

FROM THE HOPPER

By HOP

Frank Truitt asked me the other day if I had noticed that nearly everybody seemed to be in a bad humor, even to the extent of growling at their best friends. And he wanted to know the reason for this unpleasantness.

I had to admit that I had not observed this ill-humor on the part of people with whom I have been thrown in contact. But I began to think over Frank's observations, and I have come up with some conclusions of my own:

Rarely do you hear a radio commentator these days but what he is verbally ripping somebody apart. Furthermore, you can hardly pick up a newspaper that has a kind word for anybody. Chief targets of the commentators, both on the air and the newspapers, are the administration, the State Department and President Truman.

Here at the Tribune office we get newspapers from Los Angeles on the west to New York on the east, and hardly without an exception every one of them is continually harping on the administration in general and the President in particular. A continual barrage is being hurled at Washington; never a pleasant word for our high government officials.

Even the Clovis News-Journal trumps up the most flimsy excuses for hopping on the President, and rarely does an issue come out that fails to flay the head of our government.

A continual barrage of this sort of stuff finally gets people in a bad mood and they, too, want to begin griping about something. Lots of good people are not in sympathy with many of the Washington policies, yet they are not inclined to find fault with every move that is made by the administration. Rather, they prefer to be sympathetic and tolerant with our high officials in these troubled times.

But, having been made mad by the deluge of criticism that is going the rounds, they begin taking out their spite on their friends and neighbors. That might answer your question, Frank.

It looks like the last survivor of the good old days is on the way out. The five cent soda pop, after making a long and determined fight against inflation, is soon to join hands with its higher-priced brothers.

Poor old Marshal Petain, the French hero of Verdum, who died at the age of 95 recently, is to be denied his request of being buried among his fighting men and was buried in exile. Just another example of what politics can and does do.

More and more interest is being worked up on the idea of building dams along Running Water and Frio Draws in Parmer County.

Tom Lindop was just in and said that he would put in a full week with his tractor and fresno on a project of this kind. And Turner Paine has offered to devote a week of labor driving a tractor on the job.

Admittedly, such a project is going to require lots of planning and forethought before it can actually be launched. But now is a good time to begin thinking along this line. If Parmer County should sit still until some large city down the line lays claim to all the water along these draws, it would then be too late for any action on our part.

It occurs to me that such a program should be handled through the Conservation Service, and I hope they are looking into this project. Not because I have been plugging along on the deal, but as a matter of sound practice and good business judgement.

FAIR DIRECTORS MEET—Directors for the 1951 Parmer County Fair met at the vocational agriculture room of Bovina Schools Monday night for their first planning session. They include (standing), Wendol Christian, president; John Blackburn, secretary; Virgil Teague, vice-president. Sitting are Floyd Schlenker, Levi Johnson, Jim Shaffer, Clyde Hays, and Arlin Hartzog.

Fair Directors Convene At Bovina, Discuss Plans

The ice was officially broken for the 1951 Parmer County Fair Monday night at Bovina, when directors and workers for the organization met for their first planning session. All members of the board of directors were present, and preliminary plans were laid out.

Date for the 1951 Fair was set for September 13, 14, and 15, those dates falling on Thursday, Friday, and Saturday.

Wendol Christian, president of the organization, presided at the meeting, as the workers surveyed the two large shows of last year and considered means for financing the two coming shows more adequately.

Directors pointed out that because of its size and scope of the shows during the fall and spring last year, the association exceeded its financial capacity, and it will be necessary to stabilize the organization in addition to paying for the coming shows this year.

Several plans were proposed and talked during the session, none of which was definitely accepted for use this year. Some of them were of considerable magnitude, and some were only "corner-cutting" measures designed to keep expenditures down.

Members present were virtually unanimous in favor of raising the volume of advertising in the fair catalog as a means of additional income. Others spoke of raising rates slightly, or of cutting the size of the catalog. Practically all present agreed that there were many potential catalog advertisers who had never before been contacted.

At the close of the meeting, it was decided to contact chambers of commerce in Bovina and Farwell, in the hope of stirring up enthusiasm for the fair and encouraging citizens to see that the fair is a county-wide function.

The association voted in favor of beginning work at one on the catalog, and also will begin sale of space in the fair barns.

Directors of the Fair Association include Wendol Christian, president; Virgil Teague, vice-president; John Blackburn, secretary; Floyd Schlenker, Levi Johnson, Jim Shaffer, Clyde Hays, John Getz, and Arlin Hartzog. County Agent Joe Jones assists.

The directors set their next meeting for Aug. 14, at which time the directors will submit reports to the president on progress made.

Horse Falls, Breaks Leg of Rider

They say lightning never strikes in the same place twice, but George Trimble, well known Bovina business man and stockman, can testify that you might sustain a broken leg the second time in the same manner. Trimble is up and getting about on crutches after suffering a broken left ankle a few days ago when a horse fell with him. In addition to the fractured ankle, the Bovina man suffered a broken nose when the animal rolled over on him after the fall.

Trimble was working some cattle on his ranch south of Bovina when his horse slipped on wet ground and fell with him.

Several years ago, Trimble received a broken leg when his mount slipped and fell on a paved highway near the Bovina stockpens.

Mr. and Mrs. Bill Shirley of the Lazbuddy community, left here early Thursday for a week's visit with relatives at their old home in Amma.

Rains Bring Relief From Hot Weather

Temperature reading that hovered in the high 90s and even above the 100-mark over the section during most of last week, dropped suddenly early Monday morning with the arrival of light showers to heavy rains over a large portion of this section.

Readings that reached their highest point of the year over the past weekend when the mercury soared to 103 on Friday, dipped to the low 70s after the arrival of the showers, to bring relief to young crops that were withering in the intense heat. Farmers agree that the crops were not actually suffering for lack of moisture, but were taking a beating from the heat.

Showers fell in Texico-Farwell Monday morning and Tuesday afternoon, measuring about a quarter of an inch. But to the north and northwest the rains were considerable heavier. Most farmers in the Bovina section reported a half inch, while to the west of that city reports of one to one and one-half inches of moisture were reported.

Bill Moss, living up the state line from here, reports a full inch at his place. B. A. Rogers, who farms in the Pleasant Hill community, says he received 1½ inches. A similar report was made by Dean Patterson, who farms west of Pleasant Hill, and said that heavy rains fell in the Ruth community.

The rains tapered off south of Running Water Draw, Rogers said, growing lighter nearer town. Most reports indicate that a quarter to a half inch fell in the Oklahoma Lane and Lariat section. J. D. McMillan terms the rain a good "cotton shower" at his farm.

Lazbuddy Rancher Found Dead in Bed

Charles (Uncle Charley) Hinkson, 85-year-old Lazbuddy rancher, was found dead in his bed early Sunday morning, when he failed to arise at his usual time.

Hinkson, who had never married, and had made his home with his nephew, Frank Hinkson and family, for many years, had been somewhat indisposed for a week before his sudden and unexpected death. He had been a resident of the Lazbuddy community for many years, coming here from Nebraska.

In addition to the small ranch and farm he owned in the Lazbuddy section, he also had other large holdings in Nebraska, Arizona and Texas, and was considered fairly wealthy.

Funeral services were conducted at the Lazbuddy school house Wednesday afternoon, with the Rev. Keller officiating. Under the direction of the Muleshoe Funeral Home, burial took place in the Lazbuddy cemetery.

Pall bearers were, O. M. Jennings, Bill Shirley, Fred Wiese, Ray Griffith, Vance Wagnon and Bill Chitwood.

He is survived by eight nephews, Everett Kinston, Holbrook, Ariz.; Dean Kinston, Cairo, Nebraska; Mrs. Alice Keag, Richmond, California; Frank Kinston, Lazbuddy; Mrs. Helen Larson, Cairo, Nebraska; Hugh, Keith and Preston Kinkson, also of Cairo, Nebraska; and one cousin, Mrs. R. V. Francis, Los Angeles.

Nephew of Mrs. Smart Is Drowned in Florida

Mrs. Ben Smart received word the first of the week that her nephew, Clyde B. Seibert Jr., 13-month-old son of Sgt. and Mrs. Clyde Seibert, was drowned Saturday in a lake at Sebring, Fla., near where his father is stationed with the Air Force.

The mother, Mrs. Smart's sister, found the youngster in the lake and rushed him to a hospital, but attempts to resuscitate him failed.

The child was born June 13, at Shreveport, La. and is survived by two sisters, Verna Kathleen and Sharon Ann; and his grandparents, Mr. and Mrs. R. E. Leitner of Amarillo, and Mr. and Mrs. C. S. Seibert of Denver, Colo.

Mrs. Smart went to Amarillo Tuesday, and her husband and family, and Jim Bob Smart left Wednesday. Funeral services were Wednesday afternoon in Amarillo.

Mrs. Seibert and children had visited Mrs. Smart only recently, while enroute to Florida.

Suspended Sentences In Cow Theft Case

Ernest Wright and Harold D. Thurman entered pleas of guilty to a charge of cattle theft in district court here Wednesday and drew a five-year term in the penitentiary. The jury in the case recommended suspended sentences, which Judge E. A. Bills accepted.

The case of J. C. Broyles, charged in a grand jury indictment with theft, was scheduled to go on trial as court resumed here Thursday morning.

Thurman still faces another theft charge in this county, but court attaches indicted that this case would not be called for trial at this session.

The bonds were voted in June 2, and school heads hope that construction on the new building can begin by September 1.

Bond signers were Claude Rose, board president; and A. W. Gober, secretary.

SCS Forms Available In PMA Office Now

Form 1, on which a farmer signifies which type of soil conservation practice he wishes conducted on his land, through the SCS, are now available at the Production Marketing Administration office at the courthouse in Farwell, Bill Kennedy, head of the county SCS office in Friona, said today.

Under recent merger operations, the two agencies are now working for all possible protection of the precious topsoil, Kennedy said.

Farmers cooperating in any paid PMA programs are required to cooperate now in soil conservation movements, it was explained, and may make their requests for technical aid from the SCS workers in the county. Under the setup, technicians check up on the advisability of requested practices, to see whether or not the program will be practical, Kennedy said. He added that it was the job of SCS men to determine whether the cooperators had "the heart before the horse" in any planned conservation program, and if so, to suggest needed changes in the promotion of any improvement work.

Asked as to whether or not the SCS is maintaining a technician in the PMA office, Kennedy replied in the negative. "One of us is down there nearly every week to check up on any forms that may have been filed," he went on to add, "and if farmers catch us while we are there, we'll be glad to discuss their programs."

Mrs. Gallagher Asserts Fondness of Norwegians

The Norwegians say they can always tell an American by her nylons and shoes. I see what they mean. All women except the very richest wear cotton stockings and the shoes are hardly that at all. One can buy lovely shoes, but they are far beyond the means of the average person, the same goes for any kind of wearing apparel.

The children are precious. The little boys wear short pants and dress coats, and the little girls "dirndles" until they are well in their teens. Then they grow up over night. One rarely sees a bobby-soxer; they are either children or young adults.

At the University, dormitory life is at its brightest.

HERE—we have been feted and partied until we are wandering around in a daze. The people are wonderful. They treat us like visiting royalty. They just can't do enough for us. We haven't even time to sleep.

Here is the First Week; Friday we land. We go through the customs. At Blindern Studentehjem we are guests at a Tea Dance. It lasted until 2:00 A.M.

Saturday—Sponsored tour of downtown Oslo. Reception at Frogsteteren Sportsrestaurant by the Oslo American Student Association. This was a "dinner-reception". It was given by the Norwegian students who had been to America to study. The week hours again.

Sunday—Church in the morning. We visited several local churches. One of these is held in a structure built in the 1200s. There are no seats except a hard bench around the wall for those over 90 years of age and crippled people.

Sunday afternoon—A guided tour of Oslo, all 176 square miles of it seen at least from the mountain tops.

Sunday night—Reception given by the regular students of the University. Another 2:00 A.M. feature.

Monday—Classes from 9:00 A.M. until 3:00 P.M.

Tour of the Art Museum—Afternoon.

Evening—Reception by the faculty and their families.

We were expecting the faculty reception to be rather stuffy after the other parties, but NO! It was another of the same. Dancing, eating, and coffee etc. With everyone having a wonderful time, including the faculty who were supposed to be unapproachable.

It seems that five years of summer schools with American students have corrupted them. They have become quite human and a lot of fun. Sometimes they can't think of just the right word in English—so we occasionally have an amusing time over their sentences. They just laugh; they know perfectly well that they do much better in English than we do in Norwegian.

Tuesday—Classes—Then The Re-

ception at the city hall. The City Hall is simply to entertain—not a place of business. The council room is perfectly fabulous all in the most modern lines—extreme furniture, pastel shades of their national colors etc. The main hall and the murals have to be seen to be appreciated and that takes a full week.

We were greeted by the chubby little mayor in his chain of offices. He bowed over our hands and welcomed us to the city. Three orchestras were playing. Tables were set for what we supposed was coffee. After everyone had arrived the mayor mounted a little pedestal and the city alderman rang a little bell. Then came a short speech of welcome.

Before we knew it we were parading up a grand flight of stairs, just like a royal court in olden days. The mayor attached himself to the three of us, which consisted in its revised form as Stan, a Harvard student who speaks a little Norwegian with that "HA-vad" accent which is fascinating to Willy and I.

There were long corridors, murals in abundance, a perfect medieval baronial hall. We were ushered into a room where we served an unpronounceable something or things, a strictly Norwegian institution which is not to be found on the USA "Open-faced-sandwiches" etc. they were.

The three orchestras played American music until 1:00 A.M. There were flowers in an amazing abundance. I was admiring the flowers used as a centerpiece on the center of numerous tables, and as I left I was presented with a collection of flowers, very very beautiful flowers.

Wednesday—Classes—Yes, then guests at a concert by the Norwegian Philharmonic at Vigeland Park.

Thursday—Classes—Yes, then the reception by the University Student Union.

This is just a week, but what a week. We are looking forward, as I write, to the American Embassy 4th of July party. It will really have to be something to match those the Norwegians have given us.

Loads of love to all.

Please Accept Our Thanks

In retiring from active business in Texico-Farwell, we feel that we would be ingrates if we did not pause long enough to extend our most grateful thanks to our scores of friends for the wonderful patronage they have given us while we were operators of the City Cleaners.

For the past 7 1/2 years we have operated this business, and have seen it grow from a mere "pressing parlor" to one of the most up-to-date cleaning plants in this part of the country, equipped with all the most modern machinery and fixtures. We take pride in the accomplishments we have attained while serving you, our good friends.

We are fully aware that the success and growth we have attained has been due to the loyal support and patronage you have given us through the years. Without your loyalty to us during these years, we realize that we might have been merely in the business, and just another "pressing joint."

We realize that you, our faithful friends and customers, have been responsible for our continued growth and in retiring from the business, we want to assure each and every one of you that it has been a pleasure to serve you and we are grateful to you in unbounding measure for your encouragements, your friendships, and your faithful patronage.

Double Ring Vows Unite Miss Jeannie Cole, Kenneth Jacks

Double ring wedding vows were read for Miss Audrey Jeannie Cole, daughter of Mr. and Mrs. G. G. Cole, Clovis, and Kenneth Jacks, son of Mr. and Mrs. Henry Jacks of Texico, on July 14. Dr. Brougher Maddox solemnized the vows in a ceremony performed in the home of the bride's parents.

The couple was united in marriage before an improvised altar setting formed around the mantel which was decorated with pyramidal candles arrangements banked with commode fern. White asters, white stock and white gardenias were also placed in attractive arrangements on the mantel.

Norma Jean Jacks, sister of the bridegroom, lighted candles. She wore a yellow dress, carrying out the pastel theme of the wedding gowns.

Traditional wedding music was played by Miss Billie Faye Taylor. She also accompanied Miss Patricia Lesperance as she sang "Always" and "I Love You Truly."

The bride chose a gown of blue Chantilly lace over blue taffeta for her wedding. Fashioned with a portrait neckline with a shawl collar the fitted bodice was sleeveless and fastened with self-covered buttons down the front and back. The full gathered skirt was ballerina length. She wore gauntlets of matching lace which came to a point over the hands.

Her Juliet cap of matching lace featured ruffles of net and sprays of lily of the valley. To this was attached her fingertip veil. She carried a bouquet of white roses and white stock with blue satin streamers atop a white Bible belonging to Mrs. Bob Hagles. Matron of honor was Mrs. Bob

Hagles of Borger, Texas. She wore a dress of lavender with white accessories and carried a bouquet of pink roses and lilies with lavender streamers.

Serving the bridegroom as best man was Jim Bob Roop of Rord, Kansas.

A reception was held after the ceremony with close friends and relatives attending. The table was laid with a hand crocheted cloth over blue and centered with a bouquet of white daisies and blue asters. Flanking this on either side were tall white tapers. The tiered wedding cake was topped with a miniature bride and bridegroom and decorated with confection white roses and blue rosettes. Napkins were blue and white and lettered with "Jeannie" and "Ken."

Miss Patricia Lesperance presided at the punch bowl and Mrs. Harrel Day, sister of the bride, served cake.

The bride is a 1951 graduate of Clovis High school where she was a member of Public Relations Staff and the Pep Club. The bridegroom graduated from Texico High school and then served two years in the Navy. He has been attending Texas Technological college for the past two years.

Sgt. Barnes Stationed In Newfoundland Now

HQ., Northeast Air Command, NFLD—Now stationed in Newfoundland is MSgt. Lesley D. Barnes, of Lazbuddie, Texas. He is now assigned to the U.S. Northeast Command (USNEC), it was announced by Maj. Gen. Lyman Whitten, USNEC Commander in Chief.

Sergeant Barnes' job is in the Intelligence Office of the Northeast Air Command (NEAC). NEAC is the Air Force complement of the USNEC. The Texan's duty-station is at NEAC Headquarters, Pepperrell Air Force Base. This Air Force installation is established within a mile of the capital of Newfoundland, picturesque St. John's.

Sergeant Barnes first entered the armed forces in January, 1941. His roster of duty-stations stretches from coast to coast in the United States; overseas, he spent a year in Trinidad and a year in Great Britain during World War II.

A native-born Texan, Barnes graduated from Lazbuddie High school. He then went into West

Texas State College in Canyon, Texas, for a year of study. His mother, Mrs. Perry Barnes, now lives in Lazbuddie. Also living in Lazbuddie are his wife, Ina, and their two sons, Elwin, 2, and David, 1 year old.

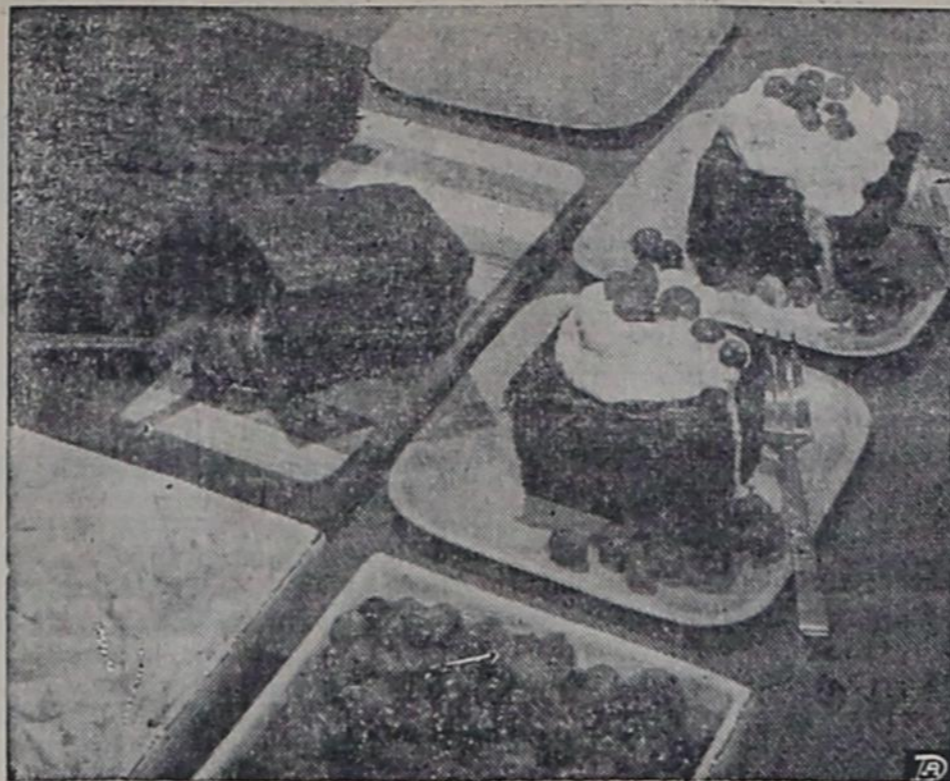

PMA Offices Move To New Quarters

The local offices of the Production and Marketing Administration, presently located on Main Street in Farwell, will be moved to the county courthouse next week, Joe Camp, secretary, announced today.

Camp also stated that the PMA offices would be closed on Thursday, Friday and Saturday, August 2, 3, 4, and would be open for business on the second floor of the courthouse on Monday, Aug. 6.

The new quarters have been redecorated and fitted out for the agency's office. New lighting fixtures are on hand and are yet to be installed. The move is in compliance with a request of the State office as an economy move. Government offices are not required to pay rent in the county building.

Fresh Cranberries Add Sparkle to Gingercake Dessert

The whole family will ask for second helpings of this delicious dessert. And it's so easy to make you won't mind a bit! Use a packaged ginger cake mix and prepare as directed on the carton. Cut in squares and serve warm with a generous garnish of whipped cream and sweet-tart fresh cranberry sauce. It's as pretty as a party, and mighty good eating, too.

CRANBERRY SPARKLE FOR GINGERCake

- 2 cups sugar
- 2 cups water
- 4 cups fresh cranberries

Boil sugar and water together 5 minutes. Add berries and cook without stirring until all the skins pop—about 5 minutes. Remove from heat and cool in saucepan. Makes 1 quart sauce. To serve as topping, chill and partially drain before spooning over cake.

And now it appears that Truman When a man has a birthday, he years to be a pugilist. Anyway, it takes a day off; when a woman has goes well with his letter writing. one, she takes a year off.

Announcement

The Mountain States Telephone and Telegraph Company announces the appointment of Mrs. J. E. Stone of Stone's Variety Store as their new collection agent in Texico, New Mexico.

The establishing of this agent will be of interest to subscribers in the Texico and Farwell areas as it will provide a more convenient location at which bills can be paid, and will eliminate the necessity of having to mail payments to the Clovis office. Customers will, of course, be able to make payments either at Stone's Variety Store or the company's office in Clovis.

Defense Shortages May Hit Livestock Feed

The national defense ax is swinging at supplies of niacin and cobalt used in fortifying livestock feeds.

Niacin, one of the B vitamins now produced by synthetic processes, is essential in rations for swine and poultry. Cobalt, a mineral, is important in the nutrition of cattle and sheep, and lately it has come into wide use in swine feeding.

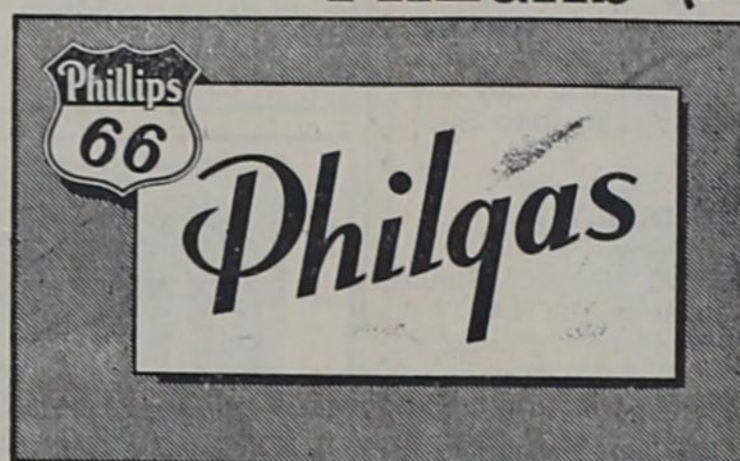

The basic chemical in niacin manufacture is quinoline, much of which is on urgent defense allocation for mildew-proofing textiles used by the armed forces.

Cobalt is in short supply because of its use in jet engines and other war equipment. The cobalt supply is so tight that it is likely to be prohibited in poultry feed manufacture, although ruminants and swine will get it where needed.

Niacin and cobalt also are used in treating certain livestock diseases, but veterinarians expect to be able to get enough for such purposes unless there is bigger cutback than now expected. Feed manufacturers will be hardest hit because they use large amounts of these elements to give formula feeds extra growth-promoting value.

Bluesox Play Clovis Sunday Afternoon

Feeling better after three consecutive wins over Lazbuddie No. 2, the Texico-Farwell Bluesox move out into strange company Sunday afternoon, when they play the Clovis amateur club here.

Since the Bluehose are not in league competition this year, they have found it tougher to get games than to win them. Interest in baseball has picked up considerable locally, but Blackie Smith and Wilfred Quickel, who match games for the Twin City team, have been having trouble finding competition.

"I'd like to announce that we are ready to play any amateur team who will schedule a game with us," commented Quickel the first of this week.

During the first of the season, bosses of the Bluesox were having trouble getting enough players out to field the conventional nine-man team, but lately, Quickel happily reports, interest has picked up quite a bit.

"About 20 have been showing up for the games," he estimated.

The present Bluesox roster includes: Carlos Wood, catcher and outfield; Blackie Smith, first base; Eddie Smith second base; Ken Livingston, second base and shortstop; Don Ford, shortstop, outfielder; Joe Camp, third base; Jess Pipkin, third base; Ronald London, catcher, outfield; Jack Woods, outfield and pitcher; Bob Dollar, outfielder; and Lawrence McDermitt, utility infielder.

The pitching staff includes Toby Booth, Leon London, Blackie Smith, and Jack Woods.

SHOWERS IN MTS.

Mr. and Mrs. W. W. Hall returned home the first of the week from a brief vacation trip to northern New Mexico and Colorado. Hall said that showers had been falling in the mountains of northern New Mexico the past several days and relieving the extremely dry conditions in that area. It is also considerably cooler than it had been previously, he said.

Oklahoma Lane Baptist Revival Ends Sunday

The Oklahoma Lane Baptist revival held through this week at the church, will conclude Sunday, July 29, Rev. Mayo Carpenter, pastor of the church says.

Evangelist for the meetings is Rev. Roy Minor, pastor of the Spade Baptist church. Services are held twice daily, at 10 o'clock each morning and at 8:30 each evening. Clarence Johnson is in charge of the singing.

Rev. Carpenter invites everyone to attend the services.

Bluesox Boss Counts Fans on His Fingers

Manager Wilfred Quickel of the Texico-Farwell Bluesox was smugly counting the first of the week over how local sports fans were supporting a winning ball club.

He said he could count the fans on his fingers that attended each game, and to prove it, he sat down and did. "Now, there's E. E. Routen, Oscar Hubbel, Bob Morton, Charlie Beiler, Cary Magness, Earl and Loyd Routen, and Ray Ford is he's anywhere in the vicinity."

Those, he declared, are "the faithful few" who show up to home games. "Except for the friends and relatives of the players, that's all that ever come," he said.

Lately the Bluesox became a winning team, even though they are not in an organized league. They are scheduled to play the Clovis amateur club here Sunday afternoon.

IS SERIOUSLY ILL

Mrs. J. O. Ford returned Sunday from Dallas where she had been called to the bedside of her daughter-in-law, Mrs. J. C. Ford, who is critically ill in Baylor hospital there. Mrs. Ford states that her son's wife is suffering from cancer and is in a very serious condition.

Pete Hughes Enlists In U. S. Air Force

Announcement is made by M-Sgt. Hicklin A. Harrel, local recruiter for this district stationed in Hereford, that Marion Glenis Hughes, son of Mr. and Mrs. J. C. Hughes of Farwell, has enlisted in the U. S. Air Force for a period of four years.

Hughes left Amarillo on July 19, 1951 for basic training at Lackland Air Force Base, San Antonio, Texas.

SHOWS IMPROVEMENT

Although quite seriously ill, the condition of W. R. Roberts, son of Mr. and Mrs. M. C. Roberts of this city, was reported as "somewhat better" today. He is under treatment in a Dallas hospital, and is reported to be suffering with blood clots in one leg and on the brain.

Mr. Roberts returned here the first of the week after having flown to Dallas over the weekend to be with the young man. Mrs. Roberts remained at his bedside.

MRS. ANDERSON BETTER

Family members report the condition of Mrs. G. D. Anderson is improved, adding that she will likely be returned to her home here at an early date. She has been under treatment in a Clovis hospital the past several days, following a heart disorder.

The doctor wouldn't assure him he could be cured of the measles in a week, because he wouldn't make any rash promises.

RETURN FROM ALASKA

Mr. and Mrs. Willie Williams returned Wednesday afternoon from Fairbanks, Alaska, where they attended the wedding of their son, Don, and Miss Maxine Ford, daughter of Mr. and Mrs. Ray Ford, formerly of this city. The Williams took Miss Ford to Alaska, then returned to Clovis by plane.

Rev. C. M. Fields reports that 197 people attended Sunday school at the Baptist church the past Sunday.

Picnics are special events in any family, and so you'll want to make the picnic sandwiches extra good. In making ham sandwiches, use this spread instead of plain butter or margarine. Cream together 1/4 cup butter or margarine and 1/4 cup brown sugar, dash cloves, and 2 teaspoons prepared mustard until fluffy. This makes enough spread for four boiled ham sandwiches. Depend on the neighborhood baker for supplies of fresh enriched bread, which contributes important nourishment to your family's diet. It provides protein, three B-vitamins, food iron and food energy.

Stacey Queens Back From Vacation Tour

After traveling over most of eight states, Texas certainly looks good to the Stacey Queens, who recently returned from an extended tour.

The Queens left Bovina July 6 to take their son, "Scooter" back to Ft. Jackson, S. C., where he is stationed. They didn't have much time for sight-seeing then. They went by Genada, Miss., to see one of Scooter's buddies. After arrival in Ft. Jackson, the group then spent two days in Columbia, "which is a beautiful town of 80 thousand," according to Mrs. Queen.

Leaving Columbia, the Bovina couple drove down the coast road to Miami to visit his sister. While in the coast city, they went deep-sea fishing. Mrs. Queen relates that "I caught three, but Stacey didn't catch a thing, he was so busy looking at the big ships."

The couple left Miami on July 16 and traveled by Macon, Ga.; crossed the Mississippi at Vicksburg, and came into Texas at Shreveport.

Their reaction to getting back to Texas was "We were glad to be near home. We had paid 34c for gas and 30c for cigarettes. When we got in Texas, we got gas for 21c and cigarettes for 20c. Beef steak in Miami was only \$2.10 a pound and liver was \$1.79."

However, the Queens stated that they saw lots of beautiful places on their trip.

Father of Bovina People Passes Away

Survivors include three sons: Henry of Bandera, Sam of Amarillo, Lewis of Bovina; three daughters: Mrs. Bernice Phillips of Henderson, Mrs. Lucy Pyka of Hereford, and Mrs. Rose Hamlin of Bovina.

Rosary services were held at Blackburn and Shaw in Amarillo.

Six Junior girls and eleven intermediates attended the youth Camp from the local church, at the district nine encampment grounds near Floydada, Texas. There were several of the group saved during the encampment.

The local Brotherhood attended the Associational meeting at Friona last Tuesday Evening. They brought back the percentage Banner. The regular meeting of the Brotherhood will meet at the church next Monday night for a watermelon feast and a program to be rendered by a visiting group from Hereford.

The Training Union had the highest average attendance for the month of June that it had witnessed in quite some time. The church is striving to bring the average attendance of the Training Union up to a standard never before attained. Also the union is striving to reach the standard of excellence.

Last Sunday's attendance record was Sunday School, 106, Morning

"Cars coming to my shop after using Conoco Super are cleaner and show less wear than anything I have seen in my 27 years of garage work," Mr. Smith says.

"50,000 Miles-No Wear!" Proved Here:

After a punishing 50,000-mile road test, with proper drains and regular care, engines lubricated with new Conoco Super Motor Oil showed no wear of any consequence: in fact, an average of less than one one-thousandth inch on cylinders and crankshafts. AND gasoline mileage for the last 5,000 miles was actually 99.77% as good as for the first 5,000!

"My car is my meal ticket," admits R. C. Eberhart, Travelingman, Flagler, Colo. "I average 2,800 miles a month. Since changing to new Conoco Super, my operating cost has been reduced and the performance is much smoother."

OPS Man Explains Coming Survey

Roy E. Kessie of the Consumer Durable Goods branch of Office of Price Stabilization, had offices in Parmer County courthouse Tuesday morning to complete the price clinics held by OPS for the past two months.

Kessie stated that in another week the Office Stabilization will begin a nation-wide survey of food prices to lay the base for a program of posted dollar-and-cents "community prices" in grocery stores. The first step will be to survey prices of standard grocery items in 1,000 wholesale establishments. This will be followed by similar visits to over 2,000 retail grocery stores in the 84 district OPS offices. Information from individual sellers will be held in strictest confidence, said H. R. Gholsen, Director of the District office.

A chief purpose of the survey will be to find out if there is enough stability in prices of a number of grocery items to make a community pricing program practicable. Community pricing is a system familiar in World War II under which the country is divided into relatively small market areas and grocery price ceilings set for each on the basis of local transportation and other costs.

These ceilings would be the same for all stores of each size class and would be printed on charts for posting in retail stores where all customers can see them, the District Director said.

"OPS is fully aware of the important part that a community pricing program can play in the Stabilization program of the necessity of having published ceilings for consumers, and of the great help such a program can be to individual grocers in simplifying their pricing problems," he said.

He explained that the community pricing program during the last war had a lot to do with holding the line on wholesale and retail food prices from the time it was started in May 1943 to the end of that control program.

"Up to now," Gholsen pointed out, "OPS is prohibited by law from controlling below-parity farm prices and has not had sufficient assurance that prices have been stable enough to make the printing and posting of ceiling charts practicable."

Glen Grisham of Albuquerque, New Mexico director of the Farmers Home Administration, today announced the appointment of Olen N. Schlueter of Texico to a three-year term on the Curry County FHA Committee.

Schlueter succeeds Herman Rierson of Bellview, whose term expired as of July 1. Rierson had served for the past three years.

Each member of the committee serves a three-year term. The terms are staggered, so that one new member is appointed each year. Appointments are made by Grisham from nominations sent to the state FHA office from the county.

Cotton Outlook for Community Excellent; Local Gin in Final Stages of Completion

Reporting that "cotton in our immediate area is far better than most I have seen over the South Plains in recent trips", G. B. (Pete) Buske, said the first of this week that the North Plains Gin Company's new gin, located south of the railroad tracks, is in the final stages of completion.

The new business was purchased intact in Oklahoma and moved to its present location, has been in the process of erection for some weeks, with the large portion of the heavy gin machinery being set in place before the actual building was set on, Buske said. The gin house proper arrived in Friona during the weekend, and work of putting it in place began on Monday, scheduled to be concluded within three days, barring inclement weather.

Following this work, the final touches on hooking up the vast array of up-to-the-minute machinery will be made, and Buske estimated that the gin—cotton or not—would be "ready to go" within about three weeks, Ray Edwards, Muleshoe gin, is in charge of the work.

Speaking of the cotton outlook in this particular area, Buske reported that he would place a conservative estimate of the acreage at "between 7,000 and 8,000 acres", and went on to add, "nearly all of it that I have seen is in top condition and appears headed for a good harvest."

The local gin man reported that he had recently made a wide swing through the cotton country in the South Plains, and was of the opinion that the local crop by far excels that he saw elsewhere. Asked about harvesting the crop, which in days past entailed a large importation of labor, Buske stated that most of the work, in his opinion, would be done by mechanical pickers, adding, "there are already a few in the area". However, if out-of-county labor is necessary to pick the crop by hand, it is believed that an influx of Mexican workers will come from other areas where the crop has already been cut down by the weather.

When the gin gets underway next fall, Wright Williams is to serve as manager, with a crew of "around eight men to a shift" to be used. The local gin is one of the most modern known, and is capable of turning out from 75 to 100 bales per day, depending on the type and quality of cotton handled.

A "trial run" is planned for some time during September, Buske said, to determine the accuracy of all the machinery in the new business.

Home from Camp

Sally Osborn, daughter of Mr. and Mrs. Sloan Osborn, and Sue Cranfill, daughter of Mr. and Mrs. G. Cranfill, have returned home after spending a week at Camp Mary White near Cloudcroft, New Mexico.

In Fortenberry Home

Mr. and Mrs. G. C. Vernon, parents of Mrs. Paul Fortenberry, were visitors in the Fortenberry home during the past weekend. The Vernons reside in Happy.

Youngsters Return From Summer Camp

Girls from the junior and intermediate departments of the Baptist church returned home the latter part of last week from near Floydada, where the respective summer sessions had been held at the Baptist encampment.

Attending the junior session, from Monday through Wednesday, were Luann Hardesty, Phil Gay and Lila Mae Buske, Ray Jean Jones, Eva Nell Thomas, Joy Crow, Jacquelyn Magness, Judy Taylor, Janice Miller, Mrs. Ralph Taylor and Jeannie, Mrs. Russell Pogue and Lois, Mrs. W. S. Crow and Mrs. H. T. Magness.

The intermediate girls included Betty Ashcraft, Deann Buske, Margie Haws, Nancy Mason, Sandra Brock, Marie White, Eugenia Landrum, Linda Miller, and Jean Fairchild, while sponsors were Mrs. Levim White, Mrs. Magness and Mrs. Pogue.

Mrs. Magness served as a teacher during both encampments. An attendance of 1226 was registered for the juniors with their sponsors, while some 800 intermediates and sponsors were on hand for the annual gathering.

Local Firemen Are Involved in Crash

Two local volunteer firemen, Troy Kemp and Doc Camp, returning from a week-long school of instruction at College Station, were involved in a car accident near Waco, on Friday evening of last week.

The locals were riding with W. T. Bridges, of Levelland, enroute to Lubbock, when the crash occurred. Bridges started to turn his car right off the highway to stop at an eating place and a large van truck, traveling the same direction as the Bridges car, struck the vehicle on the left fender and then overturned on top of the automobile.

The 1950 Ford owned by Bridges was completely ruined, Kemp reported on his return here, but fortunately, Kemp was the only one of the group to suffer more than superficial injuries, and he was not critically hurt. Confined in a Waco hospital overnight, a checkup revealed that he sustained damage to one kidney, some face and head cuts, and three teeth were knocked loose.

The locals returned to their homes in this city by bus, following Kemp's dismissal from the hospital.

Kemp said that the school at College Station was very interesting, with some 600 firemen from 20 states being on hand for rigorous training in the use of new equipment available for combating all types of fires.

Schools out—watch out! The National Safety Council asks motorists to be especially alert for children playing in residential areas and near playgrounds.

Blistering Heat Is Relieved by Shower

Cloudy skies and light showers brought welcome relief on Monday from blistering heat that had prevailed over the section for the past several days.

In towns, the rainfall on Monday morning amounted to around one-half inch, with varying reports brought in from areas where the spotted showers were recorded during Sunday evening and the first of the week.

In most instances, the precipitation was welcome, since row crops appear off to a good start and the hot, dry winds of last week were showing a few damaging effects in curled leaves over the fields. With good sub-soil, farmers in the main believe that only light showers will be necessary to bring the immense plantings of feed sorghums through to a top harvest cutting this fall.

Just how hot it got in Friona last week was debated—since there is no official thermometer in town. Reports varied from 103 to 108 degrees, but all agreed that it at least reached 100 and was hot enough for all concerned.

You'll find that most heels have no souls.

American Legion Will Name New Officers

The Friona American Legion post, in regular meeting last Friday night, elected new officers for the coming year, it was reported today.

Bert Neelley was named as commander of the group, to be assisted by Ralph Taylor as vice commander; Roy Wilson as adjutant; Allen Stewart as finance officer; F. O. Griffith as service chairman; Foister Rector as child welfare chairman; Forrest Osborn as chaplain, Charles Allen as historian; and Joe Brummett as sergeant-at-arms.

Wilson reported that the local Legion now has paid membership of some 58, although around 140 locals are on the list.
