#### FROM THE HOPPER By HOP

While you are thinking of what to send that out-of-town friend or relative for Christmas, let me step in to suggest that you remember them with a subscription to this newspaper. Already a number of Parmer Couny folks have been ordering subscriptions to relatives.

And if you don't believe a weekly arrival of the old home town newspaper, just ask some of the soldier boys who have been getting the peper while in training, or in combat areas.

Frankly, it is a little difficult to get newspaper deliveries in foreign countries. All newspapers go as second class mail matter and are treated as such by the postal service. But in the past we have been having fari success in getting the papers to the bovs. We see that they are securely wrapped and properly addressed-and that is as far as we can go. Beyond that the postal service takes over, and I feel confident that every effort is made to deliver the papers, knowing the importance of these weekly visits to the soldier lad.

Every lad in uniform from this region should be getting his home town paper. What more can you buy for \$2.50?

Just in case you hadn't thought of it, 1952 promises to be one of the most important elections held in recent years. Next year we will be seeking new officials from the president down to the justice of the

Important as these elections may be, Texans will have no voice in them unless they are armed with a poll tax receipt. Nope, you can't vote in Texas without one, unless you are over 60 years of age or have attained your 21st birthday this year-and not then unless you obtain on exemption certificate!

Until recent years, poll taxes were always included with your property tax. But that is not the case any more. You don't get a poll tax receipt unles you specifically ask for -and pay for-it when you pay the

Reports from the tax collector's office say that polls are lagging this year. This is especially true of persons who mailed in tax payments, neglecting to include payment for the polls.

Better check up on that envelope containing your tax receipts. It's just barely possible that your poll tax receipt is not included for the very good reason that you haven't paid it,

Do you know, I get a little "fed up" on so many people going the rounds vapping to high heaven for economy in government one day and demanding a hand-out the

Public polls are being taken over the country in general and indications are that the nation is in for another four years of Raw Deal.

It looks like Truman has got the cards stacked against all comers. You just can't beat a Santa Claus!

You can always buy a piece of property cheaper when you don't need it than when you have to have

When our daughter began looking around for a husband, she asked her mother for some advice along that score. Wife flatly declined on the grounds that she had made such a mess picking out a husband that she certainly wasn't going to ruin her daughter's life.

The biggest hogs we have in our town are the rent hogs.

### Watch For Swine Flu, Mr. and Mrs. J. E. Stone were in Warns County Agent

Hog producers are warned to be on the alert for swine flu, Joe Jones, county agent says. The weather during this season of the year -warm days and cold nights-is N. W. Peyton who has leased the favorable for flu development, says Dr. C. M. Patterson, Extension vet-

the elements. A well-bedded shed this is clean and properly ventilated is the best shelter for hogs at this season of the year. Better check to Mr. and Mrs. Walter Hardage plan Attendance at the Baptist Sunday see that the hogs use the shelter you

Swine flu, says the veterinarian, is seldom fatal, but the loss of flesh eight ball is to pick up the wrong it talks, but it never gives itself is mighty important. In addition to the losses on fat hogs, gilts that are being kept for brood sows may also be affected. Small, weak litters often result when the gilts have had a bad case of flu.

Whenever there is doubt about the diagnosis of sick hogs, Patterson suggests calling in a veterinarian, for there is a chance the hogs might have a disease that would prove fatal. Hogs that have flu should be provided with a comfortable house that is free from drafs and should be fed on a light, slightly laxative

Patterson says its a good idea to check all hogs daily, especially those running in the field. Prompt and proper attention for the sick animals is a must for all farm animals if they are to produce maximum returns for their owners, says Patterson.

### CAR-TRUCK COLLIDE

The new '51 Pontiac belonging to the J. T. Jones was damaged in an accident around noon, Sunday, as they collided with a 11/2-ton Dodge The Young Adults Training Union truck. The wreck occurred on the highway near the Paul Jones station. Mrs. Jones was driving the car and started to turn left on the north road when the truck, traveling east, hit the left side of the car. No one was seriously injured. Mrs. J. D. Stevens, a passenger in the car, was taken to the Parmer County hospital but was released after a check-up.

### Pre-Induction Notice Cancels Navy Chance

Pre-induction notice cancels eligibility for Navy according to a statement made by LCDR. M. N. Howard, officer in charge local navy recruiting station Albuquerque, New Mexico; The privilege volunteering for the "service of your choice", after receipt of a pre-induction indtice expires midnight November 1951. Men in this ertegory desiring to volunteer for enlistment in the Navy should do so immediatey as the navy is enlisting men on a weekly basis and can send only a limited number each week during the month of November.

He used to catch her in his arms the catches her in his pockets.

Society has placed in the hands of its honored judges and police officers the power on which we all must lean for protection and for aid in the interest of security and peace and justice. Back of every man who represents law and order is the authority and the social idealism of the group as a whole. You and I and one hundred and forty million people speak in the voice of the Judge on the Bench; we walk with the Guardian of the Peace as he covers his beat along the city streets.

The Strong Hand of the Law is a symbol of justice, assuring every woman and every man that he has rights before the Law and that he will be heard; he cannot be deprived of property or freedom or peace without due process of law.

The Strong Hand of the Law assures society that it will be protected from vicious and lawless men, that our homes shall be our castles and that we may walk at large without fear of being molested. Life, liberty, and the pursuit of happiness are our heritage in a free country.

The Strong Hand of the Law comes to our aid when we have failed to live up to our American privileges. When we become a menace to others, the Law saves us from doing the harm for which we should always be sorry. When we have failed to correct and discipline our children and they have gotten out of control, the Law comes to assist us in checking their wrong-doing. Our Courts are increasingly concerned to help us make improvement, rather than to punish us when we go wrong. It was because of this that the Great Apostle insisted that the Powers That Be are ordained of God. The Strong Hand of the Law is assistant to the Divine Ruler in making a good world of men. Shall we not teach our children respect and honor for the Law? Shall we help them to revere rather than to be afraid of these helpers toward the common good?
