Kaltwasser, Kent

Gilbert Kaltwasser and Truman Kent were in Austin Tuesday afternoon to represent the Parmer County Farm Bureau, and met with state directors to learn whethcotton allotments could be in-

creased for the county in 1955. Kaltwasser, "because the Farm Bureau voted at the state convention in Galveston not to request increases in the cotton allotment."

However, he added that the two were well received by FB directors, and that they "did talk like they would try to do something." Kaltwasser said the best chance The third quarter began with an for additional acreage probably

Activity for the yearly March of Dimes Drive in Parmer County was steadily mounting this week as volunteer workers and organizations undertook plans which, they hope, will result in collections of around \$5,000 in the county this

At a meeting of workers from over the county in Friona last Thursday night, Hugh Moseley was named to succeed Loyde Brewer as county Dimes chair-

This office is an administrative one (volunteer and without pay), and Moseley's duties chiefly will consist of aiding persons, in the county who will make application to the Foundation for assistance when polio strikes.

Mike Hyre, state representative for the northwest part of Texas, was present at the meeting Thursday to tell county workers about the Foundation's plans for 1955_

He presented an optimistic picture on the possibility of man overcoming the disease, but stressed that the greatest effort of all time will be needed to bring the fight to a successful conclusion.

"Based on the progress being made in the field of medicine," he told workers, "we believe that we will be able to control polio within (Continued on last page.)

RIBUNE'S EDITORIAL COMMENT

Many Activities? on't Be Too Sure

most common complaints that a oday runs something like this: "For It's gotten to the point where our one every night of the week to attend sponsored by the school." ittle checking up, this might appear

More and more activities are being o the weekly calendar that seems to need 48-nour days and 14-night weeks to keep from having so many conflicts.

Yet, the question to be resolved is: Is this good or bad?

Today so many parents indifferently are turning over the upbringing of their children to Sunday school and public school teachers, it might be est that they do return to school after hours!

It would be nice if Mother and Father would oin their children on nights when they have free time, and read together, or go someplace together, to insure a common bond among family members. The age of the fireplace and the family sings are over forever, but that offers no excuse for the parents who refuse to even "fraternize" with their own offspring.

discover that Mother has a meeting or party of her own to attend in the evening, and Dad is content to settle down in his easy chair with the papers while the boys and girls of the home roam the dren by the time their families are completed. s reets "looking for something to do."

Maybe if we aren't going to do anything with time we could spend together at home or tre participating in some supervised recreation that seem unusual to the majority of the nation. or work, rather than thrill-seeking.

You Don't Have To Go Too Far To Discover Unusual Customs

The person who has been to foreign lands alays returns with unusual and sometimes amusing ocial customs of the people he sees while away.

We ought to examine ourselves before making freaks of other people. A report from the Population Reference Bureau shows some unusual aspects of one group of Americans, the Hutterites, who live in communal agricultural colonies in the Dakotas and Montana.

Most noticeable is their outstanding birth rate. The annual Hutterite birthrate is 45.9 per 1000, compared with the U.S. rate of 24.1 Their death rate is only 4.4, compared with 10.2 for the country.

At this rate, the Hutterites are doubling their population every 16 years.

The Bureau says that all Hutterites hold proresistance, and they do not take oaths and bap-

The Farwell Junk Yard will be open on Saturdays ONLY to receive trash and junk not picked up by city employees.

This is effective immediately. Your cooperation will be appreciated.

THE CITY OF FARWELL

AIVIUUNCEM

Effective immediately, I am taking over the operation of Reed's Texaco Service Station in eastern Farwell, and I solicit a continuation of the patronage which you have given Mr. Reed during his tenure as proprietor.

Naturally, much of our trade comes from traveling people, but our specialty is in giving good service to our friends and neighbors right here at home. This is a new, modern, and fully equipped station with two racks and all that is necessary for turning out the best in automotive service. Of course, our Texaco products speak for themselves, so come to see us!

> Sincerely, J. T. Ford

Mr. and Mrs. Karl Kramer of Clovis and Marion Felkins visited Mr. and Mrs. Gilbert Kaltwasser and family Monday evening.

NEW CARS OR OLD—THEY ALL **GET ATTENTION AT RUNDELL'S**

Every owner of a new car is aware that proper maintenance is critically necessary during the lowmileage or "break-in" period of driving. That's when you'll find that the careful attention we give on all servicing will really pay off in longer life for your car.

But, we remember at the same time that there are a lot more older model cars than new ones, and a car with many miles on it needs attention, too.

So, be assured that whatever the make or age of your automobile, we take a vital interest in doing our washing, lubrication, and other servicing RIGHT.

RUNDELL'S **66 SERVICE STATION** Farwell, Texas

Arrives Safely

"KAR KINKS"...

by Smokey & Fred

THE INSTRUMENT PANEL

Modern automobiles are getting more compliated every year, but manufacturers have succeeded remarkably well in keeping the instrument panel simplified. Most cars of today do not have more than half a dozen devices to watch, and several makes do not have that many.

However, just because there aren't very many instruments on the modern car does not mean at all that the ones that are before the driver are not important. In fact, quite the opposite is true.

By keeping a vigilant eye on his instruments, the careful driver probably will some day avoid an expensive repair bill by discovering trouble as it is

Whenever the needle indicates that the electrical system is discharging, even when the car is in normal operation, this foretells trouble sooner or later.

Also, the temperature and oil pressure gauges are important, and when they vary from normal ranges, the car should be checked. All in all, it is wise to learn where the needles should be pointing, and remember that all is not well when variations are noticed.

Take Your PICK!

Putting down an irrigation well? Good move! But before you finish planning that new well, what are you considering for power?

Some folks will find LPG the best, some will choose diesel. Those who find it convenient will select natural gas.

We're proud to say that WHATEVER your choice, we have a dependable power unit that is outstanding in its class. The world-famous LeROI or the proven G. M. Diesel will do the job!

It wasn't scalloped corn at all, but corn pudding. We are not confused on the nice compliments we have heard on this particular recipe though, so here it is.

CORN PUDDING

- 1 No. 2 can of corn 3 eggs beaten
- 2 tablespoons chopped green
- peppers
- 1 small pimento
- 2 tablespoons chopped onion
- 1/2 teaspoon salt
- dash of pepper 2 tablespoons butter 1/4 cup sweet milk

Cook onion in butter until light brown. Mix with other ingredients. Pour into buttered casserole and bake in a slow oven about 1 hour, have this training. very slow.

If you have read about "druthis one delicacy we can't leave alone, when they are available.

Mrs. W. M. Lloyd of Friona is recipe this week-you guessed ityour recipe file.

Thank you Mrs. Lloyd. CREAM PUFFS

- ½ cup water
- ½ cup flour 2 eggs
- 1/4 cup shortening 1/2 teaspoon salt

Heat water, put in shortening and melt. Add salt, then add flour and cook two minutes or until forms balls. Cool. Add one egg at a time, beating well after each addition.

Cut holes out of top with scis-

rather than the building of large is hoped to make reductions in down-stream reservoirs to catch epidemic areas as early as this summer, he added.

> money contributed to the National out that one-half of all contributions are set aside for the county's use from which they originate.

"The biggest item of expense today is patient care," he said, "because recent developments have meant more recoveries from attacks, larger and larger amounts are being spent on persons who now survive polio."

The National Foundation, said Hyre, functions with one of the most efficient administrations of any charitable organization in the world. He pointed out that there are only 453 paid employees in the United States and many other countries in which the Foundation

"Eighty-nine cents out of every dollar contributed goes directly into the fight against polio," he explain-

County Work Begins

The first of this week, community workers were making their rounds distributing coin containers to places of business and public buildings, and plans were being studied in several communities for activities to boost the fund.

Mothers from several communities staged "marches" last year, and they are expected to organize the same type project this January. Mrs. Nell Walling of Farwell announced she would begin what is hoped to be a series of coffees Friday morning in her home, and representatives from Rhea say their annual pie supper will probably be scheduled also.

One of the biggest organized efforts on a county-wide basis will be an amateur talent show next Thursday night, Dec. 13, in Friona High School auditorium.

Admission will be charged for the affair, with all collections going to the MOD, and competition from all communities in the county is hoped for.

Mrs. R. V. Miller is acting as chairman to organize and present the show, and she announced this week that three winners from the evening's entertainment will be selected to represent Parmer County on the MOD "telethon" to be over KFDA TV in Amarillo next weekend.

The telethon will begin at 9:30 p. m., on Saturday, and run for 18 consecutive hours, and will be an attempt to encourage contribu-

ANNOUNCEMENT

We take great pleasure in announcing to the public that our good friends Loyde and Wana Brewer have purchased the Welch-Blackburn Hardware Store. Everyone in the Friona territory is well acquainted with the Brewers, and we are sure that the business with which we have been associated for the past five years could not pass into, more capable hands.

Like many persons in and around Friona, we have known and respected these persons for many years, and we are sure you will be pleased with the new management. To those of you who have been so faithful in your patronage during the past, we offer our most sincere "THANKS!" Also we will continue to operate Welch Auto Supply and we earnestly solicit your continued patronage.

SINCERELY,

John Blackburn **Nelson Welch**

Mustangs Place Third At Hereford

The Bovina Mustangs, maintaining a good record for this season, came home with a trophy from the Hereford tournament last week, although it was not the winning program will consist of films shown trophy. The · Mustangs won third place in the contest, which pitted some of the better teams in the and group singing led by Al Kerby.

Norman Killough also was named to a slot in the all tournament

Bovina lost to the "B" team of Amarillo 69-48. The Mustangs had their opponents by a twopoint lag, 13-11, at the end of the first period, but Amarillo pulled away during the second and had the contest in their hands the rest of the way. Halftime count was 35-23. Bovina's attack was led by Larry Ezell with 15 points.

In the battle for third place present. against the Dalhart Wolves, Bovina was back in the limelight, and took the Wolves for 93-59. The Parmer team jumped to an early lead and the outcome was never in doubt. Dalhart, during the final four minutes, had to play with only four men, because of players who fouled off. Don Owens and Neil Smith paced Bovina by hitting 20 points each. The Amarillo Sandies were win-

ners of the tournament.

JANUARY 7TH

Ford Motor Company's new "800" series, full three-plow tractors, are designed for heavy work in all types of soil. Shown above is the 860 model, equipped with live power take-off. It and the 850 model both are powered by Ford's field-proven "Red Tiger" engine with power increased by 30 per cent, and both have five-speed transmissions. Another power series, the "600" with three models, also is offered by Ford for 1955, marking the first time in the almost half-century history of Ford tractor production that the Company has offered more than a single size tractor. Both the 600 and 800 series are equipped with headlights and taillight as standard equipment.

THE NEW

FORD TRACTORS FOR 1955

A GREAT NEW SERIES **FULL 3-PLOW POWER** THE FORD "800" SERIES

You'll find dozens more advantages in the 800 series, including Ford's new 5-speed transmission . . . comfortable Rest-O-Ride seat . . . an advanced hydraulic system with 3-point linkage . . . live power take-off controlled from the regular clutch pedal . . . and much more! So look'em over. It's worth a trip to your Ford Tractor dealer's!

AND THE NEW IMPROVED "600" SERIES

Plenty of power for most farm jobs, with real operating economy... that's the new 600 series Ford Tractor. For Ford's "Red Tiger" engine is designed and built to provide high power output with exceptionally low fuel consumption. And you'll find just the combination of tractor features you want in the three different models available. And all the advanced 600 models have step-ahead features for faster, easier, better farming. See them now!
