

QUITS CABINET TO RUN FOR SENATE. Clinton P. Anderson, who has become almost a household word among U.S. farm families as the secretary of agriculture, has resigned that cabinet post to run for the U.S. senate in New Mexico. President Truman formally accepted his resignation and Anderson started to pack his things to leave the office for good. During his tenure as secretary of agriculture farmers of the nation experienced their greatest period of prosperity in history.

Consolidation Vote Comes Saturday

Generous Rainfall Cover Wide Section

The best and most general rain to fall in this section in over two years, visited here Monday night, bringing relief to the drought conditions and smiles to the faces of the populace.

So far as can be learned here, the rain was general in its scope, although varying amounts of moisture were dumped by the timely visitation. In Farwell, the precipitation amounted to slightly less than a full inch, .95 to be exact. Farmers from far and near over the county give estimates of three quarters to as high as one and a half inches. Bovina and to the north, the rainfall is reported to be around one inch and a half. East of this city, along Highway 86, heavier downfalls are reported with estimates of 2 to 2½ inches. Joe Magness, living southeast of this city is the only farmer who brings in an unfavorable report on the moisture. He says that barely a quarter inch fell on his farm.

Throughout the Oklahoma Lane community, the rainfall is reported generally heavy, and Friona reports better than two inches during the past week.

Farming operations that have been almost at a standstill, except in isolated localities where light showers have fallen, will be thrown into high gear when the fields dry up sufficiently to begin planting. Some farmers have been taking the chance of putting their seed "in the dust" the past two weeks, hoping for a rain, but this has not been the general practice, and a large portion of the farm lands of the county are yet to be seeded for fall crops.

Farmers generally agree that ample time remains to produce feed crops before frost, but they are not so optimistic about cotton. Very little cotton will be planted following Monday night's rain, farmers predict.

200 Enjoy Free Feed Given By Fire Boys

Members of the Texico-Farwell Fire Department were host to about 200 local residents last Friday evening at a barbecue feed, served at the Texico school cafeteria.

An abundance of tasty barbecue, beans, stewed apricots, combination salad, pickles, onions, doughnuts, with chaser of coffee, soft drinks, and ice cream was served, with the privilege of passing plates for a second helping. It was the most generous feed served here in recent years.

Members of the fire department furnished all the eats, and their wives took a ready hand in preparing and serving the food.

Those responding to the invitation expressed their gratitude to the fire boys for such a generous feed.

Shake-Up of Methodist Ministers in County

Only one Methodist minister in Farmer county has been returned to his work for another year by Bishop Charles C. Slecman, when he read the appointments for the coming year at the conclusion of the meeting of the Northwest Annual Conference at Lubbock last Sunday.

Rev. H. D. Segó, who has served at Friona the past year, was returned to that work for another year, with all the rest of the Methodist ministers of the county being assigned to new fields.

Rev. George D. York was transferred to Panhandle, after serving at Bovina for only one year. Rev. J. P. Cole, who served Oklahoma Lane the past year, was sent to McAdoo, and the Lezbuddy work remains to be supplied.

Rev. A. D. Moore comes to Oklahoma Lane, and Rev. J. B. Baker will serve the Bovina church during the coming year.

Dr. E. B. Landreth was retained as district superintendent for the Amarillo district. Rev. Robert L. Butler, former pastor at Texico-Farwell, was returned to Merkle for another year.

IN KANSAS

Mr. and Mrs. E. M. Roop of the Houston Lumber Co., left here Saturday noon for Lubbock, where they will pick up their son, Jim Bob, student at Lubbock Tech, and proceed to Ford, Kansas, where they plan to spend the weekend, and the guests of friends and relatives.

No Change In Status Of Oklahoma School

Skunk Under House Presents Problem

Mrs. Ida Temple and her two daughters, Mrs. Ruby Dixon and Miss Laura Temle, are ready to vacate the premises they have occupied in south Farwell for the past 35 years . . . but where can they go?

Last fall a full grown pole cat, evidently of the feminine sex, took up quarters under the floor of the Temple home. Her pungent odors of the past several months have brought many sleepless nights to the women of the house.

But when the unwelcome guest delivered an unknown number of offsprings, it was just too much for the occupants . . . now they are calling for help to rid the premises of the intruders.

Petition Filed To Contest Election

A petition to contest the consolidation election of the Rhea Common School District with the Bovina Independent School District was filed in district court here Monday afternoon by the law firm of Bradley, Key & Kemmel of Lubbock.

The petition alleged that there was no authority to call the Rhea-Bovina consolidation election while an election was pending between Bovina and Oklahoma Lane, and asks that the consolidation be set aside.

By a vote of 34 to 36 the voters of the Rhea district voted to merge the district with the Bovina district on May 8. Citizens of Rhea immediately set in motion proceedings to nullify the results of the election. The case has been filed in District Court and Judge Russell will likely hear the case on his next routine trip here, it was stated at the office of District Clerk Loyde Brewer.

Farwell Salesman Hurt When Tire Goes Out

Hayden Cason of this city, sustained quite serious injuries when a tire on his car blew out a short distance east of Shallowater on Highway 70 as he was en route to this city.

Cason, who is a traveling salesman for a Lubbock firm, was on his way to Farwell to be with his family over the weekend when the accident happened about 3 a. m. Friday. His car left the highway and turned over two and a half times. He was taken to a Lubbock hospital where it was found that his most serious injury was on the head, the scalp being almost completely ripped from the crown of his head, besides other minor bruises about the body.

His wife, the former Mary Lou Crume, went to Lubbock Friday morning to be with her husband, and has been with him since the accident. Reports Tuesday said that Cason was considered out of danger and would likely be removed from the hospital on that day.

Poppy Sale Brings In \$116.00 To Auxiliary

With more reports yet to be received, the sale of poppies in Texico-Farwell, conducted last Saturday, brought in \$116.00. Mrs. Lawrence Ham, American Legion Auxiliary treasurer, announced today.

She said that this amount may be swelled when all reports have been turned in. This year's poppy sales topped all previous sales, she said. Last year's sales amounted to \$78.00.

CALLED TO WACO BY DEATH

Mr. and Mrs. S. G. Billington, and Mr. and Mrs. Sterlyn Billington left here Sunday for Waco to attend the funeral of Mrs. Annie Billington, 86, mother of the senior Billington of this city.

The aged lady died Friday at the home of one of her sons in Waco, and burial took place there on Monday.

"There has been no change in the report and recommendation that there could be no four-year high school maintained at Oklahoma Lane this coming year," Bill Hanna, long-time resident of the Oklahoma Lane community, stated to a Tribune reporter Tuesday at noon, following a long distance telephone conversation with Mr. Worley, head of the High School Division of the State Department of Education at Austin.

Hanna said that he called the Austin office to satisfy himself and other interested citizens of the Oklahoma Lane community, when the report became current here that a new arrangement had been worked out whereby Oklahoma Lane would be permitted to continue as an accredited four-year high school.

"Mr. Worley told me," Hanna said, "that there had been no change in Mr. Jones' (district deputy superintendent) report and recommendation, to the effect that the Oklahoma Lane school would not be recognized as four-year accredited high school for the coming year."

Worley also read from Jones' report, according to Hanna, a recommendation that Oklahoma Lane be consolidated with either Farwell or Bovina for high school purposes.

Worley told Hanna that he would confirm the telephone conversation by an air mail letter, which should arrive here some time Wednesday.

Large Water Mains Are Installed at Bovina

Workmen early this week completed the installation of the limited amount of large water mains that are to be the forerunner of an adequate water system to be installed in Bovina.

Due to shortages of steel, only 3,000 feet of the large pipe has been received and put down. A thousand feet of 8" steel pipe has been laid to bring the water from the Santa Fe water tower to main street, and 2,000 feet of 6" pipe has been laid west and south from the end of the 8" main.

Mayor John Kimbrough said Friday that plans called for connecting the already installed distributed system with the large mains the first of this week. Eventually, when the piping is available, much of the small pipe now in use in the city will be replaced with the larger pipe, he said. He added that the city had the promise of some more large pipe in August.

The citizens of Bovina voted a bond issue recently to be used in installing a water system in the town. For the past several years, the town has been served with small water systems operated by Mrs. Mae Abbott and C. R. Elliott, and these distributing systems are still intact, but most of the pipe is too small to serve all customers satisfactorily. In such cases, Kimbrough said, the lines will be replaced with larger lines.

"We intend to have a satisfactory water system, but delays are to be expected because of the inability to get the pipe," Kimbrough added.

NEW VEGETABLE RACK

Mr. and Mrs. Johnnie Lewis of the Home Grocery & Market, have just installed a new Fridgidmist vegetable display rack in their place of business, and will be able to serve their customers with vegetables that are kept fresher and crisp by the new addition.

OUT OF HOSPITAL

N. R. (Nath) Harding, who underwent an operation for the removal of gall stones in a Lubbock hospital on May 21, is scheduled to be dismissed from the hospital this week.

relatives here said today. He will likely remain in Lubbock under observation for several days, it was stated. Harding submitted to an operation when he was advised by his physician that such surgery was advisable, before an emergency arose.

The voters of Oklahoma Lane and Farwell will go to the polls Saturday and vote on the question of consolidating the Oklahoma Independent School District with the Farwell Independent School District, and a heavy vote is anticipated.

The voters of Oklahoma Lane turned down by a vote of approximately two to one a consolidation move with Bovina in an election held on May 8. While the voters of the Bovina district were voting unambiguously for the merger, the voters of the Oklahoma district turned thumbs down on the move.

In the forthcoming election, the balloting in Farwell will be one at the courthouse, while the voters of Oklahoma Lane will cast their votes at the school house. Officials have repeatedly ruled that in order for the consolidation move to become effective, a majority of votes must be cast in each of the districts.

The consolidation question came to the forefront recently when Deputy State Superintendent Jones, in his report to the State Department at Austin, recommended that the Oklahoma district not be recognized as a four-year accredited high school for the coming school term because of the lack of sufficient scholastics in the high school. Jones' report also recommended improvements in the physical plant, which could have been met. But increasing the number of students to meet the State requirements presented a problem that has not been solved.

Wheat Prospects Are Increased By Rains

Scattering showers of last week and the general rain of the first of this week have materially increased the prospects for a wheat crop in Farmer County, although with the aid of the rains, the cuttings will be very short, in the opinion of observers.

A large part of the county's immense acreage has already been plowed up when it became apparent a month ago that there was no chance of yielding any grain. Other fields were turned over to livestock grazing.

Aside from the limited irrigated fields of wheat, there is an occasional field of summer fallowed wheat that farmers have left and which, with the assistance of the rains, will make fair yields. But over the county as a whole, the crop will be very short.

The better fields of the county are along the east side and to the north of here. The southwestern corner of the county will fall far behind the normal yield, with only a few fields to be harvested.

Lee Thompson, manager of the Bovina Wheat Growers at Bovina, predicts that there will not be enough grain produced in that section to fill the four elevators there. Last year all the elevators of the county were filled to overflowing before the harvest was well under way.

Street Work Delayed By Rain This Week

The street work in Texico and Farwell, which has been making rather slow progress during the past two weeks, was at a standstill Tuesday, awaiting more favorable weather following the heavy rain of Monday night.

Installation of the curbing along the Texico main street, in preparation for the new four-lane highway, was nearing completion with workmen making installations along the principal business section. Heavy trucks have begun dumping the fill-in base of soil and caliche, which will bring the street level several inches above its present stage before it is topped.

In Farwell, most of the caliche base has been dumped in and was in the process of being packed down when the rain halted the work. This job calls for the paving of curb-to-curb along seven blocks through the main business section of the town.

Work of extending the concrete sidewalks out to meet the recently installed curbing has been in progress during the past week and is nearing completion.

OFF TO DENVER

Mr. and Mrs. O. C. Sikes, and Jake Winkle, mechanic at the Sikes Motor Company, have gone to Denver, where they are attending a special tractor school being conducted by the Ford Motor Company. They are expected to return home Monday.

LIGHTNING BOLT HITS

The Cruce building in Texico was moderately damaged by a bolt of lightning that struck it about 6:30 p. m. last Friday. The lightning came to the southeast corner of the structure, directly over the apartment Mr. and Mrs. S. C. Hunter occupy on the 2nd floor. Hunter related that "the lightning hit right above a small kitchen table my wife and I usually eat supper on that stool in the corner of the room. I'm surely glad we weren't eating at just that time" They were in the north part of the apartment some 60 feet away.

Mr. and Mrs. Rip Snodgrass, operators of the Texico Electric Shoe Shop on the ground floor adjacent to the Postoffice, said they were in the kitchen, directly west of the shop, washing dishes after supper. "We heard a terrible racket out front. I thought the whole front end of the building was caving in," Mrs. Snodgrass told a Tribune reporter. Rip, who witnessed the lightning passing along water pipes in the kitchen about 20 feet away from him, rushed outside his shop, where he discovered a large pile of bricks that had been dislodged from the roof of the building two stories up. The new aluminum awning had been knocked down and a gaping hole near one end of it had been made by falling bricks. The awning and numerous loose bricks were removed as a safety precaution.

Mrs. Claude Dyer, who appears to be the only eye-witness of the tumbling bricks that fell some 30 feet to the sidewalk following the bolt of lightning, said that she had parked her car in front of the shoe shop, leaving her two small boys—Leslie, 5, and Jackie Ray, 2—in the car, and had entered the postoffice to get her mail. She received a post card from

a friend and had hesitated in the lobby of the postoffice to read it when the crash came. She relates that she ran out of the building and to her car. "The bricks were tumbling everywhere, and I could not see much because of the dust," she said. Discrediting early reports that several bricks fell atop her car, doing heavy damage to the machine, Mrs. Dyer said that there were no dents in the carport and she expressed the opinion that only chunks of mortar hit the car.

"I was terribly frightened and my first thought was to get to the boys," she related.

Broken bricks hurtled across the street, a distance of about 70 feet, and Mrs. Dyer gave it as her opinion that they were knocked that distance from their original location in the building along the firewall on top of the second story. None of the bricks bounced from the awning across the street she believes.

Damage to the building was covered by insurance. An insurance adjuster said early Saturday morning that no estimate was available as to the extent of the damage.

Residents of both Farwell and Texico said the jolt of the striking lightning rattled windows for a considerable distance.

Curbs and Guttering Project Underway In Friona Now

A report received Tuesday afternoon was to the effect that the city of Friona had undertaken a street improvement project similar to that nearing completion in Farwell now. Curb-to-curb paving for eight blocks of the main street is in order in that city, with the State Highway Department undertaking the paving part of the job.

H. H. Weis, Friona contractor, is at present installing the gutters for the job, but rainfall in this section has brought the work to a temporary standstill. As soon as the weather clears up, plans will be moved back into action, it was understood.

New Soda Fountain At Red Cross Store

LeRoy Faville, operator of the Red Cross Pharmacy in Texico, has been installing a new soda fountain in his place of business this week.

The new fountain, a product of the Bastian-Blessing Co., of Grand Rapids, Mich., has a 12-ft serving counter and will accommodate seven customer stools. Four ice cream containers, three large washing basins and other added features have been incorporated in the new job. Constructed of stainless steel, it is red in color with chrome trim, and presents an attractive appearance.

A good method of shading small plants after transplanting is to set wood shingles in the ground two or three inches from the plant on the south side.

FROM THE HOPPER

By HOP

Speaking from a housekeeper's point of view, Mrs. A. Milstead says she prefers a sandstorm to a rainstorm.

John Aldridge says you never realize how valuable a piece of property is until you discover you are occupying the other fellow's land with your building!

Bess Mansfield, deputy at the Tax Collector's office, had to take time out last Thursday afternoon and have a cup of coffee. She had been working all day in search of one penny, representing the amount she was off in her tabulations in her annual report.

Mayor John Kimbrough of Bovina, having gotten the water works system into operation in that city, said last Friday that the next move would be the installation of parking meters. But he hasn't yet solved the problem of how to install parking meters in the middle of main street, where most of the parking is done.

Health Notes

By Texas Department of Health

AUSTIN—A warning against the hitch-hiking germ of typhoid fever has just been issued by Dr. Geo. W. Cox, State Health Officer. They must catch a ride from an infected person to the well person; this is generally accomplished by water, milk, flies, fingers or food. Every case is contracted by way of the mouth and digestive organs.

A carrier is a person who has had typhoid fever at some time and who even after recovery carries the germ of the disease in the urine and discharge of the bowels. Carriers who are careless in their personal habits are likely to infect any food they handle with unwashed hands. Some of the most serious and far-reaching outbreaks of the disease have been caused by drinking milk or eating foods that have been handled by the carriers. Persons may be carriers without knowing it.

Typhoid fever is unnecessary and preventable. Every case is due either

to community negligence or to the ignorance or carelessness of some individual. Persons planning a vacation or trip where sanitation may not be rigidly enforced should protect themselves against this disease by being vaccinated. Inoculation with typhoid vaccine, a week apart, is all that is necessary to secure protection against this disease for two years. The purity of water, milk or food cannot be judged by looking at it so the best thing to do is to play safe and have your physician protect you.

VETERAN'S NEWS

The Veterans Administration reminds all veterans training in colleges and universities under the GI Bill that they will automatically be granted 15 days leave at the end of the present term.

Subsistence allowance will be paid and entitlement charged for this leave period.

Veterans who do not want their entitlement reduced by leave should already have posted notices to VA.

Most of the veterans studying in schools and colleges under the GI Bill and the Vocational Rehabilitation Act (Public Law 16) for disabled veterans are attending one school only, a Veterans Administration survey reveals.

The survey, based on the training elections of the 1,800,000 veterans in schools during November, 1947, shows 1,609,000 confined their studies to a single school.

Almost 4,000 study in more than one school. Combining school and job training, but taking the majority of the training in schools are 15,700.

POLITICAL ANNOUNCEMENTS

The State Line Tribune is authorized to announce the following candidates for the respective offices subject to the action of the Democratic primary election in July:

For Sheriff-Assessor-Collector:
WILFRED QUICKEL
EARL BOOTH
(Re-election)
CHARLIE LOVELACE

For County Treasurer:
ROY B. EZELL
(Re-election)

For County and District Clerk:
LOYDE BREWER
(Re-election)

For County Judge:
A. D. SMITH
(Re-election)

For District Attorney, 64th Judicial District:
JOE SHARP of Plainview.

For County Commissioner, Pct. 2:
C. L. CALAWAY
(Re-election)

For County Commissioner, Pct. 4:
W. S. MENEFFEE
(Re-election)
JIMMIE SEATON
ALEX STEINBOCK

For County Commissioner, Pct. 3:
E. F. BILLINGSLEY
FRANK PHILLIPS

Over 171,000 limit their studies to correspondence schools, while 1,400 combine regular school studies with correspondence school work.

Veterans needlessly take the risk of losing their money and their insurance protection when they mail cash to pay premiums on National Service Life Insurance policies, Veterans Administration warned.

A veteran making his payments in cash through ordinary mail has no way to prove he made the payment in the event it fails to reach VA. Veterans are urged to use money order, postal notes, or checks for NSLI premiums, and also use the yellow envelopes furnished by VA in mailing payments.

SANTA FE CARLOADINGS

Santa Fe System carloadings for week ending May 22 were 27,586 compared with 24,009 for same week in 1947. Cars received from connections totaled 10,942 compared with 10,248 for same week in 1947. Total cars moved were 38,528 compared with 34,257 for same week in 1947. Santa Fe handled a total of 36,522 cars in preceding week of this year.

Never too late...

Whatever its birth date... your car will live a longer life if you regularly drain out old oil and OIL-PLATE with Conoco Nth.

And here's the reason why. The moment Nth Motor Oil (Patented) enters your engine, a special added ingredient fastens an extra film of lubricant so closely to metal that cylinder walls and all working parts are literally OIL-PLATED!

This protective OIL-PLATING stays right up there... won't all drain down to the crankcase, even with your engine idle over night! That's why Nth Motor Oil extra-protects from "dry-friction" starts... from metal-eating combustion acids... from sludge and carbon due to wear!

So, for full-time protection... for more miles per quart, make a date now...

...to OIL-PLATE!

SURPLUS CLEARANCE

The clearance of surplus in the El Paso area by WAA and slated for June 10 will involve materials originally costing \$200,000. In addition about \$100,000 worth of machine tools released by a government de-

fense committee, some auto parts, cafe equipment, tents, heaters, coolers and medical furniture and supplies will be among 88 lots to be offered the various classes of buyers. Veterans will be invited to bid on two set-aside items at this big clearance: a revolving truck-mounted

crane and a laundry trailer complete with equipment. Inspection will continue through June 9 at Warehouse No. 22, Fort Bliss. The selling period for veterans, other priorities and commercial purchasers will begin at 9:00 a. m., June 10.

Cooling COMFORT ELECTRICALLY

There are lots of places in your home where an electric fan will bring cooling comfort, but none more important than the sick room.

There, during the hot summer days, a quiet electric fan will bring immeasurable comfort to the ill. You'll want to move the same electric fan to other rooms too, for there's nothing to stir up a cooling breeze on a hot summer day like an electric fan. Get yours NOW... and let cheap electricity bring more cooling comfort to you and your family this summer.

We have nothing to sell but good electric service. You'll find a wide variety of electric fans on display at your favorite appliance dealer.

LOCAL FORD DEALERS ON SPECIAL TRAIN

O. C. Sikes of this city, along with 200 other dealers in the Denver District of the Ford Motor Co., was in San Francisco last week, getting his first view of the new 1949 Fords. The all-Pullman Rio Grande Special, a portion of which is shown here at the foot of Mount Timanogos, near Provo, Utah, is only one of the four special trains which covered on the Bay Area, where more than 1,100 Ford dealers in the western region previewed the new line of passenger cars, hailed as the first completely new design of post-war cars in their price group.

Sikes returned home the past Saturday with the announcement that the new 1949 Ford model would be on display at the Sikes Motor Company in this city on June 18th.

Soaking clothes saves hot water, work, time and wear on garments. Fifteen to twenty minutes soaking in lukewarm water is all that is necessary. Soaping collars, neckbands and extra soiled spots before soaking is still further saving.

Walker Made Range Specialist

COLLEGE STATION—A. H. (Fred) Walker, extension pasture specialist of Texas A. & M. College, has been appointed extension range specialist effective June 1, according to J. D. Prewitt, acting director of the Texas Extension Service.

A native of West Texas, Walker was reared on a ranch in Comstock county. He was graduated from Texas A. & M. College in 1936 with a B. S. degree in animal husbandry, and a year later accepted the position of county agent in Culberson county. He transferred to Menard county in 1940, and served there two years before going into the army.

Upon discharge from his four years in the army, Walker returned to Menard county as county agent. He completed a year's graduate study in September, 1947, receiving a Master of Science degree in range management from Texas A. & M.

In September, 1947, Walker was appointed assistant pasture specialist-range in the Texas Extension Service, with headquarters at College Station.

Under his recent appointment as Extension Range Specialist, Walker will be devoting his activities to proper range and pasture management on native vegetation pastures and range lands.

Walker will move his office from the Experiment Station building to the Range and Forestry Department in the Agricultural Engineering building.

Doctors and scientists of medical allied fields may now be commissioned to specialize in the field of research, under a new program adopted by the Navy's Bureau of Medicine and Surgery.

VETERAN'S QUESTION BOX

Q—If I attend summer sessions at the college where I am enrolled under the education benefits of the G-I Bill, do I need a supplemental certificate of eligibility?

A—No. The only time you need a supplemental VA certificate of eligibility to attend summer school is when you transfer to another school for the summer term.

Q—I am a U. S. citizen and have received war service gratuity and reestablishment of credit benefits from the Canadian Government. Am I entitled to loan benefits under the G-I Bill?

A—Veterans Administration has ruled that the loan benefits under the Servicemen's Readjustment Act are neither the same nor similar to the "war service gratuity" and the "reestablishment credit" apparently paid you in cash by the Canadian Government. Therefore, you are entitled to a loan guaranty if you are otherwise qualified.

Q—Five of us veterans of World War II have incorporated and are operating a business. Can each of us file a claim for readjustment allowance as self employed?

A—No. Veterans Administration decision held that none of the veterans connected with a corporation can be regarded as self-employed within the meaning of Public Law 348 (G-I Bill).

Q—My husband is receiving a Spanish War pension of \$90 monthly. We were married two years ago and I would like to know if I will receive a pension at his death.

A—No. Under existing law, you would not be eligible because your marriage took place after Dec. 31, 1937.

More than 1,260,000 quarts of food were conserved by Texas 4-H club girls in 1947.

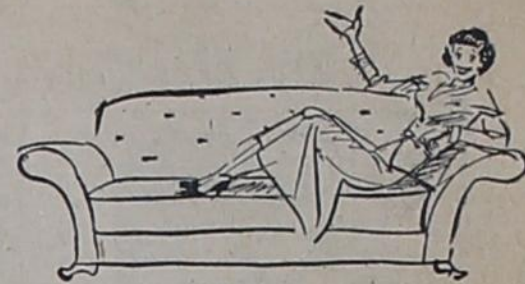

EXPAND AT TECH

LUBBOCK—East wing of the men's dormitory under construction at Texas Technological college will be completed and open for summer school residents June 9. W. T. Gaston, college business manager, announces.

The east portion of the two-unit building will house 350 men. Mr. Gaston estimated. The completion of the second campus dormitory in the \$4,000,000 dormitory construction project is to be realized by September, Mr. Gaston said, and both wings will be occupied next fall. The women's dormitory constructed under the same contract was opened this school year, September, 1947.

Drane Hall, women's residence, Doak Hall and Sneed Hall, men's residence halls, will be closed for repainting and general repair throughout the summer, Mr. Gaston said.

West hall, the new dormitory wing and women's dormitory number 3 will be used for student housing during the summer terms.

TWO SUMMER TERMS

LUBBOCK—Texas Tech will conduct two six-week summer terms, from June 9 through July 17 and from July 20 through August 28, according to Pres. W. M. Whyburn. More than 225 faculty members will serve on the 1948 summer staff and courses will be offered in 37 departments. Graduate and undergraduate work will be presented in agriculture, arts and sciences, business administration, engineering and home economics. Instruction will be resumed in textile engineering for the first time in several years.

The typical Navy recruit is 17 years old, unmarried, has no dependents, comes from a rural area, left school at the age of 16, and joined the Navy to travel or to learn a trade, according to a recent survey conducted by the Bureau of Naval Personnel among 2,400 new enlistees.

Political Parties Show Interest In Beef Growers

The Democratic and Republican parties have both shown the New Mexico Cattle Growers Association and the livestock industry ample consideration in the preparation of their state platforms according to G. W. Evans, Magdalena, President. "A. D. Brownfield, Deming and James Morrow of Raton are serving on the eight man Democratic Platform Committee and Floyd W. Lee of San Mateo and I have been invited to serve on the six man Republican Platform Committee," Evans said. All are directors or officers of the association.

"Our association is not interested in partisan politics. We do feel it necessary, however, that our industry be well represented on these platform planning groups in order that the livestock business will receive fair consideration on all problems confronting our industry no matter which party is in office," Evans continued.

"This association has never endorsed any political party or any individual running for public office. Our members are well qualified to make their own individual selections," Evans stated.

"We are interested only in promoting and developing sound business in government, economy in state expenditures and recognition for our industry which is basic in the economic structure of New Mexico," he said.

Artificial Breeding Available In County

County Agent Ollie Liner announced today that arrangements had been completed for artificial breeding of dairy cows in this county, and dairymen who desired this service should contact his office or either of the two technicians, A. J. Hamm in Farwell, or Joe Falwell in Friona. Liner said that the two technicians were taking their training in Lubbock at present, but would be on the field in this county after Friday of this week.

At present breeding from pure Jersey and Holstein bulls are being offered, and the service will be offered at a very nominal charge.

The shores of the Great Lakes are longer than the combined Atlantic, Gulf and Pacific coast of the United States.

Farwell F. F. A. Boys Return From Extended Trip Sunday P. M.

The Farwell Chapter of the Future Farmers of America returned home about 4:00 Sunday afternoon from an extended trip that carried them through Texas and Oklahoma. First stop for the group was Buffalo Lake, near Umbarger, Tex. After a day's stay at Buffalo, they moved on up into Oklahoma to Lake Murray, near Ardmore, Oklahoma, and on the circuit back home, stopped at Horse Shoe Lake near Wichita Falls.

"Prof" Morton, local Chapter Advisor, said Monday that all the boys enjoyed the trip. One of the main reasons of the journey was for the observance of growing crop conditions some distance from our area. He reported fair wheat in Oklahoma. Morton confesses that although quite a bit of fishing was done by the group, "fishing" was all they did, as very few were caught.

Boys making the trip included Jerry Pool, Gerald Norton, Gerald Curtis, Carry Joe Magness, Leon London, Troy McKillip, Don Ford, Melvin Venable, Leonard Watkins, Ernest Foreman, Raymond Jesko, and Bowden Darr, Donald Watkins and Mr. Morton as sponsors.

Horse And Cow Killed By Storms

A saddle horse and a cow were reportedly lost by lightning during the fierce electrical storm which passed over this section of the country last Sunday night week. Travis Brown was the owner of the saddle horse, which was being kept on the John Holland farm south of Farwell. Robert Scheuler of the Rhea community was reported to have suffered the loss of the cow, which apparently was standing too close to a barbed-wire fence.

Texico Student In Straight "A" Group

PORTALES—Eight students at Eastern New Mexico College have a straight "A" record for the first semester of the 1947-48 term, according to a recent announcement by Dean H. S. Gossard.

Seniors having this top scholastic rating are C. Loveace, Encino, and Robert Ritchie, Clovis. Juniors are William S. Harper, Paul's Valley, Okla., and Helen Marsh, Clovis.

Sophomores are Beryl Brown, Texico, and Vic Jameson, Tucumcari. Freshmen are Florence B. Unrah and Ruth White, both of Portales.

GLAD TO BE BACK

Rev. Harvey Carrell, pastor of the Methodist Church, in making his first appearance in his pulpit here in the new Conference year, expressed his appreciation on being returned to the local work. "We are happy for this another opportunity of serving this church for another year," he stated.

AT HENDERSONS

Roy Osborne arrived here the latter part of last week from Tulsa, and has taken a position with the Henderson Grain & Seed Co., in this city. He has been assigned to duties in the office of the company.

A species of birds, the megapodes, of New Guinea and Australia, build a large nest of decaying vegetable matter so that the resulting heat generated hatches their eggs.

Health Regulations To Be Enforced

According to reports received from the Office of County Health Officer and County Attorney, many complaints are being received about unsanitary conditions. These complaints have to do in particular with open outdoor toilets and cess pools which are not properly covered.

County Health Officer Dr. Robert C. Stokes, explained that his instructions from the State Health Department strictly forbid any drainage from septic tanks except through a subsurface drainage field, and further prohibit open toilets and any uncovered drainage.

Sam Aldridge, County Attorney, stated that he would cooperate with the Health Department in enforcing its rulings and further explained that these complaints involved fines up to \$200.00, should this be necessary to get the cooperation of violating citizens.

The reason for the health regulations, it was explained, is the preservation of public health, and all citizens are asked to cooperate as it will be more pleasant for all concerned.

NEW EQUIPMENT

Wilfred Quickel, instructor at the Farwell Vocational Ag School, stated this week that several items of new equipment had been received the past week for use in the school. Most of the new equipment, he said, consists of welding machines, paint sprayers and large wrenches.

Local Happenings

Local Couple Marry In Roswell

Lamoin Jones, daughter of Mr. and Mrs. Austin Jones of Farwell, and Bert Williams, son of Mr. and Mrs. Johnnie Williams, Farwell, were united in marriage Friday afternoon at 6 p. m. at Roswell, N. M. in the home of Rev. and Mrs. Du Laney, pastor of the First Baptist Church in Roswell. Mrs. Williams, also of Roswell, was present for the occasion.

The bride wore a white shantung suit with black accessories, and a corsage of orchids.

The couple spent the night in Roswell in the home of the bride's parents, then left early Saturday morning for Ruidoso, N. M., for a short honeymoon. The young couple plan to return to farm life.

Mrs. Williams was a freshman student at E. N. M. C. in Portales, previous to her marriage.

Mrs. Houston Honored With Shower

Mrs. R. L. Houston was honored with a pink and blue shower Friday afternoon in the home of Mrs. Edd Blain. Lovely refreshments of cake and punch was served to mesdames Jim Young, G. C. Houston, Jr., C. L. Wilkerson, Hershel Morgan, Homer Dykes, S. C. Hunter, Sussie Lofton, G. S. Houston, Sr., Bob Drace, Hubert Beatty, Blick Cantrell, Denver May, H. P. Winkles, Perry Crawley, and Willie Goldsmith. Mrs. Edd Blain was hostess and Mrs. Loyce Spies was assistant co-hostess. Those sending gifts were Mesdames Stanley Stewart, Thelma Snodgrass, Zona Crooks, Elmer Bridges, Nell Aurtly, Jim Moore, Mrs. Byron, Joe Morgan, Lula Haynes, Mrs. Bowers, Ruby Stone and Jake Winkles.

Bible Class Meets With Mrs. Atchley

The Wesley Bible Class met Tuesday in the home of Mrs. G. W. Atchley. Mrs. Roy B. Ezell led the devotional.

Present were Mesdames, B. N. Graham, A. D. Smith, Albert Thomas, Ruby Dixon, Roy Thornton, O. B. Pipkin, Lena Yoder, Jess Newton, S. C. Hunter, Alice Cleary, Ralph Humble, F. J. Park, Roy B. Ezell. Visitors included Mrs. H. E. Carrell, Ivy Baysinger, Gale Cleary. Punch and cookies were served at the close of the meeting.

Honored With Luncheon

Miss Mary Mendoza was honored with a farewell luncheon in the home of Bill Meeks of Farwell Friday afternoon.

A chop suey dinner was served to Carline Martin, Mary Mendoza, W. T. Meeks, and the hostess, Mrs. Bill Meeks.

En Route To Coast

Mr. and Mrs. Floyd Spear and sons, Rudy and Billy, of Oklahoma City, and Mr. and Mrs. Dean Spear of Laverne, Okla., were guests in the Loyde Brewer home the first of the week. They were en route to points in California and Oregon on a vacation tour. Mrs. Floyd Spear is Mr. Brewer's sister.

Miss Alyce McNew of Clovis, New Mexico, spent the past weekend in the home of her brother and sister-in-law, Mr. and Mrs. Mansell McNew of Turpin, Oklahoma.

Mrs. Harold Hillock and children left here Tuesday for Hot Springs to take a course of the mineral water baths.

Pre-Nuptial Dinner Held In Roberts Home Sunday

A one-o'clock dinner was held in the home of Earl Roberts Sunday, May 30th, announcing the approaching marriage of Miss Wanda Lee Sanderson, daughter of Mr. and Mrs. Loyd Sanderson of Portales, and James R. Smart, son of Mrs. Bettie Smart of Farwell.

Those attending were Mr. and Mrs. Ray Ford, Mr. and Mrs. Ben A. Smart, Jr., of Farwell, Miss Winnie Mae Martin of Clovis, A. J. Sanderson of Portales, the honorees and the host.

Nuptials will be read in the Assembly of God Church in Clovis, N. M., Saturday at 8:00 p. m., with the Rev. Roy Stewart, pastor, officiating.

Wesley Guild To Meet In Vinyard Home

The Wesleyan Guild will meet for their regular meeting next Tuesday evening, June 8th, in the home of Mrs. W. W. Vinyard. Mrs. Bess Mansfield will serve as co-hostess. The subject of the meeting will be "The Christian's, Alcohol, and Public Health."

All members are invited to attend.

Grand Cross Of Colors Designates

Rev. Mark Sexon, founder of the Rainbow for Girls, has authorized that the following persons, in recognition of outstanding services rendered the Rite known as the Order of the Rainbow for Girls, shall be invested with the secrets of the highest honorary Degree that Rainbow can confer upon anyone.

Miss Gloria Kepley of Farwell, a past Worthy Advisor of Bovina Assembly and present Grand Representative from Missouri to Texas, and Miss Lunell McFarland of Friona, an outstanding Past Worthy Advisor, being the two Rainbow girls to receive this honor will journey to El Paso, Texas, June 13th where they will receive this degree at the hands of Rev. Sexon.

The adults who have been cited to receive this degree are: Mrs. Jewel Barry, Mother Advisor; Mrs. Mae Porter, acting Mother Advisor; Mrs. Flora Kepley; Mrs. Wynnie Dunn; Mrs. Edith Cherry; Mrs. Bessie Denney; Mr. and Mrs. Chas Bainum. Those not in attendance in El Paso to receive the degree will, perhaps, receive it at a later date by local talent in the Bovina Masonic Hall.

Accepts Pastorate At Ranchvale

Mr. and Mrs. Clifton Henderson moved their household effects to Ranchvale, a rural community west of Clovis, the first of the week, where he accepted the pastorate of the Methodist church there through the summer.

Mr. and Mrs. Henderson both graduated from the Eastern New Mexico College at Portales recently. In September, he plans to go to Sewanee, Tenn., where he has been enrolled in the University of the South, to continue his ministerial studies.

On Vacation

Mr. and Mrs. Les Means have written The Tribune from Ojo Caliente, New Mexico, that they are enjoying their vacation being spent in northern New Mexico. Mr. and Mrs. Travis Brown are with them.

Mr. and Mrs. Joe Graham, of Portales, N. M., spent Monday visiting in the home of his brother, Mr. and Mrs. B. N. Graham of Farwell.

Approaching Wedding Announcement Made

MARY LEATRICE CHERRY

Mr. and Mrs. W. O. Cherry of Bovina, announce the approaching marriage of their daughter, Miss Mary Leatrice, to Mr. D. C. Looney, son of Mr. and Mrs. Reagan Looney, also of Bovina, on Friday, June 4, at 7:00 p. m. Nuptial rites will be read at the Baptist Church in Bovina. All friends are invited to attend.

Miss Dishman Back

Miss Hazel Dishman, who has been in California the past several months, returned here the first of the week and is again employed at The Tribune office. Mrs. Abie Crume, daughter of the publisher, who has been with us the past 14 years, has "took out", and returned to her home in Friona.

Public Installation

There will be a public installation of the officers of Bovina Assembly of Rainbow girls at the Farwell High School auditorium Sunday, June the sixth at 2:30 o' clock.

Visits Parents In Okla.

Mrs. J. D. Brown of Texico, visited her parents, Mr. and Mrs. M. A. Fields, in Vici, Oklahoma over the weekend.

Mrs. Loda Hodges and her two small sons, were here last Wednesday spending the day with Mrs. M. C. Roberts. Mr. Hodges is operating the Roberts Elevator at Portales.

Mr. and Mrs. Hershel Pierce and children of Iowa Park, Texas, visited in the home of Ralph Humble over the past weekend. Other visitors were Mr. and Mrs. Lee McDaniel and daughter of Lubbock.

Mr. and Mrs. Jim Moss spent Sunday afternoon in the Fred Barker home in Friona. Jerry and Anita returned home with them after spending a week in the Barker home.

Miss Jane Claire Overstreet, daughter of Mr. and Mrs. H. Y. Overstreet of this city, is visiting Dr. and Mrs. Nifong at Mansfield, Texas.

Mr. and Mrs. R. J. Banks and son, Jay, Jr., and Miss Mary Elizabeth Banks from Corsicana, Texas and Mr. and Mrs. Tom Salman from Lubbock visited in the J. C. Banks home over the weekend.

Mr. and Mrs. W. E. Verner, Mr. and Mrs. Jim Miller and Mr. and Mrs. Jonnie Jennings and son, Bonny, enjoyed an outing at the Conchas lake northwest of Tucumcari, N. M. last week.

Howard Graham, son of Mr. and Mrs. B. N. Graham and student at McMurry College at Abilene, Texas, will visit his parents for two weeks, then go to Mead Will, Penn., where he will enter Alleghny College.

Attend Concert At Pampa Church, Sunday

Mr. and Mrs. C. M. Henderson returned home Monday from Pampa, where they were in attendance at a piano concert given by their son-in-law, John Branson, at the First Methodist Church in that city.

Branson, who is a son of Mr. and Mrs. G. F. Branson of Pampa, began his studies of music in Amarillo after graduating from the Amarillo High School. While stationed at March Field, Calif., with the U. S. Air Forces, he studied under Dr. George Liebling of Los Angeles, one of the few remaining pupils of Franz Liszt.

After his release from the Army, he spent two years at the Sherwood Music School, Chicago. He is now a junior at the University of Tulsa, where he is studying with Helen Ringo. He is combining teaching of piano with regular Bachelor of Music course.

His program Sunday night at Pampa, was made up of the following numbers:

Jesus Christ, the Son of God. Bach-Rummel; Sonata, Op. 90, Beethoven; Rhapsody, Op. 79, No. 1, Brahams; Nocturne, Op. 9, No. 1, Chopin; Toccata, Op. 7, Schumann; Prelude in E Flat, Op. 23, No. 6, Rachmanioff; Ondine, Debussy; Toccata, Khachaturian; Concerto in D Minor, K-466, Allergo, Mozart. He was assisted by Mrs. Mae Forman Carr.

Vacation Bible School At Bovina M. E. Church

A vacation Bible school for children from the beginner department through the junior classes, opened at the Methodist Church in Bovina Monday morning and will continue through June 11th. Study periods will begin at 9 o'clock and be dismissed at 11 each morning during the school period.

Mrs. Earl Ware is general superintendent of the school, assisted by an able corps of teachers in each of the departments. Attendance is not limited to the Methodist membership, but a general invitation of the community has been extended.

Gives Dinner

Miss Thelma Gravelle gave a dinner honoring Misses Mary and Phillis Mendoza Tuesday evening. Those present were Mary and Phillis Mendoza, Letha Bridges and the hostess.

Mr. and Mrs. Joe Wesley Hromas and daughter, Marie Lynn, formerly of Bovina, arrived safely in Grande View, Washington on Sunday night. They plan to make their home there.

Visitors in the home of Mrs. Bettie Smart Sunday afternoon included Miss Winnie Mae Martin of Clovis, N. M.; Miss Wanda Sanderson and J. A. Sanderson of Portales, N. M.

Mr. and Mrs. J. J. Hudson of Texico are the parents of a 7 1/2 lb. daughter, Linda Gail. The little lady arrived on the 31 of May.

Mrs. Fred Cornelius has just returned from a two-week tour. She visited relatives and friends in Carinth, Miss., and Memphis, Tenn.

Miss Thelma Gravelle was a week-end visitor in the home of her parents, Mr. and Mrs. H. C. Gravelle, in Plainview, Texas.

Mr. and Mrs. Doyle James and children of Alamos, N. M., visited in the home of Mr. and Mrs. Perry Crawley Sunday.

Mr. and Mrs. B. N. Graham were Lubbock visitors Friday.

Mrs. C. K. Caldwell and daughters left early Saturday morning for San Antonio and other points in Texas.

Every glass sterilized in 180 degree water for five minutes.

We invite you to come in for refreshing, sanitary drinks.

RED + PHARMACY

Graduates At McMurry

Miss Willie Ellen Williams, daughter of Mr. and Mrs. W. E. Williams of Bovina, was among the graduates at McMurry College, Abilene, last week, having majored in Musical Education. She left the latter part of last week for Dallas, where she investigated the possibilities of obtaining a position with a school in that locality.

Returns Home

T. J. (Uncle Tom) Randol, who has been spending the past several weeks at the bedside of his daughter, Mrs. Lena Osborne, in Lynwood, Calif., returned home last Wednesday. Mrs. Osborne suffered a paralytic stroke some weeks ago, and is reported to be showing only slight improvement in recent weeks.

Attention, Farmers!

Did you know that you can buy special farm machinery policies protecting tractors, combines, other farm implements, irrigation motors, etc., against fire, theft and many other hazards for less than \$2.00 per hundred?

Did you know that insurance on farm stored grain in separate granaries costs only about 75 cents per hundred?

Did you know that this is a favorable time for taking out long term fire and lightning policies on farm improvements, because of the 15% experience credit now taken off of rates?

Mr. and Mrs. A. C. Steelman are spending several days fishing in Hot Springs, N. M.

Wary Sue and Alfred Moody went to Marysville to spend a few days with their grandparents.

Mr. and Mrs. J. N. Shaw from Marysville, Tex., visited their daughter and son-in-law Mr. and Mrs. E. H. Moody and family last weekend. Mr. and Mrs. Albert Shaw and daughter of Gainesville, Tex., also visited the Moody family last weekend.

The District Nine Baptist Workers Conference met at the Bovina Church the past Thursday. Lunch was served in the Baptist church by the church women.

Miss Inell Elliott was married to Henshel Lowe Thursday at 9:00 o'clock in the First Baptist Church of Bovina with Rev. Bruce Giles performing the ceremony.

Mr. and Mrs. Troy Fuller left for Leedly, Oklahoma, on a short visit with Mrs. Fuller's sister and brother-in-law, Mr. and Mrs. Shelby Bishop. Barbara Kay Bishop plans to return to spend the summer with Mr. and Mrs. Fuller.

J. H. Steelman received word last week that his sister, Mrs. E. O. Go-highly of Mesa, Ariz., passed away

following an illness of several years. The Sew and Chatter Club met with Mrs. Alma Vassey Thursday of this week.

Mrs. Artie McCutchin is in Albuquerque, N. M., where she will undergo a spinal fusion in the hospital there.

Mrs. Jewel Ponca of Roswell, N. M., has been visiting her mother, Mrs. W. J. Parker for the past several days.

Wantita Munn of El Paso, Texas, has been visiting in the home of her aunt, Mrs. S. A. Calhoun.

Mrs. G. C. Danner is reported to be quite ill at this writing. She recently returned from the Hereford Hospital.

The daughter of Mr. and Mrs. G. W. Horton, Mrs. Hazel (Jim) Gunn of Friona underwent major surgery at the Parmer County Hospital Friday night. She is reported to be doing nicely at this writing.

The two small children of Mr. and Mrs. Earl Richards were run over by a car in Bovina Friday afternoon while riding down the street on their horse. They received only minor injuries.

Mrs. A. G. White was called to Lawton, Oklahoma, Friday evening to the bedside of her small grandson, Danny, who is reported to be on the sicklist this week.

Mr. and Mrs. J. O. Combs are planning to spend approximately one month's vacation in June when they plan to visit relatives and friends and go fishing.

The Texas State Highway Department gave a picnic at the Park Saturday evening where the wives of the highway employees served with eats. The picnic was attended by all highway employees and wives of this district—Castro and Parmer counties. A very enjoyable time was had by all.

The Bovina Parent-Teacher Association met on Wednesday, May 19, at four o'clock at the school, for installation of officers. Mrs. Buck Ellison presided.

A short piano program was presented by Misses Patsy Lofin and Patsy Ellison.

Mrs. Lewis C. Cox, out-going president of the Farwell Parent-Teacher Association, acted as installing officer. New officers are Mrs. Buck

Ellison, president; Mrs. Glenroy Davies, vice-president; Mrs. J. T. Hammonds, secretary; Mrs. E. H. Moody, treasurer; Mrs. W. E. Williams, Parliamentarian; Mrs. Aubrey Rhodes, historian.

A social hour followed the installation service.

CAPACITY GIVEN

The capacity of the average freight car in 1920 was 42.4 tons—while the capacity in 1946 was 51.1 tons—1.5 greater than in 1920.—Santa Fe Almanac.

LESS FREIGHT CARS

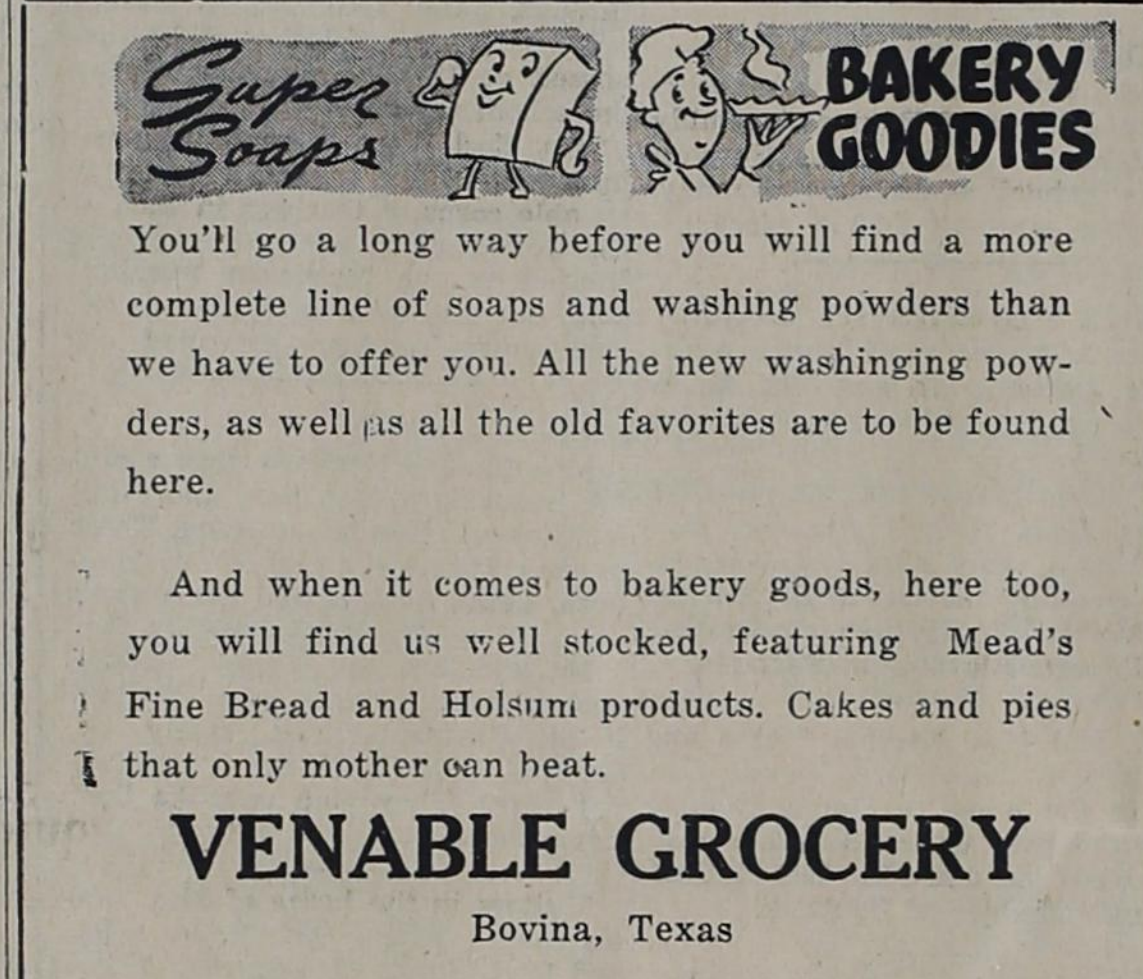

In 1920 there were 2,359,962 freight cars on Class I American railroads. In 1946 there were 1,767,130—about 3.4 of the number in 1920.—Santa Fe Almanac.

RESULT PRODUCING

The superior ingredients used in Ayres Broiler Mash are carefully proportioned to insure palatability, liveability, and bigger gains. Since this high grade mash promotes greater consumption among your chickens, they mature to the desired weight quicker.

TO THE CITIZENSHIP

...of the..

Oklahoma Independent School District

As the time approaches when the voters of the Oklahoma Lane school district are to decide whether or not their district will be consolidated with the Farwell district, an open letter to the people of the Oklahoma Lane community, we believe, is in order.

First and foremost, let it be emphatically stated that the people of Farwell are anxious to have the Oklahoma district consolidated with the Farwell district. We would welcome such a consolidation. We want the people of Oklahoma Lane to know that we would welcome the consolidation move.

However, the people of Farwell are not seeking in any way to put any undue pressure to bring about the consolidation. The consolidation, if voted, must be done by Oklahoma Lane and not by Farwell. Furthermore, if there is any chance under existing school laws in Texas where the Oklahoma Lane high school might be maintained, the prevailing sentiment in Farwell most certainly would be to continue the district on its present basis. At the present writing, however, there is no indication the State Department of Education will change its ruling that an affiliated high

school cannot be maintained in the Oklahoma Lane District. There is not a right-thinking person in Farwell who would not help the Oklahoma Lane district in any way possible to maintain that school's present status.

Farwell would welcome the consolidation with Oklahoma Lane. But not at the expense of the good will of the people of that community. We much prefer their good will than the consolidation. We believe that Farwell will vote unanimously for the consolidation. But—and we are glad this is so—the matter of consolidation is going to be up to the voters of the Oklahoma Lane district.

We believe that merging the Farwell and Oklahoma Lane districts will be a move in the right direction for better school facilities for all of our children, and we furthermore believe that the issue of consolidation should be decided solely upon the question of improving the educational opportunities for our children. If the people of Oklahoma Lane feel differently about the matter, and feel that their preference is to remain an independent school district, it most certainly is their right and privilege to so vote.

Farwell Juniors and Seniors Have Bang-Up Good Time On Trip

—Sonny Graham

This is a story about twenty-two boys and girls of the Junior and Senior classes of Farwell High School who went on a long, long journey—currently referred to as the annual Junior-Senior trip. To those who have never been a junior or senior in high school, or have never undertaken the perilous experience of going along on a razzoo to the far corners of the earth with a pack of howling adolescents who are just that age to get into trouble, this may not interest you in the least. It may not interest you anyway . . .

But, to get on with the story, eleven members of the Senior Class of Farwell High School (comprising the entire grade), together with eleven spirited Junior class representatives, decided to uphold the customary school procedure about this time every year, and embark upon a little so-called "leisure" or "entertainment" trip. I am personally acquainted with twenty-one young people that I feel sure could, and would, impress upon you the erroneous status of the term previously used. Also, I feel reasonably sure that if you should refer to the trip I am speaking of to any of the four sponsors who accompanied us in terms of a "leisure" trip, they would quite likely leap into the air and pull their hair.

I pause here to mention the names of the poor unfortunates who were forced to suffer the pangs of the journey: The Seniors included Bobby Hart, Harry Sheets, Maxine Ford, Leonard Watkins, Sonny Graham, Junior Robertson, Willie Joe Carpenter, Velma Threet, Talma Randol, Jo Ann Williams and Charles Felts. Junior class members included Rosamond and Toby Booth, Warlick Thomas, Jackie Holland, Mildred Meissner, A. C. Henneman, R. A. Cassidy, Herman Gerles, Mary Ruth Petree, Alta Martin and Theda Branscum. The story would most certainly be incomplete without mention of the four lion-tamers: Mr.

and Mrs. Jack Williams, Mrs. Earl Booth, and Mrs. W. W. Williams.

Our trip had its beginning the morning of Tuesday, May 18th, which was the morning after the graduating night for the Seniors. No unusual happenings were encountered during the first leg of our journey, and after a slight pause for dinner in Roswell, N. M., the packed school bus moved on to White City, about five miles from Carlsbad Caverns, where we intended to spend the night and go through the Caves the following morning.

If I understand it correctly, the primary purpose of the lay-over in White City was for a little rest and relaxation before attempting the somewhat strenuous trip through the Caverns. Apparently some of the group were not aware of the fact.

I say this because I never in my life have seen so many shenanigans and monkey-shines as took place that night in our noise-filled tourist cabins. Everyone had a fairly satisfactory meal in the cafe at the entrance to the small city, and returned to their rooms with the idea in mind of listening to the radio or reading for a few hours and then retiring to get some of the rest I have mentioned.

All of a sudden every single one of the camp participants (our group, of course) turned up with water guns—and they were loaded. Need I add that the ensuing battle was one which rivals America's own Punker Hill or Napoleon's Waterloo? Oh yes, I said everyone had water guns. That statement is not accurate because there were three or four of my pals and myself who missed out on the department store sale because we were too busy playing a quick round of pool. However, we defended ourselves quite well with glassfuls of water, which, thrown in the general direction of a would-be attacker with a water-pistol, proved surprisingly effective. More times than not they got wetter than we did.

You may think that I have been referring to the younger set of travelers. No so. At least I know Mr. Williams was unable to stay out of the fracas.

Stopping by our room to see what

the ruukus was all about, he immediately became enveloped in the battle and could not dislodge himself from the line of fire until some time later that night. When he did finally start to bed he discovered gravel between the sheets and large mountain rocks inconveniently placed under the bed mattress. He returned to the boys' room to make an inquest. After satisfying his suspicions, Jack tromped back to his room where he again climbed into bed only to discover that his sheets were missing this time. The next time he walked into the boys' room everyone was "asleep". Finally rousing the crowd, he entered with a glass of horribly cold water as an inducement on the culprit's confessiveness. All were tight-lipped about the burglary until Jack threatened to douse Sonny Graham with his glassful of icy water, whereupon the latter meekly choked up the missing sheets from behind his bed.

We were getting tired of Mr. Williams' detective work at about 11:00 a. m. (N. M. time), so six exhausted boys gently but firmly picked him up from his cat-like watch in their room and deposited him safely in his own bed some three rooms down the line. That was the last we heard of him that night.

Immediately following breakfast the next morning, the group set out for Carlsbad Caverns, where, after a short wait, they made the lengthy walk through them. They then set out for El Paso, and arrived there late Wednesday afternoon. Cleaning up was in order, and then most of the group went down town and saw a show or just looked around.

All Thursday was spent in seeing El Paso and various parts of Juarez, Mexico. We were exceedingly fortunate to secure the services of Woody Wilson, El Paso Chamber of Commerce executive, who very obligingly showed us around.

Friday morning, the pack again hit the road toward Alamogordo, N. M., where they intended to stop for a short time to see the White Sands. A "short time" described it well because it was about 1:00 o'clock, and that mid-day New Mexico sun was beating down on that New Mexico sand producing some New Mexico heat that is really hard to outdo. Several minutes were spent at the museum, where an interesting and detailed display of the White Sands and how they got there was observed.

Then to Ruidoso. Ruidoso, N. M. is the kind of place where you can do nearly anything you want to in the way of recreation, and spend your money while doing it. That

LUBBOCK, Tex.—Box and seat tickets for the World's Championship Rodeo, starring Gene Autry, which will be held in the new Clifford and Audrey Jones Stadium at Texas Tech, are now on sale in the ABC Rodeo Ticket Office, Hilton Hotel. The Rodeo is being presented by the Lubbock American Business Club for the benefit of the capital fund of the Lubbock Boys' Club.

Mail orders for tickets should include check or money order, and should be sent to the ABC Rodeo, Hilton Hotel, Lubbock, Texas. Box seats are \$3.00, seats are \$2.00, and children's tickets are \$1.00, all with tax included.

sums up Ruidoso's description perfectly.

We spent two days there before returning home, which was about all anybody on the trip whose financial condition was as haggard as mine was, wished to stay anyway. It would take more time and space than I have available here to tell you what everyone did while there, but some of the dangest things happened to us in the dangest ways. Just ask Junior Robertson about his "bucking bicycle". Junior, riding along at a brisk pace, was just preparing to pull one of his numerous cut-ups on a bicycle by suddenly jerking upward on the handle bars of his steed and causing the front wheel to be off the ground about six inches for a short period of time. Well, just as he gave a justy yank to the handle bars, he hit a tremendous bump in the road he had overlooked. The front wheel soared into the air and Junior, with mouth gaped open and eyes big as saucers, faced along in almost a vertical position for a distance of about 25 feet. When he finally managed to get the lofted bicycle back to earth, he wheezed to a jittery stop. For a while, it certainly looked to me as though he would turn over backwards. Junior breathlessly related that he thought so too.

Monday morning found the group still numbering twenty-six, surprisingly, wending their weary way towards home.

Home was never like this before.

NEW STADIUM AT TECH

LUBBOCK—Open house at the new Clifford B. and Audrey Jones stadium at Texas Technological college will be held Monday, June 7, Commencement day, Morley Jennings, Tech athletic director, announces.

Visitors will be welcome from 10 a. m. until 5 p. m. to every section

FATHER'S DAY GIFTS

It isn't often that we have to think about gifts for Dad. But Father's Day is just around the corner, and we have suitable gifts for the occasion.

FOX DRUG STORE

of the structure, including offices, dressing rooms, class rooms and the press box, he said.

Coaches moved into offices in the stadium a few weeks ago, and completed dressing rooms were used for spring football training.

Mr. Jennings points out that facilities for upwards of 150 players have been set up in the dressing rooms the most extensive accommodation ever available to Tech Red Raiders. In addition to quarters for varsity and freshmen gridmen at the southeast corner of the stadium, smaller quarters have been constructed at the north end of the east stands for visiting teams and for officials. Coaches have offices on the second floor of the east stand, with the ticket office below. The heating plant, laundry room, concession

stand, motion picture room and rest rooms also are in the east stands.

The press box, one of the best in the southwest, is at the top of the west stand. Space for 52 press representatives is in the lower deck. Compartments for radio broadcasts, motion pictures, the public address system, and seats for coaches who wish to watch the game and communicate with the bench are in the upper tier. Below the west stands are additional lounges, storage rooms and a concession stand.

The U. S. Navy recruiting station, New York, led the nation with the highest total of new Navy recruits during the first quarter of 1948, with 5,062 enlistees. This figure was actually only 57.7 per cent of New York's assigned quota of 8,771.
