

Snow, Sleet and Ice Hold Tight Grip

Farm Bureau Clinic Held At Lubbock

Four Board Members Returned In Texico

Voters of the Texico school district went to the polls in surprising numbers Tuesday to return to office four members of the school board whose term of office expired on March 1st.

Election officials said that 132 votes were cast, which proved to be many more than had been expected due to weather and road conditions over the district.

Eight candidates appeared on the ballots from whom the voters made their selections, returning all the four who were due to be retired this year.

T. T. Doolittle, who had expressed the desire to be retired this year, lead the ticket with 105 ballots, followed by Claude C. Curry with 98 votes. Perry Crawley and John Hadley came next in order with 86 and 66 ballots, respectively.

B. L. Harding polled 50 votes; Rushell Johnson, 46; O. S. Allred, 44; and James E. King, 26.

Funeral Services For Perry Barnes, Sunday

Funeral services for Perry Barnes, 52, a resident of the Lazbuddy community since 1929, were held at the Baptist Church at Lazbuddy last Sunday afternoon, conducted by Rev. L. B. Edwards. Burial took place in the Lazbuddy cemetery.

Barnes, who had farmed three miles north of Lazbuddy since coming to this county from Oklahoma 20 years ago, died of a heart attack while doing the chores about his barn last Friday morning.

Pallbearers were Albert Nowell, W. E. Payne, W. S. Menefee, Glenn Dunn, Roy Jordan and Bill Sherley.

Survivors are his widow, Mrs. Dixie Barnes; three sons, Wesley Leslie and Perry, all of Lazbuddy; three daughters, Mrs. Joe Scott Menefee, Friona, Mrs. Jimmy Seaton of Muleshoe, and Mrs. David F. Donnell of Concord, Calif. Also surviving are seven grandchildren, two sisters, Mrs. J. O. Brown of Hot Springs, Ark., and Mrs. Selvy Stroud, Sherman, Tex., and four brothers, J. N. Barnes of Corpus Christi, Earnest Barnes of Lubbock, Lee Barnes of Melvin, Ark., and W. E. Barnes of Anna, Tex.

REV. AND MRS. ALVIN SMITH, of Coffeyville, Kansas, who will conduct a revival meeting at the Pentecostal Holiness Church in Bovina, beginning Sunday, February 6. Services will be held nightly at 7:30.

REVIVAL IS SLATED AT BOVINA, FEBRUARY 6

A revival meeting has been announced by the Pentecostal Holiness Church in Bovina, beginning on Sunday, February 6. Mrs. J. O. Glover, pastor of the church, said on Monday that previous arrangements had been to start the meeting on January 30th, but weather conditions postponed the services.

Rev. Alvin Smith will act as the evangelist, being assisted by his wife, who will direct the musical activities. Services will be held nightly at 7:30, and the public is invited to attend, Mrs. Glover added.

ANKLE BROKEN IN FALL

Jim Curtis slipped on ice and fell in Texico, Saturday afternoon and received a broken bone in his ankle. He was taken to a Clovis hospital, where he received treatment.

Like This Weather? Brace For More!

It is hoped that you have been enjoying the past month of snow, ice and zero weather that has held most of the nation—including the high plains—in its grip.

For, according to the ground hog, we are in for another six weeks of the same thing. If the little rodent had little enough sense to emerge from his hole in the ground on Wednesday morning, he certainly failed to see his shadow, which, according to an old belief, means that we are to have six more weeks of winter.

Last Minute Rush Boosts Poll Tax Payments Here

A last-minute rush to the tax collector's office here, Monday, resulted in boosting the poll tax payments in Parmer County to 1362, compared to 1650 paid last year.

Attaches at the collector's office said they had a "drawer full of mail" that hadn't been opened and expressed the opinion that the polls would be near the normal figure when all letters were serviced.

The Tribune launched a campaign for more poll tax payments three weeks ago, when it was discovered that only 864 polls had been paid for the year of 1949.

Clovis Man Held Here On Bigamy Charge

Jack B. Wyatt, whom officers say claims to be 60 years old, was still in jail here Tuesday morning, where he faces a charge of bigamy, and is being held for action of the Parmer County Grand Jury.

According to officials, a marriage license was issued to Wyatt and Miss Vivian Iona McCall, both of Clovis, on January 7, and the couple was married by Justice of the Peace Jess Newton at the Parmer County court house.

In applying for the license to wed, Wyatt gave his name as William White, and said that he was an old roanhand from the Matador Ranch, officers here stated.

Clovis officers began an investigation shortly after the ceremony here, resulting in a charge of bigamy being filed against Wyatt, whom officers claim has a wife in Clovis, where she operates the Arlington Hotel at 106 Main Street.

This is reported to be Wyatt's third marriage, and he is said to have grown children by his first wife.

Efforts to make bond for Wyatt had not been successful up to Tuesday morning, and he was being held in the county jail at that time. Local officials expressed doubt that he would be able to furnish a satisfactory bond, and he will probably remain in jail until the grand jury convenes, likely in April.

New Soda Fountain At Fox Drug Store

Conditions of the Fox Drug Store in Farwell have been pretty much in an upset condition since the latter part of last week, when workmen began tearing out the old soda fountain and installing a new one.

The new fountain, a product of the Stanley Knight Co., is said to be the best product on the market, all electrically cooled, with 50-gallon ice cream storage space.

In addition to the new fountain, fresh floor coverings of asphalt tile are being laid and other inside redecorating will be carried out in the remodeling job.

MOVE BACK HERE

Mr. and Mrs. S. G. Billington, who have lived in Tucumcari the past few years, moved their household goods back to Texico the first of the week and are now established in their home in the north part of the city.

Old Man Winter continues to hold this region in his icy grip and no promise of a let-up appeared in prospect Wednesday morning as The Tribune prepared to go to press.

Below freezing temperatures, with occasional dips to sub-zero readings, have prevailed here most of the time for the past week. The only exceptions were Monday and Tuesday afternoons when the mercury climbed out of the cellar, causing some snow to melt on the highways and on rooftops, only to freeze over again at nightfall.

Snow and sleet on Wednesday night and during the day on Thursday of last week covered the surface with four to five inches, accounting for an estimated half inch of moisture. Winds from the west and north on the following two days caused the snow to drift considerably, rendering most of the secondary roads of this section impassable. Stubble fields and listed ground held the snow where it fell, but most of the snow was whipped off the wheat fields.

Stockmen report that there have been no losses of livestock, but all the cattle have been drawn by the continued cold, causing heavy feeding to be necessary. Some feeders, who felt they had plenty of feed on hand to carry their stock through, are having to bring in additional supplies.

Highway and all communications systems have remained open, although travel along some highways was hazardous over the past weekend. The Texas highways were kept open by maintenance crews, but the New Mexico routes were not as well maintained.

Clearing skies have been promised for Thursday and Friday of this week, with forecast for "heavy precipitation in the form of snow by Saturday."

Three Suffer Injuries When Cars Collide

Three persons suffered minor injuries late last Thursday afternoon when the cars in which they were traveling collided at the intersection of Highway 60 and the State Line road in the edge of Texico-Farwell.

J. E. Foreman, local resident, received a gash over the right eye and head injuries, which sent him to a hospital. Mrs. Ralph M. Baker and her two-year-old daughter, Dianna Lynn, sustained bruises about the head and face.

Mr. and Mrs. Baker, of Kokomo, Ind., were traveling west in their 1947 Buick, when Foreman, traveling alone, approached from the south into the path of the Baker machine. Foreman said that he stopped before coming onto the highway, but that he never did see the Baker car. Both machines were badly damaged and the fact that all occupants escaped with only minor injuries was fortunate. Neither of the cars were upset by the run-in.

Foreman was able to be up and about the first of the week.

Chamber Of Commerce Plans Election And Annual Banquet

C. M. Henderson, president of the Farwell Chamber of Commerce, said today that plans were being laid for the annual election of officers of the Chamber in the near future. Also in the offing is the annual CC banquet, he stated.

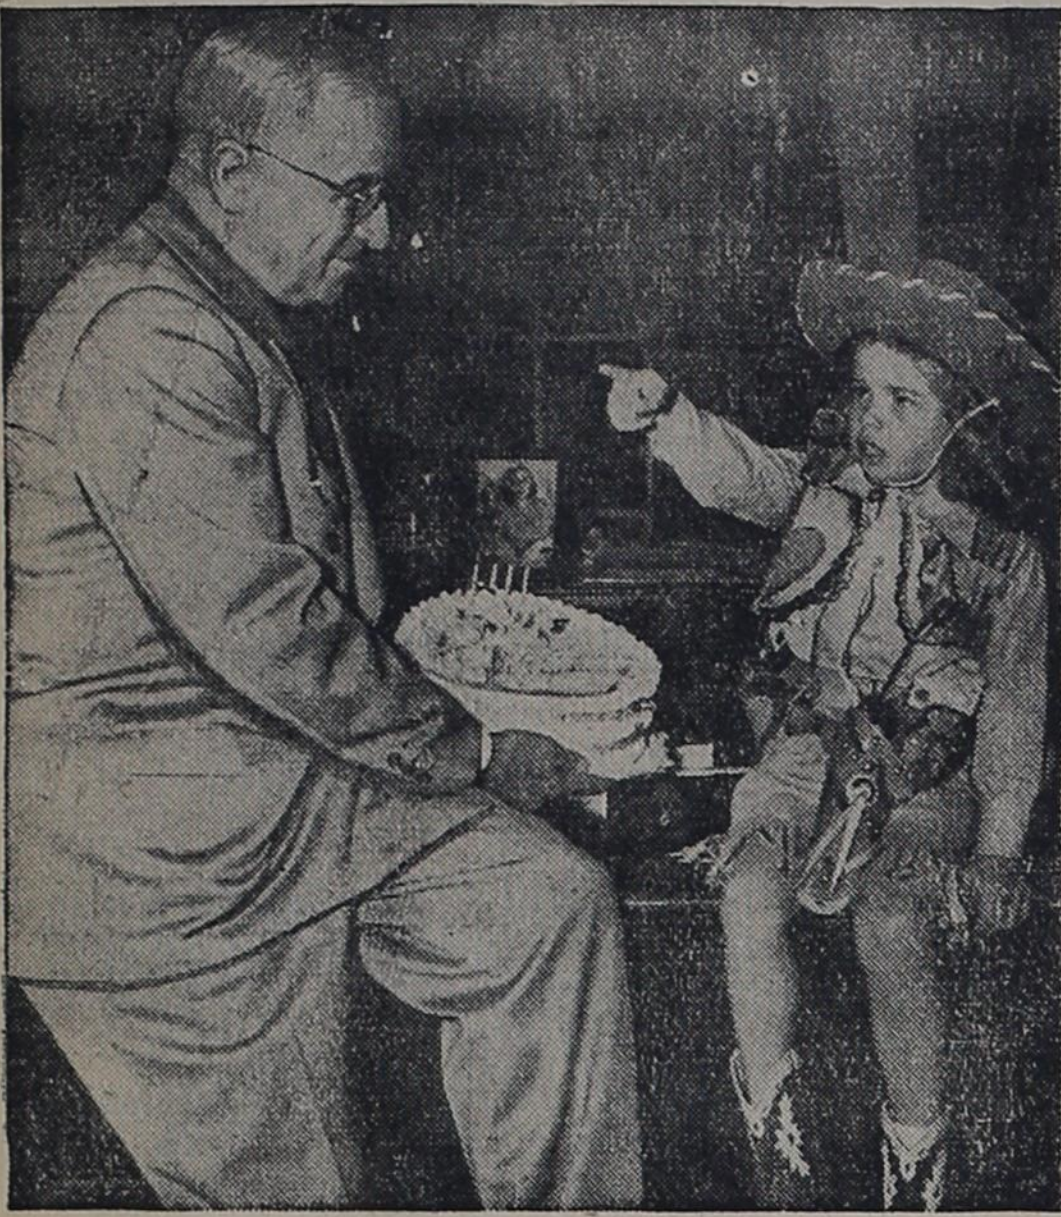

He asked that all members of the body begin now to make a list of the new officials they wanted for the year and be prepared to make nominations when the election meeting is called. No definite date has been sent for the election, but President Henderson said he hoped it could be held next week, with the banquet to follow two weeks hence.

\$383.38 Raised By School For Polio

Supt. Jack Williams reported today that a total of \$383.38 had been raised through the various activities of the Farwell school for the March of Dimes fund.

This does not include the contributions made throughout the business section, which is calculated to boost the total well above the \$400-mark.

A report of all the collections throughout Parmer County is expected to be available for publication next week.

TEXAS TALK . . . Toting a six-shooter and wearing full cowgirl regalia, Linda Brown, 1949 March of Dimes poster girl, tells President Truman all about the "United States of Texas" after the President presented her with a birthday cake on her fourth anniversary. Linda, who hails from San Antonio, was stricken with polio two years ago, but fully recovered through treatment provided by the National Foundation for Infantile Paralysis.

Men's Club Discuss Local Some Matters

FROM THE HOPPER

By HOP

Dick Moore made his way to town Thursday over snow and ice-covered roads to get some reading material. Dick said he had been coming so long at home he had read everything on the place, including his wife's Woman's Home Companion.

Claude Rose says the next soda fountain to be installed at his place of business will be done by his son, Pudge. "This is my last job of this kind," Claude sighed.

Through the efforts of J. D. Morgan, our garbage disposal project has begun to move again, and the Men's Club extended a vote of thanks to Morgan last week. We understand Morgan had ordered a batch of garbage cans, which he purposes to sell to his customers at actual cost. If you need a can, see him.

Last Thursday was a bad day for Oliver Sikes. Emerging from the offices of Aldridge & Aldridge, he slipped and fell on the icy pavement. Then he went out and got his new Ford stuck in the snow and had to summons help from his garage.

The American Medical Society continues to flood the newspapers with its propaganda in opposition to socialized medicine. Scarcely a week passes that we do not receive a batch of the releases, asking that it be used in our columns. The medics, who have held themselves aloof from newspaper publicity on the grounds that it is unethical to use printer's ink, now wants the newspapers to carry the bell for them in their fight. Consistency, thou art a jewel! Personally, we are not favorable to socialized medicine, but it is our opinion the doctors have nobody to blame but themselves for the progress it has been making in the past few years.

Community and Horse Sale Billed Friday

Red Foster, of Foster's Quarter Horse Sales, today announced a sale of grade horses and community property at the Foster Sales Barn west of Texico on Highway 60.

The sale will be held Friday night, February 4, and facilities have been installed to heat the sales ring. Foster said that listings of any kind of property would be accepted for the sale, which will be conducted in connection with the regular weekly horse sale. The next quarter horse sale will be on Feb. 11, Foster said.

"Fifty-four forty or fight" was the slogan advocating the U.S.-Canadian boundary in the West.

Garbage disposal, road improvement, Scout financing and magazine solicitors were the high points of discussion at the monthly meeting of the local Men's Club, held last Thursday evening.

The Club extended a vote of thanks to J. D. Morgan for the excellent job he has been doing in getting the garbage disposal program in operation in Texico and Farwell. It was reported that 78 residents of Texico have signed up for the service and only 55 in Farwell.

The matter of getting the state line road paved from the Twin Cities to the Bailey County line was discussed and it was learned that the money New Mexico has earmarked to pay for half of this work will be withdrawn unless Texas agrees to pay its half of the cost. Further negotiations with the Texas Highway Commission will be taken up at once.

It was agreed that the Club would sponsor a drive for funds for Scouting in Texico-Farwell and plans for the drive were outlined. The drive will be made at an early date, it was agreed.

A thumbs-down attitude was taken on magazine solicitors who are continually canvassing the town. It was suggested that all subscriptions be turned in through local representatives or sent to Marshall Deaton at Black, Texas.

Ollie Liner, county agent, announced that Robert Thurman, irrigation specialist of the Extension Service, had agreed to come here in the near future to discuss irrigation with local farmers and Liner said that he hoped to have Thurman here for the next meeting of the Club on the night of Feb. 24.

Old Fashioned Revival Now In Progress

An "old fashioned revival" is now in progress at the Texico Pentecostal Mission located in the old Mike Hill building, directly across the street south from Stones' Variety Store.

Rev. Leon Nelson, of Arkansas, is doing the preaching, with the music and singing under the direction of Jim Bob Smart.

Services are held nightly at 7:45, and the public is extended a cordial invitation to attend these services.

COMMUNITY SALE IS POSTPONED AGAIN

Col. Dick Doshier, local auctioneer who has been working on an effort to inaugurate a community sale in Texico-Farwell for the past two weeks, said today that the continued bad weather had forced another postponement.

Doshier said that he had decided to "forget it" till the weather settles.

Health Notes

By Texas Department of Health

AUSTIN.—Throughout America men and women have become conscious of the necessity for fighting the menace of venereal diseases, and it is a matter of pride to public health workers that the entire nation now joins in the observance of National Social Hygiene Day, which in this year is dated February 2.

Dr. Geo. W. Cox, State Health Officer, states that at the present time three rapid treatment centers are being operated in Texas, located at San Antonio, Waco and Rocky Mount, and that a total of approximately 15,000 patients per year are being treated in these centers. Ninety-six venereal disease clinics are also in operation throughout the state, and these clinics as well as the rapid treatment centers are primarily for the treatment of indigent and semi-indigent persons referred by physicians or local health units.

In the past two years a blood testing survey of more than 80,000 Tex-

ans has disclosed that between seven and ten per cent of that number had positive tests for syphilis and that a large majority of them did not know they had the disease and had medical treatment for it. This vast reservoir of untreated syphilis is one reason for its continued spread, and it is a notable achievement in furthering public health that approximately 98% of these persons have been brought under treatment so that they can no longer spread the disease. More than 43,000 contacts have been investigated and placed under treatment until it isn't infectious. A continuous educational program carried on by the State Department of Health is another effective means for controlling venereal disease among our people, and reducing the number of crippled, blind and paralyzed persons who are annually the victims of syphilis and other venereal diseases.

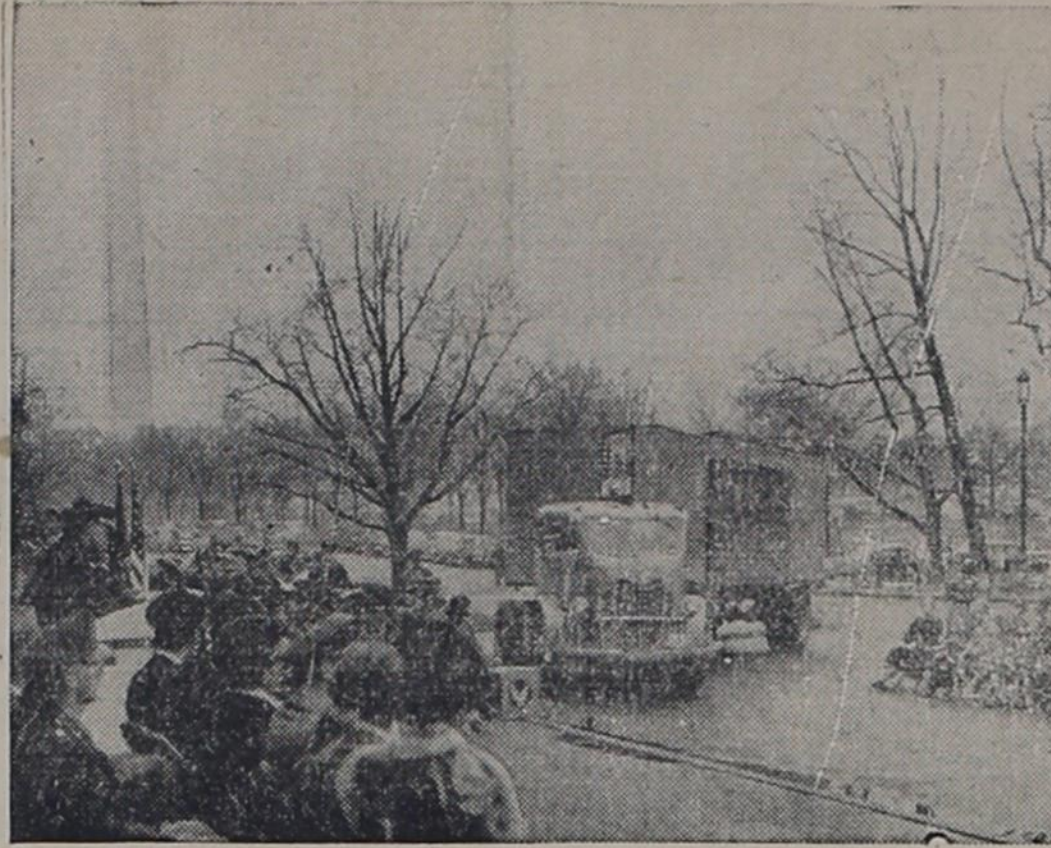

HOMES FOR HOMELESS

The government of India has found homes for 1,450,000 refugees from Western Pakistan.

A spokesman of the relief and rehabilitation ministry here said schemes for housing another 750,000 urban refugees has been taken on hand.

He added the housing schemes that had so far received the approval of the government of India would involve financial assistance to the extent of 166,000,000 rupees (nearly US \$50,000,000).

Snakes which grow to the largest size are the boa constrictor and the royal python.

WRIGHT PLANE RETURNS . . . The famous Wright brothers plane "Kitty Hawk" is shown as it arrived at ceremonies at the Freer art gallery in Washington. The ceremonies were attendant to the plane's being brought to its final resting place in the Smithsonian institute following its long return journey from Great Britain to the United States.

NEW PURSE MARK

Roosevelt Raceway, which shattered all attendance and mutual records during the 1948 season, also hung up a new record for purse distribution by one track in a single season. Horsemen racing at West-

bury, N. Y., oval split \$1,765,311.84 in payoffs for 1,113 races during 136 days of action. The 1947 Roosevelt purse distribution totaled \$1,171,770.65.

old circles, the game of Harvey maintains popularity. Harvey pops in and out of closets and, unlike its stage counter-part, has form and substance.

In certain rabbit-raising, 10-year-old age in Texas in 1949.

Electricity, An Exception To The Rule

COLLEGE STATION.—An efficient homemaker puts both hands to work—a lot more work is done with a lot less effort.

But there is an exception to that rule—and that exception is when it comes to electrical equipment.

Mrs. Bernice Claytor, extension home management specialist of Texas A. and M. College, points out that for safety's sake, one hand is better than two when handling any electrical appliance or changing a fuse. If the appliance is worn or otherwise defective, causing a short circuit, there is always danger of shock. But there is less chance of severe shock if one hand is free—or is not touching anything else.

The Rural Electrification Administration of the USDA gives an example of a two-handed hazard: Running a vacuum cleaner with one hand and moving a metal lamp with the other—if either of the appliances happens to have a loose wire or other defect, the current may run through your body.

The REA also warns that special care must be taken in the bathroom and kitchens, because electricity travels through water. Be sure your hands are dry when handling any electrical equipment—and make sure the floor is dry, too. When turning on an electric light with one hand, be sure not to touch water or the metal water faucet with the other. And never touch a radio, portable electric heater, or even turn on lights when in the bathtub, or washing dishes or clothes.

Mrs. Claytor concludes that the National Safety Council lists faulty electrical equipment and frayed electric cords as major hazards which cause hundreds of accidents each year. Repair or replace such equipment—and remember that "put both hands to work" doesn't apply to electrical appliances.

Early development of Canada was aided greatly by the Hudson's Bay Co.

DOING FINE . . . Mrs. Suzy Jones and her six-pound newborn son are doing fine at Gander, Newfoundland, after the mother was taken hurriedly from a transatlantic plane in which she was enroute to join her husband, an unemployed seaman, in New York.

BUSINESS FAILURES

AUSTIN.—A total of 85 businesses failed in Texas during 1948, reports from Dun and Breadstreet to the University of Texas Bureau of Business Research showed.

For the year of 1947, business fatalities totaled 55.

There were 10 business failures in December, 9 in November, and 6 in October 1947.

Average liabilities per failure were \$51,000, compared to \$33,000 in November, and \$11,000 in December 1947.

DR. B. R. PUTMAN
OPTOMETRIST
Muleshoe, — Texas

MODERNIZE WITH COLOR! Several decorating tricks, usually accomplished only by highly-skilled technicians, were used to create this attractive room. What is more, they were used on an old-fashioned living room—inexpensively and easily by a house-wife without the help of professional experts. The secret of her success lies in her application of a few tried and true decorating techniques and the use of easy-to-apply resin and oil paint.

The room shown above was originally very long and narrow with a very high ceiling. Unfortunately, a bold-patterned wallpaper only accentuated the odd shape of the room. An unattractive fireplace and an old-fashioned radiator didn't help either.

To revamp the room without making costly structural changes, this smart house-wife first applied a coat of pale cream Kem-Tone right over the wallpaper on the long wall. Then she similarly painted the short wall in dark green, using one of the new Kem-Tone Vogue Deep Colors just recently placed on the market. The combination of light and dark colors made the room "square-off" in appearance. Next, the ceiling was lowered by painting a twelve-inch border around the top of the four walls to match the off-white ceiling.

To make the ugly fireplace and radiator "disappear", she painted them to match the walls. Easy-to-use washable Kem-Tone was used for walls, ceilings, radiator and fireplace. Look your "problem" room over and see if you can modernize with color.

Curry Investors Buy \$9,622,277 In Bonds

Residents of Curry County have invested \$9,622,277 in U. S. Savings Bonds from May 1, 1941 to December 31, 1948, according to a report sent to Reece Cagle, chairman of the county's Savings Bond Committee, by Edwin G. Hobbs, state director, U. S. Treasury's Savings Bonds Division. Purchase of \$525,125 worth of Savings Bonds during 1948 brought the total during the three postwar years to \$1,742,007.

"The chairman and his committee members deserve commendation for their efforts in keeping people informed and reminded that U. S. Savings Bonds are a form of investment with the soundest backing in the world," writes Hobbs. "Banks, post offices, and payroll savings firms have continued to offer Savings Bonds for sale and to urge people to buy them. Newspapers, radio, and other media have constantly supported the Savings Bonds program and also have earned commendation," he added. "The purchasers have their own reward in added financial security and better opportunities for the future," Hobbs concluded.

Compared to the total sales of Savings Bonds sold to residents of this county, the "cash-ins" have been small. Nationally sixty per cent of all the money placed in bonds is still in the hands of their purchasers.

During the last war, Curry countians invested \$7,680,803 in Savings Bonds alone, not including other war time securities. In 1946, the total was \$758,560; in 1947 \$458,233; and \$525,125 in 1948.

Adjustments Are Made On SCS Work Program

County Agent Ollie Liner, reported the first of the week that the Farmer county work program, recently submitted to the state Soil Conservation office for approval, was returned here last week for adjustments. A called meeting was held immediately, the program corrected, and again sent off for final approval.

Indications are that the actual establishment of an SCS office in Farmer county may come between February 15th and March 1st, those working on the project believe. Walter Smith, who is now in the Hereford office, will be the county supervisor, with the budget also calling for two engineers, a soilsman, and a clerk to be added if necessary.

Liner said that the program would operate as much as possible through "natural groups", explaining such a group meant three or more farmers in the same vicinity who are all interested in and working on the same conservation idea. He suggested that farmers interested in conservation work begin now to form small groups for carrying out work.

ENROLLMENT INCREASED

AUSTIN—Students have doubled their interest in Russian history in the past four or five years, says University of Texas History Professor Oliver H. Radkey.

Enrollment increases in his Russian history classes as interest in the U. S. - Russian situation mounts.

Sitting on a stool while ironing the weeks' wash takes 18 percent less work than standing. And turning the iron on its side when not in use saves 15 percent more energy than lifting the iron and standing it on the heel to rest.

It's not too early to start thinking about your 1948 income tax return.

Meat, Potatoes Appeal In Many Twosomes

Meat with potatoes as an accompaniment is not the only way to serve this favorite twosome. Try serving the two in combination, suggests Reba Staggs, well-known food authority. Some delicious new dishes for the family table are the result.

A scalloped potato casserole with liberal slices or chunks of ham or ready-to-serve meat is one suggestion Miss Staggs offers. Or you can bake scalloped potatoes with a topping of browned pork chops.

Still another idea is to wrap thin slices of baked or "boiled" ham around hot potato salad, then heat briefly in the oven. Or you might serve a casserole of ham, sweet potatoes and diced apples. A meat 'n' potato combination which you may not have tried is creamed beef, such as dried beef, on baked potatoes.

Four hundred and eighty conversations can be sent over one telephone circuit at one time.

When Your Back Hurts - And Your Strength and Energy Is Below Par
It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood.
You may suffer nagging backache, rheumatic pains, headaches, dizziness, getting up nights, leg pains, swelling. Sometimes frequent and scanty urination with smarting and burning is another sign that something is wrong with the kidneys or bladder.
There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. It is better to rely on a medicine that has won countrywide approval than on something less favorably known. Doan's have been tried and tested many years. Are at all drug stores. Get Doan's today.

DOAN'S PILLS

Trees in Nature's Cold Storage

COLLEGE STATION—Nature dropped a coating of ice over two-thirds or more of the state recently at least once, anyway.

This chilly pastime of Old Man Winter has literally put many of the trees and shrubs in cold storage. And a cloak of ice usually does more harm than good to our ornamental plants used in landscaping home yards and lawns.

First aid is generally necessary for these thousands of shrubs damaged by ice storms if these plantings are to regain their natural shape and beauty. Broken, split and bent branches and wounds all need a different treatment. Where the weight of ice has caused branches to break several feet from the trunk, pruning will help. Remove the hanging limb where it has broken off, then select a side branch between the break and the tree trunk. Cut off the limb at this point. Follow up by pruning to reshape the plant.

Sadie Hatfield, extension landscape gardening specialists of Texas A. and M. College, says that badly split branches won't grow back and heal over even though they are tied in place. Such split limbs should be removed at the trunk, leaving no stub at all. It's usually safer to prune off the split branches, and all the splintered and rough edges should be smoothed off before a wound paint is applied.

White or orange shellac makes good wound paint, says Miss Hatfield. Or you may make a mixture of your own if you so desire. Here's how. Heat eight parts (by weight) of resin and three parts of boiled linseed oil. Paint this mixture on to the bark ring and hardwood area.

Branches that are merely bent over by the weight of the ice don't need quite as much care. They may be pulled back into place and held with strips of gunny sacks or cloth. Miss Hatfield advises not to use wire

and hard strings, as these may cut and injure the limbs. By the time the cloth rots away, the tree limbs ought to be growing back in their original shape. But if they aren't, you may need to cut part of the bent limb away.

Ornamentals such as the arborvitae which have been disfigured by the weight of ice may be sheared. However, they can usually be bent back to their original shapes, Miss Hatfield says.

So if you've had any shrubs or trees that were put in cold storage by Old Man Winter, there may be some first aid work needed in your own front yard.

"HOW TO REVIVE A SLEEPING PILL VICTIM." With an alarming increase in sleeping pill "accidents", you may someday have to save a victim of an overdose of these devil's capsules. Would you know what to do? Read this absorbing article in The American Weekly that great magazine distributed with next Sunday's Los Angeles Examiner.

Receives Degree

Keith Levy, son of Mr. and Mrs. T. E. Levy of Farwell, received his Bachelor of Science in Geology from the University of Texas, at Austin, at the close of the semester, January 24, it is reported here.

RAINBOW INSTALLATION SERVICES ARE HELD SUNDAY AT LOCAL LEGION HALL

Public installation services of the Bovina Rainbow Assembly were held in the Justice-Williams American Legion Hall at Farwell, Sunday afternoon, at 2:30.

The Hall was beautifully decorated with crepe paper carrying out the seven Rainbow colors and a huge bouquet of beautiful mixed flowers of the varied rainbow hues centered the pedestal in the East.

Each girl wore a corsage of pastel colors presented them by the incoming Worthy Advisor, Miss Bonnie Foster.

Presiding at the impressive installation services were Worthy Advisor Myrna Welch; Chaplain Jo Ann Williams; Marshall, Lunell McFarland; musician, Betty McClelland, and recorder, Mae Porter.

The officers installed were as follows: Worthy Advisor, Bonnie Foster; Worthy Associate Advisor, Lera Dell Cherry; Charity, June Christian; Hope, Rosamond Booth; Faith, Dorothy Neil Guinn; treasurer, Rose Williams; chaplain, Joyce Miller; drill leader, Betty Foster; Love, June Gay Loney; Religion, Mary Belle Aldridge; Nature, Modelle Hammonds; Immortality, DeLores Wilson; Idolatry, Rose Hines; Patriotism, Jo Ann Spurlin; Service, Peggy Mayfield; Confidential Observer, Mary Lou Miller; Outer Observer, Marjorie Leake; musician, Claire Derrick; Choir Director, Nancy Aldridge; and Mother Advisor, Mrs Edith Cherry.

Following the installation, Worthy Advisor Bonnie Foster introduced her parents, Mr. and Mrs. Tom Foster, and welcomed them. A corsage was presented Mrs. Foster and a boutonniere given Mr. Foster.

Immediately afterward, Mrs. Erma Jobs directed her chorus in a musical selection, and solos were presented by Miss Joyce Miller and Billy Ray Derrick during the program.

Concluding the meeting, Mrs. Cherry, as Mother Advisor, gave an interesting and inspiring talk, after which the out-going Mother Advisor presented the new Mother Advisor with a lovely pin.

Farwell PTA To Hold Meeting, Feb. 10

The Farwell Parent-Teachers Association will hold its regular meeting, Thursday night, February 10, in the music room at the local school.

The meeting will get underway at 7:30, and during the business session election of the nominating committee, along with planning of the reception for the Seniors, will be discussed.

Minister Sol Morgan, of the local Church of Christ, has been engaged to be guest speaker at the meeting.

Hostesses at the meeting will be Mrs. Boone Allison, Mrs. C. A. Felts, Mrs. S. E. Magness, Mrs. Cecil Atchley, Mrs. Murray Dial and Mrs. J. W. Billingsley.

The public is urged to be on hand for this meeting.

Visit With Mother

Mrs. Willie Lovelace has had a number of her children from out of town as visitors during the past several days. Included were Rev. and Mrs. Hershel Thurston and daughter, Norma, of Brownfield; Mr. and Mrs. Thurman Terrell of Lubbock; and Mr. and Mrs. Edgar Lovelace and family, of Vernon.

Jess Osborne, Muleshoe banker, was here Monday attending legal matters.

College Students In For Brief Holiday

A number of college students visited with relatives and friends in Texico-Farwell between mid-terms at their various schools.

Norma Jean Thomas, a senior in the University of Texas, was here with her mother, Mrs. J. D. Thomas, and also here from Austin was Bobby Hart, freshman student, who visited in the Sam Aldridge home.

Duane Sprawls, Texas A. & M. senior, was here in the home of his parents, Mr. and Mrs. Aubrey Sprawls, while Maxine Ford visited in the Ray Ford home in a breather from West Texas State, at Canyon.

Students from Eastern New Mexico, at Portales, seen about town were Jean and Peggy Rogers, in the B. A. Rogers home, Sonny Graham, in the W. H. Graham home, Beryl Brown, in the D. J. Brown home, Mary Harding, in the Barney Harding home, and Junior Harding, with the Nathan Hardings.

Jo Ann Williams was here from Tech to visit the Johnnie Williams, Warren G. Harding was also in from Lubbock to see Mr. and Mrs. Nathan Harding, and Joan Booth visited in the Earl Booth home.

Scout Troop Holds Regular Meeting

Texico Scout Troop No. 30 held its regular meeting the past Monday night at the Texico school, with 15 Scouts present. Scoutmaster Bobby Williams presided over the meeting, at which officers were elected and installed.

Taking office were: Assistant Scoutmaster Harry Baker; treasurer, Bill Murdock; scribe, Tuck Monk; patrol leader for Bobwhites, Hollis Leslie; patrol leader for Flying Eagles, Kennard Harris.

Plans are being made to hold a Court of Honor, in which the boys who are eligible will receive badges for work completed.

Scoutmaster Williams said that much interest was being shown and urged all boys interested to be present at these meetings. Meetings are held each Monday night at 7:30 at the Texico school.

License Issued Here

A marriage license was issued here last Thursday, January 27th, to Miss Hattie Ruth Thomas and James David Boren. Records at the office of County Clerk Loyde Brewer reveal that the marriage was performed by Walter L. Bastick, minister, Church of Christ, in Sudan, on Friday, January 28th.

Sunday Dinner Guest

Dinner guest in the home of Mrs. Bettie Smart the past Sunday included Mr. and Mrs. W. C. Watkins, Mr. and Mrs. Ernest Carpenter, Mr. and Mrs. Marvin Smotherman, and Miss Minnie Marie Smotherman all of Clovis.

Visitors in the home of Mr. and Mrs. Jim Bob Smart Sunday were Miss Winnie Mae Martin of Clovis; Mr. and Mrs. Bobby Williams and children of Texico, and Miss Peggy Williams of Farwell.

Leonard Watkins, son of Mr. and Mrs. G. T. Watkins, was home last week from Tarleton station. He is assisting his brother, Don, with the local produce house.

Peek Backstage

Charming Julia Meade, above, gets a peek backstage at the rainbow array of exciting new carpet colors being prepared for the first annual Carpet Fashion Opening scheduled March 1-10 in thousands of retail stores across the country. During this period the homemaker will see, for the first time, all the new 1949 carpet "models" in her favorite home furnishings store.

Goes To Topeka

Mrs. A. D. Smith left for Topeka, Kansas, Monday afternoon, following receipt of a telephone message informing her of the death of her brother-in-law, W. C. Porterfield, of that city. Funeral arrangements were not complete at the time Mrs. Smith departed, and she will be gone for several days. Mrs. Porterfield, sister of the local lady, has visited in Farwell several times and is well known locally.

CARD OF THANKS

We take this means to extend to our friends and neighbors our heartfelt thanks and appreciation, for their thoughtfulness to us during the illness and death of our husband and father. For all the kind words of sympathy and the beautiful floral offerings, we are indeed grateful. May God richly bless each of you. Mrs. Perry Barnes and Family.

HOSPITAL NOTES

Patients admitted: Mrs. Ben Martinez, Friona, maternity; Carl Hoffman, Friona, medical; Mrs. Clarence Ashcraft, Friona, surgery; Jimmy Lee Stevick, Friona, surgery; Jimmie Beauchamp, Friona, surgery; Tommy Lacewell, Friona, surgery.

Patients dismissed: Mrs. Ben Martinez and baby, Carl Hoffman, Jimmy Lee Stevick, Tommy Lacewell, Mrs. A. D. Stowers and baby, Mrs. Lem Miller.

Goes To Taos

Mr. and Mrs. Jim Cleve Dixon, of Lubbock, were here for a short visit with his mother, Mrs. Ruby Dixon, the last of the week. Dixon recently completed his work at Texas Tech and has been employed as animal husbandman for Taos county, N. M. He and Mrs. Dixon are moving there immediately in order that he may begin his work.

Back To Illinois

Mr. and Mrs. Harry Miller departed the first of last week for their home in Peoria, Ill., after spending two weeks here visiting in the home of their daughter and son-in-law, Mr. and Mrs. John Getz. They said the weather was very pleasant as they left Peoria, but they hit bad weather at Tulsa and two days were required to complete the trip to Farwell. After running into such a cold front here, the Millers decided to return to Illinois in the hopes of finding warmer weather.

Former Resident Ill

R. A. Hawkins, long-time resident of Farwell, who some years ago moved to Littlefield, is seriously ill in a Littlefield hospital with pneumonia, his daughter, Mrs. Odie Thomas, of Clovis, informed The Tribune this week. Mrs. Thomas, the former Miss Estelle Hawkins, visited briefly with friends in this city on Monday afternoon.

Going To Arkansas

S. J. Bozeman, who formerly lived here and now is at Amherst, was here the first of the week, stating that he had traded W. E. Warren a farm in Arkansas, and the Warrens were going to move to the Ozarks in the near future. Bozeman said that he planned to move to the Warren farm, east of here, in "about a month".

Pleasant In Albuquerque

Jack Dunn was here the first of the week from Albuquerque, where he and his family now reside. Dunn said that it has been only moderately cold in the Duke City since the first of the year, with only light snows being received.

A light year is the distance a ray of light can travel in one year, or nearly six trillion miles.

Cookies, Cake Adapt To February Styles

February is a month that brings new baking challenges to homemakers. Patriotic and sentimental holidays provide a chance to exercise your imagination in creating fanciful desserts for family meals and entertaining, too, says Reba Staggs, well-known food authority.

For instance, you might bake a cake in a heart-shaped mold instead of in the conventional cake pan; then make a heart outline of red cinnamon candies on the icing.

If you are baking cup cakes, bake them in individual heart-shaped molds. Coat with a frothy pink icing and serve on a lacy paper doily to further carry out the Valentine theme.

Cookies can take patriotic shapes with astonishing ease. Any rolled cookie dough can be cut into hearts, cherries, logs or hatchets. Cut the shapes from stiff cardboard, and trace around with the point of a sharp knife to achieve the unusual shapes. Stroke bark-like markings on the logs with a toothpick dipped in melted chocolate. The cookies will be especially chewy and flavorful if lard is used as the shortening.

And as for pies, did you ever bake patry hatchets on a cherry pie or make individual pies in your heart-shaped salad molds?

Pork Provides New Flavor Selections

One of the easiest ways to menu planning success is to have a "feeling" for the kinds of foods that go with each of the different meats. This becomes increasingly evident when you remember that the main or meat course is the starting point for most meal planning and that the other foods follow after.

Of course, there are traditional food combinations, such as pork with apple sauce, but it is when the homemaker tries to add new interest to menus by avoiding these more common two-somes that she has trouble with menu planning. New combinations are welcomed with almost every meat, says Reba Staggs, home economist.

With pork, nearly all fruit flavors are good; cranberries add tartness; apricots and prunes contribute to the already rich flavor of the meat; sliced pineapple and oranges add flavor and attractive color. Even in apples there is new variety, for baked whole apples, candied cinnamon apples or fried apple rings can prevent the monotony that comes with frequent service of apple sauce.

Other foods go equally well. For instance, there is the almost forgotten combination of pork and turnips. Greens of all kinds, turnip, spinach, etc., are especially good with pork. Harvard beets and green beans or broccoli go well. Sauerkraut and spareribs make another good pork meal for really hearty eating. And fluffy mashed sweet or Irish potatoes to eat with the good pork gravy is another suggestion.

5TH ARMY VACANCIES

Previous service men can enlist for direct initial assignment in the Fifth Army Area. The 10th Infantry Division at Fort Riley, Kan., has openings for classification specialists, personnel management technician, and clerk typists. There are openings for military policemen at Fort Sheridan, Ill., and Fort Leavenworth, Kan. For additional information visit US Army and US Air Force Recruiting Station, Rm. 3, PO Bldg., Clovis, N. M.

VALENTINES and VALENTINE CANDY

Keep in mind that Valentine comes on Feb. 14. Just to make sure that you won't be disappointed you'd better get your Valentines and Valentine candy now.

Fresh shipment of that famous King's candy in Valentine packages, just unpacked.

Tempt Young Appetites With Light Servings

Junior appetites often take a bit of coaxing. Food for the pre-school set needs special attention, especially when outdoor play is limited.

Three very simple rules of child menu planning, says Reba Staggs, home economist, are to adjust the size of the serving portion to the child's appetite, to make sure the size of the pieces is not too large, and that the food is easy to eat.

It is always better to let a child ask for more than to discourage him with a too-large serving, she adds. Then, too, it is wise to cut the food smaller; several tiny hamburger patties instead of one, or very small pieces of meat in stew.

In some shapes and sizes foods are hard for youngsters to eat. For instance, you might shred carrots, rather than cook them whole or in strips.

Garnishes and accompaniments are just as important to the child as to the grown-up, so don't forget that touch of parsley or jelly for color, or the extra touches on fancy sandwiches and cookies that will appeal to his fancy.

American Indians made no use of water-pumps, but the Pilgrims used it to grind corn as early as 1628.

VETERAN'S QUESTION BOX

Q.—Who chooses the institution or establishment in which a veteran trains?

A.—For vocational rehabilitation training under Public Law 16, VA selects the facility with concurrence of the trainee. Under Public Law 346 (GI Bill), the veteran chooses the training institution, but may have the guidance of VA if he desires it.

Q.—Will Veterans Administration accept collect telephone calls from physicians who wish to ascertain whether they will be paid for emergency treatments given veterans?

A.—Yes.

Q.—Does my converted National Service Life Insurance have a cash surrender value?

A.—Yes. All converted policies have cash surrendered values paid-up insurance and automatic extended term insurance values together with policy loan provisions, effective after the policy has been in force one full year.

Q.—Is VA pension, compensation or retirement pay reduced during hospitalization for veterans who have dependents?

A.—It is not, provided the necessary proof of relationship has been established. Veterans should make certain that such proof is established promptly. Any additional allowance or increased compensation for aid and attendance, however, will be discontinued upon hospitalization.

Trigg Sees Larger Cotton Carryover

With present marketing prospects it is possible that the carryover of American cotton on August 1, 1949, will be five or six million bales as compared with three million bales on that date in 1948, Ralph S. Trigg, administrator, PMA and president

of the CCC, USDA, said recently. Trigg pointed out that production last year reached 14,600,000 bales and that the carryover was 3,000,000 bales. Estimated consumption and exports in 1949 is expected to be around 13,000,000 bales. He explained that if the 1949 crop is up to the average of the past three years, acreage allotments will be mandatory in 1950 under present legislation.

"It is generally believed," he said, "that the old 1938 marketing quota law needs overhauling. Times have changed. Cotton acreage has shifted from one State to another. For example, California today is growing 810,000 acres of cotton. Shall California be cut back to a prewar base of 400,000 acres if quotas are established? On the other hand, Oklahoma had a prewar base of around 2,250,000 acres. But during the war years grew only around 1,075,000 acres. The problems are obvious."

Reviewing past operations since 1933, the Administrator pointed out that producers have placed around 26 million bales under loan. Nearly 5,000,000 bales were placed under loan in 1937, the highest of any year during the period of operation. Of the total about 22 million bales were redeemed by producers, the rest was sold by CCC. Currently, about 4,000,000 bales of the 1948 crop are under CCC loan.

The current loan rate, according to Trigg, is 28.79 cents per pound based on 92½ percent of parity. The rate for the 1949 crop will be 90 percent of parity and after 1950 under the present law will be from 60 to 90 percent of parity.

CENTURY OF TROTTERS

May 4, 1949, will mark the 100th anniversary of the birth of Hambletonian, the "father" of trotting and pacing horses. All horses running in harness races are descended from the famous sire.

VETERAN'S NEWS

The next few years will see an increased demand for college graduates in the fields of medicine, psychology, kindergarten and elementary school teaching and certain phases of electricity.

At the same time, competition will grow keener for positions in the fields of engineering, chemistry, pharmacy, law and personal relations.

These conclusions were contained in a study prepared for the Veterans Administration by the Occupational Outlook Service, Bureau of Labor Statistics, U. S. Department of Labor.

The study is being used by VA advisements and guidance officers as an aid in counseling disabled veterans planning to take educational and training courses.

Veterans enrolled under the GI Bill in on-the-job training courses or in schools below the college level who desire leave of absence, should apply for it at their training establishment or school and not at the Veterans Administration.

In the past, these veterans were required to make application at the appropriate VA regional office. Now, they must obtain approval from their employer-trainer or school official before going on leave.

Advance leave is provided only in cases of emergency.

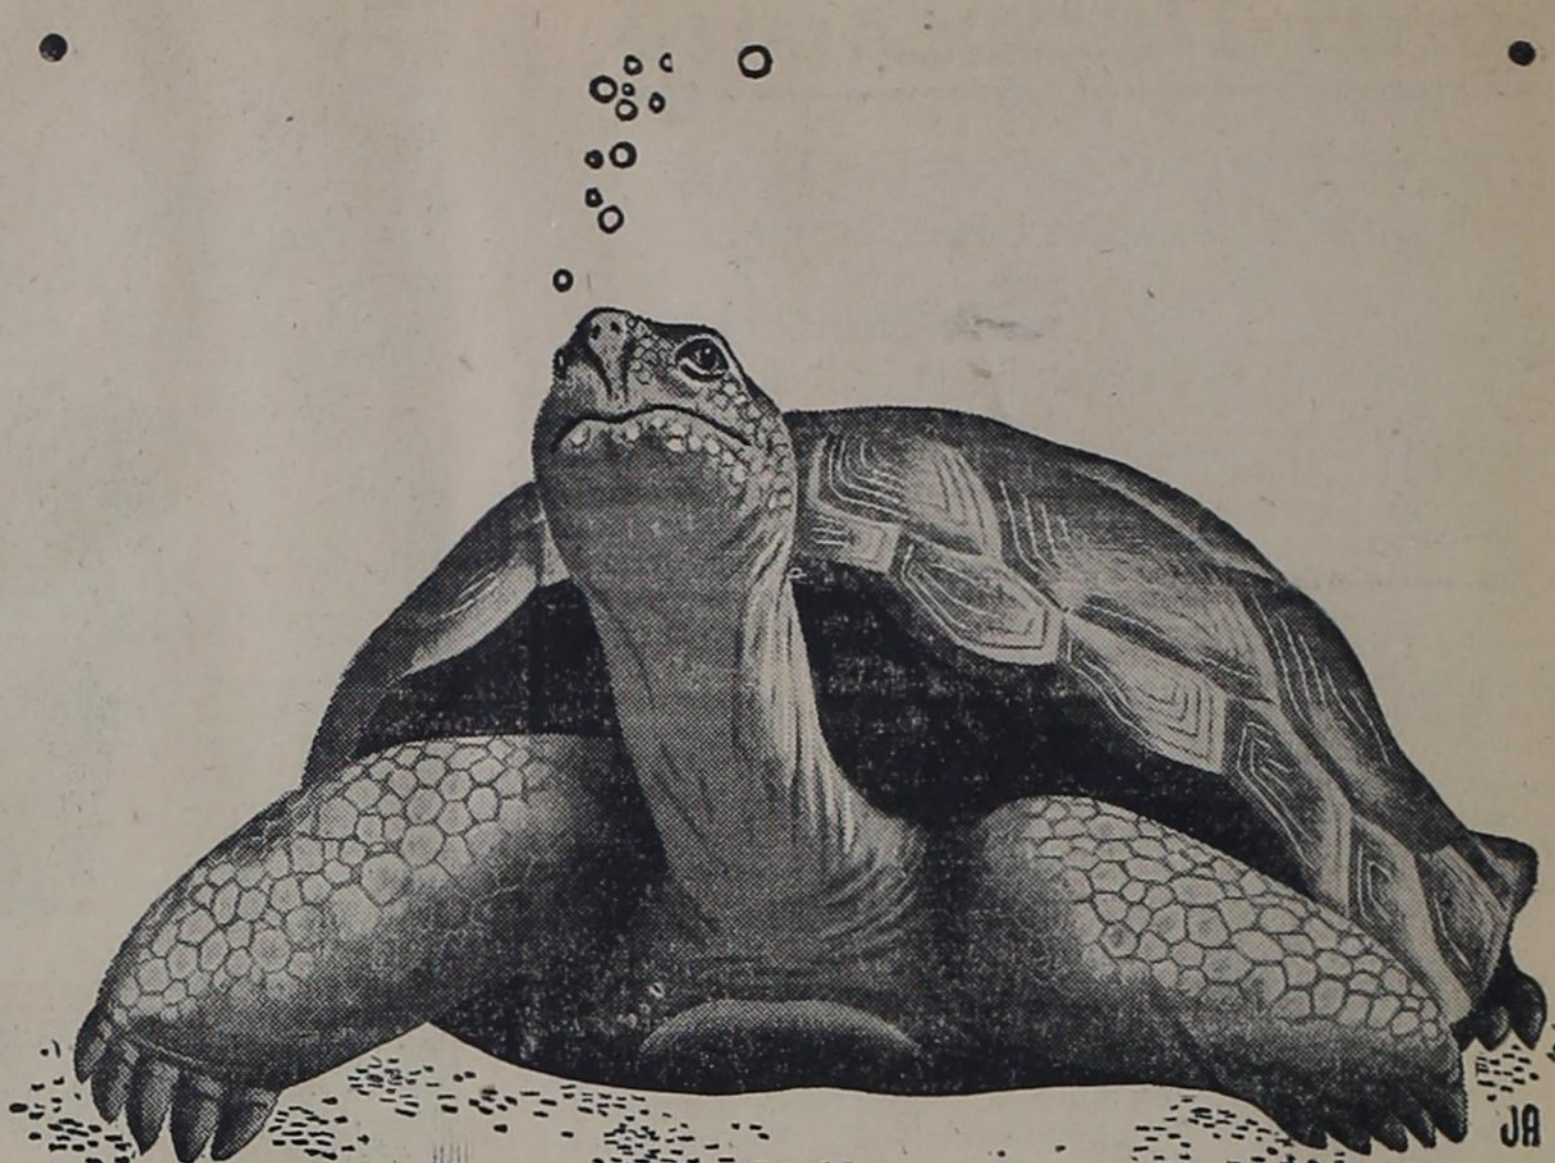

Leave is accrued at the rate of two and one-half days a month throughout training—including that time during which the veteran is on approved leave of absence. However, it may not be accrued beyond 30 days.

Veterans training on-the-job or in Public Law 16 (for the disabled) must continue to apply for leave at VA.

NEWSPAPER ADV. LINEAGE

AUSTIN.—Texas newspapers advertising lineage climbed 12 per cent from November to December, the University of Texas Bureau of Business Research reported.

Reports from 31 Texas newspapers showed December advertising lineage bettering the December 1947 level by 12 per cent.

Maybe you're the "slow" one!

Have you been a little slow about giving your engine the extra protection it needs for winter-weather driving?

It's easy to change now to winter-grade Conoco Nth Motor Oil and the extra protection of an engine that is OIL-PLATED!

Because free-flowing Conoco Nth actually fastens extra lubricant right to cylinder walls. This extra OIL-PLATING protects working parts from winter's grinding "dry-friction" starts . . . from metal-eating combustion acids . . . and from power-robbing sludge and carbon due to wear.

So stop trouble before it starts . . .

Oil-Plate for Extra Protection!

EUBANK & SON HOME & AUTO SUPPLY

Clovis, New Mexico

This is a diesel ... a modern locomotive that means better service to you.
 Leaders of two unions think it's a feather-bed ... a "make work" grab that means less service to you.

Leaders of unions representing railroad engineers and firemen seek to force railroads to add extra, needless men on diesel locomotives. This is sheer waste—a "make-work" program which would mean fewer improvements and higher costs—for YOU!

Railroads use modern diesel locomotives because they are one of the means of giving faster, better service to you.

Two men compose the crew of a diesel. They occupy a clean, comfortable cab at the front. The engineer handles the throttle. The fireman sits and watches the track ahead. With no coal to shovel, he has practically nothing else to do.

No Benefit To You

Now the leaders of the Brotherhood of Locomotive Engineers and the Brotherhood of Locomotive Firemen and Enginemen want to use the diesel locomotive as a means of forcing a feather-bedding scheme on the railroads. The extra men they propose to add to the diesel crews are not needed. There is no work for them.

The union leaders are fighting among themselves about which union should furnish these extra, needless men. The Brotherhood of Locomotive Engineers have even threatened a strike. You may not be interested in this dispute of these two unions, but you would be vitally concerned if these groups succeed in putting through this feather-bedding scheme, because it would mean a slowing up of the improvement program of the railroads—of which the diesel is the outstanding symbol. Diesel crews are among the highest paid

railroad employes—real aristocrats of labor! Their pay is high by any standard. Granting of these demands, therefore, would mean that the railroads would be paying out millions in unearned wages to those in the very highest pay brackets.

We'd Like To Spend This Money On You

You know how much the diesel has meant to you in increased speed, comfort and convenience. The railroads have many more of them on order for even greater improvement in service to you. But needless drains of money, such as this present demand of the unions for needless men on diesels, reduce the ability of the railroads to spend money on better service for you.

Proud as the railroads are of the diesel, it is only a small part of their improvement program. Since the War, literally billions of dollars have been spent on improvement of

tracks and stations, on new passenger and freight cars, as well as on diesel locomotives, and on the many other less conspicuous details of railroading that contribute to improved service.

Feather-Bedding Means Less Service To You

But brazen feather-bedding schemes like the one now proposed would, if successful, divert large sums of money from our present improvement programs. Even worse, they make improvements like the diesel worthless, by making the cost of their operation prohibitive. These demands are against YOUR interests—as well as those of the railroads. They are schemes to "make work". Neither you nor the railroads should be forced to pay such a penalty for progress.

That's why the railroads are resisting these "make work" demands to the last ditch—and why they are telling you about them.

105 WEST ADAMS STREET • CHICAGO 3, ILLINOIS
 We are publishing this and other advertisements to talk with you at first hand about matters which are important to everybody.

WILL GET WISH . . . Santa Claus couldn't quite make it with the gift five-year-old David Cookson, Scranton, Pa., wanted most for Christmas—a pair of hands. His parents were heartbroken when they could not fix it so Santa could arrange that gift, but Scranton veterans' organizations raised a fund and little David will be fitted with mechanical hands. He lost his in a threshing machine accident.

Now's A Good Time For Dairy Checkups

COLLEGE STATION—Drainage is something the Texas dairymen are on the lookout for at this time of year. When the rains come, muddy lots and lanes will offset some of the gains made by good care and feeding.

R. E. Bursleson, assistant extension dairy husbandman of Texas A. & M. College, says during a rain is the time to see where lots need draining and filling. And the dry spells between the wet ones are the time to get the draining and filling done. Concrete shelter floors will help solve this problem along the costal regions of the state.

Profit and loss in a dairy herd can be checked on about this time of year—at income tax time. If you have records available, they can answer the figures on the status of dairy. And they will answer such questions as "Where am I making or losing money?" or "Is the size of my operation an efficient one?"

The outlook for Texas dairymen is going to be good for the dairymen that do a good job says Bursleson. Others will need to do a better job in the future of feeding, managing, and raising herd replacements. On herd replacements, Bursleson asks, "Is this a hit-or-miss proposition in your herd? Where are the replacements coming from? are you making progress, standing still, or dropping back in the production level of your herd?" Texas dairymen need to pay more attention to the answers to such questions as these in their problem of herd replacements, says Bursleson.

Stop and take stock of your dairy set-up. Now is the logical time of year to make these dairy check-ups. A successful dairy operation will depend on a well balanced dairy program. Real estate, farm buildings—milking barn, sheds and cooling house—cows, feed, supply, labor machinery and equipment all form the dairy program, says Gibson. And the "weak link" in this chain is the thing that will determine just how profitable your dairy operation will be.

Artifacts To Be Displayed Soon

AUSTIN.—Soon to be on display in the Texas Memorial Museum on the University of Texas campus are artifacts taken from a cave in Uvalde county on the Sabinal river near Sabinal.

For the past three months geologists have been digging relics for study and for preservation in the Museum, Dr. E. H. Sellards, director,

reports.

Three civilizations are represented by materials found,—the Folsom culture—estimated at 10,000 years old—Edwards Plateau, and Indian. Spear points, fossils of such animals as the elephant, sloth (land animal), camel, buffalo and horses, grinding stones, beads ornaments, pottery, bows and arrows are among the relics taken from the cave.

The cave has a 40-foot opening and its semicircular interior is about 35 feet in depth. Dr. Sellards said The floor is paved with stone, probably put there during the Folsom civilization.

Two Uvalde county boys, Charles Mear and Kenneth Rochat, discovered the unusual relics in the cave University Museum geologists and anthropology department members were notified, and began excavation in October.

Thomas Jefferson and John Adams, both ex-presidents of the U. S., died on the same day, July 4, 1826.

LEGAL NOTICES

CITATION BY PUBLICATION THE STATE OF TEXAS

TO: J. L. Smith, First National Bank of Canyon, Texas, a defunct Corporation, and its unknown stockholders, officers, directors and creditors, successors or assigns; National Bank of Commerce of Amarillo, Texas, a defunct corporation, and its unknown stockholders, officers, directors, and creditors, successors or assigns; D. A. Linthicum, Robert Martin, J. M. Neely, Joseph M. Neely, First National Bank at Texico, New Mexico, a defunct corporation, and its unknown stockholders, officers, directors, and creditors, successors or assigns; M. T. Anderson, W. W. Taylor, Ethel Mansfield, and the unknown heirs of W. L. Mansfield, and if any of said defendants be deceased then the unknown heirs, assigns and legal representatives of such deceased defendant or defendants, GREETING:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 47 days from the date of issuance of this Citation, the same being Monday the 14th day of March, A. D., 1949, at or before 10 o'clock A. M., before the Honorable District Court of Farmer County, at the Court House in Farwell, Texas.

Said plaintiff's petition was filed on the 25th day of January, 1949. The file number of said suit being No. 1433.

The names of the parties in said suit are: Gene Lovelace, as Plaintiff, and J. L. Smith, First National Bank of Canyon, Texas, a defunct Corporation, and its unknown stockholders, officers, directors, and creditors, successors or assigns; National Bank of Commerce of Amarillo, Texas, a defunct corporation, and its unknown stockholders, officers, directors and creditors, successors or assigns; D. A. Linthicum, Robert

Martin, J. M. Neely, Joseph M. Neely, First National Bank at Texico, New Mexico, a defunct corporation, and its unknown stockholders, officers, directors and creditors, successors or assigns; M. T. Anderson, W. W. Taylor, Ethel Mansfield, and the unknown heirs of W. L. Mansfield, and if any of said defendants be deceased, then the unknown heirs, assigns and legal representatives of such deceased defendant or defendants, as defendants.

The nature of said suit being substantially as follows, to-wit:

Plaintiff alleges that on January 25th, 1949, he was and still is the owner in fee simple of lots 21, 22, 23, 24, and 25, of Block 27, of the

original town of Farwell, Farmer County, Texas, and on such day was also in possession thereof, and afterwards, on the same day, the defendants unlawfully entered thereon and ejected him therefrom, and withheld possession thereof from him.

Plaintiff alleges the reasonable rental of said premises during such unlawful possession to be \$5.00, and that demand has been made for the payment thereof and that same has not been paid.

In the alternative plaintiff says that he and his predecessors in title have had peaceable, continuous and adverse possession of said land and tenements, cultivating, using and enjoying the same for more than

ten years continually, next preceding the filing of this petition, and that such possession has been continuous, open, notorious, hostile and uninterrupted, and plaintiff pleads and invokes the provisions of the ten year statute of limitation as same applies to land titles in the State of Texas; And further in the alternative, plaintiff invokes the 5 year statute of limitation as same applies to land titles in the State of Texas, and says that for more than 5 years prior to the filing of this suit he and his predecessors in title have been in possession of said premises as above alleged, duly rendering same for taxation, and paying such taxes before same became delinquent.

Plaintiff prays that defendants be cited to answer and appear, and that on final hearing he have judgement for title to and possession of said lands, for costs of suit, for damages, and for such other and further relief to which he may be entitled either at law or in equity.

If this Citation is not served within 90 days after the date of its issuance, it shall be returned unserved. Issued this the 25th day of January, A. D., 1949.

Given under my hand and seal of said Court, at office in Farwell, Texas, this the 25th day of January, A. D., 1949.

Loyde A. Brewer, Clerk District Court, Farmer County, Tex.

Bovina Happenings
BY MARIE VENABLE

Congratulations to Mr. and Mrs. Glenroy Davies on the birth of a son, Monday, at Clovis Memorial Hospital.

Congratulations to Mr. and Mrs. Leonard Gee on the birth of a daughter, Thursday, at the Clovis Memorial Hospital.

The local Legion Post boys played the Friona Legion cage team last Thursday night, in Bovina, with the locals winning, 46-42.

Charlie Jefferson received an arm and hand injury, Thursday noon, as he became entangled in an electric motor while trying to remove ice. Elton Venable heard his cry for help and cut of the pump in time to save Jefferson from serious injury.

Mrs. Jessie McSpadden and mother, Mrs. Wade, almost weren't here to tell of their experience, Wednesday morning. They were almost gassed in their tightly closed home, and were very ill, but are improved.

Mr. Combs received medical care at the Friona hospital, Friday.

Leon Richards has been confined to his home the past week with strep throat. He is much improved at this writing.

Glenroy Davies, who has been quite ill for some three days in the Clovis Memorial Hospital, returned home Thursday and is reported doing fine. He had strep throat.

The local American Legion sponsored a dance Saturday night, with some 35 couples attending. The Ace Hillbillies from Clovis furnishes the music. Everyone is invited to come next Saturday night, Feb. 5th.

Mr. and Mrs. Bill Denney, who were taking their son, James, to Amarillo last Thursday for medical care were unable to go because of the weather. James has a very bad case of eczema.

Mr. and Mrs. Fred Langer and daughter, of Clovis, spent the past weekend in the Joe Langer home.

Miss Ruth Bonds, who is teaching in Farwell, spent the weekend with her parents here.

Mr. and Mrs. Herman Jones and family, of Clovis, spent the weekend with Mr. and Mrs. Stacey Queen. He celebrated his birthday Saturday, January 29th.

Mrs. Wasson was unable to work at the Jefferson laundry the past week, as her children had measles.

Word has been received that Paul Orgon, son-in-law of S. A. Brito, who was returning from a business trip to Amarillo the middle of last week was in a wreck, demolishing his 1940 Ford coupe. He received no injury.

Mr. and Mrs. Walter Blalock, of Clovis, spent the past weekend with his parents, the Hinton Blalocks.

Miss Martha Williams, of Canyon, spent the weekend with her parents, Mr. and Mrs. W. E. Williams.

Paul Smith and Charles Dean Smith, who attend school in Lubbock, spent the weekend here.

STUDY CLUB MEETS IN ROSS HOME

The Bovina Woman's Study Club met Thursday afternoon in the home of Mrs. Charles Ross with Mrs. Arnold Hromas as co-hostess.

The afternoon was spent in a business meeting, since weather conditions prohibited program plans from being fulfilled.

Delicious refreshments were served to Mesdames Gabe Anderson, Jr., Lloyd Battey, Tom Caldwell, Bedford Caldwell, Harry J. Charles, David Carson, A. W. Gober, Lester

Rhinehart, William Thornton, As Wilkinson, and the hostesses.

The next regular meeting will be held in the home of Mrs. Webb Gober, on February 10th.

YOUNG-LANGER RITES

READ IN HOT SPRINGS

Luradean Young, daughter of Mrs. Alvin Burk, 901 Ross, Clovis, and Fred Langer, son of Mr. and Mrs. Joe Langer of Bovina, were married in Hot Springs, New Mexico, on Saturday, January 22nd. At present they are residing in Clovis.

Get Ready For Next Spring's Garden Now

COLLEGE STATION—Got your garden tools handy? Better get them out and sharpen up the shovels and hoes. It's time to do a little work in the garden. It isn't planting time quite yet, but there's a bit of spading to do.

J. F. Rosborough, extension horticulturist of Texas A. and M. College, says that most garden soils should be prepared for spring planting in January or early February. If you prepare the soil deep, there's a good chance you'll catch a large amount of winter moisture that will be needed for the garden. And if you have a few low spots in the garden area where the water stands a little longer after a wet spell than normal, then you've got a drainage problem on your hands. With these spring rains coming up, it would be a good idea to get these drainage problems out of the way as soon as possible.

Compost or barnyard fertilizer will prove helpful where it is applied. It'll take about a wagon load for an average size home garden, spread along in the row. If you can't get either of these materials, then you'd better check up on the commercial fertilizers if the soil is sandy and there's a good water supply.

Just before—or at planting time—three to five pounds of 5-10-5 commercial fertilizer should be applied for every 100 feet of row. Give the fertilizer a little time to break down and become available to the plants.

Then take a hoe and open up the furrow.

And you're ready to plant the seed.

The 1947 income from farm marketings in Texas totaled nearly 2 billion dollars. In fact, the 1,942 million dollars received in that year was 74 percent above the 1,115 million received in 1945 for crops and livestock.

The word "kafee klatsch"—which ago in Vienna. It has come to mean originally meant a ladies' afternoon any gathering of people who, over coffee party—originated centuries coffee, have pleasant talks together.

BARGAIN COUNTER

See our bargain counter for real BARGAINS. This counter will have different bargains each week—beginning Monday of each week. FIRST COME, FIRST SERVED. Some of the items are listed below for the first week beginning Monday, January 31st.

- 1—Magic Chef gas range.....\$229.50 for \$169.50
- 1—Frigidaire Ironer.....\$199.75 for \$149.75
- 1—Bedroom suite.....\$149.50 for \$115.50
- 1—25000 BTU Dearborn heater.....\$39.95 for \$27.50
- 1—24000 BTU Thompson heater....\$24.75 for \$18.50

Electric irons, light fixtures, flood lights, iron cords, wrenches, 600x16 automobile tires, kitchen sink, mixing faucet, radio, 200 gallon natural gas water heater, 25000 BTU floor furnace, and many other items.

The Worst IS YET To Come

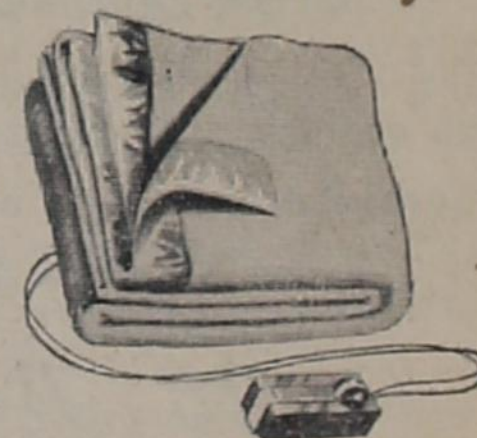

It's been cold... but the worst is yet to come.

Some lucky folks are all set with electric blankets already at home. But for the rest... those who are looking forward to sleeping under a load of blankets this winter or suffering from a series of colds... the word is to "go electric."

Electric blankets bring you not only guaranteed sleeping comfort on the coldest nights, but a definite relief from colds. Under a comfortable featherlight electric blanket, you're not exposed to energy-draining nights of cold discomfort.

While the original cost is just a little more, you'll save money on cleaning your single electric blankets, and on storage problems. One night under an electric blanket, and you'll KNOW that you want the many advantages offered you by an electric blanket.

See Your Dealer

You'll find a choice of makes and colors in electric blankets.

When Your Back Hurts—

And Your Strength and Energy Is Below Par

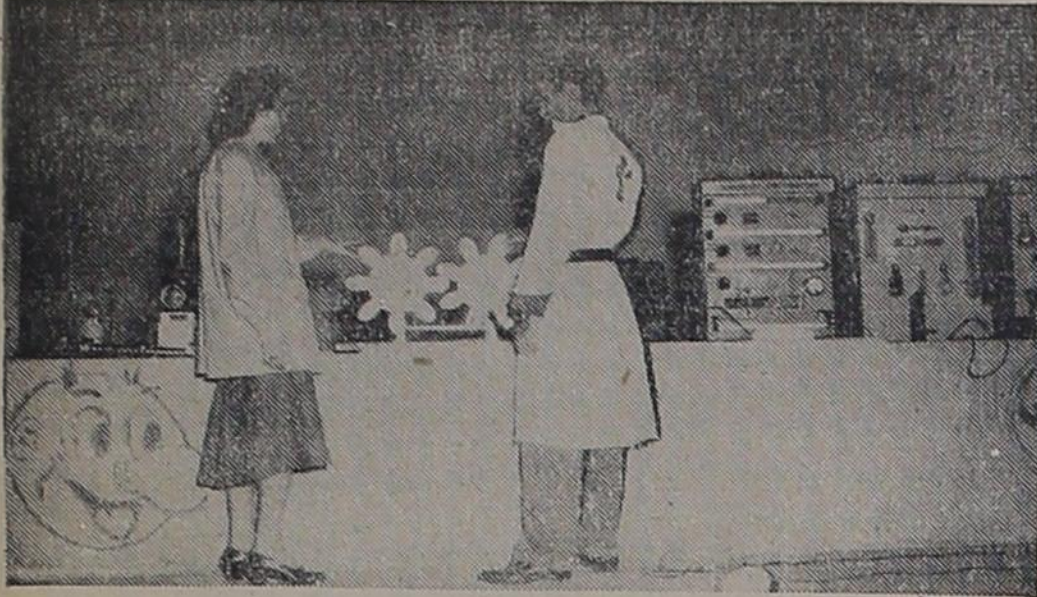

It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood.

You may suffer nagging backache, rheumatic pains, headaches, dizziness, getting up nights, leg pains, swelling. Sometimes frequent and scanty urination with smarting and burning is another sign that something is wrong with the kidneys or bladder.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. It is better to rely on a medicine that has won countrywide approval than on something less favorably known. Doan's have been tried and tested many years. Are at all drug stores. Get Doan's today.

DOAN'S PILLS

SOUTHWESTERN PUBLIC SERVICE COMPANY
24 YEARS OF GOOD CITIZENSHIP AND PUBLIC SERVICE

These gears are turned by electronic impulse during the General Electric "House of Magic" show which Southwestern Public Service Company will present here soon. Two of the Public Service employees who help present the exhibit are shown. They are Miss Mary Howard, and H. E. Laird, both of the Plainview office of the Public Service Company.

Scores of wonders from one of the nation's top electrical research and electronic research laboratories will be shown at the Bovina High School auditorium at 7:30 p. m., February 10, 1949, when Southwestern Public Service Company brings the General Electric "House of Magic" show to town.

The production here will feature the most striking of the many exhibits designed by General Electric scientists and research men to acquaint laymen with the advances that are being made in making electric power more useful to mankind.

While some of the exhibits are of a scientific nature, others are produced as entertaining exhibits of electrical miracles that have more practical uses.

Dan J. Castles of the Plainview office of the Southwestern Public Service Company serves as master of ceremonies for the 60 minute show. He is assisted by H. E. Laird, a lighting specialist from the Plainview office.

The exhibition includes demonstration of light bulbs in all sizes, with some of the newer developments in lighting such as the match stick sized 1000 watt bulb used to light air fields during the war. Also shown is fluorescent light, being used for many purposes, and the mercury vapor lamps being used for street lighting.

Other developments from the GE laboratory include stroboscopic lighting, photo electric cells which are used to control lighting, the use of electrical energy to turn gears through space, black light which cannot be seen, and the use of polaroid lenses to diffuse light rays.

TO HOLD ANNUAL MEET

AUSTIN.—The annual Texas Elementary Principals and Supervisors Association will meet at the University of Texas April 7-8-9, Dr. Henry J. Otto, elementary education professor, announced. Curriculum revision will be the theme of the meeting. Section meetings, all-day study sessions, and discussion groups will feature the conference.

Castor Oil Good For Keeping Boots In Shape

COLLEGE STATION — Here's some good news for the youngsters. Castor oil is one of the best oils to use for keeping boots in shape. The kids will agree that boots make a better use for castor oil than stomachs.

Castor oil—as well as neat's foot oil and cod liver oil—helps keep the water out of leather. And that's just what folks are looking for this time of year during the damp, snowy weather.

Nena Roberson, associate extension clothing specialists of Texas A and M. College, says if you put the oil on with a soft cloth very lightly and evenly and rub it in well, the shoes will take a good shine when dry. However, if too much oil is applied, the shoes will not take a good polish. Let the shoes stand from 12 to 24 hours after putting on the oil before you put the polish on. That's time enough for letting them absorb all the oil.

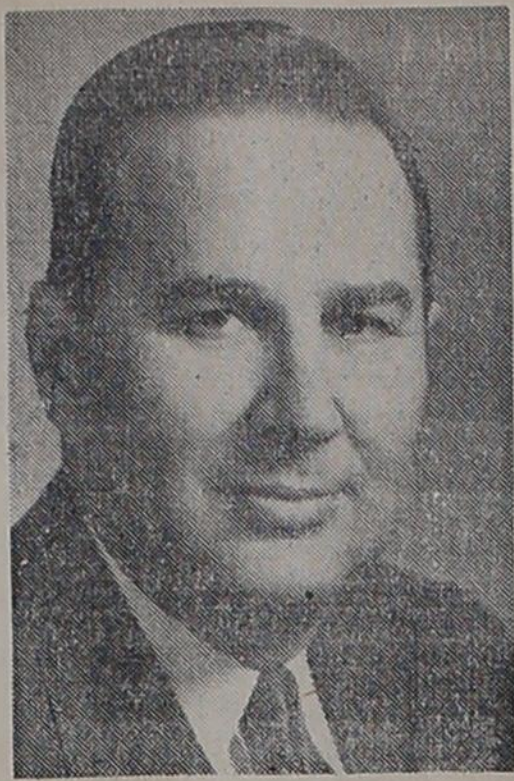

For water proofing shoes and boots, you'll need neat's foot oil. Be sure the shoes are clean and dry before you start. Put the neat's foot oil on with a soft cloth and rub the shoes thoroughly with the palm of your hand. Make sure the grease soaks in well where the sole joins the upper. This is one place where the water soaks in very readily.

Then dry the shoes in a warm place—but not a hot one, says Miss Roberson. A shine box is handy for keeping the shine equipment all in one place and a place to rest the shoe while the shining job is in progress.

Turn the shine job over to the youngsters. They'll enjoy putting castor oil on shoes.

Trucks haul 56 percent of all farm products to their destined market in the United States.

T. M. MENKE
Business Manager, CCA

Menke To Conduct Special Meeting

AMARILLO—T. M. Menke, business manager of Consumers Cooperatives Associated, of Amarillo, will conduct a special meeting on distribution at the annual meeting of that organization, which will be held on February 14-15 at the Baker Hotel in Dallas. The event will attract over one thousand farmers to Dallas in observance of Texas Farm Cooperative Week, which has been proclaimed by Gov. Beauford Jester.

"The significance of farm cooperatives is becoming more and more pronounced in the development of a secure farm economy," Menke said in a recent interview in his Amarillo office. "Cooperatives set up for the marketing of farm produce and for the procurement of farm supplies can be termed as 'off the farm farming', and should be considered a distinct and integral part of the

individual farmer's operation.

"No individual farmer wants nor has need of a highly intricate business system to supply marketing service and commodity distribution for his one farm, but by reaching across the fence and joining hands with his neighbors, he can own these services and business system by cooperation. Through this method the farmer is building a strong and secure agricultural economy which not only benefits him but every person who lives in this country. When the farmer is secure, the nation is secure," Menke observed.

The two-day meeting in Dallas, Menke stated, will be the most significant farm meeting to be held in the Southwest this year.

Start Now To Provide 1949 Grain Storage

With most of the 1948 grain crop in storage—by a tight squeeze—it is not too early to begin preparing for the 1949 crop, says the PMA of State College, N. M.

Crop prospects based on present conditions generally are good. With the large carryover from last year, storage may be more of a problem in 1949 than it was last year.

Certain materials may continue to be scarce and hard to get. Officials suggest that by anticipating needs, getting orders in early, many difficulties and delays can be avoided.

Where it is at all practical, farmers are advised to order material and construct storage early rather than waiting until the crop is being harvested, when many others may be bidding for limited supplies.

Such forehanded effort also is a part of conservation. The nation has a vital interest in seeing that crops are properly stored—that the food and feed produced are served.

The outlook is going to be good for the dairymen who does a good job.

CORPORATION CHARTERS

AUSTIN.—Charters were issued to 273 Texas businesses in December, with a total capitalization of \$6,198,000, the University of Texas Bureau of Business Research reported.

A total of 228 charters were issued in November, and 301 businesses were formed in December 1947.

Totalling 67, merchandising businesses received the greatest number of charters in December, followed by manufacturing, 35; and real estate 34.

Corporations with a capitalization

of \$5,000 to \$100,000 received 111 charters, the largest number of charters issued to one group.

There were 3,801 firms incorporated in 1948, compared with 3,247 in 1947.

EXHIBITED IN 1863

Claude Monet's painting "Impressions" was exhibited in 1863 in a special exhibition of paintings turned down by the French official salon. It marked an open revolt against the Salon's hostility to all originally and experiments in art.

Texico Girls Champs At Muleshoe Meet

The Texico girls carried off a lion's share of honors last weekend, when they participated in an invitation tournament at Muleshoe. Two trophies were awarded the team, one for championship in the girls' bracket and one for sportsmanship. In addition, two girls rated all-tournament player choice, while one received honorable mention.

Grace McDaniels and Patsy Ingram, star forwards of the squad, were both placed on the all-star list, while Claudine Bridges, guard, was awarded honorable mention for her work during the tournament.

The girls played three games to win the crown. On Thursday afternoon they defeated a strong Leveland squad in a hard battle, 40-36. Ingram scored 14 and McDaniels 12 for Texico, but Tipton had high honors during the match with 16 for the losers.

Semi-final play on Saturday afternoon put the locals opposite Sudan, in a second bitterly-contested battle which ended 42-34, favoring Texico. Ingram and McDaniels again did the basketting, with 17 and 16 respectively, while Williams of Sudan led the parade with a total of 21.

The final game Saturday night saw Texico in action against Three-Way, and for the first time the girls' score dropped below 40, with the final tally giving them a 34-26 majority over their opponents. McDaniels banged in 21 to lead the scoring, while Ingram had 11 and Emerson, of Three-Way, counted 12.

Dimmitt Splits Wins With Farwell, Tuesday

Dimmitt split games with Farwell the past Tuesday night when the locals were host teams to the Dimmitt squads, on the home court.

The boys game proved to be a tough fight from the beginning, and at half-time the score stood 23-22 favoring Dimmitt. The Farwell Steers did some hard fighting to match that of the visitors, but finally dropped behind and the score read Farwell 37, Dimmitt 47 as the final whistle sounded.

Thomas, of Farwell, was high point man of the game bagging 17 to his honor, while Rice of Dimmitt was close on his heels with 16.

The Farwell girls proved their superiority over Dimmitt in their match, with Farwell winning the game by three points. The final score read, Farwell 46, Dimmitt 43.

At the half, Farwell seemingly stood little chance of winning with the score favoring Dimmitt with a three point lead, 17-20. But the locals edged their way out in the lead to put Dimmitt in the background. The final score stood 46-43, Farwell.

Dial won high point honors for Farwell taking 23 of the total score, and Newton was high for Dimmitt with 18.

Two Home Games Are Planned At Texico

Both Friday and Saturday night of this week will see action on the Texico cage court, with two boys' teams coming from Rogers on Friday, while the boys and girls of Grady will contest Texico on Satur-

day. Information is to the effect that the Rogers quintet is not quite as formidable this year as it has been for some time, and the Wolverines hope to come out with two scalps when the teams meet.

Hostilities between Texico and Grady are always one of the highlights of the season, and reports indicate that both the visiting squads are high on the winning list this year. Both Texico teams have an about-even battling average for the season in games over the county, and the weekend series of matches is expected to be entertaining to fans.

Next weekend, February 11-12, will see the county tournament, which will be held in Clovis, and on February 18th the squads will play their last home games with the Rosedale aggregations, following which the boys will take part in the district tournament, the next weekend.

Games with Pleasant Hill and Floyd were cancelled last weekend, due to road and weather conditions.

Cage Schedule Lists Bovina and Friona

Cage games with Bovina and Friona face the Farwell teams on Friday and next Tuesday night, respectively, coaches at the school said on Monday, with both series to be played away from home.

Neither the Farwell Steers nor the girls have lost matches this year to the Bovina teams, and hopes are high that two more wins will be added to the ledger on Friday night.

At Friona, two hard-fought games are in prospect, with the Chiefs seeking to avenge a defeat handed them recently by the Steers, and the local girls praying to dump the Steers before the season ends.

Currently, Coach Jack Williams said, the Vega boys rate tops in the district with four conference wins compared to no losses. Adrian is in second position with three wins and one defeat, while Farwell and Bovina are tied up with two victories and two losses each.

On the girls' side of county conference play, Friona leads the list with no conference defeats, while Farwell has dropped only one match and Bovina has lost to both teams.

District winners for the boys will play in the regional conference at Texas Tech gym in Lubbock, while the county girls' winner will go to the district meet at Claude.

Coach Williams added that two sets of make-up games would have to be run off shortly with the Lazbuddy squads, since weather conditions cancelled out previously arranged meets.

TOURNEY DATES SET

The Curry County cage tournament will be held in Clovis on February 11-12, with the District 6 meet to be staged in the ENMC gymnasium in Portales on February 24-25-26, Coach C. E. Sanders of Texico reported today. Brackets for the county meet will be drawn next Monday night, with officials also being named at that time, he said.

Benefit Games Draw Good Crowd Monday

A March of Dimes benefit staged at the Farwell gym Monday night saw a large crowd on hand to witness the meeting of the Sudan and Farwell cage teams, with Supt. Jack Williams reporting generous donations toward the polio fund.

First on the floor, the local girls played their best brand of ball and held a lead throughout to emerge on the long end of a 40-29 count, as Dial sparked the locals when she banged in 20 points for her team.

The Steers, on the other hand, were not so fortunate in their encounter with the Sudan squad, winding up some 12 points in arrears, the count being 31-20. Thomas and Booth each had 13 for the locals as Sherrill led Sudan with 12.

Coach Louis Purvis reported that Sudan is currently the leading Class A team in their district, and indicated that his boys turned in a good account of themselves against a superior squad.

Asked about the March of Dimes campaign which came to a close on Monday night, Supt. Williams said Tuesday morning that he had not made a complete checkup and did not feel free to make a definite announcement. However, he indicated that donations at the school would run over the \$300 mark.

Two Colorful Movies Will Be Shown By Local M-M Dealer

A colorful program which will include the showing of two feature films in color and in sound has been arranged for farmers and their families in this community. This program, which will be held on Friday, February 4th, is sponsored by Ralph Humble, local Minneapolis-Moline farm machinery dealer, and will be held at the Border theatre.

Special invitations were mailed out by Humble to farmers in this area, inviting them to bring their families and friends and enjoy the program, which promises to be a gala event.

One of the films, entitled "This Heritage of Ours", features the great episodes in the growth of America where freedom has always been a sacred heritage. In a dramatic way, it takes the audience on a tour of places that now live in history, including many made famous by the Oregon Trail, the Mormon Trail, the camp where gold was discovered in '49, and the Alamo. The film also stresses the part agriculture has played in making America the great nation it is.

The second film, entitled "Reasons for the Seasons" is a story of the seasons, why they occur, and how they affect the lives of all living things on earth. This film is of particular interest to farmers who de-

CRAWLEY PLAYERS WIN

pend so much on the seasons for their livelihood. Colorful sequences also show how the modern farmer, with the help of modern machinery, is able to cope more effectively with the demands made by the seasons on him and his work wherever he lives.

In announcing the showing of the films, scheduled to begin at 1.30 Friday afternoon, Humble declared that the program that has been prepared will include other events certain to be enjoyed by the entire family.

The Crawley Bakery team won over Al's Drive In by a score of 24 to 21 Tuesday night in the Clovis League. Martin lead the locals in scoring with three field goals and 4 free tosses. Howell was the high scorer for Al's Drive In with three field shots and one charity toss.

Water power was first harnessed by the ancient Egyptians. They used simple wheels to raise water from the Nile for irrigation.
