**Wayland Choir Gives Okla. Lane Program**

Six members of the Wayland College Volunteer Mission band presented their program at the Oklahoma Lane Baptist church during the weekend, Rev. Mayo Carpenter, pastor, says.

There were 121 in Sunday school at the church the past Sunday, an a larger number at worship services, the pastor states. Lunch was served and the Mission band led in the singing and preaching service, after

which time they directed a church fellowship meeting.

Choir practice and Bible study were enjoyed by all who attended the Wednesday evening services, Rev. Carpenter says.

The pastor invites everyone to attend the Oklahoma Lane Baptist church, adding that he is anxious to keep the Sunday School record over one-hundred.

**Farwell College Students Visit Here During Week**

Two former Farwell High School athletes were here visiting friends and relatives last week. They were Donald Ford, of Texas Christian University in Ft. Worth, and Warlick Thomas, of Abilene Christian College in Abilene.

Ford was here to attend the funeral of Travis Brown, and Thomas came with his mother and some college friends to take a look at their wheat north of town. Both returned to their studies during the weekend.

**To Edinberg**

Mr. and Mrs. Clyde Magness and daughter, Phyllis, will leave Thursday for Edinburg, Tex. to visit in the home of his uncle, Si Magness. His mother and father, who have been visiting there for the past three months, will return home with them.

**Farwell Loses Area One-Act Play Contest**

Farwell one-act play cast failed to place in the area one-act play contest held in Littlefield Thursday night according to the play director, Miss Jett Byerley. Buil Dollar, best district individual actor, was also named to the area all-star cast.

The first place play was presented by Anton High school and was entitled "A Night At An Inn". Cast included Toff, Bob Watson; William Jones, Kenneth Sudduth; Albert Thomas, Joe Bob Garner; Jacob Smith, Donald Stone; 1st Priest, Charles Garrett; 2nd Priest, Bobby Harper; 3rd Priest, Ed Swanson; and Klesh, Jimmy McGowen.

Second place winner of the contest was Springlake presenting "Dark Wind". The four cast members were Nurse Grayson, Delora Whitford; Nurse Fleming, Janabeth Laing; Nurse Bates, Juanell Crawford; and Jerome Stevens, Earl McNeill.

Farwell play was "Outward Bound", and characters included: Scrubby, Dennis Raney; Ann, Nancy Aldridge; Henry, Frank Gullely; Tom Prior, Buil Dollar; Mrs. Clenden-Banks, Laverna Christian; The Rev. Duke, Jerry Pool; Mrs. Midget, Bernice Christian; and Mr. Lingley, John Christian.

Meadow also entered a play in the

competition entitled "The Last Flight Over". Cast was Pa. Norman Lockett; Mattie, Pal Schwartz; Sary, Lee Nell Walker; Dave, David Combs; and Benny, Billy Reese.

**Take Weekend Trip**

Mr. and Mrs. J. W. Crim spent the past weekend in the valley visiting relatives. While on the trip, they visited relatives in Corpus Christi, Austin, Commanche and Dublin. They went deep-sea fishing, Mr. Crim says, although they had no luck. The local residents report that crops in the valley are in very poor condition.

**Visit in Farwell**

Mr. and Mrs. Vance Crume and daughters, Judy and Beth, visited Sunday afternoon in Farwell in the home of Mrs. Crume's parents, Mr. and Mrs. W. H. Graham, and with Crume's sister, Mrs. Hayden Cason and family. Also in the Cason home during the afternoon were Mr. and Mrs. Van K. Crume and sons of Portales.

**Leathercraft Course Begins Tuesday Night**

A leathercraft course, instructed by Mrs. N. R. Harding begins Tuesday night at the home economics building in Farwell. The school will

continue through Thursday night. Instruction will begin each afternoon at 5:30 and will continue until 10 o'clock each night during the three-day session Mrs. Harding reports.

Mrs. John Porter will assist in teaching students to make billfolds, belts and purses. Mrs. Harding will furnish leather and tools.

Anyone interested in taking the course is asked to register at the State Line Grocery. A small charge will be made.

# Walter Rogers Comments About Impeachment of President Truman

By WALTER ROGERS

My office has received approximately 100 telegrams signed by approximately 150 people. I have also received approximately 100 letters and about 15 personal telephone calls concerning the action of the President in relieving General MacArthur of his command. Out of all of these communications there were approximately five that approved the action of the President. Almost all the others demanded the impeachment of the President, Dean Acheson and various other civil officers. These communications came from the 18th District. I had other communications from outside the District totalling approximately fifty. These were divided in approximately the same ratio. The offices of other congressmen have also been flooded by these communications most of them expressing heated disapproval of the President's action in this respect. This overwhelming expression of the sentiment of the people affords an

excellent opportunity for any man in public office to play politics and to the aroused emotions of the people. Many have succumbed to this temptation and are attempting to use this serious situation as a political football. This I cannot conscientiously do, as indignant as I might feel about the action and as aroused as my emotions might be under the circumstances. If there was ever a time in the history of this country when cool, calm and collected deliberation was needed in the Congress, it is now. I sincerely regret that the action was taken and I pray to God that our position and our way of life will not be jeopardized by it. General MacArthur is an outstanding military genius. This no one can deny, not even the President. He was a military official, and under the Constitution and laws of our Government, he was and is subject to the orders of the civilian officials. However erroneous, however unsound or mistaken those orders might be, they

are not grounds for impeachment. The American people are entitled to know the truth as it is written in the law and the Constitution. The provision of the Constitution providing for the impeachment of the President.

Vice-President, and other civil officers, Article II, Section 4, is as follows: "The President, Vice-President and all civil officers of the United States shall be removed from office on impeachment for a conviction of treason, bribery, or other high crimes and misdemeanors."

The order of the President relieving MacArthur of his command was within his constitutional powers, and cannot, standing alone, constitute grounds for impeachment under the Constitution. If the President of the United States, or any other civil officer, is guilty of any act that comes within the provisions of the above quoted Section of the Constitution, impeachment proceedings should be instituted without delay

and prosecuted forthwith.

I can tell you that every act of the President of the United States since his induction into office has been thoroughly and searchingly examined in an effort to discover grounds upon which impeachment proceedings could be instituted, and the same is true of Dean Acheson and the other public officials in the Administration.

There is no doubt that such proceedings would have been instituted long ago had any evidence been uncovered that would meet the requirements of the Constitution.

If there is a citizen of the United States anywhere who has any evidence upon which public official could be impeached, it is his bounden duty as an American citizen to come forward with it and let the law take its course, let the chips fall where they may.

At any time such information or evidence comes into my hands or to my knowledge I will consider it an honor to institute impeachment proceedings against the offending party, whether he be the President of the United States, or the lowest public official in our Government, regardless of his party affiliations. I have discussed the matter at length with members of both parties who have been in Congress for the past seven

years and who have done a great deal of work on this subject, and not one of them has furnished me with any evidence of any facts of this nature that would come within the purview of the Constitution, and they have stated to me that it is their opinion that the facts they have uncovered would not be sufficient upon which to base such a course of proceedings.

I shall cast my vote for a resolution inviting General MacArthur to appear before a joint meeting of congress, and will look forward to hearing a full discussion of his views.

The Congress is entitled to this and the American people are entitled to it. This is no time for partisan politics. We are at the cross-roads, and the issue is clearly cut. It is Americanism versus Communism.

## Baptist Revival Held At Progress Church

Revival services at the Progress Baptist church will continue through Sunday night. Rev. Evert Springfield, pastor of the First Baptist church of Anton, is the evangelist, and Pastor C. C. Morgan is leading the singing.

Services are held twice daily, morning sessions begin at 10:30 o'clock and evening worship is held at 8 o'clock.

Sunday school rooms are under construction and the church auditorium is being enlarged. Pastor Morgan states that the steady increase in attendance made it necessary to enlarge the church building.

Rev. Morgan moved on the field a few weeks ago and he is leading the church in a marvelous way, according to a spokesman of the church. The Training union attendance is parallel to the Sunday School and the W. M. S. is functioning nicely, it was stated.

A cordial invitation is extended to all to attend the revival services, the pastor states.

### SINGING AT MULESHOE

A notice has been received that the Assembly of God Church in Muleshoe will sponsor a singing Sunday afternoon, April 22, between 2:30 and 4:30 p. m. Bro. Roy Stewart, pastor of the Assembly of God Church in Clovis, will be in charge of the program, and persons interested are urged to attend the meeting.

N. W. "Bud" Peyton has been recuperating from the mumps the past week.

## District Legion and Auxiliary Meeting Held In Borger Last Weekend

Local members of the American Legion and Auxiliary attended the district meeting of the organization held in Borger the past weekend, Wilfred Quickel, local post commander says.

Attending the session from Texico-Farwell were Mr. and Mrs. Joe Helton Mr. and Mrs. Wilfred Quickel, and Mr. and Mrs. Loyde Brewer.

After registration, the auxiliary members attended a tea, and all attendees were honored with a dance Saturday night. The Borger post was host to the affair.

The opening business session, committees were appointed. Loyde Brewer was selected as a membership committee, and Quickel was appointed to the convention committee.

National executive committee, Roy Bernard was present at the meeting; also attending was Texas adjutant, G. Ward Moody. Principal address of the first session was given by New Mexico commander, D. H. "Tiny" Reed, who discussed "Creeping Paralysis of Socialism." After his speech, committee reports were given.

Membership represented in the district was 6,502. Convention city for November is Childress.

G. Ward Moody spoke on "For the Good of the Legion", explaining the activities of the organization. A resolution was made asking for an apology from President Truman, Quickel says, and plans for investigation of the Far East Foreign policy and quick action of Texas Veterans affairs commission finance bill were discussed.

Elkins, department commander, asked that no post make "a half-baked statement" until the organization gets the facts on the international situation, Quickel adds. The local commander quoted Elkins as saying "how do we know Ridgeway isn't a better man than MacArthur?"

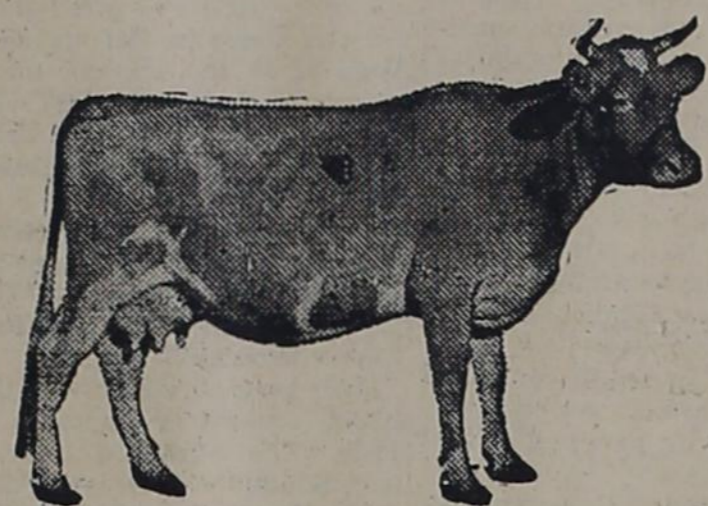

"HOW TRUTHFUL IS THE LIE DETECTOR?"—A lie detector reported an innocent person guilty and the guilty one innocent. . . . Another recorded as guilty a person who was allergic to the machine.

Learn how a shrewd suspect can outwit the lie detector. It's in the American Weekly, that great magazine distributed with next Sunday's Los Angeles Examiner.

Twila Mae Strickland and her niece, Tracy Lee McDaniel, spent Saturday in Lubbock.

SENIORS PLAN COMMENCEMENT

Texico seniors will present a short play entitled, "It Happened Yesterday," for their graduation exercises on May 2 in the high school gymnasium.

Music will be provided by Mrs. John Armour who will play the recessional and processional and accompany a boys' trio, Jimmy Horton, Jerry Jester, and Stephen Stone.

The play will begin with the memories of two seniors, Jane and Aunt Sue played by Violet Curry and Jo Beth Engram. Memory, Dee J. Brown, will give the salutatory, "Trough The Looking-Glass". The class president, Jimmy Horton, will give a short address followed by the class historian, Wayne Tucker, who will present the class officers, sponsor, and motto. Various honors earned by students and sports letters will be presented by Agrie Jones, superintendent, and then Claud Curry, president of the local school board, will present the seniors with their diplomas.

The numbers scheduled on the program are special numbers, sung by the Boy's Trio followed by a skit from the senior play, "Oh, Aunt Jerusha!"

Stephen Stone, class poet, will give the poem, "Reflections." The statistician, Jerry Jester will present the specially gifted students called vanities. The giftorian, Bobbie Allred, will present gifts to the class

noting the career each plans after graduation after the class prophet, La Veda Harriman, depicts the future of each graduate, the testator will read the class will. Testator for the class is T. W. Parton.

The last speaker for the evening is the validictorian, Carmen Roth, who will give an address, "A Forward Look," after which the seniors will sing "Goodbye", and march out to the recessional march.

SECOND GRADE NEWS

The second grade students have made a new blackboard border of bird houses with Redbirds inside.

They are studying a new unit on Railway Transportation, which includes the history of the train, how they were first made, and how they help people. Each child plans to make a train scrapbook from pictures they collect.

Linda Stinnett has moved to Sudan, Texas.

GIRLS FORM CLUB

"Animal Protection Club" is the name of a club that has been formed by the fifth grade girls. Red roses were selected for the club flowers and their colors are to be yellow and light magenta.

The following officers were elected—Fay Autrey, president; Darlene Seale, vice president; Melba Doshier, secretary; Gloria Johnson, treasurer; Audrey Hapke and Geneva Harriman, reporters.

SENIOR OF THE WEEK

Mr. and Mrs. W. L. Reid became parents of their first child, a son, on January 16, 1933. They named the child William Oliver, since shortened to W. O. by friends and classmates.

When he was six, W. O. was enrolled in the first grade at Texico, where he has attended the last twelve years.

This year, his last year in high school, his academic courses include geometry, Agriculture III, safety education, and sociology.

W. O. is president of the Texico chapter of F. F. A. and was a member of the basketball and softball teams. He was awarded a gold basketball for first place achievement in the intraschool free shot contest.

When asked what his favorite food is, he replied, "ice cream." Also mentioned, were his favorite color, red, and the song he likes best, "I Want To Be With You Always."

W. O. plans to farm after he completes his school work here.

STARS ARE STUDIED BY THIRD GRADE

"Third graders are studying a unit on the stars, which includes the big dipper, little dipper, seven brothers, the milky-way, and the new moon," Mrs. Frank Seale, teacher, reported today.

"At The Seashore" and Health and Happiness" movies were shown to the group this week.

Gayle Hadley attended the dairy show at Plainview Friday.

Yvonne James has withdrawn from school.

FOURTH GRADE NEWS

Fourth graders were sorry to lose two of the students, Fleeta Roberts and Betty Landrum. The class was also glad to welcome Teddy Roth and Jerry Reid, who have been ill, back to school, stated Mrs. B. A. Rogers, teacher, today.

The students are making blue birds to decorate their room. They are also planning a program which will be presented at the end of the school term.

5TH AND 6TH PRESENT ASSEMBLY PROGRAM

"Down On Old McDonald's Farm" is the name of a play to be presented in an assembly by the fifth and sixth grades. The play is to be in costume and is under the direction of E. U. Scott.

A date for presentation is to be set later.

The cast is as follows: Farmer McDonald is to be played by Alex Brown; the Young Farmers are Butch Tharpe, Dick Lockhart, Dickie Adams, Joe Glaze, Preston Cain, Alfred Doshier and Matt Pendergrass; Young Farmerettes are to be—Betty Pendergrass, Mikala Faville, Melba Doshier, Geneva Harriman, Barbara Caldwell, Susan Levins, and Carolyn Curd;

Little Chicks are to be—Suzanne Walker, Betty Crawley, Gloria Johnson, and Buddy Spears; Little Ducks are to be played by Johnny Mac Brown, Audrey Hapke, and Garlene Seale; Little Pigs are to be—Mart Lowery and Jerry Henson; Woffle the Dog is Jimmy Moore; Tabby the Cat is Ray Autrey; and the Horse is to be Jimmy Walker.

FIFTH AND SIXTH NEWS

Honor rolls for the fifth and sixth grades were announced today by E. U. Scott, teacher. Fifth grade honor students are—Jerry King and Dicky Adams. Those highest in department were: Gaile Roberts and Drue Harvey.

Sixth grade honor students were: Susan Levens and Dick Lockhart, and the highest in department for this class were: Barbara Caldwell and Carolyn Curd.

Ronald McDonald has enrolled in the sixth grade. Ronald was transferred from Clovis. His guardian is Lee Bohn who is employed as a mechanic.

The fifth grade has completed their New Mexico History book and the class is now taking final tests.

HOME ECONOMIC NEWS

The second year home economics girls have been studying the cuts of various types of meats. Those they have studied are pork, beef, lamb, and veal.

They are also learning the characteristic and how to cook the different cuts of meat. The girls tried an experiment to see if they could tell

the difference in meat which is cooked with accent and that which is not.

Mrs. Allman, instructor, stated that they have studied the newer information concerning the value of protein in the body.

THIRD GRADERS ARE CAST IN OPERETTA

Third grade characters and costumes for the grade operetta to be presented next Friday evening were announced today by Mrs. Frank Seale, teacher.

Charles Bennett Stockton, who plays the part of Peter, will be dressed in a grey suit with pink ears.

Mr. McGregor, played by Donald Blair, will be dressed as a farmer in overalls and straw hat.

Four daughters, LaDonna Stewart, Gayle Hadley, Mary McDaniel, and Connie Thorpe, will be dressed in long dresses with matching bonnets. All other third graders will wear flower costumes and be tulips, roses, and daisies.

ANNOUNCEMENTS ARRIVE

"Texico senior graduation announcements arrived today," stated Fern Stout, sponsor, Monday.

The announcements are unusual this year featuring an embossed "T" designed for Texico set in a green background on white paper and the year 1951 on it. Inside the cover is an engraved picture of the high school building.

JUNIORS SELECT CLASS RINGS

Bill Bates of the Starr Engraving Company showed class rings to the juniors in a special meeting Thursday.

The ring selected by the juniors features a blue stone setting, with a gold "T" for Texico centered on the stone.

The numbers 19 and 52 are embossed on the sides of the rings. Each ring will have the owners initials engraved inside the band.

TEXICO STUDENTS ARE IN MOVIES

Supt. Agrie Jones is taking moving pictures of the students in various activities and classes in the entire school. The movie will include the track teams in action as well as students and teachers in regular classes.

"The movie will be shown to the students in a few days," Jones stated.

HONOR STUDENTS

F. D. Stout, principal, announced today that there were twenty-six honor students; this six-weeks. Each student has to maintain 3.5 average.

Seniors—Dee J. Brown, Jo Beth Engram, and Carmen Roth; Juniors—Jane Moss, Bobbie Williams, and Andre Palmateer; Sophomores—Jessie Cox, Mary Lou Hatcher, James King, Jo Sondra Mogeray, and Robert Tucker.

Freshman—Roxie Henson, and Phyllis Tucker; Eighth Grade—Katherine Curd, Kenneth Reid, Bobbie M. Richardson, Nadean Stover, Nadine Thornton, Dora Vigil, Charlotte Wilmeth, and Darlene Rhoten; Seventh Grade—Sue Doolittle, Mary Harriman, Sue Reid, Anita Tharp, and Roy Thorton.

OPERETTA COSTUMES ANNOUNCED BY FIRST GRADE

Costumes the first grade students will wear in the grade operetta "Peter Rabbit" on Friday evening, were announced by Mrs. Lee Roy Faville, teacher today.

The boys will wear sunflower hats made of yellow crepe paper with brown centers. They will wear green satin capes to represent leaves.

The girls will be sunbeams and wear yellow paper dresses trimmed with tinsel. They will wear crowns of gold and carry wands with a gold star at the tip.

CURD AND VIGIL FOR EIGHTH GRADE

Kathryn Curd, daughter of Mrs. Mary Curd of Texico will be valedictorian of the Texico eighth grade class this year according to John Adams, sponsor.

Salutatorian for the year is Dora Vigil, daughter of Mr. and Mrs. Vigil.

Those who have been chosen to take part in the program will be historian, Bobbie M. Richardson. The will for the class will be read by Jerry Johnson. The class poem will be read by Patricia Hatcher. The class prophecy will be given by Clarence White.

All the students of the eighth grade are to take part in the program which is to consist of both serious and humorous speeches.

Those who are in the graduating class this year include—Kathryn Curd, Bobby Goldsmith, Wanda Jean Griffin, Patricia Hatcher, Naomi Rev Harris, Jerry Johnson, Howard Leavell, Allen Lockhart, Jimmie Moss, Marvin Pendergrass, Kenneth Reid, Bobbie Richardson, Bill Richardson, Madge Richardson, Darlene Rhoten, Shirley Stover, Darrell Smith, Lelia M. Thatcher, Nadine Thornton, Dora Vigil, Charlotte Wilmeth, Clarence White.

RECEIVE DIPLOMAS

"Graduation diplomas arrived at the Texico school Monday," stated Fern Stout, principal, today.

They are green sheepskin with the name of the student printed in gold letters on the front, and are tied with green and white ribbon.

The class membership is listed on the filler.

They were purchased from Autrey Brothers at Denver, Colorado.

LOCAL BOY SCOUTS ATTEND CAMPOREE

Four scouts from the Texico chapter attended a camporee at Conchas Lake at Tucumcari along with 40 other scouts from the Plains District.

The four scouts, Vernon Lewis, Steven Stone, Clyde McDonald and Emory Baker, were taken to Tucumcari by Oscar Cantwell, Scout Executive of Clovis.

The boys left Friday evening and returned Saturday evening.

Some of the highlights of the camporee were a campfire celebration Friday night, a cruise in the patrol boat, Coronado, Saturday morning and the one fish caught by Clyde McDonald.

SECOND GRADE HAVE FLOWER COSTUMES

Violets, roses, tulips, daisies, and pansies will be featured in the second grade costumes for the operetta, "Peter Rabbit", announced Mrs. C. B. Stockton today.

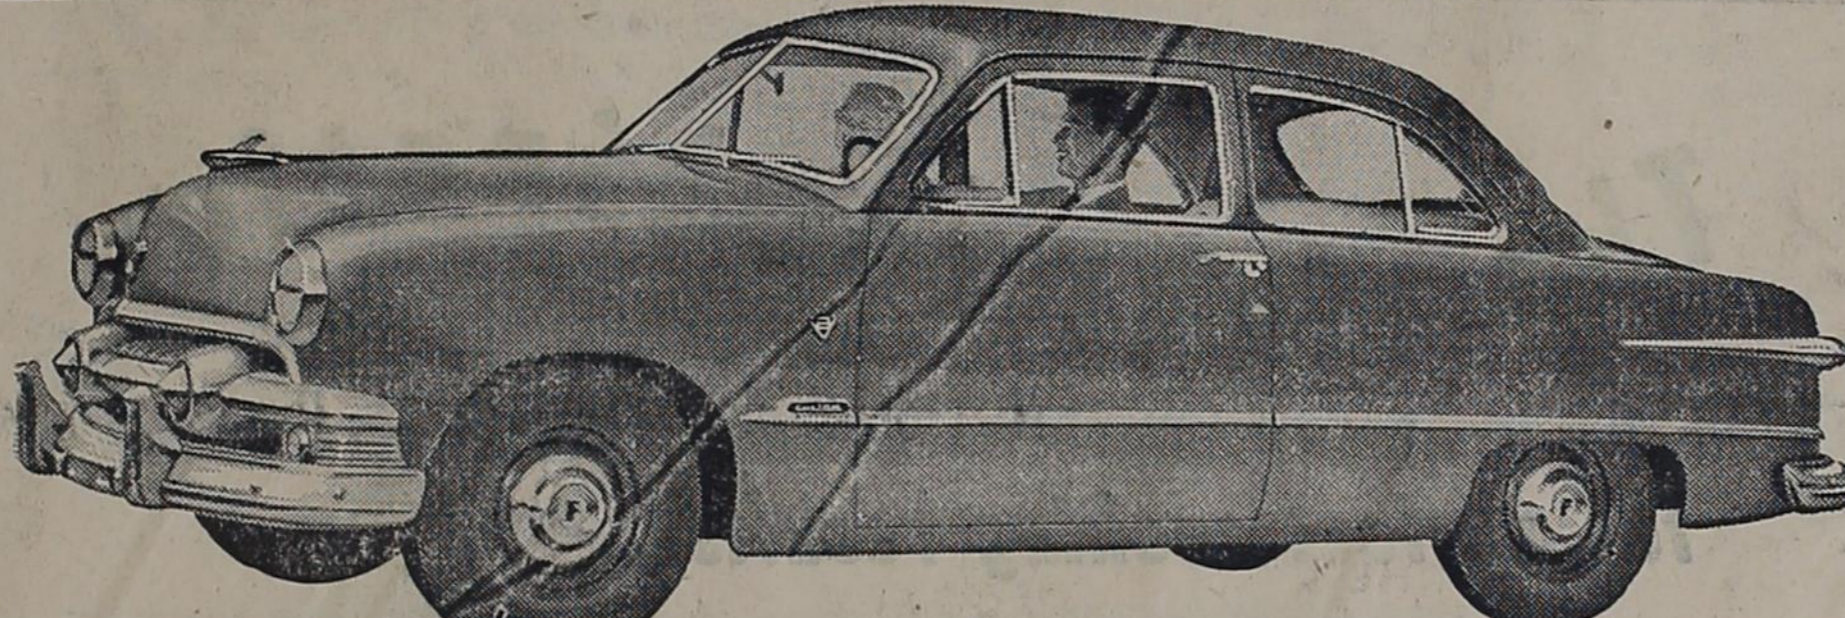

The flowers will be made of crepe paper and will be worn on the heads of the students. Green capes will be worn to represent the stems of the flowers.

BIRTHDAY GREETINGS GIVEN FOR APRIL

Happy birthday greetings to the following students and teachers who have birthdays in April: Kenneth Allred, Patricia Hatcher, Bobby Goldsmith, Jo Beth Engram, Patsy Maes, Buddy Joe Sparks, Roy Snodgrass, Bill Richardson, Dora Vigil, and Mrs. N. W. Peyton.

This is National Farm Safety Week, but farm families should make all 52 weeks a lot safer. Some 17,500 farm people will die before this time next year, if present farm accident rates continue.

# Happenings at Friona

ABIE CRUME, correspondent. Phone contributions to 2791.

## Wheat Prospects Are Fading, Fading, Fading

Continued dry weather and presence of greenbugs, cutworms, and other nuisances too numerous to mention are steadily marking down prospects of a 1951 wheat harvest in the Friona vicinity, according to a large number of farmers over the area.

Principally, the lack of rain is charged with the heavy infestation of greenbugs, and even persistent irrigation by the land operators is doing little to withstand the ravages of the hungry pests.

A few scattered fields are the exception to the rule, with the wheat appearing to have fairly good stand in some cases, but in the long run, hopes of anything approaching a normal harvest are fading with each succeeding day.

Some fields have already been turned under and may find themselves sown to feed crops, providing, of course, that moisture is received for spring planting operations.

## More Bench Leveling Projects in County

Three more bench leveling projects have recently been carried out in Parmer county for irrigation purposes, Bill Kennedy, head of the Soil Conservation Service office, reported the first of this week.

SCS technicians have supervised the work on small plots on three widely separated county farms: the W. E. Verner place in the Oklahoma Lane community; the Sloan Osborn farm near Friona; and the Troy Fuller farm just out of Bovina.

This particular type of work, Kennedy pointed out, involves considerable expense and time, and consequently, farmers who are trying out this method of preparing the land for irrigation are going about it on

a small scale.

On the Eric Rushing farm, just west of Friona, SCS men have also been busy doing some border work, "the next thing to bench leveling", Kennedy said today.

## Paving Bids Asked By City of Friona

Bids on residential street paving are being asked this week by the City of Friona, with deadline for receipt of such bids being set for April 27th.

Roy Wilson city manager, said that on the 27th, Friday of next week, local officials would open and consider the bids submitted, and it is hoped that contract letting will follow in short order.

If the contract is let soon, paving is expected to be carried out over the city during the summer months, Wilson added.

## Measles and Mumps Still Plague School

Measles and mumps are accounting for a large number of absentees at the Friona school, Supt. Dalton Caffey said the first of this week, adding that one of the worst days thus far during the epidemics was Thursday of last week, when 125 pupils were out because of illness.

Many of the youngsters have just returned to classes from a seige of the mumps, only to be put on the absent list again as they contracted measles, officials added.

County health doctor, Dr. Paul L. Spring, of the Parmer County Community Hospital here in Friona, commented that he was seeing a large number of cases of both measles and mumps daily, and added that in several instances the youngsters "are having a rough time."

Subscribe to The Tribune!

## Graduation Dates Are Set for Senior Class

Graduation dates for the 1951 seniors of the Friona high school have recently been determined, with all activities being slated for May, Supt. Dalton Caffey announced today.

Opening the round of festivities for the class will be the baccalaureate exercises, to be held in the Methodist Church sanctuary on the evening of May 13th. No speaker has been announced.

On the night of May 16th, Rev. Geo. E. Meyer, pastor of the local Congregational Church, will deliver the address to the graduating eighth graders, and on the following evening, May 17th, Dr. H. E. Robinson, head of special education for exceptional children, of the Texas Education Agency, will give the commencement address to the seniors. Both programs will be held in the Methodist Church, beginning at 8 o'clock.

## Bridge Club Meets

Regular meeting of the Couples Bridge Club was held in the Women's Club House on Monday evening, with Mesdames Wesley Foster, W. L. Edelman and Weldon Dickson serving as hostesses. A large group was on hand, and a social evening enjoyed, followed by refreshments.

## IS IMPROVED

Mrs. Ross Terry was reported as improved this week, convalescing at her home near Friona from a gall bladder attack which she sustained while visiting in Clovis with relatives and friends, the past Friday afternoon.

## Plans to Leave For Manila This Week

If Gary and Tony Biggers don't do things up by coming down with mumps or measles this week, they and their mother, Mrs. Howard Biggers, will leave here on Friday of this week on the first leg of their trip to join S/Sgt. Biggers, at Manila, in the Philippine Islands.

The long-awaited orders for the family came in during the past weekend, after Mrs. Biggers had spent an anxious week wondering if the mail had gone astray, since she had previously been told she would leave on April 12th.

Actually, this is—they hope—the end of more than a year of waiting, since the group had previously been slated to go to the Islands before the Korean war broke out and all family movements were cancelled by the Army.

Mrs. Biggers and the children will go by train to San Francisco, where they will get a last-minute physical check-ups and will then take a boat for Manila for the much-delayed reunion with their husband and father. Mrs. Biggers has been making her home with her parents, Mr. and Mrs. A. W. Anthony, Sr., near Friona, during the waiting period.

## In For Weekend

College students here for the weekend for visits with their respective parents included Roy V. Miller, Marvin Massey, Ray Nell Foster, and Marilee London, all students of Texas Tech, in Lubbock. The young people resumed their studies in Lubbock on Monday.

## TRAINS IN FLORIDA

First Lt. Dan Ethridge is currently stationed in Panama City, Florida, where he is receiving eight weeks of special training with the radar division of the Army, according to a letter from Mrs. Ethridge, who is with her husband. Ethridge, a reservist, was recalled to duty around Christmas time.

## New Officers Will Take Over Tonight

Installation of new officers will highlight the annual open house held by the Friona Parent Teacher Association tonight (Thursday), when a regular session is slated at the school, beginning at 8 o'clock.

In addition, a style review of spring clothes will be presented by members of the homemaking department of the school, and later during the evening the visitors will be invited to look over various displays arranged in the school rooms.

Mrs. Claude Osborn is the new president, with Mrs. Bruce Parr as vice president; Miss Ranghill Hanson as secretary; Mrs. Ralph Taylor, treasurer; Mrs. George Jones, parliamentarian; and Mrs. A. L. Black, historian.

All members of the PTA, and prospective members are cordially invited to be on hand for the meeting.

## Friona Clean-Up Days Named, April 23-28

City officials have decreed that between April 23-28 Friona will have a city clean-up campaign. Allan Romich, city manager, said Tuesday that plans have been completed that will make possible a unified campaign during the week.

Monday night, the 23rd, aggressive businessmen will meet down town, dressed in their old clothes, and will join forces to sweep main street and other paved thoroughfares in the city.

Members of the fire department are to follow up the businessmen's efforts with firehoses, to insure a good job.

Tuesday afternoon most of the downtown area will be blocked off in order that new traffic lines can be painted.

Romich added that the Girl Scouts were to make a campaign urging people to clean up their yards and premises, and to leave rubbish in the alleys, where it would be taken care of by the city.

## Study Club Meets Tuesday Night

The regular meeting of the Modern Study Club was held on Tuesday night of this week in the Women's Club House in Friona, with Mesdames Juanita Dickson and Jamie Lou Lillard serving as hostesses.

Topic for the evening meeting was "Contributions of Scientists", which took up a study of education, health and scientific improvements. Mrs. Estelle Caffey and Mrs. Cornelia Kelley were in charge of the discussions.

## Daughter Arrives

Mr. and Mrs. Rudolph Renner, Jr., announce the arrival of their first-born, Phyllis Belinda, at 6 pounds, on Thursday, April 12th at the Parmer County Community Hospital, in Friona.

## Being Transferred

Bill Connor, now a member of the Marine Corps, has been visiting in the home of his grandparents, Mr. and Mrs. Jake Lamb for a few days. He is being transferred to the Marine station at Quantico, Virginia.

## IN AUSTIN

Supt. Dalton Caffey, of Friona, and Supt. Jack Williams, of the Farwell school, were in Austin during the past weekend, transacting various business matters concerning the two establishments.

## SECRETARY LEAVES

Mrs. Wanda Billingsley, who had served as secretary in the county SCS office, here in Friona, recently resigned her position and has moved to Lubbock. Supervisor Bill Kennedy reported the first of the week that no successor to Mrs. Billingsley had been named as yet.

Small minds discuss people; average minds discuss events; great minds discuss ideas.

The honeymoon is over when she stops dropping her eyes and starts raising her voice.

## Daniel Lauds Parmer For Lack of Gambling

In cooperation with a statewide campaign to crack down on crime in Texas, the conference of prosecuting attorneys at Austin two weeks ago requested the attorney general's office to mail to each county attorney a list of parties who paid the 1950-1951 federal tax on slot machines.

According to a release this week to Sam Aldridge, Parmer County attorney, there were no taxes paid on gambling devices of any sort in the county last year.

Daniel said, "I am pleased to advise you that it may be assumed that your county is free of these devices, since it is very seldom that anyone would display such a machine in violation of the federal tax statutes."

"I congratulate you and the other law enforcement officers of your county and hope that you will be able to continue such a good record in the future."

According to the Kefauver Committee reports, slot machines and similar gaming devices are the "easy

money" support of the national crime syndicates, drawing from two to three billion dollars annually from the people of the nation.

"I appreciate the cooperation of County and District Attorneys of our State in waging such a vigorous campaign against organized crime that present violators will close shop and outside hoodlums and racketeers will know that Texas is no place for their business."

Sincerely yours,  
PRICE DANIEL  
Attorney General

## Feeders Meeting Will Be at Clovis, April 21

At the request of ranchers, farmers and county agents, a feeder's meeting is being scheduled in Clovis at 9 o'clock Saturday morning, at the Clovis Cattle Company Auction ring, County Agent Joe Jones says.

Purpose of the meeting is to bring farmers feeding experimental results from the State College in New Mexico and to show the results obtained from feeding operations in Eastern New Mexico and West Texas.

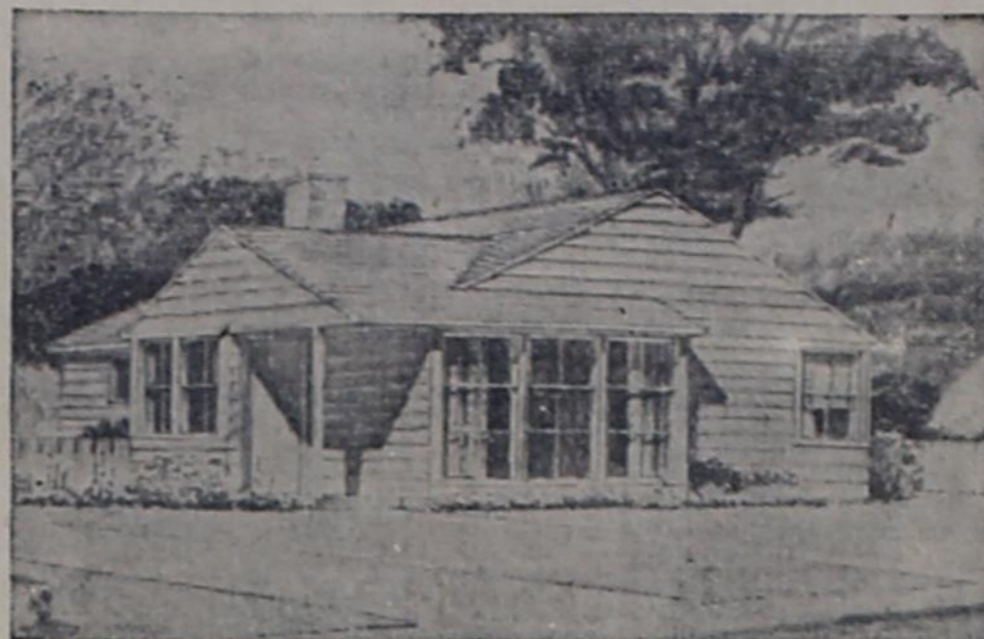

The feeding area tour will feature feed lot equipment, grain elevators of various sizes being used for storing and mixing feeds, the feeding of grain and roughage produced in this area; and the use and economy of wheat pasture and grain sorghum silage, Jones adds.

Speakers to be featured on the program are John Guame, Curry County Agent; E. E. Kraus, president of Clovis Stockyards association; R. A. Nichols dean and director of agriculture, New Mexico A&M college; G. L. Boykin, associate extension director, New Mexico A&M college;

Also J. H. Know, head of animal husbandry department, New Mexico A&M Marvin Koger, associate professor of animal husbandry of New Mexico A&M; P. E. Neale, associate professor of animal husbandry, New Mexico A&M.

The feeding area tour will include Silcott Feed Yard to inspect the equipment, and McBride Feed Yard to inspect the elevator. Feeding operations will be inspected at Ted Waldhauser Feed Yards. Other sites included in the tour are Bud Williams farm-study feeding of silage, feeding on barley and the Joe Sooter farm—inspect cattle fed on wheat.

## Exterior Lines Agreeable

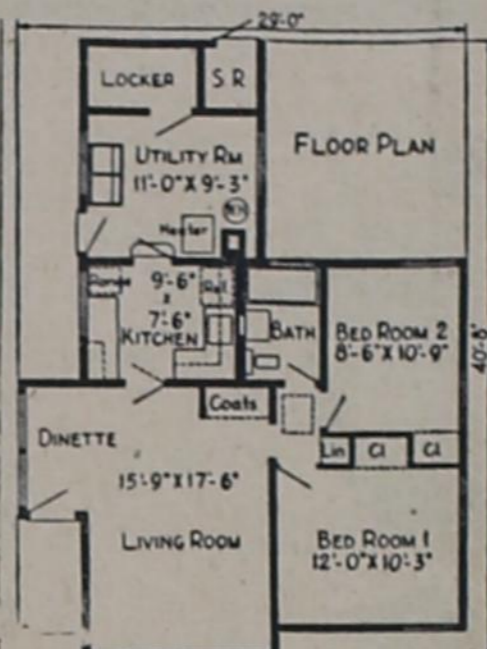

Imaginative treatment of the exterior of this house led to its being selected as Plan No. 202 by American Builder magazine, 30 Church St., New York.

The roof line is the principal distinguishing mark, making the house appear different from most other dwellings in the moderate-price class. The two roof sections differ in height, deliberately increasing the informal atmosphere of the house. The lower section, the ell, covers the entrance way and part of the dinette and living room.

Window area is generous, in keeping with contemporary architectural preferences. However, because most windows are grouped together or placed at corners, the rooms retain ample wall space for furniture.

The two bedrooms and bath are arranged around a small, central hallway. A linen closet opens on the hallway, too. A special coat closet in a corner of the living room is an extra convenience.

The dwelling has no basement. A utility room with more than 100 square feet of floor area is provided for heating plant, water heater and laundry. A storage

locker opens off the utility room. A small storage room opening to the outside is intended for lawn mower, hose and garden tools. (Detailed building plans of this house are available from American Builder, 30 Church St., New York 7, N. Y. Refer to Plan No. 202.)

## Army Calls for May In Texas Cancelled

AUSTIN.—May draft call for 3,112 men and May pre-induction physical examination call for 6,807 men were ordered cancelled today by Brigadier General Paul L. Wakefield, state director of Selective Service.

General Wakefield took this action following receipt of the following telegram from Major General Lewis B. Hershey, national Selective Service director:

"Delay issuance of calls on local boards for May inductions pending further instructions. Instruct local boards to issue no further orders to report for induction under any calls already made on them for May. April inductions under Call No. 12 will continue as presently ordered."

Texas state headquarters issued May call to its 137 local boards in late March for induction as well as for pre-induction physical examinations.

State quotas for induction are issued by Selective Service national headquarters. State quotas for pre-induction physical examinations are issued by state headquarters.

The state director said that the April induction call for 2,075 men will be filled as previously called for. The April call originally was for 4,150 men, but this was cut in half in late March, after authority was received from national Selective Service headquarters.

General Wakefield said he could not say whether all for June induction would be received or not. He said that monthly calls for induction normally are received about 60 days in advance.

## HOSPITAL NOTES

### Admitted

Mrs. E. O. Noyer, medical, Friona; Mrs. R. J. Renner Jr., OB, Friona; Mrs. Helen Lee, medical, Bovina; Willie Denny, medical, Bovina; Janet Gooch, medical, Bovina; Mrs. L. H. Pesch, medical, Friona; Billy Joe Mercer, medical, Friona; Mrs. B. J. White, medical, Friona.

### Dismissed

Mrs. Bill Landrum and baby boy, Mrs. Geo. Reed and baby boy, Willie Denny, Mrs. L. H. Pesch, Dickie Doshier, Mr. Moyer.

A harp always reminds us of a piano with its clothes off.

Flattery is a form of soft soap; and soft soap is mostly lye.

With this film will be shown another feature entitled "The Soil Is Good," also in color. It stresses the importance of the soil to the general welfare of a nation, what the soil has done for mankind, what is happening to it, and what must be done to conserve it. It shows, too, the modern farmer with help of modern machines is able to conserve his soil, increase its yields, and raise his standards of living.

Everyone is invited to see these films which will be shown at the Border Theatre in Farwell, Humble says.

## Two Feature Films Will be Shown Here By Implement Dealer

There are nations in Europe that have not been involved in a war for centuries and they are mainly agricultural nations. This fact is brought out in one of two feature films in color to be shown here on Tues. April 24, and the showing, scheduled to start at 2 p. m., is sponsored by

Ralph Humble, local farm implement dealer.

Entitled "Havens of Peace," the film is a tour of those nations of Europe that have not been troubled by wars and shows the scenic attractions of those nations as well as the way the people live. Visited are such countries as Andorra on the border of Spain and France, San Marino in northeastern Italy, Vatican City with its throngs of holy-year pilgrims, Switzerland with its ever picturesque farming communities, Oberammergau noted for its Passion Play, and Liechtenstein, situated in the upper Rhine valley.

Warkins, Elmer E. Kleckner and Margaret Kleckner, their unknown heirs, assigns and legal representatives of the aforesaid parties, Defendants.

**GREETING:**  
You are hereby commanded to appear before the Honorable DISTRICT Court of Parmer County at the Court House thereof, in Farwell, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 14th day of May A. D. 1951, then and there to answer Plaintiff's Petition filed in said Court, on the 30th day of March A. D. 1951, in this cause, numbered

1563 on the docket of said court and in the name of Harper, et al Plaintiff, vs. H. C. Gresham, et al Defendant. A brief statement of the nature of this suit is as follows, to wit: Plaintiffs bring this suit in trespass to try title, alleging that plaintiff, Marie Harper, is the surviving wife of Sanford Harper, deceased, and that the other plaintiffs are the surviving children of Sanford Harper, deceased. Plaintiffs allege that on January 1, 1951, that they were the owners in fee simple and still are of the following described lands: BEGINNING at a point 950 varas East of the Southwest corner of a 2560 acre tract of land in League 488 in Parmer County, Texas, conveyed by Elbert Roberts to H. C. Gresham; THENCE North 950 varas to corner; THENCE East 950 varas to corner; THENCE South 950 varas to corner; THENCE West 950 varas to the place of beginning, containing 160 acres of land; and that on such day the defendants unlawfully entered upon said lands and dispossessed plaintiffs therefrom and have occu-

**GERMAN GENERAL CHARGED WITH ATROCITIES . . .** Accused of murdering 150 persons whose mutilated bodies were found near Brest in 1944, German General Hermann Ramcke looks at magazine in French military court, "Cherche Midi," in Paris. **LEGAL NOTICE**

**CITATION BY PUBLICATION**  
THE STATE OF TEXAS  
TO: JOHN M. BAGLEY Defendant  
Greeting:  
You are hereby commanded to appear before the Honorable DISTRICT Court of Parmer County at the Court House thereof, in Farwell, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 31th day of April A. D. 1951, then and there to answer Plaintiff's Petition filed in said Court, on the 14th day of March A. D. 1951, in this cause, numbered 1559 on the docket of said court and styled ELIZABETH JESKO BAGLEY, Plaintiff, vs. JOHN M. BAGLEY, Defendant. A brief statement of the nature of

this suit is as follows, to wit: Plaintiff alleges that she married John M. Bagley, January 17, 1949 and that she separated from him Nov. 28, 1949. That he was guilty of such excess as cruel treatment and outrages toward her as to render further living with him insupportable. That there issued from said union and marriage one child, namely John M. Bagley, Jr. a boy 15 months of age. Plaintiff prays for divorce and for custody of said minor child as is more fully shown by Plaintiff's Petition on file in this suit. The officer executing this process shall promptly execute the same according to law, and make due return as the law directs. Issued and given under my hand and the Seal of said Court, at office in Farwell, Texas this the 13th day of March A. D. 1951.

Attest:  
Loyde A. Brewer Clerk, District Court, Parmer County, Texas.  
(SEAL) 23-4tc

**"SGT. WARD SPEAKS UP"**—His mother had him withdrawn from the fighting in Korea under the "only surviving son" rule. But Ward believed he owed something to his country and his daughter and requested to be returned to action. Read his story in the American Weekly, that great magazine distributed with next Sunday's Los Angeles Examiner.

**Don't Delay—Compare this Today!**

Here it is, a modern hospital policy that will meet today's increased rates which most hospitals are now charging.

**Policy Is Effective from Date for Sickness or Accident**

This new plan pays up to \$10.00 per day for hospital room for a full year on any one sickness or accident, no limit on number of days per year or the times used.

**It Also Pays These Additional Expenses**

Operating room, anesthesia, medicines, penicillin, laboratory expenses, X-ray expenses (sickness or accident), ambulance both ways, first aid, hypodermics, surgical dressing, iron lung, oxygen tent, blood transfusions, special nurse.

**Pays \$100.00 Additional Hospital Benefits For Miscellaneous Expenses**

It pays the doctor's fees for operations due to sickness or accidents up to \$250.00. Hospital confinement not required, will pay for operations in doctor's office or elsewhere. Pays for maternity benefits at home or in the hospital, pays for doctor calls and nurse service at home.

Over 49,000,000 other people are insured against hospital expenses, are you? If you are, do you know what your policy covers? Is it non-cancellable and guaranteed renewable for life? Is it non-assessable? Can your rates be raised?

**24-Hour Claim Service**

This plan covers sickness, accidents, and childbirth. Individuals as well as family groups may join. Age limits are from one day to 100 years and full benefits are payable at all ages. Pays in full for female diseases.

Good at any hospital, anywhere in the world. You select your own doctor. All benefits will be paid in full regardless of Workmen's Compensation or any other insurance you might carry with other companies. Let us tell you how little this new plan would cost your entire family. For most families it is only a few cents a day. Get full details now, tomorrow might be too late.

Pays \$200.00 for natural death and \$1,000.00 for accidental death for each member of the family. All the premiums are returned to beneficiary in event of death from any cause, this payment will be made regardless of and in addition to all other benefits that may be paid under this contract, according to the terms of the policy.

**Compare this policy with any other. There is nothing like it. No medical examination required—no waiting.**

**VERY LOW RATES. DON'T WAIT UNTIL TOO LATE**

"I got the story on  
**50,000 Miles—No Wear**  
and changed to New Conoco Super Motor Oil"

says H. T. Fitzgerald,  
Newspaper Man,  
St. Louis, Missouri.

**"YOUR NEW '50,000 MILES—NO WEAR' OIL** is the best we have ever used," says George M. James, Manager, Metro Motors, Ford Distributors, Murray, Utah. "We use Conoco Super in all our demonstrators and recommend it highly to new car buyers."

**"I'VE USED MANY DIFFERENT BRANDS** of oil, but was never satisfied until I heard the story of '50,000 Miles—No Wear' and changed to new Conoco Super," writes Ben F. Taylor, Traveling Salesman, Fort Worth, Texas. "Now I get greater savings in oil consumption and more gasoline miles to the gallon."

**"50,000 MILES—NO WEAR!"—PROVED HERE:**

After a punishing 50,000-mile road test, with proper crankcase drains and regular care, engines lubricated with new Conoco Super Motor Oil showed no wear of any consequence . . . in fact, an average of less than one one-thousandth inch on cylinders and crankshafts.

AND gasoline mileage for the last 5,000 miles was actually 99.77% as good as for the first 5,000! This test proved that new Conoco Super, with OIL-PLATING, can make your car last longer, perform better, use less gasoline and oil.

# Bovina Happenings

BY MARIE VENABLE

NO NEWS ACCOUNTS FROM OUR CORRESPONDENTS THIS WEEK

**MRS. WILLOUGHBY SPEAKS AT HALF-CENTURY CLUB**  
Mrs. W. H. Willoughby spoke on "Knowing Your Child" at a meeting of the Bovina Half Century Club held recently in the home of Mrs. Joe Hromas.

Mrs. Howard Looney conducted a short business meeting and roll call was answered by each member giving her ambition for her child. Those present were Mesdames Hromas, Willoughby, Looney, Weldon Spinks, A. L. Kirby, Truman Ford, Bill Liles, Marion Carson, Tyson Eubanks, Don Roundtree, Aubrey Tucker and D. C. Looney.

**HALF-CENTURY CLUB PLANS SILVER TEA**  
The public is invited to a silver tea being given Thursday, April 26, at 2:30 in the afternoon in the Legion hall in Bovina, it has been announced.

Sponsored by the Bovina Half-Century club, Mrs. Albert Vohs of Clovis will report on the book, "Jubel's Children" by Leonard Coffman.

Mrs. Aubrey Tucker will be mistress of ceremonies with Mrs. Truman Ford, Mrs. Bill Liles, Mrs. Don Roundtree, and Mrs. Joe Hromas as hostesses.

Some would rather speak ill of themselves than not to speak of themselves at all.

## BOVINA BAPTIST CHURCH NEWS

Rev. M. D. Durham, pastor

SUNDAY SCHOOL...9:45 A. M.  
TRAINING UNION...7:00 P. M.  
MORNING WORSHIP...10:50 A. M.  
EVENING WORSHIP...8:00 P. M.  
PRAYER MEET WED...7:30 P. M.

The youth committee has set the date for the first youth rally. The date is Saturday April 28th. Mrs. Henry Minter, Mr. Floyd Montgomery, Jamie Tidenberg and the pastor will be in charge of the program. There will be an hour of fun and fellowship followed by a period of singing, closing with the fellowship circle. All the young people in the area of Bovina are invited to attend.

The training union study course will begin Wednesday April 25th. Classes will be taught on Wednesday and Thursday night and the other three classes will be taught Monday and Tuesday and Wednesday nights of the next week. The pastor will teach the book "Our Doctrine" in the adult department.

This course will be informative to those who wish to learn more about the doctrines of the Baptist Church. Classes will be taught for the young people and intermediates and juniors.

The attendance for last Sunday was—Sunday school 140—morning worship 153—training union 54—evening worship 142.

On Sunday May 6th. The plate offering of the morning service will go for the cabin that the church is building at the Plains Baptist Encampment near Floydada, Tex. Everyone will bring their donation for the cabin that day. The finance committee is recommending that the day's services be turned over to the young people and have dinner at the church with a special service in the afternoon.

This will be something very worthwhile for one on going of God's kingdom.

The brotherhood met last Monday evening in regular session. They voted to go to the Associational Brotherhood meeting that will be held with the First Baptist Church of Dimmitt, and to try to bring home

**IDENTIFY MISSING SON FROM NEWS PHOTO . . .** Mr. and Mrs. Fred Maus, San Francisco, recognize the face of their son, William Maus, missing in action in Korea since November, in a picture of Americans reported held prisoners by Reds. The photo was released in New York by Eastfoto, source of Red propaganda, and transmitted by American news agencies.

the attendance banner. Each man present at the local meeting pledged himself to try to get three men to go with him to the Dimmitt meeting.

The W. M. U. met Wednesday afternoon for bible study. A very interesting study was conducted by Mrs. Gladys Tidenberg. A good number of the W. M. U. went to the District 9 W. M. U. convention at Lubbock last Monday.

Those attending the State Sunday School convention in Amarillo last Tuesday were Mr. and Mrs. Henry Minter, Mr. and Mrs. Homer Kelley, Mr. and Mrs. H. D. Bradshaw, Mrs. Bill Moore, Mrs. Von Bowen and Rev. and Mrs. M. D. Durham and daughter.

You are always welcome at the Bovina Baptist Church.

## JUNIOR-SENIOR BANQUET WAS HELD FRIDAY NIGHT

Annual Junior-Senior banquet for Bovina schools was held Friday night in the home economics building of the schools.

Theme of the social function centered around "The Last Round-Up" emphasizing an all-western motif. The walls were covered with all the Panhandle cattle brands and other appropriate decorations were used.

Glenn Hromas, president of the junior class, gave the welcome address; and Allen Wassom, president of the senior class, presented the response. Stanley Venable of the junior group, made a speech on "Life After Graduation", which was dedicated to the seniors. Yvonne Moody then discussed "Friendship In School and In Later Life."

Clara Derrick sang a solo and the program was concluded with group singing of the school alma mater.

Attendants at the affair were the junior students who were hosts for the banquet; the seniors and honored guests; and high school faculty members.

Sponsor for the junior class is Mrs. Pauline O'Keefe and Mrs. Otis Ellison sponsors the seniors.

## WORKMEN BUSY ON GYM DRESSING ROOM

The bleachers for the new Bovina gymnasium are nearly complete, Supt. W. H. Willoughby says, and workmen are now busy on the dressing rooms. Plans are to begin floor installation week after next.

The roof should be finished this week according to the superintendent, and workmen will begin plastering the walls. Most of the doors have already been installed with the exception of those in the dressing room.

"There is still a good deal of work to be done," Supt. Willoughby says, "and the gym may not be completed until after school is out."

## STUDENT COUNCIL HAS TWO-POINT PROGRAM

Bovina Student council has a two-point program for the remainder of the school session, with projects already listed.

The council is setting up a plan for the Southern association of Assemblies for next year. The group members hope to provide a fund from the Student Council to pay the assembly expenses and students won't be charged.

Another project is to get all the trophies engraved.

Election of student officers for next year will be held in the near future.

Some day we'd like to have a bed that's twelve feet long and ten feet wide. And don't tell us that's a lot of bunk.

## DIESEL ECONOMY with CUSHIONED POWER

### MASSEY-HARRIS 44 DIESEL

A different kind of Diesel farm power, the Massey-Harris 4-cylinder 44 Diesel brings new efficiency, economy, pulling power . . . new money-saving field performance to the Diesel farmer. It's the result of an amazingly simple engine design. A special firing chamber—called a Dyna-Cell—creates a cyclonic rotary turbulence of the burning fuel on every power stroke. Burning fuel swirls the full length of the stroke exerting equal pressure throughout piston travel. Fuel burns slower, smoother . . . delivers a pushing force. It's cushioned power. Dependable power. Greater lugging power because there's full power on every stroke of every piston.

See us soon for complete information . . . be sure to ask about Cushioned Power and Dyna-Cell design.

## Texico Takes Fourth Place in Fox Relays

Texico's Wolverines took fourth place in the annual Fox Relays at Fort Sumner on Saturday, April 14, and topped one state record in preliminary races. The Wolverines were topped in the meet by Albuquerque, Carlsbad, and Tucumcari in that order.

Regarded as a "little" state meet, the relays actually have more entrants that at state meets because of no restrictions. Placing in his meet makes the Wolverines one of the favorites for district laurels.

More than 20 high school cinder squads took part in the day-long competition.

Points for the Wolverines were garnered by Wayne Tucker, Wayne Breeze, and Jimmy Horton, and totaled 17 and 1/5.

Tucker took four second places in the meet to win individual high-scoring honors for himself with sixteen points. Events he entered were broad jump, 100-yard dash, 220-yard dash, and high hurdles. In preliminary runs, Tucker shattered the state record in high hurdles by speeding the course in 15.8. The old record was 16 flat.

Wayne Breeze also scored for the locals with fifth in javelin taking down one point and Jimmy Horton tallied 1/5 of a point in a five way tie for fifth place in high jump.

Making the trip for the Wolverine squad were Wayne Tucker, Robert Tucker, Buddy Sparks, Wayne Breeze, Jimmy Horton, Jerial Doolittle, Arlyle Crooks, and manager Jesse Cox. Accompanying the boys were Coach C. B. Stockton and Superintendent and Mrs. Agrie Jones.

## Texico Tracksters Enter Curry County Meet

Texico track team will be in Clovis this weekend to enter the county track meet Saturday. Preliminaries are scheduled in the morning with finals slated for that afternoon.

The local group will compete against Clovis "B", Grady, Rosedale, Ranchvale, and Melrose.

The district track event in Portales is slated April 28.

## Bovina Starts Spring Drills on 11-Man Team

The Bovina Mustangs, under the tutorage of Coach Clovis Ratliff, have begun spring training in preparation for their first 11-man debut next fall. The Ponies are reported to have a large number of men out for spring head-knocking—about 30.

Also, school officials indicate that Bovina may be able to field a fairly heavy team next year in spite of the jump from a 6-man to a 7-man team next season. However, they will be seriously handicapped by lack of experience, because none of the men have ever tried anything but the lighter, faster 6-man game.

Also, some of the most relied on athletes will not return next fall for conference competition. Five of the main reliabilities are Loren Thompson, Jimmy Ware, Billy Defrick, Wesley Ayres, and Willie Denny.

In spite of these losses, Glen

Hromas, Leon Ware, Stanley Venable are some of the stalwarts who will again butt heads with opposition.

Last year, district fans remember the trial encounter of a makeshift 11-man Mustang team with the 11-man squad of two year's experience at Farwell. The Mustangs were beaten only by points-after-touch-down.

## Rosedale, Melrose, Take Volleyball Tournament

Rosedale's senior high girls and Melrose's junior high team captured the county titles in volleyball in a tourney played in the Texico gymnasium Thursday and Friday. Both second place trophies went to the Texico teams entered.

Junior competition opened on Thursday night when the Texico girls defeated the Grady team and Field was taken by Rosedale to advance the two teams to the semifinals with Ranchvale and Melrose, who drew byes. Texico scored another win this time over Ranchvale and Melrose took their first game to play in the finals Friday evening.

Melrose then defeated the Texico team 5-34 in the final game.

Friday afternoon Rosedale scored wins over Ranchvale in the preliminaries and Melrose, who had a bye in the first round play, in the semifinals to advance to championship play. Texico drew a bye in preliminary play and then defeated Forrest, who had previously taken Field, to enter the championship game which Rosedale took by a 15-21 margin.

## Spring Training Begins For Farwell Steers

Spring training has begun for the Farwell Steer football team, announces Coaches Tom Hestand and Kennth Livingston. They report that enough men are out for scrimmage, —22—and more will don the cleated shoes when track season closes.

The Steers next year will miss the services of seven graduating players. They are Jerry Pool, John Christian, Squirmy Doshier, Beryl Nix, Leon Meeks, Gerald Curtis, and Bob Gerlies.

Farwell's district, 11-B, will have plenty of competition next year in the way of Friona, New Deal, Spade, Anton, Happy, and newcomer Bovina, which may prove to have quite a team for the first year of 11-man play.

## Commissioners, County Judge in Attendance At Wichita Falls Meet

All Parmer County commissioners and County Judge A. D. Smith were slated to leave yesterday for Wichita Falls to attend the West Texas County Judge's and Commissioner's association convention held April 18-20.

Planning to make the trip at the beginning of this past week were Judge and Mrs. Smith, Mr. and Mrs. E. R. Day, Mr. and Mrs. C. H. Jefferson, Mr. and Mrs. E. F. Billingsley, and Mr. and Mrs. H. L. Ivy.

Registration began at 2 o'clock yesterday afternoon at the Kemp hotel.

Speakers for the meeting include

prominent men in the state government as well as other well-informed men on state affairs, Judge Smith reports.

Arthur Tipps, county judge of Wichita County is scheduled to speak and Harold Jones, Wichita Falls, mayor, gives the welcome address.

Speakers on the agenda for Thursday include Roger Garrett, county judge of Jones county; John C. White, commissioner of agriculture; Fred B. Glass; Fred A. Wemple, chairman of state highway commission; and H. R. Winston, Terry County judge.

Price Daniel, attorney general of Texas will talk to the group Friday; others on the program are L. L. Mobley, juvenile officer of El Paso, Texas; and John Ben Sheppard, secretary of state. An address will also be given on the high points of Texas legislation. Committees will be appointed, officers will be elected and a convention city for the next meeting will be selected. A banquet and dance will end the sessions.

One of the principal subjects for discussion according to Judge Smith will be Natural Gas tax bill which passed the state house of representatives. The bill proposes a tax of one cent per thousand cubic feet for the privilege of gathering natural gas in Texas. Funds collected are allocated on the basis of 1/2 going into rural road fund, 1/4 for incorporating cities, for street building, and 1/4 for public schools.

There will be a meeting Tuesday night at 8:30 of the local post of the American Legion in the Legion Hall, according to Wilfred Quickel, Legion commander.

Quickel said the meeting will be to discuss and decide policies on several questions affecting Far Eastern foreign policy of the Legion. Among them will be (1) Should the United States continue a delaying war confined to Korea only? (2) Should we blockade the China coast with our navy? (3) Should we furnish equipment to Chiang Kai-shek for an invasion on the mainland of China? (4) Should we bomb Manchurian bases?

The local commander said that he had received a directive from Bill Elkins, Texas department commander, including the four questions above, and requesting that a meeting be called to discuss them.

Also, a fifth question will be posed next Tuesday night: "Do we believe in the foreign policy as outlined by

General MacArthur or do we believe in the foreign policy as outlined by the President in his radio address April 11?"

The Texas commander ended with the remark that he believed the American Legion is a cross-section of the American public, and will be a barometer of public opinion in the United States.

## Dr. McNeff Will Attend Convention

Dr. Mary Leone McNeff will leave Wednesday for Houston where she will attend the Texas Osteopathic State convention April 26, 27 and 28.

## FFA, 4-H FAIR . . .

(Continued from Page 1) club and FFA boys.

Beef animals and swine were judged Friday by Bill Stanford, Hereford agriculture teacher, and Hugh Clearman, Deaf Smith County agent. Swine judge was Homer Brumley, Hereford buyer. Dairy cattle were judged by Ed White, Muleshoe vocational agriculture teacher, assisted by Brumley.

A record number of blue ribbons were awarded to the Friona FFA chapter as a group, but individual members captured their share of the honors.

**Grand Champions Named**  
Ray Strickland, a soldier with the First Marines in Korea, had the grand champion Jersey bull at the fair. His parents, Mr. and Mrs. Paul Strickland represented him. The marine also won first place ribbons in the produce-of-dam, get-of-sire, and individual herd classes in the Jersey division.

Darrell Thompson, 12-year-old Friona 4-H club boy, owned the grand champion Milking Shorthorn, Texlew Melody, a junior yearling. The same animal won third in its class of 22 at the dairy show in Plainview last week.

Bobby Mercer of Friona FFA exhibited the grand champion Jersey cow; and Gary Crow of Friona FFA showed the grand-champion Guernsey cow, Bonita Sweet Alice. The only Guernsey entries in the show were owned by Crow.

### WATCH REPAIRING

We are pleased to announce the association of L. E. McDermitt, an experienced watch and clock repairman, who will also have charge of our expanded jewelry department.

### ROSE DRUG & GIFT SHOP

Farwell, Texas.

Another Friona FFA member taking home a blue ribbon was Jake Rife, 17-year-old high school junior, and owner of the grand champion Poland China gilt. The grand champion barrow was shown by Friona FFA.

Grand champion commercial beef female was owned by Reed, Reed and Redfearn.

April

1951

**MANTLE OF SPRING**—The fruit trees are in full bloom as the season of new life spreads across the Southwest. These apple trees grow in the Ozark uplands near Rogers, Arkansas.

'Good Time Was Had by All'

## April Holiday Is Famed For Battle—and Eggnog

This month, on the 21st, the Lone Star flag will be flying on public buildings all over Texas in commemoration of the 118th anniversary of the Battle of San Jacinto, where early Texans won independence from Mexico, but—

The same day also will mark the 108th anniversary of another momentous occasion—an eggnog party the like of which probably has not been equalled anywhere on or out of the pages of history, a party that was held in honor of the aforementioned San Jacinto victory.

The eggnog affair took place in the vermin-infested Perote Castle near Mexico City where 75 Texas patriots were facing an uncertain future as prisoners of the Mexican Central government.

### Men Caught at Mier

They were men who had been captured in 1842 while making a somewhat foolhardy raid against Mier, Mexico in retaliation for a Mexican attack on San Antonio, Texas—an attack which the Mexicans had made, in turn, to retaliate for an expedition the Texans had sent out for the purpose of taking Santa Fe, New Mexico, from the Mexicans.

It was the custom in those days, just as it is now, for people to celebrate momentous occasion with plenty of eggnog; and as April 21, 1843 approached the Texan prisoners at Perote asked their warden for permission to stage the party—which, they told him, was to be in honor of a Texas 'Saint's Day.'

### Mescal and 'Mule' Milk

The Mexican commandant, apparently a dense fellow who had forgotten the significance of April 21, gave his consent. He even went so far as to furnish the main ingredient for the nog—30 gallons of mescal, that highly potent liquor produced by the maguay cactus.

Colonel Thomas Jefferson Green, one of the leaders of the ill-fated Mier expedition, was appointed mixer of the nog, and after stirring 30 dozen eggs and a big loaf of brown sugar into the 30 gallons of mescal, he suddenly realized that since there were no cows in the vicinity of the prison he lacked one of the main ingredients—milk.

But that didn't stop the Texans. There was a big bunch of jennets (or 'jennies') at the prison, and the Texans, after milking dozens of these long-eared little animals, managed to get 20 or more gallons of milk to mix with the mescal.

### Party a Great Success

Historical documents, both Mexican and Texan, record the party as a great success.

A diary kept by Colonel Green relates how the prisoners sang far into the night to the accompaniment of the pounding of chains on the hard stones of the prison floor, and how their jailors broke up the party only when the Texans quit singing and began imitating hoot owls.

Even some of the Mexicans joined in the festivities, not realizing until too late that they were helping their prisoners celebrate a military victory in which they had been the losers.

## New Mexico Once Covered Big Section of Outdoors

ALBUQUERQUE, N. M.—Let's face it. The State of New Mexico is something like the Old Gray Mare — she ain't what she used to be.

Rare maps at the University of New Mexico show that not only did New Mexico once include most of Arizona, but a portion of Utah as well. The state's borders extended to California on the west and to the Gadsden Purchase titled "Arrizona" on the south.

Part of a collection of rare maps at the library, the maps date as far back as one made in Paris in 1682 to the present.

The largest collection in the state, they show old wagon trails, proposed railroad routes, settlements, and United States army posts.

Some of the maps have been donated to the library, but most of them were purchased from the Argosy Book and Map store of New

York City. The collection is used for research purposes and to assist faculty members in studies and preparations in writing histories of the state.

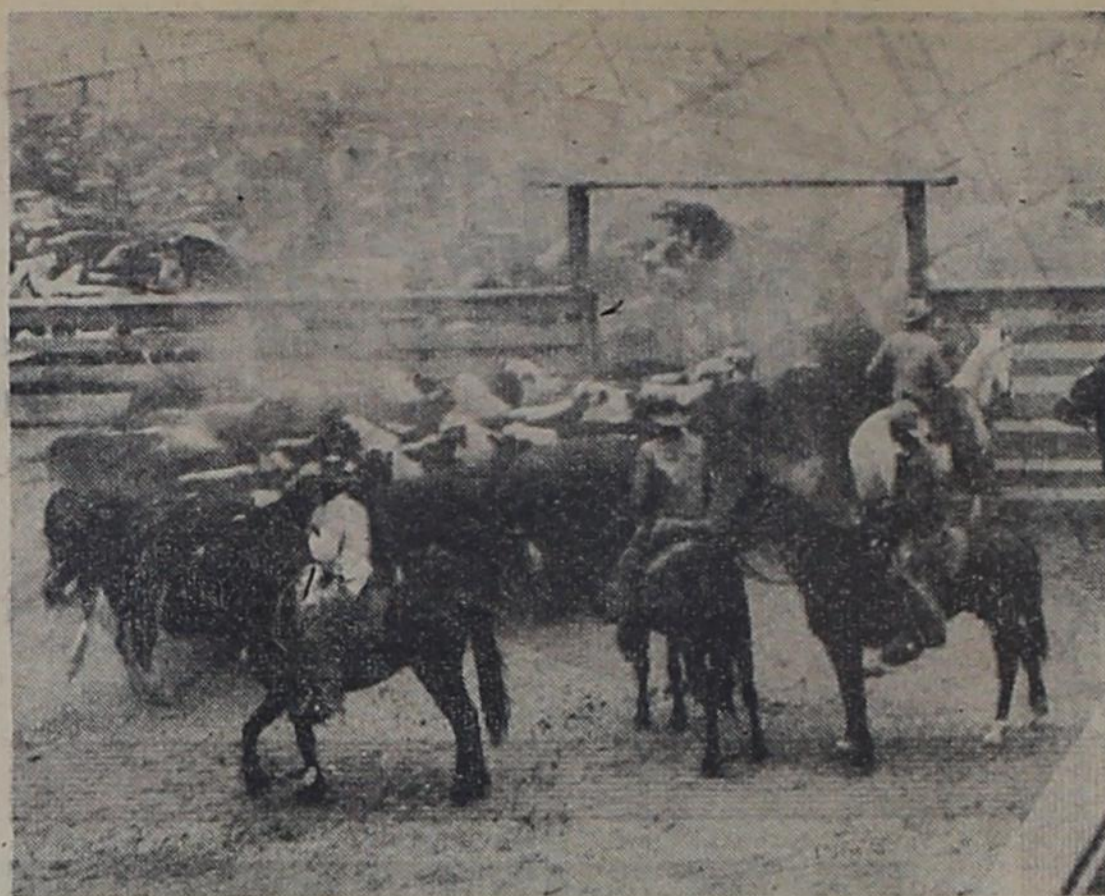

One of the maps shows New Mexico extending to a territory known as "New France," now called Canada. Another has the state covering most of the Southwest.

Most of the maps were made by surveyors for the General Land Grant office, showing land grants, Indian reservations, and military areas.

The maps range in size from two or three feet square down to three or four inches.

### LESS FLOUR NOW

In 1909, on an average, every man, woman and child in the United States used 203 lbs. of wheat flour. Today this has decreased to 129 lbs per capita.

Spring brings the annual roundup of the 'novilla grandes' (the big steers) in the Mexican border country of the Southwest—with the big herds being corraled in railroad shipping pens to start the journey to the grasslands of Oklahoma and Kansas. Picture shows vaqueros bringing in a herd to a shipping pen near Uvalde, Texas.

## Southwestern Vignettes

John W. DeVine, conductor of the Here and There column in the Six Points News at Corpus Christi, Tex., believes in fair play, as attested by this item:

"Note to Tom Collins, Tulsa, Okla., representative at Oklahoma City, who wants to put an Indian head on the car licenses of that state: Just because the white man took Oklahoma away from the Red Man, is that any reason to revert to the old heathen custom of hanging his head where everybody can see it?"

Paul Tooley, in the Hot Springs (N.M.) Herald, says he has a friend who is earning more than he is spending because he is a shoemaker by day and a bartender by night. Paul comments:

"Perhaps you can say he saves soles by day and lifts souls by night."

For three months the Bishop (Tex.) News carried a 'Rain Wanted' ad in its columns, but finally dropped it out when it appeared that the clouds weren't interested.

The Socorro (N.M.) Chieftain wonders where Cupid is hiding. In a recent issue the Chieftain carried the following item:

"There was not a single wedding nor a license to marry in Socorro or Socorro county this week. This is a new record of some kind and is the first week that anyone seems able to remem-

ber when there was a complete standstill in all marriage activities.

The Gonzales (Tex.) Inquirer carried this headline over a story from the town of Waelder: "Truth Seekers Entertain Husband."

The Bastrop (La.) Clarion is still wondering about those peals of thunder heard in February. G. B. Herring, Jr., in his Over the Editor's Desk column, speculates a little, thusly:

"Seems we are having an early spring — well, a little early anyway. We hear farm folks are predicting that April will be a cold month, though. They base their arguments on an old superstition that 'for every day it thunders in February, there will be frost in April.' Hmmm. Well we hope not."

Bob Ingraham let this one slip through in the Silver City (N.M.) Enterprise:

"No governor in many years has been able to love on the salary paid him."

And the Tucumcari (N.M.) Daily News recently contributed this forecast of things to come:

"Judge Armijo indicated that his decision may be excepted sometime in April."

Today there is a greater need for a well-rounded knowledge of agriculture than ever before in the history of the United States.

# Noah Rose Was Cameraman For Southwest's Frontier

SAN ANTONIO, Tex. — Noah Hamilton Rose is one of the world's most famous photographers—because nowhere in the world of sepia and shadow is there another exactly like him.

Noah Rose, who has just started his 78th year in Texas, is the last remaining cameraman of the old frontier—the archivist of the outlaw and gunfighter—and his collection of old-time western photographs, which he keeps in his home at 4014 W. Houston St., is distinctive unto itself.

He has more than 3000 negatives—some that he took himself, others that he collected and preserved while wandering over the state in the 1880s and 1890s.

### Born In 1874

He is known to nearly every writer of Western lore, because it has been the rule that only from the N. H. Rose Collection could they obtain pictures of the characters about whom they write.

The dean of Southwestern photographers was born in Kendall county, Texas, in April 1874; and by the time he was 12 he was hand setting type on the old Menardville Monitor at a salary of \$2 a month. He was also 'teaching' typesetting to a young friend, Marvin Hunter, now the well-known Texas historian of Bandera.

It was about this time that young Noah became interested in photography and he started out with a tin camera he obtained by selling subscriptions to the Youth's Companion.

### Studio In Tent

The hobby fascinated him, and soon he was playing hookey from work to take pictures of hangings, shootings and other social events of the time. He set type on the Balingier Banner in 1889, and during the '90s he worked on papers in Mason, Sonora, Del Rio, Eagle Pass and other West Texas towns.

But he never deserted his hobby. At intervals he would take time off from printing to travel over West Texas as a tent photographer with a bulb-action camera, 'shooting' cowboys, rangers, country weddings and what-not. And during this time he developed the art of

making excellent prints from faded ancient photos and tin-types—which started his now famous collection and brought him to San Antonio to set up business in 1921.

During his tent-photography excursions Mr. Rose found himself extremely popular because of a new-fangled contraption he carried in his trunk—a big-horned Victor talking machine.

### Held 'Concerts'

"It was the first one seen in many of the towns," he recalled the other day, "and I had 50 records, mostly on the funny side, that delighted everyone who heard them. That talking machine really brought me and my business into the limelight in those early days."

One time, at Eagle Pass, the manager of the Maverick Hotel got Mr. Rose to set up the Victor in a hotel window, and the photographer recalls that his 'concerts' filled the street with people every evening for several weeks. He nearly wore out the 50 records.

"When I was working country places like Sabinal and Frio Canyon," said Mr. Rose, "people would ask me to bring the Victor to their homes, and then they would call in all the neighbors for a party. Later I had people tell me they could hear that talking machine as far away as a mile down the canyons at night."

### New Book Coming

During the last few years hard luck has pursued the state's most famous photographer. His home was flooded and many of his precious negatives were water-soaked.

Then, just as he had moved into a new home, and all seemed right with the world, his wife fell sick and died. Mr. Rose's grief resulted in a stroke which kept him abed for some time, but now he is up and about again.

Right now he's looking forward to the fulfillment of a long-cherished dream—publication of a book to be called 'The Album of Gunfighters', which will contain more than 300 of the famous Rose pictures.

Collaborating with him in the work is his friend Marvin Hunter of Bandera—the lad he taught to set type back in 1888.

# 50 Years of Medicine Sees Life Span Upped 19 Years

A fifty-year renewal of its charter has been granted the State Medical Association of Texas, first chartered by the State on May 1, 1901.

The doctors of medicine in Texas first banded together in 1853 to further the causes of scientific medicine and to develop better health laws and practices.

By 1901, organization was sufficiently complete to justify a charter, and now, as the first charter expires, the Association has active members in every county.

The half century between the two documents, the first signed by five distinguished pioneer Texas doctors, all now deceased, and the second, submitted by the present officers of the 6,000 members association, is measured by amazing strides in the alleviation of human suffering and a startling lengthening of human life.

Dr. W. M. Gambrell, Austin, president of the Association, points to a record which no other nation

in the history of the world has ever matched.

The first fifty years has seen your life-span lengthen 19 years; it has seen typhoid and diphtheria practically wiped out as killers; it has seen the three once great killers of children—whooping cough, diphtheria, and scarlet fever—practically eliminated.

It has seen the discovery of the sulfa drugs and the advent of the wonder "antibiotics" such as penicillin, aureomycin and others, whose multifold uses are still being explored.

In 1900, according to Dr. Gambrell, the average span of life was 49 years. Today, it is a little better than 68 years. If the trend holds, it adds another year to your life every 20 months of medical research, and conceivably by 1975, the life span could reach 90.

It takes from 300 to 1,000 years to build an inch of topsoil under natural conditions.

## Pioneers Cooks Dinner For 81st Birthday

FARWELL, Tex.—Although he is 81, Uncle Tom Randol doesn't ask anybody to cook his birthday dinners for him. He prefers to cook his own.

The dinner he turned out the other day when he passed his 81st

milestone consisted of pork sausage, green beans, potatoes, candied yams, blackberry pie and old-fashioned pound cake topped with peaches.

The Panhandle pioneer had guests from both sides of the Texas-New Mexico line.

**FASHION PLATES**—Here are two new dress models in the middle of the Spring fashion swim. Left: Designer Emily Wilkins presents a spring bolero suit in the approved navy sheer wool suspender type with handlebar bow tied under the collar of the white cotton ottoman blouse. The multi-colored striped grosgrain braces are pearl buttoned to the peg top skirt. Right: In this lilac silk chiffon evening dress Ceil Chapman uses pleated drapes. Sash is of violet silk taffeto. Lilac silk net veils lower part of bodice.

## Navy Holds Fashion's Spotlight

Navy, as certain a part of spring as the first yellow daffodil, is the favored color among 38 Mollie Parnis designs shown in New York the other day by De Pinna.

Now solidly on its own, now set with white in minutely checked taffeta, navy made a particularly fresh bid for attention in silk crepes and taffetas daubed with pastels.

A two-piece dress of navy, pink and black taffeta endowed the new snug waist and full skirt mode with the sweetness of a schoolgirl. More mature, but no less feminine, was a dress and jacket ensemble done in a silk flower print with a navy ground.

### For Variety

As much as she may love the color, no woman is likely to have an all-navy wardrobe. So the balance of the outfits turned to other shades for charm of a spring afternoon or evening.

A soft but purposeful tone of coral appeared in a semi-shirt-waist dress of silk honan. With flaring fullness in the front of the skirt and trim cap sleeves, this dress gave promise of smart casualness for both spring and summer. It was shown with its own hat of matching honan.

Red, sometimes mingled with black in the dye vat, made a surprise entry with a selection of silk print afternoon dresses. Regardless of color, most of the prints were wisely small in figure pattern.

Their necklines, hip peplums or cross drapes were frequently edged in black velvet, a sometimes successful guard against the "old" look customarily associated with dark print dresses.

### Afternoon and Evening

For both late afternoon chic and the whispering magic of an early summer evening, the showing suggested subdued tones of gray.

A snug-bodied cocktail party dress of gray taffeta favored the new gathered skirt idiom to the point of puffy shirring at both the waist and hem.

Singing a more idyllic melody, a gray shepherdess dress of chiffon chambray showed width above the waist in a cowl collar of white organdy and below the waist in a skirt both gathered and flaring.

## Milk in Frozen Storage Coming

How would you like to buy milk the way you buy frozen orange juice?

Latest experiments show that it is possible to produce frozen concentrated milk that will remain good for drinking several months after it goes into storage, the U. S. Department of Agriculture reports.

Advantages of such a product over whole milk would be the saving in storage space, both in home refrigerators and other storage points, a greater variety of uses, and a longer keeping time.

Also, it would be another means of preserving milk from a period of surplus production to one of scarcity. This would help keep prices more stable to dairymen as well as to consumers.

## Ready to Take Off

Mrs. Olive Wakeman is a secretary who keeps three suitcases packed, one filled with winter clothing, one with tropical-resort wear, and one with cocktail and evening dresses. She is secretary to Conrad Hilton, president of fourteen hotels. For eight years, Mrs. Wakeman has been trailing Hilton over most of the Western Hemisphere, never knowing when she leaves for work in the morning whether she'll wind up that night in Washington, New York, Mexico City, or Bermuda.

## Skillful Combination In Accessories Is Important

The exact matching of accessories is a matter of pride to many women, who spend hours finding shoes with a grain to match their purses, or locating gloves the precise finish of a belt.

In many cases, this energy could be used to better advantages since it's often the skillful combination of tastefully varied textures that give a look of style and individuality to a costume.

### Choose Carefully

This doesn't mean you should strive for a hodge-podge of leathers, furs, felts and fabrics.

But it does mean that polished calf shoes and handbags don't necessarily call for kid gloves. The dull finish of suede, doeskin or fabric offers an interesting contrast.

It means, too, that a satin gown tends to lose its sleek effectiveness when combined with a satin purse, hat and gloves. The substitution of velvet or another soft, non-gleaming fabric somewhere in the accessory picture would be a wise move.

### Colors Mix Too

Nor, on the other hand, should everything in an ensemble be wooly,

### ICE CREAM FALLS OFF

Unusually cool weather throughout the nation during 1950 was reflected in a 3 per cent ice cream production drop, to 539 million gallons last year.

rough or nubby. It's for this reason that a polished leather belt is often more interesting than a self-fabric one when your outfit is made up of tweed, felt and suede.

Although it's a good idea to approach the mixing of colors with caution, the same general rule prevails here. Rather than matching your dark-brown shoes and bag with chocolate gloves, try a butterscotch shade instead.

# Apple Dishes Easy to Fix

Apple John is the homey, old-fashioned name of today's tempting, crunchy apple dessert. It may be served hot or cold, plain or topped with cream or whipped cream and is equally appropriate for luncheon or dinner. Easy on the budget, too, while local markets are featuring economy prices on choice quality fruit like the crisp, spicy red Winesap apples which hold their distinctive flavor and texture especially well under cooking processes.

## APPLE JOHN (Serves 8)

10 red Winesap apples, 1 cup light corn syrup, ½ cup butter or margarine, 1 cup brown sugar, ½ cup flour, 1 tsp. salt, 2 cups rolled oats, ½ cup chopped walnuts.

Wash apples but do not peel. Core and quarter. Place chopped apples in large greased casserole and pour sirup over apples. Cream together butter or margarine and brown sugar until smooth. Stir in flour, rolled oats and nuts. Sprinkle mixture over apples and bake in moderate (350 degrees F) oven for 1 hour.

And here are a couple more apple recipes that are easy to fix:

**BACON 'N APPLE** — Festive fare for breakfast or brunch are crisp bacon slices served with tender, juicy apple wedges, simmered in butter and sugar. To prepare, wash five unpeeled red Washington State Winesap apples. Cut into wedges. Melt one tbsp. butter in heavy sauce pan. Place apples in butter. Add ½ cup water and ¼ cup sugar, cover and cook gently 3 to 5 minutes. Remove cover and cook about 20 minutes or until sirup thickens. Do not stir.

**CARTWHEEL SALAD.** A salad that sings of spring is made by coring rosy red Winesap apples and cutting into quarter inch rings. Top each apple ring with a slice of golden pineapple and crown with fluffy cream cheese.

## Reducers—Avoid The Combinations

Reducers should keep in mind that no one food is fattening. You gain weight when you eat more than your body needs, no matter what foods are eaten.

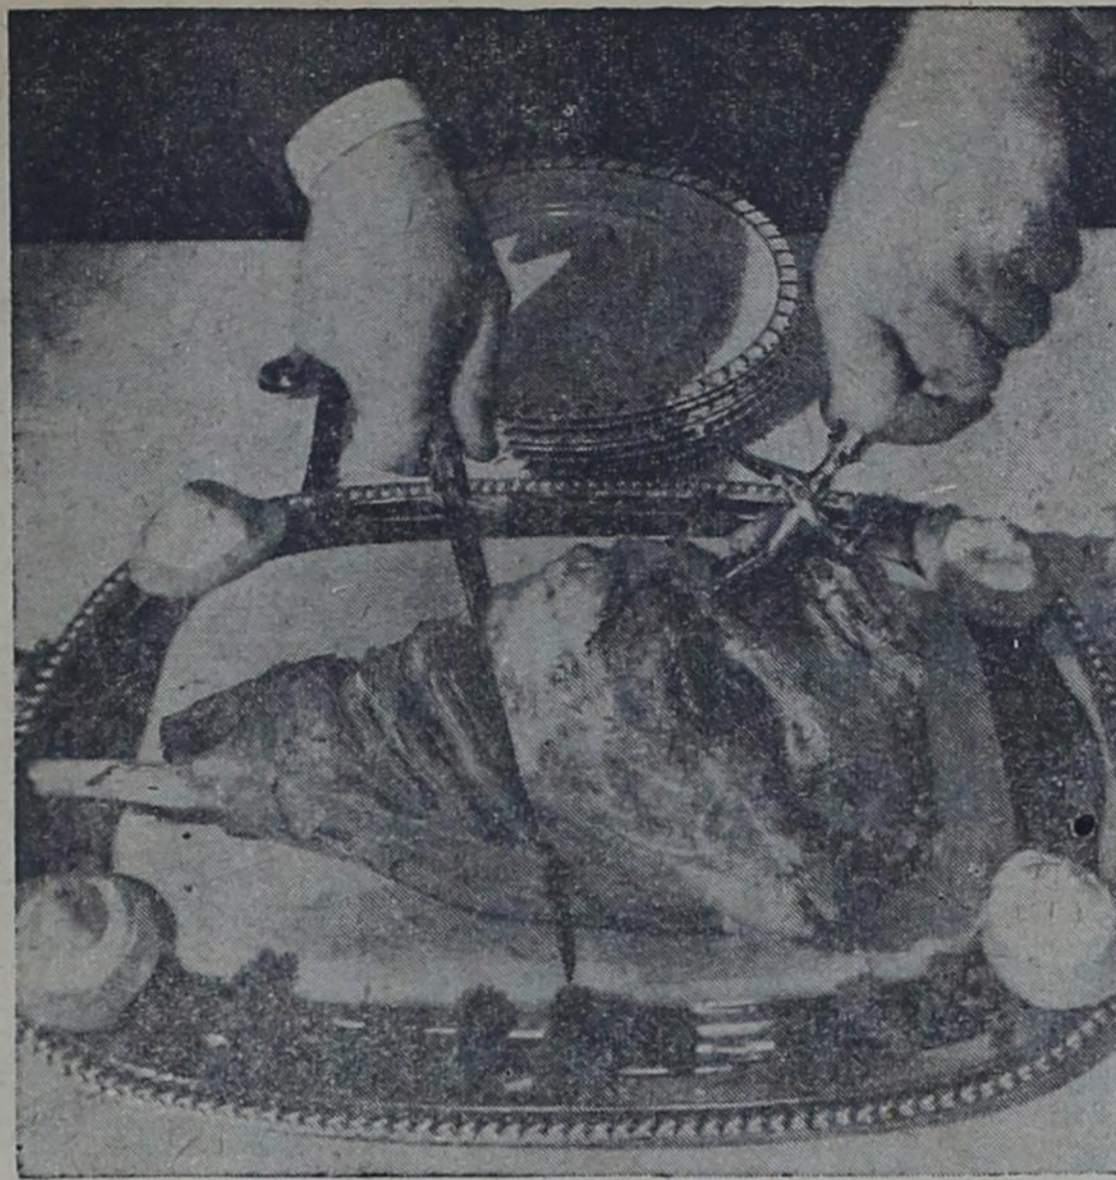

Extra calories, not the kind of food, add those extra unwanted pounds. For instance, the idea that bread is particularly fattening is wrong. Omitting bread from a reducing diet is unnecessary and increases the cost of the diet.

This was proved at a scientific study made at the University of Nebraska, in which 12 girls lost 230 pounds in 8 weeks on a diet which included enriched bread with butter or margarine at each meal.

## Supper Snacks

For those of you who specialize in "little supper snacks," here are a few additional tricks to put up your sleeve. 1. Cover buttered toast with hot applesauce and top with crisp thin bacon slices. 2. Mix deviled ham with scrambled eggs while they are still slightly moist. Continue cooking until the eggs are the way you like them. 3. Spread toast with butter or margarine to which a little Worcestershire sauce has been added. Top with a grilled tomato slice and strips of bacon.

The Blakemore strawberry has proved itself to be best for Oklahoma conditions.

**THIN, EVEN slices** are being cut from this leg of lamb. Following the parallel slicing, the carver will run his sharp knife along the leg bone to release the slices. The peach halves topped with a minted meringue make an attractive garnish, yet one that will not interfere with carving.

## How to Carve Leg of Lamb

Whether yours is a novice or an experienced carver, when he goes to work on a leg of lamb he'll thank you for these two things—for cooking the roast just right neither overcooked nor undercooked, and for lightly garnishing the platter.

For correct roasting of the leg of lamb, place it skin side down in an open roasting pan. Use a rack to hold the roast up out of its hot juices.

Another step important to carving is this. Let the roast "set" for 20 to 30 minutes following roasting. During this period outside the oven, the roast becomes more firm and is much easier for your carver to handle.

Here are some tips for the carver. Of course, a sharp knife is vital. Always steel the blade before beginning your work.

Have the roast leg placed on the platter so that the shank bone is to

your right and the meaty section to your left. Stick the standard carving fork into the fatty section of the leg and carve 2 or 3 lengthwise slices from the side next to you.

Next, turn the roast so that it rests on the surface which you have just cut. The same as in carving ham, start cutting thin parallel slices from the shank end down to the bone. To release all the parallel cut slices, run the sharp knife along the leg bone.

**Peach Halves With Mint Meringue**  
2 egg whites  
½ cup mint jelly  
8 to 10 peach halves

Beat egg whites until stiff. Add mint jelly and continue beating until well mixed. Place a large spoonful of mint meringue in each peach half and place in oven or broiler just long enough for the meringue to become lightly browned. Serve hot. 8 to 10 servings.

## Deviled Lamb Chops

Lamb chops are considered deluxe for just about any occasion and need no special adornment. However, once in a while just for the sake of novelty, we like to give them a new styling. The trick is to spread the chops with a spicy sauce and broil them to bubbly goodness. Using shoulder lamb chops, this makes a relatively inexpensive dinner—and a marvelous tasting one!

## Firm Observes Ancient Custom

NEW ORLEANS, La.—Visitors who happen to arrive at the Lip-ton Tea Company offices in the Cigali building between 3 and 4 o'clock in the afternoon are lucky.

They run smack dab into a charming old Irish-British ritual that is unusual in business life.

Sam McGehee, Southern manager always sees that his office force takes tea between those hours—hot in winter, iced in summer—and chance visitors are always welcome for the ritual.

## PERMANENT MEMORIALS

Remember the grave of your loved one with a most gorgeous permanent remembrance. Wreaths 18-in. overall, \$2.25 each. Sprays, 14x30-in., each \$2.25; midjet graveblankets, 20x40-in., each \$4.25; grave blankets, 30x80-in., each \$7.50. Hearts, 18-in. overall, each \$3.25. Crosses, 18-in. overall, each \$3.25. Stars, 18-in. overall, each \$3.25. Pillows, 20-in. overall, each \$4.00. The most beautiful and gorgeous products ever made, decorated and lacquered, will stand any kind of atmosphere. Prepaid to your door.

Brule Valley Nurseries & Evergreen Crafts, Brule, Wisconsin

## Short Cuts In Kitchen Art

Here is a quick rarebit that is ideal for office wives to prepare in a jiffy: 1 can of condensed tomato soup, 1 cup of grated American cheese, 1 cup of ripe olives sliced from the pits, salt and pepper to taste. Combine all ingredients and heat thoroughly over low heat. Serve over crisp crackers or toast.

\* \* \*

This week day oven dinner might find favor with your family and your food budget: Meat loaf, baked potatoes, glazed carrots, prune and cottage cheese salad and canned cling peach halves baked with orange marmalade.

\* \* \*

If you're getting tired of citrus juices for breakfast, don't overlook apricot, pear or peach whole fruit nectar. You'll find the nectars, made from deciduous fruits, a welcome breakfast starter. Some people like them best with a drizzle of lemon.

\* \* \*

This delicious dessert will promptly become a conversation piece; lemon gelatin cubes, finely diced avocado, chopped maraschino cherries folded into sweetened whipped cream, flavored with Sherry or rum. A crisp cookie is a good accompaniment.

\* \* \*

Stewed prunes are an excellent tasting breakfast fruit, rich in vitamins, rich in minerals, rich in laxative qualities. The fruit need not be served the same old way all the time — a thin slice of lemon or orange or a stick of cinnamon provides interesting and good-tasting flavor variety.

\* \* \*

Vegetables such as cauliflower, broccoli, onions and carrots taste ever so much better when they are served with browned butter or margarine and slivered blanched almonds. Brown the almonds in the butter and presto, your vegetables take on an air of regal elegance.

## PEANUT BUTTER ALL-BRAN MUFFINS

No creaming, no egg-beating—one easy mixing this Kellogg-quick way!

1 cup Kellogg's All-Bran	1 cup sifted flour
1 ¼ cups milk	2 ½ teaspoons baking powder
½ cup peanut butter	½ teaspoon salt
	¼ cup sugar
	1 egg

1. Combine All-Bran, milk and peanut butter in mixing bowl.
2. Sift together flour, baking powder and salt into same bowl; add sugar and egg. Stir only until combined.
3. Fill greased muffin pans ¾ full. Bake in preheated moderately hot oven (400°F.) about 25 minutes. Yield: 10 medium muffins, 2 ½ inches in diameter.

America's most famous natural laxative cereal for diets of insufficient bulk—try a bowlful today!

# New Mexico Area Now Chili Bowl

LUNA COUNTY, N.M. — This section of New Mexico is rapidly acquiring a new title—'Chili Bowl of the Southwest.'

It all started during the first days of government cotton control when a few farmers, casting about for some way to use idle land, took a gamble and began planting the hot red peppers which have such a varied use in native dishes.

Now, in communities where only a handful of farmers formerly raised the chilis for their own use, lots of people are raising them on a commercial scale—and doing right well with them.

Just as an example—one farmer, F. C. Lopez, planted five acres and although a late frost damaged the first blooms he harvested 13,500 pounds and 1,200 pounds of red, for a total sales value of \$1,042.

From a commercial standpoint Luna County growers have learned that it is not profitable to raise chilis in small quantities because of the lack of available markets in the section, but as County Extension Agent Seldon Baker has pointed out the demand for chili peppers is steadily growing as they are used by more and more Easterners.

As a result the Luna County Farm Cooperative was started so that farmers would be assured of a market after harvesting their crops.

This section of New Mexico is particularly adaptable to growing the plants. It has a 220-day growing season and, although rainfall is usually less than 10 inches annually, there is plenty of underground water than can be tapped for irrigation purposes.

## Texas Historians To Get Together

AUSTIN, Texas—The Texas State Historical Association, with headquarters at the University of Texas, will hold its annual meeting here April 27-28, Director H. Bailey Carroll has announced.

The program will include several talks on historical topics, two luncheons, a dinner and a business meeting. An auction of Texas books, contributed by Association members, will highlight one session.

At the dinner, Dr. Harry Ransom, University of Texas English professor, will speak on "Satan and Science in Early Texas," the story of an early-day Texas doctor.

Thomas W. Streeter, American Bibliographical Society president, New York, will give a talk on Texas Bibliography, 1795-1845.

Robert C. Cotner, University history faculty, will discuss James Stephen Hogg at a luncheon meeting. Cotner is now editing papers and letters of Former Governor Hogg for publication.

**CAN'T HAPPEN, BUT IT DID**—Science says that the hybrid mule can not become a mama, but this mule—down on the Will Rutledge ranch in the South Texas brush country—hadn't been reading any scientific journals. This mule's mother instinct became so pronounced that she adopted a young Brahm calf, chased away the calf's cow mother and established a cafeteria of her own to feed her foster child, which grew fat on the strange diet. They ranged together for months before ranch hands succeeded in capturing the pair.

## Program Stresses Good Citizenship

ABILENE, Tex.—The West Texas Chamber of Commerce is co-sponsoring an Education for Citizenship program with four colleges and one university throughout three large sections of West Texas during April for the purpose of aiding high school seniors in becoming good citizens and in choosing vocations of their particular choice.

The program will consist of talks by experienced businessmen and educators on the general aims of vocational guidance and citizenship training.

Dates for the meetings are Amarillo College, April 13; Abilene

Christian College, April 20; and San Angelo College, April 28. McMurry College and Hardin-Simmons University are participating in the conference at Abilene.

## Stomach Distress

Don't just suffer from agonizing and constant burning of stomach ulcers, indigestion, gas, heartburn and other distress caused by excess stomach acid. Alnesia Tablets are guaranteed to bring quick soothing relief of such acid stomach distress or money back. Alnesia Tablets gives instant relief to stomach distress caused by excessive drinking or smoking. This medically proven Alnesia Tablet sent post paid upon receipt of check or money order for \$2.39 for 100 tablets.

# Grand Opera On Way Back To Southwest

Opera lovers from hundreds of towns over the Southwest will have another chance to hear the best of the classics when the Metropolitan Opera Company makes its 10th annual appearance April 27, 28 and 29 at the Dallas Fair Park Auditorium.

The presentations always draw music devotees from more than 400 towns in the Southwest and Mexico, and interest is particularly keen this year because Rudolf Bing, new Met impresario, will be making his first visit to these parts.

Stars will include such renowned singers as Patrice Munsel, Cesare Siepi, Marguerite Piazza, Richard Tucker, Jarmila Novotna, John Brownlee and Anne Bollinger.

The program: Friday night, April 27, Die Fledermaus; Saturday matinee, April 28, Verdi's Don Carlo; Saturday night, April 28, Madame Butterfly; Sunday matinee, April 29, The Barber of Seville.

## Extension Service Now Aids Millions

More than 4,500,000 U. S. farm families are receiving educational help from the Cooperative Extension Service in improving their methods of farming and homemaking and meeting a variety of other problems of rural life, according to M. L. Wilson, federal director of extension work.

In addition to farm people, 2,000,000 non-farm families also receive educational help from the Extension Service that enabled them to do a better job in gardening, preserving food, clothing the family, and other fields of family living.

The people reached by the Extension Service included nearly 2,000,000 4-H club boys and girls, the highest 4-H club enrollment on record.

## BLOOD PRESSURE GAUGE \$5.98

and STETHOSCOPE

Keep Check on yourself! Prevent strokes, kidney damage, etc. Manual has full details on what is prescribed in 95% of ALL high blood pressure cases. You get a Blood Pressure Gauge, Arm Bandage, Sleeve, 2 Valve Bulb, Base, Stethoscope and 25 Grams of MERCURY. Send a \$2.00 deposit and pay postmen \$3.98 plus C.O.D. charges or send a \$5.98 money order and we will pay postage.

# Ever Sprint a Footrace With a Tornado?—Here's How

STILLWATER, Okla.—The next time you see a tornado bearing down on you, don't grow pale and collapse. Instead, start running.

Chances are good that you can outrun it, says William E. Hardy, Oklahoma A. & M. College meteorologist.

"Don't run away from it; run at right angles to it," Hardy advises. "A twister ordinarily is only a few hundred feet wide. If you can get as much as six hundred feet from a tornado, you are probably safe."

### Avoid Shacks

Hardy also suggests staying out of small or weak wooden shacks or sheds during a tornado.

"You stand a better chance out in the open, providing you can find a depression of some kind to lie in," he said, "Remember, it

isn't the tornado itself that does the most harm. It's the flying debris, often traveling two to three hundred miles an hour, that causes the most damage."

Staying down below ground level, and away from barns or buildings that might collapse, increases chances of survival. Hardy also suggests that cars be abandoned in favor of the wide open spaces.

### Stay Out of Cars

Cars are comparatively light to a twister, and are liable to be smashed up. The best thing to do is to drive out of the path of the storm, but if that cannot be done, drive the car under a strong overhead structure if possible and get out and into a gully, culvert, or depression of some kind.

Contrary to popular belief, the cellar of a house is not the best place to go during a tornado, the meteorologist declares. If the twister hits the house, it will likely deposit everything inside right in the lap of anyone in the cellar.

### Little Warning

There is no sure way to tell when a tornado is coming, Hardy says. The weather-signs closely resemble those of a bad thunderstorm, and any thunderstorm can turn into a twister if conditions are right.

"Constant work is being done to perfect a method of tracking and forewarning an area of a tornado, the meteorologist states.

Experiments are being conducted at all times to establish a working plan whereby residents

of tornadic area can be assured of a reasonable preparation period before a twister hits."

### New History Volume

AUSTIN, Texas.—Texas history enthusiasts can find little-known details of the Mexican War for Independence and the Texas Revolution in University of Texas History Professor Carlos Castaneda's new book.

The Fight for Freedom, covering the period between 1810 and 1836, is Volume Six of a series on Our Catholic Heritage in Texas, begun by Dr. Castaneda in 1935. One more volume will complete the series to the present time, said Dr. Castaneda, who has spent 15 years of extensive research and work on the series.

## Circus Epic Hides Stewart Face—But Not That Drawl

Actor James Stewart, the man with the linguistic shuffle and wry approach to dramatic exposition, says he knows a boyhood dream when it comes true. It's like this.

"Breathes there a man with soul so dead who doesn't want to play a clown," grinned the lanky star. "And that's only half of it. Think of being a clown in a Cecil DeMille picture. I not only would give my eye-teeth for that combination, I've given 'em."

Stewart plays the role of Cocoa the clown in DeMille's circus epic, "The Greatest Show On Earth," soon to be released with Betty Hutton in the feminine lead.

"I never take off my make-up so now I'm even with Harvey," says Jimmy whose boyhood dream will come true with a vengeance if the role pans out the way "C.B." has planned it.

### Can't Hide Drawl

At no time does the mysterious clown remove his make-up, for reasons of his own, so at no time will the patrons see Stewart in the flesh. But concealing the famous Stewart drawl is like trying to hide the Taj Mahal under an umbrella.

The fact that the part of the clown is not as strong a role as those to be played by Cornel Wilde (as Sebastian the famous aerialist) and Charlton Heston (as Brad the circus manager), bothers Stewart no whit.

He really made a lot of concessions to play the part, re-arranging his film schedule on several points.

The role of Holly, trapeze artist and blonde enchantress who complicates several lives and nearly wrecks the circus, happens to be one of a half dozen important roles which have come to Betty Hutton in her film career.

Looking to Betty's career as a rags-to-riches musical comedy star and barn-stormer, with an eye to her volcanic and irrespressible technique, no part ever suited her better.

She displays the unbridled Hutton vitality in an arena which for the first time may be large enough to contain it—the "big top" of the Ringlind Bros. and Barnum & Bailey circus.

### New Type of Movie Harmony Introduced

Because of its unusual theme, a study of the so-called "smartini set," "Strike a Match," to be produced by Jerry Wald and Norman Krasna, will introduce a new type of movie music.

The score will be ultra-sophisticated, with sound effects combining with the music. To obtain the desired results, the producers are interviewing scores of extremist musicians and arrangers.

### BE THE LIFE OF THE PARTY!

Show the "WOLF PACK" artist's models. Get yours before it's withdrawn. Rush \$3.00. DEPT. JJ, 1418 Ave. N., Brooklyn 30, N. Y.

## Diamond Jim Moran Now Wears Sparklers in Teeth

NEW ORLEANS, La. — When historians of coming generations write stories about unusual characters who have lived in New Orleans' Vieux Carre (Old Quarter) they won't find it necessary to go all the way back to the Jean Lafitte and Dominique You period to get all of them.

They can get a few right out of circa 1951, one in particular—Diamond Jimmy Moran, the restaurateur.

For Jim Moran, who operates the famous cafe on St. Louis Street, is one of the most colorful figures ever to walk the cobble stones of the old French Quarter.

And Jimmy has just added a new touch of brilliance to his makeup. He has had some of his front teeth set in sparkling diamonds, thus making his well-known smile one of the brightest in the district.

Mr. Moran already was a sparkling guy. Diamonds have been his trademark. He wears them strung down his tie, in his collar pin, on his fingers. They even encrust his spectacles, adding contrast to the magnificent emeralds he wears in his cuff links.

He was worth a lot of money on the hoof (about \$100,000 worth) even before he took on the diamond-studded teeth the other day.

Moran started his career as a bootblack, shining shoes outside the doors of the restaurant he now owns. Former rum runner, slot machine impressario, he was once a bodyguard for Kingfish Huey Long, and that's how he got interested in food — cooking up dishes for Huey.

But with all his shining elegance Jimmy isn't afraid to move freely in the Quarter, because as he says: "This is my home, pal, and I'm not afraid of robbers. But I sorta stay out of the elite uptown sections. I'm a little nervous about going up there with all this ice on me."

## Hollywood's Greatest Hunt For Talent Ends in Alley

Hollywood's greatest talent hunt a decade has ended with the signing by William Perlberg and George Seaton of Organy Murray, a foul-tempered, overweight, scar-faced purebred alley cat to co-star with Ray Milland and Jan Sterling in the title role of "Rhubarb."

The hilarious tale of a puss bequeathed \$30,000,000 and a major league team by an eccentric millionaire is now before the cameras at Paramount.

Orangey, an 18-pound fighter, was selected after Perlberg and Seaton had personally seen over 500 cats and investigated over 3,000 letters from cat owners across the English speaking world. Like other stars, he'll have his own stand-in for the film.

The cat, homeless and ill, wandered into the garden of Mrs. Agnes Murray, Sherman Oaks, California, two and a half years ago. Mrs. Murray fed it and nursed it back to health and Orangey thereupon adopted the family and refused to leave.

However, its affections are limited to the Murrays—it snarls and spits at the approach of anyone else and has been used as a sort of watchdog cat by the family. When

Mrs. Murray noticed Perlberg and Seaton were seeking a cat to play Rhubarb, she phoned them at Paramount and an interview was arranged.

Based upon H. Allen Smith's best seller, "Rhubarb" is directed by Arthur Lubin, who made the sensationally successful "Frances," story of a talking mule.

### High School Pupils Advise Film Moguls

Four high school students have been hired as technical advisers for "On The Loose," cinema tale of teen-agers and their problems which Filmakers is producing with Joan Evans, Melvyn Douglas and Lynn Bari.

The youngsters are Marilyn Hendrickson and Hugh Lester from Hollywood High School, Bobette Bentley and Vance Gillespie from Los Angeles High School.

The four young people were added to the Filmakers production staff before filming started, and sat in on all story conferences with Producer Collier Young and Director Charles Lederer.

# Twisting the radio Dial

Rod Brasfield, "Grand Ole Opry" monologist, says a courtship is nothing but the interval between lipstick and broomstick.

\*\*\*

John Cameron Swayze, the News Caravan commentator, defines an old-timer as one who can remember when a girl's dress cost a whole lot less and covered a darn sight more.

\*\*\*

Bob Hawk, the CBS quizmaster, was on a trip with a radio executive who expected to become a father momentarily. Sure enough he received a telegram which said: "Twins arrived tonight. More by mail."

\*\*\*

Ralph Paul, announcer on the "Strike It Rich" show, tells about the two strangers who met at a bar. "Shay," said one, "what does your wife shay when you stay out late as this?"

Replied the other, "Nothing, I'm not married."

The first one pondered this a moment, then asked, "Then why do you stay out as late as this?"

\*\*\*

Dick Powell, star of "Richard Diamond," says his dictionary says the words narrative and relation are synonymous but he finds that listening to a poor narrative is a far different matter from listening to a poor relation.

\*\*\*

Garry Moore, the TV clown, heard about a marriage license clerk who, whenever he is paid the fee, says "Thank you. Come again."

\*\*\*

Ralph Bellamy, star of the CBS-TV "Man Against Crime," notes that it's a strange freak of nature to clothe limbs of trees in hot weather and expose them naked to the winter frosts.

\*\*\*

A musician in the Vaughn Monroe orchestra was telling how his wife has made a beautiful home for him. "She's certainly a hard worker," he enthused. "I wish I had two or three more like her."

\*\*\*

John Cameron Swayze, commentator, says Communists have an inferiority complex.

\*\*\*

Vaughn Monroe notes that Leap Year doesn't arrive until 1952, but try and tell that to today's prices.

**SALES TALK** — J. Carrol Naish portrays the enterprising antique dealer in "Life with Luigi," Tuesday night comedy.

Rod Brasfield of "Grand Ole Opry" says a hangover is some thing used to occupy a head that wasn't used the night before.

\*\*\*

Ralph Bellamy, star of the TV "Man Against Crime," believes that people living beyond their income should act their wage.

\*\*\*

Francis DeSales, star of "Kings Row", observes that the world is rearming everything but the Venus De Milo.

\*\*\*

Dick Powell, star of "Richard Diamond", knows an actress who was rehearsing long kissing scenes for a TV show and got so tired she could hardly keep her eyes closed.

\*\*\*

Walt Framer, producer of the "Strike It Rich" show, warns to beware of the fellows who slap you on the back — they probably want you to cough up something.

\*\*\*

Herman Hickman, 300-pound football coach-panelist on TV's "Celebrity Time," is fond of poetry, even writes some himself.

\*\*\*

"Let's Go to Church Next Sunday Morning," song by radio's Steve Allen, has sold more than 300,000 copies.

\*\*\*

Jerry Austen, singer on "Winner Take All," played a secondary role in "Oklahoma!" because he was "too handsome" for the lead.

\*\*\*

Don Appell, producer-director of the "Vaughn Monroe Show," worked the Borscht Circuit ten years, as director and emcee.

\*\*\*

Joe Basile, "Big Top" bandmaster, maintains a clubhouse for 200 musicians in Newark, N. J.

\*\*\*

Robin Morgan, Dagmar of TV's "Mama" series, is rehearsing the "Cinderella" ballet role for a June recital in New York.

\*\*\*

Jack McCoy, emcee of "Live Like a Millionaire," once worked as a New York theatre doorman, at \$12 a week.

\*\*\*

When Molly-tried to marry off her old maid cousin recently on CBS-TV's "The Goldbergs," some 60 viewers sent earnest offers of marriage.

\*\*\*

John Nelson, emcee of CBS-TV's "Bride and Groom," once gave a newlywed couple a pair of chinchillas, to start a chinchilla farm.

## Additions for the Western Library—

# Grim Frontier Tales Retold in New Book

A book that will be of interest to all historically-minded Southwesterners is C. L. Sonnichsen's "I'll Die Before I Run," a lusty account of gunplay and violence on the old frontier, and a full story of the great feuds carried on by the Texas pioneers.

Here is the story of men who would brand anything with a hide on, from a tamborine to a buffalo, and who stood up "for their rights" at the point of a gun.

The book has its beginning in the early 1840s, when the word "cowboy" gave off a heavy odor of wildness and sin, and when most settlers carried the law in their own hands—or, at least, in their holsters.

Here is chronicled the gang wars, pistols fights, ambushings, vigilante doings and blood feuds between families that continued well into the memory of Southwesterners who are alive today.

Among feuds dealt with you'll find the Regulators and Moderators of East Texas, the famed Taylor-Sutton affair, the Lee-Peacock troubles, and the fracas between the Jaybirds and the Woodpeckers.

There's blood and thunder to spare in this volume. It's the story of rugged individualists who fought and died—but never ran.

It is published by Harper & Bros., New York, at \$3.50.

\*\*\*

## LIFE IN FAR WEST UNDER NEW COVERS

A book which has been described as the peer of Mark Twain's classic "Tom Sawyer" and "Huckleberry Finn" is again available to American readers, a century after its first appearance in 1848... It is

George Frederick Buxton's "Life in the Far West," an account of pure adventure among the mountain men,

fur traders, and trappers of the West before settlement.

It's a companion volume for "Ruxton of the Rockies," recently published by the O. U. Press.

### A Restless Race

Often used as the basis for novels and other fictional writings, "Life in the Far West" remains the most vivid account, and perhaps the most authentic, dealing with the restless men who made the American fur trade great. The new edition by the well-known Colorado historian, Leroy R. Haflen, contains a foreword by Mae Reed Porter, discoverer of much new material on Ruxton.

Although he was an Englishman, Ruxton considered the American West his home. He personally lived the life of his heroes, traversing much of the wilderness country beyond St. Louis, jumping-off point for the Indian domain beyond.

### Hardy Trappers

Through two hardy trappers, Killbuck and La Bonte, he describes the events of the times. In their own language, he relates savage hand-to-hand battles with Indians, periods of near-starvation followed by feasts on such wilderness culinary delights as buffalo "boudins" and beaver tails, and passionate Mexican fandangos and drinking parties when mountain men gathered for a rendezvous in New Mexico to dispose of their furs.

Ruxton died in St. Louis in 1848 just before he was to start on another expedition to his beloved Rockies. Had he lived to write more, it is likely that his name would have been attached to a city, a state, or even a national monument. As it is, the "father of Westerns" is buried in an unmarked grave in St. Louis.

## Ad Got Results—And How!

STOCKDALE, TEX.—Dan C. Crider had no idea of the results he would be getting when he placed a want ad in the Stockdale Star in an attempt to get an old-fashioned coffee grinder.

He got his grinder right away but he hadn't figured on the Star, through error, running the ad for 17 weeks. Now Dan has more coffee grinders than he can haul in a truck.

"I didn't know there were so many of the things in the world," he told the editor when he called to ask that the ad be pulled—pronto.

## Dark and Handsome Isn't So Important, but Be Tall

DENTON, Tex.—Only one of the "ideal man" qualifications reminiscent of the Rudolph Valentino, "tall, dark, and handsome," days remains.

College girls, at least those at North Texas State College, still like height, but their dream man is not necessarily dark or handsome.

In a poll of 100 women on the NTSC campus, the majority indicated that personality and abilities are more important than looks. Thirty-seven girls rated good mixers and conversationalists as ideal.

Skilled dancing partners are in demand, while high intelligence, versatility, and ability to succeed

at a given task were frequently mentioned as desirable.

Asked to list the occupation of men they date, 73 of the coeds placed collegians first. Thirty-four go with home-town friends also, and 12 date service men regularly. Age preference ranged from 18 to 30 years. Most wanted a man the woman's age or older.

**MUSIC?**—One man's music is another's anguish, judging by Rochester's reaction to comedian Jack Benny's soulful solo.

# Nature Facts for Small Fry

It takes a 14-ounce pull to open the trap door of a spider's home when he's holding it down. If man were proportionately as strong, he could exert a pull of 10 tons.

The Alaskan husky is among the strongest dogs on the continent, and he is famous for serving only one master.

\*\*\*

The cardinal has better manners than any other bird. Cardinals also are called redbirds, Virginia nightingales, and Mexican tanagers.

\*\*\*

The meadow lark always sings a cheerful song, even when the fields are bare and he is having a hard time finding anything to eat.

\*\*\*

The eagle's main food is fish. That's why he always builds his nest near a river or a lake. But he does sometimes carry away small lambs and pigs.

\*\*\*

Owls can see much better at night than during the day. That's why they always hunt in the dark. All owls have big ears and a keen sense of hearing.

\*\*\*

The Mallard drake is not interested in nest building or in taking care of little ducks. He's too proud to do any work, and leave that all up to Mrs. Duck.

## What's Score With Junior

Conducted by Editors of the Book House Plan for Child Development

Q1. The small child should be trained not to touch or handle any of the breakable objects in the home. (True or False).

Q2. Is the pre-school-age child naturally destructive?

Q3. Rough-house play should never be permitted in the home. (True or False).

Q4. The small child should be (a) expected to eat everything placed before him, "for his own good;" (b) permitted to develop his own tastes in food. (Select one).

(Please turn page upside down for correct answers).

1. True, provided he is given substitute objects to feel, study, and sniff at, like an inquisitive pup. Curiosity about the world around him is a normal and healthy symptom in the toddler-age child. He learns through all of his five senses every moment he is awake.  
 A2. No, although he may seem to be so to adults who neither understand him or his needs. Give the small child a deck of cards, and he will use them for building blocks, or bend them into shapes or "birds" or "planes" and whiz them through the air, or cut or tear them up.  
 A3. False. Child guidance experts recognize that "a certain amount of rough-and-tumble is probably good play." It should, however, be restricted to a special place in the house and, if possible, supervised by an adult.  
 A4. (b) within reason, of course. The best way to make a child acquire a permanent dislike for any particular food is to start forcing it on him, the moment you have discovered his natural distaste for it.  
 covered his natural distaste for it.

The pelican, clown of the bird world, often dives several feet under water to catch fish with his funny bill. Big pelicans sometimes have a wing spread as wide as an eagle's.

\*\*\*

The eyes of a whale are set far back and look in opposite directions. They cannot be moved to look straight ahead or behind. If Mr. Heapbigfish wants to see what's on the horizon, he must stand up in the water and slowly turn around.

\*\*\*

The flea is so tiny that hundreds of them could be placed on a quarter at one time. Yet they can jump three or four feet in a single leap. A man, if given the same strength in proportion to his size, could jump six miles! The flea can lift 140 times his own weight. This means that a man, in proportion, could easily lift a ten-ton truck.

## Dolls Help Teach Child About Style

Nowadays, little girls are just as style-conscious as their mothers. Because of increasing juvenile interest in the details of new fashions, the world of dolls has become highly fashion-conscious, too. Stores throughout the country are featuring dolls of all age groups outfitted in up-to-the-minute styles — and furthermore, their smart costumes are complete as to hats and accessories.

Another noticeable trend in the toyland parade is the featuring of dolls representing all age groups. The doll designers begin with amazingly realistic models of newborn babies.

Then there are various styles in baby dolls modelled from youngsters between a few months of age and a year. All of these doll babies are shown with layettes that include every item used on the care of a real baby.

Then there are the toddled dolls dressed in overalls and striped cotton shirts or cunning pinafores. Kindergartners and first graders, too, have their smartly dressed counterparts, complete with sailor hats and neatly tailored spring coats.

Both teenage and college girls inspire a variety of style in older dolls. Designers give much attention to the hairdos of these older dolls. Nylon and modern plastics have made possible a variety of wigs which can be shampooed and waved just like real hair.

## Baytown Serious On Defense Plan

BAYTOWN, Texas—This South Coastal city takes its civil defense planning seriously.

C. W. (Red) Grantham, public works director, has invited all contractors, rice farmers and oil field users of heavy equipment to list their machinery with him.

"This is an important step," Mr. Grantham explained, "for if disaster strikes our city it will be vitally necessary to know where to get bulldozers, winch trucks and other heavy machinery to start clearing away rubble and to keep streets clear."

For soil analysis tests to be accurate, the samples must be taken correctly by the farmer.

It's a Big Job For a Young Sprout to Force Its Way Up through the Soil, as These Bean Seedlings Prove.

## Help Seedlings See the Light

Seeds sown in the open garden encounter many dangers. They or their seedling plants may be attacked by insects and diseases, drowned by floods, eaten by birds, injured by animals, or buried alive by a crust which forms on the soil through which they cannot penetrate.

By dusting the seed with a disinfectant, the moulds and fungi which cause disease may be prevented; and this is especially advisable in sowing early when the ground is cold.

If there is any suspicion that the soil may crust above the seeds, it will be wise to use a special soil to cover them.

If your garden contains clay, a hard rain may compact it sufficiently to imprison the seed. The tiny sprout often faces an impossible task in attempting to break its way to the sunshine.

The illustration shows two bean seedlings, one of the varieties most likely to suffer from crusty soil. The bean seed swells with moisture, and a sprout emerges which pushes

Cover Seed With Porous Soils.

the seed itself—twice as large as when planted—through the soil surface. This takes enormous power, and it is no wonder that a compacted or crusty soil may prevent it.

If you have a compost pile, there is no better way that you can use the humus from it than in preparing a special soil with which to cover seed. This should be mixed with sand, half and half.

In addition to making sure that the seed sprouts will be able to emerge, this loose soil will hold moisture and keep the soil beneath it from drying out. It is therefore especially desirable in hot weather.

## Good Reading Important In Proper Training of Child

A college diploma isn't necessarily a passport to enjoyment of reading. Many people with neatly framed sheepskins, admit ruefully that they seldom read for pleasure.

Naturally in planning your child's future you'd like to assure him the rich pleasure of enjoying good books as friends. If it's not formal education that assures this gift, what does?

The way to start, psychologists agree, is to make books an integral part of family recreation. The time to begin to associate books with playtime is when baby sits up in his playpen and is able to turn the pages of his picture book.

As soon as he recognizes objects and is able to relate them to the life around him, he'll be an enthusiastic participant. When you sing nursery rhymes to him and point out their relation to the pictures in his book, you are laying the foundation for enjoyment of reading all through life.

Books with cutouts and books with action figures as illustrations are some of the interesting developments that are used to increase the play value of books for the younger set.

But having picture books and drawing books as part of the play equipment of the nursery is not enough. It's important to continue to give books an important place

in the family recreational picture after Junior and his sister go to school.

So plan now to make books a regular part of your youngsters' play equipment. Modern methods of printing have made beautifully illustrated books for all ages of children available at amazingly low costs that fit even the smallest family budget.

Amazing discovery, tested in Engineering Dept. of leading U. S. University, reduces gasoline consumption as much as 20%—gives you up to 6 days a month GAS FREE DRIVING—may actually PAY FOR ITSELF in cash savings. Also better performance, more power, quicker starts, faster acceleration, on all cars, light trucks, tractors—any age, make or model. IT CAN HELP KEEP YOU ROLLING IN EMERGENCY GAS RESTRICTIONS COME.

Grapho-Analysis Expert

When I first heard that handwriting reveals your personality, your good and bad points, even the

Mr. Bunker

kind of food you like, I laughed at the idea. I was going to be an expert penman, but instead of writing a copybook style I failed. My teachers would shake their heads in disgust because I kept putting a lot of strokes that did not belong there.

I set out to find the reason I put in those extra strokes, and after twenty years I found I had something. Handwriting does tell the truth about the writer. If he is honest, talented, a constant lover or a fly-by-night who loves today and is gone tomorrow. It tells how you think, even the kind of food you will prefer.

In countless cases I have seen the truth revealed by handwriting help people find love, happiness, and success in life. What your writing says is impartial.

Every letter you make — even your dots and dashes, tell something about you, and in many cases these truths taken from handwriting help the writer to get a new view of himself. Take this young lady who writes:

"I am very much in love with the young man whose letter I am sending you, but don't know what to do. Will he make a good husband and does he love me? What do you think?"

All I know is what his handwriting tells about him. He is vain, selfish, likes to attract favorable attention—quite a showman at heart. Undoubtedly when he is away from you he is basking in the smiles of some other girl, not because he is untrue to you, but because he likes flattery — and good food. Your mother is probably a good cook, and he likes her cooking. He is talented, capable of making a real place for himself, but he is not in love with anyone except himself. A good friend, but — you must make your

own decision. This is what his writing reveals about him.

Your writing reveals your weaknesses and good points just as clearly as this specimen shows the young man's real nature. You may write a miserable scrawl, or a copy book hand. This is not important, for every stroke you make tells something about you.

For your own analysis, merely write a few lines. Send as many specimens as you wish, and enclose 25c and stamped reply envelope for each analysis. Address, M. N. Bunker, care Southwest Magazine, 715 Jones St., Ft. Worth, Texas.

## FEBRUARY CONTEST WINNERS NAMED

The following five were selected to receive the Horoscope prizes for the February contest and we extend our congratulations to each of them:

Mrs. C. O. Sellstrom  
Route 4  
Round Rock, Texas  
Mrs. Sellstrom is a reader of the Round Rock Leader.  
Miss Marcene Stephens  
410 Southern  
Corpus Christi, Texas  
Miss Stephens is a reader of the Corpus Christi Press.  
Mrs. Ima Moore  
407 Edwards  
Merkel, Texas  
Mrs. Moore is a reader of the State Line Tribune of Farwell.  
Mrs. M. L. Walling  
Howe, Texas  
Mrs. Walling is a reader of the Italy News.  
Mrs. R. S. Morgan  
Route 1  
Temple, Texas  
Mrs. Morgan is a reader of The Rosebud News.

Checks have been mailed to the publishers of these weekly newspapers for delivery to their readers.

Proud of Tallness

The Tall Girls Club, of Chicago, disdains the flat shoes and hunched shoulders which some female skyscrapers exploit to make them appear shorter. Evelyn Olson, the six-foot-one-half-inch president of the Club, told a reporter: "We make it a matter of pride to be tall. We stand up straighter, and we make it a point to wear shoes with two or three-inch heels.

LADIES — SELL REMNANTS BY MAIL  
Can be sold in 2-lb. packages for \$1.00; tremendous profit; one dealer made ¼ million dollars in short time. Start immediately with our assistance. This service FREE with your subscription to "MAIL IDEA BULLETIN SERVICE," for one full year for only \$1.00. **SPORTS ADVENTURE**—George Dod Osborne, wearing cap, is doing something all men dream about—roaming the seas on a 18-month around-the-world fishing trip. He and his crew will visit remote isles outside the shipping lanes to chart unknown fishing, spawning and hunting areas. Photo shows him being interviewed just before his 'Argosy' sailed recently from New York.

## Outdoor Notes For Sportsmen

By JOE AUSTELL SMALL

If you're worried about the live bait situation, but are still catfish hungry, bend your good ear agin' the wind and listen:

Mix 1 cup flour, 1 cup corn meal and 10 tablespoonsful of thick molasses. Mix into stiff dough and roll into bait balls. Drop into boiling water Boil ten minutes. Remove and drop into cold water. This is a sweet-tooth catfish bait and it stays on the hook.

Your skillet will smell fishy if you give this bait a good try.

\* \* \*

### For He who Kicks

Audley C. Hawkins, of Lincoln, Illinois, was so disgusted when he reeled in a pair of old trousers that he gave the pants a scornful kick. He got a stab in the foot. A ten-inch catfish was inside the pants!

\* \* \*

### What's New, Doc?

This is the time of year when everybody comes out with bright, new catalogs on the latest developments in the sporting good world. If you are interested in any of the subjects following, a card to the company given after listing will bring you full details on some rather unusual new developments in their particular line. Boat trailers: Mastercraft Trailers, Inc., 7 Factory St., Middletown, Conn. For some real news in development of fishing lines, write for "Successful Fishing" to B. F. Gladding & Co., Inc., Box 3451-B, South Otselic, N. Y. For hot dope on fly rods and fishing tackle in general, write both South Bend aBit Co., 920 High St., South Bend 23, Indiana, and Shakespeare Company, Dept. WS-2, Kalamazoo 2, Michigan.

\* \* \*

### How to Catch Frogs

Ever go fishing for frogs? By golly, it's sport — and frog legs in the skillet is your reward. A very small snelled hook, baited with a strip of red cloth or yarn, is a sure-fire frog-getter. Also, a small wriggly worm or a dragonfly will work beautifully. Just lower the bait in front of the frog and you'll have quick action. How to get that close to him? Well, you've got to have something to worry about. Haven't you?

## Grim Note To Duck Stealer

GALVESTON, Texas—Note to the thief who stole two Pekin ducks from the University of Texas Medical School here:

Those birds, bud, probably tasted just like any other ducks if you cooked them, but—

For many months before you stole them they had been fed cancer-producing substances as part of an experiment! Well...?

## Bears are Coming Back to Oklahoma

Bruin is coming back to Oklahoma.

Seeking to restore the black bear to some of their former haunts in southeast Oklahoma, the Game and Fish Department is seeking the aid of the state of Washington.

And Washington officials have promised Kelly DeBusk, Oklahoma game director, that they will supply from a dozen to two dozen black bear cubs for transplanting this Spring.

Don W. Clarke, director of the Washington Department of Game, recently wrote Mr. DeBusk:

"I am sure we can supply the cubs so they can be raised by bottle for a certain period and then turned loose in the desired area."

It is planned to turn the animals loose in the Robbers Cave State Park, in Latimer county of South-eastern Oklahoma.

### Camp Kinks

Before you leave camp, pour water on your campfire and cover it with dirt.

Butter, lard and other perishable foods can be kept a long time if sunk in a spring or stream in tightly closed mason jars.

To prevent coffee from boiling over on the campfire, lay a green twig across the top of the coffee pail.

Powdered milk and powdered coffee are light to pack and are easily and quickly made in camp.

### Seeing the sights

When it is necessary to shoot in the dark, wet the top of your rifle barrel and the sights can then be seen more easily due to the moisture reflecting light of the moon and stars.

# Champion Rifle Marksman Retires at 82, Undefeated

SAN ANTONIO, Tex.—A. Toepperwein, one of the shootin'est men the world has ever seen, has gone into retirement at the age of 82 after reigning as king of rifle marksmen for more than 60 years.

Toepperwein, who toured the country for many years putting on exhibitions for Winchester, was a cartoonist for the San Antonio Express at the turn of the century, and even then he was renowned as a sharpshooter.

He became nationally famous in 1906 when he broke 72,491 aerial targets out of 72,500, breaking the former world record held by Doc Carver with 60,000 out of 60,650.

It is estimated that during his career he fired in excess of three million rounds of ammunition in exhibitions.

Toepperwein's wife "Plinky," who died in 1945, also was a great marksman. She had never fired a rifle at the time she married the champion but within three weeks was shooting a piece of chalk from between her husband's fingers.

Once Mrs. Toepperwein broke 1952 clay pigeons out of 2000 in three hours and 15 minutes of shooting time.

Who will be the next champ nobody knows. Toepperwein's 1906 record still stands, unchallenged.

March winds and April showers find no entry into homes equipped with modern, top-quality IDEAL All-Wethr Windows. Efficient weatherstripping sees to this, bringing you maximum protection against rain, wind, and dust.

In addition, Preservative Treatment of all wood parts of the window unit, brings you water repellency and protection from decay and insect attack.

Made of choicest WOOD, IDEAL All-Wethr Windows also bring you the character and warmth no substitute material can provide—at a price you can afford. Rust and corrosion is never a problem.

Be sure to include IDEAL All-Wethr Windows in your plans for that new or remodeled home. See your local building material dealer for full details
