

GET FIRST POPPIES—Mayors C. M. Henderson, of Farwell (left) and Orval Francis, of Texico (right), get the first of the Memorial Poppies to be distributed in Texico and Farwell on Saturday, May 27th, by the local Legion Auxiliary. Mrs. John Getz, president of the Auxiliary, presents the little red flower to Mayor Henderson as Mrs. Graham Thornton, in charge of Poppy Day sales locally, gives Mayor Francis his boutonniere.

Joint Proclamation Sets May 27 as Poppy Day

Saturday, May 27, was set aside as Poppy Day in the cities of Texico and Farwell in a joint proclamation issued today by Mayors Orval Francis and C. M. Henderson. The proclamation urged all citizens to observe the day by wearing memorial poppies in honor of those who gave their lives in the two world wars. The proclamation reads:

"WHEREAS, the community of Texico-Farwell, in 1917 and 1918, and again in 1941 to 1945, sent many of its finest young men and women to serve in defense of our country; and

"WHEREAS, some of these made the supreme sacrifice in that service; and

"WHEREAS, the memory of their service and sacrifice should be forever kept bright for the inspiration of our own and future generations; and

"WHEREAS, the wearing of the memorial poppies on the Saturday before Memorial Day brings to our minds and hearts the memory of these gallant dead;

"NOW, THEREFORE, I, Orval W. Francis, Mayor of the Town of Texico, New Mexico, and C. M. Henderson, Mayor of the City of Farwell, Texas, do hereby proclaim Saturday, May 27, to be Poppy Day in this community, and we urge that all citizens observe the day by wearing the memorial poppy throughout the day."

Memorial poppies will be distributed on the streets Saturday by volunteer workers of the American Legion Auxiliary, who will receive contributions for the Legion and Auxiliary activities in behalf of the disabled war veterans and needy children of veterans.

"A SOUTHERN ROSARY" IS PRESENTED BY SENIORS AT COMMENCEMENT, 17TH

A two-scene playlet, entitled "A Southern Rosary" was presented last Wednesday evening, May 17th, in the Texico school auditorium as the graduates of 1950 were in charge of the spring commencement program. Jimmy Horton, as "General Pickett" and Patsy Ingram opened the program with a soliloquy, a flashback showed "Miss Constance" and "Marse John" (Patsy Ingram and John White), sixty years ago; and then the commencement exercises were planned by Patsy Ingram, Lona Mae Jones, Coeta Roth, Billie Roberts, Betty and Peggy Donahay, Frankie Harris, Joyce Holland and Vera Lee Wilkinson. The group joined in singing "Memories" and the Donahay twins, salutatorians of the class, spoke briefly as the first act ended.

David Houghtling crowned Queen Joyce Holland as the second scene unraveled, following which the seniors sang "Sweet Genevieve" and "An Old-Fashioned Garden". Lona Mae Jones, president of the class and one of the valedictorians, offered "Eternal Youth", and the class history was told by Paul Clark, James Harding

FROM THE HOPPER

By HOP

We have heard very few people express themselves as opposing the proposed bond issue to build a sewer system in Farwell, but we have heard a number of them say they wanted to know what it was going to cost them before they supported the issue. We believe that the city commission should determine the taxable valuation inside the city and give us some figures as to the approximate cost before we are led into supporting the bonds without the slightest idea as to the cost to the individual taxpayer. We want the sewer system; we need it badly. But to wish for something that we can't afford is quite another matter. Don't get us wrong. We are not opposing the bonds, but we do insist that an intelligent understanding of the cost is important. To merely say that the issue is to cost \$40,000 is quite insufficient. We want to know how much it is going to cost US personally, and many others are asking the same question.

And while we are on the subject, we might add that local attorneys give it as their opinion that it is not necessary to own real estate in the city in order to vote on the bond issue. Voters are only required to own taxable property, which has been rendered for taxation this year, and this does not necessarily mean that you must own real estate to be eligible. Of course, you must have paid your poll tax and met the other requirements of a voter if you are to be allowed a vote.

This fellow Ben Guill who pinned the ears of ten Democrats back to win his seat in the national congress from the 18th Congressional District of Texas, is making people sit up and take notice. Six days after he had taken his seat in Congress, he wired this newspaper that he had three ap-

Seal Coating Being Applied On Highways

Crewmen are now engaged in applying a seal coating to all state highways that cross Farmer County and the job is expected to be in progress for the next several days. Progressing at the rate of three to six miles per day, depending on weather condition, the crew reached Farwell last Thursday on Highway 70, from the Bailey County line, and moved to Highway 60 the following day. At present, men are working in the Bovina area and will carry the seal-coat to the Deaf Smith County line northeast of Black.

Champ Porter Resting Well In Vet Hospital

Champ Porter, co-owner with his brother, John, of the State Line Grocery & Market, is reported to be "doing all right" in the Veterans Hospital in Amarillo, where he underwent surgery on Monday of last week. Porter has been suffering with a stomach disorder for the past several months, and family members said today that a large portion of his stomach was removed in the operation.

Former Resident Dies In Belen Hospital

Mrs. Frank Calkins, age 82, suffered a heart attack last Wednesday morning which proved fatal shortly after she was taken to a hospital in Belen, N. M. Graveside rites were held in Clovis the past Friday morning after funeral services in a Belen church, and interment was made in the Clovis cemetery under the direction of Steed Funeral Home.

At the time of her death, Mrs. Calkins made her home in Belen, having moved there from north of Texico, where she resided for several years. Local survivors are a nephew, Les Means of Texico, and a niece, Mrs. D. Roy Smoot of Clovis.

Trades Day Event Is Facing Suspension

Suspension of the weekly trades day event, sponsored by merchants of Texico and Farwell since last August, faced suspension this week with the announcement that no funds were on hand for this coming Saturday. Ray Means, one of the wheelhorses of the weekly event, who has in the past attended to the collection of funds for the event, said today, "It is simply up to the merchants . . . if they want it to continue they are going to have to bring their contributions to me . . . I am not going around to make collections any more."

Break-In At Garage Nets Loss Of Tools

A break-in at the Pace Brothers Garage in Texico on Friday night netted the intruders a large kit of mechanic's tools, estimated in value at \$600. Entrance to the building was made through a window in the west side of the brick wall, after the upper sash of the window had been pried up. The burglars left by way of the back door. Officers said Tuesday that no clues were left and that no arrests had been made. Oddly enough, Johnnie Pace, owner of the tools, said that he cleaned up late in the afternoon and placed them in the kit, "just to make it handy for them," he said wryly.

BUGLAR HITS AGAIN

Using the same method as employed only a few weeks ago, the State Line Grocery was burglarized on Monday night when an intruder cut a small hole in a rear door panel and unlocked the door, which was fastened on the inside.

John Porter, store manager, and Sheriff Chas. Lovelace expressed the opinion that Monday night's job was committed by the same person entering the building only recently. No loss was reported from the latest job.

Bob Sudderth Hurt In Car-Truck Mishap

Bob Sudderth, son of Mr. and Mrs. Ray Sudderth of this city, is recovering at the home of his parents of injuries received in a car-truck mishap late Sunday night. Knocked unconscious by the impact, Sudderth suffered rather severe bruises and lacerations about the face and head, but was otherwise uninjured. Occupants of the truck, two young boys from Melrose whose names were not learned, escaped injury, and the truck was able to proceed after the accident.

Sudderth, traveling alone, was returning to his home after attending a movie about 11 o'clock, and had reached a point some four miles north of this city on Highway 60. He explained that due to the heavy coating of loose gravel on the freshly-topped pavement he was unable to determine the borders of the asphalt slab, and gave it as his opinion that his machine—a 1949 Packard—edged off the slab on a soft shoulder of loose gravel, causing the car to swerve and sideswipe the oncoming truck. Sudderth's car left the highway and finally came to a stop in an adjoining pasture belonging to Blackie Smith. He was taken to a Clovis hospital for examination and dismissed shortly afterwards. Both left-hand doors and all glass on the left side of the Packard were ruined by the mishap, and he estimates the damage at around \$300.

Illinois Man Plans Tourist Court Here

Few details were available here early this week concerning a new tourist court soon to be erected in Texico. Inquiry by a Tribune reporter brought out the fact that a gentleman from Illinois had closed a deal for property along the "dog leg" of Highway 60 in Texico, and planned to return here in about two weeks to begin construction of the court. Jim Moss, who lives in one of the residences on the property, said it was his understanding that the house he now occupies is to be moved to the north part of Texico. Operators of welding equipment should always use a hand shield or helmet as a protection against injury to the face, neck and eyes.

Former Texico Girl Hurt In Car Wreck

Mrs. Grady Graham, 21, the former Miss Wanda Goldsmith, daughter of Mr. and Mrs. R. M. Goldsmith until recently residents of Texico, is in a hospital at Comanche, suffering with critical injuries as the result of an automobile accident 12 miles north of that city on Highway 52, Sunday night.

Three other occupants of the car were killed outright. The dead are: Woodrow Stark, 37, owner and driver of the car; his wife, Eudora Marie, 35; Grady Graham, 32; and Jack Hicks, all of Comanche.

Officers investigating the accident speculated that the left rear tire blew out, causing the driver to lose control of the machine, which skidded 200 yards, turned over and rolled 150 feet.

Until recently, the Goldsmiths lived in Texico, and are now residents of Hereford. Their daughter, Wanda, is well known here. She is a niece of Noble and Willie Goldsmith, both of this city.

May 26 Final Date For Deep Chiseling Report To Be Filed

Joe Camp, secretary of the local Production and Marketing Administration office, said today that May 26 had been set as the final date for farmers to file performance reports on deep chiseling practices performed.

Camp added that unless the performance was filed in the local office by that time, approval assistance will be cancelled and no payment will be allowed for the practice. He added that there was a possibility that the county committee might grant an extension of time to carry out the practices, but he had no assurance of any such action when interviewed on Tuesday and advised all farmers who have carried out the deep chiseling practices to file their reports on or before May 26, which is Friday of this week.

The final date for filing performance reports on contour listing, contour chiseling and cross-slope chiseling was reached on Wednesday of this week, Camp added.

Plan Attend Lions Meeting At Deming

Agrie Jores, retiring president of the Texico-Farwell Lions Club, and Otis Huggins, secretary, are planning to go to Deming this weekend, to attend the state meeting of Lions Clubs, which opens there Sunday afternoon. Huggins said today that there was a possibility that Fern Stout may also attend the state gathering. The meeting will open with registration on Sunday afternoon and continue through Monday and Tuesday.

Darkness doubles traffic troubles.

CITY COMMISSION OUTLINES DETAILS OF PROPOSED SEWER BOND ISSUE

The Farwell City Commission today issued the following statement relative to the proposed sewer bond issue, which will be submitted to the voters on June 2 in a special election. The proposed bonds of \$40,000.00 will be payable \$4,000.00 per year over a period of ten years. If the bonds sell at 3.5% interest (which is the best positive offer the commission has at this time), it will require \$5,400.00 the first year to retire the initial bond and interest, and this amount will decrease \$140 per year.

The surveyor employed by the Chamber of Commerce some three months ago figures that it will require about \$35,000.00 to install the sewage system, and it is deemed advisable to have \$40,000.00 available for the purpose to take care of additional lines, etc., that may be required by the time the system is installed. The bonds being voted are simple tax bonds. They can be paid either from taxes or by revenue from the system. The Commission thinks it advisable to levy tax for 1950 sufficient to bring in approximately \$5,400.00, in order to have a balance built up in the sinking fund before the first bond matures. After the system is installed, and the number of users determined, decision can be made as to whether to collect entirely by a charge for use,

Young Mother Suffers Severe Body Burns

Mrs. June Ellison, 19-year-old mother, is in a Clovis hospital slowly recovering from severe body burns she sustained in an unusual accident at the farm home six miles west of Bovina early last Thursday morning.

Reports today said that while her condition was still serious, she was making satisfactory progress, but would likely be confined to the hospital for several weeks. Mrs. Ellison suffered second and third degree burns from above the waist to her feet, and for several hours it was feared that she would not survive.

The young wife of Howard Ellison and daughter of Mr. and Mrs. A. R. Jester of the Pleasant Hill community, she was engaged in bathing and dressing her 19-day-old infant son when the accident occurred. The young mother was attending the infant in the kitchen, near a lighted butane stove, when the little fellow kicked over an opened bottle of rubbing alcohol, the contents spilling over her clothing. The fluid ignited from the stove and in an instant her clothes were a flaming mass.

Having presence of mind enough to quickly pick up the naked baby, the mother carried him into a hall away from danger and then ran into the yard to call for help. Her husband and Mr. and Mrs. Buck Ellison, who live nearby, dashed to her rescue and beat out the flames but not before she had been critically burned. She was rushed to a Clovis hospital, where blood transfusions and plasma were administered immediately. Mrs. Buck Ellison also received treatment for burns about her hands, sustained as she beat at the flaming clothing of the young woman.

Bovina Man Awarded Sprinkler Contract

Frank Smith, Bovina plumber, has been awarded the contract for installing the sprinkler system on the courthouse lawn project, now in the process of development.

Smith, with a crew of workmen, began work on the system the first of the week, and said today that he planned to have it in operation at an early date. Workmen, using county road machinery, have been engaged in preparing the ground the past several days. A number of large trees have been uprooted, and the remainder of the shade trees have been pruned back to allow plenty of sunlight along the lawn surface.

The lawn plot, which lies between the two driveways encircling the courthouse, is being fertilized this week and plans call for the planting of Kentucky blue grass. Foundation plants and flowers will be put out near the buildings, Noble Goldsmith, custodian of the property, said.

COMMISSIONERS MEET
The Farmer County Commissioners Court was in session here Monday. The minutes reveal that aside from paying current bills, the Court approved two road petitions.

or to maintain a tax set-up. The commission pointed out that a charge of \$1.50 per month is "generally felt" to be the maximum that can reasonably be made to an average private residence. In Friona, which has just completed a new sewer system, "we understand a flat charge of \$12.50 is made by the city for going from property line to sewer line and making connection". The cost of carrying a sewer line to property line from residences or business houses could vary considerably, and some residents might desire to change some of the plumbing system in their homes. Further, the commission reports, "It is estimated by a local merchant that 60¢ per foot installed will pay for a good grade of sewer line from residence to property line, and there are also cheaper materials available." It appears that utility companies generally expect to pay an incorporated town something for a franchise, which is a permit to use streets and alleys of the town for pipe lines, light and telephone poles, etc. It is evident that the present 50¢ per month street light charge will no longer be needed, and that can be dropped immediately, with the cost of the street lights absorbed by this other revenue. A plat of the proposed lines has been left at the office of the Sikes Motor Company and may be inspected.

Health Note

Texas State Department of Health

AUSTIN—"Go in and out the window" is a line from a children's game which thousands of youngsters have played for years. It may be used to describe something else, too, for flies like to go in and out windows. Dr. Geo. W. Cox, state health officer, reports that fly infestation will be heavy this year. So, now is the time to kill those early flies... before they have a chance to produce thousands more during the summer.

The pests love to buzz around in uncovered garbage pails, stables, old privies, and in homes around uncovered food. Do you have a metal garbage pail with a tight-fitting lid? Are screens on your windows and doors in good repair? Waste should be removed from stables often, for horse manure is one of the chief breeding places of flies. Children can help to keep flies out of the house by keeping screen doors closed and swatting the flies that enter the house.

Flies carry germs on their fast-moving wings, in their tube-like mouths, and on their furry legs and feet. What are some of the diseases they spread? Typhoid fever, dysentery, and tuberculosis are spread by these insects who feed on germ-laden filth.

Clean-up campaigns, screening and spraying with insecticides are the best methods for getting rid of flies. Special care should be used in the use of DDT or other insecticides... directions should be followed carefully. Let's clean up on the new crop of flies to protect the health of our families.

A new bulletin, Vegetable Insect Control, is available at the office of the county agent. Get the bugs early and save home garden produce.

POLITICAL ANNOUNCEMENTS

The State Line Tribune is authorized to make the following political announcements, subject to the action of the Democratic primary election in July:

- For District Judge, 64th Judicial District: ROBT. (BOB) KIRK E. A. BILLS

Potatoes Give More For Cost Paid

COLLEGE STATION—"Please pass the potatoes" is a phrase heard at many a dinner table every day, and there's a reason for it. Perway for penny, potatoes have more energy giving value than any other vegetable. When eaten daily, potatoes supply as much as one-fourth of the vitamin C quota as well

as starch and some of the important minerals. There are hundreds of ways to serve them for any meal. "If you are watching your waist-line and calories," say extension foods and nutrition specialist of Texas A. & M., "don't avoid potatoes, but watch what you add to them. Use less butter, gravy or cream sauce. Potatoes are no more fattening than many other foods. For instance, there are just as many calories in an apple or banana as there is in one medium-sized potato—and a potato has only one-third as many calories as a piece of two-crust berry pie."

The specialists suggest that potatoes be cooked in their jackets, whether they are to be creamed, mashed, or hash browned, in order to retain the vitamins and minerals. If peeled, peel very thinly and go easy on the water in the pot. The more water used, the more nutrients lost. And don't soak potatoes before cooking.

"Look in your favorite cookbook and you are sure to find interesting and unusual ways of preparing both sweet and Irish potatoes," the specialists point out. "Remember that milk and potato combinations are ideal for energy and body building and health protection, and include these dishes in your menus, too. For example, try potato chowder, potato soup, scalloped potatoes, or potatoes and cabbage with cheese sauce. And don't forget the grated sweet potato pudding, potato pancakes, potato pudding or potato bread, rolls, and doughnuts.

START PLANNING NOW

Farmers who plan to use increased production of feed grains for feeding livestock should begin now to plan and build the equipment they will need. A feeding program may provide the most profitable market for the expected increase in the output of feed grains.

TIP ON TICK CONTROL

The spinose ear tick can be controlled by swabbing the ears of infested cattle with smear 1029. A five-tenths solution of toxaphene or chlordane sprayed on the area surrounding salt boxes, feed troughs and water tanks will help eliminate the tick.

NEIGHBOR

YOUR SOUTHWESTERN PUBLIC SERVICE REPRESENTATIVE

One of the most important parts of Public Service is being a part of the community life in the cities and towns we serve. Wherever you find a Public Service representative, you'll find a "good neighbor." You know him... he might go to your church, perhaps his kids play ball with yours, or maybe you worked with him on last year's Red Cross Campaign.

But, whoever he is, you'll find him an active member of your community, truly dedicated to "Public Service"... making

certain there is low-cost, dependable electricity to meet every community need... helping to make your community a better place to live.

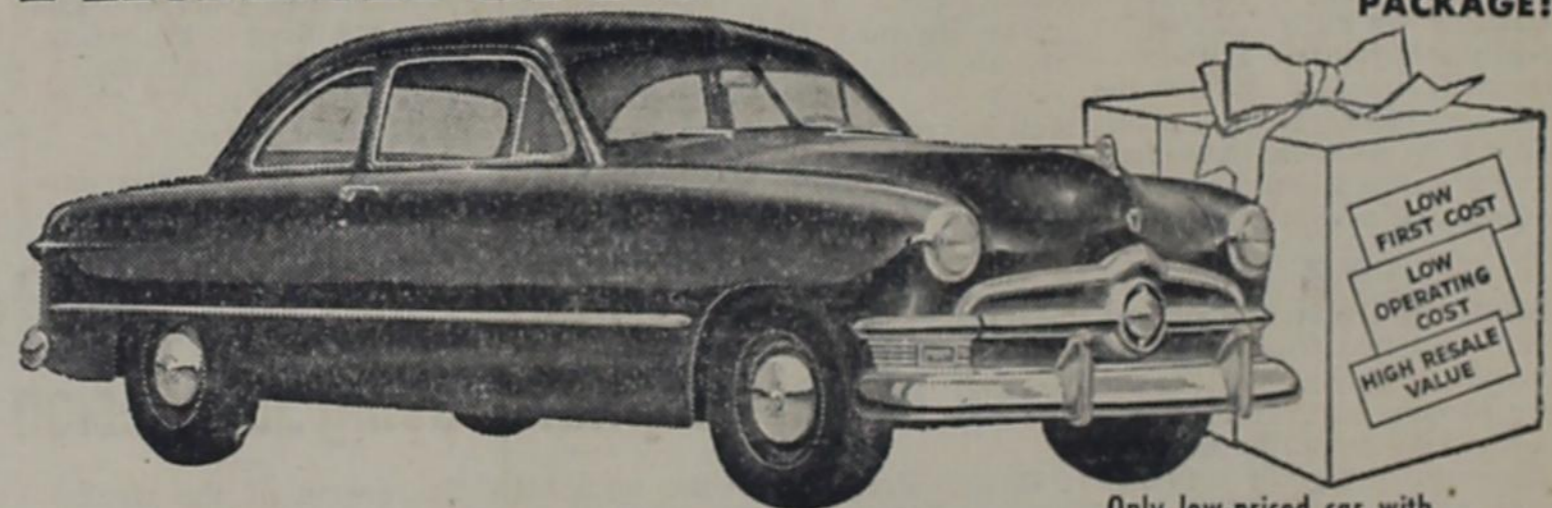

SOUTHWESTERN PUBLIC SERVICE COMPANY

25 YEARS OF GOOD CITIZENSHIP AND PUBLIC SERVICE

AMERICA'S

IT'S THE BIG ECONOMY PACKAGE!

LOWEST PRICED

Only low-priced car with a V-type engine!

Ford—only Ford—in the low-price field offers you the smooth, spirited performance of a V-8 engine. Yet a Ford V-8 is yours for hundreds of dollars less than any other "Eight." Yes, even hundreds less than most "Sixes."

EIGHT!

Only low-priced car with a "Lifeguard" Body!

Welded, all-steel body scientifically reinforced for strength—"sound-conditioned" for quiet. Quality coach work and baked-on enamel mean long life—high resale value.

Only low-priced car to receive "Fashion Award"!

Yes, Ford's the only car on the road to receive the New York Fashion Academy's coveted Fashion Car Medal two years in a row... the only low-priced car to receive it, ever!

Only low-priced car with King-Size Brakes!

Trips are treats with features like Ford's big 35% easier-acting brakes to take the work out of driving—and your non-sag foam rubber driver's seat to banish fatigue. Trips are treats, too, when you see how far you go on so little gas and oil.

White sidewall tires and wheel trim rings optional at extra cost.

Farmers Supply Co.
TEXICO, NEW MEXICO

and you are ready to go home. Texans are all right, but you just cannot get along with them. The facts are, they get into your hair, and you are annoyed because you let them.

You have been taught that if a thing needs to be done, then do it right now. Texans are a little different. They reason that if you wait until tomorrow or next week or next year, maybe you will not have to do it. It usually works out that way, especially if there is someone like you around all fired up to do it right now. Which is all right with Texans.

A native Texan would rather sit down and talk it over, then get a job done. He likes to talk, and after he has told you his family history, he sits back expectantly, eager to hear you tell yours. If you fail to reciprocate, you are not friendly, and, therefore, queer. After patient prodding, if he still gets no results, he diagnoses your case. You are just a damn Yankee, which means you hailed from somewhere north of the Red River. Lots of "furriners" from up "nawth" are real folks once you get to know them; but they are still a little standoffish at first.

To you, the "furriner" from up "nawth" (which may mean that you are from Kentucky or California), Texans seem nosy. It isn't that you have anything to hide, but you wonder why anyone should be interested in things which are strictly none of his business.

There is only one way you can ruffle the easy-going Texan. Ruffle him? You will make him fighting mad if you persist in it. That one thing is to try to change him, to teach him, to teach him to become like you. He does not want to become like you. He confidently expects to live to put flowers on the graves of people like you and he usually does. He reasons that if you don't like this country, you can go back to where you came from. And sure enough, you do.

Or maybe you don't. Possibly circumstances detain you for a while longer—an unwilling guest in friendly Texas. What happens? Do you continue trying to change Mr. and Mrs. Texas into a perfect composite of Messrs. and Mesdames Massachusetts, Maine, Michigan, and Montana? No, you realize that you might as well try to change the miles of grassy plains into a range of mountains.

So, you admit, a bit grimy perhaps, that Texans are Texans, and that is that. And since you cannot change them, you must make the necessary adjustments to get along peaceably with them. But how? The answer is simple. Be yourself and allow them to be themselves. Do your job as it should be done, and let their jobs go undone unless that interferes with your own work. In that instance, you may prod the native gently, and if he does not respond, then do your job and his too. He will smile tolerantly and think you are a sap.

And you? In time you will be his boss. He may resent it for a day or an hour, but no longer. After all, if you want to work yourself to an early grave for the sake of a few extra dollars or a little added glory—well, it's a free country.

As his boss, you will realize that you cannot drive him. You cannot even lead him without slowing down and that would be fatal to anyone geared as high as you. So you leave him somewhere behind. And when you go, he will give you a surprise party with presents. You are so deeply touched you are embarrassed and to hide your feelings, you are brusque. But your Texas friends do not hold that against you, because they have learned from experience that you are a square shootin' guy, even tho you have never learned to let your hair down.

With your drive, your success in Texas is assured. At the height of that success you take a trip back home. You rush out to see old friends to give them the glad hand. The first fellow you meet seems a bit cold, not half as glad to see you as you are to see him. It could not be that he is jealous of your success. No, impossible. He must be worried about something. Perhaps you were not sufficiently interested in him and his business. Should you look him up again, ask some friendly questions?

You meet other friends, and they are all alike, lacking in warmth and friendliness. None of them have done as well as you, doubtless due to stiff competition in that country. But they should not resent your success. No, jealousy was not the answer. But what?

Disappointed in your vacation, you return to Texas, and feel a glow at the prospect of getting back into the old harness. Your Texas friends and acquaintances welcome you back, give you the glad hand; they say they missed you, ask interested questions, hope you had a nice trip. You are grateful for their interest, flattered by their warm welcome.

Alone you ponder. What was the matter with the old friends back home? Don't you know? They are the way you used to be!

You are now a Texan!!!

NEW COLORS OFFERED

DEARBORN, MICH.—New colors for Ford Motor Company's 1950 model trucks provide a wide range of the more popular and brilliant finishes. Standard colors for the new lines are dove gray, sheridan blue, sunlang beige, palisade green, meadow green, vermillion, and black. The colors were chosen for their suitability in truck usage.

March Business Still Over A Year Ago

AUSTIN—Despite a slight decline from February, Texas business activity in March surpasses year-earlier level, the University of Texas Bureau of Business Research reports.

The Bureau's seasonally adjusted composite index stood at 197 (1935-39=100) in March, as compared with 200 in February and 196 in January. In March of last year, the index registered 188.

Four of the seven seasonally adjusted components of the index of

business activity decreased from February, while three increased. Crude petroleum production declined 4 per cent; industrial power consumption, 5 per cent; electric power consumption, 8 per cent; and urban building permits adjusted for price change, 16 per cent.

Miscellaneous freight carloadings and crude oil runs to stills rose 4 per cent in March, and retail sales after adjustment for price changes gained 1 per cent.

The big increase in private investment during 1950 is expected to take place in housing which is showing substantial increases over all earlier periods. The Bureau's index of building permits in Texas for the first quarter of 1950 averaged 785 per

cent of the 1935-39 base period as compared with 586 in 1948 and 538 in 1949.

Retail sales in Texas averaged 335 per cent of the 1935-39 base period during the first quarter of 1950, exceeding by a large margin the average of 220 for the year 1948 and 318 in 1949. With the exception of sales in jewelry stores, durable goods sales rose during the first quarter of 1950. Automobile dealers continued to sell cars at record rates. Household appliances, furniture, hardware and building materials moved in large volume.

Manufacturing activity in Texas, as measured by the Bureau's index of electric power consumed by industrial concerns, averaged 272 per cent

of the 1935-39 base during the first quarter of 1950, as compared with 294 in 1948 and 302 in 1949. The most significant decline in industrial activity in the State is in petroleum refining. Although crude oil runs to stills increased 3 per cent in March over February, the average for the Bureau's seasonally adjusted index during the first quarter of 1950 was 160, as compared with 180 in 1948 and 165 in 1949.

Production of crude during the first three months of 1950 was also below the levels of 1949 and 1948. The Bureau's seasonally adjusted index of crude petroleum production for the first quarter of 1950 was 156. During 1949 this index averaged 163 but in 1948 the average for the 12 months was 197.

LETTERS from Our Readers

Dear Hop:
This was sent to me from a friend, pretty good, I'd say.
Cora Mae Hudson,
Bovina, Texas.

So You Don't Like Texans!
This is your first trip to Texas; you have been here for a few weeks

Santa Fe

expresses its thanks

A note of appreciation to employees, patrons and friends who stood fast during the firemen's strike

During this grave emergency we are proud that Santa Fe kept operating—not completely, but nevertheless still operating. Not a wheel was derailed; there was not a single personal injury. This was made possible only because of the response of loyal employees—many responding beyond their normal call of duty.

Our passengers and shippers showed both patience and understanding, and Santa Fe was heartened by their appreciation of our unswerving purpose.

Your understanding, help, and loyal cooperation are deeply appreciated.

THE ATCHISON, TOPEKA & SANTA FE RAILWAY COMPANY

THREE PLAINS COUNTIES BEGIN WORK ON WATER CONSERVATION DISTRICTS

Water users in three counties on the High Plains are moving to form underground water conservation districts under provisions of House Bill 162 passed by the Texas Legislature in the spring of 1949.

Initial steps toward forming districts have been taken by irrigation farmers and other water users in Dallam, Lamb and Hockley counties.

Tentatively set for the early part of June in Texline, Dallam County, is a hearing at which the State Board of Water Engineers will define the boundaries of an underground water reservoir of sub-division in that area for the purpose of creating a district, according to a report by Fank Tatum, Dalhart attorney.

The Board of Water Engineers recently announced that it had completed its field work in connection with designating the reservoir. Boundaries of the district will be co-terminous with those of the reservoir.

Tatum said the Dallam County group would proceed with plans for an election creating a district, following the Board's hearing.

In Hockley and Lamb counties, petitions are being circulated seeking definition by the Board of Water Engineers of an underground water reservoir or sub-division thereof.

The Hockley County petition, calling upon the Board to recognize that county as a district, is being circulated under leadership of the Hockley County Farm Bureau.

Neighboring Lamb County has held two "water law forums" under sponsorship of the Lamb County Water Conservation Association. Meetings in Springlake and Amherst drew nearly 400 persons, with 156 signing petitions asking for designation of a reservoir or sub-division thereof, according to Gus Parish of Springlake, president.

Petitions from Hockley and Lamb counties have not yet been submitted to the Board of Water Engineers. Hockley County reportedly is aiming for 1,000 signatures. Lamb County, with more than 1200 irrigation wells, hopes to get about 50 per cent of the water users to sign.

After boundaries have been settled on, water users must petition for an election at which property-owning, taxpaying voters must decide on the creation of a district. If the Board of Water Engineers has designated a district within a single county, then the County Commissioners' Court calls the election. If the district reaches into more than one county, the Board of Water Engineers must be petitioned to call the election.

Districts, administered locally by elected boards of five directors each, have authority under the law to protect, preserve, conserve and recharge the underground water supply in reservoirs over which they have jurisdiction.

Support your local Chamber of Commerce.

Save The Hens, They Just Have One Life

COLLEGE STATION — Laying hens are not so fortunate as the "proverbial cat". They have only one life to live and the length of that life, says professor E. D. Parnell, department of poultry husbandry, Texas A. & M. College, may well determine whether the poultryman uses black or red ink for his bookkeeping.

If you're an average poultryman (Parnell hopes you are not), you lost 17 percent of your growing turkeys and almost 20 percent of your laying chicken hens during 1949. That was on a national basis but the record in Texas was even worse. He says 24 percent of all laying hens in Texas die sometime during their first year of egg production. Poultrymen, he points out, who suffer such flock losses are burning or burying their poultry precincts with the dead hens.

There are lots of good drugs available to help with the fight against diseases but their use is only a part of the answer. Preventive practices must be used more widely, he believes, so the poultry just will not have any excuse for getting sick.

Here are some practices that poultrymen have found mighty effective for preventing disease outbreaks, says Parnell. When new birds, unless it's day old stock, or when birds are returned from shows or contests, keep them isolated for a few days and watch them closely for possible disease outbreaks. If one occurs, never add them to the flock.

Keep the young and old stock completely separated at all times. This is one place where segregation pays off. Such a practice may be hard to follow on many farms, but it pays big dividends.

Use deep, dry litter in the poultry house. If the litter is kept dry and mud puddles are eliminated, disease germs will have a hard time surviving on the farm. A good sanitation program plus close checking, immediate treatment or removal from the flock of all possible disease carriers will go a long way toward keeping a lot of the young hens that die every year on the job. And this in turn can materially increase your poultry profits.

Questions & Answers

Q. My husband, a World War I veteran, receives a pension for non-service-connected total disability. He has an income of about \$2,000 and I have an income of about \$3,000. Must I include my income with his in reporting to VA?

A. Your husband will report only his income. Yours has no bearing on his rights.

Q. I have completed a course as

mechanic under the GI Bill but my health is bad and I now wish to use the balance of my education and training entitlement in a course to be a farmer. Can I do this?

A. Since the two courses are in unrelated fields, you will have to undergo advisement and guidance by VA to determine your aptitude for, and need of, the new course.

Q. My estranged wife was granted an apportionment of my World War I compensation. Can I do anything to stop payment of the apportionment?

A. You may apply for relief by means of a special apportionment to be adjudicated on the basis of undue hardship. Your nearest VA office will assist you in preparing a communication for your signature should fully explain the reasons for your objection.

Q. Does the age of the wife of a Spanish-American War veteran have any bearing on her eligibility for pension as a widow?

A. If she married the veteran prior to January 1, 1938, and meets all other eligibility requirements, age has no bearing on the entitlement to pension.

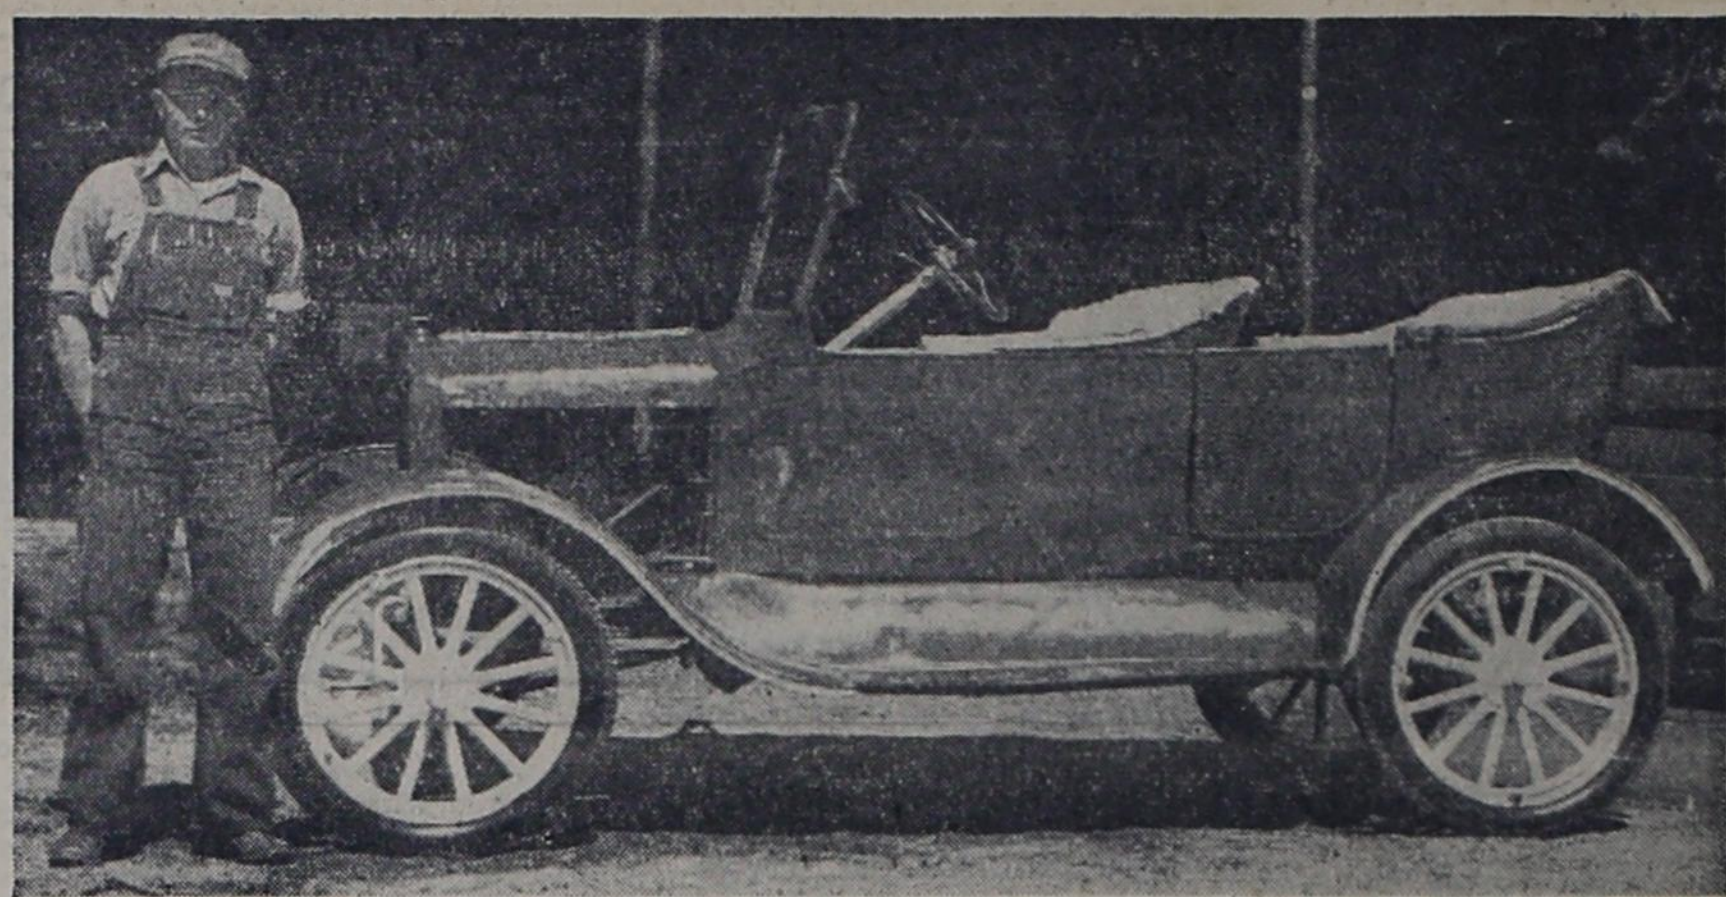

HEALTH NOTES

AUSTIN—Good pre-natal care is extremely important to the health of both the expectant mother and child, says State Health Officer Geo. W. Cox.

"Medical attention and examinations early in pregnancy will prevent many difficulties in pregnancy and infections of the unborn child," Dr. Cox said. "Among these is congenital syphilis, which is entirely preventable and is found to occur in about 80 per cent of cases in which a mother infected with syphilis was not treated before the birth of her baby."

Death from syphilis among infants is on the decline in Texas, statistics from the Health Department's Bureau of Vital Statistics reveal. In 1938, deaths under one year of age due to syphilis totaled 1.02 per 1,000 live births. Last year, syphilis deaths for the same age group were .208 per 1,000 live births.

However, Dr. Cox pointed out, many children actually born with syphilis, show no visible symptoms of the disease until later in life. "Untreated

HEADIN' FOR THE LAST ROUND-UP— His 1936 Model T Ford touring car, which has been the property of Howard Ellison (standing by) was "headed for the last round-up" when it was in this city last week. Ellison was on his way to Clovis to deliver the old timer to a merchant there who proposes to use it in the Pioneer Days parade early in June.

Before moving the old machine to Clovis, Ellison stopped here to replace the 1936 license tags with brand new 1950 plates at a cost of \$3.53. He said that he had owned the old model since 1946, purchasing it from H. J. Helmes of Bovina, who had bought it when it was "brand new".

syphilis in the child can cause much suffering in later life," he added.

AUSTIN—There is hardly anyone who hasn't caught cold at one time another and besides making you feel miserable they steal your time and money, declares Dr. Geo. W. Cox, State Health Officer. They fool you, too, because the early signs are often the same as those of more serious illnesses.

Long continued colds may pave the way for an attack of pneumonia, tuberculosis and or chronic infection of the nose, throat, ears or sinuses. Do your best to keep from catching cold. If you do catch one, take care of it promptly by going to bed, keep warm and dry, drink plenty of citrus juices and water. If the cold is severe, consult your physician.

Another enemy is pneumonia, an acute infection of the lungs. Virus pneumonia is the most common of all pneumonias today. It may occur due to the heat of the sun, but to

at any age, and usually appears in local outbreaks instead of far-reaching epidemics. In any case of pneumonia, good medical care and nursing play a great role in recovery.

Lobar pneumonia is caused by a bacteria, not a virus, and is very contagious. A generation ago, one of every four who had the disease died. Today, thanks to the "miracle drugs" many are saved. It is most common in late winter and early spring.

The most frequent victims of broncho-pneumonia are the aged, the invalid and the baby.

AUSTIN—Summer weather is just around the corner, and many Texans will try to acquire a sun tan as quickly as possible. Dr. George W. Cox, State Health Officer, today released a statement concerning the danger of over exposure to the sun. "Sun stroke is not thought to be

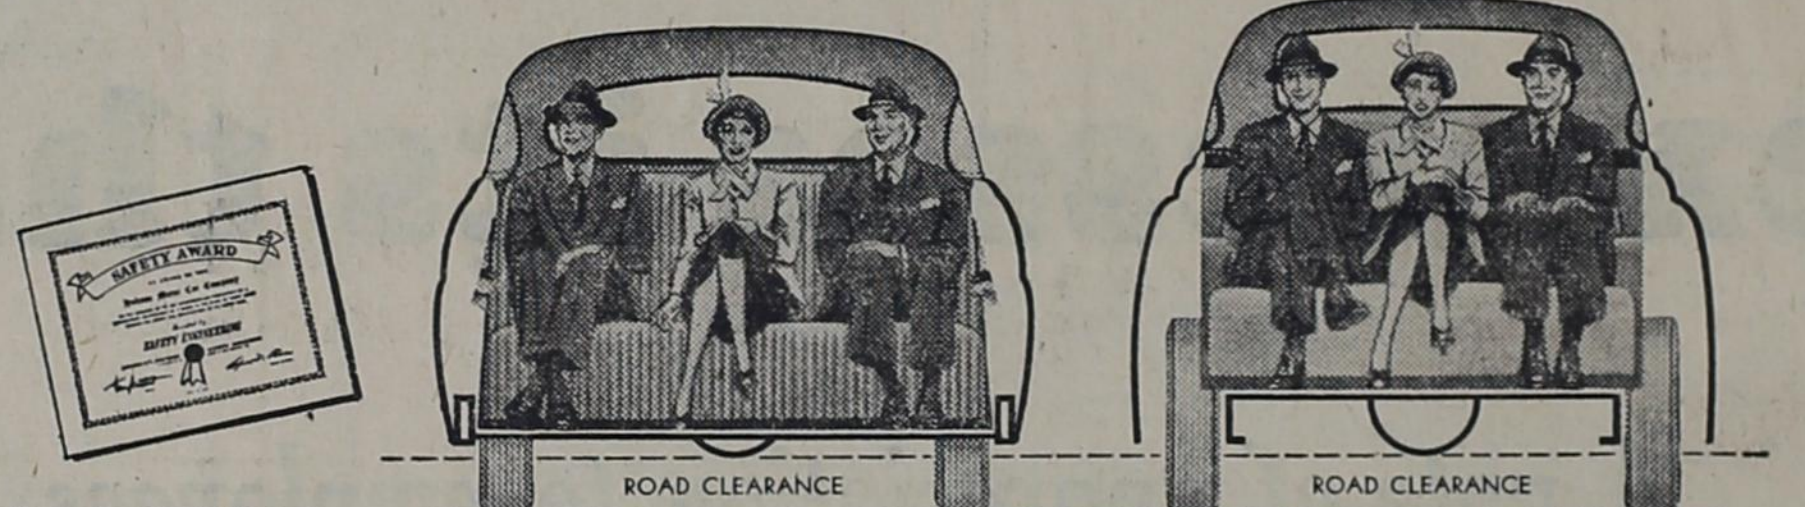

certain direct effects of the sun on the human brain. It is likely to occur after the sun has shown excessively on the back of the head and neck," Dr. Cox explained. "This can be prevented by protecting the head and back of the neck from sunshine," he added.

Dr. Cox asserted that exposure of the skin to the sun has some virtue since the action of the sunshine tends to kill the germs on the skin. Further, sunshine produces vitamin D from the fats in the skin and this product is absorbed and used by the body.

"In general, the good effects of sunshine are not due to the heat rays but ultraviolet rays," Dr. Cox stated. "It must be remembered, however, that it is these rays which burn the skin, and extensive application of direct sunshine to the skin may actually endanger life."

Why Hudson, with exclusive recessed floor, is America's Safest Car!

Safety Engineering Magazine commends Hudson in an award as "a leader in the cause of public safety through the design and construction of its motor cars."

HUDSON
An exclusive recessed floor ("step-down" design) results in America's lowest center of gravity (and full road clearance) for road-hugging stability and the ease of control that helps prevent accidents. Passengers ride down within a rugged foundation frame. Box-section steel girders encircle and protect passenger compartment, even outside rear wheels.

OTHER CARS
The floor is placed on top of the frame. The result is a much higher center of gravity, with passengers seated in a less stable area of the car. Frame does not furnish protection around passenger compartment. Seats are narrower; room for free movement while driving is less.

HUDSON's new way to build automobiles, with an exclusive recessed floor ("step-down" design), makes possible the lowest center of gravity in any American car.

This means greater stability and easier handling. To which is added the protection of all-welded, steel-girder construction. Furthermore, Hudson alone offers the finest hydraulic brakes with reserve mechanical brakes operating from the same pedal. And there is room for free movement while driving—in fact, more room than in any other car.

You are cordially invited to try "The New Step-Down Ride" and experience all the advantages it offers . . . including the greatest safety in motoring.

NOW . . . 3 GREAT SERIES
Lower-Priced Pacemaker • Famous Super • Custom Commodore

HUDSON

MOST ROOM! BEST RIDE! SAFEST!

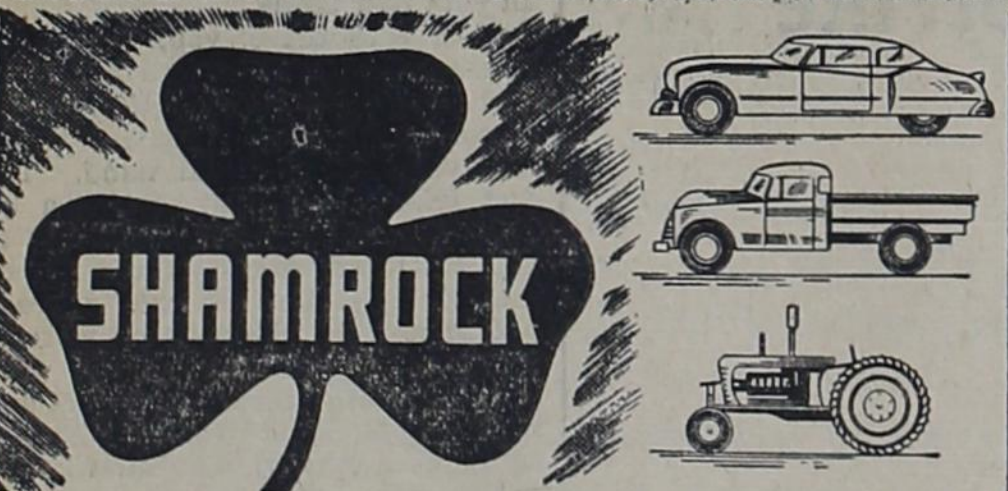

The new, Lower-Priced Pacemaker brings you all of Hudson's exclusive advantages for just a few dollars more than the lowest-priced cars!

Hudsons, with recessed floors, their great array of high-quality, long-life features, and advanced design, are leaders in resale value, as shown by Official Used Car Guide Books!

Range Important For Growing Pullets

COLLEGE STATION—A good range for the growing pullets is mighty important for plenty of good tender grass will reduce the feed bill and at the same time permits the poultryman to raise a flock of clean, healthy birds. Pullets on the range, says J. C. Williams, assistant extension poultry husbandman of Texas A. & M., can be separated from the older birds on the farm and this is very important from the standpoint of disease and parasite control.

Older birds, says Williams, are often carriers of diseases and parasites and unless the developing pullets are kept segregated from them, they may be affected. He points out that the ideal range is one that provides

plenty of good green grass and shade for the birds. Chickens do not like to get out in the hot sun any more than is necessary, therefore, shade should be provided if trees are not available. The range shelter is the answer. They are easy and economical to build and besides furnishing shade also provide safe housing where the bird can be protected at night.

The growing pullets on the range should receive a good growing mash, oyster shell and plenty of water. The care that the pullet receives on the range may determine whether or not she develops into a profitable layer. Williams says 100 pullets actually need a minimum of 10 gallons of water per day. It is a good rule to provide at least two five-foot feeders and one barrel-type fountain for each 100 growing birds.

The range shelters, feeders, and waterers should be moved frequent-

ly to make sure that the birds are on clean ground. Shelters should be built on runners so they can be easily moved. Using this practice, he says, will help keep down the parasites and diseases that often are picked up by the birds as a result of ranging on contaminated soil.

The poultryman who does a good job of developing his pullet flock will have birds that are in good condition and about 20 per cent of the pullets should be in production by the time they are four to five months old, depending upon the breed and strain.

Williams says plans and blueprints of range shelters, waterers and feeders are available at the local county agent's office and suggests a visit to the office to discuss any problems involving the poultry or turkey flock. They can supply bulletins on many other subjects and practices that are recommended for Texas poultrymen.

home are using the deep shades now in vogue for wall paper, interior paint, curtains and other furnishings. This shift in colors may require more lamps or the use of higher-wattage bulbs for adequate illumination, especially for rooms where the more tedious home tasks are performed.

To be adequate, good lighting must satisfy four major requirements. There must be plenty of light for adequate sight and this will vary with the task. Good lighting is free from glare. The proper placing of lamps and fixtures will give the proper distribution of light and in turn will mean an absence of shadows on the visual task.

Shade linings for lamps should be white or ivory. The light colors reflect light and the darker colors, as in the case of the interior finishes, absorb light. Since light falls off rapidly with distance, she says all portable lamps should be placed close to whatever is to be seen—preferably within 24 to 30 inches. The lamp should be placed to one side or to the rear of the seeing task. This will help prevent glare and shadows.

She recommends the use of lamps with a diffusing bowl within the shade. They improve the quality of lighting for the more tedious eye tasks, break up harsh light, soften shadows and reduce reflection from shiny surfaces.

Lighting is mighty important and the plans you have may require changes in the present lighting system for the home. Early planning may help you do a better and more economical job.

MOCK RED INVASION . . . Mayor Ralph E. Kronenwetter is rushed to a "concentration camp" by armed "Communist" guards in a simulated invasion of Mosinee, Wis., by mythical Russian Communists. The "invasion" was staged by the Mosinee American Legion post. Near the end of day of the "Commie" seizure, Mayor Kronenwetter collapsed with a heart attack. He was stricken in his car as he was about to assume his place on the speaker's platform for ceremonies.

Interior Colors Affect Home Lighting Needs

COLLEGE STATION—The color schemes chosen for various rooms in the home can very materially affect the amount of artificial light needed to give comfortable and economical lighting. For thrift with light, either daylight or electric, there is an advantage in light-colored walls, woodwork and furnishings, says Mrs. Bernice Claytor, extension home management specialist of Texas A. & M. She points out that in many cases homemakers in redecorating the

"Now I know

why they call it

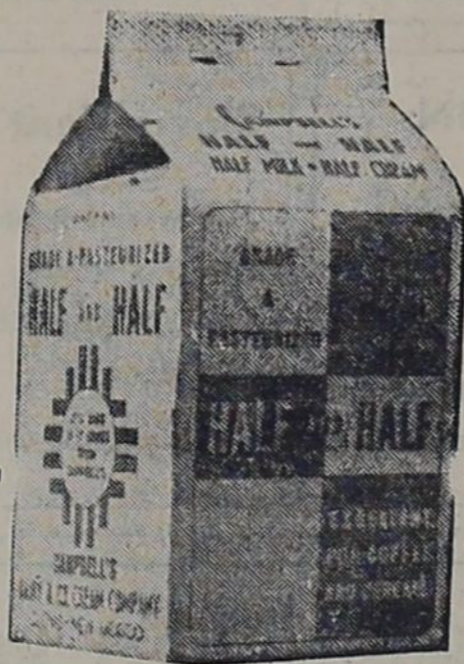

a party line!"

• "There was an edge in Dad's voice when he said that, and he doesn't get irritated with me often. But I'd been calling the gang about the Spring Dance and I guess maybe I *did* have the line tied up for a long time. Well, that upset Dad because he was waiting for an important call, about a special out-of-town order or something.

• "I'm afraid I sulked for awhile, because I still had lots of calls to make. But I can't stay mad at Dad for long, and anyway his call came through and he got the order!

• "Then, right out of the blue, he promised me that new formal I'd been wanting—and all it cost me was a 5-minute lecture on being a little more thoughtful about tying up the telephone, especially when it's on a party line. (I have to admit, that little lecture made me realize how easy it is to block important calls by tying up the line with a long series of calls.)"

Eighth Graders Get Diplomas, Thursday

Eighth grade graduates of both the Texico and Farwell schools received their passports into high school last Thursday night, May 18th, when graduation exercises were held in the respective school auditoriums.

At Farwell, Rev. Virgil Hunton, of Calvary Baptist Church in Clovis and formerly of the local pastorate, addressed the class. Jo Ann Cochran appeared as valedictorian and Frank Gulley offered the salutatory talk.

Mrs. Emma Jones was at the piano for the class marches; Rev. J. J. Terry, of the Oklahoma Lane Baptist Church, offered the invocation. Kenneth McMahan read the class history; Darlene Sprawls the class will; Shirley Smith the class prophecy; the students sang the class song, and Rev. O. O. Holladay, of the local Baptist Church, gave the benediction.

Leonard Rundell, Vane Doshier, Frank Gulley, Dudley Hughes, Clarence Kube, Duane Herington, Kenneth McMahan, Calvin Barber, Bernice Christian, Wayne Morris, Mary Joyce Rolland, Darlene Sprawls, Jo Ann Cochran, Shirley Smith, Mary Pair, Ann Whitley, Mary Kriegel, Beverly Lovelace and Phillip Cassidy received diplomas from Claude H. Rose, school board member.

Across the line in Texico, the youngsters presented their own program in a skit entitled "At Corson's Corners". The school band obliged with special music and played for the marches, and Charleen Allen and Phyllis Tucker appeared as salutatorian and valedictorian, respectively.

Kenneth Allred gave the class history; Catherine Bell, the prophecy; and Roy Snodgrass addressed the group. The graduation song, by the class, concluded the program.

Diplomas were presented by Supt. Agrie Jones to Dovie Charlene Allen, Kenneth Ray Allred, Thural Allen, Emory Dale Baker, Mary Catherine Bell, Paul Gene Crooks, Walter Curd, Kenneth Leroy Doolittle, Jerrell Wayne Doshier, Jimmy James Farley Jr., Darral Gene Harris, William Wayne Hagler, David Carlton Kyle, Claude Jerrell and Clyde Terrell McDonald, James Luther Mccs, Roy Harvey Snodgrass, J. B. Stephen Taylor and Paylis Joyce Tucker.

Bovina Firm Forced To Call Off Sale

The special sale of Hunt's products that had been advertised by Venable & Combs for last weekend was called off at the last minute when a special shipment of the goods failed to arrive.

J. O. Combs, store manager, said that arrangements had been made with an Amarillo firm for delivery of a large shipment of Hunt's products on Thursday, but the merchandise never did come through, with the Amarillo suppliers claiming that the railroad strike had tied up shipments and the Amarillo stocks were depleted.

"We regret very much that we were unable to go through with the sale as advertised, but there was nothing we could do about it," Combs said.

Three Bovina Scouts To National Jamboree

Three Boy Scouts from Bovina will be included in the Farmer and Curry county delegation to attend the National Jamboree at Valley Forge, which opens on June 24.

The three Bovina lads getting advantage of the wonderful trip are Leon Ware, Ted Walling and Glendon Sudderth. In addition to attending the National Jamboree, the Scouts will visit many places of interest, including Chicago and the National Capital, where they will be received by President Truman.

Young English Girl Is Local Visitor

Miss Yvonne Patch, whose home is in Midsomer Morton, Somerset, England, spent last week here visiting in the home of Mr. and Mrs. J. T. Massongill, as well as making acquaintance with other local people.

The English girl is a sister of Mrs. Jim Masongill, of Los Angeles and accompanied the California people here for a visit in the Massongill home. She also visited with Mrs. Claude Dyer, formerly from England.

Miss Patch arrived here in February and plans to return to her home in August. In company with the Los Angeles couple, she left here the latter part of the week for the West Coast.

Asked about conditions in England, Miss Patch, a very attractive brunette, said that she wouldn't give out the impression that people of her country were "on starvation" but admitted that most foods were still being rationed when she left there in February.

Two Entries Tied For Poster Award

Two entries so good the judges could not choose between them were submitted recently in a "Poppy" poster contest sponsored by the local American Legion Auxiliary, and as a result Verlene Thigpen and Roy Lee Allen have split the prize money offered.

A cash prize of \$1.25 was awarded to each of the two winners.

Other entries in the contest were made by Mikala Faville, Susan Levins, Carolyn Curd, Dick Lockhart, Barbara Caldwell, Betty Crawley, Suzanne Walker, fifth graders; Elton Kesner, Jackie Wilmeth, D. Tanis Caldwell and Billy Ray White, of the sixth grade.

Okla. Lane People To Conference

Rev. A. D. Moore, pastor of the Methodist Church at Oklahoma Lane, and Mrs. Clyde Perkins and W. R. Shelley, have gone to Big Spring to attend the annual meeting of the Northwest Texas Conference, which opened there today (Wednesday).

Rev. Moore, who is being accompanied by his wife to the Conference, said before his departure that he hoped to be returned to the local work for his third year. . . and I have no other plans." Mrs. Shelley and Mrs. Perkins are delegates from the Oklahoma Lane Church.

Rev. Oscar Bruce and wife, of Bovina, and Rev. James Tidwell, of Friona, are also attending the Conference, which will conclude Sunday noon with the reading of appointments for the coming fiscal year.

CONDITION UNIMPROVED

The condition of Mrs. J. W. Pullam, mother of O. C. Pullam of this city, remained unchanged last Tuesday afternoon, her son reported.

The aged lady, whose home is in Eldorado, Okla., suffered a stroke at the home of her son in Farwell on Monday of last week, and was removed to a hospital in Portales, where a daughter resides. She has remained in a state of coma since being stricken and little hope is entertained for her recovery.

BOVINA PEOPLE IN WRECK

Mr. and Mrs. Oren Patton, who live west of Bovina, were in an auto collision early last week as they were returning from a trip to Oklahoma. Both cars involved in the wreck were badly damaged but none of the occupants were seriously injured.

The accident happened ten miles west of Tula on Highway 86. Patton is reported to have said that as he approached a car that was standing motionless, off the pavement, the other driver suddenly pulled onto the highway in his path and the two cars clashed head-on.

STILL CRITICALLY ILL

W. Q. Jacks, 74, of Quitaque, is under treatment at a Matador hospital, where his condition remains critical with little hope being held for his recovery. He suffered a stroke some weeks ago, and for the past several days most of his time has

Bovina Happenings

BY MARIE VENABLE

The FFA boys and sponsor left Monday to spend a few days vacationing at Conchas Lake, near Tucuman.

Mr. and Mrs. Charles Goodnight and son, formerly of Bovina and now of Wichita Falls, visited here the past weekend.

Otto Hillock and boys, of Grady, spent Saturday night and Sunday in the home of Mr. and Mrs. B. L. Hillock.

Al Kerby, Vernon Ward, Henry Minter, Dick Glover, Orval Glover, Leon Glover and Bob Johnston Jr. returned home Saturday night from Conchas, reporting "fair" fishing.

Douglas Combs, of Carlsbad, spent the past weekend with his parents, Mr. and Mrs. J. O. Combs.

Rev. and Mrs. E. J. Speegle returned home Tuesday from Chicago, where they attended the Southern Baptist Convention.

Remember to buy a poppy on Saturday, May 27th.

Mr. and Mrs. Tyson Eubanks are the proud parents of a baby girl born at the Dimmitt hospital, Saturday morning at 4:15 a. m.

A Stanley party was held in the home of Mrs. Pete Davies, Tuesday afternoon, with 15 present.

Spending Sunday in the home of Mr. and Mrs. Hilary Tidenberg were Mr. and Mrs. Arnold Hromas and children, Mr. and Mrs. Sam Sides and Miss Chaney Speegle. They enjoyed a chicken dinner.

Mr. and Mrs. Fred Langer and daughter, Sherri, left Monday for a short vacation.

Mrs. Elton R. Venable, who celebrated her birthday on May 20th received many lovely gifts and a large birthday cake.

Mr. and Mrs. Al Kerby visited in Dimmitt, Sunday.

The Bovina seniors left Sunday morning at 4 a. m. on their trip.

Robert Reed, son of Mr. and Mrs. Nat Reed of Bovina, and Miss Patsy Ellison, daughter of Mr. and Mrs. Buck Ellison, were married in a simple ceremony, Saturday afternoon, in Clovis.

WMU met in regular session Wednesday at the Baptist Church with the program on mission work.

HALF CENTURY CLUB HAS FORMAL INSTALLATION

The Bovina Half Century Club held its formal installation services on Thursday in the home of Mrs. Reagan Looney, with members of the Bovina Women's Study Club as special guests. A delicious covered dish luncheon was enjoyed at one o'clock, preceding the installation ceremony.

Mrs. J. P. Macon was installing officers with other officers of the senior club assisting her in the impressive ceremony. Installed were Mrs. Bass Elliott, president; Mrs. Bob Johnston Jr., vice president; Mrs. A. V. Warren, treasurer; Mrs. D. C. Looney, secretary; and Mrs. Ruth Bell, reporter.

Each officer was presented a yellow carnation and Mrs. Macon was presented a corsage of carnations.

Mrs. D. C. Looney complimented the gathering with "Country Gardens" as a piano selection and Mrs. Bass Elliott talked of the progress of the Club since its organization, as well as plans for the coming year. This was the final meeting of the group until September.

Those present were Mesdames Aubrey Rhodes, A. G. White, Billie Sudderth, A. Wilkerson, Bill Kyle, Frank Truitt, Eddie Redden, Bill Thornton, J. P. Macon, Reagan Looney, Pete Davies, A. V. Warren, D. C. Looney, Howard Looney, Bass Elliott, Bob Johnston, Ruth Bell, Marion Carson and June Hawkins.

HAWKINS ENTERTAIN

The young married people's department enjoyed a chicken fry in the Gene Hawkins home on May 8. Present were Mr. and Mrs. Al Kerby, Mr. and Mrs. Don Roundtree, Mr. and Mrs. Henry Minter, Mr. and Mrs. Tyson Eubanks, Mr. and Mrs. Gene Hawkins.

Eat a good breakfast to start a good day.

BOWLES TAKES "INDIVIDUALISM" AS TOPIC AT BOVINA COMMENCEMENT

Don Bowles, of Station KICA, Clovis, was the guest speaker Friday night when members of the Bovina senior class assembled for the commencement exercises in the school auditorium.

Taking as his topic "Individualism", Bowles made a very brief but exceedingly pertinent talk to the graduating class, as he broke down the word by letters and listed them as characteristics in the making up of individualism.

As a preface to his talk, Bowles referred to the benediction offered by Rev. E. J. Speegle, of the Bovina Baptist Church, quoting the minister "to walk among men without God is futile" and admonishing the seniors that the brief phrase was well worth remembering.

Breaking up "Individualism", he began, "I—as for interest, interest in others in the world about you, and reminded again, "you do not walk alone". The next letter "N", he suggested as the "ability to say 'no' when necessary, yet retaining your right to say 'yes'."

"D stands for devotion, devotion to your fellow men, to your church, to your community; and as for I—what would we do without imagination?" he asked the class. "V, for veracity," he stated, urging the seniors to be at all times honest and truthful. The third "I" was for idealism, "always do your best"; and then the speaker noted "D" for determination.

"U—your possibilities in the United States . . . A—ability; L—living and learning; the last I for ignorance for how do you make progress without ignorance in the beginning?"

"Do I need to speak to you of sobriety—for S?" he asked the class. And as the final letter in the development of "individualism", Bowles listed "M" for maturity.

As he closed he related the story of Christopher Wren, cathedral builder who asked three stone workers what they were doing—and from each got a different answer. One was "cutting stone"; another was "making six-pence a day" and the third was "helping Christopher Wren build a beautiful cathedral to the glory of God."

"That is your individual problem," the speaker told the graduates, "Will you just be stone cutters? Will you work only for the money involved? Or will you help build to the glory of God?"

Mrs. Doris Wilson was at the piano for the class marches; the high school chorus sang "A Perfect Day"; Ella Bradshaw and Roberta Boatman appeared as joint salutorians; Patsy Loflin sang "Home"; and Midgie Tritsch gave the valedictory. The seniors sang the school song, Rev. Oscar Bruce gave the benediction, and Supt. W. H. Willoughby presented diplomas to John Baca, Elizabeth Ann Berggren, Roberta Boatman, Ella Bradshaw, Gene Brito, Bill Delashaw, J. R. Ellison, Jenean Ellison, Gladys Hopingardner, Almeda Huff, Patsy Loflin, Weldon Moody, Dorothy Moorman, Midgie and Virgil Tritsch, and George Young.

miors sang the school song, Rev. Oscar Bruce gave the benediction, and Supt. W. H. Willoughby presented diplomas to John Baca, Elizabeth Ann Berggren, Roberta Boatman, Ella Bradshaw, Gene Brito, Bill Delashaw, J. R. Ellison, Jenean Ellison, Gladys Hopingardner, Almeda Huff, Patsy Loflin, Weldon Moody, Dorothy Moorman, Midgie and Virgil Tritsch, and George Young.

FAREWELL GET TOGETHER HELD ON SUNDAY

Mr. and Mrs. Will Parker were the honorees on Sunday when friends gathered in the Parker home for a surprise farewell social. A covered dish luncheon was enjoyed by Mr. and Mrs. J. R. Caldwell, Mr. and Mrs. Tom Griffith, Mr. and Mrs. Levi Johnson and Betty Rose, Mr. and Mrs. Ward Thompson, Mr. and Mrs. A. G. White, Mr. and Mrs. Mel Gunn, Mr. and Mrs. Lee Thompson, Mr. and Mrs. Cecil Berry and children, Mr. and Mrs. Elmer Venable and children, and the honorees. The Parkers are moving to Estellene, Texas.

ENJOY CHICKEN FRY

The Pals Class of the Bovina Baptist Church enjoyed a chicken fry in the home of Mr. and Mrs. Charles Hawkins, Tuesday evening, May 16. A big feed was enjoyed and games played after the meal. Those present were Mr. and Mrs. Gene Hawkins, Mr. and Mrs. Harold Hawkins, Mr. and Mrs. Tyson Eubanks, Mr. and Mrs. J. W. Gooch, Mr. and Mrs. Henry Minter, Mr. and Mrs. Al Kerby, Mr. and Mrs. Charles Hawkins and Mrs. Jack Jarrell and daughter.

BE CAREFUL IN SHIPPING

It would have taken a train nine miles long to haul all of the livestock that arrived dead at the livestock markets of the nation in 1947. This loss, plus those from bruises and crippled animals, annually amounts to near \$25 million. Producers, transporters and livestock handlers all have a part to play in preventing these losses, most of which are borne by the producer.

FARM POPULATION DOWN

In 1850, 70 percent of the U. S. population lived on farms. In 1950, only 18 percent live on farms.

POULTRY LOSSES

Texas poultrymen last year lost 20 percent of all their laying flocks during the hens' first year of production. Poultrymen who suffer such flock losses are burning or burying their poultry profits with these dead hens. Practicing good

management, sanitation, feeding and disease and parasite control on the farm can cut these losses.

GOOD PRICES IN VIEW

Favorable prices, especially for the earlier finished animals, are in prospect for hogs, beef cattle and lambs.

LEGAL NOTICES

NOTICE OF ELECTION
THE STATE OF TEXAS
COUNTY OF FARMER
CITY OF FARWELL
TO THE RESIDENT, QUALIFIED
ELECTORS OF THE CITY OF FAR-
WELL, TEXAS, WHO OWN TAX-
ABLE PROPERTY IN SAID CITY
AND WHO HAVE DULY RENDER-

ED THE SAME FOR TAXATION:
TAKE NOTICE that an election
will be held in the City of Farwell,
Texas, on the 2d day of June, 1950,
on the proposition and at the place
more particularly set forth in the re-
solution adopted by the Board of
Commissioners on the 11th day of
May, 1950, calling said election
which is as follows:
"RESOLUTION
BY THE BOARD OF COMMISS-

SIONERS OF THE CITY OF FAR-
WELL, TEXAS, CALLING AN
ELECTION ON THE QUESTION
OF THE ISSUANCE OF \$40,000.00
SEWER BONDS.
WHEREAS, the Board of Com-
missioners of the City of Farwell,
Texas, deems it advisable to issue
the bonds of the said City for the
purpose hereinafter mentioned;
BE IT RESOLVED BY THE
BOARD OF COMMISSIONERS OF

THE CITY OF FARWELL, TEXAS:
1. That an election be held in said
City of Farwell, Texas, on the 2d
day of June, 1950, at which election
the following proposition shall be
submitted:
"Shall the Board of Commissioners
of the City of Farwell, Texas, be
authorized to issue the bonds of said
City in the sum of Forty Thousand
(\$40,000.00) Dollars, maturing serial-
ly in such installments as may be

fixed by the Board of Commission-
ers, the maximum maturing being
not more than Ten (10) years from
their date, and bearing interest at a
rate not to exceed Three and one-
half (3½%) per cent per annum, pay-
able semi-annually, and to levy a tax
sufficient to pay interest as it ac-
crued and principal as it matures on
said issue of bonds, for the purpose of
constructing a Sewer System in and
for said City, as authorized by the

Constitution and laws of the State of
Texas."
2. That the said election shall be
held at the County Court Room in
Farmer County Court House, within
said City, and the following named
persons are hereby appointed as offi-
cers of said election:
W. M. Roberts, Presiding Judge,
Mrs. L. S. Pool, Judge,
Mrs. Willie Hardage, Clerk,
Mrs. Ray Ford, Clerk.
3. The said election shall be held
under the provisions of Chapter 1,
Title 22, of the Revised City Statutes
of 1925, as amended, and only legal-
ly qualified electors who own taxable
property in the City and who have
duly rendered the same for taxation
shall be qualified to vote;
4. The ballots for said election
shall have written or printed there-
on the following:
"FOR THE ISSUANCE OF SEW-
ER SYSTEM BONDS"
"AGAINST THE ISSUANCE OF
SEWER SYSTEM BONDS"
Each voter shall mark out with
black ink or black pencil one of the
above expressions thus leaving the
other as indicating his vote on the
proposition.
5. A substantial copy of this resolu-
tion signed by the Mayor of said
City and attested by the City Clerk
shall serve as proper notice of said
election. Notice shall be given in ac-
cordance with Article 704, Revised
Civil Statutes of 1925, as amended.
The Mayor is authorized and directed
to have a copy of said notice posted
at the City Hall and at two other
public places within said City, not
less than fifteen days prior to the
date fixed for holding said election.
He shall also cause said notice to be
published on the same day in each
of two successive weeks in a news-
paper of general circulation publish-
ed within said City, the date of the
first publication to be not less than
fourteen days prior to the date set
for said election. Except as other-
wise provided in said Article 704, as
amended, the manner of holding
said election shall be governed by
the laws governing general elections.
ADOPTED AND APPROVED this
11th day of May, 1950.
C. M. HENDERSON,
Mayor, City of Farwell, Texas.
ATTEST:
ESSE T. LANDRUM
City Clerk, City of Farwell, Texas."

Descendant of Patriot to Unveil Liberty Bell Replica

Carl Elayer Davis, 13, a seventh generation descendent of Oliver Wolcott of Connecticut, one of the signers of the Declaration of Independence will unveil a replica of the Liberty Bell at Silver City, N. M. on May 15 in ceremonies heralding the opening of the Treasury Department's "Independence Drive" for the sale of Savings Bonds. The bell, one of 49 exact duplicates of the Liberty Bell donated to the Treasury by the nation's leading copper companies, will be presented to the people of New Mexico for permanent display after touring the state during the Drive.

Hints On Choosing Slip Cover Fabric

COLLEGE STATION—The most practical cotton fabrics for making slip covers should be washable, durable, closely woven, reasonable in price and attractive in color and design. Such fabrics are available, says Mrs. Bernice Claytor, extension home management specialist of A. & L., but it may require shopping to find them.

Homemakers should remember that slip covers represent a considerable investment not only in money but also in labor and time if you make them at home. Choose materials that suit the decorative scheme of the room and which meet the requirements for a practical fabric.

She points out that covers made from closely woven fabrics hold their shape well, are easy to work on, tailor well and keep dust from drifting through to the furniture.

Glazed chintz, cretonne, plain or striped denim, galatea, rep, and French ticking are among the most serviceable cotton fabrics for slip covers. If you want covers with a dressy appearance, the lightweight apestries, drapery sateen and damask fabrics are good. Gingham and percales wash easily but often wrinkle more than heavier fabrics and because they are generally only 36 inches wide they do not cut to as good advantage as wider materials.

Mrs. Claytor suggests that if the fabric is not labelled as preshrunk, fast color against light and laundering, you buy a yard and launder it at home. Measure before and after laundering to see how much it shrinks and check also for color loss. If you prefer to use shrinkable material, you'll be wish to wash and iron it before making the covers.

Since the upper back and arms of chairs or lounges usually receive the roughest treatment it is a good idea to buy enough material to make an

extra cover for these spots. These pieces can be washed separately and may save much work in the laundering needed to keep slip covers clean and tidy.

Home Market Could Be Best For Grain

COLLEGE STATION—Last October 15 Texas producers received, on the average, \$1.05 per bushel for corn and \$1.67 per hundred for grain sorghums. Can they expect as much this fall? According to C. H. Bates, extension farm management specialist of Texas A. & M., most of the USDA crystal gazers don't think so. More corn and grain sorghums are being planted. Bates says the seed supplies of the better adapted varieties have been good and are being used. With average weather conditions and increased use of fertilizers, grain production could exceed the big crop of 1949.

Bates says plans should be made now for the most profitable use of the feed grains that will be produced. Market outlets for cash grains is not bright. Storage supplies are heavy. He points out that Texas corn producers are eligible for loans of about 70 to 75 percent of parity, as against the 90 percent loans in the corn belt. Reason, Texas is not in the commercial area.

Last fall, at some local markets, corn prices were only 90 cents per bushel and Bates says some growers believe price will be even lower this fall provided production is up to expectations. Should this occur, he says growers might profit by either planning to take the government loan on a portion of the crop or feed it to livestock.

Favorable prices are in prospect for hogs, beef cattle and lambs, especially the earlier finished animals. But most farms will need additional equipment, such as fences, water facilities, barns, feeding equipment,

and maybe more storage space before a feeding program can be started. Then there's the problem of securing quality feeder animals.

He says now is the time for planning these operations. It is not too early to begin getting things in shape for the jobs that must be done this fall and Bates suggests that you ask your local county agent for information on the type of program that might double the price you receive for your grain crops.

Plenty Of Jobs Beckon To Coed Dietitians

LUBBOCK—College graduates generally may find job opportunities narrowing this spring, according to a recent federal survey, but the dean of home economics at Texas Tech says the demand for trained dietitians "far exceeds" the supply of available graduates.

Dean Margaret Weeks reports that her office "cannot begin to fill requests" from hospitals and industries which need trained dietetic personnel.

She said three foods and nutritionists sent to Tech have already received appointments as dietetic internes. They are Peggy Pipes, Dallas, who goes to the Presbyterian hospital, New York; Florence Wright, Miles, Texas, to the Barnes hospital, Saint Louis; and Tommie Jean Wall, Waco, to the Colorado State hospital, Pueblo.

PIANO COURSE AT TECH

LUBBOCK—Miss Marion Keighley Snowden, British pianist, will offer a series of master classes in piano at Texas Technological college June 1-16 and June 19-July 3, the department of music has announced.

Miss Snowden was professor of piano at the former Tobias Matthey Piano School in London. The courses offered during the summer term include "Piano Performance of Bach Literature" and "Piano Technique and Interpretation."

Medicine King

SENATOR DUDLEY J. LeBLANC

HADACOL sales or shipments have reached the amazing total of 5,000,000 bottles since January 1, more of any one tonic than has ever been sold in so small an area in so short a time.

Senator Dudley J. LeBlanc, Founder and President of The LeBlanc Corporation, Lafayette, Louisiana, makers of HADACOL, said the sales and shipments would have been far greater if his company could have obtained enough material to meet the demands.

"We have been several hundred thousand bottles behind in shipments since January 1," said Senator LeBlanc. "It looks like we just cannot catch up because every time we increase production the demand increases."

Senator LeBlanc credited the South's heaviest newspaper schedule with much of the success of HADACOL.

GET THE MAIN COLONY

Treating the small cut ant hills that are scattered over a wide area will do little or no good. Locate the main colony and concentrate on it.

"DID SHE DO THE RIGHT THING?" ... Barbara Hanford was faced with a problem when her husband refused to allow her children any religious training. She decided to sacrifice her own happiness and

after much anguish gave her children away. Don't miss this poignant story in The American Weekly, that great magazine distributed with next Sunday's Los Angeles Examiner.

OFFERS TO PAY FRIENDS IF HADACOL DOESN'T HELP

HADACOL HELPS SUFFERERS OF VITAMIN B₁, B₂, NIACIN AND IRON DEFICIENCIES

Mrs. Wallace tells her granddaughter, Maynell Wallace, over the phone how HADACOL brought relief to her.

Mrs. Belle Wallace, 449 Formwalt St., S. W., Atlanta, Ga., is so grateful to HADACOL for the blessings it has brought her that she has recommended HADACOL to a number of her friends. She told them she would pay for their bottles of HADACOL if it didn't help them. She explains with a smile that she hasn't had to pay any of her friends, because HADACOL has helped them.

Mrs. Wallace, who is 74 years old, has five children, seven grand-children and two great-grandchildren. She was suffering from a deficiency of Vitamins B₁, B₂, Niacin and Iron, which HADACOL contains.

Mrs. Wallace said: "I couldn't sleep or eat until I started taking HADACOL. I'd lie awake and toss and turn until the small hours of the morning. I was highly nervous. I couldn't even thread a needle. But, since I've been taking HADACOL, my nerves are as steady as can be. I couldn't eat because when I did my stomach would puff and bloat and fill with gas. I am on the 7th bottle of HADACOL and my stomach is so much better.

Appetite Good
"I have a good appetite and my stomach does not bloat or fill with gas. I sleep like a log. I have recommended HADACOL to a number of friends and have told them that if it didn't help them, too, I'd pay for it, but I didn't have to because HADACOL did help them. HADACOL has done me more good than anything I have ever taken."

Why Be Satisfied With Temporary Relief?

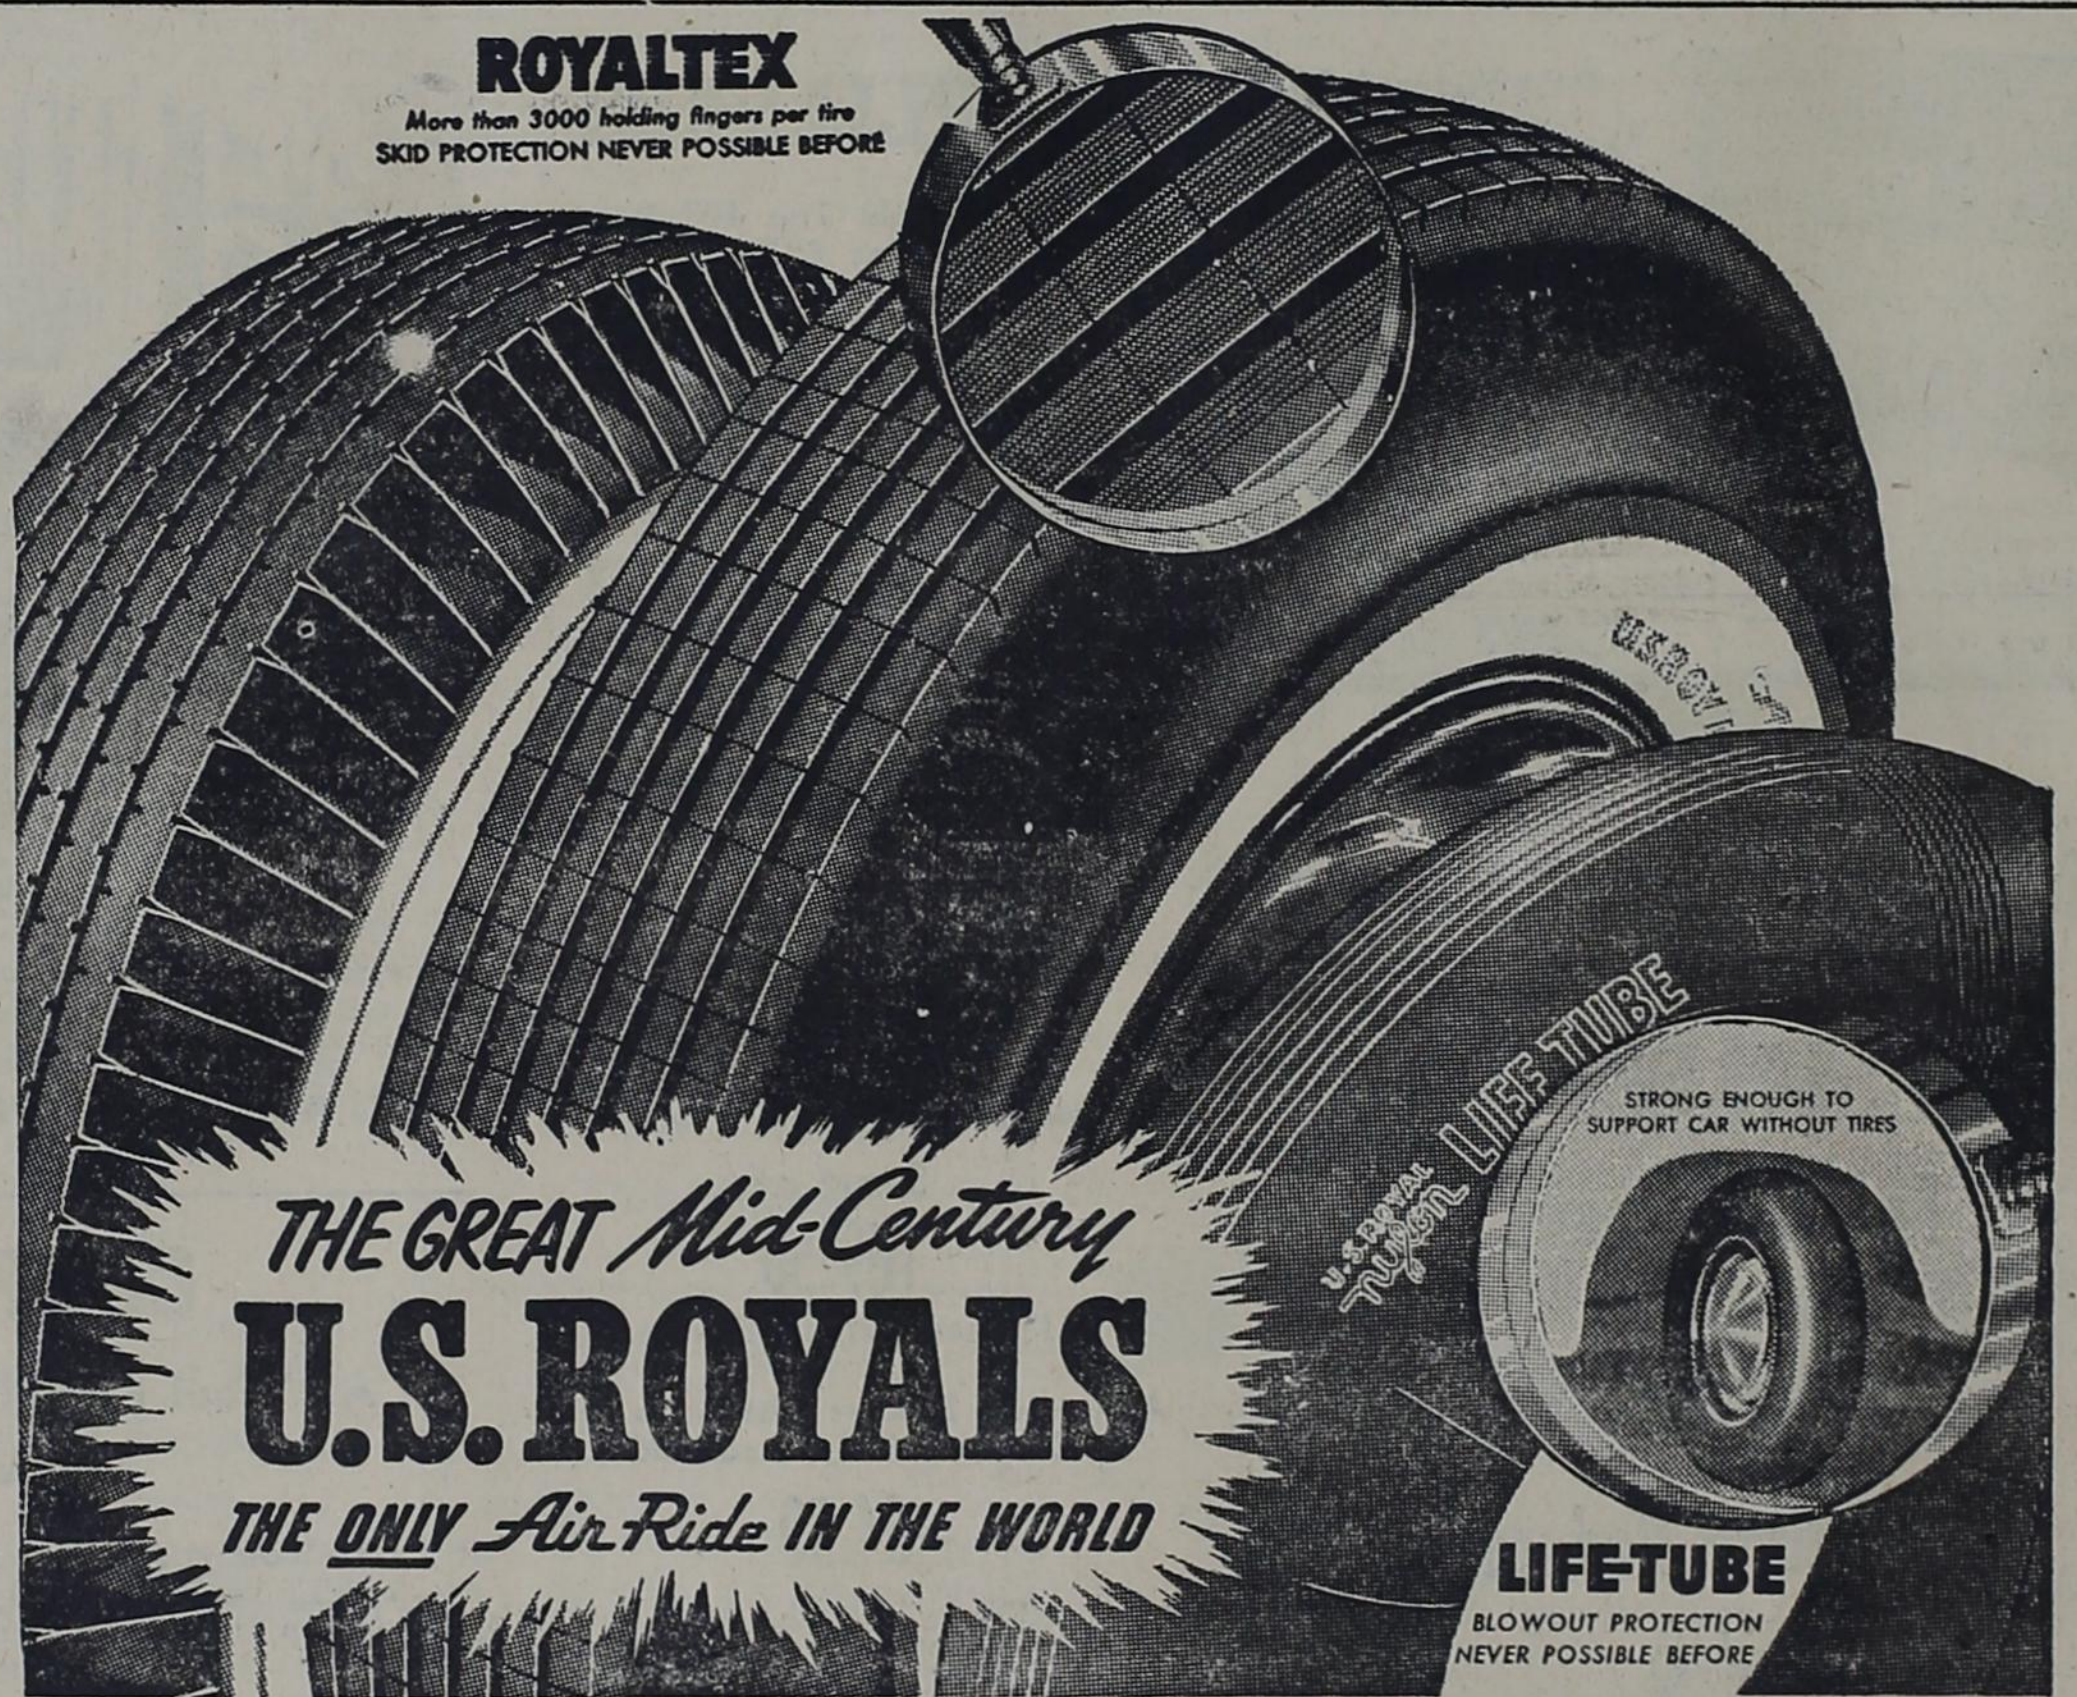

HADACOL also helps build up the hemoglobin content of your blood (where Iron is needed) to carry these precious Vitamins and Minerals to every organ, and every part of your body—to the heart, liver, kidneys and lungs—even to the eyes, hair and nails) to help repair the damage that such a deficiency may be causing there. Countless thousands are benefiting from HADACOL. Why don't you give it a chance to help you? Why continue to suffer? Remember, HADACOL doesn't give temporary relief. Instead, it treats the real cause of your illness when, as so often, it's due to such deficiencies. That's why it's so effective; that's why it is accomplishing such amazing results.

You'll Feel Great . . .

. . . with the first few bottles you take, or your money back. There is only one HADACOL and it is sold on a strict money-back guarantee. So give this remarkable HADACOL medicine a chance to help you. It's never too late to start taking HADACOL. Many who despaired of improvement found that HADACOL was almost like a miracle for them. Remember that HADACOL is amazingly different and amazingly effective because it treats the real cause of deficiencies of Vitamins B₁, B₂, Niacin and Iron. Make up your mind to take HADACOL regularly. Refuse substitutes. Insist on the genuine. You can't lose a cent, because it's sold on a strict money-back guarantee. Only \$1.25 for Trial size, Large Family or Hospital size, \$3.50.

Keep Posted On Social Security Claims

Old-age and survivors insurance is a three-way partnership between the employer, his employees and the Federal government. "It is a joining of forces and resources in attacking the economic hazards of old-age and death," says John R. Sanderson, manager of the Amarillo Social Security Office.

He points out that this three-way cooperation is often overlooked and summed it up as follows:

(a) The Federal Government issues social security account numbers, maintains records of wages and pays benefits.

(b) The employer quarterly lists wages paid his employees, their so-

cial security account numbers and turns over the employee-employer contributions to the Bureau of Internal Revenue for transmission to the old-age survivors insurance trust fund.

(c) The employee working of jobs covered by social security snares in the contributions and by advising the employer of his correct social security number insures proper wage credits.

Correct information about benefits may be obtained from the Amarillo office, located in Room 324 of the Post Office Building.

PLENTY OF BERRIES

Berries are plentiful in many areas of the state at this time. Don't let them waste. They are excellent frozen and now is the time to fill the home freezer or locker box.

"HEAVEN IS HERE" . . . One of the highlights of the women's National Press club annual dinner recently was the stunt show featuring many prominent newswomen. This scene is called "Heaven Is Here." Frieda Everett, portraying President Truman, is wearing a hat loaned by the President. The vice-president, standing by the President is Dorothea Lewis. Angels are (left to right) Gertrude Kalec, Betty Miles, Julia Bonwit, Roberta Clark, Eleni Sakes and Dorothy Marks.

Job Opening For Grads Still Numerous

LUBBOCK—Present trends in the Texas Technological College placement service indicate that industrial openings, sales jobs and public school teaching positions will absorb most of the spring college graduates.

Mrs. Jean Jenkins, executive secretary of the Tech service, said industry has asked for fewer engineers this year, but small businesses and sales concerns are calling for the trained engineers. She said engineering jobs prospects are particularly good in Texas.

Personnel trained as dietetic or institutional management experts are in heavy demand. Home economics education majors also are sought,

while the bulk of the public school openings are in elementary schools.

Mrs. Jenkins said a great demand for trained secretarial personnel now exists.

"Employers want a secretary who can spell, use good English and has a wide background of general skills—and at the moment there aren't enough people to fill these jobs," she said.

Summer employment demands have been heavy for persons interested in recreational jobs such as summer camp counselors, boy and girl Scout workers, and physical education majors. The demand for permanent personnel in these positions is light, however.

DEMONSTRATION REPORT

Volunteer leaders in home demonstration clubs last year in Texas held 9,401 meetings attended by 137,000 rural women.

Wesleyan College To Plan 60th Anniversary

FORT WORTH—Looking toward a 60th anniversary in 1951, graduates and exes of Texas Wesleyan College will meet May 21 on the TWC campus to celebrate annual spring homecoming and May Fete and lay plans for the big year.

Included on the homecoming calendar will be an all-college all-ex barbecue at 12:30 p. m., followed by the yearly business meeting of the Alumni and Ex-Students Association at 1:30 p. m.

Graduate class meetings will be held at 2:45 p. m., along with simultaneous group meetings for graduates and exes of Polytechnic College and Texas Womans' College, predecessors of TWC.

Members of the classes of 1930, '40 and '45 will be especially honored at a reception at 7:30 p. m., in accordance with a College custom of honoring classes of 20, 10 and 5 years previous.

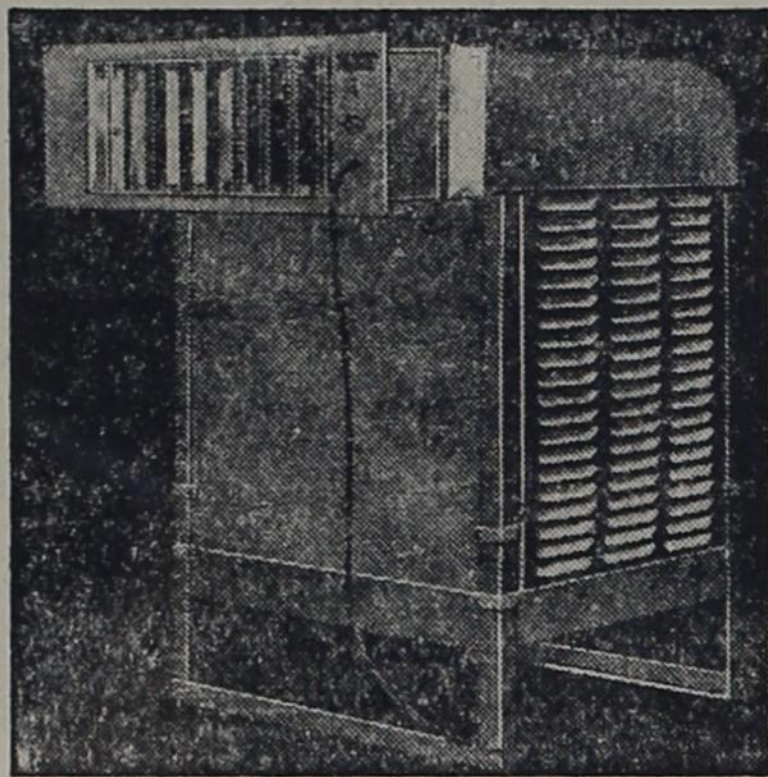

Highlight of the day will be the annual May Fete, which will be held at 6:30 p. m., Miss Jimmie Williams, Quannah, will be May Queen.

Silage, next to pasture, is the cheapest source of feed for the dairy cow. Now is the time of year to plant a crop for the silo.

TECH CATALOG OFF THE PRESS

LUBBOCK—The 25th annual general catalog has been published by Texas Technological college, Registrar W. P. Clement has announced.

The catalog requires a number of new course descriptions and also describes the requirements for the doctor of philosophy degree which Tech will offer next fall.

FRIONA SENIORS HEAR DR. E. N. JONES IN COMMENCEMENT TALK, MAY 18

Contrasting life of the pioneers with that of the young people of today, Dr. E. N. Jones, of Texas Technological College, addressed the graduating class of the Friona high school when commencement exercises were held in the school auditorium on Thursday night, May 18th.

Dr. Jones opened his talk in outlining the early life of settlers on the Plains, pointing out that they endured hardships unknown to the graduates, and still "were preparing their children for better things". "My grandfather," said the speaker, "did not have material goods to leave behind, but he left his wisdom and the knowledge that he had lived a good life."

Three main points of advice were stressed to the graduates by the speaker. In the beginning, he pointed out that self-confidence is a great thing, "which has been drilled into you by your teachers" and urged that the seniors have belief in themselves.

In looking toward marriage, Dr. Jones emphasized that confidence in "your chosen partner" is essential, and as a warning against alcoholics, quoted a parody, "If you drink, don't marry; if you marry, don't drink."

In conclusion he urged that the seniors strain toward respect of their fellowmen by the way they conduct their lives. "Riches are not all," he emphasized, in reminding the class that an honest, upright life leaves behind its own heritage.

Dillie Kelly, principal, made the presentation of special awards. Vera Ann Jones received the typing honor; Joe Allen Osborn was noted for school activity; Ruby Sheffer and Tommy Lacey were named for sports; Elizabeth McReynolds was listed as the outstanding music student; Joyce Ann Miller, with an average of 97, scholarship; and Lewis Gore was recognized as the outstanding agriculture student.

Samsonite luggage was presented to the valedictorian, Joe Allen Osborn, and salutatorian, Fern Hand, by Prichard Furniture; and Bulwag watches were received by Tila Rue Day and Marvin Massey from Allen's Jewelry.

To Viddian Weis went a \$1,000 scholarship to any state school in Texas, presented by the Friona Lions Club.

Mrs. Roy Miller was at the piano for the processional and recessional; the invocation was given by Herbert Sweeney, of the Sixth Street Church of Christ; Joyce Miller provided an instrumental solo; Fern Hand gave the salutatory and Joe Allen Osborn the valedictory; Mary Lou Miller sang and Rev. Tommy Allen offered the benediction.

Diplomas were presented by P. L. Lor... of the school board, to La Quita Brannon, Leroy Burnett, Dorothy Burnett, Patsy Cobb, Tila Rue Day, Glenn Ray Fallwell, Ray Nell Foster, Mary Nell Fulks, Lewis Gore, Fern Hand, Roy Lee Jones, Tommie Jones, Jack London, Marilee London, Richard London, Billie Jean Marshall, Marvin Massey, Sam Mears, Billy Joe Mercer, June Moody, Joe Allen Osborn, La Von Rogers, Elvanda Strickland, Ray Strickland, Viddian Weis, Harold Joe Wells, Alta Mae Wilkins and Tommy Lacey.

MRS. LANFORD ILL

A telephone call here on Monday revealed that Mrs. D. B. Lanford, long-time Farwell resident who has spent the past several months in Childress, was seriously ill.

Five Parmer County Students Receive Degrees At Tech

Five Parmer County students received degrees at the commencement exercises for graduate of Texas Technological College, in Lubbock, on Monday of this week.

Warren G. Harding, son of Mr. and Mrs. N. R. Harding of Farwell, receiving his Master of Education, completing his work in the field of administrative education with a grade point average of A minus.

Harding holds a degree of Bachelor of Arts from Eastern New Mexico College, Portales, 1943, and is a graduate of Farwell High School. At Portales he was a member of Tau Kappa Tau; member of the student council, and vice president of the International Relations Club.

He is now assistant to the registrar at Texas Tech, a position to which he was appointed February 1, 1949. He was principal at the Texico junior high school from September 1946 to February 1948, resigning to enter graduate school at Texas Tech.

The other four Parmer County students were presented with bachelor degrees, including Louis Leland Welch, Friona, bachelor of science in agriculture; Virginia Rose Kennedy, Friona, BS in education; Doris Ann Lange, Friona, BBA; and Marie Lou Welch, Friona, BS in home economics.

SOUTHERN ROSARY-

(Continued from Page 1)

and Raymond Morgan. "Gracious Days," a poem, was read by Patsy Engram; the seniors sang "We'll Never Forget" and statistics from the 1950 annual were given by Billie Roberts and Betty Donahay after which the class joined in "Love's Old Sweet Song".

The class prophecy was revealed by Vera Lee Wilkinson and Frankie Harris; the group sang two numbers, and four couples appeared in the "Cottillon of Graces", including David Houghtling, Joyce Holland, Vera Lee Wilkinson, Raymond Morgan, Billie Roberts, Douglas Williams, Lona Mae Jones and Paul Clark.

Next was the school song by the group, and the "Last Will and Testament" was given by Mark Leavell and Jim Billington. "Dixie" was sung and Coeta Roth gave the valedictory.

Supt. Agrie Jones made the special awards presentation, and C. C. Curry of the school board, closed the program by presenting diplomas to James B. Harding, Gilbert Paul Clark, Betty Lu and Peggy Jo Donahay, Patsy Lorene Engram, James B. Harding, Frankie Lee Harris, Joyce Elaine Holland, David H. Houghtling, Lona Mae Jones, Mark E. Leavell, Raymond Troy Morgan, Billie J. Roberts, Coeta Fern Roth, John Connely White, Vera Lee Wilkinson and Douglas Williams.

BAND CLASS TUESDAY

Ted Raven, of Clovis, is conducting weekly band classes at the Farwell school on each Tuesday night at 7:30 it was announced today, and band students of the school who are interested in continuing their work during the summer are invited to be on hand to see Mr. Raven.

Coach And English Instructor Hired

Two faculty members were added to the Farwell school corps at a recent meeting of the official school board, Supt. Jack Williams said today, with the positions of high school coach, and English instructor being filled.

Tommy Hestand, who hails from Dennison, Texas, has been elected as coach at the school, succeeding Louis Purvis, recently resigned. Hestand played high school football at Dennison under Pat Patterson, and holds his degree from Austin College at Sherman, where he was a member of the gridiron squad coached by Ray Morrison.

During the past year he has served as assistant coach in his home town of Dennison, the superintendent added, and is well qualified to the position he has accepted in Farwell.

Succeeding Mrs. Earl Booth as head of the high school English department will be Miss Jett Byerley, of Levelland, Texas, who is just concluding her work toward a degree from West Texas State College in Canyon, where she majored in English, speech and dramatics.

One resignation has been announced by the board, that of Mrs. Cordelia Williamson, who came to the school shortly after the first of the year to take over the fifth grade. No successor to Mrs. Williamson has been elected as yet.

Baptist Will Begin Vacation Bible School At Church, May 29th

The regular two-week summer Bible school sponsored by the Texico-Farwell Baptist Church will hold its initial meeting on Monday morning of next week, May 29th, and is scheduled to run daily, with the exception of Saturday and Sunday, through June 9th.

General superintendent will be Rev. O. O. Holladay, pastor of the church, and five departments have been arranged for students from four through seventeen years of age. The classes will be held from 9:00 to 11:45 each morning, it was reported.

Mrs. Willie Hardage is to serve as superintendent of the beginner department, and will be assisted by Irene Harbage and Mrs. Harry Whitley. In the primary group, Mrs. Gladys Hromas is superintendent with workers including Mrs. John Lockhart, Mrs. Luther Pearce and Mrs. M. H. Potett.

The young junior department will be headed by Mrs. Huga Tucker, while the advanced junior superintendent is Mrs. Luther Moss. Working with the two groups will be Mrs. Joe McWilliams, Mrs. Buddy Pearce, Mrs. S. G. Billington, Mrs. O. O. Holladay and Miss Janie Moss.

Mrs. W. M. Roberts is superintendent of the intermediate group, and will be assisted by Mrs. Barney Kelly. Secretary of the school will be Mrs. Olan Schleuter, and Misses Peggy and Betty Donahay will assist as needed in the various departments with men of the church contributing their time as available to helping in the boys' handcraft class.

All children and young people of the community are cordially invited to enroll in the school and take part during its two-week term.

Breakfast "skippers" have a slower reaction time and their work output is lowered.

Rev. Duncan Returns To Methodist Church

Rev. Murphy Duncan, pastor of the Hamlin Memorial Methodist Church for the past year, was returned to the local work when appointments were announced at the close of Annual Conference in Albuquerque last Sunday morning.

Rev. J. C. English, who has served the First Church at Clovis the past seven years, transferred to the Arkansas Conference, and Rev. J. J. Spurlin, son of Mr. and Mrs. J. J. Spurlin Sr., of this city, was returned to Rdsedale for another year.

Dr. Carl Clements was also returned for another year as district superintendent of the Clovis district.

Hospital Directors Visit In Friona

Community hospital managers and directors from Lockney, Hale Center and Morton were visitors in Friona on Tuesday night, when the Parmer County hospital acted as hosts at a monthly get-together of the men.

Ralph Roden, manager of the Friona hospital, took the group on a tour of the county hospital, after which the meeting was transferred to the Friona Club House, where a buffet supper was served.

During the informal meeting that followed, procedures of the various hospitals represented were compared, prices discussed and general matters taken under consideration. Care of incident and transient patients was discussed; experience of the local hospital with Blue Cross and Blue Shield insurance was outlined; and the group took an active interest in a discussion by L. R. Bailey, of Hale Center, concerning recent establishment of a resident dentist in the Hale Center hospital.

Dr. Paul L. Spring, head of the Parmer hospital, answered questions presented by the various visitors.

Attending the meeting were J. B. Copeland, manager of the Lockney hospital, and two directors, E. E. Harris and G. D. Turner; L. R. Bailey, manager of the Hale Center hospital; W. A. Hicks, Morton manager, and E. D. Thompson, director; Ralph Roden, Friona hospital manager and directors A. W. Anthony Jr., Floyd Schlenker, Jim Shaffer; Dr. Paul L. Spring and R. A. Tynes, pharmacist at the county hospital.

Two More Service Stations For City

Work has already begun on the installation of one additional service station in Farwell, and it is understood that a second is definitely in the offing.

Workmen were busy the first of the week rearranging the buildings and making other preparations for a station soon to be opened by Grady Head on his property just east of the Frank Seale location on main street. It is understood that Head plans to lease the station and Sinclair products will be featured.

Reports also are that the Barnett Oil Company of Clovis is making arrangements to erect a new station just across the street from Bagley No. 2 on Highway 70 in the east part of town.

FOX DRUG STORE

Farwell, Texas

HOPPERS—

(Continued from page 1.)

pointments to West Point to make to young men of this district, and enlisted the aid of the American Legion in selecting candidates. And today, here is an air mail, special delivery letter from the new congressman, asserting definitely that the Canadian River dam north of Amarillo will be built. Guilt may not suit our political complexion, but we can't help but sit up and take notice when our representative rolls up his sleeves and begins to accomplish things.

Ralph Humble, local fishing enthusiast, is authority for the statement that the crappie in Conchas Lake are "shrinking up". Ralph, Mike Edwards and Olan Schleuter spent a couple of days at the favorite fishing hole last weekend and succeeded in netting "about our limit" of small crappie. Ralph says that those big ones that were being taken in large numbers early in the season have either "hid out or been caught". Even so, we are still hoping to get another crack at them at an early date.

Uncle Tom Randol, who now lives in "Uncle Tom's Cabin" on the back of his son's premises in Farwell, became homesick for his old home-stead neighbors the other day, and decided to do something about it. He proceeded to cook up a big dinner of roast beef, blackberry cob-

bler and hot biscuits and invite some of his old neighbors in to spend the day. Mr. and Mrs. Perry Owens and son, Perry Jr., and Mr. and Mrs. Riley Boss responded to his invitation, and spent the entire afternoon visiting and reminiscing about the "good old days" when they were living out their h'mesteads, eating red beans and killing rattlesnakes.

Speaking about the old-timers, we are advised that more consideration is to be given the old settlers this year than ever before when the big Pioneer Days celebration is to be held in Clovis on June 1-4. We are glad to note this. To our way of thinking, the real pioneers of this section have, in the past, been crowded out too much by the jelly beans and drug store cowboys. The ranks of the true pioneers of this region are rapidly thinning, and if we are to have a celebration worthy of the name of "Pioneer Days", we need to give more thought to these sturdy old gentlemen and ladies who braved and endured the privation of pioneer living in order to bring to us the modern conditions which we today enjoy.

FATHER IMPROVED

Mrs. Jim Moore returned on Tuesday from Hale Center, where she had spent several days due to the serious illness of her father, Jack Smith. Mr. Smith was reported some improved on her return.
