

The utter mindlessness of bureaucracy is almost too much for mortal man's mind to manage. An outstandingly "brilliant" display of such stupidity was the Department of Health, Education and Welfare's ban on holding Father-Son or Mother-Daughter banquets on public school property, charging sex discrimination. Fortunately President Ford came to the rescue of common sense and ordered the ban rescinded.

Now dashing down the home stretch in a totally blinding flash of mental confusion comes the Occupational, Safety and Health Administration (OSHA) minions making the strongest bid yet for the golden crown of bureaucratic madness. OSHA's proposal is that farm and ranch workers must have a flush toilet facility within five minutes walk of where they work.

Comments about this potential bonanza to the toilet bowl titans is contained in a letter written by John A. Matthews, a rancher, to Ed Wishcamper, the editor of the Abilene (Texas) Reporter News. The letter follows: Dear Ed:

The Occupational Safety and Health Administration, under the United States Department of Labor, is in the process of writing regulations whereby people working on farms and ranches must have toilet facilities within a five minute walk of where they are working.

I feel an average sized person can walk about 1/3 of a mile in five minutes. He might do better if he was in a hurry. This means that on a 30 section ranch, you would have to build 120 flush toilets complete with septic tank and water storage. They will also require proper toilet paper holders and locks on the doors to insure privacy.

Also, I think it would be necessary, on the ranches covered with brush, to erect a tall flag pole at the toilet site so the worker could zero it in on his objective. Otherwise, he might get lost and you could be fined for noncompliance.

Beyond the fact that all of this will cost one big pot of money - no pun intended - I am worried about some other aspects. It seems to me that this is going to discriminate against short-legged people who can't walk a third of a mile in five minutes. Will the foreman have to work the short-legged man one minute closer to the toilet, or will it be necessary to have a walking demonstration before you hire a new worker so you can gauge just how far from the toilet he

can work?

I can see further complications in that sometime some of the crew may drink some gyp water and come up with a case of the "Green Apple Two-Step". Then you would have to work them only a one or two minute walk from the toilet or be in danger of noncompliance if you had them three minutes away and they didn't make it. This is going to take some careful planning before you start a crew to work every morning. You will have to ask each one just what shape his innards are in before assigning jobs for the day, and you may

can work in a group. I thought at first that a person might get around the whole idea by designing a "Handy Dandy Quick Relief Portable Toilet" that each man could carry, but that wouldn't work since OSHA's whole idea is to have the men use flush toilets - even the ones that

ever have a day when they

ill all be five minute men and

don't know how to use them. OSHA stands for safety and health. I am unable to see where making it mandatory to have millions of toilets scattered over the range is going to increase safety, so they must be aiming at the health aspect. When they get all these cowboys and farmhands "potty-trained", which will be no small undertaking, I guess they will start on my cows. Did you ever try to train a cow to walk anywhere to go to the

bathroom? Any help you can give us on the above will be appreciated. If we don't get this stopped, I suggest going to the nearest stockbroker and buying a large chunk of toilet stock.

New Dentist Arrives

Tuesday of this week was a big day for Farwell. Dr. Lee Clayton and his wife Barbie arrived in the city and are busy unpacking and getting ready to open his dental practice in the near future. Dr. Clayton's office will be open on Monday, July 19, only for the making of future appointments. Most of the dental equipment has arrived and the rest was expected to be delivered this week. Dr. Clayton is a recent graduate of Baylor School of Dentistry.

Katie Harmon Observes 90th Birthday At Party

In the observance of Mrs. Katie Harmon's 90th birthday, a reception was held recently in the home of her niece and husband, Mr. and Mrs. Lowrey Winkles of Clovis. About 40 friends and relatives called to wish Mrs. Harmon a "happy birthday.'

Kim Lovett and Kenda Hager, great-great nieces of the honoree, served from the table which was covered with a lace cloth that had been hand crocheted by the late Mrs. Edd Lovett, sister-in-law of Mrs. Harmon. Cris Bombarger, great-great nephew, attended the birthday card which was signed by all of those present.

The cake was decorated with yellow roses and spring flowers. Pink punch was served from a crystal punch bowl.

Katie Lovett was born July 12, 1886, in Harrison, Ark. She moved to Tulsa, Okla., where she spent part of her childhood days. In 1907 she and her family moved to the Hollene community. She married Marvin Harmon in 1916. They lived on a farm in that community until Harmon retired

Don Hicks, Hereford, Texas, reports that he increased his 1972 wheat crop vield by 31.5 bu. per acre with MEDINA.

A four year test on cotton by Dr. E.D. Cook at Texas A&M Blackland Experiment Station, Temple, Texas, showes an average increase of 116 lbs. of lint cotton per acre per year with MEDINA.

Gordon Taylor, Sunray, Texas, reports that he harvested as much as 2,000 pounds more grain sorghum per acre where he used MEDINA. Jess Rink, Bristol, Colorado, said "MEDINA increased my corn crop yield by

15%. It also loosened my soil so water penetrated more than 5 feet where MEDINA was used. On the untreated soil, the water penetrated only 15 inches." Hudson Land and Cattle Co., in Arizona, reports on their alfalfa yields in 1974. They report 5 cuttings from the no MEDINA area - 9 cuttings from the MEDINA area. MEDINA boosted hay yields well over 2 tons per acre over no MEDINA. [Copy of full seasons records available on request.]

Dr. T.A. Alhashimi of Stephen F. Austin State University, Nacagdoches, Texas, reports that MEDINA increased the yield of 10 different vegetables in 1975 test by an average of 75.8% - cucumbers - 104%, squash - 95%, okra - 91%, tomatoes - 55%, Bell peppers - 47% and beans - 52%.

James Hightower, Sadler, Texas, a peanut grower, reports that MEDINA re-

Take Trip To Washington

Mrs. Bob Anson and son Tommy of Farwell returned home July 4 from a two-week trip to Oakville, Wash., where they visited with her brother and sister-in-law, Mr. and Mrs. Ray King and family.

Accompanying them were her parents, Mr. and Mrs. A.R. King of Clovis and joining the group was her brother, James King from Alaska.

While in Washington, they visited the Space Needle in Seattle, the state capitol building in Olympia and the beach. On the return trip, they stopped in Laverne, Calif., to visit an aunt, Lou Dacus. Mrs. Anson reported that they "saw some pretty country" along the way as they made the trip by auto and could sight-see during

MRS. ANTHONY EDWARD IGO

Barbara Defoor Weds Bruce J. Kaltwasser

Barbara Diane Defoor became the bride of Bruce John Kaltwasser during an evening ceremony June 15 at St. John's Lutheran Church in Lariat. Rev. Herman J. Schleter performed the double ring ceremony

The bride is the daughter of Mr. and Mrs. Cecil Defoor of Farwell. The bridegroom is the son of Mr. and Mrs. Gilbert Kaltwasser, also of Farwell.

The couple exchanged vows before an altar setting consisting of two arrangements of white gladiolis and yellow carnations. Two candelabra holding white candles were placed on each side of the kneeling bench. Each candelabrum was accented with a bouquet of white daisies and yellow carnations. A large white memory candle completed the altar decorations.

Karen Herington, pianist, provided the wedding music. Soloist Lynn Blankenship sang "Wedding Song" and "Twelfth of Never.

Given in marriage by her father, the bride wore a white Victorian gown, featuring a molded boudice appliqued with lace flowerets. The Florentine neckline was etched with garlands of guipure lace flowerets surrounding the sheer silk organza yoke topped with a white wedding band neckline guipure lace.

organza, accented with appliqued guipure lace blossoms and venise lace flowerets, fell from the crescent waistline. A large petal shape was outlined on the back of the skirt bustle. Flowerets were scattered in the center and guipure lace edging enriched the petal shape. Garlands of venise and guipure lace encircled the entire hemline.

WMU Has Meet

The reception followed at the fellowship hall of the church. The bride's table was covered with a yellow cloth and overlay of white sheer trimmed with lace. A bouquet of white carnations and yellow daisies centered the table. The threetiered wedding cake, made by Mrs. Ray Barnes of Clovis, was decorated with yellow daisies. White columns divided the layers. Wedding bells were placed on the bottom tier and a miniature bride and bridegroom rested on the second layer and two doves decorated the top of the cake. Yellow

Silver and crystal appointments were used. Serving at the table were Beverly Roberts, Carol Sue Rhodes, Karen London, all of Farwell, and Ruth Carouthers of Texico.

The bridegroom's table was covered with a green cloth with white cross stitching. Centering the table was a bouquet of white daisies. Chocolate cake with butter cream frosting was served by Alta and Nancy Ramm. Coffee was served from a silver coffee service by Mrs. Dave Lynn, cousin of the bridegroom.

A FREE GIFT FOR YOU

It seems that everything is going up in cost these days. Nothing comes down, everything goes UP...UP...UP. Wages too are going up, but not as fast as the cost of living, for our dollars are decreasing in value all the time.

CHICAGO, ILLINOIS 60635

We should thank God, though, that there is one thing that has never gone up in price - the salvation of our souls. No price was ever put on this and none ever will be, for several good reasons:

1) Because God is not impov-

erished, that He needs our money.

2) Because if salvation could be bought, the rich would have an advantage over the poor. 3) Salvation was fully paid for by God the Son on Calvary's cross, and to charge one penny for it now

would be to cast reflections on His finished work. Even in Old Testament times God made it clear that sacrifices and good works could not buy His favor. In Isaiah 55:1-3, the prophet cried: "Ho, every one that thirsteth, come ye to the waters, and he that

hath no money; come ye, buy and

eat; yea, come, buy wine and milk WITHOUT MONEY AND WITH-OUT PRICE. Wherefore do ye spend money for that which is not bread, and your labour for that which sat isfieth not? Hearken diligently unto Me, and eat ye that which is good, and let your soul delight itself in fatness. Incline your ear, and come unto me: HEAR, AND YOUR SOUL SHALL LIVE..."

Years later, after "THE GOSPEL OF THE GRACE OF GOD" had been committed to Paul, he declared

GOD'S GRACE, THROUGH THE REDEMPTION THAT IS IN CHRIST JESUS" (Rom. 3:24). "FOR THE WAGES OF SIN IS DEATH, BUT THE (FREE) GIFT OF GOD IS ETERNAL LIFE, THROUGH JESUS CHRIST OUR LORD" (Rom. 6:23). "IN WHOM WE HAVE REDEMPTION, THROUGH HIS BLOOD, THE

Whenever this resource is plentiful, production increases, technology con tinues to improve and consumers benefit by having more and better food and fiber. When incentive is reduced, production lags fewer risks are taken and scarcity could easily become a threat. There has almost always been a good supply of incentive for the American agricultural producer. Hopefully all of us will do our part to make sure this most important of resources continues to be abundantly available.

government with others. Bluebonnet Girls State was held June 8-18 in Seguin. I learned more in those ten days than I have ever learned about government in my entire lifetime. I learned through participating.

The day I arrived I was assigned to the Federalist party, the House of Represent-atives, and to city "C" where I became a Centennial City Colonel. Action began at 7 p.m. with party meetings, both Federalist and Nationalist. These spirit rallies were always filled with chanting,

party songs.

The next day we elected the precinct and county chairman of our party. We also discussed the platform our party should have. That night, state party officials were elected and house and senate floor leaders were announced.

The next four days were spent in intensive learning. We learned about city, county, and state governments and their officials. We studied the Texas judiciary system and organ-ized the house and senate. With what time was available we filed for offices, made campaign materials, and tried to convince everyone we were best for the job in our campaign speeches.

On Saturday we held primary elections and on Sunday the general elections were held. While waiting for the returns we were entertained by counselors, staff, and many

very talented citizens. The second week we spent a lot of time carrying out the duties of our respective offices I was city tax assessor and collector so I enjoyed depriving everyone of their soft drinks money, and thusly was

Another interesting learning situation was the participation in mock trial sessions. These were held in municipal, county, and Supreme courts. I participated in a district court.

The most exciting and awing sessions were those of the legislature. In our sessions, we abided by all laws of the Texas Constitution and the rules or codes of the respective houses. We wrote all our own bills and resolutions and carried them through all the legislative procedures, from first reading through final passage by the
