Gangdom leaves the underworld invades the home, and casts its sinister shadow over an average 8.04 American household in the new 8.07-08 Paramount picture, "Hunted Men," 8.07-08 booked for Saturday midnight, Sun day and Monday at the Quee theatre. For its thrilling story of a big

shot racketeer's last stand against the police after he has murdered a night club owner, Paramount selected a cast of experienced dra-matic players headed by Lloyd Nolan. Nolan, who has the unique distinction of playing afternately a "bad man" and a hero in his film roles, is on the wrong side of the law and order fence this time and appears as the swaggering, big-time racketeer who takes refuge in Lynne Overman's home and only realizes what a mistake he has made of his life when he is idolized by Overman's young son, Delman Watson, and falls in love with his

daughter, Mary Carlisle.

"Hunted Men" has in its supporting cast J. Carrol Naish, who scored recently as the half-mad Eurasian in "Her Jungle Love," and who plays the part of Nolan's unscrupu lous lawyer in the new film; An thony Quinn and Johnny Downs.

New Mexico Farmers Work Swiftly 200,000 Homes in Texas Gains To Combat Dreaded Hopper Horde With U.S. Aid

SPRINGER, N. M. May 27 (H)—
Additional supplies and equipment were rushed into this northeastern New Mexico headquarters base to day as a desperate citizenry battled against time and the threat of the worst grazshopper invasion in the history of the high plains.

Leaders of the small army enlisted in the campaign set two weeks from today as the probable day the hoppers will take wing extending their menace from six infested northeastern New Mexico counties to the central part of the state.

Armed with poison-spreaders workers launched an attack on newly discovered beds of the hatch—

In ginsects at sunrise today. It is before the history to the poison be spread before the linects are able to fly.

In addition to the fleet of trucks and poison apreaders already in the field, 60 government trucks were made available. Governor Clyde Tingley, who arranged an emergency project for construction of spreaders, said 20 more would be sent to the front today.

In the Texas Panhandle, where officials have predicted damages of 55,000,000 if the pest is not controlled, a similar war was being waged. In parts of Kansas, Colorado and Oklahoma, preparations also were being made against the dreaded invasions.
