

"Stop stop here, stop stop there, here stop, there stop, everywhere stop stop."

We're not on Old McDonald's farm but we are in the stop sign capital of the world - Farwell, Texas. On some corners we even have stop signs for tall folks and stop signs for short folks. We seem to have stop signs for the nearsighted and signs for the farsighted. In fact, you can take your pick of just about any stop sign that suits your particular fancy. Now we don't know anybody that really fancies stop signs but from the looks of Farwell, somebody, up there or down here, must.

All this is the result of a master plan for traffic control in our fair city. Unfortunately, as the new signs are going up the old ones are not coming down, and with our limited crew of city workers it will be several days before rhyme and reason becomes apparent to the driving public.

When the massive replanting of stop signs is over, there will be an easy way to get from here to there in Farwell, but it may take five minutes or so to decide which way a body should go to get there from here.

Well, anyway, it does look as if the final result will be a more orderly flow of traffic. This also means some streets will be used more than others, and this will create some hardships but will also lessen some other traffic situations.

We hope that for awhile until a person's subconscious recognizes these new corners for stopping purposes, that there isn't too much fender bending going on. It tends to disturb one's sleep.

At this stage of the year, a good bet would be: no fruit crop on the High Plains. We have noticed many trees that are budding and blooming so early that there is no chance that they will survive at least one and probably more hard freezes before spring really arrives.

This unseasonably warm weather has driven our vegetation way off the normal seasonal growing schedule. While this is nice now, it bodes ill for the coming months.

Speaking of weather. Have you noticed that Albuquerque's Channel 7 includes Farwell in its weather map? The weatherman must think more of us than Amarillo or Lubbock. The real reason we are on their map is through the efforts of Frank Stanley, their stringer from this area.

Frank has been very good about covering news and events from the Twin Cities. Texico and Farwell owe Frank a vote of gratitude for the publicity he gives our community.

We received a release from the office of the Comptroller of Public Accounts which analyzes the impact that non-renewal of revenue sharing would have on the counties and towns in Texas. As you probably know, there is a squabble going on in Washington between the Administration and Congress whether to renew or not to renew revenue sharing.

Bob Bullock's office release gives the projected tax increase on a local basis necessary to continue the present level of government without revenue sharing. This tax increase varies from a high of 911 percent in the community of Woodbranch village in Montgomery County to a low of 1.3 percent in South Padre Island town in Cameron County.

For Parmer County the projection is 20.3 percent and for Farwell it's 21.5 percent. Farwell and the county are on the low side in comparing all Texas counties, cities and towns. This speaks well of our local governmental units.

### Texico To Meet

The Texico City Council will hold a regular meeting at 6:30 p.m. MST Tuesday, March 9, in city hall, according to City Clerk Clara Wiehl. No agenda has yet been prepared.

**STRANGE ANIMAL** - What appears to be a strange animal with a long, crooked neck is actually a device which workmen were using last week to pour concrete for the foundation of the Farwell Nursing Home. The device was used to pour areas which the regular concrete trucks could not reach. Work on the 100-bed nursing home began Monday, Jan. 12, and is to be completed in 165 calendar working days at a cost of \$560,000.

### Disease Outbreak - -

## Farwell Schools May Shutdown

Farwell school officials were considering calling off school today, March 5, and Monday, March 8, if absenteeism on Thursday had increased over Wednesday's 13.2 per cent rate.

Supt. James Perkins said Wednesday that absentees would be checked again Thursday morning and any increase would probably result in school being shutdown for the two-day minimum.

He said normal absenteeism averages about five per cent. He blamed the high rate this week on flu complicated by mumps, scarletina and other diseases.

Perkins said that if it became necessary to cancel school, the days would be made up during the spring vacation which is scheduled for March 22-26.

The superintendent pointed out that overall absenteeism had decreased from Monday's high of 14.9 per cent to 14.4 per cent on Tuesday and 13.2 per cent on Wednesday. He said if the downward trend continued Thursday, the school would remain open.

He said an increase Thursday would indicate the school was contributing to the problem and should probably be called off. He said absenteeism had been "building" for several days, and he had hoped that last week's three-day weekend would help solve the problem.

Perkins said the extra day students were off last weekend for a teachers' in-service day failed to stop the disease spread. He gave that as the reason for wanting a two-day shutdown now if it became necessary.

He noted the elementary school and sixth grade in junior high were being hit the hardest by absenteeism.

Perkins said health officials had not been notified, and he said neither state health officials nor school authorities set any specific absentee rate for dismissing school.

A breakdown of Wednesday's absenteeism showed: elementary school, 42 absentees for an 18.7 per cent rate; junior high, 17 for 10.6 per cent; high school, 16 for 8.7 per cent, and overall, 13.2 per cent.

Tuesday's breakdown was: elementary, 46 absentees for a 20.5 per cent rate; junior high, 18 for 11.3 per cent; high school, 16 for 8.7 per cent, and overall, 14.4 per cent.

Monday's breakdown showed: elementary, 46 absentees for a 20.5 per cent rate; junior high, 24 for 15 per cent; high school, 15 for 8.1 per cent, and overall, 14.9 per cent.

In addition to contributing to the disease outbreak, Perkins said that if the Farwell school remained open for an extended period of time with a high absentee rate, it could place the school in "financial difficulty" since school funding is based on average daily attendance.

Meanwhile at Texico, Supt. Jim Pierce said Tuesday that absenteeism there had been running "a little higher than usual" the last few days, however, he said school will remain open unless the situation worsens. He pointed out the Texico schools' spring vacation next week would probably act as "a cushion."

### Future Dentist Visits Area, Hospital Board

Farwell's future dentist and his wife visited the area this past weekend and met with members of the Farwell Hospital District Board and other local residents.

Lee and Barbie Clayton visited here from Saturday morning, Feb. 28, until Monday morning, March 1. Hospital board member Pudge Rose said he thought the Claytons were "very pleased" with their visit and "looking forward to getting back here."

Clayton, who is a senior at Baylor University's Dental School, was obtained through the National Health Service Corps. He is expected to open

his practice in the Farwell medical clinic building about July 15.

The Claytons met with the hospital board Saturday afternoon and looked over plans for remodeling of the clinic. The building is being remodeled for the dentist and in anticipation of getting a physician or two who also will be headquartered there.

Clayton, who is from San Antonio, did his undergraduate work at Texas A&M University. Mrs. Clayton is from Sherman. She is a registered nurse and graduate of Texas Women's University.

**FUTURE DENTIST** - Lee Clayton, right, and his wife, Barbie, seated center, look over plans for remodeling the Farwell medical clinic building as Farwell Hospital District Board members Carrie Anderson and Pudge Rose explain the plans. Clayton, who is a senior at Baylor University's Dental School, will open his dental practice in the clinic about July 15.

### Lions Seek Eyeglasses

Anyone owning eyeglasses which are not being used have been asked to donate them to the Lions Club Sight Conservation Program, according to club member Jim Walker.

Walker said the eyeglasses may be given to any Lions member or be brought to him at the Citizens Bank in Texico.

Eyeglasses collected by various Lions clubs will be taken to the State Lions Convention to be loaded on a truck bound for Mexico and South America where the glasses will be re-ground and refitted, Walker said.

The Lions also have "eye donor cards" available for anyone wishing to donate their eyes after death.

### Texico Sets Vacation

Texico schools will be out all next week for spring vacation, according to Supt. Jim Pierce. There will be no classes from Monday, March 8, through Friday, March 12.

### In Clovis Burglaries - -

## Farwell Marshal Nabs 2 Suspects

Farwell City Marshal Ronnie Mitchell went to check out a parked car in the early hours of Wednesday, Feb. 25, and ended up nabbing two burglary suspects for the Clovis Police Department.

Gilbert Ortiz Jr., 18, of Texico was charged with four counts of burglary, according to Clovis Police Chief Nelson Worley. A 17-year-old juvenile also was charged with burglary by Clovis officers and released to his father.

### Fourth Annual - - Track Teams Entered For Twin Cities Meet

Several track teams from Texas and New Mexico have entered the Fourth Annual Twin Cities Relay scheduled to get underway with preliminaries at 9 a.m. CST Saturday, March 13, at the Farwell High School Track. The annual meet will again be under the sponsorship of the Texico-Farwell Lions Club.

Events to be included for boy tracksters will include: 100-yard dash; 220 dash, 440 dash, 880 run, mile run, 120-yard high hurdles, 330-yard intermediate hurdles, 440 relay, mile relay, discus, shot-put, pole vault, high jump and long jump.

Girls events will be: 60-yard dash, 100 dash, 220 dash, 440 dash, 880 run, 80-yard hurdles, 440 relay, 880 relay, mile relay, shot-put, discus, long jump, triple jump and high jump. Schools entering both boys

and girls teams include: Logan, N.M., Portales, N.M., Amherst, Muleshoe, Lazbuddie, Hart, Springlake-Earth, Littlefield, Olton, Morton, Bovina and Farwell. Nazareth is entering only a boys team. Schools entering only girl tracksters will be: Shallowater, Gruver, Groom and Dimmitt. A few more schools are expected to enter before meet time.

Members of the Lions track meet committee are: James Craig, Jerry Yows, Lee Hutchins, W.M. Roberts and Jim Walker. The Lions Club furnishes the trophies and other awards for the meet. Trophies will be given in all relays. A team trophy will be given for first place in boys and girls. Gold silver and bronze medals will be awarded to tracksters placing first, second and third, respectively, in each event. Ribbons will be given for fourth, fifth and sixth places. There is no admission charge for attending the meet.

**THE LONG AND SHORT OF IT** - Many of the new stop signs which have been installed recently in Farwell dwarf their predecessors such as in this scene at the intersection of Sixth and F streets. Some 126 new stop signs are being installed in the city upon the recommendation of the Governor's Office on Traffic Safety following a local survey conducted by City Marshal Ronnie Mitchell. All the new signs are of regulation size, 30 inches across the face and located seven feet above the ground.

### 33 Vote - - Texico Election Sees City's Lightest Turnout

With both candidates unopposed, only 33 persons went to the polls for Texico's municipal election Tuesday, March 2. City Clerk Clara Wiehl said she believed it was the lightest voter turnout in the city's history.

Bill Thigpen received 32 votes in his bid for re-election to Trustee Position 2. Marie Christian received 27 votes for Position 1, a slot presently held by her husband, Bill Christian, who did not seek re-election. Both positions are for four-year terms. There were no write-in votes recorded.

Mrs. Wiehl compared the 33-person turnout with the election two years ago when 84

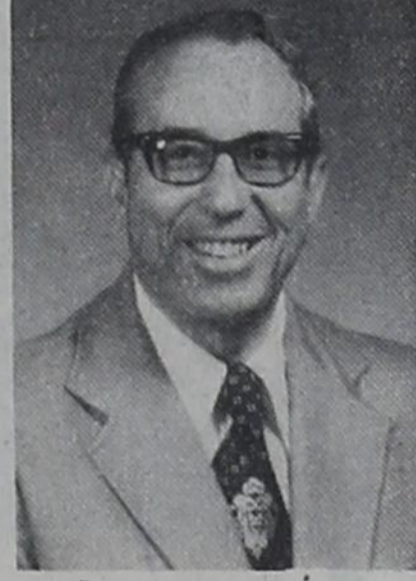

voted in what was at that time considered a "pretty light turnout." There are some 297 registered voters in Texico. Mrs. Christian will be the second woman to ever serve on the city council. She will join Ruby Goforth who currently is on the council.

The posts now held by Mrs. Goforth, Trustee Vane Doshier and Mayor Manford Turnbough will be up for grabs in the 1978 election.

Election officials were Mary Jones as judge, Ophelia Billington and Audrey Kittrell. Alternates were Mrs. B. D. Younger and Mrs. Maurine Caywood.

**TRUSTEES ELECTED** - Bill Thigpen and Marie Christian were elected Texico trustees Tuesday, March 2, in what was believed to be the lightest voter turnout in the city's history. Both candidates were unopposed. Only 33 voters turned out. Thigpen received 32 votes, and Mrs. Christian received 27.

RICHARD BAGGETT

JACQUE BAKER

### Church Plans Special Meet

An eight-day special church meeting will begin at the Farwell Church of Christ, Fifth

and C Streets, on Sunday, March 7, and continue through Sunday, March 14.

The meeting will be conducted by evangelist Richard Baggett and songleader Jacque Baker. Baggett is a Bible teacher at the Sunset School of Preaching in Lubbock. Baker is from the West American Boulevard Church in Muleshoe.

Sunday services will be at 10:50 a.m. and 6 p.m. CST. Monday through Saturday services will be at 10 a.m. and 7:30 p.m. CST. No nursery will be available.

Sermon titles for Sunday, March 7, will be "The Lord's Table" in the morning and "The Spirit of Christ" at evening services.

Sermon topics for evening services during the week will include: Monday, "The Crucifixion of Christ;" Tuesday, "The Coronation of Christ;" Wednesday, "Christ the Builder;" Thursday, "Christ, the Missionary;" Friday, "Christ, the Lord of Creation;" and Saturday, "Handling Tensions." For morning services on the weekdays, those attending will study characters of the Old Testament.

Topics for Sunday, March 14, will be "The Heart of Jesus" during morning services and "Undenominational Christianity" in the evening.

### Dairy Queen Is Opened

A Dairy Queen opened in Farwell Monday, March 1, on the northwest corner of Avenue A and Ninth Street. The new facility will be open from 10 a.m. to 10 p.m. on Mondays through Saturdays and from noon to 10 p.m. on Sunday. All times are central time.

A spokesman said the business will "have everything that a Dairy Queen serves." He said a grand opening will be scheduled sometime in the future.

The facility has inside seating capacity for 64 persons. There also is a drive-up window. The brick-and-glass building contains about 2,500 square feet of space.

Manager of the business is Linda Ellis. Owners are Jim Berry of Farwell and Truman Swinney and Jim White, both of Morton.

### Court To Meet

The Parmer County Commissioners Court will have a regular meeting at 11 a.m. CST Monday, March 8, in the county courtroom at the courthouse.

## Senior Class Play Production Slated

Members of the Farwell High School senior class will be presenting their Senior Class Play Friday, March 12, beginning at 7:30 p.m. CST in the high school auditorium.

The play, "They Gave Him a Co-ed," is a three-act comedy with cast members including Dean Cooper, Pam Erwin, Brad Jones, David Harding, Gerald Hardage, Jacquelyn Langford, Cindy Watts, Gaye Coffman, Gay London, Kim Magness, Lannie Mason, Tim Jones and Bruce Kaltwasser.

Student director is Lori Norton with Cheryl Gohlke, Sheryl Woods and Jane Sanchez acting as aides with props, make-up, sets, etc.

Senior class sponsors Jerry Dee Owen and Tom Adamson are serving as directors for the production.

It has been reported that tickets for the play are now on sale and may be purchased from any member of the Farwell senior class. They will also be available at the door prior to the play.

## Funeral Services Held For Randy A. Hardage

Funeral services for Randy Allan Hardage, 19, were held Monday afternoon, Feb. 23, in the Trinity Baptist Church at Euettsville with Rev. David Evtis, pastor, and the Rev. V. L. Huggins, Baptist minister of Memphis, officiating.

The youth's survivors include his parents, Mr. and Mrs. Wayne Hardage, and grandparents, Mr. and Mrs. L. Hardage, all of the Lazbuddie community.

Burial was in Bailey County Memorial Park Cemetery under the direction of Singleton-Ellis Funeral Home.

Rachellé of the home; and a brother, Ricky of Muleshoe.

Pallbearers were: Lyndon Huckabee, Louis Cardinal, Eugene Reeder, Tom Ladd, Weldon Eagle and Joe Young.

Honorary pallbearers included: Gary Floyd, Rich Magby, Phil Brockman, J.R. Carpenter, Mike Carpenter, H.E. Reeder, Richard Alsup, Jack Dunham, Wayne Wauson, Earl Ladd, Jr., Bill Kinard, Danny McNeil, Alton Carpenter, J. D. Parker, Bob Copeland, Jack Rennels, Billy Williams, and Fred Clements.

### Services Held

On Ash Wednesday, March 3, St. John's Lutheran Church at Lariat began annual Lenten services which will continue for six weeks, according to Rev. Herman J. Schelker, pastor. Services are at 8 p.m. CST.

### Student Hurt

A 13-year-old Texico student, Jesse Miranda, injured a wrist about 1 p.m. MST Thursday, Feb. 26, while playing basketball at the Texico school. He was taken to a Clovis doctor for treatment, school officials said.

**SAFE DRIVING AWARD** -- Farwell Postmaster Otis McMillan, right, presents Lee Meeks of Farwell with the January safe driving award for a rural route in the Lubbock Sectional Center Facility's area which includes some 100 post offices. In addition to the certificate, Meeks received an inscribed watch. The award makes Meeks eligible for the Oklahoma City district's annual safe driving award for a rural route. The Oklahoma City district includes all of Oklahoma and parts of north Texas. McMillan said he has estimated that Meeks has put in some 15,000 hours of safe driving over about 375,000 miles. Meeks has been a substitute or regular carrier for the post office since June 7, 1948. He received his carrier appointment on Aug. 19, 1961. His original route was 89 miles and his current route covers 109 miles daily.

### School Board - -

## Lazbuddie Calling Trustee Election

The Lazbuddie School Board at its regular monthly meeting called for a trustee election to be held April 3 for the purpose of electing three school trustees. Trustees whose terms expire are: president Wayne Clark, secretary Marvin Mimms and vice-president Elvis Powell.

Election judge and clerks appointed by the board were: Truman Gleason, election judge with Don McDonald as alternate, and Orville Burnett and Betty Smith to act as clerks. Mrs. Gloria Elliott will act as absentee election clerk.

Anyone wishing to make application to have their name placed on the ballot may do so by signing all the necessary forms with the school secretary, Mrs. Gloria Elliott.

The Lazbuddie school administrators (Charles Beam, J.R. Davison and Sam Barnes) contracts were considered and extended. Other business included approval to install

three mercury lights in back of and north of the gymnasium.

The board joined the Texas Association of School Boards and also voted to change the school organizational units from grades K-8 for the elementary and 9-12 for secondary to K-6 under the elementary principal and 7-12 under the high school principal. "This equalizes the student load for the two units and since the seventh and eighth grade are departmentalized in more than two subjects a secondary certification is required for teaching in those grades. Since high school band will be extended through the seventh grade this will put the entire band under only one principal's jurisdiction," according to Supt. Sam. P. Barnes.

No race can prosper till it learns that there is as much dignity in tilling a field as in writing a poem.

### One Named All-District - -

## Wolverines Place Fourth In Tourney

The Varsity Wolverines of Texico High School entered competition in the District 6-AA Basketball Tournament last week and at the end of tourney competition the local roundballers were awarded fourth place with Wolverine Steve Turner receiving the honor of being named All-District.

Leading scorer for Texico was Barry Lindley with 17 points followed by Steve Turner with 16 and Bill Autrey with 10. Other Wolverines adding to the score were Spencer Turner, Richard Hadley, Tommy Galvan, Joey West and Ricky Orozco.

Taking the lead in the rebounding department for the Wolverines was Autrey who pulled 13 from the backboards. Second leading rebounder was Lindley with 10.

The Wolverines were on the mark for 25 of 73 attempted field goals for 34 percent. They slammed in 21 of 34 free throw attempts for 61 percent and picked up a total of 43 team rebounds.

adding to Texico's tally were Spencer Turner, Hadley, Galvan, West and Autrey.

The lead in the rebounding department was garnered by Steve Turner with 10.

The Wolverines popped through 26 of 58 field goal attempts for 44 percent and 8 of 13 free throw attempts for 62 percent. They picked up a total of 28 team rebounds.

In their first game of tournament action the Wolverines met Eunice and were dropped 112-71. Texico was trailing by three points, 24-21, at the end of the first quarter of play but Eunice stepped out front to lead 51-41 when the first half of play ended.

During the third stanza of action, Eunice upped its lead to 83-57 and held the lead to take the win, 112-71, when the buzzer sounded marking the end of the game.

In their final game of the tournament, the Wolverines took the court against Jal's Panthers and fell to the Panthers 87-60.

Jal held a slim one-point, 19-18, lead at the end of the first period but broadened that lead to 40-30 at the half.

During the third quarter, Jal managed to move ahead 62-44 and remained in the lead 87-60 when the game ended.

Leading scorer for Texico was Steve Turner with 20 followed by Lindley with 13. Also

In reference to the tournament, Coach Randy Lyons commented, "Texico finished fourth in the district tournament. Highlight of the tournament was the selection of Steve Turner to the All-District Team. Steve was the only sophomore selected and only the third sophomore ever selected for this honor."

### Farwell Man's Son Dies At 23

Funeral services for Jeff Sterling Broxson, 23, of Clovis, son of a Farwell resident, were conducted at 3 p.m. Sunday, Feb. 29, from the Kingswood United Methodist Church.

Burial was in Bellview Cemetery, Bellview, N.M., under the direction of Steed Todd Funeral Home.

### School Board Slates Meeting

Election matters and other business items are on the agenda for the Farwell School Board's regular monthly meeting at 7 p.m. CST Monday, March 8, in the superintendent's office.

The board will hear a report from the nominating committee on the school board election slate. A drawing also will be conducted for places on the ballot.

**ALL-DISTRICT** -- Wolverine Steve Turner was named All-District following the District 6-AA Basketball Tournament last week. Turner was the only sophomore named All-District and is only the third sophomore to ever receive the honor.

**agri-facts**

By John Ricci

Something special was reflected in the bright lights of Kansas City late last year when the annual Future Farmers of America convention was held. Reflected almost blindingly was the change in attitudes about agriculture. FFA conventions used to be almost mediocre affairs with dwindling attendance and speakers not in demand elsewhere. Old attendance records fell like rain in a hurricane when more than 20,000 of the Future Farmers checked in for the November convention. They came from all fifty states with visiting students from Europe and South America. Speaking before the sea of blue-jacketed farmers were Vice-President Nelson Rockefeller, former Texas Governor and Secretary of the Treasury, John Connally and former Georgia Governor and FFA member, Jimmy Carter. One of the highlights was the planning for this year's national convention. Early indications point to another record setter.

**FFA's Enter Houston Show**  
Eight members of Farwell Future Farmers of America (FFA) are competing in the 1976 Houston Livestock Show and Rodeo now underway through Sunday, March 7.

Entering market barrows are Charles Christian, Vick Christian, Randy Gerles, Craig Walls, Lori Norton, Dwight Gregory, Lazbuddie, and mark Owen. Joe Haseloff will enter a market steer. Their teacher is Jerry Mathis.

The show is again being held in the show's \$18 million facility with rodeo performances in the Astrodome.

All major beef and dairy breeds, swine, sheep and goats, horses, rabbits and poultry will compete for the top premiums offered. Rodeo audiences will be treated to these remaining

The word photography means drawing with light, according to World Book Encyclopedia. A camera picture is a picture drawn with rays of light.

## CofC Event Is March 29

The Farwell Chamber of Commerce banquet has been scheduled for 7:30 p.m. CST Monday, March 29, in the Farwell High School Cafeteria, according to an announcement this week from Dutch Quikell.

Guest speaker for the occasion will be Kenneth Wyatt, an artist and humorist from Tahoka. Farwell's "man and woman of the year" will be named at the annual event. The man and woman of the year are selected by a chamber committee which considers nominees from the general public. Officers and new directors for 1976-77 will be installed. Improvements and accomplishments in the community this past year also will be reviewed and recognized.

## MANAGING YOUR FAMILY'S FINANCES

By Dr. Carl F. Hawver  
Q. I've got a good job but I can't seem to get ahead financially. In fact, in recent months I can't even pay all my bills. I don't know where the money goes! How can you manage money if you don't have any left over to manage? It's all spent before I get it.

A. If you really don't know where your money is going it's time you found out. Put all of your income in your checking account and pay all your bills by check. For cash needs like lunches, car fare, etc., have each member of the family write down expected needs for the next week and write one check on the same day each week for your total cash needs. At the end of a month you'll have a reliable record of where your money is going. At the end of three months you'll have a pretty good average as a guideline.

Then make a list of everything you spend money for each month and how much. Next mark the list, #1 for most important to you, #2 for next most, and on down to the least important. Then consider giving up some of those on the bottom of your list. Cut till you get the monthly figure well under your monthly income. If you have too many monthly payments for credit purchases, consider consolidation to lower the monthly payments and stop using credit till it's paid off. There is just so much money - YOU decide what you want it to buy for you. Don't leave it to chance.

Dr. Carl F. Hawver, Executive Vice President of the National Consumer Finance Association, is a widely recognized counseling expert in family money and credit management.

Do you forget to remember to save? Well, the Payroll Savings Plan where you work makes forgetting even easier. Once you sign up, a little is taken out of each paycheck to buy U.S. Savings Bonds. Saving is automatic. And before you know it, that little bit you've been forgetting every month will add up to a bankroll to remember. Buy United States Savings Bonds. Don't forget.

Now E Bonds pay 8% interest when held to maturity of 5 years (4% the first year). Lost, stolen or destroyed Bonds can be replaced if records are provided. When needed, Bonds can be cashed at your bank. Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

## Portraying Area Homemakers

by Susan Franse

This week's area homemaker is Mrs. Michael (Donna) Haseloff of Farwell. Donna is originally from Anson, Tex. She came with her family to Farwell while she was still in high school. She met Michael in school and they were married after they had finished school.

Michael is a farmer and Donna helps him change the water and drive the pickup when she needs to. "The men are going to get a new combine this year so they want to teach us how to drive the trucks during harvest. When we're not driving the trucks, the most we can do is take their dinner to them," Donna said.

Along with other homemakers in this area, Donna cans during the summer. "Our family has a large garden out on the farm where we can get everything to can. It's really nice to have the things we canned."

Mike and Donna have one son, Ray, who is 18 months old. The Haseloffs attend St. John's Lutheran Church at Lariat where Donna has helped with Bible school during the summer.

One of Donna's hobbies is to antique furniture. She and Mike refinished a bedroom suite for Ray. "We decided to refinish the dresser to Ray's bedroom suite three days before he was born, even though we didn't know he was coming then. But Mike helped me do the furniture." Later, they refinished a desk.

Last fall the Haseloffs decided to plant grass in their front yard. "The whole front yard was full of rocks and cacti and trees. We moved everything and Mike brought the tractor in, plowed the yard and pulled up the trees. Then we planted the grass. I still don't have the rose bushes I want yet."

Donna wanted to share these recipes with our readers.

### PUMPKIN CAKE

- 2 c. sugar
- 2 c. flour
- 2 t. soda
- 1 t. salt
- 4 eggs (one at a time)
- 1 1/2 c. Wesson Oil
- 1 1/2 c. (12 oz.) pumpkin
- 3 t. cinnamon
- 2 t. vanilla
- 2 t. butter flavoring

Mix all ingredients. Bake at 350 degrees 1 hour and 15 or 20 minutes in well greased tube pan. Serve with whipped cream.

### ANGEL BISCUITS

- 5 c. flour
- 3 t. baking powder
- 1 t. soda
- 1 t. salt
- 1/2 c. sugar
- 1 pkg. dry yeast dissolved in 2 t. warm water
- 1/2 c. oil
- 2 1/2 c. buttermilk

Mix all ingredients well. Store in covered dish in refrigerator. Roll, cut and bake portion needed.

Microwave ovens may be a boon or a bust, depending on an individual's likes or dislikes, but - overall - they are considered a safe appliance if proper precautions are taken, says the Texas Department of Health Resources.

Cooking speed is the main factor in the usage growth of microwave ovens, which are used extensively throughout the state by self-service food distributors. Hot sandwiches and soups, sold at vending machines, in office buildings and coffee shops accessible to the public, are examples of the commercial uses of the devices. And, the use of home ovens has shown a large increase, especially in families where adults and children are always on the go and meal-time is short.

Basically, microwaves are a form of electromagnetic radiation and as such are regulated by the Occupational Health and Radiation Control Division of the Department of Health Resources. They are manufactured under strict federal standards.

It is possible to be burned by microwave ovens, but safety devices are mandatory in the form of interlocks on oven doors. If a door is opened, the oven automatically goes off.

Investigators for the Department of Health Resources have found leakage around doors some of above tolerable levels and have removed these appliances from service until repaired.

It doesn't take much of a gap for leakage to occur. It can be caused by doors getting sprung, by food particles or other substances being allowed to build up in doors, or by faulty gaskets, according to Joe F. Thiel, with the Occupational Health and Radiation Control Division.

"Microwave ovens in commercial food vending machines are subject to extreme product abuse and are subject to a high failure rate in comparison to home use," said Thiel.

"For example," he stated, "a recent survey was made to maintain validation of an earlier, very comprehensive inspection of microwave ovens used in commercial food vending service in Texas. It showed that approximately eight out of 80 microwave ovens were leaking microwaves."

"In addition," said Thiel, "forty percent of microwave ovens surveyed were found to be insanitary . . . dirty. Among the units which failed, six of the eight were insanitary."

Another contributing factor to leakage is product abuse, combined with poor maintenance. In a report prepared for the International Radiation Protection Association by Thiel and Martin C. Wukasch, director of the Division of Occupational Health and Radiation Control, the abuse-maintenance factor was highlighted.

Since newer microwave oven manufacturing standards went into effect four years ago, significant reduction in the percentages of leaking ovens has been noted.

While a properly operating microwave oven is a safe appliance to use, repairs must be made correctly, said Thiel. They should be made only by individuals who are qualified to assure that the manufacturer's built-in safety is maintained after servicing.

If some accident prevents the oven from turning itself off, an individual should never reach inside, said Thiel. It's possible for a serious burn to occur. In the event of switch failure, the door should be closed immediately and the appliance unplugged from the power source.

Thiel says that microwave oven users find that this form of cooking is a new experience. "People who have them and have learned to use them greatly appreciate their benefits. They cook quickly and heat food quickly and are great time savers," he said. "It's the same with any new, modern device; people have to adjust to it."

Most of the difficulties he's heard of, said Thiel, have been related to improper techniques in preparing food or cooking in an oven. One example was the case of the individual who tried to softboil an egg in a microwave oven. It was dramatically learned that due to fast cooking properties of the oven the egg exploded because of steam generated within the egg.

Microwaves cook differently than conventional gas and electric ovens, where the air is heated, causing the food to cook from the outside to the center. Through its peculiar properties, the microwaves interact with food and cause water molecules to vibrate and become hot. Since there are water molecules in nearly everything cookable, the microwave oven cooks more or less evenly from center to surface.

The Department of Health Resources has these safety tips for oven users: 1. Clean thoroughly after each use, especially around the door seal; 2. Do not heat the oven when empty; 3. Do not tamper with interlocks; and 4. Do not slam door or lean on it.

### Track Meet Scheduled

Tracksters representing the Farwell Varsity Steers will travel to Lorenzo Saturday, March 6, for track meet competition, according to Coach Jim Yakubovsky.

Participating in the meet will be Russ Jones, high jump, 120-yard high hurdles, sprint relay; Chip Craft, 440-yard relay, 100- and 200-yard dashes; Travis Bibbs, 440 relay, 440 dash, mile relay, long jump; Mike Goettsch, 440 relay, 440 dash, mile relay, pole vault; Kent Goldsmith, pole vault, mile relay, 330-yard intermediate hurdles; Carlos Lucio, 880 dash, mile relay; Terri McCully, mile relay; Bruce Mayfield, mile run; Richard Yruegas, shot-put, discus; Terry Miller, shot-put, discus; and DeeDee Foster, shot-put, discus.

The Varsity and Junior Varsity Steerettes are to compete in a track meet at Littlefield Saturday but information on the meet was not available.

A pair of spools tacked close together on the wall will make a broom or tennis racket holder.

## Oklahoma Lane Young Farmers Have Meeting

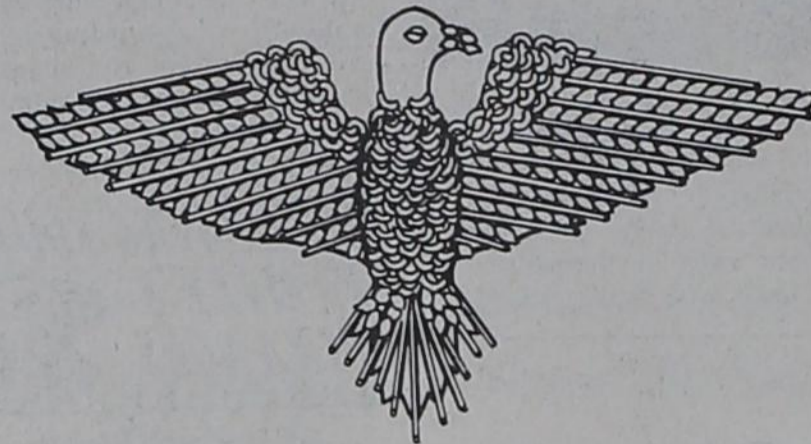

Approximately 15 farmers from the Oklahoma Lane area gathered Thursday, Feb. 26, at the Oklahoma Lane Community Center for an organization meeting for the Oklahoma Lane Chapter of Young Farmers.

Aiding with the initial meeting were members of the

Young Farmers of Dimmitt. The organization will meet at 8 p.m. CST Thursday, March 11, at the Oklahoma Lane Community Center for its second meeting with young farmers from the Oklahoma Lane area invited and encouraged to attend.

## Scrap-Craft Fun

### Bicentennial Eagle from Macaroni

The eagle, one of our national symbols, makes an impressive wall decoration, especially made with macaroni and sprayed gold.

Make a paper pattern of the eagle. To do this, mark off a sheet of paper into 1" squares. Then copy what is in the drawing, square by square, onto the paper. Trace onto heavy cardboard or plywood; cut out.

The eagle shown is made of three varieties of macaroni: elbows, shells and straight pieces.

Using ordinary white glue, apply glue along several lines for the "ribs" of the wings; then press straight pieces in place.

When all "ribs" have been glued in place, glue shell macaroni between them. Then glue elbo macaroni along the top sections of the wings.

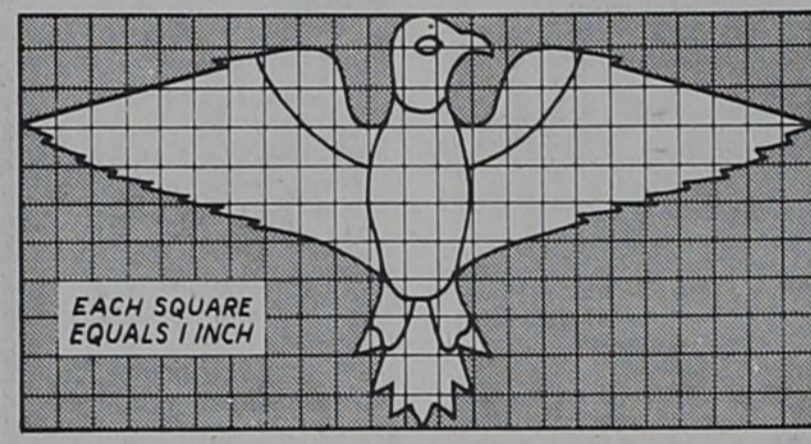

Glue straight pieces of macaroni to the tail, extending them beyond the cutout. Add shell macaroni for the talons.

Finally, cover the body with several layers of elbo macaroni; add shells for the eye and beak.

Spray paint the eagle - gold with touches of black is striking.

For more Bicentennial decorating ideas, send for the instruction sheets "Bicentennial Centerpieces and Favours" and "Bicentennial Decorations." Combined, the instruction sheets have 15 ideas to take care of all your Bicentennial needs. To get your set of instruction sheets, send 89c along with your name and address, for pattern set number 1083 to:

Area Stories, Photos - -

## Tribune Seeks Historical Data

Have you got a historical story or photograph you would like to share with your neighbors during the Bicentennial Year? If so, the State Line Tribune would like to know about it.

The Tribune plans to publish a special bicentennial edition this year chock full of historical photos, anecdotes and history of this area. In order to do this, we are asking for help from our readers.

Anyone having historical pictures or stories they would like to see published in this special edition are asked to contact or come by the Tribune, 404 Third St., Farwell; phone 481-3681.

Please do not mail old photographs; they might be lost or damaged in transit. Old photographs may either be brought by the Tribune office or a Tribune employee will pick them up. After the special edition is published, your photos will be kept at the Tribune office where you may claim them or, if requested, they will be hand delivered to you.

### School Lunch Schedule at Texico

MONDAY - Corn chip pie, buttered corn, celery stick, loaf bread, fruit, milk.

TUESDAY - Chili dogs, onions, pickles, French fries, orange juice, cooky, milk.

WEDNESDAY - Vegetable and beef stew, toasted cheese sandwiches, fruit, milk.

THURSDAY - Barbecued beef, candied sweet potatoes, coleslaw, hot rolls, applesauce cake, milk.

FRIDAY - Enchiladas, buttered corn, shredded lettuce, loaf bread, fruit salad, chocolate milk.

### What's Cooking Farwell School

MONDAY - Chicken pot pie, coleslaw with pineapple, fruit gelatin, bread, milk.

TUESDAY - Burritos with chili, grated cheese, lettuce and tomato salad, buttered corn, iced chocolate cake, bread, milk.

WEDNESDAY - Pizza, buttered hominy, lettuce and tomato salad, peach cobbler, bread, milk.

THURSDAY - Meat loaf with catsup, creamed potatoes, green beans, lettuce and tomato salad, strawberry shortcake, hot rolls, butter, milk.

FRIDAY - Hamburgers, lettuce, tomatoes, pickles, onions, French fries, cheese slices, cherry cobbler, milk.

According to an old Lapp proverb, "Love comes after the wedding."

Earn a little, and spend a little - less.

### Quickels Have New Grandchild

Mr. and Mrs. Dutch Quickel of Farwell have a new grandchild, Allan Lee Quickel, who was born at 5:30 p.m. CST Tuesday, Feb. 24, in Brea, Calif. He weighed in at six pounds, four ounces and was 19 1/2 inches long at birth. Parents of the new arrival are Bill and Linda Quickel of Brea. Paternal great-grandparents are Mr. and Mrs. I.W. Quickel, Sr. of Bovina. Maternal grandparents are Mr. and Mrs. Bill Stonehouse of Tucson, Ariz.

### In Getz Home

Visiting in the home of Mr. and Mrs. John Getz of Farwell has been her sister, Mrs. Betty Engalls of Salem, Ore. Mrs. Engalls left for her home in Oregon Wednesday morning, after a six-day visit. She had been in Tampa, Fla., for two weeks visiting with her new granddaughter, and stopped for a visit on her return trip. Mrs. Getz met her sister in Amarillo on Thursday of last week and returned her to Amarillo on Wednesday for her air flight home.

### Mrs. Perry Hosts Meet

Mrs. W.T. Perry, wife of the pastor of Hamlin Memorial United Methodist Church of Texico-Farwell, was hostess for a meeting of ministers' wives of the Llano Estacado Sub-District Friday and Saturday, Feb. 27 and 28. The overnight meeting began at noon Friday and concluded Saturday afternoon. Wives of ministers from Clovis, Portales, Elida, Melrose, Tucumcari and San Jon, N.M., were present. These included Mes. Lloyd Hughes, Mark Dorff, Clyde Stanfield, David Shaw, Charles Spooner, Joel Wood, Gene Richardson, Russell Martin and Larry Heacock. Directing the event was Mrs. Robert Templeton, wife of the Carlsbad District Superintendent. The Llano Estacado Sub-District is part of the Carlsbad District. Discussion was centered on the role of the wife of the minister. Devotionals were led by Mrs. Templeton.

JOHN THOMAS CARON

### Celebrates 2nd Birthday

John Thomas Caron, son of Mr. and Mrs. Stephen Caron of Farwell, was honored on his second birthday with a party in the home of his parents Tuesday, Feb. 24. Present for the party were his parents, and Don, Jim and Jammie Caron, Brian Black, Leslie and Cody Monk and Kristie Stanton. The honoree's grandparents are Mr. and Mrs. J. C. Corbin of Clovis and Mrs. Gladys Bostek of Lawndale, Calif. Great-grandparents are Mr. and Mrs. C.T. Ware of Clovis, Mr. and Mrs. A. H. Brownell of Huntington Beach, Calif., and the late J.F. Corbin.

**BROWNIES EARN AWARDS** - These 18 members of Texico-Farwell Brownie Troop 143 received awards during a regular meeting Tuesday, March 2, for their outstanding sales of cookies during the 1976 Girl Scout Cookie Sale. In order to receive a certificate, the Brownies had to sell at least 24 boxes of cookies each. Receiving certificates were, from left, front row: DeAnn Curtis, Rae Lynn Longo, Dana White, Sheryllyn Thigpen, Karen Snodgrass, Michelle Autrey and Twila Donaldson; second row: Rhonda Lingnau, Teresa Rose, Robin Montgomery, Melinda McMillan, Bobbi Parker, Donna Smith, Cathy Parr and Connie Parr; third row: Sandra Parker Adrienne Allen and Elayne Horner.

### Campership Awarded - -

## Brownies Receive Awards For Recent Cookie Sale

The 1976 Girl Scout Cookie Sale was completed recently and during a regular meeting Tuesday, March 2, 18 members of Texico-Farwell Brownie Troop 143 received certificates for outstanding cookie sales and Karen Snodgrass was awarded a campership. In order to be eligible for individual certificates, Brownies had to sell at least 24 boxes of cookies each.

Brownies receiving certificates were DeAnn Curtis, Rae Lynn Longo, Dana White, Sheryllyn Thigpen, Karen Snodgrass, Michelle Autrey, Twila Donaldson, Rhonda Lingnau, Bobbi Parker, Teresa Rose, Robin Montgomery, Melinda McMillan, Donna Smith, Cathy Parr, Connie Parr, Sandra Parker, Adrienne Allen and Elayne Horner. Karen Snodgrass was awarded

a campership for having sold more cookies than any girl in the Council.

Mrs. Tommie Snodgrass, chairman of the recent Cookie Sale, commented that the Brownies sold 116 cases or 1392 cookies. "We are proud of our Brownies for their effort and would like to thank everyone who supported the local girls during the Cookie Sale."

Mr. and Mrs. Ernie Kinder of Alameda Sask, Canada, were guests Tuesday and Wednesday of last week in the home of Mr. and Mrs. Elmer Scott of Farwell. Kinder and Scott were boyhood friends many years ago at Frederick, Okla.

Mr. and Mrs. Gene McClure of Tulare, Calif., visited last week in Farwell in the homes of Mrs. McClure's sister and father, Onie Bradshaw and Rufus Carter.

Weekend guests in the homes of Onie Bradshaw and Rufus Carter of Farwell were their granddaughters and great-granddaughters, Karen and Kathy Williams of Lubbock.

Mr. and Mrs. Edward Engram of Farwell returned Mrs. Lessie Tadlock to her home in Belen, N.M., February 19. While in Belen the Engrams visited in the home of Dr. and Mrs. Cloyce MacDughle, returning home Sunday, Feb. 22.

On Monday, Feb. 23, Mr. and Mrs. Earl Homer of Grand Junction, Colo., arrived in Farwell and visited in the home of Mr. and Mrs. Ed Engram until Wednesday, Feb. 28. Mrs. Homer is a cousin of Mrs. Engram.

Mr. and Mrs. Ralph Barger of Truth or Consequences, N.M., were in the Farwell area this past week visiting with friends, Barger and his wife, the former Dorothea Kloeper, are former residents of the Oklahoma Lane area. They moved to Albuquerque in 1938. This was their first visit here in about 10 years.

While here, the Bargers stayed with Mr. and Mrs. Myron Hillock and Dorothy Eason.

Saturday night dinner guests in the home of Rev. and Mrs. W. T. Perry of Farwell were Dr. and Mrs. Robert Templeton of Carlsbad, N.M. Dr. Templeton is Superintendent of the Carlsbad District of the United Methodist Church in the New Mexico Annual Conference.

A group of Farwellites took a skiing trip to Red River this past weekend. Those going were Darrell and Bernice Norton and Lori, Micky and Leslie Lunsford, Ray and Becky Norton of Amarillo, Gerald and Ann Norton, Charla and Tim, Kristi Magness, Harry and Mina Sheets, Cindy and Kayle and Rowdy Chandler. A spokesman for the group said they all had a good time. The group left Thursday and returned home Sunday.

Mr. and Mrs. Jerry Childs, Lori, Jay and Jon of Plainview were visiting in the homes of their parents, Mr. and Mrs. Elvis Childs and Mr. and Mrs. Clark Billingsley, over the weekend. Everyone enjoyed the visit.

Mr. and Mrs. Gene Snell and family of Farwell were in Carlsbad, N.M., visiting in the homes of Mr. and Mrs. Jimmy Williams and family, and the

Danny Golleher family over the weekend. While in Carlsbad the Snells went to the Carlsbad Caverns. Mrs. Snell commented that the children were "just fascinated by the caverns."

Mrs. Loucile Foster of Farwell left Tuesday, Feb. 24, for Ft. Worth and returned home Saturday, Feb. 28. She visited her daughter, Mr. and Mrs. Gus Umphress in Ft. Worth.

Mrs. Foster also went to Waco to visit the Methodist Children's home and while there she visited her aunt, Mrs. L.L. Oliver, who has recently celebrated her 92nd birthday.

"It was very dry all the way down. Ft. Worth needs rain, too. So that should make all us farmers feel better knowing we have fellow sufferers. I did enjoy looking at all the fruit trees and flowers in bloom," commented Mrs. Foster.

### Acteen Rally Set In Bovina

Sharon Eubanks, Acteen Associational Director, has reported that an Acteen Rally has been set for 7 p.m. CST Monday, March 22, at the Bovina Baptist Church.

The rally will feature the "Crusaders Quartet" of Muleshoe and other singers. Everyone is invited to attend the rally, according to Mrs. Eubanks.

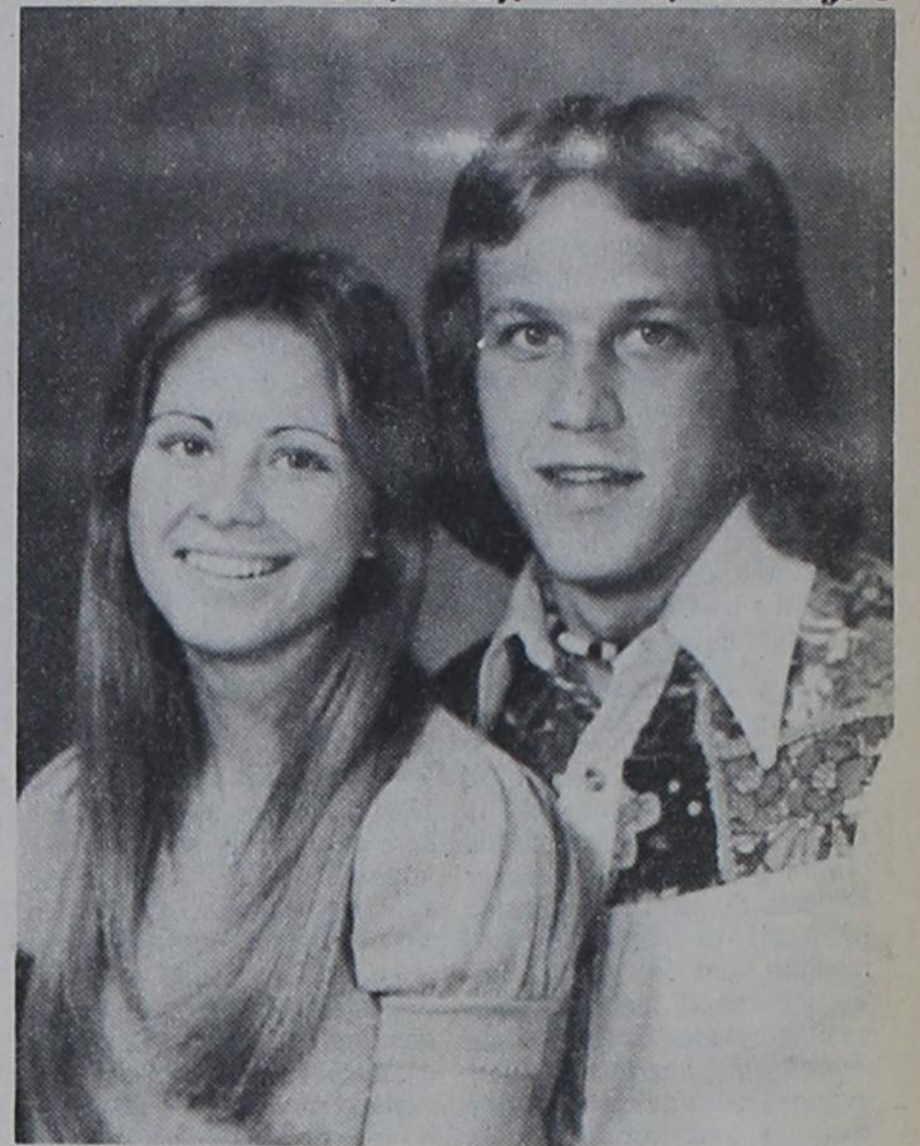

## Melanie Davison Feted With Bridal Shower

A bridal shower honoring Melanie Davison, bride-elect of Jon Green, was given Tuesday, Feb. 24, at the Lazbuddie Church of Christ building. The honoree and her mother, Mrs. John R. Davison, opened many gifts.

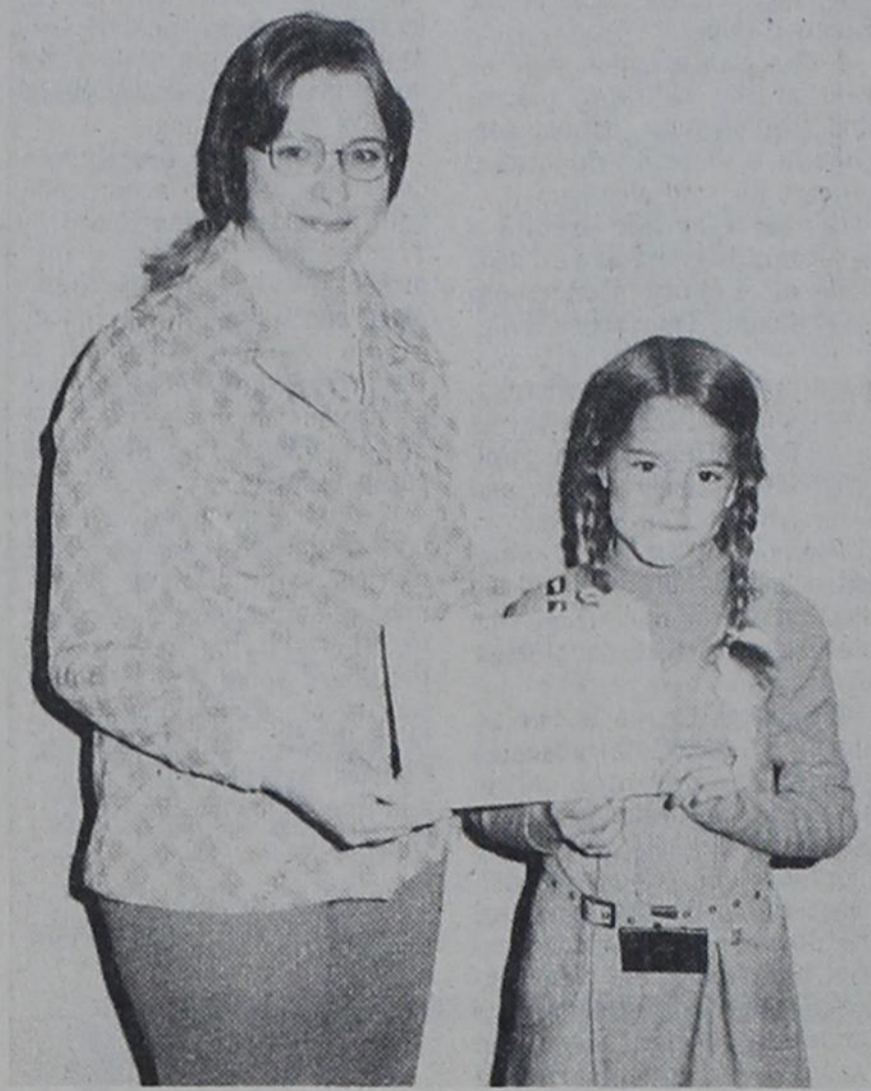

The serving table was decorated with an artificial flower arrangement in shades of apricot and yellow, the honoree's chosen colors. Apricot sherbet punch, an assortment of nut breads, and nuts were served to the guests in atten-

dance. Hostesses for the event included: Mes. Max Bush, Glen Carter, G.W. Mimms, Scotty Windham, Lee Dennis Jesko, Don McDonald, Raymond McGehee, Bill Brown, Dalton Mimms, Jack Smith, Wayne Clark and Ted Treider.

The couple will be married March 14 at the Frist Christian Church in Texhoma, Okla. They will both continue their education at West Texas State University at Canyon, where they are now students.

**APRIL WEDDING PLANNED** - Mr. and Mrs. Frank J. Doshier, Jr. of Farwell announce the engagement and approaching marriage of their daughter, Laura, to Brad Dunlap, son of Mrs. Edna Chapman of Anchorage, Alaska, and Richard W. Dunlap of Clovis. The couple will exchange vows at 7 p.m. MST Saturday, April 10, at the First United Methodist Chapel, Seventh and Mitchell in Clovis. All friends and relatives of the couple are invited to attend.

**RECEIVES CAMPSHIP** - Karen Snodgrass, member of Texico-Farwell Brownie Troop 143, won a campership during the recent Girl Scout Cookie Sale by selling more cookies than any girl in the Council. Presenting Karen her campership certificate is Mrs. James Curtis, Brownie leader.

Parmer County Extension Agent  
for Home Economics

Many mothers may enjoy canning baby food - and the process is easy and inexpensive.

Select fresh, tender vegetables. Cook them in a small amount of water, then press them through a fine sieve or food mill. Use a blender to puree the vegetables.

Add the boiling water if necessary to make the puree about the same thickness as heavy cream. Reheat to boiling and pour into hot half-pint or pint jars, leaving one-half inch head space. Insert a table knife into the jar to remove any air bubbles.

Adjust the caps and process according to the recommended time for pureed vegetables at ten pounds pressure. Processing time for strained vegetables is longer than for chopped or canned whole, because the puree is thicker and slows the rate of heat penetration.

For older babies eating chopped vegetables, the process is even easier. Simply wash, drain and chop the vegetables. Boil three minutes in enough water to cover. Pack, leaving about one-inch head space. Process as instructed for low acid vegetables.

Baby fruits such as peaches and apricots should be cooked.

For strained fruits, follow recipes for fruit puree.

Extension publication "Home Canning-Fruits, Vegetables-194," contains a section on canning purees which is applicable to canning baby food. This publication can be obtained from the county Extension office. Write or call me: Jana Pronger, County Extension Agent, Box 683, Farwell, Tex. 79325; or phone 481-3619 for this and more information on food preservation.

### Marriage Licenses

During the past week, two marriage licenses were issued by the Parmer County Clerk. Receiving the licenses were Noe Basquez and Teresa Ann Nunley, and Alexander Talbert Stowers and Hazel Lee Guinn.

## Hospital Notes

Mark Liethen of Farwell was dismissed from Memorial Hospital in Clovis Sunday, Feb. 29, after being admitted Wednesday, Feb. 25. He is reported to be doing just fine.

Renee Bartley, daughter of Mr. and Mrs. Bo Bartley of Farwell, was admitted to West Plains Memorial Hospital in Muleshoe Sunday, Feb. 29, for neck injuries. She was reported to have pulled ligaments in her neck. She was dismissed Tuesday, March 2, and her father said she is doing just fine.

Ray Mears of Farwell was admitted to West Plains Memorial Hospital in Muleshoe Monday, Feb. 23, for medical treatment and was dismissed Wednesday, Feb. 25. He is reported to be doing fine.

Mrs. Mears was admitted to the hospital in Muleshoe Saturday, Feb. 28, for medical treatment and she is reported to be in satisfactory condition.

# Sunflower Yield Hits 1,850 Lbs.

Although sunflowers did not fare too well in the 1975 market place, the new crop yielded well in dryland experiments at the USDA Research Center at Bushland. In an experiment conducted by Soil Scientist, Ordie R. Jones, maximum yield was 1,850 pounds per acre. The experiment was designed to determine the best plant population and planting date for different levels of soil moisture at planting.

Hybrid 896 sunflowers were planted on April 7, April 24, May 20, June 16, and July 15 at 10-, 14-, 18-, and 22-thousand plants per acre. Soil water contents at planting, adjusted in April to simulate wet, medium, and dry years, were 7.0, 4.9, and 3.7 inches of plant available water in the top six feet of soil. Some of this water evaporated during the dry summer and late plantings had less soil moisture than early plantings. Weeds were controlled in all plantings with a preplant incorporated application of a herbicide at 1.5 pints per acre. Head moths were controlled at flowering on April and May plantings with three applications of methyl parathion at 0.5 pound per acre made with a high-clearance sprayer.

## SKI FACTS AND FANCIES

The next time you watch a skier glide majestically down a mountain, you might give a thought to a gentleman named "Snowshoe" Thompson. He's the one who introduced the sport to Americans. It was in 1856.

When did the first skier take to the slopes? Well, a rock carving of a skier in northern Norway dates from 2,000 B.C. The earliest recorded ski competition took place in Oslo, Norway, though it did not grow into a sport until 1843.

Here's a record that will give you a boot. The highest speed ever recorded for any skier is 114.479 miles per hour by Alexandro Casse of Italy.

Making ski history is no easy task, but a gentleman named Burt Weinstein did just that by designing the first retractable ski binding. This revolutionary binding automatically returns the ski to the boot after it releases for a fall, and it contains a patented feature of retractability no competitor has matched. Aply called the Burt Retractable Ski Binding, it is manufactured by The Garcia Corporation of Teaneck, N.J.

A binding record for any skier, is the longest chair lift in the world. It is the Alpine Way, in New South Wales, Australia. It takes from 45 to 75 minutes to ascend the 3.5 miles, according to the weather.

Now that would have even given old "Snowshoe" Thompson a lift.

content at planting had the greatest effect on yield, but plant population had little effect on yield," Jones stated. Highest yields were obtained from April plantings regardless of soil water content at planting. Yields from April 7 planting on the wet, medium, and dry soil were 1,850, 1,590, and 1,500 pounds per acre. April 24 yields were 1,660, 1,590, and 1,300 pounds per acre. Yields declined drastically from plantings made later during the dry season. May 20 plantings produced 1,040, 1,110, and 990 pounds per acre on the three soil moisture levels. Plantings on June 16 and July 15 produced less than 800 pounds per acre regardless of soil moisture level in April.

According to the researcher, planting date had a big effect on seed oil content. Seed harvested from April 7 plantings contained 48 percent oil. Oil percentage dropped to 43 percent from April 24 plantings and still further to 38 percent when plantings were delayed to May 20. Jones was very enthusiastic about dryland sunflowers in the Southern High Plains. Sunflowers yielded 1,800 pounds per acre under ideal dryland conditions early in the season and down to 500 pounds per acre with very dry conditions later in the year. "If sunflower price stabilizes around 10 cents per pound, returns should be much greater than from other crops we can grow," Jones concluded.

For additional information, contact O.R. Jones, Soil Scientist, USDA Southwestern Great Plains Research Center, Bushland, Texas 79012.

## LEGAL NOTICES

### ELECTION ORDER AND NOTICE

#### THE STATE OF TEXAS COUNTY OF PARMER

On this 9 day of February, 1976, the Board of Trustees of Farwell Independent School District convened in regular session, open to the public, with the following members present, to-wit: Gilbert Kaltwasser, President; Ted Magness, Wilbert Kalbas, R. J. Garner, Charles Aycock, Joe Hughes and the following absent: Billy Mayfield, constituting a quorum and among other proceedings had by said Board of Trustees was the following:

WHEREAS, the term of office of Gilbert Kaltwasser, Ted Magness, and Wilbert Kalbas and a Two Year unexpired term of Charles Aycock, due to his resignation, members of the Board of Trustees of this School District will expire on the first Saturday in April, 1976, said first Saturday being April 3, 1976, and on said date a trustee election will be held in said School District.

WHEREAS, it is necessary for this Board to pass an order establishing the procedure for filing for and conducting said trustee election;

THEREFORE, BE IT ORDERED BY THE BOARD OF TRUSTEES OF FARWELL INDEPENDENT SCHOOL DISTRICT:

- 1. That an election be held in said School District on April 3, 1976, for the purpose of electing to the Board of Trustees of said School District Three Trustees for a three year term and one trustee for a two year term.
- 2. That all requests by candidates to have their

names placed upon the ballot for the above mentioned election shall be in writing and signed by the candidate and filed with the secretary of the Board of Trustees at the superintendent's office not later than 30 days prior to the date of said election.

All candidates shall file with said application the loyalty affidavit required by Art. 6.02 of the Election Code.

The Secretary of this Board of Trustees shall post on the bulletin board in the building where the Board of Trustees meets the names of all candidates that have filed their applications in accordance with the terms and provisions of this Order, and said Secretary shall otherwise comply with the terms and provisions of Art. 13.32 of the Election Code.

3. That said election shall be held at the following places, and the following named persons are hereby appointed officers for said election:

(a) In election precincts numbered Farwell ISD at County Courtroom County Courthouse Building, in Farwell, Texas, in said School District, with Albert Smith as Presiding Judge and Mrs. Albert Smith and Alvenia Cox, Clerks.

The polls at the above designated polling places shall on election day be open from 7:00 o'clock a.m. to 7:00 o'clock p.m.

4. Bonnie Warren is hereby appointed Clerk for absentee voting. The absentee voting for the above designated election shall be held at County Clerk's Office, County Courthouse within the boundaries of the above named School District and said place of absentee voting shall remain open for at least eight hours on each day for absentee voting which is not a Saturday, a Sunday, or an official State holiday, beginning on the 20th day and continuing through the 4th day preceding the date of said election. Said place of voting shall remain open between the hours of 8:00 AM and 5:00 PM on each day for said absentee voting. The above described place for absentee voting is also the absentee Clerk's mailing address to which ballot applications and ballots voted by mail shall be sent.

Absentee voting, both by personal appearance and by mail, shall be by paper ballots and shall be canvassed by a special canvassing board, and Albert Smith, as Presiding Judge, Mrs. Albert Smith and Alvenia Cox, as Clerks, are hereby appointed the Special Canvassing Board for said election.

6. The manner of holding said election shall be governed, as nearly as may be, by the Election Code of this state, and this Board of Trustees will furnish all necessary ballots and other election supplies requisite to said election.

7. Immediately after the votes have been counted, the officers holding said election shall make and deliver the returns of said election and perform all other duties as provided by the Election Code.

8. The Board of Trustees shall give notice of said election, and this combined Election Order and Notice shall serve as Notice for said election. The President of the Board of Trustees is hereby authorized and instructed to post or cause to have posted this said combined Election Order and Notice at three public places where notices are customarily posted in this school district, and said posting shall

be made at least 20 days before the date of said election.

The President shall also cause a copy of this combined Election Order and Notice to be published one time in a newspaper of general circulation in the county where this school district is located. Said publication shall be not more than 30 days nor less than 10 days before the date of said election.

It is further found and determined that in accordance with an order of the Board of Trustees, the Secretary posted written notice of the date, place and subject of this meeting on the bulletin board located in the central administrative office of this school district, a place convenient and readily accessible to the general public, and said notice, having been so posted, remained posted for at least 72 hours preceding the scheduled time of said meeting.

It is further found and determined that in accordance with an order of the Board of Trustees, the Secretary furnished a notice of the date, place and subject of this meeting to the county clerk of Parmer County, Texas, the county in which most, if not all, of this school district's pupils reside.

The above order being read, it was moved and seconded that the same do pass. Thereupon, the question being called for, the following members of the Board voted AYE: Gilbert Kaltwasser, Ted Magness, Wilbert Kalbas, R. J. Garner, Charles Aycock, Joe Hughes; and the following voted NO: None.

Gilbert Kaltwasser  
President, Board of Trustees

ATTEST:  
Wilbert Kalbas

## ORDEN Y AVISO DE ELECCION

### EL ESTADO DE TEXAS CONDADO DE PARMER

En este dia 9 de Febrero, de 1976, el Consejo de Administradores del Distrito Escolar Independiente de Farwell se reunio en sesion regular, abierta al publico, con los siguientes miembros presentes, a saber: Gilberto Kaltwasser, Presidente; Ted Magness, Wilbert Kalbas, R. J. Garner, Charles Aycock, Joe Hughes y los siguientes ausentes: Billy Mayfield constituyendo un quorum y entre otras actas tomadas por dicho Consejo de Administradores se encuentra la siguiente:

EN VISTA de que el regimen de Gilberto Kaltwasser, Ted Magness, Wilbert Kalbas, y el regimen de Charles Aycock de dos anos que no se acabaron de servir por que resigno, miembros del Consejo de Administradores expira el primer sabado de abril de 1976, dicho primer sabado siendo el 3 de abril de 1976, y en dicha fecha se llevara a cabo una eleccion de administradores en dicho Distrito Escolar.

EN VISTA de que es necesario que este Consejo pase una orden estableciendo el procedimiento para archivar y conducir dicha eleccion de administrador;

POR LO TANTO, SE ORDENA POR EL CONSEJO DE ADMINISTRADORES DEL DISTRITO ESCOLAR DE FARWELL:

- 1. Que se lleve a cabo una eleccion en dicho Distrito Escolar el dia 3 de abril, de 1976, para el proposito de

de votacion se mantendra abierto de las 8:00 AM a las 5:00 PM horas cada dia de votacion ausente. El lugar arriba descrito para votacion ausente es tambien la direccion postal del secretario de votacion ausente a la cual se podran enviar por correo solicitudes de boletas y tambien las boletas con votos.

5. Votacion ausente, por presentacion personal o por correo, se hara en boletas electoras de papel y sera escrutada por un consejo especial de escrutinio, y Albert Smith, como Juez Directivo, Mrs. Albert Smith, Alvenia Cox como Ayudantes, son nombrados por la presente como el Consejo Especial de Escrutinio para dicha eleccion.

6. La forma de llevar a cabo dicha eleccion sera gobernada, en todo lo posible, por el Codigo Electoral de este Estado, y este Consejo de Administradores suministrara todas las boletas necesarias asi como tambien otros materiales de votacion necesarios para dicha eleccion.

7. Inmediatamente despues de haberse contado los votos, los oficiales a cargo de dicha eleccion deberan completar y entregar los resultados de dicha eleccion y ejecutar todos los deberes como esta provisto por el Codigo Electoral.

8. El Consejo de Administradores dara aviso de dicha eleccion, y esta combinacion de Orden de Eleccion y Aviso servira como Aviso de dicha eleccion. Al Presidente del Consejo de Administradores se le autoriza y ordena por la presente a colocar o causar que se coloque dicha combinacion de Orden de Eleccion y Aviso en tres lugares publicos en donde se acostumbra colocar avisos en este distrito escolar, llevandose a cabo dicha colocacion por lo menos 20 dias anteriores a la fecha de dicha eleccion.

El Presidente tambien causara que una copia de esta combinacion de Orden de Eleccion y Aviso sea publicada una vez en un periodico de circulacion general en el condado donde se encuentra este distrito escolar. Dicha publicacion se hara no mas de 30 dias ni menos de 10 dias anteriores a la fecha de dicha eleccion.

Ademas se encuentra y determina que de acuerdo con una orden del Consejo de Administradores, el Secretario coloco aviso escrito de la fecha, lugar y proposito de esta junta en la tabilla de avisos situada en la oficina

central administrativa de este distrito escolar, un lugar conveniente y facilmente accesible al publico en general, y dicho aviso, habiendose colocado en esta forma, permanecio colocado por lo menos 72 horas anteriores a la hora programada para dicha junta.

Ademas se encuentra y determina que de acuerdo con una orden del Consejo de Administradores, el Secretario coloco aviso escrito de la fecha, lugar y proposito de esta junta en la tabilla de avisos situada en la oficina central administrativa de este distrito escolar, un lugar conveniente y facilmente accesible al publico en general, y dicho aviso, habiendose colocado en esta forma, permanecio colocado por lo menos 72 horas anteriores a la hora programada para dicha junta.

Ademas se encuentra y determina que de acuerdo con una orden del Consejo de Administradores, el Secretario coloco aviso escrito de la fecha, lugar y proposito de esta junta en la tabilla de avisos situada en la oficina central administrativa de este distrito escolar, un lugar conveniente y facilmente accesible al publico en general, y dicho aviso, habiendose colocado en esta forma, permanecio colocado por lo menos 72 horas anteriores a la hora programada para dicha junta.

Habiendose dado lectura a lo anterior, se hizo la mocion y fue secundada para ser adoptada. Despues al llamado sobre esta pregunta, los siguientes miembros del Consejo votaron AFIRMATIVAMENTE: Gilberto Kaltwasser, Ted Magness, Wilbert Kalbas, R.J. Garner, Charles Aycock, Joe Hughes; y los siguientes votaron NEGATIVAMENTE: None.

Gilbert Kaltwasser  
Presidente, del Consejo de Administradores

CERTIFICA:  
Wilbert Kalbas  
Secretario del Consejo de Administradores

# THE TOP 3 CORN HYBRIDS FOR THE SOUTH PLAINS

Everyone knows the top corn hybrid for this area. PIONEER brand 3369A is the most planted hybrid in Texas, Oklahoma and New Mexico. Not everyone realizes, however, that there are other PIONEER hybrids that do as well as this famous one... even beat it in some respects. You should consider them, too. They'll help you get exactly the right hybrid mix for whatever mother nature has in store for this season:

Number two in popularity with Southwestern farmers... 3306 is a hybrid with strong stalks and outstanding ear retention. Especially good in light soils, it has good drought and heat tolerance and is a good performer on irrigated or non-irrigated land.

An exciting new hybrid that has an even greater yield potential than 3369A. The added yield potential comes, in part, from a little later maturity while having the root and stalk strength to stand until harvest. It stays green later, too. This one can add significant profit to your corn crop.

Another new, good yielding hybrid. It's a little earlier than 3369A with exceptionally fast dry down. It has made from \$9 to \$12 more profit per acre than ordinary hybrids because of its fast dry down. It has long slender ears on small, hard cobs... really great for combining.

PIONEER BRAND SEEDS  
PIONEER HI-BRED INTERNATIONAL, INC.,  
SOUTHWESTERN DIVISION  
P. O. Box 788, Plainview, Texas 79072

Performance of seeds or the crop produced therefrom may be adversely affected by factors beyond our control including environmental conditions, insects and diseases. The limitation of warranty and remedy attached to each bag of Pioneer brand seed is a part of the terms and conditions of the sale thereof.

Pioneer is a brand name. Numbers identify varieties. ® Reg. Trademark of Pioneer Hi-Bred International, Inc.

## Arthritis, Rheumatism Sufferers! Time Proven ICY-HOT PUTS PAIN TO SLEEP "Without taking Pills"

If you're one of the many, many folks who have "tried everything"—taken pills by the thousand, capsules until you've gagged on them, spoonfuls of evil-tasting liquids until you can't stand the sight of your medicine cabinet, then it's time you get ICY-HOT!

ICY-HOT has been making friends for just about 50 years.

You don't "take" ICY-HOT. Instead you just rub its creamy balm over the affected joints or muscles. That's all there is to it. ICY-HOT must get you the results you want—blessed temporary relief from the pain of arthritis, bursitis, rheumatism, soreness, stiffness. You begin to sleep peacefully again. You can actually feel the pain lessening. If you don't have relief in 24 hours, we'll return your money.

Yes, you must be 100% thrilled with the speed with which ICY-HOT puts pain to sleep, or we'll return the purchase price without question. \$3.00 for 3 1/2 oz. jar, or \$5.00 for 7 oz. jar.

**Sheriff's Report**

The office of Parmer County Sheriff Charlie Lovelace this week was investigating extensive damage which was done Sunday night, Feb. 29, to highway signs along U.S. 60 from Farwell to Friona.

Lovelace said the investigation had determined that a semi-truck was used to run over "at least" 20 highway signs and reflectors between the two cities. Except for one sign, all the damage was on the west side of the highway. Lovelace said. The total damage estimate was about \$500.

The sheriff's department investigated three incidents of glass breakage in Bovina last week. A pellet gun was used in each incident, Lovelace said. Glass breakage was reported at Browns About Dress Shop, Bovina Beauty Shop and a telephone booth.

A spokesman for the Santa Fe Railroad last week reported the theft of 38 new cross ties at Farwell.

Friona authorities turned over two juvenile boys to the sheriff this week. The pair, age 15 and 16, were held in connection with a burglary of a Friona drive-in restaurant Sunday night, Feb. 29. The 15-year-old was released to his parents; and the 16-year-old, who was already on probation as a juvenile delinquent, was still being held at mid-week.

**Meet Postponed**

The Texico School Board's regular meeting which was scheduled for Tuesday, March 9, has been postponed until Friday, March 19, according to Supt. Jim Pierce. He said the postponement was necessary since he would be out of town attending a budget workshop on March 9.

**Two Fined**

Two persons were fined during recent appearances before Parmer County Judge Paul Fortenberry.

David Garta Phelps was fined \$100 plus court costs Monday, March 1, on a charge of possession of less than two ounces of marijuana.

Conrad Bueno Cortez Jr. was fined \$100 plus court costs Tuesday, March 2, on an evading arrest charge.

**Remove Food, Shelter - -**

**Rats Survive With Human Help**

(EDITOR'S NOTE: The following news release was prepared by the New Mexico Environmental Improvement Agency. It concerns a problem which has been detected in Texico, Clovis and some other area cities - the Norway rat. The release explains some of the steps that can be taken in rat control.)

Many New Mexicans are unknowingly providing a safe home for one of history's most destructive pests, the Norway rat. This rodent costs Americans about \$500 million yearly by contaminating food, spreading disease, destroying property, and causing electrical fires.

By making food, water, and shelter readily available to rats, many residents and businessmen are helping this serious rodent pest survive in an otherwise hostile environment. Garbage on the ground, uncovered garbage cans, animal food in open containers, and unneaten pet food are all available to rats as food.

A Norway rat can survive on as little as one ounce of food and water per day. A garbage-filled 55-gallon barrel can feed dozens of rats in banquet style. Leaky faucets, water puddles formed by over-watering yards and gardens, and rain puddles provide good sources of much needed water for the rats. Piles of lumber on the ground, abandoned cars and appliances, old dilapidated sheds, and other piles of junk can serve as shelter for rats, who will either live in these items or will burrow under them.

The Norway rat has a high reproductive rate. Females can produce a litter of six to ten young at intervals of three to four weeks. It's possible, given ideal conditions, for a pair of adult rats to produce 1,500 descendants within a year's time. A high mortality rate from disease and predators helps keep rat populations in check, yet man is both the rat's best friend and worst enemy. It is man who continues to feed and shelter rats; it is man who can perform the best rat control methods to reduce and eliminate rat populations.

Rat control to most people means poisoning rats with merely a small box of poi-

soned bait -- nothing more. Poisoning rats will only kill those rats who eat enough poison to kill them. Similarly, clubbing rats, gassing them with cyanide dust, or drowning them will kill only a few rats.

The Statewide Rat Control Program of the New Mexico Environmental Improvement Agency was established to provide a comprehensive means of rat control in the state. Funded by a grant from the U.S. Department of Health, Education, and Welfare, the program has surveyed most of the state's largest cities and has found significant rat problems in Albuquerque, Clovis, Texico, Raton, Tucumcari, and Portales. Control efforts in Raton, Tucumcari and Portales have reduced the rat infestations to levels easily maintained by local personnel. A comprehensive house-to-house survey provides the program workers with information on rat infestations and causative conditions.

In program target areas in Albuquerque's South Valley, Clovis, and Texico, poisoned bait has been set out at places showing active rat infestations. This bait is an anticoagulant poison that causes internal bleeding in the rat after three to seven days of repeated feeding.

Before any rat control work is begun at a residence, permission is obtained from the resident and precautions are advised concerning the bait and other rat control methods to be used. Although these anticoagulant baits are relatively safe to use in residential areas and around livestock, residents are warned to keep their children and pets away from the bait boxes. The bait is set out in locked metal bait boxes clearly marked "POISON" and "DO NOT TOUCH." HEED THESE WARNINGS! The bait boxes are most effective if left undisturbed.

Killing rats by poisoning them is only an initial step in rat control. To permanently get rid of rats, their environment must be changed so that they no longer have food, water and shelter available to them. One of the best ways to eliminate their food is to use metal garbage cans (32-gallon size) with tight-fitting lids for

household garbage. Properly used, these cans also help reduce fly problems, as well as deny food to rats. Placing the cans on a wooden or metal rack at least 12 inches off the ground prevents the can bottoms from rusting out and makes cleanup around the cans easier -- rats love spilled garbage.

Changing the rats' environment to their disadvantage means improving it for people's advantage. Getting rid of piles of junk, abandoned cars and appliances, and weeds will take away hiding places for rats. Lumber can be stacked on a rack at least 18 inches off the ground so that rats will not hide or burrow under it. Dilapidated sheds and vacant buildings are hazardous places for children to play, but are swell homes for rats -- they should be demolished and the rubble removed.

Animal feed for livestock and pets should be stored in rat-proof containers -- metal cans with lids -- if not used immediately for feeding. One of the most important food sources for rats in rural areas is animal feed. Rats also will take unneaten food from pets' food dishes -- almost right from under a dog's nose. Pets should be fed indoors or should be given an amount of food they can easily consume in one feeding.

The Rat Control Program is working closely with the Solid Waste Section and Regional Offices of the EIA and with municipal and county governments to improve refuse collection services and to reduce rat infestations at local landfill sites.

Organized neighborhood cleanup campaigns can be instrumental in reducing the amount of unwanted large items (lumber, appliances, etc.) serving as actual or potential rat shelter. The Rat Control Program has initiated such cleanup projects in Clovis, Albuquerque, and Texico. In Texico about 900 cubic yards of junk were removed from the alleys, lots, and yards of that city. Such organized campaigns may rely on local government support in supplying trucks to haul the refuse away (as in Albuquerque and Clovis) or may be entirely conducted by volun-

teers, as happened in Texico.

The removal of nearly all the rat shelters may have more of an impact on rat populations than would a year's efforts at rat poisoning. This is the most important fact about rat control -- remove the food, water, and shelter, and you get rid of rats. It's that simple.

For further information contact the local Environmental Improvement Agency office or the Insect and Rodent Control Section, General Sanitation Division, Environmental Improvement Agency, P.O. Box 2348, Santa Fe, N.M. 87503, or phone (505) 827-2693.

**Chamber To Meet**

The Texico Chamber and Planning Commission will finalize annual banquet plans during a regular meeting at 6:30 p.m. MST Monday, March 8, in the community hall, according to Louise Engram. The chamber banquet is scheduled for April 17.

**Crusaders To Sing**

The "Crusaders," a singing group from Muleshoe will be presenting special music at 7 p.m. CST Sunday, March 7, at the Oklahoma Lane Methodist Church.

According to Rev. Oran Smith, pastor, everyone is invited to attend and hear the Crusaders perform.

**REC COMMITTEE** - The 1976 director nominating committee of Deaf Smith Rural Electric Cooperative includes from left to right: George H. Book, Dimmitt; Floyd Brown, Bootlegg; Carl Schlenker, Rhea; and Jean Antony, Friona. Not pictured were: Gerald McCathern, Hereford; G. W. Duncan, Hereford, and Donald Wright, Dimmitt.

**Deaf Smith REC Meet Saturday**

Capital credit checks totaling \$217,588 will be paid back to those members of Deaf Smith Rural Electric Cooperative who purchased electricity during 1963 when members met for the 38th annual meeting. Saturday, March 6, at 5 p.m. CST in the Hereford Bull Barn.

A free barbecue dinner, served by the Catholic Daughters Society of Nazareth, will be served. Following the meal a business meeting will be held when three directors will be elected to the board.

The nominating committee will submit the following names for election: Parmer County, Sloan Osborn and Floyd Reeve; Castro County,

Noel Gollehon and Donald Wright; and Deaf Smith County, Tom Draper and Clark Andrews.

Serving on the member service committee and planning the annual meeting were Mr. and Mrs. Pat Robbins, Mr. and Mrs. G.W. Duncan, Mr. and Mrs. Edward Allison, Mr. and Mrs. Alfred Smith,

Mr. and Mrs. Jerry Roberts, Mr. and Mrs. Richard Connell and Mr. and Mrs. Dan Petty.

Others were Mr. and Mrs. Jerry Brown, Mr. and Mrs. Floyd Reeve, Mr. and Mrs. Larry Potts, Mr. and Mrs. J. Don Gallman, Mr. and Mrs. Floyd Schulte, Mr. and Mrs. Anthony Acker and Mr. and Mrs. C.F. Homfeld.

## On The Farm In Palmer County

By R. MACK HEALD  
County Agent

After having served 18½ years as director of the Texas Agricultural Extension Service and 40 years as a professional agricultural educator, Dr. John E. Hutchison has retired, effective February 29.

In announcing Hutchison's decision to retire, Dr. Jack K. Williams, president of the Texas A&M University System, said, "There is no way to estimate the value of the tremendous job John Hutchison has done. His service to the people of this state has been of the highest order. His dedication to the Extension Service and its basic role is total, and his commitment deep. We wish him every happiness in his retirement."

At present, Hutchison has the longest continuous span of service as Extension director in the nation.

Williams also announced that Dr. H. O. Kunkel, dean of agriculture at TAMU, will serve as acting director of the Texas Agricultural Extension Service.

"John Hutchison has been the architect of what has become the finest Cooperative Extension Service in the U.S.," added Kunkel. "Texas and its people will benefit from his efforts for a long, long time to come. His work, his dedication, his effectiveness simply have been great."

Clyde H. Wells, chairman of the Texas A&M University System Board of Regents, noted, "When John E. Hutchison retires as director of the Texas Agricultural Extension Service February 29, our state will be losing one of its greatest public servants. His ability to organize and administer, his vision, his loyalty, his temperance and his love for mankind have made him the strongest among agricultural Extension directors in America. He will be missed indeed."

Honors and public recognition given to Hutchison's leadership are many. In 1961 he was awarded the Superior Service Award from the U.S. Department of Agriculture. He is a life member of the Texas Pecan Growers Association and a member of Phi Kappa Phi and Alpha Zeta scholastic fraternities. He is cited in "Who's Who in American Colleges and Universities" (1970-71 edition) and "Who's Who in

the South and Southwest" (1963-64 edition). He has served as president of the Professional Agricultural Workers of Texas as well as president of the Bay City Rotary Club and chairman of the administrative board of the First United Methodist Church of Bryan.

At the national level, Hutchison has served many key roles related to Extension education. He has been a member of the Senate of the Association of State Universities and Land-Grant Colleges and currently serves on the Extension Committee on Organization and Policy (ECOP), the major policy-making body for Cooperative Extension Services, which functions as a part of the Association. For 12 years he served as a member of the Legislative Subcommittee of ECOP and twice served as chairman of the Southern Regional Extension directors group, representing 13 states. He is also a member of the Executive Board of the Adult Education Association of the U.S.

Hutchison's career in Extension began as a county agricultural agent in Matagorda County in 1945. Prior to this, he taught vocational agriculture in the Missouri City and Bay City high schools. In 1949 he was appointed Extension horticulturist with headquarters at College Station and served in that capacity until 1954, at which time he was promoted to the administrative position of state agricultural leader. In September 1957, he was named Extension director.

He earned the B.S. in dairy science, the M.S. in horticultural science and the M.Ed. in agricultural education, all at Texas A&M University where he was named a distinguished student. He received the Ph.D. degree in adult education from the University of Chicago.

Texas Extension program areas in agriculture, home economics and related subjects have tripled during Hutchison's administration. Educational programs are currently conducted in 72 subject areas.

Hutchison has always felt strongly about involving people at the local level in determining program emphasis. "There is no other way to be sure that the Extension Service is pro-

viding educational assistance at the highest level unless its resources focus sharply on the areas of greatest interest and concern to the people we are commissioned to serve," he has said.

He has insisted on the development of active program building committees in each county to insure citizen involvement in the planning, implementation and evaluation of Extension education at the local level. Such committees are composed of broad representation from each segment of the population.

In addition to his title as director of Extension, Hutchison also is associate dean in the TAMU College of Agriculture and a professor in the Department of Agricultural Education. He has taught interdisciplinary graduate-level courses in educational administration, an endeavor he will continue to some extent during his retirement.

Lubbock High Plains farmers who grew oilseed sunflowers in 1975 probably will be faced with potentially severe volunteer sunflower problems this crop season.

Dr. James Supak, Lubbock-based area agronomist for the Texas Agricultural Extension Service, says that the volunteer seed from last year's 325,000 acres of sunflowers had little chance to germinate or rot during the rather dry fall and winter months. He believes they'll begin cropping up in March when the soil warms up, and growers will be faced with varying degrees of volunteer problems.

Many growers already have attempted to reduce this weed problem by shredding and disking sunflower stubble shortly after harvest to encourage fall germination and eventually winter killing of volunteer seedlings. Others have deep-broken their fields with intent of burying the seed too deep for germination, thus causing them to gradually rot in the soil.

Virtually the entire 325,000 acres planted to sunflowers have been or will be rotated to other crops. Farmers will need to seriously consider the best weed control methods for their farm situation.

Some of the 1975 sunflower acreage is being double-cropped with wheat. Invariably, volunteer sunflowers emerged with the wheat seedlings but were destroyed by the first freeze in the fall. The second volunteer crop will probably emerge in March when soil temperatures reach or exceed 50° Fahrenheit. Unlike the fall crop, the volunteer sunflower seedlings that emerge in March will probably be much more tolerant to cold temperatures and will have to be controlled with herbicides.

The agronomist recommends from 0.5 to 1.0 pounds of 2, 4-D applied after the seedlings emerge. This, he says, should not only control sunflowers but will also eliminate other winter weeds such as tansey mustard.

Volunteer sunflower control in field crops such as cotton and soybeans poses a more serious problem. In 1975, Dr. John Abernathy, weed researcher with the Texas Agricultural Experiment Station in Lubbock, tested a number of preplant incorporated (PPI), pre-emergence (PE) and post-emergence herbicides to determine their effectiveness in controlling volunteer sunflowers. None of the 25 treatments tested provided satisfactory control. The best treatment (Caparol plus MSMA applied as a post-directed spray) controlled less than 50 percent of the volunteer seedlings.

With these crops, growers will have to depend largely on mechanical tillage to destroy volunteer plants. Where feasible, it would be advantageous to delay listing until after soils begin to warm up in March. If rainfall occurs before this time, part of the volunteer crop will emerge and can be destroyed by the listing operation. After the soil is stirred during listing, more seed will germinate and emerge after a rain or a preplant irrigation. These can be destroyed with knives or rolling cultivation prior to planting.

Additional seedlings probably will emerge after the soil is stirred during planting. Cultivation or a post-emergence directed application of Caparol plus MSMA can be used to kill many of these seedlings. Since sunflower seedlings will tend to emerge simultaneously with cotton, the post-directed herbicide treatment may be of limited value except where cotton is planted on the bed.

In grain sorghum and corn, herbicide treatments were found to be more effective in controlling volunteer sunflowers. According to Abernathy's conclusions, Milogard (propazine) incorporated prior to planting with a rolling cultivator at a rate of 2.5 pounds per acre (on clay loam and sandy loam soils) provided about 50 percent control. Similar results were obtained with pre-emergence applications of Loro plus Milogard. The best results, however, were obtained with post-emergence applications of AATrex (altrazine) plus oil and Banvel. Both of these treatments controlled from 80 to 100 percent of the volunteer crop.

AATrex (altrazine) incorporated prior to planting, applied pre-emergence or mixed with oil and applied over the top after emergence of seedlings provided 90 to 100 percent control of sunflowers in corn.

**ONE HURT** - One person was taken to a hospital after this 1971 model pickup and a 1975 model pickup collided about 11 a.m. CST Friday, Feb. 27, on U.S. 70-84 about 100 feet west of the east Farwell city limits. Elmer Ray Martin, 64, of Abernathy, driver of the pickup shown, was taken by Farwell's emergency vehicle to the Muleshoe hospital. Investigating Highway Patrolman Jim Bishop said Martin had no visible injuries but was complaining of a pain in his chest. Bishop said the accident occurred when Martin's eastbound pickup which had started turning left turned in front of the 1975 westbound pickup driven by Ernest W. Currie, 38, of Route 1, Farwell, and the two vehicles collided. Martin was cited for failure to yield right of way while turning left. The Martin pickup received fairly heavy damage and the pickup driven by Currie received moderate damage.

### Welding Clinic Slated March 9

Banvel applied post-emergence provided equally effective control. Bladex applied pre-emergence and Evik plus surfactant applied as a post-directed spray also provided satisfactory sunflower control in corn.

It was of interest to note that after Dr. Abernathy destroyed his test plots in July, no additional volunteer seedlings emerged. This indicates that all the volunteer seed already had either germinated or rotted.

### FIRE CALLS

The Farwell Volunteer Fire Department answered one call during the past week. On Friday, Feb. 27, the emergency vehicle was called to Farwell Fertilizer to take an accident victim to the Muleshoe hospital.

Texico reports no calls were received during the week.

Marriage is like the Army. Everybody complains, but you'd be surprised at how many re-enlist.

Everyone interested is invited to a free short course in how modern welding equipment can save them valuable time and money on repair jobs. The short course will include a welding demonstration covering all procedures and techniques.

The free welding clinic is being sponsored by Farwell Hardware and will be conducted at Farwell School Vocational Agriculture Shop at 8 p.m. CST Tuesday, March 9. The clinic is being held in cooperation with a manufacturing company which will be providing the equipment.

Those who attend will be invited to try the modern welding equipment and will learn overhead and vertical welding in one evening. Coffee

Leaves and dandelions are good in salads and can be cooked as well. Some people prefer them to spinach, and they're just as rich in vitamins and minerals.

and doughnuts will be served and there will also be a drawing for door prizes.

## STATE LINE TRIBUNE

Area Vocational School - -

# Students Apply Skills In Constructing Home

Students at the High Plains Area Vocational-Technical School in Clovis recently put the finishing touches on a residential dwelling they have been building for the past seven months.

Construction of the home at 1308 Lexington Road, Clovis was a cooperative effort involving the school and Home Lumber Co., sponsor of the residence. The project has provided some 53 students with an opportunity to apply the knowledge they have gained in several of the school's programs.

O.B. Coffey, vocational director, said, "Our philosophy is the students learn by doing." He said the vocational programs concentrate 85 per cent of their effort on practical application and only 15 per cent on theory.

Students were involved in all phases of the home's construction except heating and plumbing. This is the fourth house to be built by the school, and instructors said work will begin on another house as soon as plans are drafted and a sponsor found.

Sponsors furnish all ma-

terials and the property for the homes. Triangle Home Center of Clovis sponsored the first two houses and the Clovis Rotary Club sponsored the third.

The latest home features push-button faucets which the home owner can preset for desired temperature and flow. The all-brick, 1800-square foot residence has three bedrooms, two full baths and a double garage.

The house has already been sold by the sponsor. Proceeds from the sale after paying the sponsor for all material and property costs will be used for tool replacement and improving the school's vocational programs, Coffey said.

Four separate programs have been involved in completing the home. The carpentry program, which currently has 18 students, is a full time course of study lasting a year and a half. Instructor is Bill Griggs.

The 12-month bricklaying course, instructed by Donald Clifton, also is a full time program with 13 students now enrolled.

Two of the programs, in-

terior decorating and electrical, are part time night courses lasting one semester and taught by Eula Mae Madole and Ed Burrage, respectively. Twelve students are in the electrical program and 10 in interior decorating.

Subcontractors on the house were: K & W Sheet Metal; McCormick's Drapery; Mario Quintana, plumbing, and Martin Tile.

## Quick Quiz!

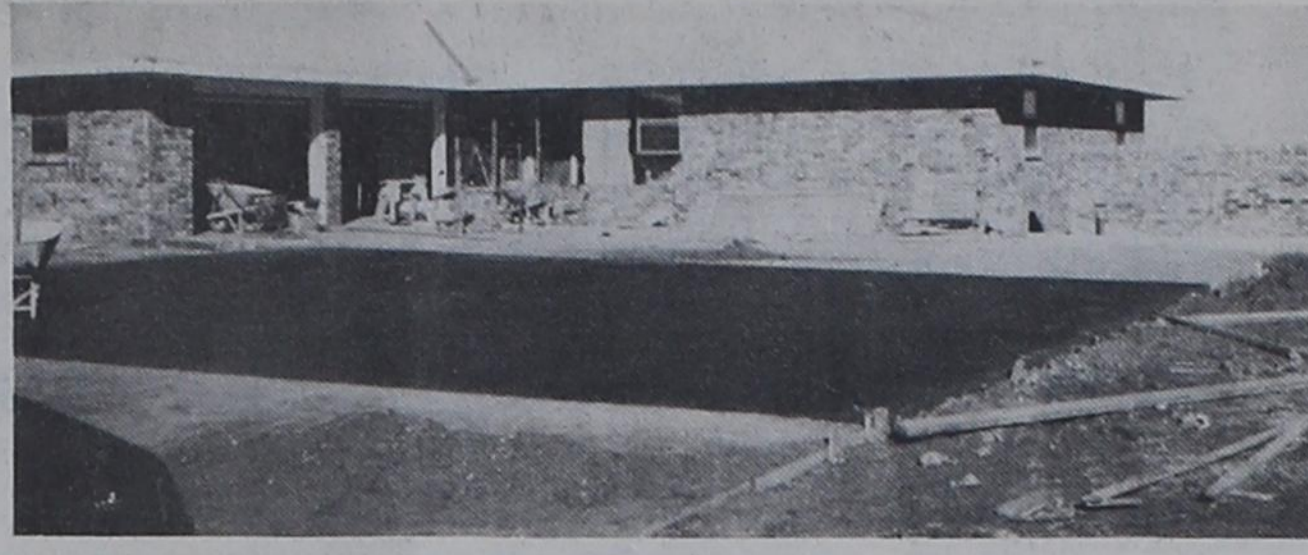

1. Silversmiths work with silver that is 999 parts silver to 1 part of another metal. This is called (a) sterling silver (b) fine silver (c) Dutch silver?

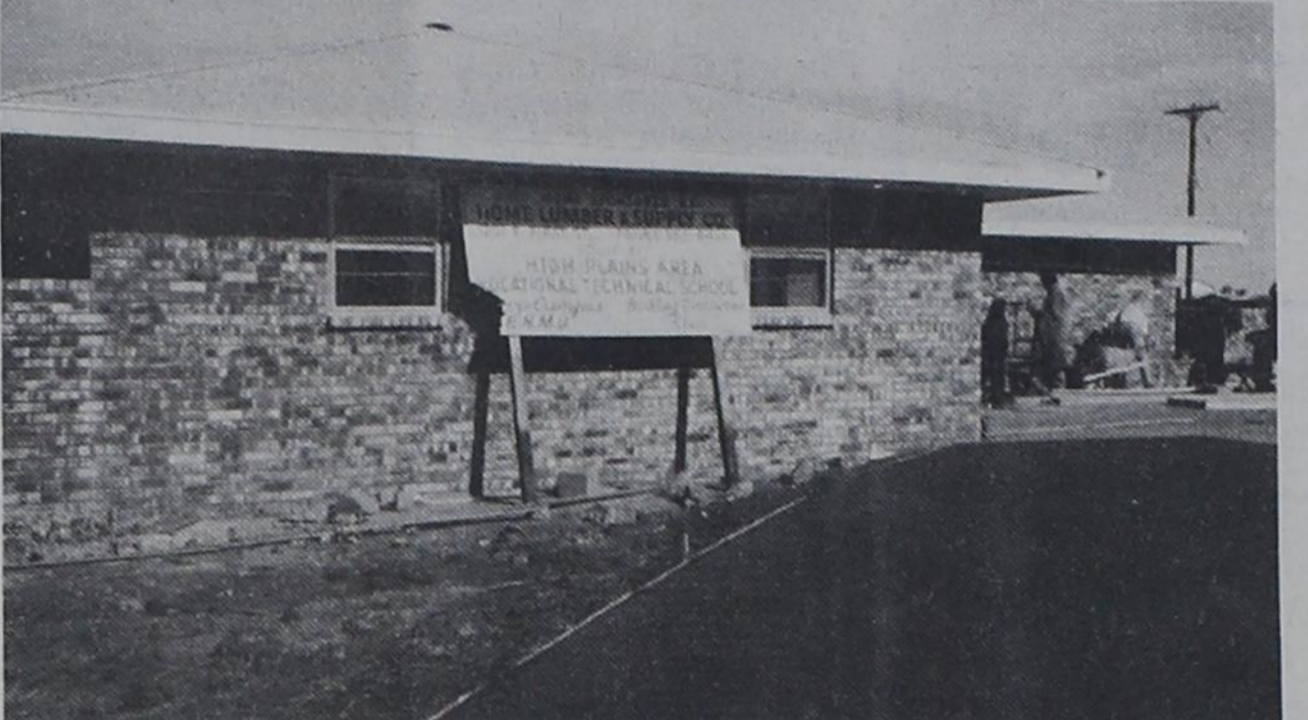

2. The original shoe designed with the heel lower than the toe to give a comfortable, healthful feeling similar to walking barefoot is called the (a) Land shoe (b) Water shoe (c) Earth shoe?

Answers:  
1. (b) Fine silver (999 fine) is used, among other things, for U.S. money reserves. Sterling silver is 92.5 per cent silver. Dutch silver contains no silver at all.  
2. (c) The Earth shoe, invented by Dr. James H. Keegan, is a more natural and comfortable way of walking. The negative-heel shoe results in a patented feature of the shoe that the inventor has copied. Thousands of people have found that the shoe, and has been widely recognized in the U.S. in 1970, produced in the U.S. in 1970.

**STUDENT BUILT** - This dwelling at 1308 Lexington Road in Clovis was built by students enrolled at the High Plains Area Vocational-Technical School. This is the fourth house to be built by the school to provide students with an opportunity to apply the knowledge they have gained in the classroom.

**ANOTHER VIEW** - From a slightly different angle, the viewer can see the sign which proclaims this home at 1308 Lexington Road in Clovis was built by students of the High Plains Area Vocational-Technical School.

## Cancer Drug Research Providing News

The fact that cancer claims a victim in this country every minute and a half is a frightening reality we must all live with. But where's the good news about cancer?

Living proof that there is good news is evidenced by the 222,000 Americans the American Cancer Society estimates will be saved from cancer this year. While no one is claiming a complete cure for the disease, words like "remission" and "control" are being heard more often today than five years ago.

In recent years specialists in cancer care have been accelerating the war against cancer through surgery, radiation, drugs and knowledge of the body's immune system. Some of the longest strides in this war have come in the field of drug use known as chemotherapy.

According to Dr. Emil J Freireich who directs the research of some 30 cancer investigators at The University of Texas M. D. Anderson Hospital and Tumor Institute in Houston, "Chemotherapy is the only therapy available for cancers that have spread beyond the possibility of local control at the primary cancer site and therefore cannot be treated by surgery or radiation."

It is important to remember, he explains, that cancer is not one disease but a large group of diseases . . . all dramatically different in characteristics and treatment. Thus, just as each cancer type is specific, drugs must be equally specific. Obviously,

an over-all cure is no simple matter.

Despite the complexities, Dr. Freireich points out that chemotherapy has made numerous advances on the disease during its brief 30-year history. For a small number of cancers, the use of drugs is actually the treatment of choice.

For example, he explains that a single drug is available that does cure choriocarcinoma, a cancer of the female placenta or afterbirth. "Women who have had this cancer would have died for sure in a very short period of time. Using the drug, early and properly, they are not only completely normal after five years, but they have their childbearing organs intact and can have normal, healthy children," he notes.

Advanced Hodgkin's disease and childhood leukemia are two other examples of cancers that have been controlled successfully in recent years by use of chemotherapy, says Dr. Freireich.

Unfortunately, to date the majority of cancers have not been successfully treated by drugs, notes Dr. Freireich. "What's new now," he says, "is that we are beginning to realize that we can use chemotherapy in patients who have been treated well with surgery and radiation but where likelihood that they will have recurrences is very high. We call that adjunctive chemotherapy."

Thus, for many cancers, the chemotherapist is being called into action much earlier in the patient's treatment

to combine the benefits of specialized treatments.

Perhaps most promising of all is the development of combination drugs to wage war on cancer.

Using combination drugs, Dr. Freireich notes that dramatic improvements have been made during recent years for the treatment of breast cancer, lymphoma, ovarian cancer and osteogenic sarcoma. Osteogenic sarcoma is the same disease that took the life of University of Texas football star Freddie Steinmark just 5 years ago.

Working around the clock, seven days a week, research continues in the development of better drugs and drug combinations that will aid in the battle against cancer and contribute good news to a bad subject.

**SMOOTH WORK** - Students, Bob Hester, left, and Claude Willette, finish concrete in front of a new home which was constructed by persons enrolled in programs at the High Plains Area Vocational-Technical School in Clovis.

**ROOF BUILDERS** - Students put the roof on an outside building which is part of a residence constructed by the High Plains Area Vocational Technical School at 1308 Lexington Road in Clovis. Shown are Tony Baldo, left, and John Chavez.

When decorating a room in the south or west part of your home, blues, greens and violets are good choices since those rooms receive a lot of sunlight.

## Teen Of The Week At Texico School

DEBORAH STEPHENS

Deborah Stephens, a junior at Texico High School, is Texico's "Teen of the Week" for March 8-12. A National Honor Society member, Deborah is the daughter of Mr. and Mrs. Bill Stephens of Texico. She is a varsity cheerleader and a member of the Pep Club. Deborah participates in volleyball and track and has served as manager for the varsity girls' basketball team. She is the junior class secretary-treasurer and also works on the school newspaper as a typist and reporter.

[Selection of "Teen of the Week" made by anonymous committee.]

**TWO MINUTES WITH THE BIBLE**

BY CORNELIUS R. STAM, PRES.  
BEREAN BIBLE SOCIETY  
CHICAGO, ILLINOIS 60635

**THE BIBLE IS FOR YOU**

No matter which translation of the Bible we examine, one fact stands out with particular emphasis and clarity: The Bible was written for the people, for the populace at large, not for some special class among them.

St. Paul addressed his epistles to both "laity" and "clergy": "To all that be in Rome" (Rom. 1:7), "unto the church...at Corinth...with all that in every place call upon the name of Jesus Christ our Lord" (I Cor. 1:2), "unto the churches of Galatia" (Gal. 1:2), "to all the saints...at Philippi, with the bishops and deacons" (Phil. 1:1), etc.

When Paul proclaimed the gospel at Berea his hearers did not take even this great apostle's word for granted, but "searched the Scriptures daily, whether those things were so," and for this God called them "noble" (Acts 17:11). They were the true spiritual aristocracy of their day.

Our Lord, when on earth, encouraged -- even challenged His audiences to "search the Scriptures" for themselves (John 5:39).

Indeed, since God has revealed Himself and His plan of salvation in the written Word, we are responsible, each one for himself, to study the Scriptures. When Dives begged Abraham to be allowed to go and warn his five brothers about the horrors of hades, Abraham replied: "They have Moses and the prophets, let them hear them" and when Dives urged that a word from him would be more effective, Abraham answered: "If they hear not Moses and the prophets, neither will they be persuaded, though one rise from the dead" (Luke 16:29, 31).

Do not depend upon your clergyman to interpret the Scriptures for you but see for yourself what they say, for "every one of us shall give account of HIMSELF to God" (Rom. 14:12) and it will not be enough in that day to say: "But my minister or priest told me...." You are responsible to "search the Scriptures" for yourself to "see whether these things are so."

Search the Scriptures, especially the Epistles of St. Paul, and learn God's wonderful plan of salvation. "Christ died for our sins" (I Cor. 15:3). "We have redemption through His blood" (Eph. 1:7). "Believe on the Lord Jesus Christ and thou shalt be saved" (Acts 16:31).

**BEST IN SHOW** - Albert Johnson of Farwell shows his wife's dog, Wag Tail's Highland Jocko which took best in the show of all breeds at a dog show in Clovis Sunday, Feb. 29. The show, which was held at the Curry County Fairgrounds, was sponsored by the Eastern New Mexico Humane Society. Jocko competed against the best dog in each of six classifications to take the top honor. The six classifications recognized by the American Kennel Club are: sporting, non-sporting, hound, working, terriers and toys. Jocko is 14 months old.

By Jack House, The Director  
Teacher's Scotch Information Centre

### BANG!—IT'S ONE-O'CLOCK

If you're visiting Edinburgh and walking along its famous Princes Street around lunchtime, you'll discover an unusual way to tell time. In fact, it may shock you.

For exactly at one o'clock, a gun booms loudly from the ramparts of Edinburgh Castle. Visitors jump at the bang, but the citizens of the Scottish capital check their watches by the famous One-o'Clock Gun. It has been fired since the

days of sailing vessels when seamen didn't always have a means of telling time. It was arranged that a gun should fire a single shot exactly at one-o'clock each day.

There are chronometers in every ship, Teacher's Scotch Information Centre points out, but the good old custom of the One-o'Clock Gun is still observed.

## SWCD NEWS

Grasses livestock like the best are grazed the closest. If they are grazed closely year after year during their growing period the grasses become weak and may die. Each native grassland pasture has soil, water, plant, and animal resources all its own. This makes proper grazing completely different from irrigated pasture or cropland grazing.

Proper grazing means controlling grazing so that enough of the current year's growth by weight of the key management species is left to maintain them. This practice improves root growth, vigorous plants and maximum forage production.

Deferred grazing means postponing grazing for a period during the growing season. Its primary purpose is to allow the more desirable species of grasses to regain vigor and produce a seed crop.

A full growing season deferment is especially needed during the first growing season following severe drought or overgrazing.

For more information on this contact the Soil Conservation Service in Friona.

A BICENTENNIAL MESSAGE FROM

WEST TEXAS CHAMBER OF COMMERCE

*"These are the sorghums I'd plant if I farmed in this area."*

*Jim Higdon*  
AGRONOMY SERVICE DIRECTOR

"Drouth, disease, insects, wind storms... taking everything into account that can plague a crop in this area, these are the sorghums I'd go with."

It's my job to know which are the best varieties for each locale in the states of Oklahoma, Texas and New Mexico. For the last five years I've had Crop Information Centers, Standard Comparison Tests and Uniform Strip Tests in this immediate area. In these carefully controlled tests, I've evaluated most of the sorghum varieties a farmer might consider planting. I've had the same headaches and frustrations you've had. My plantings have suffered the same weather conditions, epidemics and infestations yours have.

Based on these tests, there is no doubt in my mind what I'd plant in 1976 if I farmed hereabouts.

## 8311

8311 is a champion producer of high test weight, yellow endosperm grain. Pioneer introduced this golden bronze hybrid three years ago and it's been setting yield records in this area ever since. One reason is its ability to yield in the face of too wet or too dry weather, insects or disease. Another reason for the high yields is that 8311 tends to adjust its maturity to the growing season in a particular area. Whatever else you plant... put in some 8311.

## 8501

An outstanding new yellow endosperm hybrid with about the same maturity as 846. This hybrid has a superior yield record. The plant has excellent roots and stalks. Heads exert well above the flag leaf and are uniform in height. Pioneer brand 8501 has good tolerance to smut, MDMV, downy mildew and greenbugs. It performs well under stress and has semi-open heads that add to its good appearance.

### A WORD ABOUT GREENBUGS

Tolerance to both greenbugs and maize dwarf mosaic plus high yield potential give these two sorghum varieties an economically significant advantage that you'll want to consider for your grain sorghum crop in 1976.

Performance of seeds or the crop produced therefrom may be adversely affected by factors beyond our control including environmental conditions, insects and diseases. The limitation of warranty and remedy attached to each bag of Pioneer brand seed is a part of the terms and conditions of the sale thereof.
