Second row: Coach Louis Purvis, Pete Hughes, Bob Dollar, Toby Booth, Leon London, Troy McKillip. Third row: Donald Ford, Jerry Pool, Bob Gerles, Warlick Thomas, Bobby Poteet, A. C. Hennenan, Jerald Norton. Fourth row: Hollis Hughes, manager; Melvin Terry, Rex Pool, Melborn Jones, Nickie Foster, John Christian, R. A. Cassidy.

Bovina Wins School Contest

Waterworks Expansion Planned Local System

Officials of the Texico-Farwell Waterworks are just awaiting a break in the weather to launch an improvement program in the Twin Cities water system that is hoped to solve the water shortage for many years to come.

V. C. Venable, water superintendent, stated today that all the equipment was on hand, "and we are all set to go just as soon as we get a good rain." He went on to explain that the improvement program would not be launched until a time when irrigation for gardens and lawns would not be so pressing.

At least four days will be required to make the transition, Venable explained, and a special crew will be sent here from Amarillo to take over the job when the work is started. The new 75 h. p. Pomono pump has been here several weeks, and during the past few days the additional equipment has been placed on the grounds.

Under the plan now being worked out, the present 30-h. p. pump now in use on the new well, will be transferred to the old well to replace the 15 h. p. pump. The six-inch casing now in the new well will be transferred to the old well, and new 8-inch casing will be installed in the new well along with the new 75 h. p. pump.

Engineers who have inspected both the wells and made recommendations on the equipment, estimate that the water output will be increased at least 1000 gallons per minute when the change-over is completed.

The work will so arranged that one well will be kept in operation at all times, and during this period Venable urged that water consumers be extremely economical in the use of water. Advance notice to all consumers will be made, he opined.

Texico-Farwell water users experienced their first shortage of water early this summer since the present system was installed, when it became apparent the pumping facilities were not adequate to the demands. Tests have been made and it has been determined that the two wells are still affording ample water . . . just a matter of not being able to lift it into the overhead tank in sufficient quantities.

Venable said that a check-up revealed that a total of 52 new meters had been installed in Texico-Farwell during the past year, greatly increasing the demands on the local system. Furthermore, he pointed out, the greatly increased number of air conditioners has created an additional strain on the water supply. At the present time, he said, both pumps are operating day and night, "and we are just barely able to keep up," he added.

Texico FFA Chapter Is Organized

The FFA Chapter of the Texico school held a meeting the past week at which they elected officers for the ensuing year. The officers are as follows: President, John White; Vice-President, Buddy Pearce; Secretary, W. O. Reid; Treasurer, J. D. Brown; and Reporter, Wayne Tucker.

The newly elected officers have been busy this week in setting up a program of work for the year, and they hope to have the schedule completed by Tuesday night, September 7th, so that it can be presented to the Chapter for approval.

The Chapter reporter, Wayne Tucker, stated today that they were offering breeding services from their registered Durro Jersey boar to the public at \$5.00 per head.

Tucker stated that the Chapter members were all looking forward to the annual Carnival and Barbeque slated soon.

Two of the local FFA boys attended the State FFA Convention at Albuquerque this year, namely John White and Bobby Poteet.

RETURNED HOME

Mrs. T. E. Levy returned to her home here Sunday, after having spent the past two weeks with her daughter, Mrs. Seth Rollins, in Pomona, Calif., who has been ill for several weeks. Mrs. Rollins' condition is reported to be only slightly improved.

NEW PASTOR—The Rev. O. O. Holladay, the newly called pastor of the Texico-Farwell Baptist church, who, with his family, has arrived here from Iraan, Texas, and taken over the local work. Rev. Holladay's family consists of his wife and one small daughter, Cecilia.

S. C. Hunter, Texico Resident, Passes Away

Death claimed one of Texico's pioneer citizens early Tuesday night when S. C. Hunter, 75, passed away in a Clovis hospital, where he had been removed earlier in the day, following a sudden illness.

Funeral arrangements had not been completed as The Tribune prepared to go to press Wednesday morning, out it was indicated by family members that the services would be held at the Steed Memorial Chapel Friday afternoon at 3:00, Texas time.

Skillman Cannon Hunter was born at Hallville, Ill., August 24, 1873. He was married to Miss Lora Bowles on Jan. 29, 1899, and they were making preparations to celebrate their 50th wedding anniversary next January 29th.

Mr. and Mrs. Hunter came to Texico in 1907, and homesteaded on a claim 6 miles northeast of Texico, where they lived for six years. He was named Texico postmaster in 1913 and served for six years. Following his retirement from the postoffice, he entered the real estate and insurance business, which he operated until 1928, when he and W. J. Mathews entered the coal and grain business under the firm name of the Plains Grain and Seed Co., which they operated until 1943, selling the business to C. M. Henderson.

Mr. Hunter was always identified with every moral and progressive movement in this community and gave himself unselfishly to the betterment of his community and his friends. He was a member of the Christian Church, and the Masonic order, being past master of the Clovis Lodge A. F. & A. M.

Besides his wife, he is survived by one son, Vernon Hunter of Dallas, who arrived here late Tuesday night by train after his plane was grounded at Lubbock by a storm. Other survivors include two nieces, and two nephews.

Potishman Plans More Grain Storage Here

Leo Potishman, Fort Worth grain buyer, and owner of three grain elevators in Farmer County, was here Thursday of last week, looking after his business interests.

While here Mr. Potishman said that he was making plans to increase the storage capacity of his Farwell holdings at the Farwell Elevator just as soon as suitable materials became available. He said that he planned to use steel in the expansion program and he had been advised that it would be next spring before such materials would be available. "We're going to expand just as soon as we can," he commented.

Mr. Potishman is president of the Transit Grain Co., of Fort Worth, and their properties in Farmer County include in Santa Fe Grain Co. of Friona; the Farwell Elevator at Farwell; and the Lariat Grain and Seed Co. at Lariat.

The never-say-die spirit of the citizenship of Bovina appears to have prevailed in the contest over a division of the old Oklahoma Lane school district with the result that a good portion of the former district has been detached from the Farwell consolidated district and attached to the Bovina district.

Although defeated in an attempt to consolidate the entire Oklahoma district with Bovina in a special election, by a vote of almost two to one, followed by another special election in which the voters of the Oklahoma district expressed their desire to consolidate with the Farwell district, the people of Bovina would not concede defeat and carried their fight to the county board of trustees asking that a portion of the Oklahoma district, along the north side, be annexed to the Bovina district.

Failing in one attempt at annexation, when the county board declined to act on their petition, the Bovinaites came back with a second request for a division of the Oklahoma district. The Farmer County Trustees, in session here last Thursday, deferred action on the second request. But on the following day, the Farmer County board met and rescinded their action of the day before, and agreed to a division of the disputed district and annexed 18½ sections to the Bovina district.

Bovina then carried the request to the Bailey County Board of Trustees, who, due to the fact that a portion of the Farwell district is located in Bailey County, became parties to the partitioning proceedings. The Bailey County Board, after declining the first request, held a meeting on Tuesday afternoon and agreed to the division of the district as set forth in the Bovina petition.

The Farwell School Board, in session here Tuesday night, decided to file a protest on the division of the district, and in the meantime seek an amicable agreement with Bovina school officials with the view of letting students in along the north part of the old Oklahoma district attend the school of their choice.

Ordinance Prohibits Blocking Fire Plugs

The Texico Town Council, in session Monday night, adopted an ordinance which prohibits the parking of cars or trucks within a certain distance of fire plugs, and also makes it a fineable offense to park cars in front of the fire station.

The new ordinance will become effective as soon as it has been publicly posted within the corporate limits of the town.

Mayor O. W. Francis said that the Council also took under consideration a street paving program in the town. It is proposed to pave four streets one block north of Main Street and one street two blocks in the same direction. The street being considered for two blocks of paving would accommodate church-goers to both the Methodist and Baptist churches. He said that most of the financing would have to be done by property owners, as the city had only a limited amount of funds set up in the budget for street improvement.

Estimates on the cost of the paving are now being worked up and Mayor Francis said he hoped to get the work done by Bowen & McLaughlin, contractors of the Texico-Clovis road work, before they move their equipment from here to another job.

Cars Collide At Street Crossing

All occupants escaped injury late last Wednesday afternoon when two cars collided at a street intersection in front of the Mrs. Thompson home in Farwell.

Clarence Meeks, driver of one of the cars, was going south when his machine hit a 1939 Ford driven by Mrs. Chas. Thompson as she approached from the east having just started in that direction from her home. Mrs. Thompson explained that she was blinded by the sun and did not see the Meeks machine. Meeks' car, a 1946 large Nash was damaged considerably, while the Ford escaped with a crumpled front fender.

Wax applied to the dust pan helps dust slide off easily; applied to the tops and bottoms of drawers, helps prevent sticking; to the painted surface of washing machines, helps prevent rust.

FROM THE HOPPER

By HOP

We are in receipt of a letter from Marshall Deaton, paralysis victim, whose letter we published in last week's paper, thanking us for the publicity given in his behalf. In conversation with R. B. McAlister of radio station KICA last Sunday evening, he informed us that Deaton's letter that appeared in this paper, was read over the air during the past week. Everybody seems to be willing to help this unfortunate and worthy young man, but few have taken the trouble to send him their magazine subscriptions, which is his only means of a livelihood. He has never asked for charity, but only a chance to earn what he receives. Won't you please keep this young man in mind and the next time you are subscribing for a magazine or renewing your subscription, simply mail it to him at Black, Texas, with your check for the regular subscription price. In this way, he will get the regular agent's commission, and it will not cost the subscriber one additional penny.

Of all things—Here is a card from Phil Harris and Alice Faye, who appear to be vacationing in France. "Having a wonderful time," Phil penned on the card. But he failed to add the usual comment, "wish you were here." Not being much of a radio fan, we had to get the members of the family to enlighten us on who Phil Harris and Alice Faye were. All we can say is that it was nice of them to remember us, even though it was probably done for publicity, which we are glad to give, and when they return to the air this fall their programs will be just a little more meaningful to us.

About the most completely lost couple we've observed in recent months was Loyd and Elsie Cain on Monday, who on that day started their one and only offspring, Corkey, to school for the first time. Elsie, who taught school for many years, used to think parents foolish when they regretted sending their only child to school for the first time, now has a better understanding of their feelings. "I know now how they felt," she stated.

Fire Boys Sponsor Watermelon Feed

The Texico-Farwell Volunteer Fire Department will throw a big watermelon feed on Thursday night at the fire station in Texico, and all people of Texico and Farwell are invited to attend.

Odis Huggins, secretary of the fire department, said in making the announcement the fireboys were paying for the melons and they would be served free to those who attend the feed. This has been an annual practice by the fireboys for some years and they are preparing for a good turn-out.

Mrs. D. B. Lanford has returned home after a two months visit with relatives downstate, around Vernon.

Rites Held Friday For Mrs. Joe Hromas

Funeral services were held Friday at the Baptist church at Oklahoma Lane for Mrs. Anna Marie Hromas, 54, who died Wednesday night at a Clovis hospital.

Rites were conducted by the Pastor, Rev. J. J. Terry. Burial was at Albany, Texas, with Steed Funeral Home of Clovis making local arrangements.

Survivors include the husband, Joe Hromas, Oklahoma Lane farmer; three sons, Eugene, J. W., and Glen Hromas, all of Oklahoma Lane; the father, J. F. Peach, Bovina; five brothers, L. H. and Frank Peach, Bovina, Joe Peach, Texico, A. A. Peach, Moran, Tex., and Ed Peach, Abilene.

Other survivors are five sisters. Mrs. E. A. Hromas, Farwell, Mrs. A. C. Ender, Sagerton, Texas, Mrs. R. L. Thane, Avoca, Texas, Mrs. V. D. Bolte, Wichita Falls, and Mrs. Clifford Leake, Bovina.

Start Work On New Elevator At Lariat

Excavation work got under way the latter part of the week on the new 50,000 bushel grain elevator being erected at Lariat by Oswald Jones, Lariat farmer, and John Aldridge, local attorney. The contract has been let to a Fort Worth firm and completion has been promised by October 1st.

The new grain elevator will be operated by C. M. Henderson of this city under the firm name of the J. A. Grain Company. The grain storage bins will be something new in this section, being built of interlocking cement blocks, which are being made in the grounds. Five large tanks will be built and they will be supported by large steel bands around the outside.

Grain chutes will connect all the tanks together and the elevator will otherwise be modern.

One Injured When Truck Rams Jeep

Woodrow Goforth escaped with slight injuries, and Leonard Russell was unhurt when a large dump truck rammed into a Jeep occupied by the pair just north of the Texico school building one day last week.

Quinlin Morgan, driver of the truck, said that the steering gear of the truck came loose, causing the machine to swerve across the road and hit the Jeep. The truck, used in hauling dirt on the Texico-Clovis road work, was empty at the time of the accident.

The Jeep was pretty badly crushed by the large truck, and Goforth, the only one injured, escaped with cuts about the face and one leg.

TO OPEN STATION

A new service station, to be known as the Jones Brothers Service Station, is nearing completion in west Texico, and it was announced this week that the new business would likely be opened on Saturday of this week. The new firm will handle Texaco products.

Crop Prospects Dim With Extreme Heat And Dry Weather

Prospects for a bumper grain crop here this fall that were considered the most favorable in recent years three weeks ago, have hit the skids during the past two weeks with a continuation of dry, hot weather that has not had an equal in recent years.

GOOD RAIN FALLING

As The Tribune was going to press Wednesday morning, a generous, gentle rain that had been falling for some eight hours, was continuing to pepper down. Near a half inch was recorded here up to 9:30 a. m., and the rain was continuing. Agricultural observers say that much of the grain crop, which had suffered badly by the hot, dry weather of the past three weeks, will be greatly benefited by the rain. It will also be a great boon to wheat already seeded and yet to be put into the ground.

Farmers interviewed during the past week, confess that they are unable to understand the sudden turn in crop prospects from a record high of three weeks ago to little better than a complete failure in some fields as of the present. Many farmers are contending that large parts of their fields are beyond relief even with abundant and immediate rains. While all growers agree that they "never saw anything like it" in commenting on the sudden turn in crop conditions.

This sudden downward trend in crops seems to be widespread and is affecting irrigated fields as well as those on dry lands. J. R. Southard, who lives along the east side of the county, was here Tuesday and said all crops in his locality were being cut short by the dry, hot weather. Lee Sudderth was here Monday and said that although he was keeping both his irrigation wells in full operation, his feed crops were "absolutely burning up."

Dick Doshier, who farms southwest of Texico, estimates that the sudden turn in crop conditions has already cost him \$10,000. George A. Bagwell, who farms 10 miles west of Dimmitt, said Tuesday that he received five and a half inches of moisture at his place early in August and five days later his feed crops were "beginning to burn."

Farmers are unable to understand this unusual condition. Crops that are considered as good as made early in August, are giving little promise of an substantial amount of grain. Some farmers say the heads on their grain stalks are fully matured with little or no grain on them.

On the other side of the picture, local grain buyers are talking a more optimistic view of the situation. "You hear that same cry almost every year," Mansell Cranfill of the Henderson Grain & Seeds Co., observed this week, and he went on to predict that while there may not be the bumper crop we had foreseen early in August, there would still be a good crop made here this year.

It is not too late to seed sweet sudan grass.

Health Notes
By Texas Department of Health

AUSTIN.—A state-wide effort to reduce Texas' child accident toll of about 900 lives yearly through participation in the national child safety campaign in September was set forth by Dr. Geo. W. Cox, State Health Officer, as an immediate public health objective calling for concerted cooperation by all public health and medical authorities and interested civic organizations within the state.

"The needless loss of a single life, or the crippling of even one child, is an exorbitant price to pay for any neglect of this problem," said Dr. Cox.

The importance of such a campaign is evidenced by the fact that accidents are now the leading cause of death among children more than one year old. Among children 5 and 9 years old, the death rate from accidents was 25.7 per 100,000, as compared with a rate of 4.6 for rheumatic fever, and organic heart disease, the next cause; and among children from 9 to 14, the accident death rate was 20.8 and that for rheumatic fever and organic disease 7.2.

The outstanding improvements in the death rates from all non-accident causes during recent years is the result of the advance in medical

science and concentrated efforts in the field of child health. The premise of the child safety campaign is that efforts now must be intensified to bring about a somewhat comparable reduction in the number of child accidents.

Artificial Breeding Conference This Week

COLLEGE STATION.—The Texas A. & M. College dairy husbandry department will sponsor the first Annual Dairy Cattle Artificial Breeding Conference September 7 and 8, according to Dr. I. W. Rupel, head of the Texas A. & M. College dairy husbandry department.

This conference is being held primarily for the artificial insemination technicians, county agents and members of the artificial breeding associations.

George Werner, extension dairy husbandman from Wisconsin, will present several angles of the artificial breeding program at the conference. On the program from Texas A. & M. will be Dean C. N. Sheppardson, of the school of agriculture; G. G. Gibson, extension dairy specialist; Dr. W. C. Banks, extension veterinarian; Dr. R. R. Shrode, assistant professor of the animal breeding program of the Texas A. & M. dairy department.

On the program for the first evening and second day will be Dr. David Smokler, veterinarian of the North Texas Artificial Breeding Farm at Dallas; John Bishop, Brazos county technician; D. T. Simons, field man, American Jersey Cattle Club and secretary of the Texas Jersey Cattle Club; and R. E. Leighton, assistant professor of dairy husbandry, Texas A. & M.

Texas has thirty artificial breeding associations with a total of 2356 herds and 31,680 cows enlisted in the program.

SHOPPING . . . She used to be Henrietta Boggs of Birmingham, Ala., but now she's Mrs. Jose Figueres, wife of the president of Costa Rica. In the U. S. on a shopping spree to outfit the presidential mansion in San Jose, Mrs. Figueres sighed: "Seven years ago when I went to visit my aunt and uncle in Costa Rica I didn't guess I'd one day be the wife of the president."

Now's The Time For Winter Planting

COLLEGE STATION.—It's about time to begin planting winter grain crops again, so E. A. Miller, extension agronomist of Texas A. & M. College, has two big things he wants to remind small agrin farmers of at this time.

One is to be sure you have cleaned all the weed seeds out of your small grain supply. Weeds won't do your grain crop any good, so the time to get the weeds out is right now before planting time. Weeds take up moisture and plant food that could otherwise be used by the small grains.

And the second big thing that Miller wants to remind grain growers of is the idea of planting chemically treated seeds. If you're going to plant a small grain crop, plant the best seed so you can expect the best crop.

Chemical treatments will protect your seed from grain smuts, seed rots and seeding blights. Stinking smut struck hard at the 1948 wheat crop, so it is doubly important to plant treated seeds this time. If there are any smut spores on the wheat kernels, they will germinate about the same time the wheat will and grow up with the plants. Then just about the time you figure you have a good crop of wheat, most of it will be smut spores where the kernels should be.

About the only way to tell whether or not smut is present in your wheat crop is by the foul odor and the slightly darker green heads of wheat. During the combining operations the smut balls break open and scatter millions of the black spores over the healthy seed. And that's about the end of a good wheat crop.

Loose smut of wheat leaves the grain heads empty and black. If this was your trouble last season, get this season's seed from growers who did not have loose smut in their fields. There isn't much in the way of chemicals that will stop loose smut, but a difficult hot water treatment will do the job. So it's easier to start out with smut-free seed.

Oats and barley are often attacked by these two diseases—loose and stinking smuts. And it's easier to spot in these grains because you can see the black, barren stalks in the field. For every bushel of seed, treat with one-half ounce of the new improved cerasan or the new cerasan M.

Either of these cerasan treatments will also stop the disease of oats that the scientists call helminthosporium blight. Victoria oat crosses including Fultex, Ranger, Rustle, and Victor Grain varieties are especially hard hit by this disease. Its blight causes

weakening of the stems, which results in lodging of the wheat.

Treating grain seed is good insurance against losses from reduced yields by smuts and other diseases, says Miller, and a further lowering of profits from dockage on the market.

If you want to add a touch of elegance to serving salad, bring it to the table in a large salad bowl, add dressing, toss the mixture gently and serve in individual salad bowls or plates.

In losing 897 aircraft in combat during World War II, the U. S. Navy was making a record of losing only one plane to every 18 lost by its Japanese enemy, according to a recent study.

DONE WITH MIRRORS . . . This is the latest thing in furtiveness. Miss Marilyn Radlein of Des Plaines, Ill., wears a new kind of glasses that are treated to form mirrors on the outside.

Which Type of Freezer Do You Need?

COLLEGE STATION.— Families who are thinking of buying a home freezer often ask which is the better choice, the upright or the chest type. The upright or vertical style opens like a refrigerator and the chest type which is often called the horizontal style had a lid which opens from the top.

Bernice Claytor, extension home management specialist of Texas A. and M. College, says each type has some advantage over the other. The upright type is more convenient for some families and others find the chest type more satisfactory. One of the advantages of the upright freezer is that it takes up less floor space than the chest type of the same capacity, but you must allow for space in front of the freezer for the door to swing out. However, although the upright freezer doesn't take up so much floor space, it does put more weight on each square foot of the floor than the chest type. Sometimes it is necessary to put extra supports under the flooring to take care of the weight.

At a first glance, the upright type seems to offer the same convenience in reaching stored food that a refrigerator does. But when the freezer is full so that all the shelves are packed, you have no convenient place to put the packages in front while getting those from the rear.

Some of the upright home freezers have drawers to overcome this difficulty but drawers take up storage space. And some of the chest types have baskets for lifting out food. These baskets are handy unless they become too heavy to lift out easily.

And, like the drawers in the upright freezers they too take up some of the storage space.

Because cold air is heavier than warm air, a freezer that opens on top has a natural advantage over one with a side opening, in holding the cold air and thus saving fuel. In trying to overcome this disadvantage manufacturers of upright freezers

have had to construct them differently from chest freezers. This generally makes the initial cost of a properly constructed upright freezer higher than that of a chest freezer of the same size. However, Mrs. Claytor points out that the operating costs of both the upright home freezer and the chest type is said to be about the same.

Finally, Mrs. Claytor advises taking measurements before buying a home freezer, to make sure not only that the freezer will fit the place chosen for it, but also that you can get it there. Be sure it can be moved through doors, halls or around corners where necessary. And be sure the floor is strong enough to support it when filled to capacity.

Thanks . . .

To the Voters of Precinct No. 4:

By your vote in the second primary, you have expressed your confidence in me by returning me to office for another two years.

I want the voters and my friends to know that I am grateful to all of you for this confidence and I want to extend a big THANK YOU from the bottom of my heart.

You have been good to me in the past years, and I am duly appreciative of these favors. I have tried my best to make you a good county commissioner in the past and I will try even harder to make you a better commissioner in the future. I want you to know that I am trying my best to represent all the people of my district as well as the county as a whole, and I want you to feel free to continue to call on me for any services that I might be able to render you as a public servant.

Bovina Celebrates With Lighting Athletic Field

By W. O. CHERY

At a basket lunch picnic last Monday night, the people of the Bovina School Community gathered to celebrate the turning-on of lights at Mustang Field. Several hundred men and women, boys and girls gathered at twilight and waited for the approaching darkness to bring out the full effects of the forty floodlights fixed some fifty feet above and around the enlarged athletic field.

When darkness had fallen, Billie Sudderth was asked to accept the honor of throwing the two big switches. When Billie had done his job the crowd suddenly was made discernable by the brilliant light which flooded the entire area. The crowd, led by the youngsters lined up on either side of the long table loaded with food, proceeded to satisfy their appetites whetted by a delayed meal time.

After all had eaten their fill, Bedford Caldwell, President of the Bovina School Board, addressed the crowd and gave much of the credit for securing the lights for the field to Billie Sudderth, also a member of the school board, for taking the initiative in securing the donations which made the construction possible. Modest Billie denied himself any special credit and took the occasion to thank all who had cooperated in making the job possible.

The Local Post of the American Legion put on a short demonstration, and drew attention to the interest of the Legionaires in the community welfare.

After all the speeches were made, the grounds were cleared of tables and two softball teams were chosen to demonstrate the usefulness of the field for this sport. The ball games ended and the players and the spectators, having their fill of food and fun, turned noses toward home and bed.

The project, which had its climax

FOR SALE—New A. C. combine. L. R. Vincent, 3 miles NE Farwell. 46-3tp.

FOR SALE—10 foot broadcast International binder. See L. R. Vincent, 2 miles northeast Farwell. 46-3tp.

FOR SALE—Certified seed wheat: Commanche, Westar, and Pawnee grown from Experiment Station seed. Contact Jack Renfro, 104 Main St., Hereford, Texas. 47-3tp.

in the turning on of the lights, began several months ago in the minds of several people who were particularly interested in developing facilities for a year-round activity program for the community. Billie furnished the spark that set the project into motion when he volunteered to assume the responsibility for contacting the people individually about whether they desired to do the job through contributions. The approval was spontaneous and in the matter of two or three days most of the money was available.

The Cooper Construction Company of Dimmitt bid in the job and construction was underway in a matter of hours. At the last moment it appeared that delivery of reflectors would delay the job. However Mr. Cooper was able to get special consideration out of the factory which furnished the metal for processing into the fixtures, and special construction through the factory. As a result the metal was delivered to the factory on Wednesday of last week and the lights delivered into Amarillo by express on Friday.

Southwestern Public Service company made a liberal contribution to the program by making the poles available for the purchase, by digging the holes and setting the poles, and by having the transformer in place by the time construction was completed. For this service, Mr. Holland of Muleshoe, local manager for

the Company, must be given credit.

Now's The Time For Fall Flowers And Shrubbery

COLLEGE STATION.—If you put in a little extra work around the yard about this time of year, you can get things in shape for planting the cool weather flowers and shrubs.

Both bluebonnets and gladioli can be planted until the middle of September, says Sadie Hatfield, extension landscape gardening specialist of Texas A. and M. College. She also says that pansies sometimes bloom early if they are planted now and protected from the sun until cool weather gets here.

Flowers that withstand cold can be planted now in flats, cold frames or frame gardens, and later transplanted along about October. Some of the flowers Miss Hatfield refers to here are snap-dragons, stocks and callendulas. Others that don't quite stand up to the cold as well are petunias, ageratum, sweet alyssum, late cosmos and peri-winkle. But the do well if there is a late fall season.

Now is a good time to get the soil ready for planting trees and shrubs in the winter. While you are about it, this is also a good time to underpin your house. This means planting shrubs around the edge of the house to keep the cold winds of winter from blowing under the house. And shrubbery will make the place more attractive all year round, too. Underpinning can also be done by means of bricks or boards. If you like to mix the mortar, put in cement or flagstone walks around the house, suggests Miss Hatfield.

When the field work slackens up, it's a good time to tighten the clothesline. And a good place for the clothesline is in the service area near the house—not out in public area, says Miss Hatfield.

HOWDY FOLKS: A teacher was giving a lecture on charity. "Willy," he said, "If I saw a man beating a donkey, and stopped him, what virtue would I be showing?"
"Brotherly love," said Willy.

A mother may hope that a daughter will get a better husband than she did, but she knows that her son will never get as good a wife as his father did.

You heard about the little moron who sat down and cried and cried and cried because her husband had gone out to shoot craps and she didn't know how to cook 'em.

Kidding aside, folks, if you want your car to run better, and more economically, it pays you to stop here for courteous, one-stop service.

Take a Good Look at Your Fields
If they're full of **HUMPS and HOLLOWs**

Level out the Wrinkles This Fall with an EVERSMAN AUTOMATIC LAND LEVELER and DIRT MOVER

Every farmer knows how costly rough fields can be... the high spots burn out, the low ones drown out. Uneven fields waste irrigation water, wash out crops, cause lots of extra back breaking labor.

That's why it will pay you to iron out the wrinkles this fall with an EVERSMAN. The EVERSMAN levels land AUTOMATICALLY—when wheels go on high place blade lowers to take a cut, when wheels go into a low place blade raises to release dirt—breaks clods, firms and packs the surface, forming a finely pulverized seed bed as the machine moves along.

Same machine is fastest dirt mover on the market today for power required. Excellent for rebuilding fields. After dirt is moved it can be graded down and AUTOMATICALLY LEVELED with the same machine. Here's an ALL-PURPOSE machine used for dirt moving, leveling, for maintaining contours, soil conservation work and preparing seed beds year after year. Come in today for full details. Plan to do your dirt moving and land leveling this fall.

FARWELL, TEXAS

Local Happenings

Mrs. L. Gober Honoree At Pink And Blue Shower

A lovely pink and blue shower honoring Mrs. Lloyd Gober, was given in the home of Mrs. Frank Phillips, Sr., on the past Friday night, Sept. 3rd, with Miss Iris Thornton, Mrs. M. T. Glasscock, Mrs. Frank Phillips, Jr., Mrs. J. B. Foster and Mrs. Frank Phillips, Sr., acting as co-hostesses for the occasion.

The reception room was beautifully decorated with cut flowers. Miss Peggy Schleuter gave a reading, after which games were played under the direction of Miss Iris Thornton. Mrs. M. T. Glasscock was in charge of the guest book throughout the evening.

Delicious refreshments of punch, cheezits, and individual cup-cakes topped with miniature pink and blue booties were served to those present.

Signing the guest register were: Mesdames W. N. Foster, Clyde Magness, John Porter, Jack Roach, James Roach, R. L. Barber, L. E. Meeks, Carl G. Davis, Olen Schleuter, R. C. Roberts, Gabe Anderson, J. R. Caldwell, Tom Caldwell, Webb Gober, Lola Pierce, Roy Thornton, Wilfred Quickel, Lenton Pool, T. L. Kent, Woody McDermitt, and Hayden Cason; Misses Peggy Schleuter and Marcia Foster, the honoree and the hostesses.

Sending regrets were: Mesdames J. D. Thomas, Guy Cox, Frank Hromas, W. E. Thornton, Clarence Johnson, Bess Henneman, J. W. Magness, W. D. Hardage, Bill Meeks, Caroline Martin, Gladys Kaltwasser, Harold B. Carpenter, W. H. Spurlin, Bess Mansfield, Condy Billingsley, and Garland White; Misses Norma Jean Thomas, Lenda Phillips, and Stepsie Foster.

Wesley Bible Class Meets In Dixon Home

The Wesley Bible Class met in the home of Mrs. Ruby Dixon, on Tuesday afternoon. The meeting was in charge of Mrs. O. B. Pipkin. This was the last meeting of the year, and Mrs. Pipkin reviewed studies of the old year during the evening.

Lovely refreshments of punch and cookies were served to the following:

Mesdames, B. N. Graham, O. B. Pipkin, Jess Newton, Bunk Park, Lana Yoder, M. F. Parton, Grace Sanders, Ann Overstreet, Roy B. Ezell, A. D. Smith, H. E. Carrell, Mary Clarey, Albert Thomas and the hostesses, Mrs. Ruby Dixon, Mrs. J. C. Temple and Miss Laura Temple.

Visitors included Mrs. Effie Johnson and Mrs. W. H. Graham.

Surprise Birthday Party Honors Les Means

A surprise birthday party honoring Les Means on his 53rd birthday was held on the lawn of the Les Means' home last Wednesday night, September 1st.

A beautifully decorated birthday cake served as a centerpiece and refreshments of ice cream and birthday cake were served to the following guests: Mr. and Mrs. J. D. Lewis, and Betty, Mr. and Mrs. Dale McCuan and sons, Mr. and Mrs. F. D. Stout, Mr. and Mrs. Truman Doolittle and Sue, Mr. and Mrs. Rip Snodgrass and Roy Harvey, Mr. and Mrs. Charley Lunsford and Jean and Elmo, Mrs. H. D. Houghtelling, Mrs. Stanley Stewart and LaDonna, and Mrs. H. Ross, and Mr. and Mrs. Les Means.

Mr. and Mrs. J. R. Fain from Abilene, are visiting in the home of her parents, Mr. and Mrs. Sam Randol.

Thompson-Stevens Vows Read Saturday

In an impressive ceremony performed before baskets of white gladiolus and potted palms, on Saturday, August 28th, Miss Imogene Stevens, daughter of Mr. and Mrs. J. W. Stevens, of 909 Hinkle, Clovis, became the bride of Chester Leroy Thompson, son of Chester Thompson, 408 west 8th, Clovis, in the home of the groom's grandmother, Mrs. C. H. Thompson, 1217 Calhoun, Clovis.

The bride was given in marriage by her father and she was attired in a brown suit with matching accessories. She carried a white Bible on which rested a beautiful nosegay of white gardenias surrounded with brown lilies and tied with white satin streamers. "Something new" was her suit; "something blue", a ribbon on her slip, a gold bracelet belonging to Mrs. Lillie Parnell was "something old," and the Bible she carried was "something borrowed," belonging to Miss Roy Anna Ansley.

Miss Mardell Stevens, sister of the bride was maid-of-honor, and was dressed in royal blue with gold accessories, and wore a corsage of white carnations. Charley Thompson, brother of the groom, served as best man.

For her daughter's wedding, Mrs. Stevens chose a dress of soft gray bemberg sheer and a corsage of pink carnations.

Following the ceremony which was attended by members of the immediate families and close friends, the couple left for the Carlsbad Caverns on a honeymoon trip. They will be at home at 612 Jones, Clovis, upon their return.

The bride attended the Clovis schools, and the groom was a graduate from that school with the class of '47.

Thompson was a resident of Farwell until two years ago when he moved with his father and grandmother to Clovis. He attended the Farwell schools for a number of years.

AUXILIARY MEETING DATE IS CHANGED

Mary Lou Cason, president of the American Legion Auxiliary, announced Tuesday afternoon that the regular meeting of the Auxiliary would not be held Sept. 13, as had been previously announced, but because of conflicts with other local activities, had been moved up to the 23rd Monday, which would be the 20th.

In making the announcement, Mrs. Cason urged that all members be present, as this forthcoming meeting will mark the installation date for newly elected officers of the organization.

Farewell Dinner Honors Mr. & Mrs. Roy Hawkins

A farewell dinner honoring Mr. and Mrs. Roy Hawkins, of north of Farwell, who are leaving for Mineral Wells, was held in the home of Mr. and Mrs. Lester L. Norton, Sunday.

A lovely dinner with all the trimmings was enjoyed by all attending. Those present included the honorees, Mr. and Mrs. Roy Hawkins, and children, Roylene, Erich, and Harold, Mr. and Mrs. Charles Hawkins, Mr. and Mrs. Eugene Hawkins, Mr. and Mrs. Cochran and children, Mrs. Willie Smith and daughter, Modelle; Pete Davies and children, and Mrs. Carl McGill and daughter, Patsy, and the host and hostess, Mr. and Mrs. Lester Norton.

Mr. and Mrs. George Fain from Clovis were Saturday night visitors in the home of Mr. and Mrs. J. E. Stone.

Enjoy Western Party In Stewart Home

A crowd of local young people donned their boots and spurs and turned out for a "western party", given by Beale Stewart and James Harding of Texico Friday night.

While the guests were arriving table games were played on the lawn. Later couples were paired off for the games by matching bands.

Suitable prizes were awarded to winners of "western brain teaser" quizzes, and pin-the-tail-on-the-cow.

All couples then participated in a western scavenger hunt for which Violet Curry and Ansel Doolittle won first prize of silver spurs. Various other prizes were awarded also.

Delicious refreshments of sandwiches, cake and punch were served to the cowgirls and cowboys: Patsy and Jimmie Doshier, Violet and Marvin Curry, Peggy and Jean Rogers, A. C. Henneman, Mildred Moore, Warlick Thomas, Coeta and Carmen Roth, Toby Booth, Mary Harding, Wayne Tucker, Buddy Pearce, Bobbie Allred, Delphine Johnson, John White, Patsy and Jo Beth Engram, Bobbie Pootee, Rosamond Booth, Ansel Doolittle, David Houghtelling, Donald Ray Engram, La Donna Stewart, Jimmie Moore, Mrs. Edward Engram, Mr. and Mrs. Fern Stout, Mr. and Mrs. Barney Harding, Mrs. Stanley Stewart, and the hosts, Beal Stewart and James Harding.

Texico PTA Committee Holds Meeting

Members of the Texico Executive committee and Standing committee met the past Friday afternoon at the Texico school to make plans for the coming year. It was announced that the first regular meeting of the Texico PTA would be held on Thursday, September 16, with the president, Mrs. Fern Stout, in charge of the meeting.

To Chicago

Mrs. M. C. Roberts left Amarillo via plane Monday night for Greenville, Tex., where she will visit a few days with relatives, en route to Chicago, Ill., to attend the graduation of her son, William R. (Bill) Roberts, from an optical school there. She will visit with her brother in Kentucky before returning to her home here.

Back To College

Duane Sprawls, son of Mr. and Mrs. Aubrey Sprawls, left the first of the week for Texas A. & M. College Station, Texas, where he will enter the fall term. Duane will complete his studies there this term and will be among the graduating class at the close of the term.

Home From California

Mr. and Mrs. H. S. Curtis and son Gerald, and grand-daughter, Elnora Vaughn, returned home the latter part of last week after spending a week visiting with their son and family, Mr. and Mrs. H. W. Curtis, in Reseda, Calif. Mrs. Curtis reported a wonderful trip upon her return home.

Mr. and Mrs. J. D. Harding and Derry Don and Herby Kay, of Levelland, Tex., spent the weekend in the home of Mr. and Mrs. Frank Seale of Farwell.

"POET SHELLEY'S ROMANTIC WOES"***Here's the dramatic seldom-told story of Percy Bysshe Shelley's strange romance with Harriet Westbrook. Noted writer John Erskine tells the full story of this blighted love affair, in THE AMERICAN WEEKLY, that great magazine distributed with next Sunday's Los Angeles Examiner.

Mrs. B. Riley, and Mr. and Mrs. J. C. Lindly and son of Tahoka, Texas, spent the holiday visiting in the home of Mrs. Riley's brother and family, Mr. and Mrs. C. E. Pendergrass of Farwell.

Mr. and Mrs. J. B. Brimhall of Amherst, Tex., announce the arrival of a baby daughter born Sunday morning, September 5th. The infant has been named Linda Marie and weighed 7 lbs., and 3 ozs. Mr. and Mrs. C. E. Pendergrass of this city are the proud grand-parents.

Mr. and Mrs. G. W. Atchley have gone to Arizona and California points, where they will spend a couple of weeks visiting in the home of some of their children in those states.

Miss Norma Lee Sanders returned home Tuesday morning from Los Angeles, California, where she has been visiting with her sister, Mrs. Wallis Abell for the past several weeks.

Mr. and Mrs. G. W. Atchley left Tuesday for points in Arizona and California where they will spend the next two weeks visiting with relatives.

Mr. and Mrs. Lloyd Cain and son, Corky, spent Sunday in the home of Mr. and Mrs. Pearl Stewart in Amarillo. The Stewarts are former residents of this city.

Mr. and Mrs. Grady Box and family of Grady, N. M., spent Sunday visiting with relatives and friends in Farwell.

R. D. Williams, Sr., who has been in California for the past few weeks, returned to his home here Sunday afternoon.

Mrs. Edith Crawford of Albuquerque, N. M., visited in the home of her parents, Mr. and Mrs. John Doose over the weekend.

Mr. and Mrs. Bill Johnson from Pampa, Texas, visited with relatives and friends in Texico-Farwell over the weekend.

Misses Marilyn Anderson and Caroline Martin, Scotty Levins and Bobby Anderson spent Sunday in Ruidoso, N. M.

Mr. and Mrs. J. D. Wilson and son, Joe Carl, of Dallas, are visiting in the home of Mrs. Wilson's brother and family, Mr. and Mrs. C. E. Pendergrass this week.

Misses Barbara and Mary Brimhall of Amherst, Tex., are visiting in the home of their grand-parents, Mr. and Mrs. C. E. Pendergrass this week.

Mr. and Mrs. J. E. Stone visited in the home of their son and daughter-in-law, Mr. and Mrs. Ray Stone, in Pampa, over the weekend.

Mr. and Mrs. Hal Stone, from Clovis, visited in the home of Mr. and Mrs. J. E. Stone over the holiday.

Mr. and Mrs. G. H. Bingham and daughter, Yvonne, of Oklahoma City, were here the first of the week visiting in the home of Mr. and Mrs. Jim Hughes.

Mr. and Mrs. Bunk Parks spent the weekend in Amarillo visiting relatives and friends.

Mr. and Mrs. Woodrow Wilson of Floydada, Tex., were Sunday visitors in the home of Mr. and Mrs. O. B. Pipkin. Mrs. Wilson is the local ladies' sister.

Mrs. Albert Thomas returned to her home here Tuesday after having spent a few days in the home of her daughter, Mrs. Edgar Campbell in Hollene, Tex.

Bovina Happenings

Jessie McSpadden

The Dorcas Circle met Sept 1st, with Mrs. Ike Quicquel. After a beautiful covered dish luncheon, we had a business meeting. There were six members present and one visitor, Mrs. Wilfred Quicquel, and children.

The class adjourned to meet October 6 with Mrs. Frank Wilson in Bovina.

We extend our sympathy to the Hromas and Pesch families on the passing of Mrs. Joe Hromas.

ROY HAWKINS GIVEN FAREWELL SUPPER

Tuesday evening, August 31, Mr. and Mrs. Roy Hawkins were given a farewell picnic supper at the Bovina Roadside Park. The picnic supper was served to the following:

Mr. and Mrs. Buster Cochran and family, Mr. and Mrs. Leste, Norton and family, Mrs. Willie Smith and Modelle Hammonds of Farwell, Mrs. Odelle Cochran and children of La., Beatrice Hawkins of Detroit, Mich., Mr. and Mrs. Steve Calhoun, Mr. and Mrs. Gene Hawkins, Mr. and Mrs.

Charles Hawkins, Mrs. Pete Davies, and family, of Bovina, and the honorees, Mr. and Mrs. Hawkins, Roylene Hawkins, Harold Hawkins, and Erich Hawkins.

Games were played by the children while the grownups visited.

Mr. and Mrs. Hawkins and three children left Monday for Mineral Wells, where they will make their home through the winter.

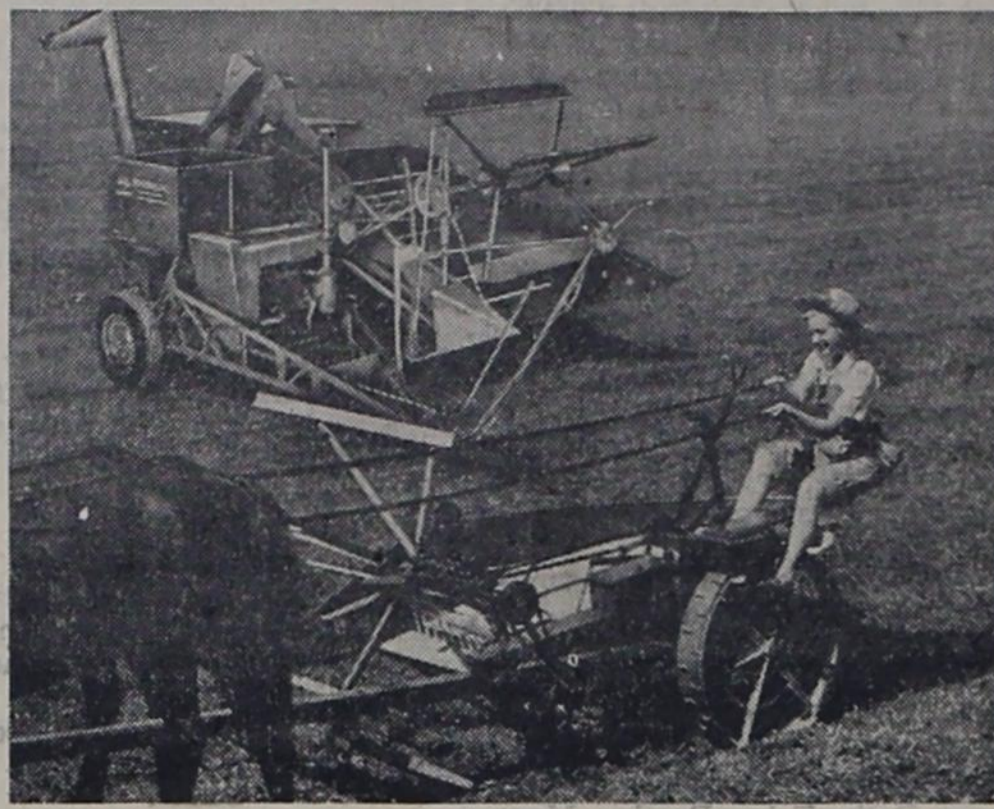

Mr. and Mrs. Free enjoyed a visit with their daughters and family, Mr. and Mrs. Albert Stone, of Edgewood, Calif. On Monday evening they entertained with a picnic supper at the Bovina roadside park. Those present were Mr. and Mrs. Barron, Mr. and Mrs. Rural Barron and boys, Mr. and Mrs. Henry Lloyd of Friona, Mr. and Mrs. Travis Lloyd, Mr. and Mrs. Elbert Kelly all of Chidress, Texas, Bernie Kelly and family of Pleasant Hill, Hainer Kelly, Mr. and Mrs. Puddy Lloyd, Mr. and Mrs. Stone, and Mr. and Mrs. Free.

Visiting in the home of Mr. and Mrs. L. C. Moore, in Bovina the past weekend were Mr. and Mrs. Ike Chandler and children of Iowa Park, Texas, also Marilyn Nieley of Wichita Falls, Texas.

Patsy Danner of Clovis, spent the weekend with her sister, Jean and father, in Bovina.

Mrs. John Byler, Jr., and children, of Amarillo, spent a few days the past week with her mother, Mrs. Lucy Wilson.

Unsolved Reaper Mystery

—Reaper, courtesy Edison Institute, Dearborn, Michigan
This 74-year-old Triumph reaper was found recently in a New York state barn in its original shipping crate. It had never been used. Efforts to learn why it was left unpacked for almost three-quarters of a century have so far uncovered no clues. This reaper shown above in comparison with a present day combine was exhibited at the Ford Tractor and Dearborn implement press demonstration held at Deer Lake Hills Farm, Clarkston, Michigan, by Dearborn Motors Corp., Detroit.

Rev. Franks, former pastor of the Cleveland Street Baptist Church of Dallas, preached at the Bovina Baptist church Sunday. He was given an indefinite call to the church as pastor.

Mrs. Aubrey Brock of Littlefield, visited Wednesday with Mrs. Harry J. Charles.

Aubrey Brock of Littlefield, attended the funeral of Mrs. Joe Hromas at Oklahoma Lane Friday afternoon.

Mrs. Jack Kaminiski and children of California arrived in Bovina this weekend for a visit with her parents, Mr. and Mrs. Wilbur Charles and family.

Mrs. E. T. Caldwell and Rita visited in Amarillo the past week.

Jimmy Witherspoon of Hereford was in Bovina Saturday on business.

Visitors in the home of Mr. and Mrs. A. B. Wilkinson last weekend were: Mr. and Mrs. H. B. Burkhalter of Lubbock, Don Bush and Dale Shepard of Roswell, N. M.

Miss Rita Wilkinson left the first of the week for California, where she will teach school the coming year.

Mr. and Mrs. N. E. Bonds, Mildred Ruth and Tommy, attended a family reunion in Tulia last weekend.

Mr. and Mrs. D. C. Looney and Mr. and Mrs. Howard Looney visited in Beeville the past week.

Bob Kelley of Canyon, Tex., spent the weekend with his parents in Bovina.

Roberta Gaines of Amarillo, visited with her family in Bovina.

Mr. and Mrs. Herschel Lowe of Canyon and Loren Elliott of El Paso spent the weekend with Mr. and Mrs. C. R. Elliott and Mr. and Mrs. Bass Elliott of Bovina.

Sam Shelby of Amarillo was in Bovina Friday and Saturday.

Guests in the home of Mrs. W. J. Wade the past weekend were her brother, J. R. Ward, editor of the Clyde Enterprise, Clyde, Tex., Mrs. Gene Wade and children of Groom, Tex., Mrs. Max Wade and daughter of Lubbock, Tex.

Shelby Jersig of Clovis had business in Bovina this week.

Mr. and Mrs. Burnett Denney and daughter arrived in Bovina Sunday for a visit with Burnett's family and friends.

J. A. Loflin purchased the Venable Grocery and Market from Elton Venable and will assume charge of the store this week.

Mrs. Stanley Barber and son left Friday for their home in Tulsa, after a few days' visit with relatives in Bovina.

Mr. and Mrs. Doris King and children are visiting in Minnesota with their daughter, and family.

Charlene King of Canyon spent the weekend in Bovina.

Bobby Edwards of Plainview spent the weekend with her parents, Mr. and Mrs. Lawson Edwards.

Mrs. Byron Turner and children, Mrs. Lillian Mahon and children, and Mrs. N. L. Venable returned home the first of last week from a few days' visit in Odessa.

VETERAN'S NEWS

A limited number of internships in Veterans Administration hospitals will be offered qualified medical graduates, VA announced this week.

The internships will be limited to the 75 VA hospitals now offering residency training programs in co-

operation with 59 Class 'A' medical schools over the country. They will be further limited to those hospitals which have bachelor quarters available on the station grounds. A survey is in progress to determine what housing is available.

Southwestern VA hospitals where internships are available are at McKinney, Dallas and Waco, Texas, New Orleans and Gulfport, Mississippi. Negotiations are in progress between VA and Deans' Committees of Medical Schools for similar internships at Temple and Legion, Texas, Jackson and Biloxi, Mississippi.

Two types of internships will be available: (1) "Straight," for surgery, general medicine and other "straight" subjects, and (2) "Rotating," in which interns study, under a rotating schedule, surgery, general medicine and other related subjects. Arrangements will be made for affiliated training in other than VA hospitals for obstetrics and pediatrics. Such affiliated training may not involve more than 20 percent of a year. The hospital at which such affiliated training is secured must be approved for internships by the Council on Medical Education and Hospitals of the American Medical Association.

Veterans Administration advised veterans to give their National Service Life Insurance policies periodic "three-way checks" to make certain that their NSLI programs are consistent with their plans, obligations and incomes.

The "three-way check" should cover (1) beneficiaries, both principal and contingent; (2) manner in which proceeds are to be paid to beneficiaries; and (3) amount and type of NSLI in force.

Many veterans fail to name new beneficiaries when they marry or when a designated beneficiary dies, VA said.

If a veteran dies without naming a beneficiary, or if no designated beneficiary is alive at the time of his death, proceeds of the insurance go into his estate and are subject to inheritance taxes. Final distribution

of the proceeds may not be that which the veteran would have desired.

"THE DOROTHY MACKAYE STORY" * * * One man died, another went to prison for the love of beautiful Dorothy Mackaye. Read how Paul Kelly played a stellar role in a real-life tragedy of the stage in THE AMERICAN WEEKLY, that great magazine distributed with next Sunday's Los Angeles Examiner.

Fun is like life insurance—the older you get the more it costs you.

Cole Bros. Circus In Clovis, Sept. 14th

Hark ye, kiddies, and listen to this: the circus is coming to Clovis, New Mexico, Tuesday, September 14th, or to be more exact—the huge Cole Brothers Circus one of the two largest in the world.

The big show, traveling on two special trains, with nearly 1,000 people, three great herds of performing elephants, hundreds of horses, ponies, and other hundreds of menagerie animals, is scheduled to exhibit in University Heights Tract.

Performances are given twice daily starting at 2:15 and 8 p. m. with the gates opening at 1:15 and 7 p. m.

Heading the long list of internationally known stars and attractions will be the world renowned Chistian Family of bareback riding marvels, with Lucio, greatest of all riding comedians. They are conceded to be

the most spectacular and thrilling troupe of riders in the world. There are 19 people in the troupe.

Other famous features dot the long and varied program from beginning to end. Among them will be Hubert Castle, the world's greatest star on the tight wire; the Great Davisos, the most daring display of its kind in the world; the Flying Thrillers, sensational performances on the high and lofty trapeze; the Ortans Troupe, featuring Ortans Cristiani, considered the most outstanding lady acrobat of the present day; Ruth Nelson, the daring rider of rearing and high-jumping horses; the Aussies and the Wallabys, two troupes of spectacular whirl-wind acrobats, direct from England and Australia.—their first tour of this country, and many others from among the 350 men and women arenic stars and performers listed under the Cole Brothers' banner this year.

Scores of educated horse acts, three

great herds of performing elephants, a maze of displays, and almost countless track numbers, are still other things in store for circus goers.

And an all-new and gorgeously produced super-spectacle entitled "Ponce De Leon And The Fountain Of Youth", opens the performance. Florence Tennyson, the noted opera star, and an all-English ballet of beautiful dancing girls are featured in the spectacular pageant.

And, for the youngsters, there will be half a hundred of the world's greatest and best known clowns, headed as they are by Otto Greibling, one of spangleland's most favored funsters. A real clown band will be thrown in for good measure.

Timely Tips On Texas Bluebonnets

COLLEGE STATION.—The best time to plant Texas bluebonnets is when the seeds ripen, but they can't be planted after September for next spring's bloom, says Sadie Hatfield, extension landscape gardening specialist of Texas A. and M. College.

Bluebonnets have tough little seeds, so it's a good idea to soak them in water around 24 hours before planting. This helps sprout them out. Then after soaking, rake them into the soil at once and give them a good watering. It's during the cold months that the little plants grow, says Miss Hatfield, and they are injured by only the worst freezes. Only a few are killed by the coldest weather.

The state flower of Texas grows in many kinds of soil, but the best is the light, sandy soil. One of the beauty spots of the state during bluebonnet time is Old Indianola, down on Matagorda Bay, says Miss Hatfield. Here the soil is coarse, white sand mixed with shell, which means it's rich in lime.

In rich, well fertilized soil, the bluebonnets grow tall stalks, lots of leaves, but few blooms. People who live in the acid soils of East Texas could grow more bluebonnets if they would spread one pound of lime or ashes to each ten square feet of sandy

soil. That means two pounds for clay or heavy soil, and no other fertilizer is needed.

Bluebonnets need plenty of sunshine and good drainage at all times. They can be transplanted, but will do better if they are left where planted. Up in the Panhandle area of Texas, it gets a mite too cold for bluebonnets the year around, so they can be grown in frame garden or pots during the winter and set out in the open in the early spring.

Where this flower is well adapted, it really grows, and after a fight with a spell of dry weather, it usually comes out on top. The bluebonnets is one flower that dosen't have to be cared for like the rose of the glad, says Miss Hatfield. It can take lots of neglect.

A U. S. Navy submarine commander was distressed when he surfaced after having been depth bombed by the Japanese and found an unexploded bomb lodged on the submarine dock. The resourceful skipper however, loaded the bomb on a rubber liferaft and carefully sailed away.

LEGAL NOTICES

CITATION BY PUBLICATION THE STATE OF TEXAS

TO: John F. Suits, C. F. Sweet, the unknown wife or wives of John F. Suits and of C. F. Sweet, and to the unknown heirs, assigns and legal representatives of John F. Suits, of C. F. Sweet, and of the unknown wife or wives of John F. Suits and of C. F. Sweet; GREETING:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 18th day of October, A. D., 1948, at or before 10 o'clock A. M., before the Honorable District Court of Farmer County, at the Court House in Farwell, Texas.

Said plaintiff's petition was filed on the 31st day of August, 1948. The file number of said suit being No. 1446. The names of the parties in said suit are: Jack Anderson, as Plaintiff, and John F. Suits, C. F. Sweet, the unknown wife or wives of John F. Suits and of C. F. Sweet,

and the unknown heirs, assigns and legal representatives of John F. Suits, of C. F. Sweet, and of the unknown wife or wives of John F. Suits, and of C. F. Sweet, and V. E. Weir, as Defendants.

The nature of said suit being substantially as follows, to wit:

Suit in trespass to try title plaintiff alleging that on August 15th, 1948 he was and still is the owner in fee simple of Lots 5 and 6, of Block 65, Original Town of Friona, Farmer County, Texas, and was in possession thereof, and on the same day the defendants entered thereon and dispossessed him thereof and unlawfully withhold possession thereof from him. That defendants have used said premises for 16 days, the rental value of which is \$15.00, and are indebted to him in that amount and have failed to pay same although so requested.

In the alternative plaintiff pleads and invokes the 10 year statute of limitation as it applies to land titles in the State of Texas, and says that he has had peaceable, continuous and

adverse possession of said land and tenements described in this petition, cultivating, using and enjoying the same for more than ten years before the commencement of this suit and that such possession has been continuous, open, notorious, hostile and uninterrupted.

Plaintiff prays that the defendants be cited to answer and appear herein, and that on final hearing he have judgment for his damages, costs of suit, and for title and possession of said lands, and for such other and further relief to which he may be entitled, either at law or in equity.

If this Citation is not served within 90 days after the date of its issuance, it shall be returned unserved.

Issued this the 31st day of August, A. D., 1948.

Given under my hand and seal of said Court, at office in Farwell, Texas, this the 31st, day of August, A. D., 1948.

Loyde A. Brewer, Clerk, District Court, Farmer County, Texas.

Now, here is a CULTIVATOR that really knocks out weeds

Dearborn FARM EQUIPMENT Some folks say a cultivator ought to "let air into the soil," "help retain moisture" etc. We say you cultivate to get rid of weeds. The other things are important, but knocking out weeds is number one. And we'll show you the cultivator that does it.

What's more, this cultivator can be attached to the Ford Tractor in about a minute! Now, that is a big advantage... especially when changing from cultivating to mowing and back again. Time surely is money now.

Study the pictures! See how easy cultivating is with Ford Hydraulic Touch Control. Let us demonstrate this cultivator for you... Rigid or spring shanks.

With Ford Triple-Quick Attaching, cultivator goes on in about a minute.

Ford Hydraulic Touch Control makes it easy to lift the cultivator for turning.

Easily adjustable front axle steering guide permits accurate front steering.

Hydraulic Touch Control sets sweep or shovels for uniform working depth.

Football Schedule Is Drawn For Steers

Friday night, 8:00 p. m. at the Petersburg stadium, the Farwell Steers will open their official football season. This realization is music to the ears of the local supporters of local athletics, who have plugged so long and hard in order that Farwell might have a recognized eleven-man team.

Until a very few weeks ago, this very thing was only a figment of one's fanciful imagination; but now, with a team organized—a schedule drawn—and the competitive spirit that is always prevalent in pursuit of such activity—it isn't hard to see the silver lining in that dark cloud.

Yes, we have a green team—a team that boasts eleven teen-age boys who have never yet played in a 11-man football game. But don't think that they don't know their football—don't think they aren't determined to make a go of this opportunity to show other schools that the boys who represent the local team this year can't play the game just as hard and clean as any khaki-clad bunch that ever walked onto a field.

Why don't you be there—at Petersburg this Friday night—to show them that you're backing them up? Show them how you appreciate their efforts to have a team worth while. And you might be surprised what a bunch of green-horn fellas can do.

I, and a number of other interested locals, saw this bunch scrimmage the Olton squad here last Saturday afternoon, and I'm here to tell you that they didn't do bad at all. Admittedly our offense was very weak. Broad-and-Butter football—that old line-blocking that nobody but the coaches and scouts ever watch anyway—was what we were lacking. The Steer's backfield is nimble and able—little Jerry Pool, who won't weigh more than a 125 pounds in anybody's suit can go through that line before he hardly gets his hands on the ball. Toby Booth, 180 pounds of flying legs—is as good a blocking back as anybody ever needed. Leonard Han-

na who is out right field now on account of a leg injury sustained in a scrimmage with the Muleshoe aggregation, can be used to good advantage in either the line or backfield. Warlick "Foggy" Thomas is destined to be the brains of this year's team filling in the quarterback slot with a pretty fair hand at handling the ball. Since there are some boys who haven't been able to attend the pre-season practices, it would be unfair to go ahead and try to sum up the '48 team just like that, but Coach Purvis has a group of young athletes that will do their best with any chance they are given. Here's his tentative lineup for Friday night: Cassidy and Holland, ends; Ford and Hughes, tackles; Dollar and London, guards; Henne-man, center; QB, Thomas; HB's, Pool and Terry; and Booth, fullback.

Here is the group I've been telling you about, excepting the starting lineup, which has already been mentioned: Herman Geries, Cary Joe Magness, Donald Joe Pipkin, Jerald and Darrell Norton, Jesse Colburn and John Christian, linemen. Sonny Spurlin, Rex Pool, Burl Nix, Bob Geries, backfield.

As has been mentioned, there are several boys who are not yet on the football roster, because this was compiled before the first "school day" practice.

That's the team—now here are their opponents: Sept. 10, Petersburg, there; Sept. 17, Anton, here; Sept. 24, Vega, there; Oct. 1, Sundown, here; Oct. 8, Melrose, here; Oct. 22, Tahoka, there; Oct. 29, open; Nov. 5, Amherst, here; Nov. 11, Seagraves, there; Nov. 19, open.

And that's not a bad schedule for a team that did not attempt to schedule any games until the last of August.

The lights at the reactivated football field are something to be proud of in every sense. For one thing we should be proud of local businessmen who are generous enough and interested enough to help the school get such a program started, and we should also be proud of the school, which, over a period of years, will return every cent loaned for the lights, plus some accrued interest.

That's the wonderful thing about a lighted field. It can be used for so many things of civic interest. And to say the least, it will double attendance at games, while affording spectators a better and more comfortable opportunity to see other events.

A move of desperation was finally made in an effort to rid the field of goatheads. Last week a county maintainer scraped all the remaining vegetation from the east side of the field. Unless some grass is transplanted in a hurry, it's going to be a shade rough on the gridsters who are supposed to play their first home game on it Friday week. Purvis expressed the hope that he would be able to transplant some grass to soften up the exposed terra firma, but he's going to have a whale of a lot of bermuda to do the job. If you've got some spare patches growing around the house that you don't mind parting with, give him a ring and talk it over—he might be able to use it.

Texico Opens Softball Season, Friday

The Texico Wolverines will open the current softball season Friday afternoon on their home court north of the school house at twelve noon. Pre-season statistics seem to point to a victory for the local boys' team, but the picture isn't so light for the girls, who are minus a large number of their old players via graduation.

Boys' head Coach C. E. Sanders, was pleased with the prospects for a fairly successful season because he lost only one player through graduation. Two other mainstrays were gone, one because of pressure of peacetime draft, and the other moved away.

Still, the coach can boast a full squad, all of whom have had some experience, and most of whom have been strong players in the past years. Sanders listed Buddy Pearce, four-year mainstringer, who will pitch this year, and floating shortstop, Wayne Tucker, and shortstop, John White as his potential spark-plugs.

But the team could easily be a unit without stars, when the fact that none of the players are greenhands, is taken into consideration. Here is the lineup:

Buddy Pearce, pitcher-left field; Vernon Blaine, 1st-2nd; Ansel Doolittle, 3rd-pitcher; W. O. Reid, catcher; John White, shortstop; Wayne Tucker, floating short-stop-pitcher; Jerald Doolittle, right field; D. J. Brown, center field; Beale Stewart, 1st; and Glen Smith, Donald King, Davi Houghtelling and Jimmy Doshier battling for a place in left field.

Coach Sanders said that the Rose-dale aggregation had lost heavily through last year's graduation, but pointed out that the "two Ford boys, and Turner and little Massey," would offer some keen competition for the Texico group.

Girl coach F. D. Stout was unable to give a complete lineup for next Friday's clash, but named five players returning from last year's ranks who would probably hold the reins for the girls' team: Grace McDaniels, 3rd-pitcher; Patsy Ingram, pitcher; Violet Curry, shortstop; and JoBeth Ingram, floating shortstop.

Soils that are open, porous and moist are best for hydrangeas. Rich coast soils or black prairie soils may need the powdered alum in one gallon of water, sprinkled over a square yard or more of soil, will do the job.

A total of 138 World War II members of the Navy, Marine Corps, and Coast Guard were awarded the Congressional Medal of Honor.

Texico Enrollment Near 225

Supt. B. A. Rogers of the Texico schools, said Monday afternoon when contacted by a Tribune reporter that the student enrollment at the Texico schools was "about normal" and estimated the number at "around 225."

Texico schools officially started the fall term Monday of last week, after all students registered the previous Friday. By the first of this week all class organizations were complete, and both boys' and girls' softball teams shaping up nicely.

Herewith are the class officers and sponsors, representing the seventh through the senior divisions:

7th—Sponsor, C. L. Shrap; President, Paul Crooks; Vice-President, Phyllis Tucker; Secretary, Kenneth Alled; Treasurer, Charlene Allea; Reporter, Leona Hudson.

8th, Grade—Sponsor, Mrs. Albert Magerus; President, Junior Po-teet; Vice-President, Esther McDaniel; Secretary, Glenda Doshier; Treasurer, Billy Goldsmith; Reporter, Jo Sandra Magerus.

Freshmen—Sponsor, Mrs. Ingram; President, Arlye Crooks; Vice-President, Willie Lee Thatcher; Secretary-Treasurer, Gayle Doolittle; Reporter, Margie Ried.

Sophomores—Sponsor, F. D. Stout; President, Wayne Tucker; Vice-President, Jerald Doolittle; Secretary-Treasurer, W. O. Reid; Reporter, Carmen Roth.

Juniors—Sponsor, Mrs. Jimmie Ailman; President, John White; Vice-President, Coeta Roth; Secretary-Treasurer, Mark Level; Reporter, Frankie Harris.

Seniors—Sponsor, Mrs. Otis Prescott; President, Buddy Pearce; Vice-President, Grace McDaniel; Secretary-Treasurer, Delphine Johnson; Reporter, Beale Stewart.

Farwell Lunchroom Opens With School

The hot-meal cafeteria at the Farwell school opened its doors simultaneously with the school opening last Monday, and admitted students who wish to buy the wholesome meals served there.

This year the cafeteria has been completely redecorated, enlarged and improved. The staff is headed by Mrs. Louis Purvis, and under her are some able workers; Mrs. Travis Brown, head cook and Mrs. Terry, Mrs. Evans and Mrs. Billingsley. Also some student girl help will be secured, but at this writing, Mrs. Purvis was unable to name helpers.

The old storeroom in the east part of the room has been enlarged, a stove and a refrigerator have been brought from the Oklahoma Lane school; and a room which was previously used for storage has been furnished for the serving of pupils. Mrs. Purvis also said that the tables have been secured in several different sizes in order, that the small children will be able to better use them.

The lunch rate will be twenty-five cents per plate, registering no increase in prices in the face of rising prices elsewhere. Meat will be served to students four times a week, and the meal will consist of vegetables, salad, dessert, milk, and bread. This affords a plate which is up to all health standards. Govt. aid makes the low prices possible, since the cafeteria receives nine cents for every lunch served with milk.

Mrs. Purvis had no estimate as to the number of pupils which would endorse the services of the lunch-room.

THERE ARE LOTS OF DOVES

Right now there are plenty of doves in the country, but they will be taking off with the first brisk norther. Come in now and get your shotgun shells for dove hunting.

FOX DRUG STORE

CULVERT INSTALLED AT SCHOOL

A badly needed new metal culvert was installed under the parking space north of the Farwell school the first of this week. This will eliminate the bad mud-hole which always arose during wet weather. The ground has been raised to an even level with the road.

A new bicycle stand was also erected across the street from the school. The steel frame will accommodate twenty bikes.

Rats alone destroyed or damaged 200 million bushels of grain last year. If this much grain were all wheat, it would be enough to give one pound of bread every day for a year to 36 million people.

Although the Navy's submarine service had less than two per cent of the total Navy personnel, the submarine forces sank two-thirds of all Japanese ships accounted for by the Navy during World War II.
