

Plan For Soil Conservation Election

W. L. Edelman, of Friona, polling superintendent for the Parmer County Soil Conservation District, was here the first of the week making preliminary arrangements for the soil conservation election soon to be held in this county.

Edelman said that the date of the election will be set by the State Soil Conservation Board, and election booths will be opened at seven polling places in the county. Election officials were chosen this week and will be asked to serve without remuneration.

In order for the county to secure a soil conservation district, and become eligible for the benefits to be derived, the election must carry by a two-thirds majority. Only actual landowners and their wives may cast ballots in the election.

The following election officials were named and will be asked to serve when the election date is announced by the State Board:

Black-Summerfield—Ray Euler, judge; Mrs. Clyde Hays, Mrs. O. B. Roberson, clerks.

Friona—S. L. McLellan, judge; Mrs. J. G. McFarland, Mrs. Wesley Hardesty, clerks.

Bovina—I. W. Quickel, judge; Mrs. M. L. McFarland, C. R. Elliott, clerks.

Farwell—Frank Phillips, judge; John Armstrong, Lester Norton, clerks.

Lazbuddy—Albert Carroll, judge; Glenn Dunn, Aubert Wilson, clerks. Oklahoma Lane—C. C. Christian, judge; J. I. Gober, Buddy Jones, clerks.

Rhea—Jack Woltman, judge; Melvin Sachs, Oscar Baxter, clerks.

Williams Announces Public Auction
W. B. Williams, who lives on the Eddie Smith farm one mile north and three east of Farwell, has announced a public sale of his personal effects on Tuesday, November 4, beginning at 10 a. m.

Sixteen head of cattle, and 9 hogs will be featured in the auction to be conducted by Col. Dick Doshier of this city. Farm implements and some furniture are also included in the offerings.

The terms of the sale will be cash and two clerks, Frank Doshier and Orval Francis, will be on hand to handle the money. A complete list of the offerings will be found in this issue.

New Baptist Pastor Arrives For Work
Rev. E. M. Treadwell, the new pastor of the Baptist Church, arrived here with his small family of a wife and one child last Thursday afternoon, and the Treadwells are now comfortably located in the newly-decorated parsonage.

He occupied the pulpit at both hours last Sunday. At the 11 o'clock hour, the new minister chose to talk to his new congregation "out of our hearts" on some matters, rather than deliver a sermon.

Rev. Treadwell made it plain that he was here to do the work of a minister and had no intentions of compromising with evil in any form. He said that he did not claim to know everything about being a pastor, but hoped to learn more as the years pass. "I am here to preach the old-time gospel," he told the congregation.

Christmas Spirits Already Gone

Stanley Stewart had made big plans for celebrating this coming Christmas in grand style, but now he says he will just hang up his sock and see what happens.

Stanley says that he had a quart of gin and a half gallon of wine that promised to afford him plenty of Christmas merriment.

However, when he and the family returned home from a movie one night last week, he observed the two empty containers and a couple of glasses sitting on the dining room table.

The visitors were not entirely ungrateful, for they left a brief note, which read: "Thanks".

Texas Car Owners Must Exhibit State Licenses

Highway Patholman McNeal was here the first of this week and called attention to the fact that Texas residents who are driving automobiles with out-of-state license plates would be required to buy Texas license plates on and after November 1st.

Not only that, but McNeal had some bad news for New Mexico truckers who have been in operating in Texas without Texas license tags. After November 1st, all New Mexico truckers operating in the Lone Star state will be required to attach Texas plates to their trucks.

McNeal explained that the order, issued by the Texas Highway Department was in keeping with an order passed some few weeks ago in Austin. Texas highway officials took this action when it became increasingly apparent that New Mexico was not abiding by the reciprocal agreement entered into some few years ago between the two states, whereby a certain amount of traffic would be allowed between the two states.

Patrolman McNeal said that Texas residents caught on the highways with New Mexico plates would be subjecting themselves to a fine, and likewise, New Mexico truckers operating in Texas without Texas plates would also be laying themselves liable to arrest.

Three Divorces Are Granted In Court

Three divorces were granted in Parmer County District Court last Wednesday, after which court was recessed to Wednesday of this week.

County Clerk Loyde Brewer said divorces were granted in the following instances: Ben H. Smart vs. Betty M. Smart; Sam Quisenberry vs. Maggie Quisenberry; and Earl Day vs. Thelma Day.

Judge C. D. Russell is expected to begin action on a number of delinquent tax suits today (Wednesday).

Cason Jones Now In Charge Consumers

Cason Jones of Friona, has succeeded Bill Eberting as general manager for the Consumers Fuel Association at Bovina, it was learned here late last week.

Eberting has gone to Laketon, up on the north plains, where he will act as manager of a similar organization.

Tribune job printing is best.

Tribune Begins 37th Year In Farwell

With this issue, The State Line Tribune begins its 37th year of publication in Farwell, and with the exception of the Capitol Freehold Land Trust, is the oldest established local institution.

The present publisher has been at the helm of the paper for the last 21 years. Coming here from Melrose, N. M., W. H. Graham bought the newspaper from Stanley Seigler.

Mechanics Schooling Offered Veterans

Wilfred Quickel, instructor of the Veterans class in vocational agriculture that is conducted in Farwell, stated today that another school for vets was available to the ex-GI's of his community who are desirous of receiving the instruction.

The course to be offered qualifying veterans would be in mechanics, and would feature tractor and automobile repair, with the instructor to be a local mechanic, preferably a former, GI. The requirements include a certificate of eligibility, issued by Loyde Brewer, local veterans advisor, and class attendance at a minimum of 26 hours per week.

Quickel said that funds for the school had already been assured, and the only contingency now is the enrollment of at least 16 students for each class. This program, he explained, differs from other similar programs, in that the veteran does not have to be following a mechanical trade to qualify for the instruction. "We can even teach soda jerkers under this program," he added.

Veterans of this community who are interested in receiving this mechanical instruction are asked to contact Quickel at once and make the proper application for enrollment. The program is not limited to one class, but at least 16 must be enrolled before any class can start.

TATES HERE THURSDAY

Mr. and Mrs. J. P. Tate were here from Lubbock last Thursday, gathering up the last of their effects to move to their new home in the Hub City. They recently disposed of their interests here, and have become associated with their son, John Francis, in the operation of a small truck line, operating between Lubbock and Amarillo.

COMMISSIONERS MEET

The Parmer County Commissioners Court was in session here Monday. Aside from regular routine matters, the Court passed an order agreeing to reimburse the Southwestern Public Service Company for "actual cost" in re-setting approximately 6 1/2 miles of electrical lines from Friona to Hub, in order to make room for the farm-to-market road soon to be constructed along the route.

No sense and nonsense cause most accidents.

Has Narrow Escape When Hit By Train

W. E. Martin, prominent dairyman living two miles southeast of Farwell, is recovering satisfactorily from injuries sustained late last Wednesday afternoon, when he was hit by a Santa Fe switch engine in the local yards, near the Henderson elevators.

He escaped with head injuries and body bruises on the right side as the engine struck his small pickup while he was crossing the main line of the Santa Fe tracks just north of the elevator. The train was traveling at a slow speed when it plowed into his truck, dumping it some 20 feet off the crossing. The truck was badly damaged.

When taken to a Clovis hospital in an unconscious condition, it was feared that the injuries might be serious, but Martin rallied within a few hours and has improved steadily since that time.

Martin said that he had been to the Henderson warehouse to dump a load of grain and was on his return when struck. He added that he never saw nor heard the approaching engine, and "couldn't believe it" when he was told that he had been hit by a train.

He was sitting up Tuesday afternoon, and expected to be out again "in a day or two".

Jury Gives Hinkston \$2295.00 Judgment

A jury in County Court last Thursday awarded Chas. Hinkston, et al, a judgment of \$2295.00 for damages incurred by routing a new farm road across his premises in the Lazbuddy community.

Previously, a Jury of View appointed by the Commissioners Court of Parmer, County had appraised his damages at \$550.00, and Hinkston had appealed the case to County Court when he expressed dissatisfaction over the appraisal.

County Judge A. D. Smith stated Monday that the Commissioners Court, in session here on that day, had passed a resolution declining to accept the findings of the jury in awarding Hinkton the \$2295 damages, and added that the road would not be built across his premises. "With the county operating expenses mounting higher every month, we simply do not have the funds to pay that amount," Judge Smith stated.

Three Boys Compete For Jersey Heifer

Three Parmer County 4-H Club boys—C. W. Grissom, Donald Christian and Arlyn Kriegl—were competing for a Jersey heifer which will be awarded by the Sears-Roebuck Foundation in a special contest for clubbers, County Agent Ollie Liner said today.

The boys, all of whom were first required to pass written examinations before becoming eligible, have written essays on "Why I Chose a Dairy Calf for a Club Demonstration" and these writings will be judged this week by members of the Parmer County Dairy Club board of directors, with the winner to be announced following the judging.

Parmer County became eligible for the Sears-sponsored contest by the number of boys who are enrolled in 4-H work, Agent Liner said, adding that several other counties were also designated. The Sears Foundation offers \$150 to each county toward purchase of the prize heifer.

All contests from this county have been active in club work at Oklahoma Lane, from five to nine years, and have already won honors at various county and regional shows with their dairy animals.

PREVIEW SHOWING

Scotty Levins of the Border Theatre, announced today that a special Halloween preview would be shown here on Friday night of this week. The preview will start at 11 p. m. The picture to be featured will be "The Return of the Ape Man".

Leon, two-year-old son of Mr. and Mrs. Chas. Lovelace, was taken to the Parmer County Community Hospital in Friona the first of the week, where he is receiving treatment for a throat ailment.

NEW YEAR'S HORN SOUNDS . . . Rabbi Isaac Israel, 76, of the Home of the Daughters of Jacob in New York makes this impressive picture as he blows the ram's horn, or "shofar," signifying the end of the Jewish New Year celebration. The "shofar" also is sounded to introduce the New Year period, this year marking the beginning of the year 5708 in the Jewish religion. Observances this year were marked by memorial services for Jews who died through persecution.

Roberts To Operate Feed Lots In Texico

M. C. Roberts of the Roberts Seed Company, today announced plans to open extensive cattle feeding lots in Texico in the near future.

He said that pens for the accommodation of 400 cattle were being erected just west of the stock yards, and already a small number of cattle are on feed. Roberts added that he expected to have at least 100 on feed, within the next few days, when delivery can be obtained on purchases already made.

"I had planned to launch a cattle-feeding program here, but I think now I'll go a little slow and see what Congress does with the price-fixing program," Roberts added.

Fair Attendance At Mens' Club Meeting

Only a fair attendance greeted the first Fall meeting of the local Mens' Club when it resumed activities last Thursday evening at the Methodist Church.

In opening the session, Chairman Henderson observed that the Club had done some good work in the past, and he wanted to see it take on its former status. The only business transacted was the appointment of Odus Huggins as a committee of one to see that Christmas street lighting was carried out again this year.

Bob Stone and C. C. Cagle of Clovis, were here in the interest of the Boy Scout program, and Stone told of his experiences traveling down the river by row boat from Mexican Hat, Utah, to Lee's Ferry, Ariz., as described in the National Geographic of August, 1947.

Prior to that, Stone presented an American Flag to the Texico Scout Troop in behalf of the local WOW Camp.

Supt. O. T. Loyd of the Farwell was introduced upon his first visit to the Club.

Meetings are being resumed monthly on the third Thursday night of each month at the usual gathering place, Chairman Henderson stated, and asked that full attendance on the part of the men of the two towns.

MOVE TO LUBBOCK

Mr. and Mrs. Lewis Davis, who have operated the bulk plant of The Texas Company here the past nine months, moved their household effects to Lubbock, Wednesday, and will make their home there, from where they originally moved to this city. They sold their interests here recently to Woodrow Lovelace, who became consignee for The Texas Company.

CONDUCTS SALE

Mrs. Z. W. Petree conducted a public sale at her home on the southeast corner of the Farwell townsite, Tuesday afternoon, disposing of her home and household effects. She plans to go to California with her daughter, Mrs. Henry Royal, to make her temporary home.

More Irrigation Wells Go Down In Parmer

Continued interest in artificial rainfall for Parmer County crops is being manifest by county farmers. Agent Ollie Liner, said this week, with his office receiving almost daily calls concerning location of irrigation wells.

With the weatherman steadfastly refusing to spill any moisture over this drought-stricken area, more and more farmers are seeking the solution to the water problem by sinking wells on their property. The majority of new wells are reported to be in the Lazbuddy and Lariat areas, where water is reached nearer the surface of the ground.

Asked as to the general price run of an irrigation set-up, Liner said that new well owners on the south side of the Santa Fe tracks, which bisect the county, report that the outlay usually runs around \$6,000 to \$7,000, while on the north side of the tracks, where the water level is deeper, the wells cost as much as \$10,000.

At present, farmers seem to encounter little difficulty in getting a well in operation, with drilling rigs and pumps being readily available, Liner, said.

Local Boy Member Of Winning Tech Team

LUBBOCK—A wool judging team from Texas Technological College won top honors in the contest in connection with the American Royal Livestock Show held recently at Kansas City, Mo. The Tech team made 1806 points, with second place Nebraska University totaling 1727.

Texas Tech took first place in judging commercial classes and breeding classes and second place in wool grading, Prof. Ray C. Mowery was coach.

Horace Underwood, student from Garden City, was high individual in the contest, taking first individual honors in judging commercial classes and second in wool grading. Other Tech team members taking individual honors were Herman Henson of Farwell, third place in entire contest, third in breeding classes and in wool grading; and George Elliott of Anton, fourth in entire contest, first in breeding classes, third in commercial classes.

The team, which also included Carl Dyer, McLean; C. L. Brownlow, Hereford; and Charles W. Bordner, Lubbock; placed 12th in the livestock judging contest. Henson won fourth individual honors in judging polled Herefords and Dwyer took ninth in judging horses and mules.

Mr. and Mrs. Clifford Bosler, both employees of the Sikes Motor Company, left here the first of the week for Denver, where he was in attendance at a mechanics' school, conducted by the Ford Motor Company the first three days of the week.

Mr. and Mrs. Olan Schleuter and Peggy, Mrs. Alvenia Sharpe, Mr. and Mrs. A. F. Phillips, Jr. and Linda Luann spent Sunday at Field, N. M., with Mr. and Mrs. Claude Thomas and Edna Ruth.

Help In Sight On Noxious Plants

COLLEGE STATION—A project aimed at control and practical methods of eradication of noxious range plants has been set up under the Research and Marketing Act, according to word received at Texas A. and M. College from E. A. Meyer, administrator of the new act. The project has been assigned to the U. S. Forst Service.

It is estimated here that loss to Texas ranchmen from such plants is around \$20 million a year.

The Forest Service, according to the Washington announcement, will set up "a study of the ecology and physiology of certain noxious range plants. The work, which will be conducted in the southwest, will be aimed at finding better control or eradication methods based on fundamental principles."

Pioneer work on eradication of such plants, both by mechanical and chemical means, has been done in Texas by R. R. Langcaster, extension pasture specialist, and M. R. Bently, extension agricultural engineer, in cooperation with Virgil Parr of the Soil Conservation Service's range studies research division, ranchmen and county agents: H. P. Smith, agricultural engineer of the Texas Agricultural Experiment Station; D. A. Anderson, Texas Forest Service; R. E. Dickson and C. E. Fisher of the Spur substation; R. A. Hall, Beeville substation; and W. H. Dameron and I. B. Boughton of the Sonora substation.

Tech Coeds Still Favor Sweaters, Short Skirts

LUBBOCK—Attention, buyers for women's ready-to-wear shops—here's another scientific fashion survey.

Only this one is different. It discloses what college girls are actually yearning on the campus, rather than telling what they "say they want" or what the "general public" says

they should wear".

The "average" coed at Texas Tech this fall is failing to follow Paris dictates, and is comfy in a sloppy Joe sweater and a straight plaid skirt that reaches just a little below the knee. And this without benefit of an organized LBK club. The most popular color is gray, with brown, blue, green and red following in that order.

These facts were discovered by a Home Economics class in merchandising whose members took fashion counts in campus buildings during class honors.

However, the scene is changing. Slightly more than one-fourth of the Tech girls have dropped hemlines to midcalf or even lower for daytime wear, and almost one-third are wearing the new flaring skirts. Almost one-fourth of the coeds have adopted tailored dresses for classes, rather than the traditional skirts and sweaters. Fourteen per cent choose suits.

And here's something that may come as a surprise. While no one would predict that bobby socks are on the way out, still it was noted that eight per cent of the Texas Tech girls wear hose, and 61 per cent attend classes wearing neither hose nor anklets.

AN "ADOPTED" FAMILY

COLLEGE STATION—There have been many stories of the adoption of destitute European families by Americans. But here is a story of the adoption of a Texas family by a Texas group.

When a tornado hit the little town of Higgins last spring, the destruction was equal to any "blitz". Assistance for the stricken town poured in from all over the country.

Members of the Heim Home Demonstration Club in Hartley county knew that it would take time for family life to recover from the loss of home and property. So they decided to "adopt" a Higgins family.

The ladies of the club met together last month and canned 100 quarts of corn and 30 quarts of green beans to be delivered to their adopted family, a concrete example of the kind of help they are giving.

The project has been very popular with every one in the community. Norma Lee Lantz, county home demonstration agent, says, and other clubs in the county are adopting families, too.

Farmers Home Administration made new adjustment loans to 23,654 veterans, amounting to \$30,159,937 during 1947.

True Stories of West Texans

(By N. H. KINCAID)

FOR THE LOVE OF JIM GRILLIKY

Joe McCombs wanted that black stallion. "I tell you, boys," he declared, "he's the finest boss in all West Texas!" And Joe, official skinner and camp jester of the Poe-Jacobs buffalo hunting outfit, made plans for the day. "I'm a-goin' to get him, or bust a hamstring," he muttered. "I'll just crease old 'Jim Grilliky' with my sharps so's I can tie him up good and then I'll break him in for my special mount."

Early the next morning Joe left camp to go catch his 'Jim Grilliky,' as he had named the stallion. Luck was with him and just after getting out over the rise to their east, he saw the big black and his harem. Slowly he inched his way forward, keeping to the lee side of the herd so they could not get his smell. But old Jim Grilliky soon scented trouble and before long the entire herd was restless. Joe knew that he had better shoot before they stampeded.

To "crease" a horse he must be shot exactly on a certain nerve of the neck just back of the head. This produces temporary paralysis. Only an expert shot would risk this, but Joe was an expert shot. He was credited with having killed 4,900 buffalo in the Signal Peak vicinity during the one hunting season.

So Joe "ups and busts loose" with his old buffalo rifle and succeeded in hitting the stallion right in the exact spot on the neck. Jim Grilliky stretched out neatly and Joe fairly cut the breezes going to him. He must tie him up while he was yet stunned. Reaching for his lariat Joe suddenly realized what he had done. His rope had been left at camp.

But Joe was determined to have that stallion. Hesitating briefly he pulled off his trousers, picked up his skinning knife, and set to work. Within the time allotted himself he had his horse all securely tied with his improviser lariat, and stepped back to watch the fun.

But something had gone wrong. Jim Grilliky lifted his head feebly and then, dropping it with a deep sigh, stretched out, stiff.

Eventually Joe had to face the facts. There he was, afoot, in the midst of catclaw, and dressed only in his soiled old shirt. And it was four torturous miles back to camp!

Back at the hunt, the day had passed with its usual amount of excitement and Poe and Jacob had paid little attention to Joe's failure to return. But around midnight, as they were cooking a delayed supper, Joe came limping in.

And a most disreputable looking object he was! Scratched, bleeding and blistered but strangest of all, quite trouserless and "in the oltogether" from his waist down!

But Joe was not seriously hurt and try as they might, the two men could not keep a straight face. "Why man," Jacobs ejaculated heartily, "the Comanches have scalped the wrong end of you!"

In the first four months of 1947, 124 million pounds of peanuts were exported by the United States.

GAS AND LIGHT FOR BRITONS . . . The tall stacks of Battersea power plant, near London, loom over huge coal stockpiles which, it is said, will assure domestic British consumers of sufficient gas and electricity during the winter months without rationing.

Underground Water Survey To Be Made On High Plains

LUBBOCK—The first complete survey ever undertaken of underground water resources of the High Plains will be made under supervision of a newly established field office in Plainview, high officials of the Texas Board of Water Engineers and the U. S. Geological Survey announced in Lubbock Thursday.

The High Plains, they explained embrace about 23 counties, bounded by the Canadian river on the north, the caprock on the east and south and the Texas-New Mexico line on the west.

The plans were detailed by E. V. Spence, chairman of the Board of Water Engineers; W. L. Broadhurst, district geologist of the ground water division of the Geological Survey; and Trigg Twitchell, hydraulic engineer of the survey, all with headquarters in Austin.

Enroute to Austin from the southwest section convention of the American Water Works association in Amarillo, they spent several hours in Lubbock conferring with Rep. George Mahon, City Engineer John

Ruhmann and other city and chamber of commerce officials.

The officials explained that while the two agencies have accumulated considerable information over a period of years about underground water in the area, they have little more than scratched the surface of the job to be done.

This is the first time, they added the money has been available to start the job with reasonable assurance that it could be done thoroughly and completely. The information obtained, they said, should enable residents of the High Plains to know definitely for the first time just what they have and upon what they can depend in the way of underground water.

They said the work should supply the answers to such vital questions as: where the underground reserve comes from; whether it can be replenished through such methods as draining back into reserves the water from the innumerable "lakes" which form after rains, and movement of the underground reserves.

The studies of the movement of the water, they explained, should help to answer definitely whether a large number of wells in such a typical area as Hale County will affect production of wells in Lubbock

County, which is at a somewhat lower altitude. The supposition is that the underground movement generally is from the north to the south and southeast.

The office emphasized that the work is not being undertaken with the idea of seeking regulation of well drilling.

"Our purpose is to obtain information which will be as complete and reliable as possible," Spence explained. "This will be presented to the residents of the area affected. It will then be for them to decide the course they want to follow."

The work will involve great detail, it was explained, including the gauging of the production of as many as possible of the thousands of wells on the High Plains, and regular measurements of water levels to determine whether underground tables are falling.

The work, according to the officials, will be under the direct supervision of J. R. Barns, formerly of Spur, as engineer in charge, and W. C. Ellis, as geologist. Both are graduates of the University of Texas and have been transferred to Plainview

from Austin.

A third engineer now in Arizona, probably will be transferred to Plainview in the near future to complete the immediate staff, officials added.

COMPLIMENTS RAILROADS

"I am not a transportation expert, but I do come into contact with the transportation problem frequently . . . and I have learned of the truly magnificent job both the railroads and the shippers have been doing in placing our distribution system, channeled toward war for so many years, now back on a sound peacetime basis. The change-over to a war footing was a tremendous task, carried off so smoothly it must have taken the enemy's breath away. Now, despite unprecedented peacetime demands and shortages, the job is being done smoothly again to meet peacetime needs."—John L. Bohn, Mayor, Milwaukee, Wis., July 10, 1947.

John Paul Jones' body was brought to this country from France in 1905 aboard the USS Brooklyn.

"Bonanza" * * * You'll share new thrills in reading entertainment! Watch for the exciting stories of the fabulous Comstock lode and other great treasures. Begin "Bonanza", a dramatic new series in THE AMERICAN WEEKLY, that great magazine distributed with next Sunday's Los Angeles Examiner.

The collection of rare books at the University of Texas is one of the finest in the world.

ANYTHING FOR A THRILL . . . Some people will do a lot for publicity. Take this guy, for instance. He probably has a wife and three sweet children waiting for him at home. Chances are his ulcers don't bother him too much. He has a good job. He has, in short, everything to live for, but still goes skinning around on this vicious looking rock. (It's part of Big Slide mountain in the New York Adirondacks.) Worst of it is, he doesn't even get his name in the papers.

Reveals Hardships

(Continued From Page 1)

listed in the army, and the Czech farmers had to deliver as much as the German farmers.

Then the end of the war! The German population evacuated the land ordered by their administration when the Russians advanced and flew to the west with a part of their movable property. An immense stream of people in flight rolled from the East to the West, but were got over by the Russians and sent back. The scenes that took place on those streets were horrible. The greatest part of the refugees lost their last things on the streets; the horses were confiscated and the valuables stolen by the Russians. But our real mischief began when we reached our home town. The houses were plundered by the Czechs in the neighbor villages, that left lay around des-

tructed. We were received by armored Czech military and had to be registered by the Czech National Committee in the neighbor village and got a temporary permit to stay. What happened later on was horrible and is hard to express in words. Lots of men were murdered most cruelly, most of the rest came into concentration camps or jails, where their food was "thrashing", so that some one kept laying in his blood. Lots of men and also women were brought to the East, by Russians from where they didn't come back till today. Countless men and women suicided in despair. In addition the Russians plundered constantly guided by the Czechs into the German villages and someone was stripped off to the shirt. German wives and girls were rape dby the Russians, parents and husbands were often forced to look at those scenes. The health of a lot of girls and wives were ruined till today by VD. After this Russian intermezzo the real Czech dominion began. Within the shortest time, German people had to work as labor slaves—in mines, on farms, in manufactories and under business men. This happened so: The Germans had to gather at a certain place, there were also the Czech employers waiting and now the Germans were divided between them, just as on the slave market, and sometimes the Czechs pointed them out. Those who didn't get work by this system were commanded to work or serve in other far away places. Without any human regard, families were separated; boys of 15 years came into coal mines, separated from their families, working there even now against all rights.

All Germans were obliged to wear a white circular labor (15 cm broad) with a black circled N (Nemec-Duetscher) on it for distinction. He who had the mischief to be seen without that label was thrashed and had to pay 200 Kcs as a fine and also was put into jail. Germans were not allowed to use the railway, cars or bicycles. There were ration cards for Germans but without meat, flour, fat, milk and eggs. There were no possibilities to get some clothing. You had to have a pass while visiting the town or the neighbor village to visit family members was permitted only with a written authorization of the National Committee (Narodno vabor). Often the Germans were treated most badly on the streets, insulted and spied at. Factories, houses and restaurants were occupied by the Czechs, German property was confiscated and overtaken without the slightest endorsement, they were simply chased away. In the district town Neu-Titscheih, the German population was driven together by Czech military in one night of terror, the families separated and brought in a two hours walk to Zauchtel, without any luggage, loaded into wagons for goods and brought to Saxony (Pirna) where they were unloaded and given to an uncertain fate. Without any reason, German people had to stay on the wall and were shot down.

And finally the evacuation came for us. We had to leave the rest of our property and come into an evac-

uation camp with 50 kilos of luggage. He who had some kilo more was badly plundered. The women were stripped of their jewelry, rings from their fingers, earrings from the ears, watches from all men and women, the savings bank books and identification cards, certificates and so on. 30 persons with their luggage were loaded into one wagon and it took 4 days to bring them to the German border. Our transport was much insulted by the population of the suburbs of Prague and received by a rain of stones, so we had also wounded people. At last we reached Bavaria as beggars, but we were glad to have saved our lives through the hell of Czechoslovakia life, even if poor and in despairing circumstances, but as free persons.

Prison Rodeo Draws Crowd To Huntsville

HUNTSVILLE—Millionaires mingled with mendicants at the third performance of the Texas Prison System's four all-inmate rodeos here last Sunday, the 26th, and no one felt particularly bad about it. In fact, among those present was

State Treasurer Jesse James of Austin, who holds the keys to the vaults of the Lone Star State with a tight hand. James was an object of much envy to every performer and inmate spectator in the audience, for all were willing to trade bonds with him.

Meanwhile, several other country boys were "sho-nuff knocking at the gate" of the penitentiary. They were lads who ordered tickets by mail and paid for them with rubber checks. Little complaint at such practice was heard from officials of the Prison System, since they feel that they have a right good place for such people.

The Federal Government was represented by a squad of T-men from Houston, who eased about through the crowd putting the fear of Uncle Sam on a handful of ticket scalpers. The old gent with the whiskers also had a handful of G-men stashed around, just in case they were needed, while scads of Highway Patrolmen kept traffic troubles to a minimum.

As far as the show itself was concerned, some 25,000 people sat—or tried to sit—through a two-hour pro-

gram that featured bankrobbers and burglars contesting sneak-thieves, rustlers, murderers and kidnapers for prize money. These men also kept a wary eye on certain passages marked "Exit" but prison guards hanging around the holes goose-egged all attempts at French leave.

At four p. m. the show was over. The performers were hustled back behind the barred doors and when the double-entry books on "Men Out" versus "Men In" had been balanced, the dust was allowed to settle in the arena. Another rodeo, a symphony in stripes, faded away as the last few bars struck. Time, for the inmates, was clogging along.

Top o' Texas Breeders Show, Sale Date Set

PAMPA—The dates for the 1948 Top o' Texas Hereford Breeders Annual Show and Sale have been set for February 23 and 24, according to an announcement by L. A. Maddox, President of the Association.

Col. Earl Gartin and Walter Britten have been engaged to cry the sale.

The Junior Livestock show will again be held in connection with the Breeders Show & Sale. Last year's Top o' Texas Junior Livestock Show was one of the top sales of the Southwest, with the Grand Champion steer bringing \$2 per lb. This show will bring together FFA and 4-H club boys from Wheeler, Roberts and Gray counties. There will be two divisions this year showing fat steers and fat pigs. There will be no fat lambs this year as in the past.

The Junior Show is sponsored by the Agriculture Committee of the Chamber of Commerce, of which Arthur Rankin is chairman.

Here's good news for your car's 'winter blues'. When we tune it to winter temperatures, it's always fair weather for driving. So drive your car in for a complete check-up. Get rid of those trouble starters now—drive in today.

NEW CHEVROLET MOTORS—We can install new Chevrolet passenger motors, 1937 through 1946. We have them ready to go.

Goblins And Witches Groom For Friday

Witches, goblins and black cats will gather at the Farwell school auditorium on Friday night of this week, to enjoy the annual Halloween carnival staged by students. The doors to the carnival will open at 7:30, and gate admission will be free, officials of the school advised today.

There is practically no end to the variety of entertainment to be offered the fun-loving public, and in addition to all types of booths, arrangements have been made to look after the "inner man" with several concessions being set up to dispense homemade pie, candy, coffee, hot dogs, pop, etc. The youngsters are guaranteed their chance for fun with bags of confetti and a junior fish-pond to find prizes.

Bingo, the hall of horrors, fortune telling, a doll rack, country store, a cake walk, ducking board, and basketball toss are included in the various booth plans, with every class in the school offering some sort of entertainment, and several organizations also making large plans.

Highlighting the evening will be the coronation of the grade and high school queens, with proceedings to start at 10 o'clock. Voting on the two queens will close at 9:30 promptly, with the booths to be shut down by 9:45, in order that the coronation may proceed without interference.

The junior class, under the direction of Mrs. Earl Booth, is in charge of the crowning.

On information received last Friday, it appears that Angela Williams, of the third grade, is leading in that division, while senior candidate Nina Loe was listed out in front in the high school race.

All aspirants to the crown, with their escorts in attendance, will be in the court of honor.

Patrons of the school are urged to be on hand when the doors open and stay for the finale of the evening with a guarantee of an entertaining evening given by the students and teachers.

Pink and Blue Shower Tendered Mrs. May

A pink and blue shower honoring Mrs. Denver May was given on Wednesday, October 22, in the home of Mrs. Edgar Blain.

Many lovely gifts were attractively displayed around a stork, who stood guard in a basket.

Those attending were Meses. Henry Jacks, P. M. Owens, Levi Reid, B. O. Faville, Leona Bailey, Velma Houston, Leta Stout, E. G. Blair, Hershel Morgan, T. J. Randol, Willie Goldsmith, Homer Dykes, Chas. McDaniels, Reuben May of Clovis, Juanita Hager, John Hadley Jr., Doris Tucker, Roscoe Burris, John Gant, Lennie Ingram, Ray Mears, Preston Cain, Russel Johnson, Jim Young, and Monk.

Regrets were received from Meses. Joe Morgan Elmer Bridges, Charlie Shaw, Jerry Paul, C. E. Sanders, D. Smotherman, R. H. Dyson, Dorothy Hollman T. W. Reid, Jim Moore, A. S. Alfred, Bob Drace, Rupert Paul, Sam Randol, W. J. Matthews D. J. Brown, Truman Doolittle, Les Means, Paul Huber, J. A. Jones, M. L. Ducas, Perry Crawley, Chas. May, Noble Goldsmith Otis Ford, J. R. Hadley Sr. A. D. McDonald, and Misses Mildred Moore, Vera Morgan and Ginger Hagler.

Lovely refreshments, featuring lemonade with pink and blue ice cubes, and cake, were served.

DAC Luncheon Held In Portales Home

The Daughters of the American Colonists entertained the members of the state society organized by Mrs. John D. Brown of Clovis by giving a luncheon in the home of Mrs. R. B. Allen in Portales, with Mrs. R. B. White as assistant hostess.

Mrs. Merle B. Mann, sister of Mrs. A. D. Smith of Farwell, was the honored guest. Mrs. Mann, of Jacksonville Florida, is one of the organizing members of the New Mexico State Society.

The luncheon was served at small tables centered with fall garden flowers. Clever place cards made of feathers in a Mexican bird design, seated the twelve members.

Social For MYF Held On Friday Evening

Sonny Graham entertained at the Graham home in Farwell last Friday evening with a wine roast, honoring the Methodist Youth Fellowship.

Those enjoying the informal evening luncheon included Mr. and Mrs. Loyde Brewer, sponsors of the group, Selva Park, Jean and Peggy Rogers, Mary Ruth and Hazel Petree, Warlick Thomas, Toby Booth, A. C. Hennehan, Rosamond Booth and four visitors Wanda and Pauline Sheets, Valarie Dial, Raymond Jesko, and the host, Sonny Graham.

After the young people had enjoyed the preliminary eating, they played a number of parlor games until about ten o'clock.

Mrs. F. G. Green returned home from Missouri the latter part of last week, where she had been visiting relatives and friends for a month.

Mr. and Mrs. Jess Herbert Pipkin, of Canyon, were weekend visitors in the homes of Mr. and Mrs. O. B. Pipkin and Mr. and Mrs. Travis Brown.

SHADES OF THE PHAROAHS . . . Eddie Niederhauser, golfer, is not trying to drive the ball over the 5,000-year-old great pyramid of Gizeh—especially out of a sand trap. He's merely trying out the new nine-hole golf course near Gizeh, Egypt, and probably wondering if the old pharaohs are spinning in their graves like egg-beaters every time they hear a cry of "Fore!"

Wedding Rites Held At Oklahoma Lane

An impressive double-ring ceremony was held on Sunday, October 12, uniting in marriage Miss Alene Williams, daughter of Mr. and Mrs. H. A. Williams of Portair, and Earl Sparks, son of Mr. and Mrs. Clyde Sparks, of Texico.

The ceremony was performed at 3:30 p. m. in the Oklahoma Lane Baptist Church with Rev. J. T. Burney, pastor, reading the vows before an altar of white and yellow carnations and pink roses.

Pre-nuptial music was played by Earl Roberts, including "My Isle of Golden Dreams", "I Love You True" and "Indian Love Call". Mrs. J. C. Ponce, of Clovis, sang "You Belong to My Heart", accompanied by Mrs. Sterling Donaldson at the piano. The wedding march was also played by Mrs. Donaldson.

The bride wore a street-length dress in sky-blue and carried a white Bible topped with a spray of pink roses. She was given in marriage by her father. For "something old" she wore a pearl necklace belonging to the groom's great-grandmother, Mrs. H. B. Stephens of Matador.

Matron of honor was Mrs. Wendol Christian, who wore gray gabardine with black accessories and had a shoulder corsage of pink roses. J. C. Boone, of Clovis, was best man. Mrs. Sparks attended Clovis schools, and Mr. Sparks attended the Texico schools. He is now employed by the Santa Fe shops, and they will reside in the Portair community.

High School Honor Roll Announced

The following students have been listed on the honor roll of the Texico High School for the past six weeks, according to Supt. B. A. Rogers:

Freshman—D. P. Brown.
Juniors—Peggy and Jean Rogers
Seniors—Malvin Curry, Edward Harrison, Polly Ann Tapp, Aileen May, and Marjorie Baker.

Mr. and Mrs. B. N. Graham returned home Monday from Abilene, where they visited their son, Howard, who is a student at McMurry College. Mrs. John Graham and her son, John Kent, of Dawn, accompanied them on the trip.

BTU Group Enjoys Halloween Party

The B. T. U. class enjoyed a lovely time at a masquerade party Monday evening in the parlor of the Baptist Church. The Halloween motif was used in decorations, with black cats, owls, witches, and pumpkins predominating.

Amusing games with the seasonal touch were directed by Miss Peggy Schleuter, and Mrs. J. P. North awarded a prize for her costume, following which guests enjoyed refreshments of cookies and cocoa.

Those present included Mrs. Clyde Magness, Mr. and Mrs. W. T. North, Maxine Cook, Donnie Watkins, O. T. Lovde, Willie Joe Carpenter, Leonard Watkins, J. D. Kelley, Grace McDaniel Aileen May, Mildred Moore, Letha Bridges, Marjorie Baker, Luvone Green, Peggy Schleuter, Theda Branscum, Mary Hardage, Willard Dykes and Frank Cornelius.

Mrs. Bess Henneman and Mrs. W. W. Hall visited and transacted business matters in Amarillo, Friday.

Mrs. Harry Jesko and mother, Mrs. Theresa Kaiser, have returned from Colorado, where they spent a few days with relatives.

Rev. and Mrs. J. J. Spurlin and family, of Sacramento, N. M., spent last weekend here visiting in the home of his parents. They were accompanied home by Miss Treva Spurlin, who is making her home with her brother and family and attending high school at Sacramento.

Mr. and Mrs. LeRoy Faville and Mikala Ann returned Sunday from Albuquerque, where Mrs. Faville had attended the NMEA meeting.

Mr. and Mrs. Jimmy Leftwich, of Las Vegas, spent Thursday visiting with friends in Texico.

Young Scott Johnson, Jr., of Clovis, was a weekend guest of his grandmother, Mrs. Effie Johnson, in Farwell.

Mr. and Mrs. Jim Cleve Dixon, of Lubbock, spent the weekend in Farwell as guest of his mother, Mrs. Ruby Dixon.

Dismissed:
Mrs. Ben Martinez and baby girl.
Mrs. yle Hall and baby girl.
Don Clements.
Tom Gee.
Olen Hardy.
Mrs. Otis Floyd.

History Of Bovina Baptist Church

The following history, furnished by Mrs. J. P. McDonald, concerns the Bovina First Baptist Church, which was organized in 1903 and grew against odds when it was small to the current large membership. A beautiful new building was recently dedicated in Bovina.

The church was organized in 1903 by J. T. Burnett, a missionary, and joined the Tierra Blanca Association in 1906 with seven members. Rev. Morgan was pastor in 1907, and in 1908 J. T. Burnett was pastor, with 10 members. In 1909-10 the first building, which was used until recently was erected. It was started in January 1909 and finished and dedicated in January 1910. J. A. Lindly was pastor with 15 members, and A. J. Oliver was Sunday school superintendent. In 1912 G. T. Bailey was pastor, with gifts for that year \$140. J. T. Burnett and W. R. Triplett were pastors in 1914-15, respectively.

In 1915 the gifts amounted to \$222.35, but the membership had dropped to 10. Mrs. J. H. Martin became president of the WMS, she was succeeded by Mrs. J. P. McDonald, and in 1917 Mrs. E. L. Hicox became president. In 1918 C. D. Potts became pastor, and five were baptized bringing the membership up to 20. Mrs. J. H. Martin was clerk, and J. H. Martin was Sunday school head. Mrs. A. W. Wood was president of the WMU.

In 1919 W. H. Forbes was pastor and in 1921 the first young peoples union was organized, with 15 members. C. L. Morris was pastor, and Mrs. Mae Abbott was WMU president. In 1923, Rufus Brazil, a Wayland student, was pastor. J. M. Rankin was pastor in 1925, with a membership of 50 and in 1926 L. A. Blair became pastor, with Mrs. Sides as WMU president.

B. F. Fromberger took over the pulpit in 1927, with W. C. Crowell as clerk and Joe Head as Sunday school superintendent. In 1929, M. M. Robinett was pastor, P. D. McBride was Sunday school superintendent, W. W. Caldwell was treasurer, and Sam Sides was clerk.

By 1930, the membership had

CHRISTMAS TREE ELECTRIC SETS

Come On, Texas!

When action aboard the Battleship Texas reached battle heat, her crew members used to shout, "Come on, Texas!" . . . which meant, "Let's get in there and fight!" After 35 years of service, through two world wars, she won't fight any more. The Navy has put her on the retired list, and, unless the State of Texas takes action, she goes to the scrap heap. But she won't go to the junk pile, if thousands of Texans can help it. They are already contributing to a \$225,000 goal needed to bring the old battleship to the San Jacinto Battlegrounds, below Houston.

She is seen above, steaming out to open sea, as she was in her glory as a capital ship of the U. S. fleet. To bring her home to Texas, Lloyd Gregory, chairman of the Battleship Texas Commission, urges every Texan to aid the fund-raising campaign which began September 15.

All contributions are to be sent to Mr. Allan H. King, Battleship Texas Fund, First National Bank, Houston 1, Texas.

Students Asked To Keep VA Informed

The Veterans Administration is appealing to veteran students and job-trainees, as well as to schools and job training establishments in which veterans are enrolled under the GI Bill, for assistance in preventing subsistence allowance overpayments.

The veterans and their training establishments are asked to notify VA immediately when trainee-vets abandon their training programs. When veterans know in advance the definite date on which they will complete or discontinue their training, they should advise VA at that time instead of waiting until they actually stop training. Failure to notify VA of training discontinuances usually results in overpayments of subsistence allowances, which must be refunded.

A recent survey disclosed an average lapse of 23 days between the time the veteran stopped his training and the time VA was notified. As a result, the vet continued to receive subsistence allowance payments to which he was not entitled.

Immediate or advance notice of training discontinuance will assist VA materially in reducing the amount of overpayments. In many cases, such notices will eliminate overpayments and necessity for refunds by veterans. Veterans who fail to make arrangements to repay overpayments may be prevented from re-entering schools or job-training courses under the GI Bill.

Veterans are not being forced to turn back full amounts immediately. They need only make arrangements for monthly repayments that cause them no financial hardship and thus become qualified to resume training.

benefits for disability incurred prior to December 7, 1941. Why am I not entitled to wartime benefits for this period?

A. Since World War II did not start until Dec. 7, 1941, vets with disabilities incurred in service prior to that time are not entitled to wartime benefits unless their service falls under the provisions of Public Law 358, 77th Congress, which provides that wartime rates would be authorized if the disability was the

direct result of armed conflict or was received while the veteran was engaged in extra hazardous service including such service under conditions simulating war.

FAST DRIVING BLAMED

Exceeding the speed limit was responsible for 42 per cent of the traffic fatalities last year. In no other year since the record has been kept has speed loomed so large as a factor in accidents.

53,000,000 X-RAYS

The VA is now the custodian of more than 53,000,000 Army chest X-ray films of World War II veterans, which it will use in its long-range anti-tuberculosis program.

VA records show that about 23,000 vets of World War II are drawing compensation for tuberculosis contracted in the service. Included in the state figures are Texas 817, Louisiana 390 and Mississippi 332.

Health Notes

by Texas Department of Health

AUSTIN—Contrary to popular belief, rabies is more prevalent in winter than in the so-called "dog days" of the hot summer months.

In a statement released this week by Dr. Get. W. Cox, State Health Officer, it was disclosed that of all animal brains submitted for examination by the State Laboratory in January, 1947, 33 per cent tested positive for rabies, while in the mid-summer month of July only 18 per cent were positive.

"If all stray dogs were destroyed, and all pets vaccinated for rabies, it would go far toward stamping out this justly feared, and always fatal disease," Dr. Cox said.

The doctor stressed that dogs suspected of having rabies should not be killed immediately, but instead should be confined ten days for observation to see if the disease develops. If a dog sickens and dies during the observation period, the head should be packed in ice and sent to the State Health Department for examination. Freezing the brain, or killing the dog prematurely or in

such a manner as to injure the brain may make correct laboratory findings uncertain, if not impossible.

Dr. Cox declared that after a dog is confined ten days and then killed, there is still a safe margin of time for a victim of his bite to be treated for rabies prevention, but he cautioned that if the disease is found to be present in the dog, the victim should then begin treatment without further delay.

Treat Fruit Trees Now For Borers

County Agent Ollie Limer advised today that county residents who plan to protect their fruit trees from borers take protective steps against these pests during the next few weeks.

Treatment consists of placing a ring of parabichlorobenzene crystals in a circle about six inches from the base of the tree, at a depth of about two inches, the agent added.

"This is the time of year when the borers move to the bark at the base of the tree," he said, "and prompt treatment may save the tree."

A lifetime can be spent in crossing a street.

Questions Answered By Veterans Group

Q. My brother entered service under the Armed Forces Voluntary Recruitment Act of 1945 and now he wonders if his rights will be affected by the law officially ending the war on July 25, 1947, insofar as veterans benefits are concerned?

A. No, he will lose none of his rights even though his period of enlistment extends beyond July 25, 1947.

Q. Please tell me which non-service-connected disability benefits are available to World War vets and which to peacetime vets?

A. The law provides that a pension for non-service-connected disability may be payable to permanently and totally disabled World War veterans. It does not provide such pension for peacetime veterans.

Q. May I change the beneficiary of my insurance policy by a last will or testament?

A. No. A change of beneficiary for your insurance policy must be made by written notice to the VA over your signature, and shall not be binding on VA unless received and endorsed on the policy by VA.

Q. I am in receipt of peacetime

Thanks...

In retiring from active business in Texico-Farwell, we want to take this means of expressing our sincere appreciation for the courtesies shown us and the friendly business relations we have enjoyed during our nine months as consignees for The Texas Company.

We have enjoyed our stay in the Twin Cities, and all our relations have been most cordial, for which we are duly grateful.

Mr. and Mrs. Lewis Davis

Attendance Record Set At State Fair

DALLAS—Texans have something new to brag about now, as their State Fair of Texas set a new all-time attendance record. When the gates swung shut Sunday midnight on the 62nd anniversary show, count showed that 1,763,921 persons had been to the Fair during its 16-day run.

This is 123,935 more visitors than attended the 1946 Fair, which itself broke all previous records.

The new record upholds Texas' claims to having the world's biggest state fair. Biggest single day was Sunday, Oct. 21, when 221,320 visitors swarmed over the 187-acre grounds and through the mammoth exhibit halls. Attendance went past the 100,000 mark on eight out of the 16 days of the Fair.

Top attractions of the year, according to most visitors, were the \$1,150,000 art show of world-famed masterpieces loaned by New York's Metropolitan Museum; the livestock show, the Quarter Horse Show—biggest ever held in the nation—and the Broadway production of "Annie Get Your Gun", starring Mary Martin. The Fair also had more free events than ever before.

To California's challenge that they are going to take away Texas' title to the biggest state exposition, State Fair officials this week pledge that they mean to keep the title in the Lone Star State.

400,000 Persons Visit Historical Museum

CANYON—More than 400,000 persons have visited the Panhandle-Plains Historical Society Museum since it was opened in 1933. During the month of September, 3,291 visitors registered from 38 of the 48 states. Record month of the year to date was August, with an attendance record of 6,336.

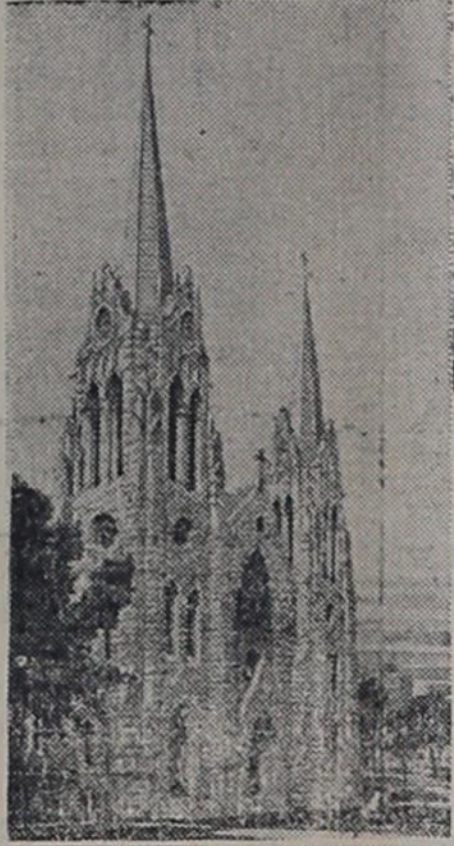

Texas led last month with 2,381. Oklahoma was represented by 81; New Mexico, 51; California, 32; Kansas, 12; Illinois and Missouri, 19; Iowa, 17; Indiana, 16; Colorado, 13; and New York and Georgia, 12.

Each state of the union was represented at some time during the year, and seven foreign countries are listed on the register. Alaska had 2; Canada 13; England, 8; Panama, 2; Hawaii, 5; France, 2; and Italy, 1. Total for the year is 37,773.

Thousands of school children annually visit the Museum. They are invited to visit by classes, and by previous arrangement can be conducted through the Museum, thus having the benefit of a general lecture as they view the exhibits.

Study clubs and groups of various kinds, as well as Boy Scout organizations, spend many instructive hours in the Museum. The Museum library also offers an excellent opportunity for research.

When the second unit, now under construction, is completed, many additional collections will be displayed for the first time. The stairway was completed last week, and plastering floors, an installation of lights and heat are needed to finish the unit. It is hoped that funds for this work will be available at the close of the current campaign, Dec. 1.

SUNDAY SLEEPER

There is little justification for the habitual Sunday morning sleeper. Man's creation was such that it is necessary for him to gain his strength and courage for the battles of life from the influence of the church and the teachings of Jesus.

Jesus said that "Man shall not live by bread alone, but by every word that proceedeth out of the mouth of God."

A comfortable bed on Sunday morning with radio, cigars and a newspaper, wonderful as they are, cannot tone up and sweeten a life like an hour of worship in the church of your choice. You need something luxuries cannot give.

There is a certain reassurance that comes from the toll of the church bell and singing of the choir. Be a worshiper in the pew every Sunday. You need the church. The church needs you. You'll find her doors ajar.

YOU IN THE CHURCH
THE CHURCH IN YOU

Character is a by-product of the church. It is here that young and old alike are showered with benedictions that fortify and influence for a better citizenship and a stronger democracy. In the church the ministerial are molding religious character. Statesmen today declare that the church alone can furnish leadership to handle the affairs of state in these perilous times. Then we with our children should go to the church of our choice on Sunday. "You in the Church and the Church in you"—form a combination for good.

When Your Back Hurts -

And Your Strength and Energy Is Below Par

It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood.

You may suffer nagging backache, rheumatic pains, headaches, dizziness, getting up nights, leg pains, swelling. Sometimes frequent and scanty urination with smarting and burning is another sign that something is wrong with the kidneys or bladder.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. It is better to rely on a medicine that has won countrywide approval than on something less favorably known. Doan's have been tried and tested many years. Are at all drug stores. Get Doan's today.

There Is Lots of Feed!

IN THIS FOOD EMERGENCY, UNWISE ACTION CAN—

WRECK the Livestock Program--and Thereby

CRIPPLE Our Future U. S. Economy . . . and

IMPAIR the Nutrition of Our People

There Is a Lot of Feed

Feed Supplies Per Animal Unit Are About Equal To The Average Of The Past Ten Years

A POSITIVE APPROACH

IS NEEDED. Figure how to keep your herds and flocks intact and maintain the production of Meat, Milk and Eggs at a high level. IT CAN BE DONE. The Wheat that the Government desires for Europe need not be used for feed.

CAREFUL Planning, SKILLFUL use of available Feeds and the ELIMINATION of inefficiency in handling Livestock and Poultry is the answer. Corn is the only acute shortage. Here are the ways to stretch the available crop.

DO—

- FEED BALANCED RATIONS
- FEED GRAIN SUBSTITUTES
- MAKE FULL USE OF PASTURE
- KILL RATS, WEEVILS, ETC.
- USE FEEDERS OR FEEDING FLOORS
- FEED MINERALS AND SALT
- FEED DAIRY COWS ACCORDING TO PRODUCTION
- KEEP LIVESTOCK HEALTHY
- SELL UNTHRIFTY ANIMALS
- GROW PIGS ON SHORT GRAIN RATIONS (SAVE GRAIN FOR FINISH)
- REPLACE OLD SOWS WITH GILTS
- SELL OR EAT SURPLUS ROOSTER
- FEED ONLY GROUND GRAIN

DON'T—

- WASTE SKIM MILK
- USE GRAIN FOR WHISKEY
- USE GRAIN FOR BEER
- FEED DECEASED ANIMALS
- FEED HEAVY HOGS (Stop at 250)
- LET GRAIN WEATHER DAMAGE
- FEED GRAIN TO IDLE HORSES & MULES
- FEED LOW PRODUCING DAIRY COWS
- FEED RUNTS
- FEED IN DUST OR MUD
- KEEP UNNECESSARY BULLS
- FAIL TO VACCINATE
- NEGLECT YOUR LIVESTOCK
- OVERLOOK KEEPING RECORDS

A POSITIVE APPROACH is Needed. AT STAKE IS THE MOST PROFITABLE LIVESTOCK, DAIRY, HOG and POULTRY INDUSTRY THIS NATION HAS EVER KNOWN. Keep your programs operating. There IS Enough Feed—if Efficiently Used.

For maximum Efficiency—Economy and Dependability increasing thousands of New Mexico, Texas, Oklahoma and Arizona farmers, feeders and ranchers—

FEED

FEEDS

Wilson Team Comes To Frawell Grid Friday

Rated as one of the strongest six-man teams in this area, the Wilson, Texas, team will appear on the Farwell gridiron on Friday of this week, in a game that promises to be one of the best of the current season.

Of the coming clash, admitted that he did not have much information on the Wilson squad except by hearsay. According to data received here, the visitors have soundly lambasted both Whiteface and Bula this season, while Farwell has also racked up a victory over the Bula team. The Whiteface squad took district honors in that area last year—and were believed to be strong contenders again this season, all of which may mean that the Steers will find it tough going when they contact the Wilsons on Friday.

Thus far, the locals have made a clean sweep of all opposition, but fans point out that they had trouble with Bovina in the first half, and if the Steers attempt to take a breather against Wilson it could easily bring ruination to a perfect record. After being idle last weekend, however, it is hoped that the Farwell gridmen will be in excellent condition this weekend.

The Steers have been working on new plays and lineup changes, and Coach Williams announced the first of the week that he would probably start Sheets at center; Booth at right end, Thomas on left end, Ford in the quarterback position, and Robertson and Hart as halfbacks.

"Chief" Jones and Marion Harris, both of Muleshoe, have been secured as officials for the game. Both are former Texas Tech men, with Jones having played football there under Pete Cawthorn.

Game time is 2 o'clock, and admission will be 50c for adults. All local sports fans are urged to be on hand for a rough battle between the two squads.

Support your local Chamber of Commerce.

Cage Aspirants Open Workouts in Texico

With some 34 boys reporting for initial practice sessions, Coach C. E. Sanders reported this week from Texico that the annual cage season would get underway in that school about the middle of November.

Workouts were begun this week with stress being laid particularly on the fundamentals, Sanders said, going on to remark, "This is the largest group of boys that I have had for team material in years."

Returning from the 1946 lineup are Pearce, Baldock, Curtis, Blaine May, Poteet, White and Curry, the coach continued, and went on to say that with the number of boys on hand now, he should be able to work out a crackerjack squad before tournament season gets underway next spring.

The Texico girls, on the other hand, are definitely short in quantity while the quality is yet to be determined. Coach F. D. Stout is handling the girls' athletics, with some 14 students on hand for the workouts this week.

Listed among former players are May, McDaniel, Ingram, Baker, Perry and Jean Rogers, Bridges, Curry, Alfred and J. Ingram.

A complete schedule of games will be drawn up for both teams within a few weeks, and will be carried in The Tribune.

FARWELL 4-H BOYS ELECT OFFICERS

The Farwell 4-H club met October 22 in the science room of the Farwell school and elected the following officers: president, Darrell Norton, a club member for four years; vice-president Duane Martin, also a four-year clubber; secretary-treasurer, Jesse Coburn, who has been in club work for two years; and reporter, Donald Joe Pipkin, who has been active for two years.

County Agent Ollie Linder passed out project plan sheets, which will be filled out by the 36 boys, and 4-H notebooks were also received.

Cast Is Selected For Texico Junior Play

Cast members have been chosen and practice is now in full swing on the annual junior class play, which will be presented in the Texico auditorium on the night of November 14th. Mrs. Jimmie Allman, sponsor, announced today.

The play is a three-act comedy "The Adorable Imp", and deals principally with the activities of Mrs. Abbie Simokins, her gay widow daughter, Pamela Gordon and her teen-age granddaughter, Betty Lee Gordon, all of whom are out to get a man. On the eligible list are Ross Waldon, his grandfather, Winston Pickrel, who, though gouty, is well healed, and Dilworth Pickrel, another grandson, who suffers from dyspepsia.

Delphine Johnson takes the part of Hortense Hostetter, the maid, while Jean Rogers portrays bobbi-soxer Betty Lou Gordon and Vera Lee Morgan is Grandmother Simokins. Peggy Rogers is the gay widow mother, Pamela Gordon, with Bryan Barclay, a widower, portrayed by Vernon Blaine, and the part of Melvina, Barclay's daughter, is taken by Norma Lee Sanders. Beale Stewart is cast as Clint Purdy, would be courtier of Grandmother Simpson, and Claudine Bridges is in the role of Imogene Van Rindon, ward of Pickrel who has a cat rhobia.

Pickrel is portrayed by Delmar May with Fred Curtis as his grandson, Dilworth Pickrel, and Buddy Pearce takes the part of Ross Waldron.

Move To Recognize Girls' Athletics

At the meeting of the New Mexico Educational Association, at Albuquerque, a movement was launched to recognize girls' athletics in New Mexico. Supt. B. A. Rogers reported this week on his return from the convention.

As sports fans know the New Mexico Athletic Association does not take cognizance of girls' sports in any form, with the result that county activities are about as far as teams can expect to win in honors. Particularly on the eastern side of the state, including Curry County, girls' basketball is an active sport, and Rogers said that the sport is spreading to other areas, with sponsors launching the movement to recognize this phase of athletics in the state.

Stunt Night Program At Texico, Thursday

Sponsored by the senior class of the school, the annual stunt night program will be held in the Texico auditorium on Thursday evening of this week, October 30th, with the doors to open at 7:30, it was announced today.

Some fifteen or sixteen stunts will be presented for the entertainment of the audience, and in addition, a cake walk has been arranged and F. D. Stout is slated to present a magicians act.

Coronation of the school queen will climax the evening, with hearsay having it the first of the week that senior color bearer Marjorie Baker was currently in the lead, being close pressed for the title by Claudine Bridges, of the juniors.

Admission to the program will be 20c, officials said, and the general public is extended an invitation to come out for an evening of fun.

ACA News

Harold W. Carpenter, Secretary

Plans for the 1948 Parmer County Conservation Program have been set up. Payment will be offered for the completion of practically the same practices as in 1947, with the notable exception of contour farming row crops. In previous years, we have earned a considerable amount of our conservation funds by contour farming, but the Committee's recommendations to the State FFA Committee for payment in 1948 were turned down cold. In a letter received Monday from the State Committee they reasoned that most farmers would plant on the contour without any compensation being offered, and that to pay for a large acreage that would be contour farmed, regardless of payment, would be a waste of money.

Of course, the reason for payment on any conservation practice is to encourage producers to better their present farming methods, thereby conserving both water and soil.

We hope that a large percent of the row crop acreage will be farmed on the contour next year despite the fact that payment will not be offered. Past records have shown that it pays.

A new money crop has been introduced to the High Plains area. The American Crystal Sugar Company of Rocky Ford, Colorado, has drawn contracts with farmers in seven West Texas counties to purchase sugar beets grown in 1947 on pre-determined acreages.

Parmer County's only participant this year is W. C. McQuarter, of Summerfield, who owns and operates an irrigated farm near the Castro County line. He reports 26 acres of sugar beets, but hesitates to guess at the probable yield.

This crop has yet to prove its worth in Parmer County, but farmers in Hale, Floyd and Deaf Smith counties have a year's experience behind them and report an amazing profit per acre.

Much publicity has been given the farmer the last couple of years regarding his fabulous income. Statistics prove that he does not deserve this publicity and criticism. Our population represents 25 per cent of the national total. Twelve per cent of the national income finds its way into our pockets.

HOME FROM MEETING

Texico faculty members returned home Sunday from Albuquerque, where they had spent four days attending the annual NMEA meeting. The local faculty was represented 100 percent, it was announced, and a very interesting meeting was reported. Some teachers from over the entirety of New Mexico were on hand for the convention.

Outstanding speakers included Dr. Willard Givens, of the NEA office in Washington, D. C., and Mrs. Garland, high PTA official, from Calif.

BACK AT WORK

W. H. Spurlin, operator of the Phillips 66 Station in Farwell, was able to return to his job the first of the week, following an absence of several days after suffering a light stroke while on duty at his place of business.

"The Second Year Is The Hardest" * * * Read why prominent doctors and psychologists consider the baby's second year, so crucial. There's common sense advice for all parents and parents-to-be in this interesting article. Read it in THE AMERICAN WEEKLY, that great magazine distributed with next Sunday's Los Angeles Examiner.

ATTENTION, LEGIONNAIRES

Starting this week the American Legion members are meeting three nights a week to do some finishing work on the inside of the Hall. Everyone, whether a member or not, is invited to come and help us open the Hall sooner. The nights for work will be Monday, Wednesday and Friday. Champ Porter, Post Adj.

NEW HEATING PLANS

A new central gas heating plant is being installed in the newly constructed Methodist Church in Bovina, officials announced this week. The large heating unit will be installed in the attic and conveyed to the auditorium and class rooms by means of ducts.

OPENS NEW STORAGE

Competition of storage facilities for an additional 120,000 bushels of grain in elevators at Clovis and Portales is announced today by M. C. Roberts of the Roberts Seed Company in Texico.

A new elevator with a capacity of 50,000 bushels has just been completed at Portales, and an addition to the Clovis elevator increases the storage there another 70,000 bushels.

In 1947, 19.5 million pounds of meat at retail weight were consumed in the United States at an average price of 55.5 cents per pounds in comparison with 14 million pounds at an average price of 29 cents per pound in 1937.
