

LEARN SHOOTING IS OVER . . . Pvt. Louis Novelli, left, Mocanaqua, Pa., and T/Sgt. Charles Cahill, Rumford, Me., both wheel chair patients at Halloran general hospital, Staten Island, N. Y., read about President Truman's proclamation declaring cessation of hostilities of World War II, as of noon, December 31. Nurse Veronica Saladigo looks on as wounded vets read about the order which immediately wiped off the statute books 18 emergency laws.

Tax Collections Here About Even Keel

Tax collections for the year 1946 are about on an even keel with previous years, it was revealed at the office of the County Tax Collector here this week.

Mrs. Bess Mansfield, deputy collector, said that collections as of now show a variance of less than one hundred dollars over payments in previous years. Most of the larger corporations of the county make their tax payments during the month of October, in order to save a 3 per cent discount on State taxes, and this practice was followed in payment of current taxes, she explained, adding that most individuals begin paying their current assessment during the month of January.

Attention was called to the fact that on January 31, all unpaid taxes become delinquent, after which time a penalty of 1 per cent, plus interest at the rate of 1 per cent, is added. This interest and penalty increases each month so long as the taxes remain delinquent. On July 1st extra penalty of 3 per cent goes on all delinquencies.

Turning to the matter of poll taxes, the records reveal that to date only 840 poll tax receipts have been paid through the local Collector's office. This number, it was added, is about the usual number of polls for this time of year.

Since 1947 is an off election year, the polls are not expected to approach limit figures of around 1600. Generally, it was stated, off election years, yield a poll tax payment of "around 1200." In official circles, however, voters were reminded that "you never can tell what will happen", observing that several elections of vast importance might be on the calendar before the year is over. As an example, it was pointed out that several proposed Constitutional amendments are likely to be submitted to the voters in August of this year. Furthermore, for example, there is a special election in Bovina this month when the voters will vote on the problem of incorporating the town.

Poll tax receipts are required of voters to participate in all such elections, officials stated.

Harry J. Charles Is Paralysis Victim

Harry J. Charles, farmer of the Bovina community, and son of Mr. and Mrs. Wilbur Charles, who was removed to a hospital at Chillicothe, Texas, the later part of last week, has definitely been announced as a polio sufferer, it was learned here on Tuesday.

Information here is to the effect that he has lost use of both hands and arms, and his physician believes it will be year before he recovers from the paralytic condition. Charles had been ill a month before being removed to a hospital.

County Agent Assumes Duties Feb. 1

County Faces Deficit In Paralysis Fund

16 Teams Entered In Bovina Tournament

A least 16 teams—both boys and girls—will participate in an invitation basketball tournament at the Bovina High school, starting at 6 p. m. Thursday of this week, and concluding Saturday night.

Brackets have been drawn for eight boys' contests and a like number of girls' games, with Bovina entering four teams to complete the brackets. Bovina is entering two B teams.

The following schools will be represented: Bovina, boys and girls; Field, girls; Vega, boys and girls; Oklahoma Lane, boys and girls; Muleshoe, boys and girls; Lazbuddy, boys and girls; Farwell, boys and girls; and Dimmitt, girls.

The first game of the tournament will get underway at 6 p. m. Thursday when Field and Vega boys meet. Next the Bovina B boys will take on the Muleshoe boys, to be followed by the contest between the Dimmitt and Field girls. At nine o'clock, the Farwell and Muleshoe girls will square off for the final game of the evening.

The curtain-raiser on Friday, starting at 6 p. m., will be between the Bovina B girls and the Lazbuddy lassies. After that contest, the Farwell and Lazbuddy boys will take the court, to be followed by a girls' game between Bovina and Oklahoma Lane. The Bovina boys will take on the Oklahoma Lane aggregation for the concluding game of the evening.

Starting at 10 a. m. Saturday the quarter-finals will get under way with the winner of the Farwell-Muleshoe girls' taking on the winner of the Bovina-Oklahoma Lane contest. At 11 a. m. Saturday, the winner of the Dimmitt-Field girls' game will meet the winner of the Bovina B-Lazbuddy game.

At two o'clock p. m., the semi-finals will get under way with the winner of the Bovina-Oklahoma Lane boys' game squaring off with the winner of the Field-Vega game. At three o'clock, winners of the Bovina B-Muleshoe boys' game will meet the high pointers of the Lazbuddy-Farwell go.

Only two games will remain on the bracket for Saturday night in the finals, scheduled to get under way at 8 p. m. The girls' final will take the floor first and this game will be followed immediately when the remaining teams in the boys division take to the court.

C. D. Holmes of Friona, and Chas. Fisher of Clovis, will be the officials at all games.

Two New Busses For Texico School

T. B. Allen, who recently was given the contract for transporting students to and from the Texico school placed two new Ford school buses on the routes Tuesday morning, and said that he expected to have another new bus within the next few weeks.

The new buses have a passenger capacity of 35 each and are equipped with Wayne bodies. They displace Chevrolet buses that have been in use for the past 12 years.

Auto License Plates Not On Sale Yet

Faced with the problem of numerous requests for the 1947 auto license plates, attaches at the Tax Collector's office today called attention to the fact that the new plates were not on sale as yet, and would not be available before March 1st.

The new 1947 plates have not as yet been received at the local Collector's Office, it was announced. Most states require that the new license plates be displayed on Jan. 1st of each year, but this is not the case in Texas, the announcement said.

The new Texas plates will not go on sale until March 1st, and they must be properly attached by April 1st.

Some people never forget a favor if it's done for you.

Hopes Better For Diogenes

Mrs. Mike Tarantola, teacher at the Farwell schools, will verify that Diogenes' hopes for finding an honest man seem to be improving.

It seems that last September, when in Olympia, Washington Mrs. Tarantola lost her hand bag. When she moved to Weatherford, Texas, months afterwards, she received word that her missing purse had turned up at the Red Cross in Seattle. She hasn't the slightest idea how it got there, but Monday of this week, it finally arrived—with all contents intact—after a long and exciting time away from home. How's that for honesty?

Lad Given Two Years In Reformatory

Guy P. Smith, 18-year-old lad of Amarillo, was given a two year sentence in the State Reform School at Gatesville by District Judge Harry Schultz in Parmer County District Court here Monday, following his plea of guilty to a charge of burglary.

Judge Schultz expressed his regrets in having to sentence the lad, but since he was already on parole for a felony from another county, the law automatically precluded giving the defendant a suspended sentence.

The Parmer County Grand Jury, in session here Monday morning, returned an indictment against the lad, who has been in custody since being arrested last fall. He was indicted for his part in burglarizing the McCuan service station at Bovina on the night of October 27, 1946. Two other lads were implicated in the burglary, but officers here said they were delivered to Potter County officials, where they are understood to have been sentenced to the reformatory for car theft.

OPEN AUCTION RING

Chnton Jackson and Tom Parker of Hereford were here Monday and stated that they had recently opened an auction sales barn at Hereford. They said that the business, opened only a month, had made a good growth and was showing great possibilities. B. B. Northcutt and John Hutchinson are associates in the new business.

NEW BUSINESS

T. O. Barnes announced the opening of a plumbing and repair shop. Mr. Barnes will repair all makes of washing machines. He will also stock parts for Maytags and other makes of washing machines. The building is being remodeled, and Barnes is setting up the shop in readiness for business.

Mr. Barnes owns the local Home Laundry, having it leased at the present time.

NO IMPROVEMENT

The condition of B. E. (Uncle Benny) Nobles, 89, who has been quite sick the past several weeks, has shown no improvement the past week. Family members are inclined to believe that he is gradually growing weaker. He has been in a semi-conscious condition the past week.

MID TERM SEMESTER

Supt. B. A. Rogers of the Texico school announced today that all teachers and students are very busy at present, with the mid-term examinations, getting out report cards and calculating grades. He says they are getting ready to start the new semester.

ERROR ACKNOWLEDGED

The State Line Tribune acknowledges an error in reporting last week a suit for divorce had been filed by Chester Cranfill against Bertha Cranfill.

Parmer County will have a special obligation and a definite responsibility in making a substantial offering to the March of Dimes campaign during the remaining days of January, it was revealed here today by B. N. Graham, chairman of the Infantile Paralysis Fund in this county.

Graham said that during the year 1946, this county had actually received more cash benefits from the National Foundation than had been subscribed locally. Furthermore, he pointed out, Parmer County has an unpaid balance of \$530.52, due a Plainview clinic for services to two polio victims of this county.

He said that during the past year, two polio patients—Joe Talley and Chas. Guinn—had received treatment at Plainview for a total bill of \$978.25. The National Foundation has contributed \$950.00 to the Parmer County fund the past year, which was about double the amount raised here last year.

In revealing these figures, the County Chairman stressed the importance of large contributions this year, stressing the fact that "We have already received more benefits from the Fund than we have paid out."

He said that workers would be named in each community in the county to receive contributions, and these workers will be named next week. The drive opens on January 15 and will close on January 31.

Contributions made to the March of Dimes last year were released by Mr. Graham as follows:

Eastern Star	11.50
Farwell School	100.23
Farwell Athletic	153.04
Town of Bovina	45.91
Parmer Co. Shriners	78.00
Mrs. Chas. Schlenker	2.00
Lazbuddy Com. Club	10.00
Okl. Lane M. E. Church	6.00
H. C. Jackson	5.00
Regal Theatre	39.50

With the exception of the contribution made by the Regal Theatre, one half of the amounts were retained in the County Fund. The theatre money was sent direct to the National Foundation, Graham said.

No Developments In School Buildings

There are no new developments this week in the matter of securing a building from the old Prisoner of War camp at Hereford for the Texico school, Rupert Paul, president of the Texico school board announced today.

Paul said he had wired the Dallas War Assets Administration office regarding delivery of the building and he was advised that the formal notice from Washington, awarding the building to the Texico school, had not been received in Dallas.

Paul said that the Texico school officials were ready to entertain the purchase of the surplus building as soon as they were definitely notified that the building had been awarded the local school and the price of the same.

The Parmer county unit of the Texas State Teachers Association will meet Wednesday evening January 15, in the Home Economics building.

Drunken Drivers Due Special Attention In District Court

"In my opinion, driving an automobile while intoxicated constitutes one of our greatest menaces to public safety . . . and the only way we can combat this evil is for grand juries and petit juries to do their duty."

So stated District Judge Harry Schultz in his first charge to a grand jury since taking office on January 1st, when he empaneled the Parmer County Grand Jury here Monday morning. Judge Schultz went on to say that while the Texas laws classify drunken drivers as misdemeanor cases, punishable only by fine or jail sentence, it was his personal opinion that such cases should be classified as felonies, and he called upon the jurymen to make investigations of any drunken driver cases that might be reported to them.

Ollie Liner, at present employed as assistant County Agent in Hale County, has been employed by the Parmer County Commissioners Court, in co-operation with the Extension Service, as the new County Agent to succeed Lee H. McElroy, who resigned the first of the year to go to Terry County, where he has taken over like duties there.

Liner, who met with the Commissioners on Monday, announced that he would begin his duties here on February 1st. He is 27 years old and single. Prior to entering the armed services, he was employed as Assistant Agent in Hale County, and upon being discharged, he returned to his old job.

The Court set his starting salary at \$1,500 per year, and he will receive a supplementary salary from the Extension Service.

Other Business

Other business attended by the Court in one of the busiest sessions in recent months included the approval of bonds for the various county officers who assumed office on January 1st, and the payment of current bills.

The Friona State Bank was named county depository for county funds, including the school fund. It was further agreed that the county officials would continue on the fee basis for the coming year the same as in previous recent years.

Wheat Reviving After Severe Freeze-Out

Parmer County wheat fields were reviving this week much to the delight of cattlemen who are pasturing thousands of head of cattle on wheat pasturage.

Wheat fields over the county suffered a freeze-down during the sub-zero weather of two weeks ago, rendering them of little value for grazing purposes with the result that cattle had to have supplementary feed. The warm weather of the past few days and the moisture received from the 4½ inch snow has stimulated the growth to where fields are affording good grazing for the livestock again.

Most stockmen plan to remove the cattle from the wheat shortly after the middle of February to allow the wheat to grow up and afford a protection against wind damages.

OPENS REALTY OFFICE

O. W. Rhineheart, former oil and gas dealer of Bovina, announced this week that he was opening a real estate office in Bovina in the Potts building just west of the Bovina Hotel. At present, he said, he is dealing in real estate sales and rentals, but planned to offer a complete insurance and loan business in the near future.

Williams Announces Reduction Sale

The Williams Mercantile Company of Bovina, is this week announcing a stock reduction sale of all winter merchandise, with the sale booked to open Friday, January 17th.

In order to close out the fall and winter lines, drastic price reductions have been put in effect throughout the store. Attention is directed to their advertisement in this issue of The Tribune.

Drunken Drivers Due Special Attention In District Court

Judge Schultz went a step further in reminding the jurors that they should not confine their investigations to reports that might come to them from outside sources, but added, "If any of you men know of any violations, you should give that information to the grand jury for investigation."

The grand jury recessed at noon Monday after returning one indictment and Judge Schultz excused the jurors until further call. They are subject to call anytime during the next six months.

Court was recessed Monday and Judge Schultz went from here to Hereford to preside over a court session there. He indicated that he would likely return here in February for a session of the district court.

Great Plains Feed Scarce

MANHATTAN, Kan. — Report of the Great Plains Agricultural Council comprising 402 counties in ten states shows that protein forage feed supplies will be adequate to meet needs of livestock in 131 of the total number of counties surveyed. In 266 counties these supplies will be inadequate.

Carbonaceous forage feed supplies will be sufficient in 258 of the 402 counties and inadequate in 125. In 1945, these feed supplies were reported as being insufficient in only eighty-five counties. Grain feed supplies will be adequate in 204 of the 402 counties, inadequate in 145, and in excess of needs in fifty-two counties. Deficient grain feed supplies occur primarily in Kansas, New Mexico, Oklahoma and Texas.

Protein concentrate needs will be somewhat less than a year ago probably due to an abundance of wheat pasture in the central and southern portions of the Great Plains.

Reduction of flocks and herds will be greater than normal in 179 coun-

ties of the 402. Apparently greatest reduction has been in Texas, New Mexico, Kansas, Nebraska and North Dakota due to two factors—first, lack of feed supplies in the southern Great Plains during the midsummer period and failure to produce adequate feed supplies, and second, increased price being paid for live-

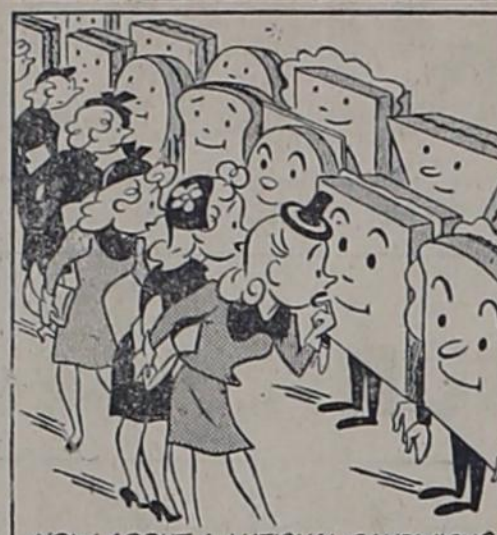

Protein concentrate needs will be more adequately met than they were last year in 139 counties. This indicates some improvement, the council reports, compared with a year ago, but still indicates a rather serious situation, especially on the western ranges.

There seems to be a definite feeling in some sections of the Southwest and of the western portion of the other states in the region that protein needs will not be met and that if we have a severe winter, lack of protein concentrates will prove serious.

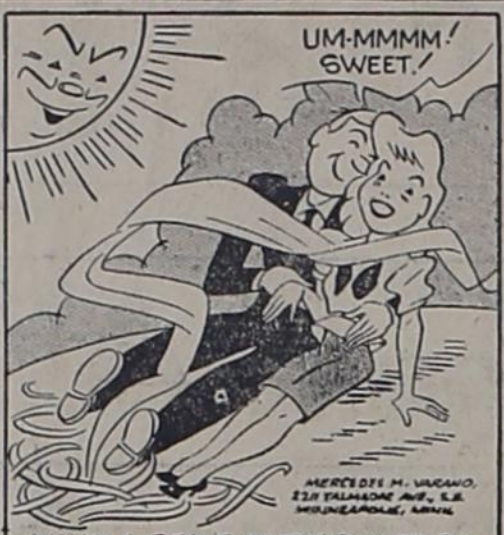

NO VACATIONS

BELEN, BRAZIL—Living expenses in this northern Brazillian city have risen so high that even the gravediggers are asking an increase in pay. In their petition for better working hours and more money, they complained that they could take no vacation and should be reimbursed for this and for holiday work.

Increased Enrollment Expected At Tech

LUBBOCK — Enrollment at Texas Technological College will increase during the spring semester from the present record of 5366 to as many as 6000, officials predicted this week.

Students who plan entering Tech for the first time this spring may complete preregistration steps any time between Jan. 23 and 29, but dormitory rooms will not be available until Jan. 27 for those who have reservations.

In order to give priority to those now enrolled, pre-registrations for these students only will be held Jan. 13 to 17. Pre-registration includes getting housing approval and paying fees. Classes will be scheduled for all students on Jan. 29 and 30, and classes will begin the following day.

Rooms in Lubbock will be somewhat easier to find this spring than they were during the fall semester, according to present indications, as the result of an intensive campaign on the part of the college to get more persons to open their homes to Tech students. Barracks space at the former Lubbock Army Air Field will be available as permanent or temporary quarters for as many as 50 men, and a few additional apartments will be available there Jan. 20, according to spokesmen for the housing authority of the city of Lubbock.

Synthetic resins and other plastic substances are expected to have a revolutionary effect upon the paint industry as soon as sufficient raw materials are available for full-scale production. Brighter colors, longer wear and easier application are promised for paints, enamels, and lacquers.

Interesting Instruments

Relax, the young lady's only kidding. She isn't going to "shoot" you. That gadget you think is a camera is a special current transformer, important accessory in taking pictures of electric current in heavy concentrations. In action, the "camera" has a heavy current cable running through the hole which resembles a lens. The instrument not only makes possible an accurate reading of the current but protection for the electrical circuit and any associated devices.

You've read a lot about Geiger counters and tubes since Hiroshima, Nagasaki and Bikini. Here's one of the first pictures of the electronic wonder tube—heart of the counter, atomic watchdog that registers even the feeblest radiation to warn mankind of the presence of deadly radioactivity. The "stop" light for atomic researchers, a product of the electrical manufacturing industry, the tube also has been put to work in a Geiger counter X-ray spectrometer, new industrial analysis instrument.

Ford To Offer Cheaper Auto

BOSTON, Mass.—The Ford Motor Company will produce a completely new low-priced automobile in 1948 that will be the greatest change since the introduction of the Model A, John R. Davis, vice-president of the company, said Saturday.

The new vehicle will be lighter in weight and cost less than the present-day Ford, Davis added.

WORMS MAKE MONEY

SOUTHWESTERN PUBLIC SERVICE COMPANY

22 YEARS OF GOOD CITIZENSHIP AND PUBLIC SERVICE

Health Notes

By Texas Department of Health

Austin, Texas — Pellagra, although not a communicable disease, is one of great concern to public health officials in Texas many people die of pellagra in this state every year. The disease is caused by the lack of certain essential foods, and as it comes on slowly may not be recognized until the victim begins to have the more serious symptoms such as sore mouth, stomach trouble, and reddening and scaling of the skin. "When these symptoms appear, the disease has been present for some time," states Dr. Geo. W. Cox, State Health Officer. "The longer an individual has pellagra the harder it is to cure. It is advisable, therefore, to watch for the early symptoms such as nervousness, indigestion, and burning of the hands and feet, and if these symptoms appear, treatment should be instituted at once. In its advanced stages pellagra may become so severe as to not only cause physical suffering but seriously affect the mind."

Pellagra is not contagious, Dr. Cox pointed out, and he emphasized that it can be prevented entirely by in-

cluding the right kinds of foods in the daily diet. These essential foods include milk, fresh meat, whole wheat products, brewer's yeast, salmon, as well as tomatoes and other fresh fruits and vegetables. The inclusion of these foods in the daily diet will prevent pellagra, and as in the case of any disease, it is better to prevent it than to try to cure it.

Farm Experts Sought For Research Advice

The Department of Agriculture has asked 250 national producer and commodity organizations for their suggestions on the membership of advisory committees to direct the administration of the new Marketing and Research Act. Nominations from other sources also will be welcomed by the Department, which has the job of staffing 17 commodity committees and 4 functional committees with "broad-gauge, public-spirited citizens thoroughly conversant with the operations and problems of the industry each represents."

The committees—covering livestock, dairy, poultry and poultry products, citrus fruits, deciduous fruits, vegetables, potatoes, nuts, grains, feeds and seeds, rice, dried beans and peas, cotton, wool, tobacco, peanuts, soybeans and flaxseed, transportation, storage, packaging, and foreign trade—will help direct the new program of research into basic laws and principles of agricultural marketing facilities. A committee of 11 national agricultural leaders and the Secretary of Agriculture, who direct the research program as provided by law, have asked for the nominations.

March of Dimes Begins

Governor-Elect Beauford Jester pledged every co-operation in the annual March of Dimes sponsored by the National Foundation for Infantile Paralysis. He is pictured with George D. Wilson, Texas chairman for the fund-raising campaign, which is now under way throughout Texas and will continue through January 30. George Waverly Briggs of Dallas and W. L. Clayton of Houston and Washington also are serving as Texas chairmen.

Texans have again been asked to do their share in the unending fight against infantile paralysis in the annual March of Dimes which opened in this state Jan. 15. The appeal will continue through Jan. 30, the birthday of the last President Franklin D. Roosevelt.

A proclamation setting the latter half of January aside for the annual appeal was signed by Governor Coke Stevenson in the presence of Governor-elect Beauford Jester and George D. Wilson of Houston, Texas chairman of the National Foundation for infantile Paralysis.

Although Texans are not assigned a specific quota, they are expected to give liberally under the grim reminder of the epidemic of poliomyelitis which raged in this state last year. The national goal, set by Basil O'Connor, foundation president, at

\$24,000,000, must be raised through the March of Dimes. The money will continue the care and treatment of polio victims, of whom there were 25,000 last year, and prepare against new outbreaks of the disease in 1947.

Both Stevenson and Jester pledged their personal efforts to the Texas drive and asked Texans to support it wholeheartedly.

Wilson pointed out that the National Foundation for Infantile Paralysis is totally dependent on the American people; it has no endowment or other means of financing its work. During the nine years of its existence, millions have been spent to equip hospitals, care for victims and carry on research into the cause and possible cure of polio.

The foundation was inspired by the late President Roosevelt, the most famous sufferer of polio, and his birthday has become the occasion for memorial gifts to the organization he loved.

WHOLE GRAIN CEREALS BEST

LUBBOCK — Hot whole grain cereals are important in the diet, not only because they are appetizing on frosty mornings, but also because they provide an economical method of getting additional proteins and minerals into the daily fare.

Miss Margaret W. Weeks, dean of Home Economics at Texas Tech College, points out that cereals are an easy means of including additional milk in the diet. She emphasized that consumers should check cereal labels and make sure they are buying whole grain cereals, to insure obtaining valuable minerals.

American Red Cross Show Work During War Years

How war transformed the American National Red Cross into a mighty emissary to carry comfort and cheer to American servicemen the world over is told in a 7 year report, covering the war years, released by Chairman Basil O'Connor.

While this report covers the most significant period in the organization's history, Mr. O'Connor pointed out that Red Cross responsibility in military and veterans services is still large-scale and must so continue for several years. Likewise, he said, the tempo of chapter community services in health, safety, and disaster relief is increasing.

Over 36,645,000 persons contributed to the American Red Cross in its peak war year, 1945, bolstering its resources so that never before were its services extended so far to so many, the report disclosed.

The report, which covers the 1939-46 period, shows that when the clouds of war began to mass, services to the military were stepped up and continued to expand. Service expenditures exclusively for the armed forces and subsequently for veterans totaled \$365,816,818 for the 7-year period.

Total American Red Cross expenditures for 1939-46 (June 30) reached \$730,749,169.

An average of 4,246,000 unpaid volunteer workers in 3,750 chapters served the organization each of the 7 years. In this total, an average of 2,138,000 members of the trained volunteer corps alone gave nearly a billion hours of service. In the 105-page report, illustrated with graphs and charts, other outstanding facts include:

In the blood donor program for the Army and Navy, 6,663,121 Americans contributed 13,326,000 pints of blood.

More than \$70,000,000 was loaned by the American Red Cross at camps and hospitals to servicemen and women

in the 4 years from 1942 to the present.

More than 52,000 community organizations were participating in the Red Cross camp and hospital service program during the war years, with civic groups far in the lead.

Owning no ships of its own, using what commercial and military shipping space was available, the American Red Cross nevertheless sent 300,460 tons of supplies overseas between 1939 and 1946, distributing the supplies to military personnel through its services to the armed forces, to prisoners of war through the International Red Cross Committee, and to civilians through overseas emergency relief activities.

In the 7-year period, servicemen and their families were assisted in 17,980,230 cases by American Red Cross Home Service departments. Forty-two million communications for servicemen, veterans, and their families have been handled by Red Cross since Pearl Harbor.

The number of persons assisted through American Red Cross overseas emergency relief activities totaled 75,053,320. Overseas relief includes distribution of Red Cross chapter-produced garments; milk-feeding programs; furnishing drug, food, medical, and educational supplies; and reorganization of community health and welfare services in war-affected cities.

Attendance at club facilities, including leave clubs, canteens, recreation centers, snack bars, and rest homes totaled more than 52,000,000 in a single month during the peak operation of clubs with the American military throughout the world.

In its educational, health, and general welfare activities for the period, the American Red Cross doubled Junior Red Cross enrollment (in a single year and a half ending June 1946 Junior Red Cross provided 7,000 medical chests to care for 8,000,000 children overseas for 3 months); spent \$5,778,632 in educating the nation in first aid, water safety, and accident prevention; trained 1,698,050 men and women in home nursing; and made, through its public health nurses, 5,155,464 visits.

"That reminds me! John's waiting at home for his GLADIOLA biscuits!"

THE MAVERICK

First Grade

Connie Potts is back in school after being absent for a week. We are glad she is well enough to be back with us. With only six girls in the first grade, we need them here every day. Three Spanish children enrolled in the first grade since the holidays. They are Richie, Ralnado, and Ramon Reinado.

We are sorry to have lost Martha Houston. She moved into the Oklahoma Lane district.

Mrs. S. E. Magness gave the room a happy surprise when she brought Bobby's birthday cake to school, and announced there would be a party too.

Danny Loe is absent today. Hope it is not chicken-pox, Danny.

Second Grade

We are glad to have Jerry Summers back. He has been out because of having chicken-pox. Elaine has them now. We hope she can come back soon.

Pat Aldridge has been absent for several days, but she is in school again. We enjoyed having another one of Roland's books read to us. It was the story of "Pocahontas".

We are glad that the weather is warm enough that we can play outside again.

Third Grade

We're glad Joe Elaine Magness is back in school again. She was caught in a storm during her Christmas vacation.

Eddie Brain Smith tells us he rode his colt and never one time was thrown off.

Betty Shanks spent the weekend with her grandmother in Portales.

We have only 21 in our room now.

We have been busy starting the new term and making snow men, also working on a unit about Alaska and how the people live there.

Fourth Grade

The fourth grade welcomes back H. R. Billingsley, a former member who has been attending school in Big Springs, Texas. We are also looking forward to having some new members within a few days.

6TH and 7TH

We, the boys and girls of the 6th and 7th grade are to play Progress Wednesday at noon. We really enjoyed getting out of school last Friday afternoon. Guess every one survived from their mid-term test.

Seniors

We have been working on our annual the last 6 weeks trying to assemble and get it ready to send off. We expect to send it off in about 3 weeks where it will be returned to us by the time school is out. We have just completed our mid-term test and we should have more time to work on our annual now. We will have our play sometime in the near future.

Scandal!

J. W. and Peggy really are getting along good.

Max still likes the court house pretty well.

This love affair of Leonard and Theda is for good I guess.

Bob Byrd why don't you let us know how you and Krine are getting along, huh?

Don Ford seems to be in need of a girl friend, hear this girls?

Wonder why Alta Martin likes to go skating?

We wonder what that Muleshoe girl looks like after Saturday night, what about that, Peggy!

We wonder why Mrs. Pool is wearing that patch on her eye.

The other day Mrs. Sanders told her room that Mr. Pool beat Mrs. Pool up. So Bert Williams, says,

"That is nothing, my daddy gets up before my mother does every morning."

Tribune job printing is best.

HAIRBRAIN HARRY

(Part II)

SYNOPSIS: In our last installment of this western thriller we left Hairbrain in another ticklish spot when his trusty Mack Armstrong radio went dead after many years of faithful service. Undaunted in his determination to save his beloved Dirty Gertie, he pulls a fast one on the bad men:

Throwing his voice out of his prison cave, he shouts, "The Pepsi Cola's on the House!" and naturally, the villains all scrambled over each other to climb to the roof. Using his sharp wits to the best advantage, Hairbrain saws the ladder into and sings, "I would climb the highest mountain, if I knew that when I climbed that mountain . . ." but casting aside his inspiration for music as he remembers of his sweetheart, Dirty Gertie, he grabs up his rifle, Betsy, and shoots 99 Indians in 9.26354 seconds flat. Dirty Gertie, rushing into the arms of her hero, cries, "Use Forhans to guard against gingivitis" when she notices the molars that were removed by Yagotme Yarat, the leader of the villains. Noticing her feet that have been scorched by the Pushface Indians, Hairbrain whispers tenderly, "try Dr. Scholls foot pads for aching feet." But this tender scene is rudely interrupted by the arrival of Gravel Gertie, sister of Dirty, who is moaning of the terrible woes that have beset her, for the B-O ranch is about to be taken for mortgage due to a horrible lawyer, Slick Slime. Begging Hairbrain to help her, she wails that the lawyer has asked her to "Marry me or sell the ranch because no other lawyer can make that statement." (To Be Continued)

Study Of Underground Water Supply Favored

LUBBOCK, TEXAS—Meeting at the request of the High Plains Water Use and Conservation Association, the Lubbock City Commission and the Directors of the Lubbock Chamber of Commerce, Friday, January 10, in the Hilton Hotel in Lubbock, declared they favored a study of the underground water situation before passage of any control or protective legislation. Attending the meeting were more than 150 people including the Board of Directors of the High Plains Water Use and Conservation Association and officers and directors of every county water conservation group.

Mayor C. A. Bestwick of Lubbock, opened the meeting with a short welcoming address followed by a clear statement of the stand of the Lubbock City Commission and the Lubbock Chamber of Commerce have not advocated, proposed, approved or endorsed any legislation, rules or regulations in regard to protecting, controlling or allocating underground water.

"The two organizations are opposed to any legislative proposals until the people of this area have the opportunity to thoroughly study them. Both groups do advocate and propose a thorough study of the underground water resources of the area and ask the cooperation of all the citizens of this section in helping to put into effect protective measures if the study indicates they are needed."

The Mayor then introduced W. L. Edelman, Friona committeeman of the High Plains Water Use and Conservation Association. Edelman, along with H. S. Hilburn, Plainview editor, and J. H. Lee, Littlefield banker, was there as official spokesman for the High Plains Water Use and Conservation Association. All three made talks to the effect that they were in favor of a thorough study to determine what should be

done about underground water on the High Plains.

Closing the meeting with a reiteration of the policies of the two Lubbock groups, Bestwick said, "We are happy to have had you all with us this afternoon and hope that we have clarified your doubts as to our position on this question."

Whiskey has wrecked more homes than water has wrecked ships.

WANTED—All kinds of plumbing, and washing machine repairing. Work guaranteed, at reasonable prices. T. O. Barnes, next to home laundry. 10-6-tp.

The widespread belief that putting salt in wash water prevents bright colored cloth from fading is untrue, since the use of salt actually tends to harden the water. The best precaution against running colors is to reduce the water temperature and dry the articles quickly.

IT'S ALL RIGHT TO KEEP YOUR FINGERS CROSSED . . . BUT —

When you need brakes, there is nothing that will take their place in avoiding accidents with probable fatal results.

Let us reface your brake drums now to insure safety to you and your family.

HEAVY'S GARAGE

Texico, New Mexico.

Said two mules named Beulah and Joe,
"When it comes to starting we know,
"Once somebody backed us,
"Right into a cactus,
"That's the way '66' makes you go!"

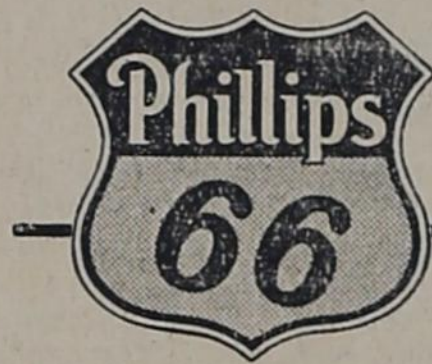

For Startling Starts...

Get Phillips 66 Gasoline

What makes Phillips 66 start so quickly . . . warm up so easily these cold mornings? That extra measure of high-volatility elements!

Yes, Phillips draws on its vast reserves of high-test natural gasoline to boost the volatility of Phillips 66 as the temperature goes down.

You'll find that this "controlled volatility" will help you to better driving, quicker starting, faster warm-up, as the weather gets colder. Stop at the next orange-and-black '66' sign and be shown!

For good service... Phillips 66!

AS THE SEASONAL TEMPERATURE GOES DOWN... PHILLIPS 66 VOLATILITY GOES UP!

OKLAHOMA LANE

Mr. and Mrs. David W. Sides and children of San Antonio, Texas, visited over the holidays with Mr. and Mrs. Sam Sides, Mr. and Mrs. Barry, and Mr. and Mrs. W. J. Sides of Lubbock.

Mr. and Mrs. R. A. Palm and son Jessie of San Anita, Calif., have been visiting her sister and brother-in-law and Mrs. Sam J. Sides. It was the first time Mrs. Sides had seen her brother in two years. Jessie, who had 5 years in the army is now attending U. C. L. A. in Calif. He likes Texas so very much that he says he is moving back when school is out.

The variety club met last Tuesday in the home of Mrs. W. E. Verner. Sewing was done and Red Cross sewing was handed out to the ladies. Refreshments were served to Mrs. S. H. Sides, Mrs. Joe Donald, son, Mrs. J. R. Caldwell and Mrs. Jewell Barry.

Mrs. W. E. Verner and Mrs. Sam Sides gave a surprise birthday party for Mrs. Barry and Mrs. Ginnings in the new Ginnings home Sat. night 42 was played and refreshments were served.

Mrs. Jewel Barry and Mrs. John Porter attended the Rainbow installation in Clovis. Miss Joy Wolf, niece of Mrs. Barry was installed as worthy advisor.

Knives should never be allowed to soak in water. Water will rust the blade, rot the wood and loosen the handle. Leaving the knife on a hot stove results in the temper of the blade being destroyed.

Farwell Student On Tech Judging Team

LUBBOCK — A junior livestock judging team representing Texas Technological College left this week for Denver, Colo., to compete in the National Western Livestock Show Contest. Intercollegiate competition at this show was discontinued during the war, with the contests being held this year for the first time since 1942.

Members of the team are L. D. Ballard, Plainview; Lewis Cobb, Newland; Carl Dwyer, McClain; Herman Henson, Farwell; John Montgomery, Jayton; Horace Underwood, Garden City. The team was accompanied by Prof. Ray C. Mowery of the animal husbandry department.

People don't get round-shouldered from following a hunch.

Pink And Blue Shower Honors Mrs. Ray Ford

Mrs. Ray Ford was honored at a lovely pink and blue shower given last Tuesday evening, January 7, at Dan Cason, Mrs. Buck Bradshaw and Mrs. Buck Bradshaw and Mrs. Walter Hardage acted as hostesses.

Starting the evening each guest was given molding clay with which to make a small gift, then everyone suggested names of the gifts.

Carrying out the color scheme pink and blue chicken sandwiches were served on pink napkins with gelatin salad and coffee.

Those present were, Mes. Maxine Cook, Capitola Crume, Betty Crume, Inez North, Mrs. Virgil Hunton, Mrs. Branscum, Mrs. Maude Brown, Mrs. Johnnie Crawley, Bessie Landrum, Mrs. Olen Schleuter, Peggy Great-house, Mrs. O. B. Pipkin, Juanita Huggins, Carrie Hamrick, Alvina Sharpe, Billie Phillips, May Porter, Mona Towns, Bea Sudderth, Dickie Magness, Carrie Hardage, Miss Maxine Ford, and honoree.

A number of gifts were sent by those unable to attend.

Dinner For Texico Basketball Players

Mr. and Mrs. Ray Mears and Mrs. Stanley Stewart are serving a chicken dinner to all members of the Texico basketball squads this (Wednesday) evening at the high school gym.

Besides the players and coaches, about 36 in number a few other guests have been invited to attend.

Clovis Couple Married Here

Marriage license was issued here Monday by County Clerk Loyde A. Brewer to Bill Douglas Howard and Miss Betty Jo Allen, both of Clovis. They were married by County Judge A. D. Smith in the presence of a small number of friends.

Two Marriages Performed

Minister Ebb Randol of this city officiated at two weddings over the past weekend. Eugene Campbell and Miss Delnora Nettles of Clovis, were married Friday at the home of Minister Randol.

On Saturday, he was called to Clovis to perform the wedding ceremony of Dennis Taylor and Elizabeth Davis at the home of the bride's brother, 320 Gidding Street.

Mrs. T. L. Blewett of Littlefield, Texas, made a short visit here Monday afternoon, with her son, T. W. Blewett and family.

Accompanying Mrs. Blewett, was Mr. Ervin Sadler also of Littlefield, who is a friend of the Blewetts.

Mr. and Mrs. Jim Moss and children visited in Amarillo Sunday with sister, Miss Bobby Jean Barker, who is convalescing from an appendicitis operation in the North West Texas Hospital.

Mr. and Mrs. Hop Graham and daughter Sammy, visited in the home of their daughter and son-in-law, Mr. and Mrs. Vance Crume, in Friona.

Paul McQuillen of near Texico was rushed to the Amarillo Veterans' hospital, Saturday where he underwent an emergency operation at 5:00 o'clock. He was reported to be resting well Sunday afternoon.

Fred Kepley and Turner Paine spent the weekend in Oklaunion, near Vernon, Texas.

Mr. and Mrs. Fred Lovy of Muleshoe visited in the home of Mr. and Mrs. Turner Paine, Sunday.

A party was held in the L. M. Grissom home for Joyce Doshier, Saturday night. A large crowd attended the social and reported a swell time.

LICENSE ISSUED

Records at the County Clerk's office reveals that a license was issued to Ned Eugene Campbell and Miss Delnora Nettles on January 10, Ebb Randol, local Church of Christ minister performed the ceremony.

Mr. and Mrs. Mack Nobles and son Edward, of Amarillo visited Sunday in the home of his parents, Mr. and Mrs. B. E. Nobles.

WEDDING ANNOUNCED

Mrs. Florence Wallace, formerly of Farwell, but for several years, has lived in Clovis, became the bride, last Saturday evening, January 4, at 4 p. m., to Mr. Paul Johnston, of Tucumcari, New Mexico. The couple will make their future home in Las Cruces, New Mexico.

Local Scout Council In Meeting

The Farwell Scout Council will meet at the school building this (Wednesday) afternoon at 1:30. Miss Dixie Dozier, Girl Scout Field worker will be present and will have a store of information for those interested in this work. All adult workers are urged to attend, both leaders and committee mothers, as well as any others who might be interested.

Intermediate Girl Scouts hope to complete requirements for Second Class in March. They are making posters for the school cafeteria toward a health badge.

On Friday of this week, all council members are invited to attend an all day instruction meeting in Clovis at the Little House (10:30 a. m. to 3:30) Texas time.

PTA Meeting Held Thursday Night

The regular meeting of the local PTA was held last Thursday night at the Farwell School building with a good attendance being reported.

Miss Ann Nabors made a very interesting talk on "Training For Economic Efficiency", followed by a one-act play directed by Mrs. H. A. Clift.

After the business hour everyone enjoyed refreshments of coffee and homemade cake.

Mr. and Mrs. Stanley Bosler and son Stanley Jr., of Albuquerque, N. M., are visiting for a few days with his brother and sister-in-law, Mr. and Mrs. Clifford Bosler. They are enroute to McCook, Nebraska, where they will visit his parents.

Mrs. W. W. Hall of Farwell, Mr. and Mrs. Freddie Hall, and Mr. and Mrs. Horace Bell of Clovis, spent Sunday visiting with relatives and friends in Amarillo.

Mr. and Mrs. Victor Billington of Lubbock were Sunday dinner quest in the home of Mr. and Mrs. Sterlyn Billington of Farwell.

Rev. and Mrs. Hunton have as their guests this week, their son Howard Hunton of Dallas. This makes the family circle complete for the first time since Pearl Harbor.

Mr. and Mrs. J. A. Kaltwasser spent Sunday in the home of Mr. and Mrs. Emil Haseloff in Levelland, where they enjoyed a barbecue dinner.

Mr. and Mrs. Carol Lillard of Clovis were Sunday guests in the home of Mr. and Mrs. Walter Kaltwasser.

Adolph and Henry Haseloff, Jr., spent last weekend in the J. A. Kaltwasser home.

Miss Betty Cox returned to her home in Lamesa after spending a week with her aunt Mrs. B. N. Graham of this city.

Mr. and Mrs. Dick Crume of Lubbock visited with relatives and friends Friday.

Mr. and Mrs. Charles Horn of Santa Fe, visited with Mr. and Mrs. Paul Wurster of this city, Saturday, the four then motored to Canyon to visit Mr. and Mrs. Gordon Lyons.

Glenn Phillips student of Texas Tech College spent the week-end with his parents, Mr. and Mrs. A. F. Phillips, Sr.

Father and Son Banquet Held Monday

The Texico-Farwell Baptist Church Mens Brotherhood met last Monday at the church, with a goodly number present. The purpose of the meeting was a father and son banquet.

Judge Cleve Compton addressed the members and sons, using for his subject, "Juvenile Delinquency." After the talk, there was a round table discussion and a general get-together of the father and sons.

The church is making preparations to furnish entertainment for the youth in this vicinity, to prevent juvenile delinquency.

Fellowship Supper At M. E. Church

Members and friends of the Methodist Church will meet in the basement of the church this (Wednesday) evening for the first of a weekly series of fellowship suppers, to be followed by an evening of entertainment with all age groups participating. The supper will be provided covered dish style, and is scheduled to get under way at 6:30 p. m.

TIRE SITUATION BETTER, BATTERIES CRITICAL

While there is a definite improvement in the amount of tires, including passenger truck and tractor tires, being offered by local dealers, a survey this week revealed that car and truck batteries were still critical with only a few odd sizes being found in the hands of local dealers.

The supply of tires has been showing a definite increase for the past few months and dealers report that practically all sizes may be found locally. But car and truck batteries are extremely hard to get and local dealers predict no improvement in this supply in the immediate future.

FIREMAN LOOK FORWARD TO NEW FIRE TRUCK

The volunteer fire department of Texico-Farwell met Wednesday night, Jan. 8, its regular meeting. The general discussion for the evening was the hopes of getting a new fire truck soon, which has been on order for some time. The new truck will be most modern, complete with all new fire fighting equipment, which includes a 500 gallon water booster tank.

The firemen reported that there have been no fires lately, and all seemed happy of the fact, especially during the recent cold weather, for it is reasonably sure that no one would enjoy rushing from a peaceful slumber, between warm blankets, across snow covered ground to put out a fire, either large or small.

THE METHODIST CHURCH

Church School—10 A. M.
C. F. Bieler, Supt.
The Morning Worship—11 A. M.
Sermon subject, "Stewardship of Vocation."
The Methodist Youth Fellowship at 7 P. M.
The Evening Worship—7:30 P. M.

The Mid-Week Service begins Wednesday at 6:30 P. M. with a Pot-Luck supper.
A group Discussion on Stewardship will follow the supper. The meeting will close with a period of fun.
The Choir will meet for practice at 7 P. M.
A cordial invitation is extended to all. Come and bring a friend.

Sunny Side

(By Sonny Graham)

Some people never are satisfied with anything that they get, particularly the weather. They complain of the wintery snow that falls in the cold months of the year—they complain of the "terrible heat that we've been having the last few days" in the summer, or there are those that persist to love all kinds of weather and yet never venture out of doors.

I've given all these oddities a good thought time and again, and yet I still say that I'd rather have the good 'ole sand of the plains than to be flooded out of my home by an angry river. Also I've heard of 92 degrees below weather that has recently beset parts of Siberia. I try to imagine how cold we could stand it here when the thought of a few degrees below makes us shiver. Then there's the poor soul who is "simply burning up" in the summertime. What would the unfortunate man do in Sahara Desert? Sure, I know, I'm running it into the ground, but I still think that the good 'ole plains are one of the best places on earth to live, with that ever present 'Southern Hospitality' in the fresh air. Give it a good think and see what your conclusion is!

If you don't like the plains, move to California. Ah! California! That sunshine! (in your spare time, put up a few quarts of well-aged fog). Those summer beach resorts, (if you have friends in Missouri, you may be able to elbow your way through the throng to the ocean). That beautiful scenery! (try a scene drive—the roadside billboards are wonderful). All those famous movie stars! (perchance you can rake up fifty bucks for a seat at a nightclub—you might get to see a star you know)—oh, to heck with it, gimme my West Texas sand!

Mrs. Ben Smart and son Jim Bob and Misses Hazel Dishman and Peggy Williams spent Sunday afternoon visiting in the home of Mr. and Mrs. Lloyd Sanderson in Portales.

ARGUS

CAMERAS and PROJECTORS

We have Three Different Models now in stock. Come in and inspect them.

RED PHARMACY

Mrs. Bess Henneman spent Saturday in Muleshoe shopping.

Gulbert Kaltwasser spent last weekend in Vernon, Texas visiting in the home of relatives.

Mrs. Kirpatrick and Mrs. Wingo of Silverton, Oregon, were visiting their sisters, Mrs. Ima Moore and Mrs. Levy here last week.

Mrs. J. A. Stovall is reported to be recuperating from the flu. She has been ill for several days, following an attack of gas, of which she was victimized several months ago.

Bovina Happenings

Elizabeth and John Barcus of Freita, Colorado, visited Mr. and Mrs. Maurice Means the last two weeks. Charlene King is now in the North West Texas hospital in Amarillo. She had to have her leg broken over and re-set a few days ago. She thinks it will not be long before she can come home. They are looking for Jerry home soon too, his condition was much improved last week. He was still in the hospital at Memphis, Tennessee.

Mr. and Mrs. Jack Anderson of Friona were dinner guests in the

Earnest Woefell home Sunday.

Mr. and Mrs. Elmer Venable have had as their guests the past week, Mrs. Venable's sister and brother-in-law, Mr. and Mrs. Northcutt and her brother, Bradford Myers of El Paso.

Mr. and Mrs. Van Wheeler and children and Mr. and Mrs. Alfred Rury of Rush Springs, Oklahoma, visited in the home of their parents, the J. I. Rurys over the holidays.

Mr. and Mrs. E. V. Isham were Clovis visitors Friday.

Mrs. Roy Hever of St Paul, Minnesota, is visiting in her parents home the Davis Kings.

Mr. and Mrs. Tom Rhodes were shopping in Clovis Friday.

Jerry Niece and Katherine Roberts attended the show in Clovis Thursday night.

Score for the ball games at Bovina Friday night were, girls—Bovina-23, Oklahoma Lane-26, boys—Bovina-39, Oklahoma Lane-22

Mr. and Mrs. Brock had a message from their daughter, Nina Jo, stating that she and Donnie had arrived in Italy last Sunday.

Mr. and Mrs. Ezra Englund and Mary Alice, Mr. and Mrs. Floyd Englund and children, and Mr. and Mrs. Jack Kessler spent Sunday in Borger, visiting relatives.

Mr. and Mrs. C. O. Smith left for Idaho this week for an extended visit with Mrs. Smith's parents.

Mrs. Bill McDonald and two daughters of Clovis visited her parents, Mr. and Mrs. Elbert Ashcraft Saturday.

Mr. and Mrs. E. V. Isham and family and Mr. and Mrs. B. J. Niece and Betty, visited in C. C. Boren home west of Texico Sunday.

Mrs. Ray Spoth is visiting her parents Mr. and Mrs. Buck McCuan this week.

Mr. and Mrs. Ayres were shopping in Clovis Friday.

Mr. and Mrs. E. A. Fahsholtz of Clovis spent Wednesday in the E. V. Isham home.

Mr. and Mrs. R. N. Williford visited in the home of Mr. and Mrs. Mel Gunns Saturday night.

Mr. and Mrs. D. A. Atkins from Hot Springs, N. M., and Mr. and Mrs. Fourmentin from Clovis were six o'clock dinner guests in the home of Mr. and Mrs. Reagan Looney Sunday evening.

Mr. and Mrs. Paul Jones attended the Cotton Bowl game in Dallas on New Year's Day.

State Ups Production Of Dairy Products

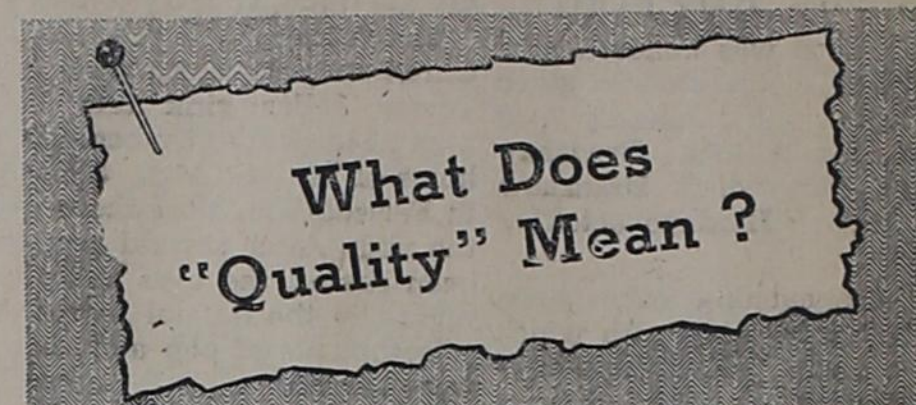

AUSTIN,—Over 55,000,000 pounds of milk went into the manufacture of Texas dairy products during November according to the monthly survey of The University of Texas Bureau of Business Research. Although this consumption represented a 27 percent drop in dairy manufacturing for the month, production in November was 1 percent greater than in November 1945.

The October-November 1946 decline was equally distributed between the production of creamery butter, ice cream, and American cheese, decrease ranging from 23 percent to 29 percent. American cheese production rose 10 percent, but the production of ice cream and creamery butter fell 14 percent respectively from November 1945 to November 1946.

GRASS FOR SCENTS

Lemon grass and citronella now are being raised in quantity in Quatemala for use in scenting toilet soaps.

YOUTH FELLOWSHIP HAS MEETING WEDNESDAY NIGHT

The Bovina Methodist Youth Fellowship entertained the Sub-District in their first meeting since re-organizing.

Earth presented a very interesting program based on the theme "Stewardship". After the presentation of the program we had a business meeting with C. W. Grissom presiding. In this meeting we chose a name for the newly organized Sub-District. The name, "Horse Shoe" was selected, because our Sub-District is in the shape of a horse shoe.

Immediately after the business meeting the Bovina group directed the recreation, after which refreshments were served by the hosts.

Our next meeting will be on the first Wednesday night in February. This meeting will be held at Earth, with Friona in charge of the program.

MRS. PAUL JONES HOSTESS TO SEW AND CHATTER CLUB

The Sew and Chatter Club met in the home of Mrs. Paul Jones Thursday afternoon, this was their first time to meet since the holidays.

The afternoon was spent in sewing and chattering, refreshments

LEGAL NOTICES

**CITATION BY PUBLICATION
THE STATE OF TEXAS**

TO: Anna Mae Lane and the unknown heirs, assigns and legal representatives of John Lane and Anna Mae Lane, deceased, GREETING:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 17th day of March, A. D., 1947, at or before 10 o'clock A. M., before the Honorable District Court of Parmer County, at the Court House in Farwell, Texas.

Said plaintiff's petition was filed on the 7th day of January, 1947. The file number of said suit being No. 1386. The names of the parties in said suit are:

W. A. DOSSEY, as plaintiff and Anna Mae Lane and John Lane, deceased, and the unknown heirs, assigns and legal representatives of Anna Mae Lane and John Lane, deceased, Ethel Dossey, Charlie Dossey, Eula Covich, Jack Covich, Earl Lane, Lawrence Lane, Arnold Lane, Rose Mary Howell, Minta Lane, Norcine Silva, Albert Silva, Jackie Packard, Eli Langford, Willis Langford, Wilbert Langford, Irene LaFoy, James Edward LaFoy, Ruby Bohannon, George Bohannon, Mildred Williams, Bill Williams, Frank McGregor and Jack Packard as Defendants.

The nature of said suit being substantially as follows, to wit: Plaintiff alleges that he owns an undivided one-half interest in

the following described land: North 85.6 acres of the West 1/2 Section 104, Kelly Subdivision, in Parmer County, Texas,

and that John Lane, who is deceased, owned the other one-half interest, but the heirs of John Lane, deceased, now own said land. Plaintiff prays for a partition of said land in kind and if the land is not susceptible to partition in kind, Plaintiff prays that a receiver be appointed with full authority to sell said land, employ counsel, pay abstract bills, court costs, and any and all other necessary acts to perfect the sale of said land.

If his Citation is not served within 90 days after the date of its issuance, it shall be returned unserved.

Issued this 7th day of January A. D., 1947. Given under my hand and seal of said Court, at office in Texas, this 7th day of January A. D., 1947.

LOYDE BREWER, Clerk, District Court, Parmer County, Texas (SEAL) 9-4tc.

Continued Demand Is Expected For Cotton

COLLEGE STATION.—Forseen continued demand for cotton products in 1947 has set Texas' cotton planting goal for next year at 8,460,000 acres.

This information comes from specialists of the Texas A. and M. College Extension Service who attended the Annual Agricultural Outlook

G.O.P. SENATE 'BRASS' . . . Republican leaders taking over legislative responsibility in the 80th congress. The senators believed that they settled all their arguments before the session opened January 3. Left to right are Sen. Homer Ferguson, Mich.; Sen. Wallace H. White Jr., Maine; Sen. Bourke B. Hickenlooper, Iowa; Sen. Robert A. Taft, Ohio; Sen. Arthur Vandenberg, Mich.; Sen. Wayland Brooks, Ill., and Sen. Eugene D. Millikin, Colo.

Conference in Washington, D. C. to see what's in store for farmers next year.

The consumption rate of cotton has continued high since the end of the war, and no immediate change can be foreseen, the specialists say. Certain factors that may tend to weaken the demand for cotton goods, as well as most all farm products, are expected to become more prominent during 1947, however. As home construction and production of automobiles and household appliances increase, consumer expenditures will be shifted to purchase these goods and less money will be spent on food and clothing. Cotton consumption in the nation for the first six months of the 1946-47 season is expected to be at approximately the same high level as it has been during the past few years, but may run at a lower rate the last half of the season.

Concerning prices that farmers are due to receive for cotton next year, the specialists say that the 1947 loan

rate is fixed at 92.5 percent of parity as of August 1, 1947.

BILLIARDS DRAW CROWDS

Billiards, in a variety of games, is played today by an estimated 10,000,000 people.

CROW RATION LISTED

During its three weeks of nestling life the crow eats about 19 ounces of food daily, or a total of 13 1/2 pounds.

Heinz Home Institute

Raisins Are Super-Salesmen

If breakfasts take salesmanship, let raisins help promote them with your family. Just toss a handful into the cereal bowl, and you will find this humdrum daily dish has an instant new appeal to early morning eaters. That's because raisins are a kind of down-to-earth delicacy—gentle, sweet, and simple enough to please just-wakened palates.

The raisin's popularity is mainly based on flavor. Raisins have a sunny quality about them, a honeyed odor; their amber juices are an essence of sweet goodness that is universally admired. But they have hidden merits that increase their value as a breakfast item, also. For tucked within their tender skins is a wealth of the nutrients that matter.

Raisins are 70% natural fruit sugars—predigested sweets that are easily assimilated, that stoke up energy like magic. This quick-fueling characteristic is a great breakfast asset, helps the family get started with a bang. Because of this same sweetness, raisins' presence also prevents heavy-handed raiding of the sugar bowl.

Add a spoonful of muscats or Thompson seedless to each serving of cold cereal, or combine with hot breakfast dishes this way:

Breakfast Cereal De Luxe
Heat to boiling over low heat—
1 cup evaporated milk
1 1/2 cups water.
Add—
1/2 teaspoon salt
and gradually stir in—
1/2 cup uncooked cereal
1/2 cup seedless raisins.
Cook, stirring the length of time directed on cereal package.

Stir in—
1/4 cup brown sugar, firmly packed
1/4 teaspoon cinnamon,
and serve at once, with cream or top milk. Serves 6.

Breakfast Mush With Raisins
Into—
3 cups boiling salted water
pour gradually—
1 cup uncooked cereal.
Cook for 15 minutes in a double boiler.

Combine above cereal with—
1/2 cup seedless raisins.
Pack in a greased loaf pan. Allow to cool and set (overnight when possible). Cut into slices; brown in melted fat and serve hot. Serves 6 to 8.

Gourmet French Toast
Soak in hot water and chop—
2/3 cup seedless nectars or seedless raisins.
Combine with—
1/2 cup honey
1/4 cup butter or margarine, softened
1 teaspoon grated orange rind.
Beat with a fork until well blended. Heat. Serve with hot French toast or griddle cakes. Serves 6.

**Home Improvements
Tops On Farm Lists**

COLLEGE STATION—Electricity, running water and modern bathrooms are at the top of the list of improvements that farm families are making as materials become available.

Rural families who are planning to build new homes or remodel old ones may be helped by the experience of others who have completed home improvements, says Mrs. Bernice Claytor, home management specialist of the Extension Service. A recent survey by the USDA showed that families who have done remodeling rated modern conveniences—lights, water, and bath—at the top of their improvement lists. Almost all families who remodeled made kitchen improvements. Insulation and central heat also ranked high as a popular improvement.

Many families put in more and bigger windows, and made arrangements for more storage space. More than half the families added bedroom closets, and a third of them

included a closet for work clothes.

For the most part, planning was a family affair, with all members taking part. Ideas for improvement were found in magazines and trade publications, and from observing houses of neighbors. Local carpenters and plumbers also lent a hand, and some help in planning came from the Extension Service and other educational and service agencies. Half the families interviewed used some credit to finance improvements. In every case, expenses were cut by family members doing part of the work.

"In Italy, political stability and law and order hand on the scales on which the meager bread rations are weighed out."—D. A. Fitz Gerald, Secretary-General, International Emergency Food Council.

Agricultural Production Goals Set At Continuing High Levels

COLLEGE STATION—The Texas USDA Council has set 1947 farm and ranch production goals for the state at or near wartime levels.

Goals for the various crops as suggested by the U. S. Department of Agriculture were changed in several cases to fit Texas conditions.

B. F. Vance, chairman of the council and State Director of the Production Marketing Administration, said the high levels were necessary because of:

1. Strong domestic demand.
2. Critical shortages of food in many foreign countries.
3. The need to build up reserves of many commodities.
4. Allowance for possible poor growing conditions and low yields.

The goals were based on estimated requirements for food and fiber. USDA Secretary Anderson, in a message to the Texas council, pointed out that unlimited demand no longer exists for all farm commodities and that farmers could easily over-produce some crops, such as potatoes and peanuts, if the goals were exceeded.

He added that he realized that the acreage in cash crops suggested by the goals is larger than desirable for proper use and conservation of the soil and asked the council to check closely on the relation to good land use, even though the need may justify a request for increased acreage of soil-depleting crops, as in the case of cotton.

The 1947 wheat goal for Texas has already been set at 53 million bushels from 6 million acres, almost exactly the 1946 acreage, but up 32 per cent over the 1934-41 average.

Other Texas goals for 1947 are: Rye, 200,000 bushels from 20,000 acres, up 11 per cent from 1946 and 54 per cent from 1937-41.

Rice, 19,120,000 bushels from 400,000 acres, same as for 1946 and up 39 per cent over the pre-war average.

Dry edible beans, 7,000 bags from 4,000 acres, double the 1946 acreage.

Feed grains, 10,837,000 acres, an increase of more than a million acres over 1946 plantings and a million and a half over the 1937-41 average. The feed grains are to come from corn, 4,200,000 acres, up 4 per cent from 1946 but down 15 from pre-war average; oats 1,875,000 acres, about the same as 1946 plantings and the 1937-41 average, (up 1 and 4 per cent); Barley, 312,000 acres, up 25 and 13 percent over 1946 and 1937-41; and grain sorghums, 75 million bushels from 4 1/2 million acres, up 22 per cent over 1946 and 90 per cent over the pre-war average.

Soybeans for beans, 2,000 acres. Peanuts, 666,000 pounds, down 13 per cent from the 1946 figure of 764,000 acres but up 129 per cent over the 1937-41 average.

Flaxseed, 76,000 acres as compared with 84,000 acres harvested in 1946. The USDA suggested 120,000 acres, up 43 and 364 per cent over 1946 and 1937-41 average, but the Texas council's figures showed that, with most of the 1947 crop already in the ground, only 76,000 acres would be planted.

Cotton, 8,460,000 acres, up 33 per cent from 1946 but down 12 per cent from 1937-41.

Irish Potatoes, 55,500 acres as compared with 63,300 acres in 1946. Farm allotments are now being set.

Sweet Potatoes, 65,000 acres, the same as for 1946 and up 8 per cent over the 1941-46 average.

Hay, a million and a half acres, 8 per cent over 1946 and 35 per cent over 1937-41.

Beef Cattle, 2,700,000 head on farms and ranches suggested as desirable at end of 1946; compares with 2,877,000 head estimated to be on hand as of January 1, 1947. This would mean 6 per cent fewer cattle than were on hand at beginning of 1946, but 1 per cent more than on hand January, 1946 and 16 per cent above the 1937-41 average.

Milk, 4,225 million pounds — around 500 million gallons—up 2 per cent over 1946 production. This from an expected 1,320,000 dairy cows, 1 per cent less than 1946 numbers.

Hogs (sows to farrow in the spring of 1947), 198,000 head, 14 per cent more than in 1946 and 1 per cent above the 1937-41 average.

Stock sheep and lambs, 9,575,000 head at end of 1947, down 1 per cent from present numbers and 4 per cent

SENATE PRESIDENT PRO TEM . . . Sen. Arthur H. Vandenberg (R., Mich.), who has been chosen president pro tempore of the senate. Senator Vandenberg recently announced his withdrawal from the United Nation's delegation to devote full time to senate duties. He has been put forward as a possible presidential candidate for 1948.

above pre-war level.

Chicken numbers, slightly more than 35 million, practically no change from the 1946 and 1937-41 figures.

Turkeys, 4,400,000 birds, down a little from the 1946 total of 4,466,000. The USDA had suggested 4,700,000 birds, but the Texas council felt that the feed shortage would not justify an increase.

Egg Prices Higher, Bargains Available

COLLEGE STATION—Although egg prices are usually higher during the fall months than at any other season, USDA's PMA authorities say that the "bargains" are still there if the consumer will look for them.

Brown eggs, PMA officials say, are a bargain at any season if the price is lower than that of white eggs of the same size and grade, because the food value of eggs is the same whether they are brown or white. Brown eggs have recently been selling in some large markets for as much as eight cents below prices for white eggs.

Small or pullet eggs, which are in plentiful supply this fall, are another good bargain, PMA says. Generally, prices of pullet eggs have been lower in proportion to the food quantity represented than have prices for large eggs. A dozen pullet eggs, for example, average one-

quarter less in weight or actual food quantity than large eggs, so the small eggs represent a bargain for the housewife whenever the price per dozen is less than three-quarters of the price of large eggs.

Small egg prices have been ranging considerably below their actual value in relation to large eggs. When big eggs sell at 70 cents per dozen and pullet eggs are marked at 46 to 50 cents—the small ones are the bargain.

HIGH-ENERGY LIGHTS

Enough energy to bowl one full game of tenpins with a 16-pound ball, rolling two balls to a frame, is contained in the new high-energy flashlight battery which is less than 2 1/2 inches in height and 1 1/2 in diameter.

He is a wise man who leaves his wife alone when a line full of clothes comes down in the mud.

Restauranteur Advises Army Cooks

George Mardikian, owner of the world famous Omar Kayyam's restaurant in San Francisco, is now in Germany at the request of Gen. Joseph T. McNarney to lend his genius to Army cooks throughout the American occupied zone, the War Department reports.

Before his departure, Mardikian, a recently appointed food consultant to the Secretary of War, paid a visit to Quartermaster General of the Army, T. B. Larkin, who expressed his pleasure at the appointment, feeling assured that Mardikian's tour of inspection would aid in carrying out the high standards set forth in the QM Training Program.

An Armenian, Mardikian at fifteen joined the Armenian guerrillas to resist the invasion of his homeland. He escaped from prison camp and in 1922, made his way to America to start life a new as a dishwasher in a San Francisco cafeteria.

Now wealthy and occupying an enviable niche in fame, Mardikian has never lost a sense of gratitude to America, the land which gave him his opportunity. While abroad, he will visit every Army mess and endeavor to inspire Army cooks with enthusiasm and culinary technique. Mardikian was the official chef for the delegates at the organization of the UN in San Francisco.

Better Sugar Supply Predicted For 1947

COLLEGE STATION — Texas homemakers can now look with renewed hope toward an improved sugar supply.

Miss Gwendolyn Jones, food preservation specialist of the Extension Service, calls the attention of housewives to a recent statement by Secretary of Agriculture Clinton P. Anderson concerning possibilities of increased home sugar supplies:

"Barring unpredictable disasters, sugar will be available to increase rations in the United States by one 5-pound consumer sugar stamp by April 1, 1947 . . . It is believed that the sugar supply situation will warrant further increases later in the year, but at this time it is too early to specify amounts."

A step toward a better sugar supply was taken January 1, says Miss Jones, when a spare stamp for five pounds was made good by the OPA. The stamp will be valid until April 30.

Judging from reports from the USDA, it is likely that the second consumer stamp for 1947 will be made good before the spare stamp expires, predicts Miss Jones. When this happens, the present ration of five pounds of sugar every four months will be increased.

Tech Students May Make Diaper Cloth

LUBBOCK—Textile engineering students at Texas Tech College are weaving and selling a number of fabrics in order to raise funds for a tour of Texas textile mills, it has been announced.

Some 25 to 30 students will go on the tour, scheduled for the Easter holidays if enough money is obtained. It will be the first such field trip for Tech students since the war.

Students have already sold puck toweling, duck and chambray and will begin work soon on narrow sheeting, terry toweling and possibly birdseye diaper cloth. The Chicopee Manufacturing Company, that is conducting some research on the campus, contributed considerable yarn to be used in the projects.

SOLVES SHORTAGE

LUBBOCK—One solution to the current housing shortage has been found by Richard Taylor, 23 year old war veteran who is a student at Texas Technological College.

When he and his fiancée decided a three-month search for a furnished apartment was proving futile, Taylor arranged to move a house 110 miles from Hobbs, N. Mex., to Lubbock. The couple was married recently.

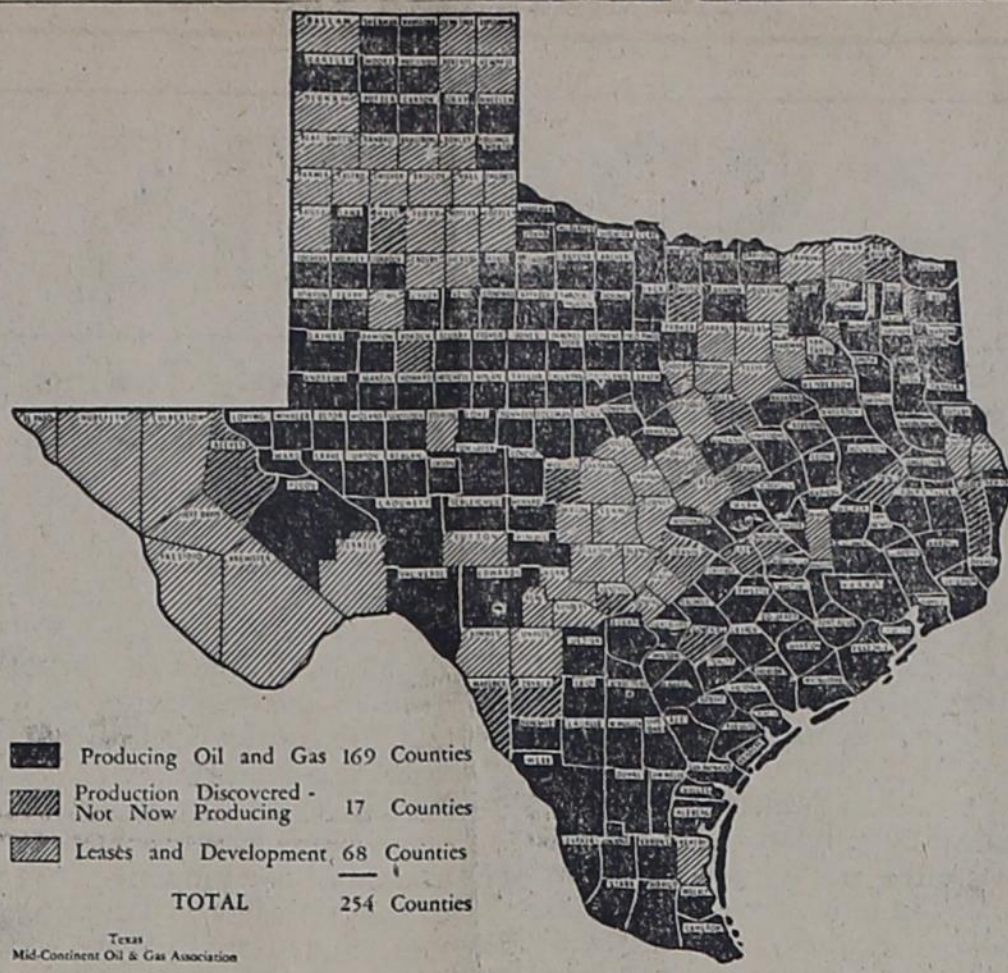

Hours And Earnings Still On Increase

AUSTIN—Hourly earnings and employment in Texas continue on the upswing, according to the Bureau of Business Research of The University of Texas.

Hourly earnings in both manufacturing and nonmanufacturing industries have increased from November 1945, according to reports released by the Bureau in cooperation with the Bureau of Labor Statistics, while employment in the State picked up 4 percent in November over the previous month.

Weekly earnings in all industries in November 1946 were from 9 to 23 percent higher than in November 1945, except petroleum refining, which showed a decrease of one percent, manufacture of stone and clay products, reflecting a decrease of one half of one percent, and the manufacture of machinery (except electrical), which decreased 4 percent. These decreases, the Bureau points out, were caused entirely by fewer weekly hours worked, since hourly earnings have increased 15 percent for petroleum refining and stone and clay products manufacture and 4 percent in machinery manufacture (except electrical).

Swedish pioneers are credited with introduced the log cabin to America.

Each of Texas' 254 counties currently is producing or has produced oil or gas, or has land under lease for oil and gas development, a new map prepared Jan. 1 by the Texas Mid-Continent Oil and Gas Association shows.

Texas oil and gas counties number 169, while former petroleum counties total 17. The 68 others have land leased for oil and gas exploration and development. Counties added to the oil column include Edwards, Knox and Madison, where recent discoveries were made, and Newton, Nolan and Walker, which had shows earlier but which reported their first production last year.

Nearly 54,000,000 acres, or virtually one-third the entire land area of Texas, is now under lease for oil and gas development. Texas farmers, ranchers and other land owners receive around \$215,000,000 a year in lease and royalty payments, the Association reported. This extra "cash crop" totals more than two Billion dollars for the past twenty-five years or nearly one-seventh of the value of all Texas agricultural crops during the period.

PLASTIC LUNG FOR POLIO

A new light-weight plastic lung has been devised for polio sufferers. More comfortable than the iron lung because of its weight, the plastic lung is transparent so that the patient's breathing progress can be observed.

WIN \$300 AWARDS

LUBBOCK—Miss Maxine Harp of Abernathy and Barton Willingham of Tulia, senior students at Texas Technological College, have each been awarded \$300 by the Borden Company Foundation for outstanding undergraduate work in home economics and agriculture, respectively.

Borden foundation awards are made annually to the Tech home economics senior who has the highest scholastic average on all college work, provided she has completed two courses in foods and nutrition prior to her senior year, and to the highest ranking agriculture senior who has completed at least two courses in dairy manufactures.

LIVESTOCK SHIPMENTS

AUSTIN—Texas livestock shipments took a downward turn in November after soaring in October with the removal of OPA control over meat prices, according to figures released by the Bureau of Business Research of The University of Texas.

The total 10,262 cars shipped were 17 percent below October's 12,388 and were 13 percent less than shipments made in November 1945.

Shipments of hogs showed only increase over October, 62 percent, and rose 133 percent over November 1945. Shipments of cattle fell 15 percent from October.

Questions and Answers For Veterans

Q—Can I pay my National Service Life Insurance premiums at the Veterans Administration contact office?

A—No. Contact offices are not authorized to accept remittances for insurance premiums. Payments must be made to the branch office.

Q—Is a veteran of World War II entitled to emergency ambulance service to a VA hospital or other government hospital in which VA has beds allocated, if the occasion arises?

A—Yes. When a veteran or his representative contacts a field station requesting emergency ambulance service, the chief medical officer or his designate will get all information possible about the case and will grant authority, if warranted.

Q—I was captured by the enemy during World War II and was in a prisoner of war camp for 15 months but my claim for disability has been denied by Veterans Administration. What can I do now that the disability is getting worse?

A—Veterans Administration will give special consideration to disability claims filed by veterans interned in enemy prison camps. You should get in touch with your nearest VA office and have your case reopened.

Q—I am going to school under the G. I. Bill. My eyes didn't bother me while I was in service, but they bother me now when I try to do very much studying. Will VA pay for a reader to read some of my textbook assignments to me?

A—No. Veterans with visual impairment are eligible for reader service only if they are enrolled under the Vocational Rehabilitation Act (Public Law 16).

"I STOLE A COUGHDROP" before he died in a penitentiary gas-chamber, Kenneth William Bailey set down his reflections on a twisted life of crime. Now you can read this remarkable personal story of a man who began his career when he was five. In the American Weekly, the magazine distributed with next Sunday's Los Angeles Examiner.

Social Security Aid On Upward Trend

Monthly payments in the form of Federal Old-Age Survivors Insurance amount now \$25,343.22 in the Amarillo Area, according to a statement from J. R. Sanderson, an increase of 12 per cent in total payments and 10 per cent in the number of payees as compared with July 1, 1946.

Although an increase was expected the unusually large increase was no doubt due to the beginning of monthly payments to the survivors of World War II veterans in those cases where the veteran has died within three years of his discharge. Legislation authorizing such payments was passed in August of 1946, and since that date there has been a steady increase in the number of such claims filed in the Amarillo office. Payment to veterans' survivors are retroactive to the date of death of the veteran if a claim is filed before February 10 of this year. After that date payments are retroactive for a maximum of only three months, as in other types of Social Security payments. For this reason, survivors of deceased veterans are urged to contact the Amarillo Field Office as soon as possible.

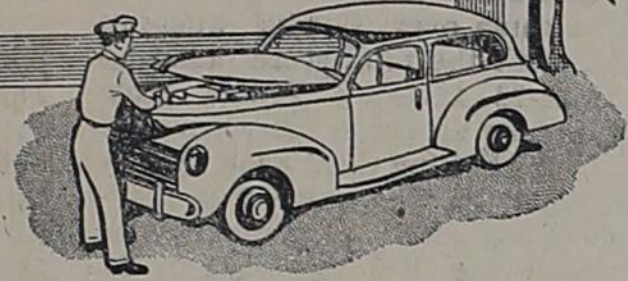

In the 26 counties served by the Amarillo office there are 1622 persons drawing monthly payments. 540 of these are retired workers, 150 are wives of such workers, 669 are children of retired or deceased wage earners, and 263 are widows of deceased wage earners. In addition to the regular monthly payments, a total of \$8,954.52 in lump-sum benefits was paid in this area in the last six months in those cases where none of the survivors was entitled to monthly payments.

Farwell Splits Two On Home Court

The Farwell basketballers split two games with Friona on their home court last Friday night with the visiting girls taking the preliminary game 8-45, while the Steers came back for revenge, topping the Friona Chiefs, 34-14.

The local quintet of girls were definitely outclassed by the Squaw's well-oiled basket attack as well as their equally smother-working defense. First quarter saw the Friona team get a running start on the Farwell girls with the tally at 1-9 with the ending of this period. In the second round of the fray, Friona controlled the ball the majority of the time, depriving the home girls of a single point. The score stood at 1-21 at half time. Farwell tallied a lone field goal in the third quarter to set the score at 3-37, Friona. The fourth and final go-round ended the game 8-45, Squaws.

Robason led the visiting girls attack, netting a nice 18 points, all but two of which were field goals. Meeks did the best scoring for Farwell, getting 7 out of the eight points to her credit.

The main event of the evening saw the Steers triumph over the scrappy Friona Chiefs, 34-14. Farwell took the lead in the initial session of the game, with a not-so-big jump over the Chiefs of 3 points, score, 7-4. The following round of the battle showed the Steers holding their visitors under the weather for only four points, tally, 8-17.

The Chitts were unable to hit in the third quarter, dropping a lone charity toss for their only point, but the Chief's hosps continued their aggressiveness, placing the count 9-25. Subs of both teams saw action in the final period, leaving the score standing 34-14 at the final whistle. W. Thomas had not cooled off from the preceding game, and led the Steers with 10 points. Hart was hot on his heels with 8 counts laioev.—¼ Yrheadoors Theeah for his say in the game. South-pawed Weis got his jump shot to going and rattled of 9 of the fourteen points for the visiting Chiefs.

Farwell was minus up-coming freshman D. Ford because of sickness and also was unable to use M. Ford and Don Williams to any great extent as both have been abed recently with bad colds or flue.

Ranchvale-Texico Split Doubleheader On Texico Court

The Ranchvale girls did some good ball playing last Friday night and topped the Texico girls with a score of 32-20. Ranchvale started in the lead in the beginning of the game, but Texico tied the score at the half with the score of 14-14. At the beginning of the third quarter Ranchvale eased into the lead to stay throughout the remainder of the game. Bridges tossed in 14 points making her high for Texico, while Moor basketed 18 points, making high for Ranchvale.

While Texico girls lost to Ranchvale by a dozen points, the Texico Wolverines came up to clip the Ranchvale boys 56-23, starting in the lead from the beginning of the game and remained ahead to the final score. Fought, who was high point man for Texico, ringed 29 points. Twice, Texico ran the second string to give them a good work out, then back to the first string and kept running up the score until the final whistle.

Mr. Covington officiated both games and did a good job of it. None of the players fouled out in either the boys or the girls game.

The student body put on a nice act by marching to the band to form the letter "R" and honoring the visiting teams.

Friona Girls Plan For Hard Games

Coach R. L. Bates today expressed the belief that his undefeated Friona Squaws, who have bounced 23 consecutive opponents into the losing alley, will have some of their toughest competition this weekend, when they go to Ropesville, near Lubbock, to participate in an invitation cage tournament.

It is not known here how many teams are listed up for the tournament, but play opens on Friday and continues through Saturday night, when the finals will determine the champ and the awards will be made. "We are booked to play Stanton—an undefeated team—first on Friday, in our initial game," Coach Bates told a reporter, adding, "If we manage to get by them, then on the same day we next play undefeated Jayton." With a rueful grin, he admitted, "this may be the sort of weekend we feared would come some time."

Both in 1945 and 1946 the Squaws, starring Mildred Taylor at foward and Lila Robason at guard, have represented this area in Texas State competition, and are admittedly one of the best girls teams seen in this area in some years.

Texico to Play Grady Friday Night Here

Grady will give the Texico Wolverines a chance to do their stuff, Friday night, January 17, on the Texico court. So far the Grady boys have been undefeated, while Texico boys have won 9 games and lost 3, although Grady has won more games, it is believed that the Wolverines will give them plenty of competition.

The Grady girls will also play the Texico girls, making it a full evening for the visitors.

Both boys and girls of Texico, will play the teams of Pleasant Hill Saturday night on the Pleasant Hill court, a good game is expected, and all are invited to attend.

We understand that the nudists who recently held a convention in New York wouldn't even permit a book in camp if it had a jacket on.

Veterans Eligible For Vocational Training

Ex GI's who are farm operators will be interested in knowing that they will have an opportunity to attend one of the Vocational Agriculture Schools for Veterans' now in operation or soon to be established in Parmer County, Loyde A. Brewer, Veterans' County Service Officer announced today. Such a school is now in operation in Friona, and it is planned to start one in Bovina by February 1st, and in Farwell as soon as a sufficient number of veterans enlist and a qualified instructor can be obtained.

In order to qualify one must be a farm operator, either owner or renter, Brewer said. There will be ten and one-half hours of instruction per week, consisting of one afternoon and two night classes per week, with allowance for time off for harvest seasons, holidays, etc., with thirty days annual leave and thirty days sick leave per year. All veterans who are enrolled will receive subsistence allowance from the Veterans Administration in the amount of \$65.00 per month if single, and \$90.00 per month if they have one or more dependents.

All interested should see the county service officer in the county court house as soon as possible and make application for certificate of eligibility. At least twenty veterans must be eligible before a school can be started, so all are urged to act as quickly as possible.

Veterans of World War II who have allowed their National Service Life Insurance to lapse have until February 1, 1947 to have it reinstated without a physical examination and with the payment of only two

months premium. Also, the proceeds of the terminal leave pay bonds now in the hands of many veterans can be applied on National Service Life Insurance premiums, in whole or in any part.

Tickets For Gloves Tournery On Sale

Attention sports fans of New Mexico! If you desire to attend the first Annual New Mexico Golden Gloves State Tournament, then order your tickets now, as only 1500 tickets are available for each night. For further details on the first Annual New Mexico Golden Gloves Tournament contact Station KICA, Clovis, New Mexico.

An electric roaster is an ideal appliance for homemakers living in temporary quarters who do not want to invest in a full size cooking range. Roasters may be had with broiler and frying pan units for those who are dependant upon a roaster for all cooking.

Texico Downs Rosedale Saturday Night, Jan. 11

One of the best games of the season was played Saturday night January 11, when Texico downed the Rosedale Cowboys in a close game, the final score reading 23-27, Texico. Fought was high man for Texico, chalking up 14 points, followed by Baldock with 5 points. D. Massey and Holtman of Rosedale tied for scoring honors with 10 points each. The Wolverines and Cowboys put on a good show for the visitors and gave Bill Merdith, the referee, plenty to do. Rosedale got of at the start in the lead with 8-5, but dropped behind at the half with Texico leading 17-13. Both Rosedale and Texico missed most of the free throws because of the tenseness of the players. Texico made 6 of 17 throws, while Rosedale made 7 out of 19.

The Texico girls had little trouble with the Rosedale girls taking the lead in the first quarter and remaining ahead throughout the game. Texico led at the half with 16-7. Bridges counted 12 points for Texico, while McDaniels looped 10. L. Price was high for the losers, making a total of 8 points, Texico won by a margin of 13 points making the total and final score 28-15.
