

FROM THE HOPPER

When I tell my wife that there is nothing too good for her, she interprets the statement as meaning there is nothing too expensive for her.

I am told there is rarely a perfect diamond, with slight flaws appearing in practically all stones. Perhaps the biggest flaw is the guy that gave the stone in the first place.

Someone has come up with the observation that the cost of raising a large family is cheaper than a small one. One reason might be that one boy or girl can get into lots of trouble that requires Ma's and Pa's help to get them out. On the other hand, a large family of children usually solves its own problems.

One of our readers has suggested a contest to determine the "most reckless door closer". The reader cited a certain man and his daughter who almost knock the glass out of his front door every time they close it behind them.

One reason I don't get up early any more is that I don't like to meet my son coming home.

We added a new subscriber to the list this week in the person of William Smiley, who now lives at Plainview. The Smileys came to Farwell in 1907 and remained until 1916, moving from here to Swisher County. He said that he saw a copy of The Tribune in the Claude Barker home and liked it so well that he wanted to receive it every week.

Other compliments on our paper have been received this week from W. M. Lloyd and Mrs. Clarence Ashcraft of Friona, and Mrs. Verney Towns; also Lonetta Denney of Fort Worth.

All of these fine compliments make us feel very happy.

Checking up with our subscription clerk, we are informed that more than 100 new subscribers have been added to our list since early in December.

Saw Walter Freeman, Texico barber, out trying to rustle a little jag of coal last week to keep his shop loafers warm. The cold snap of last week found the town completely out of coal.

In former days, a fellow could take a gunny sack and rustle up quite a good supply of coal along the railroad tracks. But with the advent of oil-burning engines and natural gas taking the place of domestic and commercial fuels there is no coal along the tracks any more.

I am reminded of a story told by Andy Moorman, up near Bovina. Andy said he came to town several years ago after a load of coal. When he got here, there was no coal in town. He went to Bovina, to discover the same condition.

Not to be outdone, Andy climbed aboard a flat car loaded with coal at Bovina, and by the train arrived in Farwell, he had a good wagonload dumped along the right of way, strewn from here to Bovina.

"The cow chips were all too wet to burn and we had to have some fuel," Andy relates.

All of which emphasizes the resourcefulness of those hardy old pioneers who blazed the way in opening up this section of the country.

New Court Owners Are Delayed By Weather

Mr. and Mrs. R. D. Williams, of near Plainview, who bought the Ilini Courts in Texico from Mr. and Mrs. Claude Stone before Christmas, have been delayed in taking over possession by road conditions in the Plainview section.

Mrs. Stone said Wednesday that Williams had informed them he would likely be delayed until the first of next week in arriving here and taking over the business.

Misdemeanor Cases Tried In Texico

Sam Lewis, police magistrate in Texico, reported 19 misdemeanor cases in justice court in the month of December.

One case was filed by the State Corporation Commission, one by state police, eleven by inspector of revenue, and 6 by the department of courtesy and information.

Fines of from \$10 to \$50 and court costs were assessed. Cases consisted of evading the Port of Entry, overloading on New Mexico highways, and failing to yield right-of-way, thereby causing an automobile accident.

RHEA SPEARS MARCH OF DIMES DRIVE WITHIN PARMER COUNTY, EULER SAYS

The Rhea community is currently riding at the front of the March of Dimes campaigning in Parmer County. Chairman Raymond Euler, of Friona, reported on Tuesday of this week.

Adding that he had not had reports on actual contributions from any other section, Euler said that a pie supper at Rhea the past Friday night raised a total of \$201.94 for the drive, and added "I know of another \$10 which will go to that community's total." Mrs. Paul Koeltzow is chairman at Rhea.

In the meantime, other communities are planning special events which will benefit the polio campaign, the chairman said. In Friona on Saturday of this week, all four cafes will serve coffee at 10c per cup, with the total proceeds going to the campaign fund, Euler went on.

In addition, an outsider game between Farwell and Friona would-be athletes has been announced, to be held at the new Friona gym next Tuesday night, January 15th.

Bovina has announced a "Fat vs. Slim" cage game for men of the town on Thursday night, January 31st, with the proceeds also going to the fund. The affair is to be held at Williford gym with the "fats" reporting to R. E. Everett while the "Slims" are to be listed by Clovis Ratliff.

"Up to now, cooperation from all individuals has been excellent, and I believe we should have a very successful drive," Euler said on Tuesday.

"Iron Lungs" have been placed in businesses over the county to receive contributions, and small lapel boxes are also being worn by clerks in numerous stores.

The drive is to continue throughout the entire month of January, ending on the 31st.

Mrs. Cleora T. Green Dies In California

Mrs. Cleora T. Green, a former resident of the West Camp community, and mother of Mrs. John Mount of the Oklahoma Lane community, died suddenly the past Monday, while visiting a daughter, Mrs. Aileen Karpinski, in Santa Clara, California.

Mrs. Green had been a resident of Sanger, California for some years. She became ill in the Karpinski home, and died in an ambulance while enroute to the San Jose, Calif., hospital.

Survivors other than Mrs. Mount and Mrs. Karpinski include: four sons, Lloyd F. Green, Sebastopol; Melvin E. Green, Richmond; Lusky Green, Texas; William S. Green, Missouri; three daughters, Mrs. Velone Smith Sanger; Mrs. Vera Wharton, El Sobrante; and Mrs. Wilma Sorenson, Saratoga.

Also surviving are four brothers, Al Taylor, Gridley; Cleve Taylor, Oklahoma; and Silas and Loma Taylor of Arkansas; two sisters, Mrs. Vada Green of Oklahoma and Mrs. Mary Salmon of Arkansas; and 20 grandchildren.

Funeral services were held on Saturday afternoon at the Central Church of Christ in San Jose, with interment in Oak Hill Memorial Park there. All members of the family were present for the services.

Local Lawyer Named To Safety Group

Sam Aldridge, Farwell lawyer and Parmer County attorney, has been named by Governor Allan Shivers to a place on the Texas Public Safety Commission. It was announced here today, with his term running through December, 1953.

Aldridge would succeed J. Price Maddox, of Sweetwater, according to Gov. Shiver's announcement.

The local attorney has been a Farwell resident for some years, and is the son of the late Mr. and Mrs. J. A. Aldridge Sr. He graduated at the top of his law class at the University of Texas, and during World War II was for some time connected with the Federal Bureau of Investigation.

Contacted here late Tuesday for a statement, Aldridge said that he was still undecided about accepting the appointment.

Rhea Community Does It Again

The people of the little community of Rhea, on the northeast side of Parmer County, for another year have proved that their hearts are as big as their community is small, insofar as the annual March of Dimes is concerned.

Last Friday night, when most people of the county wouldn't have bothered to be-sit themselves from their warm homes, Rhea went right ahead with its announced pie supper, the proceeds going to the polio fund.

With Bill Sheehan, of Friona, acting as auctioneer, less than thirty present bid as though they might lose out; and then wound up the evening by conducting a couple of contests, naming J. D. Stevens as "the handsomest man", and Mrs. Clara Sachs as the "ugliest woman" present.

Net result of the evening: \$201.94 for the polio fund, an amount which will probably not be exceeded in a single gathering slated to be held during the county as the drive progresses.

Snow Brings Needed Moisture To County

The 4-5 inch snow that fell here during Wednesday night of last week throughout this and adjoining counties had almost disappeared by late Tuesday afternoon, leaving a good deposit of moisture as it melted and soaked into the ground.

The blanket of snow, which was received with much rejoicing, covered a wide section of the Plains country to depths ranging from 4 to seven inches. Measurements here averaged four to five inches. The snow fell gently and remained where it hit the ground, proving very beneficial to wheat fields.

Temperatures dropped sharply over the weekend, with readings of ten degrees being recorded over most of this section. The snow and accompanying cold resulted in ice-glazed highways, which made driving extremely hazardous. School buses could not operate with safety with the result that schools were closed on Thursday and Friday.

Farmers from the Lazbuddy, Oklahoma Lane and Rhea community, who have been in town this week report good snows throughout those sections and say that the wheat prospects were boosted by the timely snow.

Getz Continues In Texico Business

Caught in a receivership that affected the operation of the Texico Produce Company, operated by Mr. and Mrs. John Getz for the past few months, Getz announced today that he would continue the operation of the feed store in Texico under the name of John's Farm Supply Store.

The poultry processing plant that featured dressed poultry, has been closed as a result of the receivership, as has been the Farmers Supply Co. But Getz said he would continue to operate under his own name in the feed store location.

"With the exception of the feed mill," Getz said, "the feed store will continue to handle the same lines as in the past." He added that the mill was in need of repairs and had been closed down.

Backed by outside capital, Mr. and Mrs. Getz opened the poultry processing plant only a few months ago and at the time of the receivership, it was the second largest processing plant in New Mexico, handling thousands of dressed birds weekly.

HOME FOR HOLIDAYS

Pfc. Scott Gober, who has been receiving treatment at Brooks General Hospital in San Antonio for several weeks following injuries received in Korea, spent a six-day Christmas furlough with his parents, Mr. and Mrs. J. I. Gober.

Gober's right arm, which was injured, is showing improvement and his injured eye now gets a 20-30 vision report, family members said, adding that Scott is "feeling pretty good". He was accompanied back to San Antonio by Sonny Hanna.

A series of burglaries that have been committed over a wide scope of eastern New Mexico and West Texas, was solved last week with the arrest of Harry Fenning, 33, and Fred Allen, 41, both of Clovis.

The pair confessed to the series of crimes before District Judge E. T. Hensley Jr. in Clovis Tuesday morning and were sentenced to serve two and one-half years in the penitentiary.

Fenning and Allen were both arrested in Parmer County where they were employed on construction work on farms east of here, after Sheriff Val Baumgart of Clovis, had picked up a good tip and communicated it to Sheriff Lovelace of this city.

Following their arrest, the men took the officers to a farm house on the old Texico-Clovis highway a short distance east of Clovis, where the officers uncovered a loot estimated at not less than \$3000 worth various kinds of merchandise, guns, luggage, clothing, tires, a washing machine, a sewing machine, an electric refrigerator, and a number of smaller electrical appliances.

Sheriff Lovelace said that the stolen items were concealed behind secret panels in the wall under the floor and in the ceiling.

From an investigation that followed the arrest, officers were led to believe that the loot was an accumulation of several months activities on the part of the pair, in homes over at least three counties—Curry in New Mexico, and Parmer and Bailey in Texas.

Sheriff Lovelace said that one of the men owned a large convertible automobile. When their loot consisted of a large item such as a refrigerator, they would simply let the top down, load in their loot, then pull the top of the convertible back in position.

When the officers raided the house where the goods were stored, they tried wall boards from the wall to be greeted with an avalanche of stolen merchandise tumbling out in the floor, Sheriff Lovelace said. Practically all items reported stolen in Parmer County in recent months, was recovered, he said, including electrical appliances taken from the Jack Williams home, a suit of clothes and top coat belonging to Champ Porter, and some luggage belonging to Gordon McCuan.

The washing machine was taken from a home in Muleshoe, and the refrigerator was picked up at a rural store at Broadview, N. M. officers said.

No less than 40 guns of various kinds and a dozen pistols were recovered, and officers do not know as yet where much of the recovered property came from. They suggested that persons who have missed items in recent months go to the sheriff's office in Clovis for the purpose of identifying items that might belong to them.

Dosher Plans Sale On January 22nd

Col. Dick Doshier, local auctioneer, announced today that he was planning a farm dispersal sale at his farm 3 miles west of Texico on Tuesday, Jan. 22.

Doshier said that he would have at least 50 head of livestock and a large collection of good farm implements to offer on that date. He said that he was reducing his large operations and was planning on putting down an irrigation well.

New Hudsons Going On Display Friday

At least two and possibly four of the new 1952 Hudson automobiles will go on display at the Hardage Hudson Company in this city, it was announced here today by Walter Hardage, owner and manager of the firm.

Hardage said that he hoped to have four of the new models on display on Friday, but when contacted early this week he had been assured of only two of the new cars—a Commodore and a Hudson Wasp.

BUILDING NEW HOME

Charley Hromas started construction of a new and modern home, in Farwell, Tuesday. It is located on south Second Street, just west of the H. Y. Overstreet home.

Voting on directors and county committeemen who will serve on the Water District board for the next few years was light in this county on Tuesday, according to tabulations made at the office of County Clerk Loyde A. Brewer.

The heaviest vote in the county was reported from the Friona box, which drew a total of 44 voters, while Lazbuddy's count was the lightest, with only five ballots cast.

Willis Hawkins, of Hart, candidate for precinct director in the water district; Raymond Euler, Tom Caldwell and Bruce Parr, candidates for committeemen, made up the local ballot.

Bovina's box reported a total of 14 votes for each of the candidates; the Farwell box showed 24 for Hawkins, 22 for Euler, 23 for Caldwell, 21 for Parr, and write-in votes for Lee Thompson, 1, and Ray Suderth, 1.

At Friona, Hawkins got 44 votes; Euler 43, Caldwell 44, Parr 44, and one write-in Arlon Hartzog, 1. Lazbuddy voters cast identical ballots, with five votes marked down to the score of each candidate.

Totals in Parmer county: Hawkins, 87; Euler, 84; Caldwell, 86; Parr, 85; Thompson, Suderth, Hartzog, 1.

120 Men Called In Livesay Trial For Monday, Feb. 4th

Sheriff Chas. Lovelace today released the names of the 120 special veniremen who have been summoned to appear here on Monday, Feb. 4 in the Thomas L. Livesay murder trial, which is being brought to this county on a change of venue from Bailey County.

District Judge E. A. Bills was here last Friday and drew the names of the special venire from which it is hoped that a jury in the case may be obtained.

Livesay goes on trial for his part in the fatal beating of Joshua Blocher, 85-year-old founder of the little town of Progress in Bailey County, 16 miles southeast of this city. Lester D. Stevens who was charged jointly with Livesay with the death of Blocher on August 15, last year, was given the death penalty in Bailey County early in December. Judge Bills moved the Livesay hearing here after holding that obtaining a jury in Bailey County would be next to impossible.

Two Starts Finally Get Him To School

It took Cary Joe Magness, son of Mr. and Mrs. Clyde Magness, two starts to get back to SMU in Dallas following the seasonal holidays, but he finally made it.

Accompanied by John Watson of Clovis, Cary Joe departed Friday morning, only to come a cropper when his car slid into a truck that was sliding across the road on an ice glazed hill near Spur.

The car was only slightly damaged, but the travelers returned to Farwell, Friday evening. Mr. and Mrs. Magness took the boys on to Dallas on Saturday, returning here Tuesday night.

Football Or Basketball, It Was Entertaining

Members of Texico-Farwell Lion's club hit two birds with one stone, or maybe more, when they played the Portales club in basketball (it might have been football) on Monday night in the Texico gymnasium.

Not only did the local Lions trim their figures, but they trimmed the Portales group by a three-point margin. It was an "anything goes" game, and the referee was busy trying to keep only five players for each team on the court at one time, trying to decide if team members fell or were shoved, and to keep a semblance of order.

Score was 10-4 in the first quarter with Texico-Farwell in the lead; and the margin was widened to 24-13 by halftime. Still ahead in the third, Lion Agrie Jones was substituted on to the court and Portales pulled up to 32-29 by the final whistle. Portales received two shots when Jones, unable to stop his opponent's trek goalward, tackled him to prevent the shot.

Curtis Miller was the team hotrod making 18 counters.

After many tumbles and mistakes the game ended; and Lions retired from the court, while visions of linament danced in their heads.

Members of the local team included: Curtis Miller, Fern Stout, Robert "Prof" Motion, Chas. Stockton, W. M. Roberts, Agrie Jones, Mitz Walling, Joe Helton, and George Hill.

WTCC Has Citizenship Contest, Urges Payment Of 1952 Poll Taxes

Chamber of Commerce officials urge local citizens to pay their poll taxes, and for those who have not also done so, they also urge that local people pay their city taxes now.

The West Texas Chamber of Commerce today announced a "Fundamentals of Citizenship Contest" aimed at stimulating payment of poll taxes, voting in the primary and general elections and attendance at party precinct conventions.

Eligible to enter are local chambers of commerce in the 132-county area served by the WTCC and other organizations which are affiliated. In some smaller communities service clubs serve as chambers of commerce.

The contest opened January 7 and ends November 11.

Awards will be made on a county basis in four groups—those of 50,000 or more population, 20,000 to 50,000, 10,000 to 20,000 and less than 10,000.

Basis of judging will be as follows:

Portion of citizens paying poll tax in comparison to total 1950 population, 25 per cent.

Portion voting in first and second primaries and the general election, compared to county population, 25 per cent.

Campaign conducted to promote the contest—25 per cent.

Percentage of citizens attending precinct conventions compared to population, 25 per cent.

Wall plaques and trophies will be awarded winner.

New Deal Makes Happy Coaches

It's a "new deal" and coaches of this district are "happy" about it.

In explanation, Happy and New Deal, two schools in this district last year, completely overran the teams in this area with their more experienced football teams. In every game, the two schools outclassed other teams, who didn't have a chance.

Well, next year, it's gonna be different, because the two schools are no more listed with the Class B teams, they have gone Class A. Though it may be a little difficult for the five schools in the district to match sufficient contests, all five teams will be in the running.

Who knows what the 1952 football season will bring?

Teams Split Games With Vega-Rosedale

In recent games of Farwell basketball teams, against Rosedale and Vega the local cage groups split games, with the girls winning over Rosedale and losing to Vega, and the boys losing to Rosedale and winning over Vega.

In the Rosedale tilts, played before the Christmas holidays, the girls' team led all the way. LaVerna Christian sparked the local group with 19 counters to her credit. Score by quarters was: first, 12-7; second, 24-13; third, 29-18 and fourth, 43-26. Scoring for the opponents was evenly divided with Harrington and Massey hitting 7 each and Trower and Northcutt mking five each.

In the boy's tilt, the Steers could not seem to get on their feet, and the Rosedale squad topped them 40-34. Holding a slight margin in the first period, Rosedale was in the lead 21-17 by halftime. Third quarter count was 29-25. V. Chandler of the New Mexico team was high point man with 22 points and Coburn of Farwell made 11.

In the Vega sessions, played Friday night on the local court, the girls were defeated 11 points, 31-20. The opponents gained a seven point margin in the first and maintained their hold with an 18-11 count at halftime. At the end of the third, points read 25-7, still in Vega's favor. B. Wiseman of Vega hit 21 and Christian led the locals with 11 points.

In the boy's game, Farwell won by a slight 34-32. Vega gained an early lead in the first with a 10-7 score, and by halftime the score was tied 12-12. Moving into the third, Vega again moved ahead with 22-19, but Farwell won in the last minute drive. Coburn was high man with 18 points, followed closely by Jones of Vega with 17.

Girls Win, Boys Are Victims Of Adrian

The Farwell and Adrian cagers split matches on the local court, on Tuesday night, when conference victories went to the local girls and visiting boys.

Final score in the girls' game stood at 40-17, with the outcome of the game never in doubt, as the locals grabbed a quick first-quarter 13-0 lead and maintained their margin throughout.

Scoring was very evenly divided between the winning forwards. M. Foster got 10, Sprawls 9, Hines 8, Hardage 7, and Christian 6, score showed. This is the third conference win for the girls, as against one loss.

On the other side of the ledger, the Adrian boys soundly walloped the Steers, 66-27, continuing a winning streak which the Steers have been unable to break for the past several seasons.

Briggs and Proctor led the Adrian attack with 17 and 14 respectively, while Brown came along with 12 and Banks added 9. Coburn managed to get in a total of 8 to pace Farwell.

The Steers stand evenly divided on conference play thus far, with two wins and two defeats.

FARWELL-TEXICO TO PLAY

Farwell schools will be host to the Texico basketball teams Tuesday night, January 22, and try to avenge earlier scores of games played on the Texico courts. Texico won both boys' and girls' sessions earlier in the year.

Texico Juniors Lose Twice on Weekend

Texico's Junior High School boys basketball team lost two verdicts to the Dora and Rogers junior teams, on Friday and Saturday nights on the home court. Dora pounded the locals 32-14, and Rogers won over them 26-17.

In the Dora game, the locals were unable to score a point in the first half, trailing 21-0 at the halfway mark. The locals played better ball in the second half, but were unable to overcome the lead obtained by the visitors, and bowed 32-14.

The locals also trailed the Rogers team all the way, but played better ball than the night before. Rogers was ahead 8-6 at the end of the initial period, and increased their lead to 15-7 by halftime. Rogers still continued to increase their lead in the second half, by leading 20-12 at the end of the third period and winning the ball game, 26-17.

The Junior team goes to Center next week for their next game," stated Curtis Miller, coach.

Muleshoe Tops Locals With Top-Heavy Count

In the girls session which ended with Muleshoe in the lead, 58-31; the opponents began hitting in the first quarter and didn't let up until the final whistle. Making 14 points to Farwell's 9, the Bailey County team doubled the Farwellites by halftime, 26-13. Score by the end of the third was 40-23. Wagen of Muleshoe paced her team with a high 32 counters and LaVerna Christian of Farwell made 16.

Coaches Will Plan Grid Schedule; Two Teams Go Class A

Coaches of this district are slated to meet Wednesday night to plan the football schedule for the coming year. Coach Tommy Hestand said today. Two teams who were in the district last year have dropped out, he continues. Both New Deal and Happy have been admitted to Class A football.

Left as contenders in the district will be Petersburg, Anton, Farwell, Bovina and Friona. According to the coach, it isn't likely that any other teams will be added to the district. "We'll just have to go out of our class to get games," he says, adding that Springlake and Vega will probably be two non-conference teams to be on the list of opponents for teams of this district.

The Whirlwinds still continued to increase their lead in the third canto, by scoring 11 points to Ranchvales 4. The final period was the only quarter the visitors were outscored. Ranchvale hit the bucket for counters, while Texico scored 7.

Snow Only Reminder Of Christmas For Soldier In Korea

The only thing like Christmas that Harry Johnson (Cpl. Edward H. Johnson) of Bovina, son of Mr. and Mrs. E. L. Johnson, found in Korea was snow, and plenty of it according to a letter written on December 30th by the corporal to the home folks in Parmer County.

Cpl. Johnson reveals that he spent Christmas Eve on outpost duty with K Company, returning to the front lines on the following morning "through strong barbed wire while it was snowing. It's about all a guy can do to climb back up the hill from the outpost," he says, adding, "the trail is just hardpacked snow and is pretty slick."

The Bovina foot-soldier goes on to say that he hasn't seen "a Chink" yet. I and L companies have run into a few. We passed an I company boy being brought in on a stretcher yesterday on the way to the outpost. They had been out on patrol. L company made a little push yesterday and had a few casualties. They lost a tank, too. It hit a mine. The Chinks went out and burned it last night to keep us from dragging it back.

"It gets cold here now, I'm telling you," Johnson writes. "Some of the boys have already got touches of frost-bite. I stayed pretty warm last night though and slept in a fox hole. I can sleep anywhere now, I guess."

He concludes with, "Well, I think maybe that the shooting will stop pretty soon. It might as well. We are not doing any good here. They keep sending out patrols. It looks useless to me to do that. The only time anybody gets hurt is on patrol. I haven't been on one yet but guess my time will come."

Girls Maintain Record, Boys Lose To Adrian

The conference basketball games between Adrian and Bovina were postponed on Friday night because of bad weather, and Bovina went to Adrian on Monday night for the contests.

The local girls continued their winning streak, defeating Adrian 60-22. The Bovina squad still holds a 100 percent record in conference play. Lavonda Newton was high scorer from Bovina with 22 points; Broniman of Adrian led them with a total of 15.

The Mustangs took their first conference loss to the tune of 46-26. Adrian took the lead and held it throughout the game. Half-time tally was 17-6. Hromas was high for Bovina with 9 points, and Brown led the Adrian scoring with 13.

Mr. and Mrs. Lester Rhinehart have as their houseguests this week Mr. and Mrs. Steve Sisk of Corpus Christi and Ovey Sisk of Fresno, Calif. Steve and Ovey are brothers of Mrs. Rhinehart. Mr. and Mrs. Charles Thatcher and sons of Clovis, were guests of the Rhineharts on Sunday.

Bovina Young People Exchange Nuptial Vows

Before an altar decorated with large baskets of white gladioli tied with white satin ribbons, Miss Irma Jo Kelley and Bobby Englant exchanged wedding vows on Sunday, December 23, at 4:00 p.m. at the Baptist church in Bovina. Rev. M. D. Durham, pastor, read the double ring rites.

Mrs. England is the daughter of Mr. and Mrs. Homer Kelley of Bovina and Mr. Englant is the son of Mr. and Mrs. Ernest Englant, also of Bovina.

Mrs. John Wilson presented a prelude of piano music and then accompanied Miss Clara Derrick as she sang "Because". Mrs. Wilson also played the traditional wedding marches.

The bride, given in marriage by her father, was lovely in a street length dress of blue wool with a white hat and gloves and Navy blue shoes completing her costume. She wore a corsage of white gardenias and carried a white Bible topped with white sweet peas, with streamers of blue satin tied in lovers knots.

Miss Lula Bell Childers, cousin of bride, served as maid of honor. She was dressed in a rose street length dress of corduroy with brown accessories and a corsage of white rosebuds.

Glenn Kelley, brother of bride, was best man and J. D. Kelley, also a brother of the bride, and Giles Walling, cousin of the groom served as ushers.

The mother of the bride chose a light brown suit complimented with dark brown accessories and the mother of the groom chose a navy blue gown with navy and rose accessories. Both costumes were complimented with a corsage of white carnations.

Mrs. Englant is a graduate of the Bovina High School class of '41 where she was prominent in sports and was a cheer leader her senior year. Mr. Englant is also a graduate of the Bovina High School with the class of '49.

The couple will be at home northwest of Bovina where Mr.

Englant is engaged in farming.

Out-of-town guests present for the wedding included Mr. and Mrs. Jack Kesler of Jal, New Mexico, Mr. W. P. Nittler and Nelda Jane of Hale Center, Miss Jo Ann and Charles Dwayne Fillpot of Abernathy, Mrs. Bill Stevens and Mike and Mrs. Buddy Cline of Childress.

The proper attitude must be maintained toward the word. If one discovers that his attitude is not right, he should cultivate an attitude that God will approve. Too little attention has been given to shaping our attitude. Those who "receive not the love of the truth" will be sent "a working of error that they should believe a lie that they all might be judged who believe not the truth." (II Thess. 2:10-12) Paul thanked God that the Thessalonians had accepted the "work of the message as the work of God" and "not as the work of man". (I Thess. 2:13) There is to be recognized a vital difference between the words of God and the words of men. While it may be allowable (or even necessary at times) to apologize for the words of some men, it is inexcusable for any one ever to apologize for the word of God.

"42" Party Held

The home of Mr. and Mrs. Wilbur Charles was the scene of a "42" party on Monday night. Seven couples gathered to enjoy an evening of progressive games followed by refreshments of cherry pie a la mode with coffee and tea.

Attendees were Mr. and Mrs. Frank Smith, Rev. and Mrs. I. T. Huckabee, Mr. and Mrs. I. W. Quickel, Mr. and Mrs. Frank Hastings, Mr. and Mrs. Vernon Estes, Mr. and Mrs. Harry J. Charles, Mrs. Margaret Caldwell and Rita.

ATTENDS CONFERENCE

Supt. W. H. Willoughby attended the mid-winter conference for administrators at Austin, January 3-4-5. The first general session was held at the Paramount Theater at 8:45, Thursday morning.

Work sessions were conducted on Thursday afternoon, Friday and Saturday at the various Austin hotels. Conferences were held on transportation, teacher certification, school audits procedure, accreditation of schools, etc.

Other superintendents from Parmer County who attended the meeting were Dalton Caffey of Friona and Jack Williams of Farwell.

Grandmother Charles, Mrs. Wilbur Charles Feted On Sunday

Mrs. Mary Charles, better known to the people of Bovina as "Grandmother" Charles, was honored on Sunday with a birthday dinner in the home of her son and family, the Wilbur Charles. The honoree was 85 years young on January 7.

Mrs. Wilbur Charles served baked chicken and all the trimmings to the guests. The table was centered with an arrangement of spring flowers, flanked by tapers. There was also a birthday cake for the honoree.

When it was time to fix the birthday cake and present the gifts, Mrs. Wilbur Charles was quite surprised. January 7 is also her birthday, and the guests had remembered her as well as Grandmother Charles. Mrs. Margaret Caldwell had baked a cake for Mrs. Charles, who was really surprised. Both of the birthday celebrants received lovely gifts.

Those present for the affair were Rev. and Mrs. I. T. Huckabee, Mr. and Mrs. Joe Bell, Mr. and Mrs. I. W. Quickel, Mr. and Mrs. Frank Hastings, Mrs. Margaret Caldwell and Rita, Mrs. Ellen Remnsnider, and the hosts, Mr. and Mrs. Wilbur Charles and Mark; and the honoree, Grandmother Charles.

Mrs. Fred Head of Bronson, Kansas, visited recently with her daughter and family, the Howard Crooks.

Mrs. Kerby Attends Queen Coronation

Al Kerby went to El Paso Thursday to return his wife and daughter to their home after a visit with her sister and family. They returned on Monday after stopping in Jal, N. M., to visit Mr. and Mrs. Jack Kesler.

While in El Paso, Mrs. Kerby attended the coronation of the Sun Carnival Queen, Miss Frances Zork. The coronation was quite pretty, according to Mrs. Kerby, with some 40 princesses, ten duchesses, a lady-in-waiting and the queen and their escorts taking part in the ceremony. They were all in formal dress and the stage was decorated appropriately. Following the coronation, Hilo Hattie and her troupe presented a command performance. The troupe included a Hawaiian orchestra and five Polynesian dancers.

The visitors also attended the Sun Carnival parade on New Year's morning. Theme was "The Fabulous Southwest" and while the parade was good and featured some beautiful floats and excellent bands, it was not as good as in past years. Mrs. Kerby stated.

A Message of Importance To Every Automobile Driver In The State of Texas

HERE'S WHAT YOU SHOULD KNOW ABOUT THE NEW TEXAS "SAFETY RESPONSIBILITY LAW"

- 1 **Enforcement Begins January 1, 1952.** On this date, the new Safety Responsibility Law, as passed by the Legislature, goes into effect. This law was designed to protect you against financially irresponsible drivers and owners of motor vehicles involved in accidents. It affects all drivers and motor vehicle owners (except Federal, State, County and City-owned cars).
- 2 **What Must You Do After An Accident?** Under existing laws, you must file a written report to the Department of Public Safety if your car is involved in an accident where there is a death, an injury or property damage in excess of \$25. Under the new law, a written report must be filed *within ten days* if your car is in an accident resulting in death, injury or property damage in excess of \$100.
- 3 **You Don't Have to Carry Liability Insurance, But . . .** If you are not insured against bodily injury and property damage liability, you must be able to deposit with the Department of Public Safety security equal to the estimated damage, not exceeding \$15,000.00, to cover all claims growing out of an accident anywhere in Texas in which you or your motor vehicle were involved. If you cannot establish financial responsibility for the future, your driver's license and your motor vehicle license plates are automatically suspended.
- 4 **It's Easy to Establish Financial Responsibility** with a motor vehicle liability insurance policy. If you do not now have such a policy, call your local insurance agent today. He is a qualified insurance counselor who will be happy to advise you concerning your needs.
- 5 **What is the Minimum of Your Liability?** The law permits each driver to establish the following minimum limits of liability: up to \$5,000.00 for injuries sustained by one person; up to \$10,000.00 for all personal injuries resulting from one accident, and up to \$5,000.00 for property damage. You do not have to establish such liability but it is the easiest way.

Effects Of Toxaphene On Dairy Cows Given

COLLEGE STATION—Small amounts of toxaphene apparently are not harmful to dairy cattle, according to Joe Jones, county agent.

This insecticide is used widely in the control of grasshoppers on forage crops and pastures and in the control of flies, lice and ticks on dairy cows.

The effects of toxaphene on dairy cattle were investigated during 1950 by research workers of the Texas Agricultural Experiment Station.

Amounts varying from two and one-half to thirty-seven and one-half grams of actual toxaphene per day were fed to four Jersey cows.

R. E. Leighton, associate professor of dairy husbandry, reports that

none of the cows showed any harmful effects as long as the dose of toxaphene was not over five grams per cow daily.

However, when the dosage was increased to seven and one-half grams, symptoms of toxaphene poisoning—extreme nervousness, loss of appetite and convulsions—became evident, usually within one to two weeks. Feeding larger dosages of the poison finally resulted in the death of two cows.

In another phase of the experiment, calves were not harmed by drinking milk from Jersey cows fed half a gram of pure toxaphene a day. Leighton estimated that a dairy cow eating roughages sprayed with normal amounts of toxaphene for grasshopper control would not consume more than half a gram of toxaphene in 24 hours.

Apparently, it is safe to spray dairy cows with five-tenths per cent toxaphene prepared from wettable powder concentrates, says Leighton. However, use of a five-tenths per cent toxaphene water emulsion spray prepared from emulsifiable oil concentrates may not be satisfactory.

Following the use of water emulsion spray in this experiment toxaphene apparently was secreted in the milk for several days.

Further research on the effects of toxaphene on dairy cattle and their milk is planned by the experiment station.

The results of completed work are given in Progress Report 1409, available from the Publications Office, College Station, Texas.

Farmers were a bit worried for a while when they read the newspaper headline stating that the cream of the country is going to Reno to be separated.

PROBABLY WIDES TWAINS

A Sunday School class was composed of three-year-olds. The teacher asked the tots: "Do any of you remember who St. Matthew was?" No answer.

"Well, does anyone remember who St. Mark was?" Still no answer. "Surely, some of you must re-

member who Peter was?" The little faces were full of interest, but the room remained quiet. Finally, a tiny voice came from the back of the room: "I fink he was a wabbit."

WE CHALLENGE NOBODY!

We Are Too OLD to FIGHT -- Too FAT to RUN!

Competition Is a Good Thing

For instance, THE FORDSON TRACTOR, forerunner of the light tractors, was introduced by Henry Ford around 1917. It started something. Had it not been built, International might still be selling the MOGUL or the TITAN.

THE FORDSON forced INTERNATIONAL to build the first really good farm tractor: the 10-20, the 15-30, the OLD REGULAR FARMALL. The OLD REGULAR FARMALL kept the ball rolling and forced COMPETITORS to build ALL PURPOSE tractors. In a few years they caught up, or surpassed, and INTERNATIONAL had to improve.

In the 1930's they brought along the F-20, the F-30, and the F-12. Again COMPETITION caught up, or surpassed, and I H C came along with the FARMALL M and the FARMALL H. We merely outline this to show how COMPETITIVE FREE ENTERPRISE paves the way to PROGRESS and IMPROVEMENT.

INTERNATIONAL does not build ONE TRACTOR that will fit EVERY purpose from 10 acres, up to 1,000 acres. They just aren't that good. They do build 17 sizes in the Wheatland type alone. From 12 H.P. to 180 H.P. They build four sizes in the row crop models, and we wish they built four more. Just a few words about our four Farmalls:

First — The Farmall M.

It is the heavyweight champion in the 4-row class. We do not claim it is the largest 4-row. Jack Dempsey was not the biggest man in the ring, but he was the champion. The FARMALL M is as maneuverable or easy to steer and handle as most 2-row tractors. It is economical on fuel and oil. It is RUGGED and DURABLE. It is a low-cost tractor to repair. It is now starting its 13th year, and we know of none that have been discarded or junked.

Second — The Farmall H.

It is the LIGHT HEAVYWEIGHT CHAMPION. Eighty percent of the H Farmalls in the Muleshoe area are pulling 4-row equipment. We have some customers who have farmed up to 300 acres for five and six years with the Farmall H without grinding the valves or changing sleeves, pistons, or inserts.

Third — There Is the Cub.

A fine little job for the 20- or 40-acre farmer. Lately, competition has forced I H C to bring out the finest Farmall in our line. The new MIDDLE WEIGHT CHAMPION, the Farmall C. We believe the Farmall C will make a great name for itself and International. We invite all farmers interested in a tractor of this size to try it. We will be happy to demonstrate the Farmall C to anybody. Try it on a 2-bottom plow, or a 2-bottom lister, 2-row cultivator, or 4-row sled.

We make no claim that International Farmalls are superior in EVERY feature. Our competitors have some mighty good points. We also know that we cannot satisfy all our users 100% percent. We wish that were possible.

To those few dissatisfied users, we wish to point out that perhaps the biggest fault is in us as a dealer. Some fault may be in the product, and some fault in the user. Some of the dissatisfaction may be caused by a combination of all three.

We take this opportunity to extend to all our competitors, our wishes for their success and prosperity. To every farmer in our area — our best wishes for GOOD CROPS and HAPPINESS in 1952.

To those loyal International customers who react kindly to our errors, who are patient with our mistakes, who are tolerant of our faults, we thank you from the bottom of our hearts. Your generous patronage has given us some share of prosperity.

TO EVERYONE - A HAPPY NEW YEAR

New Year Customs Are Outlined

BY JO SONDRAG MAGERUS

When we celebrate the first day of the New Year, we are following a custom that dates back to the dawn of civilization; for nearly all the people of the world have celebrated it in one way or another.

If we could travel around the world on a magic carpet and peep at the New Year celebrations in the various countries, we would see a wonderful variety of customs.

In China every debt must be paid and every house swept and cleaned in preparation for the new year. Each person is furnished with holiday clothes and a supply of fruits, candies, and packages of tea to give to friends.

The Japanese New Year Festival is perhaps even gayer. Every gatepost is adorned with dark green pines and feathery light green bamboo, while over the doorways hang vivid red lobsters and crabs and scarlet fruits, symbolic of long life and happiness. Everyone beams with joy, bowing and wishing the compliments of the season even to perfect strangers.

French children may put their wooden shoes on the hearth for gifts at Christmas, but the adults exchange gifts at the New Year's Festival. They also have family parties and exchange visits.

In America the observance of the New Year's Day is as varied as the character of the people. There was once a custom of cleaning a chimney on New Year's Day so that good luck might attend the household for the entire year. Today, cleaning the

chimney is echoed in "cleaning the slate" by making resolutions to correct old faults and bad habits, and begin the new year with the promise of good to come.

There is another reason for making resolutions.

January gets its name from Janus, an Italian deity who had a face on the front of his head and another on the back of his head. This allowed him to look both backward and forward at the same time. It's easy to see why mortals make resolutions on the first of January. Looking back one sees many mistakes, looking forward one plans to live differently and better than in the year just gone.

There are many ways of "seeing in" the new year, such as dancing and theatre parties, and midnight church services.

But let us look ahead. What does this new year mean to us? There are 366 days ahead for us to do with as we choose. We may choose hard work which brings advancement, or we can choose to be lazy and stand still in the stream of life.

In the days to come, there is sure to be something for each one of us to discover. There will be a book unread, a flower untrifled, a path untrod, or other concealed gifts. All of this is in the year that waits for us beyond tomorrow's mystic gates.

Let's all resolve to open those gates and make 1952 the best year ever!

AUNT HET

Dear Aunt Het:

I am infatuated with a boy who is in the same grade that I am but the only chance I have to see him is in science class. Since he sits at the front table and I at the back one, my love life isn't progressing very well. What do you suggest?
A very lonely girl.

Dear Lonely:

Have you ever thought of complaining to Mr. Stout about your eyes and that an excellent place for you would be beside this young man on the front table. You know the old adage, distance makes the heart grow fonder, of someone else.
Truthfully,
Aunt Het.

Dear Aunt Het:

There is a girl whom I admire very much but she is one of the best athletes in our school and is nearly six foot tall.

I can not even make the scrub team, therefore, I am afraid to ask her for a date. I know that I haven't a chance, have I?
Distressed

Dear Distressed:

Quite the contrary, I am sure that you have a chance with this girl. She could be either one of two types: the type who likes to prove that the female is the stronger sex, or perhaps, she is the type that a few sweet words would make as meek as a 5 footer. In either case you could be the man for her.
Aunt Het

Dear Aunt Het:

I have a terrible problem. I'm afraid that I have fallen in love with an ancient hero that I have been reading about in history, and I spend most of my time studying this subject!

What do you advise? Do you think that I am being foolish?
Worried

Dear Worried:

Of course you aren't being foolish, history is very interesting and educational. Besides, environment is supposed to be the cause of all your emotions. Look around and see who else is in this class.

Editorial

Your School Needs Your Support Now

Jo Sondra Magerus

Perhaps you might think that an editorial with the title "Your School Needs Your Support" is out of place.

By support, we mean good, solid backing by both students and adult members of the community. Oh, sure, you go to an occasional ball game and you yell a little if it is any good, but do you really have that heart-warming "school spirit"?

Our school has made great strides in the past few years. You may not realize it, but a good school is a definite asset to our community. All of you who have been here a few years will recall all of the improvements in the school. A new gymnasium has been added, with the old one converted into class rooms and an auditorium. A new addition has been built to the high school; the cafeteria has been improved; new teachers have been added; and many other things too numerous to mention.

Well, the school is better and it's a good one, but it must be supported. There are some families who are there every time the doors are opened for some school happening. These families are the ones who are carrying the big load of the community responsibility.

If you live in the Texico community and do not take part in school affairs, whether it be a ball game or a primary program, you are not backing your school.

Let's have some old-fashioned "School Spirit"! Help your school a little in return for the help it is giving the future citizens of our community!!!

Donal Engram Heads Texico School Band

Donal Engram was elected president when the band met Tuesday. Other officers serving with Donal are: Kennard Harris, vice president; Catherine Bell, librarian; Madge Richardson and Barbara Templeman, historians; and Mrs. Carl Schmitt will act as secretary for the group.

After election of officers, members discussed the election of a band sweetheart. Plans were also begun for a party to be given soon.

King further stated "The class was also sorry to lose Gene Armstrong who moved to Texas for the remainder of the school term."

O. is a graduate of '51 from Texico and is stationed at Lowery Field in Denver. On Saturday night, Pat Doshier became the bride of Bobby Blair.

Three senior girls and two senior boys drive school buses. Friday, the girls, Jane Moss, Koleta Smith and Marha Reid, arrived at school without assistance. However, bus driver Andre Palmateer had to accept a helping hand from Jane Moss before he could deliver his charges to school.

Keith Scott received an injury to his hand during the holidays. Keith was working in a field when a pitch fork was thrust through his hand.

FRIONA INVITES BOYS AND GIRLS TEAMS HERE FOR WEEKEND CAGE TOURNEY

Basketball is on the slate in a big way this weekend, with the local school throwing open the doors in its annual invitational tournament, with Coach Raymond Cook, of the Chieftains, reporting that action gets underway on Thursday night (tonight) at 6 o'clock.

Only seven boys teams are entered in the tourney, which will conclude with the finals on Saturday night, while eight girls' squads will be on hand to compete for honors. A double-elimination bracket has been drawn up, with losers of first-round games going into consolation play.

The Farwell Steers and the Lazbuddy Longhorns will open the weekend of play this afternoon at 6 o'clock, to be followed by the Farwell and Grady girls' teams at 7:15 Thursday night play will wind up with the 8:30 clash between the Friona Chiefs and the Bovina Mustangs.

A three-game series is set for Friday afternoon with the Lazbuddy and Bovina girls first on the court, at 1:30, followed by the Hereford and Vega boys' contest at 2:45. Play will begin between the Vega and Friona girls at 4 o'clock; then at 6:15, the Texico and Adrian girls hit the court.

One of second-round consolation match also comes Friday night, when at 7:30 the loser of the Farwell Lazbuddy, Bovina-Friona boys' games will play. The evening concludes with simifinal girls' play between winners of the Farwell-Grady and Lazbuddy-Bovina contestants.

Six Inch Snow Falls In Friona Territory

A generous five-to-six-inch snow got the 1952 year off to a good start over this area the past week, the fall beginning unannounced Wednesday night and continuing throughout the day on Thursday.

No definite report regarding the amount of moisture could be given locally, but estimates place the melting-out precipitation at from one-half to a full inch, which will prove a boon to wheatlands, blasted recently by high winds.

Roads throughout the area were in fairly bad shape Thursday and Friday, while chains on most farm vehicles continued popular over the first of the week. School buses made their regular hauls Thursday morning but classes were dismissed early and no school held until Monday.

City employees opened up fire hydrants on Main Street, Friday, flushing a good deal of the snow off the street, and also did some clearing work with a small maintainer. Parking on the glazed pavement was still a nuisance over the weekend.

Little drifting was reported during the snow, which was accompanied by a very light north wind, with the result that the snow in most instances stayed where it hit the earth. Freezing weather continued over the weekend, with the thermometer managing to get above the 32 degree mark Friday and Saturday afternoons for brief melting spells, and then plunging down to 10 and under at night as the skies cleared.

Most drunks are not convinced that they will never get anywhere by drinking, until they start home from the same corner about five times.

Classes Resumed, Then Halted By Weather

Classes at the Friona got off to the 1952 start on Wednesday morning of last week, only to be dismissed Thursday afternoon due to weather conditions.

UNSUCCESSFUL HUNT

Frank Spring and Bert Chitwood, local nimrods, report an unsuccessful bird hunt near Clarendon, during the past weekend. The hunters said that few quail were in evidence on the ranch on which they were hunting.

MEETINGS RESUMED

Meetings of Girl Scout troops in Friona have been resumed recently, following a brief break in regular sessions during the holiday season, it is reported by officials. Only routine business is being conducted at the current gatherings.

Von Edelman, ROTC student at the University of New Mexico, has returned to Albuquerque following a holiday visit in the home of his parents.

Local Teacher Is Involved In Wreck

Miss Margie Burnett, local faculty member, with her mother, Mrs. Hal Burnett, and sister, Miss Rachel Ann, was involved in a car accident near Plains, Texas, the past Friday afternoon, as the trio was enroute to Friona.

Miss Burnett, who was driving the vehicle, reported that the car hit a stretch of icy pavement, slid sideways and over turned. She and her sister escaped with bruises, crawling out of the hole where the car's windshield had been, and then pulling Mrs. Burnett out of the overturned vehicle. Mrs. Burnett suffered a broken bone, and received attention at the Morton hospital, with the ladies being taken to Morton by passing motorists.

Mr. Burnett joined the family here during the weekend and returned Mrs. Burnett and Rachel Ann to Alpine, the family home.

Pack Meeting Slated For Local Cub Scouts

A pack meeting of all three dens of the local Cub Scouts has been announced for Friday night of this week to be held at the Congregational Church.

All Cubs will participate in the meeting, officials said.

HOW MUCH SNOW?

Ginning Season Near Completion Locally

Wright Williams, manager of the North Pains Gin Co. here, said on Monday that he estimated the local ginning season would continue—with good weather—for only a few more weeks, as the majority of fields in the territory have been cleared of the 1951 crop.

Snow last weekend caused a halt to activities at the gin, which has been operating on a 24-hour schedule for a couple of months. The fall was sufficient to dampen cotton waiting on the yards, Williams said, "We are beginning operations today Monday."

Up to that time, a total of 3402 bales had been turned out at the local gin, and it was estimated that some 200 bales were on the ground Monday morning, waiting for ginning.

Williams went on to say that in his opinion, only "four or five hundred bales" remained in this area to be cleared through the gin, "and with good weather for a week or ten days, this last portion of the crop should be gathered."

All in all, cotton seems to have paid off for farmers in the Friona territory this year. Taking into consideration both dryland and irrigated fields, the overall average will run around three-quarters of a bale per acre, Williams said, adding that some irrigated fields produced as high as 1 1/4 bales per acre while a few dryland fields dropped down to only one-tenth of a bale. Staple has been good, in most instances, and has commanded the higher prices.

Asked about prospects for 1952, the gin manager was of the opinion that most farmers who had handled cotton this year would be "repeaters," and went on to add that it was quite possible other acreage would be added.

Mrs. Hendrick Has Study For WSCS

First meeting of the New Year for the WSCS of the Methodist Church was held on Tuesday afternoon, at which time Mrs. Horace Kendrick was in charge of the program, presenting an introduction to the new study on "Latin America."

The program was held in the sanctuary, with a good attendance. Mrs. J. H. Boyle is to have the next meeting, on January 22nd, in her home; it is announced.

The stronger sex is usually the weaker sex because of the strength of the weaker sex has over the stronger sex; or is it because of the weakness of the stronger sex for the weaker sex?

Farmers gave a lot of different answers this week when asked how many inches of snow it takes to make an inch of water. Thomas A. Blair is probably the nearest to right when he says that, "In the absence of definite information the ratio of 10 inches of snow to 1 inch of water is frequently used as an average."

He goes on to say that the amount of water in a given volume of snow varies greatly because in very moist snow, 6 inches may make an inch of water, while in flubby, dry snow, it may take 30 inches to make one inch of water. Blair is author of the book "Weather Elements", and in 1942 was senior meteorologist in the U. S. Weather Bureau.

If last week's snow put as much as one half inch of water on Parnier county soil, this is a total of 1.33 inches since November 1. This has moistened the soil 20 to 30 inches deep.

FIVE SANDSTORMS

This district has reported five sandstorms since November 1, with moderate erosion on 3,000 acres. The recent moisture will help prevent dust storms in the long run by boosting growing wheat and legume cover crops. However, we can look for more dust immediately after the ground dries up.

A thin layer of surface soil cracks and becomes flubby after snow has melted and the ground dries. The original stability of the soil is broken down, leaving a powdery substance lying loosely over the surface of the land. This loose, dry, powdery soil is easily swept up by wind.

PRODUCTIVITY DECLINE

A report to the Soil Conservation Service in October 1949 showed that in the Southern High Plains, the decline in soil productivity due to erosion was five times greater than that due to crop removals.

Dr. R. L. Hunt, professor of agricultural Economics at Texas A & M College explained that soil destruction is somewhat like a man caught in his house without fuel but he keeps warm by feeding the lumber in his house piece by piece to the fire. He may keep warm for a while this way, but after a long cold spell he would be without a house.

24th Psalm. "The earth is the Lord's, and the fullness thereof." Someone else said "the right to own land does not give the right to destroy it."

TWO CROPS A YEAR

Here is a slick way to make two crops in one year and at the same time improve your soil.

- (1) In fall, seed wheat by regular methods;
- (2) In early spring overseed wheat, across the drill furrows, to Huban Clover. Inoculate seed;
- (3) In spring or early summer, harvest wheat. The clover at this time will be too small to interfere with the harvest;
- (4) In late summer or fall, harvest clover. Then turn under residue by deep plowing 8 to 10 inches. The deep plowing is important to insure aeration.

The Daily Vacation Bible School closing with its demonstration night was pointed out as a very successful feature of the year.

The pastor's report for the year indicated an increase in membership as being 4 1/2 per cent net; that the average attendance for the 52 worship services of the church was a fraction higher than for any of several recent years of the church's activity.

Church Family Night was shown to be a real feature of the church's program, one being held each month with the largest single attendance being 151. Several movies were shown including: "The Eleventh Hour," "The Second Chance," "And Now I See," and "A Wonderful Life." These were sound movies. Film strips and colored slides were

used at the other family nights, most of these with sound. They included the pictures made and shown by Harold F. Hanlin, Micronesian Island missionary of his work in those islands; "Let's Talk Turkey," "This Is Delmo" put out by the Home Board of the denomination; "Adventure in our Town" and "The Good Book" put out by The American Bible Society. An exhibit of scripture cards was a feature of Universal Bible Sunday as observed by the church. The picnic family night was named as one of the best of all. It was held at the home of Mr. and Mrs. Floyd Schlenker. The annual teachers' reception was the highlight of the family nights.

The out-of-town and out-of-state speakers reported were Harold F. Hanlin; Walter Graham, executive secretary of the Laymen's Movement; Rev. Royal John Gibson, Conference Minister; and "Bob" Cleveland, a student in Chicago Theological Seminary.

According to the pastor, the church was represented at the following: District Ministers' Retreat held at Dallas, Texas by the pastor; Religious Education Work Shop, a National venture, which was held at La Foret, Colorado, by the pastor and Mrs. Meyer and Mr. and Mrs. Otho Whitefield; Laymen and laywomen's National Council, at La Foret, by the pastor; Oklahoma -As association, held at Lawton, Okla., by the pastor and Mrs. Meyer; The Ecclasiastical Council for the ordination of Samuel T. Botkin, held at Lawton, Okla., by the pastor and wife, both of whom had parts in the ordination service.

It was indicated in the report that the church was affiliated with, cooperatively with The World Council of Churches; The National Council of Churches of Christ in the United States; the American Bible Society and The Christian Rural Overseas Program, these all in addition to the various denominational organizations of the Congregational Church.

On a community church level the church was reported as co-operating with the Methodist Church in the observance of Holy Week and with the Methodist and the Baptist churches in the observance of Eastern Sunrise service.

The pastor was the speaker at the Grade School commencement exercises; the community Memorial Day service at the cemetery; had a part in both the high school baccalaureate and graduation exercises and was one of the speakers at the dedication of the car-load of grain sent out of the county by the Christian Rural Overseas Program.

Further community co-operation on the part of the church was named as with the Brownies in the use of the church building; the Cub and

Boy Scouts and the Lions Club on two occasions.

The church as a whole and the several organizations of the church were reported as being in a healthy, thriving and growing condition.

The officers of the church elected as the annual meeting are to be installed at "The-Every-Member-Present" service of the church which is to be held at 11:00 A. M. January the 13th.

Congregational Church Family Night Held

The January Church Family Night of the Congregational Church was held January 6 with a fine attendance. The feed was particularly good. The feature picture, "The Whole Armory," a movie with sound put out by The American Bible Society showing the work of the society with the men of the nation under arms from the beginning of our history as a nation was well received.

The February Church family Night is to be held February 3 and is to be of a different nature. The several organizations of the church will have parts in the program. As an added feature Floyd Reeve is to present a skit on "The Old Timers" and John White is to give "A Few Minutes with My Favorite Poets."
