

CARE TO DO AS THIS ROMAN DOES?... Armed with nothing more formidable than a friendly smile, Capt. Roman Proske, proprietor of a Miami, Fla., tiger farm peers happily into the gaping and well-armed maw of a Bengal tiger as he puts the animal through its paces. The handshake seems to be friendly enough, although the tiger shows a trace of ungraciousness in offering his left paw instead of the right one.

School Case Goes To Supreme Court

FROM THE HOPPER

B. N. Graham dropped in to call attention to the fact that he had cleaned out the alley behind his premises and wanted to be given full credit for opening up the driveway for traffic. A very neat job, I'd say, but I still wonder how much damage those big old tree stumps might do to a fire truck should it be hit some dark night.

One of the county commissioners was complaining about the practice of farmers driving down the dirt roads of the county with heavy steel machinery, and told of a fellow seen the other day pulling a heavy tandem disc down the road. "I don't know of anything that damages a dirt road more," this official added.

"Prof" Morton was asked early this week how he liked the F. F. A. banquet he attended at Lubbock last Friday. He replied that it was "quite nice—the speeches were short and the food was good—yes, quite nice."

Earl Billingsley was in Tuesday to give a report on his wheat harvest. He said that his net gain amounted to an even sackful of threshed grain above what he planted last fall.

Quite often a loyal subscriber will let his subscription expire because he "didn't have time to come to town" and place a renewal. May I suggest that your renewal can be mailed—with a check to cover. Send your renewal in at once and you won't miss an issue. We have found that the best policy is to notify our subscribers when their time is about to expire and cut them off when they fail to renew in a reasonable time.

What has become of that medical clinic the Chamber of Commerce was considering early in the year? We don't know of any one thing that is more badly needed in our community, and we hope to see the movement revived at an early date.

We have been getting a great deal of kick out of the publicity releases that are being mailed the press by the American Medical Association in its fight against what they term "socialized medicine." The medics have contended it was contrary to their ethics to advertise in the newspapers. But when they want their chestnuts pulled from the fire, they want the newspapers to carry the ball for them. We have a very high personal regard for all the doctors with whom we have acquaintance, but it is our private opinion, publicly expressed, that the doctors themselves are responsible for the trend toward socialized medicine that seems to be taking hold throughout the country.

ATTEND MARKET SHOW

Mr. and Mrs. Jud Stone of Stone's Variety Store, Mr. and Mrs. Claude Rose of the Fox Drug Store, and Mr. and Mrs. M. C. Roberts of the Roberts Seed Company, were in Amarillo the first of the week attending the first annual market show held there. They report a very good show and lots of entertainment.

Transcripts in the case of the Rhea Common School District vs. the Bovina Independent School District, in which the plaintiff seeks to set aside the results of an election, held on May 8, consolidating the Rhea district with the Bovina district, have been forwarded to the Civil Court of Appeals in Amarillo for a review.

This announcement was made here last Friday when Durwood Bradley of the law firm of Bradley, Kemmel & Key of Lubbock, was here perfecting the appeal.

Judge C. D. Russell of the 84th Judicial Court, ruled in favor of the defendant when he heard the case in district court here two weeks ago, which carried out the mandate of the voters in the election when they voted 34 to 36 in favor of the consolidation.

Officials here expressed the opinion that it would be "four or five months" before the Civil Court of Appeals would hand down a decision in the case.

Large Farm Sale Is Booked for July 27th

An extra large farm sale has been booked by Col. Dick Doshier and Orval W. Francis of this city for Mrs. Kate Jones, located 19 miles north and 6 miles east of Melrose, and is scheduled for Tuesday, July 27.

A large collection of extra good farm machinery, most of it for wheat farming, will be featured in the offerings, together with a good collection of household goods, and other items. The bills, giving the complete listings, will be out the latter part of this week and the list will appear in The Tribune next week.

The sale will get underway at 10:30 New Mexico time and lunch will be served at noon. Terms will be cash.

The Paramer County Commissioners Court was in regular session here on Monday. The minutes reveal that only routine business, including the payment of current bills and approval of the minutes of the previous meeting, came up for action.

Shamrock Reported On Second Location

Reports reaching here early this week are to the effect that the Shamrock Oil & Gas Company has staked a second wildcat location in the corner of Paramer County.

The location is described by residents of the Lazbuddy section as seven miles due north of Muleshoe.

Location of the test could not be confirmed here in Farwell. Meanwhile, the first Shamrock wildcat, being drilled on the Kimbrough farm east of Lazbuddy was reported to be at the 5,000 ft. level and making progress. The wildcat is described as a "tight hole", meaning that no information as to the formations encountered are being disclosed. The contract depth is 10,500.

Rumors persist that "at least ten tests" are to be made in Paramer and Castro Counties during the next few months.

Minister Cox Leaves Local Church Work

Announcement was made the first of the week of the resignation of Minister Lewis C. Cox as pastor of the local Church of Christ after several years as head of the local organization.

Minister Cox and his family will move to Clovis as soon as arrangements can be completed to that end. He has already accepted the pastorate of the Church of Christ, located at 9th and Connelly, for the remainder of the summer, and assumed his duties there last Sunday.

Minister Norman Keener of Norman, Oklahoma, occupied the pulpit at the local church last Sunday, but church officials said early this week that no successor to Minister Cox has as yet been named.

Minister and Mrs. Cox came here from Clovis some years ago, and have completed a very successful and satisfactory tenure of service here. They have taken an active part in civic matters in addition to their church work, and Mrs. Cox is at present president of the Farwell Parent-Teacher Association. Graduating classes of both Texico and Farwell have honored Minister Cox on numerous occasions in recent years by selecting him to deliver their baccalaureate and commencement addresses. The people of Texico-Farwell regret the loss of this estimable family.

Texico Street Work Making Progress

Street and sidewalk work in Texico continues to make progress with most of the work being devoted to the curbing and sidewalks.

Curbing work along the entire length of Main Street was completed recently, and just now a large part of the concrete sidewalks along the business section is being wound up.

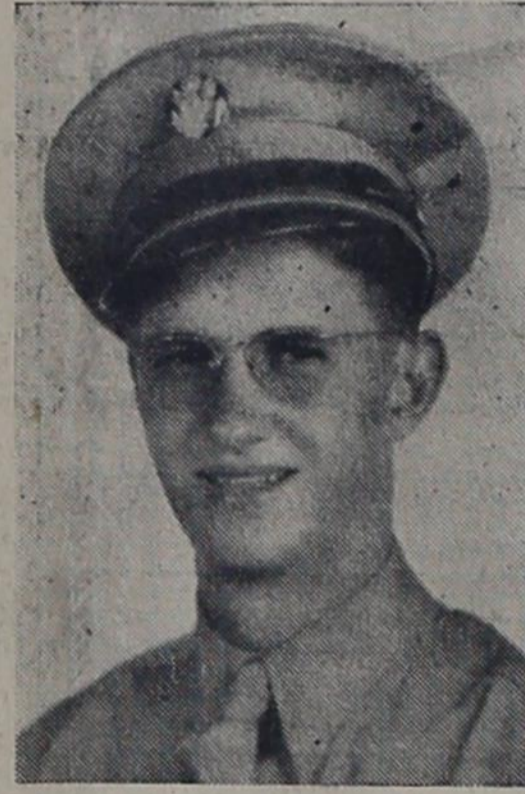

All this work is a forerunner of the curb-to-curb pavement that is to be laid as a part of the 4-lane highway that will connect Texico and Clovis. Work on the highway is also making progress, but it will be some months yet before it will be ready for use.

MOVING TO LITTLEFIELD

Mr. and Mrs. Aubrey Brock of Bovina, were here Monday morning on their way to Littlefield, where they will make their future home. Brock, who has been manager of the Cicero Smith Lumber yard at Bovina for the past several years, has been transferred to Littlefield by the company. The Brocks have made very commendable contributions to Bovina and Paramer County during their residence, and their loss is regrettable.

Back To The Army

Cortez Billington and George Magness stated this week that they were "getting their affairs in shape" to re-enter the Army as volunteers in the Engineers. Both young men took part in World War II and saw service in the South Pacific.

LLOYD D. REISER

Body of Lloyd Reiser Is Returned For Burial

The remains of Sgt. Lloyd D. Reiser, son of Mr. and Mrs. E. J. Reiser, of 508 West Eleventh street, in Plainview, is due to arrive there for interment soon, the War Department has notified his parents.

Sgt. Reiser entered the Army Air Force on December 28, 1941, and had served two years, four months and eighteen days before he met his death on May 14, 1944. He was 22 years of age at the time he was killed in Italy. The young Air Corps Sergeant lost his life when three C-47 transport planes, on one of which he was crewman, collided in the air in formation flying. Thirteen other men lost their lives in the same accident.

Sgt. Reiser was born at Walters, Oklahoma, October 5, 1922. The family moved to Friona in 1927 and lived there for almost thirteen years during which time Reiser attended the Friona, Bovina and Rhea schools.

Besides his parents he is survived by a sister, Mrs. Lois Autry of Plainview.

The M. W. Lemons Funeral Home in Plainview will have charge of the funeral arrangements.

Porter Brothers On Improvement List

Champ and John Porter, owners operators of the State Line Grocery & Market here, are both reported to have shown improvement during the past week.

Champ, who was stricken with a stomach ailment, induced by an ulcerated condition, while vacationing at Ruidoso, N. M., is still a patient at Roswell hospital, where he underwent an emergency operation. Relatives here said that it was considered likely that he would be able to return home here the latter part of this week.

John Porter, senior member of the firm, who suffered a heart attack at noon on July 5th, has recovered sufficiently to be able to be up and at his place of business part of the time, and says he is gradually regaining his strength.

HAS OPERATION

Sandra Lee, 5-year-old daughter of Mr. and Mrs. Benton Graham, who are home from Columbia, South America, was taken to Albuquerque, where she underwent an operation on Monday.

At the age of one month, the little youngster was stricken with infantile paralysis, and was a patient at Warm Springs, Ga., for some time. She has been showing improvement during recent years, and the operation she underwent on Monday was the first of other surgical treatments she will submit to.

Mr. and Mrs. O. C. Sikes and their house-guest, Miss Barbara Fry of Wichita, Kan., have gone to Denver to attend a meeting of Ford dealers of the Denver district. They are expected to return home the latter part of this week.

In the hope of giving local water consumers an adequate water supply under all conditions, was announced this week by officials of the Texico-Farwell Waterworks with a program that is estimated to cost in the neighborhood of \$5,000.

The first move to improve the water supply will be the addition of a new and larger Pomono pump, which will be installed on the new well on the water company property. The new pump will be a 75-h. p. electric motor to replace the 30-h. p. motor now in use on the new well. The replaced 30-h. p. motor will be transferred over to the old well, which is now being served by a 15-h. p. Pomono pump.

Engineers who have inspected the local properties, gave it as their opinion the water output could be increased to double the present pumping rate.

The new 75-h. p. motor has already arrived and is on the grounds, but it was stated this week that "it might be sixty days before all the necessary connections and other supplies could be expected here.

About two days will be required to make the change-over it was stated, but no move will be undertaken until all materials are on hand and ready to be put in use.

The urgency of increasing the water supply came to the forefront only recently when it was discovered for the first time that the present system, with its two wells in operation, was not keeping pace with the consumption occasioned by a half hundred users and further strained by continued dry, hot weather.

Faced with an unexpected expenditure of \$5,000 to bring the system up to adequacy, officials stated this week that no increase in rates, already the lowest of any system in this section, was contemplated at this time. However, the 15 percent discount allowed on all bills paid by the 10th of the month, has been discontinued, and all bills hereafter will be for the net amount. Officials said today that the 15 percent discount had been amounting to about one hundred dollars each month.

It was also announced that a four-inch main to the Farwell school house was to be installed just as soon as the pipe could be secured. The 2-inch pipe now in use from the south end of Third Street to the school house, a distance of approximately 1500 feet, will be taken up and the new 4-inch installed. "But this may be two years in the future," one official commented.

Singing School At Church of Christ

C. E. McCord of Little Rock, Ark., arrived here the first of the week to begin a ten-day singing school at the Church of Christ. Church officials announced that classes would be conducted each evening beginning at eight o'clock.

The public is invited to attend and there will be no charges made for instructions.

County Hospital Gets Association Approval

The Paramer County Community Hospital, operated at Friona, has been registered by the American Medical Association, it was announced today by Mrs. Alice B. Moore, business manager.

In commenting on the recognition given the institution, Mrs. Moore said today, "This signifies that we have come up to all the requirements of the American Medical Association... Each employee, as well as the doctors and the directors, have worked hard to put the hospital on the level with the larger hospitals of America."

HOME ON LEAVE

Pfc. JeDon Porter, son of Mr. and Mrs. John Porter, who is with the U. S. Marines and stationed at Camp Pendleton, Ocean Side, Calif., arrived home the latter part of last week on an emergency leave and will spend ten days here with his parents, having been called home on account of his father's illness.

Pfc. Porter says he will be eligible for a discharge within a few weeks, and plans to come home and be associated with his father in the operation of the State Line Grocery.

Mr. and Mrs. Robert Reid of New York City, visited in the home of Mr. and Mrs. Harry Whitley last week while en route to Phoenix, Arizona.

Health Notes
 By Texas Department of Health

AUSTIN—According to the morbidity report for the week ending July 3, more than 463 cases of diphtheria occurred throughout the state this year.

The morbidity report is released weekly by the Texas State Department of Health. It shows the prevalence of communicable disease by counties.

"In the light of our present knowledge regarding the control of diphtheria, it is unfortunate that the disease is allowed to flourish," Dr. Geo. W. Cox, State Health Officer, said.

For the week June 26 to July 3, Nueces County reported four cases; Hopkins, Tarrant and Val Verde Counties reported one each. For the year 1947, seventy-seven deaths from diphtheria were recorded.

"A life-time immunity may be established in 90 percent of the children receiving diphtheria toxoid," the health officer said. "If all parents of

children over six months of age would have their children inoculated, the incidence rate of the disease would be rapidly reduced."

The administration of toxoid causes little or no discomfort in the child, Dr. Cox added, and a positive immunity can be determined by a Schick test conducted four to six months after the final dose of the toxoid has been given the child.

Q—I am going to be trained under Public Law 16 and would like to know if I can borrow money from Veterans Administration in case of need when I enter training?

A—Yes. Loans from a revolving fund, provided by Congress, not exceeding \$100 in any case, may be made to trainees commencing or undertaking vocational rehabilitation.

Q—Is it true that if I secure a guaranteed loan, VA will pay part of the loan without cost to me?

A—Veterans Administration would pay to the lender, for credit to your account, an amount equal to four per cent of the guaranteed portion of the loan. For example, if the guaranteed portion of your loan should be \$2,000, the lender would receive \$80 from VA to credit to your debt and you would not have

to repay this amount.

Q—Can I, a veteran of World War II, get a guaranteed loan to go into any type of business I want?

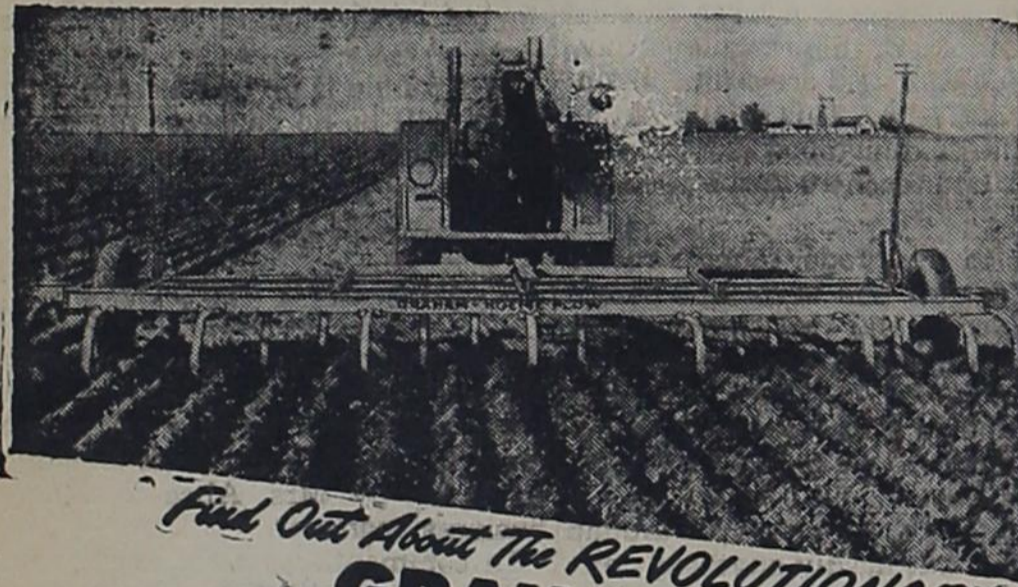

A—Yes, you are permitted to get a guaranteed loan for any type of legitimate business on which the lender is willing to lend you money, provided your ability and experience as well as the conditions under which

you propose to operate your business are such that there is a reasonable likelihood that you will be successful. Also, the total cost must not exceed the reasonable value of the business.

Q—I am in training under the GI Bill and am writing a thesis for my Ph. D. Will the Government pay the cost of publishing this thesis?

A—No.

Sec. 4. The sum of Ten Thousand (\$10,000.00) Dollars or so much thereof as may be necessary, is hereby appropriated out of any funds in the treasury of this state not otherwise appropriated, to pay the expenses of such publication and election.

Guard Your Roses Against "Thrips"

COLLEGE STATION—If your rose buds dry before they open, it may not be the dry weather that is spoiling them. If fully opened roses dry before shattering and stay on the bush, look for thrips. Thrips take the sap out of your blooms and may cause your rose bushes to fill with dried flowers, warns Sadie Hatfield, extension landscape gardening specialist of Texas A. & M. College. As soon as one flower dries the thrips fly to another and take sap there.

Thrips are so small and so hard to see that many people do not notice them. It is easy to find them if you look. Take all the petals off one blossom with one hand and pull them off. At once tap them gently on a piece of paper and you will see tiny insects run and fly away.

It is easier to see them if you shake them onto a piece of solid black cloth. Since they have wings and have quick movements, many of them fly away at the first disturbance. They are flesh colored, slender and are about the size of tiny black ants. These pests destroy many other kinds of blooms, too. Sometimes they draw sap from leaves and cause them to dry up.

When a rose garden is infested with thrips, it is a good idea to pick all of the blooms and the partly opened buds into a paper sack. Burn them immediately. If left outside or in the open container the thrips will fly back to the rose garden. After burning the flowers, dust or spray with nicotine sulphate or with 5 percent DDT mixture.

Another remedy is poisoned bait. Be sure to handle with care because this is poisonous to people as well as to thrips, cautions Miss Hatfield. Use six teaspoons of tartar emetic, two cups of granulated sugar and four gallons of water. Mix well and spray with a coarse nozzle at low pressure. Be sure that drops form on the blooms. The thrips like the sweet taste of the sugar and many of them will be killed.

Canned vegetables on the "plenty" list for June include peas, pumpkin, sweetpotatoes, and the tomato products—juice, catsup, paste, and puree.

Huge Outlays Planned In County For Repairs

An estimated \$73,000 will be spent in repairing and modernizing non-farm homes in Parmer county during 1948, according to a report just released by the Title Council of America.

That sum will be expended largely on painting, carpentry work, roofing repairs and plumbing, the report disclosed. "Greater availability of building materials throughout the nation this year," declared Malcolm Schweiker, chairman of the Council's residential construction committee.

About 30 of every 100 homes in Texas will be painted, either inside or out, during 1948 and 17 will have roofs repaired or replaced, according to the report. Seven will have plumbing overhauled, bathrooms tiled or showers installed and six will have carpentry work done, the report revealed.

"To meet demands for materials for both new homes and home repairs, production has been stepped up in practically every type of material," said Mr. Schweiker. The output of ceramic tile for bathrooms and kitchens, for instance, is now at the highest rate in history, government reports show.

Throughout the nation between \$2,600,000,000 and \$3,300,000,000 will be spent this year on home repair, according to the Title Council report. This is believed the largest amount ever expended for such work.

HOUSEWIVES SAY THAT QUALITY COUNTS MORE

COLLEGE STATION.—A recent USDA survey shows that with housewives who know potatoes best, it's quality 12 to 1, says Myrtle Murray, extension home marketing specialist of Texas A. and M. College.

The survey, conducted by the Bureau of Agricultural Economics under the Research and Marketing Act, took a cross-section sample of housewives in towns of 2,500 population and over. Texas was one of the 26 states covered in this survey and Texas women from Shamrock, San Antonio, Lubbock and Galveston made up part of the 3,500 women in the nation that were interviewed. These homemakers were asked about their preference in potatoes. Their answers showed that, 12 to 1, they considered quality more important than either size or price.

And when it came to size and price, they placed size above price three to one. Southern housewives were just a little more interested in price than those in the North.

No matter what the income level, the women thought quality and size were more important than the price. As the income level went up, however, interest in quality and size increased, while that in price decreased, says Miss Murray.

Santa Fe Indian Village

You'll think you are really on an Indian reservation in the Southwest—when you visit the Santa Fe Village at the Chicago Railroad Fair this summer (opening July 20).

You'll see Navajos, Apaches, Hopis, Zunis, San Juans and Jemez—125 colorful Indians living in pueblos, hogans and wickiups.

You'll watch ceremonial dances seldom seen away from the reservations, and see Medicine Men make their famous sand paintings and destroy them every day at sundown.

Indian craftsmen weave rugs, make moccasins, baskets and jewelry. In fact, in

the Village you actually see a faithful portrayal of costumes, ceremonies and living quarters of Southwestern tribes. Their way of life today is noticeably unchanged from that of their ancestors who inhabited the Southwest years before Columbus discovered America.

Young crops over this section, all of which are late because of late plantings, and many of which are even later because of replantings, are beginning to need rain, farmers report.

July 31 Deadline For NSLI Reinstatement

Robert W. Sisson, VA Regional Manager, today reminded veterans that July 31 is the last day for reinstatement of lapsed National Service Life Insurance on a "comparative health" basis.

Before August 1, an eligible veteran may reinstate any amount of term insurance—from \$1,000 to \$10,000 in multiples of \$500—regardless of the length of time it has been lapsed, and usually without a physical examination. He need only fill out a simple application form, in which he certifies that his health is as good as when the policy lapsed, and pay premiums for two months.

The privilege of reinstating on this basis will be available after July 31 only to veterans whose policies have been lapsed for less than three months. Where the period of lapse is three months or longer, the veteran will be required to take a physical examination and qualify as an insurable risk, the VA Regional Manager said.
