

Storms Roam Area - -

# Week's Moisture Benefits, Hinders

"The rain we received Monday afternoon and night will be beneficial to the area's corn crops," commented Parmer County Extension Agent Mack Heald.

According to the agriculturist, the corn crops throughout Parmer County "need the rain" as it will speed up the watering on corn crops already being watered.

"As far as the county's late wheat crops are concerned, it wouldn't hurt if they had more rain at the present time," Heald stated.

The rains brought cooler weather to the area which will hinder the cotton, sunflower and vegetable crops. "These crops are up to stand now and they need warm weather and sunshine to grow and produce as they should," the agent related.

Fred Chandler of Farwell reported that a total of .15 inch of rain had been received in town Monday.

According to Chandler, ".15 inch of moisture, it sprinkled and didn't really rain. The moisture brought in cooler weather which will aid the wheat to mature better and bigger."

Mrs. B. A. Rogers of Texico reported that the city proper

had received .15 inch of rain. "It really didn't look like we had that much fall, but our gauge showed .15 inch," she said.

South of Texico, John Hadley recorded .25 inch of rain with Elmer Langford, north of Texico, reporting "just a very light sprinkle."

Langford stated, "The trace of rain we had did not help much but at least we didn't have any hail anywhere close around us. We really need the rain but if we have to have hail, we'd just as soon do without both."

The corn and wheat crops of the area were further aided Tuesday evening and night as thundershowers dropped additional moisture on area fields.

W. M. Roberts of Farwell reported that he received a total of .6 inch of rain Monday and Tuesday.

Gilbert Kaltwasser stated that seven miles east of Farwell, he had received a total of .50 inch of rain during the two days.

Asa Smith of Lariat recorded .2 inch of moisture for Monday and Tuesday. "We had no hail and it was a pretty nice rain. It was a beneficial one because it was a slow, soaking type shower," he re-

lated.

Six miles southeast of Farwell on the Ted Magness farm, a total of .75 inch was recorded. "The bulk of the rain fell Tuesday. Monday and Tuesday morning we had light sprinkles. But, we were very grateful for what we did get," commented Mrs. Magness.

On the Howard Whitener farm six and one-half miles north of Texico, 4 inch of rain was reported for Tuesday night. Whitener reported that they had light sprinkles Monday but not enough moisture fell to register.

To the west of the Twin Cities in Curry County, it was reported that several wheat farms stretching as far north as Grady and approximately 13 miles west of Clovis suffered severe hail damage in a 20-minute hailstorm Monday afternoon.

One resident of the hail-damaged area reported that he had seen a barrow ditch full of hail that measured about two or three feet deep.

The severity of the storm caused a major loss in several wheat crops with farmers who were expecting bumper crops declaring, "You hate to settle for insurance money."

## Absentee Voting Underway To Create Hospital District

Absentee voting in an election for the creation of a hospital district and the issuance of bonds is now underway at city hall in Farwell. Hours for casting absentee ballots have been set for 8 a.m. until 5 p.m. Voting began Tuesday, June 3, and will continue through Friday, June 20.

The election is to be conducted on Thursday, June 24, with the polling place being set at the County Courtroom of the Parmer County Courthouse. The poll will be open from 8 a.m. to 7 p.m. CDT.

Persons eligible to vote in the election will be qualified registered voters in the Farwell Independent School District, less the portion of the

district located in Bailey County.

In issuing a statement regarding the upcoming election, the directors of the Farwell Development Corporation made the following statements:

"We realize the community has entrusted us with the responsibility of planning a nursing home facility that will meet the needs of the Farwell area.

"After exhaustive study we have concluded that the following proposal is the best way to accomplish this community goal.

"We respectfully request your thoughtful consideration of this plan and urge you to cast your vote for this proposal."

Proposals made by the Corporation include: 1. That a hospital district be created embracing the Farwell Independent School District, less that portion in Bailey County; 2. This district creates the legal taxing authority to sup-

port a nursing home-hospital complex; 3. It will keep this area out of a district that could be created for the benefit of another community;

Also, 4. That a 98-bed nursing home facility with a special hospital wing be constructed; and 5. That bonds in the amount of \$750,000 be issued to pay for the erection and furnishing of the complex.

Cost of constructing the facility will be paid for by the authorization for the issuance of bonds in the total amount of \$750,000. The bonds, together with all interest thereon will be retired by means of a 20-year lease agreement with Convalescent Nursing Homes, Inc. of Austin.

The anticipated tax levee will be the minimum necessary to finance initial bond interest and administrative cost.

If the bond issue carries with the election, notice of advertising for construction bids will be done immediately.

### ★ Entries Needed For BTD Queen

Entries are now being sought for the 1975 Border Town Days Queen contest which is being sponsored by Theta Rho Chapter of Epsilon Sigma Alpha.

Contestants for the title must be a resident of either the Texico or Farwell school districts. They must also be between the ages of 15 and 18, inclusive, and must be enrolled as a student for the 1975-76 school year.

Girls interested in seeking the crown are asked to contact Doris Ford at 481-9990, or Faye Parr at 481-3378.

## Rogers Resigns As Principal

Jim Rogers, Texico Elementary School principal, has resigned his position to accept the post of grade school principal at Tatum.

Rogers has served as prin-

icipal for the Texico school for eight years and commented that he has accepted the post at Tatum "because I feel it's a better job."

The Tatum Grade School

envelopes grades one through six and a full-time kindergarten program. Rogers will be administering to approximately 250 students.

Mrs. Rogers, who has taught kindergarten and substituted while at Texico, has been employed as a third grade teacher at Tatum. Rogers stated that this had influenced their decision to move because at the present time there are no openings at Texico for which Mrs. Rogers could apply.

The Rogers family will be moving to Tatum during mid-July. This will be the fourth move for the Rogerses since their start in the educational field. Their career in education began in Hobbs and from there they went to Portales before accepting a position at Texico.

With the resignation of Rogers, the Texico school will have three new principals at the beginning of the 1975-76 school year. James Pierce, Texico High School principal for the past 12 years, resigned his position to accept the office of superintendent of schools. James Harding, a former graduate of Texico, will be filling the post of high school principal. Kenneth Shaw, teacher-coach for Texico, has been appointed to the position of Junior High School principal.

The elementary position has not yet been filled.

### Texico - -

## Council Discusses Water Problem

Members of the Texico City Council met in regular session Tuesday, June 10, and discussed a problem relating to the city water system.

According to City Clerk Clara Wiehl, at the present time the city's water pump is picking up sand and pumping it into the water lines. Following a lengthy discussion, Trustees voted to conduct a special meeting Tuesday, June 17. During the session a decision will be made to correct the problem and cost estimates will be presented.

City Trustees then voted to nominate Billy Hammit, Texico water superintendent, to the Ted Price Award. The award will be presented for the first year and will be awarded to the best water superintendent of the district in which Texico is included.

The award is to become an annual presentation made in memory of Ted Price of Clovis who died last year. Price served as the superintendent of the Southwestern Public Service Company water de-

partment. The Council accepted the resignation of Joe Caywood as a director of the Senior Citizens Center. The resignation is to become effective June 20.

Tony Plumlee of Lubbock, a civil engineer, met with the Council and discussed the seal coating for the streets of Texico. No action was taken on the matter as the city attorney was not present for the session.

A mobile home permit was approved for Donnie Morris. Morris plans to move a mobile home to 821 State Street.

The police report for May in the amount of \$230 was approved and bills were approved for payment.

Attending the session were Mayor Manford Turnbull, Trustees Bill Christian, Bill Thigpen, Ruby Goforth and Vane Doshier, and Clara Wiehl, city clerk; Billy Hammit, water superintendent; Carl Parks, assistant superintendent; Mickey Fenn, city marshal; and Caywood and Plumlee.

## Pet Clinic Is Underway At Texico

The final pet clinic of 1975 for Texico and Farwell is currently being conducted at Texico City Hall. The clinic was slated for Friday (today), June 13, between the hours of

### Commissioners Set New Meeting Dates

The Farwell City Commission has set new meeting dates for its regular monthly meetings.

The Commission will now be meeting two times each month instead of the previous one meeting monthly.

Meetings are to be conducted on the last Monday and on the Monday falling two weeks prior to the last Monday of each month. Meetings are held at the City Hall and are scheduled to begin at 5:15 p.m. CDT.

Next meeting for the Farwell Commissioners will be Monday, June 16. Included on the agenda for the session will be a discussion of the approved application for park funds, stop signs and a discussion of an ordinance concerning traffic control signs within the city.

1 and 5 p. m. MDT.

Area residents with dogs, cats and other pets are urged to bring their animals to the clinic in order that the animals may receive inoculations against rabies and distemper.

Conducting the clinic will be Dr. B. L. Russell of Clovis. According to Dr. Russell, cost of rabies vaccinations has been set at \$2.50 with distemper inoculations costing \$5.00.

Tags for pets may be purchased for \$2 each for the city of Farwell and \$1 each for Texico.

According to Clara Wiehl, Texico city clerk, "It is a city law in both Texico and Farwell that animals receive these inoculations and be tagged with a city license."

Today's clinic will be the final clinic of 1975. Next clinic will be conducted during February, 1976.

### School Board Meets Tonight

Members of the Texico Municipal School Board of Education will gather for their regular meeting tonight (Friday), June 13, at 8 p.m. MDT.

## For Farwell - - Application Approved For City Park Funds

Farwell City Clerk Janie Bowery reported this week that confirmation has been received that the city of Farwell's application for funds to the Texas Parks and Wildlife Department has been approved.

The application was made to obtain funds for Farwell City Park. Approval was given for the acquisition of 2.75 acres of land with development of the land to consist of a water fountain, storage buildings, picnic units, a bike rack, shuffleboard court, two lighted tennis courts, benches and shelters, landscaping, a pot lot and a sign.

According to Mrs. Bowery, a pot lot consists of playground equipment such as sand boxes, swings, merry-go-rounds, etc. The Federal funds grant is for a total of \$33,450 with the city required to furnish matching funds.

### Development Corporation - -

## Board Discusses Plan For Obtaining Doctors

Members of the Temporary Board of Directors of the Farwell Development Corporation met Monday with Eddie Melin, representative of the Panhandle Regional Planning Council.

During the session with Melin, directors conducted a discussion concerning the acquisition of doctors and a den-

tist for Farwell.

Melin told the assembled group the steps which the corporation needs to take to apply for aid in securing a doctor for Farwell through National Health Service Corps.

The representative commented that he felt Farwell will be eligible to get doctors through NHSC. The need is

here and the required paperwork for securing the doctors and a dentist should be completed as soon as possible, according to Melin, as it will take approximately one year for a doctor to be available.

NHSC is a program designed to encourage physicians to stay in small towns. In conducting the program, NHSC helps students through medical school. After the student graduates, he is then indebted to NHSC for two years of work. The organization then places the accredited physicians in towns needing their services.

After a doctor's "debt" is paid to NHSC, and if they elect to leave the area, another doctor is automatically assigned to fill the vacancy without the community having to re-apply for a doctor.

Anyone having questions concerning the National Health Services Corps is urged to attend the next meeting of the board. Meetings of the Development Commission are conducted on the third Tuesday of each month. Next meeting will take place Tuesday, June 17.

The most important election in the history of the Farwell Independent School District is now underway. Absentee voting on the formation of a hospital district and ratification of a bond issue is now in progress. All voters of the F.I.S.D., except those who reside in Bailey County, are involved. Absentee ballots may be cast at the Farwell City Hall up until next Friday, June 20.

This is not something that can be voted on again as many bond issues have been in the past. It took a special piece of legislation by the Texas State Legislature to create the district upon which we will be voting. It is very doubtful if another bill for us can again be put through the legislative process. We were pushed around somewhat in just getting this bill passed.

In the growth of Farwell, this is also a vital matter. It will be a big push forward in the economic front. In the matter of self-preservation, IT IS ALL IMPORTANT. If we do not do this for ourselves now, some of our neighbors will eventually take us into their district and we will wind up paying FAR, FAR MORE district taxes and NOT EVEN HAVE A HOSPITAL OR A NURSING HOME.

We firmly believe that the nursing home/hospital complex is something that will be in the near future. If we do not pass ours now we will pay far more for some other community's benefit.

If you think you or some member of your family will be out of pocket on Tuesday, June 24, we urge you to see that a vote is cast - now.

The price of fed cattle has climbed a little recently, and this brings out the "consumer advocates" again. Some people are dedicated to the task of not only reducing the total supply of available food but of also depriving the medical industry of a vast source of many of its medicinal raw materials.

This story has been told again and again, but it makes no dent in the armor of ignorance worn by many of our "people crusaders." We will recount the story of beef production as given by the Beef Industry Council:

One cow plus one bull plus grass and hay equal one 80-lb. calf.

One calf plus cow's milk and grass equal a 400-lb. calf.

One calf plus grass, hay and crop residues equal an 800-lb. yearling.

One yearling plus grain and hay or silage equal a 1,100-lb. steer.

Now notice that grain did not figure into the equation until the very last step. For the first 3/4 or better of a calf's life, no grain. The total grain consumption of approximately a ton of grain is still composed mainly of grain not fit for human consumption.

Of course, all the grass, hay, crop residues and silage are not digestible human food. There are over 900,000,000 acres in the USA alone that cannot grow anything but forages suitable only for a four-stomached ruminant. Some folks look as if they have four stomachs but they still cannot digest the roughages a cow eats.

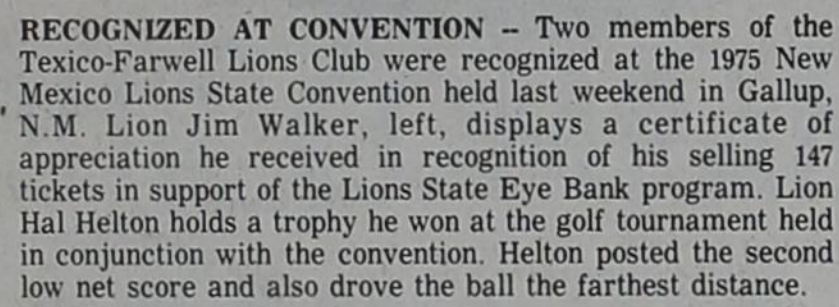

Therefore, it's plain that the large majority of cattle feed would be lost if a cow did not turn it into beef.

Also, our animal friends provide us with an imposing list of medicines and allied products. For example, it takes 6,300 head of cattle to yield one pound of insulin. Some of the other animal-source medications include herapin, estrogen, thyroid and adrenal extracts.

Addison's disease, asthma, whooping cough, anemia and other blood ailments, certain mental disorders, rheumatoid arthritis, rheumatic fever and osteoporosis are some of the other diseases which have

Father's Day  
Sunday - June 15

RECOGNIZED AT CONVENTION - Two members of the Texico-Farwell Lions Club were recognized at the 1975 New Mexico Lions State Convention held last weekend in Gallup, N.M. Lion Jim Walker, left, displays a certificate of appreciation he received in recognition of his selling 147 tickets in support of the Lions State Eye Bank program. Lion Hal Helton holds a trophy he won at the golf tournament held in conjunction with the convention. Helton posted the second low net score and also drove the ball the farthest distance.

## Local Lions Garner Awards At Meeting

Six members of the Texico-Farwell Lions Club were in Gallup, N.M., June 6, 7 and 8 to attend the 1975 New Mexico Lions State Convention during which several awards were presented members of the local Lions.

The Texico-Farwell club was awarded second place honors in the District Governor's contest and received special recognition for having the vehicle traveling the farthest distance to be viewed in the annual parade.

Individual awards were presented to three members of the local club. Hal Helton received a trophy for having the longest drive in the Annual Golf Tournament. He also garnered honors for placing second in low net.

Lion Jim Walker received a special recognition certificate for selling over 100 tickets for the New Mexico Eye Bank Association.

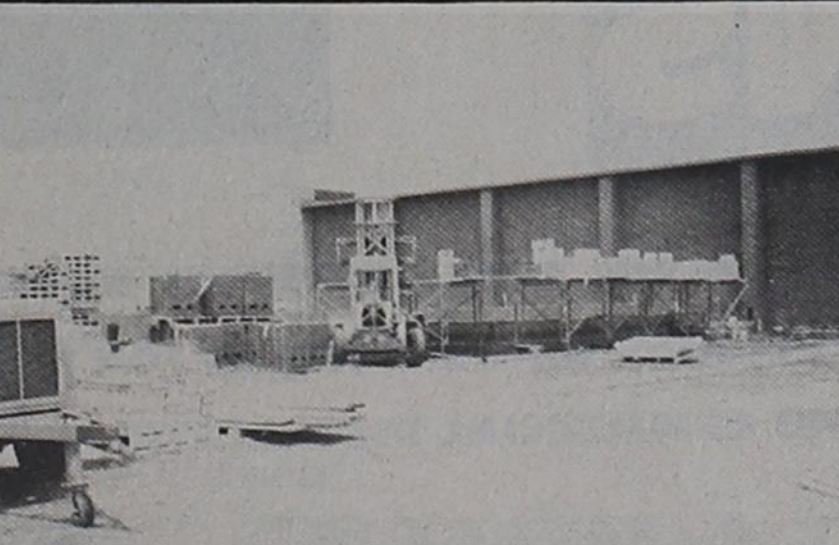

James Craig, retiring District Governor of 40-X, was

awarded a membership certificate for the "Dime A Dozen" Club. All past District Governors are granted exclusive membership in the club.

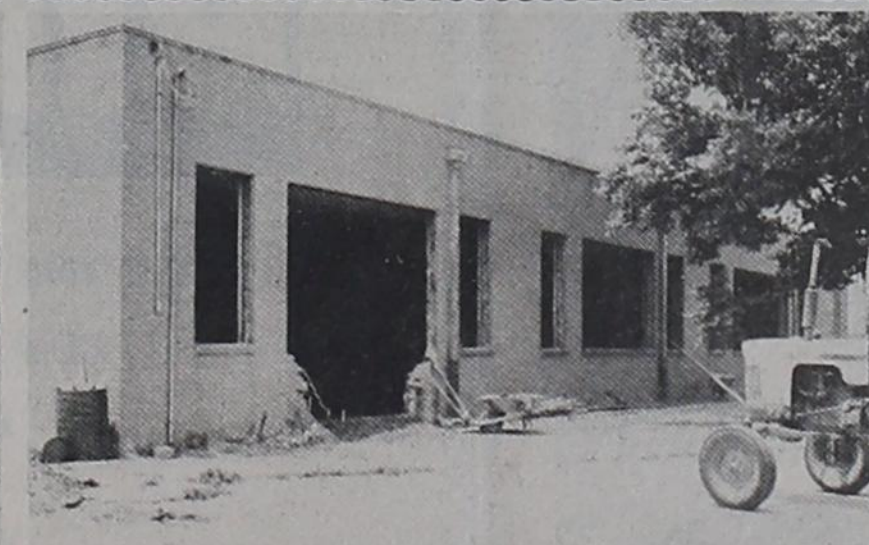

During Necrology Services conducted in memory of deceased Lions, the club accepted a living juniper plant on behalf of Mrs. John (Mamye) Dempster. The potted juniper was presented Mrs. Dempster in memory of her late husband, John, who was president-elect of the local club.

Local Lions attending were James Craig, Governor of District 40-X; Lee Hutchins, 40-X cabinet secretary; Glenn Fant, John Getz, Hal Helton and Lewis Foster.

Also attending were Mmes. Craig, Hutchins, Fant and Getz who attended various functions planned for the ladies such as a brunch Saturday morning, a salad luncheon and a style show during the afternoon.

MODIFICATIONS UNDERWAY - - The area around the school buildings on the campus of the Farwell School is taking on a new look. Construction has begun on the new band hall, left, with workmen laying foundations and moving in

supplies to be used in the actual construction. The center picture shows the old gymnasium which is now being converted into a woodworking shop to be utilized by students. Workmen have poured the foundations, right, for the new

section of bleachers to be constructed at the football field. Construction and renovations at the local school are being financed by the sale of bonds authorized by voters during a bond election conducted earlier during the 1974-75 year.

## County Commissioners Set Equalization Meet

During a meeting of the Parmer County Commissioners Court Monday, June 9, it was decided that members of the Commissioners Court will act as an Equalization Board and that they take the oath as board members.

Date of the Equalization Board Meeting was set for Monday, June 23, at which

time any complaints presented will be heard by the board.

Priority designations of certain unpaved roads within Parmer County which will fit into the federal system of pavement were discussed during the session. Glen Johnson and Rhea Bradley of the Texas State Highway Department met with the Court and

following much discussion, three roads were designated as equal priority in this situation.

Commissioners approved the delinquent tax roll as presented by Hugh Moseley, tax assessor-collector. The Court agreed that the delinquent tax roll of 64 pages for Parmer County for the years 1939-1973, inclusive, be approved as presented by Moseley. Total amount of the delinquent roll is \$10,695.38.

Commissioners agreed that the word "mileage" should be inserted to replace the word "gasoline" as used in a motion during the May 27 meeting relative to expenses to carry 4-H members to the Roundup. This mileage reimbursement

is to be paid to Jana Pronger, county extension agent, for distribution at the rate of 10 cents per mile.

Also during the session, the chairman of the Parmer County Historical Committee was authorized to appoint a Parmer County Bicentennial Committee. Radar lease agreements and the bond situation were reported on and discussed with no action taken on these matters.

A proposed resolution by Charles J. Cerf for the ratification of an oil lease of Parmer County School Lands located in Gaines County dated March 3, 1953 was discussed by those attending the session.

The operation and maintenance agreement for structural measures in Running Water Draw Watershed in Parmer County was then discussed. After reviewing a certain letter dated April 29, 1974 regarding Site No. 2 and the agreement made on November 16, 1970 between the Soil Conservation Service, the Parmer County Commissioners Court, and the Parmer County Soil and Water Conservation District, Commissioners and Herb Evans of the SWCD, proceeded to the site to inspect the dam.

Contestants may contact Franse or Graham Thursday, June 26, for site and time of their first contest.

763-5483.

Competition in the tourney will be in four classes. They are as follows: men's, 17 years of age and older; women's, 17 years of age and older; boys', 16 years of age and younger; and girls', 16 years of age and younger.

Championship trophies are to be awarded in each classification.

Entry fee for the competition has been set at \$8 per team. Brackets are to be drawn up Wednesday, June 25.

Anyone interested in competing in this tournament may enter by calling Roy Franse at 763-5466 or Steve Graham at 763-5483.

Montgomery stressed that the upcoming Scotch Foursome is for golfers and non-golfers. Persons wishing to compete do not have to be

## Texico Chamber Discusses 'A Plan For The Future'

"A plan for the future" for the city of Texico was discussed by members of the city's Chamber of Commerce during

a regular meeting conducted Monday, June 9.

According to A. D. McDonald, president, the Chamber is attempting to develop some type philosophy or an arrangement which can be utilized should Texico be faced with the problem of a great influx of persons seeking residences in the city.

"It is really looking into the future, but at some time Texico may be faced with the problem of housing persons coming here for various reasons such as an expansion of industry," explained McDonald.

Chamber members feel the city is in need of a program to handle such an emergency, both from the housing and educational aspects.

Also discussed in connection with housing was the creation of a central point where available housing can be listed. McDonald commented that Chamber members agree that finding housing in Texico would be easier if there was a place persons with available housing could list their property. Persons seeking a residence could then get information from the center on available housing.

The final item of business undertaken by the Chamber was a discussion of the organization's participation in the upcoming Border Town Days celebration.

It was reported that the Chamber will be responsible for keeping the gates during the one night of the AJRA Rodeo.

Purely Personal . . . (Continued from Page 1) been treated with medicines from livestock.

Our health also benefits from livestock by-products used in research. Crystallized albumin, taken from cattle, is the protein reference standard for protein research work. Fibrinogen and gamma globulins are also used in medical research.

Well, the list goes on naming the value of animals to humankind. What we need is a consumer's bureau that will protect us from consumer-bureaus.

It is very difficult to achieve a total loss on a patch of dryland wheat, especially if you graze it. Bill Foster managed this dubious distinction Monday afternoon.

Bill put in a patch of dryland wheat northeast of Bovina last fall. He then arranged a grazing lease that looked pretty good to him. The cattle were taken off his land about the middle of March. The cattle company promptly went bankrupt and left Bill holding the bag - empty, that is. Bill then got some nice spring showers and the patch came right on again and gave every promise of a fair dryland grain yield. Well, you guessed it - Monday night's hail took care of that. Bill says if you know anybody with 93,000 head of chickens, he has some good "graze."

A horse in Russia was once found guilty of high treason and was executed by a military firing squad.

## Tennis Tournament Scheduled In Clovis

The first annual Clovis City Tennis Tournament has been scheduled for June 27, 28 and 29. Tournament play will take place at Clovis High School, Gattis Junior High and Greene Acres Park courts.

Competition in the tourney will be in four classes. They are as follows: men's, 17 years of age and older; women's, 17 years of age and older; boys', 16 years of age and younger; and girls', 16 years of age and younger.

Championship trophies are to be awarded in each classification.

Entry fee for the competition has been set at \$8 per team. Brackets are to be drawn up Wednesday, June 25.

Anyone interested in competing in this tournament may enter by calling Roy Franse at 763-5466 or Steve Graham at 763-5483.

Montgomery stressed that the upcoming Scotch Foursome is for golfers and non-golfers. Persons wishing to compete do not have to be

members of the local country club.

"Anyone at all who wants to come out and play with us is more than welcome to do so and we urge these golfers out to enjoy the fellowship and play during our tournaments," emphasized Montgomery.

## Scotch Foursome Scheduled June 21

Farwell Country Club will be hosting play in a Scotch Foursome Tournament scheduled for Saturday, June 21, with tee-off time set for 6 p.m. CDT.

Entry fee is \$5 per person and, according to Farwell golf professional R. L. Montgomery, late entries will be accepted.

Montgomery stressed that the upcoming Scotch Foursome is for golfers and non-golfers. Persons wishing to compete do not have to be

## Cookbook Has Recipes For Two

AUSTIN—"How To Cook For Two," a cookbook for newlyweds, retirees and single people, has been published by the Texas Department of Agriculture.

The cookbook gives a variety of two-serving recipes and tips on freezing larger portions. It includes information on nutrition, shopping, cooking and cleaning up kitchen mess.

Recipes and information were compiled by Mary Ellen Dambold, nutritionist for the Texas Wheat Producers Board.

For copies write to Commissioner John C. White, Texas Department of Agriculture, P.O. Box 12847, Austin, Tex. 78711.

# CORN AFTER WHEAT The Double Crop Challenge PLANT PX 20

### The Challenge

You know the challenge of getting higher yields can only be met with an open mind and a willingness to try new practices and new hybrids.

Northrup King Superstar hybrids challenge your present hybrid - on yield and overall performance. Plant PX20 after wheat. Compare. We think your NK corn will do better. Fair enough?

Corn profits hinge on productive seed! Northrup King has devoted almost a century to the science of unlocking seed productivity. The result is corn hybrids that can meet every challenge... with yields so high they topped the nation for three straight years.

Early maturing single cross

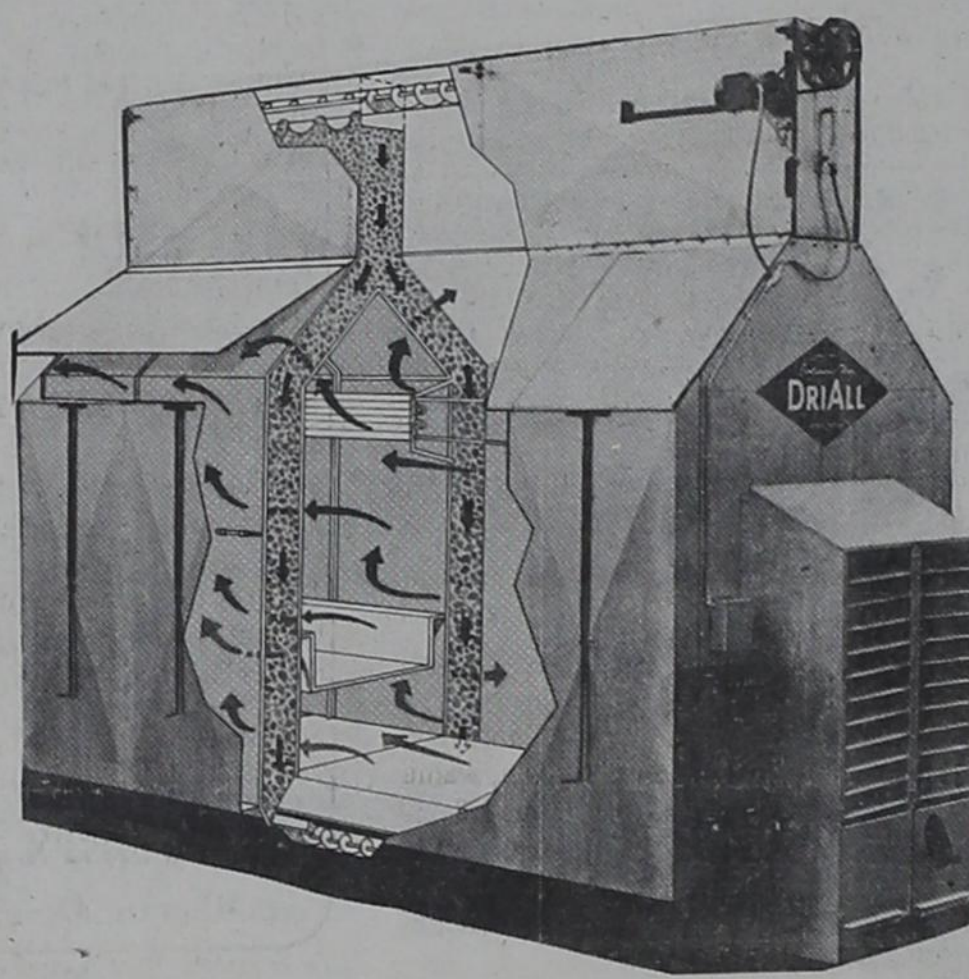

PX 20 is an early hybrid that often outyields later hybrids. Good seedling vigor. Plants are medium tall, leafy. Excellent stalk and root system. Dries down fast. Slim, hard cobs with deep-kerneled ears mean clean, fast, big harvests. High test weights. Frequent yield champion. Order PX 20.

Plant all you can get!

See Your Northrup King Dealer Or Call 806/746-5566

## WE ARE DEALERS FOR DriAll DRYERS!

The large plenum chamber combined with high airflow per bushel and correct fuel combustion insures even heat distribution and evenly dried grain throughout the dryer. Even distribution plus even heat plus even unloading equals uniform drying at highest capacity and at lowest cost.

**AUTOMATIC FEED**  
All units are equipped for automatic loading. The bin switches let the dryer fill automatically from truck, wagon or wet storage.

**DISTRIBUTING SYSTEM**  
Uniform drying is assured by this adjustable system which distributes the grain evenly over the full length of the dryer and keeps "fines" from piling up at the inlet end, that cause uneven drying.

**SIMPLE CONTROLS**  
Easy-to-read temperature limit, flame-out, loss of airflow and thermostat temperature controls provide quick, effortless control.

**FRONT ENCLOSURE**  
Reduces the noise level and provides operator safety, as well as reduces recirculation of the air to increase dryer efficiency.

**AIRFOIL FAN**  
Specially designed fan delivers correct airflow for uniform, high speed drying. Blades can be factory set for various power sources.

**INDUSTRIAL BURNER**  
Heavy-duty burner especially designed for each model provides proper combustion and heat distribution. Optional deaeration unit can be added at any time.

**MOISTURE CONTROL AID**  
Because of reduced recirculation, proper airflow and even heat distribution, a DriAll unit needs only one moisture control sensor. This control helps keep grain dried to a set moisture level and takes the worry out of drying.

**GRAIN FLOW**  
Straight 12-inch grain columns expose an equal amount of grain on each side to proper heat and airflow to give high quality, uniform drying. Grain moves slowly down the columns and passes into the cooling section where it completes drying the grain and equalizes. Grain leaving the cooling section is cooled to near outside air temperatures.

**INSULATED DECK**  
The deck that separates the chambers is insulated for more efficient heating and cooling.

**SAFE VAPORIZER**  
In DriAll models using LP Gas, low temperature vaporizers are safely located in the plenum chamber away from flame, as contrasted to short tube systems that are located directly in the flame that can be potential fire hazards.

**TOTALLY ENCLOSED**  
Weather shields and front enclosure reduce recirculation, increase drying capacity, and abate air pollution. The roof saves you valuable down time in case of rain or snow.

**POWER OPTION**  
Either power-take-off (PTO) or Electric Drive may be selected for any DriAll model.

**PAST GOVERNOR** - James Craig, left, a member of the local Lions Club holds a certificate of membership in the "Dime A Dozen" club awarded to past district governors of Lionism in New Mexico. Also receiving the certificate were Orville Oldham of Silver City, center, Past Governor of 40-M, and Ted Myers of Albuquerque, Past Governor of 40-N. Craig is Past Governor of District 40-X. Presentation of the certificates was made during the Lions State Convention held last weekend in Gallup, N.M.

**Farwell School - -**

**Trustees Hire Coach, Accept Resignations**

Trustees of the Farwell School Board met in regular session Monday, June 9, during which they hired an assistant coach and accepted the resignations of three faculty members.

The Board approved the application of James A. Yakubousky who was employed as an assistant coach.

Accepted by the Board were the resignations of Don Weems, elementary teacher; Kathy Weems, kindergarten instructor; and Vernon Scott, elementary principal and coach.

The Weemes resigned their teaching posts to accept positions with the teaching staff at Ruidoso. Scott has accepted the post of high school principal for the Vega Independent School District.

Approval was given for members of the Jaycees to take four lights from the old football field and mount them on steel pole at the tennis courts. The Jaycees will also erect side fencing for the courts and will be responsible for the electric meter with the

school being given priority for use of the courts near tennis season. During this period of priority the school will pay the cost of electricity.

Athletic Director Eugene Jennings presented a proposed budget for the 1975-76 year. This matter was tabled until the July meeting of the Board. At that time a comparative cost analysis will be made concerning sports and physical education.

A report was heard on the student handbook and final action on the matter was also tabled until the July meeting.

Committee members presented a report on their investigation of putting a concrete floor in the woodshop. It was stated that the contract with the construction company remains unchanged with minor trade out arrangements being made on work done by James Craig. Craig will make arrangements for laying the floor with the cost not to exceed \$2,500.

Trustees voted to place the student accident insurance program with Heritage Insur-

ance Managers of San Antonio. Board members also approved an agreement for services with the PESO Education Service Center in Amarillo.

A special meeting of the School Board was called for June 23 at which time the post of elementary principal and other positions are to be filled.

Present for the June 9 meeting were Trustees Gilbert Kaltwasser, R. J. Garner, Joe Hughes, Ted Magness, Charles Aycock, Billy Mayfield and Wilbert Kalbas. Also attending were Superintendent W. M. Roberts, Superintendent-elect James Perkins, Principal Jack Williams and Athletic Director Eugene Jennings. Guests present for the session were Robert White and Doyle Johnson.

Everyone should be careful about prolonged exposure to the sun, warns the American Cancer Society. Skin cancer is an extra hazard to persons with fair complexions.

**Bible School Slated At Methodist Church**

The beginning of Vacation Bible School classes at Hamlin Memorial United Methodist Church in Farwell has been slated for 9 a. m. Monday, June 16. Classes are to be conducted daily until 11:30 with the final class set for Friday, June 20.

According to superintendent Barbara Horner, children ages three years through the sixth grade are invited to attend classes.

Dot Christian will serve as secretary for the school with Nina Glasscock and Faye Parr in charge of the nursery 1 and 2 class. Kindergarten children will be supervised by Margaret Aycock and Diane Actkinson and elementary 1 and 2 classes will be instructed by Judy Jones and Lillie Christian.

Students in elementary 3 and 4 will be attending classes

taught by Gloria Hutchins and Velma Magness while Gertrude Foster and Loucile Foster conduct classes for elementary 5 and 6 students. Peggy Snider and Virginia Perry will be instructing the crafts program for the school.

Commencement for the 1975 Bible School will be held Sunday, June 22. At this time a program is to be presented and certificates distributed. Parents, friends and children will be able to view the classrooms and the work done during the school. A covered dish supper will conclude the closing ceremony.

Virginia Perry will be in charge of refreshments for the school. Anyone wishing to assist with refreshments is urged to contact Mrs. Perry at 481-3604 or the church secretary at 481-3689.

**Vacation Bible School Begins Sunday At Lariat**

Vacation Bible School activities at St. John's Lutheran Church at Lariat are scheduled to get underway Sunday, June 15, with classes scheduled to continue through Friday, June 20. Classes will be conducted from 3 to 6 p. m. CDT daily.

Serving as teachers for the classes will be Ruth Ramm, pre-nursery; Mrs. Clarence Kube, nursery; Alta Ramm, kindergarten; Mrs. Herman

Schelter, primary; Mrs. Adolph Haseloff, juniors; Mrs. Hubert Gohlke, pre-teen; and Mrs. Wilbert Kalbas, junior high.

Helpers for the classes will be April Holfield, Janet Taber, Vicki Haseloff, Sonia Kube, Cheryl Gohlke and Linda Gohlke.

Vacation Bible School attendants will be participating in closing ceremonies slated for Sunday, June 22.

**Marriage Licenses Issued**

During the past week four marriage licenses were issued by the Parmer County Clerk's office.

Licenses were issued to Jessie Rando and Patricia Gayle Crump; Dennis Wayne Anthony and Dian Lynn Day; Joe Trevino and Rosalinda Martinez; and William Everett Jones, Jr. and Ruby Lee Harris.

**Trumi Christian Graduates At McMurry**

Trumi Christian, daughter of Mr. and Mrs. Donald Christian of Farwell, graduated cum laude from McMurry College in Abilene during commencement exercises conducted recently.

She received a B. S. degree

in elementary education and was named to the Spring Dean's List at the institute.

Trumi is a 1971 graduate of Farwell High School.

People believe that finding a knife will bring bad luck.

**agri-facts**

By John Ricci

**Sorghum planted in a field of plastic?** That's one of the possibilities being studied by research groups now taking a hard look at a variety of water conservation programs. Experiments have actually been done in the Oklahoma Panhandle whereby plots were covered by large plastic sheets... holes cut in the plastic for the plants and irrigation water supplied under the plastic. Results... less than half the normal water required. Costs... terrible. So the search goes on with new attention focused on special breeding for water retention and improved plant utilization. Tests at Oklahoma State University reportedly indicated that as much as 2 inches of water a year can be saved by planting sorghum in rows running north and south rather than east to west. Direction of rows, spacing of furrows and development of new breeds are all subjects the sorghum producer will be hearing a lot more about... especially if the weather forecasters are right.

**SPORTS SPOTLIGHT JOYS OF BICYCLING**

Now's the time to take to the open road. Over 100 million cyclists did it last year! Pedal for pleasure, good health or mobility. Cycling is one form of transportation not affected by the energy shortage. Just keep on pumping—those leg muscles that is! Here are some records to strive for:

Can you top the **GREATEST DISTANCE** traveled in 24 HOURS? Englishman Roy Cromock went 507 miles.

Age is no factor. In 1973, Becky Gorton—11 1/2 years old—rode to Boston from Olympia, Wa. in 6 1/2 weeks! She's the **YOUNGEST TO CYCLE COAST TO COAST**.

Before you set out to break any records or while you're on the road, have **Biker's Broth**. (It's easy to carry in a vacuum bottle.)

**BIKER'S BROTH**

Mix 1 can (10 1/2 ounces) Campbell's Beef Broth, 1/2 soup can apple juice, and dash cinnamon. Pour over ice cubes; or heat and serve hot. Makes about 2 cups.

**Your Moving Money's Worth**

by Elaine DeShong U-Haul Consumer Relations

Is road service available to do-it-yourself movers in the event of a flat tire or mechanical breakdown?

Yes, and in the case of U-Haul equipment the road service is absolutely free and is assured by U-Haul's 16,000 dealers and all Good Year and Ford dealers throughout the country.

Details of what to do in case of a flat tire or mechanical breakdown are listed in a User's Guide that is given to every truck or trailer user. Briefly, all tire repairs or replacement are taken care of, free of charge, by Good Year tire dealers. Truck mechanical problems are taken care of, free of charge, by Ford dealers. U-Haul dealers and area fieldmen respond to any accident or breakdown, free of charge. And, if you are unable to reach U-Haul, Good Year or Ford, then any repairs performed by an independent garage are reimbursed by U-Haul.

In the event of an accident, all U-Haul trucks and trailers have a decal listing an emergency "Hot-line" telephone number that is manned 24 hours a day, every day of the year. The U-Haul customer can call that number anytime and obtain necessary assistance.

If you have a question about household moving, write to: Elaine DeShong, Dept. SMS, P.O. Box 21503, Phoenix, Arizona 85036.

**TEXICO FINA**  
312 Wheeler Ph. 482-9915

**On The Farm In Palmer County**

By R. MACK HEALD  
County Agent

Warm weather and rains over a big part of Texas have combined to provide ideal conditions for the most serious livestock pest in the state—the ever-menacing screwworm.

Stockmen should be particularly alert for this flesh-eating pest at this time because infestations can build up rapidly in late spring and early summer unless all cases are reported as soon as possible.

Although not a big problem in this area, regular herd checks and the treatment of all wounds is essential to keep screwworm cases at a minimum.

Any worms found in livestock wounds should be sent to the Mission Lab, Box 969, Mission, Texas 78572. Kits for mailing the worm samples are available from the county Extension office and local livestock inspectors and veterinarians.

If the worms are confirmed as being screwworms, sterile male flies will be dropped over the area where the confirmed case originated. These sterile males mate with the female screwworm flies, and the eggs that are produced will not hatch. Since the female flies usually mate only once in their lifetime, their life cycle is ended. When enough sterile matings have occurred, eradication of the screwworm is achieved.

For the eradication program to be effective, prompt reporting of all worm cases by stockmen is important. Screwworms are found most often in the navels of newborn calves. Also, "working" wounds such as those resulting from shearing, docking, earmarking, branding and castrating are prime locations for screwworm flies to lay their eggs.

With the vacation season at hand, many Texas families are making plans to compete in various horse shows and contests.

Health recommendations for horses become more important as owners make plans to travel to these activities.

Certain requirements are necessary to obtain a valid health certificate to move these animals.

1. The Texas Animal Health Commission requires that all equines entering or originating in Texas intended for exhibition purposes must be accompanied by an official health certificate. All equines must be vaccinated for Venezuelan Equine Encephalomyelitis

(VEE). The vaccination information on the official health certificate will include: (a) date of vaccination; and (b) complete identification of the animal.

2. Certain of the larger Texas shows, and others outside of Texas, are now requiring a negative Agar Gel Immuno Diffusion Test (AGID) for Equine Infectious Anemia (EIA) prior to entry in the show. Prospective exhibitors should check with show authorities about specific health requirements.

Individuals who plan to ship horses out of Texas will find that many states now require proof of a negative AGID-EIA test by a federally-approved laboratory. This test can be done by the Texas Veterinary Medical Diagnostic Laboratory at College Station. However, blood samples should be submitted for test 10-14 days prior to the time of the health certificate is required.

3. In addition to the state requirements of vaccination against VEE, veterinarians at Texas A&M University's Veterinary College recommend that all equines have up-to-date vaccinations against the following diseases: tetanus, Eastern and Western Equine Encephalomyelitis and rhinopneumonitis.

Local large animal veterinarians can provide information on any additional health recommendations for the protection of equines prior to transportation or shipment.

**Thoughts**

From The Living Bible

In the Temple area he saw merchants selling cattle, sheep, and doves for sacrifices, and money changers. Jesus made a whip from some ropes and chased them all out, and drove out the sheep and oxen, scattering the money changers' coins over the floor and turning over their tables! Then, going over to the men selling doves, he told them, "Get these things out of here. Don't turn my Father's House into a market!" Then his disciples remembered this prophecy from the Scriptures: "Concern for God's House will be my undoing." John 2:14-17 Religious Heritage of America

**Farwell Church Hosts Methodist Home Visitors**

Hamlin Memorial United Methodist Church in Farwell was host during the weekend of June 7 and 8 to nine children from Methodist Home located at Waco, Tex., and Dub King, publicity director for the Home.

Methodist Home is a home for boys and girls which is owned by the Annual Conferences of Texas and New Mexico.

Children from the Home visiting Texico and Farwell were Jan LeBlanc, Tanya Miller, James Hines, Ben Johnson, Andy McDonald, Margaret Pervical, Lisa Jacobs, Janine Cloer and Sherry Gibson.

After spending the night in homes of several members of the congregation of Hamlin

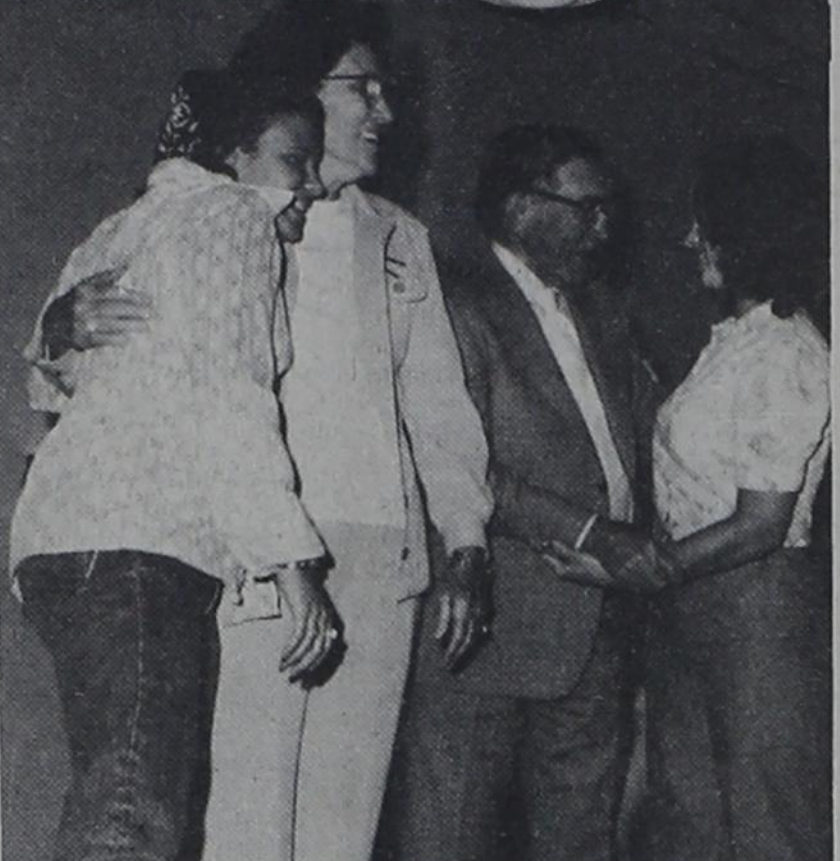

Memorial Church, King and the children left to spend a week at Sacramento Methodist Assembly near Cloudford, N.M. A large group of the membership of the church sponsored the children in attending the church related camp.

On Sunday evening, June 8, a dinner was held in the Fellowship Hall of the local church to welcome the group from Waco. Following the dinner, King was introduced and spoke of the Home. He then introduced each of the children visiting the area.

Rev. W. T. Perry, pastor of the church, and H. Y. Overstreet of the congregation are both members of the Board of Commissioners of Methodist Home.

**VISITORS IN TEXICO, FARWELL** - During the weekend of June 7 and 8, the congregation of Hamlin Memorial United Methodist Church of Farwell hosted nine children of the Methodist Home located in Waco, Tex., and Dub King, publicity director of the home. Pictured are the boys and girls of the Home who visited in the homes of Mrs. Loucile Foster, Jerry Darby and H. Y. Overstreet.

**SPECIAL FRIENDS** - Recognized as special "friends" of Methodist Home in Waco are Mrs. Loucile Foster, second from left, and H. Y. Overstreet, third from left, both of Farwell. The two were greeted by members of the Home when the group arrived in Farwell for an overnight visit with members of the congregation of Hamlin Memorial United Methodist Church.

**CITRUS COLE SLAW**  
2 oranges  
1 cabbage, shredded  
1 Tbsp. onion, minced  
1/4 tsp. salt  
1/8 tsp. pepper  
1/8 tsp. nutmeg  
1 Tbsp. sugar  
2 Tbsp. oil  
2 Tbsp. fresh orange juice  
2 Tbsp. fresh lemon juice  
1 1/2 tsp. celery seed  
1/4 cup mayonnaise

Section oranges, reserving juices for later use. Mix cabbage and onion. Combine remaining ingredients for dressing. Toss

**Lung Assn. Meet Slated**

Mrs. Cordie Vargas of Bovina will attend an area meeting of the American Lung Association of Texas Saturday, June 14, at High Plains Baptist Hospital in Amarillo.

Meeting will concern a Pan-handle-wide program for parents of asthmatic children, physicians, and other health professionals to be held this fall. Also on the agenda will be discussion of increasing Christmas Seal support of health scholarships, physician training in chest disease, and medical research.

Mrs. Vargas said that a date for the asthma program will be announced after the meeting, and that parents of asthmatic children will be invited to participate in the all-day seminar.

"Asthmatic attacks in children are both terrifying and mystifying to the parents," Mrs. Vargas said. "We hope with this seminar to help parents cope with the disease that has stricken their children."

Mrs. Vargas serves on the Lung Association board with Mrs. Pearl Cervantes and Mrs. Lucille Walling of Bovina.

**Hair Fact or Fallacy**  
Many women cling unnecessarily to old wives' tales about hair. Here are a few fallacies you should know the facts about:  
"You should brush your hair 100 strokes a night." *False.* Contrary to tradition and many years of mother's well meaning advice, excessive brushing is hard on hair, particularly if it's treated hair. Split ends can result while the only advantage is a little extra shine due to the distribution of oil to the tips of the hair strand.  
"Teasing adds body; isn't harmful to hair." *False.* Teasing and back-combing often splits the hair shaft and causes it to become tangled with other hairs. This can cause hair breakage, particularly on hair that has been chemically treated. Hair doesn't have more body - it only looks as if it does. However, a good cut, brushing, setting, even coloring and waving will give your hair body - and more naturally too! If you insist on a little teasing, have a hairdresser show you how to do it correctly. But remember, your hair today should look touchable!  
"Excessive washing is harmful." *False.* Daily washing will not damage oily or dry hair if you use the proper shampoo for your hair type and protein conditioners. Experiment, however, and find out what routine works best for you.

## Loren Wilsons Honored At Carriers Convention

Loren and Geraldine Wilson of Texico were honored during the New Mexico Rural Letter Carriers Auxiliary and Association Convention conducted May 30-June 1 at the Sacramento Methodist Assembly, Sacramento, N.M.  
Edwin Harris presented a program during the convention banquet honoring Mr. and Mrs. Wilson for their active participation in state and national RLCA offices and affairs. They were presented gifts on behalf of the association. The affair was the Wilsons' 19th consecutive state convention.  
Ernest Buenting of Clovis and Wilson of Texico served as chairman and co-chairman, respectively, for the convention. Buenting served as master of ceremonies for the joint opening session and banquet. National officers present included Mrs. Otis Reimiller, vice-president of the National RLC Auxiliary, Nebraska, and Dean King, executive committee, Kansas. Mrs. Ernest Buenting presided over the Auxiliary business meetings and served as 1973-75 state Auxiliary president.  
Friday evening, May 30, a social hour was conducted with cake and punch being served by the "Highway 60" hostesses. Hostesses were Mrs. Buenting, Mrs. Wilson and Mrs. Robert Pemberton of

Clovis.  
Area officers elected to serve the association during the 1975-76 year are Dorothy Varnell of Rogers, president; F. P. "Buster" Thomas of Grady, vice-president; Edwin Harris, of Portales, executive committee; Emzy Gaydon of Clovis, retired committeeman; and editors of the Nu-Mex, Mr. and Mrs. Loren Wilson. Wilson will continue to serve as state steward and director of the NRLCA Auto Insurance Program.  
Auxiliary officers elected during the session include Mrs. Edwin Harris of Portales, president; Mrs. F. P. Thomas of Grady, vice-president; and Mrs. Wilson of Texico, secretary-treasurer.  
Members elected the following officers to attend the National Rural Letter Carriers Association Convention in San Antonio: Dorothy Varnell, delegate-at-large, and Loren Wilson, state delegate. The Auxiliary will be represented by Mrs. Edwin Harris, delegate-at-large, and Mrs. Wilson, state delegate.  
Other area rural carriers present for the convention were Mr. and Mrs. Berchell Tillman of San Jon, Mr. and Mrs. Marvin Purcell of Floyd, J. Finis Cannon of Elida and Quenten Cannon of Broadview.

Did you know? The canning of food was developed little more than 150 years ago, by a man who set out to solve a specific problem in the spirit of modern science and technology. The french inventor, Nicolas Appert, took the challenge to win the prize of 12,000 francs (nearly a quarter of a million dollars today), offered by the French government to find a practical way to preserve food for their armies who were disabled on battlefronts all over Europe, not in combat but from slow starvation on a diet of smoked fish, salt meat and hard tack.

By 1809, after 14 years of experimenting, Appert had perfected a method to preserve food by sealing it in stoppered bottles and immersed the filled bottles in boiling water. The heat sterilized the bottle and its contents alike, keeping the food good until opened.  
Food preservation has come a long way since Appert's experiments in 1700's and 1800's. Many new techniques were developed, including pressure canning and freezing.  
For a refresher course and ideas on new techniques I hope you will join us for one of the Food Preservation workshops and Pressure Canner Clinics in Lazbuddie, Bovina, or Friona if you missed the one in Farwell, May 28.

The workshops will be in the homemaking departments of each high school from 2 to 5 p.m., Lazbuddie, June 17; Bovina, June 18; and Friona June 19.  
Freezing information will be presented by electric company home economists and canning information by this agent, Jana Pronger.

In a recent news letter from one of the canning jar manufacturers, they have given some "Home Canning Fads To Avoid" that I thought you might be interested in.  
Do not use aspirin (which contains a weak germicidal agent) as a substitute for heat treatment in canning. It is inadvisable and should not be relied upon to prevent spoilage or give satisfactory products. The hazards of using aspirin in canning are:  
-Aspirin has preservative action but is condemned because of its toxicity and is prohibited by Federal Food Laws.  
-There is no evidence on its acceptability for use in protecting against hazardous spoilage.  
-It has no effect on the enzymatic reactions which cause deterioration.  
-The lack of heat treatment will result in the absence of a vacuum seal, which will generally accelerate deterioration.  
-There is inadequate information for its use in preserving food.  
Dishwasher - No-No!  
Remember a dishwasher is for washing dishes and equipment-not processing fruits and vegetables. A dishwasher is not a safe method of processing foods because of the temperature of the water and the processing time which affects the heat penetration faster.  
Micro-Wave Oven Canning!  
We do not recommend canning in a micro-wave oven be-

cause many, many homemakers will not read directions and apply the technique to low acid foods. We noted that if ten (10) jars of acid food were processed, the internal temperature would vary in each jar. Of the five jars only one jar might be processed. In order to measure internal temperature, the lids are left off and contamination is possible before caps are adjusted.  
**Open Kettle**  
In open kettle canning, food is cooked in an ordinary kettle, then packed into hot jars and sealed without processing. For vegetables, the temperatures obtained in open kettle canning are not high enough to destroy all the spoilage organisms that may be in the food. Spoilage bacteria may get in when the food is transferred from kettle to jar.  
**Oven Canning - No - No & No Again!**  
Oven canning is dangerous. Jars may explode. The temperature of the food in jars during oven processing does not get high enough to insure destruction of spoilage bacteria in vegetables.

Mr. and Mrs. David Hall, Bobbi and Kerri were in Carlsbad, N.M., over the weekend where they visited Carlsbad Caverns, the Zoological-Botanical Gardens, President's Park and toured sections of the Guadalupe Mountains.  
**Visits In Farwell**  
Connie Crenshaw of Roswell arrived in Farwell Monday, June 2, to visit in the home of her grandparents, Rev. and Mrs. W. T. Perry. Connie plans to remain in Farwell until the end of June.  
**Friendship SS Class Has Meet**  
Seven members of the Friendship Sunday School Class of the First Baptist Church of Farwell met Monday, June 2, in the home of Ava Woodson for a regular meeting.  
Following a short business session members were served refreshments of cake, coffee and soft drinks.  
Attending the session were Dickie Magness, Pearl Gerie, Hattie Coffey, Estellene Billington, Letha Jo Roberts, Elsie Tarr and the hostess, Ava Woodson.

## Don Madisons Are Parents Of First Son

Mr. and Mrs. Don Madison of Arlington are the parents of their first son, Johnathan Wade, born Saturday, May 31, at 11 p. m. at Arlington Memorial Hospital.  
Jonathan Wade weighed eight pounds, seven ounces at birth.  
He has one sister, Jennifer Lee, two and one-half years old.  
Paternal grandmother is Mrs. Guy Madison of Lamesa. Maternal grandparents are Mr. and Mrs. Walter Kaltwasser of Farwell. Maternal great-grandmothers are Mrs. F. Grover of Chelmsford, England, and Mrs. Bertha Kaltwasser of Muleshoe.  
Mr. and Mrs. Walter Kaltwasser returned last week from visiting with the Madison family for a week.

JOHNATHAN MADISON

## Fire Calls

During the past week one call was received by the Texico Volunteer Fire Department.  
Tuesday night, June 10, the emergency vehicle was dispatched to transport a resident to the Clovis hospital.  
No calls were received by the Farwell Fire Department.

KORET OF CALIFORNIA calls the fashion shots in sportswear with cool, comfort-struck coordinates of cotton knit from Marcrest. Soft, supple knits are new NATURAL BLEND™ mix of 85% cotton/15% polyester for ultimate in comfort and machine-washable performance.

## Senior Citizens Meet, Honor A. D. McDonald

An ice cream social was conducted by the Senior Citizens Thursday, June 5, to honor one of its members, A. D. McDonald.  
The social was held to honor McDonald for his being recognized as a recipient of the "Distinguished Service Award" presented to him for being an outstanding citizen of New Mexico.  
The honoree was presented a billfold by members of the organization and a coin purse which was handcrafted by one of the members.  
He was also presented with the proclamation read by New Mexico Governor Jerry Apodaca when he was named recipient of the service award recently in Albuquerque. Making the presentation was Alma Hendrix.  
Those attending the function were served refreshments of homemade cake and homemade ice cream. A special cake, adorned with Texico's school colors of green and white, was also served.  
Prior to the serving of refreshments, an election of

officers for the organization was conducted. Elected to serve for the forthcoming year were Ebb Randol, president; Alma Hendrix, vice-president; Aileen Teel, secretary-treasurer; and board members, Mona Coburn and Clara Wiehl.  
Next meeting of the Senior Citizens will be a potluck supper Thursday, June 19. Beginning Sunday, June 22, a sing will be conducted at the Community Center the third Sunday of each month at 1:30 p.m. MDT.

officers for the organization was conducted. Elected to serve for the forthcoming year were Ebb Randol, president; Alma Hendrix, vice-president; Aileen Teel, secretary-treasurer; and board members, Mona Coburn and Clara Wiehl.  
Next meeting of the Senior Citizens will be a potluck supper Thursday, June 19. Beginning Sunday, June 22, a sing will be conducted at the Community Center the third Sunday of each month at 1:30 p.m. MDT.

Mr. and Mrs. Bob Anderson of Farwell and their children, Meredith and Caroline of Lubbock and Will, a student at Texas A&M University who is home for the summer, returned Sunday, June 1, from a five-day visit in Santa Fe, N. M.  
While in Santa Fe, the Andersons visited various art galleries in the area and did some general sightseeing.

**PLAN JULY WEDDING** - Mr. and Mrs. Harold Trimble of Rt. 1, Texico, announce the engagement and approaching marriage of their daughter, Ginger Gail, to Joel Glenn Russell, son of Mr. and Mrs. Glenn Russell of 30 Pineway in Clovis. The couple is to be married at 7:30 p.m. MDT Friday, July 25, at the Pleasant Hill Baptist Church. The bride-elect is a 1975 graduate of Clovis High School. The prospective bridegroom is also a Clovis High graduate. All friends and relatives of the couple are invited to attend.

## Installation Scheduled At Pentecostal Church

Services have been scheduled for Friday, June 20, at the United Pentecostal Church in Texico for the installation of Rev. Jim Swank as pastor of the church.  
Installation will begin at 7:30 p.m. CDT with Rev. Chapman, District Superintendent of the Texico District, serving as speaker for the services. A choir from Lubbock will also be participating in the ceremonies.  
Rev. Swank assumed his duties as pastor in Texico on Sunday, May 11. He and his family are residing in the church parsonage in Texico. Everyone is invited to attend the installation.

**TWO MINUTES WITH THE BIBLE**

BY CORNELIUS R. STAM PRES. BEREAN BIBLE SOCIETY CHICAGO, ILLINOIS 60635

**THE CHRISTIAN HOME**

"As for me and my house, we will serve the Lord" (Josh. 24:15). There is no place in all this world so wholesome and refreshing as a Christian home, a home where Christ is truly loved and honored.

This writer was brought up in such a home. There were ten of us: dad, mother and eight children. There was lots doing all the time, but a truly happy home it was, for dad and mother never let us get so busy with temporal things that we brushed eternal values aside.

On the basis that "man shall not live by bread alone, but by every word of God" (Luke 4:4), we read some small portion of the Bible before every meal, and had family devotions before retiring at night.

Result: All eight children blessed the dear dad and mother who led

them aright, morally and spiritually, and best of all, taught them the importance of trusting in the Savior who died for all our sins. More, five of the children and many of the grandchildren gave themselves to full-time Christian service, and became pastors, Christian college deans, Christian writers and missionaries in various parts of the world.

Counting the offspring, there are now more than 100 of us and the divorces and broken homes that have brought sorrow to so many are not even known among us.

This is not because we are one whit better than others, but because we experience the help and grace of God in our lives. But it all began as, one day, a young American, like Joshua of old, came to a decision and declared: "As for me and my house, we will serve the Lord."

## Blake Haile Places At State Convention

Blake Haile, son of Mr. and Mrs. Donald Haile of Texico, was awarded fifth place honors in the New Mexico Future Farmers of America Quiz Contest conducted during the annual State FFA Convention at Las Cruces June 2-4.

Haile, who will be a sophomore at Texico High School this fall, received a plaque for his accomplishment. He represented District IV in the contest as one of the two district winners.

The winner was accompanied to the convention by fellow FFA'ers Rusty Rucker, Ted Richardson, Richard Hadley

and Robbie Bradley, Rucker, Richardson, Hadley and Bradley were Texico's voting delegates for the convention. Eddie West, FFA advisor, served as the group's sponsor.

The local group made the trip to Las Cruces in a station wagon loaned them by Mr. and Mrs. Johnny Rucker.

Two other members of the Texico FFA, Don Cherry and Ken Richardson, attended the annual electrical workshop at Canyon three days this week. The workshop is sponsored by Southwestern Public Service Company.

**STATE WINNER** -- Blake Haile, son of Mr. and Mrs. Donald Haile, represented the Texico Chapter of Future Farmers of America at the State Convention held June 2-4 at Las Cruces and returned home with a fifth place win in FFA Quiz Contest competition. Blake was awarded a plaque for his accomplishment.

From the Bible comes these enduring words about moderation: "Give me neither poverty nor riches; feed me with food convenient for me; Lest I be full, and deny thee, and say, Who is the Lord? or lest I be poor, and steal, and take the name of my God in vain."

tive training sessions. The conference delegates operate their own cooperative. This gives delegates a first-hand look at how a cooperative works and the responsibilities of the manager, director, employee, and member. There is also time for swimming, parties, and relaxation throughout the week. Each conference delegate has an important job at CO-OP Youth Conference activities.

The conferences are sponsored each year by Farmland Industries of Kansas City, Mo. Farmland Industries is a regional cooperative manufacturing and distributing petroleum, feed, fertilizer, and farm supplies. Farmland is owned by 2,000 local cooperatives. The local cooperatives sponsor most of the conference delegates.

On Sunday  
June 15

## Honor Students Named At Farwell High School

A total of 39 Farwell High School juniors, sophomores and freshmen received recognition as honor students when they were named to the honor roll for the final nine weeks of study by Principal Jack Williams.

Of the 39 students, 36 were named to the second semester

honor and 33 students were awarded scholastic medals.

To be named to the nine weeks honor roll students must maintain a grade average of 89.5 or better for the period. Students named to the second semester honor roll were credited with maintaining the average throughout the

entire second semester of studies.

Students who received grade averages of 89.5 or better for the entire 1974-75 school year were awarded scholastic medals for their achievement.

According to Williams, a student may hold the proper average to be named to the honor roll for a nine weeks period but fall below the average during another nine weeks and not be named to the semester honor roll. Also students may be named to the semester honor roll for one semester but fail to maintain the 89.5 average for the other semester of studies and not be listed as a scholastic medal recipient.

Juniors named to the fourth nine weeks honor roll, the semester roll and named recipients of scholastic medals were Terri Boling, Dean Cooper, Estelle Embry, Pam Erwin, Cheryl Gohlke, David Harding, Bruce Kaltwasser, Jacquelyn Langford, Gay London, Kim Magness, Mike McCully, Charla Norton, Lori Norton, David Snider, Kathy White, Lee Ann Williams and Sheryl Woods.

One junior student was recognized as having maintained an 89.5 average or better for the nine weeks

period and for second semester studies. The student was Phyllis Mayfield.

Two juniors were named to the fourth nine weeks honor list. They were Wesley Hukill and Cindy Watts.

Six sophomore students maintained the proper average for the nine weeks period and the second semester and were awarded scholastic medals. These students were Natalie Dollar, Ron Hancock, Karen London, Sherri McCully, Terri McCully and Carol Vinton.

Also named to the nine weeks honor list was sophomore Leigh Ann Kirkland.

Ten freshmen students received scholastic medals for being named to the honor rolls. They were Mark Alana, Jamey Berry, Marla Bradshaw, Delia Dollar, Dana Ennen, Linda Gohlke, Penny Hughes, James Shults, Rhonda Walls and Peggy White.

Also named to the nine weeks and second semester honor lists were Cynthia Dale and Shawn Smith.

Names of senior students receiving scholastic recognition will be published at a later date.

## Former Farwell Resident Named General Manager

Officials of Gifford-Hill & Company, Inc., announced the appointment of Jim Terrell, formerly of Farwell, as the new general manager of the company's Lubbock Distribution Center.

Terrell was previously manager of the Lubbock Retail Districts for Gifford-Hill, according to company Vice-President Newton C. Vance, who announced Terrell's new appointment. The Lubbock Distribution Center, like two others in Brinkley, Ark., and Grand Island, Neb., is part of Gifford-Hill's Industrial and Irrigation Products Division.

In his new position, Terrell oversees Retail Irrigation

Sales, Dealer Irrigation Sales and Industrial Sales in a multi-state area. He is also responsible for the production of aluminum and PVC pipe.

Terrell joined Gifford-Hill in 1955 as Sales Engineer in Farwell. He also served in Plainview, Tex., Garden City, Kan. and Dumas, Tex., before coming to Lubbock in 1969. A graduate of Texas A&M with a degree in Agricultural Engineering, Terrell is a native of Dangerfield, Tex.

JIM TERRELL

## Lee Ann Williams Will Enter Finals

Lee Ann Williams, daughter of Mr. and Mrs. Bert Williams of Farwell, has qualified to enter competition at the Tri-State High School Rodeo Association Finals Rodeo to take place at Dumas June 12, 13 and 14.

To qualify for participation in the finals, rodeers must hold a position within the top 15 competitors in TSHSRA rodeos. Lee Ann is currently seated first in pole bending with a total of 78 points and holds the 11th position in barrel racing with 20 points.

In pole bending the local rodeer has won six first places, five second places, three thirds, one fourth and one fifth place. She leads the event over Candy Thorenson of Gruver who has accumulated a total of 70 points.

In barrel racing Lee Ann has won one first, one second, one third, one fourth and one fifth place.

During the finals at Dumas each contestant will have two go-rounds in each event. The average of the two goes will be taken and points for places won will be doubled. The points will then be added to the contestants' accumulative points. Winners in each event are to receive a trophy saddle.

Lee Ann was also to be a contender for the title of TSHSRA Queen for 1975. The contest was to be conducted Thursday afternoon, June 12, with announcement of the queen being made Thursday night.

The finals contestant has been a member of the Farwell Branch of the Tri-State High School Rodeo Association since its organization two years ago. She began her rodeo career at the age of 11 when she first entered competition at the American Junior Rodeo Association rodeo held in conjunction with Border Town Days in Farwell.

Next rodeo for Miss Williams will be the State Championship High School Rodeo at Hallettsville. Winners at the championship rodeo will qualify for the National High School Finals Rodeo to be conducted at Gallup later this year.

**THAT'S OUR POP** - - Father's Day is Sunday, June 15, and fathers throughout the country will be honored by their families. Buddy Pearce of Texico, center front, was honored with a pre-Father's Day outing recently when all his children came home for a visit. Giving their dad the "VIP treatment" during the outing were, front row, Kim, left, and Jo, right, both students at Wayland Baptist College in Plainview; back row: Roddy of Texico, left, and Danny of Abilene.

### Pool Featured At Show

The Pic Frame Gallery in Alamogordo, N. M., is currently hosting its first art show and is featuring the work of Sam Pool, son of Mr. and Mrs. L. S. Pool of Farwell, and several works of Al Potter.

The show began Sunday, June 8, and was scheduled to continue through today (Friday), June 13.

In describing Pool's art work, gallery officials declared, "The work of Pool reflects his interest in the built environment. With an emphasis on the vernacular, he enjoys painting the backyards and byways of the area."

"A graduate of Texas Tech University, he taught in the Architectural Technology program at Southern Illinois University where his interest in watercolor began. Pic Frame is pleased to present as its initial show the first public showing of his watercolors."

Included in the showing were 45 paintings which were offered for sale with others displayed for viewing only.

Mr. and Mrs. Pool traveled to Alamogordo for the first showing Sunday, June 8. They were accompanied by Pool's sister and her husband, Dr. and Mrs. Floyd Golden of Amarillo.

**TSHSRA FINALS ENTRANT** - - Lee Ann Williams of Farwell, daughter of Mr. and Mrs. Bert Williams, has qualified to participate in the 1975 Tri-State High School Finals Rodeo to be conducted June 12, 13 and 14 at Dumas. The local rodeer will enter pole bending and barrel racing. She currently holds first place in TSHSRA pole bend competition with 78 points and is seated 11th in barrel racing with 20 points. During the rodeo, Lee Ann was also set to enter competition for the crown of 1975 TSHSRA Queen. The contest was to be conducted Thursday afternoon, June 12, with the winner being named Thursday evening. Lee Ann is shown with "Angel," the horse she uses in pole bending and barrel racing.
