

THE SCHLABS—Left to right, sons Charles and Raymond, and Father A. G.—pose with a truck load of their maize, which is breaking records in this section. The irrigated, fertilized crop is cutting 125 bushels per acre.

## FROM THE HOPPER

By HOP

The Tribune passes another milestone this week, and with this issue the newspaper is thirty-eight years old, enjoying the distinction of being the oldest firm in Farwell under the same management. Come next April and the present publisher will round out 24 years as head of the newspaper... and in the same location. So far as we are concerned, there is nothing to brag about in this accomplishment, but it is something for the books, nevertheless. To my knowledge there is not a single firm in the entire county that has been under the same management that length of time, and still doing business in the same location.

Oh boy, oh boy. We have at least the promise of some venison steaks, providing, of course, the lady is successful in bringing in a deer from her Colorado hunting trip. Mrs. Murry Dial has promised us some venison when she gets back. She and Murry took off last Saturday for a deer camp west of Leadville, and here's hoping she will bring in more than she did on her last similar trip. On that occasion, all she brought in was a sad story of getting lost.

Homer Martin was telling of some of the problems he ran into when he was making arrangements to get married recently. In order to keep the whole affair a secret from all his friends at this end of the line he was leaving arrangements to his bride-to-be, in Amarillo. Finally, came time to get the license, and he broached the subject to her. "And that's where she balked," Homer said.

Jim Miller was in the latter part of the week and asked that his paper be changed to Muleshoe. (Jim, his many friends will remember, was married not long ago after batching for a long, long time. Now, since he has married, he has rented his farm, sold his tools and moved to town. Reminds me of the story I heard about an old cowboy who had spent a normal lifetime out in the cow camps. Finally, the old cowpuncher came into his own financially. He sold out and moved to Fort Worth. Two of his friends were discussing his good fortune. "Yes," said one of his acquaintances, "Old George struck it rich. Now he's livin' in a fine home in Fort Worth, has an ice box and wears a gown.")

## Meeting Is Called For Red Cross Workers

Mrs. Waunita Hutchenson, district representative of the American Red Cross, has called a meeting of the Farmer County Chapter ARC, at the American Legion Hall in Bovina on Thursday evening, Oct. 27, at 7:30. In announcing the meeting, Mrs. Hutchenson said there were a number of urgent matters which require the attention of the local Chapter, including the election of new officers. All officers of the Chapter are expected to be present, she said, and all other persons in the county interested in the work should attend.

Any person who has contributed one dollar or more to the Red Cross during the past year is a member of the local chapter and entitled to a vote, Mrs. Hutchenson added.

## USE OF FERTILIZER EFFECTIVE, WITNESS RECORD GRAIN YIELD

It not only pays to advertise, it pays to fertilize, as the Schlabs Brothers, who operate a beautiful 340-acre tract three miles east of Black, have proved this week.

Starting their maize harvest the past Wednesday, the Schlabs—Raymond and Charles and Dad A. G.—have figures to prove their claims.

On the farm, the boys planted 46 acres of maize—using a 24-inch drill rather than seeding the customary 36-inch rows—with two 2-acre plots being particularly marked for checking.

On one 2-acre spot, 150 pounds of ammonium nitrate per acre was used, and cutting last week proved without doubt the value of the fertilizer, as the field was cutting 125 bushels to the acre.

An adjoining 2-acre plot, which received no fertilizer, was harvesting out at 80 bushels per acre, and the remainder of the 46 acres, which was fertilized with 170 pounds of ammonium nitrate per acre, is yielding 115 bushels.

All of the field is irrigated, and Raymond estimated that the crop was watered "about four times" during the growing season. The fertilizer was applied at the last cultivation, around the last of July, with the operators using a side dressing attachment on their machine.

The Schlabs not only proved that fertilizing pays off on their maize, they experimented earlier in the year with a wheat tract. On the acreage where 200 pounds of ammonium nitrate was used per acre, the yield reached 53 bushels; where 100 lbs. of fertilizer was applied, the average was 40 bushels, and where none was used the yield dropped to 28 bushels.

The maize yield is so heavy, actually, that even with two big trucks making the short run to Black elevator, young Charles had to halt his combine and wait for somebody to return and catch the next unloading. All of the grain is being put in storage at the Black elevator.

The Schlabs moved to their present location in 1941, operating their 340 acres and another quarter which they rent. One irrigation well was put down in 1943 and a second one was sunk in 1948, Raymond said.

Asked about the cost of using fertilizer, County Agent Ollie Limer said that the nitrate costs around \$4.50 per cwt., which is only a drop in the bucket compared to the yield received. He added that agents recommend an application of not more than 200 pounds of fertilizer per acre.

## NEW TEXACO STATION READY TO OPEN SOON

Tom J. Finley of Clovis, who recently purchased the filling station property in Texico commonly known as the "Jones boys' location", has had a crew of workmen remodeling the property the past several days and plans to be ready to open for business in the near future.

The grounds and buildings have been thoroughly modernized and a crushed rock driveway laid in and around the approaches. Four new pumps will be installed and a complete line of Texaco products carried.

This will be the second modern station Finley has recently opened in Texico the other being the State Line Station, managed by James Spurlin.

## ATTEND CONVENTION

Judge and Mrs. A. D. Smith left here Saturday for Galveston, where they will attend the annual gathering of the Texas County Judges and County Commissioners meeting in that city, which opened on Monday.

Commissioner W. S. Menefee and his wife left Thursday for the convention city, intending to visit the State Fair at Dallas before proceeding to Galveston. Commissioners E. R. Day, Frank Phillips and Charley Calaway were unable to attend due to harvest demands this season.

## 10-Year-Old Child Is Stricken With Polio

John Gordon, 10-year-old son of Mr. and Mrs. Dale McCuan of this city, was stricken with poliomyelitis on Friday of last week, and has since been removed to the Polio Center at Plainview for treatment.

The lad was taken to the Parmer County Community Hospital, in Friona, late Friday by his parents, after he had been dismissed from school on a complaint of feeling badly. It is understood that his case was not definitely pronounced as polio until Sunday, following the completion of tests made by Drs. H. H. Cooke and Paul Spring at the Friona hospital, and he was transferred to Plainview on Monday.

Information here is to the effect that the lad is paralyzed only on one side of his body.

## Hardage Plans Move To New Building

Mr. and Mrs. Walter Hardage, of the Hardage Hudson Co., stated early this week that they were now making definite plans to occupy their new building on main street in this city on October 31.

The large two-story building which has been under construction the past few weeks, is rapidly nearing completion and the contractors have given definite assurance that the new quarters will be ready for occupancy by that time.

The new quarters will house the three main lines of the firm, in addition to the large plate glass show-rooms where the new Hudson cars will be displayed. In addition to the Hudson agency, they are local distributors for U. S. Royal tires, Servel refrigerators and Quaker State motor oils.

Living quarters have been provided on the second floor of the building, which will be occupied by the Hardage family.

Hardage said the first of the week that arrangements were being mapped out for a big formal opening of their new quarters at a later date, probably in November. "We plan to put on a big party, with a number of the high officials of the Hudson company on hand," he stated.

## HAS GOOD STOCK

Willie Williams is showing the most complete line of new fall and winter merchandise at his Bovina store that he has shown since the war. He invites all county residents to drop in and look over his new stock for the entire family.

Tribune job printing is best.

# Grain Storage Still Critical

## Absentee Voting To Begin On Thursday

County Clerk Loyde Brewer said today that absentee voting in the special election throughout Texas would open on Thursday of this week and would continue until Friday, Nov. 4.

Actually, Brewer explained, two separate and distinct elections will be held on November 8, although the same officials will conduct both elections. The voters will be handed two ballots upon entering the polls. One will list the 10 proposed constitutional amendments and candidates for three school trustees. On the other ballots will appear the names of the three candidates who are seeking the office of state representative to succeed I. B. Holt, resigned.

Joe Jennings and Harold LaFont, both of Plainview, and Tom Dean, of Floydada, are seeking the post of representative of the 120th district.

Brewer said that another set of ballot boxes had been purchased by the county and would be used in the special election. Under a recent Texas law, five separate ballot boxes are required at each voting place, and with two elections being held at the same time, ten ballot boxes will be used at each of the eight polling places in the county.

Thus Parmer County now has a total of 80 ballot boxes. And that's not all: Brewer said should another special election be called before 90 days have elapsed after November 8, it will become necessary to have another full set of 40 ballot boxes. "We cannot open and destroy the ballots of any election until 90 days after the votes have been cast," he added.

## Rummage Sale Slated For Saturday, 22nd

All local residents who plan to contribute to the rummage sale sponsored by the local Legion Auxiliary are reminded today that the sale will be held on Saturday, October 22nd.

Officials of the Auxiliary are asking that contributions be turned in at the Lee Meeks home—not later than Friday noon—and if residents do not have means to get their contributions to the Meeks home, the Auxiliary will be glad to call if advised in time.

"The things you don't use, but which still have some wear, or use, left in them," are the things which Auxiliary members are asking for as donations to the sale. Linens, hats, shoes, clothing—especially for children—even odd bits of table china that gets pushed back, are acceptable, provided they are clean.

The sale is held at the American Legion Hall in Clovis.

## JURY CALL CANCELLED

Sheriff Chas. Lovelace said today that members of the petit jury who had been called to report on Monday were mailed cancellation notices.

The cancellation came when Jack Bee Wyatt, held here on a charge of bigamy, entered a plea of guilty after indicating that he intended to fight the case. Wyatt drew a two-year sentence in the penitentiary on his plea.

Subscribe to The Tribune!

## TAKEN TO HOSPITAL

Mrs. F. J. Park was rushed to a Clovis hospital, Monday morning, suffering with an acute and prolonged case of nosebleed. A specialist diagnosed the injury as broken blood-vessels and corrective treatment was administered. Mrs. Park had lost so much blood that she was given transfusions during the day, it is understood here. She is reporting to be recuperating nicely.

## Procedure Is Reversed, Defendant Calls Court

It remained for Jack Bee Wyatt, Clovis defendant, to set a new procedure in Parmer County District Court here last Thursday. Wyatt called the court into session, instead of the customary procedure of waiting on the court to call the defendant.

Wyatt, 62, who was indicted by the Parmer County Grand Jury last April on a charge of bigamy, appeared at the courthouse here, ready to enter a plea of guilty and receive his sentence. Upon arrival he was advised that District Judge C. D. Russell, who lives in Plainview, had recessed court and would not be back in Farwell until October 17, at which time the petit jury panel had been called to hear the Wyatt case.

"I am ready to get this over with," Wyatt is understood to have told local officials, and with that he took off for Plainview, 85 miles away, in his car, and was back in a few hours, bringing the District Judge and the District Attorney along to hear his plea.

Upon entering a plea of guilty as charged, Judge Russell sentenced him to two years in the penitentiary at Huntsville. Sheriff Chas. Lovelace took him to Lubbock, where, with other prisoners, he has reservations in the Big Cage for the trip to Huntsville.

Wyatt was married to Mrs. Ione McCall of Clovis, by Justice of the Peace Jess Newton of this city, on Jan. 7 of this year. Shortly thereafter, Mrs. Wyatt No. 1 is understood to have entered the scene, and Wyatt's arrest followed. Officers here said today that Mrs. Wyatt No. 2 is now an inmate at an institution for the feeble-minded at Las Vegas, N. M.

## TO MOVE SHOPS

Jess Latham and Lee Nichols announced the first of the week that they were making arrangements to move their work shops from the Hardage Hudson building to the building formerly occupied by Mary's Cafe on Main street in Farwell. In addition to continuing his upholstery work, Latham will set up a radio repair shop in the new location, and Nichols will continue his watch and clock repair work.

## TO MARKET

Mr. and Mrs. J. E. Stone, of the Stone Variety store, went to Lubbock the first of the week, where they spent a day selecting Christmas decorations for their stock.

Harvesting of the enormous grain crop over the area—believed to be at least 50 percent more than ever produced here before—was estimated at only half complete in Parmer County and 90 percent incomplete in Curry County, early this week as the threshed grain began to be piled out on the ground both on the farms and at elevators in the area.

A combination of a number of factors has brought about what grain men say is the worst congested condition of grain movements in the history of the county. First, there is the enormous crop, which was predicted many weeks ago. Further, the rail car shortage; the lack of storage space at the start of the season; and the rush to get the grain out of the fields before killing frost.

The only immediate relief in sight was the opening of some storage at abandoned airplane hangars at the Clovis field, and the completion of new storage in Bovina and Texico.

The Sherley Grain Co. at Bovina has under construction an additional 35,000 bushel storage unit (which was calculated to be ready for use before the close of the present week. In Texico, M. C. Roberts has a new storage unit under construction, but work on that project was delayed by storm damage some two weeks ago, and is being further delayed awaiting insurance adjustment.

C. M. Henderson has a 50x60 foot warehouse under construction, that can be used for sacked grain.

While this additional storage will help, grain men admitted early this week that it will be a mere "drop in the bucket" as compared to the actual needs.

The worst bottleneck is the inability to get rail cars to move the grain to terminal elevators. Grain men contacted said they were getting only three to five cars per week, when they needed ten times that number.

Every grain elevator in Parmer County was reported to be filled to overflowing—the same position they have been in since the first few days of harvest. Some grain buyers took the chance of buying the grain and piling it out in the open, but that practice has ceased. The only grain now being piled on the ground at the elevators is government loan grain, with the elevators making a charge for handling and loss. "All we can do is to dump the grain on the ground and move it inside for storage where we have room," M. C. Roberts said. Charge for such practice has been set at 10 cents per cwt.

Railroad officials indicated last week that the car situation would likely show some improvement early this week, but no easing has been noted by local buyers.

## Sisters Will Open New Variety Store, Bovina

Mrs. Alice Moore and Mrs. Troy Fuller, sisters of Bovina, are making plans to open a variety store in Bovina, and according to plans announced the first of the week, they expect to be open for business within the next week.

The new business will occupy the Moss building on Main Street in Bovina, recently vacated by Venable & Combs. The building is being redecorated on the inside and new fixtures are being set in place.

Some of the stock was expected to arrive the first of the week and additional shipments will be forthcoming as the stock is completed.

A lodestone is a magnetic stone.

# Game of Year Comes Here Friday

Facing a team which is going great guns and leading the race in District 3-B, the Farwell Steers open their last home stand of the year on Friday night, when the Olton squad comes to the local gridiron.

Coach Louis Purvis of the Steer aggregation, said that barring accidents during the week's practice, he would have a full crew on hand this Friday night, which raises the hopes of local fans considerably.

On paper, the Olton team has a three-touchdown edge on the Steers. Two weeks ago, the local dropped one tally behind in a hard game to the Dimmitt squad, and last Friday night Olton and Dimmitt locked horns in a mighty battle which saw the Olton-ites on the long end of a 13-0 count. However, and this could be a horse of another color, the locals were handicapped by injuries in the Dimmitt game, with Jerry Pool completely out of the lineup and on Ford being allowed to play

only spasmodically. "Providing the linesmen can offer sufficient protection to passer Ford, the Farwell aerial attack is expected again this week. Both Bobby Poteet and Cary Joe Magness have proved themselves as receivers, and the firing arm of Ford was in beautiful form last Friday.

Class 3-B grid standings, as released the first of the week, show Olton with five victories and one loss this season, scoring 161 to their opponents 57. Hale Center is next in line with four wins and one defeat; Dimmitt has played six, losing one; Anton stands with four to 1; Farwell has four wins against two dropped; Springlake has a three-three average; Friona has won two and lost four and Spade, Whitharral and Amherst are cellar holders, having lost five, six and five, respectively, with no wins. In scoring, Farwell has taken 137 to their opponent's 47.

Tentatively, Purvis announced that

he would start Poteet and Magness at the end positions; Dollar and Hughes as tackles; McKillip and Norton as guards, Christian over the ball, with Ford, Terry, Poteet and Nix making up the backfield four.

Starting lineup for the Mustangs: LE, Franks, No. 14, 145 lbs.; LT, Malone, No. 23, 168; LG, LaDuke, No. 36, 126; C, J. Duncan, No. 11, 155; RG, Hall, No. 35, 132; RT, Ellis, No. 18, 148; RE Rose, No. 12, 148; QB, Millsap, No. 30, 148; FB, Nichols, No. 22, 146; LH, Alcorn, No. 19, 156; RH, Durham, No. 17, 145.

Subs will include Burrus, No. 13, J. Durham, No. 24, Keeter, No. 20, McClure, No. 14, Bancum, No. 25, Maynard, No. 21; Daugherty, No. 16, and Bledsoe, No. 31, backs; McAdams, No. 37, center; Holloway, No. 10, Gullet, No. 26, ends; Watt, No. 34, O. Duncan, No. 32, Smith, No. 29, Granberry, No. 28, tackles; Lee, No. 27, Powell No. 33, guards.

Game time, 8 o'clock.

**Health Note**

Texas State Department of Health

AUSTIN—Some people claim oysters are good only during the months which have R in their spelling.

But the Texas State Health Department says oysters are not safe any month with or without the R, in the seafood has not been cultivated, shucked, packed and shipped under sanitary conditions.

Texas' veteran state health officer, Dr. Geo. W. Cox, says oysters have much to commend them as a source of food.

"They have protein of good quality, iron and copper (important as a protection against anemia), iodine, which is essential to proper working of the thyroid gland, and a fair amount of vitamins," Cox says. But he adds emphatically, "Beware of uncertified oysters."

According to the doctor, each oyster grower in Texas is given a certificate of approval for the oyster beds he uses, provided health department officials find the beds are free from pollution, and the shucking houses are clean and well-kept. Otherwise, no certificate.

Each shucking house (where oysters are opened) must have a certificate showing all employees are free from communicable diseases, especially typhoid fever. The certificates are issued annually.

The Federal government cooperates with the State by keeping a list of all certified shippers in Texas. If a shipper isn't certified by the State Health Department, his oysters can't be shipped in interstate commerce. And since Texas has some fine oyster beds, Dr. Cox says the interstate commerce ruling is an incentive for oyster shippers to adhere to sanitary practice. Otherwise they miss the out-of-state market.

That's the situation on oyster sanitation from a man who knows. So don't look at the calendar when you order oysters. Ask the seller if his product is certified by the proper public health officials.

tion from a man who knows. So don't look at the calendar when you order oysters. Ask the seller if his product is certified by the proper public health officials.

**Exes Will Be Welcomed At West Texas State**

CANYON—West Texas State College is getting set to welcome over 5,000 ex-students back to the campus on Friday and Saturday, Oct. 21-22, when the annual homecoming celebration will be held.

Plans for the gigantic festival are nearing completion, and according to the Homecoming Committee, it is expected that this will be one of the greatest celebrations in the history of the college.

Western week will start on the campus Wednesday, October 19, and students and townspeople alike are expected to don cowboy regalia in order to avoid the horsetank set up near the Administration Building.

A giant-sized pep rally with the traditional bonfire will take place Friday night at 7 o'clock north of Conner Hall. Immediately following will be the presentation of the homecoming play, "The Tightwad", in the administration auditorium.

A three-mile long parade will start winding its way through downtown Canyon at 10 Saturday morning. Over 10 bands, dozen of floats, comedy entries, horses, the football queen and countless other selections are planned for the parade. Feeding of the barbecue will start immediately after the parade, the feed to be held at the tennis courts just north of the English building.

Just prior to the West Texas State Trinity University football game at Buffalo Stadium at 2:30, the football queen will be crowned. She will be named this week by the T-Club.

After the game, exes will have a chance to visit friends and at 8 that night two big dances will open the entertainment. Modern dancing will

be staged in the new cafeteria and a Western dance will be held in Burson gymnasium.

**Weatherproof Soil, Advises Donahue**

COLLEGE STATION—Will the fall and winter raindrops strike unprotected soil on your farm and make flowing mud out of blowing dust? If so, says Roy L. Donahue, extension agronomist of Texas A. and M. College, your soil needs weatherproofing.

Soils, he adds, can be "proofed" against erosion losses by providing them with a green blanket of protection. That blanket can be made of any closely woven cover of growing green such as vetch, winter peas or one of the other adapted clovers. Or

if you don't want to plant a legume, any close growing crop such as oats, rye, barley or wheat will provide the weatherproofing against soil damage from fall and winter rains, says Donahue.

Few people doubt the value of weatherproofing the soil in the long run, says Donahue but what some doubt is this. Will it pay next year?

The answer to this question comes from records kept by extension service demonstrators located in all sections of the state. Corn following fertilized legumes made 36 bushels per acre against 18 bushels per acre where it did not follow fertilized legumes. This same method of farming, says Donahue, showed a per acre increase of 71 percent for cotton, 63 percent for grain sorghum, 56 percent for wheat, 65 percent for oats and 129 percent for sweet potatoes.

**You're ahead with Hudson**

40 YEARS OF ENGINEERING LEADERSHIP

HUDSON A LEADER IN RESALE VALUE! Come in today and ask us to show you the latest Official Used Car Guide Books of the National Automobile Dealers Association. You'll see that "step-down" designed New Hudsons command top prices in the nation's used-car markets!

**NEW**

**HUDSON**

ONLY CAR WITH THE STEP-DOWN DESIGN

WHAT a car! And what a royal welcome it's getting from value-wise Americans! Already, of the more than quarter-million owners of New Hudsons, over 120,000 are motorists who switched from other makes to own a "step-down" designed New Hudson—and as a result, sales so far this year are over 30 per cent ahead of last year's glorious record!

Yes, alert motorists have been quick to discover that Hudson's exclusive "step-down" design brings, not just more, but the most of the four things people want most in a motor car—beauty, roominess, road-worthiness and all-round performance!

Let's take road-worthiness for example! It's a fact that the New Hudson—thanks to "step-down" design—achieves the lowest center of gravity in any American stock car, yet there's full road clearance! Result: the safest, steadiest, hug-the-road ride ever known!

One Revelation Ride will show you that the "step-down" designed New Hudson is not only ahead—but years ahead! Indeed, the New Hudson is so advanced in design it's a protected investment for your motor-car dollars!

Why not come in for that Revelation Ride today, while we're offering the best deals in a decade!

## CITY CLEANERS

FARWELL, TEXAS

### Texas Offers Farmers Assistance In Selling Their Farm Produce

COLLEGE STATION—There is available to Texas cotton farmers four services from the U. S. Department of Agriculture that should help them sell their crop for the highest prices, says John L. McCollum, manager of the Production and Marketing Administration's office in Dallas.

Issued every week-end is a cotton market review that shows the demand, mill activity, movement, parity price and price of Middling 15-16 inch in the principal southwest markets.

During the ginning season two other services also go out weekly, farmers cotton price quotations and a cottonseed review. The quotation sheet shows what the various grades and staple lengths are bringing at key Texas markets and helps a farmer figure what his cotton is worth, either for the open market or for the either for the loan. The cottonseed review shows high, average and low grades of seed by principal producing counties and the price farmers are being paid per ton.

Mailed every two weeks during the ginning season is a quality report, which shows the percentages of cotton in each grade and staple lengths ginned in the various cotton districts of the state. It also shows whether cotton was reduced in grade because of rough preparation.

McCollum says they are yours for the asking and buyers, shippers, ginners and others who handle cotton are also eligible to receive them.

If you'd like to get these services, send your request to John L. McCollum manager, Production and Marketing Administration, USDA, 1104 South Ervay Street, Dallas, Texas. They are sent to you without cost.

### DARNING EGG, SIGHT SAVER

A two-faced darning egg is a sight saver. Paint half the egg black and use when mending light colored hose, paint the other half white and use this side when mending dark colored hose.

### TEXAS FRUIT CROPS

In Texas, 136 crops are grown—40 are of sufficient commercial importance to be reported by the U. S. Department of Agriculture. Crops of major importance are cotton, feed grains, rice, wheat, vegetables and fruits.

### Fall Months Are Better For Painting, Says Allen

COLLEGE STATION—It is surprising how a little paint and hard work can change the looks of things around the place. Paint is primarily used to protect the wood in the buildings but at the same time, a neatly kept farmstead is a source of pride and satisfaction to its owner and W. S. Allen, extension agricultural engineer-buildings, says now is a good time to do the painting.

He says the weather is more favorable during the fall or spring months. It is not too hot nor too cold. That makes it easier on the painter and the paint doesn't dry too rapidly as it sometimes does when the weather is too hot.

The paint job, says Allen, is no better than the application. The competent workmen will remove all loose paint and will guard against paint failure caused by excess moisture by seeing that the surface is painted only when dry.

Too much oil in the paint causes the paint to dry slowly and become dirty and faded, says Allen. Too little oil causes it to wear off rapidly. Cracking is caused by hard, quick-drying paints and wrinkles show up because of improper brushing of too much thinner or from skimping on the number of coats. Two coats are usually recommended if the surface is in good condition.

Local climatic conditions are an important consideration when paint selections are made, says Allen. In warm, humid climates, harder types of paint containing large amounts of zinc oxide usually stand up better. In dry climates, soft paints containing a higher percentage of white lead are better. The color depends on personal preference, but white is always a good bet especially for the house.

Allen says, it is always wise to check the label on the paint container before buying. Be sure you know what you are getting and then get what you pay for.

### DE LAUNAY IS AUTHOR

LUBBOCK—Jules de Launay, former professor of physics at Texas Technological college, is the author of a Naval Research Laboratory manual on electrostatics.

De Launay left Tech to accept a position with the laboratory in Washington, D. C. His manual is entitled, "Electrodynamics of a Superconducting Torus."

### IMPROVEMENT PROGRAM

LUBBOCK—A \$4,200 improvement program has been scheduled for the Texas Tech infirmary. Dr. Embree Rose, college physician, said today. Dr. Rose said the infirmary will be enlarged to add storage and office space to the infirmary building. Facilities in the isolation ward also will be expanded.

### UNYOKE 'EM, LET 'EM EAT

Yokes on cattle indicate that the cattle are not being supplied with

enough good forage to make them contented and want to stay on their side of the fence. A fertilized winter legume or small grain pasture for winter grazing will take the yokes off.

### WATCH FOR LIVE-OAK DISEASE

Live Oak trees are dying in central Texas from "live-oak disease." Severe pruning is recommended at the first appearance of the disease. Symptoms of yellowing or mottling of the leaves followed by death of certain branches or of the entire tree.

## It has a "100-horse heart"

Where else can so little money buy you so much "go"? In its field, only Ford offers you 100 horsepower... a V-type engine... 8 cylinders... and only Ford offers you a flashing new 95-horsepower Six in addition to a V-8.

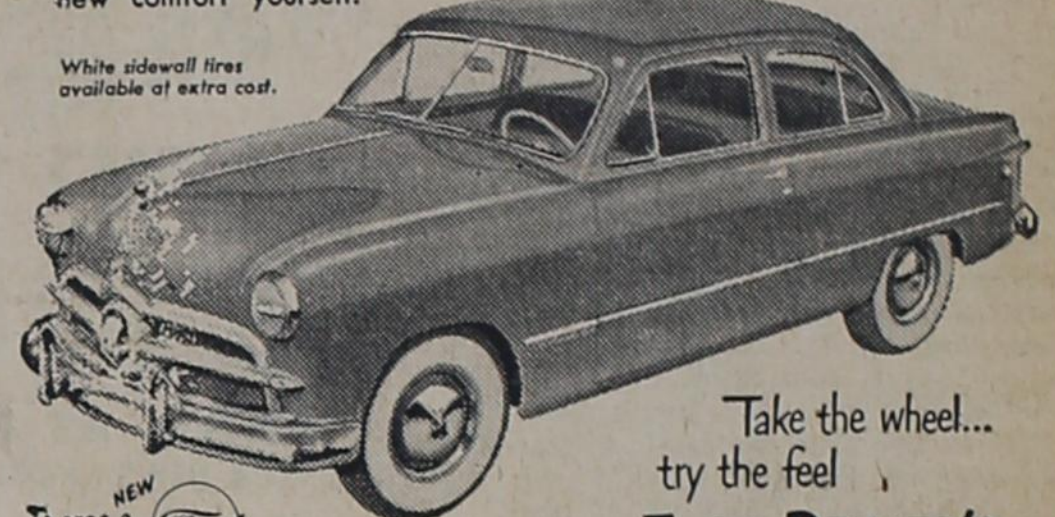

## It has the Fashion Award

Where else can any amount of money buy you the style that won Ford the New York Fashion Academy's award as "Fashion Car of the Year." And behind this style, you get Ford's 59% more rigid "Life-guard" Body and frame structure.

## It has the new Ford "Feel"

Where else can you get Ford's "Mid Ship" Ride... 35% easier acting "Magic Action" Brakes... "Hydra-Coil" and "Para-Flex" Springs... "Sofa-Wide" Seats. Come in for a ride. Feel Ford's new comfort yourself.

White sidewall tires available at extra cost.

Take the wheel... try the feel

While placing flowers on a grave, a man saw an old Chinese placing a bowl of rice on a nearby grave and cynically asked, "When do you expect your friend to come up and eat that rice?" The Chinese replied with a smile, "Same time your friends come up to smell flowers."

Snob: "My ancestors came over on the Mayflower." Snubbed: "Good thing they did, wasn't it? The immigration laws are so much stricter now!"

No joke—you will like our friendly one-stop service. We will keep your car full of the best gas and oil and we take small things like headligats and windshields into consideration. Drive in today.

**POP SPURLIN'S 66 STATION**

Farwell Texas

**Ripe Turkeys Bring The Top Prices**

**COLLEGE STATION**—Turkeys with pin feathers on their back and along the side of the breast are not ripe and are not ready for marketing. If your turkeys are in this condition, says George Draper, of the Texas A. and M. College System poultry husbandry department, you should start now to get them in top market condition.

Draper suggests that turkeys, not yet ripe, should be placed on full feed and should have their range limited. By full feed, he means that a finishing mash should be kept before the birds. He says you can also give your turkeys free access to home grown grains and don't forget to provide them with plenty of fresh water. He adds that turkeys will eat more feed if they have a good shade and now is the time when you want them to eat.

Five to six pounds of feed will be required to put a pound of gain on the birds, but Draper says, since you

are utilizing home grown grains, you will profit two ways. You will increase the quality of your birds and thus receive a higher selling price and the gain you put on will cost less per pound than what you should receive when you sell.

If your turkeys have been running on the range and are wormy, Draper says they should be dewormed before placing them on the finishing ration. It is a good idea to move the waterers and feeders at least twice per week for this will eliminate the chances of re-infestation from worms, he adds, and decrease the possibilities for disease outbreaks.

Turkey toms now weighing around 24 pounds and hens weighing about 14 pounds can be finished in about three weeks. The cool weather will help eliminate the pin feathers and the extra feed will help you put a quality bird on the market says Draper.

Longview, Texas, was named by surveyors who were impressed with the long-distance view from the town site.

**Boom Slowing Down On Texas Lands**

**COLLEGE STATION**—Almost two-fifths of Texas' farm and ranch land has changed hands since 1940. In one county, Nacogdoches, more than half of all farmland has changed ownership in the past eight years. And for the past two years land prices for Texas as a whole have been at record high levels.

But there is evidence, according to a joint USDA-Texas A. and M. College System study released by the Texas Agricultural Experiment Station as Progress Report 1181, "Texas Farm and Ranch Land Prices, 1948," that the boom is slowing down.

Actually the average per acre land price fell 1 percent in 1948; from \$41.79 in 1947 to \$41.36. The 1947 price level was the all-time high.

More significant, say John H. Southern of the USDA bureau of Agricultural economics and Wayne C. Rohrer of the A. and M. College department of agricultural economics and sociology in their report, is that volume of sales fell off 15 percent in 1948. There was also a 20 percent drop in total acreage sold.

"Such marked reduction in sales volume in connection with the leveling off of price can be taken as evidence of a slowing down in the activity of the land market," they point out.

The leveling off of land prices was rather spotty, and the range in prices in the various areas of the state was also wide, the highest sometimes being four to five times greater than the low price paid.

Average land prices in 1948 ranged from \$8.96 per acre on sales of three large ranch holdings in the Edwards Plateau grazing area to \$624.00 per acre for irrigated land in the Upper Rio Grande Valley.

"I ALMOST KILLED MY CHILD" \* \* \* Here's the moving story of a woman who waited nine years to have a child—only to discover that her baby was doomed to die a lingering death! It's a dramatic indictment against mercy killing. It's in The American Weekly, that great magazine distributed with next Sunday's Los Angeles Examiner.

## Royal Candidates For Carnival Are Named

Nominees for the race to the royal thrones at the Farwell school Halloween carnival were elected the first of the week by the four high school classes and the eighth graders, with the races to culminate on Saturday night, October 29th, when the King and Queen and their escorts will be presented in royal ceremony as the climax of the carnival.

June Christian wears the senior colors for the queen, with Don Ford selected as the king nominee and Pauline Sheets and Cary Magness as the princess and prince.

The juniors chose Jenean Lunsford as their queen candidate, Troy Daniels aspires to the king-ship, Caryetta Grissom is the princess nominee and John Christian their choice for prince.

Selected by the sophomores were: queen, Marcia Foster; king, Donald Jesko; princess, Katherine Magness; prince, Jesse Coburn.

The freshman queen candidate is Kayla Felts, her king, Dennis Rainey, princess, June Hardage, and prince, Junior Potect.

Eighth graders selected Jo Ann Cochran to represent them as queen, Frank Gully as king; Darlene Sprawls as princess and Phillip Casady as prince.

### Committee Sets Up Rules

In a special meeting, the committee in charge of the arrangements decided that booths could be set up by all organizations and classes within the school, but that non-school organizations would be excluded.

In view of the tremendous improvements made recently in the athletic department, the group decreed that all money from school booths would be turned in to the committee, with 50% being allocated to the athletic department to apply on payment for the lights at the gridiron. The remaining money will be apportioned to each room according to their needs the committee voted.

## Twenty-Five Girls Are Initiated Into Club

Twenty-five new members were accepted into the Future Homemakers of America Club at the Texico school last Tuesday night, when initiation ceremonies for freshmen girls were held.

Coeta Roth, president of the club, was in charge of the lovely candle-lighting rites, with Jo Beth Engram assisting as the "Spirit of Home Economics", Mrs. Jimmie Allman, sponsor, reported.

At the conclusion of the social hour, refreshments were served to the girls and thirteen mothers, who were present as honored guests.

## Visitors In Caldwell Home Last Week

Mrs. J. R. Caldwell, who lives south of Bovina, had the pleasure of having her brother and sister pay her a visit last week. The brother is Truman Claggett of Westwood, California, and the sister is Mrs. J. J. Frochlich of Hansen, Idaho.

Mrs. Caldwell and her visitors left the past Friday for Big Spring, Texas, to attend a family reunion. They will extend their trip to other Texas points to visit relatives before returning home.

## Legion Auxiliary Holds Meeting On Monday

Twelve members were present on Monday evening at the American Legion Hall for a regular meeting of American Legion Auxiliary, Justice-Williams Unit 516.

Business of the meeting included voting to contribute \$10 to buy Christmas gifts for patients in veterans hospitals, \$10 to purchase greeting cards which will be stamped and donated to the gift shop at Amarillo Veterans hospital, and \$12.50 to be given to the drive for polio funds.

It was reported that Mr. and Mrs. Wilfred Quickel and Mr. and Mrs. Alden Henderson went to Amarillo on October 7 to assist with a bingo party, given for the entertainment of veterans in the hospital.

The Auxiliary will have its fall poppy sale on Saturday before Armistice Day, at which time volunteer workers will be urging the public to wear the little red flowers of remembrance. The poppies are made by disabled veterans and proceeds from the sales are used for rehabilitation of disabled veterans, their families, or to help widows and orphans of deceased service men.

Final plans are being made for the rummage sale, to be held in the Clovis American Legion Hall on Saturday, October 22. Anyone in the community who wishes to donate to this project should contact an Auxiliary member or take their contributions to the Lee Meeks home before Friday of this week.

The next regular meeting has been postponed from the third Monday to Tuesday, November 22, when the Auxiliary will entertain the American Legion members with a turkey dinner at the Hall.

## "Father's Night" Is Observed By PTA

Observing "Father's Night", an annual custom, the regular monthly meeting of the Farwell Parent Teacher Association was held at the school last Tuesday night, October 11th.

Mrs. Harry Whitley and Supt. Jack Williams provided the entertainment, having secured a moving picture entitled "Achievement For Tomorrow" which was exceptionally interesting to all present.

Officials reported early this week that the membership of the Association is far below the number needed, and urged that all prospective members pay their dues before October 31, in order that they may be included in the state report.

The seventh grade class was given the prize for having the most parent members at the meeting.

At the close of the business session a social hour was enjoyed, with the fathers presiding over the serving tables. Refreshments of coffee, jelly rolls and doughnuts were served by Jack McManigal, Joe Crume, Sam Aldridge, S. O. Billington, O. B. Pipkin, Claude Rose, Jack Caves, Louis Purvis and Walter Hardage.

## On Short Vacation

County Agent Ollie Liner was out of the office the first of the week, planning to return on Thursday. Liner left here the past weekend, attending the Texas Tech homecoming at Lubbock on Saturday, and then continuing to Dallas, where he is spending a few days at the State Fair.

FROM ONE QUEEN TO ANOTHER . . . Miss America 1948, Bebe Shoppe (left), places the crown on the head of the new queen, Miss America 1949, Miss Arizona Jacque Mercer. Miss Mercer, pert little brunette from Arizona's desert country, said her ambition is to be a "real dramatic actress." She said she once ran her father's tractor for 75 cents an hour to earn enough money to see a play. She already has been offered movie contracts but is undecided whether to accept.

## Mrs. Faville Is Hostess To WSG On Tuesday

The Wesleyan Service Guild of the Texico-Farwell Methodist Church met in the home of Mrs. LeRoy Faville, on Tuesday night, October 11 at 8 p. m., in the regular monthly session. Mrs. Mary Lou Cason, president, was in charge.

Mrs. Wana Brewer acted as program chairman, presenting Mrs. W. H. Graham, representative of the WSCS, who explained the national "Week of Prayer" observed by Methodists.

During the business session, financial matters were discussed along with the project of the year.

At the close of the meeting, refreshments were served to Mesdames Wana Brewer, Lenora McDermitt, Crystal Moss, Murphy Duncan, W. H. Graham, Agrie Jones, Ellen Wurster, Ruth Walker, Mary Lou Cason and the hostess, Wanda Faville.

## Visit Old Friends

Mr. and Mrs. Clyde R. Davis, of Wichita, Kansas, visited in the Wilbur Charles home northwest of Bovina over the past weekend, on their return from an extended tour in the Pacific Northwest, including a tour into Canada. They made the trip by auto and carried their own accommodations with them in the form of a modern house trailer.

On tour since July 8th, the couple had covered better than 9,000 miles when they arrived at the Charles' home last Thursday evening. Mr. Davis and Mrs. Charles were old acquaintances at Woodward, Okla., a number of years ago.

## Banquet Slated For 8th

The annual Thanksgiving banquet of the Farwell Parent Teacher Association will be held on Tuesday night, November 8th, officials of the PTA reminded this week. Committees to handle arrangements have been appointed.

## Attend Homecoming

Mr. and Mrs. B. A. Rogers and Mr. and Mrs. W. H. Graham were in Portales last Saturday, attending the homecoming celebration held by Eastern New Mexico University.

## Members Are Urged To Donate Pies

All members of the Farwell PTA group were reminded this week that the Association will sponsor its usual "pie and coffee" booth at the school Halloween carnival on Saturday night, October 29th.

In this connection, Mrs. Jack Williams has asked that members bring two or more pies when they arrive at the carnival, or send them in advance, in order that the booth will be well supplied with home-made pastries.

## Daughter Arrives

Mr. and Mrs. O. E. Garoutte, of Sudan, are the parents of a baby girl born Wednesday, October 12, at 9:30 p. m., at the McNeff Clinic in Farwell. She weighed 7 lbs. and 12 oz. at birth. Dr. McNeff stated on Thursday that this was the first newcomer to be delivered at the clinic.

## Here From Abilene

Mrs. J. D. Thomas and son, Warlick, of Abilene, spent the past weekend visiting with friends in Farwell and attending business matters. They returned to Abilene on Sunday afternoon.

## IN MAYFIELD HOME

Little Miss Diann Lovelace spent Saturday night with her grandparents, Mr. and Mrs. Howard Mayfield, near Friona. Her parents, Mr. and Mrs. Woodrow Lovelace, visited in the Mayfield home, Sunday, bringing the little miss back to Farwell. Also visiting her parents over the weekend was Miss Peggy Mayfield, who attends college in Canyon.

## Attends State Fair

Warren G. Harding, of the registrar's office at the Texas Tech College in Lubbock, has been in Dallas attending the State Fair of Texas for the past ten days. Harding was sent as a representative from the Lubbock college, and returned to his position the latter part of last week.

## Return Home Sunday

Mr. and Mrs. Willis Magness returned home Sunday from Mineral Wells, where they spent the past several weeks, with Mrs. Magness receiving medical attention at the Texas city.

## IN HOME EC CLUB

PORTALES—Eastern New Mexico University's Home Economics club has accepted 18 new members, according to Miss Olga Saffry, associate professor in home economics.

Included in the group are Juanita Turner and Grace McDaniel, both of Texico.

## HERE FROM TATUM

Mrs. Bill Rutherford and son, Jimmy, of Tatum, are here to spend several days with her mother, Mrs. T. E. Lovelace, who is ill.

Mr. and Mrs. James Box and Cindy, of Portales, spent the weekend in the home of her parents, Mr. and Mrs. Louis Cailouett, in Texico.

Les Houghteling, of Portales, visited his brother, C. D. Houghteling, in Texico, on Friday.

Mr. and Mrs. Les Means spent the past weekend visiting in Altus, Oklahoma, with her sister, Mrs. H. B. Simpson, and family.

Fred Houghteling, of San Antonio, was a visitor last week in the home of the C. D. Houghtelings.

Miss Twila Strickland, who is employed in Lubbock, was a weekend guest of her parents, Mr. and Mrs. Ralph Humble.

Mr. and Mrs. Jess Newton and Tom Adkins spent the past Sunday in Amarillo, visiting in the home of Mr. and Mrs. Orville London.

## KINGMEN TOILETRIES FOR MEN

A new and complete line of those famous Kingmen toiletries for men, including talcum, shaving lotions, deodorants, shaving sets, shaving bowls, etc.

These are the items many of our customers have been asking for lately.

### CARD OF THANKS

We wish to take this method to try to thank all those who helped in any way in the binding and shocking combining and hauling the feed of J. T. Mayfield. Words cannot express our thanks and appreciation. May God bless each and every one.

Mr. and Mrs. J. T. Mayfield and daughter,  
Mr. and Mrs. G. B. Mayfield,  
Mrs. Lola Sanders,  
Mr. and Mrs. T. L. Gleason and Family,  
Mr. and Mrs. E. A. Parham and Family.

Toby Booth and A. C. Henneman, WT students, were in from Canyon to spend the weekend with friends and relatives.

Mr. and Mrs. Alvin Hammonds are visiting relatives this week. She is the former Pearl Johnston.

Mrs. Cora Bell Moss, of Clovis, was here on business, Thursday.

### PTA MEETS

The local PTA held a meeting on Monday night, October 10. Children from the third, fourth, and fifth grades, with the assistance of Mrs. Hammonds, Miss Paul and Mrs. Williams, performed for the group.

Mr. Morgan, registrar at WT, Canyon, spoke to the group about team-

work between parents and teachers. Mrs. Cash Richards, president, was in charge of the business. Mrs. Vernon Estes read the minutes and the financial report was followed by the PTA prayer by Mrs. Richards.

### Re-Work Your Furs This Winter And Save Money

COLLEGE STATION—"Have you an old coat with fur collar and cuffs, slightly worn? Or a fur jacket or muffs stored away? Bring them out, and even if bare and worn in spots, they may be cut and reworked at home with a considerable saving to the winter wardrobe."

That is the advice given by Mary Routh and Nena Roberson, extension clothing specialists of Texas A. and M. College System. Old fur pieces may be renovated at home and used to add good looks and warmth to winter clothing.

Careful cutting and matching is required, the specialists say, "but don't be afraid of the job."

To clean fur, dampen corn meal or sawdust with a dry-cleaning solvent such as carbon tetrachloride and rub into the fur with the hands. Then shake, brush and air. Small pieces of good quality may be washed if badly soiled. Use mild soap with an oil base and warm (but not hot) water. Rinse and squeeze out as much water as possible, then hang up by the edge so that air circulates on all sides as it dries. Pelt hardens as it becomes dry, so work it gently between the hands to keep it flexible. When thoroughly dry, shake and brush until the fur is fluffy.

Glazing gives fur a sheen, but it must be done with a great deal of care. Brush and comb the fur well. Lay it flat. With a damp sponge, stroke the fur lightly in the direction the hair grows. Be careful that no water penetrates to the skin. Then cover the fur with tissue paper to absorb and keep moisture from the skin, and run a hot iron, very quickly and carefully, over the paper. Remove the paper and run the iron rapidly and very lightly over the fur, again in the direction of its natural growth.

To cut fur pieces, first mark the pattern with tailor's chalk on the skin side. Cut just through the skin with a razor blade. Never use scissors because they clip the fur while cutting the skin.

To join two edges of fur so the seam does not show, lay together so that the fur of both pieces runs in

the same direction. Then lay fur sides together, push the hair away from the edges to prevent catching it in sewing, and sew with a close overhand stitch, using a fine needle to prevent making large holes in the pelt.

Fur usually needs a layer of padding next to the pelt side to make it look better and wear longer. Use soft material such as outing flannel and attach it to the pelt with tacking stitches.

To sew fur to cloth, attach tape about a half inch wide to the edge of the fur. Lay the tape against the fur side, push the hair back from the edge and overhand tape and pelt together. Turn the tape over the skin side and sew through the tape, close to the fur and on to the cloth.

White or badly faded fur may need to be dyed to be useful. Use hair dye, following direction on the package. Dip the fur in the dye, then wash, squeeze out moisture and let dry. Shake and brush.

"Fur is the most expensive of all clothing materials, and it is worth the time and care needed to clean and remodel it," the specialists point out. "Even small and odd-shaped pieces may be put to good use, if they are matched and pieced so that seams don't show."

### ELECTED PRESIDENT

## Freshman News

Some of the Freshmen had a very delightful time at Jessie Cox's party. Those attending were: June Hardage, Rose Atchley, Nancy Aldridge, Junior Poteet, Jerry Bradshaw and Bobby King.

The Farwell Junior High Football team won its first victory with Muleshoe last Thursday night at Farwell. We hope to beat Friona this coming Thursday night. The girls are really boosting them.

Jimmie Gulley and Bob Daniels were elected class favorites.

## Sophomore News

We elected our class parents who were Mr. and Mrs. Phillips and Mr. and Mrs. Mears.

A group of our class had lots of fun at Lou Ellen's party Saturday night. All the girls are getting a little jittery about going after the boys for the Twirp party.

We elected Donald Jesko and Louetta McKillip for our class favorites.

## Junior News

We chose as our class favorites Gerald Norton and Caryetta Grissom. We sure feel sorry for Bob Gerles, you know he received a broken arm Tuesday night.

We are glad to have Jerry back in school this week. Aren't we Bobbie Ann? ???

## Senior News

The Seniors had their pictures taken last Tuesday. We got our proofs back today. Some were disappointed but after all—look what they had to begin with!

Pauline Sheets and Don Ford were elected class favorites. We surely do miss Mrs. Jobs we'll be glad when she comes back.

As usual we are studying constantly for our six weeks exams. When we don't have any place to go or any thing to do.

There surely has been a lot of school spirit floating around the last few weeks. When anyone feels like singing or yelling, they start, all the rest follow. We have really been having some good pep rallies on Fridays in assembly. Last Friday Bro. Holladay made a pep talk, the band played, and the pep squad yelled. The most impressive part of the assembly was when the band, pep squad and the football boys went to Jerry's home and we hoped raised his morale.

We had a student body meeting at which we elected Caryetta Grissom as the best all-around girl and Don Ford as best all-around boy. Billie Christian as the most popular girl, John Christian, most popular boy; and June Christian and Bobby Poteet as high school cuties.

Saturday night at 7:30 a crowd started gathering at Lou Ellen McCoy's house. Those present were Wanell Hughes, Jo Ann Spurlin, Jesse

Colburn, Bob Gerles, Beryle Nix, Wessie, Ray, and Katherine Magness, R. A. Cassidy, Gerald Curtis, Neal Walls, Rose Hines, Jackie Doshier, Valeria Dial and A. C. Henneman. Mr. and Mrs. W. C. McCoy and Mr. and Mrs. H. C. McCoy were sponsors.

After several games were played, punch and cookies were enjoyed by all.

—FHS—

## WE WONDER . . .

Why Bobbie Ann went to see Ja-of school?

How excited the boys are about the Twirp party?

About Jimmie Gulley and Bob Daniels?

How many boys will be ready on Tuesday night when the girls arrive?

Who Ann Storrs went with Saturday night?

Why some girls get their rings too big and a year ahead of time?

Why Ione and Robert were talking Monday evening in the study hall?

Why we had tests last week? Don't the teachers know this week will be the sixth week?

Why Dot and June were so interested in seeing Tech and Baylor play football?

What the Texico girls have that the Farwell girls don't have?

## "Dam West Texas, Or West Texas Damned" Water Battle Chant

ABILENE—Factual information upon the water problems and needs of every town in West Texas is to be presented to officials of the U. S. Bureau of Reclamation, Department of Interior, at the annual directors' meeting of the West Texas Chamber of Commerce in Fort Worth, Nov. 22.

President John D. Mitchell of the WTCC has called upon all local directors of the organization and local Chamber of Commerce managers to prepare an official document, to be signed by those officials and the mayor, citing water needs and problems. The information is to be sent to WTCC for delivery to the officials at the Fort Worth meeting where it will be presented by Lawrence Hagy, Chairman of the WTCC Municipal Water Rights Committee.

"State with all your power of statistics and persuasion your domestic and industrial water needs and requests for help," the letter says.

Mitchell and Bandeen call attention to the river basin surveys of the Bureau of Reclamation, now under way in West Texas, which may eventually call for the consideration of some \$400 million in dams, reservoirs and pipelines for the West Texas area.

WTCC slogan for the Nov. 22 convention is "Dam West Texas or West Texas is Damned."

Victoria, Texas, was the home of the first meat paskery in the state.

SKI TECHNIQUE TAKES TO WATER . . . Who minds the weather when sports and scenes like this are available to cool off the sufferer? Let the temperature soar, it matters not to aquamolds Martha Mitchell and Kathleen Turner of Chicago. They have the perfect remedy for sizzling days as they skim over the water. The slalom stars, borrowing a bit of technique from the skiers, were chosen reigning queens at the water ski follies in Chicago's Railroad Fair.

## Cut Sorghum Roots To Stop Moisture Loss

LUBBOCK—West Texas farmers are urged to cut the roots of grain sorghums as soon as combining operations are finished to prevent further moisture loss in the soil.

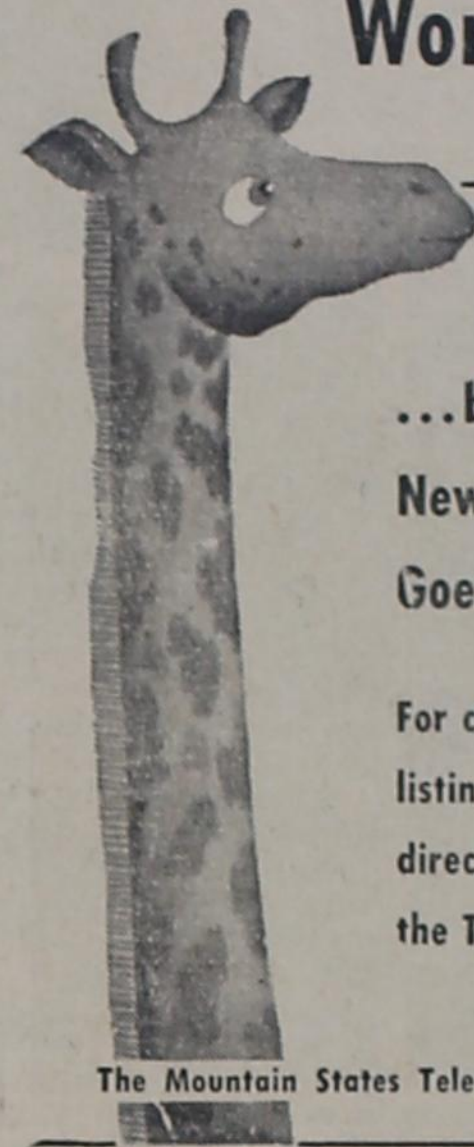

Dr. A. W. Young, head of the plant industry department at Texas Tech, says a "Hoeme" or chisel-type plow with sweeps will cut the roots and leave stubble to act as a wind and water erosion controlling agent.

"Stubble forms a barricade that will save farmers a great deal of their best soil if properly managed," Dr. Young explained.

## PULPIT RESTORED

The pulpit used by Dr. Samuel Bullein Johnson, first president of the Southern Baptist Convention, nearly 100 years ago has been restored by the First Baptist Church at Edgefield, S. C. The pulpit has been used for the past 50 years by a Negro Methodist Church.

Top, testing assembly for efficiency survey on electric well at W. B. McAdams farm near Muleshoe. Shown are Jeff Peeler, Southwestern Public Service Company Muleshoe manager; Earl Lewis, agricultural engineer for Southwestern Public Service, who conceived and perfected the tester; and Warren Dayton, Lewis' assistant. Bottom left, Lewis measuring water flow through water gauge tube, and, at right, side view of water flowing through tester.

# New Well Testing Device Is Perfected By Lewis

A new water well testing device, which gauges not only the flow of a well, but through a series of computations will reveal the percentage of efficiency at which a well is operating, has been perfected by Earl Lewis, of the Utilization Department of Southwestern Public Service's Plainview office.

The device, which actually is a simple arrangement, was put to test at several wells in the Plainview-Floydada-Muleshoe irrigation belts during August. Company officials announced that a testing service is now available to irrigation farmers, without charge.

The measuring device consists in the main of a seamless aluminum tube, 8 inches in outside diameter, equipped with a 6 inch circular outlet. In installing it for test, one end of the tube is slipped into the end of the discharge pipe on the pump and the joint made water tight with packing and clamps. The tube, a little less than 8 feet in length, is equipped about two-thirds of the way toward the outlet end with a small pipe, about one-half inch in size and a few inches long. A few feet of rubber hose (flexible) is attached to the small pipe and the hose is secured to a brace pipe so it will be elevated, something like three feet above the outlet tube.

Height of water in the small side tube is used for computation of quantity of water from the well. Actually, it is a velocity test, Lewis will explain, and rise of the water in the tube is sometimes influenced by turbulence or lack of turbulence of the stream coming from the pump. However, the test will average within two percent of actual flow. Meantime, tests are made on water levels in the well, and total efficiency of the well is based on a series of computations, not so complicated, but hard to explain in words, that are made from per minute outflow of the well, and static (pre-pumping) water level and amount of drawdown of the water level. Also included in the calculation is the amount of effort contributed by Reddy Kilowatt, the well known electric power gnome.

## Land Purchases May Be Complete, Dec. 1

AUSTIN—Bascom Giles, commissioner of the General Land Office and Chairman of the newly created Veterans Land Board, said today that it was doubtful if any land purchases for Texas veterans would be completed before December 1.

"The first bonds will be offered for sale on October 26," said the Commissioner, "and there is no reason to anticipate that money will be available for our actual use for at least another thirty days."

"The thousands of inquiries we have received," Giles continued, "and other necessary delays are making us later than we had anticipated. We ask veterans and land owners to bear with us until we have secured the money to complete transactions."

Giles also requests veterans considering making applications to "take cognizance of our regulations and

policies relative to mineral rights." The statute creating the Veterans Land Program prohibited purchases unless 50 percent of the mineral rights were conveyed with the land. The Board, composed of the Governor, the Attorney General and Commissioner Giles, ruled at its first meeting that a six-month priority would be given applications which included all minerals or not more than a one-sixteenth outstanding royalty reservation made before June 6, 1949.

"We are not approving transactions in which the present owner is seeking to retain mineral interest at the present time," Giles added. "Applications which do not conform to this policy are delaying the program by requiring the attention which could be used toward completion of conforming applications."

The land area of Texas is 168,732,160 acres. According to the 1945 Census of Agriculture, 84 percent of the land was in farms and ranches.

## Handling Cotton With Care Pays Dividends

COLLEGE STATION—The Texas cotton harvest is now in full swing and the shortage of pickers may cause producers to follow practices that will lead to lower selling prices, says F. E. Lichte, extension cotton gin specialists of Texas A. and M. College.

Care in handling cotton at harvest

time pays big dividends, Lichte says. Cotton picked green or wet and taken directly to a gin not equipped to handle such cotton may be reduced in value from \$5 to \$35 per bale. Rough preparation at the gin is costly to both the farmer and the ginner for they both lose money, he says.

Wet, dirty cotton usually means a poor quality product that brings less money, says Lichte and growers should pick carefully, take their cotton to the gin dry, and then see that

it is ginned properly.

Lichte says the cotton producer should not expect the ginner to turn out a quality product at the gin unless a quality product is provided by the farmer. The farmer and ginner both have a stake in the careful preparation of the cotton. It helps the ginner's business and the farmer's income. Two mighty important items says Lichte.

## IF A LAMP CARRIES THIS TAG

## IT'S GOT TO BE GOOD

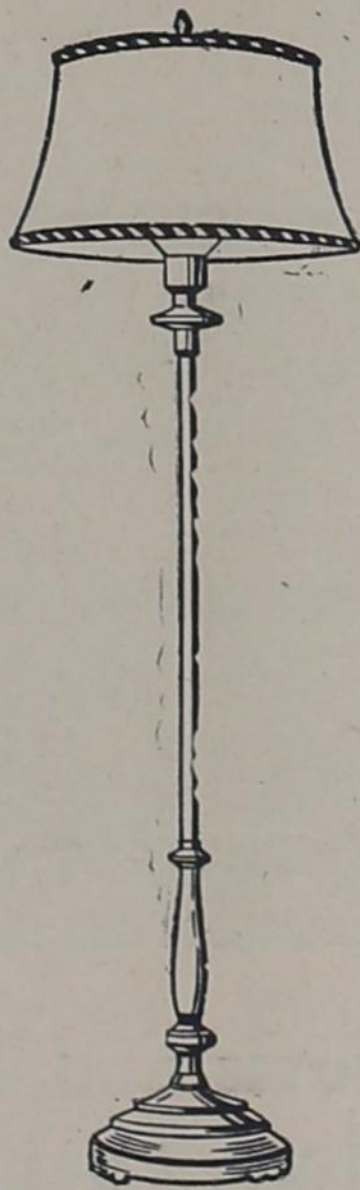

The appearance of the "Certified" tag on any lamp, of any type, assures you that the lamp has been submitted to rigid testing by an impartial testing laboratory. It assures you that the manufacturer of that lamp, one of over 100 leading American companies, has submitted his product to a complete test.

For example, the laboratory has determined that the switch will operate efficiently. It has ascertained that the cord is at least seven feet long, has a certified plug, to assure safety. The lamp itself is properly weighted to resist tipping, and of a finish which will ordinarily resist scarring or marring.

And above all, the "Certified" lamp has an exclusive new type reflector which will gain the most light from the bulb, and apply the light correctly for the use for which the lamp has been designed.

The next time you buy a lamp, make sure it is "Certified." Inquire at your favorite store for this new lamp.

# A Few ?'s to Ask the Printing Peddler

When the Peddler selling stationery and printing supplies solicits your business, there are a few questions which he should be willing to answer to your satisfaction.

Among them being:

?

Does he pay taxes in this community?

Does he donate space in his newspaper to the local community enterprises?

?

Does he pay wages to a force of employees located in this City, County or State?

Does his papers devote its entire space toward the betterment and upbuilding of this community?

?

Does he grant you every favor that you would ordinarily ask of a local newspaper?

Does the quality of his merchandise stand inspection—is it on quality paper stock and the printed matter attractively arranged?

Will he submit proof of your work before finishing and mailing it to you C. O. D.?

Does his price include postage and insurance charges?

Can he supply your order on short notice?

If he can answer all the questions in the affirmative, he is entitled to your business.

IF NOT . . . CONSULT

### STAMPS AND MORE STAMPS

LUBBOCK—Employees at the Texas Tech post office blinked, rubbed their eyes and started counting.

Sure enough, the package they received had 183 U. S. postage stamps plastered on it. The postage bill still reached a mere \$3.

"Somebody either broke up a stamp collection or had a lot of stamps left over from last year's Christmas card list," Postal Clerk C. H. Peek said.

Baylor University, now in Waco, was originally located at Independence, Texas.

### LEGAL NOTICE

CITATION BY PUBLICATION  
THE STATE OF TEXAS

TO: Mrs. Katherine Williams, Defendant, Greeting:

You are hereby commanded to appear before the Honorable District Court of Parmer County at the Court House thereof, in Farwell, Texas, at or before 10 o'clock A. M. of the first

Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 14th day of November, A. D. 1949, then and there to answer Plaintiff's Petition filed in said Court, on the 26th day of September A. D. 1949, in this cause, numbered 1486 on

A brief statement of the nature of this suit is as follows, to-wit:  
Plaintiff alleges that he married defendant November 10, 1948, and because of the excesses, cruel treatment and outrages administered to him by the defendant, their further living together was rendered insupportable. That no child issued from said union and marriage and there is no community property. Plaintiff

prays for judgment for absolute divorce from defendant, as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Farwell, Texas, this the 26th day of September, A. D. 1949.

Attest:

LOYDE A. BREWER, Clerk,  
District Court, Parmer County, Texas.

By: Rosa Lee Tabor, Deputy.  
(SEAL).

# Air Attack Swamps Spade

Riding the strong right arm of Donald Ford, the Farwell Steers bounced back into the conference winning column Friday night, when they downed a visiting Spade aggregation, 33-6. Ford carried the mail for one touchdown, shot a 20-yard pass to Cary Joe Magness and a 60-yarder to Melvin Terry for two six-pointers, in addition to booting a pair of tries between the uprights.

Proving his indispensable speed, Jerry Pool was back in the lineup at times Friday night, and acquitted himself for being benched for a week after an injury by breaking loose for two beautiful end-zone scampers, Magness racked up the other extra point, connecting on a short pass from Terry.

Prentice, the man of the night for the Spade squad, was a ball-carrying demon, going time after time for gains, and turning in the longest run of the evening when he took a Farwell kickoff—after the first Steer counter—on his own 15 and simply ran over and past all opposition for the single Longhorn score.

With his blockers offering him plenty of time, Ford, who recently resigned catching duties at end to take the other end of the stick, filled the airways with his tosses, and racked up a good batting average on completions. Bobby Poteet made probably the most spectacular catch of the evening when he leaped and incredibly snagged a ball which appeared past his reach, for a 20-yard gain. The pass that hurt was the one shot by Ford to little Doshier, sub, in the last second of the game, as the ball led Doshier just a shade too far and his completed catch was outside the end zone.

**First Quarter**  
Spade elected to receive and Ford booted to the 25, where Prentice snared the leather and returned to the 31. E. Trull got 2 yards and Prentice fumbled with Poteet covering on the Spade 37. On the first Steer offensive play Pool had the ball stolen by B. Mayon and Spade resumed offensive on the 37. Hughes dove in to nail Prentice for a 10-yard loss, Prentice made 2, and E. Trull shot one to Don Streety on the 44. Prentice bored for 2 and a first, added 2, hit it again to go into Farwell territory to the Steer 41 for a first.

B. Mayon got only 1, Spade drew a 5-yard fine which was wiped out on the next play by Prentice, and E. Trull stumbled for a lost 5, with Spade kicking out on the Steer 10. Ford got 10 for a first as Pool cleared a path, Nix was nailed for 2, Ford advanced to the 35, Ford to Magness hit the Spade 42. Ford to Poteet was intercepted by B. Mayon on his 35. Prentice got 5 before hit by Ford, B. Mayon was nailed for nothing by Coburn. Spade drew a 5-yard penalty. E. Trull passed to Don Streety to the 44 and Prentice added 1 for a first Prentice hit midfield as the period ended, 0-0.

**Second Quarter**  
Coburn nailed N. Trull for nothing, Terry snagged McKeowen for no gain, and Spade kicked to the 10, with Pool returning to the 18. Terry made the 44, Coburn lost 5. Ford gained 4, Ford to Poteet reached the Spade 35, Coburn got nothing, Ford sailed to the 24 and Terry went down to the 15. Ford was rushed and shot an incomplete pass, then tried another which went over the head of Poteet in the end zone. Ford bored to the 2, and then was rushed back by Neidmast for a 6-yard loss, Norton had his hands on a pass from Ford but let it get away, and on the last try, Ford bulldozed his way into paydirt. Terry fired one to Magness for the extra. Score, 7-0.

Then came one of the hottest plays of the night, as Ford booted square-

ly downfield into the waiting hands of Prentice on his own 15. Prentice gathered the pigskin in and pushed his way through a nest of Farwell men, breaking into the clear and going the whole way for a score with practically no help. Coburn nailed Prentice on his try for the extra. Score, 7-6, Farwell.

Spade sent one downfield to the 12 and Poteet returned to the 18. Ford reached the 29, Nix made 4, Ford tried an incomplete aerial, then fired one to Terry on the Spade 43. Don Streety rushed Ford on the next play, pushing him back to the Steer 49. Ford to Poteet and to Coburn were both incomplete and the ball went over on the Farwell 48.

Prentice tried to get through, was blasted from the ball by the Steer linesmen, and Poteet and McKillip covered on the Spade 48. Ford to Terry on the 10 was incomplete as Terry failed to retain the ball, then Pool took over and was off to the races for a TD. Ford's kick was off, and Farwell led, 13-6.

With time almost out, Ford intentionally dribbled a poor kick to Spade and Prentice made 3 as the period ended.

**Third Quarter**  
The locals received on their own 20, Poteet returned to the 41, Nix advanced to the 44, Pool reached the Spade 40, Poteet fumbled but recovered to lose 1, Pool almost got free and hit the Spade 6, and Ford shot Magness in the end zone. His kick was true. Farwell led, 20-6.

Kicking away from Prentice, Ford shot to the 10, B. Mayon toted to the 25, Prentice made 2, E. Trull added 4, then shot a pass to B. Mayon which was slapped down in the nick of time by Pool. Spade had to kick and Pool took the ball on the offensive on the 40, came sailing out around end, stiff-armed K. Streety at the last minute and rushed into the golden area, as Dollar cleared the last man out of the way. Ford's kick went to one side. Score, 26-6.

Farwell kicked to the 10, Prentice came back to the Farwell 43, then reached the 42, Hardin plunged for 2, McKillip got B. Mayon for no gain, Prentice reached the Spade 42, Hardin again was trapped and Farwell drew a 15-yard fine which set Spade up on the 25. Prentice got nothing, Farwell was fined 5, and then Nix intercepted a Spade pass and scooted out to the 25. Ford reached the 50, shot an incomplete pass, Terry made nothing, and then Ford backed up and sent a 60-yard spinner right into the hands of Terry in the end zone. His kick was good. Score, 33-6.

Ford kicked to the 15, Prentice came to the 44, then got nothing as time ran out.

**Fourth Quarter**  
Prentice got nothing fumbled but recovered on the 32, then had to go after a bad center pass but finally got his kick off, with the ball going out on the Spade 40. Ford was hit by Neidmast for a minus 10, and B. Mayon intercepted a pass on the Farwell 50, reaching the 35 before being run down by Ford. Dollar snared Prentice for no gain, Prentice reached the Farwell 28, Hardin added 1, Prentice got nothing but Farwell drew a 5-yard penalty. Terry batted down a pass intended for B. Mayon, but Mayon then reached the Steer 19. Prentice went for 3, a pass to Ramage was incomplete and the ball went over on the 15.

Pool reached the Steer 41 but the ball was called back and Farwell fined 5, Ford went to the 21, Terry hit the 2 but again the locals were penalized, 15 yards. Rainey made 5 Ford to Terry spanned the Spade 44, as McKeowen nailed Terry when he received. Farwell fumbled and Spade covered on the Steer 47.

Ramage dropped a pass which ap-

peared complete and E. Trull tried two more incomplete aerials, with Coburn slapping down the second. Spade kicked to the 25. Ford to Poteet passed midfield, Pool went to the 15 with the entire Farwell team clearing the way, and Ford to Doshier was complete but out of the end zone as the game ended.

## Bovina Team Leading District 2 In Six-man Football This Year

The Bovina Mustangs, hitting a fast pace again last Friday night, retained their lead in District 2, six-man football with a 57-13 walloping administered the Three-Way team.

With this game, Bovina wound up the first half of district round-robin contest with a total of 165 points.

The most spectacular play of the game occurred when J. R. Ellison broke loose and ran the full length of the field for a touchdown.

Gene Brito sustained slight injuries, but will be back in the lineup this week, when the Mustangs will play the Bula squad on the Morton gridiron, Saturday night, Oct. 22.

The first touchdown of the season was scored against the Mustangs by the Three-Way team. With a score of 41-0 in the last quarter the Bovina second stringers allowed two scores by their opponents. Three-Way hit the end zone twice in the last four minutes of play. Their first counter came on a long pass and the second was the result of an 87-yard run after the recovery of a fumble.

In the district race, Pettit is running a close second with only one loss—and that to Bovina.

## Junior Teams Third In County Tourney

The Texico boys' and girls' junior softball teams both ranked third in matched tournament play to decide the county champions, last weekend, Coach John Armour reported today.

The girls soundly lambasted Field in their opening game, but went down under a barrage of Grady hits in the semi-final encounter, 15-3.

The boys, having drawn a bye in the initial round of play, were ousted in the semi-finals by Rosedale, in a hard, close, 8-5 contest.

## Friona Takes Close One From Yearlings, 20-21, Thursday

The Farwell and Friona junior grid squads battled it down to a near draw, the past Thursday night, with the visitors finally taking a close 21-20 decision over the fighting Yearlings.

Bob Daniel, right halfback, was credited with two of the Farwell touchdowns, and in addition, got one extra point on a line plunge. Frank Gully, left half, racked up the other six-pointer, and Jerry Bradshaw connected on a pass for the extra.

The starting lineup Thursday included Teddy Magness and Phillip Casady, ends; Edd Miller and Duane Herington, tackles; Leonard Rundell and Vane Doshier, guards; Buil Dollar as center; Ronny Dial as quarterback; Gully and Daniels as halfbacks; and Bradshaw as fullback.

Subs included Junior and Jerry Poteet, Pudge Rose and Gene Hardage.

The youngsters have an idle week facing them, after which they go back into action against Muleshoe, on that gridiron, on October 27th.

San Angelo, Texas, has the largest inland wool market in America.

"BAD BOY" TO BADMAN . . . Audie Murphy, star of movie "Bad Boy" and World War II's most decorated hero, will portray for the movies the role of Billy the Kid, western cowboy and badman. Billy, known as the "Kid from Texas," was born in N. Y.

## Senior Softball Meet Slated For Weekend

Tournament play for the senior softball teams of Curry County, to determine who will wear the 1949 crowns, will begin on Thursday afternoon of this week at the Clovis softball park, according to a bracket drawn up by coaches and school superintendents the first of the week.

Coach Fern Stout and his girls were mentally patting themselves on the back Tuesday morning, since the first journey opponent is Forrest whom they defeated last week in regular play, 16-1. The team will be at full strength during the weekend with no injuries reported to date.

On the other hand, Coaches C. B. Stockton and John Armour were switching around to find a shortstop to replace Weldon Hale, who received three broken fingers last weekend. The team was also fortunate in the drawing, getting a bye in the initial round, and will face Ranchvale, also in on a pass, in a semi-final game Friday afternoon.

The complete bracket, for the girls, puts Rosedale opposite Melrose at 11 Friday morning; Texico vs. Forrest at 12:30 Friday; Grady and Field on deck at 2 Friday. Ranchvale drew a bye and will meet the Grady-Field winner at 12 Saturday; while the upper bracket semi-finalists play at 10:30 Saturday morning. Finals come at 3 that afternoon.

Rosedale and Grady open the boys' playing at 2:30 Thursday afternoon, with all other teams, Forrest, Ranchvale and Texico, getting byes. The Ranchvale-Texico semi-final match comes at 3:30 Friday, with Forrest playing the Rosedale-Grady winner at 1:30 Saturday. The final game is listed for 4:40 Saturday afternoon.

All time in the schedule above applies to Texas clocks.

Coach Stout indicated that his lineup would include Patsy Engram, as pitcher; Patsy Doshier, catcher; Billie Roberts, on first; Margie Reed, second; Peggy Caldwell, third; Violet Curry, shortstop Jo Beth Engram, short fielder. Right, left, and center fielders will be chosen from Lona Mae Jones, Bobbie Dawn Allred, Peggy Donahay, Tommie Vigil and Neva Sparks.

Wayne Tucker will be on the hill for the boys, with Paul Clark catching; Lacy Gant will take first; Jimmie Horton, second; John White, at third; Buddy Sparks, shortstop; Jim Billington, left field; Douglas Williams, right field; W. O. Reed, center field; and Jerry Doolittle, short center field. The lineup is subject to changes later, coaches added.

Waco's suspension bridge across the Brazos River, was built in 1870 and was the first bridge to span the Brazos.

### FOX DRUG STORE

FARWELL, TEXAS

### ON DEER HUNT

Mr. and Mrs. Murry Dial left here last Saturday for a deer-hunting trip west of Leadville, Colo., where they will join a party of friends already in camp. Charley Ross and son, of Bovina, have also gone to the Colorado hills in quest of deer.

### LOCALS WIN TWO

In games played on the Texico diamond the past Friday afternoon, the local softball squads racked up two long-range victories over their visitors from Forrest, coaches reported today. Final score for the girls stood at 16-1, Coach Fern Stout said, and Coach C. B. Stockton added that the boys outdistanced Forrest, 18-3.

### GETS BROKEN FINGERS

Weldon Hale, high school student at Texico, sustained three broken fingers on his right hand last weekend, when he was helping load a horse into a trailer. The boy was pulling on the lead rope, it is reported, when the horse reared and fell back, jamming young Hale's hand against the side of the trailer and crushing his fingers.

### SANTA FE CARLOADINGS

Santa Fe System carloadings for week ending October 15 were 26,227 compared with 28,447 for same week in 1948. Cars received from connections totaled 11,791 compared with 14,157 for same week in 1948. Total cars moved were 38,018 compared with 42,604 for same week, in 1948. Santa Fe handled a total of 36,698 cars in preceding week of this year.

EAST DIVORCES WEST . . . Yolanda Lopez Pucket, daughter of vice-presidential candidate in the Philippines, goes to Reno to divorce Robert Pucket, former U. S. army officer, whom she married in 1946 to culminate an East-West romance. They were married in Hilo, Island of Panay.

### PRESTON RESIGNS

Dr. Erwin Preston has resigned as president of the famous Cumberland University, Tennessee Baptist school. One of Dr. Preston's accomplishments during his term was to secure accreditation for the university's well-known law school.

It is reported that the Inca Indians in Columbia have asked government officials to forbid the sale of alcoholic liquors in their territory to "prevent quarrels and improve living conditions."
