at the Amarillo Center will include art structure, lettering, figure drawing, and painting.

**WHEN IT BURNS**

If a vegetable or cereal burns, Westinghouse home economists plunge the vessel containing the food into cold water and allow it to remain for a few minutes. Food is then put into another clean pan and cooking continued, if necessary.

**Bottle Pussy Has Dinner**

When it comes to putting on the feed bag, Muggsy just won't stand for interruptions. So the photographer's presence didn't stop him from keeping "on schedule." Photo shows Muggsy in a grade A session as he juggles the bottle at the Marilyn Williston home at Weymouth, Mass. It is impossible to get the cat to drink out of a saucer or pan.

**SPECIAL COURSE IS OFFERED**

Special courses for a group of 10 Latin-American school teachers being sent to the United States by their governments will be offered at the University of Texas for six weeks beginning Feb. 4. Ralph Long, assistant professor of educational psychology, has announced. Courses will be offered in English, American history, and literature. The program is sponsored by the United States State Department, and the Office of Education.

**GOVERNOR TO SPEAK**

Ellis G. Arnall, Governor of Georgia, will speak at the University of Texas February 14, in a public lecture sponsored by the Texas Union Forum Speakers Committee. Arnall is credited with many reforms in his state governmental, penal and educational systems. Under his leadership the state lowered the voting age to 18, repealed the poll tax, voted for a new constitution, created a constitutional state board of education, and made other reforms.

The kangaroo and opossum carry their young in a pouch.

Eskimos eat blubber from whales and other sea animals.

**OH, WHAT A WONDERFUL EVENING!**

Yes, what a wonderful evening any evening will be in your electrical home of the future... there will be more time to relax with your family.

All of the new electrical servants soon to come rolling off production lines will be ready at the flick of a switch to make your household tasks unbelievably simple, and they'll all be operated with cheap electricity.

Your automatic electric range practically thinks for itself... with little attention from you. No more after-meal drudgery with your electric dishwasher. So, while relaxing, your dishes, glasses and silver are being swished sparkling clean. Your beautiful electric refrigerator will stand guard against loss of food vitamins... and your home freezer will be a giant storehouse for frozen fruits, meats, vegetables.

**HERO'S BROTHER JOINS AIR FORCE . . .** Carl Bong, brother of the late Richard Bong, Poplar, Wis., is pictured checking in at army recruiting office, Milwaukee, where he enlisted in air corps. Maj. S. T. Holzman, in charge of the office, is shown at right. Young Bong, 19, was sent to Fort Sheridan, to await assignment to some regular air force training camp. Like his late brother, he plans to become a star of the skies.

## Bovina Happenings

Master Sergeant Cone Dorris, recently returned from the European theatre, visited his aunt, Mrs. Bill Venable, last week. He will be stationed at El Paso. Sgt. Dorris has served 13 years with the Army.

Mr. and Mrs. "Sparky" Mahan left Friday for their home in Van Nuys, Calif., after a visit with her parents, Mr. and Mrs. Bill Venable.

Mrs. Edna Scott has returned home from Los Angeles, after spending three weeks with her sons, Harry and Elmo Scott. Both boys have been recently discharged from the service.

Aubrey Rhodes has purchased the house owned by Mrs. Shelby Bishop south of town. He will move it to town soon.

Mrs. Pearl Griffith and son, from Colorado, and enroute to Illinois, stopped over the weekend in Bovina to visit her son and wife, Mr. and Mrs. Tom Griffith.

Sgt. and Mrs. Ray Spoth are visiting his parents in Ohio.

Mr. and Mrs. Harold Brown have moved to the farm.

Mr. and Mrs. Van Wheeler and

children, of Dodson, Texas, are visiting her parents, Mr. and Mrs. J. I. Rury.

Mr. and Mrs. Shelby Bishop have moved to Jacksonville, Texas.

Mr. and Mrs. Paul Sheppard, of Clovis, are moving to Bovina. He will be employed by the Consumer's Fuel Association and they will live in the house recently vacated by Mr. and Mrs. Nunn.

Bennie Purnell, of Happy, visited her sister, Otie Hoffer, last weekend.

Mr. and Mrs. S. Nunn are taking over the management of the local hotel on February 1st.

Mr. and Mrs. F. W. Ayres and son, Wesley, visited in the A. G. White home Sunday.

Mrs. Aubrey Rhodes and Mrs. Dennis were Hereford visitors, Saturday afternoon.

J. L. Wilson attended business in Amarillo, Monday.

Patty Ann Wilson is home from McMurry College for a few days.

John Wilson made a business trip to Lubbock, Wednesday.

Mr. and Mrs. R. Standefer and son spent the weekend in Lubbock with his brother.

Fred Carson is in the hospital with pneumonia, showing some improvement at this writing.

Miss Edith Roberts, of Clovis, and Jack Spinks, recently returned from Japan, spent Sunday evening in the home of Mrs. E. T. Caldwell.

A birthday dinner in honor of

Buck and Aubrey Ellison was given Saturday evening at 6 o'clock, in the home of Mr. and Mrs. Buck Ellison. An enjoyable evening was spent.

### Wedding Performed At Okla. Lane, Sunday

In a lovely church wedding held at Oklahoma Lane the past Sunday, January 20, Miss Bobbie Lou Kent became the bride of Billie Joe Foster.

The altar was decorated with gladiolas, yellow chrysanthemums and delicate sprays of baby's breath, interspersed with glowing white tapers.

Donald Watkins, of Oklahoma Lane, served as best man, while Miss Patty Ann Wilson, of Bovina, acted as bridesmaid.

Both young people are of the Oklahoma Lane community, with the groom having been recently discharged from the Navy.

A reception for the wedding party was held after the ceremony in the home of Mr. and Mrs. W. N. Foster. Immediately following, the couple left for a honeymoon trip to El Paso, where they will spend a few weeks.

Attendants at the wedding were the brides' parents, Mr. and Mrs. T. L. Kent; the groom's parents, Mr. and Mrs. W. N. Foster; Mr. and Mrs. J. F. Foster, Mr. and Mrs. Nelson Foster, Mrs. John Wilson, Donald Watkins and Miss Patty Ann Wilson.

### Turkey Dinner Held In Calaway Home

Mr. and Mrs. Robert Calaway entertained, Sunday evening, with a turkey dinner, in their home near Bovina.

Guests present were Mr. and Mrs. Nat Reed, Mr. and Mrs. Paul Jones, Mr. and Mrs. Ronald Berggren, Mr. and Mrs. Pete Davies and children, Mr. and Mrs. T. G. Hudson, Mr. and Mrs. Harold Brown and son, Mr. and Mrs. Don Brown and daughter, Miss Audine Sheppard and the hosts and hostesses, Mr. and Mrs. Arthur Wickard and Mr. and Mrs. Robert Calaway.

### Mens' Class Meets

The Mens' Class of the Baptist Church met in the Masonic Hall, last Wednesday evening. A social hour was spent in "42" and an oyster supper followed. The affair was enjoyed by 25 members.

### Lands In States

Mrs. A. G. White has received word that her son, Staff Sergeant Lilvus Rhodes, landed in the States at Seattle, Washington, on Thursday, January 17th. He has spent the last year in the Pacific area, the last few months in Japan. Rhodes will go from Seattle to San Antonio, to await his discharge.

### What's Happened To Butter?

COLLEGE STATION, Consumers cannot have more milk, cream, ice cream, evaporated milk and cheese and at the same time have more butter too.

That is the way W. E. Morgan, economist with the Texas A. M. College Extension Service, has summed up the butter situation.

Morgan explained that butter production has gone down steadily since 1942. Before that time almost half of the milk sold by farmers was separated on the farm or dairy for sale as cream, which was used largely for butter, while the skimmed milk remained on the farm. To increase the wartime food supply the Government urged farmers to deliver whole milk. Part of the whole milk was made into evaporated milk, Cheddar cheese, dried ice cream mix and dried whole milk. Much of this went to the armed forces and Lend-Lease. Meanwhile fluid milk consumption in this country jumped 25 per cent during the war years, and butter production in 1945 was the lowest in twenty years.

During the war, Morgan pointed out, the Army and other Governmental agencies bought butter during the spring and early summer, when production is highest, so that all of the winter months production would be available for civilians. Last summer the Armed Services had to assume that the war would continue, and so butter stocks were bought to meet this winter's needs. With the sudden surrender of Japan all of the butter stocks were not needed. In December, for example, 70 million pounds were released for civilian use, so consumers actually had more butter in the last two months of 1945 than during any other two months of the year.

The Armed Services will continue to need butter and milk products and cheese, while evaporated milk and dried milk are still being sent aboard. Meanwhile, with the end of rationing, for butter has increased. Although whole milk production is expected to continue high, Morgan sees little hope that the butter situation will be brighter in 1946.

Hang on to your War Bonds!

## No More Spoiled Dough Because Yeast Is Weak!

Just dissolve New Fast Rising Dry Yeast according to directions on the package

### NEW FAST ACTING DRY YEAST STAYS FULL-STRENGTH ON YOUR SHELF FOR WEEKS!

• Now—with New Fleischmann's Fast Rising Dry Yeast you can bake any time you want to . . . at a moment's notice . . . and feel assured that you'll get perfect risings, delicious bread.

Possibilities of refresher courses, or clinics, for practicing pharmacists are being considered by the University of Texas College of Pharmacy, Dean W. F. Gidley has announced. Requests have come in from veterans, and others, wanting the short courses to include reviews of chemistry, percentage—strengths and recent changes in strengths, dosages, and doses of new remedies, all important drug synonyms and of the therapeutic offerings of the plant world.

Children will be children, so this question is always with us—what about eating between meals? In answer to that one, Mrs. Julia Kiene, director of the Westinghouse Home Economics Institute, suggests a happy medium, such as banana milk punch, made as follows: Peel and scrape a ripe banana, then mash and beat thoroughly. Add a cup of milk and beat again. Serve in a tall glass. The punch is nutritious and satisfying to a child, and won't spoil his appetite for the next meal.

### DAVIS ON STAFF

Miss Luda Davis of Dallas has been added to the staff of the University of Texas Bureau of Industrial and Business Extension Training. James R. D. Eddy, director, has announced. Miss Davis will conduct training courses for employees and owners of Texas restaurants, working in cooperation with the Association of Restaurants and Cafes of Texas, and the State Board of Vocational Education.

Clovis, N. M.

**Suggests More Corn Be Grown This Year**

"The production of a corn crop in Texas will assure the producers the full OPA ceiling prices, as for the past two or three years, and especially so last year, it has been impossible for Texas' mixed feed manufacturing plants, and other corn processing plants, to obtain sufficient supplies of corn to fill their requirements, as although the total U. S. corn crop for the past two years has been unusually heavy, the Texas production of corn last year only amounted to about 66,000,000 bushels, whereas the State requires in excess of 100,000,000 bushels, and during the last 20 years there has never been a crop of corn sufficient to fill the States need," says G. E. Blewett, secretary-treasurer of the Texas Grain & Feed Dealers Association.

"The enormous increase in the animal and poultry production of Texas," says Blewett, "together with a large amount of prepared stock and poultry feeds for export, has placed an unusually heavy burden on these mixed feed plants, thus causing them to consume a much larger amount of corn than they did in normal years. It is obvious that this demand will continue throughout the coming year, and it is certain that anyone processing corn would be willing to contract for the farmers' production at OPA ceiling prices."

"At this time, it is impossible to buy any corn, as the northern crop produced in Kansas, Nebraska, Missouri, Iowa, Illinois, and other northern states, is of such high moisture content as to prohibit it being shipped to Texas. I feel quite sure that the Texas farmers need have no concern over finding a market for all the corn they will produce in this year's crop," he concluded.

**WALLACE IS DIRECTOR OF LEAGUE REGION**

LUBBOCK—Dr. Ernest Wallace, assistant dean of Arts and Sciences at Texas Technological College, has been appointed director general of the University Interscholastic League Region Number One meet, which has been moved from Canyon to Lubbock. The first meet will be held at Tech on Thursday, April 18.

Dean T. H. Shelby of the University of Texas Extension Division and Roy Bedichek, director of the Bureau of Public School Service and of the Interscholastic League, spent a day on the campus recently conferring with President W. M. Whyburn and other college officials and Lubbock citizens regarding details of the meet in Lubbock.

Region Number One comprises the entire Panhandle and South Plains. Director Bedichek said at least 1,000 contestants and teachers would attend the first meeting on the Tech campus. The Lubbock CC is assisting the college in the matter of housing of visitors, and Lubbock High School officials are also cooperating.

The following members of the Tech staff have been appointed directors of the various events: J. W. Davis, debate; Bonnie K. Dysart, extemporaneous speech; W. F. Gray, slide rule contest; D. D. Jackson, declamation; Morley Jennings, athletics; R. A. Mills, ready writers; Anna Jo Pendleton, one-act play; Ethel K. Terrell, typing and shorthand; R. A. Underwood, number sense; Cecil Horne, information and publicity.

**Local Dischargees Continue To File**

Dischargees filed at the office of the county clerk during the past week include:

Pfc. Clarence M. Jasper, of the 383rd Infantry, was released at Fort Bliss on January 11th. Jasper served in the Pacific area, holding combat stars for the Southern Philippine and Ryukyus campaigns. He also is entitled to the American theatre, A-P, Philippine liberation and good conduct ribbons, with a bronze arrowhead for an invasion, and the combat infantry badge. He spent 21 months in the States, 17 months overseas.

At Drew Field, Florida, Cpl. Albert C. Taylor was discharged from the 326th AAFBU on January 11. Spending 17 months in the States, Taylor has the American theatre, good conduct and victory colors.

T-5 Raymond L. Magness, a truck driver with the engineers, was returned to the States recently and discharged on January 4 at Camp Grant, Ill. His EAME ribbon has campaign stars of Northern France, the Ardennes and the Rhineland; he also holds the good conduct medal, victory medal, and meritorious unit badge. In the Army 21 months, he spent 21 of them overseas.

T-5 Gordon Cortez Billington has returned from 23 months in the Pacific, holding the A-P ribbon with two campaign stars (Bismark Archipelago and New Guinea), the victory, American theatre, and good conduct ribbons. Billington served with the 287th Ordnance Maintenance outfit, was discharged at Fort Bliss on January 14th. He spent 15 months in the States before his overseas assignment.

On December 10th, Cpl. Clyde A. Pumroy was discharged at Camp Shelby, Miss., having served with a PW camp detachment since returning from the ETO last fall. With a mine detector crew, Pumroy saw action in the Ardennes, Rhineland and Central Europe. His ribbons: EAME, good conduct, victory; also he has the bronze star. He spent 11 months in the States, nine overseas.

Helen Murphy Roberts, HA2-c, was discharged at the Corpus Christi naval base on August 31st.

On January 10th, MM2-c J. T. Hammonds received his release from the Navy at Shoemaker, Cal., holding the A-P, Philippine liberation and victory ribbons.

**POLITICAL ANNOUNCEMENTS**

The State Line Tribune is authorized to make the following political announcements, subject to the action of the Democratic primary election in July:

For District Attorney:  
FLOYD H. RICHARDS  
For Sheriff-Assessor-Collector:  
EARL BOOTH (Re-election)  
County Commissioner, Pct. 4:  
W. S. MENEFEE (Re-election)  
For State Representative:  
J. W. JENNINGS  
For County Judge and Ex-Officio Superintendent:  
A. D. SMITH.

Sl-c Kenneth Eldridge Briscoe was discharged from the Navy at San Pedro, Calif., on January 12th. He has the victory and American area ribbons.

**Wool Growers Gather In Albuquerque Soon**

ALBUQUERQUE—Carl H. Wilken, Sioux City, Iowa, director of the National Raw Materials Council and outstanding economist, will be featured as a speaker at the 43rd annual convention of the New Mexico Wool Growers Association in Albuquerque, February 5 and 6, Floyd W. Lee, president, announced today. Wilken is known nationally as the "common-sense economist" and as the "one-syllable-word" speaker. New Mexico livestock growers who heard his address at the recent annual convention of the American National Livestock Association, are enthusiastic about his clear and factual presentation and analysis of current labor, price and raw material problems.

A. D. Brownfield, just retired after two years as president of the American National Association, will tell sheep men his views of the present public lands situation. John E. Miles, state land commissioner, will outline his program to unite the eleven public land states behind his program to return the public lands to the states. Governor John J. Dempsey has accepted an invitation to address the wool growers.

Outstanding event in the annual wool school will be the demonstration of the coring method of determining wool shrinkage, to be pre-

**Where Is the Boundry Line on Vorenberg's Service?**

THERE IS NONE!!

The people of Parmer County and West Texas who buy furniture from VORENBERG'S get exactly the same service—and pay the same prices at their towns—as the people who live right in Clovis. Yes, VORENBERG'S deliver your furniture to you and pay the transportation themselves.

AND THAT'S NOT ALL...

At VORENBERG'S you can furnish your home on credit, and you pay no interest and no carrying charge.

## December Nuptials Announced Here

The marriage of Miss Marie Pierce and Woodrow Finley, which was performed in Texaskana, Texas, on December 26th, was announced here this week. The nuptial vows were read by O. E. Cooper, justice of the peace.

Mrs. Finley is the daughter of Mr. and Mrs. Robert Pierce, formerly of Friona. Mr. Finley is the son of Mrs. Freda Finley, of near Farwell, and has been engaged in farming in this area for some time.

They have residence in Farwell at present, but plan to move near Bovina later in the year.

## 87th Birthday Is Observed Sunday

B. E. "Uncle Benny" Nobles, long-time Farwell resident and pioneer merchant, celebrated his 87th birthday Sunday, at his home in Farwell.

Guests were John Nobles and three sons, John Jr., Jack, and Gerald, all of Midland, Texas. They brought "Uncle Benny" a lovely birthday cake, made by Mrs. John Nobles, who was unable to be here, and also presented the honoree with a picture of his only great-grandchild, John III, son of Mr. and Mrs. John Nobles, Jr.

The entire party enjoyed dinner in Clovis, and spent the afternoon visiting in Farwell.

## Visiting Here

Mr. and Mrs. Otto Underhill, of Las Vegas, Nev., and Mrs. Joe Deers of Taft, California, are visiting in the G. D. Anderson home this week. Mrs. Underhill and Mrs. Deers are Mrs. Anderson's sisters.

Claude Thomas, of Field, N. M., was a business visitor here Monday. He reported a heavy snow in that area, and added that only a few of the roads were open to traffic.

## BUBBLES SEZ —

• Ever think how much it takes to keep a house and family clean? And getting the soap is almost harder than doing the work. Remember, where there's fat, there's soap. So keep turning in USED FATS needed to help make more soap!

## Society Banked In Snowdrifts, It Says Here

The Society Editor scratched her head, chewed the end of a beaten-up pencil, and dialed another number.

"Have any parties or go any place last weekend?"

The party at the other end of the line gave a gasp and made a mental note that she had always thought society editors were nuts.

"Go anyplace!" she finally managed. "I was glad to be able to get out of the front yard. . . . As for having a party, did you ever try to keep a house reasonably clean with people tramping snow in and out?"

And so it went . . . on down the line. To the majority, it was sufficient celebration—though, admittedly, not news—that they were able to get their cars out of the garage and go to town by some other means than afoot.

The school kids did the only real celebrating, with no classes for several days, and entertained themselves by taking break-neck rides on sleds towed by cars, while their fond parents held their breath.

Since one of society's duties is to report in detail who wore what and when, that might be taken up. . . . but it would hardly be fair to the ladies of town, most of whom were caught red-handed without the necessary garb for snow plowing—and the costumes might be a bit weird.

And so, dear reader, we have practically no society section this week. . . . after all, it's not quite like the feature story department. You see, in society reporting, the shindigs described have to happen!

## Family Reunion Held On Sunday, Texico

For the first time in three years, all members of the S. G. Billington family gathered at the family home in Texico, celebrating with a big reunion dinner on Sunday.

Attendees included Mr. and Mrs. Victor Billington, of Lubbock; Mr. and Mrs. W. A. Montgomery and daughter, of Roswell; Mrs. J. W. Hulse and Miss Juanita Billington, of Los Angeles; Cortez Billington, who arrived home Wednesday after receiving his Army discharge; Mr. and Mrs. Morgan Billington, Mr. and Mrs. Sterlyn Billington and family, Mr. and Mrs. S. G. Billington, the host and hostess, and son, Jim, all of Texico-Farwell.

## License Issued

A marriage license was issued Saturday, January 19th, to Miss Bobbie Lou Kent and Billie Joe Foster, both of the Oklahoma Lane community, records at the office of the county clerk reveal.

## NEWS FROM OUR BOYS IN UNIFORM

### COMING HOME

A dispatch from Pearl Harbor is to the effect that Bennie Lee Arnold, S2-c, left Okinawa on December 25 and was scheduled to arrive in San Francisco about January 11.

### HOME FROM ETO

Raymond Magness arrived at the home of his parents, Mr. and Mrs. C. L. Magness, near Farwell, the past Thursday, having received his Army discharge. Magness was overseas in the European theatre for more than a year, serving with the late General Patton's Third Army.

### SAM YOUNG HOME

Sam Young, SF2-c, son of Mr. and Mrs. E. H. Young of the Oklahoma Lane community, departed Tuesday for points in Virginia, where he will visit a few days before reporting back to San Diego. He is enjoying a 30-day leave. Young, who is attached to the Seabees, has been out of the States the past 15 months, dividing his time between Hawaii and the Philippine Islands. He expects to be discharged about March 1st, and plans to go to Cincinnati, Ohio, to take up sign painting as a trade.

## Children Gather In Roy B. Ezell Home

Mr. and Mrs. Roy B. Ezell entertained their children, the past Saturday and Sunday, with a family gathering at the home in Farwell.

Mr. and Mrs. L. E. Parker and family, of Roswell, came bringing Gene Ezell, who had just received his discharge from the Army at Fort Bliss. Mrs. Gene Ezell and children, of Bovina, joined them, and others present for the gathering were Mr. and Mrs. L. D. Parker and family of Amarillo, Mr. and Mrs. Marty Ezell and children of Muleshoe.

## Hudnall-Johnston Rites on Jan. 5

Miss Margeurite Hudnall, of Friona, became the bride of Robert C. Johnston, of Superior, Wisconsin, on January 5th. The ceremony was performed in the First Methodist Church in Superior by the minister, Rev. Wilson, at 6 o'clock in the afternoon.

Attendants to the bridal couple were Horace Brown and Mrs. Paul Herzog.

Mrs. Johnston is the daughter of Mr. and Mrs. Delbert Hudnall, of Friona, and the groom is the son of Mr. and Mrs. G. E. Johnston of Superior. The couple will have residence in that city.

Mitchell Reed and Clyde Beckham, of Sulphur Springs, Texas, visited their cousins, Mrs. Bob Stover and Mrs. R. T. Thomas over the past weekend.

Mrs. Ruby Dixon and son, Jim Cleve, spent the weekend visiting with Harold Dixon, in Albuquerque.

Milton Edwards, former local automobile salesman, who is now living at Sweetwater, Texas, was renewing acquaintances with old friends here the last of the week.

## Japan Finished As World Power

(U. S. Coast Guard Photo)

PAUL MANNING (standing before the Imperial Palace, Tokio in above photo), widely-known commentator and magazine writer, and the only correspondent to witness and broadcast both the German and Japanese surrender ceremonies, declares in the current issue of the internationally-circulated "Sperry-scope" magazine, that the kind of peace administered by General of the Army Douglas MacArthur is a guarantee that Japan will "never again be a world power."

Manning, whose human interest broadcasts from Europe and the Pacific over a nation-wide network gained him a large following, during the last five years, predicted Tojo's suicide attempt ten days before the event.

In the "Sperry-scope" article, Manning quoted from an interview with Gen. Yoshijiro Umezo, chief of the Japanese Imperial Staff, that the Nipponese "could have continued to fight" with 9,000 Kamikaze pilots and 2,500,000 soldiers in the home islands. "I believed the General," Manning says, "when I traveled through Japan. Civilian economy had been virtually paralyzed but the Japanese army was sufficiently well equipped for at least another year of war."

## Women Asked To Knit, Sew For Red Cross

Another appeal for aid to unfortunate victims of war and other disasters was made this week by the Red Cross chapter, with Mrs. Frank Hastings, stating that Farmer County ladies were being asked to sew and knit for the Red Cross.

Mrs. Hastings is supervising this work over the county, and on Tuesday was in Farwell, contacting workers for the sewing campaign, which continues through the month of February.

In Farwell, Mrs. W. H. Graham

has charge of distributing material, which is furnished by the Red Cross. She reported on Tuesday that local ladies were asked to make 50 pairs of overalls for 12 and 4-year-old youngsters, in addition to knitting two dozen washcloths.

All ladies who can knit are asked to contact Mrs. Graham and be issued the material.

Since the material for overalls came uncut this year, it is planned to have at least one afternoon sewing bee, with ladies of the town cutting out the garments at a central point. Details of this plan will be announced next week, but knitters are urged to make their appearance now and get started on the work.

## Star Chapter Offers Respects To Dead

The Bovina Chapter No. 839, OES, has submitted the following resolution of respect, for publication in The Tribune:

In memory of Sister Minnie O. Aldridge, member of Bovina Chapter No. 839, Order of the Eastern Star.

Whereas, on Tuesday night, January 8, 1945, our Supreme Master in His infinite wisdom and mercy opened the final book and called Sister Minnie O. Aldridge from the toil of this earthly life to her eternal reward,

Therefore, be it resolved, that it was with grief stricken hearts we learned of her passing, and that her work here on earth was finished, yet in our sorrow we are conscious of the fact that we have been blessed by the inspiration of her association with us. We have lost a kind friend and Sister.

We can remember always her smiles, her ever readiness to help others, never too busy to answer the call of service, and the Christian life she lived day by day.

Realizing the loss of a true and loving Sister, we extend to the be-

## LET US RENEW YOUR MAGAZINES

## RED PHARMACY

reaved family our profound sympathy at the passing of Sister Minnie, and say in tribute to her noble and worthy life that she left a lasting impression of her usefulness, her kindness, and her consideration of others, and that we shall ever keep her memory aglow.

The life she lived was true and honest,

Always glad to meet a friend; Happy hearted and contented, Faithful to the very end.

Now her earthly strife is over, No more sorrow, no more care; Yet our hearts are sad and lonely For we miss her everywhere.

## CARD OF THANKS

We are indeed grateful to our many friends who ministered to us and were so considerate of our needs in the recent illness and death of our mother. Such kindnesses will remain forever as one of our most treasured memories.

John Aldridge and Family,  
Sam Aldridge and Family.

Mr. and Mrs. Wm. R. Roberts are expected here the latter part of the week from their present home in Dallas, and will spend a few days visiting in the M. C. Roberts home before returning to Dallas, where he expects to enroll at SMU at the beginning of the second semester. He is planning to begin his training for dentistry.

## Bill the Butcher Says

We down here at Old Bill Hall's are not much worried about the meat packers strike which threatens to cause a shortage in meat supplies—especially cured meats and lunch goods. The reason: we went through the meat shortage of a year ago, and managed to keep a fairly good supply of meats on hand for our customers. Yes, we had to do a lot of hustling and scraping around here and there to keep our supply—but somehow we always managed to keep a pretty nice line. We can do it again if it becomes necessary.

In the meantime, it might be a good idea to start, now, stretching your allowance of cured meats.

Rehabilitation

Edward Miller, infantile paralysis patient at the New York Reconstruction Home, Haverstraw, N.Y., shown learning chair weaving under the direction of actress Helen Hayes while Dr. E. S. Rogers, assistant medical administrator, New York State Health Department, looks on. Miss Hayes is on the advisory board of the reconstruction home and conducts classes for patients. Cost of Edward's care and treatment is borne by one of the local chapters of the National Foundation for Infantile Paralysis, which conducts the March of Dimes, January 14-31.

Special Courses For Teachers, Seniors

CANYON.—In order that teachers and high school seniors of this region may start their plans now for next summer, West Texas State College has made the major decisions concerning the 1946 summer session.

The length of the session will be ten weeks. Classes will meet five days each week, Monday through Friday, and will be one hour in length. The maximum class load will be twelve semester hours for the ten weeks.

Opening of the summer session has been set for Tuesday, June 4. Commencement exercises will take place on the evening of August 13. Final examinations will be given on August 12 and 13.

President J. A. Hill has announced that a nursery school will be a special feature. It will be directed by a home economics specialist. Summer lyceum features will be announced soon by a committee headed by Dr. Wallace R. Clark of the department of music.

Various departments are setting up workshops and offering special courses which reflect changing world conditions. These will include work in international relations, non-technical science, Education, graduate studies, the arts, and journalism. Studies in crafts and vocations will be expanded according to the demand, especially the demand from ex-service men and women.

In addition to undergraduate work leading to B. A., B. S., and Bachelor of Business administration degrees, the College will offer major studies, leading to the Master of Arts degree, in business administration, chemistry, Education, English, history, modern languages, social sciences, and speech. Minors will be available in art, business administration, chemistry, mathematics, geography, modern languages, music, sociology, and speech.

The Graduate School, headed by Dr. A. M. Meyer, will stress a counseling program for students of research. A special graduate reading room will be opened.

With transportation facilities becoming more available, West Texas State will draw from a wider area next summer. The cool Panhandle climate, ideal for study, will appeal to many downstate students. Recreation will include several all-college and freshman picnics, playnights with supervised games and intramural sports, dances, swim-

hority for the unit or station of the former officer's first assigned station.

If the applicant for enlistment was discharged from enlisted status in the first grade (Master Sergeant) to serve on duty as a reserve officer or to accept a commission as Warrant Officer or Flight Officer in the Army of the United States, his date of rank will be the date of rank established by his permanent warrant in the first grade or will be the date of his temporary promotion to the first grade whichever is applicable. It will be noted however that the provisions of this paragraph do not preclude the authorization to reenlist in grade of former Regular Army enlisted men who were discharged to enter upon active duty as commissioned officers or warrant officers in the Army of the United States.

A painting by Zeuxis, Greek painter of the 5th Century, B. C. was so realistic that it is said that birds picked at the grapes.

Need letterheads? Dial 2131.

Enlistments Open To Army Warrant And Flight Officers

Colonel Robert L. Hardy, West Texas District Recruiting Officer, today received a War Department communication which stated that former officers, Warrant Officers, and Flight Officers who have been discharged from active service on or after the 12th of May 1945 and prior to November 2, 1945, may reenlist on or before the 31 January 1946. The communication further stated that those officers, Warrant Officers, and Flight Officers who have enlisted in the army since May 12, 1945 in a grade lower than Master Sergeant will be immediately promoted to the first grade (Master Sergeant).

The grades in which men are enlisted under the provisions of the above communication or to which they are promoted as prescribed in the above are permanent Regular Army grades and warrants will be issued accordingly by the Commanding Officer having appointed au-

Gotta Bow to You!

... admits SUPERMAN

He's "outa this world"—the way he accelerates, and wings his way through "the funnies." But listen—seriously—you've now got him downright in the mood to admit that your car's got something, too... winging its way on the exhilarating power of today's great new anti-knock gasoline...

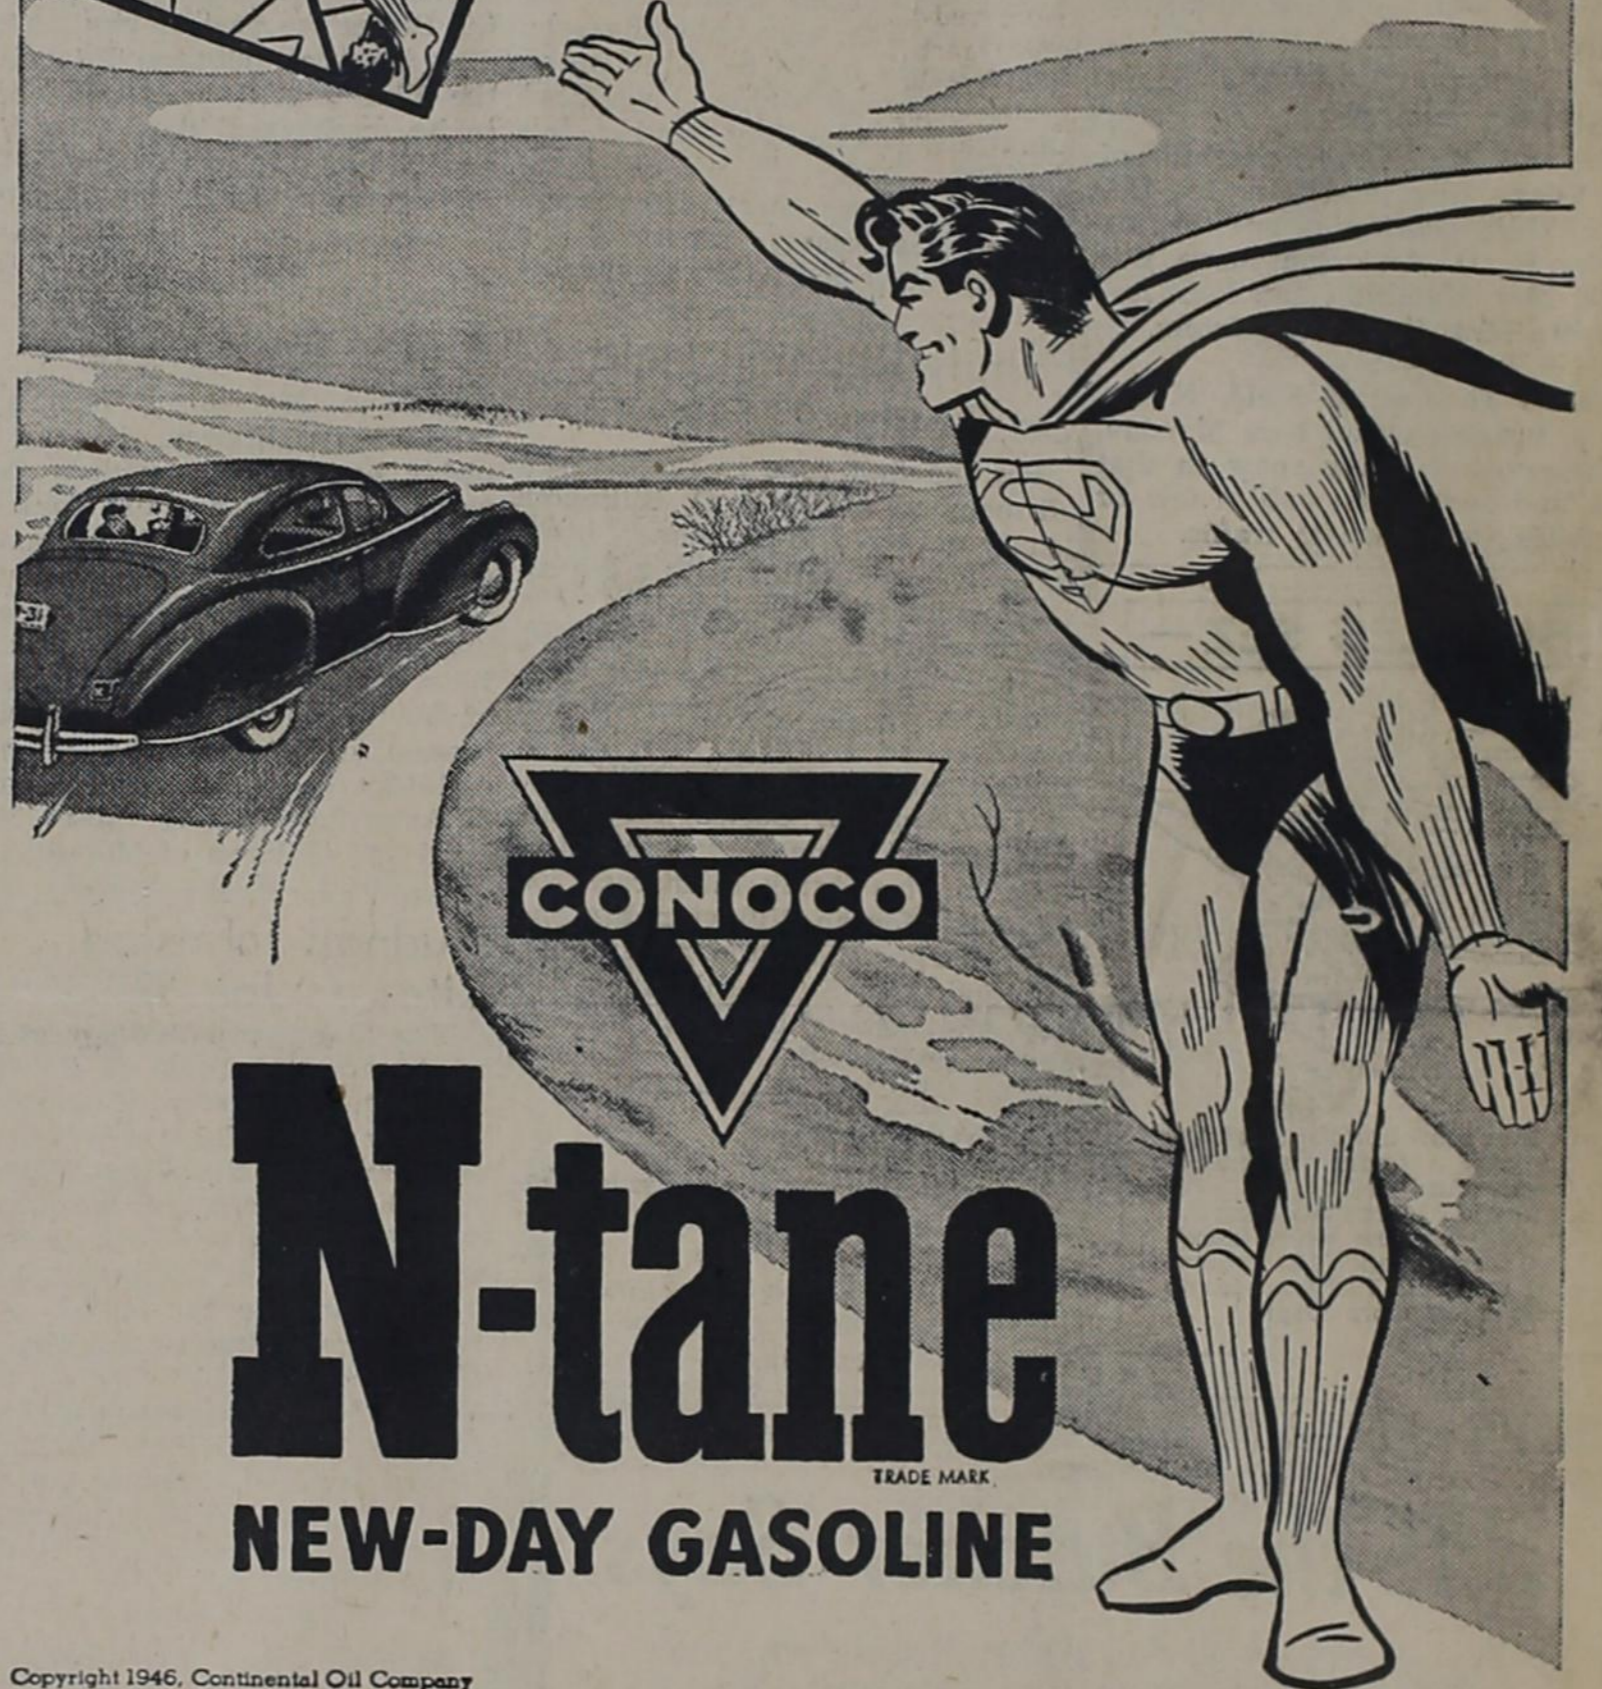

It's new-day Conoco N-tane!

This is new-day gasoline that brings you the essence of all our experience in making high-octane air fuels. And because we had a flying start... because we had our long-standing record of pre-war excellence... you are right to expect all the more from new-day Conoco N-tane.

It votes liberal on mileage... that's Conoco N-tane!

It's your battery's Winter helper... that's Conoco N-tane!

And... AND!... the pride you take in Conoco N-tane's pick-up—in its prowess on the hills—isn't marred by all sorts of ping-pong. No fooling you on anti-knock... so just give an ear to whispering Conoco N-tane. Try it today; it's habit-forming.

COMPANY

ming, and visits to nearby lakes and canyons.

Summer activities also will include open forums, programs of recordings, a faculty reception, assemblies, lectures, and demonstrations. The Demonstration School will be operated through twelve grades.

VITAMINS IN CABBAGE

COLLEGE STATION — Experiments carried on by workers at the Vegetable Breeding Laboratory in Charleston, S. C., have brought out some interesting facts concerning the important Vitamin C content of cabbage, according to Miss Edith Lawrence, specialist in food preservation for the Extension Service.

As the season becomes cooler, more vitamin C is produced about the core of the cabbages, while in the warmer months the vitamins accumulate more parily in the outside leaves. Hence housewives who throw away the outside leaves of May cabbages, lose a great deal of the important vitamin C content, says Miss Lawrence.

The same is true of the other vitamins found in cabbage. Vitamin B1, or thiamin, and B2 are present in small quantities, and they follow the same procedure as Vitamin C.

Miss Lawrence suggests eating cabbage raw, or cooked slightly, as long cooking destroys food value. She says housewives should remember that vitamin C cannot be stored in the body and should be eaten every day.

NEW FOLKLORE BOOK

"Gib Morgan" is the title of the 1945 Texas Folklore Society publication, just off the press. Mody C. Boatright, professor of English at the University of Texas, is the author of the book, which is a collection of stories told by Gib Morgan, and stories told about him.

FELLOWSHIPS OFFERED

Booklets describing the Rosalie B. Hite fellowships in cancer research offered by the graduate school of the University of Texas, were mailed to 1500 colleges and universities throughout the United States. The fellowships were established by the late Miss Rosalie B. Hite of Houston.

Tribune want ads get results.

FIRST EDITIONS GIVEN

Seven valuable first editions have been presented to the Rare Books Collection of the University of Texas by Everette DeGoyler of Dallas. Included are three first editions of Walt Whitman's "Leaves of Grass", a copy of "Man of Property" by John Galsworthy, with an inscription to Joseph Conrad; "South Wind" by Norman Douglas, and two books by Henry Thoreau.

# Important Political Dates Are Announced For Election Year

Politics remained quiet in Parmer County this week, but for the state as a whole, 1946 is predicted to be one of the most active election years recently.

Returning service men will play a large part in the election, and many are showing a keen political interest now evident before their service in the armed forces.

J. W. Jennings, who lost the election for representative of the 120th district by a narrow margin two years ago, has filed again as a candidate for that place.

Floyd N. Richards of Dalhart, has entered the race to unseat District Attorney King Fike, also of Dalhart, and it is considered quite likely that District Judge John Aldridge of this city may draw an opponent before the campaign has progressed many weeks.

Politics in Parmer County may not draw much fire this year, but there is every indication that there will be hot campaigns for district and state offices, especially the latter.

But the important political dates won't mean a thing for those whose poll taxes are not paid, Earl Booth, tax assessor and collector, reminded this week in an appeal to county voters to pay these immediately. January 31 is the deadline.

Other important political dates are:

March 10—Tax collector furnishes county clerk with statement showing the number of poll tax receipts issued.

March 31—Last day for tax collector to furnish list of voters and other data to local board which sup-

plies election materials.

June 3—Last day for candidates for district and state officers to file with state chairman in order to get names on the ballot.

June 10—State Democratic executive committee meets to approve or disapprove requests of candidates to have names on ballot.

June 15—Last day for candidates for local and precinct offices to file to get names on ticket.

June 17—County executive committees meet to consider preliminary primary problems.

June 24—County primary committee, appointed by county executive committee, meets to prepare ballot for July primary.

June 24—Last day for candidates to pay filing fees.

July 2—Last day for filing first campaign expense accounts. Candidates and managers are required to file such accounts not more than 30 and not less than 25 days preceding the primary.

July 8—First day for absentee voting. Such voters must apply to county clerk to vote not more than 20 and no less than 3 days prior to primary.

July 20—Last day for tax collector to deliver list of voters to chairman of county executive committee.

July 26—Executive committee required to distribute election supplies not later than 24 hours before opening at the polls.

July 27—First primary election, polls open from 7 a. m. to 7 p. m.

July 27—Rural precincts hold convention at 2 p. m. and city precincts at 7 p. m. to select delegates to county conventions.

**CONN TRAINS . . .** Billy Conn, heavyweight contender from Pittsburgh, pedals the exercise bike as he trains for his bout with Joe Louis. His work-out is taking place at Hot Springs, Ark., where he will train until his championship bout.

July 30—Presiding judges of election required to make returns to chairman of county committee.

August 3—County executive committee meets to canvas returns and declare results of primary and provide for runoff primary.

August 3—County conventions meet at 2 p. m. to elect delegates to state convention.

August 6—Last day for candidates and campaign managers to file the third expense account.

August 12—State executive com-

mittee meets in city it previously designates to canvas returns and announce second primary slate.

August 24—Second or runoff primary, from 7 a. m. until 7 p. m.

August 31—County executive committee meets to canvas returns of second primary.

September 3—Last day for filing campaign expense accounts for second primary.

September 9—State executive committee meets to canvas returns to prepare temporary list of delegates to state convention.

September 19—State convention meets to ratify party nominees and to adopt a party platform, the state committee previously having selected convention city.

October 16—Absentee voters shall apply to county clerk for ballots, not more than 20 and not less 3 days before general election.

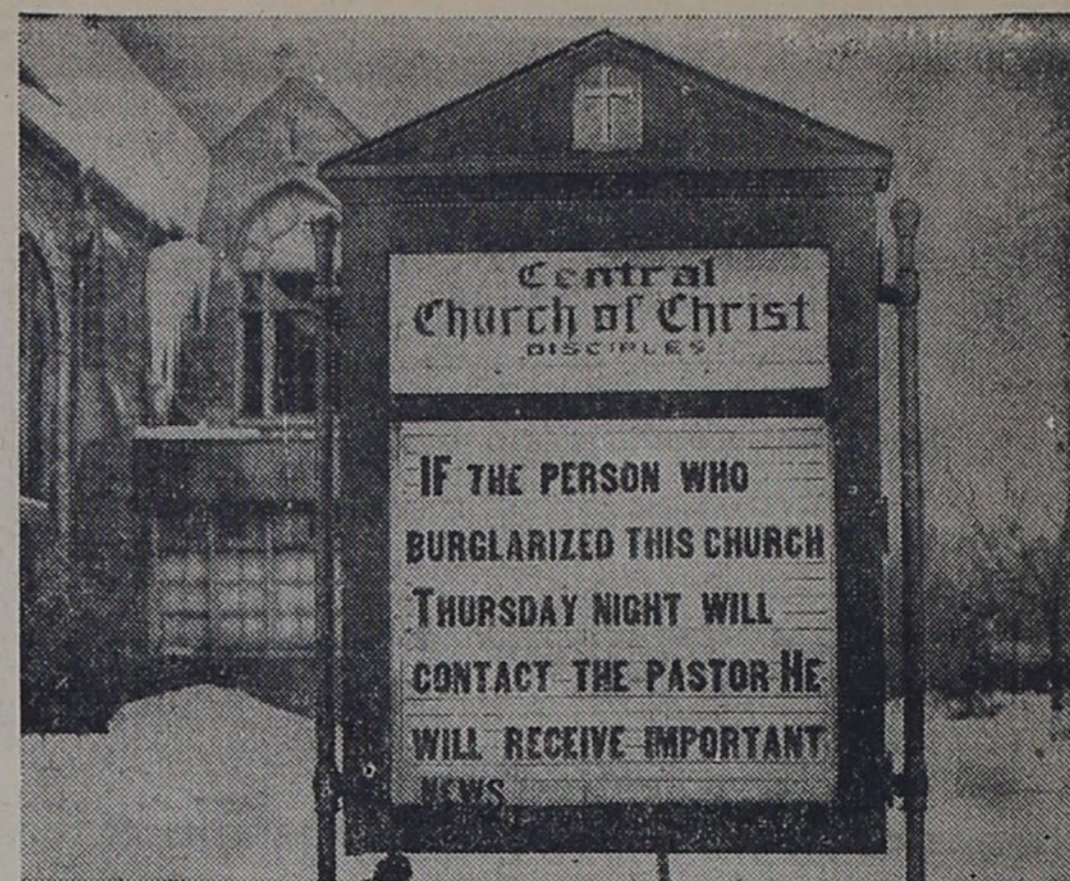

November 5—General election, polls open from 7 a. m. to 7 p. m.

## Health Notes

By Texas Department of Health

**AUSTIN**—Young children may suffer as much from winter illnesses as they do from those commonly known as "summer complaints" in the opinion of Dr. Geo. W. Cox, State Health Officer, and his advice to parents is to guard babies and young children against these winter health hazards.

Influenza, tonsillitis, pneumonia, bronchitis, and asthma are included among those diseases which may be dangerous winter illnesses among young children since they affect the respiratory or breathing system. Pneumonia, in particular, may develop from a neglected cold, it may follow as an aftereffect of measles or whooping cough, or it may occur suddenly and with very little warn-

**"LES MISERABLES" RE-ENACTED IN BUFFALO . . .** This invitation on the bulletin board of Central Church of Christ in Buffalo, put there by the Rev. Harry T. Birdwell, in hopes that the thief who robbed the church of a candle from the Christmas altar may return.

ing. Disease of the respiratory system are more prevalent in winter than in summer and are much more difficult to combat than digestive ailments such as summer complaint.

"These winter diseases are especially dangerous to babies and young children," Dr. Cox stated. "Nearly all of them are spread through the secretions from the nose and mouth. Children not in vigorous health are naturally more susceptible to these complaints and the first line of defense," Dr. Cox cautioned, "is to strengthen the powers of resistance against disease; the second is to keep them under medical supervision, and the third is to make sure they avoid contact with others who have colds, coughs, or fevers."

Russia is the largest country in the world.

## CHEESE IN HALF TIME

**COLLEGE STATION** Manufacturers of American Cheddar cheese can now produce "aged cheese" of excellent quality and flavor in three to four months—about half the time formerly required.

The new method was developed by the Bureau of Dairy Industry and is adapted to commercial conditions.

Research workers of the USDA found no difference in quality between cheese ripened at 60 degrees F for three to four months and that ripened at 50 degrees for 6 to 8.

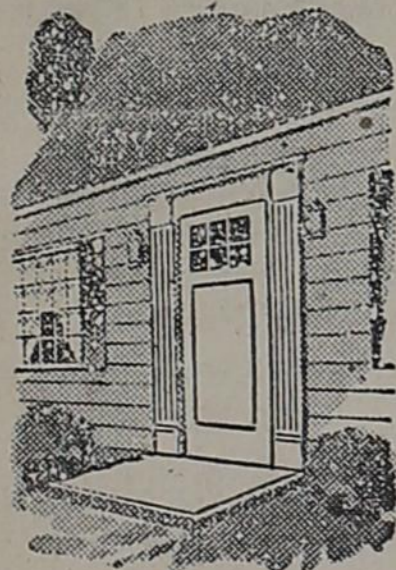

Only pasteurized milk of good quality is suitable for the new process.

Snails are eaten as a delicacy in France.

## Percherons Become Circus Stars

For the first time in the history of the circus, Percherons are being trained to become sawdust ring stars. Sometimes known as the Percheron Norman, named from La Perche, a French district, this type of horse is ordinarily a work horse. These magnificent specimens are being trained at the Sarasota, Fla., circus winter training headquarters.

# NATURAL GAS

Says Kwiki Bluetip

## the Winner!

"This is derby day. Betting has been heavy. Natural Gas is the great favorite, a thoroughbred foal of Southern Union out of Nature. Payoff possibilities are a sure thing!

They're lined up at the starting post! There's the starting signal! They're off! Natural Gas is leading by a length—the others are trying to move up—they just can't come up to Natural Gas. They're past the half-way mark and Natural Gas is still in the

lead. Into the last stretch now—Natural Gas is over the finish line lengths ahead of the runner-up. There's no need for a photo-finish in this race—Natural Gas is the Winner!"

**Tech Coaching Staff  
Now Full Strength**

LUBBOCK—Texas Tech's coaching staff has returned to pre-war strength with release from the armed forces of its four men on leave.

Back on duty in the athletic department are Burl Huffman and Walker Nichols, assistant coaches, and G. C. (Mule) Dowell, assistant to the director of athletics. Trainer Lewis Spears expects to do graduate work next semester and to be back on duty in the fall.

Huffman, assistant football coach and head basketball mentor, terminated active duty with the Army as a captain, serving as assistant coach of the Forth Worth AAF Sky-masters. Nichols was a lieutenant, junior grade, in the Navy during the war, serving in the South Pacific. He is assistant football coach and track coach.

Dowell, a lieutenant in the Navy, was assigned to the admiral's flagship in the Pacific. He was business manager of athletics and assistant to Morley Jennings prior to the war. Spears also was a captain in the Army at the time of discharge this month.

All four men entered service in 1942. Spears in February, Dowell in April, Huffman in August and Nichols in November.

Tech's Red Raider football teams were coached during the past three years by Head Coach Dell Morgan and Palk Robison, as his sole assistant. Robison also has served as head basketball coach. No athletic teams other than football and basketball have been fielded since 1942.

**TO MEET IN LUBBOCK**

LUBBOCK—The State Soil Conservation Board and the directors of the Texas Association of Soil Conservation District supervisors will meet with the faculty of the Division of Agriculture at Texas Technological College to discuss problems of soil conservation Jan. 28. The group will be in Lubbock for a business meeting.

**Southwest Livestock  
Show At El Paso**

EL PASO—National cattle breeding organizations will participate in the 17th annual Southwestern Livestock Show, which will open here March 26, it was announced today by E. Jay Dittmer, general manager. Total premiums have been increased to \$12,000 in contrast to \$2200 in prize money that was paid at the 1945 show.

Among the national organizations that will enter the 1946 show are the American Hereford Association, American Aberdeen-Angus Breeders Association, and the American Shorthorn Breeders Association.

In addition to the major breeds, there will be a junior show, with fat calves, swine and sheep on display. Future Farmers of America and 4-H clubs from all over the Southwest will participate.

A new feature of the show will be the payment of prize money in cash "on the spot" immediately after the judging. A certificate of award will be mailed to winners after the show.

Exhibits will also include Palominos and Quarter Horses, rabbits and poultry.

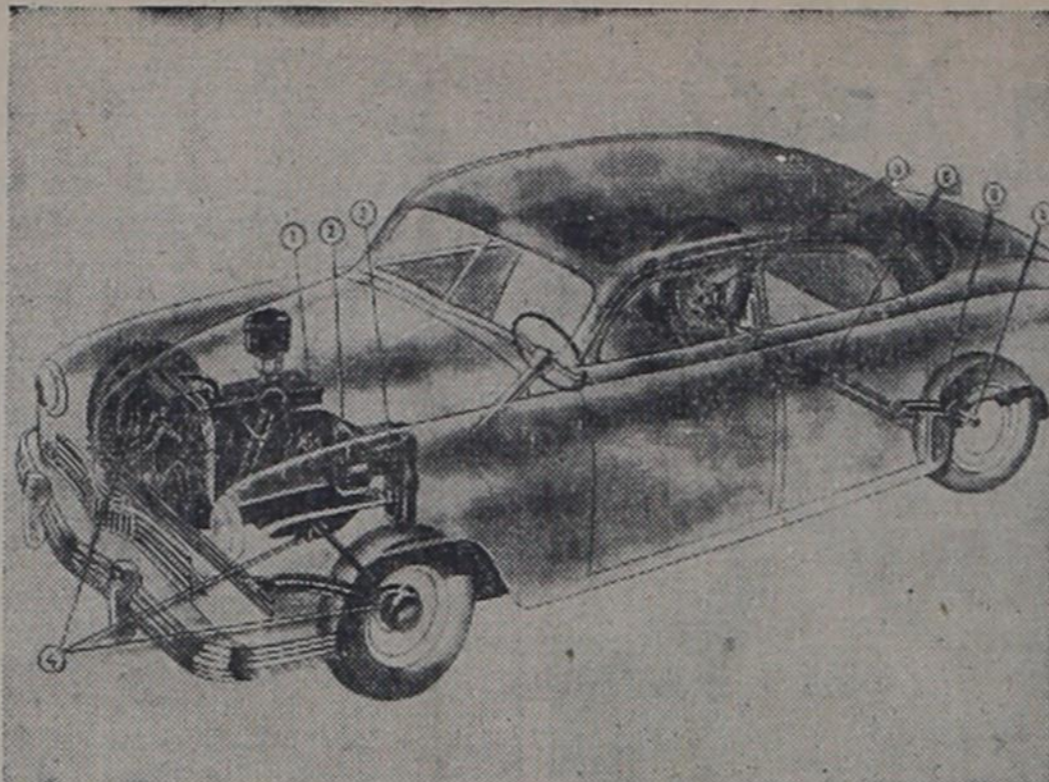

A mammoth parade, called Parade de Rancheros, will open the Southwestern Championship Rodeo. The parade will have a marked international theme, with special invitations going out to Mexican mounted organizations and Mexican ranches.

A sponsored cowgirl contest will be another feature. Each contestant will be sponsored by a city, town or ranch, and the champion cowgirl will get a \$350 hand-tooled saddle.

Both the livestock show and rodeo will continue through March 31.

**OPENS SHOP AT LARIAT**

Martin Kriegel, who has been operating a repair shop at Lariat the past several years, announced this week that he had enlarged his facilities by buying the equipment of the Consumer's and is now located in a new building with more room to care for his patrons.

**HENRY J. KAISER'S NEW "PACKAGED" POWER . . .** The new Kaiser car, first of American low-priced autos to have front wheel drive. It is also first mass production passenger car in America to have independent "torsionetic suspension" on all four wheels. The body and chassis form a single unit of the type known as "monocoque" construction. The new Kaiser was designed by Howard A. Darrin, with pressure-chamber ventilating system.

**Basketball Schedule  
Resumes This Week**

Cage games for the Texico teams will be resumed this Friday night, January 25th, when three squads from Pleasant Hill will play on the local court, coaches at the school reported today.

Two scheduled series, with Rose-dale and Ranchvale, were cancelled last weekend, due to weather conditions which made travel practically impossible, officials added.

The girls' game is slated as the major attraction Friday evening, since in an earlier engagement Pleasant Hill took a close 4-point win over the locals. Coach Tom Hudson reported that the influenza wave apparently had passed, and expected all members of his squad to be on hand this weekend.

Texico's boys are believed to have the upper hand in the coming fray, having taken the first game over Pleasant Hill by a decisive score. The visitors, however, are strong rivals of the Wolverines, and upsets have been known to occur when the teams tangled.

The grade boys' teams of the two schools will open the evening's activities, with the game called at 7:30, Texas time, Coach B. A. Rogers said today.

**Farwell Teams To  
Frona, Tuesday**

Farwell and Frona, long-time sports rivals, will face each other for the first time in cage games of the 1945-46 season, next Tuesday night, January 29th, when Frona acts as hosts.

Admittedly two of the tougher games of the season, the boys contest will have additional flavor by the memory of the defeat Farwell handed the Chiefs late last season, after they had romped through a particularly successful season.

The Frona girls have a strong team this year, having won most of their games thus far, and it is doubtful if Farwell can muster sufficient strength to put them down when the squads meet Tuesday.

**Tech Debaters Will  
Compete In Austin**

LUBBOCK—Student debaters of Texas Tech will participate in the University of Texas tournament in Austin, February 8-9.

The subject of debate will be: "Resolved, That every able-bodied male citizen of the United States should have one continuous year of military training before reaching the age of 24."

Debaters from seven colleges and universities and several high schools will compete in the tournament.

Need letterheads? Dial 2131.

**Single License Tags  
Are Slated for 1946**

New license plates will be on hand shortly in the office of County Tax Assessor Earl Booth, according to a letter from state headquarters. In line with a precedent established in 1945, only one plate will be issued per vehicle in 1946.

However, notice received here listed one change in using the single plate: In 1945, car operators were required to put their new plate on the rear of the vehicle; in 1946, the tag is to be displayed on the front of the car, state headquarters announced.

Considerable dissatisfaction in checking cars was reported by highway patrolmen last year, when plates were worn in the rear, as a questionable auto had to pass the patrolmen before the license could be spotted—and in case the car's occupants were making a run from the law, it was a little difficult to overtake the vehicle afterward.

The state office did not specify the color of the new plates, nor the county serial number, but did report that the size would be 6½x10½, the same as those now in use.

**SANTA FE CARLOADINGS**

Santa Fe System carloadings for week ending January 19, were 22,406 compared with 24,185 for same week in 1945. Cars received from connections totaled 9,728 compared with 14,168 for same week in 1945. Total cars moved were 32,134 compared with 38,353 for same week in 1945. Santa Fe handled a total of 33,818 cars in the preceding week of this year.

**School Attendance  
Climbs as Weather  
Moderates Here**

Attendance at both the Texico and Farwell schools was on the up-grade this week, as roads over the area began to open up, following the traffic-stopping snow of last Monday.

Superintendent B. A. Rogers reported that school continued at the Texico institution through all last week, although very few pupils were on hand Tuesday. On Monday, all school buses made runs of a sort, although some of the routes ordinarily covered are still impassable. Students along the line, in several cases, walked extra lengths to pick

up the route of the bus.

The Farwell school opened again on Thursday, after being closed on Tuesday and Wednesday, with buses making their first runs that day, circling along the paved highways. Some students were unable to reach the highways, and were out until the first of the week, when almost normal routes were resumed.
