FORTY-FIRST YEAR      FARWELL, TEXAS, THURSDAY, AUGUST 21, 1952      NUMBER 45

**FROM THE HOPPER**  
 By HOP

My good friend Wilbur Charles was just in and told me that I had really offended some good people with my outburst about the "damn-yankies and Republicans" last week.

I assured Wilbur and I want to assure anyone else I might have unintentionally offended, that no offense was intended on my part. I was just trying to get witty and crack a joke with no intention whatever on my part of hurting anybody. Some of the best friends I have ever had were what we of the South generally refer to as "Yankies" and I have always held a very high regard for all of them.

And with reference to the Republicans, I also want to make it clear that I hold a very high regard for all Republicans, whether they are my personal friends or not. The way things are stacking up at the present, it looks as though they are to be the salvation of our country; more power to them.

I make no denial of the fact that I have always considered myself as a Democrat, but that certainly does not mean that I regard a Republican as a dirty so-and-so simply because of his party affiliations. I have voted for Republican candidates on more than one occasion, and I am not so sure but what I'll do the same thing again come Nov. 4.

So, be assured, my friends who might have been offended, that I had no such intentions. I was just trying to be witty, but it appears that I proved myself to be just a half-wit.

Pity the small town merchant who is trying to handle a small line of footwear to accommodate his limited number of customers.

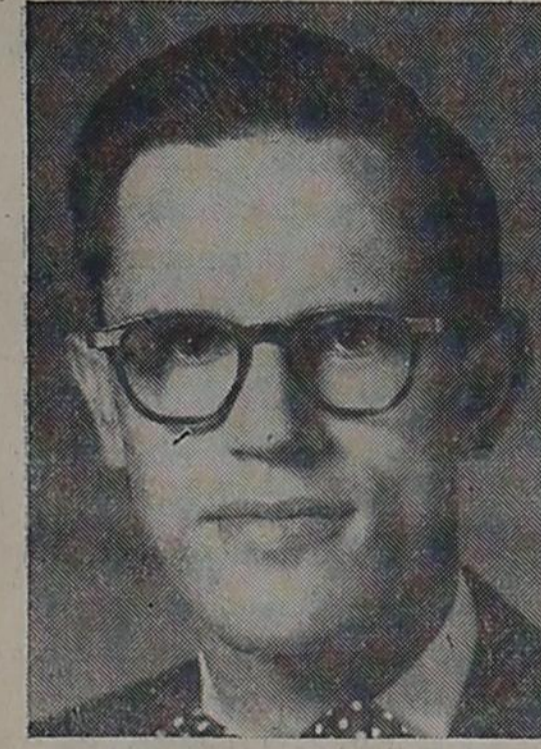

In conversation with such a merchant just last week, he told me that he was being forced to discontinue all his ladies' footwear. The reason, he explained, was that the wholesalers won't sell a merchant less than a dozen pairs of the same pattern of shoes. He said that such a stock of shoes in a small town was simply out of the question for the very simple reason that no one woman wanted to be seen on the streets of her small home town with shoes just exactly like eleven other women of her town.

This same merchant went on to say that duplicate numbers in men's footwear did not affect his sales in the least. As a general rule, the merchant said, when a man finds a shoe that suits him he will continue to buy the same pattern year in and year out.

I knew what he meant. For years I have followed the same pattern in my footwear against the protest of my wife who can't understand why I don't buy something different oc-

**Youth Revival To Begin Sunday**

Rev. J. Noble Atkins, pastor of The First Methodist Church, Grady New Mexico, will arrive Sunday afternoon to bring the messages in the youth revival of The Hamlin Memorial Methodist Church which begins at 8 p.m. August 24th. Rev. Atkins is a young man, having recently received his B. D. degree from The Perkins School of Theology of Southern Methodist University, Dallas, Texas.

The singspiration service each night will be led by Rex Pool. There will be special musical offerings at each service.

**FOR "MERITIOUS ACHIEVEMENT"**

**Distinguished Flying Cross Awarded Jones**

Reese Air Force Base.—Distinguished Flying Cross is awarded 1st Lt. Eugene Jones of Farwell for "meritorious achievement" in air battle over Korea. Lieutenant Jones, right, is standing by Capt. Kenneth Johnson of Lena, Miss. At far left, Capt. William McDaniel of Kingsport, Tenn., is receiving award from Lt. Gen. Laurence C. Craigie, Deputy Chief of Staff for Development, USAF. All the men received DFC's in graduation exercises of Cadet Class 52-E held on Saturday, August 2.

**Light Vote Forecast In Saturday Run-off**

With the exception of precinct No. 3, Farmer County voters are expected to go to the polls in light numbers Saturday to participate in the run-off Democratic primary election.

In precinct No. 3, which embraces Farwell, Oklahoma Lane and Lariat, a good turn out of voters is expected to go to the polls to decide the nominee for the office of county commissioner. Incumbent Earl Billingsley is being opposed by T. E. Levy, who formerly held the office.

Considerable interest has developed in this race and will be responsible for a good turn out at the polls.

Only two other races are to be settled at Saturday's voting.

Spurgeon Bell of Harris county and Frank P. Culver of Tarrant county, appear on the ballot for associate justice of the Supreme Court.

In the other contest, Joe Moss of Post, and Ernest O. Northcutt of Amarillo are contesting each other for the office of associate justice of the court of civil appeals, 7th district.

**VANDALISM REPORTED**

A case of vandalism was reported to the sheriff's office here the first of the week. Unknown parties destroyed three expensive road signs of C. L. Lillard located in the Friona area.

**Funeral Rites Held For Miss Burton, 85**

Funeral rites for Miss Orpha Burton, 85, were conducted at the Chas. V. Steed Memorial Chapel in Clovis Wednesday afternoon, with interment in the Farwell cemetery under the direction of Steed's.

Funeral services were conducted by Minister Curtis Dixon, assistant pastor of the Central Church of Christ in Clovis.

Miss Burton came to New Mexico in 1903 and settled on a homestead southwest of Texico, where she lived until recent years. During the past few years she has lived at her home in Clovis at 805 Gidding, where she died of a heart attack Sunday evening. Before coming to New Mexico, she taught school in Kansas City, and came here for her health.

She was a sister of Mrs. Minnie B. Francis, who was postmaster at Farwell some 38 years ago.

Survivors are two sisters, Mrs. Minnie B. Francis, Clovis; Mrs. R. E. Ikard, Amarillo; one brother, Chas. M. Burton, Clovis.

**Dryland Crops Hit As Heat Continues**

While irrigated fields are showing promise of abundant yields this fall, dryland crops and grassland of the region continued to suffer under the continued dry, hot weather that has gripped this section for many weeks.

Only in the southwestern corner of Farmer County, including Farwell, Oklahoma Lane and Lariat, and extending over into the West Camp section of Bailey County, and over into New Mexico in the southeastern corner of Curry County, do dry land crops look favorable at this time. "A heavy rainfall that measured from two to eight inches early last week boosted crops in this region materially.

Irrigated crops of the region are showing prospects of a bumper yield, although they continue to demand a great amount of watering under the blistering heat that has hovered around the 100 degree mark for some time. Reports from the Lazbuddy and Hub section say that irrigated crops are particular promising at this time.

**It's Back to School For Texico Students**

Summer vacation is over for students of Texico Schools Monday when students once again register for classes and begin the 1952-53 term. Agrie Jones, superintendent, reminds.

In discussing personnel for the coming years, Jones reports that the faculty and all other employees of the school have been secured and everything is ready for the Aug. 25 opening date.

Paul Frederic has been hired to replace Fern Stout as principal of the school. Stout resigned recently to oversee his Massey-Harris Farm Improvement business in Broadview. Frederic has taught mathematics and coached in the Rosedale school for the past few years, says Jones. He also will teach mathematics at Texico, and serve as girls' coach and principal.

Faculty for the years includes: Mrs. Leroy Faville, first grade; Mrs. C. B. Stockton, second; Mrs. Frank Seale, third; Mrs. Avis Patterson, fourth; Mrs. N. W. Peyton, fifth; Mrs. B. A. Rogers, sixth; Cur-

tis Miller, seventh.

Instructors for the eighth grade through high school are:

Mrs. Agrie Jones, commercial; Paul Frederic, math; E. U. Scott, social science and English; John Adams, history and government; Mrs. Jimmie Allman, home economics; Carl Schmitt, agriculture; C. B. Stockton, coach and eighth grade; George Hill, music; and Supt. Jones.

The lunchroom is again under the direction of Mrs. Russell Johnson, assisted by Mrs. Leona Bailey and Mrs. Winnie Jester. Bud Peyton has the contract for the bus route; and T. H. Richie will return as custodian. Norma Schmitt is school secretary.

Students will register Monday morning, then will go home for lunch and teachers will remain at school to line up courses and have everything ready for regular classes Tuesday.

Class rooms are ready for the new year, Jones says, noting that all the rooms have been repainted and redecorated during the summer months. (Cont. on last page, this section)

**7 ORDINANCES ARE PREVIEWED FOR FARWELL**

Farwell city officials have seven city ordinances under consideration, which they propose to pass at an early date.

These are the first ordinances to be considered by the city since it was incorporated about two years ago, and are designed primarily as safeguards to health, safety and general public benefit.

Before passing any of the proposed ordinances, however, the city commission has called a meeting to be held at the office of Aldridge & Aldridge Wednesday evening, August 27, at which time city residents will be given an opportunity to discuss the measures.

Officials said today that they were anxious to have a good representation of the citizenship present to air their views on the proposed ordinances.

Briefly stated, the seven proposed ordinances would:

- (1) Regulate the building of sidewalks along the streets and alleys in order that all such sidewalks may be uniform;
- (2) Regulating the speed limit within the corporate limits of the city to a maximum of 30 miles per hour;
- (3) Commercial feed lots and slaughter pens would be barred from the corporate limits, and no cattle, horses, hogs or goats shall be kept within the city limits;
- (4) The sale of fireworks will not be permitted within the city, and it will be unlawful to discharge fireworks inside the city limits;
- (5) All residences and business houses must be connected to the sewer system where that service is available to such property;
- (6) Sewer service will be discontinued if the sewer charge becomes more than 10 days delinquent, and \$10 will be charged for disconnecting the sewer, and an additional \$10 for re-connecting;
- (7) All the area north of Avenue B within the city will be placed in a fire zone and no building shall be constructed, altered or re-roofed without first obtaining a permit from the city commission. All structures or repair must be of non-combustible materials.

**ARRESTED HERE**

T. C. Carlisle of Hereford was taken into custody in this city last Wednesday by Sheriff Chas. Lovelace, and was turned over to Bailey County authorities. It is understood that he faces a felony charge in Bailey for passing a worthless check.

**We Went To Durango; Which Way did You Go?**

It's roundup time in Durango for Farwell and Bovina residents, apparently. The popular Colorado resort was well populated by Farmer residents last week, and it was all by accident.

Mr. and Mrs. Wilfred Quickel, Farwell, and Mr. and Mrs. A. G. White of Bovina were in one party. They ran onto Mr. and Mrs. J. R. Thornton of Farwell. So the three couples had lunch together.

Then it developed that Mr. and Mrs. Walter Kaltwasser of Farwell were resting easily in the cabin next to the Quickel's. With eight Farwell-Bovina residents in town, it was like old home week in Durango, they say.

**Friona Child Loses Eye While Playing**

Darrel Jean, 5½-year-old son of Mr. and Mrs. J. K. Anthony, who live five miles north of Friona, was rushed to St. Anthony hospital in Amarillo Tuesday afternoon, following an eye injury suffered while at play at the Anthony farm home.

The child's left eyeball was so badly lacerated that it was removed shortly after arrival at the hospital.

The Anthony child and his cousin, 12-year-old George Wayne Terry, were playing in the yard when the accident happened. Darrel Jean had apparently locked his older cousin in the chicken house. Locked inside, the older boy was engaged in throwing at the small lad. One of the objects tossed at Darrel Jean struck him in the eye.

**Lazbuddy Farm Home Is Hit By Burglar**

The T. W. Bewley farm home in Lazbuddy was burglarized some time over the weekend and valuables estimated at \$500 were stolen.

Sheriff Chas. Lovelace said that the Bewley family was vacationing in Truth or Consequences, N. M., and the intrusion was not discovered until Monday morning when Mrs. Melvin Trieder, daughter of the Bewleys, discovered it.

Missing items include a stock saddle, a new portable electric sewing machine, an electric fan, table model radio, and a quantity of fresh meat from the deep-freezer.

Entrance was gained into the house by breaking the glass in the front door and then unlocking the door from the inside.

Mr. and Mrs. Paul Wurster and Tommy spent the weekend vacationing in Red River.

Prospects for paving several blocks in Texico were reported "favorable" today by Mrs. Faye Anderson, representative of the E. & E. Construction Company.

Mrs. Anderson, who has been working as solicitor for the contracting company the past several days, said in an interview today that paving of "twenty-two blocks seem certain." She was quick to add however, some weeks would be required before the actual work could be started, and she also expressed the opinion that it would be impossible to complete the job this year.

In explaining this delay, she said that even should the required number of petitioners be secured on the petitions, the necessary legal steps toward creating paving districts would require at least two months, during which time protests may be filed and bids for the work must be advertised for at least three weeks.

Taking all these necessary delays into consideration, she pointed out that cold weather this coming winter would hold up concrete work and asphalt spreading. Grading and caliche base spreading could be done during cold weather, however.

Originally thirty-two blocks of paving were under consideration, Mrs. Anderson said, "but it looks now like 22 blocks will be all we can hope for," she added. She said that "two or three" of the largest property owners in Texico were at present holding up getting the petitions signed.

Under the plan being worked in Texico, property owners are being asked to petition the Town Council to create paving district, with each block a separate district. If two thirds of the footage along any one street is represented on a petition the Town Council may create a paving district on that particular street.

Breaking down the prospective paving street by street, Mrs. Anderson said the following paving is in prospect:

Turner Ave. two blocks, beginning at Wheeler St. and running north to the Baptist church; (Cont. on last page, this section)

This drilling rig, a new addition to Watts' Machine and Pump Company, was finishing the pilot hole on a new well for Ralph Cox when the picture was taken Monday. A. T. Watts, owner, said the well probably would be put into operation Wednesday. The well is on the northwest corner of Cox's field. His farm is east of Lazbuddy.

(The tenth in a series of informative articles revealing little known facts about well known people in and around Texico-Farwell and nearby communities. Our sole purpose is to promote better acquaintances—in the hope of promoting better friendships.)

Agrie Jones, superintendent of Texico Schools, celebrated his thirtieth year in the teaching profession the past year, and he still thinks it is very rewarding work. His wife has also been a teacher for many of these years—in fact, she "taught for the first time when she was seventeen years of age," says Jones.

Jones was born in Bowie, Texas, although he doesn't remember very much about his birth site. He, with his parents, Mr. and Mrs. Lee Jones, moved to Floyd, N. M. when he was only seven months old. His father was a farmer and rancher, and was one of the first settlers in that county, back in 1903.

The Jones family remained in New Mexico until about 1910 when they went to Childress. "We went back to Texas to pick cotton," says the local superintendent, "and stayed four years." They resided in Childress during that time.

But, in 1914 the family returned to Floyd where they remained for some time. Jones received most of his high school education there, and was graduated from Portales schools.

"I then went to college twelve weeks in the summer and began teaching in my home school at Floyd the following winter as grade school principal.

With his typical sense of humor, the administrator explains that "that was back when you could go to school two or three months and get a teaching certificate."

But the local man's education was just beginning. He completed his bachelor's degree at Highlands University, and received his MA degree from West Texas State College in Canyon.

Most of the local man's college work was completed in the summers.

Discussing his teaching experience further, Jones says that he stayed in Floyd as instructor for three years, and then was principal of the small high school at Eagle Hill. From there,

he went to Fairfield (formerly located about seven miles from Texico) where he remained four years.

Teaching in Causey and Lingo for the next several years, he resigned in the middle of one term to take over the job of county superintendent of Roosevelt County.

He then went to Curry County, and was in Grady for two years before coming to Texico as superintendent in 1949. Practically all of Jones' 30 years in teaching have been spent in administrative work.

Mrs. Jones was born in Floyd, and her parents also were farmers and ranchers. She went to school in Floyd and Jones knew her there as a little red-headed girl with pigtails. Her family moved to Plainview and remained there several years.

"When she came back to Floyd, she had changed quite a lot," Jones says.

Asked what began their courtship, Jones admits that he and his cousin made a bet on who could get the first date with Mrs. Jones. "I won and she has been stuck with me ever since," he laughs.

Mrs. Jones was graduated from high school Saturday night and on Sunday morning, the young couple was married in Farwell. Mrs. Jones went to school the following summer and began her teaching career with her husband the following winter.

"The poor woman has been helping to make the living ever since," quips the superintendent.

Mrs. Jones has taught in the same school as her husband all their married life with the exception of six years when the three Jones' children

were small. Also, while her husband was county superintendent, she was employed at Eastern New Mexico University as instructor. The local woman received her BA degree from ENMU, and has been instructor there for the past eight summers. During that time, she has also taken various courses and will receive her MA degree next summer.

Mr. and Mrs. Jones have three children. Gervadine is married to Marion Hughes of Portales. Both she and her husband are teaching school in Elida. She also is a graduate of ENMU in Portales.

Monte, the only son, is now in the Navy, and at present is on a ship in Korean waters. Lona Mae, youngest child, was graduated from Texico schools and is now a junior at ENMU. "Life's always been fun for me," says Jones. "I've had lots of interesting experiences during my teaching. In discipline problems, sometimes the youngsters feel that I'm having a good time from their discomfort."

The superintendent says he cannot make an estimation on how many students he has taught in the past 30 years. He remembers a remark once made about him—that everyone in Roosevelt County had either gone to school with Jones; or gone to school to him.

Frank Jones Named Garbage Collector

The Texico town council has named Frank Jones as official garbage collector for the Town of Texico and will have charge of garbage disposal in the town under the terms of the recently-enacted garbage ordinance. For some time Jones has been serving as garbage collector in both Texico and Farwell as an independent operator. He will continue on that basis in Farwell.

"I really like it, and I wouldn't be in it if I didn't. There are better paying jobs," he says. But he emphasizes that a teacher is paid in friendship, contacts, and a chance to do something worthwhile.

"As far as cash is concerned, I'm about where I was when I started," he smiles.

Jones adds that he has taught all kinds of people—doctors, lawyers even thieves; and children from every type of home. "Most of the children who are from home where parents really take an interest in them and are behind them in church, school, and other activities, are successes in later life," is his belief.

"Anytime we get kids in school who have the right home environment, chances are that we won't have any trouble with them," he says.

Timely Talks

FROM THE TRIBUNE

This Week:

"The Weekly Newspaper's Trust"

When a high school graduate goes to college, he learns many new things. If he decides to major in journalism, he learns the biggest facts first. One of the first things he will be expected to know and understand is the purpose, or purposes, of a newspaper.

The purpose of a newspaper, as it appears in college textbooks, is blunt and to-the-point. The purpose of a newspaper is to profit the publisher. All other considerations are secondary. We may as well be honest. Business is still business, and unless the newspaper makes money, it will fail, regardless of whether it is regarded as a very good newspaper, or as a very bad one.

The two methods of sustaining a newspaper, advertising and subscriptions, have already been discussed at length. Their value and necessity have already been emphasized.

Next the college student in journalism will learn that the second most important purpose of a newspaper is to serve the public.

The first concern of the publisher is to see that his newspaper does not fail. After this, he can turn his attention to another very important phase of his profession—the public trust.

Upon the reputation of a newspaper which has been accepted by the people of a community hangs a heavy measure of faith. To justify the faith placed in it, the newspaper must constantly strive toward the high goal of reporting news fairly and impartially no matter what the circumstances.

The staff members at The Tribune never rest their hands upon the keys of a typewriter without thinking how a story should be written to make it closer to this goal. Objectivity is the tool of the newspaper reporter as he delves deep into his pile of notes for a fair and impartial story. Unless he exercises judicious taste in the selection of his material, the story can never be accurately written.

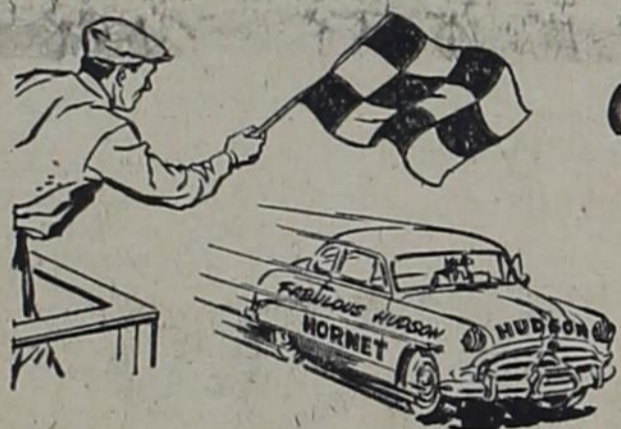

Objective is not the easy way. It often cuts like a keen knife across lines of friendship. Many toes have been trod upon by the reporter who fashions his stories in the likeness off his conception of the goal.

It is only in the editorial column or columns of a newspaper where personal sentiment can be permitted to appear. It is in such a column that the editor or editorial writer speaks his mind. The standard editorial column in The Tribune is, "From the Hopper." If you read the paper at all you are familiar with this type of newswriting.

Another example of newswriting which is considered as editorial matter is a column carried in The Tribune called "Timely Talks." It is a frank message from the editor to his readers concerning relations between the two. It is normally published every week. "From the Hopper" is a good illustration of so-called "personal" journalism. "Timely Talks" is more along the informative or fact-finding line.

Next week, "Conclusion."

Crueling Stock-Car Competition Proves

HUDSON

BEST BY FAR!

AS YOU know, it is impossible for a prospective buyer to accurately judge the relative merits of various cars through a casual examination or on the basis of claims.

Therefore, smart buyers are taking advantage of the record established in stock-car racing which affords an impartial test of the important features of competitive makes—features which largely determine owner satisfaction. In this rough, tough competition between cars just like you can buy from dealers, every make of car is compared for power, durability and safety—vital qualities in your daily driving.

With 30 victories in 34 starts already this year, Hudson proves it has these great qualities in measures no other car can match!

Hudson's rugged high-compression engines are famous for terrific power and performance. But more important, only Hudson has "step-down" design with America's lowest center of gravity. A Hudson hugs the road like it loves it and almost steers itself. Monobilt body-and-frame\* is the most durable, safest known!

Visit us and try a Hudson, or if more convenient, phone and a Hudson will come to your door.

## Miss Clara Derrick Marries Scott Gober In Bovina Ceremony

In a double-ring ceremony last Monday evening at 7:30 p.m., Clara Derrick, daughter of Mr. and Mrs. Earl Derrick of Bovina, became the bride of Leroy Scott Gober, son of Mr. and Mrs. J. T. Gober of Farwell.

Rev. Oscar Bruce, former Bovina pastor, read the service in the Methodist Church. Centering the altar was an arch covered with white gladioli and greenery. At either side were candelabra and bouquets of orchid carnations. A white satin kneeling bench completed the appointments.

Mrs. John Wilson, pianist, played the nuptial prelude.

Billy Ray Derrick, brother of the bride sang "At Dawning" and "Because." The traditional wedding marches were used for the processional and recessional. Billy Ray sang "The Lords Prayer" as a benediction.

Candle lighters were Jerald Robert Gober, son of Mr. and Mrs. Webb Gober, and Harriet Lou Charles, daughter of Mr. and Mrs. Harry J. Charles.

Attending the bride as maid-of-honor, Marie Gober wore a street length dress of orchid organza over cotton that was fashioned with a strapless bodice. Her matching hat was orchid trimmed in purple velvet.

Jimmy Ware was best man. Ushers were brothers of the groom, Webb and Lloyd Gober.

Entering on the arm of her father, who gave her in marriage, the bride was attired in a street length dress of white. The dress was styled with a peter pan collar, and a closely fitted bodice which was buttoned down the center front with rhinestones. The lace panels added flare to the six gore skirt.

The bride carried a small white Bible which was topped with a bouquet of white roses.

Mrs. Derrick, mother of the bride wore a powder blue crepe dress with navy accessories. Mrs. Gober, mother of the groom wore a grey tulle dress with black accessories. Their corsages were of white gardenias.

Following the ceremony, the bridal party was feted at a reception in the church parlor. Laid with a white damask cloth, the serving table was centered with a beautiful arrangement of orchid dahlia and white gladioli. The tiered wedding cake was served by Miss Joann Cokran, friend of the bride. Miss Peggy Keller, cousin of the bride presided at the punch bowl.

After a short wedding trip to New Mexico, the couple will be at home in Farwell.

## Gala Fall Fashion Show Slated Tonight At Farwell Auditorium

Members of Theta Rho chapter of Epsilon Sigma Alpha are planning a gala showing of fall fashions tonight (Thursday) at the Farwell high school auditorium, when Dunlap's of Clovis presents the latest in fall clothes for women and teen-agers.

The show begins at 8:30 in the evening, and will feature coats, suits, fall dresses, knit suits, sport clothes, formals, and accessories for everything.

"Wardrobes for all occasions will be shown," says Mrs. W. H. Graham Jr., president of ESA. Members of the younger set will model back-to-school fashions, and the latest fall ensembles for dress-up occasions will be on the agenda.

Rose Bishop of Dunlap's in Clovis will be moderator for the show, and Mrs. Erma Jobs, director of music at Farwell Schools, has consented to be pianist.

Young people of Texico-Farwell will present their musical talents as an added feature. Susan Levins and Barbara Caldwell will give their musical renditions and two trios will sing. In a girls' trio will be Nancy Aldridge, Kayla Felts, and Darlene Sprawls. The boys trio will include Rex Pool, Dick Felts, and Howard Jenkins.

One of the highlights of the evening will be the presentation of the door prize, a floor lamp, which was given by the Furniture Mart. Clovis Floral is in charge of flower arrangements.

Models include Kayla Felts, Darlene Sprawls, Nancy and Mary Belle Aldridge, Lavoyda Billington, Mikala Faville, Ann Whitley, Alta Sheets, Ann Lovelace, Myrtle Rose, Mrs. E. G. Williams, Wilma Limer, Nina Glasscock, Irene Dyer, Jeanean Grissom, Jo Sondra Magerus, Joan Spurlin, and Peggy Hardage.

Four surprise models will be presented during the show, with their renditions of the latest fashions.

The Sunday School attendance last Sunday was 84. Even though a large number of the church family is still away on vacation, a special effort is being made to go beyond the hundred mark next Sunday.

Several of the men of the church are planning to attend the Brotherhood Encampment at the Plains Baptist Assembly on August 25-26.

The church building has recently been repainted.

The regular monthly church conference was conducted last Wednesday evening.

Mr. and Mrs. Hodge Rigdon from Achille, Okla were welcomed into the church fellowship Sunday morning.

The WMS met at the church Wednesday afternoon for Bible Study. The current assignment is to read the book of Matthew and count the number of times "The Kingdom of Heaven" occurs.

The date of the annual church conference has been set for September 3.

Inspirational programs were presented in each department at Training Union Sunday. Forty-two were present. Eugene Verner, director, urges all members to come next Sunday evening.

The Oklahoma Lane Baptist church extends a warm welcome to all visitors.

**OKLAHOMA LANE METHODIST CHURCH NEWS**

Rev. Vernon Willard, pastor

A Revival Meeting will begin at The Oklahoma Lane Methodist Church Friday night, August 22, and will continue through Sunday August 31st. Rev. Aubrey White, pastor of The First Methodist Church at Olton, Texas will do the preaching. Bro. White preached in a revival here a few years ago with a large number being reached for Christ and the Church.

Mrs. Bobbie Foster will be in charge of the singing and Caryetta Grissom will be the pianist. The week day morning services will begin at 10:30 and the night services will begin at 8:00 o'clock. A cordial invitation is extended to every one to attend the Revival.

Rev. Vernon Willard, pastor of the Oklahoma Lane Methodist Church, will help in a Revival Meeting at Garden Valley, Texas September 1-7.

Those attending the Methodist Youth Sub-District Meeting at Muleshoe from the Oklahoma Lane Methodist Church Monday night, August 18th, were as follows: Gene Rea, Bettie Foster, Rebecca Foster, Belle Willard, David Willard, Mrs. Tom Foster.

Mr. and Mrs. Jack Pritchard of Rock Springs, Wyo., are visiting in the home of Mr. and Mrs. John Adams.

**Texico Chamber Of Commerce To Meet Tuesday Night**

The Texico Chamber of Commerce will meet at the Texico City Hall Tuesday night, August 26, announces John Getz, secretary-treasurer.

According to Getz, the session will likely be routine, although considerable discussion of possibility of paving in the city probably will be heard.

The official commented that memberships in the Chamber were progressing satisfactorily, and the total now stands at "around 30" for the civic organization.

Agrie Jones, president of the C-C, says that another discussion will be the selection of new officers for the group. "We probably will talk about the water extension line and hear final reports on the Texico youth program, too," he adds.

According to Jones, the program was concluded last week. However, workmen still are busy at the park, he says, attempting to complete the courts so the grounds will be ready for next year's activities.

**Texico FFA Boys Begin Program**

Carl Schmitt, agriculture instructor at Texico Schools, announces that the plans for FFA for the coming year are already underway. Boys plan to place a booth at the State Fair in Albuquerque.

Also, sometime in September, an FFA barbecue will be held. "We will need money to pay for the sheep we have purchased," says Schmitt.

**METHODIST CHURCH NOTES**

**FFA Boys Return Monday From Trip**

Thirteen boys and two sponsors left Farwell Friday morning for the New Mexico mountains, for an annual Farwell Future Farmers of America summer trip, lasting three days.

Tom Foster, sponsor, took a group of the boys in his pickup and Robert "Prof" Morton, agriculture teacher and FFA advisor, was the other sponsor. Further transportation was afforded by the pickup of Dick Geries.

Boys traveled to Cimarron Canyon in northern New Mexico where they camped until Monday morning. They camped out and spent most of their time mountain climbing and exploring.

Making the trip were Philip Cassidy, Billy Watts, Ronnie Dial, Don Geries, Edd Rolland, James Roberts, H. R. Billingsley, Robbie Foster, Lavon Jones, Pudge Rose, Joe Roberts, Gene Hardage, Clarence Kube, and the sponsors.

**Loyde Brewer Named To Commander Legion**

Loyde Brewer has been elected commander of the local American Legion post.

Assisting him on the executive staff are: Kirt Crume, first vice commander; Paul Wurster, second vice commander; Tom Wagner, adjutant; Bob Anderson, finance officer; E. G. Williams, sergeant-at-arms; John Getz chaplain. The new officers are to be installed the first meeting in September.

Former officers include: Joe Helton, commander; Perry Crawley, first vice commander; Gilbert Watkins, second vice commander; Joe Jones, adjutant; Anderson, finance officer; George Magness, sergeant-at-arms; and Mitz Walling, chaplain.

Woody McDermitt, former local resident, was here the first of the week from Amarillo attending business matters.

The sermon for this Sunday morning will be "The Evolution of the Gospel." The evening subject will be, "Unpossessed Possessions." You are invited to hear these two messages from the Word of God.

We will also be happy to have you attend the other announced services of the church.

**Harvest Crews Home From South Dakota**

Ed Hardage and Jack Spurlin with their six combines and crews, returned home the past week from an extensive harvesting tour that carried them to South Dakota.

Beginning the harvest season in the Wichita Falls and Crowell sections of Texas, the crews worked north through Kansas, finally ending up in South Dakota. They report a very successful harvest season, with good fields of grain over most of the area they covered.

**Well Drilling Rig Added To Equipment Of Watts' Machine**

Addition of a complete well drilling rig to the equipment of Watts' Machine & Pump Company was announced the first of the week by A. T. Watts, owner.

"This will enable us to outfit a complete well for our customers," he explains, "including the drilling, the pump, and the motor."

The rig, formerly in service at Plainview, has been completely rebuilt, and will do a first class drilling job, according to the Farwell owner.

The firm has a full six-man crew to operate the machinery, and Watts announces that they can be ready to move on location on short notice.

A well was being put down the

first of the week on the Ralph Cox farm near Lazbuddy.

**Remodeling At Gas Company Offices**

The office quarters of the Southern Union Gas Company, located in this city, are being remodeled this week and when completed will be ultra-modern.

The ceiling is being lowered and refinished with Celotex, walls are being repainted, fresh paint will be spread on the floors and new floor covering added.

Tom Wagner, local manager, said he will be very proud of his new quarters when completed. In the meantime, business transactions have been relegated to the rear of the building, ordinarily used for storage space.

**HAVE MINOR COLLISION**

Mr. and Mrs. Alfred Hapke of Texico visited in the home of Mrs. John Gross Sunday afternoon in Muleshoe. As they were returning home Sunday night, a Plainview man driving a 49-model Pontiac sideswiped the Hapke car. No one was reported injured, but considerable damage was done to the Texico automobile.

**ATTEND OPENING**

Mr. and Mrs. G. D. Anderson of this city, were in Amarillo Monday evening attending the formal opening of the new quarters of the Amarillo National Bank.

They were provided with complimentary tickets to the big pro football game between the Detroit Lions and Chicago Cardinals that evening.

**IRRIGATION FARMERS, WHERE IS YOUR WATER GOING?**

If someone told you that you are losing about one-third of the costly water you are pumping out of the ground for your crops, would you say he is crazy?

We really wouldn't blame you, but why don't you take time to read the article printed here?

Then, whether you believe it or not, come in and talk with us. Let us tell you about some of the other advantages of concrete pipe for irrigation that also will surprise you.

Here Are Some of Them:

Grow crops on ALL your land. No broken ditches. No evaporation. Run water uphill, downhill, at controlled speeds. No weeds around ditches. No bogs to cross in your car. Greater convenience and safety.

**FERGUSON PIPE CO.**

**CONCRETE PIPES SAID TO SAVE 30 TO 40% WATER**

LUBBOCK, July 15—Can you imagine losing 30 to 50 per cent of every class of water you try to drink?

Of course, the example is far-fetched, but the figures are right for water loss in open-ditch irrigation, according to Dr. Arthur Young, head of the department of agriculture engineering and agronomy at Texas Tech.

Tech has eliminated water loss in a 200-acre, livestock pasture irrigation venture installed in April. Dr. Young said its all done with underground concrete pipes and risers, spaced at desired intervals. Surface caps allow the water to be used or shut off as needed.

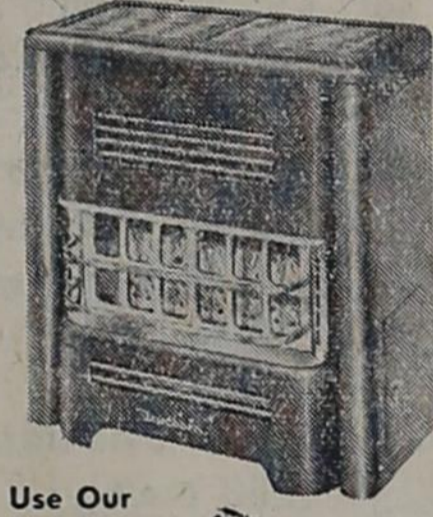

Dr. Young estimates the cost of installing such a system from \$1 to \$1.10 a foot, depending on the number of risers. Water savings from evaporation and seepage offset the cost of installation, he said. In addition, there are no longer the open ditch problems of how to get water uphill and keeping weeds from growing around the ditch.

Dr. Young pointed out that seepage loss in the open ditch will always be the same regardless of the amount of water used in any situation. From this, he explains, the farmer with a low-flowing well should be particularly benefitted by an underground system.

Proper joint fittings and the use of rubber seals, both to stop underground seepage will increase water use efficiency, he said.

These and other problems have been worked out, and Tech's livestock pasture irrigation system stands as an example of efficient underground watering.

...when you use a **JOHN DEERE TWO-ROW COTTON HARVESTER**

You'll cut cotton harvesting costs to a fraction of what they used to be... boost profits 'way up by mechanizing your cotton harvest with a John Deere Two-Row Cotton Harvester.

Many John Deere owners report savings of more than \$30 per bale over hand-pulling costs. What's more, you finish harvesting in far less time... do cleaner work.

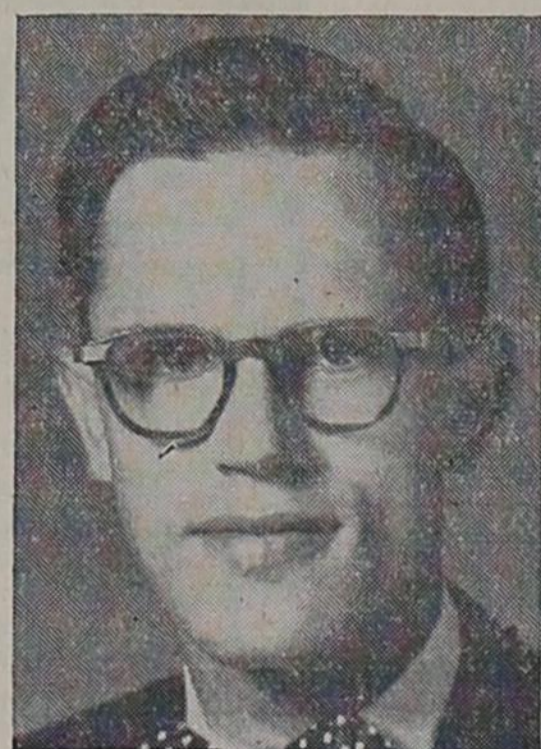

The John Deere does an excellent job in any cotton suitable for mechanical harvesting. Stripping two 40-inch rows at a time after defoliation or frost, it saves more cotton than the average hand-puller. And, there's no sacrifice in quality, for cotton stripped by the John Deere grades as high as that hand-pulled at the same time. See us soon.

### Farwell Registration Will Begin Friday

Juniors and seniors of Farwell Schools will register Friday, Aug. 29, reporting at 1 o'clock in the afternoon in the school library, Jack Williams, superintendent of schools, says.

Freshmen and sophomores will be enrolled Saturday, Aug. 30, and also will report at 1 p.m. in the library. Buses will not run on high school enrollment days.

School is then scheduled to begin Monday, Sept. 1, when buses will run at the regular times. School will be held all day, and grade youngsters will enroll and have their classes.

A general faculty meeting will be held Thursday morning, Aug. 28, at 10 o'clock in the high school library. Another meeting will be held that afternoon for the school bus drivers at 2 o'clock in the bus maintenance buildings. Buses will be checked to the men at that time. All designated bus drivers are to have chauffeur's licenses prior to Aug. 28, says the administrator.

Williams also reminds students that any pupils who plan to use cars, motorcycles, or motor scooters as transportation to school, in both rural and urban areas, are to check at the superintendent's office, accompanied by their parents, by Sept. 1.

In regard to school lunches, the superintendent says that due to the high cost of food, a reduction in subsistence from the state, and a clouded commodity picture for the year, the school cafeteria meal cost per student has been raised from 25c to 30c per meal.

In a last reminder, Williams says that all students, both high school and grade, must have clear book cards or pay for all books checked out on enrollment day.

#### TO ELECT FRIDAY

County committeemen for the Farmer PMA will be elected Friday, Joe Camp, PMA secretary, reveals. Nine committeemen will be replaced by 27 men. The county has been divided into nine communities instead of the former three.

#### RECORD BROKEN

A new world's record for fast oil-well drilling was set by a drill crew in South Louisiana recently, when 2,575 feet of hole were made in a regular eight hour tour, or an average depth of 322 feet an hour. Oil industry research in drilling techniques is responsible for such reductions in drilling time. The results are savings in production costs, which are passed on to the consumer in the form of reasonable prices for oil products.

#### PORTER IMPROVING

John Porter, Farwell businessman who underwent surgery in Amarillo recently, has been able to spend part of his time at his place of business since the latter part of last week.

with the exception of one. Blackboards have been refinished, bulletin boards installed, and all the rooms have been thoroughly cleaned. Pastel shades have been used for the walls, according to the light or darkness of an individual room.

The home economics department has new steel cabinets with a double sink, four new Roper ranges, a new Servel refrigerator. It also has been refinished. The school rest rooms have been completely overhauled and adequate cesspool units have been furnished, Jones emphasizes.

Bids for the new band hall for the school will open on Monday, he says. More information will be released at a later date.

Senior rings already have arrived, and if students will bring the money the first day of school, the rings will be issued, it was announced.

Another new addition to the school is a museum case which has been located in the forefront of the stage of the auditorium. The glass-enclosed case houses objects of interest which once were displayed in the Curry County courthouse.

Upon Jones' request, the county commissioners gave the collection to the school. In the display are dinosaur bones, pictures of Texico in the early days, arrow heads, and other relics.

### Farwell Street Work Delayed for Materials

Failure to get materials, especially No. 3 gravel, is holding up the completion of the street paving program in Farwell, a spokesman for the contracting company stated early this week.

All of Second Street and most of Third Street would have been completed this week but for the failure of materials to be delivered as per schedule, it was stated.

Meanwhile, grade and re-filling work is progressing at a satisfactory rate. Edward Martin, contractor, said that much of the grade work would be ready for the priming coat of oil this week.

In addition to the street work, a double tennis court is being put in at the Farwell school, and the playground of the newly created Texico park is to be paved, with much of the work on these projects already completed.

Also a parking lot completely around the Piggly Wiggly store is to be paved by the contractor. Another half block of street paving east of the Joe Blair residence in Farwell is in prospect, Martin said.

### Rev. Fields Reports Successful Revival

Rev. C. M. Fields reports that the youth revival held at the Texico-Farwell Baptist church over the past weekend was actually an all-church revival. He reported two members who were converted for baptism; one surrendered for missions; and a good group of rededications were noted.

"The church was wonderfully blessed," states the pastor. He added that church members expressed their desire to have the boys associated with the revival back at a future date.

Jackie Taylor of Allison preached the revival which began Friday and continued over the weekend through Sunday. Taylor is a student at Hardin-Simmons university.

Garwood Ave. 5 blocks from Wheeler to the B. O. Faville property;

Anderson Ave. 6 block from Wheeler to the Agrie Jones residence.

Griffin Ave. one block just east of the school property.

East-west paving is also favorable on the following streets:

Beginning at the Methodist church, one block east;

Beginning at the Baptist church, two blocks west;

Beginning at the Faville property, and one block west along the south side of the school property.

Should sufficient property be represented on the petitions, the Town Council will then be asked to create paving district along the affected blocks and issue paving certificates against the property involved. Property owners will be given a period of ten years to retire the paving certificates.

### Portable Light Plant Lifted From Trailer

The Southwestern Public Service Company has reported to the sheriff's office at Farwell the loss of a small, portable electric light plant from a trailer just northeast of town.

Workmen left the trailer near the Bob Hines home northeast of town Friday night, and when they returned Monday morning the small plant was gone. A hack saw was used to cut the bolts that held the plant to the trailer, Sheriff Lovelace reports.

#### HOPPERS—

(Continued from page 1, this section)

But not so with women's footwear. Their new shoes must match their dress, purse or hat—and never be just like the shoe her neighbor is wearing.

Paul Crume, son of Chas. Crume of this city, who writes the front page column, "Big D" in the Dallas Morning News, devoted his column recently to West Texas, which has caused a good deal of comment in his old home town.

Paul got his first newspaper experience at the State Line Tribune when he was a student in high school in Farwell. In his column he had this to say about West Texas:

We have been catching the dickens from all directions west on that item about ladybugs being flown into the West Texas Plains to eat up the boll weevil. If we had been thinking when we wrote it, we would have remembered that the West Texas Plains don't have boll weevil. The topsoil is too thin, or something. (Boy, will that get a rise out of those old nesters up there.) Also, the editor of the Plainview Herald has been grousing because he and friends went into a Dallas restaurant to get a slab of beef. They ordered something called "machinated steak," and when it came, it wasn't steak at all, just ordinary hamburger. West Texans have not yet progressed to the point where they can say what they don't mean this way. A West Texan expects chicken salad to be made out of chicken instead of dog salmon. This shows how far from civilization they are.

If West Texans are ever to be a part of modern civilization they must learn that a "ranch" means any house with as much as an acre of ground. The term can not be loosely used as a synonym for "county."

Anyhow the Plains Country doesn't have boll weevils. And a few years ago, the West Texas Chamber of Commerce passed a resolution saying they didn't have wind, though it backfired. One thing they don't have out there is much water. We are an expert on this. We used to have to help grandpa shoo the cattle out of sight of draws when a rain filled them up. The sight of any body of water larger than a 20-foot pound six inches deep made the cattle lose weight. They apparently got seasick. Our grandpa dug the first posthole on the plains, out at Lariat. He worked on it three or four years when he

#### HOW ABOUT SCHOOL SUPPLIES?

could get a little time off from the cattle. In digging the first six inches, he tore up seven posthole diggers. At that time, he was having a lot of trouble with a muley cow, so he finished up the posthole with dynamite. The resulting hole was the wrong shape and size for a post, but it was undeniably a hole in the ground. Grandpa used to get a great sense of accomplishment out of just sitting and looking at it. It stayed there for years, the most permanent edifice on the Plains.

In our day that county out there was known as the Staked Plains. That was because anybody who took a stake into the plains darn sure left it there.

Well, the Plains Country has changed a lot since a bucking horse tried to stomp us and we quit West Texas for an easy get-rich-quick field like newspaper writing. The country looks richer and gentler. The people look prosperous; and they've found a new diamond bit or something that will dig wells out there, so the fields (where there is no boll weevil) get water. Somehow, though, we liked the high Plains (where there is no boll weevil) better back when a spot near Dimmitt was famous all ov-

er the region because it had a tree. People who lived out there in those days gained valuable lessons. There was nothing like living on the Plains then, for instance, to impress a man with the desirability of foreign affairs. Also, to go Emily Dickenson one better, there is no brook to carry your lands away like the sight of a tumbleweed rushing across raw, unfenced prairie to the far ends of the earth. We may have been poor, often thirsty and sometimes hungry, but all of us on the Plains in those days were handsome.

It certainly looks good to see Mr. and Mrs. O. C. Sikes back at their place of business at the Sikes Motor Co. They have been absent for several weeks, forced upon them by illness, and it's wonderful to see them back on the job again, although they are still operating on a somewhat restricted schedule.

And it's also good to see John Porter putting in his appearance occasionally at his place of business at the State Line Grocery. John has been having a pretty rugged time the past few weeks, and his many friends hope for his continued improvement.

## Seed Wheat?

It looks as though we're going to get a little moisture into our fields this summer after all. And with the moisture, your thoughts will turn to another year's wheat crop.

Let us caution you in advance to take a little time in the selection of your seed wheat. Each year more farmers realize the lasting benefits that come from planting a good variety wheat. Help improve this area's record, and your own, by planting superior seed.

We will be happy to supply you with certified seed that you can place your trust in. Be a level headed farmer. Plant certified.

## Seven Returning Lettermen on Team

Coach C. T. Ratliff of Bovina schools will have seven lettermen back from last year. There will be little change in the line, but there has been a re-shuffle in the backfield.

There will be two guards well over two-hundred pounds. Rex Isham on left guard weighs 235 and Sammy Sudderth on right guard weighs 255. Both ends are well over six feet tall and each weighs 190 lbs. Danny Pounds is six feet 3 inches and Jamie Tidenberg is 6 feet 2 inches.

Other ends from the freshman and sophomore ranks will give a great deal of competition. Five boys are trying out for the tackle positions. Two freshman boys seem to have as good a chance as anybody. Don Sudderth weighing 230 lbs. and Lynn Isham, weighing 180 lbs. will make some of the lighter sophomore and junior boys hustle for positions.

The backfield will average 150 lbs. Jerry Ellison and Leon Ware, lettermen from last year, will spark the offense. Glenden Sudderth, Donald Ray Barron, Darrell Read, and Owen Burnett will help make up the remainder of the backfield.

Seasons tickets will be on sale Saturday August 22nd.

## Methodist Revival Begins August 31

Bovina Methodist revival meetings begin Sunday, August 31, and continue for one week, Rev. I. T. Huckabee, pastor, announces.

Rev. Sherrill, pastor of the Friona Methodist church, has consented to preach the services, and a male quartette is to be featured each evening. Meetings are twice daily, at 10 o'clock in the morning and at 8 o'clock in the evening.

Miss Yvonne Moody, daughter of Mr. and Mrs. E. H. Moody, spent the weekend at home. Yvonne is employed in the Registrar office at Wayland college, Plainview, Texas.

## Brock Accepts Honor For Tank Platoon

WITH THE 40TH INFANTRY DIVISION IN KOREA—Sec. Lt. Ted E. Brock of Bovina recently accepted a commendation on behalf of his men from the commanding general of a Republic of Korea Army Unit.

Lt. Brock's platoon of Company C of the 140th Tank Battalion was commended for "outstanding service and enthusiastic devotion displayed while attached to Republic of Korea forces as a support element."

In a ceremony at an advance ROK forward command post, Brock received an elaborate hand-lettered scroll containing the commendation. Lt. Brock's wife is the former Winifred Horton of Roswell and he is the son of Mr. and Mrs. Aubrey Brock of Bovina.

Mr. and Mrs. Frank Truitt and Larry went to Claude Sunday to visit Mrs. Truitt's mother and sister.

Miss Evelyn Steelman spent last week in Amarillo visiting relatives.

Robert Read, son of Mr. and Mrs. Nat Read leaves Friday for the army.

### Joe S. Moss Favored For Court Post

Joe S. Moss, the Post lawyer, is the favorite of Associate Justice of the Amarillo Court of Civil Appeals, according to those who know him best, the lawyers of the 46 county district. In the poll conducted by the State Bar Association among the lawyers of the sprawling district, Moss received 176 votes to only 59 for his opponent.

Moss, the small town lawyer, who has practiced civil law in Post for nearly twenty years, is married and has one child. He served over three years in the army in the late war.

In the first primary his home county gave him more than a six to one majority over three worthy opponents. He has served in various official positions throughout his career, but this is his first venture in a district race.

### CORRECTION!

In last week's paper, it was stated that Mr. Crem was Blue Cross representative who spoke at Farm Bureau meeting, Mrs. W. H. McDaniel says: This was an error; he was a new member for the organization. Mr. Betts was the Blue Cross representative. The Tribune regrets this error.

### Association Tells How To Have Restful Trip

The age of wonder drugs—penicillin, the sulphas, streptomycin—has overshadowed the oldest and still one of the best remedies for mankind's ills—rest.

The Texas Safety Association would like to see restful vacations, instead of the usual competitions to see who can drive the farthest and fastest and play most dangerously.

"A restful vacation is more likely to be a safe vacation," said W. Carlross Morris, Jr., a Houston Attorney and president of the Association. "And the statistics of summer accidents certainly should make all of us think about safety."

A motor vehicle accident is the most likely mishap to spoil vacation rest and fun, but many of them could be

avoided with a little advance planning, Mr. Morris said. He emphasized the importance of a thorough safety inspection of the car before starting a motor trip.

"Texans now have the opportunity to take advantage of their new motor vehicle inspection system which offers a uniform safety check at convenient locations throughout the state," he said. "What better time to get that inspection than just before the summer holidays? At the same time, you are freeing your mind of worries over the mechanical performance of the car and taking out an insurance policy on the safety of your family and yourself."

The inspection stations will pay particular attention to the following check points:

Brakes—must stop car in 30 feet from 20 mph. and take hold evenly on all wheels.

Lights—headlights at level to give maximum illumination with minimum glare. All lights clean and operating.

Tires—rubber should be evenly worn. No cuts or breaks in fabric. Steering and wheel alignment—uneven tire wear and excessive play in steering wheel are warnings for mechanical correction.

Exhaust and muffler—tight and free from rust holes or leaks.

Windshield wipers—good operation is necessary to visibility.

Horn—audible 200 feet without undue loudness.

Glass and mirrors—clean and unobstructed for maximum visibility.

The longest sustained naval bombardment of a city in history began in mid-February, 1951 when Wonsan was first shelled.

Navy Corsairs and Skyraider aircraft splashed more than a million pounds of deadly napalm on enemy targets in less than a year.

Jet fighters carrying bombs were launched from carriers for the first time in April, 1951.

### New Processes Are Developed By Oil Companies

Two new processes have been developed recently by oil companies which will contribute to increased production of chemicals from petroleum. Known as hypersorption and chromatography, the processes find application in the separation of gases and liquids, respectively. Since they will increase the output of toluene, benzene and ethylene, they will aid in the defense effort and general industrial production. Toluene is used in the manufacture of explosives; benzene in many plastics and as a building

block for thousands of other chemicals; and ethylene is primarily needed in manufacture of synthetic rubber. By such unremitting and diligent research as preceded development of these processes, the petroleum industry builds for America's future.

## Marguerite Meyer Discusses Beginning Of Ocean Voyage

Miss Marguerite S. Meyer, enroute from New York City to Southampton, via the United States of the United States Lines, to her parents, The Reverends Mr. and Mrs. George E. Meyer of the Congregational Church of Friona, Texas, says:

Dear folks,  
This is Tuesday and I have no idea what time it really is. Early each day we put the clock ahead, once one hour and the next 90 minutes and by the time they get through, all you can count on is day light and dark. We are proceeding very slowly through a calm sea, though we raced the rest of the way and are due to land in La Harve at 4 tomorrow morning, whatever time that is. It already feels as if we're close to land in contrast to the last few days when we seemed alone on a vast and limitless expanse of ocean, for today we have seen a small French fishing fleet with colored sails and several freighters plodding toward port.

To begin at the beginning, the approach to the dock was one mess of banking taxis. When we got there, we were directed way back to a freight elevator and rode up three stories, then showed our tickets, passports etc. and were given passes and went up the gang plank and onto this tremendous boat, so huge it is hard to encompass. Excitement ran high.

There were four times as many visitors as passengers all milling madly about trying to see people off and at the same time to get a glimpse of this fabulous ship. Great baskets of flowers and fruit stood around everywhere. I had my quota of flowers, a full one, telegrams, messages etc. In time the "All ashore that's going ashore" rang out, and we who were going were soon left alone. I stood on the deck in the rain and waved the handkerchief you'd sent me, mother, as long as I could see anyone.

The New York harbor is beautiful to behold, even in a drizzle with the whole skyline in sight. We passed Ellis Island, and then the Statue of Liberty and as I did so, I thought

what a wonderful sight it must be to those coming to the USA for the first time. At this point the sturdy little tugs that by some miracle can pull his big hulk went chugging back to port and we were on our own, going out to sea.

It is a strange feeling for a novice to lose sight of land and to be out where there is no perspective, except as you try to distinguish where the water meets the sky. One begins to understand a little of the sailors' great love of the sea. The ship, a small world of its own, is an absolute monarchy, as one of the passengers said, afloat on an endless but ever changing ocean. The waves have such colors—greys, blues, and such depths. It is not hard to imagine "The Kingdoms under the Sea." In the wake of the great ship, a lovely blue froth follows, with a fine spray called speed drift.

Everything on the great ship is aluminum—rails, desks, furniture. The three classes of passengers are on all three decks, not one deck assigned to a class, and we have the whole protected back of the boat for our deck chairs. We have a lounge, a smoking room, a dining room, a theatre, a swimming pool etc. etc. It is so nice.

The meals are "out of this world." The courses are all delicious. You can have anything and everything you want. Walter is our waiter, at my table. He is a Philippine and you'd think that his only purpose in life was to stuff down us. He'd gladly bring us two of everything on the menu.

I am going to complete this letter, rather end it, so that I can mail it at the first opportunity. I will continue with my story in the next letter. I wish you were going too.

Much Love,  
Marie.

**BIGROW Guaranteed LIQUID FERTILIZER — EASY TO USE (Read carefully)**

Typical spray equipment for leaf feeding with liquid fertilizer. The liquid plant food often is mixed with compatible weed killer, insecticide or fungicide spray solutions to do two jobs at once.

Apply at rate of 1 to 3 gallons per acre diluted with 5 to 20 gallons of water, depending on type of sprayer equipment available, for leaf or foliage absorption. Also through overhead sprinkler system or as side dressing along sides of rows with converted cultivator attachment.

U. S. ATOMIC ENERGY COMMISSION, January, 1952, "Atomic Energy in Plant Science" reports results of use by college researchers of "tagged" liquid fertilizer atoms in proving that foliage spraying of plant nutrients is an efficient, economical and rapid method of applying a portion of all of the plants' nutrient requirements. Foliage spraying can be incorporated in with insecticidal and fungicidal spraying, thus two tasks are performed at the same time. Foliage spraying of liquid fertilizers is readily adaptable to aerial applications.

**Advantages of BIGROW Guaranteed LIQUID FERTILIZER**

1. For use on corn, small grains, forage crops, legume crops, cotton, peanuts, sugar beets, potatoes and vine crops, etc.
2. Applied to the foliage, enters the sap stream immediately to supply the plant with a complete balanced plant fertilizer. . . . Plant response is fast.
3. Is more economical because it produces more, influences earlier emergence, better quality, higher yield and shortens the growing season. . . . Can be used on any kind of crop requiring fertilizer.
4. All of Bigrow Guaranteed Liquid Fertilizer is immediately available to plant life.
5. Is easy and convenient to handle. . . . Eliminates hard, wasted labor as in handling 800 lbs. of useless filler in each 1,000 lbs. of dry fertilizer.
6. Cannot be lost by leaching or be blown away or remain in soil, unused.
7. Cannot burn or otherwise harm plant life, used as recommended.
8. Reduces mortality of young plants—helps them resist blight.
9. Can be mixed and applied with 2,4-D, or bug dope.
10. Contains trace elements of manganese, copper, zinc, iron and boron, in a balanced, soluble mixture.

I got Conoco's NEW 1-2-3 "50,000 Miles No Wear" Service!

Now is the time for all smart motorists to discover how Conoco's great new "50,000 Miles—No Wear" Service helps engines last longer, perform better, use less gasoline and oil! This is exactly the same service that kept test cars new in Conoco's spectacular "50,000 Miles—No Wear" road test! In that famous 50,000-mile test, with 1,000-mile drains and proper filter service, test car engines showed no wear of any consequence: in fact, an average of less than one one-thousandth inch on cylinders and crankshafts. Gasoline mileage for the last 5,000 miles was actually 99.77% as good as for the first 5,000. Now you can get this same 1-2-3 "50,000 Miles—No Wear" Service, at your Conoco Mileage Merchant's, today!

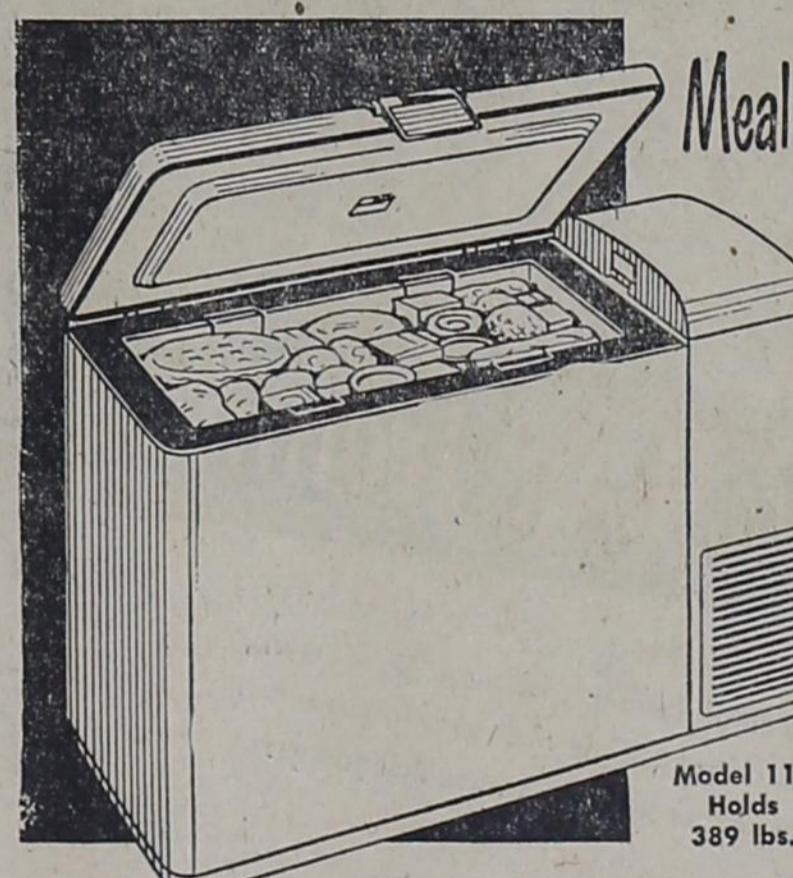

**Here's the Famous "50,000 Miles—No Wear" Service!**

- 1 Your Conoco Mileage Merchant Will Drain Out Grit and Sludge, preferably while engine is hot! "Hot-oil" drains every 1,000 miles flush out grit, dirt, acid and contamination—leave your engine sparkling clean!
- 2 He'll Recondition Air and Oil Filters! He'll clean filter elements, replace dirty cartridges, record mileage. Every time hood is lifted, he'll check mileage to be sure filters have been serviced at proper intervals.
- 3 He'll refill with great Conoco Super Motor Oil! Conoco Super is fortified with additives that curb dangerous accumulation of dirt and contamination—protect metal surfaces from corrosive combustion acids—fight rust—and OIL-PLATE against wear.

Hollis Horton from Dallas spent the weekend visiting in the Granville McFarland home.

Mr. and Mrs. Sloan Osborn returned from a two week vacation spent in the mountains.

## Fly Control Is Health Problem

AUSTIN, TEXAS—The control of fly menace comes at the top of the list of necessary public health measures which should be applied by every city, community, and individual in the state, declared Dr. Geo. W. Cox, State Health Officer.

The most effective measure is to prevent their breeding. Flies breed in filth and about eight days are required to complete a life cycle. During her life time of several months, one fly lays from 600 to 1,000 eggs.

To eliminate flies, the breeding places must be destroyed. Manure piles, garbage, and other organic filth furnish the requirements of warmth, moisture, and food necessary for the propagation of the fly. Flies should be kept from contact with food or drink or utensils in which such food and drink are prepared and served. Likewise, they should be kept from access to privy vaults where they pick up the infections, which they later spread to humans by contact with the food and drink, and by unwashed hands and utensils.

See that your windows, doors, and porches are screened so that the stray fly from some careless neighbor will not molest your family. See that your grocer keeps meat, vegetables, and fruit screened from flies.

The use of DDT and other sprays for the control of all varieties of adult flies and fly larvae have come into wide usage. However, their use should be, after all trash and breeding places have been eliminated. Otherwise, spraying will give only temporary relief and a false sense of security.

There now are 15,000 students enrolled in 52 college and university Navy ROTC units.

Angels are always pictured as women, because it doesn't embarrass a woman to flit around with nothing on but a pair of wings.

## Standardization Aids Global Oil Production

Standardization of oil-field drilling and production equipment, inaugurated in 1923 by the American Petroleum Institute, has expanded to the point where A. P. I. standards are recognized internationally. This means that the component parts of a drilling rig can be purchased from manufacturers in 13 foreign countries and assembled at some distant point, ready to drill. There are at present 441 manufacturers in the United States and 155 located outside this country who manufacture according to A.P.I. specifications. The savings in time and money from this work have been incalculable, to say nothing of greatly augmented oil supplies for the whole world.

## One-Fifth of Nation Dreads Awful August

Hay fever sufferers -- now estimated to constitute an "ill-nosed one-fifth of the nation" -- have about given up expecting any relief through medical or weed-pulling projects as awful August approaches once more.

But spokesmen for one of the nation's newest and fastest-growing industries are sounding a confident note of hope. Air conditioning, they say, definitely is the answer.

According to John A. Gilbreath, head of the air conditioning division at Servel, all-year air conditioning will provide complete relief because the filtering system used with the equipment is guaranteed to remove 100 per cent of the pollen particles in a home.

Spot checks by Servel engineers of homes equipped with all-year conditioning have confirmed laboratory findings, he reports, adding that the filters will remove dust particles even smaller than the pollen.

"As a matter of fact we have found that most of the people who purchased the equipment did so for relief from hay fever and asthma rather than for luxury living," the Evansville, Ind., executive said.

One reason the subject of hay fever has become such nationwide interest in recent years, he added, is because of the trend toward suburban living. Many people, of necessity, have had to buy homes in the suburbs because these were the only ones available. The result has been, in his words, "an increasing exposure of people to ragweed and a sharp increase in the number of victims."

Until recently, he said, medical authorities suggested injections with drugs but these were both expensive and time-consuming because of fre-

quent trips to the doctor administration.

Gilbreath said that one Chicago physician, who is an authority on the subject of hay fever, had summed up medical findings on the subject with: "Unfortunately there is little opportunity for complete escape from grass pollen except by staying indoors with the windows and doors shut."

"While this doctor was being ironic, he was actually talking about all-year air conditioning since the windows and doors must be shut if the equipment is to be effective and if economy of operation is to be reached."

## "Make It Yourself" Sandwiches

When company comes over during warm August days set out all of the "fixings" and let them make their own sandwiches. They will enjoy the informality and how it will save you work!

"August Is Sandwich Month" offers an excellent excuse for an easy party. Make some new fillings like those pictured above and have a variety of breads on hand. Then let guests make their own sandwiches.

The salad filling at the top of the picture is a delicious old standby, egg salad. Another bowl contains chicken Waldorf—a wonderful combination of chicken, apples and nuts. The third bowl is filled with "pretty as a picture" shredded cheese with pimiento pieces.

As a base for these spreads you might choose white bread, whole wheat bread and rye bread. Enriched white bread is a nutritious sandwich container. It has three essential B-vitamins, food iron and protein. When combined with these salads, it takes on main dish proportions, nutritionally. Whole wheat bread contains about the same nutrients. Just be sure the label reads "100 percent" whole wheat.

With "Sandwich Makings" have colorful relishes, like stuffed olives, radishes and carrot curls. Complete the menu with large glasses of iced tea or coffee and raspberry shortcake.

### CHEESE PIMIENTO

1 cup shredded nippy cheese 2 tablespoons chopped pimiento  
2 tablespoons salad dressing  
Combine all ingredients in order given. Mix well. Makes enough filling for 6 sandwiches.

### CHICKEN WALDORF

1 cup diced chicken 1/2 cup chopped apple  
1/2 cup chopped celery 3 tablespoons salad dressing  
Combine all ingredients in order given. Mix well. Makes enough filling for 6 sandwiches.

### EGG SALAD

2 teaspoons prepared mustard 2 tablespoons chopped celery  
Dash paprika 2 tablespoons chopped olives  
2 tablespoons mayonnaise 1 tablespoon chopped sweet pickle  
4 hard cooked eggs, diced 1 tablespoon chopped pimiento  
Add mustard and paprika to mayonnaise. Combine all other ingredients and fold in mayonnaise mixture. Makes enough filling for 5 sandwiches.
