**FARWELL WEATHER STATION IN OPERATION—** Pictured above taking supersonic readings on weather conditions is "Jessie" Jesko, enterprising Farwell youth who answered the Twin Cities' crying need for a weatherman. Behind him stand his assortment of complicated instruments, most of them home-made, and about 50 percent of them working.

## FARWELL BOY INSISTS HE CAN OUTGUESS WISE WEATHERMEN

**FROM THE HOPPER**  
By HOP

Vacation days are over, the kids are going back to school and off to college and here Sept. 1 begins the long nine months of grind.

Speaking of Sept. 1, brings to mind the old story of the hillbilly who was reading a large poster, announcing the coming of "the biggest show on earth, Sept. 1." The nestor read it again and mused to himself, "biggest show on earth 'cept one; wonder which one that is?"

How about your coal supply for the coming winter? Remember, we are not going to have any coal dealer here this winter. Better begin now making your arrangements for winter fuel.

The editor of the Ralls Banner was being hounded by his local merchants for accepting advertising from firms in Lubbock. The Ralls merchants argued the home town editor should not accept out-of-town ads; rather, he should decline advertising of this nature and come out with a strong editorial policy urging the people of Ralls to trade with their home town merchants. Admittedly, the Ralls publisher was getting a nice monthly business from the merchants of Lubbock and he could not see his way clear to give these Lubbock merchants a "kick in the pants" and tell them he did not want their business. And yet, he felt he did owe a certain amount of loyalty to the businessmen of Ralls, and that their suggestion of declining advertising from the Hubber City had some merit. What was he to do? He thought the matter over seriously and came up with a decision. He went to Lubbock and put in two whole days making some investigations for his own satisfaction, and here is what he found: A large percent of the Ralls merchants who were asking that he refuse Lubbock advertising were found in Lubbock buying their weekly supply of groceries and meats. The Ralls editor went further—he even found that a number of the Ralls merchants had charge accounts with Lubbock firms; had bought large bills of clothing, hardware and furniture in Lubbock in recent weeks.

And here's a letter from a good lady at Friona, whose name is withheld for obvious reasons:

Mr. Editor: You are to be commended for the stand you took in reporting the drunk on Friona streets, also for not carrying the liquor ads in your paper. If folks would only have the welfare of

Farwell has a new and official (authorized by Jesko Laboratory Enterprises, Inc.) weather station. This badly needed civic servant popped up last weekend, after three consecutive accurate weather predictions by Raymond Jesko, 17-year-old son of Mr. and Mrs. Harry Jesko of Farwell.

Raymond, known as "Jessie" to his clientele of weather wonderers, has been keeping tab on the antics of the famous old Man of the Winds for the last six months, and now feels himself competent to serve local citizens with information and readings concerning weather developments.

In the face of the weather of West Texas—admittedly the most unpredictable and prankish anywhere, Jessie has made predictions day after day, unafraid of consequences, and has called "a spade a spade." The percentage of his accuracy has not been determined, but the fickle forecaster maintains he can come as close as some of his professional contemporaries—and we agree.

His up-to-date laboratory, replete with six different and amazing contrivances for measuring what's going on outside, is located west of his home near the chicken house, where Jessie claims he gets his best readings. Jessie made the the majority of his instruments himself; fashioned (Continued on last page)

## Farwell Opens Sept. 2nd Corrects Supt. Williams

Reminding students once again that Farwell schools would begin Friday, September 2, Jack Williams, superintendent, said some confusion existed among school patrons who thought both Thursday and Friday would be used.

This confusion arose because of an announcement made three weeks ago in The Tribune when school plans were only in the tentative stage. At that period it was thought by school officials that two days would be needed for registration, but since then time has been cut to Friday only.

Thursday morning at 9:30 o'clock, teachers for the schools will meet in the study hall.

Buses will run their regular routes Friday morning at the customary time, Williams said, and added that rural students who might be missed on the routes by the buses should contact school officials not later than Monday.

others in their hearts there wouldn't be so many drunks and accidents. Keep up the good work; maybe others will profit by it. Send me the paper.

## Auditorium Start Work On Baptist S. S. Annex

A successful bid was made late Tuesday afternoon by Bell-Erhart Construction Company of Dallas for construction of a new gymnasium for Texico schools, informed Superintendent Agrie Jones.

Some time ago, citizens of the Texico district voted bonds in excess of \$40,000 for a new gymnasium, and this marks the first time a contractor has offered a satisfactory bid. There had been several unsuccessful attempts previously.

The superintendent said construction would begin immediately on the new building.

## Fire Victims Buried Near Scene Of Death

Funeral services were held last Wednesday afternoon for Vera Alice, 18-months-old, and Carl Stephen, 3-year-old, both children of Beatrice Clark, colored, who were burned to death when fire destroyed the servant quarters at the John Armstrong farm home one and a half miles northeast of this city.

Burial was made in a shady grove of trees on the Armstrong premises, only a short distance from where the little tots met their tragic death.

The children were left in the small two-room house while their mother was engaged in her household duties in the Armstrong home only a few yards distant. Fire had completely enveloped the home when it was discovered, and the little boy died three hours after being removed to a Clovis hospital.

## End Of Trail Finally Comes To Moorehead

Olen B. Moorehead, wanted by law enforcement officers from Oklahoma to California, finally came to the end of the trail a few days ago in Santa Fe, N. M., and has already been sentenced to serve three years in the Federal penitentiary, officers reported here today.

Moorehead is the man wanted here for forging the name of J. D. Lovelace to a number of \$75 checks drawn on the Security State Bank of this city, and cashed at various places in the eastern part of Texas and in Oklahoma.

Federal Officer Smith of Santa Fe, who was here the first of the week, reported Moorehead came into Santa Fe about three weeks ago in a car he allegedly had stolen in Oklahoma.

Shortly after his arrival in Santa Fe, he is alleged to have stolen a car there, which was the property of the district attorney in that city. He was captured on short notice. Smith said Moorehead was heavily armed at time of capture, but he offered no resistance when taken into custody.

Officers here are inclined to believe Moorehead is the same one who entered the John Lovelace home south of this city early last spring and made off with several household articles, including radios, alarm clocks, etc.

## Wrong Time To Chisel, County Agent Warns

It is apparent that a number of farmers gained the wrong impression from the interview with County Agent Ollie Liner with reference to chiseling fields in order to break up the hard pan that is being discovered in many fields of growing crops.

"To chisel now would mean that the crops would die right behind the plow," Liner warned, and he went on to say that he still recommended the chiseling operation, but not at this time.

"The time for this work is in the fall or early spring, but not at the present time," he emphasized.

Liner said a number of farmers had appeared at his office last week to ask if he recommended chiseling their fields now, and he has asked that The Tribune correct any wrong impression growers may have construed from the story appearing in last week's issue.

## FAIR CATALOGUE TO PRESS

County Agent Ollie Liner today announced that the new catalogue for the 1949 Farmer County Fair would go to press Thursday. Liner said the catalogue would be "around eighty pages thick," since this year will be the biggest fair in its six-year history.

## Start Work On Baptist S. S. Annex

Construction is expected to be completed "in thirty days," for the new 13-room addition to Texico-Farwell Baptist church. Smith and Mize, Portales contractors, made the estimation Monday morning as forms were being laid for the pouring of concrete foundations.

The 30x60 structure will be frame and stucco, and house the junior and intermediate departments. Two large rooms will occupy most of the space, and they will be surrounded by nine small classrooms.

The Rev. O. O. Holladay, pastor, said the company had estimated construction cost at \$6500, but added that another \$1500 probably would be spent for furnishings.

Five construction men were a work Monday morning, along with several volunteer members of the church.

## Former Local Lad Now Facing Federal Charge

Gary Earl Bryant, former local boy, was turned over to Federal authorities here Monday afternoon and taken to Santa Fe, N. M., where he will face charges of transporting stolen property across a state line.

Gary, who is 18 years old, was recently dismissed from the New Mexico State Reform School at Springer, and was picked up in Clovis Sunday after he allegedly had stolen a late model Chevrolet pickup in Farwell, belonging to Walter Hardage.

The lad is alleged to have taken the car from the parking zone of the Fox Drug Store where it was left parked by Harage, after midnight early Sunday morning. After notifying nearby officers to be on the lookout for the pickup and Bryant, Hardage went to Clovis on a search for the missing machine.

While he was describing the stolen auto to a friend on Clovis streets, Bryant drove by in the hunted car. Hardage gave chase, finally resorting to some speedy footwork to take the young man in charge.

## Nation-Wide Safety Campaign Planned By Ford Dealers

O. C. Sikes, owner-manager of Sikes Motor Co., and Jake Winkle, head mechanic of the firm, were in Albuquerque last Wednesday attending a state-wide meeting of Ford dealers and service men, where plans were laid for participation in a nation-wide safety campaign being sponsored by the Ford Motor Co. in which 700 valuable prizes, including 25 new Ford cars, are to be given away.

Sikes said on his return here he hoped to announce full details of the campaign next week. In the meantime, persons desiring to enter the contest are requested to apply at the Sikes Motor Co. for entry blanks.

## Showers Past Week Aid To Area Crops

Scattered thunder showers during the past week have been beneficial to maturing crops over this area. However, the showers have been of the "hit and miss" variety, with much of the territory remaining dry.

Three-quarters of an inch fell in Farwell Saturday afternoon, with even heavier downpours being reported to the east and north of here. Clyde Perkins of the Oklahoma Lane Community, reports a full inch on his farm, and Gene Lovelace, living two miles north of town, says he received an inch and a half at his home place.

The moisture was very light to the west, southwest, and northwest of here.

Some hail accompanied the rain Saturday. It is reported that Jimmie McGuire suffered heavy hail damage at his farm east of here.

Most feed crops have reached the "dough stage" where insufficient moisture at this critical stage means a light crop, and a good general rain is still on the want list for most farmers of this section.

Mr. and Mrs. C. M. Henderson returned home Tuesday from a vacation trip to Red River, N. M.

## Attempts Suicide

### JUDGE HAMLIN UNDERGOES SUCCESSFUL OPERATION

Judge J. D. Hamlin, 78, one of the few remaining true pioneers of this region, underwent surgery in a Denver hospital last Friday, and his condition is reported satisfactory by family members here.

H. Y. Overstreet, nephew of the prominent pioneer, who had been with him through the operation, returned here Tuesday, and plans to go back to Denver in a few days.

### Baptist Revival Has Excellent Attendance

Good attendance and interest has been displayed throughout the past week for the summer revival of the Texico-Farwell Baptist church, according to the Rev. O. O. Holladay, pastor.

Rev. Holladay said the church had been filled a number of times during the week for evening services, while fair attendance had been realized for morning activity.

Special nights outlined by the pastor included: Wednesday—Sunday school night; Thursday—training union night; Friday—family night; Saturday—youth people's night.

Officials of the church were hoping for a Sunday school attendance of 300 this Sunday.

### Kimbrow Plans New Business Buildings In Bovina Soon

John Kimbrow, owner and operator of the Kimbrow Drug Store in Bovina, today revealed plans for two new business buildings and the improvement of his business location in Bovina.

Work is scheduled to get underway within the next week on a new front for the building now occupied by the drug store, in addition to two new buildings to the west of the Kimbrow store, occupying the site now held by a small storage room on the Bovina postoffice. Kimbrow said the overall frontage for the three buildings would be 60 feet, and would extend back to a depth of 66 feet.

One of the new buildings will be occupied by the postoffice and the second building, which would be 22x66 feet, would be offered for rental with tenants already in view. The new structures will be frame and stucco with concrete floors. Only the front of the building now occupied by Kimbrow's drug store will be renewed, in addition to redecorating the interior.

Wilson & White of Bovina will be in charge of the building program, Kimbrow said.

### First Weekly Trades Day Comes Saturday

Texico-Farwell merchants have launched a weekly Trades Day for the Twin Cities and the first event will be held Saturday, Sept. 3.

Details of the weekly event are outlined in a large handbill, now in circulation, and which may be obtained from each of the participating merchants. Forty-seven merchant and business firms in Texico-Farwell are cooperating in the event.

## Winter Cover Crop For 1950 Approved

The government has approved, and will support, certain winter crop practices for 1950, according to Joe Camp, Farmer ACA secretary. The program has been established to help farmers secure a satisfactory cover of winter legumes and ryegrass, seeded in the fall of 1949.

Various payment rates will be made by the office, declining from 20 cents per pound of seed sown for crimson clover (hard seed variety), down to 2 cents for blue lupine.

Twelve varieties of seeds have been approved for support by the government. Farmer farmers may be interested in Austrian winter peas and Dixie wonder peas, which merit a support of nearly 6 cents per pound, and hairy vetch, which will bring nearly 15½ cents per pound of seed sown.

Winter legume seed must be properly inoculated with fresh inoculants and seeded not later than the date established by the county committee.

Frank H. Neal, 23, who was being held in the Farmer County jail on a burglary charge, made an unsuccessful attempt to take his own life by slashing his left arm with a razor blade early Wednesday morning.

He was rushed to the Farmer County Community hospital at Friona in a Steed ambulance, where hospital attendants reported his condition as not alarming. He was weak, but still conscious at the time of arrival at the hospital, attendants said.

Two other prisoners in the jail said that Neal awakened them at 7 a. m. Wednesday morning. "He was walking around saying 'let it bleed' when I woke up," one prisoner related. Neal had slashed his left forearm in two places and had severed an artery above the elbow, and the other inmates said, "blood was spurting from his arm as big as a lead pencil."

Neal, who is supposed to live at 2716 S. Cedar, Little Rock, Ark., was arrested at Friona some weeks ago on a burglary charge. Officers here gave it as their opinion he was "a little off balance" mentally.

## Frank Truitt Opens Bovina Drug Store

Frank Truitt of Friona has opened his new drug store in Bovina, and announced today the business would be operated under the name of the Bovina Drug Store.

Truitt said he was not a registered pharmacist, but had had a number of years' experience in the drug business. He has made arrangements with the Farmer County Community Hospital at Friona to handle his prescription work.

He said he expected to carry everything to be found in an ordinary drug store. Mrs. Cora Mae Hudson has been employed as clerk of the new store, which is located west of the Mustang Theatre on Main Street.

## Another Texico Child Stricken With Polio

The condition of Ellen Ann, three-year-old daughter of Mr. and Mrs. Lewis Calliout, who was stricken with poliomyelitis early last Saturday, is reported to be showing satisfactory improvement in a Clovis hospital.

Family members said the little girl complained Saturday and showed signs of illness, but it was not until the following day that mild paralysis could be noted in her lower limbs. She was taken to a hospital immediately, where she is still under observation.

## To Visit Bovina OES Chapter

E. A. Wells, 32° Mason, who is secretary of the Scottish Rite Temple at El Paso, will visit the Bovina Chapter Order of Eastern Star Thursday evening, Sept. 1. Local masons and Eastern Star members plan to be out in large numbers to hear the visiting speaker.

Now is the time to make plans for sowing small grains for fall and winter grazing for the dairy herd. Plan to have at least one acre for each cow in the herd.

Phosphate must be applied at a rate of not less than the equivalent of 200 pounds of 20 percent superphosphate per acre, except on land where there has been an application of phosphate to some prior crop within such time that the residual effects are still available. Potash must be applied in any area where there is a known deficiency of this element, said the secretary.

Minimum seeding rates per acre are required for these crops, and information may be obtained from the Farwell ACA office.

Camp also said farmers must secure written approval of the county committee before seeding the legume or ryegrass. "Report performance, using the form on which the practice was approved, after a good cover is established and not later than the date for reporting established by the county committee."

Additional details and information may be had at the ACA office.

**Health Note**

Texas State Department of Health

AUSTIN—The Texas State Department of Health during the first seven months of this year has a record of the examination of 2709 animal heads for rabies and of this number almost one fourth were found positive, said Dr. Geo. W. Cox, State Health Officer.

Rabies is transmitted to man through a bite or having a cut exposed to the saliva of a rabid animal. If a person is bitten, the offending animal should be penned, if possible, for a period of at least ten days.

If the animal is in the infective stage, he will die within this time. This does not mean that he may not be in the noninfectious or incubative stage and develop rabies later. All dogs bitten by a rabid animal should be confined six months. If it is necessary to kill the animal, this should be done in such a manner that the brain is not destroyed.

When sending a head to the State Laboratory it should be put in a container, sealed and picked in ice to prevent decomposition.

Dr. Cox said rabies is a hard disease to eradicate, but that it could be done if all owners would have their dogs vaccinated each year and eliminate all stray dogs. If you have a dog, get him vaccinated the same as you have your children immunized against diphtheria and smallpox.

Rabies is commonly supposed to be a disease of warm weather, but it is more prevalent during the spring and fall because the dogs congregate and move about more, therefore the chance of exposure is greater during this time. It is true that more dogs are killed in the summer months, but the percentage of rabies is low.

**Mulshoe FFA Lad Is Candidate For American Farmer**

Ernest Ramm, Mulshoe, Kenneth Gregg, Plainview, and John A. Smith of Snyder, outstanding boys in Future Farmers of America activities in Texas, have been certified as winners of Santa Fe Railway awards by Robert A. Manire, State Supervisor, Vocational Agriculture at Austin.

The Santa Fe awards are cash sums covering total expenses incident to attending by the winner at the National F. F. A. Convention held yearly in Kansas City.

Ramm and Smith are candidates for the American Farmer Degree and Gregg is a state officer of the Texas Future Farmers of America.

Certificates of Merit representing the awards will be given to the winners by R. I. Cross, Santa Fe agricultural agent, Amarillo, at the Annual Awards Banquet for F. F. A. Area 1 to be held in Amarillo at the Herring Hotel on September 2.

**Tech Cafeteria Is Being Remeodeled**

LUBBOCK—A major face-lifting is being started on Texas Technological college's cafeteria. Work began recently on tearing out the partitions which formerly divided the cafeteria into four units, and many other plans are being proposed to make it suitable for social functions by the various campus organizations this fall.

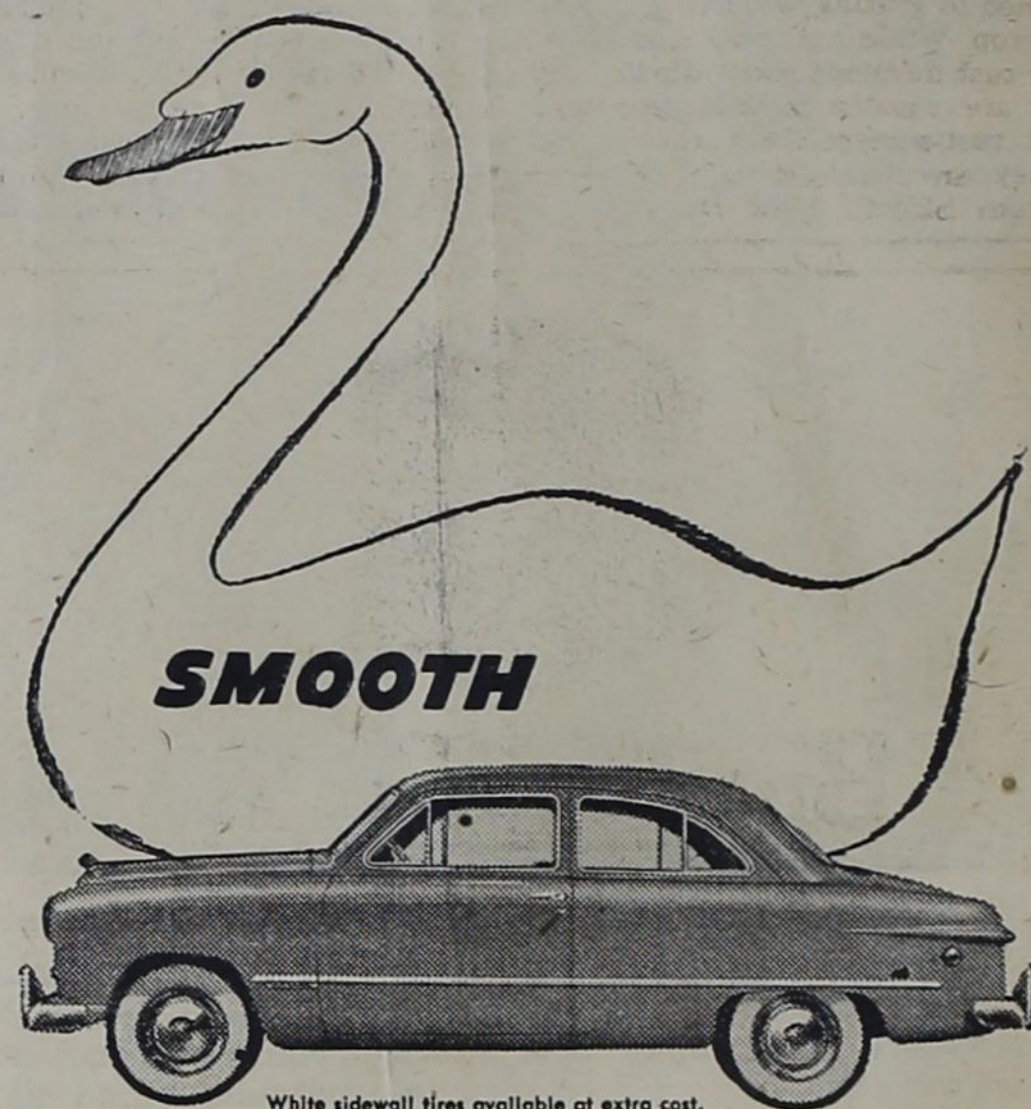

James G. Allen, dean of men, says that a new hardwood floor will be laid within the next few weeks, and he hopes the funds will allow covering the walls in knotty pine, installing brackets lights, automatic heating, venetian blinds and attractive drapes. The south side will have two double-door entrances, opening

from a covered porch the length of the building.

The new student building will have a snack and coffee bar which will be open from 9-12:30 a. m. Monday through Saturday. It is to be used by campus organizations for social functions, not for regularly scheduled club meetings. A nominal rental fee will be charged in proportion to the size of the membership of the organization.

A small maintenance staff, composed mainly of students, will keep the building in top shape for all occasions. It will be under the direct supervision of Mrs. Eleanor Chitwood, hostess, and Troy A. Enis, director of the Recreation hall.

If nature is so wonderful, why didn't she make the mosquito a vegetable?

### Recommended Oat Varieties For Texas

COLLEGE STATION—In general, the strains of red oats, or improved varieties derived from crosses on red oats, have been found satisfactory under Texas conditions. The red rustproof group is the most widely adapted, says D. J. E. Adams, head of the department of agronomy, Texas A. & M. College system.

The early-maturing Fulghum varieties are adapted only to spring seeding in certain areas, although newly-developed varieties derived from crosses on Fulghum, are adapted to either fall or spring seeding.

The Red Rustproof group are a moderately hardy, winter-type adapted either to fall or spring seeding over most of Texas. They are well adapted to grazing without injury to the crop. While not truly rust resistant, rust develops more slowly and they are usually injured less than most rust-susceptible varieties.

They are resistant to Helminthosporium blight. New Nortex is a

pure line strain grown extensively in the South, and recommended throughout the North-Central and Rolling Plains.

Ferguson 922 is a similar strain. Ranger, Rustler, Alber and Camelia are leaf (crown) rust-resistant varieties of this type which are adapted to South Texas. They are lacking in cold resistance and should not be grown north of the Austin area.

The Fulghum group are nearly as winter hardy as the Red Rustproof strains, but are most susceptible to sudden freezes because they respond more quickly to periods of warm weather. Growth is more upright and they are damaged more by grazing than winter types.

Frazier, Kanota and Fulton are strains of Fulghum recommended only for spring seeding in the Panhandle. Fultex is a leaf rust-resistant variety especially suited for combine harvesting. It produces grain of high test weight and is well adapted to fall or spring seeding in the Rolling Plains area, and for spring seeding in North-Central Texas. Victorgrain is very similar to Fultex but has not yielded as well

under Texas conditions. The most winter-hardy varieties of oats are Wintok, Fulwin and Tenex. They produce prostrate, narrow-leaf winter growth similar to winter wheat. Because of their high susceptibility to rust they are not well adapted to Texas conditions.

Mustang is a new variety, in the winter-hardy group, and is resistant to leaf rust. It approaches Fulwin in winter hardiness and has also yielded well from spring seeding at Denton. Seed of this variety is not yet commercially available. Stanton is a yellow-grained variety resistant to leaf rust but susceptible to Helminthosporium blight. It has given satisfactory yields in the North-Central and Rolling Plains areas and is slightly more winter hardy than New Nortex.

These oat variety tests are being conducted by the Texas Agricultural Experiment Station and the Bureau of Plant Industry, Soils and Agricultural Engineering, USDA, in cooperation with the station superintendents at Denton, Temple, Iowa Park, Greenville, Chillicothe and Stephenville. I. M. Atkins, agronomist, at the Denton station, is the small-grain research leader.

The county extension agents or the nearest Experiment Station can supply the per acre yield figures for the varieties tested. The information is given in progress report 1164, Texas Agricultural Experiment Station, April 1949. Your local county agent can also supply you with information on the prevention and control of rusts, smut and Helminthosporium blight.

### CAR DRIVING IS MORE DANGEROUS IN COUNTRY

CHICAGO—Choose up sides, for here's some ammunition in the age-old country-versus-city controversy.

Driving a car is more than twice as dangerous in rural areas than in city areas, according to the 1949 edition of the National Safety Council's statistical yearbook, "Accident Facts."

Of the 32,000 motor vehicle deaths in 1948, 21,500 occurred in rural areas and 10,500 in urban areas. The mileage death rate was 10.8 deaths per 100,000,000 vehicle miles in rural areas, and only 5.3 in urban areas.

There were about twice as many urban pedestrian deaths as rural—6,200 compared with 3,650—but there were more than four times as many rural non-pedestrian motor vehicle deaths as urban—17,850, compared with 4,300.

### Deadline Hours Given For Entries At Fair

LUBBOCK—All Exhibitors in the various departments of the 23rd Panhandle South Plains Fair, which will be held Sept. 26 through Oct. 1, at Lubbock, who plan to compete for part of \$10,000.00 premiums have been given a notice of the deadline for entering exhibits.

Panhandle South Plains Fair Officials have announced the following rules for all entries. The deadline for various departments are:

Livestock—Sept. 16 at 6:00 p. m.  
Agriculture—Sept. 24 at 6:00 p. m.  
Veterans Vocational Agriculture—Sept. 25 at 6:00 p. m.

Vocational Agriculture—Sept. 25 at 6:00 p. m.

Individual Exhibits—Sept. 25 at 6:00 p. m.

Rabbit and Cavy—Sept. 23 at 6:00 p. m.

Boy Scouts of America—Sept. 25 at 6:00 p. m.

Women's Department—This Department will open at 9:00 a. m. Sept. 22 and will close at 1:00 p. m. on Sept. 23 for all entrees except bread, cake, cut flowers and plants.

Bread, cake, cut flowers and plants will be received from 8:00 a. m. until 1:00 p. m. Sept. 26, and must be delivered to the Fair Grounds during this period.

Since more exhibits and displays will be at this year's Fair than ever before, officials have asked that all exhibitors pay special attention to the rules and regulations printed in the Fair Catalog. Any person interested in receiving a copy of the catalog may write to Box 561, or call the Panhandle South Plains Fair Association, telephone no. 4666 or call at the office which is located at 902 Texas Avenue, Lubbock, Texas.

All exhibits must be properly placed by 9:00 a. m. Sept. 26, officials stated.

She kept her childhood vows to make a million dollars singing, and to spend or give it all away. Read the tragic drama of her famous career in The American Weekly, that great magazine distributed with next Sunday's Los Angeles Examiner.

**JEWISH DEAD COME HOME . . .** A longing experienced all through life was realized by 200,000 Jewish victims of Nazi atrocities after death when their ashes arrived in Israel, their promised land, for burial. The ashes, taken from the common graves of Austrian Jews cremated in various concentration camps, were flown to Israel in 30 urns. Here is a view of the urns, contained in a casket, after arrival at Lydda airport, Jerusalem. Religious Jews from all over the city greeted the cortege and attended the burial.

### ACCIDENT RATE DROPS 13 PERCENT IN 1948

CHICAGO—Workers in American industry were safer in 1948 than in any year in history, the National Safety Council reported today.

Reports to the council, as shown in the 1949 edition of its statistical yearbook, "Accident Facts," indicates that disabling injuries per 1,000,000 man-hours averaged 11.49 for all reporting industries in 1948. This is a 13 percent reduction from the 13.6 rate the year before, and a new record.

An average of 1.12 days were lost

per 1,000 man-hours worked in all industries last year, a reduction of 9 percent from 1947—also the best on record.

In both years lumbering had the highest accident frequency rate, but it was reduced 18 percent in 1948, from 59.74 to 49.04. Coal mining, with the greatest accident severity rate both years, went down from 7.96 to 7.61, a 4 percent reduction.

Communications again ranked as the safest among reporting industries in 1948. It had the lowest frequency and severity rates last year, as well as the year before.

**Temperature Important For Building Soil**

**COLLEGE STATION—Can you** remember how hot bare ground felt when you used to go barefooted? How you hunted grassy spots to walk on? That was just probably called at natural reaction, but the matter of soil temperature is a very important item in a soil building program, says Roy L. Donahue, extension agronomist of Texas A. & M. College.

A summer cover crop keeps the soil cooler in hot weather and a winter cover crop helps to hold the temperature up in the winter time. This cover is important, for Donahue says that for every 10 degree rise in temperature most chemical reactions are doubled and there are plenty of chemical reactions taking place in the soil. The rotting of organic matter is a chemical reaction.

So when the soil is allowed to go without summer cover, it gets very hot and this causes the organic matter to burn up faster. Soil low in organic matter doesn't take up moisture when it rains and is drier when the rains don't come often. In areas where wind erosion is a problem, it blows away easily, and in areas of heavy rainfall, it washes badly, says Donahue.

It may be too late to plant a summer legume or grass crop this year, but it is not too late to plan your cover crop for this winter, next summer or for that matter for each season over a five-year period.

What can you expect from such a program? Donahue says averages from extension service demonstrations in 86 counties show that when corn followed a soil building legume, yields increased 41 percent. When the soil building legume was fertilized, the corn produced an additional 8 bushels per acre on the average.

**HARDAGE TIRE STORE**  
FARWELL, TEXAS

Reports from 21 counties showed that grain sorghum following a fertilized legume made a 70 percent increase in yield and cotton yields were increased 60 percent, says Donahue.

He adds that if you are interested in getting a soil building program started on your farm, visit the local county agent and talk the situation over with him. Chances are good he can show you demonstrations where soil building crops are being used to increase crop yields and too, he can help you make that long time plan for your farm.

**Be Wise—Know What You Are Buying**

**COLLEGE STATION—Homemakers** are interested in getting what they pay for, whether they're buying clothing, household equipment, or food, says Miss Myrtle Murray, extension home marketing specialist of Texas A. & M. College.

It isn't always easy to judge quality, especially of canned foods. This is true even when the product is canned in glass, but when the product is in a tin container, there is nothing to buy except the information on the label.

According to Miss Murray, to buy wisely, the consumer must know four things; her own needs, how much money she has to spend, the price of the article and its quality.

The answers to the first three are easy to find, but the fourth may not be so easy. Miss Murray says one the simplest, surest and quickest ways it can be done is by means of an informative label attached to the product.

Miss Murray has prepared a bulletin, C-263, Be Wise—When You Buy, that has just been released by the Extension Service of Texas A. & M. College. In it, she discusses the different types of labels and what they mean to the consumer. Your local county home demonstration agent will be glad to supply you with a copy.

Mr. and Mrs. E. F. Lokey and son, Ernest, are back home from a brief vacation trip to Pagosa Springs, Colo.

Mr. and Mrs. Roy B. Ezell spent Sunday in the home of their daughter and son-in-law, Mr. and Mrs. L. D. Parker in Amarillo.

Mr. and Mrs. Glenn Williams of Canyon were among the many out-of-town guests attending the ex-student banquet Sunday.

Miss Teresa Jesko of Bovina spent the weekend in the home of her uncle and aunt, Mr. and Mrs. Harry Jesko.

**MOVING TO HOUSTON**

Attorney Roy E. Cook was making preparations early this week to move his law office and household goods to Houston, where he plans to continue in the practice of law.

The Cook family came here three and a half years ago from Houston, and since that time Cook has operated an abstract and insurance office in connection with his law practice. Mrs. Cook and children went to Houston some weeks ago.

B. N. Graham has taken over the insurance business formerly handled by Cook, but the abstract plant will be closed. Cook stated. He plans to return here the first of the year to assist his clients with their income tax returns.

**EVENING HOURS CHANGED**

Time has been changed for evening worship of Texico-Farwell Baptist church, according to information received here Monday from the Rev. O. O. Holladay, pastor. He said beginning Sunday, evening services would be at 7 o'clock for the training union, and 8 o'clock for preaching.

**SANTA FE CARLOADINGS**

Santa Fe System carloadings for ending August 27, 1949, were 23,138 compared with 26,252 for same week in 1948. Cars received from connections totaled 11,194 compared with 12,328 for same week in 1948. Total cars moved were 34,333 compared with 38,580 for same week in 1948. Santa Fe handled a total of 33,176 cars in preceding week of this year.

**FEED MILL IN OPERATION**

The feed mill at Farmers Supply Co. is scheduled to renew operations today after a shut-down of a full month. John Getz, operator of the firm, said the mill has been completely overhauled in preparation for the fall business.

## Dean Mears Talks To School Exes

The second annual banquet for ex-students and teachers of Oklahoma Lane, West Camp, and Farwell schools Sunday afternoon at the Farwell school cafeteria was deemed a success by both guests and sponsors.

About eighty ex-students and teachers attended the lavish affair and were served chicken with trimmings while they were entertained by Gloria Kepley with a tap dance, and a reading by John Christian.

After the banquet had been served, the guests listened to Dean Mears of Eastern New Mexico University, Portales. Dr. Mears' address dealt with a report from a committee representing views of the Chamber of Commerce of the United States.

Covering this report, the speaker asked listeners to think of the talk not in terms of what he as an educator might say, but to realize that what would be said would represent ideas of select men representing American business and economy.

The report covered the cost of education in the United States, and emphasized that not enough money was being spent on the system, even though education itself represented the largest single business in the United States.

"These men have found that virtually without exception areas that had a superior system of education also possessed superior standards of living.

"Countries like Denmark, Norway, and Switzerland are better off in this respect than the United States, although they have very little in the way of natural resources."

The speaker finished his talk with a poem reflecting a theme that the reins of a country were in the hands of youth, and that these young people must be well-schooled if they are to carry a world of burdens.

Previous to the banquet, W. H. Graham offered the invocation; Billy Don Crume gave the welcome in behalf of the junior class, sponsors of the banquet; and the response was given by Mrs. Lee McDaniel, a former Farwell high student.

At the close of the talk by Dean Mears, the entire group rose and sang the school song, and the Rev. Murphy Duncan, pastor of Texico-Farwell Methodist church, gave the benediction.

## Commencement Is Held Wednesday

Commencement exercises for the seniors at West Texas State College High school was Wednesday night, August 24, with eighteen graduates receiving diplomas.

The stage was beautifully decorated with two huge baskets of red carnations on either side, and the seniors, wearing royal blue caps and gowns, in the center.

The processional and recessional was played by Ruth Ann Soll, and invocation was offered by W. L. Vaughn. Dr. James P. Cornette, president of the college, made the address, and presentation of diplomas was made by F. E. Savage and Cecil Briggs. The services were closed as the benediction was offered by W. L. Vaughn.

Those receiving diplomas included Nelson Allen, Phillip Busted, Lily Don Davidson, Bob Davis, Jane Duncan, Jerry Ann Foster, Betty Sue Hood, Gloria Kepley, Faye Kinney, Ann Kinsey, Timm Magness, Mildred Newton, Jeanine Scott, Wanda Sheets, Suzanne Owens, Mildred Vaughn, Linda Wesatherall and Jim Wilterding.

## Methodist Churches In Clovis District Hold Zone Meet, Tuesday

The First Methodist Church of Clovis was host church to all churches in the Clovis district Tuesday, when they assembled for a zone meeting of the district.

Approximately 125 guests were present from the various churches, with the following ladies representing the Hamlin Memorial Methodist Church: Mesdames G. W. Atchley, Lenda Yoder, J. R. Hadley, Murphy Duncan, N. L. Tharp, Roy B. Ezell, A. D. Smith, Ruby Dixon, W. W. Vinyard, and W. H. Graham.

The theme for the day's program was based on "Vision," using a scripture found in Proverbs 29:18, "Where there is no vision the people perish."

Special musical selections were rendered by the following ladies during the day: Miss Jeanette Bowman, Miss Frances Kimmons, and Mrs. Roy Jackson of Clovis; Miss Erma Wood, Rosedale; and Mrs. Thurman Harris, Portales.

The Rev. H. H. Allen, pastor of the Trinity Methodist church in Clovis, gave the morning meditation, and Mrs. Hubbard, who is matron of the Portales Children's Home, gave a very interesting talk during the afternoon.

A luncheon was given by the First Methodist church in Clovis in order to raise funds for their New Mexico missionary, Monta McFadden, who is in Brazil. Her mother who is with her is very ill and the churches are attempting to raise funds to bring her mother back to the United States. The amount needed to bring this about will be near \$1000.

## Menefee Family Home From Scenery Tour

Mr. and Mrs. W. S. Menefee and their daughter and son-in-law, Mr. and Mrs. Sam Long, returned the past weekend from an eleven-day sight seeing tour which extended through Utah. Among the sights seen by the visitors were the Grand Canyon, Boulder Dam, Siam Canyon, Brice Canyon, in Utah, and Yellowstone National Park.

In Salt Lake City, they viewed the great Mormon Temple, which is reputed to be the greatest edifice of its kind in the U. S.

They returned home via Denver, Colo., and Santa Fe, N. M. "We didn't have any trouble at all," stated Menefee early this week, pointing to a new Chrysler he purchased prior to the trip. "All we had to do was drive."

## Ice Cream Social Enjoyed Sunday

An old-fashioned get-together was enjoyed Sunday afternoon in the home of Miss Hazel Dishman in Farwell, when several friends gathered for an evening of singing and visitation.

The entire evening was spent in singing, with several recordings being made, after which delicious refreshments of home-made ice cream was enjoyed by guests.

Those present were Mr. and Mrs. Sam Stairs, Mr. and Mrs. Jack Tedford and Miss Jean Verkler of Friona; the Rev. Verdell Thompson and Miss Mary Hatcher of Hereford; and Mr. and Mrs. Jim Bob Smart of Farwell.

## License Issued

A marriage license was issued to Miss Helen Johnson and Joe B. Rice, on Wednesday, August 24, according to records at the county clerk's office.

## Barron-Mitchell Married In Informal Ceremony

The marriage of Miss Glenna Barron, 1607 Polk, daughter of Mr. and Mrs. P. D. Barron of Bovina, to Bob Mitchell, son of Mr. and Mrs. H. W. Mitchell of Atoka, Okla., formerly of Amarillo, was solemnized recently in the parlor of Polk Street Methodist Church. The Rev. Charles Elzey, associate pastor, officiated at the double ring ceremony.

Preceding the service, Miss Donny Autry played "Intermezzo," "One Alone," and "At Dawning." She sang "Because," and "Always," and played the traditional wedding marches.

Gladioli and fern with candelabra bearing lighted tapers formed the decorative setting.

Attending her sister as maid-of-honor, Miss Margaret Barron was attired in street-length dress of brown crepe accented with dark green accessories. Her corsage was of pink carnations.

Grady Truitt was best man, and Warren Daniel and Brooks Wilson served as ushers.

Given in marriage by her father, the bride wore a street-length dress of aqua crepe with gray accessories. Her corsage was of pink rosebuds with a gardenia.

Mrs. Barron chose for her daughter's wedding a navy crepe with white accessories and a corsage of white gardenias.

After a wedding trip to Dallas, the couple will be at home in Atoka, Okla.

Mrs. Mitchell was graduated from Bovina High School and attended West Texas State College at Canyon. She has been employed by Askw and Brown for the past two years.

Mr. Mitchell attended college in Ardmore, Okla., and West Texas State College at Canyon. He served in the Navy during the last World War. He is associated in business with his father in Atoka, Okla.

Prior to her marriage, the bride was honored with several courtesies including a shower in the home of Mrs. Billy Sudderth near Bovina and a miscellaneous shower in the home of Mrs. R. E. Platt, 314 East Twenty-first. Miss Charlotte Witney was co-hostess.

## Here From Missouri

Mrs. Rupert Paul, former local resident, left for her home near Carthage, Mo., Tuesday, after spending a few days here attending to business matters. She said crops on her Missouri farm were very good this year. On her trip here, Mrs. Paul was accompanied by her two small daughters, Ann and Nell.

## To Ft. Bliss

Second Lt. Belvin Freeman, son of Mr. and Mrs. Walter Freeman of Texico, who has been here visiting in the home of his parents the past two weeks, departed Sunday for Ft. Bliss, Tex., where he will be stationed. Lt. Freeman received his commission recently at Ft. Riley, Kan., where he had been in training the past several months.

## Announce Engagement

Mr. and Mrs. Troy Murray announce the engagement and approaching marriage of their daughter, Miss Zoellen, to Archy Hamm, son of Mr. and Mrs. Felix Monroe, of this city.

The wedding will take place at the First Baptist church in Prescott, Arizona, Thursday, September 1st.

## Here From Abilene

Mr. and Mrs. Ray Nicewarner and daughter of Abilene left Tuesday for their home after spending a few days here visiting in the home of Mr. and Mrs. G. L. Nicewarner in Texico.

Judge and Mrs. A. D. Smith spent Sunday in Ft. Sumner, N. M.

## WSCS Convenes In Regular Meeting

Members of the Women's Society of Christian Service assembled in the parlor of the Texico-Farwell Methodist church the past Wednesday afternoon for their regular monthly meeting.

The program was in charge of Mrs. Lenton Pool, who gave an interesting study on "Burma," and the work that was being done by the Methodist missionaries there.

Those present for the meeting were Mesdames Roy Thornton, Roy B. Ezell, B. N. Graham, G. W. Atchley, Lena Yoder, Lewis Pierce, Lenton Pool, and W. H. Graham.

## Farwell Boys Attend DeMolay Conclave

Attending the first West Texas Area Conclave for the Order of DeMolay in Lubbock Tuesday evening was Nelson Smith, and two Farwell boys, Sonny Spurlin, and Jerry Bradshaw.

The trio viewed the impressive flower talk and heard an address by Gov. Allen Shivers at Slaton High school in Lubbock. They also attended a banquet at the Hilton Hotel, with about three hundred other members.

## In Harding Home

Visitors in the home of Mr. and Mrs. N. R. Harding the past week were her sisters, Mrs. T. M. Laster of Phoenix, Ariz., Mrs. K. S. True-love and two daughters, and a grandson of Sabin, Tex., and two of their grandsons, Herby Kay and Derry Don Harding of Levelland.

## Home From Vacation

Mr. and Mrs. Johnnie Lewis and daughter, Bettie, returned home the past Wednesday from a vacation trip to the Rio Grande Valley, where they spent two weeks visiting relatives and friends. While there they took a trip over into Mexico and down the beach on the Gulf.

## Sunday Guests

Sunday guests in the home of Mr. and Mrs. N. R. Harding included Mr. and Mrs. Warren G. Harding and daughter, Paula of Lubbock; and Mrs. Harding's sister and family, Mr. and Mrs. R. L. McDonald of Lubbock.

## In Temple Home

Guests in the homes of Mrs. J. C. Temple and Mrs. Ruby Dixon the past Wednesday were Mrs. Mertie Heiner of Ft. Worth, and daughter, Mrs. Louise Rogers and baby daughter Frances, of Littlefield.

## Pastor Home

The Rev. Murphy Duncan and family returned home the latter part of last week from a two-week vacation trip to Missouri and Arkansas, where they visited with relatives. They report a very pleasant trip.

## Attends Wedding

Mrs. Jess Newton attended the wedding ceremony which united Miss Pat Mott and Duane Hubby, Sunday, August 28, at the First Christian church in Clovis.

Mr. and Mrs. Doyle Cummings and son left the past week for an extended visit with relatives in Arkansas.

Mr. and Mrs. Jesse Coburn accompanied Mrs. H. Ross to Amarillo the past Saturday, where Mrs. Ross received medical treatment.

Jake Winkle and family have returned home from a week's vacation spent in northern New Mexico.

Mrs. Willie Hammonds, clerk at Hall's Grocery, is off on her vacation this week. She and her daughter, Miss Modell, have gone to Alamogordo for a visit with relatives.

## Wedding Rites Read For Hawkins-Gamble

One of the loveliest brides of the season was Miss Kathryn Louise Hawkins, daughter of Mr. and Mrs. A. E. Hawkins, 820 West 13th, who exchanged wedding vows with Claude E. Gamble, Jr., son of Senator and Mrs. Claude Gamble, 1204 Pile, at 3 o'clock Saturday afternoon, August 20.

The double-ring ceremony was performed in the Ninth and Connelly Street Church of Christ, by L. D. Simms, local minister.

Vows were spoken by the couple as they stood beneath an archway interlaced with white and deep yellow gladioli and greenery, adorned with white satin bows. Lighted yellow tapers, arranged over the arch cast a soft glow over the setting and further carried out the bride's chosen colors of yellow and white.

Vocal selections included "I Love You Truly" was sung by Mrs. Lawrence Hickman, and "Always" and "Because" were sung by Mrs. Don Summers.

The bride's dark beauty was accented by a bridal gown of white slipper satin featuring a fitted bodice with long tapering sleeves with petal points, and a full skirt which fell in graceful folds to form a short train. The high rounded neckline was accented by the lovely lace yoke. Her finger tip veil was of bridal illusion and was held in place by a coronet adorned with seed pearls. She carried a bouquet centered by a white orchid arranged with white lace, white satin ribbon and showers of bouvardia.

Ornamenting the bodice of her gown was a lovely gold pendant watch belonging to her grandmother, Mrs. Jess Newton, who was given the watch by her father on the occasion of her eighteenth birthday. A pretty gold bracelet, which her grandmother had worn at her wedding forty years ago, was also worn by the bride.

In observing the bridal tradition, the bride also carried a linen handkerchief with wide lace edging which had been carried by the grandmother of her bridesmaid, Miss Sandra Pawol, at her wedding. A blue garter completed the tradition and also served as a good luck token with its decoration of a tiny gold horseshoe in which was set a four leaf clover. The token was presented her by her other bridesmaid, Miss Ann Maples.

Attending the bride as maid-of-honor was Miss Pat Mott, who was a close friend of the bride through school years. She was dressed in a floor length gown of yellow taffeta styled with a fitted bodice featuring an off-the-shoulder effect and a full skirt. Her only jewelry was a single strand of pearls. She wore a bandeau of yellow mums and carried a cascade bouquet of feathered yellow mums with blue net and blue satin ribbon streamers.

Bridesmaids were Misses Sandra Pawol and Ann Mapes, who were dressed identical to the maid of honor except for the color of their gowns which were blue, and they carried blue flowers.

## Headquarters For School Supplies

For a quarter of a century we have been headquarters for school supplies, and we are ready to serve you again.

See our fountain pens, priced from 39 cents to \$13.50. You will find a pen to fit your needs in our complete stock.

Petite Vicki Boucher, niece of the bridegroom was dressed similar to the bride's attendants for her role as flower girl. Dressed in yellow, she carried a yellow net basket filled with rose petals. Serving as ring bearer was the six year old nephew of the bridegroom, Mike Boucher.

Gervis Williams served as best man and ushers were Billy Neal Williams, Dr. Orville Rozzell and Dean Hawkins brother of the bride, who was home from the Navy for his sister's wedding.

Immediately following the ceremony a reception was held in the home of the bride's parents. After the first piece of the four-tiered wedding cake had been traditionally cut by the bride and groom, the cake was served to the guests by the bride's grandmother, Mrs. Jess Newton. Presiding at the crystal punch service which was also arranged on the lace draped bride's table, were Mrs. L. E. Boucher and Mrs. Benny Jo Aday of Portales.

The many guests signed the guest book which was in charge of Mrs. H. O'Neal.

Before leaving for a honeymoon in Colorado Springs, the bride changed to a two-piece suit of blue linen with a bolero packet featuring three-quarter length sleeves. The suit was accented by a brown plaid vestee and accessories of navy and brown.

The couple will be at home to their friends at 519 West 11th upon returning from their honeymoon trip.

## Back To Bright Lights

Luther Graham, Jr., who has been spending the summer here with his uncle, W. H. Graham and family, returned to his home in Oklahoma City last Saturday, and is making his plans to begin a sophomore year at the University of Oklahoma at Norman this fall. Mr. and Mrs. L. W. Graham drove out from Oklahoma City to pick up their son, and were guest in the W. H. Graham home Friday.

# Bovina Happenings

BY MARIE VENABLE

Miss Nancy Johnston of Lubbock, Tex., is spending this week with Miss Carolyn Wilson.

Frank Wilson, Joe Langer, N. E. Bonds, and Frank Barnett went to Buffalo Lake Monday and returned Tuesday from fishing. They reported no luck.

Mrs. Elton R. Venable and daughter, Margaret Jo, made a business trip to Clovis Monday.

George Trimble purchased a new Ford this week.

Mrs. Mollie White spent the past weekend visiting her son and family, Mr. and Mrs. Hubert White and family in Hereford, Tex.

Mr. and Mrs. W. E. Williams purchased a new Ford this past week.

Mrs. Edna Scott of Oklahoma is visiting friends here this week. She is formerly of Bovina, and moved away some time ago.

Mr. and Mrs. Leroy Kent, Betty Rose, and Carl of Liberal, Kan., are visiting with Mrs. Mable Newberry and Lee Hopingardner. Robert Kent returned home with them after spending the summer with relatives.

Mr. and Mrs. Raymond Rhodes and son, Mr. and Mrs. Orland Rury and son, Mr. and Mrs. Eliza Eugene Ellison and Charlie Rury were guests in the home of Mr. and Mrs. Byron Turner Wednesday for dinner.

The U Down Ranch softball team defeated the Legion Girls in Clovis Monday night by a score of 20 to 9.

Mr. and Mrs. Howard Ellison are spending the week in Ruidoso, N. M.

Mr. and Mrs. Graham Thornton of Farwell visited in the home of Mr. and Mrs. N. E. Bonds the past week.

Mr. and Mrs. Lorin Austin of Los Angeles, Calif., visited in the home of Mr. and Mrs. Harvey Alverson and family. Mrs. Austin is a sister of Mr. Alverson.

Mr. and Mrs. Harold Turner and Don left Wednesday for their home Paterson, Calif., after spending the past month visiting friends and relatives in Bovina.

Miss Pauline Lloyd, daughter of Mr. and Mrs. Buck Lloyd, was taken to the hospital Friday night and underwent appendectomy Saturday morning. She is reported doing as well as could be expected.

Miss Grace Wells and Donald Wayne Boatler of Odessa, Tex., spent Thursday in the home of Mr. and Mrs. Bryon Turner. Dana and Betty Turner returned home with them to spend a few days in Odessa before school begins.

Mr. and Mrs. Garland White returned the past weekend from Oklahoma, where they have been visiting the past week.

Mr. and Mrs. T. J. Hopingardner, Gladys, and William, are spending this week in Laverne, Okla., with Mr. Hopingardner's brother, Owen and family.

Fred Langer made a business trip to Amarillo Friday.

Miss Sandra Jefferson, daughter of Mr. and Mrs. Charlie Jefferson, received medical care in Clovis, N. M., Sunday night.

Mr. and Mrs. Wilbur Charles and daughter, Mary Elizabeth, and two sons of California, were Clovis visitors Monday.

Mr. and Mrs. Frank Wilson, Mr. and Mrs. Frank Barnett, Jack Barnett, Miss Martha Williams, J. W. Ashcraft, Miss Deloris Wilson, Fred Hoffer, Miss Carolyn Wilson, and several more went boat riding out to Mr. and Mrs. Loyd Batys Sunday. All had a very nice time.

Mr. and Mrs. R. S. Johnston and children of Lubbock, Tex., visited in the home of Mr. and Mrs. Byron Turner Wednesday for dinner.

Mrs. O. W. Rhinehart was a business visitor in Clovis Monday.

Ervin Boatman returned to his home here this past week after receiving major surgery in Clovis Memorial hospital. He is reported to be doing fine at this time.

### SCHOOL BOARD TO TREAT SCHOOL PATRONS MONDAY

To be treated by the Bovina school board with a picnic supper will be parents, teachers, and school children of the Bovina district Monday night at Mustang field, announced W. H. Willoughby, superintendent of the school.

Willoughby, in making the announcement to The Tribune the first of the week, said the picnic would be held in order that new members of the system might be better acquainted with citizens of the community. He quipped that those intending to come "should remember to bring something to eat if they don't want to go hungry."

The affair was under sponsorship of the Bovina school board, and is to begin at 7:30, concluded the official.

### Be On The Alert For Hog Cholera

COLLEGE STATION—Hog cholera continues to take a heavy death toll of swine in Texas, and there is no good excuse for this loss, says Dr. W. C. Banks, extension veterinarian of Texas A. & M. College. The disease could probably be eradicated, he continues, if all Texas swine producers followed a program of strict sanitation and used the highly successful vaccinations recommended for the control of hog cholera.

The most widely used method of vaccination is known as the serum and virus or simultaneous method. The live virus of hog cholera and a hog cholera antiserum are injected at the same time. This method pro-

duces immunity in from seven to ten days after being administered to healthy pigs. The immunity in normal pigs is usually strong enough to give lifetime protection and the cost is moderate, says Banks.

The big disadvantage of using the serum method is that live virus is introduced on the premises. Carelessness or misuse can cause an outbreak of hog cholera. Once vaccination is done with serum and virus, it is wise, says Banks, to repeat the vaccination year after year on all pigs raised.

The advantages of the "kill" vaccine method are based on the facts that the virus in the vaccine have been killed and it will not introduce hog cholera on clean premises nor can susceptible pigs become infected from it. In addition, this vaccine can be used on ailing or unthrifty pigs without the risk of adding one disease to another.

One disadvantage with this method is that about three weeks are required for the animal to develop immunity. Pigs do not develop a lifetime immunity from this vaccine.

For this reason, swine kept for breeding purposes must be given several injections, says Banks. An injection given about two weeks after weaning will give protection until the pigs are fat and ready for market. Breeding animals should be reinjected after about six months and again once each year.

On the basis of available information, Dr. Banks says he believes that the use of the dead vaccine is better suited to the needs of a majority of the swine producers in Texas. Its use will eventually lower the incidents of hog cholera in the state, he thinks.

Dr. Banks believes that outbreaks caused from faulty vaccination or from the vaccination of parasite infected animals can be prevented if a veterinarian is employed to do the job. He is in a position to examine the pigs and to determine the proper procedures to follow in safely immunizing the herd.

### Accident Toll Up In United States

CHICAGO—The United States may have the highest standard of living in the world, but it also has one of the world's highest accidental death rates.

The U. S. rate in 1948 was 67.1 deaths per 100,000 population, as compared to a world-wide postwar average death rate of 48.9, according to the 1949 edition of "Accident Facts," statistical yearbook of the National Safety Council.

Only three countries topped the accidental death rate of the United States—Iceland, Egypt and Austria. Those countries had rates of 71.5, 83.8 and 85.9 respectively in 1946.

Mauritius, a British island near Madagascar, had the lowest reported postwar accident death rate of 25.9 in 1947.

**18th Annual Prison Rodeo Opens First Sunday In October**

HUNTSVILLE—The 18th edition of the "Biggest Prison Show on Earth", the Texas Prison Rodeo, will open in Prison Stadium, Huntsville, on Sunday, October second, at 2 p. m. It will be held each Sunday during the month and on Wednesday, October 19, Mr. French Robertson, rodeo chairman of the prison board, announced today.

According to the Abilene board member, plans are already made for the greatest rodeo in the history of the annual event. Livestock and inmate performers will be up to their usual neck-breaking standards of savagery and wildness with many new acts and performers already signed up.

Among the old timers who will again be associated with the Prison Rodeo are Albert Moore, returning for his sixteenth year as manager of the show which he developed into the fastest, wildest rodeo in the world; Roy Dillon, the familiar "voire" who is regarded by many as the best rodeo announcer in the Southwest, will again be on hand to MC the show; and Mr. A. C. Turner, prison rehabilitation director, whose 1948 publicity program was responsible for sitting new highs in ticket sales and revenue, will again direct advertising and publicity.

Each performance of the greater new 1949 Prison Rodeo will include novelty acts, standard rodeo events such as calf roping, bareback and saddle bronc riding, bull riding, etc., and exclusive Prison Rodeo features such as the hilarious chariot race, the huge prison military band, the Goree Cowgirls, wild horse race, breath-taking mad scramble, wild cow milking and the music of the Prison Stringsters. Mr. Albert Moore promises, "a spectacle they'll never forget."

"Prices for the greater 1949 show will remain the same as last year," Mr. Robertson emphasized. "Two dollars for reserved seats and one dollar for 'standing room only', tax included. Reservations may be made any time after September first by writing of wiring the prison ticket office in Huntsville."

There will be six performances; October 2, 9, 16, 23, and 30.

**'Man And The Atom,' Outstanding Show Of Age, At Dallas Fair**

The famed "Man and the Atom" show from the American Museum of Atomic Energy at Oak Ridge, Tenn., has been acquired for the 1949 State Fair of Texas Oct. 8-23. W. H. Hitzelberger, vice president and general manager of the Fair, has announced. This is the first display of this spectacular show anywhere in the South outside of Oak Ridge, cradle of

the atom bomb, Hitzelberger said.

The exhibit will demonstrate how nuclear science is providing new tools for atomic research, and how it may help unravel some of the greatest mysteries of science.

The comprehensive Oak Ridge show is expected to be supplemented by other important exhibits from manufacturers cooperating with the atomic program and from institutions which are among those participating in the Oak Ridge Institute of Nuclear Studies. The University of Texas, Rice Institute and the University of Oklahoma are Southwestern sponsors of the Institute, which operates the Museum of Atomic Energy—first and most complete of its kind in the world.

Many of the exhibits are animated and presented in such a simple manner that grammar school children can understand the complex factors involved in the research of nuclear energy.

Among the graphic mock-ups and dioramas which will be shown at Fair is a "Nuen" reactor model depicting the probable future of atomic energy and which looks 25 or 50 years into the world of tomorrow. It reveals the principles of the Nuen plant around which industrial and other community life of that time will be centered. "Nuen" is a coined word combining the first syllables of nuclear and energy.

A model of a uranium pile will demonstrate how radioactive isotopes are produced for use in medical and industrial research. A display of Geiger counters will measure the radiation from luminous dial watches worn by Fair visitors. There will be an exhibit which shows several of the more important types of instruments used in detecting and measuring radioactivity. A cartoon representation of atomic fission will picture how "Dagwood Splits the Atom."

The Dr. Martland display will show the effects of radiation on the human body; and an animated exhibit demonstrates, on a greatly magnified scale, just what happens in the

chain reaction which leads to an atom bomb explosion.

**Fertilizers Paid Off Last Year, Says Duke**

COLLEGE STATION—The use of fertilizers paid off last year for Hubert Duke of Happy, says Swisher county agent Calvin D. Holcomb.

Duke fertilized four different plots of wheat and in his report to Holcomb he said one plot was fertilized with 400 pounds of ammonium nitrate per acre and from the plot he harvested 48.2 bushels of wheat per acre.

On another, he applied 100 pounds per acre of the same fertilizer and harvested 46 bushels per acre. On a third plot, he used 200 pounds of 16-20-0 fertilizer per acre and harvested 45.4 bushels per acre, and on the fourth, he used 100 pounds of 16-20-0 per acre and harvested 44.2 bushels per acre. From his check plot, he harvested only 28.2 bushels per acre.

The increased yields paid for the fertilizer and left Duke a very good increase in money income per acre from each of the four applications that he made, says Holcomb.

The per acre yield increases ranged from 16 to 20 bushels per acre and a little simple arithmetic shows the money income per acre was increased approximately \$27.50 to \$35.00 per acre. Take off the cost of the fertilizer, and you still have an excellent return on the investment.

Duke says the ammonium nitrate produced slightly higher yields than the 16-20-0 but that the stalks on the 16-20-0 plots were stronger and this made possible a better combining job.

Fertilizers have been used on the Duke farm for the past four years and he tells Holcomb that its use is becoming a must in his farming operations. He plans to increase his acreage of fertilized crops next year.

Provide ample shade for the growing pullets. Shade on the range is most important during the hot summer and early fall months.

**HOLDS NATION'S SOCK . . .** Michael E. Slindlee, acting treasurer of the United States, looks on as Georgia Neese Clark, new treasurer, signs her name to receipt for \$27,424,541,375.78 in the U.S. treasury's vaults. The cash, currency and securities formerly were charged to the account of Slindlee. The receipt was confirmed by six auditors who certified the figures to two-thirds of a cent.

# Steer Team Takes Shape; Fall Training Nears Close

It won't be long until the mettle of Farwell's second crop of 11-man Steer footballers will be tested. Louis Purvis, head mentor for the Farwell squad, said this would be the last week of "fall training," and soon things would really begin to take shape for the 1949 team.

Not too encouraged was Purvis over practice turnouts and physical shape of the team as a unit, but he said summer work and other activity may be blamed for some of the slackness.

Coach Purvis declared some of the boys were "really in there trying and keeping in shape," but added that others were not showing enthusiasm he had hoped for.

This will be the first year the Steers have had a chance to compete in eleven-man organized football. The assigned district of Farwell is 3-B, and includes ten teams this year, including Farwell. They are: Dimmitt, Friona, Hale Center, Spade, Olton, Amherst, Springlake, Whit-harrel, Anton, and the local "skull-buffers."

Questioned about who he expected to be strong clubs, Purvis stated definitely he thought "Olton and Springlake would be the teams to beat this year."

Work went on last week, two practices being staged daily, and attendance running all the way from eight to twenty. Purvis had hope for larger attendance after the start of school. During the practices, fundamentals and skeleton plays have been thoroughly rehearsed, with light contact work. The boys have had plenty of body-conditioning exercises, the coach said.

Purvis said the likely lineup for the backfield would be Terry, Ford, Jerry Pool, and Bobby Poteet. He said he could not assign each a particular position in the backfield, as he planned to have them pretty well interchangeable to suit needs of the plays. Coburn, Geries, and Doshier were listed as alternatives for the four horsesmen.

He placed Christian and Magness at ends, Hughes, McKillin, and London at tackles; Nix, Norton, Rex Pool, and Pipkin as guards; and Bob Dollar at center.

"That is about all the material I have available if practice attendance is to be the judge," Purvis commented.

September 9 will mark the first game for the Steers, when they will collide with Melrose in a non-conference tilt. The game should hold some interest here in spite of the non-con stipulation however, as throughout the previous season these two teams went at each other with considerable zeal to form somewhat of a rivalry.

The game will be played on the home field.

## Mustangs Open Practice With Large Group Out

Football practice for the 1949 Mustang season began at the Bovina field Monday afternoon, as Coach Ratliff began to assemble what he hoped would be a winning team from sixteen recruits.

The Mustangs again will play six-man ball, and will be in competition with four other teams of District 2. The first game of the season will be with Bula, and will be played on the Bovina field September 17.

Nine other games include Pettit at Bovina on Sept. 30; Lazbuddie at Bovina Oct. 1; Bovina at Three-Way Oct. 14; Bovina at Bula Oct. 21; Open for Oct. 28; Bovina at Pettit

Nov 4; Bovina at Lazbuddie Nov. 11; and Three-Way at Bovina Nov. 18.

The Mustang mentor gave his roster as being:

J. R. Ellison, center; Willie Denny, quarterback; Bill Dellashaw, end; Wesley Ayres, halfback; Denizil Young, end; Loren Thompson center; Harold Lowry, end; Jimmy Ware, halfback; James Tidenberg, end; Kenneth Lowry, halfback; Jerry Ellison, center; Charles Vearner, halfback; Stanley Venable, center; Billy Derrick, halfback; and Gene Brito, quarterback.

## Parmer 4-H Clubbers Lose To Castro, 4-7

Parmer County 4-H boys were intent on getting another crack at the Castro County 4-H softball team this week, after being beaten by a decisive margin of 7-4 at Bovina last Tuesday.

County Agent Ollie Liner, head coach of the Parmer stick swingers, said he was well satisfied with his team's performance even in defeat, and declared "the game was really a good one, and a large crowd attended the contest."

Liner, who is assisted in coaching by Levi Johnson, said the team would be taken to Dimmitt Thursday for a return with Raymond King's club. The Parmer coach said all boys who intended to make the trip from Farwell should be at the courthouse at 4 p. m., and those intending to meet him at Bovina to be at the schoolhouse at 4:30.

The game will begin at 5:30 on a Dimmitt field.

## WEATHER BOY

(Continued from Page 1)

from tin cans, bottle caps, wire, sticks, and what-have-you.

Included in these useful givers of information, valued at better than \$4, are a barometer, a wind gauge, a donkey with a hemp tail to measure humidity, a complicated gadget to measure speed of the wind, a rain gauge, and the old faithful thermometer.

Jessie's official reading for the coldest day in Farwell last winter was four below. The following day it may have been colder, but he viewed the weather as too bitter to tramp through sleet to the chicken house for a reading.

Readings are taken every morning by Jessie, who then relates the information to citizens of the town who depend on his observations and comments for picnic and outing plans, when to paint the house, wash the car, etc.

Admitting that he is not 100 percent correct all the time, Jessie grinned and said "sometimes I miss a little". He recalled his prediction once that a prolonged drought was coming to the area.

Realizing the usual accuracy of her son's information, Mrs. Jesko dispatched Jessie into the garden, where he proceeded with great gusto to give the pea patch a flood with the garden hose. He recalls that it rained all that night.

Readers interested in following Jessie's predictions in the columns of this newspaper are urged to make themselves heard. If enough people have faith in this newfound meteorologist, he will be appointed official weatherhound for Texico-Farwell and surrounding territory.

His predictions for Thursday: Partly cloudy and cooler for Parmer County. No rain in prospect.

## Superintendent Reveals Complete Faculty List

With but a few days left before the opening of Texico schools, Agrie Jones, superintendent, listed thirteen hired teachers for the coming semester. The system was practically ready for the opening date, Jones having made a trip to Santa Fe the first of the week for textbooks.

The superintendent listed his teachers as follows:

**Elementary, 1st through 6th**  
Mrs. LeRoy Faville, Mrs. C. B. Stockton, Mrs. Frank Seale, Mrs. B. A. Rogers, and John Adams, grade school principal.

**High and Junior High**  
Mrs. John Armour, music; F. D. Stout, vocational agriculture; Mr. Hibbs, bookkeeping, economics, social science, and playground activities for fifth and sixth grades; Mrs. Jimmie Allman, home economics English; C. B. Stockton, boys' coach, social science, seventh and eighth grades; Mrs. Agrie Jones, shorthand, typing, American history; Agrie Jones, superintendent, mathematics.

The superintendent said a new physical education program would be put into effect for the school this year, designed to help those children not athletically inclined to build strong, healthy bodies and self-confidence. He said a physical program for all children that was not based on competition, but for correction, would be introduced this year under John Armour.

Jones said H. T. Richey would be retained as janitor for the system. Claudine Bridges would be employed as secretary. Heavy Allen contracts for bus transportation, and Mrs. Gladys Johnson and Mrs. Bailey have charge of the lunchroom.

## Feeder Short Course Soon To Be At Tech

Parmer County 4-H clubbers will be interested to know that the fourth annual short feeder course will be held at Texas Tech Sept. 10, said County Agent Ollie Liner this week.

The course has gained recognition from farmers through the four years it has been in operation, in view of the fact that it offers young boys an opportunity to see and study superior methods of feeding and caring for farm animals. The course is sponsored by the division of agriculture of Texas Tech in cooperation with the Texas extension service of Texas A. & M. College.

Liner will leave here with 10 representatives for the meeting, where they will tour the college and study methods of caring for beef cattle, poultry, dairy cattle, swine, and sheep.

## Sowing Of Fall Wheat Gets Underway Here

Sowing of some fall wheat has been reported during the past week, mostly in summer-fallowed fields where showers have occurred, bringing moisture to the tilled fields.

Reports also say some few fields have been "dusted in" during the past week. However, this practice is not widespread with most farmers preferring to await the arrival of moisture.

As a general rule, wheat growers in this section make an effort to get their fall wheat seeding done during the latter days of August, and not later than Oct. 1, depending on moisture conditions. The "dusting in" practice is generally not resorted to until the season begins to grow late.

Fatal home accidents can result from the failure to identify a bottle before taking medicine or placing poisonous materials out of reach of children.

## Parmer Field Day To Be September 16 At Texas Tech

Parmer County will have a field day at the Agricultural Experiment Station at Lubbock September 16, according to information received here Monday morning by County Agent Ollie Liner. Liner, in releasing details of the special day, held once every year for information of Farmers in District 2, said it would be worthwhile for farmers to take time to attend the showing.

The field days were divided into three sections, in order that all eighteen counties of the district would not be present at once. September 16 will mark the day set aside for counties of Parmer, Swisher, Floyd, Dawson, Gaines, Terry, Yoakum, Cochran, and Bailey.

According to a release received at the county agent's office from W. N. Williamson, district official, Farmers will have an opportunity to observe the variety tests of cotton and grain sorghums under dry land and irrigated conditions.

The release went on to say that farmers planning to attend should bring a sack lunch in order to remain for afternoon discussions.

New storm proof varieties of cotton will be shown and five or six new varieties of grain sorghum that are showing exceptional promise will be seen by visitors.

Williamson said there will be no display of farm machinery as such but since farmers are becoming more interested in cotton choppers, there will be two different types exhibited and probably demonstrated. A combination rotary go-devil will be shown, also.

A discussion will be held on use of fertilizers and legumes in rotation and farmers will have an opportunity to see the result of this work over a period of years.

The disease known as "angular leaf spot" is coming more and more into prominence, said Williamson and a demonstration of this will be held. Varieties of corn hybrids now growing on the station will be of interest to most farmers of the area, he said.

County Agent Liner hoped that a good representation of farmers from Parmer would be present at the field day, as much useful information could be gained by farmers from attendance.

## Crops Suffer Damage When Hail Strikes Near Friona Friday

Several sections of good feed crops—much of it under irrigation—suffered a heavy beating last Friday afternoon when a devastating hail storm swept east of Friona.

Reports here said the most severe damage to crops occurred along the Frio Draw, particularly along the south side of the draw. The storm formed east of the Clyde Goodwine farm, one-half mile south of Friona, and moved eastward along the draw.

Some of the farmers who were hit by Friday's hail, losing valuable feed crops also had the misfortune to lose their wheat crop by the same process early in the summer.

## CAFE REOPENS

Jim's Cafe, operated in Texico by Mr. and Mrs. Jim Moore, which has been closed during the month of August, will reopen today (Thursday). During the past month, employees enjoyed a two-week vacation and then came back to put in a couple of weeks redecorating the interior of the building. "We've cleaned the dump from top to bottom," Moore said as he showed a reported the improvements made.

**A NEW SHEAFFER FOUNTAIN PEN**

Will be the handiest item you can possess when you start your school year. Come in and see our line of Sheaffer pens. We have one to suit you.

**FOX DRUG STORE**

## Lazbuddie Schools Open Monday, September 5th

Monday, September 5th will mark the formal opening of Lazbuddie Independent schools, according to an announcement received at The Tribune from Archie Sims, superintendent for the coming year.

Sims, in making the announcement, said registration for high school students would begin Friday, Sept. 2, and added that the school buses would not make their routes that day.

This year marks the first time classes will be held in the new and modern schoolhouse. Two years ago, the old school gymnasium was razed by fire. Since then, the school patrons voted bonds for the erection of new buildings. This year is the first time their efforts will be used by the school.

Sims said the old grade school building was now undergoing a program of remodeling, and will be used to house the home economics department on completion. An agriculture department will be operated in the school this year for the first time since the war.

All teachers for the coming year are making their initial period of instruction in the Lazbuddie system. They include:

**Grade School**  
Mrs. J. A. Parsons, first grade; Mrs. I. L. Whitfield, second grade; Travis Montgomery, Dale Lavender, James Ward, fourth, fifth, sixth, and seventh grades; James Ward, grade school principal.

**High School**  
Lawrence R. Bowers, English;

Mrs. Ross Stuard, home economics; Hoss Stuard, vocational agriculture; I. L. Whitfield, principal, coach, science; Mrs. Archie Sims, social science; Archie Sims, superintendent, mathematics.

School custodian will be J. McDonald, and J. A. Parsons will act as bus mechanic. Sims said lunchroom supervisors and workers have yet to be selected.

## Scotty Barry Growing Good Corn Every Year

Scotty Barry, farming south of Bovina, was in the latter part of the week with some fine specimens of the corn he produced at his place this year.

"I grow good corn every year," Barry remarked as he exhibited some of the ears produced this season—without irrigation.

In former years, corn was the principal crop produced in this locality, and hundreds of carloads were shipped from here annually. But farmers switched over to grain sorghums when corn borers began destroying the corn crop with constant regularity. The corn borer entered the stalk at the root and bored his way up to the heart of the stalk, killing the plant.

It has been Barry's experience in recent years that these borers don't seem to infest fields any more.

"I have a very few worms," he added as he exhibited a number of ears that were entirely free of them. However, he pointed out that he grew only highbred corn, which may be responsible for the absence of corn borers.

**SPECIALS**

**FRIDAY AND SATURDAY**

<b>VINEGAR</b> Gallon—bring your jug.....	<b>33¢</b>
<b>TEA</b> BRIGHT & EARLY, ¼ pound, free glass.....	<b>32¢</b>
