

Last Preparations Made for School Openings

Preliminary Work Starts at Farwell

Preliminary activities at Farwell School get underway this week, with various student meetings, a teacher orientation period, and student registration, scheduled to take place prior to the opening of school, September 3, announces Jack Williams, superintendent.

First off, the girls who were contacted for PBX operators are to meet on Saturday, August 25, at 10 a. m. in the high school office. The girls are Betty Smart, Maggie Ervin, Pat Aldridge, Doris Rolland, and Phyllis Magness.

Also, Saturday at 10, the policy committee, which was appointed by students August 21, will meet for the purpose of discussing important matters before school officially opens. The committee includes Betty Smart, Pat Aldridge, Doris Harriman, Roland Hillock, Jerry Owen, John Herington, Leon Jamison, Preston Cain, Billy Smith, and Martha Smith.

On Monday, August 27, at 2 p. m. the Farwell School Board will meet.

The teacher orientation period will begin at 10 Wednesday morning, August 29, and continue until noon Thursday. At 1:30 on Thursday, August 30, all bus drivers will meet in the bus barn for an important general meeting.

Registration for classes will begin on Thursday at 2 p. m., with all freshmen registering in the cafeteria. Friday, August 31, at 9:30, all sophomores will register, and at 2 p. m., all juniors will register. Seniors will register at 9:30 a. m. on Saturday, September 1.

At the registration periods, assignments will be made, books checked out, and preparations will be completed to start school with a full day of classes on Monday, September 3. Grades one through eight will register on Monday, September 3, and begin regular class work.

Buses will not run for high school registration but will run their regular routes on Monday. Williams also announced that all students, who plan to eat in the cafeteria, must bring \$1.50 or \$6.00 on Monday, to pay for their lunches for one week or one month in advance.

"We are asking all students to report to school by 8:45 a. m. and not earlier than 8:30 this year. Please do not come to school before 8:30 a. m.," Williams says.

Baptist Revival to Begin Here Friday

A 10-day revival is scheduled to begin tomorrow (Friday) at the Texico Baptist Church, and continue through Sunday, September 2, announces Rev. C. C. Morgan, pastor.

Claude Farris, Jr., of North Hollywood, Calif., will be the evangelist and R. L. Douglas of Texico will be the song leader. The daily services start at 10 a. m. with a prayer service at 8 p. m., and the evening preaching set for 8:30.

A native of Carlsbad, N. M., Farris has pastored for eight years, three of which were at the First Baptist Church in Carlsbad. He took his education at the California Baptist Theological College and Seminary.

Prior to this, he served five years as a pilot in the United States Air Force, fifteen months of which he was a German prisoner. Farris was pilot of a B17 bomber and was shot down on his 19th mission, according to Rev. Morgan, and remained a prisoner until he was

liberated by the Russian army. "He is a man well-versed on world affairs," Rev. Morgan says.

Voters Approve Two Bond Issues

Of the 283 qualified voters in Farwell, 111 turned out Saturday to cast their ballots in the bond election, and two of the three issues called for in the election were approved.

The largest sum of the proposed \$30,000, was for the fire department and the voters gave their okay on the issuance of \$20,000 in bonds for this improvement by a 61-45 margin. This 16-vote difference was the largest of all three issues.

In regard to the issuance of \$5,500 in sewer system tax bonds, 54 voted in favor and 52 against. The \$4,500 item, earmarked for improvement of the privately-owned waterworks system went down to a 46-58 defeat.

A canvass of the votes by the City Commission was to have occurred this week before the commission

Texico Crash Fatal To Lubbock Man

A 1955 Chevrolet pickup collided with a transport truck in Texico Tuesday night, and as a result, James Ralph Gregston, 33, of Lubbock, died from injuries received in the accident.

The accident occurred about 8:30 p. m. in front of the Border Service Station, and Gregston, driver of the pickup, died five hours later in Clovis Memorial Hospital, where he had been taken by a Clovis ambulance.

Traveling east on Highway 60, the pickup crashed into the trailer of the auto transport, driven by James Newton, service station attendant. The collision occurred when Newton was circling the truck around on the highway in an effort to get in proper position to change the oil, after filling the truck with gas.

"An investigating officer stated that the driver of the truck was within his rights and no charges would be filed against the attendant," says Alton Berry, proprietor of the Border Service Station.

Damage to the Gregston vehicle was estimated at almost total, and it was not known how extensively the truck was damaged. Dale Miller, Texico, was reported to be owner of the truck.

Absentee Voting Totals 68

If absentee voting is any indication, voting will be as heavy in the August 25th Democratic Primary runoff as it was in the primary.

When absentee voting closed Tuesday of this week, 68 ballots had been cast in the county, five more than that in the Primary, July 28, according to Hugh Mosely, Parmer County clerk.

Steers Start Practice Monday

Around 40 boys are expected out for football this year in the Farwell Steers camp, as initial practices get underway Monday, August 27, according to Russell Young, coach. First session has been set for 7 a. m. Monday and the second session is scheduled for 7 in the evening.

Two workouts daily at the above times will be conducted during the first week, in an effort to have the Farwell team ready for its opening game with Melrose on September 7, Young says.

The Steers will have only two weeks of practice behind them as they take the field against the Buffaloes at Melrose. "We will be at somewhat of a handicap at the first game, as Melrose will have had one more week of practice," Young pointed out.

Under a conference ruling, Farwell cannot begin workouts until August 27th.

Asked about his prospects for the coming year, Young expected

the team to compare favorably with last year, although he points out that the district will be much tougher. The Steers go into Class A for the first time this year and will be in the 3-A conference with Springlake, Sudan, Friona, and Morton.

Nevertheless, the coach was somewhat optimistic about his team's chances, saying, "We have a pretty good bunch of boys and they might develop into a good ball club."

Making up the nucleus of the team will be 10 returning lettermen from last year. They include Roland Hillock, guard; Larry Cooper, center; Jerry Owens, guard; Preston Cain, tackle; Glynn Hardage, end; Derral Garner, end; Doug Hillock, a back last year, who will probably be converted into a tackle; Jerry Henson, back; Tommy Lovelace, quarterback; and David Willard, halfback.

Six starters lost via graduation last year were James Norton, Gerald Hardage, Eddie Smith, Troy

Christian, Truitt Hardage, and Dean Smith.

Squadmen returning, who Young expects quite a bit from this year, include Jerry Venable, Glynn McDorman, Johnny Gulley, Leon Jamison, Mitchell Walls, and Wayne Jesko.

Coming up from last year's freshman team will be Dickie Williams, Philip Berry, Leo Lemon, Johnny Lovelace, Gerald Christian, Mike McManigal, and Morris Reed.

Also, Young expects numerous new boys to report out for workouts this year.

As to which teams to expect the most from in the conference, the Farwell coach was of the opinion that Springlake and Sudan would be the toughest. Both squads were powerhouses last year and Young didn't see any change this year.

As for Friona, the neighbor to the northeast, he thought that they too, would be exceptionally strong. Friona lost only a few lettermen, and with a new coach, should be a

contender, according to Young.

Young did not know too much about the other member of the conference, Morton, the team which won only one ball game last year.

In regard to the practice sessions, two scrimmage games have been lined up, one for the A team and

Texico Students To Begin Monday

Final preparations are being made, the faculty is complete, and everything is set to go, as school gets underway at Texico School Monday, according to Agrie Jones, superintendent.

There will be no registration on Friday of this week, as was previously announced in the Tribune. Registration for the high school, which was not completed at the close of last year, will take place on Monday and all of the grade school will register and begin classes on that day, Jones says.

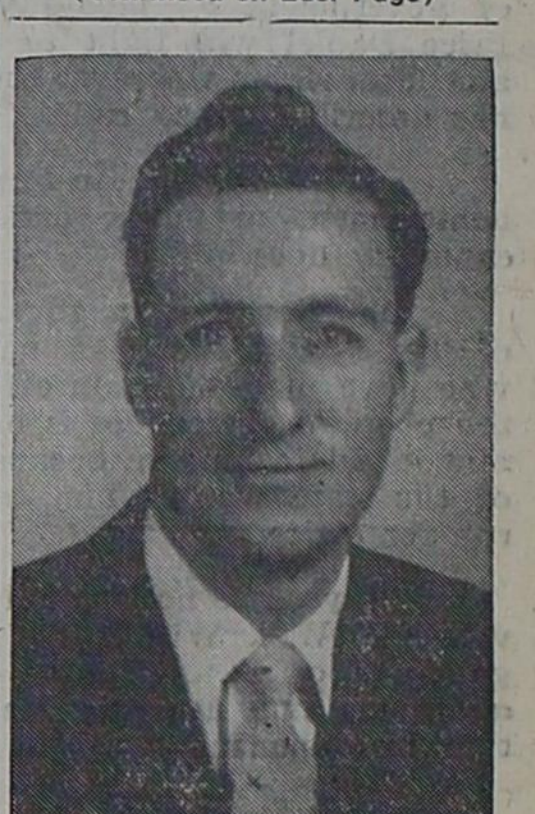

School busses will run at the regular time Monday morning and the first meal will be served in the school lunchroom. Although, classes will be started Monday, school will be dismissed at least an hour and a half early for the first faculty meeting of the year.

The faculty is now complete, following the hiring of Miss Juanita Caldwell of Norman, Okla. She is a graduate of Oklahoma University and will teach in the second grade, according to Jones.

The complete faculty and staff is as follows:

Jones; Paul Frederick, principal; Fred Danforth, elementary principal; Mrs. Agrie Jones, business education; John Adams, social science; C. B. Stockton, coach; Curtis Miller, science-coach; Mrs. Jimmie Allman, home economics; Tom Hudson, agriculture; Edward Choate, high school English; Mrs. Fred Danforth, eighth

grade; Mrs. B. A. Rogers, sixth grade; Mrs. N. W. Peyton, fifth grade; Mrs. Avis Patterson, fourth grade; Mrs. Frank Seale and Mrs. Curtis Miller; third grade; Mrs. (Continued on Last Page)

CHAMPS

This group of Texico-Farwell boys came out on top of the Parmer County Pony League, by defeating Friona Monday, 11-8, in a playoff game at Friona. Front row, left to right, are Teddy Roth, Larry Powell, Gary Dunlap, Benji Dial, and Vernon Thigpen. Back row, Carrol Huggins, Bill Thigpen, Owen Huffaker, Mike Hobbs, Jerry Lovelace, Tommy Williams, and Curtis Miller, coach. Huffaker and Hobbs are holding the trophy, presented by the Friona American Legion. Calvin Murray, also a coach during the regular season, was on vacation and not present at the Monday game.

Farwell Band Will Meet for Practice

Mrs. Erma Jobs, director of the music department at Farwell Schools, announces that band rehearsals will begin on Monday, August 27, at 5 o'clock p. m. at the music room in the new gymnasium.

Band members may report to the music room for uniform fitting at any time during the three registration days which include the afternoon of August 30, all day August 31, and the morning of September 1.

Pony League Team Wins Playoff Game

Texico-Farwell's entry to the Parmer County Pony League rolled to an 11-8 decision over Friona Monday afternoon at the Friona park in a playoff game. The win gave the Texico-Farwell lads the league title.

The two teams ended regular season play several weeks ago, each compiling a 4-1 record. The playoff game was scheduled immediately following regular season play, but various camps and boys gone on vacation caused the postponement.

The game was nip-and-tuck all the way, with Texico-Farwell jumping off to a 3-0 lead in the top half of the first inning, before Friona went ahead 4-3 in the bottom half of the inning.

Friona added one more run in the second and clung to their lead until the fourth, when the visiting team tallied four times, going ahead 7-5.

Friona pulled to within one run in the bottom half of the inning, but Texico-Farwell collected four runs in the top of the sixth to take a commanding lead.

Friona scored twice in the last of the sixth and with men on second and third were threatening to add more in the seventh, with only one away. A Friona lad was called out when hit by a fair ball while advancing home and the next batsman ground out to end the game.

Showing several streaks of wildness, but coming through in the clutches, Owen Huffaker pitched the win for Texico-Farwell. Massey went the distance for the losers.

# THE TRIBUNE'S EDITORIAL COMMENT

## It's Daniel Again

Price Daniel meets Ralph Yarborough in the Democratic run-off election Saturday of this week. Our vote will ride with the Texas junior senator.

Texas' only hope for a sound future lies in the conservative administration of the governor's office. And the only man with conservative thinking who is in Saturday's election is Price Daniel.

Rather than continue the spread of state and federal powers, and the growth of government by men instead of law, Price Daniel will fight to restore state and local rights wherever the constitution has described these rights.

Daniel is able. He has a record of achievement in public office. No other candidate does.

Daniel will be a governor for ALL of Texas—not simply a pawn of those who have placed him in office. Daniel is the people's choice. He is back in Texas and in this campaign because the people of the state wanted him to return and run for office.

Oh yes, we hope you'll remember to vote for Will Wilson in the attorney general's office. He is by far the best qualified, and deserves the office more than his opponent.

## The "Majority" Rules

Last Saturday, at the bond election in Farwell, citizens were asked to approve or disapprove an expenditure of \$30,000 to be used for city improvements.

There are 283 poll tax receipt holders in the community. That number plus the ones over 65 years of age, who would have received a free vote, were eligible to participate in the election.

When the final count was tabulated at the close of the election though, only 111 of that number had voted. One-third of those, who could have taken part in the election, had enough interest in the community to cast a ballot.

Also, only 61 of approximately 300 voters approved a \$20,000 expenditure and 54 approved a

\$5,500 issue. That makes 20 percent in favor of one and 18 percent in favor of the other. The majority rules under our system of government, but when is 20 percent a majority?

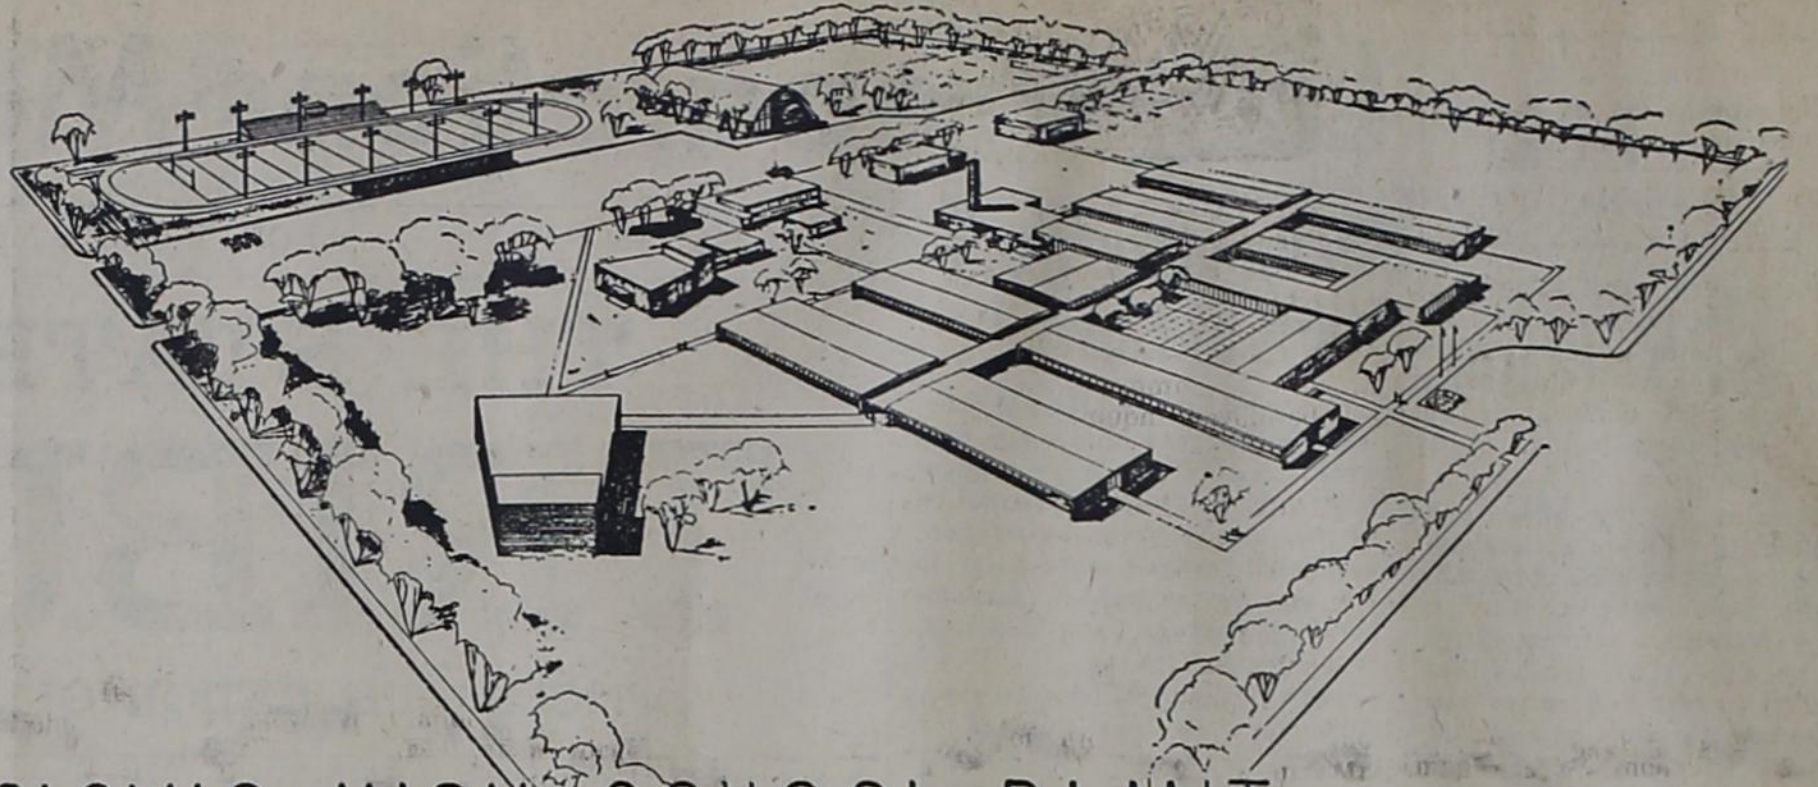

Maybe it was just a case of not knowing how to vote. This could have been the case since all of the issues of the bond election were not clearly defined. Perhaps some did not want to stand in the way of something that would benefit the community, and yet, they did not want to vote on something they did not understand.

We do not know if this was the case. While it probably was in some instances, we hardly think that this was the reason in most. Disinterest is more likely to be the reason.

How most people can stand idly by and let other people spend their money for them, is beyond us. The right to vote is one of the greatest privileges Americans have. To cast a vote is the one say-so a citizen has in the way his government is run. What the majority of the citizens want, is what all of them get.

However, the minority did decide that all of Farwell's citizens were to help foot the bill, \$25,500 worth of city improvements. And, since most of those who did turn out Saturday, did endorse two of the three issues, that's the way it will be, and it's okay with us.

Nevertheless, we'd feel better about it if the majority was deciding Farwell's future instead of just a handful.

One that we liked recently is included below.

WHY IS IT? Why is it that we always have to yawn when someone else does? . . . That unexpected company always arrives when one's hair is pinned up, the sink overflows with dishes and the house looks like the aftermath of a Texas tornado? . . . that when a cake is hoped to be especially light, it turns out to be heavier than an inebriate's head on New Year's Eve? . . . That in the presence of learned people we find ourselves commit-

ting such outlandish blunders as "we was," "I seen," and "It don't make no difference?" . . . That guests invariably sit in the one chair that is broken, get the one glass that is chipped, and fall over the one toy the kids failed to put away?

You tell me.

If we had a practice of naming the 10 best-dressed women in Texico-Farwell, Lura Rundell would be one of the top ones. And if you haven't seen the Rundells beautiful new home, you have missed a treat.

Nearly everyone in our family was making fun of our brother's short pants last visit we had with them, and in this case it wasn't envy. He kept telling us he wasn't interested in the beauty (ugh) of the limb, but in comfort.

HAPPY DAYS ARE HERE AGAIN

About this time last year we advertised a beautiful half section farm for sale at a tremendously depressed Republican price. There were no takers.

Now! Since the Chicago Convention and the assurance of a Democratic Victory in November insuring a better price for farm products, this farm has gone up \$50 per acre and I'll wager a big thick juicy Stevenson-Kefauver steak (which everybody will be eating again after Nov.) against two Eisenhower-Nixon Jack Rabbits "caught grazing in a Republican Soil Bank Patch" (a little thin but eatable); that this Farm will sell for the advanced price before January 1st.

However, we have a few pessimistic Democrats who still offer their farms at the Old Republican price, so it just might pay you big to look these over before election day.

Southwestern Public Service Company Sues New Record

Employees of the Southwestern Public Service Company have established a new all-company safety record of working 3,020,404 man-hours without a lost-time accident, it has been reported by A. R. Watson, executive vice president and general manager of the electric light and power company.

The new record, exceeding the old company standard of 3,019,075 man-hours, set in 1954, was reached at the end of the working day last Friday. However, a check of working time of all employees was necessary to verify the new accomplishment, and that check has just been completed.

"We are proud of the fact that we have set this new record, and that we are still adding to it. But records, in themselves, are merely the statistics that measure the accomplishments of individuals. The important fact about safety is that our employees are enthusiastic about it, interested in it, and have made it an integral part of their work. Everyone gains from safe working habits, our customers, our employees, and their families," Mr. Watson said, in announcing the safety accomplishment.

Southwestern Public Service Company employees have not had a disabling injury this year, the current accident-free period getting underway on November 3 of last year. Presently the company boasts the top safety record in the Southwest Personnel Exchange Group, made up of 14 electric light and power companies in the southwestern states.

The new safety record, and it continues unbroken and grows with the passing of every hour, is, in addition to being the company's best performance, the third longest accident-free period ever recorded by any light and power company.

## Style Show Nets \$100 For Local ESA Chapter

Like the leaves which will soon be changing to their colorful fall coats, so will the women of Texico-Farwell be changing to colorful fall and winter costumes.

The local chapter of ESA afforded women of the twin cities a look into what's new in style and fashion for this fall and winter at the ESA style show held Friday evening, August 17, at the Farwell School auditorium.

Coupled with the modeling of the "newest of new" for this year, was the presentation of fashions of days gone by. Clothes representing important eras, fashion-wise, were modeled as the audience marveled at the likeness in style of today's creations with those worn some years back.

Fern's of Farwell furnished the clothing for the present day styles, and various individuals were responsible for the showing of the older clothes.

Mrs. Clyde Magness was commentator for the event and Mrs. Erma Jobs was accompanist.

Participating in the musical program were Misses Jeanette Hughes, Pat Aldridge, Wilma Norton, Doris Harriman and Diane Lovelace.

ESA members report that the organization netted about \$100 from the show. This money will be used by ESA at Christmas time to play Santa for the kids of Texico-Farwell.

**Martin Landers Will Speak Here Sunday**

Guest speaker at the Lazbuddie Baptist Church on Sunday morning at 11 o'clock will be Martin W. Landers, assistant professor of speech at Wayland College in Plainview, announces Rev. C. K. Roberts, pastor of the Lazbuddie church.

Landers has been at Wayland since 1954 and has had a wide background in public speaking and

teaching speech, as a minister, a public school teacher, a debate coach and now as a college teacher.

He was graduated from East Central Teachers College in Ada, Okla., and after graduation taught several years in public schools in Oklahoma. During these years he was licensed and began preaching.

Landers holds the Masters of Religious Education and Bachelor of Divinity degrees from Southwestern Baptist Seminary. While studying at the Seminary, Landers took advanced courses in speech at Texas Christian University and served as assistant to Dr. Floy Barnard in religious drama at the Seminary.

At Wayland College, Landers heads the speech activities and coaches the debate team and other forensics.

Landers has served as Interim pastor at Trinity Baptist Church in Lubbock since coming to Wayland and has preached in many of the Panhandle Plains Baptist churches as evangelist and supply preacher.

Everyone is invited to hear Landers speak at the church Sunday, and members are especially urged to attend.

**Celebrates Birthday**

Clyde Redwine, son of Mr. and Mrs. J. C. Redwine, celebrated his 15th birthday with an ice cream and cake social on this past Sunday. Those attending were Mr. and Mrs. D. L. Redwine, Jerry and Connie Sue, Mr. and Mrs. J. L. Redwine, Nelda and Jackie, Mr. and Mrs. G. E. Redwine, Kenneth, Minnie, Charles, Wanda, and Jimmie, Mr. and Mrs. A. E. Redwine, Donna and Bobby, Mr. and Mrs. Raymond Houston, Marie and Eugene, and Alice Gordon.

**CUCUMBER TREE**—A cucumber tree is somewhat rare, but there is such a fruit-bearing tree in south Farwell. Here, Bill Quickel, son of Mr. and Mrs. Wilfred Quickel, displays one of the cucumbers he has just picked from the tree at the Quickel residence. There is one catch, however. A cucumber vine is growing beneath the tree and has wound its way up around the branches.

**Attend Reunion In Clovis Sunday**

Mrs. Perry Barnes and children attended a family get-together in the home of her son, Perry Barnes Jr. in Clovis on Sunday. Those who attended were Mr. and Mrs. Wesley Barnes and family, Mr. and Mrs. Joe Scott Menefee and children of Corpus Christi, Mr. and Mrs. Jimmie Seaton and family, Mr. and Mrs. Leslie Barnes and family of San Antonio;

Also, Mrs. Perry Barnes' sister and family, Mr. and Mrs. Lawson Edwards of Bovina and their married daughter, Mrs. Vera Stephenson of Clovis.

**Hunt-Littlefield Vows Read At Church**

In an impressive double-ring ceremony read recently by Denton Thompson, minister, at the Lazbuddie Church of Christ, Miss Wanda Jo Hunt, daughter of Mr. and Mrs. Frank Hunt of Lazbuddie, became the bride of Donald Dean Littlefield, son of Mr. and Mrs. John Littlefield, also of the Lazbuddie community.

The wedding setting was decorated with a large bouquet of white gladioli centered with pink and flanked on either side with potted ferns. Forming the background for the floral arrangement were two candelabras holding light-

the bride.

Following the ceremony a reception was held at the home of Mr. and Mrs. Max Steinbock. The couple was assisted in receiving the guests by other members of the wedding party.

The reception table was laid with ecru lace over pink and was centered with a tiered wedding cake.

After the reception, the couple left for a wedding trip to Red River, N. M. For going away the bride chose a beige suit with pink accessories. After returning from the trip, the newlyweds will be at home at Lazbuddie where the groom is engaged in farming.

The bride is a 1955 graduate of Lazbuddie High School and has completed a business course at Draughon's Business College. She has been employed at Reese Air Force Base near Lubbock.

The groom also attended Lazbuddie High School.

Mr. and Mrs. Joe Scott Menefee left Monday to return to their home in Corpus Christi after spending some time with their parents, Mr. and Mrs. W. S. Menefee and Mrs. Dixie Barnes.

**Missionary Speaks Here Wednesday**

Guest speaker at the Wednesday night prayer meeting of the Lazbuddie Baptist Church was Miss Letha Saunders, missionary to Brazil. Miss Saunders is on furlough at the present time and is living in Coleman, Tex.

Miss Saunders gave a very inspiring talk about her work with the Brazilian Baptist Convention, and displayed some very exquisite lace handwork which had been done by the Brazilian Indians. She left Thursday morning to go to Glorieta Baptist Assembly to be there for YWA week. She will be guest speaker at the District Nine WMU Camp on Thursday and Friday of this week at the District Nine encampment near Floydada.

Visiting in the Frank Hunt home last week and attending the wedding of their daughter, Wanda, were Mrs. Hunt's mother, Mrs. V. L. Beasley, Mrs. Duward Hollers and Mrs. Travis Hunt, all of Dallas, Mrs. Bill Hollers and children of Lubbock, and Mrs. W. J. Perryman of Petersburg.

## Wheat Acreage Sign-Up Dates Are September 3-21

Sign-ups for land to be placed in the 1957 wheat acreage reserve will be September 3 through September 21 in Parmer County, the ASC office announces this week.

Payment rates for wheat next year have been set at \$5.95 per acre for dryland, and \$11.90 per acre for irrigated wheat.

Planting cover crops of "almost anything but wheat" is permitted, but no grazing or harvesting of any crop on the land next year will be allowed, says Prentice Mills, office manager.

He added, however, that there is a possibility that the restriction on using wheat as a cover crop may be lifted at a meeting scheduled for August 28 in Lubbock.

Otherwise, farmers will still be able to take advantage of the ACP program available to help them establish cover crops with winter-time legumes.

Land that is placed in the acreage reserve must have been in wheat in at least one of the last four years. This acreage will not, however, be used as a deduction

in figuring farm history for establishing wheat allotment figures.

## County 4-H Girls To Have Bake Show

Miss Jimmie Lou Wainscott, Parmer County home demonstration agent, announces that a county 4-H Club bake show will be held at her office in the courthouse in Farwell on Saturday, September 8.

The show, which is open to all 4-H Club girls in the county, is usually held in conjunction with the county fair. Each county which plans to have an entrant in the district baking contest at the Tri-State Fair later in September, must have a county show to determine who is eligible for district.

Each girl entering the county contest must submit 12 bread muffins and 12 cookies for judging. The cookies may be of the drop, roll or ice box variety. There is no age limit on those entering, but each entrant must be a 4-H Club member.

Sharron Thorn of the Lazbuddie community won first place in district competition last year, according to Miss Wainscott. The county show drew 25 entries last year, but Miss Wainscott says that because there is to be no county fair this year, she doesn't expect to have that many entries.

## THE PARMER FARMER

Don't look now, but harvest—or the beginning of it—can't be too far away. Last week, both Lubbock and Lamb Counties gained their first bale of cotton.

Last week, also, Lamb County received its first load of 1956 mulo.

The fields in Parmer County are rapidly turning, and we'll be having some "firsts" of our own right away. Maybe this will be the earliest year on record. It could be.

The way to sell ourselves on the High Plains whenever we get to feeling that maybe things aren't so wonderful after all, is to talk with men of agriculture from other areas.

Most of them envy our resources. Huey Whitehurst, who is assistant to Dr. C. L. Lundell of the Texas Research Foundation, says that the irrigated High Plains is "undoubtedly the best farming part of Texas."

He didn't say so, but we also got the impression that he meant to say we have the best in the whole country.

Only the proper conservation methods for our soil and water will keep it that way, though.

Several more counties on the Plains have been declared "drouth disaster areas." Our neighbor to the east, Castro County, is one of them. How they figure Castro has received less rain than Parmer is a marvel to us.

Picking certain areas and classifying them for certain characteristics is often so arbitrary. Another illustration of how governmental selective processes can never be fair to all.

Hot news flash:

Mrs. Dave Moseley of Friona says that Friday, Saturday and Sunday (the 24th, 25, and 26) are THE days for killing unwanted perennials around the farm and home—especially Johnson grass and bindweed.

Start work on Friday afternoon, work all day Saturday, but let up by noon Sunday, she says. That's the time when the sign is in the heart of the Zodiac in August.

Now, we don't follow the signs very well, and this is all Greek to us. But Hugh, her son, says that they killed 80 acres of Johnson grass one year by doing their work according to the signs. Might try it.

## SOIL CONSERVATION DISTRICT NEWS

Ralph Waldo Emerson said it: "He who knows what sweets and virtues are in the ground, the waters, the plants, the heavens, and how to come at these enchantments, is the rich and royal man."

In looking over the district the last few weeks one thing has begun to be very noticeable. This is the fact that on our dry land, farmers who planted on the contour of the land have grain which will be cut where just across the road the farmer who planted up and down the hill won't cut a thing. The moisture conditions on the two fields were the same. Contour farming made the difference.

If you receive any rain you can hold it on the land by the use of contour rows or furrows. On up and down the hill rows, the water runs out the ends before it has time to go into the ground. The type of rains we receive in the summer are usually hard and fast and to get them in the ground we need to hold them there until they have time to go in.

Where possible this same thing is true with irrigated land. In most instances we lose all of our rain water on irrigated land along with the soil that is washed out of the field. We need to conserve both water and soil by taking the fall out of our rows.

Something to think about: Soil in the farmer's bank. It won't stand too many promissory notes.

T. R. Smallwood, who lives two and one-half miles south and two and one-half miles west of Clay's corner, is doing about 30 acres of bench leveling. He is doing this job with his own farm machinery.

The land is fairly flat to start with and he can make wide borders, whereas, if land is steep the borders have to be close together because of the yardage of dirt that has to be moved to make them level from side to side and from end to end. He plans to put this land to alfalfa.

## Gas Pressure Up Over County Again

Gas pressure was restored in practically all areas suffering from a decline in this service, last week as Pioneer Natural Gas Company pushed the fuel into the lines from Panhandle fields to the north.

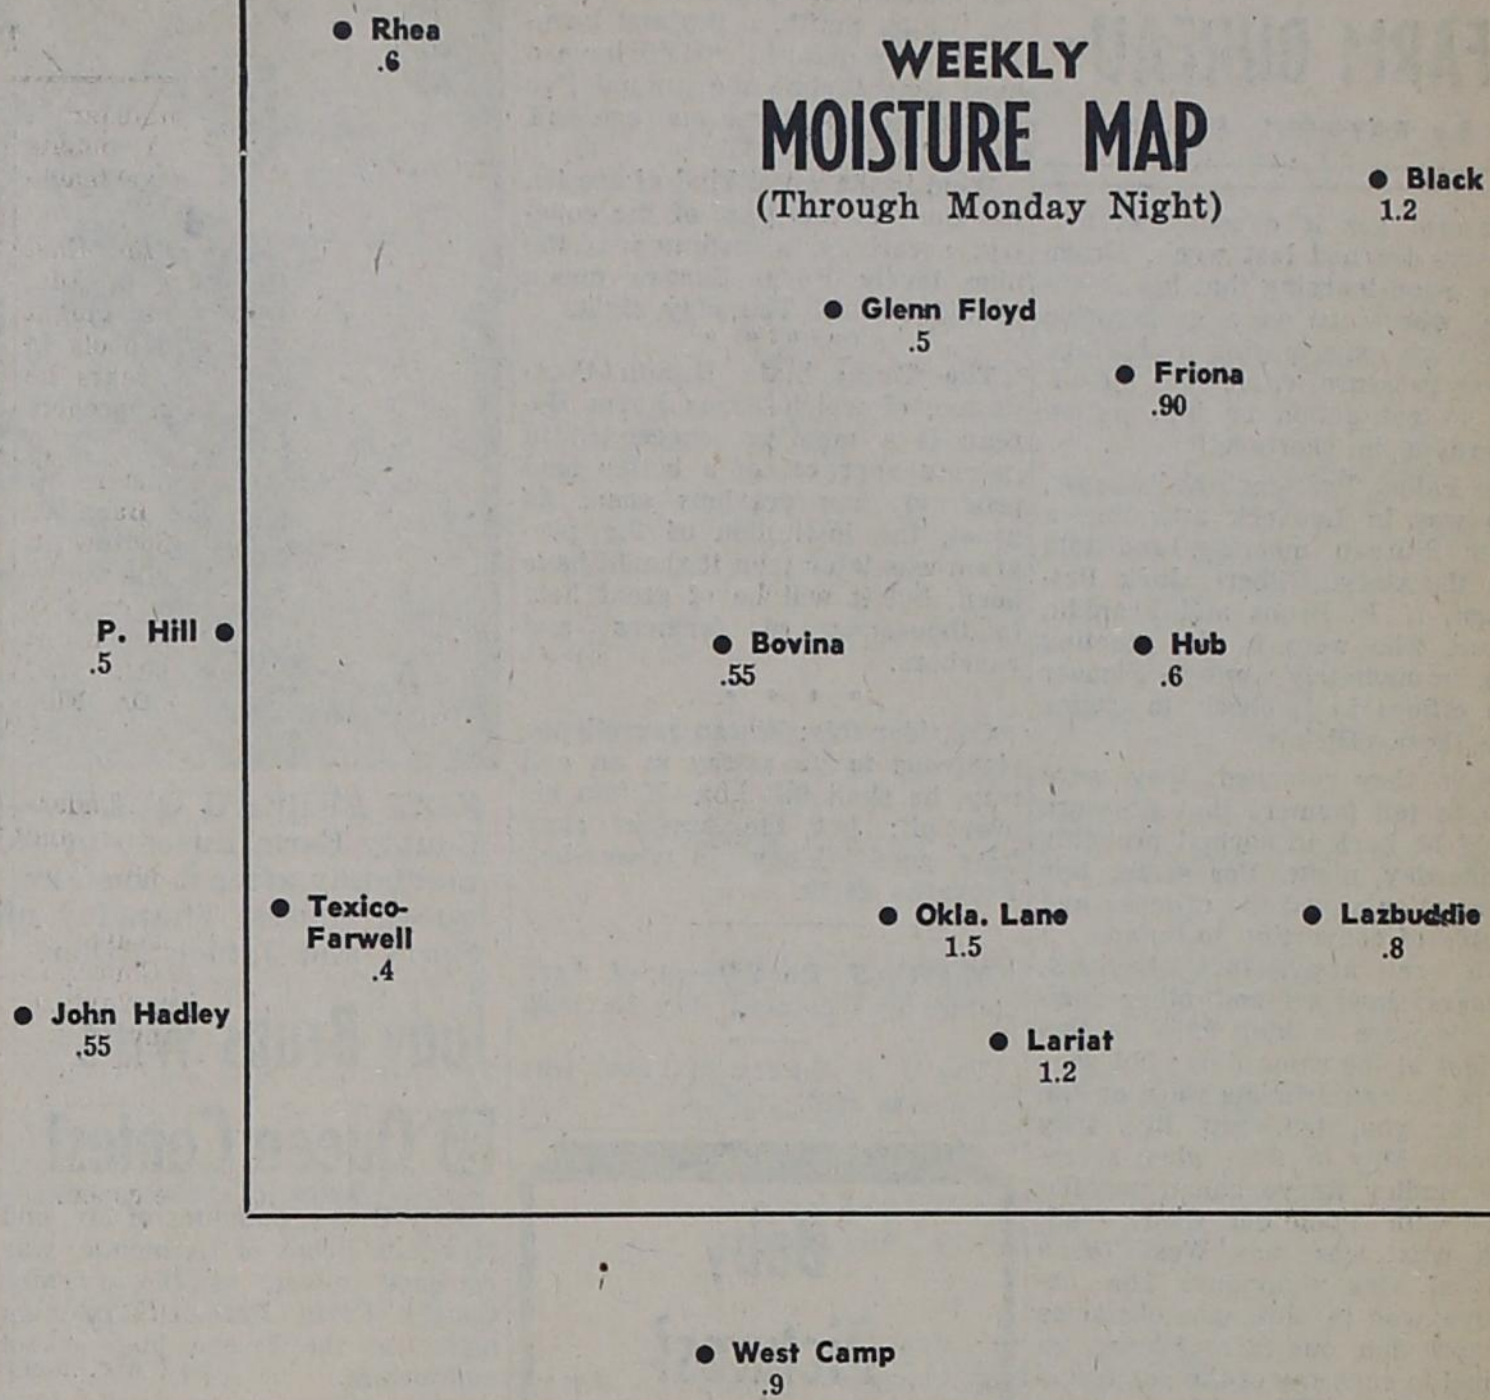

For several days—as long as a week north of Farwell—wells on some of the lines were either weaned down to a half pipe of water or less, or completely shut off by the shortage.

Irrigation farmers, in the middle of their critical watering period during hot summer days, were in a mad rush to restore service by any means possible.

A large number converted their wells to butane operation.

Pioneer Natural officials allayed fears that the gas would not be available until a higher price had been agreed upon between the consumers and the distribution company.

## WEEKLY MOISTURE MAP (Through Monday Night)

## THE H. D. AGENT'S CORNER

Jimmie Lou Wainscott

This past week and a half has been full of 4-H dress revue judging for me. On August 9 and 10, I judged the dress revue at Tulia and on the 14 I judged a revue at Progress. The Progress 4-H Club is the only active club in that county now that they are without a home demonstration agent.

Then, as sort of a climax, I helped Wanda Roach, County Home Demonstration Agent from Tahoka, judge the District 1 Dress Revue on August 16 and 17 at Amarillo.

Fifteen girls, representing as many counties, participated in the contest. To be eligible for this contest, each girl must have been a 4-H Club member for at least three years. She must be 14 years of age, must have been a high score winner in the county dress revue in her respective county and must have submitted her club records.

Parmer County could not enter a girl in the contest because no Parmer County girl has been in 4-H

Club work for three consecutive years. We will be able to send an entry next year.

Miss Nina Roberson, Extension Clothing Specialist from College Station, will spend next Monday and Tuesday, August 27 and 28, with me to help plan the county clothing program for the next year. High points of this program will be an advanced dressmaking workshop, a 4-H clothing workshop and a tailoring workshop which will be held in the fall of 1957.

I recently received the following bit of information from the foods specialist which I thought would be of interest to you.

Summer squash is a mild and modest vegetable. Some folks never appreciate its possibilities. It is easy to prepare, nutritious, tasty and low in calories.

It combines well with strong flavored foods such as onion, salty bacon and sharp cheese. It has a delicate sweetness of its own that emerges when it is merely steamed and lightly seasoned with salt, pepper and butter.

In young, tender squash that has not reached maturity, both skin and seeds are so tender that the whole squash may be cooked without peeling or wastage. Delicate flavor is lost if too much water is used in the boiling.

For all its lightness and deli-

cacy, squash is a good source of minerals and vitamins. And it's a wonderful "buy" in calories—only 17 to a half-cup serving.

Try this summer squash with bacon for variety:

### SUMMER SQUASH WITH BACON

- 2 pounds summer squash
1/4 cup boiling water
1 teaspoon salt
4 strips bacon
1 green pepper
2 medium onions
1/2 teaspoon ground black pepper

Wash and cut tender unpeeled summer squash into slices 1 inch thick. Place in saucepan with the boiling water and salt. Cover. Bring to boiling point. Cook until crisp-tender, about 15 minutes. Drain if necessary. In the meantime, fry 4 strips bacon until crisp. Remove from the pan. Pour off all fat except 2 tablespoons. Add green pepper and onions and saute until almost limp. Add drained squash and black pepper. Heat. Turn into serving dish. Crumble and sprinkle bacon over top. Serve hot.

## The Parmer County Implement Co. News

"The Place Where Most People Trade" Wednesday, August 22, 1956 Friona, Texas

About 30 women were present at the second meeting of Parmer County Community Hospital Auxiliary which met at the club house Friday. All women of Parmer County who are interested in the hospital and would be willing to do some volunteer work are asked to attend the next meeting which will be on Friday, September 14, at 3 o'clock at the club house.

No. 20 C. Field Harvester is guaranteed to cut your silage easier. Let us show you this fine cutter.

Goodyear tires give longer life and we will trade for your old tires. We have Goodyear tires for tractors, trucks, and cars.

You, too can afford an Oldsmobile. For style, comfort, and the long-run economy, drive America's finest car, Oldsmobile.

Friona merchants have big plans for the Golden Anniversary Celebration. The new hospital will have open house during the celebration and we hope you will make plans to be there.

Prepare for cotton harvest. I. H. cotton strippers do a better job on all types of cotton. Cleaner fields and better staple.

Preservation by freezing is a great labor saver for housewives. We have a big stock of the best freezer supplies.

Rule of thumb for cattle grazing—If they are on pasture between 10 a. m. and 3 p. m. the pasture is too short. They should get filled earlier and be resting. Use temporary grazing—Johnson grass or Sudan—and give the permanent pasture a rest. Rain, of course, would solve all the problems.

Mrs. Estelle Caffey has been attending a workshop for homemaking teachers in Lubbock. Mrs. Caffey says they are right-hy named workshops because classes begin at eight each morning and continue until 10 or 10:30 at night; then after supper students get their homework for the next day's "workshops." Mrs. Caffey teaches homemaking in the Friona schools.

Friona band students have already begun school. They meet each morning from 9 to 11 with their band instructor, Mr. Fry, for one hour of marching and one hour of band rehearsal.

Work has been finished on a new storage house for the school cafeteria. Located just back of the cafeteria, the storehouse will be a big help, not only to the cafeteria, but all the school. Now the cans and sacks of food, soap, etc., can be moved from the stage, closets, and rest rooms. The cafeteria is fast becoming one of Friona's biggest businesses. Last year more than five hundred lunches were served every school day.

Our parts department is one of the most complete in the Panhandle. For any I. H. parts call 2091.

To help farmers get the most out of their crops this year the Parmer County Pump Company has gone on 24-hour duty. This enables farmers to get the best service. Call 2201 or 5221 anytime.

Would you like to rid your fields of Johnson grass and bindweed? Apply sodium chlorate. Fall is the best time for getting a complete kill. We have sodium chlorate in large and small quantities.

We haven't any statistics but expect Friona is the only city with cotton in front of its office buildings. The cotton in front of the Mabry building should be good advertising—anyway it is good cotton.

John Agee of Lazbuddie is indeed a proud new grandfather. We heard that the fine new automobile he has purchased especially to take the baby home!

Visitor: Is it going to rain? Texan: Nobody predicts the weather in Texas but fools and newcomers.

Visitor: Oh! Are there any other kind of people here?

Corn picking will be easier and more economical with an International corn picker. Two-row mounted pickers snap corn off stalk without shelling.

The John Blackburns are going to start on their new home on the loop soon. The big trees east of O. J. Beene's house have been taken out and Mr. and Mrs. Casey Dunn will soon build a house on that lot.

The Parmer County Pump Company will give you a turnkey job on your irrigation well. Our customers are satisfied customers.

John Bill, our six-year-old, has been to Sunday School and was especially impressed with the lesson which was on sharing. That afternoon when he and our four-year-old David were fighting, Mother said, "John Bill, remember your Sunday School lesson on sharing?" and J. ## NEWS FROM THE FARM BUREAU

By RAYMOND EULER

Natural gas is expendable, too, farmers learned last week. Bruce Parr, upon learning that his neighbors, who were on a cooperative line, were experiencing a shortage of gas pressure, came into the office to get action or information regarding the shortage.

He called President Kaltwasser, who was in Lubbock attending a Farm Bureau meeting, and told him the story. Gilbert, Jack Patterson, L. F. Bruns and Franklin Bauer, who were in the meeting also, immediately went to Pioneer Gas offices in Lubbock to confer with those officials.

When they returned, they were able to tell farmers that pressure would be back to normal probably Wednesday night. For some, this information saved the expense and trouble of converting to butane.

We are aware that bankers, farmers, lawyers and other individuals were making calls on this subject at the same time; but your Farm Bureau officials were on the job for you, too, just like they were in May of 1952, when secretary Hadley Reeve began negotiations with President C. I. Wall, with what was then West Texas Natural Gas Company. The objective was to eliminate obstacles to more than one farmer being attached to each tap of the gas transmission lines. The objective was obtained before that summer was out.

At the Democratic convention, former Secretary of Agriculture Wickard was saying, we will do

thus and so "in order to regain ground lost during the Eisenhower administration," when TV spectator, Ralph Smith, a dryland farmer, quickly quipped, "He'll have a hard time finding the ground I've lost in the last three and one half years."

Wind is the worst kind of erosion we know in this part of the country, according to testimony of the nine lovely Farm Bureau queen candidates last Thursday night.

The Texas State Drouth Committee, of which Texas Farm Bureau is a member, succeeded in gaining approval of a better feed program than previous ones. As usual, the institution of the program was later than it should have been, but it will be of great help to thousands of farmers and ranchers.

Consider this: Whoso causeth the righteous to go astray in an evil way, he shall fall himself into his own pit; but the upright shall have good things in possession. Proverbs 28:10.

The U. S. Department of Agriculture was created May 15, 1862.

The U. S. Bureau of Labor was created in 1884.

**NEW BUREAU QUEEN**—Gilbert Kaltwasser, Parmer County Farm Bureau president, crowns Judy Bruns immediately after it was announced she was winner of the queen contest Thursday night. Other entries are Ellen Berry and Janice Miller.

## Judy Bruns Wins FB Queen Contest

Judy Bruns, daughter of Mr. and Mrs. Les Bruns of Lazbuddie, was crowned queen of the Parmer County Farm Bureau Thursday night at the Friona high school auditorium.

Miss Bruns will represent the county farm organization at the district meeting which will be held in about three weeks. From there, if she is a winner, it will be possible for her to go to the state contest.

A girl from Castro County won state last year.

About 100 persons were on hand to watch the judging last week. It was the fourth annual Bureau contest stressing beauty, personality, and other desirable traits.

Judging was Howell Mayfield, assistant KGNC farm editor. Other contestants were Jeanette Hughes, Donna Miller, Helen Hamilton, Paula Neel, Beverly Roberts, Ellen Berry, and Janice Miller.

Miss Bruns was sponsored by Galloway Implement Company of Friona.

## Soil Bank Payments About \$100,000 In Parmer County

Payments for the 1956 portion of the soil bank plan known as the acreage reserve will amount to about \$100,000 in Parmer County. This announcement comes from the ASC office.

Manager Prentice Mills says that a total of 13,666 acres of wheat land was placed in the program this year. Payments for that acreage will total \$77,619.

In the case of cotton, 298.1 acres were filed in the reserve, and \$21,055.60 will be paid out for this act by county farmers. Agreements in both cases have totaled 201.

Payments are expected to be made starting shortly after September 1, according to Mills.

## County-Wide Picnic To Be August 31

All Parmer County home demonstration club members are reminded of the county-wide picnic to be held for all HD club members and their families at the city park in Bovina on Friday night, August 31.

Each family is to bring its own picnic supper. The social get-together is for all home demonstration club members and their families. An evening of visiting and getting acquainted will be enjoyed.

## Banquet Postponed But Tour Is Sept. 13

Supervisors of the Parmer County Soil Conservation District met Monday in Farwell. They set the date for the annual SCD tour on September 13, and also postponed the annual banquet, which had been scheduled for Thursday, September 20.

During the tour this year, visitors will be taken on a tour of county farms. Among other things, they will see hybrid grain sorghum in production, check over fertilized fields, view bindweed control methods, and inspect district equipment.

The banquet, which comes at the end of the SCD week in Parmer County, was scratched by the supervisors because of a conflict with the 50th Anniversary Celebration in Friona.

It has not been rescheduled yet.

## Agricultural Exhibit Planned for County

Parmer County is one of 14 counties which will have a county agricultural exhibit at the Panhandle-South Plains Fair September 24-29, announces Superintendent Lowell D. Richardson.

The county's entry was submitted by County Agent Joe Jones. Each county entering booths in the agricultural show automatically receives a \$50 participation award, providing the quality of the booths is educational in nature and acceptable to the officials of the agriculture department.

Purpose of the agriculture building exhibits is to be a "Show Window" of South Plains agriculture, and only deserving exhibits will be paid the award.

## THE HAPPY HOMEMAKER

We have spent many happy hours looking at plans of new homes. No doubt many other homemakers have done the same thing. Just wonder if there is as much satisfaction in planning and building a new home as it seems like there should be?

Just about every floor plan we look at has a lot of new features about it that sound interesting. Just this week we saw a picture of a combination bath-laundry room. Now, wouldn't it be wonderful to have an automatic laundry combined with the bathroom?

After thinking about it, it sounds like such a logical thing to do that it is a wonder someone didn't think of it long before now. Now we will be watching for a floor plan that uses the idea.

If you have served green beans until almost no one will eat them prepared in the conventional manner, here's an idea you might like to try. Fry a medium sized onion in bacon drippings, add pre-cooked green beans and tomato juice.

This must have been a good year for sandhill plums. So many homemakers with whom we have talked recently have canned plums or made jelly. There just isn't anything we like better than jelly made from the juice of wild plums.

Do any of you readers have a recipe for cantaloupe conserve? It seems that we have either seen a recipe or heard about one, but don't know how to even begin to make it. Someone remarked recently that cantaloupe was much better than watermelon or pie-melon preserves. Sure wish someone would send a recipe.

One of our aunts, who is a wonderful cook, makes a lot of angel food cakes for special occasions. She uses a small amount of cold drink powder to add color and flavor to her cakes. It gives them a wonderful flavor and colors them to fit the decorative scheme of whatever party they are baked for.

It isn't too early to start those homemade gifts you plan to make for Christmas gifts each year. Read somewhere that it was only 130 days until Christmas. It might be a good idea to get out all those ideas you clipped last fall that you wanted to use. Then after deciding which ones you especially want to use, get busy on them. Then discard the rest.

One article we read recently suggested that mothers of little girls who were going to school for the first time should give some thought to making school dresses. According to the author, first grade teachers would have more time for the children's education if there were less frills on the little girls' dresses.

Lauretta Brookfield gave us a very good recipe for apple crisp. It is delicious if made with fresh apples, but canned ones will do. The ingredients are 1 No. 2 can sliced pie apples, 1/2 cup water, 1 teaspoon cinnamon, 1/4 teaspoon

nutmeg, 1 teaspoon lemon juice, 1/2 cup butter, 1 cup sugar and 3/4 cup flour.

Place apples in greased baking dish. Sprinkle with spices, add water and lemon juice. Mix sugar, butter and flour and spread over apples. Bake uncovered until apples are well cooked. May be served with whipped cream.

We have heard of a mock apple pie. It is made without any fruit but tastes like apple pie. If we can secure the recipe, we will share it with you real soon.

Two of the arts that every homemaker used to be proud of that have almost disappeared are churning and piecing quilts. How many of you who live on farms still make your own butter? One homemaker that we know who still churns is Eva Miller.

She dropped a hint to us one day last week that might be helpful to those of you who churn your own butter, then freeze it for future

use. Butter keeps its flavor better if salted with just plain salt that has not been iodized.

Deaths have been numerous over the state during the past weeks from lightning. The Texas Farm and Ranch Safety Council offers this advice, "Why take chances when the weather is acting up, it's far better to lose a few hours work than a life. And the life you save may be your own."
