Health Notes
By Texas Department of Health

AUSTIN—An official announcement from the State Committee for approval of educational and training institutions has been received by Dr. Geo. W. Cox, State Health Officer, designating the Texas State Department of Health as an approved vocational training agency for veterans.

Training offered by the State Health Department will include sanitary engineering, entomology, technician, water and sewage plant operation and typhus control.

Veterans who meet the eligibility requirements under the "G. I. Bill of Rights", ages 20 to 40, with at least a high school education and physically fit for field work may apply for this training. Applicants should be men who desire to make sanitation or some other phase of public health activity a career or life work. Applicants who have been accepted will receive such training allowances as is provided under the G. I. Bill; for instance, \$65 and \$90 per month, depending on marital status, which amount may be supplemented by the city where the applicant is taking his training.

For full information concerning this type of training, veterans are urged to consult their local branch of the Veterans' Administration, their local health officer, or the State Department of Health in Austin.

When the boy says he can't live without you, better not suggest he see dad. Pop might be willing to pay the funeral expenses.

A lot of married couples are so inseparable that people have to pull them apart.

Officers Relected At FCA Meet, Houston

HOUSTON—All officers of the Farm Credit Administration of Houston and the four state-wide agriculture financing institutions which comprise it were re-elected at the annual January meeting of the board of directors.

S. A. Lindsey of Tyler was re-elected chairman of the board and B. L. Sanders of Corsicana was re-elected vice-chairman. Other directors are: D. B. Denny of Greenville, J. B. Phumprey of Old Glory, Jake Schwartz of Uvalde, Chas. C. Thompson of Colorado City, Ide P. Trotter of College Station.

Jack Shelton was re-elected general agent.

Officers in the four institutions for 1946 are:

Federal Land Bank of Houston: Sterling C. Evans, president; R. D. Johnson, vice-president and treasurer; John V. Van De Mark, vice-president and secretary; V. N. Johnson, vice-president; C. W. Moehring, assistant treasurer; D. C. Hughes, assistant treasurer; A. C. Hargis, assistant secretary; T. E. Williams, assistant secretary.

Federal Intermediate Credit Bank of Houston: T. P. Priddle, president; Rufus H. Robertson, vice-president; R. C. O'Neill, secretary; Jack C. Adams, treasurer and assistant secretary; D. B. Sauls, assistant to the president.

Production Credit Corporation of Houston: Virgil P. Lee, president; Sam N. Hardy, vice-president; L. Roy Prescott, treasurer; O. G. Tumlison, secretary; L. D. Campbell, assistant vice-president; Thomas V. Merrell (on military leave), assistant secretary; T. L. McFarland, assistant secretary; W. A. Holmes, assistant treasurer.

SMALL LINES GAIN MILEAGE

WASHINGTON—In the past seven years the smaller airlines, which in general serve smaller cities than do the Big Four (the four largest airlines) have gained more than 2½ times as much mileage as have the Big Four. A total of 16,999 miles of new routes have been certificated to 12 of the smaller airlines compared with 6,749 for the Big Four. Today the smaller airlines are operating over 30,617 miles of routes compared with 29,778 miles operated over by the Big Four.

Then there was the Scotchman who saved his toys for his second childhood.

Champion Cowgirl Sought For Show

EL PASO—The Southwestern Livestock Show and Rodeo is seeking the champion cowgirl of the International Southwest.

A Sponsored Cowgirl Contest has been announced, with a \$350 hand-tooled saddle put up as first prize. Eva Mae Wilken, as "Miss Sierra Blanca," has qualified as the first contestant.

The Sponsored Cowgirl Contest, which will be held here in conjunction with the rodeo, is not a beauty contest; it is open only to cowgirls. Every girl must be sponsored by a city, town or ranch; she must provide her own mount and costume; and the contest is limited to twenty qualified contestants, with all entries to be in by March 12.

The girls will be judged on their horsemanship, their costumes, and mounts. They will ride in the rodeo parade, called Parada de Rancheros, in the Grand Entry, and they will perform in the arena. A \$10 entry fee put in by each contestant will be added to \$250 prize money paid by the Show for the Ladies Flag Race, scheduled for the six performances of the rodeo.

The 17th annual Southwestern Livestock Show and Championship Rodeo will start here March 26 and continue through March 31. The Parada de Rancheros will open the exposition.

Grandpa says today's dances are not so new. He recalls when the same swings were tried many years ago. Only then the places were raided.

Grain Biggest Shipment For Overseas Relief

Sixty percent of all government-owned food delivered for foreign shipment during last November consisted of grain products, according to E. A. McBryde, district officer for marketing.

All deliveries for the month totaled about 431,500,000 pounds, of which 67 percent, or about 286,600,000 pounds went to the United Kingdom, Russia, liberated countries and UNRRA. The remainder was earmarked for U. S. domestic and territorial programs, he said.

Second largest item shipped during November consisted of 51,988,476 pounds of dairy products, followed by 28,659,973 pounds of meat and 14,960,461 pounds of sugar. Smaller food shipments included

special commodities, fruits, vegetables, poultry, fats, oils and tobacco.

TO VISIT COLLEGE

DENTON—Henry Cowell celebrated American composer and pianist, has been added to the list of fine arts presentation at North Texas College and has been scheduled for March 26 and 27, when he will give a series of lectures on music and recitals.

As a part of his coast-to-coast tour, Cowell, who has performed throughout America as a piano soloist with orchestras and symphonic bands, will conduct lectures at the School of Music during the day and give his recitals in the evenings.

She may leave you holding the sack. But she will keep the things that came in it.

Want Tires? Save Fat!

Synthetic tires for civilian use are now being made at the Detroit plant of the United States Rubber Company. Here, Thomas Hershberger, press operator, is taking a tire from the curing mold. Since fats are used in the manufacture of hundreds of other things we want, —nylon stockings, electrical appliances, soap, upholstery, etc.—the used fat that housewives skim, scoop and scrape can help to bring larger quantities of many of those items back sooner. Every pound is now worth four points and four cents.

Bovina Happenings

Mrs. B. M. Robards, of Circleback, is to be a guest of her daughters, Miss Kathryn and Mrs. Lorene Jefferson, this weekend.

Miss Jerry Niece, Denzil Eberting, Joe Hromas and Stacey Queen, Jr., were guests at a waffle supper, Wednesday night, given by Miss Kathryn Robards and Miss Jean Inness.

Mrs. Ruth Terry and Mrs. Irene Wyly and children, of Friona, were Bovina visitors, Monday.

Mr. and Mrs. Hubert Bowen, Mr. and Mrs. Earl Bowen and children visited with Von and Opal Bowen over the weekend.

Opal Bowen and her sister, Wynona Battey, returned from Rochester, Minn., Monday afternoon. Mrs. Battey was given a chest examination while there.

Mr. and Mrs. R. S. Johnston and Nancy were visiting relatives in Lubbock, Friday and Friday night.

Mr. and Mrs. Lester Rhinehart have moved to the farm.

Mr. and Mrs. Harold Turner and son, Don, from Venita, Okla., are visiting his son and wife, Mr. and Mrs. Byron Turner, and the J. G. Whites.

Mrs. E. T. Caldwell and Rita had some dental work done in Hereford, Friday.

Mr. and Mrs. F. W. Ayres spent the weekend at Frederick, Okla., visiting his brother, E. T. Ayres, who has been ill for some time.

Mr. and Mrs. Howard Looney have moved to their new home southeast of Bovina.

Mr. and Mrs. Gene Ezell are visiting her parents at Shattuck, Okla.

Peggy Joyce Stump was on the sick list this week.

A number of school students are absent, due to mumps.

Mr. and Mrs. Jack Kessler have moved to Clovis.

Mr. and Mrs. Floyd Englant and children have returned to their home in Santee, California, after an extended visit with his parents here.

Those home from college over the weekend were Mary Leatrice Cherry, Mildred Hopingardner, Mildred Ruth Bonds, from Canyon; Jack Barnett, Paul Smith, Harold Gene Starr and Sam Johnston, from Tech.

Eula Hopingardner of Clovis, spent the weekend with her parents in Bovina.

Mr. and Mrs. J. T. Hammonds, Mr. and Mrs. Frank Wilson and Mrs. Caldwell and Rita were shopping in Clovis, Wednesday.

A. M. Hart was here over the weekend. He has been working in Portales.

A group from here went to Clovis Tuesday evening, to hear the McMurry Chanters. Those attending were Mr. and Mrs. W. E. Williams, Martha and Charles; Mrs. Caldwell and Rita, Mrs. A. M. Hart, Mrs. Roscoe Trostle, Mrs. A. G. White, Mr. and Mrs. Wilbur Charles and Mrs. Jack Kaminski.

J. W. Ashcraft came from San Antonio, Friday, to attend the funeral of his grandfather, which was held at Friona.

The Bovina Glee Club, sponsored by Mr. Sheets and Mr. Cherry, presented a program at Friona, Monday.

Mr. and Mrs. Elman Stark and Mrs. Louis Pesch attended business in Plainview, Saturday.

Mrs. Kimbrow and Mrs. Williford were shopping in Clovis, Friday.

Mr. and Mrs. Tom Hudson had as their guests Sunday his sister and family, from Lubbock.

Mr. Rollin Farmer, of Amarillo, visited her parents, Mr. and Mrs. Tommy Horton, last weekend.

A group of ladies met in the home of Mrs. Elmer Venable this week. They enjoyed a covered dish luncheon and the day was spent in quilting.

Miss Temple, of Lamesa, Texas, arrived in Bovina, Sunday, to take over the duties of home economics instructor in the local high school. She is a graduate of Texas Tech.

Pvt. Robert H. Ray, who has been home on a short leave, has returned to Fort Bliss, Texas, to resume his duties. He is the son of Mr. and Mrs. A. T. Ray.

Ladies of Bovina and surrounding community: The Red Cross sewing is ready to pick up. Mrs. Bonds would like for all to see her, as they wish to get this sewing out as soon as possible. See Mrs. N. E. Bonds.

Warren Queen has returned to California after visiting two months with Mr. and Mrs. Bud Queen.

Dorothy Blalock, Katie Ellison and Mrs. Gooch were business visitors in Clovis, Wednesday afternoon.

Mr. and Mrs. John L. Wilson were Lubbock visitors, Tuesday.

The Bovina boys and girls won three basketball games the past weekend. On Friday night, Oklahoma Lane visited here, with the local girls scoring 26 to the visitors' 21, and the boys winning 32-19. On Saturday evening, the boys club from Elida visited here, and lost 46 to 25.

WMU Meets

The WMU of the Baptist Church met with Mrs. R. N. Williford on Wednesday. A very interesting Bible study was given by Mrs. Fred Stump.

Those present were Mesdames Hilary Tidenberg, Vernon Ward, Frank Barnett, Beal, Gaines, Joyce Hammonds and the hostess.

Slumber Party Given At Looney Home

June Gay Looney entertained the younger set with a slumber party in her home, Saturday night.

Games were played during the early part of the evening. Guests included Delores Sheets, Roylene Hawkins, Gladys Hopingardner, Patsy Hart, Janean Ellison, Audrey Boxford and Patsy Loflin.

McMurry Chanters Give Program At Bovina

The McMurry Chanters, a group of 30 girls, with their director, Gypsy Wiley and pianist, rendered a very inspiring program here last Wednesday morning, when they appeared at the local high school.

Two local girls, Willie Ellen Williams, and Jean Hart, are members of the chorus.

A number of enjoyable numbers were sung by the group, and the Methodist ladies served lunch to the Chanters immediately after the program. The first quarterly conference meeting was held at the Church in the afternoon.

Doud Named Assistant Freight Agent, S. F.

The appointment of J. E. Doud as assistant general freight agent of the Panhandle and Santa Fe Railway, with headquarters in Amarillo, was announced recently by H. C. Vincent, traffic manager. Doud succeeds F. R. Ebersole, who was promoted to the newly created position of assistant general freight agent at Chicago.

Doud, a native of Amarillo, is the son of the late Charles Doud, former chief clerk to the general manager of the Santa Fe Western Lines at that point.

Entering the Santa Fe service in Amarillo as a messenger boy in 1926, Doud transferred to the traffic department as mail clerk in September, 1927, and since that time has received successive promotions through the department to the position he now holds.

Hang on to your War Bonds!

EGYPTIAN STUDENTS

LUBBOCK — Egyptian students are interested in enrolling for correspondence courses from Texas Tech, according to J. H. Millikin, director of the extension division.

In a letter to Tech, S. Setton, secretary of "Your Future" institution in Cairo stated that he college had been recommended by the American Office of War Information.

GENEROUS SUPPORT

AUSTIN University of Texas students and faculty members subscribed \$108,211.25 to the Victory Loan bond drive which ended Dec. 31, Dr. M. R. Gutsch, secretary of the faculty, reports. The University invested \$121,100 from trusts and special funds, and \$9,300,000 from the permanent fund.

Graham-Hoeme The Revolutionary Plow WE HAVE 'EM ON HAND!

Plowing the Correct Way

With the Graham-Hoeme two-inch chisel as shown in illustration prevents blowing, permits water to bypass top soil into the sub soil. Keeps the rubble on top, thus cutting down evaporation.

PROVEN FACTS

Enough rain falls on your farm most every year to make fine crops. But after the first few minutes of rain a smooth surface seals itself so the rate of intake is greatly lessened. This causes run-off. It has been scientifically proven that the same field will not seal itself when plowed with the Graham-Hoeme Plow with a 2-inch chisel furrow every 12 inches to by-pass the rainfall through the top soil and keep a straw mulch on top. Experiments prove that upwards of three times the moist-

ure enters the ground.

Suppose the next day turns off fair and hot. Bare soil would soon be steaming and losing its moisture rapidly. But not covered ground. It is shaded from the sun and protected from the wind. The moisture stays in the soil.

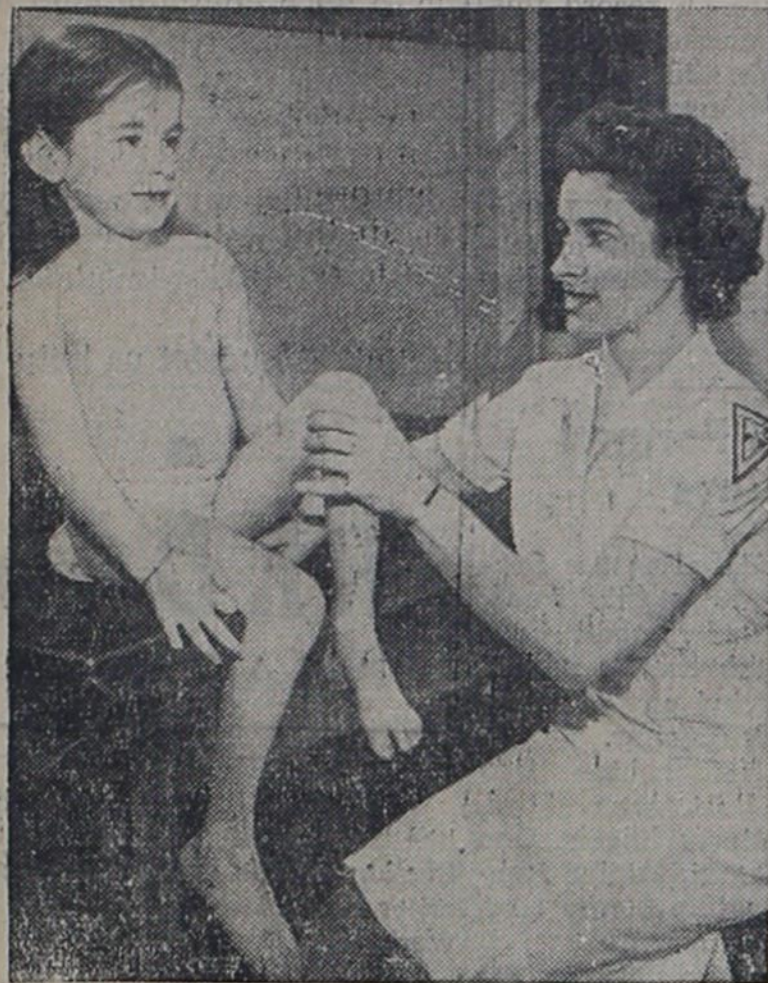

Under these conditions your soil stays moist so long that it bridges the gap between rains.

These things are not just opinions—they are proven facts. The Nebraska Experiment Station has proven them in some of the worst years the Midwest has ever known. Now we know that a covered, corrugated field in a good, brisk summer rain will absorb 200 percent more moisture than a bare field and 64 percent more than a field with a lot of vegetable matter plowed into the surface.

Hybrid Corn Has Big Future In Texas

COLLEGE STATION.—Hybrid corn, in the opinion of F. A. Miller, agronomist for the A. and M. College Extension Service, is destined to replace most of the open-pollinated varieties native to Texas. This prophecy is based upon the greater yields of hybrids, especially in periods of dry weather. A good supply of planting seed is indicated for 1946.

Although hybrids adapted to Texas have been available for only a few years, they have demonstrated yielding qualities averaging 20 to 40 per cent in excess of native corn, depending upon the section where grown. The greater percentage increases were made in the drier regions and the smallest in the more humid sections, including the Gulf Coast prairie and the east Texas timber country, Miller says. During the period of 1942-44 the increases of the best yielding hybrids over the best native varieties ranged from 40 per cent at College Station to 14 per cent at the Angleton Experiment substations.

On the basis of these increased yields Miller estimates that the total corn production of Texas could be stepped up at least 20,000,000 bushels by substituting adapted hybrid strains for open pollinated corn.

Since choice of varieties is important, Miller recommends yellow hybrid No. 12 for the more humid section of east Texas; Nos. 8 and 18 for the blackland region and yellow hybrid No. 8 for the West Cross Timbers, Rolling Plains and south Texas. On the basis of production yellow No. 12 has been outstanding in east Texas, especially on well fertilized land, or soil which was enriched with fertilized and inoculated legumes. Nos. 12 and 9w (white) also are well adapted to the blackland, and the new yellow No. 20 has made excellent yields in east Texas, and the West Cross Timbers, Rolling Plains and south Texas. No. 9w (white) is the only hybrid which so far can be recommended for the Gulf Coast.

For maximum production on sandy soils of the east Texas timber country and on the Gulf Coast prairie 300 to 400 pounds an acre of 6-8-4 fertilizer should be applied and then side dressed with 200 pounds of nitrate of soda or 100 pounds of ammonium nitrate. About one half as much per acre of these fertilizers could be used effectively in dry sections like the West Cross Timbers and south Texas. Soils in these sections also may be enriched by fertilized and inoculated summer and winter legumes, Miller says.

Potato Silage Proves Itself In Feeding

LUBBOCK.—Irish potato silage, composed of 80 per cent Irish potatoes and 20 per cent grain sorghum stover (de-horned butts), is proving a satisfactory feed for fattening cattle in comparison with sumac sorghum silage and cotton seed hulls, according to W. L. Stangel, dean of the Division of Agriculture at Texas Technological College.

Thirty steer calves were purchased in November, 1944, and carried as stockers until placed in feed lots Sept. 27, 1945. They were divided into three lots of 10 head each. Lot I was wintered on sumac sorghum silage, and Lot II on sumac sorghum fodder. Both received daily a supplement feed of one pound cottonseed meal and one pound alfalfa hay per head.

In Lot III calves were wintered on native grass pasture and received a daily supplement of one pound cottonseed cake and one pound alfalfa hay per head.

On May 1, 1945, the steer calves then yearlings, were given access to native grass pasture without a supplement until Sept. 1. Then they were placed in dry lots and received daily rations of 50 pounds of raw Irish potatoes and six pounds alfalfa hay per head.

The steers were again divided into their three original lots of ten each Sept. 27, 1945. All three lots received the same daily ration of milo chop, cottonseed meal and alfalfa hay. However, Lot I was fed sumac sorghum silage, Lot II Irish

potato silage, and Lot III cottonseed hulls.

Average gains for the first 56 days were: Lot I, 2.83 pounds; Lot II, 3.71 pounds; and Lot III, 2.84 lbs. The difference between gains in Lots I and II were very slight, but Lot II (fed Irish potato silage), showed a remarkable gain for the period.

"No conclusions are to be drawn until the feeding test is finished," Dean Stangel reminded. "The three lots of steers will be carried to a marketable finish. It is assumed that this will be attained at the end of 100 days of feeding, a the conclusion of which a complete report will be published," he said.

When rolling dough on waxed paper, Westinghouse home economists moisten the table top first, then put the paper down. This prevents the paper from slipping.

COTTON CROP INSURANCE PROGRAM UNDERWAY

COLLEGE STATION.—The 1946 crop insurance program got underway this week in the Rio Grande Valley where the deadline for taking out insurance on this year's crop is set for February 15.

As cotton-planting time moves north, Federal Crop Insurance Corporation sales agents and ACA committeemen will launch sales campaigns in other sections of the State, Donald L. Cothran, State Crop Insurance Corporation Director, has announced. Texas is divided into five areas with different signing-up deadlines because of the wide variance in times for planting.

Cothra emphasized that the farmer who wants to take out insurance must sign his application either before he plants or before the deadline for his area, whichever is earlier. The insurance covers all unavoidable risks, such as drought, flood, excessive rain, disease and insects, but does not insure against failure to plant in accordance with good farming practices or avoidable losses resulting from mismanagement or negligence.

Money collected by the corporation as premiums is used only to pay loss claims, since all administrative expenses of the program are paid by the FCIC which is supported by Congressional appropriations, the insurance official declared.

In 1945 the program got off to a late start because it was not authorized by Congress until December, but still insurance was in force on 45,908 cotton farms in the State. Participation in the program is expected to be much greater this year.

STEERS ARE SOLD

LUBBOCK — Thirty yearling steers were sold by the department of animal husbandry at Texas Technological College to Swift and Company, Fort Worth, last week, W. L. Stangel, dean of agriculture, says.

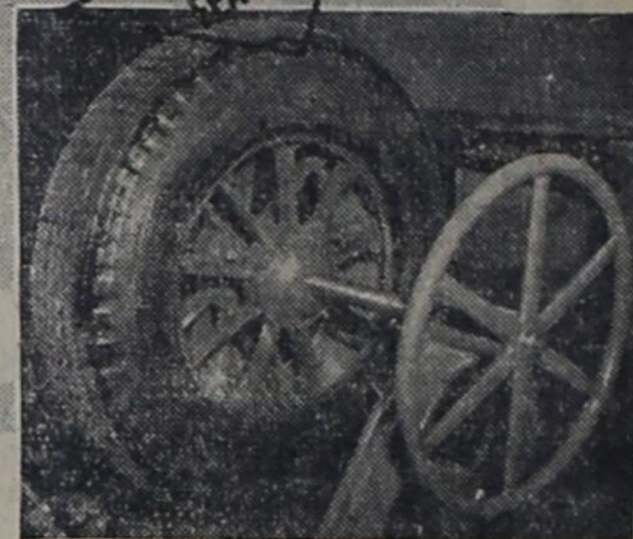

The steers represented 10 head each from Lots I, II and III that had been fed experimentally by the department since Dec. 14, 1944, to determine the comparative value of Irish potato silage, sumac sorghum silage, and cottonseed hulls as feed for fattening cattle.

The initial weight of the three lots averaged 490 pounds, while final market weight was 996 pounds.

BE SURE IT'S ALL ELECTRIC

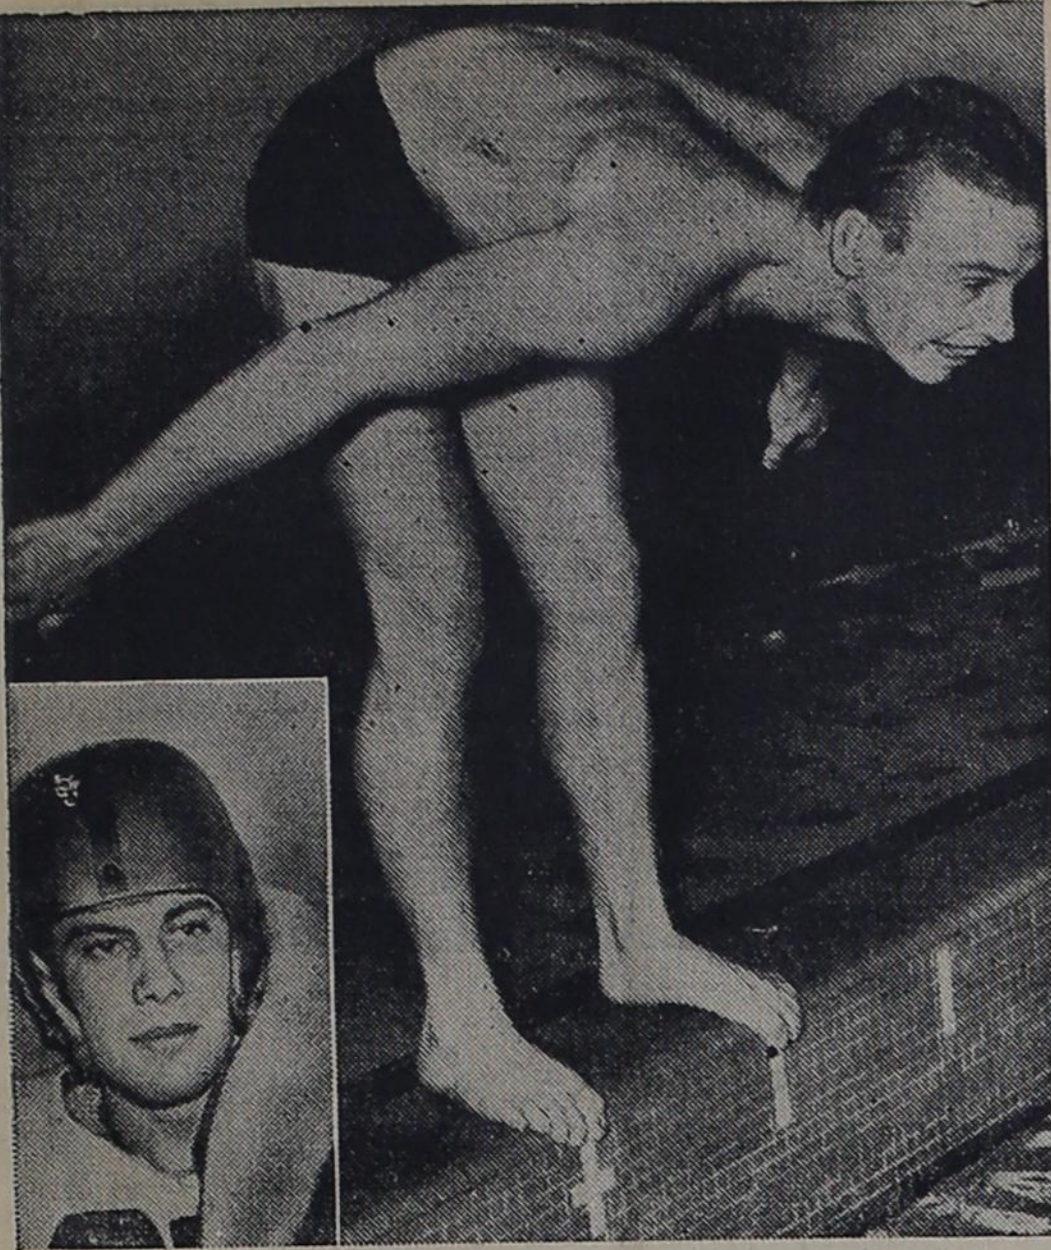

When you plan your new home of the future—be sure it's all-electric. There are many electrical servants that can turn homes of drudgery into homes of leisure. Look forward to seeing them soon.

There's the electric range for instance—and its automatic features; and the washing machine and ironer; the refrigerator to keep your foods sweet and fresh; and the home-freezer that will quickly freeze meat, fruits and vegetables for out-of-season eating pleasure, and the automatic water heater for an abundance of hot water. And, all of these appliances may be operated with cheap electricity.

Blanchard is a native of Bishopville, S. C.

NATION TO OBSERVE BOY SCOUT WEEK

Nearly two million Boy Scouts, Cub Scouts, and their adult leaders throughout the United States will commemorate Boy Scout Week, which begins Friday, Feb. 8, and continues through Thursday, Feb. 14. The theme of the observance, which marks the 36th anniversary of the founding of the movement in America, is "Scouts of the World Building Together."

The Boy Scouts of America have created a "World Friendship Fund," and nearly two million members have been invited and urged to contribute voluntarily to it. Through the fund, Scout Associations in lands ravaged during World War II are being helped to rebuild their organizations. At the outbreak of the war in 1939 there were more than three million Scouts and leaders in 70 different lands.

Aid To Post-War World

Many Boy Scout Troops, Cub Packs, and Senior Scout Units will mark Boy Scout Week by contributing to the fund through local Boy Scout Councils. The National Executive of the Movement authorized the World Friendship Fund, believing it can make a definite contribution to the post-war world, since boys dedicated to the Scout ideals of tolerance, friendliness, and democracy, may be the leaders of the world of tomorrow.

Many Troops have contributed from the money earned by salvaging waste paper, while others have given the proceeds of special Scout entertainments. To make certain the greatest good is done with each dollar spent, the Boy Scouts of America secure the advice of the international Scout Bureau in London and has arranged with agencies of the Federal government at Washington to see that the Scout organizations actually get the help in the manner intended. The fund will continue as long as Scouting overseas needs aid for rebuilding.

Boy Scouts Mark 36th Anniversary

The Boy Scouts of the Philippines, for many years a part of the Boy Scouts of America, and now an independent association, has received a shipment of Scout supplies and \$12,500. Ten thousand dollars of the fund, earmarked for the Philippines, forms a memorial to the late General Theodore Roosevelt, a Vice President of the Boy Scouts of America at the time of his death in Normandy, who took a deep person-

al interest in the progress of Philippine Scouting while Governor General of the islands.

Help Through Literature

Thirty-seven shipments, mostly Scout literature, have been sent to 20 countries. The fund is making possible an international edition of value in every country. Much pictorial literature of the Boy Scouts of America is being made available, since little translation is needed. Since the printing of Scout manuals and other literature in foreign languages bring many problems, the Fund will arrange for photo-offset printing of copies of material sent from abroad.

MORE GRASS AFTER CULTIVATION

COLLEGE STATION.—Cultivation of pastures shows promise of increasing the production of forage from solid stands of bermuda and native bunch grass in established pastures and meadows, according to R. R. Lancaster, pasture specialist of the Texas A. and M. College Extension Service.

Experiments underway since the spring of 1941 at the U. S. Department of Agriculture Red Plains Conservation Experiment Station at Guthrie, Oklahoma, where grass sod was disked lightly every other year in March, caused an increase of 26 per cent in the yield of bermuda grass, he said. The same treatment resulted in an increase of 6 per cent in yields from native bunch grasses. The tests were made on thin or poor stands of grass. It was found that bermuda would respond to heavier disking than the common native grasses. Tillage seemed to prevent the grasses from dying in the center of the clumps and increased the decay of plant residue.

Even if the cultivation does not bring increased yields, the results of the Oklahoma experiments at least indicate that established pastures may be disked without injury before applying phosphate fertilizer and sowing seed," Lancaster said. "This is especially important since Texas farmers and ranchers are now applying large amounts of TVA and commercial phosphate to grassland."

Some women look like they had been poured into their dresses, and forgot to say "when."

Celotex board is a by-product of sugar cane.

SUMMER SESSION

AUSTIN.—The 1946 summer session of the University of Texas Law School has been lengthened to 14 weeks, with two terms of five and a half weeks each. The change will help veterans catch up on back studies.

Turkeys, mostly heavy toms, and chicken head the list of plentiful foods for December. Carrots, cabbage and white potatoes will also be plentiful.

Betcha more people get crooked from avoiding hard work than bent from too much of it.

ROUNDUP IN APRIL

AUSTIN.—The 17th annual University of Texas Round-Up has been scheduled for April 5, 6, and 7. The colorful Roundup parade will be held for the first time since 1941. Reunions will be held of the classes of 1886, 1896, 1901, 1911, 1916, 1921, 1926, 1931, 1936, and 1941.

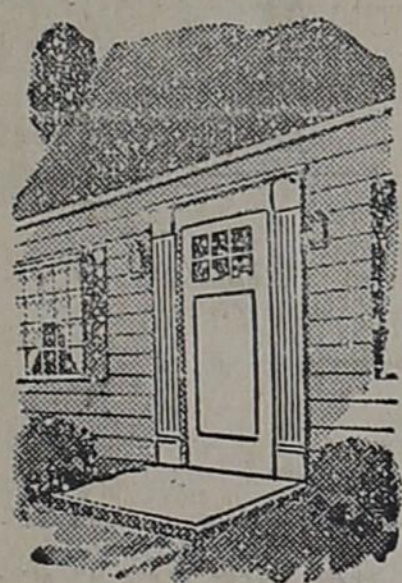

ONLY TWO FARMS

There are only two farms in Arlington County, Virginia. The farms have been converted into residential districts to take care of the population overflow from nearby Washington, D. C.

WE HAVE THE FOLLOWING TIRES IN STOCK

TRUCK

- 6.00-20 6 and 8 ply
- 6.50-20 6 and 8 ply
- 7.50-17 8 ply
- 7.00-20 8 and 10 ply
- 7.50-20 8 and 10 ply
- 8.25-20 10 ply
- 9.00-20 10 ply
- 10.00-20 10 ply

TRACTOR

- 4.00-9 13-24
- 4.00-15 11-36
- 5.00-15 11-38
- 7.50-18 14-28
- 10-28 14-30
- 11-28 12-38
- 13-24 4 and 6 ply 15-32
